*Notes:*

## **1. CHANGE OF FINANCIAL YEAR END DATE**

On 5 November 2015, the Company announced to change its financial year end date from 30 September to 31 December so as to unify the financial year end date of the Company and its principal operating subsidiary which is incorporated in the People's Republic of China (the "PRC"). As a result of this, the final results covered a period of fifteen months ended 31 December 2015.

## **2. BASIS OF CONSOLIDATION**

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries (together referred to as "the Group") made up to 31 December each year.

Subsidiaries are investees over which the Company is able to exercise control.

The results of subsidiaries acquired or disposed of during the period are included in the statement of profit or loss from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with those used by other members of the Group.

All intra-group transactions, balances, income and expenses are eliminated on consolidation.

For business combinations, the acquisition of businesses are accounted for using the acquisition method. The cost of an acquisition is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition related costs are recognised in the consolidated statement of profit or loss as incurred unless they are incurred in issuing equity instruments in which case the costs are deducted from equity.

At the acquisition date, the acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under HKFRS 3 (Revised) are recognised at their fair values, except that: deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with HKAS 12 Income Taxes and HKAS 19 Employee Benefits respectively; liabilities or equity instruments related to the replacement by the Group of an acquiree's share-based payment awards are measured in accordance with HKFRS 2 Share-based Payments; and assets (or disposal groups) that are classified as held for sale in accordance with HKFRS 5 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that Standard. Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the Group's interest in the fair value of the acquiree's identifiable net assets exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's

previously held interest in the acquiree (if any) the excess is recognised immediately in profit or loss as a bargain purchase gain. Non-controlling interests that represent present ownership interests may be initially measured either at fair value or at the non-controlling interests' proportionate share of the fair value of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. All other non-controlling interests are measured at fair value unless another measurement basis is required by Hong Kong Financial Reporting Standards ("HKFRSs").

### 3. ADOPTION OF HONG KONG FINANCIAL REPORTING STANDARDS

#### (a) Adoption of new / revised HKFRSs — effective 1 October 2014

|                     |                                     |
|---------------------|-------------------------------------|
| HKFRSs (Amendments) | Annual Improvements 2010-2012 Cycle |
| HKFRSs (Amendments) | Annual Improvements 2011-2013 Cycle |

As explained below, the adoption of these amendments has no material impact on the Group's financial statements.

#### *Annual Improvements 2010-2012 Cycle and 2011-2013 Cycle*

The amendments issued under the annual improvements process make small, non-urgent changes to a number of standards where they are currently unclear. They include amendments to HKAS 16 Property, Plant and Equipment to clarify how the gross carrying amount and accumulated depreciation are treated where an entity uses the revaluation model. The carrying amount of the asset is restated to revalued amount. The accumulated depreciation may be eliminated against the gross carrying amount of the asset. Alternatively, the gross carrying amount may be adjusted in a manner consistent with the revaluation of the carrying amount of the asset and the accumulated depreciation is adjusted to equal the difference between the gross carrying amount and the carrying amount after taking into account accumulated impairment losses.

The adoption of the amendments to HKAS 16 has no impact on these financial statements as the Group does not use revaluation model for its property, plant and equipment.

#### (b) New / revised HKFRSs that have been issued but are not yet effective

The following new / revised HKFRSs, potentially relevant to the Group's financial statements, have been issued, but are not yet effective and have not been early adopted by the Group.

- <sup>1</sup> Effective for annual periods beginning on or after 1 January 2016
- <sup>2</sup> Effective for annual periods beginning on or after 1 January 2018
- <sup>3</sup> Effective date is deferred

### **Amendments to HKAS 1 - Disclosure Initiative**

The amendments are designed to encourage entities to use judgement in the application of HKAS 1 when considering the layout and content of their financial statements.

An entity's share of other comprehensive income from equity accounted interests in associates and joint ventures will be split between those items that will and will not be reclassified to profit or loss, and presented in aggregate as a single line item within those two groups.

