PROFIT WARNING

The Board wishes to inform the shareholders and potential investors of the Company that the Group expects to record a significant decline in profit for the six months ended 30 June 2016 as compared with that for the corresponding period in 2015. This is mainly attributable to the fact that there is expected to be a net decrease in fair values of the Group's investment properties for the six months ended 30 June 2016 as compared with a net increase for the corresponding period in 2015.

Shareholders and potential investors of the Company are advised to exercise caution in dealing in the shares of the Company.

This announcement is made by Wing Lee Property Investments Limited (the “**Company**” and together with its subsidiaries, the “**Group**”) pursuant to Rule 13.09 of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited and the provisions in Part XIVA of the Securities and Futures Ordinance (Chapter 571, Laws of Hong Kong) relating to disclosure of inside information.

The board of directors (the “**Board**”) of the Company wishes to inform the shareholders and potential investors of the Company that, based on a preliminary assessment of the unaudited management accounts of the Group for the six months ended 30 June 2016 and a draft valuation report for the Group's investment property portfolio as at 30 June 2016 prepared by the Group's external valuer, the Group expects to record a significant decline in profit for the six months ended 30 June 2016 as compared with that for the corresponding period in 2015. This is mainly attributable to the fact that there is expected to be a net decrease in fair values of the Group's investment properties for the six months ended 30 June 2016 as compared with a net increase for the corresponding period in 2015, which reflects the general market conditions of the commercial retail and residential investment property market in Hong Kong for the period under review. The net decrease in fair values of the Group's investment properties for the six months ended 30 June 2016 is expected to range from HK\$5 million to HK\$7 million (the net increase in fair values for the six months ended 30 June 2015 was approximately HK\$66 million). Nevertheless, as the net decrease in fair values of the Group's

investment properties is a non-cash item and the business of the Group is long-term investment and leasing of properties, the Board does not expect any material adverse effect on the operations of the Group. Without taking into account the impact of the aforesaid net decrease in fair values, the Group is expected to make a profit for the six months ended 30 June 2016, which is in line with that for the corresponding period in 2015. However, such profit is not sufficient to make up for the difference between the net change in fair values of the Group's investment properties for the six months ended 30 June 2016 and that for the corresponding period in 2015.

The Company is in the process of finalising the results of the Group for the six months ended 30 June 2016. The information contained in this announcement is only a preliminary assessment by the Board and is not based on any figures or information which have been audited or reviewed by the Company's auditor.

Shareholders and potential investors of the Company are advised to exercise caution in dealing in the shares of the Company.
