ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

APPROACH

Yuk Wing Group Holdings Limited (stock code: 1536) and its subsidiaries (hereafter, called the “**Group**”, “**we/our**”, or “**us**”) are committed to promoting transparency of the Group’s operations and creating positive impact on the environment and society in which it operates, and also maintaining close relationships with our stakeholders through stakeholder engagement.

The results of the Environmental, Social and Governance (“**ESG**”) review shown in this report demonstrate the importance which we place on environmental protection, and explain how we seek to continually improve our ESG strategy as to be in line with the global standards.

With both integrity and determination, we look at issues that may have a reputational impact on, or that may pose a risk to, the Group in the short-, medium- or long-run period. Issues that are important to our stakeholders, including but not limited to, our customers and employees, as well as the community, are also crucial to us. We are positive in developing opportunities with a focus on work ethics to ensure that the Group’s success in business development is sustainable, and that the benefits will pass on to our employees, customers and the environment.

The Group follows the principle of sustainable development. We endeavour to incorporate sustainability practices into our policies and mechanisms. By adopting green operational practices, we strive to reduce the environmental impacts caused by the business operations of the Group.

We are confident that the Group’s long-term success can be maintained as the Group properly manages the ESG issues with all relevant stakeholders.

Our sustainability strategy in the following aspects is applied to the work streams:

1. To promote environmental sustainability;
2. To attract, retain and support employees;
3. To engage with stakeholders;
4. To sustain local communities;
5. To strengthen community relations; and
6. To grow a supplier commitment.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ABOUT THIS REPORT

Report Profile

We are pleased to present our second ESG Report (the “**ESG Report**”). This ESG Report mainly focuses on our operations in Hong Kong and the People’s Republic of China (the “**PRC**”). It describes the progress towards our goal of creating sustainable value for our shareholders and other stakeholders. During the process of our preparation of this ESG Report, we have conducted thorough review and evaluation of the existing policies and practices.

Report Scope and Boundary

The ESG report contains information that is material, so as to allow report readers to understand our operational practices in Hong Kong and the PRC.

This ESG Report is prepared in accordance with the selected global, local and industrial standards and best practices, which include, but not limited to, the ESG Reporting Guide as set out in Appendix 27 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “**HKEX**”) (the “**Listing Rules**”) and any applicable accounting and financial reporting standards in Hong Kong. The ESG Report focuses on providing an overview of the performance of our operations in Hong Kong and the PRC with respect to the aspects of ESG for the financial year from 1 April 2018 to 31 March 2019 (the “**Financial Year**” or “**Reporting Period**”). The ESG Reporting Period is consistent with our Financial Year.

In order to comply with the disclosure requirement of the “comply or explain” provision, the ESG Report has outlined our overall performance in respect of environmental protection, human resources, operating practice and community involvement for the Reporting Period. HKEX’s Guide to the ESG report is attached on pages 18 to 21 for cross-referencing purpose.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Our Stakeholders

We believe that our key stakeholders play a crucial role in sustaining the success of our business, and we seek for opportunities to understand and engage our stakeholders. The probable points of concern of the stakeholders and the means of our communication and responses are listed below:

Stakeholders	Probable Points of Concern	Communication and Responses
HKEX	Compliance with the Listing Rules, and timely and accurate announcements.	Meetings, training, workshops, programs, company website updates, and announcements.
Government	Compliance with laws and regulations and social welfare.	Interaction and visits, government inspections, and other information.
Investors	Corporate governance, business strategies and performance, and investment returns.	Shareholders' meetings, publication of financial reports or operational reports for investors and analysts.
Media & Public	Corporate governance, business strategies and performance, and environmental protection.	Company website updates, announcements and publication of financial reports or operational reports.
Customers	Service quality, service delivery schedule, reasonable prices, and service value.	After-sales services.
Employees	Rights and benefits of employees, compensation, training and development, working hours, and working environment.	Training, interviews with employees, internal memos, and employee suggestion boxes.
Community	Community environment, employment opportunities, community development, and social welfare.	Community activities, employee voluntary activities, and community welfare subsidies and donations.

