The registered office of the Company is No.101, 4/F, C Yi'an Business Building, 18 Building Yi'an Jiayuan, Beiwa West, Haidian District, Beijing, the PRC.

In the opinion of the Directors, the ultimate controlling shareholders of the Company are Mr. Liu Songshan, Mr. Liu Donghai, Ms. Liu Hua, Ms. Liu Wencui and Ms. Liu Yongmei, who are brothers and sisters.

2. BASIS OF PRESENTATION AND CHANGES TO THE GROUP'S ACCOUNTING POLICIES

2.1 Basis of preparation

The interim condensed consolidated financial statements for the six months ended 30 June 2017 have been prepared in accordance with IAS 34 *Interim Financial Reporting*.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements for the year ended 31 December 2016.

The interim condensed consolidated financial statements have been prepared under the historical cost convention. The interim condensed consolidated financial statements are presented in Renminbi ("RMB") and all values are rounded to the nearest thousand except when otherwise indicated.

2.2 Revised standards, interpretations and amendments adopted by the Group

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2016, except for the adoption of revised standards effective as of 1 January 2017. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

The nature and the effect of these changes are disclosed below. Although these amendments apply for the first time in 2017, they do not have a material impact on the interim condensed consolidated financial statements of the Group. The nature and the impact of each amendment are described below:

Amendments to IAS 7 Statement of Cash Flows: *Disclosure Initiative*

The amendments require entities to provide disclosures about changes in their liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes (such as foreign exchange gains or losses). On initial application of the amendment, entities are not required to provide comparative information for preceding periods. The Group is not required to provide additional disclosures in its condensed interim consolidated financial statements, but will disclose additional information in its annual consolidated financial statements for the year ending 31 December 2017.

Amendments to IAS 12 Income Taxes: *Recognition of Deferred Tax Assets for Unrealised Losses*

The amendments clarify that an entity needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of that deductible temporary difference. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount.

Entities are required to apply the amendments retrospectively. However, on initial application of the amendments, the change in the opening equity of the earliest comparative period may be recognised in opening retained earnings (or in another component of equity, as appropriate), without allocating the change between opening retained earnings and other components of equity. Entities applying this relief must disclose that fact.

The Group applied the amendments retrospectively. However, their application has had no effect on the Group's financial position and performance as the Group has no deductible temporary differences or assets that are in the scope of the amendments.

Annual Improvements Cycle 2014-2016

Amendments to IFRS 12 Disclosure of Interests in Other Entities: Clarification of the scope of disclosure requirements in IFRS 12

The amendments clarify that the disclosure requirements in IFRS 12, other than those in paragraphs B10–B16, apply to an entity's interest in a subsidiary, a joint venture or an associate (or a portion of its interest in a joint venture or an associate) that is classified (or included in a disposal group that is classified) as held for sale.

The amendments have had no significant impact on the Group as the Group has no interest in entities classified as held for sale.

2.3 Restatement of prior year financial statements as a result of business combination for the entity under common control

In February 2017, the Company completed the acquisition of 80% equity interest in Beijing Dixin Alliance Technology Co., Ltd. ("Alliance"), which was incorporated on 1 September 2016, at nil purchase consideration. After the completion of the acquisition, Alliance was accounted for as a subsidiary of the Group. Since the Company and Alliance were under common control of the ultimate controlling shareholders of the Company before and after the completion of the aforesaid acquisition, the business combination of Alliance has been accounted for under the pooling of interests method.

Business combinations arising from transfers of interests in entities that are under the control of the ultimate shareholders that controls the Group are accounted for as if the acquisitions had occurred at the beginning of the earliest date presented or, if later, at the date that common control was established. The assets and liabilities acquired are recognised at the carrying amounts recognised previously in the acquired entities' financial statements.

Upon transfer of interest in an entity to another entity that is under the control of the ultimate shareholder that controls the Group, any difference between the Group's interest in the carrying value of the assets and liabilities and the cost of transfer of interest in the entity is recognised directly in equity.

The consolidated statement of profit or loss and other comprehensive income includes the results of each of the combining entities from the earliest date presented or since the date when the combining entities first came under the common control, where this is a shorter period.

All intra-group balances, transactions, unrealised gains and losses resulting from intra-group transactions and dividends are eliminated in full on consolidation.

The opening balances as at 1 January 2017 and comparative information as at 31 December 2016 have been restated in the interim condensed consolidated financial statements.

Information about major customers

During the reporting periods, the Group had no customer from whom the revenue earned individually accounted for more than 10% of the Group's total revenue for the reporting period.

Geographical information

Since the Group solely operates in Mainland China and all of the non-current assets of the Group are located in Mainland China, no geographical segment information as required by IFRS 8 Operating Segments is presented.

