CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of the board (the "**Board**") of directors (the "**Directors**") of ICO Group Limited (the "**Company**"), I am presenting the annual report of the Company which comprised the audited consolidated financial statements of the Company and its subsidiaries (collectively, the "**Group**") for the year ended 31 March 2018 ("**FY2018**")

FY2018 was a challenging year for the Group. The Group recorded a consolidated net loss attributable to shareholders of the Company of approximately HK\$11.2 million for FY2018. The loss making position was a combined result of the unfavorable tender bidding results for the Group in FY2018 and the significant decrease in revenue recognised from the implementation phases of the Group's existing large-scale IT projects when compared with past years as the implementation phases of these projects have entered into its closure stage and were substantially completed during FY2018.

As a service provider where project basis income is one of the primary sources of revenue, tender bidding results have a decisive effect on the profitability of the Group. Nevertheless, a lot of factors that are beyond control of the Group may impact the results of tender bids, thus in turn creates uncertainties

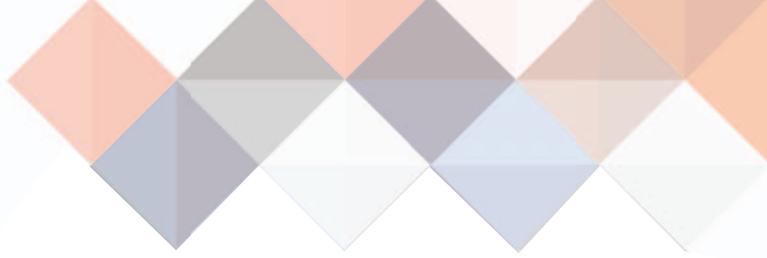

on the Group's financial results. Unfortunately, FY2018 was a year where the uncontrollable factors acted unfavorably to the Group.

Although the uncertainties arising from tender bidding is an unavoidable business risk, the management of the Group is always seeking ways to minimize its impact. In the long run, the Group considers that the best way to mitigate the risk is to reduce its reliance on project basis income. This would soon be achieved to a certain extent as subsequent to the substantial completion of the implementation phases of the Group's existing large-scale IT projects, the maintenance phases of these projects have commenced during FY2018 or will commence soon by 30 September 2018. The maintenance phases of these projects, although not as sizable as their corresponding implementation phases, shall contribute a significant and stable stream of revenue to the Group until 2027. In addition, in order to diversify its business portfolio away from project basis income, the Group initiated the following three acquisitions.

Firstly, as announced by the Company on 18 December 2017, the Group has completed an acquisition to acquire 15% equity interest of INAX Technology Limited ("**INAX**"), which is a company with its business focus on IT & telecommunication infrastructures and data center industry. After this acquisition, it

Chairman and Chief Executive Officer Mr. Lee Cheong Yuen

CHAIRMAN'S STATEMENT

is expected that the Group shall be able to diversify its business portfolio via INAX by penetrating the data center market which is fast growing and is a new business field for the Group.

Secondly, as announced by the Company on 19 April 2018, the shareholders of the Company approved the Group to acquire the entire issued capital O2O Limited, which is currently through a subsidiary in Malaysia developing an e-Marketplace project with both physical stores and online trading platforms ("**Project CKB**"). By acquiring Project CKB (which shall be completed by the first quarter of year 2020), it is expected that the Group shall be able to diversify its revenue sources by receiving stable rental income from the physical stores as well as service income from the online trading platform.

Thirdly, as announced by the Company on 28 June 2018, the Group completed an acquisition to acquire 40% equity interest of Pointsoft Limited ("**Pointsoft**"), which is a company with its business focus on developing and managing food and beverage point-of-sale system with a continuous profit making history. By entering the acquisition, it is expected that the Group shall be able to diversify its business portfolio and via Pointsoft obtain another stable source of income.

Apart from the above acquisitions, on the other hand, in the short run, in order to reduce its costs during unfavorable business cycles, the Group also initiated a downsize exercise to reduce its number of staff from 323 as at 31 March 2017 to 283 as at 31 March 2018.

Looking forward, although FY2018 was a tough year for the Group, the Group has taken both long term and short term measures with an aim to improve its financial situation in the foreseeable future. Strategically speaking, apart from focusing

on its traditional IT business in Hong Kong, with the experience of completing large-scale IT projects for public sector and following the strategic intent of both the Government of the People's Republic of China and Hong Kong, the Group in the future will also focus on exploring new business opportunities in the Guangdong – Hong Kong – Macao Bay Area and in the Belt-and-Road countries, so as to expand the business of the Group beyond Hong Kong.

Last but not least, on behalf of the Board, I would like to take this opportunity to express my gratitude to all shareholders, investors, business partners, suppliers and customers for their continuous support to the Group. Moreover, I would also like to express our sincere thanks to all of the staff for their dedication and hard work.

Lee Cheong Yuen

MANAGEMENT DISCUSSION AND ANALYSIS

The following discussion and analysis should be read in conjunction with the financial information of the Group contained in the consolidated financial statements (together with the notes thereto) reproduced in the result announcement for the year ended 31 March 2018. The consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards. The following discussions on the synopsis of historical result do not represent a prediction as to the future business operations of the Group.

SUMMARY

Established in 1992, the Group is an IT service provider based in Hong Kong. The Group is principally engaged in the following businesses: (i) provision of IT application and solution development services; (ii) provision of IT infrastructure solutions; (iii) provision of secondment services; and (iv) provision of maintenance and support services.

For FY2018, the revenue of the Group was approximately HK\$409.9 million, representing a decrease of approximately HK\$77.5 million or 16% as compared to the year ended 31 March 2017 ("FY2017") which was primarily attributable to a significant decrease in revenue derived from provision of IT application and solution development services. Due to the significant decrease in revenue, for FY2018, the Group recorded loss before taxation of approximately HK\$5.6 million (FY2017: profit before taxation of approximately HK\$41.6 million), loss before interests, tax, depreciation and amortization

of approximately HK\$2.1 million (FY2017: earnings before interests, tax, depreciation and amortization of approximately HK\$44.0 million), and loss attributable to equity shareholders of the Company of approximately HK\$11.2 million (FY2017: profit attribution to equity shareholders of the Company of approximately HK\$30.4 million).

BUSINESS REVIEW AND OUTLOOK

Provision of IT application and solution development services

This segment provides design and implementation of IT application solution services and procurement of third party hardware and software. The revenue generated from provision of IT application and solution development services amounted to approximately HK\$39.0 million, representing approximately 10% of the revenue for FY2018. The revenue derived from provision of IT application and solution development services decreased by approximately 75% from HK\$156.7 million for FY2017 to approximately HK\$39.0 million for FY2018, the significant decrease was primarily attributable to: i) the significant drop of revenue recognised from the Group's large-scale projects as the implementation phase of the projects were substantially completed during FY2018 and according to the project implementation plans the final implementation phase of these projects would contribute less revenue than past phases which were executed in past years; ii) the significant drop of revenue derived from direct procurement of hardware and software for the Group's large-scale projects in FY2018 as the procurement services were substantially completed in past years; and iii) following the substantial completion of the implementation phase of the Group's large-scale projects, the Group is yet to secure another large-scale IT project that would provide new stream of income to the Group as the result of tender bids submitted by the Group for projects commenced during FY2018 were unfavorable. The significant drop of revenue from provision of IT application and solution developments was the primary reason that led to the net loss recorded by the Group for FY2018.

MANAGEMENT DISCUSSION AND ANALYSIS

Provision of IT infrastructure solutions

This segment provides IT infrastructure solution services and sale of IT infrastructure solutions related hardware and software. The revenue generated from provision of IT infrastructure solutions accounted for approximately 64% of the revenue for FY2018. The revenue from provision of IT infrastructure solutions increased 3% from approximately HK\$255.3 million for FY2017 to approximately HK\$262.8 million for FY2018, the slight increase was primarily due to i) significant increase in amount of revenue generated from customers in the construction, transportation and financial sectors as a result of their business expansion and technological refreshment, offset by the drop in purchase orders from several significant customers as the life cycles of the products they purchased during FY2017 were longer than one year and ii) the number of active customers for the Group increased as a result of the Group's effort to expand its sales channel and customer portfolio.

Provision of secondment services

This segment provides secondment services for a fixed period of time pursuant to the secondment service agreements. The revenue generated from provision of secondment services amounted to approximately HK\$47.9 million, representing approximately 12% of the revenue for FY2018. Secondment income is a relatively stable revenue source when compared with project basis income, during FY2018, the Group started to expand its secondment business so as to reduce the impact of unfavourable tender results and therefore, the revenue derived from provision of secondment services increased by approximately 50% from approximately HK\$32.0 million for FY2017 to approximately HK\$47.9 million for FY2018. The increase was primarily due to i) the Group was engaged by a new client in the financial sector as its secondment services provider since March 2017 and the client increased its demand for services during FY2018 thus contributed significant revenue to the Group; and ii) the Group was awarded two new secondment contracts from its customers in the financial sectors during FY2018.

Provision of maintenance and support services

This segment provides maintenance and support services. The revenue generated from provision of maintenance and support services amounted to approximately HK\$60.3 million, representing approximately 15% of the revenue for FY2018. The revenue derived from provision of maintenance and support services increased by approximately 39% from HK\$43.5 million for FY2017 to HK\$60.3 million for FY2018, the increase was primarily due to the significant revenue recorded from the maintenance phase of the Group's largest IT Project which commenced since November 2017 after the completion of the implementation phase of the project.

OUTLOOK AND FUTURE PROSPECTS

FY2018 was a challenging year for the Group, with the significant decrease in revenue derived from provision of IT application and solution development services, the Group recorded a net loss for FY2018. Nevertheless, there are the following positive signs:

Firstly, while the Group has to retain a sizeable team of IT professionals to get itself ready for the next large-scale project, it also realized the importance of cost saving during unfavorable business cycle. As a result, the Group has downsized its number of staff from 323 as at 31 March 2017 to 283 as at 31 March 2018. The cost saving effect of the downsize exercise is expected to be materialized in the next financial year.

Secondly, upon the substantial completion of the implementation phase of the Group's large-scale IT projects during FY2018, the maintenance phase of these projects has been either commenced or will commence by 30 September 2018. The maintenance contract of these projects will last for 10 years and are expected to contribute a total revenue of over HK\$60 million per year to the Group until 2027.

MANAGEMENT DISCUSSION AND ANALYSIS

Thirdly, as announced by the Company on 19 April 2018, the shareholders of the Company approved the Group to acquire Project CKB. By acquiring Project CKB (which shall be completed by the first quarter of year 2020), the Group shall be able to diversify its revenue sources by receiving stable rental income from the physical stores as well as service income from the online trading platform. Upon completion, it is expected that Project CKB will generate rental income from physical stores of approximately HK\$20 million per year as well as income from usage of the online trading platform. For details of the acquisition of Project CKB, please refer to the announcements and circular of the Company dated 7 December 2017, 8 January 2018, 28 March 2018, 19 April 2018 and 5 June 2018 (collectively the "**Project CKB Announcements and Circular**").

Lastly, as announced by the Company on 18 December 2017 and 28 June 2018, the Group has completed two acquisitions to acquire 15% equity interest of INAX and 40% equity interest of Pointsoft. INAX is a company with its business focus on IT & Telecommunication infrastructures and data centre industry, while Pointsoft is a company with its business focus on developing and managing food and beverage point-of-sale system. By entering these transactions, it is expected the Group can diversify its business portfolio and thus broaden its revenue sources. For details of the acquisition of 15% equity interest of INAX, please refer to the announcements of the Company dated 10 November 2017, 17 November 2017 and 18 December 2017 (collectively the "**INAX Announcements**"). For details of the acquisition of 40% equity interest of Pointsoft, please refer to the announcements of the Company dated 20 June 2018, 21 June 2018 and 28 June 2018 (collectively the "**Pointsoft Announcements**").

Looking forward, based on the above factors, it is expected the financial situation of the Group would be improved in the foreseeable future.

FINANCIAL REVIEW

Revenue

The Group's revenue for FY2018 amounted to approximately HK\$409.9 million, representing a decrease of approximately HK\$77.5 million or 16% compared to FY2017 (FY2017: approximately HK\$487.5 million). The decrease was mainly attributable to the decrease in revenue generated from provision of IT application and solution development services of approximately HK\$117.7 million, offset by (i) the increase in revenue generated from provision of IT infrastructure solutions of approximately HK\$7.5 million; (ii) the increase in revenue generated from provision of secondment services of approximately HK\$15.9 million; and (iii) the increase in revenue generated from provision of maintenance and support services of approximately HK\$16.8 million.

Gross profit and gross profit margin

The gross profit of the Group decreased by approximately 49% from approximately HK\$96.2 million for FY2017 to approximately HK\$48.7 million for FY2018, while the gross profit margin of the Group decreased from approximately 20% for FY2017 to approximately 12% for FY2018. During FY2018, while the Group was in the process of bidding new tenders in order to secure new revenue streams, the Group had to retain a sizeable team of IT professionals to get itself ready for the next large-scale project. During this transitional period, apart from devoting its resources on presale and tender bidding activities, the Group also rearranged its human resources to focus on completing existing engagements so that all of its staff were utilized. As such, the gross profit and gross profit margin generated from provision of IT application and solution development services, IT infrastructure solutions, and maintenance and support services were decreased during FY2018. On the other hand, the gross profit generated from provision of secondment services increased by HK\$3.8 million as compared to FY2017, which is in line with the increase in revenue from provision of secondment services, meanwhile, the gross profit margin from provision of secondment services remained relatively stable at approximately 26% (FY2017: 27%).

MANAGEMENT DISCUSSION AND ANALYSIS

Administrative expenses

The Group's administrative expenses for FY2018 amounted to approximately HK\$56.6 million, representing an increase by approximately HK\$1.4 million or 3% as compared to FY2017 (FY2017: approximately HK\$55.2 million). Such increase was mainly due to the increase in staff cost of approximately HK\$4.4 million primarily attributable to the effort incurred for tender bidding processes and other presale activities during FY2018 with an aim to secure another large-scale IT project, offset by (i) the decrease in professional fees of approximately HK\$1.1 million due to the absence of professional fee incurred for the transfer of listing during FY2017; and (ii) the decrease of rental expenses paid by the Group of approximately HK\$1.8 million following the relocation of the head office of the Group to an acquired premises in Kwun Tong.

Change in fair value of contingent consideration payable

According to the sale and purchase agreement to acquire 15% equity interest of INAX, a contingent consideration payable by the Group with reference to certain performance target for INAX was created. According to the valuation report issued by an independent professional valuer, the fair value of the contingent consideration payable is significantly dependent on the stock price of the Company. As the stock price of the Company as at 31 March 2018 dropped when compared with the stock price of the Company as at the date of completion of the acquisition, a valuation gain was resulted. Nevertheless, the valuation gain was merely a result of accounting treatment and does not have any real impact on the results of the operations and cash flows of the Group. For details of the contingent consideration payable, please refer to the INAX Announcements.

Loss for the year

The Group recorded a net loss of approximately HK\$7.1 million for FY2018 as compared to a net profit of approximately HK\$33.9 million for FY2017. The loss recorded by the Group was mainly attributable to the combined effect of: (i) the decrease in gross profit of approximately HK\$47.5 million as compared to FY2017; (ii) the increase in administrative expenses of approximately HK\$1.4 million as compared to FY2017; (iii) the decrease in provision for income tax of approximately HK\$6.2 million as compared to FY2017 due to the significant decrease

in taxable profits as a result of the net loss recorded by the Group; and (iv) the gain on change in fair value of contingent consideration payable of approximately HK\$2.9 million in relation to the acquisition of 15% equity interest of INAX.

LIQUIDITY AND FINANCIAL RESOURCES

As at 31 March 2018, the shareholders' funds of the Group amounted to approximately HK\$205.9 million (2017: approximately HK\$179.5 million). Current assets were approximately HK\$199.0 million (2017: approximately HK\$196.6 million), mainly comprised of cash and cash equivalents of approximately HK\$38.3 million (2017: approximately HK\$27.4 million), tax recoverable of approximately HK\$6.1 million (2017: HK\$nil) and trade and other receivables of approximately HK\$151.4 million (2017: approximately HK\$166.0 million). Current liabilities mainly comprised of trade and other payables of approximately HK\$62.9 million (2017: approximately HK\$47.6 million), contingent consideration payable of approximately HK\$31.3 million (2017: HK\$nil) and bank loan of HK\$22.9 million (2017: HK\$15.5 million). The changes in current assets and current liabilities of the Group are primarily due to:

- (i) the increase in cash and cash equivalent and the decrease in the combined amount of trade debtors and gross amounts due from customers for contract work (both included in trade and other receivables) reflected the collection of payments from customers after the payment milestones of projects-in-progress are reached following the substantial completion of the Group's large-scale IT projects;
- (ii) tax recoverable arose due to provisional profits tax paid which shall be refundable as ICO Limited, a wholly-owned subsidiaries of the Group incurred a loss for FY2018;
- (iii) the increase in outstanding bank loan as the Group needed to maintain sufficient working capital after payment of cash deposit of approximately HK\$8.7 million in relation to the acquisition of Project CKB;
- (iv) the increase in trade creditors (included in trade and other payables) as the purchases made by the Group near 31 March 2018 were not yet due; and

MANAGEMENT DISCUSSION AND ANALYSIS

- (v) the creation of contingent consideration payable following the acquisition of 15% equity interest of INAX.

