CHAIRMAN'S STATEMENT 主席報告書

On behalf of the Board of Kai Yuan Holdings Limited (the "Company") together with its subsidiaries (collectively referred to as the "Group" or "Kai Yuan"), I now present the results of the Group for the year ended 31 December 2018 (the "Year").

The Group recorded a profit of approximately HK\$338.9 million for the Year, as compared to the profit of approximately HK\$4.7 million for the year ended 31 December 2017 (the "Preceding Year"). The significant increase in profit for the Year was mainly attributable to the gain on disposal of approximately HK\$336.0 million from the disposal of the hotel property including business operation operating as Butterfly on Waterfront Sheung Wan and assignment of shareholder's loan; and the Group also recorded an increase in revenue generated from the money lending segment. During the Year, revenue contributed by the Paris Marriott Hotel Champs-Elysées continued to recover as both foreign and local tourists returned to Paris. Further details will be addressed in the section headed Management Discussion and Analysis.

With a view to expanding business segments of the Group, Kai Yuan had subscribed for equity interest of a Chinese company in the Mainland China, the principal activity of which is research and development, promotion, transfer, consulting and services in relation to chemical technology; sale of self-developed products, chemical products and pharmaceutical intermediates in the Mainland China.

Looking forward, the Group anticipates business and investment outlook of 2019 remains challenging. The Group will stay vigilant when conducting existing business while being attentive to new investment opportunities.

In conclusion and on behalf of the Board, I would like to take this opportunity to express my gratitude to all shareholders, customers, employees, suppliers and business partners for their continuous support and encouragement.

On behalf of the Board

Dr. Li Zhiqiang *Chairman*

29 March 2019

本人謹此代表開源控股有限公司(「本公司」) 連同其附屬公司(統稱「本集團」或「開源」) 董事會提呈本集團截至二零一八年十二月 三十一日止年度(「本年度」)之業績。

本集團於本年度錄得溢利約338,900,000港 元,而截至二零一七年十二月三十一日止年 度(「去年度」)則錄得溢利約4,700,000港元。 本年度溢利大幅增加主要由於出售酒店物業 (包括經營上環晉逸海景精品酒店之業務運作 及轉讓股東貸款)錄得出售收益約336,000,000 港元所致。此外,本集團來自融資業務分部 之收益亦有所增加。年內,隨著外國及當地 旅客雙雙重臨巴黎,帶動Paris Marriott Hotel Champs-Elysées之收益貢獻持續回升。進一步 詳情將於「管理層討論及分析」部分再作討論。

為了拓展本集團業務分部,開源收購了一間 在中國大陸的中國公司之股權,該公司之主 要業務為於中國大陸從事有關化學科技的研 發、推廣、轉讓、諮詢及服務;銷售自主研 發產品、化學品及醫藥中間體。

展望未來,本集團預期二零一九年之業務及 投資前景仍將挑戰重重。本集團在繼續審慎 經營現有業務之同時,亦會留意新的投資機 遇。

最後,本人謹此機會代表董事會感謝全體股 東、客戶、僱員、供應商及業務夥伴一直以 來之鼎力支持及鼓勵。

BUSINESS REVIEW

Overview

For the year ended 31 December 2018, revenue of the Group from continuing operations amounted to approximately HK\$300.7 million, representing an increase of approximately 15.2% from approximately HK\$261.0 million for the Preceding Year. The increase in revenue from continuing operations during the Year was mainly attributable to the increase in revenue contributed by the Paris Marriott Hotel Champs-Elysées ("Paris Marriott Hotel") of the hotel operation segment, as well as the significant increase in revenue generated from the money lending segment. The Group recorded a profit for the Year from continuing operations of approximately HK\$0.2 million, as compared to profit from continuing operations of approximately HK\$2.3 million for the Preceding Year. The Group recorded the profit for the Year of approximately HK\$338.9 million, as compared to the profit of approximately HK\$4.7 million for the Preceding Year. The significant increase in profit for the Year was mainly attributable to (i) the gain on disposal of approximately HK\$336.0 million from the disposal of the group of companies operating as Butterfly on Waterfront Sheung Wan, including the hotel property and business operations and assignment of shareholder's loan as recorded in discontinued operation (the "Disposal"); and (ii) increase in profit generated from the money lending segment.

Profit attributable to owners of the Company for the Year was approximately HK\$338.9 million, as compared to approximately HK\$4.7 million for the Preceding Year. The basic and diluted earnings per share of the Company for the Year was HK2.65 cents, as compared to HK0.04 cents for the Preceding Year.

Total assets of the Group as at 31 December 2018 amounted to approximately HK\$4,339.2 million, representing an increase of approximately 2.9% from approximately HK\$4,217.1 million as at 31 December 2017. The increase in total assets of the Group was mainly attributable to receipt of proceeds from the Disposal, but compensated by the exchange loss as a result of devaluation of Euro against Hong Kong Dollar. Total liabilities of the Group as at 31 December 2018 amounted to approximately HK\$1,843.1 million, representing a decrease of approximately 7.7% from approximately HK\$1,997.1 million as at 31 December 2017. The decrease in total liabilities of the Group was mainly attributable to the decrease in interest-bearing bank borrowings as a result of devaluation of Euro against Hong Kong Dollar, and the decrease in derivative financial instruments.

業務回顧 ^{概覽}

截至二零一八年十二月三十一日止年度,本 集團來自持續經營業務之收益為約300,700,000 港元,較去年度約261,000,000港元上升約 15.2%。年內,來自持續經營業務之收益上升 主要由於酒店經營分部旗下Paris Marriott Hotel Champs-Elysées(「Paris Marriott Hotel」)所貢獻 之收益增加,加上來自融資業務分部之收益 大幅增加所致。本集團來自持續經營業務之 年內溢利為約200,000港元,而去年度來自持 續經營業務之溢利則為約2,300,000港元。本集 團錄得年內溢利約338,900,000港元,而去年度 則錄得溢利約4,700,000港元。本年度溢利大幅 增加主要由於下列各項所致:(i)出售經營上環 晉逸海景精品酒店之一組公司(包括酒店物業) 及業務運作以及轉讓股東貸款)錄得出售收益 約336,000,000港元(已入賬已終止業務)(「出售 事項」);及(ii)融資業務分部所帶來之溢利增 加。

於本年度,本公司擁有人應佔溢利為約 338,900,000港元,而去年度則為約4,700,000 港元。本年度本公司每股基本及攤薄盈利為 2.65港仙,而去年度則為0.04港仙。

Segmental review of the Group's operations during the Year is as follows:

Hotel Operation

The Group recorded the revenue of approximately HK\$287.5 million from the hotel operation segment, as compared to the revenue from the hotel operation segment of approximately HK\$258.1 million for the Preceding Year. The increase in revenue of the hotel operation segment for the Year was mainly attributable to the increase in revenue contributed by the Paris Marriott Hotel. The Group recorded the profit of approximately HK\$5.1 million in this segment for the Year, as compared to the loss of approximately HK\$8.9 million for the Preceding Year. The turnaround from loss to profit during the Year was mainly attributable to continuous improvement of the performance of the Paris Marriott Hotel, as both foreign and local visitors were returning to Paris. Furthermore, the Paris Marriott Hotel received a one-off business interruption compensation from insurance company during the Year for the loss of profit incurred after the occurrence of terrorist attacks in Paris in 2015 and 2016. Notwithstanding the return of tourists to Paris, the occurrence of the weekend Yellow Vest Movement since November 2018 had posed threats to city order in Paris and deterred tourists from visiting Paris. Despite the French government's attempts to establish a dialogue with protestors, the Yellow Vest Movement continued through the end of 2018 and affected the performance of the Pairs Marriott Hotel. Furthermore, the revenue from the Marriott Rewards continued as the prime source of revenue to the Paris Marriott Hotel, where the hotel manager has the sole discretion to determine guest room redemption rate. Below is a comparison of the operational performance of the Paris Marriott Hotel during the Year against the Preceding Year:

本集團本年度之業務分部回顧如下:

酒店經營

本集團來自酒店經營分部之收益為約 287.500.000港元,而去年度來自酒店經營分部 之收益則為約258.100.000港元。本年度酒店經 營分部之收益增加主要由於Paris Marriott Hotel 所貢獻之收益增加所致。於本年度本集團在 此分部錄得溢利約5,100,000港元,而去年度則 錄得虧損約8,900,000港元。年內轉虧為盈主要 由於外國及當地旅客雙雙重臨巴黎,帶動Paris Marriott Hotel之表現持續改善所致。此外, Paris Marriott Hotel於年內從保險公司收取了 一次性業務中斷賠償,以賠償其因二零一五 年及二零一六年巴黎發生恐佈襲擊所招致之 盈利損失。儘管旅客重臨巴黎,但自二零一 八年十一月起法國每個周末皆爆發 [黃背心行 動」,不單對巴黎市之秩序構成威脅,亦窒礙 旅客出訪巴黎。雖然法國政府已嘗試與示威 者建立對話,但「黃背心行動」仍然持續至二 零一八年底, 並影響Paris Marriott Hotel表現。 另外, 萬豪禮賞(Marriott Rewards)之收益仍然 是Paris Marriott Hotel之主要收益來源,酒店管 理公司可全權決定客房之換領率。下表比較 Paris Marriott Hotel於本年度及去年度之營運表 現:

		2018 二零一八年	2017 二零一十年
Occupancy	入住率	86.4 %	83.6%
Average Room Rate	平均住房費	€418歐羅	€403歐羅
RevPAR*	平均客房收益	€361歐羅	€337歐羅

* Revenue per available room

平均客房收益

Money Lending

Revenue from this segment amounted to approximately HK\$13.2 million during the Year, representing an increase of approximately 367.4% from approximately HK\$2.8 million for the Preceding Year. Increase in revenue generated from this segment was mainly due to the increase in the amount of mortgage loans granted to borrowers for interest income during the Year. The Group recorded a profit of approximately HK\$12.1 million from this segment for the Year, as compared to the profit of approximately HK\$2.3 million for the Preceding Year. As at 31 December 2018, the gross mortgage loan receivables amounted to approximately HK\$210.0 million (31 December 2017: Nil).

