### DS — accounted for approximately 39% of the Group's revenue in 1H2019

	For the six months ended 30 June					
	2019		2018		Change	
	RMB'000	%	RMB'000	%	RMB'000	%
Domestic	496,543	45.1	462,095	46.7	34,448	7.5
Export	603,953	54.9	526,601	53.3	77,352	14.7
	1,100,496	100.0	988,696	100.0	111,800	11.3

DS is manufactured using rare metals including molybdenum, chromium and vanadium, a type of high alloy special steel. DS is mainly used in die and mould casting as well as machining processing. Many different manufacturing industries require moulds, including the automotive, high-speed railway construction, aviation and plastic product manufacturing industries.

The Group strived to increase its DS market share by actively exploring different marketing channel and strengthening its direct sales effort. In 1H2019, the sales volume of the DS products increased by 9.4%. The average selling price increased mildly by 1.7%. Consequently, revenue generated from the DS segment increased by approximately 11.3% to RMB1,100,496,000 (1H2018: RMB988,696,000).

Demand from both domestic and overseas markets stayed strong. Domestic sales volume increased by 5.8% while export sales volume increased more significantly by 13.5%. As a result, domestic revenue recorded an increase of 7.5% to RMB496,543,000 (1H2018: RMB462,095,000). On the export side, sales revenue increased by 14.7% to RMB603,953,000 (1H2018: RMB526,601,000).

# Management Discussion and Analysis

## HSS — accounted for approximately 13% of the Group's revenue in 1H2019

	For the six months ended 30 June					
	2019		2018		Change	
	RMB'000	%	RMB'000	%	RMB'000	%
Domestic	274,197	72.9	274,022	73.1	175	0.1
Export	101,840	27.1	100,829	26.9	1,011	1.0
	<b>376,037</b>	<b>100.0</b>	<b>374,851</b>	<b>100.0</b>	<b>1,186</b>	<b>0.3</b>

HSS, manufactured using rare metals including tungsten, molybdenum, chromium and vanadium, is characterised by greater hardness, heat resistance and durability. These attributes make HSS suited to such applications as cutting tools and in the manufacturing of high-temperature bearings, high-temperature springs, dies, internal-combustion engines and roll, with wide usage in specific industrial applications including automotive, machinery manufacturing, aviation and electronics industries.

Demand for HSS remained strong in both domestic and overseas markets. On the other hand, the average selling price of HSS decreased as a result of reduced price of tungsten, one of the rare metals specifically used in production of HSS.

As the demands and requirements in domestic market and overseas market are different (i.e. customers in overseas market favour HSS products with higher composition of tungsten), there was a larger reduction in average selling price in overseas market than that in domestic market. In domestic market, the sales volume increased by 1.7% while the average selling price decreased by 1.6%. In contrast, the sales volume in overseas markets increased by 9.5% while the average selling price decreased by 7.8%.

In 1H2019, overall revenue generated by HSS segment remained steady at RMB376,037,000 (1H2018: RMB374,851,000).

## Cutting tools — accounted for approximately 10% of the Group's revenue in 1H2019

	For the six months ended 30 June					
	2019		2018		Change	
	RMB'000	%	RMB'000	%	RMB'000	%
Domestic	99,831	35.4	115,176	42.6	(15,345)	(13.3)
Export	182,192	64.6	155,336	57.4	26,856	17.3
	<b>282,023</b>	<b>100.0</b>	<b>270,512</b>	<b>100.0</b>	<b>11,511</b>	<b>4.3</b>

Cutting tools segment included HSS and carbide cutting tools. HSS cutting tools products can be categorised into four major types — twist drill bits, screw taps, end mills and turning tools. All of these are used in industrial manufacturing. The two main types of HSS cutting tools manufactured by the Group are twist drill bits and screw taps. The Group's vertical integration extending from upstream HSS production to downstream HSS cutting tools production brought us a significant cost advantage over the Group's peers. The high end carbide tools manufactured by the Group mainly comprised of customised tools.

# Management Discussion and Analysis

Since 2018, the Group adopted a policy to avoid any unnecessary price war with other small scale production companies in the domestic lower-end market. The Group continued to focus more on middle-end product in both domestic and overseas markets which the market environment was less competitive. This has resulted in a reduction in the overall sales volume, but at the same time, an increase in average selling prices achieved.

