中国中铁

标识由公司汉语简称“中国中铁”与英文简称“CREC”构成，采用象征科技和高远的蓝色为标准色。经纬交织的地球背景，展现了公司的全球视野和战略眼光。端正、刚健的“工”字既型如坚实的钢轨，承载着辉煌厚重的历史，又势如擎天的建筑，昭示着蒸蒸日上的未来。

The logo is constituted by the abbreviated Chinese company name “中国中铁” and the English company name “CREC” and designed with the color of ocean as the standard color symbolizing science and technology as well as vision. The background of the Earth with latitudes and longitudes shows CREC’s global vision and strategic insight. The Chinese character “工” in the middle not only indicates the cross section of the rail that is upright, robust, sturdy and “affords” the load of profound and magnificent history, but also a structure that holds up the sky, which indicates a thriving future.

关于本报告

About This Report

欢迎阅读中国中铁股份有限公司2018社会责任报告暨ESG（环境、社会与管治）报告。为便于您的阅读，中国中铁股份有限公司在本报告中以“中国中铁”“公司”“我们”等方式进行表述。

本报告是公司第11份年度社会责任报告，时间跨度以2018年1月1日至12月31日为主，重点表述了2018年度中国中铁在依法治企、优质服务、创造效益、员工发展、安全监管、科技进步、环境保护、精准扶贫、公益事业、合作共赢、海外责任等方面的工作，适当关注了2018年以前公司履行社会责任的情况。

报告编写参照联合国全球契约(Global Compact)颁布的“十大原则”，全球报告倡议组织(GRI)、社会责任国际(SAI)和中国国家标准GB/T36000-2015《社会责任指南》、GB/T36001-2015《社会责任报告编写指南》、GB/T36002-2015《社会责任绩效分类指引》《中国企业社会责任报告编写指南(CASS-CSR3.0)之建筑业》《中国对外承包工程行业社会责任指引》等相关标准，以及国务院国资委、上海证券交易所、香港联合交易所的有关规定。

报告中使用的相关数据和案例，均来自中国中铁及其子公司。

本报告以中英文两种文字出版，若两种文字间有差异，按中文版解读。

本报告力求完整、客观和准确，并积极回应利益相关方的主要关切。本着精益求精的原则，公司下一年度及以后的社会责任报告的编写和发布工作还将持续改进、日臻完善，也欢迎您的支持。

本报告的电子版同时在公司网站发布。您可以根据需要进行下载。

Welcome to read the Social Responsibility Report together with the ESG (Environment Society Governance) Report for 2018 of China Railway Group Limited. To facilitate your reading, China Railway Group Limited will be expressed as “CREC”, the “Company” and “we/us”, etc. in this report.

This report is the Company's eleventh annual social responsibility report with the time span of 1st January to 31st December of 2018. It mainly focuses on CREC's work about managing enterprises according to law, high-quality service, benefit creation, staff development, safety supervision, science & technology progress, environmental protection, targeted poverty alleviation, public welfare undertaking, win-win cooperation and overseas responsibility during the year of 2018, with due attention to how the Company fulfilled its social responsibility before 2018.

We have prepared this report by referring to the “ten principles” promulgated by the United Nations Global Compact (Global Compact); the relevant standards of the Global Reporting Initiative (GRI), Social Accountability International (SAI), Chinese National Standards GB/T36000-2015 Social Responsibility Guidelines, GB/T36001-2015 Social Responsibility Reporting Guidelines, GB/T36002-2015 Social Responsibility Performance Classification Guidelines, Construction Industry in China CSR Reporting Guidelines (CASS-CSR3.0), Guide on Social Responsibility for Chinese International Contractors; as well as the relevant requirements of SASAC, Shanghai Stock Exchange and The Stock Exchange of Hong Kong Limited.

All relevant data and cases used in this report are from the CREC and its subsidiaries and branch companies.

This report is published in both Chinese and English. In case of any discrepancy between the two versions, the Chinese version shall prevail.

This report aims to be complete, objective and accurate, and to actively respond to the main concerns of interested parties. Based on the principles of pursuit for excellence, the Company will continue to improve and strive for perfection in the preparation and release of its Social Responsibility Report for next year and beyond, and you are welcome to support.

The electronic version of this report is also posted on the Company's website, and you can download it if needed.

领导致辞

Leader's Message

2018年，是贯彻落实党的十九大精神开局之年，也是中国中铁发展史上极不平凡的一年。这一年，我们全面践行习近平新时代中国特色社会主义思想，牢记习总书记对中国中铁新成昆铁路建设者的殷殷期望，传承一代代中铁人对祖国和人民的担当和忠诚，永不停歇、永不懈怠，开拓进取、砥砺前行，全面实现了公司各项奋斗目标。这一年，我们抢抓市场机遇、乘势而上，主要经济指标再创历史新高。这一年，我们全力以赴打好提质增效攻坚战，深入推进项目管理实验室活动，企业全面深化改革不断提升。这一年，我们优质高效推进重点项目建设，京张高铁、港珠澳大桥、平潭跨海大桥等一大批重点工程取得新进展。这一年，我们紧抓“一带一路”倡议五周年机遇，积极推进雅万高铁、中老铁路、亚吉铁路、匈塞铁路等项目建设，公司国际化发展不断加快。这一年，我们深入开展员工关爱工程，注重员工全面发展，员工幸福感获得感不断增强。这一年，我们积极履行社会责任，加大精准扶贫力度、积极抢险救灾，企业担当风范深入人心。

2018, as the first year of implementing the spirit of the 19th national congress of CPC, is also an extremely unusual year in the history of CREC. In this year, we fully practiced Xi Jinping's Thought on Socialism with Chinese Characteristics for a New Era, bore in mind general secretary Xi's ardent expectations towards all participants in the construction of CREC's new Chengdu-Kunming Railway, and inherited the commitment and loyalty of China Railway's staff from generation to generation towards our motherland and people by restless and relentless efforts to forge ahead, achieving all goals of the Company. In this year, we seized market opportunities and took advantage of the momentum, with major economic indicators reaching new record high. In this year, we worked hard to improve quality and efficiency while further promoting laboratory activities of project management, with ongoing enhancement in comprehensive deepening of corporate reform. In this year, we carried forward construction of key projects with high quality and efficiency, and made new progress in a great number of key projects like the Beijing-Zhangjiakou High-Speed Railway, the Hong Kong-Zhuhai-Macau Bridge and the Pingtan Cross-sea Bridge. In this year, we seized the opportunities provided by the 5th anniversary of the Belt and Road Initiative to actively advance the construction of projects like Jakarta-Bandung High-Speed Rail, China-Laos Railway, Addis Ababa-Djibouti Railway and Hungary-Serbia Railway, thus accelerating our pace of international development. In this year, we extensively carried out the care-for-staff project with focus on the overall growth of staff, thus enhancing their sense of happiness and reward. In this year, we vigorously fulfilled our social responsibility by strengthening targeted poverty alleviation and actively engaging in rescue and relief work, instilling among the people a deep-rooted image of an enterprise with firm commitment.

特别值得一提的是，刚刚过去的2018年是改革开放40周年。这一年，我们隆重举行了一系列庆祝活动，总结40年来企业的伟大成就和宝贵经验，激励全体员工传承精神、接续奋斗。在国家庆祝改革开放40周年大会上，公司员工巨晓林荣获改革先锋表彰。各主流媒体对中国中铁改革发展经验进行了广泛报道。我们用行动宣示了在新时代将勇作开路先锋、为民族复兴筑路进行到底的坚定决心！

2018年，中国中铁排名世界企业500强第56位，中国企业500强第13位。公司获得国家科技进步奖4项、国家技术发明奖1项、建筑工程鲁班奖10项。

2019年，中国中铁将一如既往地忠实履行企业使命，不断探索造福社会的新形式，努力为实现中华民族伟大复兴中国梦作出新的更大贡献。

董事长：李长进
2019年3月

What is worth mentioning is that the past 2018 is the 40th anniversary of reform and open-up. In this year, we held a series of grand celebrations to summarize our great achievements and valuable experiences in the past 40 years and encourage all employees to keep on working hard for a better future. On the grand gathering celebrating the 40th anniversary of China's reform and opening-up, Ju Xiaolin, an employee of CREC, was awarded the medal of reform pioneer. The reform and development experience of CREC received widespread coverage from mainstream media. We announced by action our steadfast resolve to be an innovation pioneer in the new era to pave a road for national rejuvenation.

In 2018, CREC ranked 56th in top 500 enterprises of the world, and ranked 13th in top 500 Chinese enterprises. The Company won 4 prizes for National Progress in Science and Technology, 1 prize for National Technical Invention Award, and 10 Luban Prizes for China.

In 2019, CREC will continue to faithfully fulfill its corporate mission and constantly explore new forms of benefiting the society, and will strive to make new and greater contributions to achieve the Chinese dream of national rejuvenation.

Chairman of the Board: Li Changjin
March, 2019

社会责任规划

Planning of Social Responsibility

作为建筑行业的领军企业，中国中铁始终以成为企业社会责任的实践者、推动者和引领者为己任，自2008年起，开始着手建立科学、规范、系统、有效的企业社会责任管理体系，从依法治企、优质服务、创造效益、员工发展、安全监管、科技进步、环境保护、精准扶贫、公益事业、合作共赢、海外责任等方面进行社会责任规划，并从公司总部到各子公司全面开展了一系列社会责任管理实践活动，以实现全面覆盖、充分履行、日臻完善、行业领先的社会责任目标，为社会持续提供不可替代的杰出贡献。

As a leader in the construction industry, CREC always regards becoming a practitioner, propellant and leader of Corporate Social Responsibility as its mission. Since 2008, it has started working on building a scientific, standardized, systematic and effective management system of corporate social responsibility; on planning social responsibility from such aspects as managing enterprises according to law, high-quality service, benefit creation, staff development, safety supervision, science & technology progress, environmental protection, targeted poverty alleviation, public welfare undertaking, win-win cooperation and overseas responsibility; and has launched a series of management practices of social responsibility from the Headquarter to the subsidiaries of the Company in order to achieve the goal of full-coverage, full-fulfillment, pursuit for perfection and industry-leading social responsibility, making irreplaceable and outstanding contributions to a sustainable society.

利益相关方

Interested Parties

多年来，中国中铁始终与利益相关方保持和谐互信、互惠互利的合作关系，坚持从利益相关方视角，积极回应利益相关方关注的重要问题，建立顺畅、规范、富有特色的利益相关方沟通机制，努力实现与各利益相关方共同发展、和谐共赢。经全面分析所在行业产业链条和宏观环境，中国中铁的利益相关方主要由十类群体构成，即债权人、客户、政府、投资者、合作伙伴、同业者、非政府组织、员工、公众、供应商。

Over several years, CREC has always maintained the cooperation relationship of harmony, mutual trust, mutually benefit with all interested parties; adhered to the interests of interested parties in the perspective of interested parties; responded actively to important issues that interested parties pay attention to; established smooth, standardized and distinctive communication mechanism of interested parties; and made efforts to achieve common development, harmony and win-win with all interested parties. After a comprehensive analysis of the production chain and macro-environment in the industry, CREC's interested parties are mainly constituted by ten groups, i.e. creditors, clients, the government, investors, partners, brother chip, NGO (non-governmental organizations), staff, the public and suppliers.

There are 5 special committees of strategy, audit and risk management, remuneration, nomination as well as safety, health and environment under the Board of Directors, among which strategy committee is composed of 5 directors, and the director of the committee is taken by the Party Secretary and Chairman of the board, including one independent non-executive director and one non-executive director; audit and risk management committee is composed of 3 directors, all of them are independent non-executive directors, among them two are experts in finance and accounting fields in domestic and overseas enterprises respectively; the remuneration committee is composed of 2 independent non-executive directors and 1 non-executive director, all having rich experiences in performance assessment and remuneration management of large enterprises; the nomination committee is composed of 5 directors, including 3 independent non-executive directors, and the chairman of the committee is taken by the Party Secretary and Chairman of the board; the safety, health and environment committee is composed of 5 directors, including 2 independent non-executive directors and 1 non-executive director, and the chairman of the committee is taken by executive directors and the President. The Board of Supervisors is composed of 5 members, including 2 shareholder representative supervisors and 3 workers' representative supervisors. The senior management of the Company is composed of 10 members including executive directors, 1 president, 4 vice presidents, 1 CFO, 1 vice president and general counsel, 1 chief engineer, 1 chief economic manager and 1 board secretary.

In 2018, under the guidance of Xi Jinping's Thought on Socialism with Chinese Characteristics for a New Era and the spirit of the 19th national congress of CPC, the Company earnestly implemented the responsibilities endowed by the Corporate Law and the Articles of Association according to the requirements of state-owned capital supervision and securities supervision. By highlighting strict standards on decision-making, internal control, risk prevention, governance perfection, plus stimulation and constraint, the Board of Directors continued to improve its operation quality, clearly defined the functional positioning of the Board of Directors, the Board of Supervisors and the Management to promote efficient connection between the Board of Directors and the Management, enhanced the construction of authorization system and optimized the governance structure of legal persons at all levels. Besides, the Company drove innovation in capital market financing, expanded communication channels with small- and medium-sized shareholders and supervision authorities, and explored long-lasting supervision mechanism for the Board of Supervisors to strengthen its implementation capacity, effectively promoting the transformation of corporate governance from standardization to effectiveness and then to scientificity. The Company's Board of Directors received the annual assessment of "Proper Function" from SASAC of the State Council.

内控监督

Internal Control Supervision

中国中铁高度重视内控体系建设，按照《企业内部控制基本规范》要求，2018年，根据企业全面深化改革的需要，公司开展了对所有规章制度的清理工作，为公司下一步流程再造打下了坚实的基础。全年，公司总部共召开9次制度评审会，共计评审规章制度125项；全系统共审核规章制度7480项。

公司结合企业实际，在组织开展风险管理初始信息收集和所属各单位风险评估结果的基础上，编制风险评估调查问卷，从5大类76个风险点列举出公司层面面临的风险，从风险发生的可能性和影响程度两个维度制定风险评估准则，开展了风险问卷调查，评估确定公司层面重大和重要风险，并编制了《2018年度全面风险管理报告》。

2018年《中华人民共和国监察法》实施后，对公司在中国及海外开展业务的依法合规性要求更高，企业的反腐败制度建设和员工廉洁从业培训需要更加普及。为此，我们设立独立的审计和巡视部门，加大内部审计、巡视力度，加强对各业务的监控，坚决禁止贿赂、勒索、欺诈及洗黑钱等行为，积极营造“不想腐、不能腐、不敢腐”的廉洁文化氛围。

2018年，我们坚持把反腐败工作融入各项业务之中，围绕控风险、提质量、增效益，制定了对职能部门履行监督管理职责进行再监督的实施办法；组织开展领导人员日常履职考察，督导所属企业分层级建立项目廉洁风险台账；开展扶贫领域腐败和作风问题专项治理；积极探索境外项目廉洁风险防控机制，制定了中老铁路“廉洁之路”建设实施方案，开展了以“双安双优”为目标的廉洁建设。

CREC attached great importance to construction of the internal control system. According to Basic Norms of Corporate Internal Control and the requirements of overall in-depth corporate reform, in 2018, CREC cleaned up all its rules and regulations to lay a solid foundation for its next business process re-engineering. Throughout the year, the Company held a total of 9 system appraisal meeting, appraised a total of 125 rules and regulations, and reviewed a total of 7480 rules and regulations in the whole system.

In combination with its reality and based on the organization of initial information collection for risk management and risk assessment results of all subordinate units, CREC compiled the risk assessment questionnaire, listed five categories and 76 risk points that it was facing, formulated risk assessment standards from the probability and influence degree of risk, carried out risk questionnaire survey, assessed and determined the great and major risks that it was facing and compiled the Overall Risk Management Report 2018.

The implementation the Supervision Law of the People's Republic of China in 2018 makes it necessary for the Company to put more efforts to strengthen the building of anti-corruption system and staff honesty and integrity training, so as to ensure the compliance of the Company's operations home and abroad. To this end, we have set up an independent audit department and disciplinary inspection department, intensified internal audit and inspection effort to enhance the monitoring of various businesses and actively created an incorruptible culture atmosphere of "do not want to corrupt, cannot corrupt, and dare not corrupt".

In 2018, we insisted on integrating anti-corruption work into various businesses, and formulated implementation measures for re-supervising the performance of supervision and management responsibilities by functional departments centering on risk control, quality improvement and benefit increase; organized and conducted inspection on daily performance of leadership and urged enterprises belonged to CREC to establish prevention and control accounts for project integrity risks in different levels; carried out special governance on corruption and working style issues in poverty alleviation field; actively explored foreign prevention and control mechanism for project integrity risks and formulated the implementation plan for the construction of the "incorruptible road" of China-Laos Railway in order to launch integrity construction with "Double Safety and Double Excellence" as its goal.

诚信经营 Honest Management

2018年，公司坚持“治理完善、经营合规、管理规范、守法诚信”的“法治中铁”宗旨，严格贯彻执行境内外法律法规、公司制度，坚持全员参与、全过程监控、全领域覆盖的合规管理原则，重视企业信用管理，全面兑现了各项合同承诺，把依法治企贯穿于企业生产经营活动始终，无不良经营行为。

2018年，中铁五局、中铁八局、中铁大桥局、中铁上海局、中铁大桥院、中铁南方等公司被评为省级守合同重信用企业，中铁一局、中铁二局、中铁四局、中铁七局等公司被评为中国工程建设企业社会信用评价AAA级信用企业，中铁信托被评为诚信托·卓越公司奖。

In 2018, the Company insisted on the tenet of governing CREC according to law including “governance perfection, operation compliance, management standard, law-abiding and integrity”, strictly implemented the domestic and overseas laws and regulations as well as the Company system, adhered to the compliance management principle of all staff participation, whole process monitoring and whole field coverage. In addition, it attached great importance to the corporate credit management and fully fulfilled all the contractual commitments. It always implemented the principle of governing the corporate according to laws throughout the enterprise’s production and operation activities without bad business practices.

In 2018, CREC No.5, CREC No.8, CRBB (China Railway Bridge Bureau), CREC Shanghai Bureau, CREC BRDI, and China Railway South were awarded national contracted honor enterprises; CREC No.1, CREC No.2, CREC No.4, and CREC No.7 etc. were rated as AAA credit corporate by social credit rating for China project construction enterprises; and CRTC (China Railway Trust Company) was awarded “Chengxintuo” Award – Excellent Company Award.

