#### **GENERAL OVERVIEW**

In respect of the consolidated results of the Company and its subsidiaries (collectively the "Group") for the year ended 31st December, 2018, the Board of Directors of the Company (the "Board") is pleased to report a consolidated profit after taxation attributable to shareholders of the Company of HK\$407,681,000 (2017: HK\$1,255,486,000). This represents a decrease of approximately 67.53% as compared with the year 2017. Basic earnings per share amounted to 20.45 HK cents (2017: 69.44 HK cents).

Unlike the case in 2017 when results were enhanced by the recognition of a one-off gain on disposals of a joint venture and subsidiaries of the Group in an aggregate amount of HK\$1,075,148,000 in respect of the Group's investments in property projects in Tianjin, the People's Republic of China ("China"), operating profit and revenue of the Group decreased for the year 2018. Nevertheless, the Group received dividends of HK\$90,393,000 (2017: HK\$86,498,000) from its listed and unlisted long-term equity investments for the year under review.

As a result, the Group reported an operating profit before taxation of HK\$366,207,000 for the year under review (2017: HK\$2,234,167,000) after excluding an unrealized gain on fair value changes of investment properties of the Group in Shanghai, China of HK\$318,311,000 (2017: HK\$154,862,000) arising from market valuation as at the end of the year under review pursuant to applicable accounting standards.

#### DIVIDEND

The Board has declared an interim dividend of 18 HK cents per share for the year ended 31st December, 2018 (2017: 43 HK cents per share) payable to the shareholders whose names appear on the register of members of the Company on Thursday, 30th May, 2019. The dividend is payable in cash and dividend warrants are expected to be despatched on Tuesday, 11th June, 2019.

#### **OPERATIONS REVIEW**

The Mainland of China, particularly Shanghai, is the base of the Group's major operations.

The property investment segment of the Group in Shanghai was the Group's primary profit maker by contributing a segment profit of HK\$491,359,000 (2017: HK\$328,102,000), which was derived from the steady recurrent rental and management income from the investment properties of the Group as well as the unrealized gain on fair value changes of these investment properties upon revaluation at the year-end.

As a result of recognition of gross proceeds from the property projects of the Group in Shanghai and the Macao Special Administrative Region ("Macau") of China, the property development and trading segment was the secondary profit contributor of the Group and this generated a segment profit of HK\$78,985,000 (2017: HK\$965,497,000).

On the other hand, apart from the securities trading business in the Hong Kong Special Administrative Region ("Hong Kong") of China making an insignificant profit, the other business segments of the Group reported losses during the year under review.

Projects in Pudong of Shanghai were the primary source of revenue and accounted for approximately 91.53% of the gross proceeds from

#### Jinqiao-Zhangjiang Project, Shanghai

In September 2010, the Company acquired through a wholly-owned subsidiary the land use rights of a plot of land with a site area of approximately 300,700 square meters (the "Tomson Portion") located in Jinqiao-Zhangjiang District of Pudong and adjacent to Tomson Shanghai Pudong Golf Club. Vacant possession of over 80% of the site area of the Tomson Portion has been delivered to the Group in phases but delivery of the last phase of the Tomson Portion ("Phase 7") did not take place as agreed.

In January 2013, the said wholly-owned subsidiary entered into a conditional framework agreement to acquire the land use rights of a plot of land with a site area of approximately 422,174.6 square meters (the "Sports Portion") for landscaping and sports facilities purposes and a residential development project (the "Development Project") on a plot of land with a site area of approximately 28,286.2 square meters in Jinqiao-Zhangjiang District of Pudong. As these two plots of land are intermingled with the Tomson Portion, the Group had intended to incorporate these land lots into the master development plan of the Tomson Portion. The Group entered into a supplemental agreement in July 2016 to cancel the inter-conditional requirement in respect of the completion of the transfers of the land use rights of the Sports Portion and the Development Project in order to facilitate the acquisition of the Development Project by the Group which was subsequently completed in 2016.

#### 上海市湯臣湖庭花園

湯臣湖庭花園為本集團於浦東三八河區 域毗鄰湯臣上海浦東高爾夫球會之一項 低密度住宅項目,本集團持有該項目 70%權益。

項目中所有住宅單位經已售出,而本集團保留一個會所作租賃用途。該房產項目於二零一八年度來自租金收入及管理費之收入合共約9,560,000港元,佔本集團之經營收益總額約1.40%。

#### 上海市金橋-張江項目

於二零一零年九月,本公司透過一家全資附屬公司收購一幅位於浦東金橋一張江地區與湯臣上海浦東高爾夫球會毗鄰及地塊面積約300,700平方米之土地(「湯臣地塊」)之土地使用權。湯臣地塊中逾80%之地塊面積已分期交付予本集團,惟湯臣地塊中最後一期(「第七期」)並未按協定交付。

於二零一三年一月,上述全資附屬公司 訂立了一份有條件的框架協議以收購 於浦東金橋一張江地區內一幅地塊面積 約為422,174.6平方米之土地(「體 塊」)之土地使用權,以作為景觀及體體 設施之用,及在區內一幅地塊面積 是8,286.2平方米之土地上的住宅發展 目(「發展項目」)。由於該兩幅地塊 管地塊相互穿插環繞,本集團有意 等地塊納入湯臣地塊之總體發展規劃 等地塊納入湯臣地塊之總體發展規劃 等地塊納入湯臣地塊之總體發展規劃 等地塊納入湯臣地塊之總體發展規劃 等地塊納入湯臣地塊之總體發展規劃 等地塊納入湯臣地塊之總體發展規 事地塊於二零一六年七月簽訂補充協地 本集團於二零一六年七月簽訂補充協地 用權及發展項目之互為條件規定以方 用權及發展項目之互為條件規定以方 不集團收購發展項目,並其後於二零 一六年完成收購。 Initial plans were for the Tomson Portion to be developed into a low-density residential development in phases. Construction works on the first phase of the Tomson Portion ("Phase 1") and the Development Project had been put on hold pending clearance of related planning matters due to subsequent zoning and planning adjustments.

On 11th January, 2017, Pudong New Area Planning and Land Authority of Shanghai published on its website a public notice with respect to the proposed adjustment and change to Zhangjiabang Wedge-shaped Green Space Development Plan which covers the portion located in Jinqiao-Zhangjiang District of Pudong and north of a stream named Zhangjiabang (the "Northern Portion"), within which the Tomson Portion, the Development Project and the Sports Portion are located ("Proposed Planning Changes"). Having conducted a preliminary review and analysis of the Proposed Planning Changes, the Company noted that the Proposed Planning Changes, if effected, might involve the following: (i) the original site over which Phase 7 is located would not be delivered to the Group and instead, another piece of land in the Northern Portion might be allocated to the Group in substitution and as replacement; (ii) while the location of Phase 1 and the Development Project would remain unchanged, there might be an adjustment and relocation of the other plots forming the Tomson Portion (which are originally located along the boundaries and in the centre of the Northern Portion) such that the aforesaid plots will be consolidated with Phase 1 and the Development Project to become three combined plots within the Northern Portion to be allocated to the Group for residential development ("Revised Tomson Residential Development"); (iii) if the aforesaid relocation were to materialize, the Revised Tomson Residential Development would be relocated farther away from the high voltage pylons running along the northern side of the original Tomson Portion; (iv) there might be a slight decrease in the aggregate site area of the Revised Tomson Residential Development; and (v) the original Sports Portion might not be available for delivery to the Group because all the remaining areas surrounding the Revised Tomson Residential Development within the Northern Portion will be re-categorized as "public greenery and sports lands". In August 2017, the municipal government of Shanghai issued its consent in principle to the Proposed Planning Changes. The Group and the contracting party have been collaborating closely in negotiations with relevant government authorities, with the aim of putting into effect the adjustments under the Proposed Planning Changes in the best interests of all parties concerned.