The outstanding bank loan of HK\$22.9 million as at 31 March 2018 will be matured by August 2018 and as at 31 March 2018, the Group has unutilised bank facilities amounted to HK\$22.1 million. The net asset value per share attributable to equity shareholders of the Company as at 31 March 2018 was approximately HK\$0.049 (2017: approximately HK\$0.045). The Group's gearing ratio, expressed as a percentage of bank borrowings over total equity, was approximately 11% (2017: 8%). As at 31 March 2018, the liquidity ratio of the Group, determined as a ratio of current assets over current liabilities, was approximately 1.7 times (2017: approximately 3.1 times).

CAPITAL STRUCTURE

The share capital of the Company only comprises of ordinary shares.

During FY2018, 218,253,968 new ordinary shares were issued by the Company as payment of consideration for acquiring 15% equity interest of INAX pursuant to the relevant sale and purchase agreement. For the details of the acquisition, please refer to the INAX Announcements.

Except for the above, there were no changes in the share capital of the Company during FY2018, and there were no changes in the share capital of the Company during FY2017.

As at 31 March 2018 and 2017, the Company's issued share capital was HK\$10,545,635 and HK\$10,000,000 respectively and the number of its issued ordinary shares was 4,218,253,968 and 4,000,000,000 of HK\$0.0025 each respectively.

The Group's capital is mainly derived from bank loans, net proceeds from placing and retained profit of the Group. When managing its capital, the Group's primary objectives are to safeguard the Group's ability to continue as a going concern, so that it can continue to provide returns for equity owners and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. As at 31 March 2018 and 31 March 2017, all outstanding bank borrowings are denominated in Hong Kong dollars and with a fixed interest rate with reference to HIBOR.

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholder returns that might be possible with higher levels of borrowings and the advantages and security afforded by sound capital position, and makes adjustments to capital structure in light of changes in economic conditions.

COMMITMENTS

As at 31 March 2018, the Group had operating lease commitments in respect of rented office of approximately HK\$2,461,000 (2017: approximately HK\$4,485,000).

As at 31 March 2018 and up to the date of this annual report, subject to certain conditions, the Group has capital commitments on its acquisitions of 40% equity interest of Pointsoft and Project CKB. For details on the acquisitions, please refer to the Pointsoft Announcements and Project CKB Announcements and Circular.

As at 31 March 2017, the Group did not have any significant capital commitments.

FUTURE PLANS FOR MATERIAL INVESTMENTS AND CAPITAL ASSETS

The Group from time to time is exploring investment opportunities that would benefit the shareholders of the Company as a whole. Except for those disclosed elsewhere in this annual report, the Group does not have any concrete plans for material investments and capital assets.

MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES AND AFFILIATED COMPANIES

Except for the acquisition of 15% equity interest of INAX, 40% equity interest of Pointsoft and Project CKB, the Group did not have any material acquisition or disposals of subsidiaries and affiliated companies during FY2018 and up to the date of this annual report. For details of the acquisitions, please refer to INAX Announcements, Pointsoft Announcements and Project CKB Announcements and Circular. During FY2017, the Group did not have any material acquisitions or disposals of subsidiaries and affiliated companies.

MANAGEMENT DISCUSSION AND ANALYSIS

SIGNIFICANT INVESTMENTS AND CAPITAL ASSETS

The Group acquired an office premises and a carpark in Kwun Tong during the year ended 31 March 2016 at a consideration of HK\$45,294,000 and is still holding the office premises and the carpark as at the date of this annual report. As at 31 March 2018, according to a valuation report issued by an independent professional valuer, the fair value of the office premises and the carpark is HK\$54.8 million (as at 31 March 2017: HK\$52.0 million).

During FY2018 and up to the date of this annual report, the Group has entered into agreements to acquire 15% equity interest of INAX, 40% equity interest of Pointsoft and Project CKB. For details of the acquisitions, please refer to the INAX Announcements, the Pointsoft Announcements and the Project CKB Announcements and Circular.

As at the date of this annual report, the Group considers the performance of INAX is satisfactory as the management account of INAX (subject to audit) shows that it had fulfilled the performance target in accordance with the sale and purchase agreement in relation to the acquisition. On the other hand, as Project CKB is still under development, the acquisition of 40% equity interest of Pointsoft was just completed on 28 June 2018, the performance of these investments are hard to be reliably measured.

Save and except for disclosed above, the Group did not hold any significant investments nor made any significant acquisition of capital assets during FY2018 and FY2017.

CONTINGENT LIABILITIES

The Group had no material contingent liabilities as at 31 March 2018 (2017: Nil).

EXPOSURE TO EXCHANGE RATE FLUCTUATION

For FY2018 and FY2017, the Group was only exposed to limited currency exchange rate fluctuation risks as virtually all of the Group's monetary assets and liabilities were denominated in Hong Kong dollars as it conducts its business transactions principally in this currency and the foreign exchange rate fluctuation risk of the consideration payable for acquiring

Project CKB is limited under the sale and purchase agreement. The currency exchange rate risk of the Group for FY2018 and FY2017 is therefore considered to be immaterial, and the Group did not engage in any hedging activity.

In the future, the Group will face foreign exchange exposure as the Group would have assets and operations in Malaysia after the completion of Project CKB, as such, the Group will continue to monitor its foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arises.

CHARGE ON THE GROUP'S ASSETS

As at 31 March 2018, except for the pledged bank deposit of approximately HK\$3.2 million (as at 31 March 2017: approximately HK\$3.2 million) in relation to guarantees issued by a bank in respect of the Group's projects-in-progress and property, plant and equipment with net book value of approximately HK\$42.9 million (as at 31 March 2017: approximately HK\$44.4 million) pledged to a bank for a revolving term loan facility of HK\$30.0 million used to finance the working capital of the Group, there were no charges on the Group's assets.

EMPLOYEES AND REMUNERATION POLICIES

As at 31 March 2018, the Group employed a total of 283 full-time employees (2017: 323). The staff costs, including Directors' emoluments, of the Group were approximately HK\$141.2 million for FY2018 (2017: approximately HK\$139.3 million). Remuneration is determined with reference to market terms and the performance, qualification and experience of individual employee. In addition to a basic salary, year-end discretionary bonuses were offered to those staff with outstanding performance to attract and retain eligible employees to contribute to the Group.

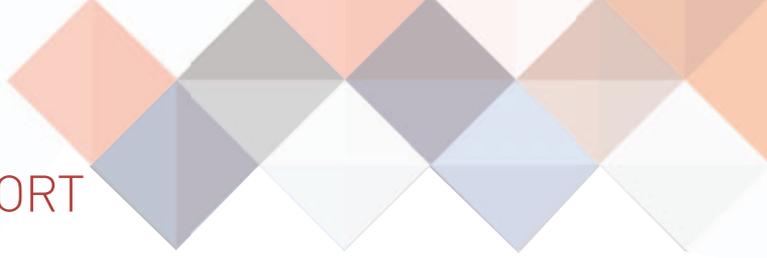

MANAGEMENT DISCUSSION AND ANALYSIS

COMPARISON OF BUSINESS OBJECTIVES WITH ACTUAL BUSINESS PROGRESS AND USE OF PROCEEDS

As at 31 March 2018, the business objectives as set out in the prospectus of the Company dated 10 March 2015 have been achieved and the corresponding net proceeds allocated to the business objectives have been fully utilized, except for the followings:

| Business objectives | Actual progress |
|--|--|
| Strategic growth through merger, acquisition or business collaboration | During FY2018 and up to the date of this annual report, the Group has entered into agreements to acquire 15% equity interest of INAX, 40% equity interest of Pointsoft and Project CKB. For details of the acquisitions, please refer to INAX Announcements, Pointsoft Announcements and Project CKB Announcements and Circular. The unutilized amount of net proceeds allocated to this business objective is approximately HK\$5.4 million. The Group will attempt to identify suitable targets from time to time in the future. |
| Expansion of IT application and solution development business | As at 31 March 2018, approximately HK\$3.2 million of the net proceeds from placing was pledged to a bank for performance guarantees issued by the bank in respect of IT application and solution development projects-in-progress and approximately HK\$4.0 million had been used for tender bidding, presale and business development activities. The Group is still monitoring the latest development of tenders regarding IT projects from time to time. The unutilized amount of net proceeds allocated to this business objective is approximately HK\$2.2 million, which will be reserved for placing performance guarantee or further business development activities. |

The Directors will constantly evaluate the Group's business objectives and may change or modify plans against the changing market condition to attain sustainable business growth of the Group.

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE PRACTICES

The Board recognized that transparency and accountability is important to a listed company. Therefore, the Company is committed to establish and maintain good corporate governance practices and procedures. The Directors believe that good corporate governance provides a framework that is essential for effective management, successful business growth and a healthy corporate culture which would benefit the Company's stakeholders as a whole.

The Board has adopted and complied with the Corporate Governance Code (the "**CG Code**") as set out in Appendix 14 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "**Listing Rules**"). The Board will continue to review its corporate governance practices in order to enhance its corporate governance standard, to comply with the increasingly tightened regulatory requirements from time to time, and to meet the rising expectation of shareholders and other stakeholders of the Company.

The Board is pleased to report compliance with the code provisions of the CG Code for the year ended 31 March 2018, except where otherwise stated.

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted the code of conduct regarding Directors' securities transactions as set out in the Model Code for Securities Transactions by Directors of Listed Issuers (the "**Model Code**") as set out in Appendix 10 of the Listing Rules. In response to a specific enquiry by the Company, all Directors confirmed that they have complied with the Model Code throughout the year ended 31 March 2018.

BOARD OF DIRECTORS

As at 31 March 2018, the Board comprised two executive directors, two non-executive directors and three independent non-executive directors. The composition of the Board during the year ended 31 March 2018 and up to the date of this report was as follows:

Executive directors:

Mr. Lee Cheong Yuen (*redesignated as Chairman and Chief Executive Officer on 5 April 2017*)

Mr. Yong Man Kin (*resigned as Chairman and Executive Director on 5 April 2017*)

Mr. Pang Yick Him (*appointed on 5 April 2017*)

Non-executive directors:

Mr. Chan Kwok Pui

Mr. Tam Kwok Wah

Independent non-executive directors:

Dr. Chan Mee Yee

Dr. Cheung Siu Nang Bruce

Ms. Kam Man Yi Margaret

RESPONSIBILITIES OF THE BOARD

The overall management of the Company's business is vested in the Board which assumes the responsibility for leadership and control of the Company and is collectively responsible for promoting the success of the Company by directing and supervising its affairs. All Directors should make decisions objectively in the interests of the Company. The Board has the full support from the executive Directors and the senior management of the Company to discharge its responsibilities.

The day-to-day management, administration and operation of the Company are delegated to the executive Directors and the senior management of the Company. The delegated functions and work tasks are periodically reviewed. Approval has to be obtained from the Board prior to any significant transactions entered into by the executive Directors and senior management. The Board also assumes the responsibilities of maintaining high standard of corporate governance, including, among others, developing and reviewing the Company's policies and practices on corporate governance, reviewing and monitoring the Company's policies and practices on compliance with legal and regulatory requirements, and reviewing the Company's compliance with the CG Code. All Directors, including independent non-executive Directors, have brought a wide spectrum of valuable business experience, knowledge and professionalism to the Board for its efficient and effective delivery of the Board functions. Independent non-executive Directors are invited to serve on the audit committee, the remuneration committee and the nomination committee of the Company.

The biographical details of the Directors and other senior management are set out in the section headed "**Biographical Details of Directors and Senior Management**" on pages from 30 to 32 of this annual report.

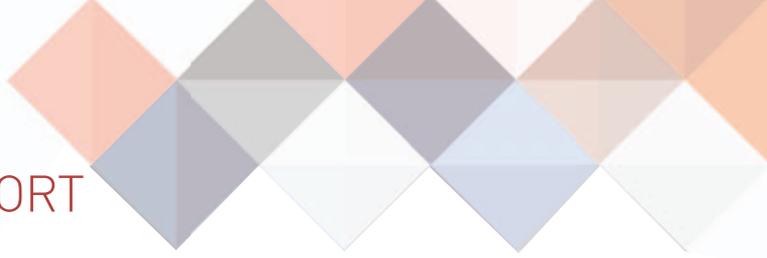

Save as disclosed above, the Board members have no financial, business, family or other material or relevant relationships with each other.

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

Code provision A.2.1 of the CG Code requires that the roles of chairman (the "**Chairman**") and chief executive officer (the "**Chief Executive Officer**") should be separated and not performed by the same individual. As Mr. Lee Cheong Yuen is currently the Chairman and the Chief Executive Officer, there will be a deviation from the code provision A.2.1.

The Board believes that with the support of the management, vesting the roles of both the Chairman and the Chief Executive Officer by the same person can maintain the continuity of the policies and the stability of the operations of the Company. The Board considers that the appointment of Mr. Lee Cheong Yuen as the Chairman and the Chief Executive Officer will not impair the balance of power as all major decisions are made in consultation with members of the Board and with the supervision of the three independent non-executive Directors, the interests of the shareholders of the Company will be adequately and fairly represented. Nevertheless, the Company will continue to review its operation and seek to re-comply with the code provision A.2.1 of the Code by splitting the roles of the Chairman and the Chief Executive Officer at a time when it is appropriate to increase the independence of corporate governance of the Group.

Code provision A.2.7 of the CG Code requires the chairman of the board to hold meetings at least annually with the non-executive directors (including independent non-executive directors) without the executive directors' presence. As Mr. Lee Cheong Yuen, the chairman of the Board, is also an executive Director, the Company has deviated from this code provision as it is not practicable.

CORPORATE GOVERNANCE REPORT

BOARD DIVERSITY POLICY

The Company adopted a board diversity policy (the "**Board Diversity Policy**") for the year ended 31 March 2018 and up to the date of this report. A summary of this Board Diversity Policy, together with the measurable objectives set for implementing this Board Diversity Policy, and the progress made towards achieving those objectives are disclosed as below.

Summary of the Board Diversity Policy

The Company recognised and embraced the benefits of having a diverse board to the quality of its performance. The Board Diversity Policy aimed to set out the approach to achieve diversity on the Board. In designing the Board's composition, board diversity has been considered from a number of measurable aspects including gender, age, ethnicity, knowledge and length of services. All Board appointments will be based on meritocracy, and candidates will be considered against objective criteria, having due regards for the benefits of diversity on the Board.

Measurable Objectives

Selection of candidates will be based on a range of diversified perspectives, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of services. The ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board.

Implementation and Monitoring

The nomination committee of the Company reviewed the Board's composition under diversified perspectives, and monitored the implementation of the Board Diversity Policy annually.

The nomination committee of the Company has reviewed the Board Diversity Policy to ensure its effectiveness and considered that the Group complied the Board Diversity Policy for the year ended 31 March 2018 and up to the date of this report.

BOARD MEETING, GENERAL MEETING AND PROCEDURES

Board meetings involve the active participation, either in person or through other electronic means of communication, the Directors discuss and formulate the overall strategies of the Group, monitor financial performance and discuss the annual and interim results, as well as discuss and decide on other significant matters.

The company secretary of the Company (the "**Company Secretary**") assists in preparing the meeting agenda, and each Director may request the inclusion of items in the agenda. At least 14 days' notice of regular Board meetings is given to all Directors and they can include matters for discussion in the agenda as they think fit. The agenda accompanying Board papers are sent to all the Directors at least three days before the date of every Board meeting in order to allow sufficient time for the Directors to review the documents.

All minutes of the Board meetings are recorded in detail and are properly kept by the Company Secretary, which are available for inspection at any reasonable time on reasonable notice by any Director.

CORPORATE GOVERNANCE FUNCTIONS

No corporate governance committee has been established and the Board is responsible for performing the corporate governance functions such as developing, reviewing and monitoring the Company's policies and practices on corporate governance, training and continuous professional development of the Directors and senior management, the Company's policies and practices on compliance with legal and regulatory requirements, the code of conduct applicable to employees and Directors and the Company's Compliance with the CG Code and disclosure in this report. The Board held meetings from time to time whenever necessary. At least 14 days' notice of regular Board meetings is given to all Directors and they can include matters for discussion in the agenda as they think fit. The agenda accompanying Board papers are sent to all Directors at least three days before the date of every Board meeting in order to allow sufficient time for the Directors to review the documents.

Minutes of every Board meeting are circulated to all Directors for their perusal and comments prior to confirmation of the minutes. The Board also ensures that it is supplied in a timely manner with all necessary information in a form and of a quality appropriate to enable it to discharge its duties.

Every Board member has full access to the advice and services of the Company Secretary with a view to ensuring that Board procedures, and all applicable rules and regulations are followed and they are also entitled to have full access to Board papers and related materials so that they are able to make an informed decision and to discharge their duties and responsibilities.

CORPORATE GOVERNANCE REPORT

APPOINTMENT AND RE-ELECTION OF DIRECTORS

The current articles of association of the Company (the "Articles") provide that subject to the manner of retirement by rotation of directors as from time to time prescribed by the Listing Rules, at each annual general meeting, one-third of the Directors for the time being shall retire from office by rotation and that every Director shall be subjected to retirement by rotation at least once every three years.

Independent non-executive Directors are appointed for a specific term subject to retirement by rotation and re-election in accordance with the Articles. Each independent non-executive Director is required to inform the Company as soon as practicable if there are any changes that may affect his/her independence. The Company has received from each of the independent non-executive Director an annual confirmation of his/her independency pursuant to Rule 3.13 of the Listing Rules and the Company considers the independent non-executive Directors to be independent.

CONTINUOUS PROFESSIONAL DEVELOPMENT

To assist Directors' continuous professional development, the Company recommends Directors to participate in continuous professional development programmes such as external seminars organised by qualified professionals, to develop and refresh their knowledge and skills in relation to their contribution to the Board. All newly appointed Directors will receive an induction package covering the summary of the responsibilities and liabilities of a director of a Hong Kong listed company, the Group's business and the statutory regulatory obligations of a director of a Hong Kong listed company to ensure that the newly appointed Directors are sufficiently aware of their responsibilities and obligations under the Listing Rules and other regulatory requirements.

