Chairman's Statement

I am pleased to announce the annual results of Tongda Group Holdings Limited (the "Company", together with its subsidiaries, the "Group" or "Tongda Group") for the year ended 31 December 2017 (the "Year") on behalf of the board of directors of the Company (the "Board").

During the Year, handsets market in the People's Republic of China ("China" or "PRC") became more saturated and design of handsets has entered into transitional period. The upgrade and enhancement of waterproof specification have increased the Group's expenses on research and development, making it a year full of challenges and changes for the Group. Nevertheless, the Group has built a strong technology advantage through years of efforts, meeting the diversified product demand with different technologies and craftsmanship, which enable its income to increase for several years continuously.

During the Year, the total turnover surged by 9.4% to HK$8,562.8 million (2016: HK$7,825.1 million), gross profit increased by 18.3% to HK$2,231.1 million (2016: HK$1,885.4 million) and profit attributable to shareholders increased by 0.2% to HK$1,006.1 million (2016: HK$1,004.0 million). Gross profit margin is approximately 26.1% (2016: 24.1%) while net profit margin is approximately 11.7% (2016: 12.8%). The Group has always been committed in bringing fruitful returns to shareholders and has maintained a stable dividend payout record. For the Year, the Board will recommend payment of a final dividend of HK3.8 cents per share (2016: HK3.2 cents), together with the paid interim dividend of HK1.6 cents per share (2016: HK2.0 cents), the total dividend for the Year amounted to HK5.4 cents (2016: HK5.2 cents).

In view of the downturn in handsets shipments in Chinese market, and individual customers achieved strong growth in emerging markets, the Group has thus increased the development efforts and production of mid-end products to maintain high utilization rate of handsets' production capacity. There will be a significant change in handsets' function and hardware in the future, traditional metal handsets casing is harder to apply on handsets with wireless charging function and 5G Antenna configuration due to its physical limitation. Therefore, international brands have already taken the lead in using non-metal back covers with metal middle frames. In the first half of the year, the Group has already strategically developed the production capacity for back covers made of 2.5D/3D glass and maximised its lamination technology of In-Mould Lamination ("IML")/In-Mould Transfer ("IMT") developed over the past few years to achieve diversified decoration on glass back covers. The Group understands that the high unit price of 3D glass back covers may increase the cost pressure of mid-range handsets and thus it has taken the lead to launch a type of IMT uni-body casing in the middle of the year, which has a high price-performance ratio and has similar appearance and function with glass. The IMT uni-body casing was well recognised by customers and the market, the penetration rate of such design is expected to further increase in the future.

The Liquid-Silicone Rubber ("LSR"), precision insert molding and precision rubber molding parts delivered to a customer in North America, which has engaged the Group as supplier since 2016, are other growth highlights of the Group. Leveraging on the Group's years of extensive experience on processing different raw materials and manufacturing precise molds and thanks to the team who principally provides technological support to the customer, component variety, market share, products quantity and unit price have all increased significantly.

The automotive business, which has been developed over the past few years, is also expected to enter into a period of rapid development. By continuously leveraging on the advantages of its IML/IMT technology and surface treatment craftsmanship, the Group has currently secured over 20 projects which will commence production successively in the next two years. It is expected that such business will contribute more income to the Group and become another growth highlight in the future.

As for the Group's management, apart from further enhancement of automatic production, many bases of the Group have also further ramped up its automation of information during the Year so as to further enhance its standard and efficiency in project development, production, quality management, balance between demand and supply, sales risks, etc.

APPRECIATION

The Group would not have achieved such an outstanding performance during the Year without the dedicated efforts of all the staff and the management team during the past year. On behalf of the Board, I would like to take this opportunity to express gratitude towards the dedicated effort and valuable contribution of the management and all the staff of the Group during the past year. In the new year, the direction of handsets casing design would be clearer. We would also actively seize the opportunities of high-precision components. Let's get back to our initial intention and use the technology and craftsmanship that we are proud of to face the changes in the market calmly and seek opportunities amidst crises.

BUSINESS REVIEW

As the world's leading solutions provider of high-precision components for smart mobile communications and consumer electronic products, the Group's products are mainly applied in handsets, electrical appliances, notebook computers and automotives, etc. In order to enhance core competitiveness, the Group has always been committed to product innovation and technological research. The Group maintained its income growth trend for several years and increased by 9.4% to HK$8,562.8 million during the Year. Net profit attributable to the owners of the Company increased by 0.2% from HK$1,004.0 million to approximately HK$1,006.1 million during the Year.

Electrical Fittings Division

This division mainly focuses on the design and production of consumer electronic products, including casings and components for handsets, electrical appliances and notebook computers. During the Year, its revenue increased by 9.8% from HK$6,439.3 million in 2016 to approximately HK$7,070.1 million, representing 82.6% of the total turnover of the Group.

Handsets

Handsets business increased by 10.1% to HK$5,911.3 million during the Year, representing 69.0% of the total turnover. The production volume of the main products of this division, including metal casing, metal middle frames, In-Mould Transfer ("IMT") uni-body casing, back covers made of 2.5D/3D glass, waterproof/dustproof/shockproof precision components, precision injection parts and precision rubber molding parts, have all recorded an increase.

Although the handsets shipment volume in the Chinese market has dropped during the Year, individual brands recorded significant growth during the Year by enhancing their promotional efforts in foreign markets and focusing on launching mid-range handsets with high price-performance ratio. In view of such trend, the Group adjusted its product portfolio and focused on metal casings that have a high price-performance ratio, large shipment volume and simplified design to seize market share. However, due to the simple design, the average unit price dropped slightly during the Year, which partly offset the growth in shipment volume.

In order to match with the physical demand for wireless charging and the 5G Antenna configuration in the future, handsets casings have also gradually turned from traditional metal casings to metal middle frames with non-metal back covers, such as glass and plastic, during the Year. The Group strategically developed its production capacity, possessed the treatment technology and production capacity for one-stop production of glass back covers and realized small-scale mass production during the Year. Moreover, the Group realized that some customers are more willing to adopt IMT uni-body casing that has a high price-performance ratio with similar appearance and function to glass. The Group has taken the lead to become the pioneer to supply IMT uni-body casing during the Year.

The waterproof, dustproof and shockproof and high-precision components business enlarged its production rapidly during the Year. In the first half of the year, the Group has finished the research and development of new products and personnel training. The mass production of these parts for customers has started in the second half of the year. Its products include liquid-silicone rubber ("LSR"), precision insert molding parts and precision rubber molding parts. As the variety, volume and difficulty of the components for new models have all significantly increased, income contribution per handset has also increased correspondingly.

Electrical Appliances

The sales of the electrical appliances business represented 6.8% of the turnover, and its revenue decreased by 3.5% to HK$578.3 million during the Year. The Group mainly focuses on offering casings and panels with trendy designs for high-end household appliances such as air-conditioners, refrigerators, washing machines and rice-cookers, as well as printing film switches for the panels.

Notebook Computers

During the Year, this business mainly involved the production of notebook and tablet casings made of precision metal and plastics. Its revenue increased by 23.8% from HK$468.9 million to HK$580.5 million, representing 6.8% of the turnover. The Group has spun off its notebook and tablet casings manufacturing business, which was listed on the Main Board of The Stock Exchange of Hong Kong Limited, on 16 March 2018, so as to concentrate resources on its development of handset-related core businesses. Upon completion of the spin-off, the Group would no longer be involved in the computer hardware business.

Ironware Parts Division

Revenue of this division in the Year decreased by 10.4% from HK$524.3 million in the Year to HK$469.7 million, representing 5.5% of the turnover. Its main products include metal set top boxes and metal components for household appliances.

Communication Facilities and Other Business

Revenue of the communication facilities division of the Group increased by 18.8% from HK$861.4 million in 2016 to HK$1,023.0 million during the Year, representing 11.9% of the turnover. Products of this business mainly include digital satellite TV receivers, durable household goods, sports equipment and automotives. In order to realize the synergy effects brought about by the IML technology and surface treatment craftsmanship, the automotive business, for which the Group had laid a foundation several years ago, continued its growth during the Year. Currently, it is negotiating with nine customers for over 20 projects, which highlighted another development milestone for the Group in the future.

Percentage of total sales income by types of product for the year ended 31 December 2017 and a comparison with 2016 are as follows:

		2017	2016
Electrical Fittings Division		83%	82%
i.	Handsets	69%	68%
ii.	Electrical Appliances	7%	8%
iii.	Notebook Computers	7%	6%
Ironware Parts Division		5%	7%
Communication Facilities and Other Business		12%	11%

Business Prospects

Handsets will remain as the main highlight of growth as the Group will seek to further enlarge its market share. The demand for main metal components will keep rising in the future. With the rising popularity of wireless charging and the introduction of 5G handsets, mid-to high-end handsets will upgrade to the design of back covers made of 2.5D/3D glass with metal middle frame while mid-range handsets will adopt IMT casing that has a high price-performance ratio with a similar appearance to glass. The Group has over 10 years of expertise in film printing, customized mold production and surface decorating technology such as IMT and IML. Its leading technology will bring along stronger competitive advantages to the Group.

As for the waterproof, dustproof and shockproof and high-precision components, in view of the strong demand from customers and the full operation of the new plant in 2017, the Group has commenced setting up an additional plant during the second half of 2017 which is expected to be put into operation in mid-2018. The Group will strive to provide more precision parts and waterproof, dustproof and shockproof parts of handsets and other electronic products to the customers. To achieve this, the Group closely cooperates with the customer by establishing professional teams, specifically in market development and technological support in the North American region.

Automotive business is also a long-term development direction of the Group. Current research and development projects will gradually kick off mass production in the next two years. The Group will actively approach local and joint-venture automotive brands and strive to acquire more customers and orders so as to increase market share. At the same time, the Group will continue to leverage the advantages of its core In-Mould Lamination technologies and surface treatment craftsmanship, and explore other potential businesses, in order to optimize the synergy effects.

The Group has over 30 years of experience in handling surface decorating craftsmanship of different materials. Diversified processing craftsmanship and customized precision mold enable the Group to face the upgrade and changes in materials, decoration and product variety in the market more effectively. In the new year, through enhancing production efficiency of the Company by further improving our leading technology and craftsmanship, the Group will lay the foundation to adapt to the changing market and face the new challenges in the future.

FINANCIAL REVIEW

For the Year, the Group's total revenue reached HK$8,562.8 million, representing an increase of HK$737.7 million, or 9.4%, compared with the year ended 31 December 2016. The handset segment continued to dominate over other segments. Among the top 5 customers, handset customers contributed 54.0% in the Year, which is lower than 64.7% in 2016.

Gross profit of HK$2,231.1 million was HK$345.7 million, or 18.3% higher than 2016. Gross profit margin was 26.1%, representing 2.0 percentage points higher than the corresponding period of last year. Profit attributable to owners of the Company amounted to HK$1,006.1 million, representing a rise of 0.2% from HK$1,004.0 million reported in the corresponding period of 2016. The selling and distribution expenses increased by HK$5.7 million mainly attributable to the increase in freight and travelling expenses. The administrative expenses increased by HK$285.8 million mainly due to the increase in research and development ("R&D") expenses and salaries. The increase in R&D expenses was attributable to the continuous investment in R&D projects and further business development. Compared with 2016, other operating expenses saw a net decrease of HK$13.1 million, mainly attributable to the increase in impairment of trade receivables and an other receivable and partially offset by exchange gains resulted from appreciation of RMB.

Basic earnings per share amounted to HK16.82 cents, down 3.9% from HK17.50 cents for 2016.

As for tax, the Group's major operating subsidiaries fall under different tax regimes in Hong Kong and the PRC where different laws and regulations, and specific concessionary incentives apply for some specific locations. During the Year, one of the major subsidiaries is awarded as a High New Technology Enterprise and is subjected to a preferential tax rate of 15%, other than this, there have been no major changes in these taxation laws and regulations which have impacted tax expenses for the Group.

LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL STRUCTURE

The Group had a solid financial position and continued to maintain a strong and steady cash inflow from operating activities. During the Year, the Group's primary sources of funding included cash generated from operating activities and the credit facilities provided by the Group's principal banks.

As at 31 December 2017, the Group had cash and cash equivalents and pledged deposits of HK$1,274.2 million (31 December 2016: HK$1,131.2 million), and without holding any structural investment contract, of which approximately HK$481.7 million (31 December 2016: HK$262.2 million) has been pledged to banks as security for trade financing. As at 31 December 2017, the Group had total assets of HK$13,623.7 million (31 December 2016: HK$10,590.0 million), net current assets of HK$2,140.4 million (31 December 2016: HK$2,381.2 million) and equity of HK$5,885.3 million (31 December 2016: HK$4,666.3 million). Management believes that the Group's current cash and cash equivalents, together with available credit facilities and expected cash flow from operations, will be sufficient to satisfy its current operational requirements.

