### INTRODUCTION

The purpose of this circular is to provide you with information on the businesses to be transacted at the EGM in respect of, among other matters, the Joint Venture Agreement and the Capital Contribution Agreement in relation to the proposed Capital Contribution and deemed disposal of equity interest in SMSC and any transactions contemplated hereunder.

Reference is made to the Company's announcement dated 30 January 2018 in relation to the proposed Capital Contribution to and deemed disposal of equity interest in SMSC pursuant to the Joint Venture Agreement and the Capital Contribution Agreement entered into among SMIC Holdings, SMIC Shanghai, China IC Fund and Shanghai IC Fund. The principal terms of the Joint Venture Agreement and the Capital Contribution Agreement are set out as follows:

### SUMMARY OF PRINCIPAL TERMS OF THE JOINT VENTURE AGREEMENT

**Date:**

30 January 2018

**Parties:**

- (a) SMIC Holdings
- (b) SMIC Shanghai
- (c) China IC Fund
- (d) Shanghai IC Fund

To the best of the Directors' knowledge, information and belief and having made all reasonable enquiry, Shanghai IC Fund and its ultimate beneficial owners (other than China IC Fund) are third parties independent of the Company and its connected persons.

**Business Scope of SMSC**

SMSC will principally engage in wafer manufacturing, wafer probing and bumping, technology development, design service, mask manufacturing, assembly and final testing of integrated circuits and sales of self-manufactured products. SMSC is expected to establish and build up large-scale manufacturing capacity focusing on 14 nanometer and below process and manufacturing technologies and aims to reach a manufacturing capacity of 35,000 wafers per month after the completion of the first phase of development.

## LETTER FROM THE BOARD

---

### **Total Investment and Registered Capital**

The parties will contribute in aggregate US\$3.5 billion by nature of registered capital contribution in the following manner:

- (a) SMIC Holdings has committed to contribute US\$1.5985 billion, representing 45.67% of the enlarged registered capital of SMSC after the Capital Contribution. US\$55 million has been contributed prior to entering into the Joint Venture Agreement and US\$1.5435 billion is outstanding;
- (b) SMIC Shanghai has committed to contribute US\$155 million, which has been fully contributed prior to entering into the Joint Venture Agreement, representing 4.43% of the enlarged registered capital of SMSC after the Capital Contribution;
- (c) China IC Fund has committed to contribute US\$946.5 million, which is outstanding, representing 27.04% of the enlarged registered capital of SMSC after the Capital Contribution; and
- (d) Shanghai IC Fund has committed to contribute US\$800 million, which is outstanding, representing 22.86% of the enlarged registered capital of SMSC after the Capital Contribution.

The consideration was arrived at after arm's length negotiation among the parties with reference to the net asset value, future business prospects and development potential of SMSC. According to the unaudited accounts of SMSC, as at 31 December 2017, SMSC has total assets and total equity of approximately US\$209.0 million and US\$202.8 million, respectively. The assets of SMSC are mainly inter-group balances and cash, and hence the consideration of US\$3.5 billion was also determined with reference to the future business prospects and development potential of SMSC. SMSC is a 12-inch wafer fab with advanced process capability built in line with the schedule of the Company's 14 nanometre and below advanced technology node research and development and mass production. The 14 nanometre technology could be applied on mainstream mobile platforms, automotive, Internet of Things and cloud computing, which are also fast growing applications. According to the Company's development plan, the 12-inch wafer fab will be built by joint venture partnership with China IC Fund and Shanghai IC Fund and the Company could speed up the introduction of advanced manufacturing process and products. Majority of the amount of the Capital Contribution will be utilised as the capital expenditure in accordance with the development plan and allow the Group to develop the high-end and fast growing product stream, which would bring more growth opportunities to the Group and is essential to maintain the Group's competitiveness. The total investment for SMSC, as indicated in the Joint Venture Agreement, is estimated to be US\$10.24 billion. While the parties are only obliged to make contribution to the registered capital of SMSC in an aggregate amount of US\$3.5 billion, the difference between the total investment of US\$10.24 billion and enlarged registered capital of SMSC after the Capital Contribution is intended to be funded through SMSC's internal cash flow, shareholders' further contribution to the registered capital of SMSC or debt financing and the parties to the Joint Venture Agreement are not legally bound to contribute such difference between the total investment and the registered capital of SMSC.

