## 2. BASIS OF PREPARATION

The unaudited condensed consolidated interim financial information (the "Interim Financial Statements") have been prepared in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting" ("HKAS 34") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") as well as with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules").

The Interim Financial Statements do not include all the information and disclosures required in a full set of financial statements, and should be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2018 ("2018 Annual Report").

The accounting policies and methods of computation used in the preparation of the Interim Financial Statements are consistent with those followed in the preparation of 2018 Annual Report of the Group except as stated below:

### (a) Leases

#### *The Group as lessee*

Leases are recognised as right-of-use assets and corresponding lease liabilities when the leased assets are available for use by the Group. Right-of-use assets are stated at cost less accumulated depreciation and impairment losses. Depreciation of right-of-use assets is calculated at rates to write off their cost over the shorter of the asset's useful life and the lease term on a straight-line basis. The principal annual rates are as follows:

|                    |     |
|--------------------|-----|
| Land and buildings | 50% |
|--------------------|-----|

Right-of-use assets are measured at cost comprising the amount of the initial measurement of the lease liabilities, lease payments prepaid, initial direct costs and the restoration costs. Lease liabilities include the net present value of the lease payments discounted using the interest rate implicit in the lease if that rate can be determined, or otherwise the Group's incremental borrowing rate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease term so as to produce a constant periodic rate of interest on the remaining balance of the lease liability.

Payments associated with short-term leases and leases of low-value assets are recognised as expenses in profit or loss on a straight-line basis over the lease terms. Short-term leases are leases with an initial lease term of 12 months or less. Low-value assets are assets of value below US\$5,000.

**(b) Discontinued operations**

A discontinued operation is a component of the Group, the operations and cash flows of which can be clearly distinguished from the rest of the Group and which represents a separate major line of business or geographical area of operations, or is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations, or is a subsidiary acquired exclusively with a view to resale.

Classification as a discontinued operation occurs upon disposal or when the operation meets the criteria to be classified as held for sale, if earlier. It also occurs when the operation is abandoned.

When an operation is classified as discontinued, a single amount is presented in the statement of profit or loss, which comprises:

- The post-tax profit or loss of the discontinued operation; and
- The post-tax gain or loss recognised on the measurement to fair value less costs to sell, or on the disposal, of the assets or disposal group constituting the discontinued operation.

**3. ADOPTION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS**

In the current period, the Group has adopted all the new and revised Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants that are relevant to its operations and effective for its accounting year beginning on 1 January 2019. HKFRSs comprise Hong Kong Financial Reporting Standards; Hong Kong Accounting Standards; and Interpretations. The adoption of these new and revised HKFRSs did not result in significant changes to the Group's accounting policies, presentation of the Group's consolidated financial statements and amounts reported for the current period and prior years except as stated below.

## HKFRS 16 “Leases”

On adoption of HKFRS 16, the Group recognised right-of-use assets and lease liabilities in relation to leases which had previously been classified as ‘operating leases’ under HKAS 17 “Leases.”

The Group has adopted HKFRS 16 retrospectively from 1 January 2019, but has not restated comparatives for the 2018 reporting period, as permitted under the specific transitional provisions in the standard. The reclassifications and the adjustments arising from the adoption of HKFRS 16 are therefore recognised in the opening balance sheet on 1 January 2019 as follows:

|                                   | <b>1 January<br/>2019</b><br><i>HK\$’000</i> |
|-----------------------------------|----------------------------------------------|
| Increase in right-of-use assets   | 11,883                                       |
| Increase in lease liabilities     | (12,929)                                     |
| Decrease in finance lease payable | <u>1,046</u>                                 |

The reconciliation of operating lease commitment to lease liabilities as at 1 January 2019 is set out below:

|                                                                                                                              | <i>HK\$’000</i>      |

#### 14. ACQUISITION OF A SUBSIDIARY

On 21 January 2019, the Group acquired 100% of the issued share capital of Hong Kong Zhongzheng City Investment Limited at a total consideration of approximately HK\$516,037,000 which comprised a cash consideration of approximately HK\$295,077,000 and the issue of 1,938,248,881 ordinary shares of the Company at HK\$0.114 per share, which was the closing price of the shares of the Company on 21 January 2019. Hong Kong Zhongzheng City Investment Limited and its subsidiaries are principally engaged in primary land development projects in the PRC.

The fair value of the identifiable assets and liabilities of Hong Kong Zhongzheng City Investment Limited acquired as at its date of acquisition is as follows:

|                                 | <i>HK\$'000</i> |

|                                 | 516,037         |

| <b>Satisfied by:</b>            |                 |

|                                 | <hr/> <hr/>     |

The fair value of the 1,938,248,881 ordinary shares of the Company issued as part of the consideration paid was determined on the basis of the closing market price of the Company's ordinary shares on the acquisition date.

