2. BASIS OF PREPARATION AND CHANGES IN THE ACCOUNTING POLICIES OF THE GROUP

2.1 Basis of preparation

The unaudited interim condensed consolidated financial statements for the six months ended 30 June 2015 have been prepared in accordance with the International Accounting Standard (the "**IAS**") 34 issued by the International Accounting Standard Board and the disclosure requirements of the Rules Governing the Listing of Securities on the Hong Kong Stock Exchange (the "**Listing Rules**").

The unaudited interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's audited financial statements as at 31 December 2014.

The interim condensed consolidated financial statements are presented in Renminbi ("**RMB**") and all values are rounded to the nearest thousand, except when otherwise indicated.

2. BASIS OF PREPARATION AND CHANGES IN THE ACCOUNTING POLICIES OF THE GROUP *(Continued)*

2.2 Impact of new and amended International Financial Reporting Standards ("IFRSs")

The accounting policies adopted in the preparation of the unaudited interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2014, except for the adoption of the new standards and interpretation effective as of 1 January 2015. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

The nature and the effect of these changes are disclosed below. Although these new standards and amendments apply for the first time in 2015, they do not have a material impact on the annual consolidated financial statements of the Group or the interim condensed consolidated financial statements of the Group. The nature and the impact of each new standard or amendment are described below:

Amendments to IAS 19 Defined Benefit Plans: Employee Contributions

IAS 19 requires an entity to consider contributions from employees or third parties when accounting for defined benefit plans. Where the contributions are linked to service, they should be attributed to periods of service as a negative benefit. These amendments clarify that, if the amount of the contributions is independent of the number of years of service, an entity is permitted to recognise such contributions as a reduction in the service cost in the period in which the service is rendered, instead of allocating the contributions to the periods of service. The amendments are effective for annual periods beginning on or after 1 July 2014. The amendments are not relevant to the Group, since none of the entities within the Group has defined benefit plans with contributions from employees or third parties.

NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS ***(Continued)***

2. BASIS OF PREPARATION AND CHANGES IN THE ACCOUNTING POLICIES OF THE GROUP *(Continued)*

2.2 Impact of new and amended International Financial Reporting Standards (Continued)

Annual Improvements 2010-2012 Cycle

These improvements are effective from 1 July 2014 and the Group has applied these amendments for the first time in these interim condensed consolidated financial statements. They include:

IFRS 2 Share-based Payment

This improvement is applied prospectively and clarifies various issues relating to the definitions of performance and service conditions which are vesting conditions, including:

- A performance condition must contain a service condition
- A performance target must be met while the counterparty is rendering service
- A performance target may relate to the operations or activities of an entity, or to those of another entity in the same group
- A performance condition may be a market or non-market condition
- If the counterparty, regardless of the reason, ceases to provide service during the vesting period, the service condition is not satisfied

The above definitions are consistent with how the Group has identified any performance and service conditions which are vesting conditions in the current interim period, and thus this amendment has had no impact on the Group's accounting policies.

2. BASIS OF PREPARATION AND CHANGES IN THE ACCOUNTING POLICIES OF THE GROUP *(Continued)*

2.2 Impact of new and amended International Financial Reporting Standards (Continued)

IFRS 3 Business Combinations

The amendment is applied prospectively and clarifies that all contingent consideration arrangements classified as liabilities (or assets) arising from a business combination should be subsequently measured at fair value through profit or loss whether or not they fall within the scope of IFRS 9 (or IAS 39, as applicable). This is consistent with the Group's current accounting policy, and thus this amendment has had no impact on the Group's accounting policies.

IFRS 8 Operating Segments

The amendments are applied retrospectively and clarify that:

- an entity must disclose the judgments made by management in applying the aggregation criteria in paragraph 12 of IFRS 8, including a brief description of operating segments that have been aggregated and the economic characteristics (e.g., sales and gross margins) used to assess whether the segments are 'similar'

- the reconciliation of segment assets to total assets is only required to be disclosed if the reconciliation is reported to the chief operating decision maker, similar to the required disclosure for segment liabilities.

The Group's operating activities are attributable to a single operating segment. These amendments have had no impact on the consolidated financial statements of the Group.

IAS 16 Property, Plant and Equipment and IAS 38 Intangible Assets

The amendment is applied retrospectively and clarifies in IAS 16 and IAS 38 that the asset may be revalued by reference to observable data by either adjusting the gross carrying amount of the asset to market value or by determining the market value of the carrying value and adjusting the gross carrying amount proportionately so that the resulting carrying amount equals the market value. In addition, the accumulated depreciation or amortisation is the difference between the gross and carrying amounts of the asset. The Group did not record any revaluation adjustments during the current interim period.

NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS *(Continued)*

2. BASIS OF PREPARATION AND CHANGES IN THE ACCOUNTING POLICIES OF THE GROUP *(Continued)*

2.2 Impact of new and amended International Financial Reporting Standards (Continued)

IAS 24 Related Party Disclosures

The amendment is applied retrospectively and clarifies that a management entity (an entity that provides key management personnel services) is a related party subject to the related party disclosures. In addition, an entity that uses a management entity is required to disclose the expenses incurred for management services. This amendment is not relevant for the Group as it does not receive any management services from other entities.

Annual Improvements 2011-2013 Cycle

These improvements are effective from 1 July 2014 and the Group has applied these amendments for the first time in these interim condensed consolidated financial statements. They include:

IFRS 3 Business Combinations

The amendment is applied prospectively and clarifies for the scope exceptions within IFRS 3 that:

- joint arrangements, not just joint ventures, are outside the scope of IFRS 3

- this scope exception applies only to the accounting in the financial statements of the joint arrangement itself

The Group is not a joint arrangement, and thus this amendment is not relevant for the Group and its subsidiaries.

IFRS 13 Fair Value Measurement

The amendment is applied prospectively and clarifies that the portfolio exception in IFRS 13 can be applied not only to financial assets and financial liabilities, but also to other contracts within the scope of IFRS 9 (or IAS 39, as applicable). The Group does not apply the portfolio exception in IFRS 13.

2. BASIS OF PREPARATION AND CHANGES IN THE ACCOUNTING POLICIES OF THE GROUP *(Continued)*

2.2 Impact of new and amended International Financial Reporting Standards (Continued)

IAS 40 Investment Property

The description of ancillary services in IAS 40 differentiates between investment property and owner-occupied property (i.e., property, plant and equipment). The amendment is applied prospectively and clarifies that IFRS 3, and not the description of ancillary services in IAS 40, is used to determine if the transaction is the purchase of an asset or a business combination. This is consistent with the Group's current accounting policy, and thus this amendment has had no impact on the Group's accounting policies.

2.3 Issued but not yet effective IFRSs

The Group has not applied the following new and revised IFRSs that have been issued but are not yet effective, in the financial statements.

IFRS 9	*Financial Instruments*[3]
Amendments to IFRS 10, IFRS 12 and IAS 28	*Investment Entities: Applying the Consolidation Exception*[1]
Amendments to IFRS 10 and IAS 28	*Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*[1]
Amendments to IFRS 11	*Accounting for Acquisitions of Interests in Joint Operations*[1]
IFRS 14	*Regulatory Deferral Accounts*[4]
IFRS 15	*Revenue from Contracts with Customers*[2]
Amendments to IAS 1	*Disclosure Initiative*[1]
Amendments to IAS 16 and IAS 38	*Clarification of Acceptable Methods of Depreciation and Amortisation*[1]
Amendments to IAS 16 and IAS 41	*Agriculture: Bearer Plants*[1]
Amendments to IAS 27	*Equity Method in Separate Financial Statements*[1]
Annual Improvements 2012-2014 Cycle	*Amendments to a number of IFRSs*[1]

1. Effective for annual periods beginning on or after 1 January 2016
2. Effective for annual periods beginning on or after 1 January 2017
3. Effective for annual periods beginning on or after 1 January 2018
4. Effective for an entity that first adopts IFRSs for its annual financial statements beginning on or after 1 January 2016 and therefore is not applicable to the Group

2. BASIS OF PREPARATION AND CHANGES IN THE ACCOUNTING POLICIES OF THE GROUP *(Continued)*

2.3 Issued but not yet effective IFRSs (Continued)

The Group is in the process of making an assessment of the impact of these new and revised IFRSs upon initial application. So far, the Group considers that these new and revised IFRSs are unlikely to have a significant impact on the Group's results and financial position.

2.4 Significant accounting policies

Except as described below, the accounting policies applied are consistent with those of the annual financial statements for the year ended 31 December 2014.

Share-based payment

The Company operates an employee trust benefit scheme (the "**Scheme**" or "**Employee Trust Benefit Scheme**") for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Employees (including Directors) of the Group receive remuneration in the form of share-based payment, whereby employees render services as consideration for equity instruments ("**equity-settled transactions**").