本集團初步計劃將湯臣地塊分期開發為一項低密度住宅發展項目。由於其後控制性詳細規劃之變動,湯臣地塊第一期(「第一期」)及發展項目之建築工程已暫時擱置以待處理相關規劃事宜。

於二零一七年一月十一日,上海市浦東 新區規劃和土地管理局於其網站刊登有 關建議調整及變動張家浜楔形綠地控制 性詳細規劃之公告,該規劃涵蓋位於浦 東金橋-張江地區及一條名為張家浜的 河流北面地區內的地塊(「北地塊」),而 湯臣地塊、發展項目及體育地塊均位於 北地塊內(「規劃變更建議」)。經對規劃 變更建議作出初步審閱及分析,本公司 知悉,規劃變更建議如獲實行,可能涉 及以下方面:(i)第七期所位於之原地塊 將不會交付予本集團,而可能代之以北 地塊內之另一幅土地提供予本集團,以 取代及替換原地塊;(ii)在第一期及發展 項目之位置保持不變的同時,組成湯臣 地塊之其他地塊(該等地塊原位於北地 塊邊緣範圍及中心區域內)可能會作出 調整及變遷,以令上述地塊將與第一期 及發展項目合併,成為北地塊內的三幅 合併地塊以提供予本集團作住宅發展用 途(「經修訂湯臣住宅發展項目」); (iii) 若上述變遷落實,經修訂湯臣住宅發展 項目將遷移遠離沿著原湯臣地塊北面之 高壓電纜區域; (iv)有關經修訂湯臣住宅 發展項目之總地塊面積或會輕微減少; 及(v)原體育地塊可能無法交付予本集 團,原因是北地塊內經修訂湯臣住宅發 展項目周圍之所有剩餘區域將被重新分 類為「公共綠地及體育用地」。於二零 一七年八月,上海市政府發出批覆原則 上同意規劃變更建議。本集團及協議方 一直緊密合作與相關政府機關商議,以 有關各方之最佳利益著想落實規劃變更 建議項下之調整事宜。

Equity attributable to owners of the Company was HK\$13,027,057,000 in total, a decrease of approximately 1.49% while equity per share was HK\$6.26, representing a decrease of approximately 10.70% from 2017 which was mainly attributable to depreciation in value of Renminbi and the issue of new shares under the Company's scrip dividend scheme for the interim dividend for 2017 during the year under review.

The Group's operations and investments for the year ended 31st December, 2018 were funded by cash on hand, and revenue from operating activities, investing activities and financing activities.

The net cash inflow was mainly attributable to the clearance of bills receivable in relation to the balance of proceeds from the disposal of subsidiaries in Tianjin of China in 2017 and new borrowings raised, but this was partly offset by placement of pledged bank deposits and repayment of borrowings during the year under review.

As at 31st December, 2018, excluding contract liabilities/receipts in advance which represented the deposits received from the sale of properties, of the liabilities of the Group of HK\$8,351,733,000 (2017: HK\$8,043,949,000), about 54.47% were taxation under current liabilities, about 18.00% were deferred tax liabilities, about 17.10% were borrowings while about 10.43% were trade and other payables and accruals. 本集團於截至二零一八年十二月三十一 日止年度之業務及投資所需資金來自手 頭現金,以及經營業務、投資業務及融 資活動之收入。

於報告期末,本集團之現金及現金等值項目為4,268,775,000港元,增加約15.59%。於回顧年度內,本集團從其額營及投資業務分別產生現金流入淨額16,758,000港元及278,416,000港元。經額16,758,000港元及278,416,000港元。經額428,007,000港元後,本集團於回顧年度加723,181,000港元(二零一七年:616,608,000港元)。現金流入淨額主要歸因於兑現於二零一七年出售位於中國天津市之附屬公司之收益餘額之應收則關年度內敍造已抵押銀行存款及償還借款所抵銷。

於二零一八年十二月三十一日,除合約 負債/預收款項(指就銷售物業所收取 之訂金)外,本集團在負債8,351,733,000 港元(二零一七年:8,043,949,000港元) 中,約54.47%為流動負債項下之税項、 約18.00%為遞延税項負債、約17.10%為 借款、而約10.43%為應付貿易賬款、其 他應付賬款及預提費用。應付貿易賬款、 借款及遞延税項之詳情分別載於本集團 於回顧年度之綜合財務報表第159至第 160頁以及第164至第166頁附註27(d)、 附註30及附註31。 The Group's borrowings as at 31st December, 2018 amounted to HK\$1,428,355,000 (2017: HK\$797,215,000), equivalent to approximately 10.96% (2017: 6.03%) of the equity attributable to owners of the Company at the same date. The Group did not employ any financial instruments for financing and treasury management. All of the borrowings were under security and subject to floating interest rates. Approximately 77% of the borrowings were denominated in Hong Kong Dollar while the remainder was denominated in Renminbi. Of these borrowings, approximately 33.86% were due for repayment within one year from the end of the reporting period, approximately 10.76% were repayable more than one year but not exceeding two years from the end of the reporting period, approximately 40.05% were due for repayment more than two years but not more than five years from the end of the reporting period, while the remaining 15.33% were due for repayment more than five years from the end of the reporting period.

At the end of the reporting period, the Group had commitments in relation to expenditure on properties under development of HK\$126,800,000 (2017: HK\$153,182,000) which were contracted but not provided for. The Group anticipates that these commitments will be funded from its future operating revenue, bank borrowings and other sources of finance where appropriate.

As at 31st December, 2018, the Group recorded a current ratio of 1.94 times (2017: 1.86 times) and a gearing ratio (total liabilities to equity attributable to the owners of the Company) of 66.35% (2017: 62.50%). There was no significant change in the current ratio while the rise in the gearing ratio was mainly attributable to raising of new borrowings.

#### Charge on Assets

As at 31st December, 2018, assets of the Group with an aggregate carrying value of HK\$1,759,080,000 (2017: HK\$7,306,461,000) were pledged for securing borrowings of the Group of HK\$1,428,355,000 (2017: HK\$797,215,000). Details of the assets pledged are set out in Note 39 to the consolidated financial statements of the Group for the year under review on page 188.

於二零一八年十二月三十一日,本集團之借款為1,428,355,000港元(二零一七年:797,215,000港元),相等於同日之本公司權益持有人應佔權益之約10.96%(二零一七年:6.03%)。本集團在融資及財資管理方面並無採用任何金融工具。所有借款均為有抵押,及按浮動利率計息。約77%之借款以港元列值,而餘額10.76%須於報告期末起計一年內償還,約40.05%須於報告期末起計兩年以上但不超過兩年內償還,約40.05%須於報告期末起計兩年以上但不超過五年內償還,而餘額15.33%則須於報告期末起計五年後償還。

於報告期末,本集團有關發展中物業支出之承擔為126,800,000港元(二零一七年:153,182,000港元)且為已訂約但尚未撥備。本集團預期將以日後之營運收入、銀行借款及其他適合之融資來源以應付該等承擔。

於二零一八年十二月三十一日,本集團 錄得流動比率為1.94倍(二零一七年:1.86 倍)及資本負債比率(即負債總額對本公司權益持有人應佔權益之比率)為 66.35%(二零一七年:62.50%)。流動比率並無重大變動,而資本負債比率上升 乃主要歸因於新增借款所致。

#### 資產抵押

於二零一八年十二月三十一日,本集團 賬面總值1,759,080,000港元(二零一七年:7,306,461,000港元)之資產已予抵 押,以作為本集團借款額1,428,355,000 港元(二零一七年:797,215,000港元)之 擔保。資產抵押之詳情載於本集團於回 顧年度之綜合財務報表第188頁附註39。

#### Foreign Exchange Exposure

The majority of the Group's assets and liabilities are denominated in Renminbi, and the liabilities are well covered by the assets. The depreciation in value of Renminbi may have an adverse impact on the Group's results and net asset value. In addition, all of the other assets and liabilities of the Group are denominated in either Hong Kong Dollar or United States Dollar. Hence, the Group anticipates that the exchange risk exposure is manageable.