GEARING RATIO AND INDEBTEDNESS

As at 31 December 2017, the gearing ratio of the Group (consolidated net debt/total equity) was 45.0% (31 December 2016: 39.5%). As at 31 December 2017, other than the non-current portion of bank loans of HK$1,240.3 million (31 December 2016: bank loans of HK$609.9 million and convertible bonds of HK$876.5 million), the Group had bank and other borrowings of HK$2,235.0 million and convertible bonds of HK$445.8 million (31 December 2016: bank loans of HK$1,490.0 million) which will be repayable within one year from the end of the reporting period.

CAPITAL EXPENDITURE

The Group incurred capital expenditure of HK$1,353.1 million during the year ended 31 December 2017 (31 December 2016: HK$1,214.8 million), mainly for the additions of property, plant and equipment for expansion of its capacity in handset segment. Management believes that the Group's ability to invest in capital expenditure in timely anticipation of demand is a competitive advantage of the Group. In the foreseeable future, a higher proportion of capital expenditure will likely be focused on the handset segments. Capital expenditures are generally funded by internal resources and credit facilities.

FOREIGN EXCHANGE

Given our operations and presence become more international, the Group faces foreign exchange exposure including transaction and translation exposure. As far as possible, the Group aims to achieve natural hedging by investing and borrowing in the functional currencies. Where a natural hedge is not possible, the Group will mitigate foreign exchange risks via appropriate foreign exchange contracts. The Group has not entered nor will it enter into any derivative transactions for speculative trading purposes at 31 December 2017.

CHARGES ON GROUP ASSETS

Apart from bank deposits amounting to HK$481.7 million (31 December 2016: HK$262.2 million) that were pledged to banks and a leasehold building in Hong Kong with a carrying value amount of HK$50.2 million (31 December 2016: HK$44.5 million) mortgaged by the Group as at 31 December 2017, no other assets of the Group were charged to any financial institutions.

EMPLOYEE INFORMATION

As at 31 December 2017, the Group employed a total of approximately 18,000 permanent employees (31 December 2016: approximately 18,000 employees). Employees of the Group are remunerated based on their individual performance, professional qualifications, experience in the industry and relevant market trends. Management regularly reviews the Group's remuneration policy and appraises the work performance of its staff. Employee remuneration includes salaries, allowances, bonuses, social insurance and mandatory pension fund contribution. As required by the relevant regulations in the PRC, the Group participates in the social insurance schemes operated by the relevant local government authorities. The Group also participates in the mandatory pension fund, labour pension and mandatory provident fund schemes for our employees in Hong Kong, Taiwan and Singapore respectively.

Past Performance and Forward Looking Statements

The performance and the results of operation of the Group as set out in this annual report are historical in nature and past performance is not a guarantee of future performance. This annual report may contain certain statements that are forward-looking or which use certain forward-looking terminologies. These forward-looking statements are based on the current beliefs, assumptions and expectations of the Board regarding the industry and markets in which it operates. Actual results may differ materially from expectations discussed in such forward-looking statements and opinions. The Group, the directors of the Company (the "Director(s)"), employees and agents of the Group assume (a) no obligation to correct or update the forward-looking statements or opinions contained in this annual report of the Company; and (b) no liability in the event that any of the forward-looking statements or opinions do not materialise or turn out to be incorrect.

DIVIDENDS

The Company will consider the declaration of dividends based on its earnings, financial position, debt repayment requirements, capital expenditure plans, medium to long-term business strategies and other factors as the Board may deem appropriate. The Board may also from time to time pay to shareholders of the Company (the "Shareholder(s)") such interim dividends to be justified by the profit of the Company and may recommend final dividends for approval by the Shareholders in its annual general meetings. For the year ended 31 December 2017, an interim dividend of HK1.6 cents per ordinary share for the six months ended 30 June 2017 (2016: HK2.0 cents per ordinary share) was paid to the Shareholders. The Board has declared a final dividend of HK3.8 cents (2016: HK3.2 cents) per ordinary share in respect of the year ended 31 December 2017. This proposed final dividend together with the interim dividend already paid amount to total dividends of HK5.4 cents (2016: HK5.2 cents), an unchanged payout ratio of about 32% of the profit attributable to owners of the Company for the year ended 31 December 2017. Subject to the Shareholders' approval at the forthcoming annual general meeting to be held on 25 May 2018, the said final dividend will be payable to the Shareholders, whose names appear on the register of members of the Company on 6 June 2018. Payment will be made on or about 15 June 2018.

He graduated from the University of California, Davis and majored in economics. Mr. Wang joined the Group in January 2012 and he is the son of Mr. Wang Ya Hua and a nephew of Messrs. Wang Ya Nan, Wong Ah Yeung and Wong Ah Yu. He is a cousin of Messrs. Wang Ming Che, Wong Ming Sik, Wong Ming Yuet and Wong Ming Li.

Corporate Governance Report

CORPORATE GOVERNANCE PRACTICES

The Company and the Board are devoted to achieve and maintain the highest standards of corporate governance as the Board believes that effective corporate governance practices are fundamental to enhancing the shareholder value and safeguarding interest of the shareholders and other stakeholders. Accordingly, the Company has adopted sound corporate governance principles that emphasise a quality Board, effective internal control, stringent disclosure practices and transparency and accountability to all stakeholders.

The Company has compiled with the code provisions of the Code of Best Practice (the "CG Code") as set out in Appendix 14 to the Rules (the "Listing Rules") Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Stock Exchange") throughout 2017 with certain deviations in respect of the distinctive roles of chairman and chief executive officer and the appointment of non-executive Directors with specific terms. The following summarizes the Company's corporate governance practices and explains deviations, if any, from the CG Code.

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted a code of conduct regarding Directors' securities transactions on terms no less exacting than the Model Code for Securities Transaction by Directors of Listed Issuers set out in Appendix 10 to the Listing Rules (the "Model Code"). Having made specific enquiry of all Directors, all Directors confirmed that they have complied with the required standard of dealings as set out in the Model Code and the code of conduct regarding Directors' securities transactions adopted by the Company throughout the year ended 31 December 2017.

BOARD OF DIRECTORS

The Board is responsible for leading and controlling the business operations of the Group. It formulates strategic directions, oversees the operations and monitors the financial performance of the Group. The management is delegated power and authority given by the Board for the day-to-day management and operations of the Group. The management is accountable to the Board for the Company's overall operation.

As at 31 December 2017 and at the date of this report, the Board comprises five executive Directors (including the chairman of the Board), one non-executive Director and three independent non-executive Directors and the Board is accountable to shareholders. The management and control of the business of the Company is vested in its Board. It is the duty of the Board to create value to the shareholders of the Company.

Executive directors:

Mr. Wang Ya Nan *(Chairman)*
Mr. Wang Ya Hua *(Vice Chairman)*
Mr. Wong Ah Yeung
Mr. Choi Wai Sang
Mr. Wang Ming Che

Non-executive director:

Mr. Wong Ah Yu

Independent non-executive directors:

Dr. Yu Sun Say
Mr. Cheung Wah Fung, Christopher
Mr. Ting Leung Huel Stephen

The Board is also responsible for the establishment of the risk management system and internal control of the Company. The Board discusses with the management regularly to ensure that risk management system and internal control are operating effectively.

The Board is responsible for maintaining proper account records so as to enable the Directors to monitor the Company's overall financial position. The Board updates shareholders on the operations and financial position of the Group through half yearly and annual results announcements as well as the publication of timely announcements of other matters as prescribed by the relevant rules and regulations. The Board is bound to manage the Company in a responsible and effective manner, and therefore every Director should ensure that he carries out his duty in good faith and in compliance with the standards of the applicable laws and regulations, and acts in the best interests of the Company and its shareholders at all times.

The three independent non-executive Directors are responsible for ensuring a high standard of financial and other mandatory reporting of the Board as well as to provide a balance in the Board in order to protect shareholders' interest and overall interest of the Group.

All Directors have given time and attention to the affairs of the Group. Each executive Director is suitably qualified for his position, and has sufficient experience to hold the position so as to carry out his duties effectively and efficiently.

The Group believes that the structure of the Board is most suitable for the Group's existing operation and is most beneficial to the shareholders' interest. However, a review of the structure will be done regularly to see if any change is needed.

The Board meets regularly on a quarterly basis. All Directors are provided with details of agenda items for decisions making with reasonable notice. Directors have access to the advice and services of the company secretary who is responsible for ensuring that the Board procedures are complied with and advising the Board on compliance matters. Directors are also provided with access to independent professional advice, where necessary, in carrying out their obligations as Directors, at the expenses of the Company. Directors who are considered to have conflict of interest or material interest in the proposed transactions or issues to be discussed would not be counted in the quorum of meeting and would abstain from voting on the relevant resolution.

The Board held 4 meetings during the year with attendance record as follows:

Attendance at Board meeting	**Number of meetings attended (4 meetings in total)**
Executive Directors:	
Mr. Wang Ya Nan	4/4
Mr. Wang Ya Hua	4/4
Mr. Wong Ah Yeung	4/4

Independent Non-Executive Directors:	
Dr. Yu Sun Say, *GBM, GBS, SBS, JP*	4/4
Mr. Cheung Wah Fung, Christopher, *SBS, JP*	4/4
Mr. Ting Leung Huel Stephen	4/4

The Board held 4 meetings during the year ended 31 December 2017. The Chief Financial Officer and company secretary attended all the scheduled Board meetings to report matters arising from corporate governance, risk management, statutory compliance, accounting and finance.

During the year ended 31 December 2017, Directors had participated in different continuous professional development (the "CPD") to develop and refresh their knowledge and skills and each Directors provided their records of training to the Company respectively. The Company is of the view that all Directors meet the A.6.5 of the CG Code and details as follow:

	Notes
Mr. Wang Ya Nan	2, 3 and 4
Mr. Wang Ya Hua	1, 3 and 4
Mr. Wong Ah Yeung	1, 3 and 4
Mr. Wong Ah Yu	1, 3 and 4
Mr. Choi Wai Sang	3 and 4
Mr. Wang Ming Che	1, 3 and 4
Dr. Yu Sun Say	1, 3 and 4
Mr. Cheung Wah Fung, Christopher	1, 3 and 4

Notes:

1. Annual updated conferences for different regulations (including but not limited to accounting, tax and Listing Rules).

2. Attending overseas tertiary institution by physical attendances.

3. Attending CPD Seminars.

4. Reading related journals and/or learning materials.

All Directors, including non-executive Director and independent non-executive Directors assume the responsibilities to the shareholders of the Company for the well-being and success of the Company. They are aware of their duties to act in good faith and in the best interests of the Company.

Each of the independent non-executive Director has made an annual confirmation of his independence pursuant to Rule 3.13 of the Listing Rules. The Company is of the view that all independent non-executive Directors meet the independence guidelines set out in Rule 3.13 of the Listing Rules and are independent in accordance with the terms of the guidelines.

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

The Board has delegated a schedule of responsibilities to each of the executive directors. Mr. Wang Ya Nan, the Chairman of the Board and the Chief Executive Officer, established the Company's strategic direction, sets the Company's objectives and plans, provides leadership and ensures availability of resources in the attainment of such objectives. He is also required to control, supervise and monitor the capital, corporate finance, technical and human resources of the Group. Mr. Wang Ya Hua, the Vice Chairman of the Board, implements the decisions of the Board and manages strategies and plans approved by the Board; and prepares and monitors the annual production plans and operating budget. He is also required to give direction of the day-to-day operation in one of the main operation unit of the Group in Xiamen. Mr. Wong Ah Yu oversees the operation unit in Shishi and gives direction of the day-to-day operation. Mr. Wong Ah Yeung and Mr. Wang Ming Che oversee the operation unit in Shenzhen and to give direction of the day-to-day operation. Mr. Choi Wai Sang is responsible for the marketing function of the overseas market and product development.

According to A.2.1 of the CG Code, the roles of chairman and chief executive should be separated and should not be performed by the same individual. The division of responsibilities between the chairman and chief executive should be clearly established and set out in writing. The Company does not have a separate chairman and chief executive officer and Mr. Wang Ya Nan currently holds both positions. The Board considers that this structure will not impair the balance of power and authority between the Board and the management of the Company. In addition, vesting the roles of both chairman and chief executive officer in the same person provides the Group with strong and consistent leadership and allows for more effective planning and execution of long term business strategies. The balance of power is further ensured by the following reasons:

- Audit Committee (the "AC") is comprised exclusively of all independent non-executive Directors; and

- The independent non-executive Directors have free and direct access to the Company's external auditors and independent professional advisers when considered necessary.