PROSPECTS

Hotel Operation

The Paris Marriott Hotel had a good start during the first three quarters of 2018 and had prominent recovery in occupancy rate, average daily rate and revenue per available room, until the occurrence of the Yellow Vest Movement in November 2018 in Paris. It was clear that hotels in Paris in general have been severely impacted by this protest, affecting occupancy rate, average daily rate and revenue per available room of the Paris Marriott Hotel. Notwithstanding the number of protesters participating in the Yellow Vest Movement gradually declines in 2019, the Board is uncertain when the movement will come to an eventual end. The Board expects that performance of the Paris Marriott Hotel in 2019 will be uncertain and will continue to be affected by the Yellow Vest Movement. As at the date of this report, the Yellow Vest Movement had already entered into the 19th straight weekend. Meanwhile, the Board notices more new hotels will be opened in Paris, which will constitute a direct competition with the Paris Marriott Hotel. Looking forward, Paris will be hosting several mega-events such as the Rugby World Cup in 2023 and the 2024 Olympics, which will undoubtedly attract both local and foreign tourists to come to Paris. In the meantime, the Paris Marriott Hotel is actively facilitating and enhancing booking from tourists around the World. The Board has also initiated projects to consider various improvement proposals on facilities of the Paris Marriott Hotel in order to enhance guest experience.

Money Lending

There was a significant increase in revenue generated from this segment during the Year. Nonetheless, the Board considers Hong Kong's mortgage loan market will remain challenging, being heavily competitive with uncertain prospects. The performance of this segment is dependent on the amount of successful loans granted out to borrowers and general market interest rate trend. The Board would exercise utmost caution when conducting mortgage loan business in Hong Kong.

融資業務

年內,此分部之收益為約13,200,000港元, 較去年度約2,800,000港元上升約367.4%。來 自此分部之收益有所增加,主要由於年內授 予借款人以賺取利息收入之按揭貸款金額增 加所致。年內,本集團來自此分部之溢利為 約12,100,000港元,而去年度之溢利則為約 2,300,000港元。於二零一八年十二月三十一 日,按揭貸款應收款項總額為約210,000,000港 元(二零一七年十二月三十一日:無)。

前景 酒店經營

Paris Marriott Hotel於二零一八年首三季形勢大 好,入住率、平均日租及平均客房收益皆顯著 回升, 首至二零一八年十一月巴黎發生 [黃背 心行動」開始情況起變。很明顯,巴黎的酒店 整體上受到這次示威的嚴重影響,其令致Paris Marriott Hotel之入住率、平均日租及平均客房 收益受到影響。儘管於二零一九年參與「黃背 心行動」之示威人數已逐步減少,但董事會未 能確定 [黃背心行動] 最終將於何時結束。董事 會預期Paris Marriott Hotel於二零一九年之表現 仍屬未知之數,並將繼續受到「黃背心行動」 之影響。於本報告日期,「黃背心行動」已連續 第19個周末登場。與此同時,董事會留意到將 會有更多新酒店在巴黎開業,這些酒店將會對 Paris Marriott Hotel構成直接競爭。展望未來, 巴黎將會舉辦二零二三年世界杯欖球賽及二零 二四年奧林匹克運動會等多項大型盛事。這些 活動無疑會吸引當地及海外旅客到訪巴黎。同 時, Paris Marriott Hotel正積極推動及增加全球 旅客的房間預訂。此外,為了提升旅客入住酒 店的體驗,董事會亦已開展計劃,就提升Paris Marriott Hotel之設施考慮不同的方案。

融資業務

年內,來自此分部之收益大幅增加。儘管如 此,董事會認為,香港按揭貸款市場仍將充 滿挑戰、競爭激烈及前景不明朗。此分部之 表現取決於成功授予借款人之貸款金額及整 體市場息率走勢。董事會在香港進行按揭貸 款業務時,定當小心審慎行事。

LOOKING AHEAD

The Board considers investing in hotels tends to be a relatively low risk investment, while offering stable revenue stream and considerable capital gain potential. The Board will concurrently review the Group's portfolio to restructure and enhance the quality of assets held in the hotel operation segment. Given the challenging and heavily competitive mortgage loan market in Hong Kong, the Board will conduct the Group's mortgage loan business in Hong Kong in a prudent manner. Finally, the Board will continue to explore investment opportunities from new business segments with a view to enhancing and improving returns to the Company's stakeholders.

LIQUIDITY AND FINANCIAL RESOURCES

As at 31 December 2018, total assets and net assets of the Group were approximately HK\$4,339.2 million and HK\$2,496.0 million respectively (31 December 2017: approximately HK\$4,217.1 million and HK\$2,220.0 million, respectively). The cash and bank balance of the Group as at 31 December 2018 were approximately HK\$1,097.6 million, and were denominated in Hong Kong dollar, Euro, United States dollar and Renminbi (31 December 2017: approximately HK\$513.4 million). As at 31 December 2018, the Group's gearing ratio (total borrowings/total assets) was at approximately 35.4% (31 December 2017: approximately 38.0%). The Group constantly monitors its cash flow position, maturity profile of borrowings, availability of banking facilities, gearing ratio, and interest rate exposure.

(1) Approximately HK\$1,534.8 million (equivalent to €175,000,000) at the interest rate of 3 months EURIBOR plus 2.2% per annum. Please refers to notes 26 and 27 to the financial statements for more information.

展望

董事會認為,投資於酒店相對而言屬風險較低之投資,同時亦可提供穩定收益來源及可觀的資本升值潛力。董事會將會審視本集團之組合,以重組及提升酒店經營分部所持資產之質量。鑑於香港按揭貸款市場充滿挑戰且競爭激烈,董事會將以審慎方式進行本集團的香港按揭貸款業務。最後,董事會將繼續探索新業務分部之投資良機,務求提升及增進本公司持份者之回報。

Stakeholder engagement

Engagement with stakeholders helps us find the right direction in sustainability. We maintain ongoing dialogues with our stakeholders (including but not limited to hotel guests, employees, shareholders, suppliers, community and regulatory bodies) such that we actively collect their views to boost the growth of the Group and benefit our stakeholders.

We identify and prioritise issues that our stakeholders consider significant to formulate the foundation to our ESG objectives and the scope of our ESG reporting. We communicate with our stakeholders both formally and informally. It enables us to recognise our own strengths and weaknesses to better sharpen our business strategies to respond to their needs and expectations, anticipate risks and strengthen key relationships. The information collected throughout the stakeholder engagement process serves as an underlying basis for the structure of this report. We will continue to seek ways to step up our effort on stakeholder engagement and review the effectiveness constantly.

Principal Risks and Uncertainties

The following are the principal risks and uncertainties facing by the Group's hotel operation segment and money lending segment as determined by the Board. The content below is not intended to be an exhaustive list of all the risks and uncertainties that may arise.

Hotel Operation

(i) Operational risks

Notwithstanding the active monitoring and supervision of performance of the hotel by the Group, daily operations of the Group's hotel are delegated to respective hotel manager, pursuant to hotel management agreement signed with thirdparty hotel manager. Dependent on the ability of hotel manager, the failure of hotel manager to manage the hotel in an efficient and effective manner could have a material adverse effect on financial results of the Group.

Furthermore, if any of the hotel management agreements are terminated prior to their expiration, we may experience disruptions to our operations, and will then required to seek for replacement of hotel manager.

本公司之主要業務為投資控股。附屬公司之 主要業務包括酒店經營及融資業務。本集團 附屬公司之主要業務及其他資料載於財務報 表附註1。

年內,本集團之主要業務性質並無重大變動。

業務回顧

有關年內本集團業務回顧之進一步詳情及影響本集團之重要事件之資料,以及本集團之 未來發展,請參閱本報告「管理層討論及分 析」部份。

主要風險及不明朗因素

下文所述為經董事會確定本集團酒店經營分 部及融資業務分部所面對之主要風險及不明 朗因素。下文所載僅為可能會產生之風險及 不明朗因素,並非全部可能性。

酒店經營

- (i) 營運風險
 - 儘管本集團一直積極監察及監督旗下 酒店之表現,惟本集團旗下酒店之日 常業務運作已根據本集團與第三方酒 店管理公司所簽訂之酒店管理協議, 轉授予酒店管理公司負責。視乎酒店 管理公司之能力而定,如酒店管理公司未能有效率兼有效益地管理酒店, 便可能會對本集團之財務業績構成重 大不利影響。

此外,倘任何酒店管理協議於屆滿前 獲終止,本集團之業務運作或會受到 干擾,繼而需尋求替任的酒店管理公 司。

再者,本集團旗下酒店乃以酒店管理 公司之品牌經營。因此,能否持續帶 來收益取決於酒店管理公司能否成功 維持品牌聲譽以及提高品牌認受性。

(ii) Competition

The Group owns a hotel in France in which the hospitality industry is highly competitive due to ongoing supply of new hotels and renovation of existing hotel properties. The intensity of competition is affected by a range of factors including political stability of country where the hotel is located, regional and global economic conditions, convenience of location, interior design and amenities offered, as well as travel pattern of customers. The Group is committed to offer the best of our services and hotel experience to our guests.

(iii) Economic and market risks

The Group's business is exposed to risks of unfavourable movements in the global and regional economies and financial markets, in particular to the markets where our hotel is located. Change in economic conditions would lead to recession, inflation, deflation, currency fluctuations, availability of financing, interest rates and other factors that are beyond control of the Group. Occurrence of any of the above may reduce revenue, increase operating costs and lower asset value of the Group.

(iv) Terrorism, diseases and natural disasters
 The Group's business could be adversely impacted by acts of God, wars, terrorist attacks, riots, diseases and other events beyond our control. The Group cannot predict the occurrence of these events. An increased threat of terrorism would affect travel patterns and reduce the number of travellers of different categories. All of the above events would eventually adversely affect the business and financial performance of our hotel.

(v) Indebtedness and interest rates

The Group maintains certain level of indebtedness to partly finance the hotel property investment. The indebtedness level could increase the vulnerability of the Group to adverse general economic or industry conditions, and restrict the Group from making strategic acquisitions or taking advantage of business opportunities. Hence, increase in interest rates could materially and adversely affect the results of the Group. (ii) 競爭

本集團在巴黎擁有一間酒店,由於巴 黎之新酒店供應不斷,加上市場上現 有酒店物業正進行裝修工程,導致當 地之酒店業競爭異常激烈。競爭之強 烈程度受多項因素影響,包括酒店所 在國家之政局穩定性、地區及全球 經濟情況、位置便利程度、室內設計 及所提供之設施,以及客人之旅遊模 式。本集團致力為客人提供最佳服務 與酒店經驗。

- (iii) 經濟及市場風險 本集團之業務須承受全球與地區經濟 及金融市場(特別是酒店所在市場)之 不利變動所帶來之風險。經濟情況變 動可導致經濟衰退、通漲、通縮、貨 幣波動、影響融資及利率,以及導致 其他在本集團控制範圍以外之因素。 一旦發生任何上述情況,或會導致本 集團之收益減少、經營成本增加及資 產值減少。
- (iv) 恐佈主義、疾病及自然災害
 天災、戰爭、恐佈襲擊、暴亂、疾病及其他在本集團控制範圍以外之事件均可能對本集團之業務構成不利影響。本集團無法預料上述事件會否發生。恐怖主義之威脅上升會影響旅遊模式,並減少不同類型旅客之數目。
 所有上述事件最終均會對本集團旗下 酒店之業務及財務表現構成不利影響。
- (v) 債務及利率 本集團維持一定程度負債,以融資酒 店物業投資之部分資金。債務水平或 會增加本集團在整體經濟或行業情況 不利之情況下所面對之困難,並可能 限制本集團作出策略性收購或抓緊商 機。因此,利率上升可對本集團之業 績構成重大不利影響。

(vi) Foreign exchange fluctuations

The Group has hotel operation in France in which revenue and expenses are denominated mainly in Euro and United States dollar. Therefore, the Group's financial results are exposed to foreign exchange risk as a result of fluctuation in currency exchange rates.