#### Contingent Liabilities

The Group had no material contingent liabilities as at 31st December, 2018 (2017: Nil).

#### PRINCIPAL RISKS AND UNCERTAINTIES

The Group's financial situation, operating results and business prospects may be directly or indirectly affected by a number of risks and uncertainties including business risks, operational risks, financial risks and changes of local laws and regulations in the jurisdictions in which it operates. Information on the estimation uncertainty, capital risk management and financial risk management is set out respectively in Notes 5, 32 and 33(b) to the consolidated financial statements of the Group for the year under review on pages 119 to 122, and pages 167 to 179.

Property development and investment is one of the principal business segments of the Group and price fluctuation is a major risk that may affect the Group's results and asset value. The management holds a positive view of the potential demand for high-end properties in the Mainland of China and will monitor closely the marketing and pricing strategies of the Group's property projects to maximize the return on investment.

There may be other risks and uncertainties in addition to those stated above which are not known to the Group or which may not be material now but could turn out to be material in the future.

本集團大部份資產及負債乃以人民幣列值,而資產可充份地償付負債。人民幣 貶值可能對本集團之業績及資產淨值造成不利影響。此外,本集團所有其他資 產及負債乃以港元或美元列值。因此, 本集團預期匯兑風險可予控制。

除上述提及者外,亦可能存在其他本集 團未知之風險及不明朗因素,或目前未 必屬於重大但日後可能變成重大之其他 風險及不明朗因素。

#### **PROSPECTS**

The tightening measures imposed by the central and local governments on the real estate market in the Mainland and Macau of China remained in place, although signs of relaxation on a city-by-city basis have been reported recently. Uncertainties in the global economy emanating from the commencement of ending of quantitative easing and threatened and implemented trade wars between the biggest economies and trading blocs would impact unfavourably on the behaviour of potential purchasers of property and the consuming public as a whole. However, signs of easing of tension are emerging in the China-USA trade tariff negotiations and fiscal incentives recently announced by the central government of the Mainland should help steady an otherwise probable decline in consumer confidence. On the other hand, recent reforms of the individual income tax regime in the Mainland may have a negative impact on the deployment of expatriate staff by the multinational corporations and this might in turn affect the demand for quality apartments in the Mainland.

Noticeable efforts have been directed by the Mainland government towards the development of properties earmarked for the residential leasing market and it is therefore anticipated that with the resultant allocation of resources by government and corporate entities, this sector should see greater growth in the Mainland in the near future.

The Group has built up its reputation as a developer of high-end residential properties in the Mainland and remains optimistic about the underlying demand for properties catering to a high-income middle class and high net-worth individuals in the Mainland. The Group will endeavour to maintain the momentum in its sale and leasing plans for the property portfolio in Shanghai and Macau. It is anticipated that Tomson Riviera and One Penha Hill will be the Group's principal sources of profit in the year 2019. In addition, investment in Jinqiao-Zhangjiang project in Pudong, Shanghai represents an important component of the Group's strategy.

## 展望

內地政府正致力推動物業發展供住宅租 賃市場之用。因此,預計由於政府及企 業實體朝此方向分配資源,該行業將於 不久將來在內地出現較高增長。

本集團在中國內地高端住宅物業的開發 已建立名聲,對內地高收入中產階層及 高資產淨值人士之相關物業需求仍持 觀態度。本集團將努力保持其在上海 以及澳門之物業組合之銷售及出租計劃 勢頭。預期湯臣一品及湯臣主教山壹號 將為本集團於二零一九年度之主要溢利 來源。此外,於上海市浦東的金橋一張 江項目的投資乃本集團策略上的重要部 署。 In light of evolving volatility in the Hong Kong and global financial markets, the management will continue to adopt a conservative approach in managing the securities trading portfolio of the Group, with an emphasis on securities with steady recurrent yield. Whilst property development and investment will still be the focus of the Group's business and investment strategies, the Group will continue to explore and evaluate prudently other potential investment opportunities. However, it will be the objective of the Group to maintain an optimum balance in the allocation of its resources both geographically and in different business segments.

鑒於香港及全球金融市場日趨波動,管理層將繼續採取保守方針管理本集團之證券買賣組合,並側重於具有穩定經常性收益之證券。同時,物業發展及投資仍將為本集團之業務及投資策略重心,本集團將繼續審慎探索及評估其他潛在投資機會。然而,本集團的目標旨在於地域上及不同業務分類間就資源分配維持最適當之平衡。

- (a) Madam Hsu Feng takes up both the posts of Chairman of the Board and Managing Director of the Company. While this is a deviation from the CG Code, dual role leadership provides the Company and its subsidiaries (collectively the "Group") with a strong and consistent leadership and allows for more effective operation of the business. The Board is of the view that adequate check and balance of power is in place. Responsibilities for the Company's daily business management are shared amongst Madam Hsu and other members of the executive committee of the Board. Besides, all major decisions are made in consultation with members of the Board or appropriate committees of the Board in accordance with the provisions of the code on risk management and internal control of the Company;
- (b) none of the existing independent non-executive Directors of the Company are appointed for a specific term, but they are subject to retirement and re-election at least once every three years at annual general meetings of the Company pursuant to the Articles of Association of the Company (the "Articles");

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **KEY AUDIT MATTERS**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### Valuation of investment properties

We identified the valuation of investment properties as a key audit matter due to the significance of the assets and involvement of management judgement and estimation in determining the fair value.

The fair value of investment properties (which included commercial properties, residential properties and industrial properties in Shanghai of the People's Republic of China ("PRC")) amounted to HK\$7,980,161,000 as at 31st December, 2018, with gain on fair value changes recognised in the consolidated statement of profit or loss of HK\$318,311,000 for the year then ended.

As disclosed in Notes 5 and 16 to the consolidated financial statements, in estimating the fair value of these investment properties, the Group engaged a professional independent valuer (the "Valuer") to establish and determine the appropriate valuation technique and inputs to the valuation. The significant unobservable input are reversionary yield, taking into account annual unit market rental income and unit market value of comparable properties. A slight increase in the reversionary yield would result in a significant decrease in fair value, and vice versa.

#### How our audit addressed the key audit matter

Our procedures in relation to the valuation of investment properties included:

• Evaluating the competence, capabilities and objectivity of the Valuer;

## 關鍵審計事項

關鍵審計事項是根據我們的專業判斷, 認為對本期綜合財務報表的審計最為重 要的事項。這些事項是在我們審計整體 綜合財務報表及出具意見時進行處理的。 我們不會對這些事項提供單獨的意見。

### 投資物業估值

我們識別投資物業的估值為關鍵審計事項,因其涉及的資產重大和涉及管理層的判斷及估計來釐定其公平值。

於二零一八年十二月三十一日,投資物業(包括位於中華人民共和國(「中國」) 上海市的商用物業、住宅物業及工業物 業)的公平值為7,980,161,000港元,在本 年度止的綜合損益表中確認的公平值變 動時產生之收益為318,311,000港元。

於綜合財務報表附註5及16中披露,在估計投資物業的公平值時, 貴集團聘請獨立專業估值師(「估值師」)以設立及釐定合適估值技術及估值之輸入數據。重大非可觀察輸入數據為復歸收益率,經計入單位市場年度租金收入及可作比較物業的單位市值。復歸收益率輕微上升將導致公平值大幅下跌,反之亦然。

#### 我們在審計中如何處理關鍵審計事項

我們就投資物業估值執行的程序包括:

• 評估估值師的資歷、能力及客觀性;

- Obtaining an understanding of the valuation process and significant assumptions and critical judgement areas from the management to assess if the investment approach is appropriate for the respective properties and industry norms;
- Evaluating the appropriateness of the estimations used, in particular, the underlying assumptions and methodologies, based on our knowledge of the properties market of the relevant locations; and
- Assessing the reasonableness of the key inputs used by the Valuer in the valuation model, including the reversionary yield, taking into account annual unit market rental income and unit market value of comparable properties and adjustment factors for location and other individual factors such as road frontage, size of property and facilities against current market data and entity specific information on a sample basis.