The Board believes that the present structure is considered to be appropriate under the current size of operation, enabling the Company to make and implement decisions promptly and efficiently. The Board has full confidence in Mr. Wang Ya Nan, and believes that his appointment to the posts of chairman and chief executive officer is beneficial to the business prospects of the Company.

INDEPENDENT NON-EXECUTIVE DIRECTORS

The Company has three independent non-executive Directors, namely Dr. Yu Sun Say, *GBM, GBS, SBS, JP*, Mr. Cheung Wah Fung, Christopher, *SBS, JP*, and Mr. Ting Leung Huel Stephen respectively.

The three independent non-executive Directors are not appointed for a fixed term of office, but they are subject to the retirement by rotation and re-election of Directors in accordance with the Articles of Association of the Company, which require one-third of the Directors in office to retire from office by rotation and re-election at each annual general meeting. According to A.4.1 of the CG Code, it requires that all non-executive directors should be appointed for a specific term, subject to re-election. Since their respective appointment will be reviewed when they are due for re-election, the Board considers that sufficient measures have been taken to ensure that the Company's corporate governance practices are no less than those set out in the CG Code.

REMUNERATION COMMITTEE

The remuneration committee (the "RC") was set up on 8 March 2005 with written terms of reference to oversee the remuneration policy and structure for all Directors and senior management. The RC comprises the Chairman and Chief Executive Officer of the Company, Mr. Wang Ya Nan, and three independent non-executive directors, Mr. Ting Leung Huel Stephen, Dr. Yu Sun Say and Mr. Cheung Wah Fung, Christopher. Mr. Ting takes the chair of the RC. The terms of reference of RC are in compliance with the Listing Rules. The role of the RC is to recommend to the Board a framework for remunerating the Directors and senior management and to determine specific remuneration packages for them. It is provided with sufficient resources by the Company to discharge its duties.

The remuneration package for executive Directors comprises a basic salary and voluntary contributions to MPF by the Company in accordance with CG Code B.1.2(c)(ii). All revision to the remuneration packages of the Directors are subject to the review and approval of the Board. Details of Directors' remuneration are set out in note 8 to the financial statements in this annual report.

The Company operates share option schemes (the "Schemes") for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Further details of the Schemes are disclosed in note 28 to the financial statements.

The RC held one meeting during the year with attendance record as follows:

Attendance at RC meeting	**Number of meetings attended (1 meeting in total)**
RC members:	
Mr. Ting Leung Huel Stephen	1/1
Mr. Wang Ya Nan	1/1
Dr. Yu Sun Say, *GBM, GBS, SBS, JP*	1/1
Mr. Cheung Wah Fung, Christopher, *SBS, JP*	1/1

AUDIT COMMITTEE

The AC comprises all independent non-executive Directors, Mr. Ting Leung Huel Stephen, Dr. Yu Sun Say and Mr. Cheung Wah Fung, Christopher. Mr. Ting takes the chair of the AC. The terms of reference of the AC are aligned with the recommendations as set out in "A Guide for Effective Audit Committee" issued by the Hong Kong Institute of Certified Public Accountants and the code provisions as set out in the CG Code. The AC provides accounting and financial advices and recommendations to the Board as well as monitors and safeguards the independence of external auditors and relevant auditing matters. In addition, the AC is responsible to review and supervise the risk management and internal control systems of the Group and transactions with connected persons (if any).

The Group's unaudited interim results for the six months ended 30 June 2017 and audited annual results for the year ended 31 December 2017 have been reviewed by the AC which was of the opinion that the preparation of the relevant financial statements complied with the applicable accounting standards and requirements and that adequate disclosure has been made. The AC has also reviewed the effectiveness of the risk management and the internal control systems of the Company and considers the risk management and internal control systems to be effective and adequate.

The AC held two meetings during the year with attendance record as follows:

Attendance at AC meeting	Number of meetings attended (2 meetings in total)
AC members and attendants:	
Mr. Ting Leung Huel Stephen	2/2
Dr. Yu Sun Say, *GBM, GBS, SBS, JP*	2/2
Mr. Cheung Wah Fung, Christopher, *SBS, JP*	2/2

NOMINATION COMMITTEE

The nomination committee (the "NC") was set up on 14 March 2012 with written terms of reference to review the structure, size, composition and diversity (including but not limited to gender, age, cultural and educational background, ethnicity or the skills, knowledge, professional experience and length of service) of the Board and make recommendations on any proposed changes to the Board to complement the Company's corporate strategy.

The NC comprises the Chairman and Chief Executive Officer of the Company, Mr. Wang Ya Nan, and three independent non-executive directors, Dr. Yu Sun Say, Mr. Cheung Wah Fung, Christopher and Mr. Ting Leung Huel Stephen. Mr. Wang takes the chair of the NC. The terms of reference of NC are in compliance with the Listing Rules.

The role and function of the NC include to determine the policy for the nomination of directors, identify individuals suitably qualified to join the Board by the selection of individuals nominated for directorships and to make recommendations to the Board on the appointment or reappointment of Directors and succession planning for Directors, in particular the chairman of the Board and the chief executive taking into account the Company's corporate strategy and the mix of skills, knowledge, experience and the diversity needed in the future.

The NC held one meeting during the year with attendance record as follows:

Attendance at NC meeting	Number of meetings attended (1 meeting in total)
NC members:	
Mr. Wang Ya Nan	1/1
Dr. Yu Sun Say, *GBM, GBS, SBS, JP*	1/1
Mr. Cheung Wah Fung, Christopher, *SBS, JP*	1/1
Mr. Ting Leung Huel Stephen	1/1

ACCOUNTABILITY AND AUDIT

The Directors acknowledge their responsibilities for the preparation of the financial statements of the Group in accordance with statutory requirements and accounting standards. The Directors also acknowledge their responsibilities to ensure that the financial statements for the Group are published in a timely manner. The Directors consider that the financial statements have been prepared in conformity with the generally accepted accounting standards in Hong Kong, and reflect amounts that are based on the best estimates and reasonable, informed and prudent judgment of the Board and management with an appropriate consideration to materiality. The Directors, having made appropriate enquires, confirm that they are not aware of any material uncertainties relating to events or conditions that may cast significant doubt upon the Company's ability to continue as a going concern.

The accounting systems and internal control of the Group are designed to prevent any misappropriation of the Group's assets, any unauthorised transactions as well as to ensure the accuracy of the accounting records and the true and fairness of the financial statements.

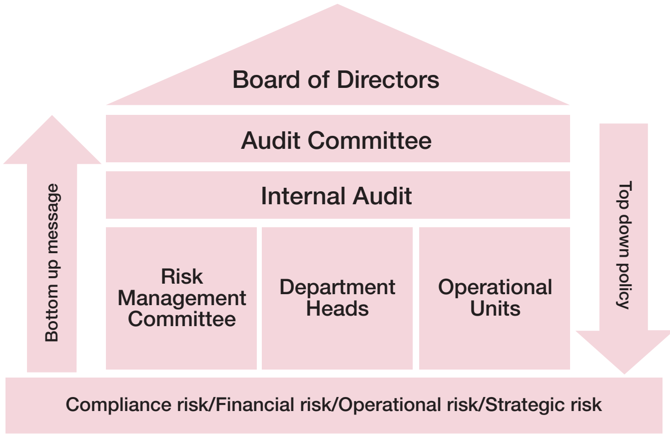
The Board also acknowledges its responsibility to present a balanced, clear and understandable assessment in the Company's annual and half-yearly reports, other inside information announcements and other financial disclosures required under Listing Rules, and reports to the regulators as well as to information required to be disclosed pursuant to statutory requirements.

The statement of the auditors of the Company about their reporting responsibilities on the financial statements of the Group is set out in the Independent Auditor's Report on pages 38 to 42 of this annual report.

RISK MANAGEMENT AND INTERNAL CONTROL

The Group has complied with the risk management and internal control code provisions during the reporting period. The Directors assume the responsibility for maintaining and reviewing the effectiveness of the Group's risk management and internal control systems, and through the Company's Audit Committee, kept regularly appraised of significant risks that may impact on the Group's performance. The Group's system of internal control includes a defined management structure with limits of authority. Appropriate policies and control procedures have been designed, implemented and reviewed to ensure that assets are safeguarded against improper use or disposal; established system, relevant rules and regulations are adhered to and complied with; reliable financial and accounting records are maintained in accordance with relevant accounting standards and regulatory reporting requirements; and key risks that may impact on the Group's performance are appropriately identified and managed. Such procedures are designed to manage, rather than eliminate, the risk of failure to achieve business objectives. These procedures can only provide reasonable, and not absolute, assurance against material misstatement, errors, losses and fraud.

The Board oversees risk management and internal controls of the Group on an on-going basis, with the risk management framework as follows:



The risk management framework in Tongda Group

Risk management committee is formed in 2015 by Chairman and CFO, each manufacturing base of finance unit and operational unit included.

Our Group systematically considered the changes, since the last annual review in the nature and extent of four core risks: (1) Compliance risk – risk of exposure to legal penalties or financial loss, the Group will face when it fails to accordance with industry laws and regulations, internal policies or best practices. (2) Financial risk – it is associated with financial transactions, which covers credit risk, liquidity risk, exchange rate risk and interest rate risk and etc. (3) Operational risk – it results from inadequate or failed internal processes, people and system. This includes fraud risk, vendor outage or processing errors and etc. (4) Strategic risk – the current and prospective adverse impact on earnings or capital arises from adverse business development decisions, improper strategic decision-making process, and/or lack of responsiveness to industry changes, etc. This includes reputation risk, legal risk and compliance risk.

With the system in place, the Board is able to identify and classify the key risks faced by the Group; assess the likelihood and impact of each risk factor faced by the Group; carry out review and assessment on those critical aspects of the key procedures, systems and controls of the Company to address the risk factors faced by the Group; respond to changes in its business and external environment. The Board keeps an ongoing monitoring of risks and of the internal control systems; evaluate the residual risks faced by the Group with the relevant control measures taken into account; and make recommendations, based on our observations, we can manage rather than eliminate the risk of failure to achieve business objectives.

Our Group has already adopted Policy and Procedures on Disclosure of Inside Information since 2014, details of which are disclosed in Company website and there is no material breach of the procedures and internal controls for the handling and dissemination of inside information.

In addition to the risk management and internal control function carried out internally by the Group, an external independent audit firm, Baker Tilly Hong Kong Business Services Ltd. has been appointed to review and appraise the internal control system of the Group. The annual internal control review plan of the Group covers major activities and material controls (including operational, financial and compliance) of the Group's business and service units. A report on the result of assessment and recommendations from Baker Tilly Hong Kong Business Services Ltd. was provided to the Audit Committee in March 2018.

The Audit Committee considers that the internal audit function is adequately resourced and has appropriate standing in the Company. The internal audit function is staffed with persons with relevant qualifications and experience. The Audit Committee also considers that the internal auditor has carried out its function according to appropriate professional standards. The Audit Committee has met, at least annually, to review the adequacy and effectiveness of the internal audit function. The Board and the Audit Committee have reviewed the reports of the internal auditor and the internal controls in place, and are satisfied that there are adequate internal controls in the Company. The internal auditor reports directly to the Chairman of the Audit Committee and administratively to the Executive Directors.

Based on the review carried out by Baker Tilly Hong Kong Business Services Ltd., the Audit Committee and the Board, the Board concluded that there are no material irregularities nor areas of concern that would have significant adverse impact on the Company's financial position or results of operations, and that the risk management and internal control systems are adequate and effective and the Company's resources, staff qualifications and experience, training programs and budget for accounting, internal audit, financial reporting function and Listing Rule compliance are adequate.

COMPANY SECRETARY

As at 31 December 2017, the company secretary of the Company is Ms. Chan Sze Man and a written confirmation had been received by the Company from Ms. Chan to confirm she took no less than 15 hours of relevant professional training during the year ended 2017. The Company is on the view that Ms. Chan complied with the Rule 3.29 of the Listing Rules.

EXTERNAL AUDITORS

Currently, the Group's external auditors are Ernst & Young. Ernst & Young has been appointed as the external auditors of the Company by the shareholders of the Company at the Annual General Meeting 2017. The AC is responsible for making recommendation to the Board on the appointment, re-appointment and removal of the authorised external auditors and to approve the remuneration and terms of engagement of the external auditors, and any questions of resignation or dismissal of the external auditors. The AC has given their opinion on the fee charged by the external auditors to the Company and has approved the appointment of Ernst & Young as auditors, which the Board fully concurred with such approval of the AC. The responsibilities of the external auditors on the financial statements are set out in the "Independent Auditor's Report" on pages 38 to 42 of this annual report.