All Directors understand the importance of continuous professional development and are committed to participate in any suitable training to develop and refresh their knowledge and skills.

Pursuant to the code provision A.6.5 of the CG Code, all Directors participated in continuous professional development in the following manner:

| Name of Directors | Training on corporate governance, regulatory development and other relevant topics by attending seminars or reading articles and publications |

AUDIT COMMITTEE

The Company has established the Audit Committee with written terms of reference in compliance with the Listing Rules, in accordance with provisions set out in the CG Code which are available on the Company's website and the Stock Exchange's website.

The Audit Committee currently consists of three independent non-executive Directors namely Dr. Chan Mee Yee, Dr. Cheung Siu Nang Bruce and Ms. Kam Man Yi Margaret. The chairlady of the Audit Committee is Ms. Kam Man Yi Margaret, who has appropriate professional qualifications and experience in accounting matters.

The Audit Committee is mainly responsible for the followings:

- to consider the appointment of the external auditors, the performance of the external auditors, the audit fee, and any questions of resignation or dismissal;
- to review with the Group's management, external auditors and internal auditors, the adequacy of the Group's policies and procedures regarding internal controls (including financial, operational and compliance controls), risk management system and any statement by the Directors to be included in the annual accounts prior to endorsement by the Board;
- to have familiarity with the financial reporting principles and practices applied by the Group in preparing its financial statements;

CORPORATE GOVERNANCE REPORT

- (d) to review the scope of the external audit, including the engagement letter prior to audit commencement. The Audit Committee should understand the factors considered by the external auditors in determining their audit scope. The external audit fees are to be negotiated by management, and presented to the Audit Committee for review and approval annually;
- (e) to review the annual and interim financial reports prior to approval by the Board, with particular focus on:
 - (i) any changes in accounting policies and practices;
 - (ii) major judgmental areas;
 - (iii) significant adjustments resulting from the audit;
 - (iv) the going concern assumption and any qualifications;
 - (v) compliance with accounting and auditing standards, and
 - (vi) compliance with the listing requirements of the Stock Exchange and legal requirements;

For the year ended 31 March 2018, the Audit Committee held two meetings to consider and approve the following:

- (a) to review the interim and annual financial statements before submission to the Board, with a focus on compliance with accounting standards, the Listing Rules and other requirements in relation to financial reporting of the Group;
- (b) to discuss the effectiveness of the internal control systems throughout the Group, including financial, operational and compliance controls, and risk management;
- (c) to review the accounting principles and practices adopted by the Group and other financial reporting matters; and
- (d) to address the audit issues raised by the external auditors of the Group.

The audited consolidated financial statements of the Group for the year ended 31 March 2018 have been reviewed by the Audit Committee, which was of the opinion that the consolidated financial statements have been prepared in compliance with the applicable accounting standards and Listing Rules.

There was no disagreement between the Board and the Audit Committee on the selection and appointment of the external auditors during the year ended 31 March 2018.

- (f) report to the Board on decisions or recommendations made, unless there are legal or regulatory restrictions not to do so.

DIRECTORS' RESPONSIBILITIES FOR THE FINANCIAL STATEMENTS

The Directors acknowledge their responsibilities for preparing the financial statements of the Group that gives a true and fair view of the state of affairs of the Group. The Directors aim to present a balanced and understandable assessment of the Group's position and prospects with timely publication of the financial statements of the Group. As at 31 March 2018, the Board was not aware of any material uncertainties relating to events or conditions that might cast significant doubt upon the Group's ability to continue as a going concern.

The responsibility of the external auditors is to form an independent opinion, based on their audit, on those consolidated financial statements prepared by the Board and to report their opinion to the shareholders of the Company. The statements by external auditors, Crowe (HK) CPA Limited (formerly known as Crowe Horwath (HK) CPA Limited), about their reporting responsibility on the financial statements of the Group are set out in the independent auditor's report from pages 45 to 49 of this annual report.

INTERNAL CONTROL AND RISK MANAGEMENT

The Board oversees the risk management and internal control framework and has overall responsibility for the establishment, maintenance and review of the Group's risk management and internal control system to manage risks and safeguard shareholder investments and the assets of the Group. The internal control system of the Group aims to facilitate effective and efficient operation which in turn minimizes the risks to which the Group is exposed. The system can only provide reasonable but not absolute assurance against misstatement or losses.

The objective of the Group's risk management framework is to provide a clear governance structure and procedures in managing risks across business operations. The Board has evaluated the risks that the Group may expose to when achieving the Group's strategic objectives and has overseen the management in the design, implementation and monitoring of the risk management procedures.

The Group has adopted risk management procedures to identify, evaluate and manage significant risks. At least on an annual basis, the Board conducts a risk assessment and continuous review to determine the status of monitoring and effectiveness of risk management of the Company. The Board also conducts annual review of the implemented system and procedures, covering financial, operational and legal compliance controls and risk management functions. The Directors consider that the Group has implemented effective and adequate procedures to safeguard the Group's assets against unauthorized use or misappropriation, maintain proper accounting records, and executed with appropriate authority and compliance of the relevant laws and regulations.

The Board and the senior management of the Group adopted the following main procedures to monitor the effectiveness of the Group's risk management and internal control functions:

- Organise work meetings to determine the Group's risk appetite and the overall risk management and internal control framework;
- Establish internal control and risk management procedures to define the responsibilities of monitoring levels within the Group;
- Conduct risk identification and evaluation based on various factors and review the operational process to ensure appropriate operation workflows and controls are in place to mitigate significant risks;
- Review and monitor internal control deficiencies, if any, and ensure the delegated risk owners have taken remediation actions promptly by tracking the status of actions completion; and
- Promote the norms of internal control amongst staff and enhance staff awareness of the importance and necessity of internal control system.

The Group also has internal guidelines in place to ensure inside information is disseminated to the public in accordance with the applicable laws and regulations. Executive Directors and financial function of the Group are delegated with responsibilities to control and monitor the proper procedures regarding inside information disclosures. To prevent possible mishandling of inside information within the Group, access to inside information is restricted only to relevant senior personnel and other professional parties involved and they are constantly reminded to preserve confidentiality of the inside information until it is publicly disclosed.

CORPORATE GOVERNANCE REPORT

In addition to the above policies and procedures, the Group has engaged external professional service firm to perform internal audit function and conduct independent risk management and internal control review. The professional service firm reports their findings to the Board annually via face-to-face meetings and written reports that highlights key risks and action plans. Deficiencies in the design and implementation of internal controls, if any, are identified and recommendations are proposed for improvement. Significant internal control deficiencies are reported to the Audit Committee and the Board on a timely basis. For the year ended 31 March 2018, with reference to the reports provided by the professional service firm, the Board concluded that there were no significant control failings or weaknesses identified and the Group's processes for financial reporting and Listing Rules compliance are effective.

AUDITOR'S REMUNERATION

The amount of fees charged by the external auditors generally depends on the scope and volume of the external auditors' work performed.

For the year ended 31 March 2018, the remuneration paid or payable to the external auditors of the Company in respect of audit services and non-audit services for the Group are as follows:

| | Fees paid/payable for the services rendered HK\$'000 |
|--------------------|--|
| Audit services | 680 |
| Non-audit services | 388 |

COMPANY SECRETARY

Mr. Pang Yick Him is the Company Secretary and has taken no less than 15 hours of relevant professional training for the year ended 31 March 2018. The biographical details of Mr. Pang Yick Him are set out under the section headed "**Biographical Details of Directors and Senior Management**" of this annual report.

SHAREHOLDERS' RIGHTS

As one of the measures to safeguard shareholders' interest and rights, separate resolutions can be proposed at shareholders' meetings on each substantial issue, including the election of individual directors, for shareholders' consideration and voting. All resolutions put forward at shareholders' meeting will be voted by poll pursuant to the Listing Rules and the poll voting results will be posted on the Stock Exchange's website and the Company's website after the relevant shareholders' meeting.

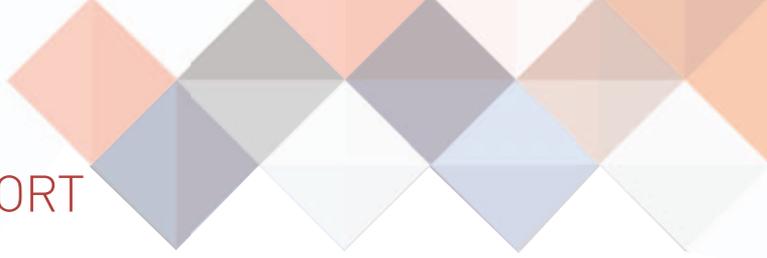

PROCEDURES FOR SHAREHOLDERS TO CONVENE EXTRAORDINARY GENERAL MEETING

The following procedures for shareholders to convene an extraordinary general meeting are subject to the Articles (as amended from time to time), and the applicable legislation and regulation, in particular the Listing Rules (as amended from time to time):

- (a) any one or more shareholders holding at the date of deposit of the requisition not less than one-tenth of the paid up capital of the Company (the "**Eligible Shareholder(s)**") carrying the right of voting at general meetings of the Company shall at all times have the right, by written requisition to the Board or the Company Secretary to require an extraordinary general meeting ("**EGM**") to be called by the Board for the transaction of any business specified in such requisition;
- (b) Eligible Shareholders who wish to convene an EGM must deposit a written requisition (the "**Requisition**") signed by the Eligible Shareholder(s) concerned to the head office and principal place of business of the Company in Hong Kong at Office A, 25th Floor, TG Place, No. 10 Shing Yip Street, Kowloon, Hong Kong, or Hong Kong branch share registrar and transfer office of the Company, Union Registrars Limited, Suites 3301-04, 33/F., Two Chinachem Exchange Square, 338 King's Road, North Point, Hong Kong for the attention of the Board and/or the Company Secretary;
- (c) the Requisition must state clearly the name of the Eligible Shareholder(s) concerned, his/her/their shareholding, the reason(s) to convene an EGM and the details of the business(es) proposed to be transacted in the EGM, and must be signed by the Eligible Shareholder(s) concerned together with a deposit of a sum of money reasonable sufficient to meet the Company's expenses in serving the notice of the resolution and circulating the statement submitted by the shareholders concerned in accordance with the statutory requirements to all the registered shareholders;
- (d) the Requisition will be verified with Hong Kong branch share registrar and transfer office of the Company and upon their confirmation that the Requisition is proper and in order, the Board will convene an EGM by serving sufficient notice in accordance with the requirements under the Articles to all the registered Shareholders. On the contrary, if the Requisition has been verified as not in order or the Shareholders concerned have failed to deposit sufficient money to meet the Company's expenses for the said purposes, the Eligible Shareholder(s) concerned will be advised of this outcome and accordingly, the Board will not call for an EGM;
- (e) if within 21 days of the deposit of the Requisition, the Board fails to proceed to convene such EGM, the Eligible Shareholder(s) himself/herself/themselves may do so, and all reasonable expenses incurred by the Eligible Shareholder(s) concerned as a result of the failure of the Board shall be reimbursed to the Eligible Shareholder(s) concerned by the Company.

PROCEDURES FOR SHAREHOLDERS TO PUT FORWARD PROPOSALS AT SHAREHOLDERS' MEETINGS

There are no provisions allowing shareholders to move new resolutions at the general meetings under the Companies Law (Revised) of Cayman Islands. However, pursuant to the Articles, shareholders who wish to move a resolution may by means of Requisition convene an EGM following the procedures set out above.

CORPORATE GOVERNANCE REPORT

PROCEDURES FOR RAISING ENQUIRIES

Shareholders should direct their questions about their shareholdings, share transfer, registration and payment of dividend to the Company's Hong Kong share registrar (details of which are set out in the section headed "**Corporate Information**" of this annual report).

Should there are any enquiries and concerns from shareholders, they may send in written enquiries addressed to the head office and principal place of business of the Company in Hong Kong at Office A, 25th Floor, TG Place, No. 10 Shing Yip Street, Kowloon, Hong Kong by post for the attention of the Board and/or the Company Secretary.

Shareholders are reminded to lodge their questions together with their detailed contact information for the prompt response from the Company if it deems appropriate.

INVESTORS RELATIONS

The Company has established a range of communication channels between itself and its shareholders, and investors. These include answering questions through the annual general meeting, the publication of annual and interim reports, notices, announcements and circulars, the Company's website at www.ico.com.hk and meetings with investors and shareholders. News update of the Group's business development and operation are also available on the Company's website.

For the year ended 31 March 2018, there had been no significant change in the Company's constitutional documents.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

This Environmental, Social and Governance ("ESG") report for the Group highlights its ESG performance with disclosure reference made to the ESG reporting principles as set out in Appendix 27 of the Listing Rules.

This ESG report covers the Group's overall performance in two subject areas, namely Environmental and Social for the business operations of all entities comprising the Group which operated in two office premises in Hong Kong during the year ended 31 March 2018. As for the information on corporate governance of the Group, please refer to the "Corporate Governance Report" on pages 12 to 24 of this annual report.

SECTION A. ENVIRONMENTAL

The Group is principally engaged in provision of IT solutions and services which does not involve in direct emission of significant levels of polluted air, discharge of pollutants into water and land, and generation of hazardous as well as non-hazardous waste. As a result, no laws and regulations relating to air and greenhouse gas emissions, discharges into water and land, and generation of hazardous and non-hazardous waste have significant impact on the Group. Nevertheless, the operation of the Group involves indirect emission of greenhouse gases which primarily caused by use of electricity, paper and business air travel. Apart from electricity and water, the Group does not use other forms of energy and natural resources for its operation and its operations do not have direct significant impact on the environment.

During the year ended 31 March 2018, the quantitative information in relation to greenhouse gases emission of the Group is as follows:

| Greenhouse Gases Emissions | 2018 tonnes | 2017 tonnes |
|--|----------------|----------------|
| Indirect Emission (Scope 2) | | |
| Electricity | 138 | 158 |
| Indirect Emission (Scope 3) | | |
| Paper Consumption | 3 | 4 |
| Business air travel | 7 | 7 |
| Total emission of greenhouse gases | 148 | 169 |
| Total emission of greenhouse gases per square metre of floor area | 0.15 | 0.19 |

During the year ended 31 March 2018, the total energy consumption of the Group in terms of electricity is as follows:

| Energy Consumption | 2018 | 2017 |
|---|---------|---------|
| Energy consumption – electricity (kwh) | 218,373 | 200,009 |
| Energy consumption – electricity per floor area (kwh/m ²) | 228 | 221 |

During the year ended 31 March 2018, the total water consumption of the Group is as follows:

| Water Consumption | 2018 | 2017 |
|--|------|------|
| Water consumption (m ³) | 64 | 39 |
| Water consumption per floor area (m ³ /m ²) | 0.07 | 0.04 |

Energy Consumption

Despite the increased electricity consumption due to increased floor area and testing of new computer equipments after the relocation of office premises of the Group from Wan Chai to Kwun Tong since 27 March 2018 which led to the increased electricity consumption for FY2018, the total emission of greenhouse gases arose from use of electricity decreased as the emission factor for electricity used in Kowloon is lower than that of in Hong Kong Islands.

Notice posted at the Group's office premises to remind staff to save electricity

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

In the future, in order to further reduce emission of greenhouse gases and electricity consumption, the Group will continue to implement energy saving measures. Staff of the Group are required to turn on power saving mode for computers, printers and monitors to reduce energy consumption when the machines are in idle and to switch off lights, printers, air conditioners and power of computers by the end of the working day. By adopting these policies, the Group wishes to create an environmental friendly working environment.

Water Consumption

After the relocation of the head office of the Group, instead of ordering distilled water from suppliers, one of the office premises used water purifier to process tap water for drinking purpose. As a result, water consumption increased for FY2018 as compared to FY2017. Apart from drinking water, the Group used minimal water for its daily operations only for cleaning purpose. Notices are posted in office premises to remind staff to turn off water taps after use and use water wisely.

Paper Consumption

Despite the reduced greenhouse gases emission arose from paper consumption, the Group will continue to promote reduction of paper printing and encourage the use of electronic communication. Single-sided papers are reused as scrap papers or used for printing internal documents. Electronic leave application system is used instead of leave approval records in paper form. Notices are posted in office premises to remind staff to use paper wisely so as to reduce damages to the environment. The Group does not use any packaging materials for its operations.

Business Air Travel

Business air travel is unavoidable as the Group is seeking to expand its business beyond Hong Kong. Nevertheless, the staff of the Group travelled only when necessary and were travelled in economy class in order to reduce carbon footprints.

Notice posted at the Group's office premises to remind staff to save papers

SECTION B. SOCIAL

B1: Employment

The Group has employment policies governing the recruitment, compensation, promotion, dismissal, leave entitlements and other benefits and welfare. Terms of employment and benefits are communicated to staff in the staff handbook. The Group is committed to create a working environment with equal opportunity and diversity. All staff are assessed based on their performance without discrimination against age, sex, pregnancy, disability, race, marital status or family status. During the year ended 31 March 2018, the Group had no material non-compliance with applicable legislation or regulations.

Awards from founders of the Group to staff with long service years

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

In addition to the above policy, during FY2018, the Group engaged a MPF services provider to provide MPF services to the Group's staff including educating the Group's staff to manage their portfolio and liaise with MPF trustees for a lower management fee so as to improve their long term welfare.