#### Provision for land appreciation tax

We identified the provision for land appreciation tax ("LAT") calculations as a key audit matter since significant judgement and estimation required in determining the amount of LAT to be paid by the Group within each of the property development projects.

The Group is subject to LAT in the Mainland of the PRC. As disclosed in Note 13 to the consolidated financial statements, the provision for LAT of HK\$169,666,000 was recognised in the consolidated statement of profit or loss for the year ended 31st December, 2018. The Group had LAT payable amounted to HK\$4,436,804,000 as at 31st December, 2018.

LAT has been provided at ranges of progressive rates of the appreciation value, with certain allowable deductions including land costs, borrowing costs and the relevant property development expenditures, which are the key inputs in the calculation of the LAT based on management's best estimates.

- 從管理層取得對估值過程、重大假設及重要判斷的瞭解,以評估投資方式是否符合相關物業及行業規範;
- 根據我們對相關地點的房地產市場的知識,評估所用之估算的適當性,特別是相關假設及方法;及
- 評估估值師在估值模型中所採用之關鍵輸入數據的合理性,包括復歸收益率,經計及單位市場年度租金收入及可作比較物業的單位市值及所在地的調整因素及其他個別因素(如臨街道路、物業大小及設施規模),並抽樣與目前市場數據及實體特定資料進行比較。

### 土地增值税撥備

我們識別土地增值税撥備的計算為關鍵審計事項,因其涉及重大判斷及估計來 釐定 貴集團在每一個物業發展項目中 需要支付的土地增值税。

貴集團須繳納中國內地之土地增值税。 於綜合財務報表附註13中披露,截至二 零一八年十二月三十一日止年度的綜合 損益表中確認的土地增值税撥備為 169,666,000港元。於二零一八年十二月 三十一日, 貴集團的應付土地增值税 金額為4,436,804,000港元。

於計及根據管理層之最佳估計以計算土 地增值税之關鍵輸入數據,即若干獲准 扣減項目(包括土地成本、借貸成本及 相關物業發展開支)後,已就增值部份 按一系列遞增税率作出土地增值税撥備。

#### How our audit addressed the key audit matter

Our procedures in relation to the provision for LAT included:

- Obtaining an understanding from the management of the Group about the basis adopted in arriving at the provision for LAT;
- Assessing the Group's provision for LAT computation prepared by the management of the Group with reference to relevant rules and regulations with the assistance of our tax specialists in the PRC; and
- Checking the financial information, including land costs, borrowing costs and relevant development expenditures, used in the calculation of provision for LAT to the Group's historical financial data.

#### **OTHER INFORMATION**

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### 我們在審計中如何處理關鍵審計事項

我們就土地增值税撥備執行的程序包括:

- 從 貴集團管理層取得土地增值稅 撥備時所採納的依據;
- 参考相關的條例及規則及在我們於 中國之稅務專家的協助下,評估 貴集團管理層對土地增值稅撥備的 計算;及
- 檢查計算土地增值稅撥備中所採用 的財務信息,包括土地成本、借款 成本和相關開發支出,與 貴集團 的歷史財務數據進行比較。

### RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

貴公司董事須負責根據香港會計師公會 頒佈的《香港財務報告準則》及香港《公 司條例》的披露要求擬備真實而中肯的 綜合財務報表,並對其認為為使綜合財 務報表的擬備不存在由於欺詐或錯誤而 導致的重大錯誤陳述所需的內部監控負 責。

在擬備綜合財務報表時,董事負責評估 貴集團持續經營的能力,並在適用情況 下披露與持續經營有關的事項,以及使 用持續經營為會計基礎,除非董事有意 將 貴集團清盤或停止經營,或別無其 他實際的替代方案。

管理層須負責監督 貴集團的財務報告 過程。

## 核數師就審計綜合財務報表 承擔的責任

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

 Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

# 3. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (Continued)

Except as described below, the application of the other new HKFRSs and amendments to HKFRSs had no material effect on the consolidated financial statements of the Group for current or prior accounting periods.

In the current year, the Group has applied HKFRS 9 "Financial Instruments" and the related consequential amendments to other HKFRSs. HKFRS 9 introduces new requirements for (1) the classification and measurement of financial assets and financial liabilities, (2) expected credit losses ("ECL") for financial assets and (3) general hedge accounting.

The Group has applied HKFRS 9 in accordance with the transition provisions set out in HKFRS 9, i.e. applied the classification and measurement requirements (including impairment) retrospectively to financial instruments that have not been derecognised as at 1st January, 2018 (date of initial application) and has not applied the requirements to financial instruments that have already been derecognised as at 1st January, 2018. The difference between carrying amounts as at 31st December, 2017 and the carrying amounts as at 1st January, 2018 were recognised in the opening retained earnings and other components of equity, without restating comparative information.

Accordingly, certain comparative information may not be comparable as comparative information was prepared under Hong Kong Accounting Standard ("HKAS") 39 "Financial Instruments: Recognition and Measurement". Accounting policies resulting from application of HKFRS 9 are disclosed in Note 4.

# 3. 應用新訂《香港財務報告 準則》及其修訂本(續)

除下文所述外,應用其他新訂《香港財務報告準則》及其修訂本對本集團於本會計期間或過往會計期間 之綜合財務報表並無重大影響。

於本年度,本集團已應用《香港財務報告準則》第9號「金融工具」及其他相關《香港財務報告準則》相應之修訂。《香港財務報告準則》第9號引入(1)財務資產及財務負債之分類及計量,(2)財務資產之預期信貸虧損及(3)一般對沖會計法之新規定。

本集團已根據《香港財務報告準則》 第9號所載的過渡性條文應用《香港 財務報告準則》第9號,即對於二零 一八年一月一日(首次應用日期)尚 未終止確認的金融工具追溯應用分 類及計量規定(包括減值),且並無 對於二零一八年一月一日已經終止 確認的金融工具應用該等規定。二 零一七年十二月三十一日之賬面值 及二零一八年一月一日之賬面值之 差異於期初之保留溢利及其他權益 部份確認,並無重列比較資料。

因此,若干比較資料未必與根據《香港會計準則》第39號「金融工具:確認及計量」編製之比較資料具可比性。應用《香港財務報告準則》第9號所導致之會計政策於附註4披露。

# 3. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (Continued)

# Summary of effects arising from initial application of HKFRS 9

For available-for-sale equity investments reclassified to equity instruments at fair value through other comprehensive income ("FVTOCI"), the Group elected to present in other comprehensive income for the fair value changes of all its equity investments previously classified as available-for-sale. These investments are not held for trading and not expected to be sold in the foreseeable future. At the date of initial application of HKFRS 9, HK\$188,713,000 were reclassified from available-for-sale investments to equity instruments at FVTOCI, of which HK\$48,091,000 related to unlisted equity investments previously measured at cost less impairment under HKAS 39. The fair value gains of HK\$317,688,000 related to those unlisted equity investments previously carried at cost less impairment were adjusted to equity instruments at FVTOCI and investment reserve as at 1st January, 2018. In addition, the corresponding deferred tax liability of HK\$79,515,000 was adjusted to the investment reserve and impairment losses previously recognised of HK\$32,215,000 were transferred from retained earnings to investment reserve as at 1st January, 2018. The cumulative fair value gains of HK\$92,299,000 relating to those investments previously carried at fair value continued to accumulate in investment reserve.