## LETTER FROM THE BOARD

---

Each party shall complete 30% of its outstanding contributions prior to 30 June 2018, complete 30% of its outstanding contributions prior to 31 December 2018, and complete the remaining 40% of the contributions prior to 30 June 2019 (the “**Time Frame**”).

Notwithstanding the above, the capital contribution by China IC Fund is subject to the following conditions (“**Condition Precedent**”):

- (i) receipt of the written approval from the competent government authority(ies) in Shanghai, pursuant to which a government subsidy lasting for not less than five years with an amount each year not less than 4% of the total capital contribution of China IC Fund shall be granted to SMSC; and
- (ii) the validity of the investment period of China IC Fund (after which China IC fund cannot make capital contribution to SMSC).

The parties have further agreed that if China IC Fund fails to make Capital Contribution in accordance with the Time Frame, due to (i) the Condition Precedent is not satisfied or only satisfied within one month prior to the any deadline of the Time Frame; or (ii) the expiry of the investment period of China IC Fund, the failure by China IC Fund to make its Capital Contribution will not constitute a breach of the Joint Venture Agreement. However, if the Condition Precedent is satisfied within one month prior to any deadline of the Time Frame, or beyond any such deadline (but within the investment period of China IC Fund), China IC Fund shall make the relevant capital contribution in accordance with the Joint Venture Agreement within one month after the satisfaction of the Condition Precedent. If China IC Fund fails to make capital contribution due to the Condition Precedent cannot be met on or before 25 August 2019, and/or if China IC Fund is unable to make capital contribution due to the expiry of its investment period, such failure to make capital contribution will not constitute a breach by China IC Fund, and the parties will further negotiate and amend the Joint Venture Agreement and the articles of association of SMSC as well as other relevant legal documents.

The cash capital contribution by SMIC Holdings will be funded by the internal cash flow. The proceeds of the Capital Contribution will be used by SMSC as capital expenditure and working capital.

### **Composition of the Board and the Supervisory Board of SMSC and General Management**

The board of directors of SMSC will comprise five directors. SMIC Holdings and SMIC Shanghai together are entitled to appoint three directors in total and each of China IC Fund and Shanghai IC Fund is entitled to appoint one director. SMIC Holdings and SMIC Shanghai together are entitled to nominate the chairman of the board of directors of SMSC, who will also act as the legal representative of SMSC.

The supervisory board of SMSC will comprise three members. China IC Fund will appoint one member who will also be the chairman of the supervisory board. Each of Shanghai IC Fund and the employees of SMSC will be entitled to appoint one member.

The party(ies) that intend to transfer shares to third party(ies) are required to notify the non-transfer parties to such proposed transfer of equity interest. In case of any further contribution to the registered capital of SMSC, each party shall be entitled to a pro rata portion of such proposed registered capital contribution equivalent to the respective percentage of the registered capital then owned by each of the parties immediately prior to the proposed registered capital contribution.

### **Other Terms**

The term of operation of SMSC will be 50 years from the date of its establishment. The parties will decide whether to extend the term of operation of SMSC at least six months prior to the expiry date of the term of operation, subject to the approval of the relevant PRC authorities.

Upon obtaining the regulatory approvals and the approval by the Independent Shareholders at the EGM, the Joint Venture Agreement will become effective and binding on the parties. The obligations of the parties under the Joint Venture Agreement are subject to compliance with applicable laws (including those of regulatory authorities (including but not limited to the Stock Exchange and the New York Stock Exchange, Inc.)).

of the transactions contemplated under the Joint Venture Agreement and the Capital Contribution Agreement. The deemed disposal as a result of the Capital Contribution will not result in the recognition of any gain or loss in profit or loss of the Group.