As at 31 March 2018, the staff gender and age distribution by position is as follows:

| Position | No. of employees | Male | Female | Aged under 30 | Aged 30 to 40 | Aged 41 to 50 | Aged above 50 |
|------------------|------------------|------|--------|---------------|---------------|---------------|---------------|
| Manager or above | 54 | 42 | 12 | 1 | 12 | 31 | 10 |
| General staff | 229 | 174 | 55 | 89 | 96 | 34 | 10 |

Staff turnover during the year ended 31 March 2018 is as follows:

| Category | No. of employees | Male | Female | Aged under 30 | Aged 30 to 40 | Aged 41 to 50 | Aged above 50 |
|----------------|------------------|------|--------|---------------|---------------|---------------|---------------|
| New staff | 30 | 20 | 10 | 14 | 11 | 3 | 2 |
| Staff turnover | 70 | 58 | 12 | 40 | 19 | 7 | 4 |

B2: Health and Safety

As a people-oriented organization, the Group strives to provide its staff with a safe and healthy workplace. First aid kits are available in every office premises. During the relocation of its head office, the Group hired professionals to carry out removal of formaldehyde and air catalyst purification service to ensure good internal air quality. The Group also offers medical insurances for permanent staff and subsidizes its staff with access to fitness centers so as to encourage them to exercise and maintain a healthy lifestyle. During the year ended 31 March 2018, the Group had no material non-compliance with applicable legislation or regulations.

B3: Development and Training

Regular trainings are provided to staff to ensure they are equipped with the appropriate and up-to-date skills to handle their job duties. The Group also sponsors staff to enroll external training courses that are required for their job engagements. Team leaders are encouraged to work closely with staff to understand their needs for development.

B4: Labour Standards

The Group strictly complies with the labour legislation in relation to prevention of child and forced labour. There is a procedure to collect and review documents for identity and age verification during recruitment. During the reporting period, the Group had no non-compliance of regulations in relation to prevention of child and forced labour.

B5: Supply Chain Management

The Group has maintained long term and stable relationships with major suppliers. All suppliers are evaluated carefully and are subjected to regular monitoring and assessment. During the reporting period, the Group was not aware that any key suppliers had any actions or practices that have a significant negative impact on business ethics, environmental protection, human rights and labour practices.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

B6: Product Responsibility

It is the Group's policy to respect intellectual property rights and prohibit the use of infringing articles in its business. All staff are required to strictly follow the relevant laws such as Copyright Ordinance. During the reporting period, the Group had no material non-compliance with relevant laws and regulations.

The continuous support from customers has been one of the critical success factors of the Group, therefore the Group put strong emphasis on providing quality products and services to its customers. Customer complaints, if any, are reviewed by respective technical team members to address. If necessary, the team will also escalate complaints to management for follow-up actions.

The Group has a comprehensive security policy in place to safeguard its assets and information. The Group's security and confidentiality guideline requires its staff to comply with regulations in relation to physical security, access control security, data security, application security, network and communication, and password management.

Regarding data privacy, the Group requires its staff to follow the applicable laws such as Personal Data (Privacy) Ordinance when handling both customers' and internal personal data. Staff are required to agree to hold all confidential information in trust and confidence upon contract signing, during and after the staff's period of service. For governmental projects, the Group treats all information received from the Government as confidential and agrees to use the confidential information solely for the purposes of assignment contracts.

B7: Anti-corruption

All staff must perform duties with integrity and act with due diligence to ensure the Group's reputation is not tarnished by misconduct and corruption. The Group's code of conduct requires staff to follow the applicable legislation and regulations such as Prevention of Bribery Ordinance. Policies on solicitation of advantages, acceptance of advantages, acceptance of entertainment and offer of advantages are established to prohibit staff from committing bribery offence. For any incidents and queries on possible breach of the Group's code of conduct, an employee may inform the appropriate management in accordance with the staff handbook. During the reporting period, there was no confirmed case of corruption and non-compliance of the relevant laws and regulations. In addition to the above policy, during FY2018, the Group also invited representative from ICAC to provide a training session for its staff so as to promote business ethics and prevent corruption.

REPORT OF DIRECTORS

The Directors hereby present their report and the audited consolidated financial statements for the year ended 31 March 2018.

PRINCIPAL ACTIVITIES

The principal activity of the Company is investment holding. The principal activities and other particulars of its subsidiaries are set out in note 15 to the consolidated financial statements. There were no significant changes in the nature of the Group's principal activities during the year.

BUSINESS REVIEW

A fair review of the Group's business, an indication of likely future development in the Group's business, an analysis using financial key indicators as required by Schedule 5 to the Hong Kong Companies Ordinance (Cap. 622) can be found in the "Chairman Statement" and "Management Discussion and Analysis" section, which forms part of this Report of Directors of this annual report.

KEY RISKS AND UNCERTAINTIES FACING BY THE GROUP

The followings are part of the key risks and uncertainties identified by the Group. There may be other risks and uncertainties in addition to those shown below which are not known to the Group or which may not be material now but could turn out to be material in the future.

The Group may encounter cost overruns or delays in the IT application and solution development projects, which may materially and adversely affect the Group's business, financial position and results of operation

The Group generally provides IT application and solution development services on a project basis. Some IT application and solution development projects are awarded through competitive tendering process. The Group has to estimate the time and costs needed for the implementation of these IT application and solution development projects in order to determine the quotations. There is no assurance that the actual time taken and costs incurred would not exceed the estimation. The Group expects to continue bidding on fixed-price contracts, the terms of which normally require the Group to complete a project for a fixed price, increasing the possibility of exposing the Group to cost overruns and resulting in lower profits or losses in a project.

The actual time taken and cost incurred by the Group in completing IT application and solution development projects may be affected by many factors, including technical difficulties, integration with third party vendors' products, and other unforeseeable problems and circumstances. Any one of these factors can cause delays in the completion of project or cost overruns.

Most of the IT application and solution development projects are subject to specific completion schedules and some of the customers are entitled to claim liquidated damages from the Group if the Group does not meet the schedules. Liquidated damages are typically levied at an agreed rate for each day or part of a day for such delay. Failure to meet the schedule requirements of the contracts may result in a significant number of liquidated damages claims, other contract liabilities and disputes with the customers or even the termination of relevant contracts. There is no guarantee that the Group would not encounter cost overruns or delays in the current and future IT application and solution development projects. Should such problems occur, the Group's business, financial position and results of operations of the Group would be materially and adversely affected.

REPORT OF DIRECTORS

The Group relies on contracts with its major customers

The Group relies on contracts with its major customers. Revenue for the Group's top five customers accounted for approximately 39% and 29% respectively of the Group's total revenue for the years ended 31 March 2017 and 2018. It is not assured that the Group can successfully expand its customer base and secure new customers given the competitiveness of the industry in which the Group operates. Reduction in demand for services or termination of the contract by the top five customers of the Group may cause material decrease in revenue which in turn may adversely affect the Group's business, financial condition and results of operation.

The Group's contracts are project basis which creates uncertainty on future revenue streams

The Group's IT application and solution development services are conducted on a project-by-project basis which is not recurring in nature. The Group's customers may subsequently engage the Group in enhancement works or conducting upgrades for the systems developed by the Group in previous projects. The customers may also engage the Group to develop new IT systems after the retirement of outdated systems. However, there is no assurance that the customers will continue to provide the Group with new businesses after completion of the Group's projects.

After the completion of IT application and solution development projects, the Group usually provides maintenance and support services to the customers under separate agreements. The Group cannot guarantee that these maintenance and support service agreements will be renewed in the future nor can the Group guarantee that it shall be able to enter into new agreements with the customers.

The contracts are project basis which creates uncertainty on future revenue streams. In the event that the Group is unable to renew the existing agreements or secure new engagements with customers or customers substantially reduce their purchase orders, the Group's business and future revenue will likely be adversely affected.

Risks relating to the Group's investments

During FY 2018 and up to the date of this report, the Group made several investments by entering agreements to acquire 15% equity interest of INAX, 40% equity interest of Pointsoft and Project CKB.

Should the value of these investments drop in the future or the performance of these investments are not as good as expected, impairment of these investments may result which will lead to deterioration of the Group's financial results and financial position.

Furthermore, as Project CKB is situated in Malaysia, unfavourable change in foreign exchange rate may also lead to deterioration of the Group's financial results and financial position.

As at 31 March 2018, the Company's reserves available for distribution to the shareholders, calculated in accordance with the Companies Law, Chapter 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands amounted to approximately HK\$114.9 million (2017: HK\$78.8 million).

MAJOR CLIENTS AND SUPPLIERS

For the years ended 31 March 2018 and 2017, sales to the Group's five largest customers accounted for approximately 29% and 39% respectively of the total sales for the year and sales to the largest customer included therein amounted to approximately 9% and 15% respectively. For the years ended 31 March 2018 and 2017, purchases from the Group's five largest suppliers accounted for approximately 37% and 47% respectively of the total cost of sales for the year and purchase from the largest supplier included therein amounted to approximately 12% and 16% respectively.

At no time during the years ended 31 March 2018 and 2017 have the Directors, chief executive, substantial shareholders of the Company or any of its subsidiaries or their associates (which to the knowledge of the Directors own more than 5% of the Company's issued shares) had any interest in these major customers and suppliers.

RELATIONSHIP WITH EMPLOYEES, CUSTOMERS AND SUPPLIERS

The Group's success depends on the support from key stakeholders which comprise employees, customers and suppliers.

Employees

Employees are regarded as the most important and valuable assets of the Group. The Group is committed to provide its employees with a safe and healthy workplace and encourage them to have a work-life balance. The Group also ensures all employees are reasonably remunerated and regular trainings are provided for its technical staff. During the years ended 31 March 2018 and 2017, the Group has not experienced any significant problems with its employees nor has experienced any difficulty in the recruitment and retention of experienced staff. The Group maintains good relationship with its employees.

Customers

The Group has a diversified customer base with hundreds of customers across various industries, including government and statutory bodies, financial institutions and general business enterprises. The Group stays connected with its customers through various channels to obtain their feedback and suggestions. During the years ended 31 March 2018 and 2017, the Group does not have any significant disputes with its customers and maintained good relationship with them.

Suppliers

The Group carefully selects its suppliers as the success of the Group depends on the quality of products and services obtained from them. During the years ended 31 March 2018 and 2017, the Group does not have any significant disputes with its suppliers and maintained good relationship with them.

SHARE OPTION SCHEME

The Company adopted a share option scheme (the "**Scheme**") after the shareholders of the Company approved the scheme at the annual general meeting of the Company on 12 August 2016 (the "**Adoption Date**"). Summary of the Scheme as set out below:

(1) Purpose of the Scheme

The purpose of the Scheme is to enable the Group to grant options to selected participants as incentives or rewards for their contribution to the Group, in particular, (i) to motivate and optimize their performance and efficiency of the Group; and (ii) to attract and retain or maintain ongoing business relationships with those have or will have contributions to the Group.

(2) Participants

The Board may, subject to and in accordance with the provisions of the Scheme and the Listing Rules, at their absolute discretion, invite full-time or part-time employees of the Group and any Directors, advisers, consultants, suppliers, customers and agent of the Group, who have contributed or will contribute to the Group to take up options to subscribe for such number of shares at the subscription price determined by the Board.

(3) Maximum number of shares available for subscription

- (i) The maximum number of shares which may be issued upon exercise of all options to be granted at any time under the Scheme and any other share option schemes of the Company must not in aggregate exceed 10% of the relevant class of the shares in issue as at the date when the Scheme was approved and adopted by the shareholders (the "**Scheme Mandate Limit**"). Options lapsed in accordance with the terms of the Scheme will not be counted for the purpose of calculating the Scheme Mandate Limit.
- (ii) The Company may seek approval by its shareholders in general meeting for "refreshing" the Scheme Mandate Limit under the Scheme. However, the total number of shares which may be issued upon exercise of all options to be granted under the Scheme and any other schemes of the Company under the limit as "refreshed" must not exceed 10% of the relevant class of the shares in issue as at the date of passing the relevant resolution to refresh such limit. Options previously granted under the Scheme and any other schemes (including those outstanding, cancelled, lapsed in accordance with the Scheme or any other schemes or exercised options) will not be counted for the purpose of calculating the Scheme Mandate Limit as "refreshed".
- (iii) The Company may seek separate approval by its shareholders in general meeting for granting options beyond the Scheme Mandate Limit provided the options in excess of the Scheme Mandate Limit are granted only to participants specifically identified by the Company before such approval is sought. The Company must send a circular to the shareholders containing a generic description of the specified participants who may be granted such options, the number and terms of the options to be granted, the purpose of granting options to the specified participants with an explanation as to how the terms of the options serve such purpose, the information and the disclaimer required under the Listing Rules.
- (iv) The maximum number of shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Scheme and any other schemes of the Company must not exceed 30% of the relevant class of the shares in issue from time to time. No options may be granted under the Scheme or any other schemes of the Company if this will result in this limit being exceeded.

(4) Maximum entitlement of each participant

- (i) Unless approved by the shareholders, the total number of shares issued and to be issued upon exercise of the options granted to each participant (including both exercised and outstanding options) in any 12-month period must not exceed 1% of the relevant class of the shares in issue.
- (ii) The Company may grant further options in excess of such limit subject to the approval of the shareholders in general meeting with such participant and his associates abstaining from voting (or his associates if the participant is a core connected person abstaining from voting).
- (iii) The Company shall send a circular to the shareholders and the circular must disclose the identity of the participant, the numbers and terms of the options to be granted (and options previously granted to such participant), the information and the disclaimer required under the Listing Rules. The number and terms (including the subscription price) of options to be granted to such participant must be fixed before shareholders' approval and the date of Board meeting proposing such further grant will be taken as the offer date for the purpose of calculating the subscription price.

REPORT OF DIRECTORS

(5) Option Period

An option may be exercised at any time during a period to be determined and notified by the Directors to each grantee and such period shall not exceed the period of ten (10) years from the offer date.

(6) No performance target and minimum period to hold

Unless otherwise specified by the Board, a grantee is not required to achieve any performance target or to hold an option for a minimum period from the date of grant before any option granted under the Scheme can be exercised.

(7) Amount payable on acceptance of the option and the period within which payments must be made

- (i) An offer of the grant of an option shall be made to participants by letter in such form as the Board may from time to time determine and shall remain open for acceptance by the participant concerned for a period of 28 days from the date upon which it is made provided that no such offer shall be open for acceptance after the earlier of the 10th anniversary of the Adoption Date or the termination of the Scheme.
- (ii) A non-refundable nominal consideration of HK\$1.00 is payable by the grantee upon acceptance of an option. An option shall be deemed to have been accepted when the duplicate letter comprising acceptance of the option duly signed by the participant together with the said consideration of HK\$1.00 is received by the Company.

(8) Subscription price

The subscription price shall be determined by the Board in its absolute discretion but in any event shall be not less than the higher of (i) the closing price of the shares on the Stock Exchange (as stated in the Stock Exchange's daily quotations sheet) on the offer date, which must be a business day; (ii) the average closing price of the shares on the Stock Exchange (as stated in the Stock Exchange's daily quotations sheets) for the five (5) business days immediately preceding the offer date; and (iii) the nominal value of the shares.

(9) The remaining life of the Scheme

The Scheme will remain in force for a period of ten (10) years after the Adoption Date, i.e. 12 August 2016.

No options were granted since the Adoption Date and up to the date of this report, the Company had 400,000,000 shares available for issue under the Scheme (representing 10% of the existing issued capital of the Company as at the date when the Scheme was approved and adopted by the shareholders). For further details of the Scheme, please refer to the Company's circular dated 27 June 2016.

REPORT OF DIRECTORS

MANDATORY PROVIDENT FUND RETIREMENT BENEFIT SCHEME

The Group operates a defined contribution mandatory provident fund retirement benefit scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance for all of its employees in Hong Kong. Under the MPF Scheme, the employees are required to contribute 5% of their monthly salaries or up to a maximum of HK\$1,500 and they can choose to make additional contributions. The employer's monthly contributions are calculated at 5% of the employee's monthly salaries or up to a maximum of HK\$1,500. Contributions to the MPF Scheme vest immediately. The employees are entitled to 100% of the employer's mandatory contributions upon their retirement at the age of 65, death or total incapacity.

COMPETING INTERESTS

The Directors are not aware of any business or interest of the Directors nor the controlling shareholder of the Company nor any of their respective associates (as defined in the Listing Rules) that compete or may compete with the business of the Group and any other conflicts of interest which any such person has or may have with the Group during the years ended 31 March 2018 and 2017.

NON-COMPETITION UNDERTAKINGS

Each of the controlling shareholders of the Company has undertaken to the Company in the deed of non-competition (the "Deed of Non-Competition") that it/he will not, and will procure its/his associates (other than members of our Group) not to directly or indirectly be involved in or undertake any business that directly or indirectly competes, or may compete, with the Group's business or undertaking, or hold shares or interest in any companies or business that compete directly or indirectly with the business engaged by the Group from time to time except where the controlling shareholders hold less than 5% of the total issued share capital of any company (whose shares are listed on the Stock Exchange or any other stock exchange) which is engaged in any business that is or may be in competition with any business engaged by any member of the Group.

For the years ended 31 March 2018 and 2017, the Company received an annual written confirmation from each controlling shareholder of the Company in respect of its/his and its/his associates' compliance with the Deed of Non-Competition. The independent non-executive Directors have also reviewed and were satisfied that each of the controlling shareholders of the Company had complied with the Deed of Non-Competition.

