NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2016

1. Basis of preparation and adoption of new and revised Hong Kong Financial Reporting Standards

The consolidated financial statements have been prepared on the historical cost basis and in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA"). Historical cost is generally based on the fair value of the consideration given in exchange for goods. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and the Hong Kong Companies Ordinance.

In the current year, the Group has applied a number of amendments to HKFRSs issued by the HKICPA that are mandatorily effective for accounting periods beginning on 1 July 2015. The adoption of the amendments to HKFRSs in the current year has had no material impact on the consolidated financial statements of the Group for the current and prior years.

(b) Segment information

The operating segments have been identified on the basis of internal management reports prepared in accordance with accounting policies conforming to HKFRSs, which are regularly reviewed by the executive directors of the Company, for the purpose of allocating resources to segments and assessing their performance. 4. Taxation

	2016	2015
Taxation comprises:	***HK$'000***	*HK$'000*
Enterprise Income Tax in the PRC	**-**	2,205

Under the Law of the PRC on Enterprise Income Tax (the "EIT Law") and Implementation Regulation of the EIT Law, the tax rate of the PRC subsidiaries is 25% for both years.

Hong Kong Profits Tax is calculated at 16.5% (2015: 16.5%) on the estimated assessable profits derived from Hong Kong. There was no estimated assessable profit for Hong Kong Profits Tax for both years. Taxation in other jurisdictions is calculated at the rates prevailing in the respective jurisdictions. The low effective tax rate is attributable to the fact that a substantial portion of the Group's profit neither arose in, nor was derived from, Hong Kong and was accordingly not subject to Hong Kong Profits Tax and such profit was either exempt from Macau income tax or not subject to taxation in any other jurisdictions.

5. Dividends

No dividend was paid or proposed during the year ended 30 June 2016 nor has any dividend been proposed since the end of reporting period (2015: nil).

6. (Loss)/earnings per share

The calculation of the basic (loss)/earnings per share is based on the loss for the year attributable to owners of the Company of HK$28,590,000 (2015: profit of HK$7,382,000) and on the weighted average number of shares of 6,331,789,000 shares (2015: 6,331,789,000 shares) in issue.

Diluted (loss)/earnings per share for the two years ended 30 June 2016 were the same as the basic (loss)/earnings per share as there were no potential ordinary shares outstanding during both years.

MANAGEMENT DISCUSSION AND ANALYSIS

Financial Results

The Group's results for the year under review (the "Year") were affected by a combination of factors, which included the soft demands of the markets in which we operate; weak currencies in the European countries; the suspension of online e-lottery business in Mainland China due to the introduction of new measures by the regulatory authorities; and the delay in the launch of new projects.

For the Year, the Group's revenue reduced by 11 percent to HK$4,980 million from HK$5,610 million in the previous year. Loss for the Year was HK$38.7 million, compared with a profit of HK$13.3 million for the last year. Loss attributable to owners of the Company was HK$28.6 million, compared with a profit attributable to owners of the Company of HK$7.4 million in last year. Loss per share was HK0.45 cents (2015: earnings per share of HK0.12 cents). EBITDA was HK$1,269 million for the Year, compared with HK$1,372 million for the previous year.

The reduced revenue was mainly attributed to the decrease in sales of cultural products to HK$1,084 million for the Year from HK$3,041 million of last year, a significant drop of 64 percent due to limited supply of cultural products. However, this was compensated by 204 percent increase in licensing fees to HK$2,509 million from HK$824 million of last year, mainly attributable to a total consideration of HK$2 billion in return for the grant of rights to market the Group's systems and networks.

In view of the uncertainties in the global economy and business environments, the Group has recognised further impairment losses for development costs for systems and networks of HK$1,548 million (2015: 11 million), and impairment losses for available-for-sale investments of HK$93 million (2015: nil). Excluding the impairment losses, adjusted EBITDA for the Year increased to HK$2,911 million, from HK$1,621 million for the previous year.

The Group continued to exercise stringent cost control measures. Distribution costs were reduced to HK$31 million (2015: HK$35 million) in line with the decrease in revenue, while general and administrative expenses also decreased 43 percent to HK$153 million (2015: HK$268 million), due to reduction in expenses for cultural business. In line with China's national policy to support culture industry, it was our business realignment plan to scale down our investment in systems products and to deploy more resources on further investment in our culture-related business. Both staff costs and research and development costs expensed decreased to HK$128 million (2015: HK$132 million) and HK$2 million (2015: HK$10 million) respectively. Amortisation and depreciation costs decreased 4 percent to HK$1,303 million (2015: HK$1,351 million) after a net-off effect from the increase in amortisation on development costs for systems and networks of HK$188 million resulting from the changes in estimated useful lives of certain projects and the absence of new project roll-out in the Year. Finance costs for the Year were HK$5.1 million (2015: HK$5.9 million).