Stakeholders' Feedback

Your feedback and comments are important to us. We strive to enhance communication with our investors, stakeholders and the public. Please send your enquiries and concern in writing to the principal place of business of the Group in Hong Kong at Unit B, 13/F, Eton Building, 288 Des Voeux Road, Central, Hong Kong for the attention of the Company Secretary.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

A. ENVIRONMENTAL

Overview

The Group is principally engaged in the manufacturing and trading of down-the-hole (“DTH”) rockdrilling tools, trading of piling and drilling machineries and trading of rockdrilling equipment.

We understand that the foundation for economic progress and well-being of the society is a healthy environment. The Group has been persistent in conducting business in an environmentally responsible and sustainable manner through the efficient use of resources, including energy, water, and raw materials.

Moreover, we are committed to upholding high environmental standards. To fulfil the relevant requirements under the applicable laws and regulations in Hong Kong and the PRC, Safety Committee (安全生產領導小組) has been set up and internal guidelines and procedures, such as “Enterprise Environmental Protection Management System Policy” (企業環保管理制度) have been established. By complying with relevant local environmental regulations and international general practices, we strive to further alleviate the impacts on the environment from our business operations.

Emissions

We comply with the requirements as set out in the local environmental protection laws and regulations in the PRC, including, but not limited to the “Law of Environmental Protection of the PRC” (中華人民共和國環境保護法), the “Law of the PRC on the Prevention and Control of Atmospheric Pollution” (中華人民共和國大氣污染防治法), “Standards of Guangdong Province on Emission Limits of Air Pollutants” (廣東省地方標準 — 大氣污染物排放限值 DB44/27-2001) issued by the Guangdong Environmental Protection Bureau and the Administration of Quality and Technology Supervision of the Guangdong Province in the PRC and “Standard of Smoke and Dust Emission for Industrial Kiln and Furnace” (工業窯爐大氣污染物排放標準 GB9078-1996).

The major types of air emissions created in the course of production are metallic dust and weld fumes, which are produced during the shot passivation and repair welding process.

To minimise the emissions of metallic dust, cyclone dust collectors and bag-filtering dust precipitators, which are capable of collecting over 99.5% of the metallic dust, are placed in our production facilities. Moreover, weld fumes are gathered using collection channels and are then released through an exhaust funnel that is approximately 15 metres in height.

Aside from the emission generated from our production process as aforementioned, we have generated air emissions and greenhouse gas through our five types of activities, including the use of gas cooking stoves, heater, backup electricity generators, motor vehicles and electricity.

During the Reporting Year, we have produced approximately 269.007 kg of Nitrogen Oxides (2017/18: 335.364 kg), approximately 0.003 kg of Sulphur Dioxide (2017/18: 0.002 kg), approximately 0.006 kg of Smoke and Dust (2017/18: 0.004 kg), approximately 0.420 kg of Sulphur Oxides (2017/18: 0.989 kg) and approximately 920,781.737 kg of carbon dioxide (2017/18: 807,075.672 kg). Details of the emissions are shown below:

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Emission Indicators	Source	Units	
KPI A1.1		2018/19	2017/18
Air Emissions			
<i>Emission Data from Gaseous Fuel Consumption</i>			
Unit	Natural Gas	25,313 L	17,460 L
Emission type (in g)	Nitrogen Oxides	15.947	11.000
	Sulphur Dioxide	2.531	1.746
	Smoke and Dust	6.075	4.190
<i>Emission Data from Vehicles</i>			
Unit	Kilometres travelled	213,978 km	251,898 km
Emission type (in g)	Nitrogen Oxides	268,990.770	335,353.433
	Particulate Matter	26,186.200	32,698.693
Units of fuel consumed	Diesel	10,913.210 L	45,313.590 L
	Petrol	16,626.040 L	17,618.240 L
Emission type (in g)	Sulphur Oxides	420.110	988.537
KPI A1.2			
Total Greenhouse Gas ("GHG") Emissions			
<i>Scope 1: Direct Emissions or Removals from Sources</i>			
Scope 1a — GHG Emissions from Stationary Combustion Sources			
Units of fuel consumed	Natural Gas	25,313 L	17,460 L
	Diesel	10 L¹	487 L
Emission type (in kg)	Carbon Dioxide	73.731²	1,307.187
Scope 1b — GHG Emissions from Mobile Combustion Sources	Units of fuel consumed		
	Diesel	10,913.210 L	45,313.590 L
	Petrol	16,626.040 L	17,618.240 L
Emission type (in kg)	Carbon Dioxide	74,179.036	167,823.741
Scope 2 — Energy Indirect Emissions			
Unit of Electricity Consumed		976,787 kWh	736,670 kWh
Emission type (in kg)	Carbon Dioxide	846,528.970	637,944.740
<i>Total Amount of Carbon Dioxide Produced during the Reporting Period</i>		920,781.737	807,075.672