DIRECTORS' AND CHIEF EXECUTIVES' INTERESTS IN SHARES

As at 31 March 2018, the interests or short positions of the Directors and chief executives of the Company in the shares of the Company (the "Shares"), underlying Shares or debentures of the Company and its associated corporations (within the meaning of Part XV of the Securities and Futures Ordinance (Chapter 571 of the laws of Hong Kong) (the "SFO")), which are required (a) to be notified to the Company and the Stock Exchange pursuant to Division 7 and 8 of Part XV of the SFO (including interests or short positions which they are taken or deemed to have under such provisions of the SFO); or (b) pursuant to Section 352 of the SFO, to be entered in the register referred to therein; or (c) have to be notified to the Company and the Stock Exchange pursuant to the Model Code were as follows:

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF ICO GROUP LIMITED

(Incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of ICO Group Limited ("**the Company**") and its subsidiaries ("**the Group**") set out on pages 50 to 105, which comprise the consolidated statement of financial position as at 31 March 2018, and the consolidated statement of profit or loss, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 March 2018, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("**HKFRSs**") issued by the Hong Kong Institute of Certified Public Accountants ("**HKICPA**") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("**HKSAs**") issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* ("**the Code**"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR'S REPORT

Recognition of contract revenue

(Refer to note 3(d) to the consolidated financial statements and the accounting policies in notes 2(j) and 2(r)(i) to the consolidated financial statements)

The Key Audit Matter

The Group's business involves entering into contractual relationships with customers to provide a range of services, including the provision of IT application and solution development, IT infrastructure solutions, secondment services, maintenance and support services. A significant proportion of the Group's revenue and profits is derived from long term contracts, most of which are fixed price contracts.

The recognition of revenue on long term contracts is based on the stage of completion of work performed on a contract at the end of the reporting period. The recognition of revenue for an incomplete project is dependent on estimating the total outcome of the contract as well as the work performed to date.

Forecasting the outcome of a contract involves the exercise of significant management judgement. Errors in contract forecasts could result in a material variance in the amount of profit or loss recognised to date and therefore also in the current period.

We identified the recognition of contract revenue as a key audit matter because contract revenue accounts for a significant proportion of the Group's revenue and because the recognition of contract revenue involves a significant degree of management judgement in assessing factors which can be inherently uncertain and may be subject to management bias.

How the matter was addressed in our audit

Our audit procedures to assess the recognition of contract revenue including the following:

- obtaining an understanding of and assessing the design, implementation and operating effectiveness of key internal controls over the contract revenue including the control over recording work done, invoicing and cash receipts;
- on a sample basis, comparing management's estimated costs to complete selected contracts at the end of the previous financial year with actual costs incurred during the current year and enquiring of the management about any significant variances identified; and
- selecting a sample of contracts and performing the following procedures for each contract selected:
 - inspecting key terms, including contract sum, deliverables, timetable and milestones, set out in the contract and evaluating whether these key terms had been appropriately reflected in the total estimated revenue and costs to complete under the forecasts of contract;
 - discussing with the project manager and financial management the performance of the contract and challenging their underlying judgements in their estimations of total estimated contract costs and estimated costs to complete the contract where it was still in progress at the end of the reporting period by comparing their estimates with underlying documentation, including contract agreements and sub-contracts, suppliers' quotations and certifications or correspondence with sub-contractors and suppliers;
 - comparing items recorded as contract costs during the year with suppliers' contracts, goods receipt notes and other relevant underlying documentation;
 - agreeing total contract revenue to the contracted terms;
 - recalculating the percentage of completion based on contract costs occurred up to the end of the reporting period and estimated total contract costs; and
 - recalculating revenue recognised to date, based on total contract revenue and the percentage of completion.

INDEPENDENT AUDITOR'S REPORT

Impairment loss for doubtful debts

(Refer to notes 3(c) and 16 to the consolidated financial statements and the accounting policies in note 2(i)(i) to the consolidated financial statements)

The Key Audit Matter

The Group's operations gave rise to significant trade debtors and gross amounts due from customers for contract work at the end of the reporting period. As at 31 March 2018, trade debtors and gross amounts due from customers for contract work amounted to HK\$118,004,000 and HK\$30,382,000, which represented 36% and 9% of the Group's total assets as at that date, respectively.

Trade debtors and gross amounts due from customers for contract work are reviewed by management on an individual customer basis at the end of each reporting period to determine whether there is objective evidence of impairment. These evaluations focus on the ageing of amounts due, the customer's past history of making payments when due and current ability to pay and also take into account information specific to the customers as well as pertaining to economic environment in which the customers operate.

We identified assessing the impairment loss for doubtful debts as a key audit matter because of the significance of the balances of trade debtors and gross amounts due from customers for contract work to the consolidated financial statements and because of the significant management judgement required in estimating the impairment loss for doubtful debts at the end of the reporting period, which can be inherently uncertain.

How the matter was addressed in our audit

Our audit procedures to assess the impairment loss for doubtful debts included the following:

- obtaining an understanding of and assessing the design, implementation and operating effectiveness of key internal controls relating to credit control, debt collection and recognising the impairment loss for doubtful debts;
- comparing, on a sample basis, the categorisation of trade debtors and gross amounts due from customers for contract work in the ageing report with invoices issued, contract terms, contract progress reports and other relevant underlying documentation;
- inquiring of management about the recoverability of individual balances and evaluating, on a sample basis, the impairment loss for doubtful debts made by management for these individual balances, if any, with reference to the customer's financial condition, the ageing of overdue balances and historical and post year-end payment records;
- assessing the historical accuracy of management's processes for estimating the impairment loss for doubtful debts by comparing the utilisation, write-offs and new impairment loss made in the current year with the balances of trade debtors and gross amounts due from customers for contract work as at the end of the previous reporting period; and
- inspecting cash receipts, on a sample basis, from customers subsequent to the end of the reporting period relating to trade debtors and gross amounts due from customers for contract work as at 31 March 2018.

INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The directors are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

INDEPENDENT AUDITOR'S REPORT

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

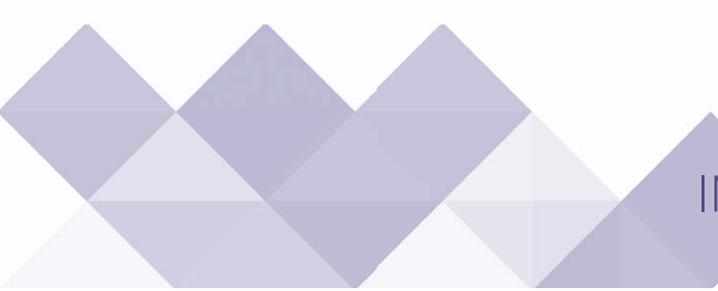

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

INDEPENDENT AUDITOR'S REPORT

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, related safeguards.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2018

1. GENERAL INFORMATION

ICO Group Limited (the "**Company**") was incorporated in the Cayman Islands on 26 April 2013 as an exempted company with limited liability under the Companies Law (2011 Revision) (as consolidated and revised) of the Cayman Islands. The Company and its subsidiaries (collectively referred to as the "**Group**") are principally engaged in the businesses of IT application and solution development, IT infrastructure solutions, secondment services and maintenance and support services.

Pursuant to a group reorganisation (the "**Reorganisation**") which was completed on 27 February 2015 to rationalise the group structure in preparation for the listing of the Company's shares on the Growth Enterprise Market ("**GEM**") of The Stock Exchange of Hong Kong Limited (the "**Stock Exchange**"), the Company became the holding company of the subsidiaries now comprising the Group. The Company's shares were listed on the GEM of the Stock Exchange on 18 March 2015 and subsequently transferred the listing of the Company's shares to the Main Board of the Stock Exchange on 12 October 2016 (the "**Transfer of Listing**").

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Statement of compliance

These financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards ("**HKFRSs**"), which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("**HKASs**") and Interpretations issued by the Hong Kong Institute of Certified Public Accountants ("**HKICPA**"), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. These financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on the Stock Exchange. Significant accounting policies adopted by the Group are disclosed below.

The HKICPA has issued certain new and revised HKFRSs that are first effective or available for early adoption for the current accounting period of the Group. Note 2(c) provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in these financial statements.

(b) Basis of preparation of the financial statements

The consolidated financial statements for the year ended 31 March 2018 comprise the Company and its subsidiaries.

The measurement basis used in the preparation of the consolidated financial statements is the historical cost basis except that the following liability is stated at its fair value as explained in the accounting policy set out below:

- contingent consideration payable (see note 2(m)(ii))

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of HKFRSs that have a significant effect on the financial statements and major sources of estimation uncertainty are discussed in note 3.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(c) Changes in accounting policies

The HKICPA has issued several amendments to HKFRSs that are first effective for the current accounting period of the Group. None of these impact on the accounting policies of the Group. However, additional disclosure has been included in note 18(b) to satisfy the new disclosure requirements introduced by the amendments to HKAS 7 "Statement of Cash Flows": Disclosure initiative, which require entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes.

The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

(d) Subsidiaries and non-controlling interests

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances, transactions and cash flows and any unrealised profits arising from intra-group transactions are eliminated in full in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the Company, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability. For each business combination, the Group can elect to measure any non-controlling interests either at fair value or at the non-controlling interests' proportionate share of the subsidiary's net identifiable assets.

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from equity attributable to the equity shareholders of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated statement of profit or loss and the consolidated statement of profit or loss and other comprehensive income as an allocation of the total profit or loss and total comprehensive income for the year between non-controlling interests and the equity shareholders of the Company. Loans from holders of non-controlling interests and other contractual obligations towards these holders are presented as financial liabilities in the consolidated statement of financial position in accordance with notes 2(l) or (m) depending on the nature of the liability.

Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no gain or loss is recognised.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2018

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(d) Subsidiaries and non-controlling interests (Continued)

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former subsidiary at the date when control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset or, when appropriate, the cost on initial recognition of an investment in an associate or joint venture.

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment losses (see note 2(i)(ii)), unless the investment is classified as held for sale (or included in a disposal group that is classified as held for sale).

(e) Other investments in equity securities

The Group's policies for investments in equity securities, other than investments in subsidiaries are as follows:

Investments in equity securities are initially stated at fair value, which is their transaction price unless it is determined that the fair value at initial recognition differs from the transaction price and that fair value is evidenced by a quoted price in an active market for an identical asset or liability or based on a valuation technique that uses only data from observable markets. Cost includes attributable transaction costs, except where indicated otherwise below. These investments are subsequently accounted for as follows, depending on their classification:

Investments in securities held for trading are classified as current assets. Any attributable transaction costs are recognised in profit or loss as incurred. At the end of each reporting period the fair value is remeasured, with any resultant gain or loss being recognised in profit or loss. The net gain or loss recognised in profit or loss does not include any dividends or interest earned on these investments.

Investments in securities which do not fall into any of the above category are classified as available-for-sale securities. At the end of each reporting period the fair value is remeasured, with any resultant gain or loss being recognised in other comprehensive income and accumulated separately in equity in the fair value reserve. As an exception to investments in equity securities that do not have a quoted price in an active market for an identical instrument and whose fair value cannot otherwise be reliably measured are recognised in the statement of financial position at cost less impairment losses (see note 2(i)). Dividend income from equity securities is recognised in profit or loss.

When the investments are derecognised or impaired (see note 2(i)), the cumulative gain or loss recognised in equity is reclassified to profit or loss. Investments are recognised/derecognised on the date the Group commits to purchase/sell the investments or they expire.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(f) Property, plant and equipment

The following items of property, plant and equipment are stated at cost less accumulated depreciation and impairment losses (see note 2(i)):

- Land classified as being held under finance lease and buildings thereon (see note 2(h)); and
- Other items of plant and equipment

Gains or losses arising from the retirement or disposal of an item of property, plant and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the item and are recognised in profit or loss on the date of retirement or disposal.

Depreciation is calculated to write off the cost of items of property, plant and equipment, less their estimated residual value, if any, using the straight line method over their estimated useful lives as follows:

- Leasehold land classified as held under finance leases is depreciated over the unexpired term of lease.
- Buildings situated on leasehold land are depreciated over the shorter of the unexpired term of lease and their estimated useful lives.
- Leasehold improvements 5-10 years
- Computer equipment 4 years
- Furniture and other office equipment 4-5 years
- Motor vehicles 4 years

Where parts of an item of property, plant and equipment have different useful lives, the cost of the item is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value, if any, are reviewed annually.

(g) Intangible assets

Expenditure on research activities is recognised as an expense in the period in which it is incurred. Expenditure on development activities is capitalised if the product or process is technically and commercially feasible and the Group has sufficient resources and the intention to complete development. The expenditure capitalised includes the costs of materials, direct labour, and an appropriate proportion of overheads and borrowing costs, where applicable (see note 2(t)). Capitalised development costs are stated at cost less accumulated amortisation and impairment losses (see note 2(i)(ii)). Other development expenditure is recognised as an expense in the period in which it is incurred.

Other intangible assets that are acquired by the Group are stated at cost less accumulated amortisation (where the estimated useful life is finite) and impairment losses (see note 2(i)(ii)). Expenditure on internally generated goodwill and brands is recognised as an expense in the period in which it is incurred.

Amortisation of intangible assets with finite useful lives is charged to profit or loss on a straight-line basis over the assets' estimated useful lives. The acquired computer software with finite useful lives is amortised from the date they are available for use and their estimated useful lives of 4 years.

Both the period and method of amortisation are reviewed annually.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2018

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(h) Leased assets

An arrangement, comprising a transaction or a series of transactions, is or contains a lease if the Group determines that the arrangement conveys a right to use a specific asset or assets for an agreed period of time in return for a payment or a series of payments. Such a determination is made based on an evaluation of the substance of the arrangement and is regardless of whether the arrangement takes the legal form of a lease.

(i) *Classification of assets leased to the Group*

Assets that are held by the Group under leases which transfer to the Group substantially all the risks and rewards of ownership are classified as being held under finance leases. Leases which do not transfer substantially all the risks and rewards of ownership to the Group are classified as operating leases, with the following exception:

Land held for own use under an operating lease, the fair value of which cannot be measured separately from the fair value of a building situated thereon at the inception of the lease, is accounted for as being held under a finance lease, unless the building is also clearly held under an operating lease. For these purposes, the inception of the lease is the time that the lease was first entered into by the Group, or taken over from the previous lessee.

(ii) *Assets acquired under finance leases*

Where the Group acquires the use of assets under finance leases, the amounts representing the fair value of the leased asset, or, if lower, the present value of the minimum lease payments, of such assets are recognised in property, plant and equipment and the corresponding liabilities, net of finance charges, are recorded as obligations under finance leases. Depreciation is provided at rates which write off the cost of the assets over the term of the relevant lease or, where it is likely the Group will obtain ownership of the asset, the life of the asset, as set out in note 2(f). Impairment losses are accounted for in accordance with the accounting policy as set out in note 2(i)(ii). Finance charges implicit in the lease payments are charged to profit or loss over the period of the leases so as to produce an approximately constant periodic rate of charge on the remaining balance of the obligations for each accounting period. Contingent rentals are charged to profit or loss in the accounting period in which they are incurred.

(iii) *Operating lease charges*

Where the Group has the use of assets held under operating leases, payments made under the leases are charged to profit or loss in equal instalments over the accounting periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased asset. Lease incentives received are recognised in profit or loss as an integral part of the aggregate net lease payments made. Contingent rentals are charged to profit or loss in the accounting period in which they are incurred.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(i) Impairment of assets

(i) *Impairment of investment in equity securities and other financial assets*

Investment in equity securities and other financial assets that are stated at cost or amortised cost or are classified as available-for-sale securities are reviewed at the end of each reporting period to determine whether there is objective evidence of impairment. Objective evidence of impairment includes observable data that comes to the attention of the Group about one or more of the following loss events:

- significant financial difficulty of the debtor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- it becoming probable that the debtor will enter bankruptcy or other financial reorganisation;
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor; and
- a significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.

If any such evidence exists, any impairment loss is determined and recognised as follows:

- For unquoted equity securities carried at cost, the impairment loss is measured as the difference between the carrying amount of the financial asset and the estimated future cash flows, discounted at the current market rate of return for a similar financial asset where the effect of discounting is material. Impairment losses for equity securities carried at cost are not reversed.
- For trade and other current receivables and other financial assets carried at amortised cost, the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition of these assets), where the effect of discounting is material. This assessment is made collectively where these financial assets share similar risk characteristics, such as similar past due status, and have not been individually assessed as impaired. Future cash flows for financial assets which are assessed for impairment collectively are based on historical loss experience for assets with credit risk characteristics similar to the collective group.

If in a subsequent period the amount of an impairment loss decreases and the decrease can be linked objectively to an event occurring after the impairment loss was recognised, the impairment loss is reversed through profit or loss. A reversal of an impairment loss shall not result in the asset's carrying amount exceeding that which would have been determined had no impairment loss been recognised in prior years.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2018

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(i) Impairment of assets (Continued)

(i) *Impairment of investment in equity securities and other financial assets (Continued)*

- For available-for-sale securities stated at fair value, the cumulative loss that has been recognised in the fair value reserve is reclassified to profit or loss. The amount of the cumulative loss that is recognised in profit or loss is the difference between the acquisition cost (net of any principal repayment and amortisation) and current fair value, less any impairment loss on that asset previously recognised in profit or loss. Impairment losses recognised in profit or loss in respect of available-for-sale equity securities are not reversed through profit or loss. Any subsequent increase in the fair value of such assets is recognised in other comprehensive income.

Impairment losses are written off against the corresponding assets directly, except for impairment losses recognised in respect of trade debtors included within trade and other receivables, whose recovery is considered doubtful but not remote. In this case, the impairment losses for doubtful debts are recorded using an allowance account. When the Group is satisfied that recovery is remote, the amount considered irrecoverable is written off against debtors directly and any amounts held in the allowance account relating to that debt are reversed. Subsequent recoveries of amounts previously charged to the allowance account are reversed against the allowance account. Other changes in the allowance account and subsequent recoveries of amounts previously written off directly are recognised in profit or loss.