资料1：在2018年上半年铁路施工企业信用评价中，中铁北京局、中铁广州局、中铁四局、中铁武汉电气化局、中铁三局、中铁十局、中铁一局被评为A级，占A级的70%。

资料2：2018年，全公司如期保证了港珠澳大桥、京张高铁八达岭隧道、广深高铁、济青高铁、怀邵衡铁路等一批重点工程相继建成。

Information 1: In the credit rating of railway construction enterprises for the first half of 2018, CREC Beijing Bureau, CREC Guangzhou Bureau, CREC No.4, CREC Wuhan Electrification Bureau, CREC No.3, CREC No.10, and CREC No.1 were rated as Class A, accounting for 70 % of Class A.

Information 2: In 2018, CREC completed the construction of and put into use on schedule a batch of key projects, including Hong Kong-Zhuhai-Macau Bridge, Badaling Tunnel of Beijing-Zhangjiakou High-Speed Rail, Guangzhou-Shenzhen High-Speed Rail, Jinan-Qingdao High-Speed Rail, and Huaihua-Shaoyang-Hengyang Railway.

提高服务质量 Improvement of Service Quality

2018年，中国中铁始终坚持“精益求精，持续改进”总体思路，坚持以人为本的理念，以对国家、对人民、对企业高度负责的态度，不断提高服务质量。同时，我们全面保护客户商业敏感信息和个人隐私。

在质量管理方面，公司认真贯彻实施ISO9000体系标准和《工程质量监督管理办法》（该标准和办法已实施多年，公司已形成成熟的体系，在报告期内无影响），大力推进现场管理制度化、现场布局科学化、现场培训常态化、现场作业规范化“四化”建设，确保质量创优目标的实现。

2018年，公司坚持以管理创新提升产品和服务质量，持续深入推进全面管理实验室活动，逐步形成了覆盖各层级和各业务板块的管理创新基础体系，全年公司评出60项管理创新成果，其中9项成果获国家级管理创新奖。

资料1：2018年，中铁大桥局的《天堑变通途“四位一体”质量管理模式》荣获第三届中国质量奖，是唯一获奖的工程建筑企业。60多年来，中铁大桥局已在国内外设计建造了2600余座大桥，打造了一大批精品优质工程。

资料2：2018年，公司建设的湖北黄冈公铁两用长江大桥荣获FIDIC优秀项目奖。该桥全长4008米，主桥为双层双塔双索面钢桁梁斜拉桥，主跨567米，其“主桥跨度、主桁倾斜角度、支座抗拉吨位、斜拉索索力”居同类型桥梁四项世界之最。

In 2018, CREC always insisted on the general idea of “ever perfecting and continuous improvement” and adhered to people oriented concept to constantly improve its service quality in an attitude of highly responsible for the nation, the people and the corporate. In the meantime, we fully protected our customers' sensitive business information and personal privacy.

In project quality management, CREC seriously implemented ISO9000 system standard and Measures for Project Quality Supervision and Management, which have been in place in the Company for many years and developed into a mature system and had no impact on the Company during the reporting period, vigorously carried out the construction of field management institutionalization, field layout rationalization, field training normalization, and field operation standardization to ensure the quality of excellence to achieve the goal.

In 2018, CREC insisted on improving product and service quality by management innovation, and continued to further promote the laboratory activities of overall management, gradually forming a basic management innovation system covering all level and all business segments. The Company has selected 60 management innovation results in the whole year, with 9 of them receiving the National Management Innovation Award.

Information 1: In 2018, the “deep chasm turning into thoroughfare and “four-in-one” quality management mode” of CRBB (China Railway Bridge Bureau) was awarded the 3rd China Quality Award. CRBB was the only construction company that received the award this year. For over 60 years, CRBB (China Railway Bridge Bureau) has designed and built over 2,600 bridges at home and abroad, creating a large number of sophisticated and high-quality projects.

Information 2: In 2018, Huanggang Yangtze River Bridge, a railway-highway bridge built by CREC in Hubei Province, won FIDIC Award of Merit. The bridge has a length of 4008 meters. The main bridge's structure is the double decks with twin towers on steel truss cable-stayed bridge with double cable planes and main span of 567 meters. Huanggang Yangtze River Bridge is the largest one of the same type of bridge in terms of “span of main bridge, main girder tilting angle, support tensile capacity, and cable tension”.

建设精品工程

Construction of High-Quality Project

2018年，中国中铁继续发扬“精心设计，绘制时代蓝图；科学施工，构筑精品工程”理念，始终把每一个施工现场管理作为一个系统工程，通过开展标准化工地达标活动，严把质量关口，严格执行施工工艺标准，不断提高建筑产品质量，不断丰富建筑产品内涵，努力把每一项工程都建设为国际一流建筑和百年精品工程。

In 2018, CREC continued to carry forward the philosophy of “elaborately design to draw the blueprint for the times; scientifically construct to build high-quality project”. The Company has always made every construction site management as a system work. Through standardization of site compliance activities, it strictly controlled quality and strictly implemented construction technology standards. It constantly kept improving the quality of construction products and enriching the content of construction products. Moreover, it strove to build every project as an international first-class architecture and a hundred-year fine project.

单位：亿元
Unit: RMB 0.1Billion

单位：亿元
Unit: RMB 0.1Billion

社会贡献价值

Social Contribution Value

2008年以来，我们在行业中率先披露了公司每股社会贡献值。

2018年，我们继续完善评估体系，采用自我统计、估算与专家评审相结合的方法，研究测算了中国中铁2018年度企业社会贡献值和每股社会贡献值，供您参考。

我们的计算公式：

企业社会贡献值=盈利贡献+税费贡献+债息贡献+雇员贡献+公益贡献+其他贡献 - 环境负贡献 - 安全质量负贡献 - 其他负贡献。

每股社会贡献值=企业社会贡献值/总股本

近三年统计情况：

中国中铁2016年企业社会贡献值为1454.2亿元，每股社会贡献值为6.37元。

中国中铁2017年企业社会贡献值为1587.98亿元，每股社会贡献值为6.95元。

中国中铁2018年企业社会贡献值为1697.55亿元，每股社会贡献值为7.43元。

Since 2008, we have taken the lead to disclose the social contribution value per share in the industry.

In 2018, we continued to improve the assessment system, researched and estimated annual corporate social contribution value and corporate social contribution value per share of CREC in 2018 with the method of combination of self-statistics, estimation and expert assessments, which is just for your reference.

Our formula:

Corporate social contribution value = profit contribution + tax contribution + debt interest contribution + employee contribution + the public welfare contribution + other contributions - negative contribution to the environment - negative contribution to the safety and quality - other negative contributions.

Social contribution value per share = corporate social contribution value / total equity

Statistics in recent three years:

The corporate social contribution value of CREC in 2016 reached RMB145.42 billion, and social contribution value per share was RMB6.37.

The corporate social contribution value of CREC in 2017 reached RMB158.798 billion, and social contribution value per share was RMB6.95.

The corporate social contribution value of CREC in 2018 reached RMB169.755 billion, and each share of social contribution value was RMB7.43.

2016	企业社会贡献值 Corporate Social Contribution	1454.2 亿元 100 million	每股社会贡献值 Per of Social Contribution	6.37 元 Yuan
2017	企业社会贡献值 Corporate Social Contribution	1587.98 亿元 100 million	每股社会贡献值 Per of Social Contribution	6.95 元 Yuan
2018	企业社会贡献值 Corporate Social Contribution	1697.55 亿元 100 million	每股社会贡献值 Per of Social Contribution	7.43 元 Yuan

术语解释:

- (1) 盈利贡献: 公司通过实现盈利为股东创造的价值
- (2) 税费贡献: 公司为国家和地方财税缴纳的税收、费用等价值
- (3) 债息贡献: 公司为债权人创造的利息等价值
- (4) 雇员贡献: 公司为员工(含农民工)支付的工资福利价值
- (5) 公益贡献: 包括捐款捐物在内的企业扶贫助困、奉献爱心等直接支出
- (6) 其他贡献: 前述所列项以外的企业活动给社会带来的正效益评估值
- (7) 环境负贡献: 企业行为对环境造成的负影响价值
- (8) 安全质量负贡献: 企业安全质量事故对社会造成的负影响价值
- (9) 其他负贡献: 前述所列项以外的企业活动给社会带来的负效益评估值

Terminological Interpretation:

- (1) Profit contribution: the value that the Company has created through making profits for shareholders.
- (2) Tax contribution: the value that the Company has paid the state and local tax revenue, fees and others.
- (3) Debt interest contribution: the value such as interest that the Company has created for creditors.
- (4) Employee contribution: the value of wages and benefits paid by the Company for employees (including peasant workers).
- (5) Public welfare contribution: the direct expenditures for helping the poor, dedication of love and others including donated money and things.
- (6) Other contribution: the positive benefits assessment value that corporate activities bring for the society except the above items listed.
- (7) The negative contribution to the environment: the negative impact value on the environment caused by corporate behaviors.
- (8) The negative contribution to the safety and quality: the negative impact value on the society caused by corporate safety and quality accidents.
- (9) Other negative contribution: negative benefits assessment value that corporate activities bring to the society except the above items listed.

持续推动就业 Continuous Promotion of Employment

中国中铁始终把促进就业作为公司社会责任的一项关键内容。2018年，公司认真落实《集体合同》员工上岗就业承诺，千方百计促进企业下岗职工实现再就业。公司每年通过接收大中专毕业生、接收转业军人、通过人才市场引进人才等形式，为社会创造和提供了大量新的岗位。2018年，全公司新接收大中专毕业生11014人，军转干部在京安置工作也得到国务院军转办肯定。

2018年，全公司为180万农民工提供了就业岗位，在大力推行农民工与职工“五同”管理的基础上，持续推进农民工实名制管理、工资专用账户、工资保证金和银行代发工资等制度。严格做好农民工岗前安全教育培训和现场操作技能培训，对特殊工种全部进行岗前强化培训，不断提高农民工作业技能。同时，采取多种措施，保证农民工工资按时足额发放。我们坚持用工平等原则，严格遵守国家《禁止使用童工规定》，禁止聘用强制劳工及童工。公司向来尊重儿童权利，且人力资源充足，故该规定对我公司无影响。目前为止未发现雇佣童工现象。同时加强对分包队伍用工情况管理，如发现有非法使用强制劳工及童工，坚决清除。坚持提供多元化发展机会，不会因性别、种族、宗教、年龄、国籍而歧视员工。

CREC always considers promotion of employment as a key component of corporate social responsibility. In 2018, CREC strictly implemented the staff employment commitment of Collective Contract, making every endeavor to promote re-employment of laid-off employees. Every year, the Company creates and provides large number of new jobs for the society through receiving graduates from junior college and technical secondary school, receiving demobilized army men and introducing talents from HR market. In 2018, the Company received a total of 11,014 new graduates from junior college and technical secondary school, and was praised by Military Demobilization Office of the State Council for its good reception work for demobilized army cadres.

In 2018, the Company provided employment opportunities for a total of 1.8 million peasant workers. On the basis of vigorously promoting “Five Same” Management for peasant workers and staff, the Company continued to promote the management of real-name system of peasant workers, special wage account system, wage deposit and bank payoff system, etc. In addition, it strictly carried out pre-job safety education and training to the peasant workers and on-site operation skill training, and gave intensive pre-job training for all special work posts to constantly improve their job skills. At the same time, it took various measures to ensure that the wages of peasant workers were paid off in full and on time. Moreover, we uphold the principle of equal employment, strictly comply with the state regulations on the prohibition of the use of child labor and prohibit the employment of forced labor and child labor. The Company always respects the rights of children and has rich human resources. These regulations have no impact on the Company. Child labor has not been found so far. At the same time, the management of the use of subcontractors is strengthened. Any subcontractor found to have any illegal use of compulsory labor and child labor will be resolutely removed. We always insist on providing diversified development opportunities without discrimination against employees based on gender, race, religion, age or nationality.

员工发展

Staff Development

维护员工权益

Safeguard of Staff's Rights and Interests

促进员工成长

Promotion of Staff's Growth

加强三工建设

Reinforcement of Three Projects Construction

维护员工权益

Maintenance of Staff's Rights and Interests

中国中铁高度重视员工权益保护，坚持男女平等，依法签订劳动合同，建立科学的薪酬管理制度，维护职工合法权益。

劳动合同管理

2018年，公司认真贯彻落实《劳动合同法》，以书面形式与员工签订劳动合同，员工劳动合同签订率达到100%，严格执行合同条款；通过劳动合同明确双方的权利和义务，严格执行合同条款，有效维护企业员工的合法权益。强化劳动合同管理，对合同到期、变更、解除的员工及时办理相关手续。员工因不能胜任岗位或严重违反公司规章制度等，双方将终止劳动合同。

员工薪酬管理

2018年，公司按照国家法规、政策要求，在原有薪酬制度基础上，进一步规范了员工工资正常增长和收入保障机制，员工收入增长与企业经济效益增长相适应，员工收入水平稳步提高，工资能够按时足额发放，员工享受到公司发展成果。

员工社保管理

公司切实保障职工合法社保权益，督促成员企业及时为职工参加基本养老保险、基本医疗保险、工伤保险、失业保险及生育保险。积极贯彻落实国家关于行业、企业社会保险纳入地方管理的要求。推进企业年金规范管理，年金覆盖员工总数达到23.9万人。

CREC paid high attention to maintenance of staff's rights and interests, and supported gender equality. Through signature of labor contract according to law, it established a scientific salary management system and maintained the staff's legal rights and interests.

Labor Contract Management

In 2018, CREC strictly implemented the national Labor Contract Law and signed labor contract with its staff in written form, and the signature rate of labor contract reached 100%. Moreover, it strictly executed contract clauses; in addition, it clearly defined the rights and obligations of both parties through labor contract, and strictly executed the terms of the contract to effectively safeguard the staff's legal rights and benefits. CREC strengthened the management of labor contract and handled the relevant formalities in time for employees whose contracts have been expired, changed or terminated. Both parties will terminate the labor contract if an employee is not competent for the work post or seriously violates the Company rules and regulations.

Staff Salary Management

In 2018, in accordance with the requirements of national laws, regulations and policies, CREC further standardized the normal staff salary growth and income guarantee mechanism on the basis of original remuneration system so that the staff income growth could keep up with the corporate economic growth and the staff income level was steadily increasing. The staff salaries were paid off in full and on time, and they could enjoy the Company's development achievements.

Staff Social Insurance Management

CREC protected legal social security rights and interests of staff, supervised and urged member companies to timely join primary endowment insurance, basic medical insurance, work-related injury insurance, unemployment insurance and maternity insurance for staff. In addition, the Company actively implemented national requirements about industry and corporate social insurance to be listed into local management. It vigorously standardized and boosted enterprise annuity management, with annuity plan covering a total of 239,000 staff.

员工民主权利

2018年，公司召开二届四次职代会，由工会代表全体员工与企业签订了《中国中铁2018年集体合同》；坚持职代会审议行政工作报告、民主评议领导干部人员、职工提案报告等制度，进一步畅通了职工民主参与、民主管理、民主监督的渠道。

员工生活保障

2018年，公司认真贯彻落实《职工生活保障工作指导意见》，全面推进“三让三不让”职工关爱工程、“两节送温暖”等活动，积极为困难员工排忧解难，全年支出“三不让”资金9968万元，救助困难员工3万余人次，通过精准帮扶有1419户困难职工家庭解困脱困；筹集“两节”送温暖资金1.69亿元。

员工休假制度

公司严格遵守国家劳动法律法规，认真执行国家《员工带薪年假条例》及其他各类假期规定。对在法定节假日、公休假日工作和延长工作时间的职工，按照国家法律规定采取支付薪酬及加班工资或调休等方式保障员工权益。

该章节中提及的《劳动合同法》《员工带薪年假条例》等法律法规已实施多年，我公司已形成完整的用工体系，在报告期内无影响。《职工生活保障工作指导意见》为我公司内部文件，实施以来，对维护职工权益产生了积极影响。

Democratic Rights of Staff

In 2018, CREC held the 4th session of the second workers' congress. On the congress, the labor union signed CREC 2018 Collective Contract with the corporate on behalf of all staff; it insisted on the systems of workers' congress review of administrative work report, democratic appraisalment to leaders, and staff proposal report, and further unblocked the channel for democratic participation, management and supervision.

Life Guarantee for Staff

In 2018, CREC seriously carried out Guidance to Staff Life Guarantee Work, further deepened the "three permissions and three preventions" commitments for staff care program and the activity of "warmth-delivery in two festivals" to help staff solve the difficulties. It spent annual expenditure of RMB99.68 million for "three preventions" activity, and helped over 30,000 staff in difficulty. The Company lifted 1,419 staff households out of poverty through targeted poverty alleviation and raised warmth-delivery fund of RMB169 million for "warmth-delivery in two festivals".

Staff Holiday System

CREC strictly followed the national labor laws and regulations, carefully implemented the national Regulations on Paid Annual Leave of Employees and various other holiday regulations. It paid remuneration and overtime salary to staff or implemented days-off pattern to staff who worked on legal holidays, public holidays or worked overtime according to national legal provisions.

Note: the above-mentioned Labor Contract Law of the People's Republic of China, Regulations of Paid Annual Leave of Employees) and other relevant laws and regulations have been implemented in the Company for many years, and we have in place a complete employment system. These regulations had no impact on the Company during the reporting period. The Guidance for Staff Life Guarantee Work is an internal document of the Company, which has contributed a lot in the protection of employee's rights and interests.

