CHAIRMAN AND CHIEF EXECUTIVE OFFICER

Under code provision A.2.1 of Appendix 14 to the Listing Rules, the roles of Chairman and Chief Executive Officer of an issuer should be separate and should not be performed by the same person. The Company does not at present have the role of Chief Executive Officer. Mr. Chen Chengqing is the Chairman responsible for overseeing the operations of the Group. The Board considers that vesting the roles of the Chairman and Chief Executive Officer in the same person facilities the execution of the Company's business strategies and maximizes the effectiveness of its operations. On the other hand, there are four independent non-executive Directors on the Board, all of them possess adequate independence and therefore the Board considers the Company has provided sufficient protection to the balance between its interests and the interests of its shareholders. The Board shall review the structure from time to time and shall consider the appropriate adjustment should suitable circumstance arise.

主席及行政總裁

The relevant goals will be reviewed from time to time so as to ensure its appropriateness and its progress for achieving such goals. 本公司知悉董事會成員日益多元化已有助達 成本公司策略目標及為本公司可持續發展提 供支持。

本公司藉考慮多項因素,包括年齡、文化及教育背景、種族、專業經驗、知識以及其他資格, 務求達致董事會成員多元化。本公司在決定董 事會最佳成員組合時亦將不時考慮其本身業 務模式及具體需要。

BUSINESS REVIEW

Business Performance and Future Development

The discussion on the Group's business performance and future development, being part of the Directors' Report, is set out in the paragraphs headed "Review of Results", "Financial Review" and "Business Prospects" of the section headed "Management Discussion and Analysis" of this Annual Report.

Key Financial Performance Indicators

The analysis of the Group's key financial performance indicators, being part of the Directors' Report, is set out in the paragraph headed "Financial Review" of the section headed "Management Discussion and Analysis".

RISKS RELATING TO OUR BUSINESS

Our newly launched products may not be well received by the market.

The success of a pharmaceutical company depends, to a large extent, on whether the products it introduces to the market are well received by the market. The primary factors which may affect the acceptance of our products by the market include efficacy, quality and price. In particular, the introduction of new products requires substantial investment of capital resources and research and development efforts. If any of our new drugs is not well received by the market because its efficacy is not as good as expected, it is too expensive compared to other substitutes, or for any other reason, we may not be able to recoup the investment we have made in developing such new drug, in which case our financial condition and results of operations may be materially and adversely affected.

Our Group rely on third parties, such as hospitals, clinics and pharmacies, in selling our prescription and over-the-counter products.

We rely on different channels in selling our products in China. Our overthe-counter pharmaceutical products are sold mainly to consumers through pharmacies. Our prescription pharmaceutical products are sold mainly to hospitals and clinics for consumption by their patients. There is no assurance that pharmacies and hospitals and clinics will continue to stock and prescribe our products over those of our competitors, there are no contractual restrictions preventing our sales channels from selling our competitors' products. If our sales channels treat our competitors' products more favorably or stop selling our products, and we are unable to find appropriate substitutes, our business and results of operations may be materially and adversely affected.

與本公司業務有關的風險

本公司的新產品未必受到市場歡迎。

醫藥公司成功與否,很大程度上取決於其產品是否受到市場歡迎,而影響市場對本公司產品接納程度的主要因素,則包括療效、質量與價格。其中,推介新產品尤其需要投入大量資本資源和研發力度。若因療效未如預期般理想、與其他替代品相比價格過於昂貴、或任何其他原因,以致本公司任何新藥未受到市場歡迎,則本公司未必能夠收回開發該等新藥的投資,如此可能會對本公司的財務狀況及經營業績造成實質性不利影響。

本集團依賴第三方(例如醫院、診所及藥房) 銷售本公司的處方藥及非處方藥。

本公司依賴不同渠道於中國銷售本公司產品。本公司主要通過藥房向消費者銷售非處方藥品,而處方藥品則主要向醫院及診所銷售,供其病人使用。無法保證藥房及醫院及診所將繼續積存及以本公司的產品開方,而非本公司競爭對手的產品。此外,並無合同限制禁止本公司的銷售渠道銷售本公司競爭對手的產品。倘本公司的銷售渠道優待本公司競爭對手的產品,或停止銷售本公司產品,而本公司無法覓得合適替代者,則本公司的業務及經營業績或會受到實質性不利影響。

Directors' Report

董事會報告

RISKS RELATING TO OUR INDUSTRY

The pharmaceutical industry is extremely competitive.

Our business is subject to competition from other pharmaceutical manufacturers. Chinese and international pharmaceutical manufacturers engaged in the manufacture and sale of substitute or similar products to ours in China may have more capital resources, better research and development capabilities and more experience in manufacturing and marketing. Many of our competitors, including large pharmaceutical companies and other generic drug manufacturers, have employed various strategies intended to maximize their market share for previously-patented products. Competition is likely to intensify if (i) the number of manufacturers or distributors of substitute or similar products increases due to increased market demand or increased prices; (ii) competitors drastically reduce prices due to oversupply of products; or (iii) competitors develop new products or substitute products having comparable medicinal applications or therapeutic effects that may be used as direct substitutes for our products which are more effective with prices comparable to or lower than our products.

Our Company is subject to environmental regulations and may be exposed to liability and potential costs for environmental compliance.

We are subject to the PRC laws and regulations concerning the discharge of effluent water and solid waste during our manufacturing processes. We are required to obtain certain clearances and authorizations from governmental authorities for the treatment and disposal of such discharge. Any violation of these regulations may result in substantial fines, criminal sanctions, revocation of operating permits, shutdown of our facilities and obligation to take corrective measures. Our cost of complying with current and future environmental protection laws and regulations, and liabilities which may potentially arise from the discharge of effluent water and solid waste, may adversely affect our business, financial condition and results of operations.

The government may take steps towards the adoption of more stringent environmental regulations and there is no assurance that we will be at all times in full compliance with these regulatory requirements. Due to the possibility of unanticipated regulatory or other developments, the amount and timing of future environmental expenditures may vary substantially from those currently anticipated. If there is any unanticipated change in the environmental regulations, we may need to incur substantial capital expenditures to install, replace, upgrade or supplement our pollution control equipment or make operational changes to limit any adverse impact or potential adverse impact on the environment in order to comply with new environmental protection laws and regulations. If such costs become prohibitively expensive, we may be forced to modify, curtail or cease certain of our business operations.

與行業有關的風險

藥業的激烈競爭。

本公司須遵守環境法規及為達致環境標準承擔責任及潛在成本。

本公司需遵守有關生產過程中排放污水及固體廢物的中國法律及法規。本公司需為該等排放的處理及棄置從政府機關取得若干許可證及批准。違反這些法規可能引致大額罰款、刑事制裁、撤銷經營許可證、關閉設備及負責執行矯正措施。遵守現時及未來環境保護法律及法規的成本,以及排放污水及固體廢物所潛在產生的責任或會對本公司的業務、財務狀況及經營業績造成不利影響。

政府將逐步採取更嚴厲的環境法規,概不保證本公司將於所有時間均全面遵守這些法規要求。由於出現不可預知的法規及其他發展的可能性,未來環保開支的金額及時間計算可能與目前所估計的出現重大差異。假如環境法則重視任何不可預知的轉變,本公司將需作出重大的資本開支以安裝、更換、提升或補充本公司的污染控制器材或作出營運模式的轉變,藉此限制任何不利影響或對環境的潛在不利影響,以遵守新的環境保護法律及法規。假如該等成本高昂得無法負擔,本公司將被迫變更、縮減或停止本公司若干的業務營運。

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF SANAI HEALTH INDUSTRY GROUP COMPANY LIMITED (Incorporated in the Cayman Islands with limited liability)

致三愛健康產業集團有限公司 股東的獨立核數師報告 (於開曼群島註冊成立的有限公司)

DISCLAIMER OF OPINION

We were engaged to audit the consolidated financial statements of Sanai Health Industry Group Company Limited (the "Company"), and its subsidiaries (together the "Group") set out on pages 42 to 171, which comprise the consolidated statement of financial position as at 31 December 2018, and the consolidated statement of profit or loss, consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

We do not express an opinion on the consolidated financial statements of the Group. Because of the significance of the matters described in the basis for disclaimer of opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these consolidated financial statements. In all other respects, in our opinion the consolidated financial statements have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR DISCLAIMER OF OPINION

1. Scope limitation - Recoverability of trade and other receivables

Included in trade and other receivables as at 31 December 2018 were trade receivables of RMB22,902,000 and other receivables of RMB14,270,000 from several debtors. The outstanding receivables were past due or remained outstanding up to the date of this report. The directors of the Company considered that no impairment provision should be made upon their assessment of the recoverability of the individual debtor balances based on the information available and current circumstances. However, we were unable to obtain satisfactory evidence to ascertain if the information available to the directors of the Company are appropriate for their assessment or that the current circumstances referred to by the directors of the Company are relevant to their assessment of impairment provision on trade and other receivables. Consequently, we were unable to satisfy ourselves regarding the valuation of the receivable balances as at 31 December 2018, and to determine whether any adjustment on allowance for credit loss against these receivables was necessary. Any adjustments to the conclusion on the recoverability of these receivables would affect the net assets of the Group as at 31 December 2018 and the Group's net loss for the year ended 31 December 2018, and the related disclosures in the consolidated financial statements.

吾等獲聘審核三愛健康產業集團有限公司(「貴公司」)連同其附屬公司(統稱「貴集團」)載於第42至171頁之綜合財務報表,其中包括二零一八年十二月三十一日之綜合財務狀況表、截至該日止年度之綜合損益表、綜合損益及其他全面收益表、綜合權益變動表、綜合現金流量表及綜合財務報表附註,包括主要會計政策概要。

吾等並不就 貴集團之綜合財務報表發表意見。基於吾等之報告中不發表意見之基礎一節所述事宜之重要性,吾等未能取得充分及恰當之審核憑證,以就該等綜合財務報表發表審核意見。於所有其他方面,吾等認為綜合財務報表已遵照香港公司條例之披露規定妥為編製。

不發表意見之基礎

1. 範圍限制一貿易應收款項及其他應收款項之可收回性

於二零一八年十二月三十一日之貿易應 收款項及其他應收款項包括若干債務 人之貿易應收款項人民幣22,902,000元 及其他應收款項人民幣14.270,000元。 未償還應收款項已逾期或直至本報告 日期仍尚未償還。於根據可得資料及目 標情況評估單獨債務人結餘之可收回 性後, 貴公司董事認為毋須作減值撥 備。然而,吾等無法取得令吾等信納之 證據以確定 貴公司董事所得資料是否 合適進行評估或 貴公司董事所提述之 目前情況是否與評估貿易應收款項及 其他應收款項減值撥備有關。因此,吾 等無法信納有關於二零一八年十二月 三十一日之應收款項結餘之估值,亦無 法判斷是否有需要對該等應收款項之信 貸虧損撥備作出任何調整。對該等應收 款項之可收回性之結論作出之任何調 整將影響本集團於二零一八年十二月 三十一日之資產淨值、 貴集團於截至 二零一八年十二月三十一日止年度之淨 虧損以及 貴集團截至二零一八年十二 月三十一日止年度之淨虧損以及綜合財 務報表中之相關披露。

Independent Auditor's Report

獨立核數師報告

BASIS FOR DISCLAIMER OF OPINION (Continued)

Scope limitation – Multiple uncertainties relating to going concern

As described in note 2(b) to the consolidated financial statements, the Group reported a net loss attributable to the owners of the Company of RMB229,755,000 during the year ended 31 December 2018. As at the same date, the Group's current liabilities exceeded its current assets by RMB48,670,000. In addition, the Group's total current bank borrowings amounted to RMB233,792,000 whereas its cash and cash equivalents amounted to RMB17,745,000 only. Moreover, during the year, loan principal repayments and related interests payments of RMB248,311,000 were not made in accordance with the repayment schedules pursuant to the bank facilities agreements and, as a result, the Group has defaulted in complying with the bank facilities covenants and the banks therefore have the right to demand immediate repayment of the entire outstanding balances together with outstanding interests and any penalties stipulated in the bank facilities agreement. One of the banks had disposed of the assets pledged by the Group as security for its facilities under a mandatory auction. These conditions, together with other matters described in note 2(b) to the consolidated financial statements, indicate the existence of material uncertainties which may cast significant doubt on the Group's ability to continue as a going concern.