### REASONS FOR AND BENEFITS OF THE CAPITAL CONTRIBUTION

SMSC is a 12-inch wafer fab with advanced process capability built in line with the schedule of the Company's 14 nanometre and below advanced technology node research and development and mass production. China IC Fund and Shanghai IC Fund mainly invest in the value chain of integrated circuit industry via various approaches, primarily in integrated circuit chip manufacturing as well as chip designing, packaging test and equipment and materials. The 12-inch wafer fab will be built by joint venture partnership with China IC Fund and Shanghai IC Fund and the Company could speed up the introduction of advanced manufacturing process and products with the support of the government industry funds. This will also relieve the Company from spending large amount of cash investment caused by the expansion of advanced production capacity.

The Company believes that such partnership with China IC Fund and Shanghai IC Fund through the Joint Venture Agreement and the Capital Contribution Agreement and transactions contemplated thereunder are in the interests of the Company and the Shareholders as a whole and beneficial to the sustainable development of the Company. The Directors (excluding independent non-executive Directors whose view will be given after taking into account the advice from the Independent Financial Adviser) consider that it is in the best interests of the Company and the Shareholders as a whole to enter into the Joint Venture Agreement and the Capital Contribution Agreement and the transactions contemplated thereunder; the terms of the Joint Venture Agreement and the Capital Contribution Agreement are fair and reasonable; and the entering into of the Joint Venture Agreement and the Capital Contribution Agreement and the transactions contemplated thereunder are on normal commercial terms or better and in the ordinary and usual course of business.

### IMPLICATIONS OF THE LISTING RULES

As China IC Fund held approximately 15.05% of the issued share capital of the Company through its wholly-owned subsidiary, Xinxin (Hongkong) Capital Co., Limited as at the Latest Practicable Date, it is a connected person of the Company under the Listing Rules. The transactions contemplated under the Joint Venture Agreement and the Capital Contribution Agreement constitute connected transactions of the Company under Chapter 14A of the Listing Rules.

Pursuant to the Joint Venture Agreement and the Capital Contribution Agreement, as a result of the Capital Contribution, the Company's equity interest in SMSC, through SMIC Holdings and SMIC Shanghai, will decrease from 100% to 50.1%, which constitutes a deemed disposal for the Company under Chapter 14 of the Listing Rules.

As certain applicable percentage ratios stipulated under Rule 14.07 of the Listing Rules in respect of the Joint Venture Agreement and the Capital Contribution Agreement exceed 5% but are less than 25%, the transactions contemplated under the Joint Venture

Agreement and the Capital Contribution Agreement constitute discloseable transactions of the Company under Chapter 14 of the Listing Rules, and a non-exempt connected transaction subject to reporting, announcement and the Independent Shareholders' approval requirements of Chapter 14A of the Listing Rules.

## **PRINCIPAL FACTORS AND REASONS CONCERNED**

In considering whether the terms of (i) the Joint Venture Agreement; and (ii) the Capital Contribution Agreement are fair and reasonable in so far as the Independent Shareholders are concerned, we have taken into account the principal factors and reasons set out below:

### **Background of the Joint Venture Agreement and the Capital Contribution Agreement**

Reference is made to the Company's announcement dated 30 January 2018. As at even date, SMIC Holdings, SMIC Shanghai, China IC Fund and Shanghai IC Fund entered into the Joint Venture Agreement and the Capital Contribution Agreement pursuant to which SMIC Holdings, China IC Fund and Shanghai IC Fund agreed to make cash contribution to the Registered Capital of SMSC in the amount of US\$1.5435 billion, US\$946.5 million and US\$800 million, respectively. As a result of the Capital Contribution: (i) the Registered Capital of SMSC will increase from US\$210 million to US\$3.5 billion; (ii) the Company's equity interest in SMSC, through SMIC Holdings and SMIC Shanghai, will decrease from 100% to 50.1%; and (iii) SMSC will be owned as to 27.04% and 22.86% by China IC Fund and Shanghai IC Fund, respectively.