### **HKFRS 9 (2014) - Financial Instruments**

HKFRS 9 introduces new requirements for the classification and measurement of financial assets. Debt instruments that are held within a business model whose objective is to hold assets in order to collect contractual cash flows (the business model test) and that have contractual terms that give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding (the contractual cash flow characteristics test) are generally measured at amortised cost. Debt instruments that meet the contractual cash flow characteristics test are measured at fair value through other comprehensive income ("FVTOCI") if the objective of the entity's business model is both to hold and collect the contractual cash flows and to sell the financial assets. Entities may make an irrevocable election at initial recognition to measure equity instruments that are not held for trading at FVTOCI. All other debt and equity instruments are measured at fair value through profit and loss ("FVTPL").

HKFRS 9 includes a new expected loss impairment model for all financial assets not measured at FVTPL replacing the incurred loss model in HKAS 39 and new general hedge accounting requirements to allow entities to better reflect their risk management activities in financial statements.

HKFRS 9 carries forward the recognition, classification and measurement requirements for financial liabilities from HKAS 39, except for financial liabilities designated at FVTPL, where the amount of change in fair value attributable to change in credit risk of the liability is recognised in other comprehensive income unless that would create or enlarge an accounting mismatch. In addition, HKFRS 9 retains the requirements in HKAS 39 for derecognition of financial assets and financial liabilities.

### **Amendments to HKFRS 10 and HKAS 28 - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture**

The amendments clarify the extent of gains or losses to be recognised when an entity sells or contributes assets to its associate or joint venture. When the transaction involves a business the gain or loss is recognised in full, conversely when the transaction involves assets that do not constitute a business the gain or loss is recognised only to the extent of

the unrelated investors' interests in the joint venture or associate.

### **HKFRS 15 - Revenue from Contracts with Customers**

The new standard establishes a single revenue recognition framework. The core principle of the framework is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. HKFRS 15 supersedes existing revenue recognition guidance including HKAS 18 Revenue, HKAS 11 Construction Contracts and related interpretations.

HKFRS 15 requires the application of a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to each performance obligation
- Step 5: Recognise revenue when each performance obligation is satisfied

HKFRS 15 includes specific guidance on particular revenue related topics that may change the current approach taken under HKFRS. The standard also significantly enhances the qualitative and quantitative disclosures related to revenue.

The Group is in the process of making an assessment of the potential impact of these new/revised HKFRSs and the Directors are not yet in a position to quantify the effects on the Group's financial statements.

#### **(c) New Companies Ordinance provisions relating to the preparation of financial statements**

The provisions of the new Companies Ordinance, Cap. 622, in relation to the preparation of financial statements apply to the Company in this financial year.

The directors consider that there is no impact on the Group's financial position or performance, however the new Companies Ordinance, Cap. 622, impacts on the presentation and disclosures in the consolidated financial statements. For example, the statement of financial position of the Company is now presented in the notes to the financial statements rather than as a primary statement and related notes to the statement of financial position of the Company are generally no longer presented.

## **4. REVENUE AND SEGMENT INFORMATION**

The Group's segment information is based on regular internal financial information reported to the Company's executive director and management for their decisions about resources allocation to the Group's business components and their review of these components' performance.

Up until 30 May 2014, the Group's principal segments for internal reporting purposes were: the contract manufacturing, on OEM and EMS bases, of a wide range of power-related and

electrical/electronic products (“Contract Manufacturing”); the manufacture, procurement and distribution of a broad line of hand, lawn and garden tools (“Tools”); the procurement and assembly of magnetic tools and products including the provision of magnetic-based industrial solutions (“Magnetic Technologies”); the manufacture, assembly and procurement of metrology and measurement tools (“Precision Measurement”); and the manufacture of electronic consumer products (“Consumer Electronics”). On 30 May 2014, the Company sold its entire shareholdings in Pantene Global Holdings Limited (“PGH”) and Pantronics Holdings Limited (“PHL”). PGH was the holding company of the Tools, Magnetic Technologies and Precision Measurement segments while PHL was the holding company of the Contract Manufacturing segment.