The Group recognised a gain on bargain purchase of approximately HK\$102,508,000 in the business combination. The business combination results in a gain on bargain purchase because, on the date of acquisition, the closing market price of the Company's ordinary shares decreased as compared to the issue price of the consideration shares which was determined at the time when the acquisition agreement was entered into.

Hong Kong Zhongzheng City Investment Limited contributed approximately HK\$17,907,000 loss to the Group's profit for the period between the date of acquisition and the end of the reporting period.

If the acquisition had been completed on 1 January 2019, total Group revenue from continuing operations for the period would have been HK\$102,476,000, and profit for the period would have been HK\$39,853,000. The proforma information is for illustrative purposes only and is not necessarily an indication of the revenue and results of operations of the Group that actually would have been achieved had the acquisition been completed on 1 January 2019, nor is intended to be a projection of future results.

## **MANAGEMENT DISCUSSION AND ANALYSIS**

### **BUSINESS REVIEW AND OUTLOOK**

#### **Results for the year**

Revenue of the Group for the six months ended 30 June 2019 amounted to approximately HK\$102.5 million from continuing operations, which represented a decrease of approximately HK\$17.7 million or 14.7% as compared to approximately HK\$120.2 million in the corresponding period in 2018.

The consolidated profit of the Group for the six months ended 30 June 2019 amounted to approximately HK\$40.8 million. This represented a decrease of approximately HK\$51.0 million compared to the profit of approximately HK\$91.8 million in the corresponding period in 2018.

The following is the review of the business of the Group for the six months ended 30 June 2019 and the outlook of the Group's business in the second half of 2019.

#### **Land development projects**

The Company entered into an acquisition agreement with Shenzhen Qianhai CITIC Securities City Development Management Co., Ltd. in September 2018 to acquire Hong Kong Zhongzheng City Investment Limited ("Zhongzheng City Investment"), which is principally engaged in primary land development projects in the PRC. The Company completed the acquisition on 21 January 2019, details of which were set out in the announcements of the Company dated 16 September 2018, 19 December 2018, 2 January 2019, 15 January 2019 and 21 January 2019 and the circular of the Company dated 21 December 2018.

There are several projects under Zhongzheng City Investment. The major project is located at Luanping County, Chengde, Hebei Province, the PRC (the "Luanping Project"). During the period under review, the operations of all the property development projects for Luanping County, including the Luanping Project, were suspended by local government due to ecological environment issues. Based on the latest communication with the local government, the Luanping Project is expected to be resumed for work before the end of 2019. As a result, the budget of the aggregate area of developed land to be sold is revised downward for 2019.

#### **Money lending business**

The segment revenue being interest income from the Group's money lending business for the six months ended 30 June 2019 was approximately HK\$8.0 million (2018: HK\$7.8 million). Depending on the nature and terms and conditions of each loan that was made, interest rate ranged from 10% per annum to 24% per annum. Total loan receivables as at 30 June 2019 was approximately HK\$97.2 million (31 December 2018: HK\$124.0 million). In view of the recent market sentiment, the Group does not expect further growth in its money lending business in 2019.

## Coal mining business

During the period under review, there was no mining production at the Group's coal mine project in Central Kalimantan Province in the Republic of Indonesia ("PT Bara Mine"), no revenue was recognised from the coal mining business for the six months ended 30 June 2019.

No capital expenditure was incurred on mining infrastructure as there was no development activity during the six months ended 30 June 2019. Operating expenses related to the Group's mining business charged to the statement of profit or loss and other comprehensive income were mainly administrative expenses amounted to approximately HK\$0.2 million for the six months ended 30 June 2019 (2018: HK\$0.5 million).

The coal resource estimates as at 30 June 2019 were as follows:

| JORC category | Coal Resource Estimate (in thousand tonnes) |                              |                |                     |
|---------------|---------------------------------------------|------------------------------|----------------|---------------------|

| Measured      | 8,705                                       | 8,705                        | Nil            | N/A                 |
| Indicated     | 11,537                                      | 11,537                       | Nil            | N/A                 |
| Inferred      | 6,097                                       | 6,097                        | Nil            | N/A                 |
|               | <u>26,339</u>                               | <u>26,339</u>                |                |                     |

The Group has cooperated with PT Sinarjaya Mulia Kun, a party independent of the Company and its connected persons, to conduct mining activities at the PT Bara Mine. Although pre-mining construction works were completed in November 2018, the Group has been engaging in a prolonged negotiation process with the local landlord on the use of its access road and jetty (where coal is unloaded for shipment to the customers). During the period under review, the Group commenced the process of license renewal and it is expected to be completed by the end of 2019.

