**Introduction**

The CSOP CES China A80 ETF (the “CSOP A80 ETF”), a sub-fund of the CSOP ETF Series, is a unit trust authorised under the Securities and Futures Ordinance (Cap. 571) of Hong Kong. Meanwhile, from November 17, 2014, foreign investors can trade eligible stocks listed in Shanghai Stock Exchange through Shanghai-Hong Kong Stock Connect. **1. GENERAL INFORMATION**

CSOP ETF Series (the “Trust”) is an umbrella unit trust governed by a trust deed dated 25 July 2012, as amended (the “Trust Deed”) and authorised by the Securities and Futures Commission of Hong Kong (the “SFC”) pursuant to Section 104(1) of the Securities and Futures Ordinance. The terms of the Trust Deed are governed by the laws of Hong Kong. As at 30 June 2018, the Trust has six sub-funds which are CSOP CES China A80 ETF (the “Sub-Fund”), CSOP FTSE China A50 ETF, CSOP SZSE ChiNext ETF, CSOP China CSI 300 Smart ETF, CSOP MSCI China A Inclusion Index ETF (Formerly known as CSOP MSCI China A International ETF) and ICBC CSOP S&P New China Sectors ETF. The date of inception of the Sub-Fund was 27 August 2013. The Sub-Fund is listed on The Stock Exchange of Hong Kong Limited.

The manager and the trustee of the Sub-Fund are CSOP Asset Management Limited (the “Manager”) and HSBC Institutional Trust Services (Asia) Limited (the “Trustee”) respectively.

The investment objective of the Sub-Fund is to provide investment results that, before deduction of fees and expenses, closely correspond to the performance of the Underlying Index, namely, CES China A80 Index (the “Underlying Index”). In order to achieve the investment objective of the Sub-Fund, the Manager will adopt a full replication strategy by directly investing all, or substantially all, of the assets of the Sub-Fund in index securities constituting the Underlying Index in substantially the same weightings (i.e. proportions) as these index securities have in the Underlying Index. The Manager may also use a representative sampling strategy in exceptional circumstances.

Under current regulations in the People’s Republic of China (“PRC”), generally foreign investors can invest in the domestic securities market through certain qualified foreign institutional investors that have obtained status as a Qualified Foreign Institutional Investor (“QFII”) or a Renminbi Qualified Foreign Institutional Investor (“RQFII”) from the China Securities Regulatory Commission (“CSRC”) and have been granted quota(s) by the State Administration of Foreign Exchange (“SAFE”) of the PRC to remit foreign freely convertible currencies (in the case of a QFII) and Chinese Renminbi (“RMB”) (in the case of a RQFII) into the PRC for the purpose of investing in the PRC’s domestic securities markets. Foreign investors can also invest in the domestic securities market through Shanghai/Shenzhen - Hong Kong Stock Connect Program (“Stock Connect”).

The Sub-Fund obtains exposure to securities issued within the PRC through the RQFII quotas of the Manager. The Manager has obtained RQFII status in the PRC and the RQFII quotas have been granted, on behalf of the Sub-Fund. To the extent that the Manager has, on behalf of the Sub-Fund, utilised its entire RQFII quota, the Manager may, subject to any applicable requirements, apply for an increase of the RQFII quota. On the other hand, the Manager actively manages the RQFII quota obtained and may impose limits on creation applications as it considers appropriate.

These condensed semi-annual financial statements are prepared for the Sub-Fund only. The condensed financial statements for CSOP FTSE China A50 ETF, CSOP SZSE ChiNext ETF, CSOP China CSI 300 Smart ETF, CSOP MSCI China A Inclusion Index ETF (Formerly known as CSOP MSCI China A International ETF) and ICBC CSOP S&P New China Sectors ETF have been prepared separately.

**1. GENERAL INFORMATION (Continued)**

Termination of the Sub-Fund

Pursuant to the Announcement and Notice to the unitholders of the Sub-Fund dated 16 November 2017 released by the Manager, it proposed cessation of trading, termination, voluntary deauthorisation and delisting and the waivers from compliance of certain provision of the Code on Unit Trusts and Mutual Funds of the Sub-Fund for the period from 19 December 2017 (“Announcement and Notice dated 16 November 2017”). As the net asset value of the Sub-Fund was less than RMB100 million, the Manager by means of a resolution of the board of directors of the Manager dated 15 November 2017 decided to terminate the Sub-Fund and voluntarily seek deauthorisation and delisting. The last trading day of the units of the Sub-Fund was on 18 December 2017. **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The principal accounting policies applied in the preparation of these condensed financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

These condensed semi-annual financial statements for the six months ended 30 June 2018 have been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34 “Interim Financial Reporting”. The condensed semi-annual financial statements should be read in conjunction with the annual financial statements for the year ended 31 December 2017, which have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRS”)

The accounting policies applied are consistent with those of the annual financial statements for the year ended 31 December 2017, as described in the annual financial statements.

Standard and amendments to existing standards effective 1 January 2018

HKFRS 9 ‘Financial instruments’ addresses the classification, measurement and derecognition of financial assets and liabilities. It replaces the multiple classification and measurement models in HKAS 39 and is effective for reporting periods beginning on or after 1 January 2018.