The directors have been undertaking certain measures as set out in note 2(b) to the consolidated financial statements to improve the Group's liquidity and financial position. The consolidated financial statements have been prepared on a going concern basis, the validity of which depends on the outcome of these measures, which are subject to multiple uncertainties, including (i) whether the ongoing external facilities will continue to be available to the Group and (ii) whether the Group is able to generate adequate cash flows from its operations, the achievability of which depends on the market environment. Since there are no satisfying evidence for us to verify the availability of such future financing and the viability of the Group's business operations, we disclaim our opinion in this respect. If the ongoing external facilities were no longer available and the internally generated cash flows were not forthcoming, the Group would be unable to meet its financial obligations as and when they fall due, and it would then be unable to continue as a going concern.

不發表意見之基礎(續)

2. 範圍限制-多項有關持續經營之不確定 因素

誠如綜合財務報表附註2(b)所述, 貴集 團於截至二零一八年十二月三十一日止 年度已呈報 貴公司擁有人應佔虧損淨 額人民幣229,755,000元。於同日, 貴 集團之流動負債己超出流動資產人民 幣48,670,000元。此外, 貴集團之流 動銀行借貸總額為人民幣233,792,000 元,而其現金及現金等價物僅為人民幣 17,745,000元。此外,於本年度並無根 據借貸協議按還款時間表償還貸款本 金及相關利息人民幣248,311,000元,因 此, 貴集團已違反銀行融資契諾,因 此,銀行有權要求即時償還全部未償還 結餘連同未償還利息以及銀行融資協議 所訂明之任何罰金。其中一間銀行已根 據強制拍賣出售 貴集團就其融資抵押 之資產。該等狀況連同綜合財務報表附 註2(b)所述之其他事宜表明存在重大不 確定因素,其可能對 貴集團之持續經 營能力造成重大疑問。

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

b) Basis of preparation of the financial statements

The consolidated financial statements for the year ended 31 December 2018 comprise the Company and its subsidiaries (together referred to as the "Group") and the Group's interests in an associate.

Items included in the financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). These financial statements are presented in Renminbi ("RMB"), rounded to the nearest thousand except for per share data. RMB is the Company's functional and the Group's presentation currency.

The measurement basis used in the preparation of the financial statements is the historical cost basis except as explained in the accounting policies set out below.

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of HKFRSs that have significant effect on the financial statements and major sources of estimation uncertainty are discussed in note 4.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

b) Basis of preparation of the financial statements (Continued)

Going concern basis

During the year ended 31 December 2018, the Group incurred a net loss of RMB229,755,000 (2017: RMB1,151,744,000), and as of that date, the Group had net current liabilities of RMB48,670,000 (2017: net current liabilities of RMB44,836,000). These conditions, indicate the existence of a material uncertainty which may cast significant doubt about the Group's ability to continue as a going concern and therefore the Group may be unable to realise its assets and discharge its liabilities in the normal course of its business.

The directors of the Company have taken steps to improve the Group's liquidity and solvency position, having regard to (i) the forecasted operating cash to be generated for the year ending 31 December 2019; (ii) negotiation with banks for the restructure of repayment schedules of bank loans so as to extend the repayment due date for one year; (iii) negotiation for any other possible external financing, including but not limited to, obtain further loan facilities and raise funds from the capital market in Hong Kong. The directors are of the opinion that the Group will be able to generate sufficient funds to meet its financial obligations when they fall due in the foreseeable future. Accordingly, the consolidated financial statements of the Group have been prepared on a going concern basis.

The validity of the going concern assumption on which the consolidated financial statements are prepared is dependent on the successful and favourable outcomes of the steps being taken by the directors as described above.

Should the Group be unable to continue as a going concern, adjustments would have to be made to restate the values of the assets to their recoverable amounts, to provide for any further liabilities which might arise and to reclassify non-current assets and non-current liabilities as current assets and current liabilities respectively. The effects of these potential adjustments have not been reflected in these consolidated financial statements.

b) 財務報表的編製基準(續)

持續經營基準

截至二零一八年十二月三十一日止年度,本集團產生淨虧損約人民幣229,755,000元(二零一七年:人民幣1,151,744,000元),而於有關日期,本集團有流動負債淨額人民幣48,670,000元(零一七年:流動負債淨額人民幣44,836,000元)。該等狀況顯示存在重大不明朗因素,可能對本人及其後對其於一般業務過程中變現其後對其於一般業務過程中變現其資產及償還負債之能力產生重大疑問。

編製綜合財務報表所依據之持續 經營假設是否有效取決於上述 董事所採取措施是否取得良好成 果。

倘本集團無法繼續持續經營,則 須進行調整,將資產價值重列至 可收回金額,並就可能產生之任 何額外負債作出撥備,以及將非 流動資產及非流動負債分別重新 分類為流動資產及流動負債。該 等綜合財務報表尚未反映這些潛 在調整之影響。

For the year ended 31 December 2018 截至二零一八年十二月三十一日止年度

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

c) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances, transactions and cash flows and any unrealised profits arising from intra-group transactions are eliminated in full in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised.

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former subsidiary at the date when control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset or, when appropriate, the cost on initial recognition of an investment in an associate.

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment losses (see note 2(i)).

d) Associates

An associate is an entity in which the Group or Company has significant influence, but not control or joint control, over its management, including participation in the financial and operating policy decisions.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

d) Associates (Continued)

An investment in an associate is accounted for in the consolidated financial statements under the equity method, unless it is classified as held for sale (or included in a disposal group that is classified as held for sale). Under the equity method, the investment is initially recorded at cost, adjusted for any excess of the Group's share of the acquisition-date fair values of the investee's identifiable net assets over the cost of the investment (if any). The cost of the investment includes purchase price, other costs directly attributable to the acquisition of the investment, and any direct investment into the associate that forms part of the Group's equity investment. Thereafter, the investment is adjusted for the post acquisition change in the Group's share of the investee's net assets and any impairment loss relating to the investment (see notes 2(j)). Any acquisition-date excess over cost, the Group's share of the post-acquisition, post- tax results of the investees and any impairment losses for the year are recognised in the consolidated statement of profit or loss, whereas the Group's share of the post-acquisition post- tax items of the investees' other comprehensive income is recognised in the consolidated statement of profit or loss and other comprehensive income.

When the Group's share of losses exceeds its interest in the associate, the Group's interest is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the investee. For this purpose, the Group's interest is the carrying amount of the investment under the equity method together with any other long-term interests that in substance form part of the Group's net investment in the associate.

Unrealised profits and losses resulting from transactions between the Group and its associates are eliminated to the extent of the Group's interest in the investee, except where unrealised losses provide evidence of an impairment of the asset transferred, in which case they are recognised immediately in profit or loss.

If an investment in an associate becomes an investment in a joint venture or vice versa, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method.

In all other cases, when the Group ceases to have significant influence over an associate, it is accounted for as a disposal of the entire interest in that investee, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former investee at the date when significant influence is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset.

e) i) Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for the control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with HKAS 12 *Incomes Taxes* and HKAS 19 *Employee Benefits* respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with HKFRS 2 Share-based Payment at the acquisition date; and
- assets (or disposal groups) that are classified as held for sale in accordance with HKFRS 5 Noncurrent Assets Held for Sale and Discontinued Operations are measured in accordance with that standard.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net amount of the identifiable assets acquired and the liabilities assumed as at acquisition date. If, after re-assessment, the net amount of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the relevant subsidiary's net assets in the event of liquidation are initially measured at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets or at fair value. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at their fair value.

Where the consideration transferred by the Group in a business combination includes a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively. Measurement period adjustments are adjustments that arise from additional information obtained during the "measurement period" (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

e) i) Business combinations (Continued)

The subsequent accounting for the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured to fair value at subsequent reporting dates, with the corresponding gain or loss being recognised in profit or loss.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (that is, the date when the Group obtains control), and the resulting gain or loss, if any, is recognised in profit or loss or other comprehensive income, as appropriate. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income and measured under HKFRS 9/HKAS 39 would be accounted for on the same basis as would be required if the Group had disposed of directly the previously held equity interest.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted retrospectively during the measurement period (see above), and additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

e) ii) Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business (see the accounting policy above) less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or group of cash-generating units) that is expected to benefit from the synergies of the combination, which represent the lowest level at which the goodwill is monitored for internal management purposes and not larger than an operating segment.

A cash-generating unit (or group of cash-generating units) to which goodwill has been allocated is tested for impairment annually or more frequently when there is indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the cash-generating unit (or group of cash-generating units) to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit (or group of cash-generating units).

On the disposal of the relevant cash-generating unit or any of the cash-generating unit within the group of cash generating units, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal. When the Group disposes of an operation within the cash-generating unit (or a cash generating unit within a group of cash-generating units), the amount of goodwill disposed of is measured on the basis of the relative values of the operation (or the cash-generating unit) disposed of and the portion of the cash-generating unit (or the group of cash-generating units) retained.

f) Other investments in debt and equity securities

The Group's policies for investments in debt and equity securities, other than investments in subsidiaries and associates, are set out below:

Investments in debt and equity securities are recognised/ derecognised on the date the Group commits to purchase/ sell the investment. The investments are initially stated at fair value plus directly attributable transaction costs, except for those investments measured at fair value through profit or loss ("FVPL") for which transaction costs are recognised directly in profit or loss. For an explanation of how the Group determines fair value of financial instruments, see note 6(f). These investments are subsequently accounted for as follows, depending on their classification.