#### 首次應用《香港財務報告準則》 第9號產生之影響概要

# 3. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (Continued)

# Summary of effects arising from initial application of HKFRS 15

The Group has applied HKFRS 15 for the first time in the current year. HKFRS 15 superseded HKAS 18 "Revenue", HKAS 11 "Construction Contracts" and the related interpretations. HKFRS 15 applies to all contracts with the Group's customers except for leases within the scope of HKAS 17 "Leases".

The Group has applied HKFRS 15 retrospectively with the cumulative effect of initially applying this standard recognised at the date of initial application, 1st January, 2018. Any difference at the date of initial application was recognised in the opening retained earnings (or other components of equity, as appropriate) and comparative information has not been restated.

Information about the Group's performance obligations and the accounting policies resulting from application of HKFRS 15 are disclosed in Notes 6 and 4 respectively.

HKFRS 16 introduces a comprehensive model for the identification of lease arrangements and accounting treatments for both lessors and lessees. HKFRS 16 will supersede HKAS 17 "Leases" and the related interpretations when it becomes effective.

HKFRS 16 distinguishes lease and service contracts on the basis of whether an identified asset is controlled by a customer. Distinctions of operating leases and finance leases are removed for lessee accounting, and is replaced by a model where a right-of-use asset and a corresponding liability have to be recognised for all leases by lessees, except for short-term leases and leases of low value assets.

《香港財務報告準則》第16號就識別租賃安排和出租人和承租人的會計處理引入全面的模式。《香港財務報告準則》第16號將於生效時取代《香港會計準則》第17號「租賃」及相關詮釋。

《香港財務報告準則》第16號根據所識別的資產是否由客戶控制而區分租賃和服務合同。就承租人會計而言,經營租賃和融資租賃的區分已予剔除,取而代之的模式是承租人對所有租賃必須確認使用權資產和相應負債,但短期租賃和低價值資產的租賃除外。

# 3. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (Continued)

The right-of-use asset is initially measured at cost and subsequently measured at cost (subject to certain exceptions) less accumulated depreciation and impairment losses, adjusted for any remeasurement of the lease liability. The lease liability is initially measured at the present value of the lease payments that are not paid at that date. Subsequently, the lease liability is adjusted for interest and lease payments, as well as the impact of lease modifications, amongst others. For the classification of cash flows, the Group currently presents upfront lease premium for land as investing cash flows in relation to leasehold lands for own use and those classified as investment properties while other operating lease payments are presented as operating cash flows. Upon application of HKFRS 16, lease payments in relation to lease liability will be allocated into a principal and an interest portion which will be presented as financing cash flows by the Group, upfront lease premium for land will continue to be presented as investing or operating cash flows in accordance with the nature as appropriate.

Under HKAS 17, the Group has already recognised prepaid lease payments for leasehold lands where the Group is a lessee. The application of HKFRS 16 may result in potential changes in classification of these assets depending on whether the Group presents right-to-use assets separately or within the same line item at which the corresponding underlying assets would be presented if they were owned.

Other than certain requirements which are also applicable to lessor, HKFRS 16 substantially carries forward the lessor accounting requirements in HKAS 17, and continues to require a lessor to classify a lease either as an operating lease or a finance lease.

Furthermore, extensive disclosures are required by HKFRS 16.

# 3. 應用新訂《香港財務報告 準則》及其修訂本(續)

使用權資產按成本進行首次計量, 並隨後按成本(某些例外情況除外) 減去累計折舊和減值虧損計量,並 對租賃負債的任何重新計量進行調 整。租賃負債最初是以該日未支付 的租賃付款額的現值計量。隨後, 因應利息和租賃付款以及租賃修訂 的影響等而對租賃負債進行調整。 對於現金流量分類,本集團目前將 有關自用的租賃土地和分類為投資 物業的首付土地租賃費用列作投資 現金流量,而其他經營租賃付款則 呈列作經營現金流量。本集團在應 用《香港財務報告準則》第16號時, 有關租賃負債的租賃付款將分為本 金及利息部份,列作融資現金流 量,而首付土地租賃費用則視情況 將繼續按照其性質列作投資或經營 現金流量。

根據《香港會計準則》第17號,本集團已就本集團作為承租人的租賃土地確認預付租賃款項。應用《香港財務報告準則》第16號或會導致該等資產的分類發生潛在改變,此取決於本集團是否單獨呈列使用權資產,或在同一項目內呈列相應相關資產(若有關資產由本集團擁有)。

除適用於出租人的若干規定外,《香港財務報告準則》第16號實質上沿用《香港會計準則》第17號的出租人會計規定,並繼續要求出租人將租賃劃分為經營租賃或融資租賃。

此外,《香港財務報告準則》第16號 要求廣泛的披露。

# 3. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (Continued)

As at 31 December 2018, the Group has non-cancellable operating lease commitments as disclosed in Note 36(b). A preliminary assessment indicates that these arrangements will meet the definition of a lease. Upon application of HKFRS 16, the Group will recognise a right-of-use asset and a corresponding liability in respect of all these leases unless they qualify for low value or short-term leases.

In addition, the Group currently considers refundable rental deposits paid of HK\$2,532,000 and refundable rental deposits received of HK\$79,143,000 as rights and obligations under leases to which HKAS 17 applies. Based on the definition of lease payments under HKFRS 16, such deposits are not payments relating to the right to use the underlying assets. Accordingly, the carrying amounts of such deposits may be adjusted to amortised cost. Adjustments to refundable rental deposits paid would be considered as additional lease payments and included in the carrying amount of right-of-use assets. Adjustments to refundable rental deposits received would be considered as advance lease payments.

The application of new requirements may result in changes in measurement, presentation and disclosure as indicated above. The Group intends to elect the modified retrospective approach for the application of HKFRS 16 as lessee and will recognise the cumulative effect of initial application to opening retained earnings without restating comparative information.

Except for the new HKFRSs mentioned above, the Directors of the Company anticipate that the application of all other new HKFRSs and amendments to HKFRSs will have no material impact on the Group's consolidated financial statements in the foreseeable future.

# 3. 應用新訂《香港財務報告 準則》及其修訂本(續)

於二零一八年十二月三十一日,本 集團有附註36(b)所披露之不可撤銷 經營租賃承擔。初步評估顯示,該 等安排將符合租賃的定義。於應用 《香港財務報告準則》第16號後,本 集團將就該等所有租賃確認使用權 資產及相應負債,若該等租賃符合 低價值或短期租賃除外。

應用新規定或會導致上文所示之計量、呈列及披露發生變動。本集團作為承租人擬選擇經修訂追溯法應用《香港財務報告準則》第16號,並將確認首次應用對年初保留溢利的累計影響,而並無重列比較資料。

除上文所述之新訂《香港財務報告 準則》外,本公司董事預期應用所 有其他新訂《香港財務報告準則》及 其修訂本對本集團可見將來之綜合 財務報表並無重大影響。

# 4. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared on the historical cost basis, except for investment properties and certain financial instruments, which are measured at fair values, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 "Share-based Payment", leasing transactions that are within the scope of HKAS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 "Inventories" or value in use in HKAS 36 "Impairment of Assets".

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

#### 4. 主要會計政策

如下列之會計政策所述,本綜合財 務報表乃按照歷史成本基準編製, 惟投資物業及若干金融工具按公平 值計算除外。

歷史成本一般根據商品及服務交換 所得代價之公平值而釐定。

公平值為於計量日期市場參與者按 有序交易出售一項資產而將收取或 轉移一項負債而將支付之價格,而 不論該價格是否可直接觀察或須運 用另一種估值技術作出估計。倘市 場參與者於計量日期對資產或負債 定價時會考慮資產或負債之特點, 則本集團於估計資產或負債之公平 值時將考慮該等特點。此等綜合財 務報表中作計量及/或披露用途之 公平值乃按此基準釐定,惟屬於《香 港財務報告準則》第2號「股權支付」 範圍之股權支付之交易、屬於《香 港會計準則》第17號範圍之租賃交 易,以及與公平值有部份類似地方 但並非公平值之計量(如《香港會計 準則》第2號「存貨」之可變現淨值或 《香港會計準則》第36號「資產減值」 之使用價值)則除外。

非財務資產之公平值計量乃經計及 一名市場參與者透過使用其資產之 最高及最佳用途或透過將資產出售 予將使用其最高及最佳用途之另一 名市場參與者而能夠產生經濟利益 之能力。

此外,就財務報告而言,按公平值 計量之輸入數據之可觀察程度及公 平值計量之輸入數據對其整體之重 要性而定,公平值計量可分類為第 一級、第二級或第三級,詳情如下:

# 4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

#### Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries). Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group losses control of the subsidiary. The results of subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss from the date of the Group gains control until the date when the Group ceases to control the subsidiary.