(vii) Information technology systems

The Group is dependent on information technology systems provided by the hotel manager and by other third parties to monitor and operate the day-to-day operations of the hotel. These systems include booking, check-in/check-out, management of rooms and collection of payment etc. Any disruption of these systems could result in the hotel failing to operate. Furthermore, operations of the above systems are also subject to information security and cyber threats. The Group together with the hotel manager will consistently review, maintain or upgrade these information technology systems when required to minimise system down-time and defend against cyber threats.

Money Lending

(i) Credit risk

A credit risk is the risk of default on a loan that may arise from borrowers failing to meet loan repayment obligation when due. To control credit risk, the Group requires borrowers to provide sufficient collaterals before mortgage loans will be granted. We will also regularly monitor and review our loan portfolio. Notwithstanding these measures, the Group might still suffer from financial losses if the economic climate in Hong Kong changes adversely and abruptly so that net proceeds from disposal of collaterals might become insufficient to cover mortgage loan granted and loan interests receivable.

Environmental Policies

We are attentive to consumption of natural resources and reduction of pollution during the course of managing our businesses. It is our goal to minimise our environmental impacts through recycling of materials, encouragement of resources savings and reduction of wastes. The Group is committed to ensure our compliance with relevant environmental protection laws and regulations. We also require our business partners to comply with relevant environmental protection laws and regulations. For further details on performance of the Group on environmental aspects during the Year, please refer to our Environmental, Social and Governance Report on pages 34 to 43.

(vi) 外匯波動

本集團在法國經營酒店,當地之收益 及開支主要以歐羅及美元計值。因 此,本集團之財務業績會因為匯率波 動而承受匯兑風險。

(vii) 資訊科技系統 本集團倚賴由酒店管理公司及其他第 三方提供之資訊科技系統來監察及管 理旗下酒店之日常業務運作。上述系 統包括預訂、入住/退房、房間管理 及收款等系統。如上述系統受到任何 干擾,均可能導致酒店不能運作。此 外,上述系統之運作亦受資訊保安及 網絡攻擊之影響。本集團連同酒店管 理公司會不斷檢討、維護或於有需要 時升級上述資訊科技系統,以減少系 統故障情況及防禦網絡攻擊。

融資業務

(i) 信貸風險
 信貸風險指貸款的違約風險,其可由於借款人未能於借款到期時履行償還
 貸款責任而產生。為了監控信貸風
 險,本集團於授出按揭貸款前,會要求借款人提供充足的抵押品。我們亦
 會定期監察及檢討貸款組合。儘管已
 作出該等措施,惟如香港經濟氣候出
 現不利變動或突變,以致出售抵押品
 之所得款項淨額不足以應付已授出之
 按揭貸款及應付貸款利息,屆時本集
 團仍可能蒙受財務損失。

環境政策

本集團在管理旗下業務之過程中,一直關注 天然資源之耗用及減少污染等問題。本集團 之目標是透過循環再用物料、鼓勵節約資源 及減廢,盡量減少對環境造成之影響。本集 團致力確保其符合相關環保法律及法規之規 定。本集團亦規定合作夥伴必須符合相關環 保法律及法規之規定。有關本集團於年內在 環保方面之表現之進一步詳情,請參閱第34頁 至第43頁所載之「環境、社會及管治報告」。

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act 1981, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

核數師就審計綜合財務報表須承擔的 責任

我們的目標,是對綜合財務報表整體上是否 不存在由於欺詐或錯誤而導致的任何重大錯 誤陳述取得合理保證,並出具包含我們意見 的核數師報告書。我們按照百慕達《一九八一 年公司法》第九十節的規定,僅向 閣下整體 報告。除此以外,我們的報告書不可用作其 他用途。我們概不會就本報告書的內容,對 任何其他人士負上或承擔責任。

合理保證屬高水平的保證,但不能保證按照 香港審計準則進行的審計,總能在重大錯誤 陳述存在時將之發現。錯誤陳述可由於欺詐 或錯誤而引起,倘按理預計錯誤陳述(單獨或 結合起來)將會影響使用者依據綜合財務報表 所作出的經濟決定,則有關錯誤陳述會被視 為重大。

在根據香港審計準則進行審計的過程中,我 們會行使專業判斷,並保持專業懷疑態度。 我們亦會:

- 識別及評估由於欺詐或錯誤而導致綜 合財務報表存在重大錯誤陳述的風 險,設計及執行審計程序以應對有關 風險,以及取得充足和適當的審計憑 證,為我們的意見提供基礎。由於欺 詐可能涉及串謀、偽造、蓄意遺漏、 虛假陳述,或凌駕於內部監控之上, 因此未能發現由於欺詐而導致的重大 錯誤陳述的風險高於未能發現由於錯 誤而導致的重大錯誤陳述的風險。
 - 了解與審計相關的內部監控,以便 設計適當的審計程序,但此並非為 對 貴集團的內部監控的效能發表意 見。

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Lawrence K. W. Lau.

2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants, accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for derivative financial instruments and an equity investment which have been measured at fair value. These financial statements are presented in Hong Kong dollars and all values are rounded to the nearest thousand except when otherwise indicated.

As at 31 December 2018, the Group's current liabilities exceeded its current assets by HK\$223,758,000. The directors are of the opinion that the Group will have sufficient cash flows for its foreseeable future operations (at least 12 months from the date of the consolidated financial statements), and concluded that a going concern basis was appropriate when preparing the financial statements, after taking into consideration of followings:

- Based on the cash flow forecast prepared by the management of the Company, the Group has stable operating cash inflows to meet its daily working capital requirements for the year ending 31 December 2019;
- The directors are of the opinion that the EUR175,000,000 bank borrowings due in October 2019 as disclosed in note 27 to the financial statements will be renewed before due date. The management is actively negotiated with the lender indicative terms and conditions of the renewal and does not foresee significant obstacles; and
 - An entity owned by Mr. Du Shuang Hua, who in turn is a shareholder deemed to be interested in approximately 5.54% of the issued share capital of the Company, has committed to provide financial support to enable the Group to meet it liabilities when they fall due in the foreseeable future (at least 12 months from the date of the consolidated financial statements).

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the "Group") for the year ended 31 December 2018. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

2.1 BASIS OF PREPARATION (continued)

Basis of consolidation (continued)

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2.1 編製基準(續) 綜合基準(續)

倘本公司於投資對象直接或間接擁有 之投票權或類似權利未能佔大多數, 則本集團於評估其是否擁有支配投資 對象之權力時,會考慮一切相關事實 及情況,包括:

- (a) 與投資對象其他投票權持有人 訂立之合約安排;
- (b) 其他合約安排所產生之權利;及
- (c) 本集團之投票權及潛在投票權。

附屬公司之財務報表按本公司相同之 報告期間使用一致之會計政策編製。 附屬公司之業績自本集團取得控制權 之日起綜合入賬,並一直綜合入賬, 直至有關控制權終止之日為止。

損益及其他全面收入之各組成部分歸 屬於本集團母公司擁有人及非控股權 益,即使此舉會導致非控股權益出現 虧絀結餘亦然。所有集團內公司間之 資產與負債、權益、收入、支出以及 與本集團成員公司之間交易有關的現 金流量均於綜合賬目時悉數抵銷。

倘事實及情況顯示上述三項控制權因 素其中一項或多項有變,屆時本集團 便會重新評估是否仍然控制投資對 象。附屬公司擁有權權益之變動(並無 失去控制權)於入賬時列作權益交易。

倘本集團失去一間附屬公司之控制 權,便會終止確認(i)該附屬公司之資產 (包括商譽)及負債;(ii)任何非控股權 益之賬面值;及(iii)於權益內記錄之累 計匯兑差額;及確認(i)已收代價之公平 值;(ii)任何仍然保留之投資之公平值; 及(iii)損益中任何因此產生之盈餘或虧 絀。先前於其他全面收入確認之本集 團應佔部分會按假若本集團直接出售 相關資產或負債而須依據之同一基準 重新分類至損益或保留溢利(視何者適 用)。

除了香港財務報告準則第15號「客戶合約收益」及香港財務報告準則第9號「金融工具」外,新訂及經修訂香港財務報告準則對本集團財務報表之編製並無構成任何重大影響。香港財務報告準則第 15號及香港財務報告準則第9號之性質及影響闡述如下:

For the year ended 31 December 2018 截至二零一八年十二月三十一日止年度

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (continued) HKFRS 15 Revenue from Contracts with Customers

HKFRS 15 supersedes HKAS 11 *Construction Contracts*, HKAS 18 *Revenue* and related interpretations and it applies to all revenue arising from contracts with customers, unless those contracts are in the scope of other standards. The new standard establishes a five-step model to account for revenue arising from contracts with customers. Under HKFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The standard requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract.

The Group adopted HKFRS 15 using the modified retrospective method of adoption. There was no substantive effect of adopting HKFRS 15 except for the followings:

- The comparative information for each of the primary financial statements would be presented based on the requirements of HKAS 11, HKAS 18 and related interpretations;
- The Group has disclosed additional information regarding performance obligations ("Revenue recognition (applicable from 1 January 2018)" in note 2.4), disaggregation of revenue (note 5) and contract liabilities (note 25) for the year ended 31 December 2018 without any comparative information, which would follow the requirements of HKAS 11, HKAS 18 and related interpretations; and

2.2 會計政策之變動及披露(續)

香港財務報告準則第15號「客戶合約收 益」

香港財務報告準則第15號取代香港會 計準則第11號「建造合約」、香港會計 準則第18號「收益」及相關詮釋,其 用於客戶合約所產生之所有收益,但 如有關合約屬於其他準則範圍內則除 外。新訂準則建立一個五步模式,以 供入賬客戶合約所產生之收益。根據 香港財務報告準則第15號,收益按範 反映實體轉讓貨物或服務予客戶而預 期有權換取所得之代價金額予以確認。

有關準則要求實體作出判斷,並計及 於該模式各步應用於客戶合約時的所 有相關事實及情況。有關準則亦訂明 為取得合約而產生之增量成本以及與 履行合約直接相關之成本之入賬方法。

本集團透過經修訂追溯採納法,採納 香港財務報告準則第15號。除下述者 外,採納香港財務報告準則第15號並 無構成重大影響:

For the year ended 31 December 2018 截至二零一八年十二月三十一日止年度

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (continued)

HKFRS 15 Revenue from Contracts with Customers (continued)

Before

Before the adoption of HKFRS 15, the Group recognised consideration received from customers in advance as receipt in advance. Under HKFRS 15, the amount is classified as contract liabilities. Therefore, upon adoption of HKFRS 15, the Group reclassified HK\$87,000 from receipt in advance to contract liabilities in relation to the consideration received from customers in advance as at 1 January 2018. As at 31 December 2018, under HKFRS 15, HK\$156,000 was reclassified from receipt in advance to contract liabilities in relation to the consideration received from customers in advance for the hotel operation.