(A) Policy applicable from 1 January 2018

Investments other than equity investments

Non-equity investments held by the Group are classified into one of the following measurement categories:

- amortised cost, if the investment is held for the collection of contractual cash flows which represent solely payments of principal and interest. Interest income from the investment is calculated using the effective interest method
- fair value through other comprehensive income (FVOCI) – recycling, if the contractual cash flows of the investment comprise solely payments of principal and interest and the investment is held within a business model whose objective is achieved by both the collection of contractual cash flows and sale. Changes in fair value are recognised in other comprehensive income, except for the recognition in profit or loss of expected credit losses, interest income (calculated using the effective interest method) and foreign exchange gains and losses. When the investment is derecognised, the amount accumulated in other comprehensive income is recycled from equity to profit or loss.

Equity investments

An investment in equity securities is classified as FVPL unless the equity investment is not held for trading purposes and on initial recognition of the investment the Group makes an election to designate the investment at FVOCI (non-recycling) such that subsequent changes in fair value are recognised in other comprehensive income. Such elections are made on an instrument-by-instrument basis, but may only be made if the investment meets the definition of equity from the issuer's perspective. Where such an election is made, the amount accumulated in other comprehensive income remains in the fair value reserve (non-recycling) until the investment is disposed of. At the time of disposal, the amount accumulated in the fair value reserve (non-recycling) is transferred to accumulated losses. It is not recycled through profit or loss. Dated debt securities that the Group had the positive ability and intention to hold to maturity were classified as held-to-maturity securities. Held-to-maturity securities were stated at amortised cost (for impairment see note 2(i) – policy applicable prior to 1 January 2018).

Investments which did not fall into any of the above categories were classified as available-for-sale financial assets. At the end of each reporting period the fair value was remeasured, with any resultant gain or loss being recognised in other comprehensive income and accumulated separately in equity in the fair value reserve (recycling). g) Property, plant and equipment

Property, plant and equipment, including buildings held for use in the production or supply of goods, or for administrative purposes, other than construction in progress, are stated in the consolidated statement of financial position at cost less any accumulated depreciation and accumulated impairment losses, if any.

Depreciation is calculated to write off the cost of items of property, plant and equipment, less their estimated residual values, if any, using the straight-line method over their estimated useful lives, at the following rates per annum:

Buildings 3.33% or over the

unexpired term of lease, if shorter

Furniture, fixtures and equipment 10%-20%

Leasehold improvements10%-20%Motor vehicles20%Plant and machinery10%-20%

For those impaired property, plant and equipment, including buildings, furniture, fixtures and equipment and plant and equipment in one of the factories in Jianyang City, Fujian Province, the PRC, not fully depreciated, depreciation is provided based on their carrying amount after deducting impairment provision over the estimated useful life.

Where parts of an item of property, plant and equipment have different useful lives, the cost of the item is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value, if any, are reviewed annually.

Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost may also include transfers from equity of any gains/losses on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are recognised in profit or loss during the reporting period in which they are incurred.

g) Property, plant and equipment (Continued)

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains or losses arising from the retirement or disposal of an item of property, plant and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the item and are recognised in profit or loss on the date of retirement or disposal.

Properties, plant and equipment in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties, plant and equipment are classified to the appropriate categories of property, plant and equipment when completed and ready for their intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

h) Intangible assets (other than goodwill)

Internally - generated intangible assets - research and development expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred. Expenditure on development activities is capitalised if the product or process is technically and commercially feasible and the Group has sufficient resources and the intention to complete development. The expenditure capitalised includes the costs of materials, direct labour, and an appropriate proportion of overheads and borrowing costs, where applicable (see note (2)(v)). Capitalised development costs are stated at cost less accumulated amortisation and impairment losses (see note (2)(j)). Other development expenditure is recognised as an expense in the period in which it is incurred.

Intangible assets acquired separately

Intangible assets that are acquired by the Group are stated at cost less accumulated amortisation (where the estimated useful life is finite) and impairment losses (see note (2)(j)). Expenditure on internally generated goodwill and brands is recognised as an expense in the period in which it is incurred.

h) Intangible assets (other than goodwill) (Continued)

Intangible assets acquired separately (Continued)

Amortisation of intangible assets with finite useful lives is charged to profit or loss on a straight-line basis over the assets' estimated useful lives. The following intangible assets with finite useful lives are amortised from the date they are available for use and their estimated useful lives are as follows:

Product development costs 5 years
Patents 5 years
Software 5 years

Both the period and method of amortisation are reviewed annually.

Intangible assets are not amortised while their useful lives are assessed to be indefinite. Any conclusion that the useful life of an intangible asset is indefinite is reviewed annually to determine whether events and circumstances continue to support the indefinite useful life assessment for that asset. If they do not, the change in the useful life assessment from indefinite to finite is accounted for prospectively from the date of change and in accordance with the policy for amortisation of intangible assets with finite lives as set out above.

i) Leased assets

An arrangement, comprising a transaction or a series of transactions, is or contains a lease if the Group determines that the arrangement conveys a right to use a specific asset or assets for an agreed period of time in return for a payment or a series of payments. Such a determination is made based on an evaluation of the substance of the arrangement and is regardless of whether the arrangement takes the legal form of a lease.

i) Classification of assets leased to the Group

Assets that are held by the Group under leases which transfer to the Group substantially all the risks and rewards of ownership are classified as being held under finance leases. Leases which do not transfer substantially all the risks and rewards of ownership to the Group are classified as operating leases, with the following exceptions:

- property held under operating leases that would otherwise meet the definition of an investment property is classified as an investment property on a property-by-property basis and, if classified as investment property, is accounted for as if held under a finance lease; and
- land held for own use under an operating lease, the fair value of which cannot be measured separately from the fair value of a building situated thereon at the inception of the lease, is accounted for as being held under a finance lease, unless the building is also clearly held under an operating lease. For these purposes, the inception of the lease is the time that the lease was first entered into by the Group, or taken over from the previous lessee.

ii) Operating lease charges

Where the Group has the use of assets held under operating leases, payments made under the leases are charged to profit or loss in equal instalments over the accounting periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased asset. Lease incentives received are recognised in profit or loss as an integral part of the aggregate net lease payments made. Contingent rentals are charged to profit or loss in the accounting period in which they are incurred.

iii) Finance leasing income

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

iv) Leasehold land and building for own use

When the Group makes payments for a property interest which includes both leasehold land and building elements, the Group assesses the classification of each element separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating leases in which case the entire property is accounted for as an operating lease. Specifically, the entire consideration (including any lump-sum upfront payments) are allocated between the leasehold land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element at initial recognition.

To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as "land use rights" in the consolidated statement of financial position and is amortised over the lease term on a straight-line basis. When the payments cannot be allocated reliably between the leasehold land and building elements, the entire property is generally classified as if the leasehold land is under finance lease.

(A) Policy applicable from 1 January 2018

The Group recognises a loss allowance for expected credit losses ("ECLs") on the following items:

- financial assets measured at amortised cost (including cash and cash equivalents, trade and other receivables and loan receivables);
- lease receivables.

Financial assets measured at fair value, including equity securities measured at FVPL, equity securities designated at FVOCI (non-recycling) and derivative financial assets are not subject to the ECL assessment.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all expected cash shortfalls (that is, the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

- lifetime ECLs: these are losses that are expected to result from all possible default events over the expected lives of the items to which the ECL model applies.

Loss allowances for trade receivables and lease receivables are always measured at an amount equal to lifetime ECLs. ECLs on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors and an assessment of both the current and forecast general economic conditions at the reporting date.

For all other financial instruments, the Group recognises a loss allowance equal to 12-month ECLs unless there has been a significant increase in credit risk of the financial instrument since initial recognition, in which case the loss allowance is measured at an amount equal to lifetime ECLs.

Significant increases in credit risk

In assessing whether the credit risk of a financial instrument has increased significantly since initial recognition, the Group compares the risk of default occurring on the financial instrument assessed at the reporting date with that assessed at the date of initial recognition. In making this reassessment, the Group considers that a default event occurs when (i) the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or (ii) the financial asset is 90 days past due. The Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- failure to make payments of principal or interest on their contractually due dates;
- an actual or expected significant deterioration in a financial instrument's external or internal credit rating (if available);
- an actual or expected significant deterioration in the operating results of the debtor; and
- existing or forecast changes in the technological, market, economic or legal environment that have a significant adverse effect on the debtor's ability to meet its obligation to the Group.

Depending on the nature of the financial instruments, the assessment of a significant increase in credit risk is performed on either an individual basis or a collective basis. When the assessment is performed on a collective basis, the financial instruments are grouped based on shared credit risk characteristics, such as past due status and credit risk ratings.

ECLs are remeasured at each reporting date to reflect changes in the financial instrument's credit risk since initial recognition. Any change in the ECL amount is recognised as an impairment gain or loss in profit or loss. The Group recognises an impairment gain or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt securities that are measured of at FVOCI (recycling), for which the loss allowance is recognised in other comprehensive income and accumulated in the fair value reserve (recycling).

Basis of calculation of interest income

Interest income recognised in accordance with note 2(t)(ii) is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on the amortised cost (that is, the gross carrying amount less loss allowance) of the financial asset.

Evidence that a financial asset is credit-impaired includes the following observable events:

- significant financial difficulties of the debtor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- it becoming probable that the borrower will enter into bankruptcy or other financial reorganisation;

The gross carrying amount of a financial asset or lease receivable is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off.

Subsequent recoveries of an asset that was previously written off are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

If any such evidence existed, an impairment loss was determined and recognised as follows:

For trade and other receivables and other financial assets carried at amortised cost, impairment loss was measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate, where the effect of discounting was material. This assessment was made collectively where these financial assets shared similar risk characteristics, such as similar past due status, and had not been individually assessed as impaired. Future cash flows for financial assets which were assessed for impairment collectively were based on historical loss experience for assets with credit risk characteristics similar to the collective group.

If in a subsequent period the amount of an impairment loss decreased and the decrease could be linked objectively to an event occurring after the impairment loss was recognised, the impairment loss was reversed through profit or loss. A reversal of an impairment loss was only recognised to the extent that it did not result in the asset's carrying amount exceeding that which would have been determined had no impairment loss been recognised in prior years.

When the recovery of a trade debtor or other financial assets carried at amortised cost was considered doubtful but not remote, associated impairment losses were recorded using an allowance account. When the Group was satisfied that recovery was remote, the amount considered irrecoverable was written off against the gross carrying amount of those assets directly. Subsequent recoveries of amounts previously charged to the allowance account were reversed against the allowance account. Other changes in the allowance account and subsequent recoveries of amounts previously written off directly were recognised in profit or loss.

(ii) Impairment of other non-current assets (Continued)

Calculation of recoverable amount

The recoverable amount of an asset is the greater of its fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (that is, a cash-generating unit).

- Recognition of impairment losses

An impairment loss is recognised in profit or loss if the carrying amount of an asset, or the cashgenerating unit to which it belongs, exceeds its recoverable amount. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash-generating unit (or group of units) and then, to reduce the carrying amount of the other assets in the unit (or group of units) on a pro rata basis, except that the carrying value of an asset will not be reduced below its individual fair value less costs of disposal (if measurable) or value in use (if determinable).