Master-Apprentice signing ceremony

促进员工成长

Promotion of Staff's Growth

中国中铁大力实施“人才强企”战略，把人才资源视为企业的第一资源，努力做到人才资源优先开发、人才结构优先调整、人才投入优先保证、人才制度优先创新。公司有工程、会计、经济、政工多个系列的专业技术职务人员晋升评审委员会，按照公司有关规定对申报上述系列高级专业技术职务人员进行资格评审。

2018年，公司更加深入地推动学透用好习近平新时代中国特色社会主义思想，对9256名副处级以上领导人员进行集中轮训，组建宣讲团赴海外开展宣讲，各单位组织宣贯活动2万余次。部署开展了“学用结合”调研活动，召开了理论研讨会，形成研究成果1061篇。

2018年，公司深入推进职工教育培训，组织开展了“十大杰出青年”、女职工素质提升“百千万”工程等一系列评选表彰活动，共培训各级各类人才30余万人次，有力促进了员工队伍能力素质提升。

2018年，公司推荐享受国务院政府特殊津贴专家22名、茅以升铁道工程师奖12名、詹天佑铁道科学技术奖25名。培养选树了改革先锋巨晓林、中华技能大师秦环兵、全国最美青工白芝勇、全国技术能手王汝运、全国十大最美职工徐州、全国五一劳动奖章王中美、央企楷模王杜娟等一大批先进典型。

2018年，公司认真组织开展技能鉴定及高技能人才评价和特级技师评审工作，评审通过高级技师702人、特级技师通过92人，工匠技师2人。

CREC strongly implemented the “Talent Corporate” strategy, treated the talents as the first corporate recourse, made effort to give priority to development of talent resources, give priority to adjustment of talent structure, give priority to talent investment and give priority to innovation of the talent system. The Company has set up professional and technical personnel promotion appraisal committee in engineering, accounting, economy, political work and other series, and carried out qualification review to senior professional and technical personnel who applied for the above series in accordance with the relevant provisions of the Company.

In 2018, the Company further promoted deepened study and better use of Xi Jinping's Thought on Socialism with Chinese characteristics in the New Era through centralized trainings for 9,256 deputy department leaders and above by batch and organizing preaching tours to preach overseas, with all units in CREC conducting preaching and implementation activities for over 20,000 times. CREC also launched research activities of “learning through implementation” and held theoretical seminars, achieving 1,061 research results.

In 2018, CREC further promoted staff educations and trainings by organizing and conducting a series of selection and recognition activities like the “Top Ten Outstanding Youths”, “Hundred, Thousand and Ten Thousand” talents project to improve the quality of female staff, etc., training a total of over 300,000 talents in all fields which have provided a strong impetus for enhancing the capacity and quality of talent teams.

In 2018, 22 experts enjoyed the State Council special contribution allowance, 12 staff were awarded Mao Yisheng Railroad Engineer Award and 25 staff were awarded Zhan Tianyou Railroad Science & Technology Award as recommended by the Company. Besides, CREC selected and cultivated a large number of advanced models like the reform pioneer Ju Xiaolin, Chinese skill master Qin Huanbin, national excellent youth worker Bai Zhiyong, national technique specialist Wang Ruyun, national top ten excellent staff Xu Zhou, national May 1 labor medal winner Wang Zhongmei and Wang Dajuan the role model in state-owned enterprises.

In 2018, the Company carefully organized the appraisal of skills, appraisal of high-skilled personnel and appraisal of premium technicians. It appraised and approved 702 senior technicians, 92 premium technicians, and 2 craftsman technicians.

▲ “送清凉”工地慰问
Visit workers at site in summer

加强三工建设 Reinforcement of Three Projects Construction

2018年，中国中铁坚持以工地生活、工地文化、工地卫生“三工”建设为抓手，全年累计投入“三工”建设资金约8.41亿元，全面改善施工一线的生活文化卫生水平，为一线员工营造了良好的生活和工作环境。

资料1：中铁四局昆明地铁4号线项目部把“幸福项目部”建设向农民工延伸，成立“工友之家”，对500多名农民工实行产业化工人管理模式，统一食宿；将“暖心工程”制度化，在工地休息区域设立劳务员公示牌，做到“协作队伍必走访、员工患病必探望、来队家属必慰问、困难员工必关心、各类节日必活动”。

资料2：2018年5月，中铁十局一公司为9对参加成都地铁建设的员工隆重举行了“情系十局，缘定蓉城”集体婚礼。新人亲属、同事和热心市民代表共约100多人到现场为新人送上祝福，祝愿9对新人新婚快乐、白头偕老，希望他们相互理解、相互支持，为成都地铁建设继续做出更大贡献。

In 2018, CREC adhered to the “three projects” construction as the main content, namely construction site life, culture and hygiene. It accumulatively invested RMB841 million in the “three projects” construction, fully improved the standard of living, culture and hygiene in forefront of the construction and created good living and working environment for front-line staff.

Information 1: CREC No.4 Kunming Metro Line 4 Project Department extended the construction of “Happy Project Department” to peasant workers by establishing “Workmate Family” to implement industrialized worker management model with standardized accommodation for over 500 peasants; institutionalizing the “Warm Heart Project” by setting up bulletin board of construction supervisors at resting areas on site, and fulfilling the commitments that “collaborative teams will be visited, sick employees will be visited, visiting relatives will be greeted, staff in difficulty will be cared, and activities will be held in all holidays”.

Information 2: In May 2018, CREC No.10 First Engineering Co., Ltd. held a grand collective wedding with the theme “Fall in love in CREC No.10, Marry in Chengdu” for 9 couples who are staff participating in the construction of Chengdu Metro. Over 100 relatives, colleagues and warm-hearted citizen representatives attended the wedding ceremony and sent their blessings to wish them a happy marriage forever, hoping that they understand and support each other, and continue to make more contributions to Chengdu Metro.

安全监管

Safety Supervision

完善管理体系

Perfection of Management System

落实保障措施

Implementation of Safeguard Measures

保障职业健康

Concerns about Occupational Health

完善管理体系 Perfection of Management System

中国中铁始终将“保持安全生产的稳定局面，为社会提供安全优质的建筑产品，为公众提供安全愉悦的周边环境，为员工创造安全健康的工作条件”作为履行社会责任的重要方面。在长期的施工生产和项目管理过程中，形成了一整套完善的安全管理体系，包括安全生产责任制、防治重大事故、安全投入、安全教育、安全管理和安全督查、安全考核及奖惩等方面。

中国中铁安全观：隐患险于明火，防范胜于救灾，责任重于泰山。

安全管理工作方针：安全第一，预防为主，综合治理。

安全管理工作原则：统一领导、落实责任、分级管理、分类指导、全员参与。

安全管理目标：建设本质安全型企业。

2018年，中国中铁牢固树立安全发展和“零事故”理念，进一步强化“红线”意识和“底线”思维，结合企业改革发展实际，以问题为导向，坚持标本兼治，注重顶层设计，健全规章制度，进一步明确“管”“监”责任，持续推行班组长安全质量责任制和安全质量隐患排查治理系统，深入开展安全专项治理行动和安全质量标准化建设，推广了安全教育培训微课堂系统。铁路建设单位2018年1月1日起实施《铁路建设项目质量安全红线管理规定》。该规定提出的红线问题直指铁路施工的关键控制环节，并提出管理要求和处罚办法。这将有利于提升我们在铁路建设中的安全质量监管水平，并对全公司安全生产起到良好示范作用。目前，我们已对铁路开通项目进行了隧道实体质量检测，确保了全公司安全生产、职业健康、环境保护状况的稳定。

CREC is constantly taking “to maintain stable condition of safe production, to provide the society with safe and good-quality architectural products, to provide the public with pleasant environment and create safe and health working condition for the staff” as the most important aspect of its social responsibility. In the long-term construction production and project management process, CREC formed a complete set of perfect safety management system, including the safe production responsibility system, prevention of major accidents, safety input, safety education, safety management and safety inspection, safety assessment, rewards and punishments and so on.

CREC's safety concept: Hidden danger is more dangerous than open fire, prevention is better than disaster relief, and responsibility is extremely heavy.

Safety management policies: Safety first, prevention as the main and comprehensive management.

Safety management principles: Unified leadership, responsibility implementation, classification management and guidance, full participation.

Safety management objectives: Building of intrinsic safe enterprise.

In 2018, CREC firmly established the concept of safety development and “Zero Accident” and further strengthened the “Red Line” awareness and “Bottom Line” thinking. Combining with the actual situation of corporate reform and development and being problem-oriented, CREC insisted on resolving the current problems and eliminating the root causes, paid attention to top-level design, and improved rules and regulations. By further clarifying the responsibility of “management” and “supervision”, CREC continued to carry on the team leader safety and quality responsibility system and the safety and quality hidden danger investigation and management system, worked hard to implement the special safety management action and the safety and quality standardization construction, and promoted the micro-class system for safety education and training. The Regulations on Quality and Safety Red Line Management for Railway Construction Projects has been widely implemented among railway construction entities since January 1, 2018, which brought out red line concept about critical stages in railway construction together with management requirements and rules of punishment. As a model in safety production, the regulation will help us improve our safety and quality supervision and management performance at company level. CREC is now conducting physical tunnel quality inspection for all railway projects that will be put into operation to ensure the stability of the whole company in production safety, occupational health, and environmental protection.

落实保障措施

Implementation of Safeguard Measures

2018年，公司多次召开安全生产专题会议，保持警钟长鸣，对安全生产工作进行再部署、再安排、再落实，进一步突出重点城市、重点领域，坚持严控事故总量和各类事故频次，坚持问题导向，坚持面向现场，坚持规范管理，健全体制机制，努力做到规章制度落实“零偏差”、技术管理“零失误”、分包管理“零漏洞”、施工作业“零违章”、设备状况“零缺陷”、物资设备验收“零遗漏”、施工现场“零隐患”，实现企业和项目“零事故”。

资料1：2018年，公司制定了《关于开展建筑施工安全专项治理行动实施方案》，重点对施工现场的安全组织管理、安全教育培训、专项施工方案、安全技术交底、隐患排查治理、现场安全管理、应急管理、复杂地质条件下隧道施工安全风险识别和管控、盾构及深基坑施工控制、关键时段和关键节点风险管控等10个方面进行了专项治理，确保了全公司安全生产形势稳定可控。

资料2：2018年6月，中国中铁党政工团联合发布了《关于2018年“安全生产月”活动安排的通知》，6月份在全公司所属各单位和所有在建项目同时开展“安全生产月”活动，以“生命至上、安全发展”为主题，开展全员参与、形式多样、富有实效的宣传教育活动，推动安全文化进企业、进机关、进项目、进工区、进车间、进班组、进现场，促进中国中铁安全生产形势持续稳定。

In 2018, CREC held production safety conferences for many times to keep alarm bell ringing. Moreover, it redeployed, re-arranged and re-implemented the safety production work and further highlighted key cities and key areas. CREC strictly controlled the total number of accidents and the frequency of various types of accidents, insisted on problem orientation, adhered to the on-site management, insisted on standardization management, perfected system and mechanism, strove to achieve “zero deviation” in rules and regulations, “zero error” in technical management, “zero loophole” in subcontracting management, “zero violation” in construction operation, “zero defect” in equipment status, “zero omission” in acceptance of materials and equipment, and “zero hidden danger” in construction site so as to realize “zero accident” in the enterprise and projects.

Information 1: In 2018, CREC formulated the Implementation Plan for Special Safety Governance of Construction, and carried out special control on 10 key aspects including the safety organization and management in construction sites; safety educations and trainings; special construction plans; safety and technical disclosure; hidden danger investigation and management; site safety management; emergency management; safety risk recognition, management and control in tunnel construction under complex geological conditions; control on shielding and deep foundation pit construction; risk management and control of key time intervals and nodes, to ensure the controllability and stability of the whole company in production safety.

Information 2: In June 2018, the party committee, management, labor union, and CYL committee in CREC jointly issued the Notice on the Arrangement of 2018 “Safety Production Month” Activities pursuant to which “Safety Production Month” Activities were conducted in all units under the Company and all projects under construction in June. With the theme of “Life First, Safe Development”, diverse and effective publication and education activities with participation of all staff were held to instill safety culture in enterprises, authorities, projects, working areas, workshops, teams and sites to promote continuous and stable production safety of CREC.

Safety and quality assurance oath ceremony

保障职业健康

Concerns about Occupational Health

2018年，认真落实《中华人民共和国职业病防治法》，坚持依法依规做好职业健康工作。此法督促我公司在改善作业环境、关爱员工身心健康方面加大力度，从源头控制职业危害的发生，保证员工健康。我公司已有一系列成熟的应对措施，报告期内无影响。为进一步整体提升施工项目安全技术管理水平，公司下发了《关于2018年度安全生产培训计划的通知》，继续深入开展安全生产“学习年”活动，全年共组织培训20期，内容涉及隧道施工安全质量控制、桥梁施工安全质量控制、民用爆炸用品安全管理、起重吊装安全技术措施、支撑体系技术要点、环保及职业健康监管等多项内容，进一步提高了项目管理人员、作业人员的施工技术水平和安全质量意识。

In 2018, CREC seriously organized the implementation of “Law of the People’s Republic of China on Prevention and Control of Occupational Diseases”, adhered to enhancing occupational health in accordance with the laws and regulations. This law urges the Company to further improve working environment, safeguard the physical and psychological health of our employees by eliminating the root causes of professional diseases. The Company has put in place a series of mature responses. These regulations had no impact on the Company during the reporting period. In order to further enhance the safety and technical management of construction projects, CREC issued the “Notice on 2018 Safety Production Training Program” and continued to carry out “Year of Learning” activities in production safety. The Company organized 20 training courses throughout the year concerning various contents including safety and quality control on tunnel construction, safety and quality control on bridge construction, safety management of civil blasting articles, safety and technical measures for lifting and hoisting, key technical points of supporting system, supervision on environmental protection and occupational health, etc., further enhancing the construction and technical level as well as safety and quality awareness of project managers and operating personnel.

Experts of International Tunnelling Association are visiting CREC safety supervision and control equipment such as unmanned ship

全公司进一步完善员工健康档案，定期组织员工体检，为员工办理职业伤害保险，开展健康讲座，引导员工和企业共同做好职业危害源头控制，积极配合相关部门做好职业危害科学防治。在工程现场，加大资金投入力度，改善员工工作环境，不断完善现场防尘、降噪及安全设施，加强作业场所所有毒有害气体、粉尘、噪声的检测和治理，为作业人员提供符合安全卫生标准的劳动保护设施和个人防护用品，最大程度地减少职业危害，积极为员工创造安全、卫生、舒适、和谐的工作环境。

2018年，全公司积极实施员工健康关爱计划，举办8期健康委员、内训师、督导提升培训班，培训1000余人次。各级工会以心灵驿站为载体，广泛开展EAP培训和健康关爱服务。全公司共建立EAP试点单位417个，心灵驿站775个，开展心理疏导和咨询活动1100多场次，受益人群达4.3万人次。

The whole company further perfected staff health record, regularly organized staff physical examination, conducted occupational injury insurance for the staff, carried out health lectures so as to lead staff and enterprises to control the occupational hazard source and actively carry out scientific prevention and treatment to occupational hazard by cooperating with related departments. On the construction site, the Company continued to increase fund investment, improved staff's working conditions, constantly improved the site dustproof, noise reduction and safety facilities, enhanced the inspection and governance of all hazardous gas, dust, noise in the workshop, provided the personnel with working protection facilities and personal protecting devices that meet the safety and sanitation standards, maximally minimized the occupational hazards, and actively created a safe, clean, comfortable and harmonious working environment for the staff.

In 2018, the whole company actively implemented staff health care programs by holding 8 enhancement training courses for health commissioners, internal trainers and supervisors, and training over 1,000 person-times. Based on the "Staff Soul Shelter", labor unions at all levels widely carried out EAP trainings and health care services. 417 EAP pilot units and 775 staff soul shelters were established, and over 1,100 psychological counseling and consulting activities were held throughout the Company, with beneficiaries amounting to 43,000 person-times.

科技进步

Science & Technology
Progress

完善创新体系
Improvement of Innovation System

引领产业进步
Leading Industrial Progress

强化创新驱动
Strengthening Innovation Drive

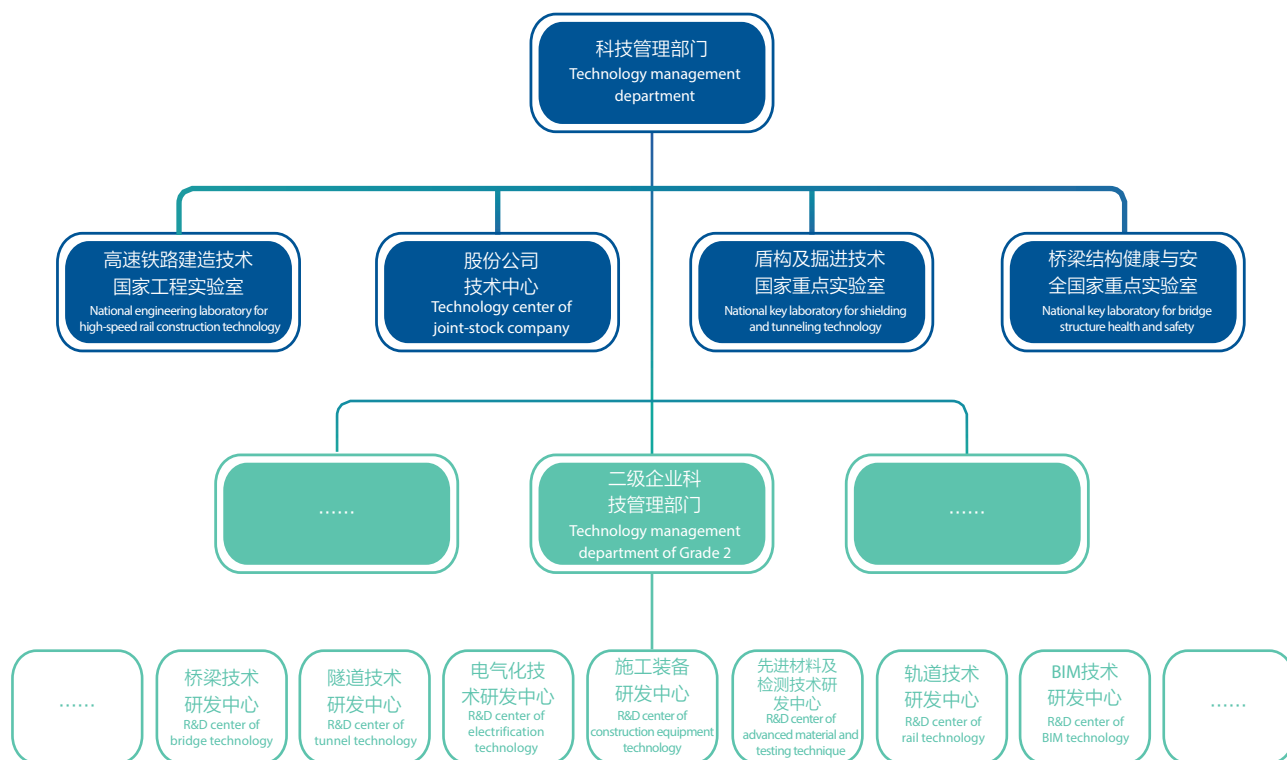

完善创新体系 Improvement of Innovation System

公司根据国家和建筑行业对科技创新提出的新要求，以及企业自身发展需要，加快实施科技创新驱动发展，对已有的科技资源进行统筹规划、优化整合，不断完善以市场为导向、以企业为主体、以项目为载体、以国家级实验室为依托、以技术中心为平台、以专业研发中心为骨干，联合搞攻关、开放搞科研的具有中国中铁特色的“两级四层”技术创新体系，实现以中国中铁技术中心为龙头、各成员企业技术中心为主体、各专业研发中心为骨干的纵向有层次、横向有分工的技术创新的运作管理模式，为公司科技创新打下坚实基础。2018年，公司认真落实国家和国务院国资委关于创新驱动发展的有关要求，统筹规划，突出创新，参加了中央企业创新成就展，受到广泛好评，并荣获多项奖励。

According to the new requirements for scientific and technological innovation put forward by the state and construction industry and the demand for corporate self-development, the Company sped up the implementation of scientific innovation driven development. It carried out overall planning and optimization and integration to existing scientific resources and constantly perfected “two grades and four layers” technical innovation system with Chinese characteristics with market as orientation, corporate as main body, project as carrier, national laboratory as basis, technical center as platform and professional R&D center as backbone through joint tackling and open scientific research so as to achieve technically innovative operation management mode with layers in longitudinal direction and divisions in transverse direction by taking CREC technical center as the leading, all member enterprises’ technical centers as main body and all professional R&D centers as backbone, laying a solid foundation for scientific innovation. In 2018, the Company seriously implemented the requirements of the state and SASAC of the State Council on innovation-driven development, made overall plans, highlighted innovations, participated in the innovation achievements exhibition of central enterprises, and received wide acclaim and won numerous rewards.