At the reporting date, there is one remaining business segment, Consumer Electronics, upon which the Group reports its primary segment information.

Revenue represents the total invoiced value of goods supplied less discounts and returns.

*Note:*

- (i) This is related to the share options exercised under the Company's share option scheme during the fifteen months ended 31 December 2015 and year ended 30 September 2014.
- (ii) Diluted losses per share for the fifteen months ended 31 December 2015 is the same as basic losses per share as there is no potential dilutive shares outstanding at the end of reporting period.

**(b) From continuing operations**

The calculation of the basic and diluted losses per share for the fifteen months ended 31 December 2015 is based on the loss from continuing operations of HK\$8,926,000 and the weighted average number of ordinary shares, for basic and diluted losses per share of 1,183,812,600. The calculation of the basic and diluted earnings per share for the year ended 30 September 2014 is based on the profit from continuing operations of HK\$49,911,000 and HK\$50,285,000 respectively, and the weighted average number of ordinary shares for basic and diluted earnings per share of 1,065,202,417 and 1,093,467,562 respectively.

The calculation of adjusted (loss)/profit for diluted (losses)/earnings per share purpose is as follows:

## 12. INTEREST IN AN ASSOCIATE

On 8 April 2014, the Group acquired 28.84% equity interest in Yuji Development Corporation (“Yuji”) at a cash consideration of New Taiwan Dollar (“TWD”) 513,728,077 (equivalent to HK\$130,720,000) from 40 independent persons (the “Vendors”) who aggregately control 28.84% in Yuji. The Vendors then used the proceeds from the transaction to subscribe for 147,428,134 new shares of the Company issued for the same consideration. The cash consideration for the acquisition of Yuji was entirely financed by a bridge loan and the bridge loan was fully repaid out of the subscription monies for the Company’s shares. In substance, the Company has issued its own shares to the Vendors in exchange for their interest in Yuji. The actual cost of investment in Yuji is therefore based on the fair market value of new shares issued as at the date of acquisition of HK\$95,829,000. The directly attributable expense incurred for the acquisition amounted to HK\$720,000.

The share of fair values of Yuji’s net assets as at the date of acquisition is as follows:

|                                                                                          | 2014<br>HK\$’000      |

Yuji engages in the after-life services in Taiwan, which is a totally new business to the Group. Management decided to invest in Yuji in order to tap into the funeral market which has growth potential, and to diversify the income source of the Group.

The bargain purchase on acquisition was mainly contributed by the profit generated by Yuji between the negotiation stage and the completion of acquisition, the fair value of the columbarium units and cemetery plots for resale as at 8 April 2014 is in excess of its book carrying value as at that date and the market price of the subscription shares at 8 April 2014 is HK\$0.65, which is substantially below the subscription price of HK\$0.887 used to determine the number of subscription shares under the subscription agreement dated 8 February 2014.

*Note:*

During the fifteen months ended 31 December 2015, Yuji's ordinary shares in issue were increased from 176,000,000 shares to 181,930,324 shares. The Group did not subscribe its proportionate share of the new ordinary shares which were issued at TWD15 per share. Accordingly, the Group's equity interest in Yuji was diluted from 28.84% to 27.9%. As the Group's share of net assets value of Yuji immediately after the issuance of new shares is in excess of the Group's original share in net asset value of Yuji, a gain on dilution of interest in an associate of approximately HK\$1,152,000 was recognised during the fifteen months ended 31 December 2015.

As at 31 December 2015, the Group had an interest in the following associate:

| Name of entity | Form of business structure | Place of incorporation | Principal place of operation | Nominal value of share capital TWD | Proportion of nominal value of share capital held by the Group |
|----------------|----------------------------|------------------------|------------------------------|------------------------------------|----------------------------------------------------------------|

Trade receivables that were neither past due nor impaired related to a large number of customers for whom there has been no recent history of default.