- Reversals of impairment losses

In respect of assets other than goodwill, an impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. An impairment loss in respect of goodwill is not reversed.

A reversal of an impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years. Reversals of impairment losses are credited to profit or loss in the year in which the reversals are recognised.

(ii) 其他非流動資產之減值 (續)

一 計算可收回數額

資產之可收回數額乃 指其公平值減出售成 本與使用價值兩者中 之較高者。在評估使 用價值時,估計日後 現金流量乃根據除稅 前貼現率貼現至現 值,而該貼現率須能 反映市場現行對款項 的時間價值及資產獨 有風險之評估。倘某 項資產之現金流量大 致上不能獨立於其他 資產之現金流量,則 就可獨立產生現金流 量之最小資產組別 (即現金產生單位) 釐定可收回數額。

一 確認減值虧損

倘資產或其所屬之 現金產生單位之賬 面值超過其可收回 數額,則於損益表確 認減值虧損。就現金 產生單位確認之減 值虧損而言,其首先 用作減少已分配至 現金產生單位(或單 位類別)之任何商譽 之賬面值,其後按比 例用作減少單位(或 單位類別)其他資產 之賬面值,惟資產之 賬面值將不得減少 至低於其個別公平 值減出售成本(如 能計量)或使用價值 (如能計算)。

一 減值虧損撥回

就除商譽外之資產 而言·倘用作釐定可 收回數額之估計 現有利變動·則須撥 回減值虧損。與商譽 有關的減值虧損則 不會撥回。

滅值虧損撥回只限於該資產並未計算過往年度所確認之減值虧損時之賬的。減值虧損撥回於確認有關撥回之年度計入損益內。

(j) Credit losses and impairment of assets (Continued)

(iii) Interim financial reporting and impairment

Under the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited, the Group is required to prepare an interim financial report in compliance with HKAS 34, Interim financial reporting, in respect of the first six months of the financial year. At the end of the interim period, the Group applies the same impairment testing, recognition, and reversal criteria as it would at the end of the financial year (see notes 2(j)(i) and (ii)).

Impairment losses recognised in an interim period in respect of goodwill are not reversed in a subsequent period. This is the case even if no loss, or a smaller loss, would have been recognised had the impairment been assessed only at the end of the financial year to which the interim period relates.

(k) Inventories

Inventories

Inventories are assets which are held for sale in the ordinary course of business, in the process of production for such sale or in the form of materials or supplies to be consumed in the production process or in the rendering of services.

Inventories are carried at the lower of cost and net realisable value.

Cost is calculated using the weighted average cost formula and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any writedown of inventories to net realisable value and all losses of inventories are recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

I) Contract assets and contract liabilities

A contract asset is recognised when the Group recognises revenue (see note 2(t)) before being unconditionally entitled to the consideration under the payment terms set out in the contract. Contract assets are assessed for expected credit losses (ECL) in accordance with the policy set out in note 2(j)(i) and are reclassified to receivables when the right to the consideration has become unconditional (see note 2(m)).

A contract liability is recognised when the customer pays non-refundble consideration before the Group recognises the related revenue (see note 2(t)). A contract liability would also be recognised if the Group has an unconditional right to receive consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised (see note 2(m)).

For a single contract with the customer, either a net contract asset or a net contract liability is presented. For multiple contracts, contract assets and contract liabilities of unrelated contracts are not presented on a net basis.

When the contract includes a significant financing component, the contract balance includes interest accrued under the effective interest method (see note 2(t)(ii)).

m) Trade and other receivables

A receivable is recognised where the Group has an unconditional right to receive consideration. A right to receive consideration is unconditional if only the passage of time is required before payment of that consideration is due. If revenue has been recognised before the Group has an unconditional right to receive consideration, the amount is presented as a contract asset (see note 2(1)).

Receivables are stated at amortised cost using the effective interest method less allowance for credit losses (see note 2(j)(i)).

n) Interest-bearing borrowings

Interest-bearing borrowings are measured initially at fair value less transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method. Interest expense is recognised in accordance with the Group's accounting policy for borrowing costs (see note 2(v)).

o) Trade and other payables

Trade and other payables are initially recognised at fair value and are subsequently stated at amortised cost unless the effect of discounting would be immaterial, in which case they are stated at cost.

p) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Cash and cash equivalents are assessed for expected credit losses (ECL) in accordance with the policy set out in note 2(j)(i).

i) Short term employee benefits and contributions to defined contribution retirement plans

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees. ii) Share-based payments

Share options granted to employees

The fair value of share options granted to employees is recognised as an employee cost with a corresponding increase in a capital reserve within equity. The fair value is measured at grant date using the binomial lattice model, taking into account the terms and conditions upon which the options were granted. Where the employees have to meet vesting conditions before becoming unconditionally entitled to the options, the total estimated fair value of the options is spread over the vesting period, taking into account the probability that the options will vest.

During the vesting period, the number of share options that is expected to vest is reviewed. Any resulting adjustment to the cumulative fair value recognised in prior years is charged/credited to profit or loss for the year of the review, unless the original employee expenses qualify for recognition as an asset, with a corresponding adjustment to the capital reserve. On vesting date, the amount recognised as an expense is adjusted to reflect the actual number of options that vest (with a corresponding adjustment to the capital reserve) except where forfeiture is only due to not achieving vesting conditions that relate to the market price of the Company's shares. The equity amount is recognised in the capital reserve until either the option is exercised (when it is included in the amount recognised in share capital for the shares issued) or the option expires (when it is released directly to accumulated losses).

Share options granted to consultants

Share options issued in exchange for goods or services are measured at the fair values of the goods or services received, unless that fair value cannot be reliably measured, in which case the goods or services received are measured by reference to the fair value of the share options granted. The fair values of the goods or services received are recognised as expenses, with a corresponding increase in equity (share options reserve), when the Group obtains the goods or when the counterparties render services, unless the goods or services qualify for recognition as assets.

iii) Termination benefits

Termination benefits are recognised at the earlier of when the Group can no longer withdraw the offer of those benefits and when it recognises restructuring costs involving the payment of termination benefits.

r) Income tax

Income tax for the year comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in profit or loss except to the extent that they relate to items recognised in other comprehensive income or directly in equity, in which case the relevant amounts of tax are recognised in other comprehensive income or directly in equity, respectively.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

r) Income tax (Continued)

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary differences or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilised.

The limited exceptions to recognition of deferred tax assets and liabilities are those temporary differences arising from goodwill not deductible for tax purposes, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit (provided they are not part of a business combination) and temporary differences relating to investments in subsidiaries to the extent that, in the case of taxable differences, the Group controls the timing of the reversal and it is probable that the differences will not reverse in the foreseeable future, or in the case of deductible differences, unless it is probable that they will reverse in the future.

The amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the end of the reporting period. Deferred tax assets and liabilities are not discounted.

r) Income tax (Continued)

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

Additional income taxes that arise from the distribution of dividends are recognised when the liability to pay the related dividends is recognised.

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities, if the Company or the Group has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

- in the case of current tax assets and liabilities, the Company or the Group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or
- in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:
 - the same taxable entity; or
 - different taxable entities, which, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realise the current tax assets and settle the current tax liabilities on a net basis or realise and settle simultaneously.

Provisions are recognised when the Group has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. t) Revenue and other income

Income is classified by the Group as revenue when it arises from the sale of goods, the provision of services or the use by others of the Group's assets under leases in the ordinary course of the Group's business.

Revenue is recognised when control over a product or service is transferred to the customer, or the lessee has the right to use the asset, at the amount of promised consideration to which the Group is expected to be entitled, excluding those amounts collected on behalf of third parties. Revenue excludes value added tax or other sales taxes and is after deduction of any trade discounts.

Where the contract contains a financing component which provides a significant financing benefit to the customer for more than 12 months, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction with the customer, and interest income is accrued separately under the effective interest method. Where the contract contains a financing component which provides a significant financing benefit to the Group, revenue recognised under that contract includes the interest expense accreted on the contract liability under the effective interest method. The Group takes advantage of the practical expedient in paragraph 63 of HKFRS 15 and does not adjust the consideration for any effects of a significant financing component if the period of financing is 12 months or less.

Further details of the Group's revenue and other income recognition policies are as follows:

i) Sale of goods

Revenue is recognised when the customer takes possession of and accepts the products. If the products are a partial fulfilment of a contract covering other goods and/or services, then the amount of revenue recognised is an appropriate proportion of the total transaction price under the contract, allocated between all the goods and services promised under the contract on a relative stand-alone selling price basis.

In the comparative period, revenue from sales of goods was recognised when the goods were delivered to the customers' premises, which was taken to be the point in time when the customer had accepted the goods and the related risks and rewards of ownership, irrespective of whether the products had been made-to-order or were standardised.

ii) Interest income

Interest income is recognised as it accrues using the effective interest method using the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial assets. For financial assets measured at amortised cost or FVOCI (recycling) that are not credit-impaired, the effective interest rate is applied to the gross carrying amount of the asset. For credit-impaired financial assets, the effective interest rate is applied to the amortised cost (that is, gross carrying amount net of loss allowance) of the assets (see 2(j)(i)).

iii) Service income

Service income is recognised in profit or loss when the services are delivered.

iv) Finance leasing income

Finance leasing income, including handling fee income and interest from finance leasing business, is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

v) Dividends

Dividend income from listed investments is recognised when the share price of the investment goes ex-dividend.

u) Translation of foreign currencies

Foreign currency transactions during the year are translated at the foreign exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the foreign exchange rates ruling at the end of the reporting period. Exchange gains and losses are recognised in profit or loss.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the foreign exchange rates ruling at the transaction dates. The transaction date is the date on which the Company initially recognises such non-monetary assets or liabilities. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated using the foreign exchange rates ruling at the dates the fair value was measured.

u) Translation of foreign currencies (Continued)

The results of foreign operations are translated into RMB at the exchange rates approximating the foreign exchange rates ruling at the dates of the transactions. Statement of financial position items, including goodwill arising on consolidation of foreign operations acquired on or after 1 January 2005, are translated into RMB at the closing foreign exchange rates at the end of the reporting period. The resulting exchange differences are recognised in other comprehensive income and accumulated separately in equity in the translation reserve.

On the disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation is reclassified from equity to profit or loss when the profit or loss on disposal is recognised.

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. Other borrowing costs are expensed in the period in which they are incurred.