¹ Reduction of fuel consumption for the year due to the reduction of the use of power generator, the power generator is only used for emergency situation (such as power failure).

² Reduction of carbon dioxide is due to the reduction of the units of fuel consumed.

There were no cases of non-compliance with laws and regulations relating to air pollution and greenhouse gas emission during the reporting period.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Hazardous Waste & Non-Hazardous Waste

Our operations in Hong Kong do not generate material amount of hazardous and non-hazardous wastes. Hazardous and non-hazardous wastes are generated during the course of our production and daily operations in the PRC. Hazardous wastes are mainly cutting fluid, machinery oil and used oil rag. Non-hazardous wastes are mainly paper, paper box and iron scrap.

The wastes produced between current and previous financial years are listed below (KPI A1.3 and KPI A1.4):

Waste Indicators	Source	Unit	
KPI A1.3		2018/19	2017/18
Total hazardous waste produced (in tonnes)	cutting fluid	5.22150	3.07686
	machinery oil	2.36500	2.94360
	used oil rag	0.61060	2.79000
Hazardous waste produced per tonne of unit produced (in tonnes/unit produced)	cutting fluid	0.00050	0.00050
	machinery oil	0.00023	0.00048
	used oil rag	0.00010	0.00046
KPI A1.4			
Total Non-Hazardous waste produced (in tonnes)	paper/paper box	0.126350	0.28330
	iron scrap	210.57000	112.19000
Non-Hazardous waste produced per tonne of unit produced (in tonnes/unit produced)	paper/paper box	0.00001	0.00005
	iron scrap	0.02090	0.01832

We comply with the requirements as set out in the local environmental protection laws and regulations in the PRC, including, but not limited to, the “Law of Environmental Protection of the PRC” (中華人民共和國環境保護法), the “Law of the PRC on Prevention and Control of Water Pollution” (中華人民共和國水污染防治法), the “Law of the PRC on the Prevention and Control of Atmospheric Pollution” (中華人民共和國固體廢物污染環境防治法), “Regulations of Guangdong Province on Prevention and Control of Environmental Pollution by Solid Waste” (廣東省固體廢物污染環境防治條例).

To minimise the adverse impact caused by the disposal of hazardous waste, we have engaged qualified third-party recycling companies for waste disposal. All hazardous wastes we produced are recycled by recycling companies with respective licenses, such as the “Hazardous Waste Collection, Storage, Disposal Business License” (危險廢物收集、儲存、處置經營許可證) and “Dangerous Goods Road Transport Business License” (道路危險貨物運輸經營許可證). For the non-hazardous wastes produced i.e. paper, paper boxes and iron scraps, they are sold to the respective recyclers.

There were no cases of non-compliance with laws and regulations relating to generation of hazardous and non-hazardous waste during the Reporting Period.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Use of Resources

Our Group strictly complies with the requirements as set out in the local environmental protection laws and regulations in the PRC, including, but not limited to, the “Environmental Protection Law of the PRC” (中華人民共和國環境保護法) regarding the efficient use of resources.

We believe that, efficient use of resources means more than consuming less, but consuming at an optimal level. Our use of resources is mainly confined to electricity, water, raw materials and packaging materials.