As no exploration and mining activity had been carried out during the six months ended 30 June 2019, there was no material change to the PT Bara Mine since the end of 2018 and the coal resources estimates as of 30 June 2019 were the same as those recorded as of 31 December 2018. No review of the coal resources was carried out during the six months ended 30 June 2019.

The carrying amount of the exploration and evaluation assets is reviewed for impairment annually. The last valuation of PT Bara Mine was done at the beginning of 2019 by Greater China Appraisal Limited ("GCA") and a reversal of impairment losses of approximately HK\$29.4 million was recognised for the year ended 31 December 2018 being the recoverable amount of the PT Bara Mine that exceeded its carrying amount as at 31 December 2018.

## **Manufacture and sale of healthcare and household products**

Revenue of the healthcare and household business decreased to approximately HK\$94.5 million for the six months ended 30 June 2019, which represented a decrease of approximately HK\$17.9 million or 15.9% as compared to approximately HK\$112.4 million recorded during the corresponding period in 2018. For the six months ended 30 June 2019, sales in France and Germany decreased by approximately HK\$2.9 million and HK\$4.5 million respectively, and sales in the United States of America (the “USA”) increased by approximately HK\$5.8 million. In addition to the organic growth in the USA, the growth was attributable to the launch of several new products during 2018 and sales increased gradually during 2019. Sales to the People’s Republic of China (the “PRC”) decreased by approximately HK\$13.2 million mainly due to the stiff competition in the electric toothbrushes market in the PRC during the period under review. Sales in HK and other countries decreased by approximately HK\$3.5 million mainly due to a customer had shifted the production of one of its existing product lines to us temporarily during 2018 and there was no such event during the period under review.

Gross profit margin for the segment increased from 17.7% for the six months ended 30 June 2018 to 28.8% for the period under review, this was mainly due to the increase in labour cost which was caused by labour shortage and tight production schedule requested by customers during 2018 and there was no such incident during the period under review. As the effect of increase in gross profit margin was partly offset by the decrease in revenue, gross profit increased to approximately HK\$27.1 million in the period under review (2018: HK\$19.9 million). Overall, the Group’s healthcare and household business recorded a segmental profit of approximately HK\$5.5 million as compared to a segmental loss of approximately HK\$1.3 million in the corresponding period in 2018.

Since sales showed a decrease in the first half of 2019, the Group is cautious about the outlook of the global consumer market in the second half of 2019 as escalating trade war between the USA and the PRC shows no signs of easing. On the other hand, the Group will continue to improve productivity and operational efficiency to lower production costs.

## **Discontinued operations**

Revenue of the organic agricultural and fertilizers business decreased by approximately HK\$10.0 million, or 58.8%, from approximately HK\$17.0 million for the six months ended 30 June 2018 to approximately HK\$7.0 million for the period under review. The decrease was mainly due to the loss of its market share and disposal of business as mentioned below. Gross profit margin decreased from 65.3% in 2018 to 55.7%, which was mainly attributable to the increase in raw material cost. As a result of the foregoing, the gross profit decreased by approximately HK\$7.2 million, or 64.9%, from approximately HK\$11.1 million for the six months ended 30 June 2018 to approximately HK\$3.9 million for the period under review. The segment recorded a loss of approximately HK\$7.2 million for the period under review as compared to a loss of approximately HK\$2.3 million for the corresponding period in 2018.

### **Others**

The Group recorded a profit of approximately HK\$40.8 million as compared to a profit of approximately HK\$91.8 million in the corresponding period in 2018 which was mainly due to the combined effect of the following reasons:

- (a) The abovementioned reasons for the increase or decrease in profit or loss of different reportable segments;
- (b) the net loss on fair value changes on investments at fair value through profit or loss of approximately HK\$12.1 million (2018: HK\$2.5 million). The increase was mainly caused the net loss on fair value changes of convertible bonds of approximately HK\$11.8 million (2018: 2.9 million);

- (d) during the period under review, the Group recognised a gain on bargain purchase of approximately HK\$102.5 million in the acquisition of Zhongzheng City Investment. The gain on bargain purchase was mainly attributable to the decrease in the market price of the shares of the Company upon business combination. The gain on the bargain purchase was a one-off non-cash adjustment which has no impact on the Group's operating cash flow; and
- (e) for the six months ended 30 June 2018, a gain on bargain purchase of approximately HK\$111.7 million through profit or loss relating to the acquisition (the "Acquisition") of 35% equity interest in and the shareholders' loans to Pacific Memory Sdn Bhd ("Pacific Memory") was recognised. The gain was derived from the excess of the Company's share of the net fair value of Pacific Memory's identifiable assets and liabilities over the fair value of the consideration for acquiring the interest in Pacific Memory at the date of completion of the Acquisition. The gain on the bargain purchase was a one-off non-cash adjustment which has no impact on the Group's operating cash flow.
