Information of the acquired asset

Coinoah (www.coinoah.com) is a global leading digital asset trading platform created and operated by top professional teams from China, Singapore, South Korea, Japan, Thailand and Hong Kong. It was established in January 2018. It provides digital asset trading services in Bitcoin, Ethereum and other mainstream digital currencies, as well as multiple digital currencies, to global users.

Coinoah adopts a flexible and expandable platform structure to achieve a smooth business expansion, which can effectively meet the operational needs of tens of millions of users. The Coinoah exchange technology platform adopts the latest frameworks for product development used by the banking and securities industries to meet the needs for security and timeliness in digital asset transactions. Coinoah adheres to the team's initial principle of "one currency, one promise, a solemn promise" team and conducts strict audit control at the source of token listing. After four months of operation, the number of users reached 26,500 and there are 25 on-line currencies.

The position of Coinoah is "the most friendly digital currency exchange for newcomers". At present, it has established a good reputation among the users in the incremental market which has been targeting digital currency newcomers in the world through its features of convenience in transfer of assets, asset-storage security and quality customer service.

The team of Coinoah has extensive experience in traditional internet entrepreneurship and operations. The main team has academic backgrounds in Peking University, Tsinghua University, Massachusetts Institute of Technology and Stanford University.

The goal of Coinoah in 2018 is to become one of the top 20 digital currency exchanges in the world, and to provide users with better services through its investment methods, currency quality and transaction experience. Currently, Coinoah was reported in several mainstream media around the world and is recognized by the blockchain industry. A number of business cooperations are developing simultaneously.

REASONS FOR AND BENEFITS OF THE ACQUISITION

After Mr. Xu joined the Company, he introduced a strong team in blockchain applications. The Joint Venture is the platform for the Company to develop technological innovation and investment in the field of blockchain technology. This acquisition represented the first wave of the Company's investment in the blockchain technology through the Joint Venture, and opened up new dimensions in the business area full of business opportunities.

The Board is of the view that the terms of the Sale and Purchase Agreement are normal commercial terms, fair and reasonable and in the interest of the Company and its shareholders as a whole.