(ii) *Impairment of other assets*

Internal and external sources of information are reviewed at the end of each reporting period to identify indications that the following assets may be impaired or an impairment loss previously recognised no longer exists or may have decreased:

- property, plant and equipment;
- intangible assets; and
- investments in subsidiaries in the Company's statement of financial position.

If any such indication exists, the asset's recoverable amount is estimated.

- Calculation of recoverable amount

The recoverable amount of an asset is the greater of its fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit).

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(i) Impairment of assets (Continued)

(ii) *Impairment of other assets (Continued)*

- Recognition of impairment losses

An impairment loss is recognised in profit or loss if the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment losses recognised in respect of cash-generating units are allocated to reduce the carrying amount of the assets in the cash-generating unit (or group of units) on a pro rata basis, except that the carrying value of an asset will not be reduced below its individual fair value less costs of disposal (if measurable) or value in use (if determinable).

- Reversals of impairment losses

An impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount.

A reversal of an impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior reporting periods. Reversals of impairment losses are credited to profit or loss in the reporting period in which the reversals are recognised.

(j) Project contracts in progress

Project contracts in progress represents the gross unbilled amount expected to be collected from customers for contract work performed to date. It is measured at cost plus profit recognised to date (see note 2(r)(i)) less progress billings and recognised losses. Cost includes all expenditure related directly to specific projects and an allocation of fixed and variable overheads incurred in the Group's contract activities based on normal operating capacity.

Project contracts in progress is presented as "Gross amounts due from customers for contract work" (as part of trade and other receivables) in the statement of financial position for all contracts in which costs incurred plus recognised profits less recognised losses exceed progress billings. If progress billings exceed costs incurred plus recognised profits less recognised losses, then the difference is presented as "Gross amounts due to customers for contract work" (as part of trade and other payables) in the statement of financial position.

(k) Financial assets

Financial assets are initially recognised at fair value and thereafter stated at amortised cost using the effective interest method, less allowance for impairment of doubtful debts (see note 2(i)(i)), except where the receivables are interest-free loans made to related parties without any fixed repayment terms or the effect of discounting would be immaterial. In such cases, the receivables are stated at cost less allowance for impairment of doubtful debts.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2018

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(l) Interest-bearing borrowings

Interest-bearing borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any difference between the amount initially recognised and redemption value being recognised in profit or loss over the period of the borrowings, together with any interest and fees payable, using the effective interest method.

(m) Other financial liabilities

(i) Trade and other payables

Trade and other payables are initially recognised at fair value and are subsequently stated at amortised cost unless the effect of discounting would be immaterial, in which case they are stated at cost.

(ii) Contingent consideration

Share-settled contingent consideration arrangements are classified as financial liabilities where the number of shares to be issued in settlement varies. They are recognised initially at fair value. At the end of each reporting period the fair value is remeasured. The gain or loss on remeasurement to fair value is recognised immediately in profit or loss.

(n) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents for the purpose of the consolidated statement of cash flows.

(o) Employee benefits

(i) Short term employee benefits and contributions to defined contribution retirement plans

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

(ii) Termination benefits

Termination benefits are recognised at the earlier of when the group can no longer withdraw the offer of those benefits and when it recognises restructuring costs involving the payment of termination benefits.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(p) Income tax

Income tax for the year comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in profit or loss except to the extent that they relate to items recognised in other comprehensive income or directly in equity, in which case the relevant amounts of tax are recognised in other comprehensive income or directly in equity, respectively.

Current tax is the expected tax payable on the taxable income for the reporting period, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilised.

The limited exceptions to recognition of deferred tax assets and liabilities are those temporary differences arising from the initial recognition of assets or liabilities that affect neither accounting nor taxable profit (provided they are not part of a business combination), and temporary differences relating to investments in subsidiaries to the extent that, in the case of taxable differences, the Group controls the timing of the reversal and it is probable that the differences will not reverse in the foreseeable future, or in the case of deductible differences, unless it is probable that they will reverse in the future.

The amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the asset and liabilities, using tax rates enacted or substantively enacted at the end of the reporting period. Deferred tax assets and liabilities are not discounted.

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2018

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(p) Income tax (Continued)

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities, if the Company or the Group has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

- in the case of current tax assets and liabilities, the Company or the Group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or
- in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:
 - the same taxable entity; or
 - different taxable entities, which, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realise the current tax assets and settle the current tax liabilities on a net basis or realise and settle simultaneously.

(q) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group or the Company has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(r) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Provided it is probable that the economic benefits will flow to the Group and the revenue and costs, if applicable, can be measured reliably, revenue is recognised in profit or loss as follows:

(i) Revenue from design and implementation of IT application solution services

When the outcome of a service contract can be estimated reliably, revenue from a fixed price contract is recognised using the percentage of completion method, measured by reference to the percentage of contract costs incurred to date to estimated total contract costs for the contract.

When the outcome of a service contract cannot be estimated reliably, revenue is recognised only to the extent of contract costs incurred that it is probable will be recoverable.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(r) Revenue recognition (Continued)

(ii) Revenue from sales of goods

Revenue from sales of goods is recognised when goods are delivered at customers' premises which is taken to be the point in time when the customer has accepted the goods and the related risks and rewards of ownership. Revenue is after deduction of any trade discounts.

(iii) Revenue from secondment and maintenance services

Revenue arising from the provision of secondment and maintenance services is recognised when the services are rendered.

(iv) Revenue from other services

Revenue from rendering of services is recognised when the services are rendered.

(v) Interest income

Interest income is recognised as it accrues using the effective interest method.

(s) Translation of foreign currencies

Foreign currency transactions during the year are translated at the foreign exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the foreign exchange rates ruling at the end of the reporting period. Exchange gains and losses are recognised in profit or loss.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the foreign exchange rates ruling at the transaction dates. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated using the foreign exchange rates ruling at the dates the fair value was measured.

The results of foreign operations are translated into Hong Kong dollars at the exchange rates approximating the foreign exchange rates ruling at the dates of the transactions. The statement of financial position items are translated into Hong Kong dollars at the closing foreign exchange rates at the reporting date. The resulting exchange differences are recognised in other comprehensive income and accumulated separately in equity in the exchange reserve.

On disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation is reclassified from equity to profit or loss when the profit or loss on disposal is recognised.

(t) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. Other borrowing costs are expensed in the period in which they are incurred.

The capitalisation of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalisation of borrowing costs is suspended or ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are interrupted or complete.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(u) Related parties

- (a) A person, or a close member of that person's family, is related to the Group if that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or the Group's parent.
- (b) An entity is related to the Group if any of the following conditions applies:
 - (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a Group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.
 - (vi) The entity is controlled or jointly controlled by a person identified in (a).
 - (vii) A person identified in (a) (i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
 - (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the Group's parent.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

(v) Segment reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group's most senior executive management (i.e. chief operating decision maker), the board of directors, for the purpose of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

3. ACCOUNTING JUDGEMENT AND ESTIMATES

Key sources of estimation uncertainty are as follows:

(a) Impairment for property, plant and equipment and intangible assets

If circumstances indicate that the carrying amounts of property, plant and equipment and intangible assets may not be recoverable, the assets may be considered "impaired", and an impairment loss may be recognised to reduce the carrying amounts to the recoverable amount in accordance with the accounting policy for impairment of these assets as described in note 2(i)(ii). These assets are tested for impairment periodically or whenever the events or changes in circumstances indicate that their recorded carrying amounts may not be recoverable. When such a decline has occurred, the carrying amount is reduced to recoverable amount. The recoverable amount is the greater of the fair value less costs of disposal and the value in use. In determining the value in use, expected future cash flows generated by the asset are discounted to their present value, which requires significant judgment relating to level of revenue and amount of operating costs. The Group uses all readily available information in determining an amount that is a reasonable approximation of recoverable amount, including estimates based on reasonable and supportable assumptions and projections of the level of revenue and amount of operating costs. Changes in these estimates could have a significant impact on the recoverable amount of the assets and could result in additional impairment charge or reversal of impairment in future periods, where applicable.

(b) Impairment for available-for-sale investment

The Group assesses annually if available-for-sale investment has suffered any impairment in accordance with HKAS 39. Details of the approach are stated in the relevant accounting policies. The assessment requires an estimation of future cash flows, including expected dividends, from the assets and the selection of appropriate discount rates. Future changes in financial performance and position of the entity would affect the estimation of impairment loss and cause the adjustments of its carrying amount.

(c) Impairment of receivables

The Group maintains an allowance for doubtful accounts for estimated losses resulting from the inability of the debtors to make the required payments. The Group bases its estimates on the assessment of recoverability of individual receivable balance, customer credit-worthiness and historical write-off experience. If the financial condition of the debtors were to deteriorate, actual write-offs would be higher than estimated and could significantly affect the result in future periods.

(d) Revenue recognition

As explained in notes 2(j) and 2(r)(i), revenue recognition on an uncompleted project is dependent on management's estimation of the total outcome of the service contract, as well as the work done to date. Based on the Group's recent experience and the nature of the services activity undertaken by the Group, the Group makes estimates of the point at which it considers the work is sufficiently advanced such that the costs to complete and revenue can be reliably estimated. As a result, until this point is reached the gross amounts due from and due to customers for contract work as disclosed in note 16 and note 19, respectively, will not include profit which the Group may eventually realise from the work done to date. In addition, actual outcomes in terms of total costs or revenue may be higher or lower than estimated at the end of the reporting period, which would affect the revenue and profit recognised in the future periods as an adjustment to the amounts recorded to date.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2018

3. ACCOUNTING JUDGEMENT AND ESTIMATES (CONTINUED)

(d) Revenue recognition (Continued)

The Group reviews and revises the estimates of contract revenue and contract costs prepared for each service contract as the contract progresses. Budgeted contract costs are prepared by the management based on their experiences. In order to keep the budget accurate and up-to-date, management conducts periodic reviews of the budgeted contract costs by comparing the budgeted amounts to the actual costs incurred.

Significant judgement is required in estimating the contract revenue and contract costs which may have an impact on percentage of completion of the service contracts and the corresponding profit taken.

Management base their judgements of contract costs and revenues on the latest available information. In some cases the results reflect the expected outcome of long-term contractual obligations which span more than one reporting period. Contract costs and revenues are affected by a variety of uncertainties that depend on the outcome of future events and often need to be revised as events unfold and uncertainties are resolved. The estimates of contract costs and revenues are updated regularly and significant changes are highlighted through established internal review procedures. The impact of the changes in accounting estimates is then reflected in the ongoing results.

(e) Fair value of contingent consideration

The Group has accounted for the contingent consideration in the acquisition of available-for-sale investment, through the acquisition of a subsidiary, as detailed in note 14. The number of shares of the Company which would be issued as consideration of the acquisition is subject to the results of the acquired investee. The Group determines the provision to be made in respect of the contingent consideration based on the fair value of the shares of the Company at the date of acquisition of the subsidiary and the Directors' best estimate and weighted probability analysis of the future profit of the subsidiary. As the process requires input of subjective assumptions, any changes to the assumptions can materially affect the provision made. Subsequent gain or loss in fair value is recognised in profit or loss. As at 31 March 2018, the provision made in respect of contingent consideration by the Group amounted to approximately HK\$31,268,000 (2017: HK\$Nil) was included in contingent consideration payable.

4. REVENUE AND SEGMENT REPORTING

(a) Revenue

The principal activities of the Group are the provision of IT application and solution development, IT infrastructure solutions, secondment services, maintenance and support services. The amount of each significant category of revenue is as follows:

| | 2018 HK\$'000 | 2017 HK\$'000 |
|--|------------------|------------------|
| IT application and solution development | | |
| – IT application solution services | 36,207 | 80,804 |
| – Procurement of third party hardware and software | 2,775 | 75,908 |
| | 38,982 | 156,712 |
| IT infrastructure solutions | | |
| – IT infrastructure solution services | 39,082 | 18,944 |
| – Procurement of third party hardware and software | 223,672 | 236,330 |
| | 262,754 | 255,274 |
| Secondment services | 47,949 | 32,008 |
| Maintenance and support services | 60,250 | 43,474 |
| | 409,935 | 487,468 |

Information about major customers

Revenues from customers contributing over 10% of the total revenue of the Group during the year are as follows:

| | 2018 HK\$'000 | 2017 HK\$'000 |
|-------------------------|------------------|------------------|
| Customer A ¹ | N/A* | 74,839 |

¹ Revenue from IT application and solution development.

* Revenue from customer A was less than 10% of the total revenue of the Group for the year ended 31 March 2018 and there was no customer with transactions exceeded 10% of the Group's total revenue for the year ended 31 March 2018.

Further details regarding the Group's principal activities are discussed below.

4. REVENUE AND SEGMENT REPORTING (CONTINUED)

(b) Segment reporting

The Group manages its businesses by business lines. In a manner consistent with the way in which information is reported internally to the Group's most senior executive management for the purposes of resource allocation and performance assessment, the Group has presented the following four reportable segments. No operating segments have been aggregated to form the following reportable segments.

- IT application and solution development: this segment provides design and implementation of IT application solution services and procurement of third party hardware and software.
- IT infrastructure solutions: this segment provides IT infrastructure solutions services and sale of IT infrastructure solution related hardware and software.
- Secondment services: this segment provides secondment services for a fixed period of time pursuant to the secondment service agreements.
- Maintenance and support services: this segment provides maintenance and support services.

(i) Segment results, assets and liabilities

For the purposes of assessing segment performance and allocating resources between segments, the Group's most senior executive management monitors the results attributable to each reportable segment on the following bases:

Revenue and expenses are allocated to the reportable segments with reference to revenue generated by those segments and the expenses incurred by those segments. The measure used for reporting segment profit is gross profit. No inter-segment sales have occurred during the year. The Group's other income and expense items, such as general and administrative expenses, and assets and liabilities are not measured under individual segments. Accordingly, neither information on segment assets and liabilities nor information concerning capital expenditure, depreciation and amortization, interest income and interest expenses is presented.

(b) Segment reporting (Continued)

(ii) Geographic information

The following table sets out information about the geographical location of the Group's revenue from external customers and the Group's property, plant and equipment and intangible assets ("**specified non-current assets**"). The geographical location of customers is based on the location at which the services were provided or the goods delivered. The geographical location of the specified non-current assets is based on the physical location of the asset, in the case of property, plant and equipment, and the location of the operation, in the case of intangible assets.

The geographical information of the Group's revenue from external customers for the years ended 31 March 2018 and 2017 and the Group's specified non-current assets as at 31 March 2018 and 2017 is set out below:

| | Revenue from external customers | | Specified non-current assets | |

8. INCOME TAX IN THE CONSOLIDATED STATEMENT OF PROFIT OR LOSS

(a) Income tax in the consolidated statement of profit or loss represents:

| | 2018 HK\$'000 | 2017 HK\$'000 |
|--|------------------|------------------|
| Current tax – Hong Kong Profits Tax | | |
| Provision for the year | 1,524 | 7,684 |

Pursuant to the rules and regulations of the Cayman Islands and the British Virgin Islands ("BVI"), the Group is not subject to any income tax in the Cayman Islands and the BVI.

The statutory income tax rate of the Company and its subsidiaries operated in Hong Kong is 16.5% (2017: 16.5%). The PRC's Corporate Income Tax rate is 25% (2017: 25%). The Malaysia Corporate Tax standard rate is 24% (2017: Not applicable).

No provision for PRC Corporate Income Tax and Malaysia Corporate Tax have been made as the subsidiaries established in the PRC and Malaysia did not have assessable profits subject to PRC Corporate Income Tax and Malaysia Corporate Tax respectively during the years ended 31 March 2018 and 2017.

(b) Reconciliation between tax expense and accounting (loss)/profit at applicable tax rates:

| | 2018 HK\$'000 | 2017 HK\$'000 |

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2018

11. (LOSS)/EARNINGS PER SHARE

(a) Basic (loss)/earnings per share

The calculation of the basic (loss)/earnings per share is based on the loss attributable to equity shareholders of the Company of approximately HK\$11,169,000 (2017: profit attributable to equity shareholders of the Company of approximately HK\$30,445,000) and the weighted average number of 4,062,187,432 ordinary shares (2017: 4,000,000,000 ordinary shares) in issue during the year.

(i) Weighted average number of ordinary shares

| | 2018 Number of shares | 2017 Number of shares |
|--|-----------------------------|-----------------------------|
| Issued ordinary shares at 1 April | 4,000,000,000 | 4,000,000,000 |
| Effect of shares issued (note 23(b)) | 62,187,432 | - |
| Weighted average number of ordinary shares at 31 March | 4,062,187,432 | 4,000,000,000 |

(b) Diluted (loss)/earnings per share

The calculation of diluted (loss)/earnings per share is based on the loss attributable to equity shareholders of the Company of approximately HK\$14,070,000 (2017: profit attributable to equity shareholders of the Company of approximately HK\$30,445,000) and the weighted average number of ordinary shares of 4,124,374,864 shares (2017: 4,000,000,000 shares), calculated as follow.