Review of Operations

The global economic environment remained sluggish, with Mainland China recording its slowest pace of growth in a quarter of a century as it grappled with the difficult transition to consumer-led expansion. In the markets in which the Group operated, tight controls continued to be exercised in both public and private sector spending, thereby putting more pressure on the demand for the Group's products and services.

A number of the Group's investments were affected by the uncertain economic environment around the world. To address market challenges and to strengthen our foundation, the Group looked into different options of business realignment plans with the aim of improving the overall return. As part of the realignment, some investment projects were divested, while others were revamped, in order to focus on business activities with a higher long-term value. More resources were deployed on further investment in our culture-related business.

In order to relieve the financial pressures arising from continuous capital expenditure on technology project developments, we have revised our mode of operation by granting rights to third parties to market our systems and networks.

In Mainland China, we continued our marketing and sales activities for customised solutions and products, including those for the sales of cultural products. Spending cuts by our customers and weak investment sentiment resulted in lower volume of sales.

Europe saw a continuing demand for the Group's personal security and unified communications products which were capable of embracing a broad range of communications devices, and therefore were able to command higher gross profit margins. However, the weak Euro and the sharp drop in the British Pound towards the end of the financial year have put increasing pressure on our production costs as components sourced by the Group are primarily priced in US dollars. Weak economic conditions also resulted in customer contracts of reduced length as customers evaluated new technologies and were reluctant to commit.

Kantone Holdings Limited ("Kantone")

Revenue for Kantone for the Year was HK$2,090 million, as compared with HK$2,544 million for the previous year.

Sales in Mainland China where Kantone continued to focus on customised solutions and services were in line with the country's economic conditions.

In Europe, Kantone maintained its market share in the public sector, which was supported by continued spending within the healthcare and emergency services sectors. In the UK, Kantone completed the full changeout of the largest metropolitan Fire & Rescue Service in London during the Year. Several competitive tender wins in the Fire sector including the Southern Ireland Fire Services have also positioned Kantone well for the coming year. In Germany, the launch of a new personal security system, EkoSecure, has seen good growth as it replaced a third-party product, resulting in improved margins in this sector.

To maintain competitiveness, Kantone continued to focus its development resources on providing customers with critical messaging solutions in niche markets such as healthcare, fire, lone worker or general business applications. The trend to provide more software based solutions has enabled Kantone to bring new products to market in a shorter timescale at improved margins. The greater use of software applications also allows Kantone to be more flexible and quicker to react to niche opportunities.

OUTLOOK

In light of continuing global uncertainties and the unclear prospects of China’s economy, we remain cautious in our approach in the coming year. We will deploy resources to build on our competitive strengths, and continue our prudent approach in investing in complementary businesses that show good growth prospects, and pursue sectors which are supported by government policies, including healthcare, innovation and technology, cyber security, cultural and creative industries, smart living and information-based services for the community and consumers.

In particular, we have in recent years expanded our culture-related businesses, building on our long-standing experience in sponsoring and supporting various national and international cultural events in Hong Kong and overseas. Leveraging on such strong cultural business background, and in line with China’s national policy to support culture industry, the Group will make further investment in our culture-related business, including but not limited to the development of an online marketplace for art collectibles and culture-related activities as well as engaging in cross border e-commerce. We aim to focus on selecting exquisite and rare artworks which have great appreciation potential. In line with that strategy, we will adjust our inventory to capture the appreciation potential. The directors believe that such expansion may take advantage of the market’s growing interest in cultural products as a result of China’s Belt and Road Initiative, which aims to connect Eurasian economies through infrastructure, trade, and investment.

Barring any further unforeseen material adverse external developments, the directors are cautiously optimistic about the Group’s prospects in the coming year.

LIQUIDITY AND FINANCIAL RESOURCES

Financial Position and Gearing

The Group’s financial position remained positive with a low gearing.

As at 30 June 2016, the Group had HK$131 million (2015: HK$235 million) liquid assets made up of deposits, bank balances and cash. Current assets were approximately HK$8,723 million (2015: HK$4,881 million) and current liabilities amounted to approximately HK$276 million (2015: HK$358 million).