The Group allows credit periods ranging from 30 to 120 days (30 September 2014 — 30 to 120 days) to its trade customers depending on their credit status and geographical location. The Directors consider that the carrying amount of trade and other receivables approximate to their fair values.

The Group has provided in full against those receivables where evidence suggests that the amounts outstanding are not recoverable.

## 15. DISCONTINUED OPERATIONS

On 30 May 2014, the Company concluded the sale of its 100% equity interests in PGH and PHL (collectively, the “Disposal Group”), for a net consideration of HK\$6.6 million and HK\$155.5 million, respectively, after deducting the applicable direct costs on disposal and settlement of shareholder’s loans, payable in cash.

The revenues, results and cash flows of the Disposal Group are as follows:

#### **16. IMPAIRMENT LOSS ON NON-CURRENT ASSETS**

As discussed in note 15 above, on 30 May 2014, the Company concluded the disposal of PGH and PHL.

For 31 March 2014 interim financial report purposes, although the Company had entered into an agreement to dispose of PGH and PHL prior to the reporting date, the Disposal Group (including the Tools, Magnetic Technologies, Precision Measurement and Contract Manufacturing divisions) was not classified as held for sales or as a discontinued operation, because the agreement contained certain conditions which affected the immediate availability for sale of PGH and PHL at the reporting date.

However, given that the consideration of US\$2,500,000 for PGH Group was significantly lower than its carrying value at 31 March 2014, the non-current assets of each cash generating unit (“CGU”) in the PGH Group were tested for impairment. The aggregate impairment losses recognised for each class of asset at 31 March 2014, are as follows:

## 17. CONVERTIBLE BONDS

On 15 August 2014, the Company issued convertible bonds in the principal amount of HK\$77,000,000 to Kingage International Limited. The convertible bonds did not carry any interest unless the Company redeem any outstanding convertible bonds on maturity, in which case a 2% per annum interest would be accrued on the outstanding convertible bonds on a 365-day basis.

The convertible bonds contained two components: liability and equity components. The equity component was presented in equity under “convertible bonds equity reserve”. The effective interest rate of the liability component on initial recognition was 5% per annum, as determined by Ample Appraisal Limited which is an independent valuer.

On 30 September 2015, the convertible bonds were fully converted into shares of the Company of HK\$0.10 each at the conversion price of HK\$0.47142 per share. Accordingly, a total of 163,336,303 ordinary shares of HK\$0.10 each were allotted and issued.

## **MANAGEMENT’S DISCUSSION AND ANALYSIS**

### **FINANCIAL REVIEW**

The Board announced on 5 November 2015 that the financial year end date of the Group had been changed from 30 September to 31 December.

The above change was to align with the financial year end date of the Company’s principal operating subsidiary which is incorporated in the People’s Republic of China (the “PRC”) and whose accounts are statutorily required to be closed at the financial year end date of 31 December. The Board considers that this change will facilitate the Company to prepare and update its financial statements for the preparation of its consolidated financial statements.

On account of this change of its financial year end date, the Company hereby announces its annual results for the fifteen months ended 31 December 2015 (the “Reporting Period”). The Group recorded a 41.4% decline in revenue from continuing operations to HK\$167.6 million (year ended 30 September 2014: HK\$286.2 million) during the Reporting Period. The significant decline in turnover

and the loss incurred were mainly attributable to reduced sales to a key customer. For the Reporting Period, the Group posted a loss of HK\$8.9 million as compared to a profit from continuing operations of HK\$49.9 million for the year ended 30 September 2014.

The loss reflected reduced economies of scale, coupled with increased wage rates in the PRC. The cost of materials remained relatively steady and a weakening of the Renminbi against the US dollar since August 2015 provided a slightly positive effect on costs. However, despite this mild favourable effect and the Group's stringent cost controls, the gross profit margin dropped significantly to 7.3% as compared with 14.5% in 2014.