The capitalisation of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalisation of borrowing costs is suspended or ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are interrupted or complete.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

3. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (Continued)

Except as described below, the application of the new and amendments to HKFRSs in the current year has had no material impact on the Group's financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

HKFRS 15 Revenue from contracts with customers

The Group has applied HKFRS 15 for the first time in the current year. HKFRS 15 superseded HKAS 18 "Revenue", HKAS 11 "Construction Contracts" and the related interpretations

The Group has applied HKFRS 15 retrospectively with the cumulative effect of initially applying this standard recognised at the date of initial application, 1 January 2018. Any difference at the date of initial application is recognised in the opening accumulated losses (or other components of equity, as appropriate) and comparative information has not been restated. Furthermore, in accordance with the transition provisions in HKFRS 15, the Group has elected to apply the standard retrospectively only to the contracts that are not completed at 1 January 2018. Accordingly, certain comparative information may not be comparable as comparative information was prepared under HKAS 18 "Revenue" and HKAS 11 "Construction Contracts" and the related interpretations.

The Group recognises revenue from the following major sources which arise from contracts with customers:

- Sale of pharmaceutical products
- Provision of finance leasing services
- Sale of products other than pharmaceutical products

The Group has performed an assessment on the impact on the adoption of HKFRS 15 and concluded that no material financial impact exists, and therefore no adjustment to the opening balance of accumulated losses as at 1 January 2018 is required. Accounting policies resulting from application of HKFRS 15 are disclosed in note 2

3. 應用新訂及經修訂香港財務報告準 則(「香港財務報告準則」)(續)

除下文所述外,於本年度應用新訂及經 修訂香港財務報告準則並無對本集團 於本年度及過往年度之財務表現及狀 況以及/或綜合財務報表所載之披露 資料造成重大影響。

APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (Continued)

Summary of effects arising from initial application of HKFRS 15

Under HKFRS 15, a contract liability is recognised when a customer pays consideration, or is contractually required to pay consideration and the amount is already due, before the Group recognised the relevant revenue. The Group recognised its contract liabilities under other payable as receipt in advance in the consolidated statement of financial position.

HKFRS 9 Financial instruments

In the current year, the Group has applied HKFRS 9 "Financial Instruments" and the related consequential amendments to other HKFRSs. HKFRS 9 introduces new requirements for 1) the classification and measurement of financial assets and financial liabilities; and 2) expected credit losses ("ECL") for financial assets.

The Group has applied HKFRS 9 in accordance with the transition provisions set out in HKFRS 9, that is, applied the classification and measurement requirements (including impairment under ECL model) retrospectively to instruments that have not been derecognised as at 1 January 2018 (date of initial application) and has not applied the requirements to instruments that have already been derecognised as at 1 January 2018. The difference between the carrying amounts as at 31 December 2017 and the carrying amounts as at 1 January 2018 is recognised in the opening accumulated losses and other components of equity, without restating comparative information.

Accordingly, certain comparative information which may not be comparable as comparative information was prepared under HKAS 39 "Financial Instruments: Recognition and Measurement".

Accounting policies resulting from application of HKFRS 9 are disclosed in note 2.

Summary of effects arising from initial application of HKFRS 9

The directors of the Company reviewed and assessed the Group's financial assets as at 1 January 2018 based on the fact and circumstances that existed at that date. The application of HKFRS 9 in the current year has no material impact on the classification and measurement of financial assets.

3. 應用新訂及經修訂香港財務報告準 則(「香港財務報告準則」)(續)

初步應用香港財務報告準則第**15**號產 生之影響概要

根據香港財務報告準則第15號,在本集團確認相關收入前,當客戶支付代價或按合約規定支付代價且款項已到期時,確認一項合約負債。本集團於綜合財務狀況表內確認其其他應付款項項下之合約負債為預收款項。

香港財務報告準則第9號「金融工具」

於本年度,本集團已應用香港財務報告 準則第9號「金融工具」及其他香港財務 報告準則之有關相應修訂本。香港財務 報告準則第9號引入1)金融資產及金融 負債之分類及計量:及2)金融資產之預 期信貸虧損(「預期信貸虧損」)之新規 定。

本集團已按香港財務報告準則第9號所載之過渡條文應用香港財務報告準則第9號,即對並無於二零一八年一月日(首次應用日期)終止確認之工具追別應用分類及計量規定(包括根據預期合資虧損模式之減值),且並無對已於二零一八年一月一日終止確認之工具應用有關規定。於二零一七年十二月三十一日之賬面值之間之差額,於年初累計虧損及權益之其他部分確認,且並無重列比較資料。

因此,由於比較資料乃根據香港會計準 則第39號「金融工具:確認及計量」編 製,故若干比較資料可能無法用作比 較。

應用香港財務報告準則第9號導致之會 計政策於附註2內披露。

初步應用香港財務報告準則第**9**號產生之影響概要

本公司董事已按二零一八年一月一日 存在之事實及情況審閱及評估本集團 於該日之金融資產。於本年度應用香港 財務報告準則第9號並未對金融資產之 計量及分類產生任何重大影響。

3. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (Continued)

Impairment under ECL model

Except for those which had been determined as credit impaired under HKAS 39, trade receivables have been assessed individually with outstanding significant balances and collectively using a provision matrix for the remaining balances, which is grouped based on shared credit risk characteristics and the historical observed default rates adjusted for forward-looking estimates that is available without undue costs or effort.

Except for those which had been determined as credit impaired under HKAS 39, ECL for other financial assets at amortised cost, including other receivables and bank balances and cash, are assessed on a 12-month ECL ("12m ECL") basis as there had been no significant increase in credit risk since initial recognition.

The Group concluded that the initial application of HKFRS 9 has no material impact on the consolidated statement of financial position of the Group with regard to classification and measurement of financial instruments and has no significant impact on the impairment assessment of its financial assets.

3. 應用新訂及經修訂香港財務報告準 則(「香港財務報告準則」)(續)

根據預期信貸虧損模式之減值

除經已釐定為根據香港會計準則第39 號進行之信貸減值外,已就貿易應收款 項之餘額按重大尚未償還結餘個別進行 評估及共同使用撥備方陣進行評估,其 根據就不需不必要成本或努力而可得 之前瞻性估計而調整之共同信貸風險特 性及歷史可觀察違約率而進行分組。

除經已釐定為根據香港會計準則第39 號進行之信貸減值外,由於自初步確認 以來信貸風險並無大幅增加,故按攤銷 成本計量之其他金融資產(包括其他應 收款項以及銀行結餘及現金)之預期信 貸虧損乃按12個月預期信貸虧損(「12 個月預期信貸虧損」)基準進行評估。

本集團認為,就計量及分類金融工具而言,初步應用香港財務報告準則第9號並未對本集團之綜合財務狀況表產生重大影響,且並未對其金融資產減值評估產生重大影響。

4. ACCOUNTING JUDGEMENTS AND ESTIMATES

a) Critical accounting judgements in applying the Group's accounting policies

In the process of applying the Group's accounting policies, management has made the following accounting judgements:

i) Useful lives of property, plant and equipment

The Group's management determines the estimated useful lives, and related depreciation charges for its property, plant and equipment. The estimates are based on the historical experience of the actual useful lives of property, plant and equipment of similar nature and functions. Management will increase the depreciation charges where useful lives are less than previously estimated lives. It will write off or write down technically obsolete or non-strategic assets that have been abandoned or sold. Actual economic lives may differ from estimated useful lives. Periodic review could result in a change in depreciable lives and therefore affect the depreciation charges in future periods.

ii) Income taxes

The Group is mainly subject to income taxes in Hong Kong and the PRC. Significant judgment is required in determining the provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred income tax provisions in the period in which such determination is made.

iii) Principal versus agent consideration

Under HKAS 18, the Group recognised sales of general trading products on a gross basis, that is, the Group was considered as a principal, due to its significant exposure to credit risk of customers. Upon application of HKFRS 15, the Group is considered as an agent for certain general trading products, the performance obligation is to arrange for the provision of such products as the Group did not obtain the control over the goods before passing on to customers taking into consideration indicators such as the Group is not primarily responsible for fulfilling the promise to provide such products in specified quality and not exposed to inventory risk.

4. 會計判斷及估計

a) 本集團會計政策所用之重大會計 判斷

於應用本集團會計政策時,管理層作出下列會計判斷:

i) 物業、廠房及設備之可使 用年期

本集團的管理層為其物 業、廠房及設備釐定估計 可使用年期及有關折舊支 出。此估計以相似性質及功 能之物業、廠房及設備之實 際可使用年期之過往經驗 為基準。倘可使用年期少於 先前估計水平,管理層將提 高折舊支出。其將沖銷或減 記亦棄用或售出的技術上 已屬陳舊或並非策略性質 的資產。實際經濟年限可能 不同於估計可使用年期。定 期審查可能引致可折舊年 期變動,從而影響未來期間 的折舊支出。

ii) 所得税

iii) 委託人與代理人考慮事項

根據香港會計準則第18 號,本集團按總額基準確 認一般貿易產品銷售,即 本集團因其於客戶信貸風 險所承受的重大風險而被 視為委託人。於應用香港 財務報告準則第15號後, 本集團就若干一般貿易產 品視作代理人,其履約責 任為安排提供相關產品, 原因為本集團於商品轉交 客戶前並未取得商品的控 制權,此乃計及本集團並 非主要負責履行按指定數 量提供相關產品的承諾, 且並未面對存貨風險。

For the year ended 31 December 2018 截至二零一八年十二月三十一日止年度

4. ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

b) Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

i) Impairment of intangible assets (other than goodwill)

The policy for impairment of intangible assets (other than goodwill) of the Group is based on an evaluation of their recoverable amount with reference to expected future cash flows based on management's estimation. A considerable amount of judgement is required in estimating the expected future cash flows from the Group's pharmaceutical products under development and software. If the recoverable amounts are less or more than expected than the carrying amounts of the intangible assets (other than goodwill), or changes in facts and circumstances which may result in revisions of the estimated future cash flows, impairment or reversal of impairment loss may be required.

During the year, impairment loss on intangible assets (other than goodwill) recognised in profit or loss amounted to approximately RMB Nil (2017: RMB3,121,000).

The carrying amount of intangible assets (other than goodwill) as at 31 December 2018 was RMB28,507,000 (2017: RMB Nii) (see note 18).

4. 會計判斷及估計(續)

b) 估計不確定性的主要來源

以下是於報告期間結束時有關未來的主要假設及估計不明朗因素的其他主要來源,有關假設及來源可能具有導致資產及負債的賬面值於下一財政年度內作出大幅調整的重大風險。

i) 無形資產減值(商譽除外)

年內,於損益內確認之無 形資產(商譽除外)減值虧 損約為人民幣零元(二零 一七年:人民幣3,121,000 元)。

於二零一八年十二月三十一日,無形資產(商譽除外)的賬面值為人民幣 28,507,000元(二零一七年:人民幣零元)(見附註 18)。

綜合財務報表附註

For the year ended 31 December 2018 截至二零一八年十二月三十一日止年度

4. ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

b) Key sources of estimation uncertainty (Continued)

ii) Impairment of property, plant and equipment and land use rights

Property, plant and equipment and land use rights are reviewed for impairment whenever events or change in circumstances indicate that the carrying amounts may not be recoverable. The recoverable amounts have been determined based on the higher of value-in-use calculations or fair value less costs of disposal calculations. The calculations require the use of judgements and estimates.