Classification and measurement of debt assets will be driven by the entity’s business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. A debt instrument is measured at amortised cost if the objective of the business model is to hold the financial asset for the collection of the contractual cash flows and the contractual cash flows under the instrument solely represent payments of principal and interest (SPPI). A debt instrument is measured at fair value through other comprehensive income if the objective of the business model is to hold the financial asset both to collect contractual cash flows from SPPI and to sell. All other debt instruments must be recognised at fair value through profit or loss. An entity may however, at initial recognition, irrevocably designate a financial asset as measured at fair value through profit or loss if doing so eliminates or significantly reduces a measurement or recognition inconsistency. Derivative and equity instruments are measured at fair value through profit or loss unless, for equity instruments not held for trading, an irrevocable option is taken to measure at fair value through other comprehensive income. HKFRS 9 also introduces a new expected credit loss (ECL) impairment model.

**NOTES TO THE UNAUDITED CONDENSED FINANCIAL STATEMENTS**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Standard and amendments to existing standards effective 1 January 2018 (Continued)

On adoption of HKFRS 9 the Fund's investment portfolio will continue to be classified as fair value through profit or loss. Other financial assets which are held for collection will continue to be measured at amortised cost with no material impact expected from application of the new impairment model. As a result, the adoption of HKFRS 9 is not expected to have a material impact on the Fund's financial statements.

There are no other standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 January 2018 that have a material effect on the financial statements of the Sub-Fund.

New standards and amendments to standards effective after 1 January 2018 that are relevant to the Sub-Fund but are not yet effective and have not been early adopted by the Sub-Fund

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2018, and have not been applied in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Sub-Fund.

**3. CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS**

The Manager makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. Estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are outlined below.

In preparing these condensed financial statements, the Manager has made certain assumptions and used various estimates concerning the tax exposure which is dependent on what might happen in the future. The resulting accounting estimates may not equal the related actual results.

**Fair value of securities that are suspended from trading**

As at 30 June 2018 and 31 December 2017, there were listed equities which have been suspended for trading mainly due to business restructuring. Management made its judgement in determining the fair values of these investments and involved a higher degree of subjectivity. Management judgement in determining the fair values of the suspended investments includes factors such as the duration of suspension period, the relevant market information and news of the suspended listed equities, the price movement of comparable listed equities/index during the suspension period and, if applicable, the market prices of the suspended listed equities upon resumption of trading after period end.

As at 30 June 2018, these investments held by the Sub-Fund included listed equities of RMB42,499 (2017: RMB53,054) which have been suspended for trading. Having considered the factors mentioned above, management has based on their best estimation and concluded using the latest available price before suspension as the fair value of one investment (2017: one investment) amounted to RMB20,816 (2017: RMB 20,816) as at 30 June 2018. Management has applied appropriate models and assumptions to determine the fair value of one investment (2017: two investments) classified as level 3 held by the Sub-Fund amounted to RMB21,683 as at 30 June 2018 (2017: RMB32,238). Refer to Note 8(d).

**4. NUMBER OF UNITS IN ISSUE AND NET ASSETS ATTRIBUTABLE TO UNITHOLDERS PER UNIT**

Subscriptions and redemptions of units during the period are shown in the condensed statement of changes in net assets attributable to unitholders. In order to achieve the investment objectives, the Sub-Fund endeavors to invest its capital in accordance with the investment policies, whilst maintaining sufficient liquidity to meet redemption requests.

In accordance with the provisions of the Trust Deed dated 25 July 2012, as amended, and the Prospectus of the Sub-Fund, investments are stated at the last traded price on the valuation day for the purpose of determining net asset value per unit for subscriptions and redemptions and for various fee calculations.

**8. FINANCIAL RISK MANAGEMENT**

The objective of the Sub-Fund is to provide investment results that, before deduction of fees and expenses, closely correspond to the performance of the CES China A80 Index. The Sub-Fund's activities may expose it to a variety of risks including but not limited to: market risk (including market price risk, interest rate risk and currency risk), credit and counterparty risk and liquidity risk which are associated with the markets in which the Sub-Fund invests.

The following is a summary of the main risks and risk management policies.

(A SUB-FUND OF CSOP ETF SERIES)**

**NOTES TO THE UNAUDITED CONDENSED FINANCIAL STATEMENTS**

**8. FINANCIAL RISK MANAGEMENT (Continued)**

**(a) Market risk**

**(i) Market price risk**

Market price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual instrument or factors affecting all instruments in the market.

The Sub-Fund is designated to track the performance of the CES China A80 Index, therefore the exposures to market risk in the Sub-Fund will be substantially the same as the tracked index. The Manager manages the Sub-Fund's exposures to market risk by ensuring that the key characteristics of the portfolio, such as security weight and industry weight, are closely aligned with the characteristics of the tracked index.