Administrative costs remained steady and recorded HK\$40.1 million for the Reporting Period (year ended 30 September 2014: HK\$37.8 million).

## **BUSINESS REVIEW**

With weakened global market conditions weighing heavily on the global consumer electronics industry, the Group was operating against intense price competition and slowed consumer demand during the Reporting Period.

While the Group continued to meet the challenges of its manufacturing business, it has sought to diversify its business scope in view of the difficult manufacturing environment. As part of its diversification strategy, the Group has acquired an interest in an after-life services business. In consideration of the global economic uncertainty, the Group has constantly been assessing its existing portfolio with regard to the respective businesses' resilience to adverse operating conditions and their ongoing growth potential. The goal remains to strengthen the overall business momentum of the Group, and to improve its profit margin and cash flows.

### **Consumer Electronics Division (the "Division")**

Sales revenues for the Reporting Period decreased by 41.4% to HK\$167.6 million (year ended 30 September 2014: HK\$286.2 million). The drop in sales revenues was mainly the result of reduced business with a major customer, caused by its shift to a more price-sensitive OEM business mode.

During the Reporting Period, baby monitors continued to be the Division's principal product, with the US remaining the major market. In order to reduce its product and market concentration, the Division has rolled out active business development initiatives to seek to achieve a more balanced business mix. As such, the Division has

developed a pet training product series which generated sales revenue of HK\$18 million during the Reporting Period. The Division has further developed the animal repeller product series, but management believes that more time and efforts are required to build a stronger customer base in this new arena.

The Division maintained a solid foothold in the developed markets. The US continued to be one of the largest markets for consumer electronics, and hence strong reliance on this market remained. During the Reporting Period, the US market generated 61.1% of total sales, while the UK contributed 19.1%.

Material costs and overhead expenditures decreased largely in line with the reduction in turnover. The Division continued to exercise strict cost control measures in order to limit its exposure to adverse external factors.

The average Renminbi exchange rate have remained steady for the previous several years. Depreciation in the currency since mid-August has brought a slightly positive effect to the Group, as its income was mostly denominated in US dollars while major expenditures were in Renminbi.

In view of the uncertainty in the US and other export markets, as well as the keen pricing competition within the consumer electronics industry, the Division has sought to diversify its existing product range to categories that are less vulnerable to market fluctuations. The Division has also made progress in further controlling its costs and achieving a lean operating structure.

## **Business Developments**

The Group holds a 27.9% interest in Yuji Development Corporation (“Yuji”), an after-life services company based in Taiwan. Yuji currently has three columbarium towers and one outdoor cemetery in operation. Its revenue was mainly contributed by the sale of columbarium units and cemetery plots. During the Reporting Period, Yuji contributed a profit of HK\$24.6 million (year ended 30 September 2014: HK\$9.6 million) to the Group.

This acquisition represents an effective business strategy for the Group to expand its current portfolio, in order to achieve a better balanced earnings and geographical mix. The Group is actively seeking other viable investment opportunities from time to time, with an aim of maximising shareholder return.

## OUTLOOK

While market growth is expected to be moderate at best, most categories in consumer electronics remained dominated by large manufacturers during 2015. These manufacturers generally benefit from strong brand recognition among the consumer base, many years of experience, and well-established distribution networks. In response to this market dominance, the Group will strive to extend existing product lines, and cautiously develop new products.

The Group does not expect to see a substantial growth in market demand in the near term. Nevertheless, management believes the growing convergence of information, innovation and technology will help the consumer electronics industry to get back on track.

The trend towards e-commerce continued to show growth in 2015 despite the economic uncertainty in general. It is one of the largest sales channels for most industries including consumer electronics. The Group seeks to redefine and reposition its business development, while focusing on managing its existing product portfolio and improving geographical penetration.

Driven by consumer behaviours, technological developments, newer products and gradually improving economic conditions, the consumer electronics industry looks forward to brighter prospects in the long term. The Group is actively seeking new business opportunities while expanding the market penetration of its existing products.