HKFRS 9 Financial Instruments

HKFRS 9 *Financial Instruments* replaces HKAS 39 *Financial Instruments: Recognition* and *Measurement* for annual periods beginning on or after 1 January 2018, bringing together all three aspects of the accounting for financial instruments: classification and measurement; impairment; and hedge accounting.

The Group has not restated comparative information for 2017 for financial instruments in the scope of HKFRS 9. Therefore, the comparative information for 2017 is reported under HKAS 39.

2.2 會計政策之變動及披露(續)

香港財務報告準則第15號「客戶合約收 益」(續)

在採納香港財務報告準則第15 號前,本集團把從客戶預先收 取所得之代價確認為預收款 項。根據香港財務報告準則第 15號,有關金額分類為合約負 **債。因此,就截至二零一八年** 一月一日從客戶預先收取所得 之代價而言,在採納香港財務 報告準則第15號後,本集團把 87,000港元由預收款項重新分類 至合約負債。於二零一八年十 二月三十一日,根據香港財務 報告準則第15號,就從酒店經 營客戶預先收取所得之代價而 言,本集團把156,000港元由預 收款項重新分類至合約負債。

香港財務報告準則第9號「金融工具」

香港財務報告準則第9號「金融工具」 於二零一八年一月一日或以後開始之 年度期間取代香港會計準則第39號「金 融工具:確認及計量」,並將金融工具 會計處理之所有三個方面:分類及計 量;減值及對沖會計結集一起。

本集團並未就香港財務報告準則第9號 範圍內之金融工具重報二零一七年比 較資料。因此,二零一七年比較資料 乃根據香港會計準則第39號匯報。

For the year ended 31 December 2018 截至二零一八年十二月三十一日止年度

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (continued)

HKFRS 9 Financial Instruments (continued)

Classification and measurement

As at 1 January 2018, the category of loans and receivables under HKAS 39, including cash and cash equivalents, pledged deposits, trade receivables and financial assets included in prepayments, other receivables and other assets were transferred to category of financial assets at amortised cost under HKFRS 9.

Impairment calculation

The effect of replacing HKAS 39's incurred credit loss calculations with HKFRS 9's expected credit losses ("ECLs") is insignificant.

Hedging accounting

The Group has applied hedge accounting under HKFRS 9 prospectively. At the date of initial application of HKFRS 9, all of the Group's existing hedging relationships were eligible to be treated as continuing hedging relationships. Before the adoption of HKFRS 9, the Group designated the change in fair value of the entire interest rate swap contracts in its cash flow hedge relationships. Upon adoption of HKFRS 9, the Group continues to designate the entire interest rate swap contracts in the cash flow hedge relationships. The adoption of the hedge accounting requirements of HKFRS 9 has had no impact on the Group's financial statements.

2.2 會計政策之變動及披露(續)

香港財務報告準則第9號「金融工具」 (續)

分類及計量

根據香港財務報告準則第9號,於二零 一八年一月一日,在香港會計準則第 39號項下之貸款及應收款項類別(包括 現金及現金等值物、已抵押存款、應 收賬款及計入預付款項、其他應收款 項及其他資產之金融資產)已轉撥至按 攤銷成本計量之金融資產類別。

減值計算方法

以香港財務報告準則第9號之預期信貸 虧損計算方法取代香港會計準則第39 號之已產生信貸虧損計算方法之影響 並不重大。

對沖會計法

本集團已根據香港財務報告準則第9號 按未來適用基準應用對沖會計法。於 首次應用香港財務報告準則第9號當 日,本集團所有現有對沖關係皆合資 格當作持續對沖關係處理。在採納香 港財務報告準則第9號前,本集團在現 金流量對沖關係中就全部利率掉期合 約之公平值變動作出指定。在採納香 港財務報告準則第9號後,本集團繼續 在現金流量對沖關係中就全部利率掉 期合約作出指定。採納香港財務報告 準則第9號之對沖會計規定對本集團之 財務報表並無構成任何影響。

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS (continued)

While the adoption of some of the new and revised HKFRSs may result in changes in accounting policies, none of these HKFRSs is expected to have a significant impact on the Group's results of operations and financial position, except the followings:

HKFRS 16, replaces HKAS 17 Leases, HK(IFRIC)-Int 4 Determining whether an Arrangement contains a Lease, HK(SIC)-Int 15 Operating Leases – Incentives and HK(SIC)-Int 27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to recognise assets and liabilities for most leases. The standard includes two elective recognition exemptions for lessees – leases of low-value assets and short-term leases. At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). The right-of-use asset is subsequently measured at cost less accumulated depreciation and any impairment losses unless the right-of-use asset meets the definition of investment property in HKAS 40, or relates to a class of property, plant and equipment to which the revaluation model is applied. The lease liability is subsequently increased to reflect the interest on the lease liability and reduced for the lease payments. Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset. Lessees will also be required to remeasure the lease liability upon the occurrence of certain events, such as change in the lease term and change in future lease payments resulting from a change in an index or rate used to determine those payments. Lessees will generally recognise the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset. Lessor accounting under HKFRS 16 is substantially unchanged from the accounting under HKAS 17. Lessors will continue to classify all leases using the same classification principle as in HKAS 17 and

distinguish between operating leases and finance leases. HKFRS 16 requires lessees and lessors to make more extensive disclosures than under HKAS 17. Lessees can choose to apply the standard using either a full retrospective or a modified retrospective approach. The Group will adopt HKFRS 16 from 1 January 2019. The Group plans to adopt the transitional provisions in HKFRS 16 to recognise the cumulative effect of initial adoption as an adjustment to the opening balance of retained earnings at 1 January 2019 and will not restate the comparatives. In addition, the Group plans to apply the new requirements to contracts that were previously identified as leases applying HKAS 17 and measure the lease liability at the present value of the remaining lease payments, discounted using the Group's incremental borrowing rate at the date of initial application. The right-ofuse asset will be measured at the amount of the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to the lease recognised in the statement of financial position immediately before the date of initial application. The Group plans to use the exemptions allowed by the standard on lease contracts whose lease terms end within 12 months as of the date of initial application. During 2018, the Group has performed a detailed assessment on the impact of adoption of HKFRS 16. The Group has estimated that the quantitative impact on the balance of assets, liabilities and equity as at 1 January 2019 is insignificant.

2.3 已頒佈但尚未生效之香港財務 報告準則(續)

用權資產的調整。香港財務報告準則 第16號所載的出租人會計處理方式大 致上沿襲香港會計準則第17號的相關 會計處理方式。出租人將繼續使用香 港會計準則第17號所載的同一分類原 則來分類所有租賃,並將之區分為經 營租賃及融資租賃。香港財務報告準 則第16號規定承租人及出租人須作出 較之香港會計準則第17號所規定者更 加廣泛之披露。承租人可選擇按全面 追溯方式或經修訂追溯方式應用有關 準則。本集團將於二零一九年一月-日起採納香港財務報告準則第16號。 本集團計劃採納香港財務報告準則第 16號之過渡條文,把首次採納之累計 影響確認為二零一九年一月一日之保 留盈利年初結餘調整,並不會重報比 較資料。此外,本集團計劃對先前應 用香港會計準則第17號識別為租賃之 合約應用新規定,以及按剩餘租賃款 項採用本集團於首次應用日期之增量 借款利率折現所得之現值計量租賃負 債。使用權資產將按租賃負債計量, 並就緊接首次應用日期前在財務狀況 報表確認之租賃之任何相關預付或累 計租賃款項金額作出調整。本集團計 劃就租期將於首次應用日期起計12個 月內終結之租賃合約,使用有關準則 所允許之豁免。於二零一八年度,本 集團就採納香港財務報告準則第16號 之影響進行了詳細評估。本集團估計 對截至二零一九年一月一日之資產、 負債及權益結餘之定量影響並不重大。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fair value measurement

The Group measures its derivative financial instruments and an equity investment at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

公平值計量

非金融資產的公平值計量須計及市場 參與者能否自最佳最有效使用該資產 而賺取經濟利益,或將該資產出售予 將最佳最有效使用該資產之其他市場 參與者而賺取經濟利益。

本集團會使用適用於不同情況且具備 充分數據以供計量公平值之估值方 法,並儘量使用相關可觀察輸入數據 及儘量減少使用不可觀察輸入數據。

For the year ended 31 December 2018 截至二零一八年十二月三十一日止年度

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING

POLICIES (continued)

Fair value measurement (continued)

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, deferred tax assets, financial assets and non-current assets/a disposal group classified as held for sale), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cashgenerating unit to which the asset belongs.

已於財務報表中計量或披露公平值之 所有資產及負債乃基於對公平值計量 整體而言屬重大之最低層輸入數據按 以下公平值等級分類:

- 第一級 基於相同資產或負債於活 躍市場之報價(未經調整)
- 第二級 基於對公平值計量而言屬 重大之可觀察(直接或間 接)最低層輸入數據之估值 方法
- 第三級 基於對公平值計量而言屬 重大之不可觀察最低層輸 入數據之估值方法

就按經常性基準於財務報表確認之資 產及負債而言,本集團透過於各呈報 期間結算日重新評估分類(基於對公平 值計量整體而言屬重大之最低層輸入 數據)確定不同等級之間是否出現轉 移。

非金融資產減值

倘出現減值跡象或須就資產進行年度 減值測試(存貨、遞延税項資產、金融 資產及非流動資產/獲分類為持作出 售之待售組別除外),便會估計資產之 可收回金額。資產之可收回金額為資 產或現金產生單位之使用價值或其公 平值減銷售成本(以較高者為準),並 就每項資產釐定,除非有關資產並不 能產生明顯獨立於其他資產或資產組 別之現金流入,在此情況下則就資產 所屬現金產生單位釐定可收回金額。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Impairment of non-financial assets (continued)

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation), had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the statement of profit or loss in the period in which it arises.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Property, plant and equipment and depreciation

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any impairment losses. When an item of property, plant and equipment is classified as held for sale or when it is part of a disposal group classified as held for sale, it is not depreciated and is accounted for in accordance with HKFRS 5. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

物業、廠房及設備項目投入運作後所 產生之開支(例如:維修保養),一般 於其產生期間自損益表扣除。倘符合 確認條件,則重大檢查支出會於資產 賬面值中資本化作為置換。倘須定期 置換物業、廠房及設備之重大部分, 則本集團會將該等部分確認為有特定 可使用年期之個別資產,並相應作出 折舊。

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the statement of profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Construction in progress represents a building under construction, which is stated at cost less any impairment losses, and is not depreciated. Cost comprises the direct costs of construction and capitalised borrowing costs on related borrowed funds during the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment or investment properties when completed and ready for use. 倘物業、廠房及設備項目各部分之可 使用年期不同,則該項目之成本將合 理分配至各部分,而各部分將個別折 舊。剩餘價值、可使用年期及折舊方 法至少於各財政年度年結日審閱,並 作出調整(倘適用)。

Investments and other financial assets (policies under HKFRS 9 applicable from 1 January 2018)

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost and fair value through other comprehensive income.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under HKFRS 15 in accordance with the policies set out for "Revenue recognition (applicable from 1 January 2018)" below.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding.