▲ “两级四层”技术创新体系

引领产业进步 Leading Industrial Progress

作为中国和世界建筑业发展的重要参与者推动者，多年来中国中铁不仅追求自我的发展，还担当着引领行业发展的重要责任，努力实现与产业协同共进，主要表现在扩大产业规模、带动行业自律、引领科技创新、与合作者共赢的诸多方面。

作为科技部、国务院国资委和中华全国总工会授予的全国首批“创新型企业”，拥有“高速铁路建造技术国家工程实验室”“盾构及掘进技术国家重点实验室”“桥梁结构健康与安全国家重点实验室”3个国家实验室及7个博士后工作站。2018年新增2个国家企业技术中心、15个省部级技术中心以及“一带一路”互联互通研究中心、中国单轨交通发展研究中心、路基与地基工程技术研发中心、爆破安全技术研发中心、智慧城市研究中心、气动列车研发中心等6个专业研发中心。

资料1：2018年，公司获国家科技进步奖一等奖1项，二等奖3项，技术发明奖1项；获省级（含国家认可的社会力量设奖）科技进步奖328项。截止2018年底，公司共荣获国家科技进步奖和发明奖115项，其中特等奖5项，一等奖16项，稳居国内建筑企业榜首；获省部级科技进步奖3325项。

资料2：目前，公司拥有有效专利9057项，其中发明专利2398项；国家级工法166项，省部级工法2528项。

As the main participator and promoter of the development of Chinese and world architecture, CREC has not only been in pursuit of self-development for many years, but also taken the leading of industrial progress as its important responsibility to realize synchronous progress with the industry, which mainly manifested in expanding the industrial scale, driving the industrial self-discipline, leading technical innovation, win-win cooperation with partners and so on.

As the first batch of national “innovative corporate” granted by Ministry of Science and Technology, SASAC and ACFTU (All-China Federation of Trade Unions), the Company owns 3 national laboratories, i.e. “national engineering laboratory for high-speed rail construction technology”, “national key laboratory for shielding and tunneling technology” and “national key laboratory for bridge structure health and safety”, and 7 postdoctoral centers. 2018 saw the new addition of 2 national enterprise technical centers, 15 provincial technical centers and 6 professional R&D centers namely interconnected research center for “One Belt One Road”, Research center for Chinese monorail transport development, R&D center for subgrade and foundation engineering technology, R&D center for safe blasting technology, R&D center for smart city, and R&D center for pneumatic train.

Information 1: In 2018, the Company has been awarded one first-prize and three second-prize for National Progress in Science and Technology and one Invention Award, as well as 328 provincial and ministerial prizes for science and technology progress (including the prizes set by social forces recognized by the state). By the end of 2018, the Company has been totally awarded 115 national prizes for progress in science and technology and invention award including 5 special prizes and 16 first prizes, ranking top among domestic construction enterprises; in addition, it won 3,325 provincial and ministerial prizes for science and technology progress.

Information 2: At present, the Company owns 9,057 valid patents including 2,398 patents for invention. In addition, it owns 166 national construction methods and 2,528 provincial and ministerial construction methods.

强化创新驱动

Strengthening Innovation Drive

2018年，公司认真贯彻落实习近平总书记关于科技创新的重要论述和国家关于“自主创新，重点跨越，支撑发展，引领未来”的科技工作指导方针，认真实施公司“十三五”科技发展规划，采取有力措施，完善企业创新制度，加速培养企业创新团队，增强企业自主创新能力，实施企业知识产权战略，取得了一大批拥有自主知识产权、国际先进、国内领先的科技成果，有力地提升了企业核心竞争力。

2018年，公司围绕客运专线、高速铁路等国家重点工程建设，组织开展关键技术科技攻关，在理论基础、设计标准、施工验证、成套设备研制等方面开展研究，攻克了一系列关键技术难题，进一步增强了企业科技创新能力。2018年，全公司新开科研项目1293项。

资料1：2018年公司科技研发紧密围绕公司“十三五”科技发展规划，科技开发计划课题以玉磨铁路、渝昆高铁、银西铁路，郑州黄河特大桥、赤壁长江公路大桥，深圳春风隧道、胶州湾海底隧道、南天山特长隧道，广州地铁、大连地铁、徐州磁浮轨道交通示范线、芜湖市轨道交通1号线，海口地下综合管廊等重点工程为依托，重点开展多功能泥水平衡盾构机的研制及施工关键技术、中高速磁浮交通工程关键技术、气动轻轨综合技术、城市复杂环境下超大直径盾构装备与施工关键技术、跨座式单轨关键技术、城市综合地下管廊及海绵城市关键技术的研究。

资料2：2018年，公司刘辉副总裁荣获中国施工企业管理协会科技进步奖最高奖，中铁大桥局集团有限公司海洋长大桥梁建造创新团队荣获中国施工企业管理协会科学技术进步奖创新团队奖。“钢桁梁纵向多点连续拖拉施工方法”“一种孔内注浆并有效止浆的方法及装置”“一种串并联多级阀粘滞阻尼方法及阻尼器”“超级电容有轨电车充电轨系统”等四项专利获得第二十届中国专利奖优秀奖。

In 2018, by earnestly carrying out general secretary Xi Jinping's important discussion on scientific and technological innovation and the national guidelines for scientific and technological works of "independent innovation, key spanning, supportable development and leading the future", CREC carefully implemented its "13th Five-Year" scientific and technological plan by taking vigorous measures to improve corporate innovation system, accelerate the cultivation of corporate innovation team, enhance corporate independent innovation ability and execute corporate intellectual property rights strategy, achieving a large number of internationally advanced and domestically leading scientific and technological results with independent intellectual property rights which have greatly improved corporate core competitiveness.

In 2018, centering on the construction of national key projects including special passenger transport lines, high-speed railways and others, the Company organized and conducted scientific & technical tackling for key techniques and researches in terms of theoretical basis, design standards, construction verification and the research & manufacture of equipment in complete set, thus overcoming a series of key technical problems and further enhancing the scientific and technological innovation capability of the Company. In 2018, 1,293 scientific research projects were started in the whole Company.

Information: In 2018, the Company carried out scientific research and development by centering on the Company's "13th Five-Year Plan" for technology development. On the basis of major difficult projects including Yuxi-Mohan Railway, Chongqing-Kunming High-Speed Rail, Yinchuan-Xi'an Railway, Zhengzhou Yellow River Super-large Bridge, Chibi Yangtze River Highway Bridge, Shenzhen Chunfeng Tunnel, Jiaozhou Bay Undersea Tunnel, South Tianshan Mountain Extra-long Tunnel, Guangzhou Metro, Dalian Metro, Xuzhou Maglev Rail Transit Demonstration Line, Rail Transit Line 1 in Wuhu City, Haikou Underground Comprehensive Pipe Gallery, subjects of the technology development plan focused on key technologies for the research and construction of multifunctional slurry shield machine, key technologies for mid- and high-speed maglev transport projects, comprehensive technologies for pneumatic light rail, key technologies for construction of extra-large-diameter shield-structured equipment under complicated urban environment, key technologies for straddle-type monorail, and research of key technologies for urban comprehensive underground pipe gallery and sponge city, etc.

Information 2: In 2018, Liu Hui, vice president of CREC, was awarded the highest award for Science & Technology Progress Award granted by China Association of Construction Enterprise Management, while the innovation team for the construction of marine long and large bridge in CRBB (China Railway Bridge Bureau) won the Innovation Team Award for Science & Technology Progress Award granted by China Association of Construction Enterprise Management. Four patents including "construction method for steel truss beam by continuously dragged it in a longitudinal way at multiple points (钢桁梁纵向多点连续拖拉施工方法)", "a kind of method and equipment for borehole grouting and effectively stopping grouting (一种孔内注浆并有效止浆的方法及装置)", "a kind of viscous damping method and damper via multistage valve in series and parallel connection (一种串并联多级阀粘滞阻尼方法及阻尼器)", "rail charging system for super-capacitor tram (超级电容有轨电车充电轨系统)" won the Excellence Award of 20th China Patent Award.

环境保护

Environmental Protection

推进节能减排

Promotion of Energy Saving and Emission Reduction

加强环境治理

Strengthening Environment Governance

保护生态环境

Protection of Ecological Environment

推进节能减排

Promotion of Energy Saving and Emission Reduction

2018年，全公司积极开展节能减排工作，全面落实中国中铁“十三五”节能减排规划，大力开展节能减排标准化工地建设，推广应用新技术、新工艺和新设备，提高能源利用效率的同时对污染物排放量进行严格控制，加大技术改造和淘汰落后设备力度，减少废气、废液的排放，充分利用废渣等废弃物。修订发布了《中国中铁绿色施工科技示范工程评选办法》《中国中铁节能低碳技术评选管理办法》。2018年全公司无环境责任事故及节能减排重大违规违纪事件，排放污染物均达到国家和所在地相应排放标准。2018年，全公司每季度按时完成节能减排数据统计和总结分析报告，年度万元营业收入综合能耗（可比价）为0.0553吨标煤/万元，同比下降3.2%，圆满完成了节能减排既定年度工作目标。

公司共有10个项目获得首批中国中铁绿色施工科技示范工程称号，72个项目获得中国中铁节能减排标准化工地称号。2018年，中国中铁进一步加大节能低碳重点技术研发力度，共立项节能减排和绿色环保技术课题20余项，课题研究经费5亿多元，37项技术被评选为中国中铁重点节能低碳技术。《桥梁工程绿色施工规范及评价标准》企业标准正式发布，隧道及地下工程、铁路工程、公路工程和城市轨道交通工程绿色施工规范及评价标准的编制工作正在有序开展，参与中国施工企业管理协会绿色建造评价水平指标体系研究。

In 2018, CREC actively carried out energy saving and emission reduction work, fully implemented "13th Five-Year" energy saving and emission reduction plan, vigorously carry out standardized site construction of energy saving and emission reduction, promoted the application of new technologies, new processes and new equipment to improve energy efficiency while strictly controlling pollutant emissions, increased technological transformation and elimination of backward equipment, reduced emissions of waste gas and waste liquid, and made full use of waste residues and other waste. The Company revised and issued Selection Measures for CREC Green Construction Scientific and Technological Demonstration Project together with Selection and Management Measures for CREC's Energy-saving and Low-carbon Technology. In 2018, the Company has neither environmental liability accident nor major illegal event on energy saving and emission reduction, and its pollutant emission reached both relevant national and local emission standards. In 2018, CREC completed the energy saving and emission reduction statistics and summary analysis report in time on a quarterly basis. The annual consolidated energy consumption (comparable price) of operating revenue was 0.0553 tonne of standard coal/RMB ten thousand, representing a decrease of 3.2% year-on-year, showing that the Company has successfully completed the scheduled annual objectives for energy saving and emission reduction.

A total of 10 projects of the Company won the first batch of titles for CREC's green construction scientific and technological demonstration projects, and 72 projects won the titles of energy saving and emission reduction for CREC's standardized construction site. In 2018, CREC made further efforts in R&D of key energy-saving and low-carbon technologies. More than 20 projects on topics concerning energy saving and emission reduction as well as green environmental technologies were approved with research fund of over RMB500 million, while 37 technologies were selected as CREC's key energy-saving and low-carbon technologies. The enterprise standard for Green Bridge Construction Project Specifications and Evaluation Criteria was officially issued, while green construction specification and evaluation standards for tunnels, underground projects, railway projects, highway projects and urban rail transit projects were under orderly preparation, and CREC has participated in the research on green construction evaluation indicator system organized by China Association of Construction Enterprise Management.

排放物、资源使用、环境及天然资源三个层面的关键绩效指标

	排放物及能源种类	去年累计完成值	本年累计完成值	环境及天然资源
废气排放种类及相关排放数据	氮氧化物、硫氧化物及其他受国家法律及条例规定管理的污染物	—	—	—
温室气体排放总量(吨)	CO ₂	12613192	12505190.7	—
	其它气体(如有须注明)	—	—	—
所产生有害废弃物	2018年度中国中铁全面落实公司“十三五”节能减排规划,完善节能减排管理体系,强化科技创新引领,建立绿色施工标准体系,提升工程项目绿色施工和节能减排低碳水平。公司废气排放和废弃物总量较去年同期均有下降,节能减排和环境保护工作取得新进展。公司计划持续开展节能减排示范项目创建和推广应用重点节能低碳技术工作,以评促建,努力减少废气排放和废弃物总量;完善公司环境、节能减排数据监测体系,提升中国中铁废气及有害、无害废弃物排放相关数据统计水平,在废气排放、有害/无害废弃物总量分类及量化统计方面取得新提升,全面推进中国中铁节能减排及环境保护工作。			
所产生无害废弃物总量	同上			
细化描述节能减排措施及所得成果	全公司2018年度万元营业收入综合能耗(可比价)0.0553吨标煤/万元,比去年同期下降3.2%,完成年度节能减排工作目标。			
细化描述处理有害及无害废弃物的方法、减低生产量的措施及所有成果	一般通过物理、化学、生物、物化及生化方法处理有害及无害废弃物,使之适于运输、贮存、利用或处置。废弃物处理的目标是无害化、减量化、资源化。目前采用的主要方法包括压实、破碎、分选、固化、焚烧、生物处理等。例如我公司京沈客专京冀段13标段望京隧道进口段,摒弃传统的废浆沉淀外运处理方法,采用国内最先进的多级泥水处理工艺,选择先进的泥水分离系统,并使用离心机和压滤机设备处理不合格的泥浆,使泥浆全循环利用,达到零排放。同时选择新型的环保型制浆剂和高效泥浆配合比,代替传统的膨润土+纯碱+CMC的泥浆配合比,使盾构泥浆对环境不产生污染,并节约大量的制浆材料。			
按类型划分的直接/间接能源(如电、气或油)	电(万千瓦)	829139	820997	—
	汽油(吨)	357620	353552	—
	柴油(吨)	1218530	1206050	—
	天然气(万标准立方米)	4390	5082.5	—
	其它能源(如有须注明名称)	14850(吨标煤)	13688(吨标煤)	—
总耗水量	水(吨)	163640091	162003690	—
描述能源使用效益计划及所得成果	公司发布了《中国中铁股份有限公司“十三五”节能减排规划》,规划中明确能源使用效益计划具体目标为:到2020年,万元营业收入(可比价)综合能耗在2015年的基础上下降15%,年均下降3.2%。全公司2018年度万元营业收入综合能耗为0.0553吨标煤/万元,同比下降3.2%,完成年度节能减排工作目标。(公司能源消耗密度的相关数据为万元营业收入能耗数据,其定义为:报告期内企业能源消费量与营业收入的比值。)			
描述求取适用水源上可有任何问题,以及提升用水效益及所得成果	求取适用水源上无问题,高度重视项目节能减排管理,强化节水措施,实现项目内部水资源的循环使用,施工生产用水主要用于混凝土养护、车辆冲洗以及抑制扬尘。公司所属项目部高度重视施工节水,制定有效措施,其中包括设置三级沉淀池、研发自动喷淋系统以及采集天然降水,有效节约水资源,年度用水量较去年同期缓幅下降。			
不适用,略	—			
描述业务活动对环境及天然资源的重大影响,及已采取管理有关影响的行动	强化科技创新对节能减排的引领支撑作用,在绿色低碳环保技术研发方面,公司对节能减排和绿色环保技术开发单独立项,引导所属企业开展与企业生产经营紧密相关的节能减排和绿色环保技术研究;在绿色施工标准体系建立方面,公司将《绿色施工技术评价标准体系研究》列为重大课题开展研究;在节能低碳技术的评选及推广应用方面,持续对于入选的重点节能低碳技术给予奖励并在全公司进行推广应用。重视工程项目节能减排,持续开展节能减排示范工程建设,通过在施工现场通过开展节能减排目标管理、制度建设,落实节能减排责任制,制定有效措施,规范项目管理,实现资源能源的节约及综合利用,确保无环境责任事故和节能减排重大违法违规事件发生。			