In 1H2019, the overall sales volume of cutting tools products decreased by 18.6% while the average selling price increased by 28.0%. Revenue of cutting tools segment, consequently, increased by 4.3% to RMB282,023,000 (1H2018: RMB270,512,000).

For middle-end products, the overseas markets have shown a stronger demand than the domestic market. As a result, export sales became more focused in cutting tools segment.

## Titanium alloy — accounted for approximately 5% of the Group's revenue in 1H2019

	For the six months ended 30 June					
	2019		2018		Change	
	RMB'000	%	RMB'000	%	RMB'000	%
Domestic	144,372	99.8	106,513	99.8	37,859	35.5
Export	224	0.2	187	0.2	37	19.8
	144,596	100.0	106,700	100.0	37,896	35.5

The titanium alloy segment has been a growing segment among the Group's products. The corrosion resistance nature of the titanium alloy promoted the extensive applications of titanium alloy in various industries, including aerospace, chemical pipeline equipment, nuclear and ocean industries.

In 1H2019, the overall sales volume of titanium alloy products increased by 22.4% and the average selling price also increased by 10.8%. As a result, there was a significant increase in revenue by 35.5% to RMB144,596,000 (1H2018: RMB106,700,000) was achieved.

The significant increase in sales volume was mainly due to the increasing demand of titanium pipe and container in chemical industry as a result of tightened environmental requirement.

Development progress of overseas markets is making good progress and has recorded an increase of 19.8% in export revenue.

## Trading of goods

This segment involves the purchases and sales of general carbon steel products which were not within the Group's production scope. Instead of pursuing profitability, the Group intended to utilise their enriched sourcing resources in the supply chain to maintain the relationship with our existing customer.

## MARKET REVIEW

In the first half of 2019, the complicated and volatile global economic situation and the intensifying Sino-US trade frictions painted a gloomy outlook for the PRC's imports and exports, which also brought uncertainties to the steel industry. However, owing to the scarcity and core competitiveness of the products, as well as the growing demand for titanium alloy products, the Group not only increased its die steel market share during the Period, but also reported a growth in sales in die steel and titanium alloy products, which drove the growth of its overall business performance.

According to the latest report of the world's leading research centre, Steel & Metals Market Research, the Group is ranked third among the global die steel producers, moving up one spot from the previous report. With an annual production capacity of 50,000 tonnes of HSS, the Group has been ranked the largest HSS manufacturer globally and nationally since 2007, accounting for 35% and 15% of current total production in the PRC and worldwide respectively.

## Acquisition of Land and Buildings

In order to provide more office space for administrative uses and meet the increasing operational needs as the business continues to grow, the Group entered into an acquisition agreement with Jiangsu Tiangong Group Company Limited on 15 January 2019, whereby it would acquire two buildings with an aggregate gross floor area of 22,561.14 sq. m. and a related land with a gross site area of 55,946.9 sq. m. for a consideration of RMB100 million. The consideration was satisfied in cash using the Group's internal resources.

## Achievement

During the Period, the Group was awarded the "Best Investment Value Award" at the China Financial Market Awards 2019 organised by the renowned financial magazine China Financial Market for its excellent business performance and proactive communication with investors to enhance corporate governance and transparency.

In addition, the Group has always been focusing on research and development ("R&D") activities in the effort to offer high-end products with better quality. During the Period, the Group's project on the "Development and Application of Crucial High Quality Die-casting Technology" has won the first class prize in the Metallurgical Science and Technology Award co-organised by the China Iron and Steel Industry Association, the Chinese Society for Metals and the Metallurgical Science and Technology Awards Committee. This demonstrates the industry's recognition of the Group's R&D technology.

## OUTLOOK

### Operating environment

Looking into the second half of 2019, the Sino-US trade frictions would inevitably cause damage to the Chinese economy. The market, however, is expecting potential interest-rate cuts by the Federal Reserve to help offset some of the negative impacts. An analysis noted that infrastructure investment growth will continue to pick up in the second half of 2019, and the steel industry will grow steadily in the long run. In view of the wide application of the Group's four major products, namely HSS, die steel, cutting tools and titanium alloys, in aviation, automotive, high-speed train and petrochemical industries as well as mechanical processing sector, the Company's business is expected to sustain its growth momentum.