Electricity, Water and Raw Materials

During the Reporting Period, approximately 976,787.00 kWh of electricity (2017/18: 736,670.00 kWh) and approximately 6,619.00 cubic metres of water (2017/18: 5,870.25 cubic metres) are consumed. Comparative figures for Intensities of the electricity and water consumption between current and previous financial years are as follows:

Use of Resources Indicators	Source	Unit	
KPI A2.1&2.2 Consumption per capita		2018/19	2017/18
	Electricity	9,866.54 kWh per capita	7,754.42 kWh per capita
	Water	66.86 cubic metres per capita	61.79 cubic metres per capita

We have implemented multiple measures to reduce our usage over electricity and raw materials, which includes:

1. Control raw material usage and reduce raw material wastage by procuring raw materials, especially tungsten carbide ring, with size as similar to that of finished products, and monitoring the quality of our work-in-progress and products closely;
2. Switch off electrical appliances and lights during lunch hours and non-working hours;
3. Keep indoor temperature at 24 degrees Celsius or above;
4. Keep the doors closed while the air-conditioners are in use;
5. Control paper usage and promote the concept of double-side printing; and
6. Recycle raw materials, such as cutting fluid.

We do not have any issue in sourcing water, and the existing supply of water meets our daily operational needs. Water consumption by the Group is minimal, which mainly serves the purpose of basic cleaning and sanitation. In order to reduce water wastage, we regularly inspect the water supply facilities and actively promote water conservation awareness among our employees. We also ensure that our waste water discharge level complies with “Discharge Limits of Water Pollutants” (水污染物排放限值DB44/26-2001) in the PRC.

In addition, staff canteen located in our factory in the PRC produces non-hazardous waste water and sewage, with the waste water being treated by the three-stage sludge to separate oil and slag, and the sewage being processed by the three-stage septic-tank, with the aim of minimising the environmental impacts caused by our wastes discharged.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Packaging Materials

Packaging materials consumed by the Group mainly include splint, laminated timber and strap. During the Reporting Period, approximately 51.23 tonnes of splint (2017/18: 29.94 tonnes), approximately 28.60 tonnes of laminated timber (2017/18: 15.72 tonnes) and approximately 0.63 tonnes of strap (2017/18: 0.78 tonnes) are produced. Comparative figures for intensities of the packaging materials used between current and previous financial years are as follows:

Packaging Material Indicators	Source	Data	
KPI A2.5		2018/19	2017/18
<i>Packaging material per unit produced</i>	Splint	0.0051	0.0049
<i>(in Tonnes/unit produced)</i>	Laminated Timber	0.0028	0.0026
	Strap	0.0001	0.0001

Environmental Impact

Noise is unavoidably created when we operate our machines. We strive to minimise the nuisance caused to the nearby community. Noise control measures are adopted in our productions including sound insulation, vibration reduction, noise elimination and sound absorption.

The production facilities in the PRC comply with the "Emission Standard for Industrial Enterprises' Noise at Boundary" (工業企業廠界環境噪聲排放標準GB12348-2008).

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

B. SOCIAL

Employment and Labour Practices

As a responsible employer, we strictly comply with all relevant employment laws and regulations that have significant impact on us, including but not limited to “Employment Ordinance”, “Minimum Wage Ordinance”, “Employees’ Compensation Ordinance”, and “Mandatory Provident Fund Schemes Ordinance” in Hong Kong, and “Labour Law” (中華人民共和國勞動法), “Labour Contract Law” (中華人民共和國勞動合同法), and “Law of the PRC on Work Safety” (中華人民共和國安全生產法) in the PRC.

We have established our internal policies in accordance with relevant labour laws and regulations related to compensation and dismissal, recruitment and promotion, working hours, rest periods, equal opportunity, diversity, anti-discrimination and other benefits and welfare, employment development and training, child and forced labour.

To ensure that key policies are clearly and consistently communicated to our employees, the Group has established a “Staff Handbook”, which details the rights of our employees, such as working hours, leave entitlements and other benefits and welfare. Every employee is provided with a copy of the “Staff Handbook” when they join the Group.

Compliance and Grievance

During the Reporting Period, there was no incident of non-compliance in relation to relevant labour laws and regulations, and the Group had not been subject to any material labor laws claim, lawsuit, penalty or disciplinary action.