我公司为节能减排关注类企业,在报告期内按照国资委要求,废气排放种类及相关排放数据仅需统计二氧化碳,其他废气及有害废弃物/无害废弃物总量均未统计。2019年,我公司将根据国资委新颁布的《中央企业能源节约与生态环境保护统计报表》,全面建立节能减排—排放物、资源使用、环境及天然资源三个层面的关键绩效指标统计体系,并及时披露相关数据。

Key performance indicators on three areas including emissions, resource use, environmental and natural resources

Emissions and Energy Types		Accumulated Completion Value Last Year	Accumulated Completion Value This Year	Environmental and Natural Resources
Types and related emission data on exhaust emission	Nitrogen oxide, sulfur oxide and other pollutants under the regulation of national laws and regulations	—	—	—
Total amount of greenhouse gas emission (ton)	CO ₂	12613192	12505190.7	—
	Other gases (specify if any)	—	—	—
Hazardous waste produced	In 2018, CREC comprehensively implemented the "13th Five-Year" plan for energy saving and emission reduction, and to further refine its energy saving and emission reduction management system, as well as to strengthen its lead in technological innovation. The Company strived to establish a green construction standard system, and to improve green construction and the level of energy saving, and to ensure emission reduction and low carbon in all projects. The exhaust emission and total waste were decreased compared to the same period of last year. New progress was gained in energy saving and emission reduction as well as in environmental protection. The company plans to continue its efforts in launching energy saving and emission reduction demonstration projects, and promote the application of key energy-saving and low-carbon technologies, and to lead its construction works through evaluation, and to work on reducing emission and total waste. The Company would also commit to enhance the environment, energy-saving and emission reduction data monitoring system to improve the statistical analysis on CREC's waste gas and hazardous/non-hazardous waste emissions, and to gain new progress in classification and quantitative analysis of exhaust emission and total hazardous/non-hazardous waste so as to promote CREC energy saving and environmental protection work overall.			
Total amount of non-hazardous waste produced	In 2018, CREC comprehensively implemented the "13th Five-Year" plan for energy saving and emission reduction, and to further refine its energy saving and emission reduction management system, as well as to strengthen its lead in technological innovation. The Company strived to establish a green construction standard system, and to improve green construction and the level of energy saving, and to ensure emission reduction and low carbon in all projects. The exhaust emission and total waste were decreased compared to the same period of last year. New progress was gained in energy saving and emission reduction as well as in environmental protection. The company plans to continue its efforts in launching energy saving and emission reduction demonstration projects, and promote the application of key energy-saving and low-carbon technologies, and to lead its construction works through evaluation, and to work on reducing emission and total waste. The Company would also commit to enhance the environment, energy-saving and emission reduction data monitoring system to improve the statistical analysis on CREC's waste gas and hazardous/non-hazardous waste emissions, and to gain new progress in classification and quantitative analysis of exhaust emission and total hazardous/non-hazardous waste so as to promote CREC energy saving and environmental protection work overall.			
Detailed description of measurement and the results obtained in energy saving and emission reduction	In 2018, the comprehensive energy consumption (comparable price) per ten-thousand operating income was 0.0553 tonne of standard coal/ten thousand yuan, which was reduced by 3.2% on year-on-year basis compared to the last year, and the Company successfully completed the annual objectives for energy saving and emission reduction.			
Detailed description on methods for handling hazardous and non-hazardous waste, the measures to reduce its production volume and all results	Generally, hazardous and non-hazardous wastes are handled through physical, chemical, biological, physicochemical and biochemical methods in order to make them suitable for transport, storage, utilization or disposal. Waste disposal should be able to fulfill goals such as harmless, reduced, and resource-based. The main approaches currently adopted include compaction, crushing, sorting, solidification, incineration, and biological treatment, etc. For example, the Company adopted the multi-stages slurry treatment process in the entrance section of the Wangjing Tunnel in the 13th section of Beijing-Hebei section in Beijing-Shenyang high speed railway. It is the most advanced technology in China at the moment in place of the traditional waste slurry sedimentation treatment method, on which an advanced slurry separation system was adopted for treating inferior slurry by centrifuge and filter press equipment, so that slurry can be fully recycled in order to achieve the goal of zero discharge. At the same time, a new environmentally friendly pulping agent and a slurry mixing ratio with high-efficiency were selected to replace the traditional slurry mixing ratio of bentonite + sodium carbonate + CMC, therefore, the shield slurry has no pollution on environment and it can save a lot of pulping materials.			
Direct/indirect energy classified by type (e.g. electricity, gas or oil)	Electricity (10,000 kilowatt)	829139	820997	—
	Gasoline (ton)	357620	353552	—
	Diesel (ton)	1218530	1206050	—
	Natural gas (10,000 standard cubic meters)	4390	5082.5	—
	Other energy (specify the name if any)	14850 (ton standard coal)	13688 (ton standard coal)	—
Total water consumption	Water (ton)	163640091	162003690	—
Describe energy use benefit plan and the results obtained	The Company has issued the Energy Saving and Emission Reduction Plan of CREC during the 13th Five-year Planning Period, which defined the energy use efficiency goals as: by 2020, the comprehensive energy consumption (comparable price) per ten-thousand operating income will be reduced by 15% compared to 2015 at an average year-on-year rate of 3.2%. In 2018, the comprehensive energy consumption per ten-thousand operating income of the Company as a whole was 0.0553 tonne of standard coal/ten thousand yuan, which was reduced by 3.2% on a year-on-year basis compared to the last year. Data related to energy consumption density of the Company is based on energy consumption per ten-thousand operating income, which represents a ratio between energy consumption amount and operating income of a corporate during the reporting period.			
Describe any problems on the applicable water source, and enhancement in water efficiency and results obtained	No major problem was reported on sourcing for appropriate water source. The Company attached great importance to energy saving projection and emission reduction management and the enhancement of water-saving measures, so as to realize the recycling of water resources in each project department. Water coming from construction production water is mainly used for concrete curing, vehicle washing and dust suppression. The project departments of the Company attached great importance to water saving in construction and formulated effective measures, including setting up a three-stage sedimentation tank, developing an automatic spraying system and collecting natural precipitation to effectively save water resources. The annual water consumption has declined slightly compared to the same period of last year.			
NA, omitted	—			
Describe any significant impact of operational activities have on the environment and natural resources, and the actions taken to manage the impact	Enhanced the leading and supporting role of technological innovation on energy saving and emission reduction. As to the research and development of green low-carbon environmental protection technology, the Company set up a project exclusively dedicated to energy saving and emission reduction and green environmental protection technology, and directed affiliated companies to carry out the research on energy-saving and emission reduction and green environmental protection technologies which are closely related to their production and operation. In the development of the green construction standard system, the Company listed the "Research on Green Construction Technology and Evaluation Standard System" as a major issue in research. In respect of the selection, promotion and application of energy-saving and low-carbon technologies, the Company continued to give incentives for the application of such shortlisted key technologies, as well as promoted and adopted them across the whole company. The Company highly valued energy-saving and emission reduction in project executions, and continued to implement the construction of pilot energy-saving and emission reduction demonstration project. Through implementing energy saving and emission reduction target management and system development in construction site, the Company strived to enforce an onsite energy saving and emission reduction accountability system. Moreover, the Company formulated effective measures to standardize project management and to realize the conservation and comprehensive utilization of resources and energy, to ensure that there should be no environmental accidents and serious violations of laws and regulations in energy saving and emission reduction.			

Note: As required by the SASAC, the Company, as a special-mentioned company in aspect of energy saving and emission reduction, only needed to have CO₂ emission measured during the reporting period among all the exhaust gas types and data, and all the other exhaust gases, hazardous/harmless waste were not covered. In 2019, the Company will establish a comprehensive key performance index statistic system of three levels, i.e. energy saving and emission reduction - emissions, resource usage, environment and natural resource, and will disclose the relevant data in a timely manner.

加强环境治理 Strengthening Environment Governance

公司依法依规做好企业环境保护工作，根据《中华人民共和国环境保护法》等有关环境保护法律法规、规章制度、技术规范，细化出台了环境保护工作要点和实施要求，构建企业环境保护管理工作体系。环境保护法中规定的排污标准，特别是关于防治废气、废水、废渣、粉尘以及噪声、振动等污染的规定，对我公司的绿色施工提出了更高的约束性要求，对引导我们采用更多的环保材料和绿色低碳技术产生了积极影响。

2018年，公司落实打好污染防治攻坚战要求，在国家、地方环境保护主管部门的监督管理下，实行股份公司统一领导，各子分公司逐级负责的管理模式，走清洁生产，走可持续发展的道路。积极导入ISO14001:2004环境管理体系标准，确保环境保护工作有序可控。坚持依法进行环境影响评价，履行环境审批程序，其环境保护项目必须纳入项目总体施工组织设计，确保相关基建、技改项目防治污染设施与主体工程同时设计、同时施工、同时投产。为保证生产生活区各类污染源污染排放及处理设施的正常运行，公司持续加强对生产过程中废水（液）、废（烟）气、施工扬尘、噪声（振动）、固体废弃物（渣）、放射性危害的排放控制管理，建立目标、制定措施、落实责任、确保达标排放。对于施工过程中涉及的临时用地，严格编制用地及复垦规划，特别注意居民稠密区、水源保护区、风景游览区、自然保护区和国家重点保护的名胜古迹的环境保护，并在工程竣工后按照规定复垦，最大限度修复使用环境。作业场所内易产生尘埃的物料，采取围栏、遮盖等防尘措施，施工污水、泥浆必须经三级沉淀池沉淀后排放并由专人负责定期清理，积极打造绿色建筑工地。提高工业用水的重复利用率，降低单位产品的耗水量，节约水资源。

CREC performed enterprise environmental protection work according to laws and regulations. In accordance with Environmental Protection Law of the People's Republic of China and other related environmental protection laws and regulations, rules and systems as well as technical specifications, it released the details of key environmental protection work and implementation requirements, and established enterprise environmental protection management system. Pollution discharge standards stated in the relevant environment protection laws, especially those about the prevention of waste gas, water, residue, dust, noise and vibration, put higher requirement on the Company, and they will actively guide us in adopting more environment friendly materials and green low-carbon technologies.

In 2018, in order to fully implement the requirements for winning the pollution prevention and control battle, under the supervision and administration of national and local environmental protection authorities, it implemented a management model of unified leadership of a joint-stock company and responsibility undertaking at all levels of subsidiaries and branches, taking the road of cleaner production and sustainable development. In addition, it actively introduced ISO14001:2004 environmental management system standards to ensure that the environmental protection work is orderly and controllable. The Company insisted on conducting environmental impact evaluation according to law and fulfilling environmental approval procedures. Its environmental protection projects must be included in the overall project construction design to ensure that the relevant infrastructure and technological renovation projects are designed, constructed and put into operation simultaneously with the pollution prevention and control facilities and the main project. In order to ensure the normal operation of pollution discharge and treatment facilities of various sources of pollution in the production and living areas, the Company continued to strengthen the control management on discharge of waste water (liquid), waste (smoke) gas, dust, noise (vibration), solid waste (fragments) and radioactive hazards, setting goals, developing measures and implementing responsibilities to ensure up-to-standard discharge. For the temporary land involved in the construction process, the Company strictly prepared land use and reclamation planning, with special attention to the environmental protection in densely populated areas, water source conservation areas, scenic areas, nature reserves and national key protected monuments. In addition, it carried out reclamation in accordance with the provisions after completion of the project to maximize the repair and use of the environment. For materials prone to dust in the workplace, the Company took dust-proof measures such as fencing and covering. The construction sewage and mud must be discharged after being precipitated in three sedimentation tanks and must be cleaned regularly by specially-assigned person so as to actively build a green construction site. It improved the recycle rate of industrial water, reduced water consumption per unit of product, and saved water resources.

资料1：自2015年起，中铁五局积极参与大理洱海保护治理工作，承建的环湖截污项目中已有一座水质净化厂和一座污水处理厂于2018年投入使用。两座水质净化厂及截污管网，对村落污水、农灌尾水、初期雨水实现了全覆盖收集。每天可处理生活污水1.8万立方米，净水标准达到国家一级A，最大程度地降低对洱海的污染。在保护洱海、整治环境上发挥了不可替代的作用。

资料2：中铁置业投入约3亿元的亳州市陵西湖公园生态治理工程于2018年通过竣工验收。陵西湖占地87.7公顷，因长年累月的乱搭乱建、废污排放、围湖养殖，生态环境遭到严重破坏。此次改造完成后，重现了三河交汇原生态湿地风光，从水、绿、城三个层面打造了具有地方韵味的民俗风情公园，成为城市生态新坐标、都市生活客厅、魅力生活走廊。工程获得了国际景观设计行业标杆“艾景奖”，成为安徽省“海绵城市与城市双修”示范项目。

Information 1: Since 2015, CREC No.5 has actively participated into the protection and governance of Erhai Lake in Dali City, with one water purification plant and one wastewater treatment plant put into service in 2018 for the sewage interception project undertook by it. The two water purification plants and sewage interception pipes and networks achieved full coverage and collection of wastewater in villages, tail water from agricultural irrigation and first-flush rainwater. By treating 18,000m³ domestic sewage everyday with clean water standard reaching national A class, these plants reduced the pollution to Erhai Lake to the greatest extent, playing an irreplaceable part in protecting Erhai Lake and improving the environment.

Information 2: The ecological management project of Lingxi Lake Park in Bozhou City invested by China Railway Real Estate Group for about RMB300 million has passed completion acceptance in 2018. Covering an area of 87.7 hectares, Lingxi Lake has a seriously damaged ecological environment due to years of unplanned construction, sewage discharge and aquaculture around the lake. After the modification, the original ecological wetland at the intersection of three rivers reappeared, creating a folk-custom park filled with local charms in the three aspects of water, greenery and city, which has become a new urban ecological landmark, a living room for urban life and a corridor of charming living. This project has won the IDEA-KING Award, a benchmark in international landscape design industry, and has become a modal project of “sponge city and double urban repair” in Anhui Province.

Lingxi Lake after treatment

保护生态环境 Protection of Ecological Environment

2018年，公司积极践行“绿水青山就是金山银山”绿色发展理念，坚持节约资源和保护环境并重，努力建设“环境友好型、资源节约型”工程。在工程施工前期，合规组织专业机构开展生态环境保护评估，制定切实有效的保护方案，特别是针对生态易受扰的作业施工场区，做到生态环境与工程建设同步规划，同步实施，开展水土保持、生物多样性保护、植被保护等措施。施工过程中注重生态保护投入，使用环保设备、改进施工工艺和优化施工方案，减少对水、大气、植被和生物的影响。全年未发生生态环境事件。

资料1：2018年，中铁四局为最大限度保护环境，在春申湖路改造工程现场设置泥浆处置中心，处理标段内钻孔桩和地连墙施工所产生的泥浆，日均处理量达800-1000立方。经过处理后的泥饼可用于绿色种植、回填，分离后的水经过四级沉淀后符合国家二级排放标准，并用于道路冲洗、混凝土养生，不仅实现了施工现场废弃泥浆零外运，更实现了水土资源的循环利用。

资料2：中国中铁坚持从源头上保护绿水青山。所属勘察设计单位，在铁路选线、选址中，尽量绕避自然保护区、风景名胜区、水源保护区、文物保护单位等生态敏感区。在铁路设计中，对路基边坡最大限度地予以植物防护，采用“乔灌木”相结合的方式，构建起立体防护生态体系。

In 2018, CREC actively implemented the green development philosophy of “Lucid waters and lush mountains are invaluable assets”, and adhered to both resources conservation and environment protection so as to strive to build “environment-friendly and resource-saving” projects. In the early stage of project construction, CREC always organized professional institutions to evaluate the ecological environmental protection, made practical and effective protection program, especially focusing on construction site whose ecology is liable to be disturbed, and planned the ecological environment and project construction synchronously. Moreover, it carried out works such as conservation of water and soil, biodiversity protection, vegetation protection etc. In the construction process, CREC paid attention to the investment in ecological protection, applied environmental protection equipment, improved ecological construction process and optimized construction program, thus reducing the impact on water, air, vegetation and organism. No ecological destruction event occurred throughout the year.

Information 1: In 2018, to protect the environment to the greatest extent, CREC No.4 set a slurry treatment center at the construction site of Chunshenhu Road modification project to handle the slurry produced by drilling piles and constructing diaphragm walls in its corresponding section, with an average daily processing capacity of 800 - 1,000m3. The filter cakes produced after such treatment can be applied for green planting and backfilling, and the water separated after four sedimentations conformed to national level-II discharge standard and can be used for road washing and concrete curing, thus realizing not only zero transport of waste slurry in construction site but also recycling of water and soil resources.

Information 2: CREC insisted on protecting waters and mountains from the source. Those survey and design units under CREC tried their best to avoid ecologically sensitive areas such as nature reserves, scenic spots, water source conservation areas and cultural relics protection units while planning railways. During the design of railways, these units protected slopes on both sides of the railway lines with vegetation to the greatest extent and built an all-round ecological protection system by way of “arbor-shrub-grass” combination.

在国务院扶贫办和国务院国资委的统一部署下，控股股东中铁工协同公司积极响应党和国家的号召，积极履行中央企业的社会责任和义务，自2002年开始参与定点扶贫工作，始终从当地老百姓的实际需要出发开展定点帮扶工作，充分发挥企业优势，加大智力支持、技术服务及信息与政策指导，为定点扶贫县如期脱贫做出应有贡献。根据国务院扶贫办等九部委联合印发的《关于进一步做好定点扶贫工作的通知》（国开办发〔2015〕27号），公司定点扶贫县为湖南省汝城、桂东，山西省保德三县。为更好地开展扶贫工作，公司制定了《2016-2020年定点扶贫工作实施方案》，坚持通过实施贫困户劳动力培训输出、捐资助学以及实施产业帮扶等措施开展帮扶，力争到2020年，稳定实现建档立卡贫困户不愁吃、不愁穿，实现三个帮扶县按期脱贫摘帽。

Under the united arrangement of the State Council Leading Group Office of Poverty Alleviation and Development and SASAC—the holding shareholder CREC Labor actively cooperated with the Company in answering the call of the country and the party to perform social obligations and liabilities of state-owned company. Since we engaged in targeted poverty alleviation in 2002, we have carried out our works in all aspects from the practical needs of the local residents by give full play to our professional edge, and constantly enhancing intelligence support, technical service and information and policy guidance, so as to help the relevant poverty-stricken county get rid of poverty as scheduled. Subject to the Notice of the State Council Leading Group Office of Poverty Alleviation and Development on Further Doing a Good Job in the Targeted Poverty Alleviation (GF [2015] No.27) and other eight departments, the poverty-stricken counties assed to the Company for targeted poverty alleviation included Rucheng County and Guidong County in Hunan province and Baode County in Shanxi province. In order to further advance poverty alleviation works, the Company established 2016-2020 Implementation Plan of Targeted Poverty Alleviation Work, and continued to train and output labor from poverty stricken household, provide financial support for education and implement industry-based poverty alleviation. We will try every effort to ensure that by 2020, the three counties will get rid of poverty thoroughly, with all the poverty-stricken households registered in the three counties will have their basic needs satisfied.