POLICIES (continued) Investments and other financial assets (policies under HKFRS 9 applicable from 1 January 2018) (continued)

Initial recognition and measurement (continued)

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

Financial assets at amortised cost (debt instruments)

The Group measures financial assets at amortised cost if both of the following conditions are met:

- the financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

Financial assets at fair value through other comprehensive income (debt instruments)

The Group measures debt investments at fair value through other comprehensive income if both of the following conditions are met:

- The financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets designated at fair value through other comprehensive income (equity investments)

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity investments designated at fair value through other comprehensive income when they meet the definition of equity under HKAS 32 *Financial Instruments: Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Investments and other financial assets (policies under HKFRS 9 applicable from 1 January 2018) (continued)

Subsequent measurement (continued)

Financial assets designated at fair value through other comprehensive income (equity investments) (continued)

Gains and losses on these financial assets are never recycled to the statement of profit or loss. Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in other comprehensive income. Equity investments designated at fair value through other comprehensive income are not subject to impairment assessment.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortised cost or at fair value through other comprehensive income, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

This category includes derivative instruments and equity investments which the Group had not irrevocably elected to classify at fair value through other comprehensive income. Dividends on equity investments classified as financial assets at fair value profit or loss are also recognised as other income in the statement of profit or loss when the right of payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investments and other financial assets (policies under HKFRS 9 applicable from 1 January 2018) (continued)

Financial assets at fair value through profit or loss (continued) A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss. Embedded derivatives are measured at fair value with changes in fair value recognised in the statement of profit or loss. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss category.

A derivative embedded within a hybrid contract containing a financial asset host is not accounted for separately. The financial asset host together with the embedded derivative is required to be classified in its entirety as a financial asset at fair value through profit or loss.

Investments and other financial assets (policies under HKAS 39 applicable before 1 January 2018)

Initial recognition and measurement

Financial assets are classified, at initial recognition, as financial assets at fair value through profit or loss and loans and receivables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. When financial assets are recognised initially, they are measured at fair value, plus transaction costs that are attributable to the acquisition of the financial assets, except in the case of financial assets recorded at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investments and other financial assets (policies under HKAS 39 applicable before 1 January 2018) (continued)

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such assets are subsequently measured at amortised cost using the effective interest rate method less any allowance for impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and includes fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in other income and gains in the statement of profit or loss. The loss arising from impairment is recognised in the statement of profit or loss in finance costs for loans and in other expenses for receivables.

Derecognition of financial assets (policies under HKFRS 9 applicable from 1 January 2018 and policies under HKAS 39 applicable before 1 January 2018)

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Derecognition of financial assets (policies under HKFRS 9 applicable from 1 January 2018 and policies under HKAS 39 applicable before 1 January 2018) (continued)

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets (policies under HKFRS 9 applicable from 1 January 2018)

The Group recognises an allowance for ECLs for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

For debt investments at fair value through other comprehensive income, the Group applies the low credit risk simplification. At each reporting date, the Group evaluates whether the debt investments are considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Group reassesses the external credit ratings of the debt investments. In addition, the Group considers that there has been a significant increase in credit risk when contractual payments are more than 30 days past due.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Impairment of financial assets (policies under HKFRS 9 applicable from 1 January 2018) (continued)

General approach (continued)

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Debt investments at fair value through other comprehensive income and financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECIs except for trade receivables which apply the simplified approach as detailed below.

- Stage 1 Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs
- Stage 2 Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs
- Stage 3 Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

Simplified approach

For trade receivables that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

金融資產之減值(根據香港財務報告準 則第9號自二零一八年一月一日起適用 之政策)(續)

一般處理方法(續)

本集團認為,金融資產合約還款逾期 90日,即屬發生違約事件。然而,在 若干情況下,如內部或外部資料顯 示,本集團不可能悉數收取尚欠合約 金額(在不計及其所持有之任何信用增 級前),屆時本集團亦可能認為發生金 融資產違約事件。在並無合理期望能 收回合約現金流量時,便會撇銷金融 資產。

根據一般處理方法,按公平值計入其 他全面收入之債務投資及按攤銷成本 計算之金融資產須計提減值,並會分 類至以下所述階段,以計量預期信貸 虧損,惟應收賬款除外,其應用簡化 處理方法(詳見下文)。

POLICIES (continued) Impairment of financial assets (policies under HKFRS 39 applicable before 1 January 2018)

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. An impairment exists if one or more events that occurred after the initial recognition of the asset have an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that a debtor or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Financial assets carried at amortised cost

For financial assets carried at amortised cost, the Group first assesses whether impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

The amount of any impairment loss identified is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate (i.e., the effective interest rate computed at initial recognition).

POLICIES (continued) Impairment of financial assets (policies under HKFRS 39 applicable before 1 January 2018) (continued)

Financial assets carried at amortised cost (continued)

The carrying amount of the asset is reduced through the use of an allowance account and the loss is recognised in the statement of profit or loss. Interest income continues to be accrued on the reduced carrying amount using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Loans and receivables together with any associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the Group.

If, in a subsequent period, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited to other expenses in the statement of profit or loss.

Financial liabilities (policies under HKFRS 9 applicable from 1 January 2018 and policies under HKAS 39 applicable before 1 January 2018)

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, derivative financial instruments and interest-bearing bank borrowings.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

POLICIES (continued) Financial liabilities at fair value through profit or loss (policies under HKFRS 9 applicable from 1 January 2018)

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by HKFRS 9. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognised in the statement of profit or loss. The net fair value gain or loss recognised in the statement of profit or loss does not include any interest charged on these financial liabilities.

Financial liabilities designated upon initial recognition as at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in HKFRS 9 are satisfied. Gains or losses on liabilities designated at fair value through profit or loss are recognised in the statement of profit or loss, except for the gains or losses arising from the Group's own credit risk which are presented in other comprehensive income with no subsequent reclassification to the statement of profit or loss. The net fair value gain or loss recognised in the statement of profit or loss does not include any interest charged on these financial liabilities.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial liabilities at fair value through profit or loss (policies under HKFRS 9 applicable from 1 January 2018) (continued)

Financial liabilities designated upon initial recognition as at fair value through profit or loss are designated at the date of initial recognition and only if the criteria in HKAS 39 are satisfied.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss.

Derecognition of financial liabilities (policies under HKFRS 9 applicable from 1 January 2018 and policies under HKAS 39 applicable before 1 January 2018)

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING

POLICIES (continued) Offsetting of financial instruments (policies under HKFRS 9 applicable from 1 January 2018 and policies under HKAS 39 applicable before 1 January 2018)

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Derivative financial instruments and hedge accounting (policies under HKFRS 9 applicable from 1 January 2018 and policies under HKAS 39 applicable before 1 January 2018)

Initial recognition and subsequent measurement

The Group uses derivative financial instruments, such as interest rate swaps, to hedge its interest rate risk. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative.

Any gains or losses arising from changes in fair value of derivatives are taken directly to the statement of profit or loss, except for the effective portion of cash flow hedges, which is recognised in other comprehensive income and later reclassified to profit or loss when the hedged item affects profit or loss.

For the purpose of hedge accounting, hedges are classified as:

- fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment; or
- cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction, or a foreign currency risk in an unrecognised firm commitment; or
- hedges of a net investment in a foreign operation.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued) Derivative financial instruments and hedge accounting

Derivative financial instruments and hedge accounting (policies under HKFRS 9 applicable from 1 January 2018 and policies under HKAS 39 applicable before 1 January 2018) (continued)

Initial recognition and subsequent measurement (continued) At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which the Group wishes to apply hedge accounting, the risk management objective and its strategy for undertaking the hedge.

Before 1 January 2018, the documentation included identification of the hedging instrument, the hedged item or transaction, the nature of the risk being hedged and how the Group assessed the hedging instrument's effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges were expected to be highly effective in achieving offsetting changes in fair value or cash flows and were assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Starting from 1 January 2018, the documentation includes identification of the hedging instrument, the hedged item, the nature of the risk being hedged and how the Group will assess whether the hedging relationship meets the hedge effectiveness requirements (including the analysis of sources of hedge ineffectiveness and how the hedge ratio is determined). A hedging relationship qualifies for hedge accounting if it meets all of the following effectiveness requirements:

- There is "an economic relationship" between the hedged item and the hedging instrument.
- The effect of credit risk does not "dominate the value changes" that result from that economic relationship.
- The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Group actually hedges and the quantity of the hedging instrument that the Group actually uses to hedge that quantity of hedged item.

Hedges which meet all the qualifying criteria for hedge accounting are accounted for as follows:

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING

POLICIES (continued) **Derivative financial instruments and hedge accounting** (policies under HKFRS 9 applicable from 1 January 2018 and policies under HKAS 39 applicable before 1 January 2018) (continued)

Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognised directly in other comprehensive income in the cash flow hedge reserve, while any ineffective portion is recognised immediately in the statement of profit or loss. The cash flow hedge reserve is adjusted to the lower of the cumulative gain or loss on the hedging instrument and the cumulative change in fair value of the hedged item.

The amounts accumulated in other comprehensive income are accounted for, depending on the nature of the underlying hedged transaction. If the hedged transaction subsequently results in the recognition of a non-financial item, the amount accumulated in equity is removed from the separate component of equity and included in the initial cost or other carrying amount of the hedged asset or liability. This is not a reclassification adjustment and will not be recognised in other comprehensive income for the period. This also applies where the hedged forecast transaction of a nonfinancial asset or non-financial liability subsequently becomes a firm commitment to which fair value hedge accounting is applied.

For any other cash flow hedges, the amount accumulated in other comprehensive income is reclassified to the statement of profit or loss as a reclassification adjustment in the same period or periods during which the hedged cash flows affect the statement of profit or loss.