#### 4. 主要會計政策(續)

- 第二級輸入數據乃除第一級計 入之報價外,就資產或負債可 直接或間接觀察之輸入數據;
- 第三級輸入數據乃資產或負債 之非可觀察輸入數據。

#### Basis of consolidation (Continued)

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with those used by the Group.

All significant inter-group transactions, balances, income and expenses are eliminated on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interest entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

#### Goodwill

Goodwill arising on an acquisition of net assets and operations of another entity for which the agreement date is before 1st January, 2005 represents the excess of the cost of acquisition over the Group's interest in the fair value of the identifiable assets and liabilities of the relevant acquiree at the date of acquisition.

From 1st January, 2005 onward, the Group will carry goodwill at cost less any accumulated impairment losses.

Capitalised goodwill arising on an acquisition of a business is presented separately in the consolidated statement of financial position.

#### Goodwill (Continued)

For the purposes of impairment testing, goodwill arising from an acquisition is allocated to each of the relevant cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the acquisition. A cash-generating unit to which goodwill has been allocated is tested for impairment annually, and whenever there is an indication that the unit may be impaired. For goodwill arising on an acquisition in a financial year, the cash-generating unit to which goodwill has been allocated is tested for impairment before the end of that financial year. When the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated to reduce the carrying amount of any goodwill allocated to the unit first, and then to the other assets of the unit pro rata on the basis of the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in the consolidated statement of profit or loss. An impairment loss for goodwill is not reversed in subsequent periods.

On subsequent disposal of the relevant cash-generating unit, the attributable amount of goodwill capitalised is included in the determination of the amount of profit or loss on disposal.

#### Interests in associates and joint ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

#### Interests in associates and joint ventures

(Continued)

The results and assets and liabilities of associates and joint ventures are incorporated in these consolidated financial statements using the equity method of accounting. Under the equity method, investments in associates or joint ventures are carried in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate or joint venture, less any identified impairment loss. When the Group's share of losses of an associate or a joint venture exceeds its interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional loses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payment on behalf of that associate or joint venture.

The associate's and joint venture's financial statements used for the application of equity method of accounting are prepared using uniform accounting policies with the Group for transactions and events in similar circumstances.

The Group assesses whether there is an objective evidence that the interest in associates or joint ventures may be impaired. When any objective evidence exists, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

#### Interests in associates and joint ventures

(Continued)

Any excess of the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognised immediately in the consolidated statement of profit or loss. When a group entity transacts with an associate or a joint venture of the Group, profits or losses are eliminated to the extent of the Group's interest in the relevant associate or joint venture.

When the Group ceases to have significant influence over an associate or a joint venture, it is accounted for as a disposal of the entire interest in the investee with a resulting gain or loss being recognised in profit or loss. When the Group retains an interest in the former associate or joint venture and the retained interest is a financial asset within the scope of HKFRS 9/HKAS 39, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition. The difference between the carrying amount of the associate or joint venture and the fair value of any retained interest, and any proceeds from the disposal is included in the determination of the gain or loss on disposal of the associate or joint venture. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate or joint venture on the same basis as would be required if that associate or joint venture had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate or joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) upon disposal/partial disposal of the relevant associate or joint venture.

#### Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the financial instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15 since 1st January, 2018. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the consolidated statement of profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

## Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows;
   and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at fair value through profit or loss ("FVTPL"), except that at the date of initial application/initial recognition of a financial asset the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if that equity investment is not held for trading.

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

#### (i) Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired. For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit impaired.

#### (ii) Equity instruments designated as at FVTOCI

Investments in equity instruments at FVTOCI are subsequently measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the investment reserve and are not subject to impairment assessment. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments, and will be transferred to retained earnings.

#### Impairment of financial assets

The Group recognises a loss allowance for ECL on financial assets which are subject to impairment under HKFRS 9 (including trade and other receivables, pledged bank deposits, bank deposits and bank balances). The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL ("12m ECL") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables individually.

For other financial assets, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

#### Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread or the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor; and
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

具體而言,於評估信貸風險是否已 顯著增加時會考慮以下資料:

- 金融工具的外部(如有)或內 部信貸評級之實際或預期嚴重 轉差;
- 信貸風險之外部市場指標嚴重轉差(如債務人的信貸息差或 信貸違約掉期價格顯著增加);
- 商業、金融或經濟情況目前或 預期有不利變動,預期將導致 債務人償還債項之能力顯著下 降;

#### Significant increase in credit risk (Continued)

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

The Group considers that default has occurred when the financial instrument is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

#### Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data such as significant financial difficulty of the borrower.

不論上述評估之結果,當合約付款 已逾期超過30日,則本集團均假定 信貸風險自首次確認以來顯著增 加,除非本集團具有合理及具支持 性之資料說明其他情況。

本集團定期監察就確定信貸風險是 否顯著增加所用標準之成效,並適 時按情況修訂有關標準,以確保其 能夠於款項逾期前發現信貸風險顯 著增加。

就內部信貸風險管理而言,倘內部 建立或自外部來源獲得之資料顯示 債務人不太可能向其債權人(包括 本集團)悉數付款(不考慮本集團持 有之任何抵押品),則本集團認為 已發生違約事件。

本集團認為,當金融工具已逾期超過90日,則已經發生違約,除非本 集團具有合理及具支持性之資料説 明更為滯後之違約準則更為適用。

#### Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

The Group recognises an impairment gain or loss in the consolidated statement of profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade and other receivables where the corresponding adjustment is recognised through a loss allowance account.

# Classification and subsequent measurement and impairment of financial assets (before application of HKFRS 9 on 1st January, 2018)

Financial assets are classified into the following specified categories: available-for-sale financial assets and loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

#### Loans and receivables

Loans and receivables (including trade and other receivables, pledged bank deposits, amounts due from associates and cash and bank balances) are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables are carried at amortised cost using the effective interest method, less any identified impairment losses.

Objective evidence of impairment for a portfolio of receivables could include that Group's past experience of collecting payments, significant financial difficulty of the issuer or counterparty, default or delinquency in interest or principal payments, the borrower being probable to enter bankruptcy or financial re-organisation, observable changes in national or local economic conditions that correlate with default on receivables.

An impairment loss is recognised in the consolidated statement of profit or loss when there is objective evidence that the loans and receivables are impaired, and is measured as the difference between the carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate.

The carrying amounts of the loans and receivables are reduced by the impairment loss directly with the exception of trade and other receivables, where the carrying amount is reduced through the use of an allowance account. When trade and other receivables are considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to the consolidated statement of profit or loss.

Impairment losses are reversed in subsequent periods when an increase in the recoverable amount can be related objectively to an event occurring after the impairment was recognised, subject to a restriction that the carrying amount of the loans and receivables at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

#### Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated or not classified as financial assets at fair value through profit or loss, held-for-maturity investments and loans and receivables.

Available-for-sale financial assets are measured at fair value at the end of the reporting period except for equity investments that do not have a quoted market price in an active market. Changes in fair value are recognised in other comprehensive income and accumulated in investment reserve, until the financial asset is disposed of or is determined to be impaired, at which time, the cumulative gain or loss previously accumulated in investment reserve is reclassified to the consolidated statement of profit or loss.