Management judgement is required in the area of asset impairment particularly in assessing: (i) whether an event has occurred that may indicate that the related asset values may not be recoverable; (ii) whether the carrying value of an asset can be supported by the recoverable amount, being the higher of fair value less costs of disposal and value-in-use; and (iii) the appropriate key assumptions to be applied in preparing cash flow projections including whether these cash flow projections are discounted using an appropriate rate. Changing the assumptions selected by management in assessing impairment, including the discount rates or the growth rate assumptions in the cash flow projections, could affect the net present value used in the impairment test and as a result affect the Group's financial position and results of operations.

During the year, impairment loss on property, plant and equipment and land use rights recognised in profit or loss amounted to approximately RMB146,001,000 (2017: RMB683,326,000) and RMB1,197,000 (2017: RMB27,558,000) respectively.

The carrying amounts of property, plant and equipment and land use rights as at 31 December 2018 were RMB30,489,000 (2017: RMB191,263,000 (see note 16) and RMB3,827,000 (2017: RMB7,714,000) (see note 17) respectively.

4. 會計判斷及估計(續)

b) 估計不確定性的主要來源(續)

ii) 物業、廠房及設備以及土 地使用權減值

一旦事件或情況變化表明 或不能收回賬面值,則會對 物業、廠房及設備以及土地 使用權進行減值審查。可收 回金額已根據使用價值計 算結果或公平值減出售費 用計算結果當中之較高 釐定。該等計算方法須應用 判斷及估計。

管理層須就資產減值方面 作出判斷,特別須評估:(i) 是否經已發生可能顯示有 關資產價值可能無法收回 之事件; (ii)資產賬面值是否 可獲可收回金額(即公平 值減出售成本與使用價值 之較高者)支持;及(iii)將用 於編製現金流預測之適當 主要假設,包括此等現金 流預測是否以適當利率貼 現。管理層於評估減值時選 定假設(包括現金流預測 之貼現率或增長率假設)之 變動,可對減值測試所用之 淨現值構成影響,從而影響 本集團的財務狀況及經營 業績。

年內,於損益內確認之物業、廠房及設備以及土地使用權之減值虧損分別約為人民幣146,001,000元(二零一七年:人民幣683,326,000元)及人民幣1,197,000元(二零一七年:人民幣27,558,000元)。

於二零一八年十二月三十一日,物業、廠房及設備及土地使用權的賬面值分別為人民幣30,489,000元(二零一七年:人民幣191,263,000元)(見附註16)及人民幣3,827,000元(二零一七年:人民幣7,714,000元)(見附註17)。

4. ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

b) Key sources of estimation uncertainty (Continued)

iii) Provision of ECL for trade receivables

The Group uses a provision matrix to calculate ECL for the trade receivables. The provision rates are based on aging of trade receivables as groupings of various debtors that have similar loss patterns. The provision matrix is based on the Group's historical default rates taking into consideration forward-looking information that is reasonable and supportable available without undue costs or effort. At every reporting date, the historical observed default rates are reassessed and changes in the forward-looking information are considered. In addition, trade receivables with significant balances and credit impaired are assessed for ECL individually.

The provision of ECL is sensitive to changes in estimates. The information about the ECL and the Group's trade receivables are disclosed in note 23.

iv) Estimated net realisable value of inventories

Net realisable value of inventories is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sales. The Group writes down slow-moving or obsolete inventories based on an assessment of the net realisable value of the inventories. Write-down of inventories will be made where events or changes in circumstances indicate that the net realisable value is less than cost. The determination of net realisable value requires the use of judgement and estimates. Where the expectation is different from the original estimate, such difference will impact the carrying amount of the inventories and the amount of inventory written down in the period in which such estimate has been changed.

As at 31 December 2018, the carrying amount of inventories was RMB10,914,000 (2017: RMB39,369,000) (see note 22).

4. 會計判斷及估計(續)

b) 估計不確定性的主要來源(續)

iii) 貿易應收款項之預期信貸 虧損撥備

本集團使用撥備矩陣計算 貿易應收款項之預期信貸 虧損。虧損率乃以具有類 似虧損模式之若干債務人 組群之貿易應收款項之賬 齡為基準。撥備矩陣以本集 團之歷史違約率為基準,此 乃計及無需付出過多成本 或努力即可獲得之合理可 靠前瞻性資料。於各報告日 期,可觀察歷史違約率經重 新評估,並已考慮前瞻性資 料之變動。此外,具有重大 結餘及信貸減值之貿易應 收款項已作個別預期信貸 虧損評估。

b) Key sources of estimation uncertainty (Continued)

v) Impairment of goodwill

The Group tests annually whether goodwill has suffered any impairment in accordance with the accounting policy set out in note 2 (e) (ii). The recoverable amount of an asset or a cash-generating unit has been determined based on its value-in-use calculations. These calculations require the use of estimates. There are a number of assumptions and estimates involved for the preparation of cash flow projections for the period covered by the approved budget and the estimated terminal value. Key assumptions include the expected operating margin, growth rates and selection of discount rates, to reflect the risks involved and the earnings multiple that can be realised for the estimated terminal value. Management prepared the financial budgets reflecting actual performance and market development expectations. Judgement is required to determine key assumptions adopted in the cash flow projections and changes to key assumptions can significantly affect these cash flow projections and therefore the result of the impairment reviews.

Details of impairment change and key assumptions are disclosed in note 19.

As at 31 December 2018, the carrying amount of goodwill was RMB Nil (2017: RMB Nil) (see note 19).

vi) Recoverability of deferred tax assets

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. In assessing the amount of deferred income tax assets that need to be recognised, the Group considers future taxable income and ongoing prudent and feasible tax planning strategies. In the event that the Group's estimates of projected future taxable income and benefits from available tax strategies are changed, adjustments to the recorded amount of net deferred income tax assets and income tax expense would be made.

As at 31 December 2018, the carrying amount of deferred tax assets was RMB Nil (2017: RMB 49,740,000) (see note 30 (b)).

vii) Withholding tax on the distributable profits of the Group's PRC subsidiaries

Pursuant to the PRC Enterprise Income Tax Law, a 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprises established in the PRC. The requirement became effective from 1 January 2008 and applies to earnings after 31 December 2007. A lower withholding tax rate may be applied if there is a tax treaty between the PRC and the jurisdiction of the foreign investors.

The Group has made provision for withholding tax on dividends expected to be remitted from group entities incorporated in the PRC based on the Group's general dividend policy for the net profits generated by the Group's PRC subsidiaries after 1 January 2008. The Group provided withholding tax for such undistributed profits as deferred tax liabilities. The directors of the Company will regularly review the dividend distribution policy of its subsidiaries from time to time.

As at 31 December 2018, the carrying amount of deferred tax liabilities arising from withholding tax on distributable profits was RMB5,031,000 (2017: RMB9,894,000) (see note 30 (b)).

The following table indicates the instantaneous change in the Group's loss after tax and accumulated losses that would arise if foreign exchange rates to which the Group has significant exposure at the end of the reporting period had changed at that date, assuming all other risk variables remained constant. In this respect, it is assumed that the pegged rate between the Hong Kong dollar and the United States dollar would be materially unaffected by any changes in movement in value of the United States dollar against other currencies.

b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's interest rate risk arises primary from fixed-rate bank borrowings (note 29). The fixed-rate bank borrowings expose the Group to fair value interest rate risk. The Group currently does not use any derivative contracts to hedge its exposure to interest rate risks. However, the management of the Group will consider hedging significant interest rate exposures should the need arises. The Group's interest rate profile as monitored by management is set out below.

c) Credit risk

Overview of the Group's exposure to credit risk before adoption of HKFRS 9 as at 1 January 2018

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults.

The Group's credit risk is primarily attributable to trade and other receivables, finance lease receivables and loan receivables. In order to minimise the credit risks, the management has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, management reviews the recoverable amount of each individual debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced. Normally, the Group does not obtain collateral from its debtors.

In respect of cash and cash equivalents, the Group has a concentration of credit risk as approximately 76% are held by a financial institution. The Group controls its credit risk on bank balances through the regular review of their credit rating. Given the high credit rating, management does not expect the financial institution will fail to meet its obligations.

In respect of trade and other receivables, the Group's exposure to credit risk is influenced mainly by the individual characteristics of each debtor. As at 31 December 2017, the Group had a concentration risk as 55% of the total trade and other receivables was due from a customer.

For finance lease receivables, the Group has a concentration of credit risk as 68% receivables were due from a party as at 31 December 2017. The party is a private company with no history of default.

信貸風險指交易對手未履行其合約責任而導致本集團財務虧損之 風險。本集團已採納僅處理信譽 良好的交易對手之政策,作為一 種減輕因違約所致之財務虧損風 險的方法。

就現金及現金等價物而言,本集團信貸風險集中度約76%由一間金融機構持有透過定期審議相關信貸評級,本集團控制其銀行結餘的信貸風險。鑒於其高信貸評級,管理層預期有關金融機構可履行其責任。

就貿易應收款項及其他應收款項 而言,本集團所面臨之信貸風險 主要受各債務人之個別特色所影響。於二零一七年十二月三十一 日,本集團存在集中風險,因貿 易應收款項及其他應收款項總額 中的55%乃由一名客戶所欠。

就融資租賃應收款項而言,本集團信貸風險集中度為68%應收款項為於二零一七年十二月三十一日之應收一方款項。該方為私營公司,並無違約記錄。

Overview of the Group's exposure to credit risk before adoption of HKFRS 9 as at 1 January 2018 (Continued)

For loan receivables, the amount was due from an independent third party as at 31 December 2017. The balance was fully settled by 26 March 2018.

Overview of the Group's exposure to credit risk after adoption of HKFRS 9 as at 1 January 2018

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. At the end of the reporting period, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties arises from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

The Group is exposed to concentration of credit risk at 31 December 2018 on trade receivables from the Group's top five major debtors and the largest debtor amounting approximately to 85% and 33% respectively of the Group's total trade receivables.

The Group is also exposed to concentration of credit risk at 31 December 2018 on finance lease receivables from the Group's top three debtors and the largest debtor amounting approximately to 100% and 51% respectively of the Group's total finance lease receivables.

In order to minimise credit risk, the Group has delegated its finance team to develop and maintain the Group's credit risk grading to categorise exposures according to their degree of risk of default. The finance team uses publicly available financial information and the Group's own historical repayment records to rate its major customers and debtors. The Group's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

c) Credit risk (Continued)

Overview of the Group's exposure to credit risk after adoption of HKFRS 9 as at 1 January 2018 (Continued)

The Group's current credit risk grading framework comprises the following categories:

Category	Description	Basis for recognising ECL
Performing	The counterparty has a low risk of default and does not have any past-due amounts	12m ECL
Doubtful	There has been a significant increase in credit risk since initial recognition	Lifetime ECL – not credit- impaired
In default	There is evidence indicating the asset is credit impaired	Lifetime ECL – credit impaired
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery	Amount is written off

For trade receivables, the Group has applied the simplified approach in HKFRS 9 to measure the loss allowance at lifetime ECL. The Group determines the ECL on these items by using a provision matrix, estimated based on historical credit loss experience based on the past default experience of the debtor, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics (including high risk, normal risk and low risk type).