Our Team

We believe that a diversified and equitable workforce is vital for our business development. We strive to ensure our recruitment process is fair and without any discrimination. As of 31 March 2019, the Group had a total of 129 employees (as of 31 March 2018: 96 employees). The breakdowns of our workforce by gender, age group and region are as follows:

Total number of employees by gender:

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Total number of employees by age group:

Total number of employees by region:

During the Reporting Period, 31 employees left the Group with turnover rates as follows:

Employee Turnover Rate	2018/19	2017/18
By Gender		
Male	26%	78%
Female	74%	22%
By Age		
<25	48%	78%
25-29	16%	3%
30-39	13%	12%
40-49	7%	7%
>50	16%	0%
By Region		
PRC	97%	100%
HK	3%	0%

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Welfare and Benefits

The Group has established a fair and reasonable remuneration regime, adhering to the principles of fairness, incentive and legality. The remuneration of employees consists of basic salaries and full attendance bonuses. For effective personnel management, we offer rewards (e.g. promotion) and inflict punishments (e.g. warning and dismissal) based on employees' attendance and performance.

Employees who have completed their probation are entitled to all statutory holidays, leave and welfare as stipulated in the national and local laws and regulations, including but not limited to paid maternity leave, paternity leave, compassionate leave and annual leave.

In order to comply with the "Labour Law" (中華人民共和國勞動法) in the PRC, we manage the work schedules for our employees in the PRC production facility with no more than 8 working hours per day and 44 hours per week on average.

We believe that maintaining a good work-life balance is essential to employees' physical and mental health. Thus, our employees are never forced to work overtime.

Child Labour and Forced Labour

The Group does not tolerate the recruitment of child labour and the use of forced labour. Every recruitment is subject to a stringent internal review process that includes verifying personal information of applicants.

For example, the Human Resources Department carefully verifies the identity of applicants to ensure that child labour is not recruited. Any individuals under legal working age are not recruited.

Equal Opportunity, Diversity and Anti-discrimination

Our Group is committed to providing a friendly working environment where employees are treated fairly and equally. All employees are assessed based on their ability, job performance and contribution irrespective of their nationality, race, religion, disability, sexual orientation, political opinion, gender, age or family status. We strive to create a workplace free of bullying, belittling and sexual harassment through the enforcement of the policy on prohibiting discrimination and harassment.

Health and Safety

The Group is dedicated to providing a safe working environment for all of our employees. Occupational health and safety of our employees are always our top-priority. We make every effort to minimise and avoid potential occupational hazards.

During the Reporting Period, the Group complied with relevant laws and regulations in regard to health and safety, including but not limited to the "Law of the PRC on Work Safety" (中華人民共和國安全生產法) and the "Regulations on Work Safety Permits" (安全生產許可證條例). The Human Resources Manager is responsible for monitoring the compliance status of the laws and regulations as aforementioned.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

To ensure occupational health and safety, we have established a comprehensive set of policies in regard to occupational health and safety management system. Moreover, the Group has established a “Fire Safety Management Guideline” that stipulates the fire safety inspection procedures to make sure that fire safety equipment is in good condition. Regular fire drills are also conducted to ensure that employees are well aware of evacuation routes and fire extinction measures.

Furthermore, the Group has developed emergency plans in regard to production disruption, fire accidents and industrial injuries. Under the occurrence of any material operational disruption, actions are taken immediately in accordance with the emergency plan. Impacts on production efficiencies and environment caused by the accident are to be assessed and kept to a minimal level.

We ensure that our workers are technically and professionally certified before assigning them to operate special equipment, such as forklift, bridge crane and lifting equipment, etc. The Human Resources Department closely monitors the validity of these certificates. The certificates are properly retained during the service period of the respective employees. Operation manuals for different equipment are also available to curb workplace accidents.

In order to keep in line with the safety requirements of our production facilities, the Human Resources Department performs daily inspections on hygiene, workplace and machinery safety. Inspections of protective measures, such as protective clothing and face masks used by staff operating machines, are also conducted on a regular basis.

In addition, the Group provides regular safety and first aid training to different levels of employees in order to arouse employees’ awareness of workplace health and safety. In case of an employee encounters any work-related injuries, the Group will take all necessary measures to make sure that proper medical care and treatment is offered to the respective employee.