Shareholders of the Company may send their enquiries and concerns to the Board by addressing them to the company secretary of the Company by mail at Room 1201-02, 12th Floor, Shui On Centre, 6-8 Harbour Road, Wanchai, Hong Kong. The company secretary of the Company is responsible for forwarding communications relating to matters within the Board's direct responsibilities to the Board and communications relating to ordinary business matters, such as suggestions, inquiries and customer complaints, to the chief executive officer of the Company.

COMMUNICATION WITH SHAREHOLDERS

The Directors recognise the importance of long-term support from the shareholders of the Company. The Company attaches great priority to establish effective communication with its shareholders and investors. In an effort to enhance such communications, the Company provides information relating to the Company and its business in its annual report and also disseminates such information electronically through its website at http://www.tongda.com.

The Company regards the annual general meeting as an important event as it provides an opportunity for direct communication between the Board and its shareholders. All Directors, senior management and external auditors make an effort to attend the annual general meeting of the Company to address shareholders' queries. All the shareholders of the Company are given a minimum of 21 clear business days' notice of the date and venue of the annual general meeting of the Company. The Company supports the CG Code's principle to encourage shareholders' participation.

The Board will review regularly the Group's operation and corporate governance of the Company in order to ensure compliance of the articles of association of the Company, the laws of the Cayman Islands and regulations and to protect the interest of its shareholders. There is no change in the Company's memorandum and articles of association during the year ended 31 December 2017.

The proposed final dividend will be paid on or about 15 June 2018 following approval at the 2017 Annual General Meeting. Details are set out in note 10 to the financial statements.

BUSINESS REVIEW

The business review of the Group for the year ended 31 December 2017 is set out in the "Management Discussion and Analysis" on pages 5 to 10 of this annual report and the cross-referenced part of the annual report forms part of the directors' report. The Group committed to enhancing governance, promoting employee benefits and development, protecting the environment and giving back to society in order to fulfill social responsibility and achieve sustainable growth.

POSSIBLE RISKS AND UNCERTAINTIES FACING THE COMPANY

The Group's financial conditions, results of operations, businesses and prospects may be affected by a number of risks and uncertainties. The following are the key risks and uncertainties identified by the Group. There may be other risks and uncertainties which are not known to the Group or which may not be material now but could turn out to be material in the future.

Business Risk

A substantial portion of the operating assets of the Group are located in the PRC and the Group expects that a material portion of the turnover will continue to be derived from the operations in the PRC. The results of operations and prospects are subject, to a significant degree, to economic, political and legal developments in the PRC. The economy of the PRC differs from the economies of most developed countries in many respects, including the extent of government involvement, the level of development, the growth rate, and government control of foreign exchange. The Group cannot predict whether changes in the PRC's political, economic and social conditions, laws, regulations and policies will have any material adverse effect on the current or future business, results of operation or financial condition of the Group.

Financial Risk

The financial risk management of the Group are set out in note 37 to the financial statements and the cross-referenced part of the annual report forms part of the directors' report.

ENVIRONMENTAL POLICY

The Group has strong commitment towards environmental protection. The management will review the Group's environmental practices from time to time and will consider implementing further ecology friendly measures and practices in the operation to enhance environmental protection and sustainability. Details of which are disclosed in our Environmental, Social and Governance report, which will be issued separately by the Company.

COMPLIANCE WITH RELEVANT LAWS AND REGULATIONS

During the year, as far as the Directors are aware, there was no material non-compliance with applicable laws and regulations by the Group that has a significant impact on the Group's business and operations.

RELATIONS WITH KEY STAKEHOLDERS

The Board recognises that our employees are valuable assets contributing to the Group's future success. The Group provides competitive remuneration package to attract, motivate and retain our employees. The Board also regularly reviews the remuneration package of our employees and makes necessary adjustments to conform to the prevailing market practices. The Board also treasures that maintaining good relationship with our customers and suppliers is vital to achieve the Group's long-term goals. During the year, there was no significant dispute between the Group companies and our business partners.

SUMMARY FINANCIAL INFORMATION

A summary of the published results and assets, liabilities and non-controlling interests of the Group for the last five financial years, as extracted from the published audited financial statements, is set out on page 134. This summary does not form part of the audited financial statements.

PROPERTY, PLANT AND EQUIPMENT AND INVESTMENT PROPERTY

Details of movements in the property, plant and equipment and the investment property of the Group during the year are set out in notes 12 and 13 to the financial statements.

SHARE CAPITAL AND SHARE OPTIONS

Details of movements in the Company's share capital and share options during the year, together with the reasons therefor, are set out in notes 27 and 28 to the financial statements.

PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Company's articles of association or the laws of the Cayman Islands, being the jurisdiction in which the Company was incorporated, which would oblige the Company to offer new shares on a pro rata basis to existing shareholders.

PURCHASE, REDEMPTION OR SALE OF LISTED SECURITIES OF THE COMPANY

During the year ended 31 December 2017, the Company repurchased a total of 59,680,000 shares of the Company on the Stock Exchange for enhancing the net asset value and earnings per share of the Company. All the repurchased shares were cancelled. Details of the repurchases of shares are as follows:

Month	Number of shares repurchased	Purchase price per share		Aggregate purchase price (excluding expenses)
		Highest	Lowest	
		HK$	HK$	HK$
May	31,220,000	2.46	2.23	72,961,900
June	28,460,000	2.10	1.97	57,805,900
	59,680,000			130,767,800

Save as disclosed above, neither the Company nor any of its subsidiaries had purchased, sold or redeemed any listed securities of the Company during the year ended 31 December 2017.

RESERVES

Details of movements in the reserves of the Company and the Group during the year are set out in note 38 to the financial statements and in the consolidated statement of changes in equity, respectively.

DISTRIBUTABLE RESERVES

At 31 December 2017, the Company's reserves available for distribution, calculated in accordance with the Companies Law (2004 Revision) of the Cayman Islands, amounted to HK$1,371,923,000, of which approximately HK$229,965,000 has been proposed after the reporting period as a final dividend. This includes the Company's share premium account in the amount of HK$1,340,928,000 as at 31 December 2017, which may be distributed in the form of fully paid bonus shares.

CHARITABLE CONTRIBUTIONS

During the year, the Group made charitable contributions totalling HK$558,000.

MAJOR CUSTOMERS AND SUPPLIERS

In the year under review, sales to the Group's five largest customers accounted for 64.6% of the total sales for the year and sales to the largest customer included therein amounted to 31.1%. Purchases from the Group's five largest suppliers accounted for 19.7% of the total purchases for the year and purchases from the largest supplier included therein amounted to 9.2%.

None of the directors of the Company or any of their close associates or any shareholders (which, to the best knowledge of the directors, own more than 5% of the Company's issued share capital) had any beneficial interest in the Group's five largest customers or suppliers.

Independent Auditor's Report

EY 安永

To the shareholders of Tongda Group Holdings Limited
(Incorporated in Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Tongda Group Holdings Limited (the "Company") and its subsidiaries (the "Group") set out on pages 43 to 133, which comprise the consolidated statement of financial position as at 31 December 2017, and the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2017, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

KEY AUDIT MATTERS *(continued)*

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Key audit matter	How our audit addressed the key audit matter
Impairment of trade and bills receivables As at 31 December 2017, the Group had a gross trade and bills receivables balance of HK$3,944,075,000 and impairment allowances of HK$53,266,000. Management evaluates the estimated trade and bills receivables provisions based on specific review of customers' accounts as well as experience with collection trends and current business conditions. The accounting policies and disclosures for trade and bills receivables allowances are included in notes 2.4, 3 and 20 to the consolidated financial statements.	Our audit procedures included, among others, selecting samples for the circularisation of debtor confirmations, checking subsequent settlements of trade and bills receivables, and reviewing trade and bills receivables aging report to identify any long overdue debts and their historical pattern of settlements.
Provision against inventories As at 31 December 2017, the Group had a gross inventory balance of HK$2,724,947,000 and inventory obsolescence of HK$48,428,000. As the technology for the production of electrical fittings is constantly changing, the Group's inventories are subject to significant risk of obsolescence because market prices may drop as a result of the change in industry trend. Furthermore, managements' estimations of and assumptions on future sales are required when determining inventory provision for surplus inventories or obsolete stocks. The accounting policies and disclosures for provision against inventories are included in notes 2.4, 3 and 19 to the consolidated financial statements.	Our audit procedures included, among others, performing lower of cost and net realisable value tests by reviewing gross profit margin analysis of products during the year and discussing with management regarding their pricing policy and provision basis, performing obsolescence review by reviewing the subsequent usage of raw materials, work in progress and delivery of finished goods to customers and attending physical inventory count and performing compilation test.

OTHER INFORMATION INCLUDED IN THE ANNUAL REPORT

The directors of the Company are responsible for the other information. The other information comprises the information included in the Annual Report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

The directors of the Company are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(continued)*

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Law Fu Yuen, Patrick.

1. CORPORATE AND GROUP INFORMATION

Tongda Group Holdings Limited (the "Company") is a limited liability company incorporated in the Cayman Islands. The registered office address of the Company is Century Yard, Cricket Square, Hutchins Drive, P.O. Box 2681GT, George Town, Grand Cayman, Cayman Islands.

The principal activity of the Company is investment holding. The principal activities of the Company's subsidiaries are set out in note 39. There were no significant changes in the nature of the subsidiaries' principal activities during the year.

2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for a leasehold building in Hong Kong classified as property, plant and equipment and the investment property which have been measured at fair value. These financial statements are presented in Hong Kong dollars ("HK$") and all values are rounded to the nearest thousand except when otherwise indicated.

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the "Group") for the year ended 31 December 2017. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

(a) the contractual arrangement with the other vote holders of the investee;
(b) rights arising from other contractual arrangements; and
(c) the Group's voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

2.1 BASIS OF PREPARATION *(continued)*

Basis of consolidation *(continued)*

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the following revised standards for the first time for the current year's financial statements.

Amendments to HKAS 7	*Disclosure Initiative*
Amendments to HKAS 12	*Recognition of Deferred Tax Assets for Unrealised Losses*
Amendments to HKFRS 12 included in *Annual improvements to HKFRSs 2014 – 2016 Cycle*	*Disclosure of Interests in Other Entities: Clarification of the Scope of HKFRS 12*

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES *(continued)*

The nature and the impact of the amendments are described below:

(a) Amendments to HKAS 7 require an entity to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes. Disclosure of the changes in liabilities arising from financing activities is provided in note 34 to the financial statements.

(b) Amendments to HKAS 12 clarify that an entity, when assessing whether taxable profits will be available against which it can utilise a deductible temporary difference, needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of that deductible temporary difference. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount. The amendments have had no impact on the financial position or performance of the Group as the Group has no deductible temporary differences or assets that are in the scope of the amendments.

(c) Amendments to HKFRS 12 clarify that the disclosure requirements in HKFRS 12, other than those disclosure requirements in paragraphs B10 to B16 of HKFRS 12, apply to an entity's interest in a subsidiary, a joint venture or an associate, or a portion of its interest in a joint venture or an associate that is classified as held for sale or included in a disposal group classified as held for sale. The amendments have had no impact on the Group's financial statements as the Group does not have subsidiaries classified as a disposal group held for sale as at 31 December 2017 and so no additional information is required to be disclosed.

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS

The Group has not applied the following new and revised HKFRSs, that have been issued but are not yet effective, in these financial statements.

Further information about those HKFRSs that are expected to be applicable to the Group is as follows:

HKFRS 15, issued in July 2014, establishes a new five-step model to account for revenue arising from contracts with customers. Under HKFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in HKFRS 15 provide a more structured approach for measuring and recognising revenue. The standard also introduces extensive qualitative and quantitative disclosure requirements, including disaggregation of total revenue, information about performance obligations, changes in contract asset and liability account balances between periods and key judgements and estimates. The standard will supersede all current revenue recognition requirements under HKFRSs. In June 2016, the HKICPA issued amendments to HKFRS 15 to address the implementation issues on identifying performance obligations, application guidance on principal versus agent and licences of intellectual property, and transition. The amendments are also intended to help ensure a more consistent application when entities adopt HKFRS 15 and decrease the cost and complexity of applying the standard. The Group has assessed the impact of this standard and expects that the standard will not have significant impact, when applied, on the consolidated financial statements of the Group.