### Product development strategy

The Group will continue to explore the high-end new materials market by actively looking for acquisition opportunities of overseas new materials enterprises, while at the same time developing powder metallurgy products in full swing. The Group plans to invest RMB500 million to establish the first die steel powder metallurgy production line in the PRC, with an aim to provide high-quality raw materials for automotive and aerospace industries. Construction of this production line has already commenced in March 2018. An overall trial run is scheduled for the fourth quarter this year. The planned annual production volume for the first phase of the powder metallurgy production line is 2,000 tonnes and the Group has already received bulk orders for related products. It is expected that this project will not only fill the domestic supply gap and tap into international markets, but it can also boost customer loyalty and overall profits with the provision of high-end products.

### Marketing strategy

Furthermore, the Group will further strengthen its sales channel to reduce the intermediate costs and improve its overall gross profit margin. On the one hand, the Group will continue to increase the proportion of direct sales to minimise its reliance on distributors. On the other hand, the Group has set up online sales channel to sell its own branded products directly.

## OUR MISSION

The Group will continue to enhance all aspects of the business, including core technologies and products, in order to cope with the complex international situation and challenges.

As always, the Group believes that innovation and advancement are the best way to remain competitive and this will eventually realise the true value of the Group's businesses.

Last but not least, we re-affirm that maximisation of shareholder value, whilst adhering to the highest standards of corporate governance is always our top priority.

# Management Discussion and Analysis

## FINANCIAL REVIEW

Net profit attributable to equity shareholders of the Company increased by approximately 77.0% from RMB84,441,000 in the first half of 2018 to RMB149,468,000 in the first half of 2019. The increase was mainly attributable to (i) increase in sales volume of the Group's DS segment during the interim financial period from 1 January 2019 to 30 June 2019 (the "Period") due to the increased Group's market share in the industry; and (ii) increase in sales volume of the Group's titanium alloy segment during the Period due to the increase market demand for titanium alloy products.

### Revenue

Revenue of the Group for the first half of 2019 totalled RMB2,806,575,000, representing an increase of 19.5% when compared with RMB2,347,657,000 in the first half of 2018. All the segments of the Group experienced an increase during the year.

### Cost of sales

The Group's cost of sales increased from RMB2,038,311,000 for the first half of 2018 to RMB2,450,451,000 for the first half of 2019, representing an increase of 20.2%. The increase was mainly due to an increase in sales during the Period.

### Gross margin

For the first half of 2019, gross margin was 12.7% (1H2018: 13.2%). Set out below is the gross margin for the five segments of the Group for the first half of 2018 and 2019:

	For the six months ended 30 June	
	2019	2018
DS	19.0%	17.8%
HSS	21.8%	20.4%
Cutting tools	15.2%	15.1%
Titanium alloy	15.0%	15.0%
Trading of goods	0.04%	0.03%

### DS

The gross margin of DS increased from 17.8% in the first half of 2018 to 19.0% in the first half of 2019. During the Period, sales of DS segment consisted of products with higher rare metals composition. These higher value products contributed to an improved overall gross margin.

### HSS

Gross margin of HSS slightly increased from 20.4% in the first half of 2018 to 21.8% in the first half of 2019. The increase was mainly caused by the change in the mix of the product sold during the Period.

### Cutting tools

The domestic market for cutting tools is relatively mature and stable in recently years. Stimulated by increased overseas demand, the gross margin of cutting tools achieved a slight improvement from 15.1% in the first half of 2018 to 15.2% in the first half of 2019.

# Management Discussion and Analysis

## Titanium alloy

Gross margin of titanium alloy remained at 15.0% in the first half of 2019 as compared to the same period in 2018.

## Other income

The Group's other income decreased from RMB16,260,000 in the first half of 2018 to RMB11,562,000 in the first half of 2019. The decrease was mainly attributable to (i) an decrease in government grants received from the PRC government; and (ii) decrease in foreign exchange gains.