The cost of equity-settled transactions with employees is measured by reference to the fair value at the date at which they are granted. The fair value is determined using the Black-Scholes Model and the Monte Carlo method, further details of which are given in note 8 to the financial statements.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefit expense. The cumulative expense recognised for equity-settled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the statement of profit or loss for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

2. BASIS OF PREPARATION AND CHANGES IN THE ACCOUNTING POLICIES OF THE GROUP *(Continued)*

2.4 Significant accounting policies (Continued)

Share-based payment (Continued)

No expense is recognised for awards that do not ultimately vest, except for equity-settled transactions where vesting is conditional upon a market or non-vesting condition, which are treated as vesting irrespective of whether or not the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payment, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. This includes any award where non-vesting conditions within the control of either the Group or the employee are not met. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect of treasury shares acquired for the Scheme is reflected as additional share dilution in the computation of earnings per share.

3. REVENUE, OTHER INCOME AND GAINS

Revenue, represents the net invoiced value of software sold, after allowance for returns and trade discounts, and excludes sales taxes; it also includes the value of services rendered during the period:

Pursuant to the relevant laws and regulations in the PRC, the statutory enterprise income tax rate of 25% is applied to the Company and its subsidiaries established in the PRC for the six months ended 30 June 2014 and 2015.

The Company was recognised as a key software enterprise in the state planning for the years 2013 and 2014, so the Company enjoyed a 10% income tax rate for the six months ended 30 June 2014. The Company has not started to apply for key software enterprise in the state planning as of 30 June 2015 and there is no assurance that the Company will be recognised as a key software enterprise.

The Company, as a qualified high and new technology enterprise, was subject to income tax at the rate of 15% during the six months ended 30 June 2015.

The Company, as a high and new technology enterprise, was also entitled to deduct qualified research and development expense from taxable profit during the six months ended 30 June 2014 and 2015.

The subsidiary incorporated in Hong Kong is subject to profits tax at the rate of 16.5% during the six months ended 30 June 2014 and 2015. No provision for Hong Kong profits tax has been made as the Group did not have any assessable profit arising in Hong Kong during the six months ended 30 June 2014 and 2015.

The subsidiary incorporated in USA is subject to income tax at the rate of 23.84% during the six months ended 30 June 2014 and 2015.

6. DIVIDENDS

The Board does not recommend the distribution of an interim dividend for the six months ended 30 June 2015 (six months ended 30 June 2014: Nil).

The proposed final dividend for the year ended 31 December 2014 was approved by the Company's shareholders during the 2014 annual general meeting of shareholders.

The proposed final dividend for the year ended 31 December 2014 is based on the total number of ordinary shares of 217,181,666.

7. EARNINGS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE PARENT

The calculation of the basic earnings per share amounts is based on the profit for the period attributable to ordinary equity holders of the parent, and the weighted average number of ordinary shares of 163,709,444 during the six months ended 30 June 2014 and the weighted average number of ordinary shares of 217,181,666 during the six months ended 30 June 2015 in issue respectively, as adjusted to reflect the new shares issued during the six months ended 30 June 2014 and 2015.

The calculation of diluted earnings per share amounts is based on the profit for the period attributable to ordinary equity holders of the parent, and the weighted average number of ordinary shares used in the calculation is the number of ordinary shares in issue during the period, as used in the basic earnings per share calculation, and the weighted average number of ordinary shares assumed to have been issued at no consideration on the deemed exercise of all dilutive potential ordinary shares into ordinary shares.

The Group had no potentially dilutive ordinary shares in issue during the six months ended 30 June 2014 and 2015.

7. EARNINGS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE PARENT *(Continued)*

The calculation of basic earnings per share is based on:

	For the six months ended 30 June	
	2015	2014
	(Unaudited)	(Unaudited)
Earnings		
Profit attributable to ordinary equity holders of the parent used in the basic earnings per share calculation *(RMB'000)*	**54,480**	72,745
Shares		
Weighted average number of ordinary shares in issue during the period used in the calculation of basic earnings per share	**217,181,666**	163,709,444

8. SHARE-BASED PAYMENT

The Company operates an employee trust benefit scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Eligible participants of the Scheme (including certain Directors and supervisors of the Company (the "**Supervisors**")) shall be employees of the Company and its subsidiaries including mid-level and senior management, experts and core personnel who are essential for realizing the strategic goal of the Company. The Scheme became effective on 8 June 2015 and, unless otherwise cancelled or amended, will remain in force for 6 years from that date.

The Company engaged or through its subsidiaries engaged three separate qualified agents which are independent from each other to act as the trustees under the Scheme to set up three trusts, a connected trust that holds domestic shares of the Company (the "**Domestic Shares**") only for the benefit of the Scheme participants who are connected persons of the Company and two non-connected trusts (one for mainland China Scheme participants and one for overseas Scheme participants) that hold Domestic Shares and/or H Shares for the benefit of the Scheme participants who are not connected persons of the Company.