年度精准扶贫概要

Targeted Poverty Alleviation Summary

2018年距离全面建成小康社会仅剩三年时间，为进一步全面贯彻落实党中央战略部署，实施精准扶贫精准脱贫基本方略，公司制定了《2018年扶贫工作计划》。按照计划，2018年，公司以教育扶贫、产业扶贫为先导，以重点援建项目为抓手，注重扶贫思路创新，助力贫困地区脱贫攻坚。

2018年，公司超额完成与国务院国资委签订的央企扶贫责任书里的各项指标，对定点扶贫县投入专项资金4254.9万元，为定点扶贫县引进帮扶资金1,160万元，培训基层干部人数60名，培训技术人员人数1251名，购买贫困地区农产品260万元，帮助销售贫困地区农产品70万元。其中，桂东县已于2018年8月正式脱贫摘帽，其他两县预计2019年脱贫摘帽。公司所属各单位也积极参与扶贫开发工作，2018年全公司共有19家单位参与扶贫开发工作，投入专项资金2,953.66万元，帮助建档立卡贫困人口近2,400人脱贫。公司采取的主要扶贫举措包括：持续开展教育扶贫工作，在保德县投入10万元，把保德县建档立卡贫困户最偏远的南河沟乡92名中小学住宿生和留守儿童作为重点教育帮扶对象；在桂东、汝城两县，公司2018年投入45万元资助贫困新生和在校大学生250多人。依据地方特色培育产业，投入近23万元支持桂东县大塘镇茶叶加工厂建设，有效解决当地及周边8,000亩茶园的茶叶加工、销售难题；在汝城县南洞乡打造产供销一体化的产业扶贫示范基地，按照“公司+合作社（基地）+贫困户”的合作模式，解决贫困劳动力1,200人就业。搭建农产品销售平台，公司2018年投入30万元在保德县李家湾村建设了“保德县南河沟小杂粮加工厂，投入15万

In 2018, there are only three years from the deadline of building a comprehensively prosperous society in all aspects, in order to further implement strategic plan of the central government to carry out the basic strategy of targeted poverty reduction and alleviation, the Company has established the 2018 Poverty Alleviation Plan (the "Plan"). According to the plan, in 2018, guided by alleviating poverty by education and industry, and based on key aid projects, CREC paid attention to the innovation in thoughts on poverty alleviation, worked hard to explore multiple and diversified new paths for targeted poverty alleviation and provided strong support to win the poverty elimination battle in poverty stricken areas.

In 2018, various indicators in the statement of responsibility for poverty alleviation signed by and between state-owned enterprises and the SASAC of the State Council were over-fulfilled, with special-purpose funds of RMB42.549 million invested into and supporting funds of RMB11.60 million introduced to the targeted poverty stricken counties, 60 basic level officials and 1,251 technicians trained, agriculture products of RMB2.6 million purchased from local areas and agriculture products of RMB0.7 million sold with our help. Guidong County officially eliminated poverty in August, and the other two counties are expected to get rid of poverty by 2019. Meanwhile, the Company actively called on its affiliated units to participate in poverty alleviation and development work. In 2018, a total of 19 units under the Company participated in the poverty alleviation and development work and invested about RMB29.5366 million, helped nearly 2,400 registered impoverished people relieve from poverty. Key measure taken by the Company include: First is ongoing poverty alleviation through education. The Company invested RMB100,000 in Baode County and took the 92 boarding students in primary school and middle school and left-behind children who lived in the most remote place of Nanhegou Township from all registered impoverished households as key poverty alleviation target. In Guidong County and Rucheng County, the Company invested RMB450,000 in 2018 to finance over 250 poor freshmen and college students. Second is fostering industries according to local features. The Company invested nearly RMB230,000 to support the establishment of a tea processing factory in Datang Town, Guidong County, striving to effectively solve the problems of tea processing and selling for the 8,000-hectare of tea plantation in local and surrounding towns. The Company built a demonstration base for poverty alleviation through industry with integrated production, supply and sale in Nandong Township, Rucheng County, under the cooperation model of "company + co-ops (base) + poverty-stricken households" to solve the employment of 1,200

元在保德县城修建了“保德县农产品展销中心”，辐射带动产业链各环节。构建“培训+推荐就业”模式，促进劳动力转移，先后投入50万打造“保德好司机”劳务品牌，由公司出资，集中组织建档立卡贫困劳动力参加汽车驾驶员证培训，同时成立了“保德好司机”运输协会和“保德好司机”职业介绍所，帮助贫困户实现就业。抓技能培训扶贫，激发贫困人口内生动力，公司投入17.2万元在汝城县开展“人人有技能”精准扶贫送技能下乡活动，对1,500名建档立卡贫困户进行种植技术培训，扶贫效果明显。继续投入近4,000万元支持重点援建项目建设，桂东县大塘工业园一期三栋厂房建设项目以及保德县内中国中铁幸福大道项目已顺利完工，汝城职教新城建设进展顺利，三个重点项目的实施助推了各县的脱贫攻坚工作。

poor labor force. Third is building sales platforms for agricultural products. In 2018, the Company built a “processing plant of minor grain crops from Nanhegou Township in Baode County” with an investment of RMB300,000 in Lijiawan Village, Baode County. The Company has also built an “exhibition and sales center for agricultural products in Baode County” with an investment of RMB150,000 in Baode County to radiate and drive all segments in the industry chain. Fourth is the creation of “training plus employment recommendation” model to accelerate labor force transfer. The Company successively invested RMB500,000 to build a labor service brand of “good drivers in Baode” and centrally organized driving license training for registered impoverished labor force. Meanwhile, “good drivers in Baode” transport association and “good drivers in Baode” employment agency were established to help impoverished households realize employment. Fifth is the focus on poverty alleviation through skill training to drive the internal power of impoverished population. CREC invested RMB172,000 in Rucheng County to carry out a targeted poverty alleviation activity of “everyone has a skill” to popularize skills in countryside and conduct training on planting Techniques to 1,500 registered impoverished households, which gained positive feedback with obvious poverty alleviation results. Sixth is the continuous investment of about RMB40 million to support construction of key aid projects. The project of building three workshops in Datang industrial park phase I in Guidong County and the project of Xingfu Avenue in Baode County have completed successfully. The construction of a new city for vocational education was under smooth progress. The implementation of the above mentioned three key projects has promoted the poverty alleviation work in those counties.

精准扶贫成效

Targeted Poverty Alleviation Result

单位：万元 币种：人民币

指标	数量及开展情况
一、总体情况	
其中：1. 资金	7268.56
2. 物资折款	268.41
3. 帮助建档立卡贫困人口脱贫数（人）	4019（注：200是巩固脱贫）
二、分项投入	
1. 产业发展脱贫	
其中：1.1 产业扶贫项目类型	扶贫基础设施、扶贫车间、农产品种植养殖、气调保鲜库等
1.2 产业扶贫项目个数（个）	33
1.3 产业扶贫项目投入金额	5044.58
1.4 帮助建档立卡贫困人口脱贫数（人）	4518
2. 转移就业脱贫	
其中：2.1 职业技能培训投入金额	241.6
2.2 职业技能培训人数（人/次）	1815
2.3 帮助建档立卡贫困户实现就业人数（人）	1270
3. 易地搬迁脱贫	
其中：3.1 帮助搬迁户就业人数（人）	22
4. 教育脱贫	
其中：4.1 资助贫困学生投入金额	302.96
4.2 资助贫困学生人数（人）	628
4.3 改善贫困地区教育资源投入金额	803.117
5. 健康扶贫	2
其中：5.1 贫困地区医疗卫生资源投入金额	
6. 生态保护扶贫	
其中：6.1 项目名称	
6.2 投入金额	
7. 兜底保障	
其中：7.1 帮助“三留守”人员投入金额	10.7（4.2是引进资金）
7.2 帮助“三留守”人员数（人）	230
7.3 帮助贫困残疾人投入金额	77.7
7.4 帮助贫困残疾人数（人）	69
8. 社会扶贫	
其中：8.1 东西部扶贫协作投入金额	
8.2 定点扶贫工作投入金额	219.03
8.3 扶贫公益基金	10
9. 其他项目	
其中：9.1 项目个数（个）	32
9.2 投入金额	654.9
9.3 帮助建档立卡贫困人口脱贫数（人）	585
9.4 其他项目说明	“同舟工程”，“百县万村”项目

三、所获奖项（内容、级别）

1. 郴州市委嘉奖
2. 中铁四局荣获颍上县选派帮扶工作先进单位荣誉称号；
3. 中铁四局荣获八里河镇人民政府、八里河镇脱贫攻坚工作组委员会授予的“奉献奖”荣誉称号。
4. 中铁四局荣获省属和中央驻皖单位驻村帮扶工作微视频二等奖、图片三等奖。
5. 中铁八局集团下派干部被评为乐山市金口河区2018年脱贫攻坚“扎根一线、倾情为民”帮扶模范。
6. 中铁信托荣获四川银监局“2017年度金融扶贫先进单位”、“四川慈善‘百企扶贫’行动突出贡献单位”称号。
7. 中铁开投荣获东川区“爱心企业”所属企业。
8. 中铁宝桥获“陕西省脱贫攻坚指挥部评定为助力脱贫攻坚良好企业”。

Indicators	Quantity & Implementation
I. General	
Including: 1. Fund	7268.56
2. Materials converted into cash	268.41
3. Number of registered impoverished people relieved from poverty under the help offered (person)	4019 (Note: 200 of them were consolidated their poverty alleviation situation)
II. Investment Breakdown	
1. Poverty alleviation through industrial development	
Including: 1.1 Type of industrial projects for poverty alleviation	Poverty alleviation infrastructure, poverty alleviation workshop, agricultural products planting and cultivating, gas-adjusted fresh-preserved storehouse and etc.
1.2 Number of industrial projects for poverty alleviation	33
1.3 Amount of investment in industrial projects for poverty alleviation	5044.58
1.4 Number of registered impoverished people relieved from poverty under the help offered (person)	4518
2. Poverty alleviation through transferred employment	
Including: 2.1 Amount of investment in occupational skill training	241.6
2.2 Number of persons receiving vocational skill training (person/time)	1815
2.3 Number of registered impoverished people getting employed under the help offered (person)	1270
3. Poverty alleviation through relocation	
Including: 3.1 Number of employment for relocated household (person)	22
4. Poverty alleviation through education	
Including: 4.1 Amount of investment in financing needy students	302.96
4.2 Number of poor students financed (person)	628
4.3 Amount of investment in improving the educational resources in poverty-stricken areas	803.117
5. Poverty alleviation through health	
Including: 5.1 Amount of investment in the medical and health resources of poverty-stricken areas	2
6. Poverty alleviation through ecological protection	
Including: 6.1 Name of Project	
6.2 Amount of investment	
7. Baseline security	
Including: 7.1 Amount of investment in helping the elderly people, women and left-behind children in rural areas	10.7 (4.2 was introduced fund)
7.2 Number of elderly people, women and left-behind children in rural areas helped (person)	230
7.3 Amount of investment in helping needy disabled people	77.7
7.4 Number of needy disabled people helped (person)	69
8. Poverty alleviation through society	
Including: 8.1 Amount of investment in coordinated eastern-western poverty alleviation	
8.2 Amount of investment in fixed-point poverty alleviation	219.03
8.3 Public welfare fund for poverty alleviation	10
9. Other projects	
Including: 9.1 Number of projects	32
9.2 Amount of investment	654.9
9.3 Number of registered impoverished people relieved from poverty under the help offered (person)	585
9.4 Description about other projects	Project of "Standing together through thick and thin", "Hundreds of counties and thousands of villages"
III. Awards received (nature and level)	

Indicators	Quantity & Implementation
<ol style="list-style-type: none"> 1. Praise from CPC committee of Chenzhou City; 2. CREC No.4 was awarded the honored title of Advanced Unit in Poverty Alleviation Assignment by Yingshang County; 3. CREC No.4 was awarded the honored title of "Distribution Award" granted by the people's government and poverty alleviation working group committee in Balihe Town; 4. China Railway Baoji Bridge Group won the title of "Good Enterprise in Helping Poverty Alleviation" by Poverty Alleviation Headquarters in Shanxi Province. 	

精准扶贫阶段性进展

Targeted Poverty Alleviation Phased Progress

2018年，党中央将精准脱贫列为三大攻坚战之一，公司领导亲自督战，将扶贫开发工作列入为年度工作重点，层层分解任务，责任到人。超额完成了扶贫责任书各项计划和目标。一是计划向定点帮扶的湖南省汝城、桂东县，山西省保德县直接投入专项资金4254.9万元，实际投入扶贫专项资金4314.9万元，在保德县投入3100万支持县内中铁幸福大道项目建设，目前已经建成顺利通车。在汝城县投入资金950多万元支持完成汝城职教新城一期建设，已经开始正常招生。二是计划引进帮扶资金1160万元，通过挂职干部多方努力，特别是桂东县，经过挂职干部与湖南瑞康智慧生态发展有限公司多次协商后签订合作协议，5年内投资10000万元建设生态农业基地，目前已注资1000万元。三县总共实际帮助引进资金1270.88万元。三是计划培训基层干部60名，通过挂职干部“师带徒”“上讲台”等方式，实际培训基层干部78人。四是计划培训专业技术人员1251人，在汝城县大力开展“人人有技能”精准扶贫送技能下乡活动，实际培训技术人员1500人，保德县共培训建档立卡贫困户1363人，三县实际培训技术人员合计2973人，超额完成任务。五是计划购买贫困地区农产品260万元，通过集团公司牵头推介，挂职干部逐一落实，2018年集团公司共向湖南汝城县、桂东县及山西保德县购买农产品287.66万元，集团公司所属单位在其他贫困地区购买农产品70.49万元。六是计划帮助销售贫困地区农产品70万元，通过挂职干部努力实际帮助销售农产品78.39万元，圆满完成任务。截至2018年底，桂东县61个贫困村全部达到退出标准，累计实现脱贫14407户44620人，贫困发生率为0.96%，群众认可度为97.88%。汝城县80个贫困村全部达到退出标准，累计实现脱贫18260户60419人，贫困发生率为0.91%，在2018年贫困退出市级复核检查中群众认可度为98.1%。保德县154个贫困村全部达到退出标准，累计实现脱贫12661户33595人，贫困发生率为0.46%，群众认可度为98%。

In 2018, as the CPC Central Committee listed targeted poverty alleviation as one of the three tough battles, leaders of CREC supervised the Company's implementation of poverty alleviation in person, set the poverty alleviation and development agenda as an annual focus and broke down the assignments to distribute responsibilities to members of staff from every level of the enterprise. The Company overfulfilled its various plans and goals set in the statement of responsibility for poverty alleviation. **First**, CREC planned to invest a dedicated fund of RMB42.549 million to targeted counties of Rucheng County and Guidong County in Hunan Province and Baode County in Shanxi Province. The actual investment of such dedicated fund was RMB43.149 million, among which, RMB31 million supported the construction of CREC Xingfu Avenue Project in Baode County which has been put into service already, while over RMB9.5 million supported the construction of phase I of Rucheng Vocational Education New City in Rucheng County which has commenced regular admission. **Second**, CREC planned to introduce an assistance fund of RMB11.6 million. With various efforts by cadres, especially those in Guidong County, after many rounds of negotiations between cadres and Hunan Ruikang Smart Ecological Agriculture Development Co., Ltd., a cooperative agreement has been signed to invest RMB100 million within 5 years to build an ecological agricultural base. As of now, RMB10 million has already been invested. A total of RMB12.7088 million was introduced into the three counties. **Third**, CREC planned to train 60 grass-root cadres. In the end, 78 grass-root cadres have been trained through "teachers lead students", "go to the podium" and other means. **Fourth**, CREC planned to train 1,251 professional technical personnel, and vigorously carried out the targeted poverty alleviation activity of "everyone has a skill" in Rucheng County in order to promote talents in countryside, and trained 1,500 technical personnel. In addition, 1,363 registered poor households have been trained in Baode County. As a result, a total of 2,973 technical personnel have been trained in the three counties, and the objectives were overfulfilled. **Fifth**, CREC planned to purchase RMB2.6 million of agricultural products from poverty-stricken areas. Following the recommendation of CREC and the one-by-one implementation of temporary cadres, CREC purchased RMB2.8766 million of agricultural products from Rucheng County and Guidong County in Hunan Province and Baode County in Shanxi Province, and units under CREC purchased RMB704,900 of agricultural products from other poverty-stricken areas. **Sixth**, CREC planned to help poverty-stricken areas sell RMB700,000 of agricultural products. Through the efforts of temporary cadres, RMB783,900 of agricultural products have been sold, successfully achieving its goal. By the end of 2018, all of the 61 poverty-stricken villages in Guidong County reached the standard to deregister from the poverty alleviation list, and a total of 44,620 people from 14,407 households have been lifted out of poverty, with a poverty incidence of 0.96% and a mass recognition of 97.88%. All of the 80 poverty-stricken villages in Rucheng County reached the standard to deregister from the poverty alleviation list, and a total of 60,419 people from 18,260 households have been lifted of poverty, with a poverty incidence of 0.91% and a mass recognition of 98.1%. All of the 154 poverty-stricken villages in Baode County reached the standard to deregister from the poverty alleviation list, and a total of 33,595 people from 12,661 households have been lifted out of poverty, with a poverty incidence of 0.46% and a mass recognition of 98%.