The following tables show the remaining contractual maturities at the end of the reporting period of the Group's financial liabilities, which are based on contractual undiscounted cash flows of financial liabilities (including interest payments computed using contractual rate) and the earliest date the Group can be required to pay. e) Equity price risk

The Group is exposed to equity price changes arising from equity investments held for trading purpose classified as financial assets at fair value through profit or loss.

The Group's listed investments are listed on the Stock Exchange and are included in the Hang Seng Index (the "Index"). Decisions to buy or sell trading securities are based on daily monitoring of the performance of individual securities compared to that of the Index and other industry indicators, as well as the Group's liquidity needs.

At 31 December 2018, it is estimated that an increase/ (decrease) of 10% (2017: 10%) in the relevant stock market index (for listed investments) with all other variables held constant would have decreased/increased the Group's loss after tax (and accumulated losses) and other components of consolidated equity as follows:

The sensitivity analysis indicates the instantaneous change in the Group's loss after tax (and accumulated losses) and other components of consolidated equity that would arise assuming that the changes in the stock market index or other relevant risk variables had occurred at the end of the reporting period and had been applied to re-measure those financial instruments held by the Group which expose the Group to

equity price risk at the end of the reporting period. It is also assumed that the fair values of the Group's equity investments would change in accordance with the historical correlation with the relevant stock market index or the relevant risk variables, and that all other variables remain constant. The analysis is performed on the same basis for 2017.

i) Financial assets and liabilities measured at fair value

Fair value hierarchy

The following table presents the fair value of the Group's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13 Fair Value Measurement. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs, that is, unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 valuations: Fair value measured using Level 2 inputs, that is, observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available.
- Level 3 valuations: Fair value measured using significant unobservable inputs.

The Group's financial controller is responsible for the fair value measurements of assets and liabilities required for financial reporting purposes, including level 3 fair value measurements. The financial controller reports directly to the board of directors for these fair value measurements. Discussions of valuation processes and results are held between the financial controller and the board of directors at least twice a year.

During the years ended 31 December 2017 and 2018, there were no transfers between Level 1 and Level 2, or transfers into or out of Level 3. The Group's policy is to recognise transfers between levels of fair value hierarchy as at the end of the reporting period in which they occur.

Information about Level 3 fair value measurements

As at 31 December 2016, the fair value of the contingent consideration arrangement of RMB44,643,000 in relation to an acquisition of Fujian Liumai Medical Services Co., Limited ("Fujian Liumai") was estimated by applying the income approach and based on the valuation performed by an independent professional qualified valuer. The fair value estimates were based on assumed profit of Fujian Liumai of RMB8,000,000. This was a level 3 fair value measurement. The key unobservable inputs of the valuation were: (i) expected volatility of 53.7%; (ii) risk free rate of 3.21% and the estimated profits of Fujian Liumai.

截至二零一七年及二零一八年 十二月三十一日止年度,第一級 與第二級之間並無轉移,亦無轉 入或轉出第三級。本集團之政策 為於公平值層級之間發生轉移的 報告期末確認有關轉移。

有關第三級公平值計量之資料

於二零一六年十二月三十一日,涉及收購福建六脈醫療服務有限公司(「福建六脈」)之或然代價安排之公平值人民幣44,643,000元乃應用收入法及根據獨立專業合資格估值師進行的估值而估計。該公平值估計乃基於福建六脈之假設溢利人民幣8,000,000元。此乃為第三級公平值計量。估值之主要不可觀察輸入數據為:(i)預期波幅53.7%:(ii)無風險利率3.21%及福建六脈之估計溢利。

f) Fair value measurement (Continued)

The major unobservable input to the valuation was the expected volatility. A slight increase in the expected volatility used in isolation would result in an increase in the fair value measurement.

The potential undiscounted amount of all future payments that the Group could be required to make under this arrange was between RMB Nil and RMB44,643,000. The full amount of RMB44,643,000 was settled by the Group with cash consideration during the year 2017.

The movements during the period in the balance of Level 3 fair value measurements are as follows:

At beginning of year 年初

Cash consideration paid 已付現金代價

At end of year 年末

Fair value of financial assets and liabilities carried at other than fair value

The directors of the Company consider the carrying amounts of the Group's financial instruments carried at cost or amortised cost were not materially different from their fair values as at 31 December 2018 and 2017 respectively.

- ii) Finance leasing: provision of finance leasing services; and

a) Segment results, assets and liabilities

For the purposes of assessing segment performance and allocating resources between segments, the Board monitors the results, assets and liabilities attributable to each reportable segment on the following bases:

Segment assets include all tangible, intangible assets and current assets with the exception of financial assets at FVPL, interests in an associate, deferred tax assets and other corporate assets. Segment liabilities include trade and other payables attributable to the activities of the individual segments and borrowings managed directly by the segments.

Revenue and expenses are allocated to the reportable segments with reference to sales generated by those segments and the expenses incurred by those segments or which otherwise arise from the depreciation or amortisation of assets attributable to those segments.

The measure used for reporting segment profit/(loss) is "adjusted earnings/(loss) before interest, taxes, depreciation and amortisation", where "interest" is regarded as including interest income from bank deposits and interest exposure on bank and other borrowings and "depreciation and amortisation" is regarded as including impairment losses on non-current assets. To arrive at adjusted earnings/(loss), the Group's earnings/(loss) are further adjusted for items not specifically attributed to individual segments, such as directors' and auditors' remuneration and other head office or corporate administration costs.

In addition to receiving segment information concerning adjusted profit/(loss), the Board is provided with segment information concerning revenue, interest income, depreciation, amortisation, impairment losses, finance costs and additions to non-current segment assets used by segments in their operations.

16. PROPERTY, PLANT AND EQUIPMENT (Continued)

Notes:

- As at 31 December 2018, the approval for applications of house ownership certificates for buildings of the Group with a total carrying amount of RMB21,724,000 (2017: RMB23,122,000) were still in progress.
- b) At 31 December 2018, property, plant and equipment with a net book value of approximately RMB27,431,000 (2017: RMB28,547,000) was pledged to banks as collateral against the bank loans of RMB233,792,000 (2017: RMB281,942,000) (note 29).
- c) Impairment loss

For the year ended 31 December 2018

Based on the annual impairment test performed, an impairment loss of RMB146,001,000 and RMB1,197,000 has been recognised in property, plant and equipment and land use rights (note 17), respectively. The recoverable amount of the cash-generating unit determined based on value in use calculation is estimated to be RMB Nil.

Assumptions used in the value in use calculation are determined with reference to the cash flow projections prepared and approved by the management based on past performance and management's expectation for the market development and evaluation of the future business prospect.

The impairment loss arose as a result of the following factors: (i) the substantial change in the management team of Fujian Sanai Pharmaceutical Company Limited ("Fujian Sanai") and Fuzhou Sanai Pharmaceutical Company Limited ("Fuzhou Sanai") in 2018 which could not be properly handled the operations in a timely manner; and resulted in the sales of Fujian Sanai and Fuzhou Sanai fell short of expectation; (ii) the fast-changing developing pace within the industry; and (iii) management evaluation of the future business prospect of Fujian Sanai and Fuzhou Sanai.

For the year ended 31 December 2017

During the year ended 31 December 2017, the Group has experienced a significant drop in revenue due to (i) the loss of customers resulted from suspension of the operations from late 2016 to early 2017 of all the production compartments in the Group's production plant located in the Haixi Plant Development Zone in Jianyang City, Fujian Province, PRC (the "Haixi Plant") in late 2016; (ii) the implementation of "Two-Invoice System" and "Drug Concentration Procurement"; (iii) failure of one of the major products of the Group to be listed in the National Medical Insurance Directory; (iv) few months' suspension period of oral products production in 2017 due to GMP Certification; and (v) rectification on certain production units in October 2017.

The management of the Group therefore performed an impairment review of the recoverable amount related to Haixi Plant. For the purposes of impairment testing of the Haixi Plant, property, plant and equipment and land use rights located at the Haixi Plant was allocated to one cash generating unit ("CGU") of sales of pharmaceutical products.

- b) 於二零一八年十二月三十一日·賬面淨 值約為人民幣27,431,000元(二零一七 年:人民幣28,547,000元)的物業、廠房 及設備已作為人民幣233,792,000元(二 零一七年:人民幣281,942,000元)的銀 行貸款的抵押物抵押予銀行(附註29)。
- c) 減值虧損

截至二零一八年十二月三十一日止年度

根據所進行之年度減值測試·本集團分別就物業、廠房及設備以及土地使用權(附註17)確認減值虧損人民幣146,001,000元及人民幣1,197,000元。 基於使用價值計算釐定之現金產生單位可收回金額估計為人民幣零元。

使用價值計算所用之假設乃參考管理層 按過往表現、管理層對市場發展之預期 及未來業務前景之評估編製及批准之現 金流量預測釐定。

減值虧損因以下因素而產生:(i)福建三愛蘇業有限公司(「福建三愛」)及福州三愛蘇業有限公司(「福州三愛」)管理層團隊於二零一八年發生重大變動,且並未及時處理相關營運問題,導致福建三愛及福州三愛的銷售業續遠低於預期;(ii)該行業發展步伐瞬息萬變;及(iii)管理層對福建三愛及福州三愛未來業務前景之評估。

截至二零一七年十二月三十一日止年度

截至二零一七年十二月三十一日止年度,本集團收益經歷重大下滑,由於(i)本集團位於中國福建省建陽市開發區的海西廠房(「海西廠房」)的全部生產車間於二零一六年年末至二零一七年年初停止運作所致之二零一六年末客戶流失實;(ii)兩票制」及「藥品集中採購」的落實。(iii)本集員錄;(iv)由於GMP證書於二零一七年間中止生產口服產品數月;及(v)於二零一七年十月若干生產車間整修。

本集團管理層因此對海西廠房相關可收回金額進行減值檢討。為對海西廠房進行減值測試,位於海西廠房的物業、廠房及設備以及土地使用權分配至醫藥產品銷售的一個現金產生單位(「現金產生單位」)。

The above associates are accounted for using the equity method in the consolidated financial statements.

As at 31 December 2016, Fuzhou Sanai Pharmaceutical Company Limited* ("Fuzhou Sanai"), a wholly owned subsidiary of the Group, invested an aggregate amount of approximately RMB94,815,000 in the associate which engaged in the plantation of the Chinese herb, Perilla. In 2017, as Fuzhou Sanai was informed that Perilla Oil Capsule was not included in the National Reimbursement Drug List, the sales volume of Perilla Oil Capsule had an obvious drop and the demand for perilla seeds by the Group had a substantial decrease. To minimise losses, Fuzhou Sanai issued a letter to the associate to request the termination of the cooperative plantation agreement and the refund of investment amount. Such request had not received a positive response. After lengthy negotiation, the management of Fuzhou Sanai determined to take legal actions to protect its rights, and initiated legal proceedings against Antu Guanghui. The management of the Group determined to make a full impairment of RMB4,795,000 on the investment amount in the associate at the end of the year so as to reflect the potential risk of loss.