If cash flow hedge accounting is discontinued, the amount that has been accumulated in other comprehensive income must remain in accumulated other comprehensive income if the hedged future cash flows are still expected to occur. Otherwise, the amount will be immediately reclassified to the statement of profit or loss as a reclassification adjustment. After the discontinuation, once the hedged cash flow occurs, any amount remaining in accumulated other comprehensive income is accounted for depending on the nature of the underlying transaction as described above.

Derivative financial instruments and hedge accounting (policies under HKFRS 9 applicable from 1 January 2018 and HKAS 39 applicable before 1 January 2018) (continued)

Current versus non-current classification

Derivative instruments that are not designated as effective hedging instruments are classified as current or non-current or separated into current and non-current portions based on an assessment of the facts and circumstances (i.e., the underlying contracted cash flows).

- Where the Group expects to hold a derivative as an economic hedge (and does not apply hedge accounting) for a period beyond 12 months after the end of the reporting period, the derivative is classified as non-current (or separated into current and non-current portions) consistently with the classification of the underlying item.
- Embedded derivatives that are not closely related to the host contract are classified consistently with the cash flows of the host contract.
- Derivative instruments that are designated as, and are effective hedging instruments, are classified consistently with the classification of the underlying hedged item. The derivative instruments are separated into current portions and non-current portions only if a reliable allocation can be made.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the first-in, first-out basis and, in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of overheads. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING

POLICIES (continued) Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, and assets similar in nature to cash, which are not restricted as to use.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss.

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued) Income tax (continued)

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries and associates, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

POLICIES (continued)

Income tax (continued)

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue recognition (applicable from 1 January 2018)

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

When the contract contains a financing component which provides the customer a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. When the contract contains a financing component which provides the Group a significant financial benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

The hotel operation of the Group is subject to HKFRS 15, including rendering of accommodation services, catering services, travel agency services and laundry services, each deemed as a separate performance obligation. Such performance obligation is satisfied over time as the service is rendered and revenue is recognised accordingly. Payment is generally due within 30 days upon completion of the service.

Revenue from other sources

Rental income is recognised on a time proportion basis over the lease terms.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING

POLICIES (continued)

Revenue recognition (applicable from 1 January 2018) (continued)

Other income

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

Revenue recognition (applicable before 1 January 2018)

Revenue is recognised when it is probable that the economic benefits will flow to the Group and when the revenue can be measured reliably, on the following bases:

- (a) from the rendering of services:
 - hotel operation income is recognised upon the provision of the services and the usage by guests of the hotel facilities;
- (b) interest income, on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument to the net carrying amount of the financial asset; and
- (c) rental income, on a time proportion basis over the lease terms.

Contract liabilities (applicable from 1 January 2018)

A contract liability is the obligation to transfer goods to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued) Share-based payments

The Company operates a share option scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Employees (including directors) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments ("equity-settled transactions").

The cost of equity-settled transactions with employees for grants is measured by reference to the fair value at the date at which they are granted.

The cost of equity-settled transactions is recognised in employee benefit expense, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the statement of profit or loss for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING

POLICIES (continued) Share-based payments (continued)

Share-based payments (continued)

For awards that do not ultimately vest because non-market performance and/or service conditions have not been met, no expense is recognised. Where awards include a market or non-vesting condition, the transactions are treated as vesting irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payments, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. This includes any award where non-vesting conditions within the control of either the Group or the employee are not met. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

If the outstanding options have dilutive effect, such effect will be reflected as additional share dilution in the computation of earnings per share.

POLICIES (continued) Other employee benefits (continued)

Pension scheme (continued)

The employees of the Group's subsidiaries which operate in Mainland China are required to participate in a central pension scheme operated by the local municipal government. These subsidiaries are required to contribute a certain percentage of their payroll costs to the central pension scheme. The contributions are charged to the statement of profit or loss as they become payable in accordance with the rules of the central pension scheme.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Dividends

Final dividends are recognised as a liability when they are approved by the shareholders in a general meeting. Proposed final dividends are disclosed in the notes to the financial statements.

Interim dividends are simultaneously proposed and declared, because the Company's memorandum and articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as a liability when they are proposed and declared.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING

POLICIES (continued) Foreign currencies

These financial statements are presented in Hong Kong dollars, which is the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement of translation of monetary items are recognised in the statement of profit or loss.

Differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss with the exceptions of monetary items that are designated as part of the hedge of the Group's net investment of a foreign operation. These are recognised in other comprehensive income until the net investment is disposed of, at which time the cumulative amount is reclassified to the statement of profit or loss. Tax charges and credits attributable to exchange differences on those monetary items are also recorded in other comprehensive income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss, respectively).

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a nonmonetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or nonmonetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign currencies (continued)

The functional currencies of certain subsidiaries of the Group are currencies other than the Hong Kong dollar. As at the end of the reporting period, the assets and liabilities of these entities are translated into Hong Kong dollars at the exchange rates prevailing at the end of the reporting period and their statements of profit or loss are translated into the presentation currency at the weighted average exchange rates for the year.

The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the statement of profit or loss.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on acquisition are treated as assets and liabilities of the foreign operation and translated at the closing rate.

For the purpose of the consolidated statement of cash flows, the cash flows of the Mainland China and overseas subsidiaries are translated into Hong Kong dollars at the weighted average exchange rates for the year of the cash flows. Frequently recurring cash flows of the Mainland China and overseas subsidiaries throughout the year are translated into Hong Kong dollars at the weighted average exchange rates for the year.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

2.4 主要會計政策概要(續)

外幣(續)

本集團若干附屬公司之功能貨幣為港 元以外之貨幣。於呈報期間結算日, 該等實體之資產及負債按呈報期間結 算日之適用匯率換算為港元,而其損 益表則按年內加權平均匯率換算為呈 列貨幣。

就此產生之匯兑差額於其他全面收入 確認,並於匯兑波動儲備累計。出售 海外業務時,與該特定海外業務有關 之其他全面收入部分於損益表確認。

因收購海外業務而產生的任何商譽及 收購所得資產與負債之賬面值之公平 值調整額視為海外業務的資產及負債 處理,並根據期末匯率換算。

就綜合現金流量表而言,中國大陸及 海外附屬公司之現金流量按現金流量 之年度加權平均匯率換算為港元。中 國大陸及海外附屬公司於整個年度內 不斷出現之現金流量按年內加權平均 匯率換算為港元。

3. 重大會計判斷及估計

在編製本集團財務報表時,管理層須 作出判斷、估計及假設,而有關判 斷、估計及假設可能影響所呈報收 益、開支、資產與負債金額以及其隨 附披露及或然負債披露。然而,此等 假設及估計之不明朗因素可能會導致 在未來需要對受影響資產或負債之賬 面值作出重大調整。

For the year ended 31 December 2018 截至二零一八年十二月三十一日止年度

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND

ESTIMATES (continued) Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

Lease classification – Group as lessor

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, that it retains all the significant risks and rewards of ownership of these properties which are leased out on operating leases.

Classification between investment properties and owner-occupied properties

The Group determines whether a property qualifies as an investment property, and has developed criteria in making that judgement. Investment property is a property held to earn rentals or for capital appreciation or both. Therefore, the Group considers whether a property generates cash flows largely independently of the other assets held by the Group. Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could be sold separately or leased out separately under a finance lease, the Group accounts for the portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgement is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as an investment property.

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

重大會計判斷及估計(續)

判斷

3.

管理層在應用本集團會計政策時,除 了作出涉及估計之判斷外,亦曾作出 下列對財務報表已確認金額構成最重 大影響之判斷:

租賃分類-本集團作為出租人

本集團就其投資物業組合訂立商用物 業租賃。根據對有關安排之條款及條 件作出之評估,本集團確定其保留上 述根據經營租賃出租之物業之擁有權 之所有重大風險及回報。

投資物業與自用物業之分類

本集團判斷物業是否符合投資物業之 條件,並已制定此類判斷之標準。投 資物業指為賺取租金或資本升值或同 時為上述兩個目的而持有之物業。因 此,本集團會考慮物業產生之現金流 是否大部分獨立於本集團持有之其他 資產。若干物業其中一部分是為賺取 租金或資本升值而持有,而另一部分 則為用於生產或提供商品或服務或行 政用途而持有。如該等部分可獨立出 售或根據融資租賃獨立出租,則本集 團會將該等部分獨立入賬。如有關部 份不能獨立出售,則只有在為用於生 產或提供商品或服務或行政用途而持 有之部分不屬重大之情況下,有關物 業才屬投資物業。本集團對各項物業 作出判斷,以確定配套服務是否重要 致使物業不符合投資物業之條件。

估計之不明朗因素

下文載列有極大風險導致下一個財政 年度內資產與負債賬面值須作出重大 調整之主要未來假設,以及於呈報期 間結算日估計不明朗因素之其他主要 來源。

For the year ended 31 December 2018 截至二零一八年十二月三十一日止年度

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (continued)

Estimation uncertainty (continued)

Depreciation of items of property, plant and equipment

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. Useful lives are determined based on management's past experience with similar assets and estimated changes in technologies. If the estimated useful lives changed significantly, adjustment of depreciation will be provided in the future year. The carrying amount of property, plant and equipment at 31 December 2018 was approximately HK\$2,914,691,000 (2017: approximately HK\$3,601,397,000). More details are given in note 15.

Impairment of non-financial assets

The Group assesses whether there are any indicators of impairment for all non-financial assets at the end of each reporting period. Non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset or a cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The Group involved external experts to perform an impairment assessment on the French hotel property with a carrying amount of HK\$2,873,832,000 as at 31 December 2018 (2017: HK\$3,041,180,000) based on an income approach to estimate its fair value less costs of disposal. The assessment is based on key assumptions, such as the average daily rate per room, occupancy rate, discount rate, long-term growth rate and terminal capitalisation rate.

Deferred tax assets

Deferred tax assets are recognised for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management estimation is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. The carrying value of deferred tax assets relating to recognised tax losses at 31 December 2018 was HK\$19,945,000 (2017: HK\$24,595,000). The amount of unrecognised tax losses at 31 December 2018 was HK\$192,208,000 (2017: HK\$176,373,000). Further details are contained in note 28 to the financial statements.