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS *(continued)*

HKFRS 16, issued in May 2016, replaces HKAS 17 Leases, HK(IFRIC)-Int 4 Determining whether an Arrangement contains a Lease, HK(SIC)-Int 15 Operating Leases – Incentives and HK(SIC)-Int 27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to recognise assets and liabilities for most leases. The standard includes two recognition exemptions for lessees – leases of low-value assets and short-term leases. At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). The right-of-use asset is subsequently measured at cost less accumulated depreciation and any impairment losses unless the right-of-use asset meets the definition of investment property in HKAS 40, or relates to a class of property, plant and equipment to which the revaluation model is applied. The lease liability is subsequently increased to reflect the interest on the lease liability and reduced for the lease payments. Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset. Lessees will also be required to remeasure the lease liability upon the occurrence of certain events, such as change in the lease term and change in future lease payments resulting from a change in an index or rate used to determine those payments. Lessees will generally recognise the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset. Lessor accounting under HKFRS 16 is substantially unchanged from the accounting under HKAS 17.

As disclosed in note 31 to the financial statements, the Group had total future minimum lease payments under non-cancellable operating lease as at 31 December 2017 amounting to HK$90,842,000. The directors do not expect the adoption of HKFRS 16 would result in a significant impact on the Group's financial performance but expect that certain portion of these lease commitments will be required to be recognised in the consolidated statement of financial position as right-of-use assets and lease liabilities.

In September 2014, the HKICPA issued the final version of HKFRS 9, bringing together all phases of the financial instruments project to replace HKAS 39 and all previous versions of HKFRS 9. The standard introduces new requirements for classification and measurement, impairment and hedge accounting. The Group will adopt HKFRS 9 from 1 January 2018. The Group will not restate comparative information and will recognise any transition adjustments against the opening balance of equity at 1 January 2018. During 2017, the Group has performed an assessment of the impact of the adoption of HKFRS 9. The expected impacts relate to the classification and measurement and the impairment requirements and are summarised as follows:

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS *(continued)*

(a) Classification and measurement

Upon adoption of HKFRS 9, the classification and measurement of financial assets depends on two assessments: the financial asset's contractual cash flow characteristics and the Group's business model for managing the financial asset.

The Group has assessed that its loan receivables pass the contractual cash flow characteristics and business model tests of HKFRS 9 and will continue to be recorded at amortised cost. However, should the loan not pass the abovementioned tests, they will be reclassified as financial assets at fair value through profit or loss.

(b) Impairment

HKFRS 9 requires the Group to record expected credit losses ("ECLs") on its loans and trade receivables, either on a 12-month or lifetime basis. Impairment is calculated based on historically observed data and may be subject to changes arising from further reasonable and supportable information available to the Group.

The Group will apply the simplified method for trade receivables, which implies no tracking of changes in credit risk but recognition of lifetime ECLs at all times. Furthermore, the general approach will be applied to loan receivables and 12-month ECLs are estimated based on the possible default events within the next twelve months. Should there be evidence of a significant increase in credit risk, impairment will be calculated based on lifetime ECLs.

The directors anticipate that the adoption of HKFRS 9 will have no significant impact on the results and the financial position of the Group.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investments in associates and joint ventures

An associate is an entity in which the Group has a long term interest of generally not less than 20% of the equity voting rights and over which it is in a position to exercise significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The Group's investments in associates and joint ventures are stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses.

The Group's share of the post-acquisition results and other comprehensive income of associates and joint ventures is included in the consolidated income statement and consolidated statement of comprehensive income, respectively. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and its associates or joint ventures are eliminated to the extent of the Group's investments in the associates or joint ventures, except where unrealised losses provide evidence of an impairment of the assets transferred. Goodwill arising from the acquisition of associates is included as part of the Group's investments in associates or joint ventures.

If an investment in an associate becomes an investment in a joint venture or vice versa, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method. In all other cases, upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation at fair value or at the proportionate share of the acquiree's identifiable net assets. All components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Business combinations and goodwill *(continued)*

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of operation disposed of and the portion of the cash-generating unit retained.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Fair value measurement

The Group measures its leasehold building in Hong Kong and investment property at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — based on quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 — based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly

Level 3 — based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, deferred tax assets and financial assets), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the income statement in the period in which it arises, unless the asset is carried at a revalued amount, in which case the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the income statement in the period in which it arises, unless the asset is carried at a revalued amount, in which case the reversal of the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Related parties

A party is considered to be related to the Group if:

(a) the party is a person or a close member of that person's family and that person

(i) has control or joint control over the Group;

(ii) has significant influence over the Group; or

(iii) is a member of the key management personnel of the Group or of a parent of the Group;

or

(b) the party is an entity where any of the following conditions applies:

(i) the entity and the Group are members of the same group;

(ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);

(iii) the entity and the Group are joint ventures of the same third party;

(iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;

(v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;

(vi) the entity is controlled or jointly controlled by a person identified in (a);

(vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and

(viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Property, plant and equipment and depreciation

Property, plant and equipment, other than construction in progress, are stated at cost or valuation less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the income statement in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Valuations are performed frequently enough to ensure that the fair value of a revalued asset does not differ materially from its carrying amount. Changes in the values of property, plant and equipment are dealt with as movements in the asset revaluation reserve. If the total of this reserve is insufficient to cover a deficit, on an individual asset basis, the excess of the deficit is charged to the income statement. Any subsequent revaluation surplus is credited to the income statement to the extent of the deficit previously charged. An annual transfer from the asset revaluation reserve to retained profits is made for the difference between the depreciation based on the revalued carrying amount of an asset and the depreciation based on the asset's original cost. On disposal of a revalued asset, the relevant portion of the asset revaluation reserve realised in respect of previous valuations is transferred to retained profits as a movement in reserves.

Depreciation is calculated on the straight-line basis to write off the cost or valuation of each item of property, plant and equipment to its residual value, over the following estimated useful lives:

Leasehold building in Hong Kong	Over the lease terms
Leasehold buildings in Mainland China	Over the lease terms
Leasehold improvements	Over the lease terms or 5 years, whichever is shorter
Plant and machinery	10 – 12 years
Furniture, fixtures and office equipment	3 – 10 years
Motor vehicles	5 – 10 years

Estimated residual values are determined as 5% to 10% of the original purchase cost of each individual underlying asset.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Property, plant and equipment and depreciation *(continued)*

Where parts of an item of property, plant and equipment have different useful lives, the cost or valuation of that item is allocated on a reasonable basis among the parts and each part is depreciated separately.

Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the income statement in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Construction in progress represents leasehold buildings under construction, plant and machinery and furniture and fixtures and motor vehicles which is stated at cost less any impairment losses, and is not depreciated. Cost comprises the direct costs of construction and capitalised borrowing costs on related borrowed funds during the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

Investment property

An investment property is an interest in a land and a building (including the leasehold interest under an operating lease for a property which would otherwise meet the definition of an investment property) held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. Such property is measured initially at cost, including transaction costs. Subsequent to initial recognition, an investment property is stated at fair value, which reflects market conditions at the end of the reporting period.

Gains or losses arising from changes in the fair value of an investment property are included in the income statement in the year in which they arise.

Any gains or losses on the retirement or disposal of an investment property are recognised in the income statement in the year of the retirement or disposal.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the weighted average basis and, in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of manufacturing overheads based on normal levels of activity. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

Operating leases

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Where the Group is the lessor, assets leased by the Group under operating leases are included in non-current assets, and rentals receivables under the operating leases are credited to the income statement on the straight-line basis over the lease terms. Where the Group is the lessee, rentals payable under the operating leases are charged to the income statement on the straight-line basis over the lease terms.

Prepaid land lease payments under operating leases are initially stated at cost and subsequently recognised on the straight-line basis over the lease terms. When the lease payments cannot be allocated reliably between the land and buildings elements, the entire lease payments are included in the cost of the land and buildings as a finance lease in property, plant and equipment.

Investments and other financial assets

Initial recognition and measurement

The Group determines the classification of its financial assets at initial recognition. When financial assets are recognised initially, they are measured at fair value plus transaction costs that are attributable to the acquisition of the financial assets, except in the case of financial assets recorded at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

The Group's financial assets include cash and cash equivalents, pledged deposits, loan receivables, trade and bills receivables, deposits and other receivables, loans to a jointly-controlled entity, and an amount due from a jointly-controlled entity.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Investments and other financial assets *(continued)*

Subsequent measurement
The subsequent measurement of loans and receivables is as follows:

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such assets are subsequently measured at amortised cost using the effective interest rate method less any allowance for impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and includes fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in other income and gains in the income statement. The loss arising from impairment is recognised in the income statement.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or

- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Impairment of financial assets

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. An impairment exists if one or more events that occurred after the initial recognition of the asset have an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that a debtor or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Financial assets carried at amortised cost

For financial assets carried at amortised cost, the Group first assesses whether impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

The amount of any impairment loss identified is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate (i.e., the effective interest rate computed at initial recognition).

The carrying amount of the asset is reduced either directly or through the use of an allowance account and the loss is recognised in the income statement. Interest income continues to be accrued on the reduced carrying amount using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Loans and receivables together with any associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the Group.

If, in a subsequent period, the amount of the estimated loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited to the income statement.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Impairment of financial assets *(continued)*

Assets carried at cost

If there is objective evidence that an impairment loss has been incurred on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, or on a derivative asset that is linked to and must be settled by delivery of such an unquoted equity instrument, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Impairment losses on these assets are not reversed.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs.

The Group's financial liabilities include trade and bills payables, other payables, amounts due to a former non-controlling shareholder of a subsidiary, associates and a jointly-controlled entity, interest-bearing bank and other borrowings, and convertible bonds.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Financial liabilities *(continued)*

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Loans and borrowings

After initial recognition, interest-bearing bank and other borrowings are subsequently measured at amortised cost, using the effective interest method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the income statement when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the income statement.

Convertible bonds

The component of convertible bonds that exhibits characteristics of a liability is recognised as a liability in the statement of financial position, net of transaction costs. On issuance of convertible bonds, the fair value of the liability component is determined using a market rate for an equivalent non-convertible bond; and this amount is carried as a long term liability on the amortised cost basis until extinguished on conversion or redemption. The remainder of the proceeds is allocated to the conversion option that is recognised and included in shareholders' equity, net of transaction costs. The carrying amount of the conversion option is not remeasured in subsequent years.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the income statement.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

- in respect of taxable temporary differences associated with investments in subsidiaries, associates and a jointly-controlled entity, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carryforward of unused tax credits and unused tax losses. Deferred tax assets are recognised, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

- in respect of deductible temporary differences associated with investments in subsidiaries, associates and a jointly-controlled entity, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Income tax *(continued)*

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, which it is intended to compensate, are expensed.

Research and development costs

All research costs are charged to the income statement as incurred.

Expenditure incurred on projects to develop new products is capitalised and deferred only when the Group can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the project and the ability to measure reliably the expenditure during the development. Product development expenditure which does not meet these criteria is expensed when incurred.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the income statement.

Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, and assets similar in nature to cash, which are not restricted as to use.

Foreign currencies

These financial statements are presented in Hong Kong dollars, which is the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities of the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in the income statement.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Foreign currencies *(continued)*

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on retranslation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

The functional currencies of certain overseas subsidiaries and associates are currencies other than the Hong Kong dollar. As at the end of the reporting period, the assets and liabilities of these entities are translated into Hong Kong dollars at the exchange rates prevailing at the end of the reporting period and their income statements are translated into Hong Kong dollars at the weighted average exchange rates for the year. The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the income statement.

For the purpose of the consolidated statement of cash flows, the cash flows of overseas subsidiaries are translated into Hong Kong dollars at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into Hong Kong dollars at the weighted average exchange rates for the year.

Revenue recognition

Revenue is recognised when it is probable that the economic benefits will flow to the Group and when the revenue can be measured reliably, on the following bases:

(a) from the sale of goods, when the significant risks and rewards of ownership have been transferred to the buyer, provided that the Group maintains neither managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold;

(b) interest income, on an accrual basis using the effective interest method by applying the rate that discounts the estimated future cash receipts over the expected life of the financial instrument to the net carrying amount of the financial asset; and

(c) rental income, on a time proportion basis over the lease terms.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Employee benefits

Share-based payments
The Company operates a share option scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Employees (including directors) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments ("equity-settled transactions").

The cost of equity-settled transactions with employees for grants after 7 November 2002 is measured by reference to the fair value at the date at which they are granted. The fair value is determined by an external valuer using a binomial option pricing model, further details of which are given in note 28 to the financial statements.

The cost of equity-settled transactions is recognised in employee benefit expense, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the income statement for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

For awards that do not ultimately vest because non-market performance and/or service conditions have not been met, no expensive is recognised. Where awards include a market or non-vesting condition, the transactions are treated as vesting irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payments, or is otherwise beneficial to the employee as measured at the date of modification.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Employee benefits *(continued)*

Share-based payments (continued)

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. This includes any award where non-vesting conditions within the control of either the Group or the employee are met. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of earnings per share.