Available-for-sale equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are measured at cost less any identified impairment losses at the end of the reporting period. An impairment loss is recognised in the consolidated statement of profit or loss when there is objective evidence that the asset is impaired. The amount of the impairment loss is measured as the difference between the carrying amount of the asset and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses will not reverse in subsequent periods.

#### Financial liabilities and equity

Debt and equity instruments issued by a group entity are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instrument is recognised and deducted directly in share capital for par value and in share premium for total amount paid in excess of par value. The same amount recognised in share capital will be transferred from retained earnings to capital redemption reserve. No gain or loss is recognised in consolidated statement of profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

## Impairment losses other than goodwill and financial assets

At the end of the reporting period, the Group reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss.

The recoverable amount of its assets are estimated individually, when it is not possible to estimate individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit) in prior years. A reversal of an impairment loss is recognised as income immediately.

#### Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation.

On initial recognition, investment properties are measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at their fair values using the fair value model. Gains or losses arising from changes in the fair value of investment property are included in the consolidated statement of profit or loss for the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use or no future economic benefits is expected from its disposals. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement of profit or loss in the year in which the item is derecognised.

#### Property, plant and equipment

Property, plant and equipment, including leasehold land and buildings held for use in the production or supply of goods or services, or for administrative purposes other than construction work-in-progress, are stated at cost less accumulated depreciation and accumulated impairment losses, if any.

Construction work-in-progress is stated at cost less any identified impairment loss. When the construction is completed and the asset is available for use, the related cost is transferred to appropriate category of property, plant and equipment and depreciated in accordance with the following policy.

Depreciation is recognised so as to write off the cost of assets other than construction work-in-progress less than their residual values over their estimated useful lives, using the straight-line method.

If an item of property, plant and equipment becomes an investment property because its use has changed as evidenced by end of owner-occupation, any difference between the carrying amount and the fair value of that item at the date of transfer is recognised in other comprehensive income and accumulated in revaluation reserve. On the subsequent sale or retirement of the asset, the relevant revaluation reserve will be transferred directly to retained earnings.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the consolidated statement of profit or loss in the year in which the item is derecognised.

Capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. - the Group's performance creates and enhances an asset that the customer controls as the Group performs; or

#### Revenue from contracts with customers

(Continued)

 the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct goods or service.

A contract liability represents the Group's obligation to transfer goods or services to a customer from which the Group has received consideration (or an amount of consideration is due) from customer.

The progress towards complete satisfaction of a performance obligation is measured based on output method, which is to recognise revenue on the basis of direct measurements of the value of the goods or services transferred to the customer to date relative to the remaining goods or services promised under the contract, that best depict the Group's performance in transferring control of goods or services.

Incremental costs of obtaining a contract are those costs that the Group incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained.

The Group recognises sales commissions as an asset if it expects to recover these costs. The asset so recognised is subsequently charged to the consolidated statement of profit or loss when the Group transfers to the customer of the relevant goods to which the assets relate.

#### Revenue recognition (prior to 1st January, 2018)

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods sold and services provided in the normal course of business, net of discount. Revenue is recognised when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the Group and when specific criteria have been met for each of the Group's activities, as described below.

When properties are developed for sale, income is recognised only when the respective properties have been completed and delivered to the buyers. Payments received from purchasers prior to this stage are recorded as receipts in advance under current liabilities. Revenue from sale of goods is recognised when the goods are delivered and title has passed. Revenue from provision of services is recognised when the services are rendered. #### Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date.

Exchange differences on monetary items are recognised in consolidated statement of profit or loss in the period in which they arise except for exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to the consolidated statement of profit or loss on disposal or partial disposal of the Group's interest in associates/a joint venture.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars ("HKD")) at the rate of exchange prevailing at the end of the reporting period, and their income and expenses are translated at the average exchange rates for the year, unless exchange rates fluctuate significantly during the period, in which case, the exchange rates prevailing at the dates of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of foreign currencies translation reserves (attributed to non-controlling interests as appropriate). Such exchange differences accumulated in equity in respect of that operations attributable to the owners of the Company are reclassified to the consolidated statement of profit or loss in the period in which the foreign operation is disposed of.

#### **Taxation**

Taxation represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before taxation because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and interests in associates and joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

## 4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Taxation (Continued)

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred taxes for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time. If the presumption is rebutted, deferred tax for such investment properties are measured in accordance with the general principles set out in HKAS 12 "Income Taxes" (i.e. based on the expected manner as to how the properties will be recovered).

#### Taxation (Continued)

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Current tax and deferred tax are recognised in the consolidated statement of profit or loss, except when they relate to items charged or credited directly to other comprehensive income, in which case the current and deferred tax are also recognised in other comprehensive income.

#### Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is calculated using the weighted average method.

#### Share-based payment transactions

The fair value of services received determined by reference to the fair value of share options granted at the grant date is recognised as an expense in full at the grant date when the share options granted vest immediately, with a corresponding increase in share option reserve. If a director or an employee chooses to exercise options, the related share option reserve is transferred to share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the related share option reserve is transferred directly to retained earnings.

#### Leasing (Continued)

#### Leasehold land and building

When the Group makes payments for a property interest which includes both leasehold land and building elements, the Group assesses the classification of each element as a finance or an operating lease separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating leases, in which case the entire lease is classified as an operating lease. Specifically, the consideration (including any lump-sum upfront payments) are allocated between the leasehold land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element at initial recognition.

To the extent the allocation of the lease payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as "lease premium for land" in the consolidated statement of financial position and is amortised over the lease terms on a straight-line basis except for those that are classified and accounted for as investment properties under the fair value model.

#### Retirement benefit cost

Payments to defined contribution retirement benefit schemes are charged as expenses when employees have rendered service entitling them to the contributions.

#### Short-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All the short-term employee benefits are recognised as an expense unless another HKFRS requires or permits the inclusion of the benefit in the cost of an asset.

## 5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 4, the Directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

## Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations (see below), that the Directors of the Company have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

#### Deferred taxation on investment properties

For the purposes of measuring deferred tax arising from investment properties that are measured using the fair value model, the Directors of the Company have reviewed the Group's investment property portfolios and concluded that the Group's investment properties are held under a business model whose objective is to consume substantially all of the economic benefits embodied in the investment properties over time. Therefore, in measuring the Group's deferred taxation on investment properties, the Directors of the Company have determined whether the presumption that the carrying amounts of investment properties measured using the fair value model are recovered entirely through sale is rebutted and the Group has recognised deferred tax on changes in fair value of investment properties on the basis that the deferred tax reflects the tax consequences that will follow from the manner in which the Group expects at the end of the reporting period to recover the carrying amount of the investment properties.

#### Land appreciation tax ("LAT")

The Group is subject to LAT in the Mainland China. However, the implementation and settlement of the tax vary amongst different jurisdictions in various cities in the Mainland China and the Group has not finalised its LAT calculation and payments with any local tax authorities in the Mainland China. Accordingly, significant judgement is required in determining the amount of the LAT and its related income tax provisions. LAT has been provided at ranges of progressive rates of the appreciation value, with certain allowable deductions including land costs, borrowing costs and the relevant property development expenditures, which are the key inputs in the calculation of LAT, the Group recognised the LAT based on management's best estimates. The final tax outcome could be different from the amounts that were initially recorded, and these differences will have impact on the income tax provisions in the periods in which such tax is finalised with local tax authorities. The carrying amount of Group's LAT provision at 31st December, 2018 was HK\$4,436,804,000 (2017: HK\$4,551,373,000).