Given the high degree of competition and the possibility of an industry consolidation, the era of high growth for the consumer electronics sector is not sustainable. At the same time economic growth rates will likely be moderate and divergent across markets. In response to the macro environment and leveraging on its experience in manufacturing, the Group will actively adjust its business strategy to meet the evolving challenges.

Looking ahead, the Group will seek other product and customer diversification opportunities in order to expand its sources of income. The Group will also constantly look for new business opportunities that position well into its risk management principles. We will continue to explore attractive investments to diversify and broaden the business horizons to enhance the shareholders' value.

## **LIQUIDITY, FINANCIAL RESOURCES AND FUNDING**

The Group adopted a prudent funding and treasury policy with regard to its overall business operation. As at 31 December 2015, the Group had cash and cash equivalents of HK\$306.7 million (30 September 2014: HK\$287.2 million). Total net cash (i.e. cash and bank balances less other debt) amounted to HK\$306.7 million (30 September 2014: HK\$208.1 million). Most of the bank balances were in Hong Kong dollars (“HKD”). With the cash and bank balances available, the Group has sufficient financial resources to finance its operations and to meet the financial obligations of its business. As at 31 December 2015 and 30 September 2014, the Group had no bank borrowings which resulted in zero gearing ratio.

As at 31 December 2015, the Group had a net asset value of HK\$464.0 million (30 September 2014: HK\$402.3 million), with a liquidity ratio (ratio of current assets to current liabilities) of 793.5% (30 September 2014: 494.7%).

On 30 September 2015, 163,336,303 shares were issued as the convertible bonds with face value of HK\$77,000,000 were fully converted into shares of HK\$0.10 each at the conversion price of HK\$0.47142.

## **CHARGE ON ASSETS AND CONTINGENT LIABILITIES**

At 31 December 2015, there were no charges on the Group’s assets and the Group did not have any contingent liabilities (30 September 2014: Nil).

## **FOREIGN EXCHANGE EXPOSURE**

Most of the Group’s assets and liabilities are denominated in HKD, Renminbi and New Taiwan Dollar (“TWD”). Considering that the exchange rates between these currencies are relatively stable, the Group took the view that the corresponding exposure to Renminbi and TWD exchange rate fluctuation was insignificant.

The Group does not use any derivative financial instruments or hedging instruments. The Group will constantly review the economic situation and its foreign currency risk profile, and actively monitor foreign exchange exposure to minimize the impact of any adverse currency movement.

## **EMPLOYEES AND REMUNERATION POLICY**

As at 31 December 2015, the Group employed approximately 380 employees (30 September 2014: 500 employees).

The remuneration of employees is determined by overall guidelines within the relevant industries. The Group has also adopted certain bonus programmes, share option scheme, medical insurance and other welfare and benefit programmes for its various categories of employees. The remuneration policy of the Group is reviewed regularly and is in line with the performance and qualifications of individual employees and prevailing market conditions.

## **REPURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES**

The Company has not repurchased, sold or redeemed any of the Company's listed securities during the Reporting Period.

## **MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS**

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers as set out in Appendix 10 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") (the "Model Code") as the code of conduct governing Directors' securities transactions. All Directors have confirmed, following specific enquiry by the Company, that they had complied with the required standards set out in the Model Code throughout the Reporting Period.

## **CORPORATE GOVERNANCE CODE**

The Company has adopted all the code provisions in the Corporate Governance Code (the "CG Code") as set out in Appendix 14 to the Listing Rules. Throughout the Reporting Period, the Company complied with all applicable code provisions of the CG Code.

## AUDIT COMMITTEE

The audit committee of the Company (the “Audit Committee”) comprises three independent non-executive Directors, namely Ms. Hu Gin Ing (Chairman), Dr. Wong Ho Ching and Mr. Lan Yen-Po.

The Audit Committee has reviewed with management the accounting principles and practices adopted by the Group and discussed internal control and financial reporting matters including the consolidated financial statements for the fifteen months ended 31 December 2015.