SMSC was established on 1 December 2016. According to the unaudited accounts of SMSC prepared in accordance with IFRS, as at 31 December 2017, SMSC has total assets and total equity of approximately US\$209.0 million and US\$202.8 million, respectively. The net loss of SMSC for the year ended 31 December 2017 is approximately US\$115,240. SMSC will continue to be a subsidiary of the Company following completion of the transactions contemplated under the Joint Venture Agreement and the Capital Contribution Agreement. The deemed disposal as a result of the Capital Contribution will not result in the recognition of any gain or loss in profit or loss of the Group.

The Company is one of the leading semiconductor foundries in the world and the largest and most advanced foundry in the PRC. The Company provides integrated circuit foundry and technology services at 0.35-micron to 28-nanometer. Headquartered in Shanghai, the PRC, the Company has a 300mm wafer fabrication facility (fab) and a 200mm mega-fab in Shanghai; a 300mm mega-fab and a second majority owned 300mm fab under development for advance nodes in Beijing; and 200mm fabs in Tianjin and Shenzhen. The Company also has marketing and customer service offices in the United States, Europe, Japan, and Taiwan, and a representative office in Hong Kong. SMIC Shanghai is a wholly-owned subsidiary of the Company established in the PRC. SMIC Holdings, as a multinational company's regional headquarters, was formed in 2015 and is a wholly-owned subsidiary of the Company.

China IC Fund, incorporated in September 2014, mainly invests in the value chain of integrated circuit industry via various approaches, primarily in integrated circuit chip manufacturing as well as chip designing, packaging test and equipment and materials. Fund investors include CDB Capital, China National Tobacco Corporation,

Beijing Yizhuang International Investment and Development Co., Ltd., China Mobile Communications Corporation, Shanghai Guosheng (Group) Co., Ltd., Beijing Purple Communications Technology Group Ltd and Sino IC Capital Co., Ltd.

Shanghai IC Fund is currently the largest local integrated circuit industry investment fund in Shanghai, the investors of which include, among others, Shanghai S&T Venture Capital (Group) Co., Ltd., SAIC Capital Co., Ltd., China IC Fund, Shanghai Guo Sheng Group Co., Ltd. and Shanghai International Group. The fund's investment focuses on the integrated circuit manufacturing industry and extends to the entire industry chain. The fund aims to invest and build industrial star enterprises and enhance corporate value and accelerate the coordinated development of integrated circuit industry chain.

**Reasons for and benefit of the Joint Venture Agreement and the Capital Contribution Agreement**

According to the Letter from the Board, SMSC is a 12-inch wafer fab with advanced process capability built in line with the schedule of the Company's 14 nanometre and below advanced technology node research and development and mass production. China IC Fund and Shanghai IC Fund mainly invest in the value chain of integrated circuit industry via various approaches, primarily in integrated circuit chip manufacturing as well as chip designing, packaging test and equipment and materials along the industry chain. The 12-inch wafer fab will be built by joint venture partnership with China IC Fund and Shanghai IC Fund and the Company could speed up the introduction of advanced manufacturing process and products. This will also relieve the Company from spending large amount of cash investment caused by the expansion of advanced production capacity. The proceeds of the Capital Contribution will be used by SMSC as capital expenditure and working capital.