In 2018, the Company disposed of Fuzhou Sanai (note 37). Upon the completion of disposal, the Company has no significant influence on Antu Guanghui.

During the year, 溫州三盈 was set up and the Group shall pay up RMB9,800,000 of capital. As at 31 December 2018, the Group has not yet paid up the capital, while 溫州三盈 did not commence business in 2018.

The expected volatility is based on the historic volatility (calculated based on the weighted average remaining life of the share options), adjusted for any expected changes to future volatility based on publicly available information. Expected dividends are based on historical dividends. Changes in the subjective input assumptions could materially affect the fair value estimate.

In the opinion of the directors of the Company, these share options were granted to the employees, directors of the Company for recognising their services to the Group, and certain share options were granted to consultants for rendering miscellaneous services to the Group. Since the services provided by consultants are such unique that the fair value cannot be reliably measured, the services received are measured by reference to the fair value of share option granted.

40. POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE YEAR ENDED 31 DECEMBER 2018 (Continued)

HKFRS 16 Leases

HKFRS 16 introduces a comprehensive model for the identification of lease arrangements and accounting treatments for both lessors and lessees. HKFRS 16 will supersede HKAS 17 Leases and the related interpretations when it becomes effective.

HKFRS 16 distinguishes lease and service contracts on the basis of whether an identified asset is controlled by a customer. In addition, HKFRS 16 requires sales and leaseback transactions to be determined based on the requirements of HKFRS 15 as to whether the transfer of the relevant asset should be accounted as a sale. HKFRS 16 also includes requirements relating to subleases and lease modifications.

Distinctions of operating leases and finance leases are removed for lessee accounting, and is replaced by a model where a right-of-use asset and a corresponding liability have to be recognised for all leases by lessees, except for short-term leases and leases of low value assets.

The right-of-use asset is initially measured at cost and subsequently measured at cost (subject to certain exceptions) less accumulated depreciation and impairment losses, adjusted for any remeasurement of the lease liability. The lease liability is initially measured at the present value of the lease payments that are not paid at that date. Subsequently, the lease liability is adjusted for interest and lease payments, as well as the impact of lease modifications, amongst others. For the classification of cash flows, the Group currently presents upfront prepaid lease payments as investing cash flows in relation to leasehold lands for owned use while other operating lease payments are presented as operating cash flows. Upon application of HKFRS 16, lease payments in relation to lease liability will be allocated into a principal and an interest portion which will be presented as financing cash flows by the Group.

Under HKAS 17, the Group has already recognised assets and the related finance lease liabilities for finance lease arrangement where the Group is a lessee. The application of HKFRS 16 may result in potential changes in classification of these assets depending on whether the Group presents right-of-use assets separately or within the same line item at which the corresponding underlying asset would be presented if they were owned.

40. 截至二零一八年十二月三十一日止 年度已頒佈但未生效的修訂、新準 則及詮釋可能產生的影響(續)

香港財務報告準則第16號「租賃」

香港財務報告準則第16號就識別租賃安排及出租人和承租人之會計處理引入全面模式。香港財務報告準則第16號將於生效時取代香港會計準則第17號「租賃」及相關詮釋。

香港財務報告準則第16號根據所識別之資產是否由客戶控制而區分租賃及服務合約。此外·香港財務報告準則第16號規定售後租回交易根據香港財務報告準則第15號有關轉讓相關資產是否應作為銷售入賬的規定而釐定。香港財務報告準則第16號亦包括有關分租及租賃修改的規定。

除短期租賃及低值資產租賃外,經營租 賃及融資租賃的差異從承租人會計處理 中移除,並由承租人須就所有租賃確認 使用權資產及相應負債的模式替代。

根據香港會計準則第17號·本集團已就本集團作為承租人的融資租賃安排確認資產及相關融資租賃負債。應用香港財務報告準則第16號可能導致該等資產之分類發生潛在變動·視乎本集團是否單獨或於倘擁有資產時將予以呈列相應有關資產的同一項目內呈列使用權資產而定。

40. POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE YEAR ENDED 31 DECEMBER 2018 (Continued)

HKFRS 16 Leases (Continued)

Other than certain requirements which are also applicable to lessor, HKFRS 16 substantially carries forward the lessor accounting requirements in HKAS 17, and continues to require a lessor to classify a lease either as an operating lease or a finance lease.

Furthermore, extensive disclosures are required by HKFRS 16.

As at 31 December 2018, the Group has non-cancellable operating lease commitments of HK\$1,056,000 as disclosed in note 34. A preliminary assessment indicates that these arrangements will meet the definition of a lease. Upon the application of HKFRS 16, the Group will recognise a right-of-use asset and a corresponding liability in respect of all these leases unless they qualify for low value or short-term leases.

In addition, the Group currently considers refundable rental deposits paid of approximately HK\$273,000 as rights and obligations under leases to which HKAS 17 applies. Based on the definition of lease payments under HKFRS 16, such deposits are not payments relating to the right to use the underlying assets. Accordingly, the carrying amounts of such deposits may be adjusted to amortised cost. Adjustments to refundable rental deposits paid would be considered as additional lease payments and included in the carrying amount of right-of-use deposits. Adjustments to refundable rental deposits received would be considered as advance lease payments.

The application of new requirements may result in changes in measurement, presentation and disclosure as indicated above. The Group intends to elect the practical expedient to apply HKFRS 16 to contracts that were previously identified as leases applying HKAS 17 and HK(IFRIC) – Int 4 Determining whether an Arrangement Contains a Lease and not apply this standard to contracts that were not previously identified as containing a lease applying HKAS 17 and HK(IFRIC) – Int 4. Therefore, the Group will not reassess whether the contracts are, or contain a lease which already existed prior to the date of initial application. Furthermore, the Group intends to elect the modified retrospective approach for the application of HKFRS 16 as lessee and will recognise the cumulative effect of initial application to opening accumulated losses without restating comparative information.

40. 截至二零一八年十二月三十一日止 年度已頒佈但未生效的修訂、新準 則及詮釋可能產生的影響(續)

香港財務報告準則第16號「租賃」(續)

除若干亦適用於出租人的規定外,香港財務報告準則第16號實質上沿用香港會計準則第17號的出租人會計規定,且繼續要求出租人將租賃分類為經營租賃或融資租賃。

此外,香港財務報告準則第16號要求更 詳盡披露。

如附註34所披露,於二零一八年十二月三十一日,本集團不可撤銷經營租賃承擔為1,056,000港元。初步評估表明,該等安排將符合租賃的定義。於應用香港財務報告準則第16號後,本集團將就所有該等租賃確認使用權資產及相應負債,惟其符合低價值或短期租賃。

此外,本集團現時認為已付可退回租賃按金273,000港元為租賃項下的權利及義務,適用於香港會計準則第17號。根據香港財務報告準則第16號租賃付款的定義,該等按金並非與使用相關資產權利有關的付款,因此,該等按金的賬面值可予調整至攤銷成本。已付可退回租賃按金的調整乃被視為額外租賃付款並會計入使用權資產的賬面值。已收可退回租金按金的調整將會被視為預付租賃付款。

應用新規定可能導致如上文所述之計 量、呈列及披露變動。本集團擬選擇可 行權宜方法,就先前應用香港會計準則 第17號及香港(國際財務報告詮釋委員 會)一詮釋第4號「釐定安排是否包括 租賃」識別為租賃的合約應用香港財務 報告準則第16號,而並無對先前應用香 港會計準則第17號及香港(國際財務報 告詮釋委員會)一詮釋第4號並未識別 為包括租賃的合約應用該準則。因此, 本集團將不會重新評估合約是否為或包 括於首次應用日期前已存在的租賃。此 外,本集團(作為承租人)擬選擇經修訂 追溯法應用香港財務報告準則第16號, 並將確認首次應用對期初保留虧損的累 計影響,而並無重列比較資料。

40. POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE YEAR ENDED 31 DECEMBER 2018 (Continued)

HK(IFRIC)-Int 23 Uncertainty over Income Tax Treatments

HK(IFRIC)-Int 23 sets out how to determine the accounting tax position when there is uncertainty over income tax treatments. The interpretation requires an entity to determine whether uncertain tax positions are assessed separately or as a group; and assess whether it is probable that a tax authority will accept an uncertain tax treatment used, or proposed to be used, by an entity in its income tax filings.

Amendments to HKFRS 9 Prepayment Features with Negative Compensation

The amendments clarify that for the purpose of assessing whether a prepayment feature meets the solely payments of principal and interest on the principal amount outstanding ("SPPI") condition, the party exercising the option may pay or receive reasonable compensation for the prepayment irrespective of the reason i.e. prepayment features with negative compensation do not automatically fail SPPI.

Amendments to HKFRSs Annual Improvements to HKFRSs 2015-2017 Cycle

The annual improvement packages amended the following four standards.

HKAS 12 Income Taxes

The amendments clarify that an entity should recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised the transactions that generated the distributable profits. This is the case irrespective of whether different tax rates apply to distributed and undistributed profits.

香港(國際財務報告詮釋委員會)-詮釋第23號所得稅處理之不確定性

香港財務報告準則第9號(修訂本),具有反向補償的提前還款特徵

該修訂本澄清就評估提前還款特徵是否符合就未償還本金額的純粹本金及利息付款(「SPPI」)標準,而行使選擇權之一方可就提前還款支付或收取合理賠償金額,而不論以何種理由,如具有反向補償的提前還款特徵自動符合SPPI標準。

香港財務報告準則修訂本,二零一五年至二零一七年週期之香港財務報告準則 年度改進

年度改進方案修訂以下四項準則。

香港會計準則第12號,所得税

該修訂本澄清,實體應按照該實體原先 確認產生可分派溢利的交易的方式於損 益、其他全面收益或權益確認股息的所 得税後果,不論適用於已分派及未分派 溢利的税率是否有所不同。

HKAS 23 Borrowing Costs

The amendments clarify that if any specific borrowing remains outstanding after the related asset is ready for its intended use or sale, that borrowing becomes part of the funds that an entity borrows generally when calculating the capitalisation rate on general borrowings.

HKFRS 3 Business Combinations

The amendments clarify that when an entity obtains control of a business that is a joint operation, the entity applies the requirements for a business combination achieved in stages, including remeasuring its previously held interest in the joint operation at fair value. The previously held interest to be remeasured includes any unrecognised assets, liabilities and goodwill relating to the joint operation.

HKFRS 11 Joint Arrangement

The amendments clarify that when a party that participates in, but does not have joint control of, a joint operation that is a business obtains joint control of such a joint operation, the entity does not remeasure its previously held interest in the joint operation.

香港財務報告準則第3號,業務合併