During the Reporting Period, there was no work-related fatality and lost days due to work injury.

Development and Training

Employees are our most valuable asset. Thus, we place strong emphasis on personal development. A wide range of training programmes are provided to our employees to enhance their knowledge and capabilities.

Orientation training sessions are provided to newly recruited staff by their respective department supervisors. The training covers introduction of our Group, their own department structure, responsibilities, required skills and working instructions.

We also require all our newly recruited staff to attend safety training before commencement of their duties. Upon the completion of the training, our staff would have a good understanding of the relevant laws and regulations, the Group’s internal policies relating to safety and available safety measures. The aim of providing such training is to minimise the chance of having any work-related injuries.

During the Reporting Period, we organised four sessions of fire safety training to all staff in the PRC office, aiming to reinforce fire safety awareness of our staff. Upon our fire safety training, our staff are equipped with basic fire safety knowledge and skills, including method of fire escape and proper way of fire extinguishers.

Moreover, orientation trainings are provided to newly recruited staff by their respective department supervisors about the Group, their department structure, responsibilities, required skills and working instructions.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

In addition, during the Reporting Period, we arranged a training session on machinery operation for all our production staff, covering safety measures in operations, maintenance and inspection of various machineries.

During the Reporting Period, we have provided staff training for a total of 1,677.5 hours. Statistics related to development and training is detailed as follows:

	2018/19	2017/18
Average hours of training per employee		
<i>By gender</i>		
Male	24.00	20.14
Female	16.00	19.62
<i>By employment category</i>		
Entry level	34.00	21.86
Middle level	6.00	16.08
Management level	4.00	16.94
Percentage of employees trained		
<i>By gender</i>		
Male	81%	84%
Female	19%	16%
<i>By employee category</i>		
Entry level	82%	78%
Middle level	16%	19%
Management level	2%	3%

Supply Chain Management

The Group places emphasis on supplier chain management. We have established the "Purchasing Policy" (採購管理制度) that stipulates the selection criteria for suppliers and procurement procedures.

We work closely with our existing suppliers to ensure the quality of the products and to reduce the environmental impact caused by the products being manufactured from our production facilities. In order to ensure the effectiveness and sustainability of our supply chain, we continue to cautiously select new suppliers based on our defined criteria, such as their size, products, services, quality, delivery time, cost effectiveness, etc. We also set clear expectations of our suppliers in areas such as environmental impact and child labour. In addition, suppliers with more advanced and greener production technologies are preferred, to minimize the unnecessary wastes produced during the production process.

Approved suppliers are evaluated annually to ensure that suppliers meet the requirements on quality, delivery time and engineering techniques. Suppliers who are not up to the standard for a prolonged period are to be disqualified.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Product Responsibility

The Group strictly complies with the relevant laws and regulations relating to product responsibility that have significant impact on us, including but not limited to the “PRC Product Quality Law” (中華人民共和國產品質量法), “Customer Protection Law” (中華人民共和國消費者權益保護法), China’s Law of Tort (中華人民共和國侵權責任法), the Trade Description Ordinance and the Sale of Goods Ordinance in Hong Kong.

During the Reporting Period, the Group was not aware of any non-compliance with the relevant laws and regulations related to health and safety, advertising, labelling and privacy matters relating to products and services provided.

Quality Assurance

In order to minimise our product liability risk and ensure customer satisfaction, the Group has established “Quality Management System and Process Policy” (品質管理制度及流程). The Quality Control Department carries out inspections on raw materials, work-in progress and finished goods, and then issues inspection reports prior to the delivery of products to our customers to ensure product quality.

During the Reporting Period, “Quality Management Training” has been held for our production staff. During the training, methodology and statistical methods of quality management were introduced, with an aim of advocating the implementation of quality assurance practices within the Group.

Customer Service

Sound customer service is essential in maintaining a long-term relationship with our customers. To ensure that our customers possess adequate knowledge on operating the products, the Group has set up an experienced aftersales team providing onsite technical support in Hong Kong and Macau upon request. The Group requires overseas distributors in Scandinavia, Japan and India to provide the end users with aftersales technical support. The Group makes every effort to promptly investigate and resolve all disputes and complaints lodged by customers. All complaints received are diverted to and handled by Quality Control Department. Upon the receipt of a complaint, responsible personnel will investigate and appropriate action will be taken in a timely manner.