(i) (Loss)/profit attributable to equity shareholders of the Company (diluted)

| | 2018 HK\$'000 | 2017 HK\$'000 |
|--|------------------|------------------|
| (Loss)/profit attributable to equity shareholders of the Company | (11,169) | 30,445 |
| Effect of change in fair value of contingent consideration payable | (2,901) | - |
| (Loss)/profit attributable to equity shareholders of the Company (diluted) | (14,070) | 30,445 |

(ii) Weighted average number of ordinary shares (diluted)

| | 2018 Number of shares | 2017 Number of shares |
|---|-----------------------------|-----------------------------|
| Weighted average number of ordinary shares at 31 March | 4,062,187,432 | 4,000,000,000 |
| Effect of exercise of contingent consideration payable (see note below) | 62,187,432 | - |
| Weighted average number of ordinary shares (diluted) at 31 March | 4,124,374,864 | 4,000,000,000 |

Note: The Company's dilutive potential ordinary shares comprise consideration shares to be issued under the sale and purchase agreement in respect of acquisition of available-for-sale investment as the directors of the Company is virtually certain that the performance target as disclosed in note 14 to these financial statements would be met.

14. AVAILABLE-FOR-SALE INVESTMENT

| | 2018 HK\$'000 | 2017 HK\$'000 |
|---------------------------------------|------------------|------------------|
| Unlisted shares in Hong Kong, at cost | 71,709 | - |

On 18 December 2017, the Group completed the acquisition of 15% equity interest in a private limited company incorporated in Hong Kong (the "Investee"), through the acquisition of a subsidiary. The acquisition is to be satisfied by (i) the issuance of 218,253,968 new ordinary shares of the Company as an initial consideration; (ii) the issuance of a maximum number of 218,253,968 consideration shares of the Company based on the formula as set out in the relevant sale and purchase agreement (the "S&P Agreement") when the net profit after tax of the Investee shall be greater than HK\$10 million for the period from 1 May 2017 to 31 October 2017 (the "First Contingent Consideration Shares"); and (iii) the issuance of a maximum number of 218,253,968 consideration shares of the Company based on the formula as set out in the S&P Agreement when the net profit after tax of the Investee shall be greater than HK\$10 million for the period from 1 May 2017 to 30 April 2018 (the "Second Contingent Consideration Shares"). In accordance with the S&P Agreement, the total of the First Contingent Consideration Shares and the Second Contingent Consideration Shares must not be greater than 218,253,968 consideration shares of the Company.

The available-for-sale investment is measured at cost less impairment at the end of the reporting period because the ranges of reasonable fair value estimates are so significant that the directors of the Company are of the opinion that their fair values cannot be measured reliably.

The available-for-sale investment is initially stated at fair value, which is based on the fair value of consideration shares of the Company issued as at 18 December 2017 plus the fair value of contingent consideration payable as at 18 December 2017. The fair value of the contingent consideration payable is determined by the directors of the Company with reference to the valuation report prepared by an independent professional valuer, by applying probabilistic approach on the estimated profit of the Investee in respect of the two periods and the probability of occurrence of each expected earning scenario.

Based on the Investee's latest financial position and financial performance, the directors of the Company consider no impairment should be recognised during the year ended 31 March 2018.

Further details of this acquisition are set out in the announcements of the Company dated 10 November 2017, 17 November 2017 and 18 December 2017.

16. TRADE AND OTHER RECEIVABLES

| | 2018 HK\$'000 | 2017 HK\$'000 |
|---|------------------|------------------|
| Non-current | | |
| Deposit paid for acquisition of a subsidiary (note 16(e)) | 8,659 | - |
| Current | | |
| Trade debtors | 118,004 | 92,636 |
| Gross amounts due from customers for contract work | 30,382 | 68,892 |
| Other receivables | 19 | 17 |
| Rental and other deposits | 705 | 1,786 |
| Prepayments | 2,245 | 2,622 |
| | 151,355 | 165,953 |

Notes:

(a) Ageing analysis of trade debtors

As of the end of the reporting period, the ageing analysis of trade debtors (which are included in trade and other receivables), based on the date of billing, is as follows:

| | 2018 HK\$'000 | 2017 HK\$'000 |
|----------------|------------------|------------------|
| Within 1 month | 91,487 | 69,194 |
| 1 to 3 months | 16,550 | 15,830 |
| Over 3 months | 9,967 | 7,612 |
| | 118,004 | 92,636 |

Trade debtors are due within 60 days from the date of billing. Further details on the Group's credit policy are set out in note 24(a).

(b) Impairment of trade debtors

Impairment losses in respect of trade debtors are recorded using an allowance account unless the Group is satisfied that recovery of the amount is remote, in which case the impairment loss is written off against trade debtors directly (see note 2(i)(i)). For the years ended 31 March 2018 and 2017, the Group did not record any impairment losses in respect of trade debtors.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2018

16. TRADE AND OTHER RECEIVABLES (CONTINUED)

(c) Trade debtors that are not impaired

The ageing analysis of trade debtors that are neither individually nor collectively considered to be impaired are as follows:

| | 2018 HK\$'000 | 2017 HK\$'000 |
|-------------------------------|------------------|------------------|
| Neither past due nor impaired | 91,367 | 79,700 |
| Less than 1 month past due | 12,195 | 5,324 |
| 1 to 3 months past due | 5,985 | 3,116 |
| Over 3 months past due | 8,457 | 4,496 |
| | 26,637 | 12,936 |
| | 118,004 | 92,636 |

Receivables that were neither past due nor impaired relate to a number of customers for whom there was no recent history of default.

Receivables that were past due but not impaired relate to customers that have a good credit record with the Group. Based on past experience, management believes that no impairment allowance is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully recoverable.

(d) Project contracts in progress

As at 31 March 2018, the aggregate amount of costs incurred plus recognised profits less recognised losses to date, included in the gross amounts due from customers for contract work, was approximately HK\$153,872,000 (2017: approximately HK\$143,589,000). The gross amount due from customers for contract work at 31 March 2018 that is expected to be recovered after more than one year is HK\$nil (2017: approximately HK\$4,298,000).

(e) Deposit paid for acquisition of a subsidiary

On 6 December 2017, ICO IT Properties (Malaysia) Limited, a wholly-owned subsidiary of the Company, has entered into a conditional sale and purchase agreement (the "Agreement") with Rainbow Field Investment Limited, Teoh Teng Guan, Tan Yun Harn and Lau Chuen Yien Calvin, at the consideration of RM145 million for the acquisition of a group of companies, which will undergo a building construction project and an online-to-offline wholesale marketplace project in Malaysia (together the "CKB Project"). RM4,500,000 (equivalent to approximately HK\$8,659,000) of the consideration has been paid by cash as refundable deposit upon signing of the Agreement. The remaining RM140.5 million of the consideration will be settled by issuing of promissory notes and convertible bonds pursuant to the payment schedule as set out in the Agreement and is subject to fulfillment of certain conditions of the Agreement. As at the date of the issuance of this report, the acquisition has not yet been completed.

17. PLEDGED BANK DEPOSITS

As at 31 March 2018, bank deposits of approximately HK\$3,197,000 (2017: approximately HK\$3,197,000) were pledged to a bank for performance guarantees issued by the bank in respect of projects in progress.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2018

18. CASH AND CASH EQUIVALENTS

(a) Cash and cash equivalents comprise:

| | 2018 HK\$'000 | 2017 HK\$'000 |
|---|------------------|------------------|
| Cash on hand | 112 | 105 |

| Accrued expenses and other payables | 3,610 | 2,574 |
| | 62,850 | 47,595 |

Notes:

(a) Ageing analysis of trade creditors

As of the end of the reporting period, the ageing analysis of trade creditors (which are included in trade and other payables), based on the invoice date, is as follows:

| | 2018 HK\$'000 | 2017 HK\$'000 |
|----------------|------------------|------------------|
| Within 1 month | 30,851 | 13,996 |
| 1 to 3 months | 20,491 | 14,161 |
| Over 3 months | 451 | 5,308 |
| | 51,793 | 33,465 |

(b) Project contract in progress

As at 31 March 2018, the aggregate amount of costs incurred plus recognised profits less recognised losses to date included in the gross amounts due to customers for contract work was approximately HK\$16,560,000 (2017: approximately HK\$5,166,000).

20. BANK LOANS

As at 31 March 2018, the bank loans were repayable as follows:

| | 2018 HK\$'000 | 2017 HK\$'000 |
|-------------------------|------------------|------------------|
| Within 1 year or demand | 22,900 | 15,500 |

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2018

20. BANK LOANS (CONTINUED)

As at 31 March 2018, the bank loans were secured as follows:

| | 2018 HK\$'000 | 2017 HK\$'000 |
|--------------------------|------------------|------------------|
| Bank loan | | |
| – secured and guaranteed | 22,900 | 15,500 |

The effective interest rates of the bank loans are a range of 2.84% to 3.16% per annum (2017: 2.24% per annum).

At 31 March 2018, the bank loans of the Group were secured by mortgages over the Group's leasehold land and buildings with an aggregate carrying amount of approximately HK\$42,868,000 (2017: approximately HK\$44,372,000) and corporate guarantee provided by the Company. Such bank loan facilities amounted to HK\$30,000,000 (2017: HK\$30,000,000). The facilities were utilised to the extent of HK\$22,900,000 (2017: HK\$15,500,000).

All of the Group's banking facilities are subject to the fulfilment of covenants relating to certain of the Group's balance sheet ratios, as are commonly found in lending arrangements with financial institutions. If the Group were to breach the covenants the drawn down facilities would become payable on demand. The Group regularly monitors its compliance with these covenants. Further details of the Group's management of liquidity risk are set out in note 24(b). As at 31 March 2018 and 2017 none of the covenants relating to drawn down facilities had been breached.

21. CONTINGENT CONSIDERATION PAYABLE

The movements of contingent consideration payable are as follow:

| | 2018 HK\$'000 | 2017 HK\$'000 |
|---|------------------|------------------|
| Fair value: | | |
| At beginning of the year | – | – |
| Initial recognition on 18 December 2017 in respect of the acquisition of available-for-sale investment (see note 14) | 34,169 | – |
| Change in fair value | (2,901) | – |
| At end of the year | 31,268 | – |
| Total gain for the year included in profit or loss for liability held at the end of the reporting period | 2,901 | – |

At 31 March 2018, the fair value of the contingent consideration payable is determined by the directors of the Company with reference to the valuation report prepared by an independent professional valuer, by applying probabilistic approach on the estimated profit from the Investee in respect of the period from 1 May 2017 to 30 April 2018 and the probability of occurrence of expected earning scenario. The contingent consideration payable is expected to be settled within one year and therefore classified as current liabilities.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2018

22. INCOME TAX IN THE CONSOLIDATED STATEMENT OF FINANCIAL POSITION

(a) Current taxation in the consolidated statement of financial position represents:

| Current taxation movement | 2018 HK\$'000 | 2017 HK\$'000 |
|------------------------------------|------------------|------------------|
| At the beginning of the year | (968) | (773) |
| Charged to profit or loss | (1,524) | (7,684) |
| Tax paid for the year | 8,211 | 7,489 |
| At the end of the year | 5,719 | (968) |
| Analysed for reporting purpose as: | | |
| Tax recoverable | 6,134 | - |
| Tax payable | (415) | (968) |
| | 5,719 | (968) |

(b) Deferred tax assets and liabilities recognised:

The components of deferred tax assets and liabilities recognised in the consolidated statement of financial position and the movements during the year are as follows:

| | Depreciation allowance in excess of related depreciation | |
|------------------------------|---|------------------|
| | 2018 HK\$'000 | 2017 HK\$'000 |
| At the beginning of the year | 161 | 161 |
| Charged to profit or loss | - | - |
| At the end of the year | 161 | 161 |

(c) Deferred tax assets not recognised:

In accordance with the accounting policy set out in note 2(p), the Group has not recognised deferred tax assets in respect of cumulative tax losses of approximately HK\$13,979,000 (2017: HK\$nil) as it is not probable that future taxable profits against which the losses can be utilised will be available in the relevant tax jurisdiction and the entity. The tax losses do not expire under current legislation.

(d) Deferred tax liabilities not recognised:

There were no other material unrecognised deferred tax liabilities as at 31 March 2018 and 2017.

| At 31 March | 4,218,253,968 | 10,546 | 4,000,000,000 | 10,000 |

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company. All ordinary shares rank equally with regard to the Company's residual assets.

Note: On 18 December 2017, the Company allotted and issued 218,253,968 new shares to the vendors in respect of the acquisition of the available-for-sale investment (see note 14) pursuant to the sale and purchase agreement dated 10 November 2017.

(c) Nature and purpose of reserves

(i) Share premium

Share premium arose from the issue of shares at a price greater than the par value of the shares.

The share premium account is governed by the Companies Law of the Cayman Islands and may be applied by the Company subject to the provisions, if any, of its memorandum and articles of association in paying distributions or dividends to equity shareholders.

No distribution or dividend may be paid to the equity shareholders out of the share premium account unless immediately following the date on which the distribution or dividend is proposed to be paid, the Company will be able to pay its debts as they fall due in the ordinary course of business.

23. CAPITAL, RESERVES AND DIVIDENDS (CONTINUED)

(c) Nature and purpose of reserves (Continued)

(ii) Exchange reserve

The exchange reserve represents foreign exchange differences arising from the translation of the financial statements of companies outside Hong Kong. The reserve is dealt with in accordance with the accounting policy set out in note 2(s).

(d) Dividends

The directors of the Company do not recommend the payment of any dividend for the year ended 31 March 2018 (2017: Nil).

(e) Capital management

The Group's primary objectives when managing capital are to safeguard the Group's ability to continue as a going concern, so that it can continue to provide returns for equity owners and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholder returns that might be possible with higher levels of borrowings and the advantages and security afforded by sound capital position, and makes adjustments to capital structure in light of changes in economic conditions.

The Group monitors its capital structure on the basis of an adjusted debt-to-capital ratio. For this purpose, the Group defines adjusted debt as total debt (which includes interest-bearing loans and borrowings and trade and other payables) plus unaccrued proposed dividends, less cash and cash equivalents and pledged bank deposits. Adjusted capital comprises all components of equity less unaccrued proposed dividends.

During the year, the Group's strategy (which was unchanged from 2017) was to maintain an adjusted debt-to-capital ratio of no more than 100%. In order to maintain or adjust the ratio, the Group may adjust the amount of dividends paid to equity owners of the Company, issue new shares, raise new debt financing or sell assets to reduce debt. As at 31 March 2018, the adjusted debt-to-capital ratio of the Group was 20.9% (2017: 17.7%).

Neither the Company nor any of its subsidiaries are subject to any externally imposed capital requirements.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2018

24. FINANCIAL RISK MANAGEMENT AND FAIR VALUES

Exposure to credit, liquidity, interest rate, currency risks arise in the normal course of the Group's business. The Group is also exposed to equity price risk arising from movements in its own equity share price. The Group's exposure to these risks and the financial risk management policies and practices used by the Group to manage these risks are described below.

(a) Credit risk

The Group's credit risk is primarily attributable to trade and other receivables and cash at banks. Management has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis.

In respect of trade and other receivables, individual credit evaluations are performed on all customers and debtors requiring credit over a certain amount. These evaluations focus on the past history of making payments of the customers/debtors when due and current ability to pay, and take into account information specific to the customers/debtors as well as pertaining to the economic environment in which the customers/debtors operate. For project contracts, the Group generally requires customers to settle billings in accordance with the contracted terms, whereas for sales of goods and provision of services, the Group generally requires customers to settle billings (a) immediately after the completion of related transactions or (b) in accordance with the contracted terms. Normally, the Group does not obtain collateral from customers.

Cash is deposited with financial institutions with sound credit ratings and the Group has exposure limit to any single financial institution. Given their high credit ratings, management does not expect any of these financial institutions will fail to meet their obligations.

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer/debtor rather than the industry or country in which the customers/debtors operate and therefore significant concentrations of credit risk primarily arise when the Group has significant exposure to individual customers/debtors. As at 31 March 2018, 19% (2017: 41%) of the trade debtors was due from the Group's largest debtors; and 48% (2017: 68%) of the trade debtors was due from the Group's five largest debtors.

The Group does not provide any guarantees which would expose the Group to credit risk.

Further quantitative disclosures in respect of the Group's exposure to credit risk arising from trade and other receivables are set out in note 16.

(b) Liquidity risk

Individual operating entities within the Group are responsible for their own cash management, including the short term investment of cash surpluses and the raising of loans to cover expected cash demands, subject to approval by the parent company's board when the borrowings exceed certain predetermined levels of authority. The Group's policy is to regularly monitor its liquidity requirements and its compliance with lending covenants, to ensure that it maintains sufficient reserves of cash and adequate committed lines of funding from major financial institutions to meet its liquidity requirements in the short and longer term.

All financial liabilities disclosed in the consolidated statement of financial position are required to be settled within one year or on demand and the total contractual undiscounted cash flows of the financial liabilities (excluding contingent consideration payable) are not materially different from their carrying amounts as at 31 March 2018 and 2017.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2018

24. FINANCIAL RISK MANAGEMENT AND FAIR VALUES (CONTINUED)

(c) Interest rate risk

The Group's interest rate risk arises primarily from bank loans and cash at banks. Banks loans issued at fixed rates expose the Group to fair value interest rate risk. The Group's interest rate profile as monitored by the management is set out in note (i) below.

The Group does not anticipate significant impact to cash at banks because the interest rates of bank deposits are not expected to change significantly. Other than short-term bank loans which carry interest at fixed interest rates, the Group has no other significant interest-bearing assets or liabilities. Therefore, the interest rate risk mainly arises from short-term bank loans.