Retirement benefit schemes

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance for those employees who are eligible to participate in the MPF Scheme. Contributions are made based on a percentage of the employees' basic salaries and are charged to the income statement as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme, except for the Group's employer voluntary contributions, which are refunded to the Group when the employee leaves employment prior to the contributions vesting fully, in accordance with the rules of the MPF Scheme.

The employees of the Group's subsidiaries which operate in Mainland China are required to participate in a central pension scheme operated by the local municipal government. These subsidiaries are required to contribute a certain percentage of their payroll costs to the central pension scheme. The contributions are charged to the income statement as they become payable in accordance with the rules of the central pension scheme.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

3. SIGNIFICANT ACCOUNTING JUDGEMENT AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Judgement

In the process of applying the Group's accounting policies, management has made the following judgement, apart from those involving estimations, which has the most significant effect on the amounts recognised in the financial statements:

Classification between investment properties and owner-occupied properties in Mainland China
The Group determines whether a property qualifies as an investment property, and has developed criteria in making that judgement. Investment property is a property held to earn rentals or for capital appreciation or both. Therefore, the Group considers whether a property generates cash flows largely independently of the other assets held by the Group. Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could be sold separately or leased out separately under a finance lease, the Group accounts for the portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgement is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as an investment property.

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

3. SIGNIFICANT ACCOUNTING JUDGEMENT AND ESTIMATES *(continued)*

Estimation uncertainty *(continued)*

Provision against inventories

The management of the Group reviews the ageing analysis of inventories at the end of each reporting period, and makes allowance for obsolete and slow-moving inventory items identified that are no longer suitable for use in production. Management estimates the net realisable value for such finished goods and work in progress based primarily on the latest invoice prices and current market conditions. The carrying amount of inventories at 31 December 2017 was HK$2,676,519,000 (2016: HK$1,739,740,000). Further details are given in note 19.

Impairment of trade and bills receivables and other receivables

Impairment of trade and bills receivables and other receivables is made by assessing the recoverability of trade and bills receivables and other receivables based on credit history, historical payment pattern, ageing of receivable balances and prevailing market conditions. The identification of doubtful debts requires management judgement and estimates. Where the actual outcome or expectation in future is different from the original estimate, such differences will impact the carrying value of the receivables as well as doubtful debt expenses or write-back of doubtful debt in the period in which such estimate has been changed. The carrying amounts of trade and bills receivables and other receivables at 31 December 2017 were HK$3,890,809,000 (2016: HK$3,361,909,000) and HK$24,355,000 (2016: HK$55,836,000) included in prepayment, deposits and other receivables of HK$514,132,000 (2016: HK$410,533,000), respectively. Further details of the trade and bills receivables are given in note 20.

Estimation of fair value of a leasehold building in Hong Kong and an investment property in Mainland China

As described in notes 12 and 13 to the financial statements, the leasehold building located in Hong Kong and the investment property located in Mainland China were revalued at the end of the reporting period by independent professional valuers. Such valuations were based on certain assumptions, which are subject to uncertainty and might materially differ from the actual results. In making the judgement, the Group considers information from current prices in an active market for similar properties and uses assumptions that are mainly based on market conditions existing at the end of each reporting period. The carrying amounts of a leasehold building in Hong Kong and an investment property at 31 December 2017 were HK$50,200,000 (2016: HK$44,500,000) and HK$63,807,000 (2016: HK$57,791,000), respectively. Further details, including the key assumptions used for fair value measurement and a sensitivity analysis, are given in note 13 to the financial statements.

3. SIGNIFICANT ACCOUNTING JUDGEMENT AND ESTIMATES *(continued)*

Estimation uncertainty *(continued)*

Impairment of property, plant and equipment (other than goodwill)

The Group assesses whether there are any indicators of impairment for all property, plant and equipment at the end of each reporting period. Property, plant and equipment are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset or a cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The calculation of the fair value less costs of disposal is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. When value in use calculations are undertaken, management must estimate the expected future cash flows from the asset or cash-generating unit and choose a suitable discount rate in order to calculate the present value of those cash flows.

4. OPERATING SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their products and services and has three reportable operating segments as follows:

(a) the electrical fittings segment produces components for electrical appliance products including handsets, notebook computers and other electrical appliance products;

(b) the ironware parts segment is a supplier of metallic casings and other ironware parts for electrical and electronic appliances; and

(c) the communication facilities and others segment comprises the supply of plastic set top boxes and the manufacture of sports products, the Group's management services business and corporate income and expense items.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resources allocation and performance assessment. Segment performance is evaluated based on reportable segment profit, which is a measure of adjusted profit before tax. The adjusted profit before tax is measured consistently with the Group's profit before tax except that other income and gains, net, corporate and other unallocated expenses, finance costs and share of losses of associates are excluded from such measurement.

4. OPERATING SEGMENT INFORMATION *(continued)*

Segment assets exclude investments in associates, an investment in a jointly-controlled entity, loan receivables, deferred tax assets, tax recoverable, loans to a jointly-controlled entity, an amount due from a jointly-controlled entity, pledged deposits, and cash and cash equivalents as these assets are managed on a group basis.

Segment liabilities exclude interest-bearing bank and other borrowings, convertible bonds, amounts due to a former non-controlling shareholder of a subsidiary and a jointly-controlled entity, tax payable and deferred tax liabilities as these liabilities are managed on a group basis.

Intersegment sales and transfers are transacted with reference to the selling prices used for sales made to third parties at the then prevailing market prices.

In the opinion of the directors, the current use of the investment property in Shanghai is its highest and best use.

As at 31 December 2017, the Group has not yet obtained the title ownership certificates for certain of its buildings situated in Shanghai, the PRC with a fair value of RMB4,650,000, equivalent to HK$5,464,000 (2016: RMB4,586,000, equivalent to HK$5,333,000). The Company's directors confirmed that there is no legal barrier or otherwise for the Group to obtain the relevant title ownership certificates for these buildings from the relevant PRC authority.

Valuation processes for the leasehold building in Hong Kong and the investment property

The Group's finance department includes a team which directly reports to senior management and reviews the valuations performed by the external valuers for financial reporting purposes. Each year, senior management decides to appoint which external valuer to be responsible for the external valuations of the Group's properties, including a leasehold building situated in Hong Kong for own use and an investment property in Shanghai. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. The Group's team has discussions with the valuer on the valuation assumptions and valuation results twice a year when the valuation is performed for interim and annual financial reporting.

Fair value hierarchy

The following table illustrates the fair value measurement hierarchy of the Group's leasehold building situated in Hong Kong for own use (note 12) and an investment property in Shanghai:

Fair value hierarchy *(continued)*

Below is a summary of the valuation technique used and the key inputs to the valuation of a leasehold building in Hong Kong and an investment property:

	Valuation technique	Significant unobservable inputs	Range 2017	Range 2016
Leasehold building in Hong Kong for own use	Direct comparison approach	Market transaction price (per square feet)	HK$20,698 to HK$24,785	HK$15,738 to HK$27,094
		Adjustment on quality of the building	4% to 7%	0.5% to 20%
Investment property	Direct comparison approach	Asking price per square metre	HK$4,862 to HK$7,756	HK$4,138 to HK$6,279
		Discount factor	10%	10%

Notes:

(a) The valuation of the leasehold building in Hong Kong for own use was determined using the direct comparison approach. The most significant inputs to this valuation approach are the market transaction prices of comparable properties nearby and the adjustment on quality of the building.

The fair value measurement is positively correlated to the market transaction price and negatively correlated to the adjustment on quality of the building.

(b) The valuation of the investment property in Shanghai was determined using the direct comparison approach. Since no recent transaction history of the comparable properties nearby was publicly available, the asking price per square metre of comparable properties nearby and currently on sale with a discount factor of 10% (2016: 10%) was used in the determination of the fair value of the investment property. The most significant inputs to this valuation approach are the asking price per square metre and the discount factor.

The fair value measurement is positively correlated to the market transaction price and negatively correlated to the discount on quality of the building.

17. PREPAYMENTS *(continued)*

The prepaid rental represents the rental of a piece of land located in Mainland China (the "Land"). The Group has been granted the right to use the land for a period of 50 years. The prepaid premises cost represents the cost for the construction of certain premises erected on the Land. The Group has been granted the right to use these premises within the rental period of the Land. As confirmed by legal opinions issued by the PRC legal counsel of the Group, the lessor of the Land has the right to lease the Land and these premises and the leasing agreement entered into by the Group with the lessor is legally enforceable under the PRC law.

The prepaid rental is amortised on the straight-line basis over the lease term of 50 years. The prepaid premises cost is amortised on the straight-line basis over the remaining lease term of the Land.

Bills receivables	**289,210**	242,343
	3,890,809	3,361,909

It is the general policy of the Group to allow a credit period of three to six months. In addition, for certain customers with long-established relationships and good repayment histories, a longer credit period may be granted in order to maintain a good relationship. The Group seeks to maintain strict control over its outstanding receivables. Overdue balances are reviewed regularly by management. Trade receivables are non-interest-bearing. At the end of the reporting period, 37.9% (2016: 17.8%) and 59.6% (2016: 56.1%) of the total trade and bills receivables were due from the Group's largest customer and the five largest customers, respectively.

An ageing analysis of the Group's trade and bills receivables as at 31 December 2017, based on the invoice date, is as follows:

	2017 HK$'000	2016 HK$'000
Within 3 months	**3,632,123**	3,144,711
4 to 6 months, inclusive	**212,220**	192,446

Impairment allowances	**(53,266)**	(35,725)
	3,890,809	3,361,909

20. TRADE AND BILLS RECEIVABLES *(continued)*

The movements in impairment allowances for trade receivables are as follows:

	2017	2016
	HK$'000	HK$'000
At 1 January	**35,725**	48,835
Impairment of trade receivables (note 7)	**17,899**	975
Write-back of impairment of trade receivables (note 7)	**(447)**	(11,609)
Write-off of impairment of trade receivables	**(30)**	(1,864)
Exchange realignment	**119**	(612)
At 31 December	**53,266**	35,725

The above impairment allowances for trade receivables are allowances for impaired trade receivables with a gross carrying amount of HK$84,486,000 (2016: HK$57,600,000). The impaired trade receivables relate to customers that have been overdue for a long time and only a portion of the receivables is expected to be recovered. The Group does not hold any collateral or other credit enhancements over these balances.

An ageing analysis of the trade and bills receivables that are not considered to be impaired is as follows:

	2017	2016
	HK$'000	HK$'000
Neither past due nor impaired	**3,722,017**	3,124,066
Past due:		
Within 3 months	**113,601**	175,823
4 to 6 months, inclusive	**13,465**	35,936
7 to 9 months, inclusive	**10,506**	4,209
	3,859,589	3,340,034

Receivables that were neither past due nor impaired relate to a number of diversified customers for whom there was no recent history of default.

Receivables that were past due but not impaired relate to a number of independent customers that have a good repayment record with the Group. Based on past experience, the directors of the Company are of the opinion that no provision for impairment is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully recoverable. The Group does not hold any collateral or other credit enhancements over these balances.

	792,494	869,082

* Pledged deposits as at 31 December 2017 include HK$464,866,000 (2016: HK$262,150,000) for the bank facilities granted to the Group (note 24).

At the end of the reporting period, the cash and bank balances of the Group denominated in RMB amounted to HK$589,938,000 (2016: HK$655,098,000). RMB is not freely convertible into other currencies, however, under Mainland China's Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for other currencies through banks authorised to conduct foreign exchange business.

Cash at banks and pledged deposits earn interest at floating rates based on daily bank deposit rates. Short term deposits are made for approximately from one month to three months depending on the immediate cash requirement of the Group, and earn interest at the respective short term time deposit rates.

The bank balances and pledged deposits are deposited with creditworthy banks with no recent history of default.

22. TRADE AND BILLS PAYABLES

Notes:

At the end of the reporting period, the Group's banking facilities were supported by:

(a) the pledge of bank deposits of approximately HK$464,866,000 (2016: HK$262,150,000) (note 21);

(b) corporate guarantees from the Company and certain of its subsidiaries; and

(c) mortgages over the Group's leasehold building in Hong Kong with a carrying amount of approximately HK$50,200,000 (2016: HK$44,500,000) (note 12).

25. CONVERTIBLE BONDS

On 15 June 2015, the Company and Pa Macro Opportunity VIII Limited (the "Subscriber") entered into a subscription agreement (the "Subscription Agreement") in relation to the issue and subscription of the Company's listed and secured convertible bonds due in 2018 in an aggregate principal amount of HK$880,000,000.