For due diligence purpose, we have conducted research on the background of the IC industry. According to information published by SEMI in July 2017 (the "**SEMI Publication**"), the PRC is the largest consumer of semiconductors in the world, but the demand is mainly satisfied through imports. SEMI ([www.semi.org](http://www.semi.org)), is a global industry association of companies that provide equipment, materials and services for the manufacture of semiconductors and other related micro and nano-technologies. SEMI also provides market research reports for the semiconductor equipment, materials, and LED industries. According to the SEMI Publication, in 2015, the PRC's IC production amounted to US\$13.2 billion, while the PRC IC market demand approximated to US\$104 billion. It is expected that in 2020, the PRC's IC production would approximate to US\$26.9 billion, while the PRC's forecasted IC demand is expected to reach US\$149 billion, indicating a wide gap between local IC supply and demand. In addition, we have reviewed the feasibility report in relation to the construction plan of SMSC (the "**Feasibility Report**"). The Feasibility Report was prepared by a consulting company (the "**Consultant**"), which is based in the PRC and has presence in over 30 major cities across the PRC. The Consultant is mainly engaged in the engineering consulting, engineering design and main contracting business, and is involved in industries such as electronic, high-end manufacturing and infrastructure.

## LETTER FROM MESSIS CAPITAL

---

We noted from the Feasibility Report that, the 14 nanometre technology could be applied on mainstream mobile platforms, automotive, Internet of Things and cloud computing, which are also the fast growing applications as stated in the SEMI Publication. Moreover, according to the Feasibility Report, the 16/14 nanometre products' market share by revenue in the global pure play foundry market is expected to grow from approximately 6% in 2016 to 22% in 2019.

Having considered the above factors, we consider that the Capital Contribution allows the Group to develop the high-end and fast growing product stream, which in our view, would bring more growth opportunities to the Group and essential to maintain the Group's competitiveness, and the entering into the Joint Venture Agreement and the Capital Contribution Agreement is fair and reasonable and is in the interests of the Company and the Shareholders as a whole.

### **Effect of the capital injection on the shareholding structure**

Pursuant to the Joint Venture Agreement and the Capital Contribution Agreement, SMIC Holdings, China IC Fund and Shanghai IC Fund agreed to make cash contribution to the Registered Capital of SMSC in the amount of US\$1.5435 billion, US\$946.5 million and US\$800 million, respectively.

Immediately prior to the completion of the Joint Venture Agreement and the Capital Contribution Agreement, SMSC is an indirect wholly-owned subsidiary of the Company and is owned as to approximately 26.2% by SMIC Holdings and 73.8% by SMIC Shanghai. The shareholding structure of SMSC immediately prior to the completion of the Joint Venture Agreement and the Capital Contribution Agreement is set out below for illustration purpose:

(Registered capital: US\$210 million)

*Note:* SMIC Holdings and SMIC Shanghai are wholly-owned subsidiaries of the Company.

---

## LETTER FROM MESSIS CAPITAL

---

Immediately after completion of the Joint Venture Agreement and the Capital Contribution Agreement, SMSC will be owned as to 45.67% by SMIC Holdings, 4.43% by SMIC Shanghai, 27.04% by China IC Fund and 22.86% by Shanghai IC Fund.

(Registered capital: US\$3.5 billion)

*Note:* SMIC Holdings and SMIC Shanghai are wholly-owned subsidiaries of the Company.

As demonstrated above, the equity interest of the Company through its wholly-owned subsidiaries in SMSC will be diluted from 100% to 50.1%.

### ***Deemed Disposal***

As stated in the Letter from the Board, SMSC was established on 1 December 2016 and according to the unaudited accounts of SMSC, as at 31 December 2017, SMSC has total assets and total equity of approximately US\$209.0 million and US\$202.8 million, respectively. The net loss of SMSC for the year ended 31 December 2017 is approximately US\$115,240. SMSC will continue to be a subsidiary of the Company following the Capital Contribution. We have obtained the management accounts of SMSC and noted that the assets were mainly inter-group receivables and cash with no fixed assets. We consider that the deemed disposal is merely incidental to the Capital Contribution, the purpose of which is the development of SMSC and therefore, is fair and reasonable in so far as the Independent Shareholders are concerned.