## Distribution expenses

The Group's distribution expenses were RMB46,232,000 (1H2018: RMB50,901,000), representing an decrease of 9.2%. The decrease was mainly due to the one-off marketing and advertising expense, including sponsoring and acquiring the naming right for the high speed railway and marketing expense which were incurred in 2018. For the first half of 2019, distribution expenses as a percentage of revenue was 1.6% (1H2018: 2.2%).

## Administrative expenses

For the first half of 2019, the Group's administrative expenses decreased to RMB63,040,000 (1H2018: RMB72,560,000). The decrease was mainly attributable to the cost allocation of the share option scheme. According to the vesting period of the 60,000,000 share options granted in 2018, a larger portion of the cost of the share option scheme was incurred in 2018. For the first half of 2019, administrative expenses as a percentage of revenue was 2.2% (1H2018: 3.1%).

## Net finance costs

The Group's net finance costs decreased from RMB63,531,000 in the first half of 2018 to RMB61,528,000 in the first half of 2019, which was the result of an increase in interest income from the higher level average bank balances kept during the first half of 2019.

## Income tax expense

The Group's income tax expense increased from RMB19,093,000 in the first half of 2018 to RMB19,418,000 in the first half of 2019. The increase was mainly due to an increase in the operating results during the Period.

## Profit for the period

As a result of the factors set out above, the Group's profit increased by 74.8% to RMB153,699,000 for the first half of 2019 from RMB87,931,000 for the first half of 2018. The Group's net profit margin increased from 3.7% in the first half of 2018 to 5.5% in the same period of 2019.

## Profit attributable to equity shareholders of the Company

For the first half of 2019, profit attributable to equity shareholders of the Company was RMB149,468,000 (1H2018: RMB84,441,000), representing an increase of 77.0%.

## Trade and bills receivable

Net trade and bills receivable decreased mildly from RMB1,999,111,000 as at 31 December 2018 to RMB1,976,273,000 as at 30 June 2019. The provision for doubtful debts of RMB125,681,000 (2018: RMB105,868,000) accounted for 6.4% (2018: 5.3%) of the trade and bills receivables.

# Management Discussion and Analysis

## LIQUIDITY AND FINANCIAL RESOURCES

As at 30 June 2019, the Group's current assets mainly included cash and cash equivalents of RMB577,371,000, inventories of RMB1,855,466,000, trade and other receivables of RMB2,394,332,000, time deposits of RMB575,568,000 and pledged deposits of RMB620,500,000. The Group's current assets were RMB6,027,376,000 compared to RMB6,112,759,000 as at 31 December 2018.

As at 30 June 2019, interest-bearing borrowings of the Group were RMB3,238,783,000 (31 December 2018: RMB3,183,779,000), RMB2,339,238,000 (31 December 2018: RMB2,284,602,000) of which were repayable within one year and RMB899,545,000 (31 December 2018: RMB899,177,000) of which were repayable over one year. The Group's net gearing ratio (calculated based on the total outstanding interest-bearing debt less pledged deposits, time deposits and cash and cash equivalents and divided by the total equity) was 29.9%, compared to 29.4% as at 31 December 2018. The Group's borrowing requirements are not subject to seasonality.

As at 30 June 2019, borrowings of RMB1,971,200,000 (31 December 2018: RMB2,112,000,000) were denominated in RMB, USD81,580,644 (31 December 2018: USD56,705,916) were denominated in USD, EUR65,300,018 (31 December 2018: EUR66,712,271) were denominated in EUR and HKD223,085,430 (31 December 2018: HKD181,560,200) were denominated in HKD. The majority of the borrowings of the Group were subject to interest payable at rates ranging from 0.90% to 5.22% (31 December 2018: 0.90% to 5.22%). Net cash generated from operating activities during the Period was RMB419,979,000 (1H2018: RMB206,287,000).

## CAPITAL EXPENDITURES AND CAPITAL COMMITMENTS

For the first half of 2019, the Group's net increase in property, plant and equipment amounted to RMB144,768,000 (1H2018: RMB16,393,000). The increase was mainly related to the construction of powder metallurgy production line and purchase of land and building. As at 30 June 2019, capital commitments were RMB340,739,000 (31 December 2018: RMB458,597,000), of which RMB80,227,000 (31 December 2018: RMB90,265,000) was contracted for and RMB260,512,000 (31 December 2018: RMB368,332,000) was authorised but not contracted for. The majority of capital commitments related to the powder metallurgy production line and smelting facilities.