In the event of product failure, the Group would recall the products and provide customers with up to 100% refund. Moreover, we offer customers with other value-added services, including repair and maintenance services for the machineries and equipment.

During the Reporting Period, there were no products sold or shipped that were subject to recalls for safety or health reasons; neither were written complaints received in connection with product and service quality.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Intellectual Property Rights

During the Reporting Period, we complied with laws and regulations regarding product responsibility in Hong Kong and PRC that have a significant impact on us, including, but not limited to, Copyright Ordinance (Chapter 528), “Trademark Law of the PRC” (中華人民共和國商標法) and the “Copyright Law of the PRC” (中華人民共和國著作權法) in the PRC.

We actively seek patent and design protection for important innovations and designs. The Research and Development Department (“**R&D Department**”) actively monitors the status and usage of the Group’s intellectual property (“**IP**”). When potential IP infringement is identified, the case will be reported to the R&D Department. If the report of infringement is confirmed, the case would be passed to the management for further action.

Moreover, we act proactively to enforce IP rights against third-party infringers. When cooperating with third parties on research and developing a technical cooperation agreement specifying the relevant rights of patent application, the confidentiality requirements of proprietary information and rights upon patent entitlement, is signed with the relevant parties to protect the Group’s IP rights.

In addition, for parties with access to the IP of the Group, agreements with confidentiality clause are signed. We also require our staff to sign the confidentiality agreement and anti-competitive agreement.

Data Protection

The majority of our products are custom-made to suit the needs of the individual customers. Construction drawings are passed to the Production Department for production of customised products. To avoid information leakage, copying and/or scanning of the construction drawings are strictly prohibited. Computers with access to the construction drawings are also not accessible to the internet and external storage devices.

Moreover, non-disclosure agreements are signed by all employees of the Group to ensure that they are aware of their legally binding obligation of protecting confidential information of the Group.

Anti-Corruption and Money Laundering

During the Reporting Period, we complied with all relevant local and national laws and regulations relating to prevention of bribery, extortion, fraud and money laundering, including, but not limited to, the Prevention of Bribery Ordinance (Cap. 201 of the Laws of Hong Kong), Drug Trafficking (Recovery of Proceeds) Ordinance (Cap. 405) and the Organised and Serious Crimes Ordinance (Cap. 455) in Hong Kong, the “Criminal Law” (中華人民共和國刑法) and “Anti-Money Laundering Law” (中華人民共和國反洗黑錢法) in the PRC.

The Group prohibits acts of corruption and bribery committed by our employees. Our “Employee Feedback and Anti-corruption Policy” (僱員回饋和反舞弊管控規範) clearly sets out the procedures and channels for reporting corruption and fraudulent cases. As stipulated in the policy, every employee should immediately report any suspected fraud cases.

After detecting the potential fraudulent case, investigation is to be conducted with due care and the investigation process is kept confidential. For the proven fraud case, management will take appropriate action immediately.

In the case of conflict of interests, the employees must declare their personal interests and report the matters to the Group’s management. Employees are strictly prohibited to abuse their power and/or take advantage of their position for personal gain.

During the reporting period, no corruption and money laundering cases were noted or reported.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Community Investment

Community engagement is an integral part of our corporate culture. We are attached to our social responsibilities and are committed to building a better society.

The Group aspires to provide support to the elderly and strengthen community relations. During the Reporting Period, we had taken initiatives to support the community through donations to a number of non-governmental organisations, including but not limited to Friends of Aged People, The HK Elderly Association Ltd and Hong Kong & Kowloon Joint Kai-fong Research Council Ltd.

We believe that the education is the most effective means of propagating and sustaining community developments. During the Reporting Period, RMB1,000,000 is donated to Shunde Polytechnic, which goes directly towards offering scholarships to students with outstanding academic performance and providing financial aid to students with financial difficulties.

We will continue to devote our time, resources and capital for the betterment of the society. By sharing our knowledge and best practices, we aim to contribute to the long-term development of the communities we operate in.