However, the interest expenses derived therefrom are relatively insignificant to the Group's operations. Therefore, the Group's income and operating cash flows are less dependent on changes in market interest rates. Accordingly, the directors of the Company are of the opinion that the Group does not have significant cash flow and fair value interest rate risk and no sensitivity analysis is performed.

i) Interest rate profile

The following table details the interest rate profile of the Group's bank loans at the end of each reporting period:

| | 2018 | | 2017 | |
|------------------------|--------------------------|-----------------|-------------------------|-----------------|
| | Effective interest rate | Amount HK\$'000 | Effective interest rate | Amount HK\$'000 |
| Fixed rate borrowings: | | | | |
| Bank loans | 2.84%–3.16% per annum | 22,900 | 2.24% per annum | 15,500 |

(d) Foreign currency exchange risk

For presentation purposes, the Group's financial statements is shown in Hong Kong dollars (HKD), which is also the functional currency of the Company. The companies within the Group, whose functional currencies are different from Hong Kong dollars, have translated their financial statements into HKD for consolidation purpose.

The management considers that the Group is not exposed to significant foreign currency risk as majority of the Group's transactions are denominated in Hong Kong dollars. For the monetary assets and monetary liabilities denominated in other currencies since the amounts are not material, the management considers the exposure of exchange rate fluctuation is not significant for the year. Accordingly, no foreign currency sensitivity analysis is presented.

The Group currently does not have a foreign currency hedging policy but the management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2018

24. FINANCIAL RISK MANAGEMENT AND FAIR VALUES (CONTINUED)

(e) Equity price risk

The Group is exposed to equity price risk arising from changes in the Company's own share price to the extent that the Company's own equity instruments underlie the fair values of the contingent consideration payable of the Group at the end of reporting period.

As at 31 March 2018, it is estimated that the possible increase of 5% in the Company's own share price with other variables held constant would have increased the Group's loss for the year and decreased retained profits by approximately HK\$1,563,000 (2017: HK\$Nil). Had the relevant equity prices been 5% lower, there would be an equal and opposite effect on the loss for the year and retained profits (2017: HK\$Nil).

(f) Fair values measurement

(i) Financial assets and liabilities measured at fair value

Fair value hierarchy

The following table presents the fair value of the Group's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13 "Fair Value Measurement". The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs, that is, unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date
- Level 2 valuations: Fair value measured using Level 2 inputs, that is, observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available
- Level 3 valuations: Fair value measured using significant unobservable inputs

The Group engages an independent professional valuer performing valuation for its contingent consideration payable, which is categorised into Level 3 of the fair value hierarchy. Valuation report with analysis of changes in fair value measurement is prepared by independent valuer at each interim and annual reporting date, and is reviewed by the financial controller and approved by the directors of the Company. Discussion of the valuation process and results with the financial controller and audit committee is held twice a year, to coincide with the reporting dates.

(f) Fair values measurement (Continued)

(i) Financial assets and liabilities measured at fair value (Continued)

Fair value hierarchy (Continued)

During the year ended 31 March 2018, there were no transfers between Level 1 and Level 2, or transfers into or out of Level 3. The Group's policy is to recognise transfers between levels of fair value hierarchy as at the end of the reporting period in which they occur.

Information about Level 3 fair value measurements

| Description | Fair value at 31 March | | Valuation technique | Significant inputs | Range of inputs | Favourable / (unfavourable) change in profit or loss | |
|--|------------------------|----------|------------------------|-----------------------------|-----------------|--|----------|
| | 2018 | 2017 | | | | 2018 | 2017 |
| | HK\$'000 | HK\$'000 | | | | HK\$'000 | HK\$'000 |
| Financial liability at fair value | | | | | | | |
| Contingent consideration payable | 31,268 | - | Probabilistic approach | Probability-weighted profit | +5% -5% | 1,075 (2,997) | - - |

The fair value of contingent consideration payable is determined using probabilistic approach and the significant unobservable input used in the fair value measurement is probability-weighted profit.

The movements during the year in the balance of this Level 3 fair value measurement are set out in note 21.

(ii) Fair value of financial instruments carried at other than fair value

The carrying amounts of the Group's financial instruments carried at cost or amortised cost are not materially different from their fair values as at 31 March 2018 and 2017.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2018

25. OPERATING LEASE COMMITMENTS

As at 31 March 2018, the total future minimum lease payments under non-cancellable operating leases are payable as follows:

| | 2018 HK\$'000 | 2017 HK\$'000 |
|--------------------------------------|------------------|------------------|
| Within one year | 1,055 | 1,762 |
| After one year but within five years | 1,406 | 2,723 |
| | 2,461 | 4,485 |

The Group is the lessee in respect of the Group's offices under operating leases. The leases typically run for an initial period of one to three years, with an option to renew when all terms are renegotiated. Lease payments are usually increased at the end of the lease term to reflect market rentals. None of the leases includes contingent rentals.

26. CAPITAL COMMITMENT

Acquisition of O2O Limited

On 6 December 2017, ICO IT Properties (Malaysia) Limited, a wholly-owned subsidiary of the Company, has entered into the conditional sale and purchase agreement with Rainbow Field Investment Limited, Teoh Teng Guan, Tan Yun Harn and Lau Chuen Yien Calvin at a consideration of RM145 million in relation to acquisition of the entire issued capital of O2O Limited. After the payment of a refundable deposit of RM4,500,000 (equivalent to approximately HK\$8,659,000) (see note 16(e)) in accordance with the conditional sale and purchase agreement, there was an outstanding capital commitment of RM140.5 million in relation to the proposed acquisition of O2O Limited as at 31 March 2018 accordingly.

Completion of the acquisition of O2O Limited is subject to satisfaction of conditions precedent as set out in the conditional sale and purchase agreement. As at 31 March 2018, the proposed acquisition was not yet completed.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2018

27. ACQUISITION OF AVAILABLE-FOR-SALE INVESTMENT THROUGH ACQUISITION OF A SUBSIDIARY

On 10 November 2017, Value Digital Limited, a wholly owned subsidiary of the Company entered into a sale and purchase agreement with independent third parties to acquire 15% equity interest in a private limited company incorporated in Hong Kong (the "Investee"), through the acquisition of entire equity interest in Absolute Robust Limited. The acquisition is to be satisfied by (i) the issuance of 218,253,968 new ordinary shares of the Company as an initial consideration; (ii) the issuance of a maximum number of 218,253,968 consideration shares of the Company based on the formula as set out in the S&P Agreement when the net profit after tax of the Investee shall be greater than HK\$10 million for the period from 1 May 2017 to 31 October 2017 (the "First Contingent Consideration Shares"); and (iii) the issuance of a maximum number of 218,253,968 consideration shares of the Company based on the formula as set out in the S&P Agreement when the net profit after tax of the Investee shall be greater than HK\$10 million for the period from 1 May 2017 to 30 April 2018 (the "Second Contingent Consideration Shares"). In accordance with the S&P Agreement, the total of the First Contingent Consideration Shares and the Second Contingent Consideration Shares must not be greater than 218,253,968 consideration shares of the Company. The acquisition was completed on 18 December 2017 (see note 14).

Absolute Robust Limited is an investment holding company, and the sole asset of Absolute Robust Limited acquired at the date of completion was available-for-sale investment (see note 14), accordingly the acquisition had been accounted for as acquisition of assets.

28. MATERIAL RELATED PARTY TRANSACTIONS

Key management personnel remuneration

Remuneration for key management personnel of the Group, including amounts paid to the Company's directors as disclosed in note 9 and certain of the highest paid employees of the Group as disclosed in note 10, is as follows:

| | 2018 HK\$'000 | 2017 HK\$'000 |
|------------------------------|------------------|------------------|
| Short-term employee benefits | 7,444 | 8,806 |
| Post-employment benefits | 106 | 120 |
| | 7,550 | 8,926 |

Total remuneration is included in staff costs (see note 7(b)).

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2018

30. POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE YEAR ENDED 31 MARCH 2018

Up to the date of issue of these financial statements, the HKICPA has issued a number of amendments, new standards and interpretations which are not yet effective for the year ended 31 March 2018 and which have not been adopted in these financial statements. These include the following which may be relevant to the Group.

| | Effective for accounting periods beginning on or after |
|--|--|
| HKFRS 9 "Financial Instruments" | 1 January 2018 |
| HKFRS 15 "Revenue from Contracts with Customers" | 1 January 2018 |
| Amendments to HKFRS 2, "Share-based Payment: Classification and measurement of share-based payment transactions" | 1 January 2018 |
| HK (IFRIC)-Int 22 "Foreign Currency Transactions and Advance Consideration" | 1 January 2018 |
| HKFRS 16 "Leases" | 1 January 2019 |
| HK (IFRIC)-Int 23 "Uncertainty over Income Tax Treatments" | 1 January 2019 |

The Group is in the process of making an assessment of what the impact of these amendments, new standards and interpretations is expected to be in the period of initial application. So far the Group has identified some aspects of the new standards which may have a significant impact on the consolidated financial statements of the Group. Further details of the expected impacts are discussed below. While the assessment has been substantially completed for HKFRS 9 and HKFRS 15, the actual impacts upon the initial adoption of the standards may differ as the assessment completed to date is based on the information currently available to the Group, and further impacts may be identified before the standards are initially applied in the Group's interim financial report for the six months ending 30 September 2018. The Group may also change its accounting policy elections, including the transition options, until the standards are initially applied in that financial report.

HKFRS 9 "Financial Instruments"

HKFRS 9 will replace the current standard on accounting for financial instruments, HKAS 39 "Financial Instruments: Recognition and Measurement". HKFRS 9 introduces new requirements for classification and measurement of financial assets, including the measurement of impairment for financial assets. On the other hand, HKFRS 9 incorporates without substantive changes the requirements of HKAS 39 for recognition and derecognition of financial instruments and the classification and measurement of financial liabilities.

HKFRS 9 is effective for annual periods beginning on or after 1 January 2018 on a retrospective basis. The Group plans to use the exemption from restating comparative information and will recognise any transition adjustments against the opening balance of equity at 1 January 2018.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2018

30. POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE YEAR ENDED 31 MARCH 2018 (CONTINUED)

HKFRS 9 "Financial Instruments" (Continued)

Expected impacts of the new requirements on the Group's financial statements are as follows:

(a) Classification and measurement

HKFRS 9 contains three principal classification categories for financial assets: measured at (1) amortised cost, (2) fair value through profit or loss (FVTPL) and (3) fair value through other comprehensive income (FVTOCI):

- The classification for debt instruments is determined based on the entity's business model for managing the financial assets and the contractual cash flow characteristics of the asset. If a debt instrument is classified as FVTOCI then interest revenue, impairment and gains/losses on disposal will be recognised in profit or loss.
- For equity securities, the classification is FVTPL regardless of the entity's business model. The only exception is if the equity security is not held for trading and the entity irrevocably elects to designate that security as FVTOCI. If an equity security is designated as FVTOCI then only dividend income on that security will be recognised in profit or loss. Gains, losses and impairments on that security will be recognised in other comprehensive income without recycling.

The Group has assessed that its financial assets currently measured at amortised cost will continue with their respective classification and measurements upon the adoption of HKFRS 9.

The classification and measurement requirements for financial liabilities under HKFRS 9 are largely unchanged from HKAS 39, therefore this new requirement will not have any significant impact on the Group's financial statements on adoption of HKFRS 9.

(b) Impairment

The new impairment model in HKFRS 9 replaces the "incurred loss" model in HKAS 39 with an "expected credit loss" model. Under the expected credit loss model, it will no longer be necessary for a loss event to occur before an impairment loss is recognised. Instead, an entity is required to recognise and measure either a 12-month expected credit loss or a lifetime expected credit loss, depending on the asset and the facts and circumstances. The Group expects that the application of the expected credit loss model will result in earlier recognition of credit losses. However, a more detailed analysis is required to determine the extent of the impact.

The new standard also introduces expanded disclosure requirements and changes in presentation. There are expected to change the nature and extent of the Group's disclosures about its financial instruments particularly in the year of the adoption of the new standard.

30. POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE YEAR ENDED 31 MARCH 2018 (CONTINUED)

HKFRS 15, Revenue from contracts with customers

HKFRS 15 establishes a comprehensive framework for recognising revenue from contracts with customers. HKFRS 15 will replace the existing revenue standards, HKAS 18 "Revenue", which covers revenue arising from sale of goods and rendering of services, and HKAS 11 "Construction Contracts", which specifies the accounting for revenue from construction contracts. Based on assessment completed to date, the Group has identified the following areas which are expected to be affected:

(a) Timing of revenue recognition

The Group's revenue recognition policies are disclosed in note 2(r). Currently, revenue arising from construction contracts and the provision of services is recognised over time, whereas revenue from the sale of goods is generally recognised when the risks and rewards of ownership have passed to the customers.

Under HKFRS 15, revenue is recognised when the customer obtains control of the promised good or service in the contract. HKFRS 15 identifies 3 situations in which control of the promised good or service is regarded as being transferred over time:

- (i) When the customer simultaneously receives and consumes the benefits provided by the entity's performance, as the entity performs;
- (ii) When the entity's performance creates or enhances an asset (for example work in progress) that the customer controls as the asset is created or enhanced;
- (iii) When the entity's performance does not create an asset with an alternative use to the entity and the entity has an enforceable right to payment for performance completed to date.

If the contract terms and the entity's activities do not fall into any of these 3 situations, then under HKFRS 15 the entity recognises revenue for the sale of that good or service at a single point in time, being when control has passed. Transfer of risks and rewards of ownership is only one of the indicators that will be considered in determining when the transfer of control occurs.

The Group is currently assessing the impacts of adopting HKFRS 15 on its financial statements. Further analysis is required to determine whether this change in accounting policy may have a material impact on the amount reported in any given financial reporting period.

(b) Significant financing component

HKFRS 15 requires an entity to adjust the transaction price for the time value of money when a contract contains a significant financing component, regardless of whether the payments from customers are received significantly in advance or in arrears.

Currently, the Group would only apply such a policy when payments are significantly deferred. The Group is in the process of making an assessment of the impact of the financing benefit obtained from customers.

30. POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE YEAR ENDED 31 MARCH 2018 (CONTINUED)

HKFRS 16, Leases

As disclosed in note 2(h), currently the Group classifies leases into finance leases and operating leases and accounts for the lease arrangements differently, depending on the classification of the lease. The Group enters into some leases as the lessor and others as the lessee.

HKFRS 16 is not expected to impact significantly on the way that lessors account for their rights and obligations under a lease. However, once HKFRS 16 is adopted, lessees will no longer distinguish between finance leases and operating leases. Instead, subject to practical expedients, lessees will account for all leases in a similar way to current finance lease accounting, i.e. at the commencement date of the lease the lessee will recognise and measure a lease liability at the present value of the minimum future lease payments and will recognise a corresponding "right-of-use" asset. After initial recognition of this asset and liability, the lessee will recognise interest expense accrued on the outstanding balance of the lease liability, and the depreciation of the right-of-use asset, instead of the current policy of recognising rental expenses incurred under operating leases on a systematic basis over the lease term. As a practical expedient, the lessee can elect not to apply this accounting model to short-term leases (i.e. where the lease term is 12 months or less) and to leases of low-value assets, in which case the rental expenses would continue to be recognised on a systematic basis over the lease term.

HKFRS 16 will primarily affect the Group's accounting as a lessee of leases for properties which are currently classified as operating leases. The application of the new accounting model is expected to lead to an increase in both assets and liabilities and to impact on the timing of the expense recognition in the statement of profit or loss over the period of the lease. As disclosed in note 25, at 31 March 2018 the Group's future minimum lease payments under non-cancellable operating leases amount to approximately HK\$2,461,000 for office properties, more than half of which is payable between 1 and 5 years after the reporting date. Some of these amounts may therefore need to be recognised as lease liabilities, with corresponding right-of-use assets, once HKFRS 16 is adopted. The Group will need to perform a more detailed analysis to determine the amounts of new assets and liabilities arising from operating lease commitments on adoption of HKFRS 16, after taking into account the applicability of the practical expedient and adjusting for any leases entered into or terminated between now and the adoption of HKFRS 16 and the effects of discounting.

HKFRS 16 is effective for annual periods beginning on or after 1 January 2019. The standard offers different transition options and practical expedients, including the practical expedient to grandfather the previous assessment of which existing arrangements are, or contain, leases. If this practical expedient is chosen, the Group will apply the new definition of a lease in HKFRS 16 only to contracts that are entered into on or after the date of initial application. If the practical expedient is not chosen, the Group will need to reassess all of its decisions about which existing contracts are, or contain, leases, using the new definition. Depending on whether the Group elects to adopt the standard retrospectively or follow a modified retrospective method of recognising a cumulative-effect adjustment to the opening balance of equity at the date of initial application, the Group may or may not need to restate comparative information for any changes in accounting resulting from the reassessment.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 March 2018

31. ULTIMATE CONTROLLING PARTY

The directors regard Mr. Lee Cheong Yuen, Mr. Yong Man Kin, Mr. Chan Kwok Pui and Mr. Tam Kwok Wah through their direct shareholdings in the Company as being the ultimate controlling parties. The Company does not have any parent company.

32. NON-ADJUSTING EVENT AFTER THE REPORTING PERIOD

(a) Acquisition of 40% equity interest of Pointsoft Limited

On 20 June 2018, the Company announced that Value Digital Limited, an indirect wholly-owned subsidiary of the Company, entered into a sale and purchase agreement with independent third parties to acquire 40% equity interest of Pointsoft Limited at a consideration of HK\$60,000,000 (subject to downward adjustment) which shall be satisfied by the allotment and issue of the consideration shares to the vendors. On 28 June 2018, the Company announced that the acquisition was completed. Details of the acquisition are set out in the announcements dated 20 June 2018, 21 June 2018 and 28 June 2018.

(b) Issuance of convertible bonds

On 21 June 2018, the Company issued convertible bonds with total face value of HK\$59,842,612.50 to the vendors of Project CKB pursuant to the payment milestones set out in the conditional sale and purchase agreement in respect of the acquisition of O2O Limited (see note 26).