## USE OF PLACING PROCEEDS

The Group invited two strategic investors, BAIC Group Industrial Investment Co., Ltd. and Jiangsu Shagang Group Co., Ltd. to subscribe for an aggregate of 300,000,000 shares at the placing price of HK\$1.60 per share. The placing of the 300,000,000 shares was completed on 11 May 2018 with the net proceeds of HK\$477.8 million representing a net issue price of approximately HK\$1.59 per share. The market price of the placing share was HK\$1.78 per share as quoted on the Stock Exchange of Hong Kong on 27 April 2018, the date when the terms of the placing agreement were fixed. The proceeds from the placing have been used as follows:

Intended use of proceeds from the placing	Actual use of proceeds (as at 30 June 2019)	Proposed use of the remaining unutilised proceeds (as at 30 June 2019)
(i) Construction of powder metallurgy production facilities	HK\$56.7 million was used in construction of powder metallurgy production facilities	The remaining unutilised proceeds was nil
(ii) Replenishment of Group's working capital to procure raw materials and meet any cashflow requirements that may arise from daily operations	HK\$421.1 million was used as working capital and for daily operation, including payment of electricity, staff salaries and procurement of raw materials	The remaining unutilised proceeds was nil

## RISK AND PREVENTION

### Operating Exposure

As a material supplier to the global market, the Group is facing challenges from other competitors as well as overseas government. The Group noted that the government of the United States imposed import tariffs on steel. Notwithstanding this, the Group's revenue from North America recorded an increase from RMB227,518,000 in 1H2018 to RMB296,563,000 in 1H2019, which represented 30.3% increase compared to 1H2018, the Group believed that as a reliable supplier in these specialised material industries, the quality of our products and services has assisted us to withstand the harsh trading environment. As such, the Group's financial results has not been significantly adversely affected by the imposed import tariffs. Since the sales network of the Group is diversified over the world, if necessary, the Group can adjust its export business strategy by focusing on the most profitable regions and countries.

The Group realised that there was a significant increase in the trading business during the 1H2019. To protect the Group from the risk involved in the trading business, the Group implemented and executed a series of control measure as always to minimise the trading risk, including:

1. The Group only traded with state-owned enterprise with good long-term credit history;
2. Trading transaction was initiated by a valid demand of customers (ie. The Group will only seek for supplier after valid order was received); and
3. Customers were required to pay before delivery.

The Group considered the above are effective measures to ensure the recoverability of the receivables from the trading business.

### Foreign Exchange Exposure

The Group's revenue was denominated in RMB, USD and EUR, with RMB accounting for the largest portion (68.4% (1H2018: 66.3%)). 31.6% (1H2018: 33.7%) of the total sales and operating profit were subject to exchange rate fluctuations. The Group did not enter into any financial instruments to hedge against foreign exchange risk. The Group has put into place measures such as monthly reviews of product pricing in light of foreign exchange fluctuation and incentivising overseas customers to settle balances on a timely basis to minimise any significant financial impact from exchange rate exposure.

## PLEDGE OF ASSETS

## SHARE OPTIONS SCHEME

The Company adopted a share option scheme (the "2007 Share Option Scheme") on 7 July 2007.

The 2007 Share Option Scheme expired on 6 July 2017. As at 30 June 2019, a total of 35,170,000 shares have been allotted and issued pursuant to the 2007 Share Option Scheme, 34,764,000 options granted under the 2007 Share Option Scheme were cancelled and lapsed and 22,147,000 options granted under the 2007 Share Option Scheme were exercisable until 18 August 2019 according to the terms of grant, notwithstanding the expiry of the 2007 Share Option Scheme. These share options were vested on 19 August 2014 and have an initial exercise price of HKD1.78 per share of USD0.0025 each and an exercise period ranging from 19 August 2014 to 18 August 2019 (as at the date of this report, of the 22,147,000 options, no options were exercised and 22,147,000 options lapsed). The closing price of the Company's shares at the date of grant was HKD1.78 per share of USD0.0025 each.

A new share option scheme of the Company was approved by the Company in the annual general meeting held on 26 May 2017.