### **Principal terms of the Joint Venture Agreement**

#### ***Business Scope of SMSC***

SMSC will be principally engaged in wafer manufacturing, wafer probing and bumping, technology development, design service, mask manufacturing, assembly and final testing of integrated circuits and sales of self-manufactured products.

#### ***Composition of the Board and the Supervisory Board of SMSC and General Management***

The board of directors of SMSC will comprise five directors. SMIC Holdings and SMIC Shanghai together are entitled to appoint three directors in total and each of China IC Fund and Shanghai IC Fund is entitled to appoint one director. SMIC Holdings and SMIC Shanghai together are entitled to nominate the chairman of the board of directors of SMSC, who will also act as the legal representative of SMSC.

---

## LETTER FROM MESSIS CAPITAL

---

The supervisory board of SMSC will comprise three members. China IC Fund will appoint one member who will also be the chairman of the supervisory board. Each of Shanghai IC Fund and the employees of SMSC will be entitled to appoint one member.

The Company will be responsible for managing the daily operations of SMSC. We consider such compositions reflect the shareholding of each investor in SMSC and are therefore, fair and reasonable.

### **Principal terms of the Capital Contribution Agreement**

#### ***Subscription of Registered Capital***

The registered capital of SMSC will be increased from US\$210 million to US\$3.5 billion. In respect of the increase of US\$3.29 billion, the parties have agreed that SMIC Holdings will contribute the amount of US\$1.5435 billion in cash while China IC Fund and Shanghai IC Fund will contribute the RMB equivalent of US\$946.5 million and US\$800 million in cash (calculated at the middle exchange rate of RMB to US\$ as announced by the People's Bank of China on the date of the contribution), respectively.

As stated in the Letter from the Board, the consideration of the Capital Contribution was arrived at after arm's length negotiation among the parties with reference to the net asset value, future business prospects and development potential of SMSC. The assets of SMSC are mainly inter-group balances and cash, and hence the consideration of US\$3.5 billion are also determined with reference to the future business prospects and development potential. As stated in the Feasibility Report, a large investment amount totalling up to approximately US\$10.2 billion would be required, with over 95% of the investment being for the procurement and installation of equipment. As discussed with the management of the Company, the balance of the investment amount required could be satisfied through SMSC's internal cash flow, shareholders' further contribution to the registered capital of SMSC or debt financing and the parties to the Joint Venture Agreement are not legally bound to contributing such difference between the total investment and the registered capital of SMSC. Given the immense investment required, we consider that such contribution could speed up the introduction of advanced manufacturing process to SMSC's advanced wafer fab and products while striking a balance between maintaining a majority interest in SMSC and minimising the capital outlay of the Group.

### **Financial effect of the Capital Contribution**

Following completion of the transactions contemplated under the Joint Venture Agreement and the Capital Contribution Agreement, SMSC will continue to be a subsidiary of the Company. As such, the results of operations and financial position of SMSC will continue to be consolidated in the Group's financial statements. Therefore, it is expected that the Capital Contribution would not have material impact to the financial performance and financial conditions of the Group.

## LETTER FROM MESSIS CAPITAL

### RECOMMENDATION

We consider the Capital Contribution and the deemed disposal to be a strategic corporate action of the Group, which is not in the usual and ordinary course of business of the Group. Notwithstanding the above, based on the information and representations provided and opinions given by the Board and having taken into account the above principal factors and reasons, we are of the view that the terms of the Joint Venture Agreement and the Capital Contribution Agreement and the transactions contemplated thereunder are on normal commercial terms and are fair and reasonable so far as the Independent Shareholders are concerned. Accordingly, we advise the Independent Board Committee to recommend the Independent Shareholders to vote in favour of the resolutions in connection with the Joint Venture Agreement, the Capital Contribution Agreement and the transactions contemplated thereunder at the EGM.

Yours faithfully,  
For and on behalf of