后续精准扶贫计划

Subsequent Targeted Poverty Alleviation Plan

一、持续发力，高度重视定点扶贫开发工作。2019年，距离习总书记提出的2020年全面建成小康社会的目标实现还有不到两年的时间，我们定点扶贫的三个县还有两个县尚未完成摘帽。时间紧迫、任务艰巨，必须坚持精准扶贫精准脱贫基本方略，进一步整合公司资源，全公司上下一心，全力以赴，高度重视定点扶贫开发工作。严格遵照国务院国资委下达的中央单位定点扶贫责任书里的工作部署完成扶贫任务，把打赢脱贫攻坚战作为重大政治任务来高效完成。一要继续强化党政一把手负总责的领导责任制，及时召开2019年度扶贫开发工作领导小组全体会议，公司主要领导主持会议，审定年度工作计划，研究部署全年定点扶贫开发工作，指导各项工作有序开展。二要及时传达党中央、国务院扶贫办以及国资委关于定点扶贫工作的最新要求，通过季报制掌握所属各单位定点扶贫工作开展情况，做好监督检查工作。

二、深入调研，结合实际做好现有援建项目，持续开发扶贫新项目。扶贫开发领导小组办公室要积极依托企业资源，发挥行业优势，从贫困地区自身长远发展角度探索多元化扶贫新路径。一是继续组织公司主要领导带队的调研团队，到扶贫县了解援建项目的推进情况，及时掌握项目动态。高度关注专项援助资金使用工作，确保资金使用合理合法合规、切实用到实处、关键点。二是适时组织中国中铁专家团队，到贫困县走访、考察，在深入了解实际情况下，聚焦建档立卡贫困户、建档立卡贫困村，集思广益，为贫困县发展出谋划策。三是扶志结合扶智，依托企业资源，大力推进劳动力转移工程，帮扶贫困县培训合格的技术人员，安排到中铁系统单位工作。四是根据调研结果，结合当地实际，帮扶贫困县发展扶贫车间，注重激发贫困人口内生动力，还有能力依靠技艺走向小康致富路。

I. Continue to focus on the targeted poverty alleviation and development agenda. In 2019, although there are less than two years until the target time to reach the goal of building a well-off society in an all-round way by 2020 put forward by general secretary Xi Jinping, the two out of three targeted poverty alleviation counties we are responsible for have still not been cleared of poverty. Since the deadline for our formidable task is pressing on us, we must stick to the basic strategy of targeted poverty alleviation and elimination, further integrate the Company's resources and go all out as one highly focus on the targeted poverty alleviation and development agenda. We must strictly comply with the work deployment set in the statement of responsibility of central units for targeted poverty alleviation issued by the SASAC of the State Council to complete poverty alleviation tasks and efficiently accomplish the assignment of winning the tough battle of poverty alleviation by taking it as a major political mission. First, we shall strengthen the leadership responsibility system with heads in CPC and governments taking overall responsibility, and timely convene leading group plenary meetings for poverty alleviation and development agenda in 2109. The key leaders of the Company shall hold meetings, review and approve annual agenda, survey and deploy targeted poverty alleviation and development assignments during the whole year to guide all work in an orderly manner. Second, the Company shall timely send the latest requirements about targeted poverty alleviation and development assignments given by CPC Central Committee, the Poverty Alleviation Office and the SASAC of the State Council, stay up-to-date about the implementation situation of targeted poverty alleviation and development work of its affiliated units via quarterly reporting system to succeed in supervising and inspecting.

II. Integrating in-depth research results with the actual conditions to successfully complete the construction of existing aid projects and continue to develop new poverty alleviation projects. The office of leading group for poverty alleviation and development shall actively exert industry advantages based on the Company's resources and explore diversified poverty alleviation paths from the perspective of long-term development in poverty-stricken areas. First, the Company shall continue to organize survey teams led by key leaders to be informed about the progress of aid construction projects in poverty alleviation counties and timely keep abreast of project developments. It shall highly focus on the usage of dedicated aid funds to ensure that the use of funds complies with laws and regulations and such funds are used in absolute terms and key areas. Second, the Company shall organize CREC expert teams when appropriate to visit and investigate in poverty-stricken counties, focus on registered poverty-stricken households and villages after gaining insight into real situation, and give advice and suggestions on the development of poverty-stricken counties by means of collective wisdom. Third, through the combination of motivation with collective wisdom and using the corporate resources, the Company shall vigorously push the labor transfer projects and help arrange qualified technical personnel from poverty-stricken counties to work at units under CREC. Fourth, based on the combination of investigation results and actual local conditions, the Company shall help poverty-stricken counties develop poverty alleviation workshops, and focus on motivating those living in poverty so that they can live a well-off life by relying on their skills.

三、树立典型，开展优秀扶贫挂职干部评选工作。

自2002年以来，我公司响应国家号召，认真履行央企社会责任，为贫困地区输入了一批踏实肯干，甘于奉献的挂职干部。经统计，2002-2018年以来，我公司全系统共有62名干部深入贫困地区挂职，25名干部投入援疆援藏援青工作。这些干部不但为贫困落后地区做了扎实的工作业绩，更在工作过的地方树立了中铁人的铁人形象，留下了良好的口碑。在扶贫攻坚的2019年，为使更多的人了解扶贫一线的情况，支持扶贫工作，投入到扶贫队伍中来，我们有必要将这些默默奉献的挂职干部的业绩、事迹和更多的人分享、宣传。从这些人中选拔出最优秀最典型的人员，既是对整个扶贫工作的推动，也是对扶贫干部的激励鼓舞。

四、监督检查不放松，确保真扶贫、扶真贫。总结整改2018年扶贫工作存在的问题和不足，认真贯彻落实《2018年至2020年开展扶贫领域腐败和作风问题专项治理工作方案》“中纪办[2017]63号”和国资委办公厅印发的《中央企业扶贫领域作风问题专项治理方案》“国资厅综合[2018]16号”的精神和要求。将2019年脱贫攻坚工作的作风建设作为重点来抓来管，严查问题，严防风险。把脱贫工作领域“四个意识”不强、责任落实不到位、工作措施不精准、资金管理使用不规范、工作作风不扎实、考核评估不严格等突出问题解决好。通过对存在的问题进行全面查摆，深入剖析，切实做到帮扶对象精准、项目安排精准、资金使用精准、措施到位精准、因村派人精准、脱贫成效精准。

Third, set up models and carry out the selection of excellent temporary cadres in poverty alleviation.

Since 2002, to respond to the call of the Country, the Company has earnestly performed its social responsibility as a state-owned enterprise and sent a batch of diligent, hard-working and devoted temporary cadres to poverty-stricken areas. Statistics show that since 2002 to 2018, the Company and its affiliated units have sent 62 temporary cadres to poverty-stricken areas and 25 cadres to participate in aiding Xinjiang, Tibet and Qinghai. These cadres not only produced a solid work performance in poverty-stricken and backward areas, but also established an iron man image of CREC staff in the places where they worked, leaving a good reputation. In the year of 2019 for poverty alleviation, it's necessary for us to share and publicize the performance and achievements of these silent but devoted temporary cadres in order to let more people know the situation in the front line of poverty alleviation, support poverty alleviation work and join the team of poverty alleviation. Selecting the best and most typical personnel from these cadres not only propels the whole poverty alleviation work, but also inspires poverty alleviation cadres.

Fourth, keep strict supervision and inspection to ensure efforts are made to really alleviate poverty and alleviate real poverty.

The Company shall summarize and rectify the problems and deficiencies existing in poverty alleviation in 2018, and seriously implement the spirit and requirements of Special Governance Plan for Corruption and Style Issues in Poverty Alleviation Area in 2018 – 2020 “ZJB [2017] No.63” and Special Governance Plan for Style Issues in Poverty Alleviation Area of State-owned Enterprises “GZTZH [2018] No.16” issued by the Office of SASAC. In 2019, the Company shall focus on its working style construction in poverty alleviation work, strictly identify problems and prevent risks, and solves outstanding problems in poverty alleviation area like weak “four awareness”, incomplete fulfillment of responsibilities, imprecise working measures, irregular management and use of funds, impractical working style, lax examination and assessment and etc. Through an overall inspection of its existing problems, the Company shall conduct in-depth analyses to earnestly achieve targeted poverty alleviation objects, targeted project arrangement, targeted fund use, targeted measures, targeted temporary cadres as per situation in villages, and targeted poverty alleviation result.

抢险救灾 Disaster Relief

多年来，中国中铁在一系列重大自然灾害面前挺身而出，勇挑重担，积极投身抢险救灾；积极践行央企责任，受到各级政府和社会各界好评。

2018年，全公司积极参与各地各类抢险救灾200多次，投入抢险救灾人员1.5万多人次、设备2600多台套、投入资金3300余万元。中国中铁在昆明、贵阳、西安建立了三支国家隧道专业应急救援队，多次参与国家重大救援任务，并在贵阳基地承办了国内首次国家级隧道应急救援专业实训。

资料：2018年7月，受持续强降雨影响，全国多个地区出现山体垮塌等灾害。天灾面前，中国中铁挺身而出、勇担社会责任，中铁一局、中铁五局、中铁六局、中铁八局、中铁广州局、中铁二院、中铁科研院等单位迅速调集大批专业人员、机械设备、抢险物资，全力参与宝成铁路、347国道、317国道、西户铁路、广茂铁路、怀渝铁路等抢险救援工作。

For many years, CREC has come out boldly and dared to shoulder heavy responsibilities when facing a series of serious natural disasters, and it actively took part in the rescue work; it positively fulfilled the responsibility of a central enterprise, and has been highly praised by both the government and the public.

In 2018, the whole company actively took part in rescue and relief work in various places for over 200 times, with over 15,000 person-times of rescue and relief personnel, more than 2,600 sets of equipment and over RMB33 million of investment. CREC has established three national tunnel professional emergency rescue teams in Kunming, Guiyang, and Xi'an, has participated in major emergency rescue tasks for many times, and has undertaken the first domestic professional practical training on national level tunnel emergency rescue in the Guiyang Base.

Information: In July 2018, mountain collapse and other disasters occurred in various places in China due to continuous heavy rainfall. Facing such natural disaster, CREC came out boldly and dared to bear social responsibility. CREC No.1, CREC No.5, CREC No.6, CREC No.8, CREC Guangzhou Bureau, CREC Eryuan Engineering, CREC Academy and other units immediately assembled a large number of professional personnel, machinery and emergency supplies to conduct disaster relief work and fully participated into the rescue work of Baoji-Chengdu Railway, 347 National Road, 317 National Road, Xi'an-Yuxia Railway, Guangzhou-Maoming Railway, and Chongqing-Huaihua Railway, etc.

社区服务 Community Service

中国中铁长期以来坚持地企文明、和谐共建的工作思路，广泛开展拥军优属，支持军警建设，志愿服务敬老院、医院、街道、社区、学校等地方单位，以实际行动履行企业公民责任。

2018年，全公司共组建了1100多支志愿服务队，投入志愿服务15800余人次，开展各类志愿服务活动4200多次，帮扶人数超过4万人，大力弘扬社会道德风尚，积极构建和谐社区。

2018年，全公司捐资助学1300多万元，帮扶学生8300多人；其他公益慈善事业投入超过5000万元。

资料1：2018年“六一”期间，由中国中铁成昆铁路青年发起并资助的大凉山彝族青少年“我向国旗敬个礼”圆梦行动在北京成功举办。来自四川省凉山彝族自治州昭觉县三岔河乡三河村、解放乡火普村等地区的20名小学生在天安门广场参加了升旗仪式，并到毛主席纪念堂、国家博物馆、中国科技馆、中国航空博物馆、北京动物园、北京大学等地进行了参观。

资料2：2018年6月10日，中铁电气化局、中铁建工集团举行首都国企开放日活动。110余位北京市民及媒体的朋友们走进中铁电气化局历史展览馆、北京地铁12号线长春桥项目和保定轨道交通产业园，以及中铁建工集团京张高铁清河站项目工地进行了体验。

资料3：2018年高考期间，中国中铁南京地铁7号线总包部为临近三个中学的考点开展了“护考行动”，搭设休息亭，设立“护考台”，配置各类文具和矿泉水、雨伞、药品、急救箱等。同时由员工组成志愿服务队，准备服务车辆，随时帮助考生化解遇到的问题。

CREC has always insisted on the work ideas of local corporate civilization and harmonious construction, widely supported the army and gave preferential treatment to the families of the army men and martyrs, supported military and police construction, offered volunteer services to gerocomium, hospital, street office, community, school and other local institutions, implementing its corporate citizenship responsibility by its actual deeds.

In 2018, the whole company totally set up more than 1,100 volunteer service teams that offered volunteer services for over 15,800 person-times, and carried out various volunteer service activities for more than 4,200 times, with over 40,000 persons receiving the help. It vigorously carried forward the social morality, and actively built a harmonious society.

In 2018, the whole company donated funds of more than RMB13 million for education, helped over 8,300 students; it invested over RMB50 million in other public welfare undertakings.

Information 1: During the Children's Day in 2018, the dream realizing activity of "Salute to the National Flag" initiated and funded by youths in CREC Chengdu-Kunming Railway for Yi ethnic teenagers from Daliangshan Mountain was successfully held in Beijing. 20 elementary school students from Sanhe Village in Sanchahe Township and Huopu Village in Jiefang Township in Shaojue County, Liangshan Yi Autonomous Prefecture, Sichuan Province participated in the flag-raising ceremony at Tian'anmen Square and visited Chairman Mao Zedong Memorial Hall, National Museum of China, China Science and Technology Museum, China Aviation Museum, Beijing Zoo, and Peking University, etc.

Information 2: On June 10, 2018, CREC Electrification Bureau and China Railway Construction Engineering Group held Beijing State-owned Enterprises Open Day. Over 110 Beijing citizens and friends from media walked into the historical exhibition hall of CREC Electrification Bureau, the industrial park of the Changchunqiao project of Beijing Metro Line 12 and Baoding Rail Transit and had an experience at the Qinghe Station project construction site of Beijing-Zhangjiakou High-Speed Rail by China Railway Construction Engineering Group.

Information 3: During the National College Entrance Examination in 2018, the Department of General Contracting of CREC Nanjing Metro Line 7 carried out the "Action for A Smooth Examination" for examination venues in the three middle schools nearby by setting up resting stops and "platforms for a smooth examination" equipped with various stationeries plus mineral water, umbrellas, drugs, first aid kit, etc. At the same time, staff formed a volunteer service team and prepared service vehicles to solve problems for candidates at any time.

推进产业合作 Promoting Industrial Cooperation

2018年，公司积极推进在高速铁路、基础设施建设、金融服务、建筑材料等领域的产业合作。在高速铁路建设领域，公司继续与多家高校开展人才培养和技术共享战略合作；同时与相关科研机构 and 产业链相关企业共同推进中国高铁技术的产学研一体化发展。在基建领域，与中航集团、中国国新、恒天集团等大型企业开展战略合作，积极参与国内基础设施投资建设。在金融服务领域，与中国工商银行、中国建设银行、光大证券等金融机构积极开展合作，创新投融资模式，建立完整的业务链条。在供应商合作方面，与各类供应商在产品研发、技术创新、产品优化、资源整合、信息共享等方面开展多方位深层次合作，实现了和谐共赢，价值共享。同时，我们也不断加强供应链管理，以保持供应链的招标公平为基本要求，持续监察他们在诚信、产品质量、安全、环保等方面的表现。

2018年，中国中铁积极参与中非合作论坛、中国国际进口博览会、第四届东方经济论坛、中国-中东欧国家合作“16+1”峰会、中国-东盟博览会、首届中国自主品牌博览会、中国西部国际博览会等重要峰会和展会，与相关国家、企业广泛开展产业合作。

In 2018, the Company actively pushed forward industrial cooperation in high-speed rail, infrastructure construction, financial service, building materials and other areas. In the field of high-speed rail construction, the Company continued to carry out strategic cooperation in talent training and technology sharing with various colleges and universities; in addition, it worked with relevant scientific research institutes and industrial chain-related enterprises to jointly promote the integrated development of industry-university-research of China's high-speed rail technology. In the infrastructure construction field, the Company carried out strategic cooperation with large-scale enterprises such as CNAHC Group, CRHC and CHTC to actively take part in domestic infrastructure investment and construction. In the financial service field, the Company actively carried out cooperation with financial institutions such as Industrial and Commercial Bank of China, China Construction Bank, and Everbright Securities to innovate the investment and financing model and set up complete business chains. With respect to cooperation with suppliers, it carried out multi-faceted and in-depth cooperation with a variety of suppliers in product development, technological innovation, product optimization, resource integration, information sharing and other aspects to achieve a harmonious win-win situation and value sharing. At the same time, we also continuously strengthened our supply chain management and constantly monitor their performance in integrity, product quality, safety and environmental protection, with maintaining tender fairness in the supply chain as the basic requirement.

In 2018, CREC actively participated in significant summits and exhibitions such as Forum on China-Africa Cooperation, China International Import Expo, the 4th Eastern Economic Forum, "16+1" Summit on Cooperation between China and Central and Eastern European Countries, CHINA-ASEAN Exposition, the first China Independent Brand Expo and Western China International Fair, and carried out extensive industrial cooperation with relevant countries and enterprises.

实施项目合作

Conducting Project Cooperation

2018年，中国中铁与国内外多家企业实施项目合作，实施了贵阳市轨道交通3号线一期工程、吉林双洮高速公路等多个项目。在落实“一带一路”和“中国铁路走出去”等国家战略过程中，与相关企业合作推进了中老铁路、匈塞铁路、印尼雅万高铁等多个海外重点项目。

In 2018, CREC carried out project cooperation with a number of domestic and overseas enterprises and implemented several projects such as the Phase I project of Guiyang Rail Transit Line 3, Shuangliao-Taonan Highway in Jilin Province, etc. During the implementation of national strategies including “Belt and Road” and “China high-speed rail going out”, it cooperated with relevant enterprises to boost the China-Laos Railway, Hungary-Serbia Railway, Jakarta-Bandung High-Speed Rail in Indonesia and other overseas key projects.

