## **NEW STEAM SUPPLY AGREEMENT**

### **Date**

14 December 2016

### **Parties**

### **Term**

The term of the New Steam Supply Agreement is for a period commencing on 1 January 2017 and ending on 31 December 2019 (both dates inclusive).

### **Consideration and payment**

- 1) In consideration of relevant government policy and the changes in coal prices and other costs, the parties shall make assessment and adjustments on the prices for the supply of steam from time to time during the term of the agreement. It is agreed that if the coal price in the Zouping County (鄒平縣) market reaches RMB0.15 per kcal (tax-inclusive), the corresponding price for steam will be RMB125 per tonne (tax-inclusive). With the aforesaid standard as the basis, the price for steam will be adjusted upward or downward by RMB5 per tonne (tax-inclusive) accordingly for the corresponding increase or decrease of each RMB0.01 per kcal (tax-inclusive) of the coal price.

- 2) Xiwang Metal will calculate the price of steam (tax-inclusive) supplied to the Shandong Xiwang Sugar Group according to the price in that month and issue a value-added tax receipt settled at the end of the month and payable in the following month. The fee payable under the New Steam Supply Agreement is to be made principally by cash with a credit period of not more than six months.
- 3) Transactions contemplated under the New Steam Supply Agreement will be conducted:
  - a. in the ordinary and usual course of business of the Group and the Shandong Xiwang Sugar Group;
  - b. on normal commercial terms and on terms not less favourable offered by independent third parties;

It is expected that the maximum aggregate annual transaction amounts under the New Steam Supply Agreement for each of the three years ending 31 December 2019 will be RMB60,000,000 per annum.

The Annual Caps were calculated after primarily taking into account (i) the estimated volume of steam generated by the Group; (ii) the estimated volume of consumption of steam by the Group; (iii) the anticipated volume of steam to be purchased by Shandong Xiwang Sugar Group; (iv) the estimated sales of steam to independent third parties; (v) the steam price under the New Steam Supply Agreement; and (vi) the anticipated coal price movements in the Zouping County.

## **REASONS FOR AND BENEFITS OF ENTERING INTO THE NEW STEAM SUPPLY AGREEMENT**

Steam is a by-product generated during the Group's production of special steel, while the Group only make use of a small amount of steam in its production process. Given the stable and huge demand on steam of Shandong Xiwang Sugar Group, and the proximity of its plants to the Group's production base, the Group can generate additional income from the sale of steam unused while saving the cost in its construction of steam pipeline.

In light of the above, the Directors (including the independent non-executive Directors) are of the view that the terms of the New Steam Supply Agreement are on normal commercial terms and fair and reasonable and in the interests of the Company and the Shareholders as a whole.