3. 重大會計判斷及估計(續)

估計之不明朗因素(續)

物業、廠房及設備項目折舊 折舊以直線法於估計可使用年期內

撤銷各項物業、廠房及設備項目之 成本至其剩餘價值計算。可使用年 期根據管理層對同類資產與估計技術 變動之過往經驗釐定。倘若估計可使 用年期出現重大變動,則會於來年對 折舊作出調整。於二零一八年十二月 三十一日,物業、廠房及設備之賬面值 約為2,914,691,000港元(二零一七年: 約3,601,397,000港元)。進一步詳情載 於附註15。

非金融資產減值

本集團於各呈報期間結算日評估所有 非金融資產是否有任何減值跡象。非 金融資產於出現跡象顯示賬面值可能 無法收回時進行減值測試。倘資產或 現金產生單位之賬面值高於其可收 回金額(即公平值減銷售成本與使用 價值兩者之較高者),即表示出現減 值。本集團安排外聘專家根據收入法 就二零一八年十二月三十一日賬面值 為 2,873,832,000港元(二零一七年: 3,041,180,000港元)之法國酒店物業 進行減值評估,估計其公平值減去出 售成本。有關評估乃基於關鍵假設進 行,例如:每間客房之平均日租、入 住率、貼現率、長期增長率及最終資 本化率。

遞延税項資產

遞延税項資產於有可能動用應課税 溢利抵銷虧損之情況下,就所有未 動用税項虧損確認。釐定可予確認 遞延税項資產之金額時,管理層須 作出重大估計,有關估計乃按照項 能產生未來應課税溢利之時間及 額,連同未來税務計劃策略作出。與 產一八年十二月三十一日,與資 之 賑面值為19,945,000港元(二零一八年 十二月三十一日,未確認税項虧損 金額為192,208,000港元(二零一七年: 176,373,000港元)。進一步詳情載於財 務報表附註28。

4. OPERATING SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their products and services and has two reportable operating segments (2017: two) as follows:

- (a) the hotel operation segment engaged in the operation of hotel business in France; and
- (b) the money lending segment engaged in providing mortgage loans in Hong Kong.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on reportable segment profit/ loss, which is a measure of adjusted profit/loss before tax from continuing operations. The adjusted profit/loss before tax from continuing operations is measured consistently with the Group's profit before tax from continuing operations except that interest income and corporate expenses are excluded from such measurement. For the year ended 31 December 2018 截至二零一八年十二月三十一日止年度

4. 經營分部資料

本集團根據所提供之產品及服務將業 務單位分類並加以管理。本集團有下 列兩個可報告經營分部(二零一七年: 兩個):

- (a) 在法國經營酒店業務之酒店經 營分部;及
- (b) 在香港提供按揭貸款之融資業 務分部。

管理層獨立監察營運分部之業績,以 便作出有關資源分配及表現評估之決 策。經營分部之表現乃根據可報告分 部溢利/虧損(其為來自持續經營業務 之經調整除税前溢利/虧損之計量)予 以評估。來自持續經營業務之經調整 除税前溢利/虧損之計量與本集團來 自持續經營業務之除税前溢利之計量 一致,惟利息收入及公司開支並不計 算在內。

11. INCOME TAX

Hong Kong profits tax has been provided at a two-tier profits tax system. The profits tax rate for the first HK\$2 million of profits of enterprises will be lowered to 8.25% (that is, 50% of the normal profits tax rate). Profits above that amount will continue to be subject to the standard tax rate of 16.5%. Each group of enterprises may only nominate one enterprise to benefit from the lower tax rate. During the year ended 31 December 2018, the Group has nominated Kai Yuan Capital Limited to benefit from the lower tax rate. During the year ended 31 December 2017, none of the enterprises in the Group generated any estimated assessable profits arising in Hong Kong and, therefore, the Group did not make such nomination.

The provision for PRC current income tax was based on the statutory rate of 25% (2017: 25%) of the assessable profits of the Group's subsidiaries in Mainland China as determined in accordance with the relevant income tax rules and regulations of the PRC Corporate Income Tax Law, which came into effect on 1 January 2008.

The provision of French current income tax was based on the rate of 28% for the estimated assessable profits within EUR500,000 (inclusive) and 33.33% for those above EUR500,000 (2017: 33.33%) of the estimated assessable profits arising during the year. The following tax rates are effective from 1 January 2018 in France:

For year 2018	28% for the estimated assessable profits within EUR500,000 (inclusive) and 33.33% for those above EUR500,000
For year 2019	28% for the estimated assessable profits within EUR500,000 (inclusive) and 31% for those above EUR500,000
For year 2020	28%
For year 2021	26.5%
For year 2022 and afterwards	25%

The provision of Luxembourg's current income tax is based on the rate of 29.22% (2017: 29.22%) of the estimated assessable profits arising during the year.

12. 已終止業務(續)

Earnings per share amounts for the abovementioned discontinued operation are stated below:

上述已終止業務之每股盈利金額載列 如下:

		2018 二零一八年	2017 二零一七年
Basic and diluted earnings per share from the discontinued operation	來自已終止業務之每股基本及	HK2.65 cents	HK0.02 cents
	攤薄盈利	2.65港仙	0.02港仙

The calculation of basic and diluted earnings per share from the discontinued operation is based on the profit attributable to ordinary equity holders of the Company from the discontinued operation and the weighted average number of ordinary shares of 12,778,880,000 (2017: 12,778,880,000) in issue during the year. The share option scheme disclosed in note 30 gives rise to an anti-dilutive effect, which has been ignored in the calculation of diluted earnings per share from the discontinued operation.

13. DIVIDENDS

The directors do not recommend the payment of any dividend in respect of the year (2017: Nil).

14. EARNINGS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE COMPANY

The calculation of the basic earnings per share amount is based on the profit for the year attributable to ordinary equity holders of the Company, and the weighted average number of 12,778,880,000 (2017: 12,778,880,000) shares in issue during the year.

The calculation of the diluted earnings per share amount is based on the profit for the year attributable to ordinary equity holders of the Company. The weighted average number of ordinary shares used in the calculation is the number of ordinary shares in issue during the year, as used in the basic earnings per share calculation, and the weighted average number of ordinary shares assumed to have been issued at no consideration on the deemed exercise or conversion of all dilutive potential ordinary shares into ordinary shares.

No adjustment has been made to the basic earnings per share amounts presented for the years ended 31 December 2018 and 2017 in respect of a dilution as the impact of the share options had an anti-dilutive effect on the basic earnings per share amounts presented. 來自已終止業務之每股基本及攤薄 盈利乃根據本公司普通權益持有人 應佔來自已終止業務之年內溢利以 及年內已發行普通股加權平均股 數12,778,880,000股(二零一七年: 12,778,880,000股)計算。由於在附註30 中所披露的購股權計劃會產生反攤薄 影響,故於計算來自已終止業務之每 股攤薄盈利時並無計算在內。

13. 股息

董事並不建議派付本年度任何股息(二 零一七年:無)。

14. 本公司普通權益持有人應佔每 股盈利

每股基本盈利金額乃根據本公司普通 權益持有人應佔年內溢利以及年內已 發行股份加權平均股數12,778,880,000 股(二零一七年:12,778,880,000股)計 算。

每股攤薄盈利金額乃根據本公司普通 權益持有人應佔年內溢利計算。計算 時所使用之普通股加權平均股數為計 算每股基本盈利時所使用之年內已發 行普通股數目,以及假設所有具潛在 攤薄影響之普通股被視為行使或轉換 為普通股而無償發行之普通股加權平 均股數。

並無就截至二零一八年及二零一七年 十二月三十一日止年度已呈報之每股 基本盈利金額作出攤薄調整,原因為 購股權之影響對已呈報之每股基本盈 利金額產生反攤薄影響。

Hotel operation revenue is normally settled by cash or credit card. For travel agents and certain corporate customers, the credit period is generally one month. There is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are non-interest-bearing.

An ageing analysis of trade receivables as at the end of the reporting period, based on the invoice date and net of loss allowance, is as follows:

酒店經營收入一般以現金或信用卡支 付。就旅行社及若干公司客戶而言, 賒賬期一般為一個月。並無重大信貸 集中風險。本集團概無就應收賬款結 餘持有任何抵押品或其他信貸增強措 施。應收賬款並不計息。

Such receivables relate to a large number of diversified customers for whom there was no recent history of default. Under HKAS 39, no provision for impairment is necessary. With the adoption of HKFRS 9 from 1 January 2018, the Group applies a simplified approach in calculating ECLs. The ECL rate is considered to be minimal based on historical credit loss experience and forwardlooking factor adjustment is insignificant. Therefore, there is still no loss allowance for impairment under HKFRS 9. 有關應收賬款涉及眾多客戶,而有關 客戶近期皆無違約紀錄。根據香港會 計準則第39號,毋須作出減值撥備。 自二零一八年一月一日起採納香港財 務報告準則第9號後,本集團應用 意理方法來計算預期信貸虧損絕驗,預期信貸虧損經驗,預期信貸虧損經驗,預期信貸虧損經驗 之調整並不重大。因此,根據香港財 務報告準則第9號,仍然毋須作出減值 虧損撥備。

The Group's loans receivable, which arise from the money lending business of providing mortgage loans in Hong Kong, are denominated in Hong Kong dollars.

Loans receivable are secured by collateral providing by customers, bear interest and are repayable within fixed terms agreed with the customers.

With the adoption of HKFRS 9 from 1 January 2018, the Group applies a general approach in calculating ECLs for loans receivable. All loans receivable are never past due and classified as Stage 1. As at 31 December 2018, the market value of collateral, which management monitors on an ongoing basis, was higher than the carrying amount of loans receivable with an adequate safety buffer. Consequently, no allowance for ECLs is necessary under HKFRS 9.

本集團之應收貸款源自在香港提供按 揭貸款之融資業務,其以港元計值。

應收貸款由客戶提供之抵押品作抵 押,計息並按與客戶協定之固定年期 償還。

自二零一八年一月一日起採納香港財 務報告準則第9號後,本集團應用一般 處理方法來計算應收貸款之預期信貸 虧損。所有應收貸款皆從無逾期,並 分類為第一階段。於二零一八年十二 月三十一日,抵押品(其獲管理層持續 監察)之市值高於應收貸款之賬面值, 具有充足的安全緩衝。因此,根據香 港財務報告準則第9號毋須作出預期信 貸虧損撥備。

The recoverability of deposits and other receivables was assessed with reference to the credit status of the debtors, and the expected credit loss as at 31 December 2018 is considered to be minimal.

As at 31 December 2018, none of the deposits and other receivables was either past due or impaired and there was no history of default.

The Group's interest receivables, which arise from the money lending business of providing mortgage loans in Hong Kong, are denominated in Hong Kong dollars. Interest receivables are secured by collateral provided by customers and repayable with fixed terms agreed with the customers. Considering the adequate safety buffer from the collateral mentioned in note 20, no allowance for ECLs is necessary under HKFRS 9. 按金及其他應收款項之收回性乃經參 考債務人之信貸情況而評估,而於二 零一八年十二月三十一日之預期信貸 虧損被視為微不足道。

於二零一八年十二月三十一日,上述 按金及其他應收款項並無逾期或減 值,亦無違約紀錄。

本集團之應收利息來自在香港提供按 揭貸款之融資業務,其以港元計值。 應收利息以客戶提供之抵押品作抵 押,並須於本集團與客戶協定之固定 年期內償還。鑑於附註20所述抵押品 具有充足的安全緩衝,故此根據香港 財務報告準則第9號毋須作出預期信貸 虧損撥備。

As at 31 December 2018 and 2017, the pledged deposits represented the time deposits pledged to secure repayment of interests arising from interest-bearing bank borrowings.