资料：2018年9月，由中铁隧道局与当地企业合作建设的特拉维夫轻轨红线西标段盾构机隧道全线掘进完成。特拉维夫轻轨红线是特拉维夫轻轨系统的首条线路。该项目穿越拉玛特干和特拉维夫两个城市，先后掘进通过以色列最繁忙的阿亚隆20号高速公路、阿亚隆河道、运营中的国家铁路、国防部以及众多危险建筑物。

Information: In September 2018, the entire tunneling of shield machine in the west section of the Tel Aviv-Yafo Light Rail Red Line, which was jointly constructed by China Railway Tunnel Bureau and local enterprises, was completed. As the first line of the Tel Aviv-Yafo's light rail system, the project went through two cities of Ramat-Gan and Tel Aviv-Yafo and successively tunneled through the most prosperous Ayalon No.20 Highway in Israel, Ayalon river channels, the national railway under operation, the Ministry of National Defence and many other risky buildings.

海外责任

Overseas Responsibility

全球发展

Global Development

全球服务

Global Service

全球公益

Global Public Welfare

全球发展 Global Development

多年来，中国中铁始终坚持“走出去”战略，积极参与全球基础设施建设。目前，公司国际业务已涉足对外工程承包、设计咨询、机械制造、境外投资、资源开发、劳务输出和国际贸易等，海外工程项目覆盖铁路、公路、桥梁、隧道、房屋建筑、城市轨道交通、市政工程等领域。

2018年，中国中铁实现海外营业收入428.6亿元。

截至2018年底，中国中铁全系统在91个国家和地区设立境外机构308个，正在实施的境外承包工程、设计和工业产品加工项目539个。2018年《财富》世界500强排名第56位，2018年ENR全球最大承包商排第2位，国际承包商排第17位。

中国中铁作为“一带一路”基础设施建设的排头兵，积极响应政府号召，参与推动的多个“一带一路”重大铁路项目相继取得重要成果：已完成的“一带一路”重点项目有乌兹别克斯坦安瑟隧道项目、埃塞俄比亚的斯亚贝巴轻轨、埃塞俄比亚亚吉铁路项目等；正在建设的重点项目有印度尼西亚雅加达-万隆高铁项目、老挝中老铁路项目、哈萨克斯坦阿斯塔纳轻轨项目、孟加拉帕德玛大桥项目、孟加拉阿克拉至拉克萨姆增建二线项目、越南河内城市轻轨等。

公司充分利用“一带一路”倡议和“走出去”战略，以项目实施带动工业产品出口。盾构设备、配件、施工技术服务出口地区涵盖新加坡、以色列、黎巴嫩等国家；工业施工机械产品已成功打入阿联酋、老挝、土耳其、泰国等十几个国家的市场；铁路道岔产品出口至美国、俄罗斯、南非、新西兰、菲律宾等二十多个国家和地区，在泰国、印尼和马来西亚市场全部实现自营出口，全年整组道岔出口约1000组，销往北美辙叉产品达到3000根以上；钢桥梁钢结构出口至北美、欧洲、非洲市场累计达三十多万吨。

Over the years, CREC has always adhered to the “going out” strategy, and actively participated in global infrastructure construction. At present, the Company’s international business has been involved in overseas project contracting, design consulting, machinery manufacturing, overseas investment, resource development, labor export and international trade business, and overseas construction projects cover railways, highways, bridges, tunnels, housing construction, urban rail, municipal engineering and other fields.

In 2018, CREC achieved overseas business income of RMB42.86 billion.

As of the end of 2018, the whole system of CREC had set up 308 overseas institutions in 91 countries and regions, and it had 539 overseas contracting projects, design and industrial product processing projects under way. It ranked No.56 among “Fortune” Global 500 companies and No.2 among ENR largest global contractors in 2018 and No.17 among international contractors.

As a vanguard in “Belt and Road” infrastructure construction, CREC positively responded to the government’s call and the various major railway projects under the Belt and Road Initiative it participated in promoting achieved great achievements. Key “Belt and Road Initiative” projects completed include the Uzbekistan Angren-Pap Tunnel Project, the Addis Ababa Light Rail in Ethiopia and the Addis Ababa-Djibouti Railway Project in Ethiopia; key projects under way include the Jakarta-Bandung High-Speed Rail Project in Indonesia, the China-Laos Railway Project in Laos, the Astana Light Rail Project in Kazakhstan, the Padma Bridge Project in Bangladesh, the newly-added Acora-Laxam Line 2 Project in Bangladesh and the Urban Light Rail Project in Hanoi, Vietnam.

The Company made full use of the “Belt and Road” initiative and “Going Out” strategy to promote the export of industrial products by means of project implementation. Areas for the export of shield equipment, accessories, construction technology services covered Singapore, Israel, Lebanon and other countries; industrial construction machinery products have been successfully launched in the markets of more than 10 countries, including United Arab Emirates, Laos, Turkey and Thailand; the railway turnout products have been exported to more than 20 countries and regions including the United States, Russia, South Africa, New Zealand and the Philippines, and the Company has achieved self-supporting export in the markets of Thailand, Indonesia and Malaysia. For the whole year, approximately 1,000 sets of turnout were exported and more than 3,000 pieces of frog products were sold to North America; an aggregate of more than 300,000 tonnes of steel bridge structure were exported to the markets of North America, Europe and Africa.

全球服务 Global Service

公司充分发挥全产业链优势，采用设计、采购、施工加融资的EPC+F模式，为业主提供从投资、勘察设计、施工建设到运营维护全周期的服务，积极推动中国铁路技术标准、设备和运营“走出去”。在设计方面，承揽了大多数重大海外项目设计与可研编制工作，莫喀高铁勘察设计已全部完成递交业主审核、巴基斯坦ML1铁路以及新建哈维连陆港勘察设计正在执行、南美“两洋铁路”可行性研究任务顺利完成。在施工技术方面，以专业敬业、追求卓越工匠精神为工程所在国奉献了一大批优质工程，采用中国标准的孟加拉国帕德玛大桥项目被誉为当地的“梦想之桥”；已完的坦桑尼亚基甘博尼大桥以国父尼雷尔命名，被誉为“东非第一桥”；已完的乌兹别克斯坦安瑟隧道项目为中亚第一长隧，创造了海外隧道施工新纪录。在运营维护方面，我公司承建并负责运营的埃塞俄比亚的斯亚贝巴轻轨项目截至2018年底已安全运营近32个月，联合其他中国企业联合承建并中标运维合同的埃塞俄比亚吉铁路已进入商业运营阶段。

The Company gave a full play to its advantages of the whole industry chain and adopted the EPC+F mode of design, procurement, construction and financing to provide the owners with all-round services from investment, survey and design, construction to operation and maintenance, and actively promoted the “going out” of China’s railway technical standards, equipment and operation. In terms of design, CREC undertook the design and feasibility study preparation of most of the major overseas projects. The survey and design of the Mosco-Kazan High-Speed Rail have been fully completed and submitted to the owner for approval, the survey and design of the ML1 Railway and the new Havelian Land Port in Pakistan are under way, and the feasibility study task of the “Pacific-Atlantic Railway” in South America has been completed successfully. In terms of construction technology, a large number of high-quality projects have been dedicated to the countries where the projects are undertaken with the craftsmanship spirit of professional dedication and pursuit of excellence. The Padma Bridge Project in Bangladesh adopting the Chinese standard is praised as the “Bridge of Dream” in the country; the completed Jiganboni Bridge in Tanzania is named after Nyerere, the Father of the Nation, which is known as “the first bridge in East Africa”; the completed Angren-Pap Tunnel Project in Uzbekistan is the longest tunnel in Central Asia, creating a new record in overseas tunnel construction. In terms of operation and maintenance, the Addis Ababa Light Rail Project in Ethiopia constructed and operated by CREC had been operating safely for nearly 32 months as of the end of 2018, and the Addis Ababa-Djibouti Railway in Ethiopia that CREC constructed and won the operation and maintenance contract jointly with other Chinese enterprises has entered the business operation stage.

全球公益

Global Public Welfare

中国中铁坚持“奉献精品工程，造福东道国家”理念，2018年公司承建的蒙古新机场高速公路、东帝汶首条高速公路苏艾高速公路等一大批海外重大民生工程正式投入运营，大大提高了当地交通运输能力，改善了民众生活条件，促进了当地经济繁荣和发展。

中国中铁累计上千亿美元的国际订单是各东道国GDP的重要组成部分，对促进当地就业、经济发展做出了积极的贡献。目前，公司雇用业务所在国当地员工近4万人。我们无偿为所在国培养了大批工程技术人员，建立了自上而下、全面监控的绿色环保管理体系，积极做好生态环境保护。此外，我们还积极参与工程所在国公益事业，在消除贫困、健康研究与服务、教育服务、清洁饮水与卫生设施建设、抢险救灾等方面涌现出众多典型事迹，坚持企业海外可持续发展道路。

CREC insisted on the idea of “offering high-quality projects and benefiting host countries”, and a large number of overseas major livelihood projects undertaken by the Company in 2018 including the New Airport Highway in Mongolia and the Suai Highway, the first highway in Timor-Leste, have been put into operation, thus greatly enhancing the local transportation capability, improving the people's living conditions, and boosting the local economic prosperity and development.

The international orders with accumulated amount of hundreds of billions of dollars secured by CREC are an important component of each host country's GDP, having made a positive contribution to the promotion of local employment and economic development. At present, the Company employs nearly 40,000 local staff in countries where its operations are located. CREC has trained a large number of engineering and technical personnel for the host countries free of charge, and established a green management system for full monitoring from top to bottom in order to actively protect the ecological environment. In addition, CREC also actively participates in public welfare undertakings in the countries where the projects are located. A number of typical stories have emerged in poverty elimination, health research and service, education service, the construction of clean drinking water and sanitation facilities, and emergency rescue and disaster relief. Furthermore, it always upholds the road of the sustainable development of enterprises abroad.

资料1：中铁四局承建的中国援蒙古残疾儿童发展中心项目是中国援助蒙古国民生领域规模最大、最现代化、功能最齐全的项目。项目部成立了文化交流共建和服务团队，定期与地方展开文化交流活动。对中央省宗默德中学行了助学捐赠，为乌兰巴托市乌里吉图镇幼儿园修补便道。给200余名残疾儿童捐赠了地毯、洗衣机、饮水机、液晶电视机等物资设备。与大使馆联合举办了“中蒙携手一带一路，共建文化经济走廊”活动。项目部给1000余名蒙古籍员工提供了就业机会。

资料2：2018年7月23日，老挝阿速坡省一水电站发生坍塌，6000多人受灾。中铁二局中老铁路项目部迅速伸出援助之手，成立了由160余名建设者组成的抢险救援队，调集大批物资、设备，驱车800多公里驰援现场。经过40天的艰苦奋斗，率先完成了救援通道两座桥梁援建任务，创造了当地同类工程的新纪录。期间，抢险救援队还慰问了当地民众，并向当地儿童赠送了校服。

Information 1: Among all those aid projects in the livelihood field in Mongolia brought by China, the Development Center for Disabled Children constructed by CREC No.4 is the largest and most modern one with the most complete functions. CREC Project Department established a cultural exchange, co-construction and service team to conduct cultural exchange activities with local residents regularly. It also made contributions to Zuunmod Middle School in Töv Province, repaired roads for kindergartens in Urijitu Town, Ulaanbaatar City and donated carpets, washing machines, water dispensers, LED TVs and other materials and equipment to over 200 disabled children. The activity named "China and Mongolia join hands to build a cultural and economic corridor under Belt and Road Initiative" was held by CREC in cooperation with the Embassy. In addition, its Project Department provided employment opportunities to over 1,000 Mongolian staff.

Information 2: On July 23, 2018, a hydropower station in Attapeu Province, Laos collapsed and more than 6,000 people were affected. The Project Department of China-Laos Railway under CREC No.2 quickly reached out to help by forming an emergency rescue team composed of over 160 builders, mobilizing and gathering a large number of materials and equipment, and driving over 800 kilometers to the scene. After 40 days of hard work, we took the lead to complete the aid task of building two bridges in the rescue passage, creating a new record of similar projects in the local area. During such construction, the rescue team also paid a visit to local residents and donated school uniforms to local children.

规范的信息披露

Normative Information Disclosure

2018年，公司严格遵守上海和香港两地证券监管规定，切实履行信息披露义务。一是不断完善信息披露制度体系和机制。制定并发布《中国中铁股份有限公司信息披露暂缓与豁免业务管理制度》，充分利用现有监管政策做好商业秘密保护与信息披露合规的协调；加强信息披露与新闻宣传、信息公开、舆情管理的联动机制，促进业绩数据和临时公告内容向新闻稿件的转化，进一步加强公司信息在境内外资本市场的宣传力度，促进了“阳光国企”建设。二是坚持法定信息披露与自愿信息披露相结合。全年，公司严格按照上海和香港两地上市规则和相关规范性文件的要求，依法合规披露公司应予披露的三会决议、定期报告、治理规则、债转股、战略框架协议等系列所有的法定披露事项，同时围绕当年开展的高铁电气新三板挂牌等资本运作、国企改革“双百行动”、企业区域性布局等管理重点开展自愿信息披露。2018年，公司共计发布公告及通函537项，其中A股公告254项，H股公告及通函283项，公告数量创历史新高。公司信息披露工作连续第五年获得上交所年度评价A类优秀评价。公司公告及通函均按照规定披露于上海证券交易所、香港联合交易所网站和指定报刊；同时，为了便于广大投资者查阅，信息披露文件也均发布于公司中英文网站上，确保了公司股东及广大投资者能够及时、平等、便捷地获得公司信息。

In 2018, CREC strictly complied with the regulations on the supervision and management of securities in Shanghai and Hong Kong and earnestly fulfilled its obligation of information disclosure. First, the Company continued to improve its information disclosure system and mechanism, formulated and issued the Management System for Suspension and Exemption Business of Information Disclosure in China Railway Group Limited, and properly coordinated the work of commercial secret protection and information disclosure compliance by using current regulatory policies. It strengthened the linkage mechanism of information disclosure with media publicity, information openness and public opinion management, and facilitated the transformation of performance data and temporary announcement contents to press releases, further enhancing the publicity of the Company's information in domestic and overseas capital markets and promoting the construction of a "Transparent State-owned Enterprise". Second, the Company insisted on the combination of statutory information disclosure and voluntary information disclosure. In the whole year, the Company strictly conformed to the requirements of the listing rules and relevant normative documents in Shanghai and Hong Kong, disclosed all statutory disclosures such as the resolutions made by shareholders' meetings, Board of Directors and Board of Supervisors, periodic reports, governance rules, debt-to-equity swap and strategic framework agreements that shall be disclosed by the Company according to laws and regulations, and carried out voluntary information disclosure of management priorities such as the capital operation of the listing of CREC High-speed Rail and Electrical Equipment Limited in the new OTC market, the "Double Hundred" reform in state-owned enterprises and the regional layout of enterprises conducted by the Company before. In 2018, the Company issued a total of 537 notices and circulars, including 254 A-share notices and 283 H-share announcements and circulars, the number of which reaching a new record high, and was awarded excellent evaluation in Category A in the annual evaluation of the Shanghai Stock Exchange for company information disclosure in five consecutive years. The notices and circulars of CREC were disclosed on the websites and designated newspapers and periodicals of the Shanghai Stock Exchange and The Stock Exchange of Hong Kong Limited according to regulations and were also released on the Chinese and English websites of CREC to facilitate the consultation of investors so as to ensure that CREC shareholders and its vast investors will receive the Company's information in a timely, equal and convenient way.

积极的投资者关系 Positive Investor Relationship

2018年，公司充分发挥投资者热线、IR邮箱、上证E互动平台作用，利用召开业绩发布会、接待投资者来访、召开年度股东大会、现金分红说明会、参加投资峰会等多种形式与广大股票和债券投资者进行沟通交流，认真倾听和妥善处理股东和投资者意见和建议，并以投资者关心问题为导向推动公司管理提升，塑造资本市场良好形象。全年共组织8场境内外业绩和新闻发布会，累计与372位境内外知名投资机构、52家媒体记者进行了交流互动；参加境内外投资机构峰会25场，接待境内外投资机构分析师、基金经理调研372人次，与境内外知名投资机构召开电话会议17场次；赴香港、新加坡、波士顿及纽约等地开展了2017年度业绩及2018年中期业绩推介活动，召开40场会议会见重要股东及潜在投资者；接听投资者热线1176话次，处理IR邮件8210件。为增进投资者对公司生产经营的了解和体验，在广州地区组织开展反向路演活动，35家投资机构分析师、基金经理和3家媒体走进公司在建的铁路、城轨项目进行参观交流，感受中国基建的信息化、现代化建设水平。通过上述投资者关系管理活动的开展，公司与境内外投资者均保持了良好的沟通，增进了公司股东和债权人对公司的了解和认同，有效提升了公司管理水平和透明度，维护了上市公司开放、透明、诚信的品牌形象。

In 2018, CREC fully leveraged the functions of the investor hotline, IR email, and the SSE E interaction platform, communicated with stock and bond investors in various forms such as convening performance release conferences, receiving investors' visits, holding annual shareholders' meeting, cash dividend briefing and participating in investment summits to carefully listen to and properly handle the opinions and advice from shareholders and investors, and promoted the improvement of the management of the Company with a focus on the concerns of investors to build a good image in the capital market. For the whole year, the Company totally organized 8 domestic and overseas performance release conferences and press conferences, and accumulatively interacted and communicated with 372 domestic and overseas well-known investment institutions as well as journalists from 52 media; participated in 25 summits held by domestic and overseas well-known investment institutions, received 372 person-times of analysts and fund managers from domestic and overseas well-known investment institutions for survey, and convened 17 telephone conferences with domestic and overseas well-known investment institutions; promoted its 2017 annual results and 2018 interim results in Hong Kong, Singapore, Boston, New York and other places, and held 40 conferences to meet with important shareholders and potential investors; answered 1,176 calls from the investor hotline and processed 8,210 IR mails. To improve the understanding and experience of investors towards the production and operation of the Company, CREC organized reverse roadshow events in the Guangzhou region. Analysts and fund managers from 35 investment institutions and 3 media visited the railway projects and urban light rail projects under construction of the Company to gain an insight into the construction level of the informationization and modernization of China's infrastructure. By conducting the above-mentioned investor relations management activities, the Company maintained good communication with domestic and foreign investors, enhanced shareholders' and creditors' understanding and recognition of the Company and effectively improved the Company's management level and transparency, thus upholding its brand image of being an open, transparent, and honest listed company.