#### 土地增值税

本集團須繳納中國內地之土地增值 税。然而,中國內地各個城市不同 税務管轄區的税務實施及結算方式 有所差異,而本集團尚未與中國內 地任何地方税務部門最終確定土地 增值税之計算及支付。因此,於釐 定土地增值税金額及其相關所得税 撥備時須作出重大判斷。本集團根 據管理層之最佳估計確認土地增值 税,乃以土地增值税之若干獲准扣 減項目之關鍵輸入數據(包括土地 成本、借貸成本及相關物業發展開 支),已就增值部份按一系列遞增 税率作出土地增值税撥備計算。最 終的税務結果或會與首次列賬之金 額有所不同,而此等差異將影響與 地方税務部門於確定該等税項之期 間內之所得税撥備。於二零一八年 十二月三十一日,本集團之土地增 值税撥備之賬面值為4,436,804,000 港元(二零一七年:4,551,373,000港 元)。

Net realisable value assessment of properties under development and properties held for sale

Properties under development and properties held for sale are measured at the lower of cost or net realisable value. Net realisable value is determined by reference to Directors' estimates on future selling prices based on the prevailing market condition. The future selling prices are estimated by reference to the recent selling prices of similar properties in the same project or relevant locations. In addition, management estimated the future costs to complete the properties under development by reference to the actual development cost of the Group's other completed projects, adjusted by certain current market data. The Group has properties under development and properties held for sale in Shanghai and Macau, which exposes the Group to certain price risk. If the net realisable value is less than the cost, write-down of the properties under development and properties held for sale has to be made. Management is optimistic about the prospect of the Group's investment in the property sector and it has been cautious in formulating and reviewing regularly the Group's business plan. The carrying amount of Group's properties under development and properties held for sale at 31st December, 2018 was HK\$3,449,254,000 and HK\$2,117,661,000 (2017: HK\$3,554,039,000 and 2,278,099,000) respectively.

#### Valuation of investment properties

Investment properties are carried in the consolidated statement of financial position at 31st December, 2018 at their fair values, details of which are disclosed in Note 16. The fair value of the investment properties was determined by reference to valuations conducted on these properties by an independent firm of qualified professional valuers using investment approach. Property valuation techniques involve significant unobservable input including reversionary yield, taking into account annual market rental income and unit market value of comparable properties. Favourable or unfavourable changes to these assumptions may result in changes in the fair value of the Group's investment properties and corresponding adjustments to the changes in fair value reported in the consolidated statement of profit or loss. The carrying amount of Group's investment properties at 31st December, 2018 was HK\$7,980,161,000 (2017: HK\$8,061,471,000).

#### Valuation of unlisted equity instruments

Unlisted equity instruments are measured at fair values being determined based on unobservable inputs using valuation techniques. Judgements and estimation are required in establishing the relevant valuation techniques and the relevant inputs thereof. Changes in assumptions relating to these factors could affect the reported fair values of the instruments. The carrying amount of Group's unlisted equity instruments at 31st December, 2018 was HK\$287,739,000 (2017: HK\$48,091,000).

The Group's investment properties are held outside Hong Kong and are held under operating leases.

The fair value of the Group's investment properties at 31st December, 2018 has been arrived at on the basis of a valuation carried out on that date by a professional independent valuer not connected with the Group. The valuation was arrived at by reference to market yield expected by investors for similar type of properties and the net income derived from existing tenancies with due allowance for reversionary income potential of the properties on a recurring basis, and market evidence of transaction prices for similar properties. As a result of the valuation, an unrealised gain on property valuation of approximately HK\$318,311,000 (2017: HK\$154,862,000) was credited to the consolidated statement of profit or loss for the year ended 31st December, 2018.

In estimating the fair value of the properties, the highest and best use of the properties is their current use.

The Group's property interests held under operating leases to earn rentals or for capital appreciation purposes are measured using the fair value model and are classified and accounted for as investment properties.

The key inputs are:

- 1. Reversionary yield;
- 2. Market unit rent of individual unit; and
- 3. Adjustment factors for location and other individual factors such as road frontage, size of property and facilities

Reversionary yield, taking into account annual unit

主要輸入數據為:

- 1. 復歸收益率;
- 2. 個別單位的 市場單位租金;及

經計入單位市場年度租金 收入及可作比較物業的 單位市值,復歸收益率 為2.75%(二零一七年:

At 31st December, 2018, the Group had unused tax losses of HK\$558.17 million (2017: HK\$554.23 million) available for offset against future profits. No deferred tax assets have been recognised in respect of such tax losses due to the unpredictability of future profit streams. Included in unrecognised tax losses are losses of HK\$95.11 million (2017: HK\$95.40 million) which will expire within five years. Other losses may be carried forward indefinitely.

Withholding tax is imposed on dividends declared in respect of profits earned by Mainland China subsidiaries from 1st January, 2008 onwards. At 31st December, 2018, the aggregate amount of distributable earnings of the Group's Mainland China subsidiaries in respect of which the Group has not provided for dividend withholding tax amounted to approximately HK\$4,753.38 million (2017: HK\$5,101.92 million). No liability has been recognised in respect of these amounts because the Group is in a position in control of the timing of the reversal of the temporary differences and it is probable that such differences will not reverse in the foreseeable future.

於二零一八年十二月三十一日,本集團可用作抵銷未來溢利之未動用稅項虧損為558,170,000港元(二零一七年:554,230,000港元)。由於未來溢利流的不可預測性,故並未就該等稅項虧損確認遞延稅項資產。未確認稅項虧損中,95,110,000港元(二零一七年:95,400,000港元)之虧損將於五年內屆滿。其他虧損可無限期結轉。

The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of the market deposit rate and the Mainland China official lending rate and Hong Kong Interbank Offered Rate arising from the Group's RMB borrowings and HKD borrowings respectively.

#### Sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates risks for bank balances and variable-rate borrowings. The analysis is prepared on the balances at the end of reporting period. 50 and 100 basis points (2017: 50 and 100 basis points) increase or decrease are used respectively which represents management's assessment of the reasonably possible change in interest rates.

In relation to the Group's exposure to interest rates risk on pledged bank deposits, bank deposits and bank balances, if interest rates had been 50 basis points (2017: 50 basis points) higher/lower and all other variables were held constant, the Group's post-tax profit for the year ended 31st December, 2018 would increase/decrease by HK\$25,652,000 (2017: HK\$18,497,000).

The credit risk on bank balances, pledged bank deposits and bank deposits with original maturity over three months is limited because the counterparties are banks with good reputation. The Group use 12m ECL to perform the assessment under ECL model upon application of HKFRS 9 (2017: incurred loss model) individually. The impairment yet to be recognised are insignificant. Other than concentration of credit risk on bank balances, pledged bank deposits and bank deposits with original maturity over three months which are deposited with several banks with high credit ratings assigned by international credit-rating agencies, the Group does not have any other significant concentration of credit risk.

The Directors of the company regularly reviewed and assessed the gross amount of the Group's trade receivable of HK\$7,721,000 for impairment under lifetime ECL using reasonable and supportable information that is available without undue cost or effort in accordance with requirements of HKFRS 9. In view of the balances of the trade receivables are insignificant, no further disclosure on the impairment were disclosed.

For other receivables and amounts due from associates, the Directors of the Company regularly reviewed and assessed the credit quality of the counterparties. ### Credit risk and impairment assessment (Continued)

In accordance with HKFRS 9, the management has assessed the impairment in relation to pledged bank deposits, bank deposits and bank balances, the amounts due from associates and other receivables which are categorised under 12m ECL and lifetime ECL (not credit impaired). The impairment yet to be recognised are insignificant.

#### Liquidity risks

The Group is not exposed to any significant liquidity risk as it has sufficient funds to meet its financial obligations when they fall due.

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents generated from operations which are deemed adequate by the management to finance the Group's operations and to mitigate the effects of fluctuations in cash flows. The Group will consider to raise bank borrowings when it is necessary.

#### Liquidity risk table

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate at the end of the reporting period.