As referred to Note 1, the Manager has decided to terminate the Sub-Fund and the last trading day of the units of the Sub-Fund was on 18 December 2017. The Sub-Fund would cease to track the CES China A80 Index, and would not be able to meet its investment objective of tracking the performance of the CES China A80 Index.

As at 30 June 2018 and 31 December 2017, the Sub-Fund's investments were concentrated in the following industries:

|                                      | 30 June 2018 (Unaudited) |                         | 31 December 2017 (Audited) |                         |

| Financials                           | -                        | -                       | 13,566                     | 0.21                    |
| Technology                           | 21,683                   | 36.85                   | 18,672                     | 0.30                    |

The Sub-Fund held 0 out of 80 (31 December 2017: 0 out of 80) constituents securities comprising the CES China A80 Index. The Sub-Fund is therefore exposed to substantially the same market price risk as the CES China A80 Index.

Sensitivity analysis in the event of a possible change in the index by 10% as estimated by the Manager

As at 30 June 2018, if the CES China A80 Index were to increase by 10% (31 December 2017: 10%) with all other variables held constant, this would increase the operating profit for the period by approximately RMB4,250 (31 December 2017: RMB5,362). Conversely, if the CES China A80 Index were to decrease by 10% (31 December 2017: 10%), this would decrease the operating profit for the period/year by an equal amount.

**(ii) Interest rate risk**

Interest rate risk arises from the effects of fluctuations in the prevailing levels of market interest rates on the fair value of financial assets and liabilities and future cash flow.

(A SUB-FUND OF CSOP ETF SERIES)**

**NOTES TO THE UNAUDITED CONDENSED FINANCIAL STATEMENTS**

**8. FINANCIAL RISK MANAGEMENT (Continued)**

**(a) Market risk (Continued)**

**(ii) Interest rate risk (Continued)**

As at 30 June 2018 and 31 December 2017, interest rate risk arises only from bank balances. As the bank balances held by the Sub-Fund is short term in nature and the interest arising from these interest bearing assets are immaterial, the Manager considers that changes in their fair value and future cash flows in the event of a change in market interest rates will not be material. As a result, the Manager considers sensitivity analysis of interest rate risk is not necessary to be presented.

**(iii) Currency risk**

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. The Sub-Fund is not exposed to currency risk arising from balances and transactions in foreign currencies as the majority of its assets and liabilities are denominated in RMB, the Sub-Fund's functional and presentation currency. As a result, the Management considers sensitivity analysis of currency risk is not necessary to be presented.

**(b) Credit and counterparty risk**

Credit and counterparty risk is the risk that an issuer or counterparty will be unable or unwilling to meet a commitment that it has entered into with the Sub-Fund.

The Sub-Fund limits its exposure to credit and counterparty risk by carrying out the majority of its investment transactions and contractual commitment activities with well established broker-dealers, banks and regulated exchanges with high credit ratings.

All transactions in listed securities are settled or paid for upon delivery using approved and reputable brokers. In addition, the Sub-Fund places bank balances with reputable financial institutions. As such, the Manager does not consider the Sub-Fund to be exposed to significant credit and counterparty risk.

As at 30 June 2018, the Sub-Fund placed bank balances of RMB18,012 (31 December 2017: RMB6,260,448) with The Hong Kong and Shanghai Banking Corporation Limited ("HSBC"), which is the custodian of the Sub-Fund. The S&P credit rating of HSBC is A (31 December 2017: A).

As at 30 June 2018, the Sub-Fund placed bank balances of RMB244 (31 December 2017: RMB53) and investments of RMB42,499 (31 December 2017: RMB53,054) with HSBC Bank (China) Company Limited ("HSBC China"), which is the PRC custodian of the Sub-Fund. The Moody's credit rating of HSBC China is A1 (31 December 2017: A1).

The maximum exposure to credit risk as at 30 June 2018 and 31 December 2017 is the carrying amount of the financial assets as shown on the statement of financial position.

The Manager considers that none of these assets are impaired nor past due as at 30 June 2018 and 31 December 2017.

**(c) Liquidity risk**

Liquidity risk is the risk that the Sub-Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Sub-Fund is exposed to daily redemptions of units in the Sub-Fund. The Sub-Fund invests the majority of its assets in securities that are traded in an active market which can be readily disposed of.

Units are redeemed on demand at the unitholder's option. As at 30 June 2018, there were 3 (31 December 2017: 2) unitholders holding more than 10% of the Sub-Fund's units.

The Sub-Fund manages its liquidity risk by investing in securities that it expects to be able to liquidate within 7 days or less. The following table illustrates the expected liquidity of assets held:

**NOTES TO THE UNAUDITED CONDENSED FINANCIAL STATEMENTS**

**8. FINANCIAL RISK MANAGEMENT (Continued)**

**(d) Fair value estimation**

The Sub-Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Sub-Fund can access at the measurement date (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes “observable” requires significant judgment by the Sub-Fund. The Sub-Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy the Sub-Fund’s financial assets (by class) measured at fair value at 30 June 2018 and 31 December 2017:

|                               | Level 1<br><i>RMB</i> | Level 2<br><i>RMB</i> | Level 3<br><i>RMB</i> | Total<br><i>RMB</i> |