8. SHARE-BASED PAYMENT *(Continued)*

The trust fund paid by the Company or through its subsidiaries to each trustee for setting up the connected trust and non-connected trust comes from the internal funds as well as its initial public offering proceeds that can be used in this regard.

The total number of the target shares to be purchased by the trustees under the Scheme shall be 10% of the total share capital of the Company in issue as at the date of approval of the Scheme at the 2014 annual general meeting (the "**AGM**"), being 21,718,166 shares out of 217,181,666 shares. Trust benefit units subject to the effective conditions will be granted to the Scheme Participant through initial grant, subsequent grant(s) and re-grant(s). Initial grant and subsequent grant(s) shall be completed by 31 December 2016 and re-grant(s) shall be completed within two years from the date of approval of the Scheme at the AGM.

During the term of the Scheme, the total number of the target shares will be subject to adjustment in accordance with the adjustment mechanisms stated in the rules of Scheme following capitalizing the common reserves, bonus issues, share sub-divisions, share consolidation, etc. In the event of rights issue, the Board will be authorised by the general meeting to decide whether actions shall be taken by the Company to adjust the total number of target shares under the Scheme to 10% of the enlarged total share capital of the Company so that the ratio of target shares in the total share capital of the Company under the Scheme remains unchanged.

For each grant, there are three unlocking dates, being the expiry dates of the first anniversary, second anniversary and third anniversary of the grant date, subject to the unlocking conditions and upon expiry of which, 30%, 30% and 40% of the trust benefit units granted to each Scheme participant shall be unlocked. The lock-up period is from the grant date to each of the aforesaid unlocking dates, during which the disposal of the trust benefit units is prohibited.

The exercise period for the Scheme participants excluding Directors, Supervisors and senior management of the Company is within one year after the unlocking date, during which they have the right to apply for exercising their trust benefit units. The Scheme participants who are Directors, Supervisors and senior management of the Company can apply for exercising the trust benefit units from the unlocking date to the date of liquidation of the trusts as prescribed in the trust deeds between the Company and the trustees.

8. SHARE-BASED PAYMENT *(Continued)*

On 16 June 2015, the Board approved the initial grant of trust benefit units subject to effective conditions to 182 Scheme participants, including one Director, two Supervisors, mid-level and senior management, experts and core personnel of the Group, at nil consideration under the Scheme. The total number of the target shares under the initial grant is 17,370,000, representing approximately 8% of the issued share capital of the Company as at 16 June 2015. The trustees will purchase 17,370,000 target shares under the initial grant from domestic shareholders or on the secondary market.

The Scheme participants are entitled to the dividends attached to the target shares.

The fair value at the grant date is estimated using the Black-Scholes Model and the Monte Carlo method, taking into account the terms and conditions upon which the shares were granted. The fair value of shares granted during the six months ended 30 June 2015 was estimated on the date of grant using the following assumptions:

Expected dividend yield	0.00%
Expected volatility	51.50%-63.20%
Risk-free interest rate	0.157%-1.815%
Expected life *(years)*	1-10
Weighted average share price *(RMB per share)*	24.60

The fair value of the shares granted at the grant date was RMB427,285,000. For the six months ended 30 June 2015, the Group has recognized a share-based payment expense of approximately RMB10,385,000 in profit or loss.

MANAGEMENT DISCUSSION AND ANALYSIS

Business Review

Development trend of the industry

In terms of policy environment, the State Council of the PRC intended to promote "Internet Plus" action to help to reduce the taxation imposed upon and alleviate the burden of the micro and small scale enterprises (the "**MSEs**"), and to facilitate pioneering work and innovation. The favorable policy environment not only rendered development opportunities to the MSEs in the PRC but also brought about more opportunities to the software and information technology service industry for its development.

In terms of technology environment, at the era of "Internet Plus", informatization of enterprises entered into a new phrase. More MSEs will be based on informatization and will make use of cloud computing, big data, mobile internet and other new technologies to solve the problems restraining the development of MSEs and to realize upgrading transformation.

According to the statistical data of the State Administration for Industry and Commerce (國家工商行政管理總局), in the first half of 2015, there were 6,851 thousand newly registered market entities nationwide, representing an increase of 15.4% over the same period of last year, 2,001 thousand of which were newly registered enterprises, representing an increase of 19.4%, and 4,728 thousand of which were newly registered privately or individually-owned businesses, representing an increase of 15.9%.