On 25 June 2015 (the "Issue Date"), the Company issued 1% convertible bonds with an aggregate principal amount of HK$880,000,000.

25. CONVERTIBLE BONDS *(continued)*

The bonds are convertible at the option of the bondholders into ordinary shares at any time during the conversion period from 5 August 2015 to 18 June 2018 on the basis of one ordinary share for each HK$1.88 bond held. The convertible bonds shall mature on 25 June 2018 (the "Maturity Date").

During the years ended 31 December 2015, 2016 and 2017, the conversion price was adjusted from HK$1.88 to HK$1.75 as the Company declared interim and final dividends during these years.

Any convertible bonds not converted will be redeemed on the Maturity Date at 112.78% of their principal amount. An early redemption option is granted to the Company to redeem the convertible bonds in whole, but not in part at any time at a gross yield of 5% per annum of principal amount to the bondholders on the Maturity Date, if 90% or more in the principal amount of the convertible bonds are converted. The bonds carry interest at a rate of 1% per annum, which is payable half-yearly in arrears on 25 June and 25 December.

The proceeds from the issuance of the convertible bonds on the Issue Date of HK$880,000,000 have been split into liability and equity components. On the issuance of the convertible bonds, the fair value of the liability component was determined based on the valuation performed by Grant Sherman Appraisal Limited, an independent firm of professionally qualified valuers, using a binomial option pricing model with the consideration of dilution impact. The residual amount is assigned as the equity component and is included in shareholders' equity.

During the year ended 31 December 2017, the convertible bonds with a principal amount of HK$432,999,000 were converted into 240,555,553 shares of HK$0.01 each at the conversion price of HK$1.80 per share, of which HK$2,405,000 was credited to share capital and HK$434,025,000 was credited to share premium.

With effect from 24 February 2018, the conversion price of the convertible bond was adjusted from HK$1.75 to HK$1.69 as the Company issued to the shareholders of the Company on a pro rata basis of one share in Tongda Hong Tai Holdings Limited for every 40 shares in the Company held by the shareholder.

25. CONVERTIBLE BONDS *(continued)*

The convertible bonds issued have been split into the liability and equity components as follows:

	2017 **HK$'000**	2016 HK$'000

At 1 January 2016 and 31 December 2016	3,703
At 1 January 2017 and 31 December 2017	3,703

The Group has estimated tax losses arising in Hong Kong of approximately HK$14,472,000 (2016: HK$28,510,000) that are available indefinitely for offsetting against future taxable profits of the companies in which the losses arose.

Deferred tax assets have not been recognised in respect of these losses as they have arisen in the Company and its subsidiaries that have been loss-making for some time and in the opinion of the directors, it is not considered probable that taxable profits will be available against which the tax losses can be utilised.

Pursuant to the PRC Corporate Income Tax Law, a 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprises established in Mainland China. The requirement became effective from 1 January 2008 and applies to earnings after 31 December 2007. A lower withholding tax rate may be applied if there is a tax treaty between Mainland China and the jurisdiction of the foreign investors. The Group is therefore liable to withholding taxes on dividends distributed by those subsidiaries established in Mainland China in respect of earnings generated from 1 January 2008.

However, deferred tax has not been recognised for withholding taxes that would be payable on the unremitted earnings that are subject to withholding taxes of certain subsidiaries and associates of the Group established in Mainland China. In the opinion of the directors, it is not probable that these subsidiaries and associates will distribute such earnings in the foreseeable future. The aggregate amount of temporary differences associated with investments in subsidiaries in Mainland China for which deferred tax liabilities have not been recognised totalled approximately HK$3,164,964,000 at 31 December 2017 (2016: HK$2,471,960,000).

There are no income tax consequences attaching to the payment of dividends by the Company to its shareholders.

27. SHARE CAPITAL *(continued)*

Notes:

(i) During the year ended 31 December 2016, an aggregate of 54,800,000 share options have been exercised at a weighted average subscription price of HK$0.5925 per share resulting in the issue of 54,800,000 shares of HK$0.01 each for a total cash consideration, before expenses, of HK$32,470,000. An amount of HK$5,766,000 was transferred from the share option reserve to the share premium account upon the exercise of the share options.

(ii) During the year ended 31 December 2017, an aggregate of 90,400,000 share options have been exercised at a weighted average subscription price of HK$0.8274 per share resulting in the issue of 90,400,000 shares of HK$0.01 each for a total amount of HK$74,798,000, representing new share capital of HK$904,000 and share premium of HK$73,894,000 for a total cash consideration, before expenses, of HK$74,798,000. An amount of HK$26,520,000 was transferred from the share option reserve to the share premium account upon the exercise of the share options.

(iii) During the year ended 31 December 2017, the convertible bonds with a principal amount of HK$432,999,000 were converted into 240,555,553 shares of HK$0.01 each at the conversion price of HK$1.80 per share, of which HK$2,405,000 was credited to share capital and HK$434,025,000 was credited to share premium.

(iv) During the year ended 31 December 2017, the Company repurchased 59,680,000 shares at prices ranging from HK$1.97 to HK$2.46 per share at a total consideration of HK$130,768,000. The 59,680,000 repurchased ordinary shares were canceled during the year. The premium of HK$130,171,000 paid on the repurchase of such shares was debited to the share premium account and an amount of HK$597,000 was transferred from retained profits of the Company to the capital redemption reserve.

All new ordinary shares issued in the current and prior years rank pari passu with the existing shares in all respects.

Share option schemes

Details of the Company’s share option schemes and the share options issued under the schemes are included in note 28 to the financial statements.

28. SHARE OPTION SCHEMES

Pursuant to an ordinary resolution passed at the annual general meeting of the Company held on 10 June 2002, a share option scheme of the Company (the “Old Scheme”) was adopted by the Company. The Old Scheme became effective on 24 June 2002, and unless otherwise cancelled or amended, will remain in force for 10 years from that date. The Old Scheme expired during the year ended 31 December 2012 and no further share options can be granted under the Old Scheme.

Pursuant to an ordinary resolution passed at the annual general meeting of the Company held on 25 June 2013, a share option scheme of the Company (the “New Scheme”) was adopted by the Company. The Company operates the New Scheme for the purpose of providing incentives or rewards to selected eligible participants who contribute to the success of the Group’s operations. Selected eligible participants of the New Scheme include directors, employees of the Company or any of its subsidiaries and any officers or consultants who will provide or have provided services to the Group.

28. SHARE OPTION SCHEMES *(continued)*

The maximum number of shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the New Scheme and any other share option schemes of the Company may not exceed 30% of the relevant class of shares in issue from time to time. No options may be granted under the New Scheme or any other share option scheme of the Company if it will result in this limit being exceeded. The maximum number of shares issued and which may fall to be issued upon exercise of the options granted under the New Scheme and any other share option scheme of the Company (including exercised, cancelled and outstanding options) to each selected eligible participant in any 12-month period and up to the date of grant shall not exceed 1% of the shares of the Company in issue.

Share options granted to a director, chief executive or substantial shareholder of the Company, or any of their respective associates, under the New Scheme must be approved by the independent non-executive directors of the Company (excluding an independent non-executive director who is the proposed grantee of the Company). In addition, any share options granted to a substantial shareholder or any independent non-executive director of the Company, or any of their respective associates, which would result in the shares issued and to be issued upon exercise of all share options already granted and to be granted (including share options exercised, cancelled and outstanding) to such person in the 12-month period up to and including the date of such grant (i) representing an aggregate value of over 0.1% of the shares of the Company in issue on that date; and (ii) having an aggregate value, based on the closing price of the Company's shares as stated in the daily quotation sheet of the Stock Exchange on the date of each grant, in excess of HK$5 million, are subject to shareholders' approval in a general meeting.

The period within which the options must be exercised will be determined by the board of directors of the Company at its absolute discretion. This period will expire no later than 10 years from the date on which the New Scheme is conditionally adopted by an ordinary resolution of the shareholders. At the time of grant of the options, the Company may specify a minimum period for which an option must be held before it can be exercised. The offer of a grant of share options may be accepted within 21 days from the date of the offer, and a non-refundable nominal consideration of HK$1 is payable upon acceptance of an option.

The subscription price for the shares of the Company under the New Scheme may be determined by the board of directors at its absolute discretion but in any event will not be less than the highest of (i) the closing price of the shares of the Company as stated in the daily quotation sheet of the Stock Exchange on the date of grant, which must be a business day; (ii) the average of the closing prices of the shares of the Company as shown in the daily quotation sheets of the Stock Exchange for the five business days immediately preceding the date of grant; and (iii) the nominal value of the share of the Company on the date of grant.

Share options do not confer rights on the holders to dividends or to vote at shareholders' meetings.

28. SHARE OPTION SCHEMES *(continued)*

The following share options were outstanding under the Old Scheme and New Scheme during the year:

	2017		2016

* The exercise price of the share options is subject to adjustment in the case of rights or bonus issues, or other similar changes in the Company's share capital.

28. SHARE OPTION SCHEMES *(continued)*

The fair value of the share options under the New Scheme granted during the year ended 31 December 2016 was HK$30,781,000 (approximately HK$0.53 each), of which the Group recognised a share option expense of HK$16,816,000 (2016: HK$5,892,000) during the year ended 31 December 2017.

The fair value of the share options under the New Scheme granted during the year ended 31 December 2014 was HK$30,115,000 (approximately HK$0.32 each), of which the Group recognised a share option expense of HK$4,480,000 during the year ended 31 December 2016.

The fair value of equity-settled share options under the New Scheme granted during the year ended 31 December 2016 was estimated as at the date of grant using a binomial option pricing model, taking into account the terms and conditions upon which the options were granted. The following table lists the inputs to the model used:

	2016
Dividend yield (%)	3.00
Expected volatility (%)	50.37
Risk-free interest rate (%)	1.06
Expected exercise multiple (Directors/Employees)	2.28/1.78
Expected life of options (year)	0-4

The expected life of the options is based on the historical data and is not necessarily indicative of the exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome.

No other feature of the options granted was incorporated into the measurement of fair value.

The 10,000,000 share options under the Old Scheme and 80,400,000 share options under the New Scheme exercised during the year resulted in the issue of 90,400,000 ordinary shares of the Company for a total amount of HK$74,798,000, as further detailed in note 27 to the financial statements.

At 31 December 2016, the Company had 10,000,000 share options outstanding under the Old Scheme. All share options under the Old Scheme had been exercised during the year.

At the end of the reporting period and date of approval of these financial statements, the Company had 58,000,000 (2016: 138,400,000) share options outstanding under the New Scheme which represented approximately 1% of the Company's shares in issue as at these dates. The exercise in full of the outstanding share options would, under the present capital structure of the Company, result in the issue of 58,000,000 additional ordinary shares of the Company and additional share capital of HK$580,000 and share premium of HK$103,820,000 (before issue expenses).

29. RESERVES

The amounts of the Group's reserves and the movements therein for the current and prior years are presented in the consolidated statement of changes in equity of the financial statements.

(i) Capital reserve

The capital reserve of the Group represents principally (1) the excess fair values ascribed to the net underlying assets of certain subsidiaries acquired prior to the Group's reorganisation completed on 7 December 2000 in preparation for the listing of the Company's shares, over the purchase consideration paid therefor; (2) the difference between the consideration paid and the net assets acquired for the further acquisition of Xiamen Optic Conduct Cable Company Limited during the year ended 31 December 2010; (3) the difference between the consideration received and the net liabilities disposed of for the partial disposal of Tongda Optical Company Limited ("Tongda Optical") during the year ended 31 December 2010; (4) the difference between the net consideration paid and the net assets acquired arose from the step acquisition of Tongda Optical during the year ended 31 December 2013; and (5) the difference between the net consideration and the net assets acquired arose from the acquisition of Grand Prosper during the year ended 31 December 2015.

(ii) Statutory reserve

In accordance with the Macau Commercial Codes, Tongda Overseas Macao Commercial Offshore Limited ("Tongda Macao"), a wholly-owned subsidiary of the Company, whose principal operation is conducted in Macau, is required to appropriate annually not less than 25% of its profit after tax to the statutory reserve, until the balance of the reserve reaches 50% of the entity's capital fund. The statutory reserve may be utilised by the entity for certain restricted purposes including the set-off against accumulated losses, if any, arising under certain specified circumstances. As the reserve has already reached 50% of Tongda Macao's capital fund, no transfer was made in the current year (2016: Nil).