As at 31 December 2018, the cash and bank balances of the Group denominated in RMB amounted to HK\$11,523,000 (2017: HK\$37,223,000). The RMB is not freely convertible into other currencies, however, under Mainland China's Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for other currencies through banks authorised to conduct foreign exchange business.

Cash at banks earns interest at floating rates based on daily bank deposit rates. Short term time deposits are made for varying periods of between one day and three months in Hong Kong and Mainland China depending on the immediate cash requirements of the Group, and earn interest at the respective short term time deposit rates. The bank balances and pledged deposits are deposited with creditworthy banks with no recent history of default. The carrying amounts of these assets approximate to their fair values. 於二零一八年及二零一七年十二月三 十一日,已抵押存款指已作抵押用以 擔保償還計息銀行借貸利息之定期存 款。

25. CONTRACT LIABILITIES

Before the adoption of HKFRS 15, the Group recognised consideration received from customers in advance as receipt in advance. Under HKFRS 15, the amount is classified as contract liabilities. Therefore, upon adoption of HKFRS 15, the Group reclassified HK\$87,000 from receipt in advance to contract liabilities in relation to the consideration received from customers in advance as at 1 January 2018. As at 31 December 2018, the carrying amount was HK\$156,000. During the year ended 31 December 2018, contract liabilities of HK\$87,000 at the beginning of the year was recognised as revenue.

在採納香港財務報告準則第15號前, 本集團把從客戶預先收取所得之代價 確認為預收款項。根據香港財務報告 準則第15號,有關金額分類為合約負 債。因此,就截至二零一八年一月一 日從客戶預先收取所得之代價而言, 在採納香港財務報告準則第15號後, 本集團把87,000港元由預收款項重新分 類至合約負債。於二零一八年十二月 三十一日,賬面值為156,000港元。於 截至二零一八年十二月三十一日止年 度,年初之合約負債87,000港元已確認 為收益。

At 31 December 2018 and 2017, the Group had an interest rate swap agreement in place with a notional amount of EUR175,000,000 whereby it received interest at a variable rate equal to the Europe Interbank Offered Rate ("EURIBOR") on the notional amount and paid interest at a fixed rate of 0.516%.

The swap is designated as a hedging instrument to hedge the exposure to changes in future cash outflows of interests arising from its 5-year secured loan (*note 27*). The secured loan and the interest rate swap agreement have the same critical terms. The hedge of the interest rate swap was assessed to be effective, and a net gain of HK\$7,899,000 (2017: net gain of HK\$8,926,000) was included in the hedging reserve as follows:

於二零一八年及二零一七年十二月三 十一日,本集團訂立了名義金額為 175,000,000歐羅之利率掉期合約。據 此,本集團就名義金額按相當於歐元 區銀行同業拆息(「歐元區銀行同業拆 息」)之浮動利率收取利息,並按固定 息率0.516厘支付利息。

上述掉期合約被指定作為對沖工具, 旨在對沖五年期有抵押貸款(*附註27*) 利息之未來現金流出變動風險。上述 有抵押貸款及利率掉期合約具有相同 重要條款。是項利率掉期合約對沖被 評定為湊效,收益淨額7,899,000港元 (二零一七年:收益淨額8,926,000港元) 已計入對沖儲備如下:

26. DERIVATIVE FINANCIAL INSTRUMENTS (continued) Fair value hedge under HKFRS 9 – Interest rate risk

There is an economic relationship between the hedged item and the hedging instrument as the terms of the interest rate swap match the terms of the fixed rate loan (i.e., notional amount, maturity, payment and reset dates). The Group has established a hedge ratio of 1:1 for the hedging relationships as the underlying risk of the interest rate swap is identical to that of the hedged risk component. To test the hedge effectiveness, the Group uses the hypothetical derivative method and compares the changes in the fair value of the hedging instrument against the changes in the fair value of the hedged item attributable to the hedged risk.

Hedge ineffectiveness can arise from:

- Differences in the timing of the cash flows of the hedged items and the hedging instruments
- Different interest rate curves applied to discount the hedged items and hedging instruments
- The counterparties' credit risks differently impacting the fair value movements of the hedging instruments and hedged items
- Changes to the forecasted amounts of cash flows of the hedged items and hedging instruments

As at 31 December 2018, the swap will mature within one year.

There is no hedge ineffectiveness recognised in profit or loss. Consequently, the change in fair value used for measuring ineffectiveness for the year ended 31 December 2018 of the hedging instruments is the same with that of the hedged items, equaling the amount of the total fair value loss included in the hedging reserve of HK\$2,184,000 above. For the year ended 31 December 2018 截至二零一八年十二月三十一日止年度

26. 衍生金融工具(續)

香港財務報告準則第9號下之公平值對 沖-利率風險

由於利率掉期合約之條款與定息貸款 之條款(即名義金額、到期日、付款及 重訂日期)一致,故此被對沖項目與對 沖工具之間存在經濟關係。本集團就 對沖關係設定之對沖比率為1:1,原因 為利率掉期合約之相關風險與被對沖 風險部分之相關風險相同。就測試對 沖之有效性而言,本集團會使用虛擬 衍生工具法,並將對沖工具之公平值 變動與對沖風險有關的被對沖項目之 公平值變動作比較。

對沖無效可能歸因於下列各項:

- 被對沖項目與對沖工具之間之
 現金流量時間差異
- · 應用不同的利率曲線貼現被對 沖項目及對沖工具
- 對手方之信貸風險相異地影響 對沖工具及被對沖項目之公平 值變動
- 被對沖項目及對沖工具之預期 現金流量金額之變動

於二零一八年十二月三十一日,掉期 合約將於一年內到期。

並無於損益表確認對沖無效金額。因此,於截至二零一八年十二月三十一日止年度,用於計量無效金額之對沖 工具公平值變動與被對沖項目者相同,相等於上述計入對沖儲備之公平 值虧損總金額2,184,000港元。

Management has assessed that the fair values of cash and cash equivalents, pledged deposits, loans receivable, trade receivables, trade payables, financial assets included in prepayments, other receivables and other assets, financial liabilities included in other payables and accruals and the interest-bearing bank borrowings approximate to their carrying amounts largely due to the short term maturities of these instruments.

Management has assessed that the fair values of the non-current portion of interest-bearing bank borrowings of the Group approximate to their fair values due to their floating interest rates.

The Group's corporate finance department headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The corporate finance team reports directly to the chief financial officer and the audit committee. At each reporting date, the corporate finance team analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the chief financial officer.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values: 管理層已評估下列各項之公平值:現 金及現金等值物、已抵押存款、應收 貸款、應收賬款、應付賬款、計入預 付款項、其他應收款項及其他資產之 金融資產、計入其他應付款項及應計 費用之金融負債以及計息銀行借貸, 由於上述工具於短期內到期,故其公 平值與賬面值相若。

根據管理層所作評估,由於按浮動息 率計息,故此本集團計息銀行借貸非 即期部分之公平值與其公平值相若。

本集團之企業財務部門由財務經理領 導,專責釐定金融工具公平值計量之 政策及程序。企業財務團隊直接向財 務總監及審核委員會匯報。於各個呈 報日期,企業財務團隊會分析金融工 具之價值變動,並釐定估值所應用之 主要輸入數據。估值由財務總監審閱 及審批。

金融資產及負債之公平值以該工具於 自願交易方(而非強迫或清倉銷售)當 前交易下之可交易金額入賬。本集團 使用下列方法及假設估算公平值:

41. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (continued)

An equity investment designated at fair value through other comprehensive income was purchased in September 2018 and the purchase price was deemed as its fair value as at 31 December 2018 due to the purchase occurred at a time approaching to the end of the reporting period. The directors believe that the estimated fair values are reasonable, and that they were the most appropriate values at the end of the reporting period.

The Group enters into derivative financial instruments with creditworthy financial institutions. Derivative financial instruments, mainly interest rate swaps, are measured using valuation techniques similar to swap models, using present value calculations. The models incorporate various market observable inputs including the credit quality of counterparties and interest rate curves. The carrying amounts of interest rate swaps are the same as their fair values.

42. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise interestbearing bank borrowings and cash and cash equivalents. The main purpose of these financial instruments is to raise finance for the Group's operations. The Group has various other financial assets and liabilities such as trade receivables, other receivables and trade payables, which arise directly from its operations.

The main risks arising from the Group's financial instruments are credit risk and liquidity risk. Management reviews and agrees policies for managing each of these risks, which are summarised below. The Group's accounting policies in relation to financial instruments are set out in note 2.4 to the financial statements.

Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily loans receivable).

The Group trades only with recognised and creditworthy third parties and related parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant.

The carrying amounts of cash and cash equivalents, pledged deposits, trade receivables, loans receivable and financial assets included in prepayments, other receivables and other assets included in the consolidated statement of financial position represent the Group's maximum exposure to credit risk in relation to its financial assets. The Group has no other financial assets which carry significant exposure to credit risk.

42. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Credit risk (continued)

For money lending business, the Group manages and analyses the credit risk for each of their new and existing clients before standard payment terms and conditions are offered. If there is no independent rating, the Group assesses the credit quality of the customer based on the customer's financial position, past experience and other factors. The Group holds collateral against loans receivable and interest receivables in the form of mortgages over property. The majority of the collateral are residential properties, commercial properties and industrial properties and all of the collateral are located in Hong Kong. Individual risk limits are set based on the value of collateral provided by customers and internal or external ratings in accordance with limits set by the directors. The utilisation of credit limits is regularly monitored.

The Group generally grants loans with a loan-to-value ratio of no more than 70% of the value in the valuation report of the property for the first property mortgage, and where it is a subordinate property mortgage, the aggregate lending from all lenders to the customer should not exceed 70% of the value of the underlying property. The directors meet regularly to review the loan-to-value ratio. The directors consider that the credit risk arising from loans and interest receivables is significantly mitigated by the property held as collateral, with reference to the estimated market value of the property. The Group generally maintains at all time each individual loan and interest receivable amount to be less than 70% of the total fair value of the corresponding collateral at the estimated selling price.

Further qualitative and quantitative information regarding loans receivable is disclosed in note 20 to the financial statements.

All the carrying amounts of financial assets at amortised cost, applying the general approach under HKFRS 9 applicable from 1 January 2018, are classified in Stage 1 in terms of ECLs as at 31 December 2018.