Seasonality of operations

Due to the seasonal nature, higher revenues and operating profits are usually expected in the second half of the year rather than in the first six months. Higher sales during the period from July to the early of October are mainly attributed to the increased demand for mobile telecommunications devices and accessories during the holiday season, as well as in November and December, due to increased demand for new series of mobile telecommunications devices. This information is provided to allow for a better understanding of the results, however, management has concluded that the Group's business is not 'highly seasonal' accordance to IAS 34.

19. FAIR VALUE AND FAIR VALUE HIERARCHY

The fair values of cash and cash equivalents, pledged deposits, trade and bills receivable, financial assets included in prepayments, deposits and other receivables, amount due from related parties, trade and bills payable, financial liabilities included in other payables and accruals, amount due to related parties approximate to their carrying amounts largely due to the short term maturities of these instruments.

The fair value of current portion of interest-bearing loans and other borrowings has been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The fair values of interest-bearing loans at the end of each of the reporting periods approximated to their corresponding carrying amount due to their short term maturities. The fair values of the non-current portion of interest-bearing bank and other borrowings have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities.

As at 30 June 2017, the fair value information has not been disclosed for certain available-for-sale investments in equity instruments that do not have a quoted market price in an active market and are measured at cost less any impairment because their fair value cannot be measured reliably. The reason why the fair value cannot be measured reliably is because that the variability in the range of reasonable fair value estimates is significant for that investment or the probabilities of the various estimates within the range cannot be reasonably assessed and used in estimating fair value. The carrying amount of these available-for-sale investments of the Group was RMB15,075 thousand (2016: RMB15,075 thousand) and that of the Company was RMB15,075 thousand (2016: RMB15,075 thousand), respectively. All of them are unlisted equity investments in Mainland China held by the Group.

BUSINESS OUTLOOK FOR THE SECOND HALF OF 2017

For the year of 2017, 4G communication market will substantially be stable. While attracting new customers, the carriers will also put more focus on retaining their existing customers. Domestic handset manufacturers increasingly value the importance of opening physical outlets and the competition among various brands has become keener. Facing such changes in the market, we have to enhance the Company's performances with the focus on the following aspects:

(1) To prioritize the improvement on the profitability of the physical retail outlets

On the one hand, we shall increase the profitability in existing outlets by provision of training to our staff members, negotiation for rent reduction with the landlords and cooperation with the manufacturers. On the other hand, we shall open more self-owned shops in suitable cities at county level in order to increase our market shares.

(2) To develop our physical outlets steadily and at the same time continue to increase the proportion of our online business in order to further realize the integration of our online to offline ("OTO") business

In 2017, we shall take advantage of the competitive edges of our extensive geographical coverage to generate more business to our physical outlets by using such online resources as our official website, mobile stores, credit card shopping, television shopping channels and Tmall's flagship stores to realize the synergy effect of OTO.

(3) To enhance our cooperation with three major mobile carriers on product supply and expand into a new market

On the one hand, we shall jointly operate our outlets with the mobile carriers, and on the other hand, take advantage of the business opportunities brought by the growth of 4G business to increase our supply to the mobile carriers. Through our mobile points of sale, we shall go to the communities and enter wholesale market to conclude more contracts with potential customers, sell more mobile handsets and accessories and provide more communication services for the convenience of the public.

To support China Mobile Group's "IOT" (Internet of Things) strategy, we shall vigorously develop and apply new business and expand the sale of unmanned flying vehicles and other services.

(4) To continue enhancing our brand value

In 2017, with reliance on the sales and distribution ability of the network of our own self-owned shops and franchisees, we shall vigorously develop our own brands in order to realize the growth in scale and efficiency.

(5) To improve our services and increase the influence of our brand

In 2016, we introduced customer service hotline to help our end users to solve the problems they might face. Our concept of "full-hearted loyalty" has been well received by our customers and has accumulated a large number of fans of Beijing Digital. In 2017, we shall continue to eagerly pursue the "full-hearted loyalty" concept in order to enhance our prestige and reputation through high-quality customer services, so as to enhance the Group's brand influence and ultimately increase sales.

(6) To continue expanding into oversea retail markets of mobile handsets

In 2016, the Group commenced the preparation of entering to India market and cooperated with Transsion to expand into African market. During the first half of 2017, we performed well in African market and steady growth is expected for the second half of 2017.

(7) To introduce revolutionary retail concept in the mobile telecommunications devices industry by providing customers new shopping experience

During the first half of 2017, we opened the brand new D. Phone UP+ stores in a number of cities, such as Beijing and Shanghai. Unlike the traditional retail stores, the new concept stores provide customers unrivaled shopping experience through innovative, personalized and ingenious intelligent products as well as cozy interior design for interaction.