In accordance with the relevant regulations applicable in the PRC, subsidiaries established in the PRC are required to transfer a certain percentage of their profit after tax, if any, to the statutory reserve funds, which are non-distributable, before profit distributions to shareholders. The amount of the transfer is subject to the approval of the boards of directors of these subsidiaries.

30. CONTINGENT LIABILITIES

At 31 December 2017, the Company had provided corporate guarantees for banking facilities granted to certain subsidiaries, which were utilised to the extent of approximately HK$2,554,467,000 (2016: HK$1,657,967,000) at the end of the reporting period.

Save as disclosed above, the Group did not have any significant contingent liabilities at the end of the reporting period.

31. OPERATING LEASE ARRANGEMENTS

(a) As lessor

During the year ended 31 December 2017, the Group sub-leases one of its factories under operating lease arrangements with leases negotiated for terms of three years. The terms of the leases also require the tenants to pay security deposits and monthly utilities expenses.

At the end of the reporting period, the Group had total future minimum lease receivables under non-cancellable operating leases with its tenant falling due as follows:

	2017 HK$'000	2016 HK$'000
Within one year	4,691	2,327
In the second to fifth years, inclusive	6,254	3,539
	10,945	5,866

(b) As lessee

The Group leases certain of its use of land under operating lease arrangements which are negotiated for a lease term of 50 years. In addition, the Group leases certain of its office properties under operating lease arrangements for terms of over five years.

At 31 December, the Group had total future minimum lease payments under non-cancellable operating leases falling due as follows:

	2017 HK$'000	2016 HK$'000
Within one year	34,015	43,272
In the second to fifth years, inclusive	39,760	52,497
After five years	17,067	24,641
	90,842	120,410

32. COMMITMENTS

In addition to the operating lease commitments set out in note 31(b) above, the Group had the following capital commitments contracted, but not provided for, at the end of the reporting period:

	2017 HK$'000	2016 HK$'000
Contracted for commitments in respect of		
– Purchases of property, plant and equipment	429,430	182,719
– Purchase of a land use right	–	37,093

Notes:

(a) Trade receivables factoring

As part of its normal business, the Group entered into a trade receivable factoring arrangement (the "Factoring Arrangement") and transferred certain trade receivables to a bank. Under the Factoring Arrangement, the Group may be required to reimburse the bank for loss of interest if any trade debtors have late payment up to 30 days. The Group is not exposed to default risks of the trade debtors after the transfer. Subsequent to the transfer, the Group did not retain any rights on the use of the trade receivables, including the sale, transfer or pledge of the trade receivables to any other third parties. The original carrying value of the trade receivables transferred under the Factoring Arrangement that have not been settled as at 31 December 2017 was HK$401,211,000 (2016: HK$130,771,000). The carrying amount of the assets that the Group continued to recognise as at 31 December 2017 was HK$401,211,000 (2016: HK$130,771,000) and that of the associated liabilities as at 31 December 2017 was HK$364,333,000 (2016: HK$116,406,000).

(b) Discounting of bills receivable

At 31 December 2017, the Group discounted certain bills receivable (the "Discounted Bills") with a carrying amount of HK$9,164,000 (2016: HK$10,584,000) to certain local banks and certain local financial institutions in the PRC for cash. In the opinion of the directors, the Group has retained the substantial risks and rewards, which include default risks relating to the Discounted Bills, and accordingly, it continued to recognise the full carrying amount of the Discounted Bills and the respective bank and other loans. Subsequent to the discounting, the Group does not retain any rights on the use of the Discounted Bills, including sale, transfer or pledge of the Discounted Bills to any other third parties. The aggregate carrying amount of the bank and other loans recognised due to the Discounted Bills was HK$9,164,000 (2016: HK$10,584,000) as at 31 December 2017.

(c) Bills endorsement under the Law of Negotiable Instruments of the PRC

At 31 December 2017, the Group endorsed certain bills receivable accepted by certain local banks and certain local financial institutions in the PRC (the "Endorsed Bills") with a carrying amount of HK$92,649,000 (2016: HK$39,849,000) to certain of its suppliers in order to settle the trade payables due to such suppliers. In the opinion of the directors, the Group has retained the substantial risks and rewards, which include default risks relating to the Endorsed Bills, and accordingly, it continued to recognise the full carrying amount of the Endorsed Bills and the associated trade payables settled. Subsequent to the endorsement, the Group does not retain any rights on the use of the Endorsed Bills, including sale, transfer or pledge of the Endorsed Bills to any other third parties. The aggregate carrying amount of the trade payables settled by the Endorsed Bills during the year to which the suppliers have recourse was HK$92,649,000 (2016: HK$39,849,000) as at 31 December 2017.

36. TRANSFERRED FINANCIAL ASSETS *(continued)*

(ii) Transferred financial assets that are derecognised in their entirety

(a) Discounting of bills receivable

At 31 December 2017, the Group discounted certain bills receivable (the "Derecognised Discounted Bills") with a carrying amount of HK$310,901,000 (2016: HK$155,482,000) to certain reputable banks and a financial institution in the PRC. In accordance with the Law of Negotiable Instruments in the PRC, the holders of the Derecognised Discounted Bills have a right of recourse against the Group if the bills default (the "Continuing Involvement"). In the opinion of the directors, the Group has transferred substantially all risks and rewards relating to the Derecognised Discounted Bills. Accordingly, it has derecognised the full carrying amounts of the Derecognised Discounted Bills. The maximum exposure to loss from the Group's Continuing Involvement in the Derecognised Discounted Bills and the undiscounted cash flows to repurchase these Derecognised Discounted Bills is equal to their carrying amounts of HK$310,901,000 (2016: HK$155,482,000). In the opinion of the directors, the fair values of the Group's Continuing Involvement in the Derecognised Discounted Bills are not significant. All Derecognised Discounted Bills have a maturity period from three to six months.

During the year, the Group has not recognised any gain or loss on the date of transfer of the Derecognised Discounted Bills. No gains or losses were recognised from the Continuing Involvement, both during the year or cumulatively. The discounting of bills has been made evenly throughout the year.

(b) Bills endorsement under the Law of Negotiable Instruments of the PRC

At 31 December 2017, the Group endorsed certain bills receivable accepted by certain reputable banks in the PRC (the "Derecognised Endorsed Bills") to certain of its suppliers in order to settle the trade payables due to such suppliers with a carrying amount in aggregate of HK$100,802,000 (2016: HK$133,277,000). The Derecognised Endorsed Bills have a maturity from one to six months at the end of the reporting period. In the opinion of the directors, the Group has transferred substantially all risks and rewards relating to the Derecognised Endorsed Bills. Accordingly, it has derecognised the full carrying amounts of the Derecognised Endorsed Bills and the associated trade payables. The maximum exposure to loss from the Group's Continuing Involvement in the Derecognised Endorsed Bills and the undiscounted cash flows to repurchase these Derecognised Endorsed Bills is equal to their carrying amounts. In the opinion of the directors, the fair values of the Group's Continuing Involvement in the Derecognised Endorsed Bills are not significant.

During the year, the Group has not recognised any gain or loss on the date of transfer of the Derecognised Endorsed Bills. No gains or losses were recognised from the Continuing Involvement, both during the year or cumulatively. The Endorsement has been made evenly throughout the year.

37. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise interest-bearing bank and other borrowings, convertible bonds and cash and short term deposits. The main purpose of these financial instruments is to raise finance for the Group's operations. The Group has various other financial assets and liabilities such as trade and bills receivables and trade and bills payables, which arise directly from its operations.

It is, and has been throughout the year under review, the Group's policy that no trading in financial instruments shall be undertaken.

The main risks arising from the Group's financial instruments are interest rate risk, commodity price risk, foreign currency risk, credit risk and liquidity risk. The board of directors reviews and agrees policies for managing each of these risks and they are summarised below.

Interest rate risk

The interest rates of the interest-bearing bank and other borrowings of the Group are disclosed in note 24 to the financial statements.

The following table demonstrates the sensitivity to a reasonably possible change in the Hong Kong dollar interest rate, with all other variables held constant, of the Group's profit after tax and equity through the impact on floating rate borrowings and the Group's equity.

	Increase/ (decrease) in percentage points	Increase/ (decrease) in profit after tax and equity HK$'000

2016		
Hong Kong dollars	0.5%	(3,988)
Hong Kong dollars	(0.5%)	3,988

37. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES *(continued)*

Commodity price risk

The major raw materials used in the production of the Group's products included plastic materials and aluminum. The Group is exposed to fluctuations in the prices of these raw materials which are influenced by global as well as regional supply and demand conditions. Fluctuations in the prices of raw materials could adversely affect the Group's financial performance. The Group has not historically entered into any commodity derivative instruments to hedge the potential commodity price changes.

Foreign currency risk

The Group carries on its trading transactions mainly in Hong Kong dollars, United States dollars and RMB. As the foreign currency risk arising from the sales and purchases can be set off with each other given that the Hong Kong dollar is pegged to the United States dollar, the related foreign currency risk is minimal for the Group. It is the policy of the Group to continue maintaining the balance of its sales and purchases in the same currency.

The majority of the Group's operating assets are located in Mainland China and denominated in RMB. As the functional currency of the PRC subsidiaries is RMB and the Group's financial statements are reported in Hong Kong dollars, there will be a translation credit/(debit) to the exchange fluctuation reserve as a result of RMB appreciation/(depreciation).

The following table demonstrates the sensitivity at the end of the reporting period to a reasonably possible change in the Hong Kong dollar and RMB exchange rate, with all other variables held constant, of the Group's net profit.

2016		
If the Hong Kong dollar weakens against RMB	5	38,578

Credit risk

The Group trades only with recognised and creditworthy customers. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and on an individual basis. Each of the customers has been attached with a trading limit and any excess to the limit must be approved by the general manager of the operation unit.

The credit risk of the Group's other financial assets, which comprise pledged deposits, cash and cash equivalents, an amount due from a jointly-controlled entity, loans to a jointly-controlled entity, loan receivables and financial assets included in prepayments, deposits and other receivables, arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

37. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES *(continued)*

Liquidity risk

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank loans and other banking facilities such as trust receipt loans.

The maturity profile of the Group's financial liabilities as at the end of the reporting period, based on the contractual undiscounted payments, was as follows:

			2017

Capital management

The Group manages its capital to ensure that the Group will be able to continue as a going concern while maximising the return to the equity holders through the optimisation of the debt and equity balance.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares.

The Group monitors capital using a gearing ratio, which is net debt over total equity. Net debt includes interest-bearing bank and other borrowings, convertible bonds, less cash and cash equivalents and pledged deposits. The gearing ratio as at the end of the reporting period was as follows:

	2017	2016
	HK$'000	HK$'000
Interest-bearing bank and other borrowings	**3,475,299**	2,099,827

(i) Under the Companies Law (2001 Revision) of the Cayman Islands, the share premium account of the Company is distributable to its shareholders provided that immediately following the date on which the dividend is proposed to be distributed, the Company will be in a position to pay off its debts as they fall due in the ordinary course of business.

(ii) As at 31 December 2017, in the opinion of the directors, the reserves of the Company available for distribution to shareholders amounted to HK$1,371,923,000 (2016: HK$1,235,464,000) subject to the restriction stated in note (i) above.

(iii) The contributed surplus of the Company arose as a result of the Group's reorganisation completed on 7 December 2000 in preparation for the listing of the Company's shares, and represents the excess of the combined net assets of the subsidiaries then acquired by the Company, over the nominal value of the share capital of the Company issued in exchange therefor.

(iv) The share option reserve comprises the fair value of share options granted which are yet to be exercised, as further explained in the accounting policy for share-based payments in note 2.4 to the financial statements. The amount will be transferred to the share premium account when the related options are exercised, or transferred to retained profits should the related options expire or be forfeited.

40. EVENTS AFTER THE REPORTING PERIOD

A board of directors (the "Board") meeting was convened on 14 February 2018, at which the Board approved that all the shares held by the Group in Tongda Hong Tai Holdings Limited ("THT") will be distributed by way of conditional distribution in specie to the qualifying shareholders of the Company in connection with the proposed spin-off of THT and the listing of the shares of THT on the Main Board of the Stock Exchange. On 16 March 2018, the distribution of all the Company's shares in THT to the qualifying shareholders were completed and THT became a listed company on the Main Board of the Stock Exchange, and thereafter THT and its subsidiaries ceased to be wholly-owned subsidiaries of the Company.

Due to the timing of the transaction, the Group is still assessing the financial impact on the Group. Accordingly, certain disclosures in relation to the disposal of subsidiaries have not been presented.

41. APPROVAL OF THE FINANCIAL STATEMENTS

The financial statements were approved and authorised for issue by the board of directors on 19 March 2018.