The purpose of the Share Option Scheme is to provide participants with the opportunity to acquire proprietary interests in the Company and to encourage participants to work towards enhancing the value of the Company and its shares for the benefit of the Company and its Shareholders as a whole. The Share Option Scheme will provide the Company with a flexible means of either retaining, incentivising, rewarding, remunerating, compensating and/or providing benefits to participants. The major terms of the Share Option Scheme are as follows:

1. The Directors may, at their discretion, invite any directors (including executive directors, non-executive directors and independent non-executive directors) and employees of any member of the Group and any advisers, consultants, distributors, contractors, contract manufacturers, suppliers, agents, customers, business partners, joint venture business partners, service providers of any member of the Group who the Board considers, in its sole discretion, have contributed or will contribute to the Group (the "Participants") to participate in the Share Option Scheme.
2. The maximum number of shares over which options may be granted under the Share Option Scheme must not exceed 222,008,000 shares of nominal value USD0.0025 each in the capital of the Company. As at the date of this report, options in respect of 222,008,000 shares may be granted, representing approximately 9.9% of the issued share capital of the Company as at the date of this report.
3. The total number of shares of the Company issued and to be issued upon exercise of the options granted to each Participant (including both exercised, cancelled and outstanding options) under the Scheme in any 12 month period must not exceed 1% of the shares in issue. Any further grant of options which would result in the number of shares issued as aforesaid exceeding the said 1% limit must be subject to prior shareholders' approval with the relevant Participant and his associates abstaining from voting.

# Report of the Directors

4. The period within which the options must be exercised will be specified by the Company at the time of grant. This period must expire no later than 10 years from the relevant date of grant (being the date on which the Board resolves to make an offer of option to the relevant grantee).
5. At the time of grant of the options, the Company may specify any minimum period(s) for which an option must be held before it can be exercised. The Scheme does not contain any such minimum period.
6. The amount payable on acceptance of an option is HKD1.00.
7. The subscription price for the shares, the subject of the options, shall be no less than the higher of (i) the closing price of the shares as stated in the daily quotations sheet issued by the Stock Exchange on the date of grant; (ii) the average closing price of the shares as stated in the daily quotations sheets issued by the Stock Exchange for the five Stock Exchange business days immediately preceding the date of grant; and (iii) the nominal value of a share on the date of grant. The subscription price will be established by the Board at the time the option is offered to the Participants.
8. The Share Option Scheme shall be valid and effective till 24 May 2027.

On 11 January 2018, options entitled holders to subscribe for a total of 60,000,000 shares of USD0.0025 each were granted to and accepted by certain Directors, employees and consultants of the Company in respect of their services to the Group. 50% of these share options will be vested on 31 March 2019 if the consolidated audited net profit of the Company for the year ended 31 December 2018 represents an increase of 50% or more as compared to that of the year ended 31 December 2017. The remaining 50% of these share options will be vested on 31 March 2020 if the consolidated audited net profit of the Company for the year ending 31 December 2019 represents an increase of 50% or more as compared to that of the year ended 31 December 2018. All these options have an initial exercise price of HKD1.50 per share of USD0.0025 each and an exercise period commencing from the relevant vesting date and ending on 31 December of the same year as the vesting date. The closing price of the Company's shares at the date of grant was HKD1.29 per share of USD0.0025 each. As there was an increase in audited consolidated net profit of 53.1%, options in relation to 30,000,000 shares vested on 31 March 2019.

## PURCHASE, SALES OR REDEMPTION OF SECURITIES

During the six months ended 30 June 2019, neither the Company nor any of its subsidiaries has purchased, sold or redeemed any of its securities.

## CORPORATE GOVERNANCE

During the six months ended 30 June 2019, the Company has, so far where applicable, complied with the code provisions set out in the Corporate Governance Code ("CG Code") contained in Appendix 14 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited except for the following deviation:

### Code Provision A.6.7

Code provision A.6.7 of the CG Code stipulates that independent non-executive directors ("INEDs") and other non-executive directors should also attend general meetings. Two of the INEDs, Mr. Gao Xiang and Mr. Lee Cheuk Yin, Dannis were unable to attend the annual general meeting of the Company held on 24 May 2019 due to business engagement.

## AUDIT COMMITTEE

The Audit Committee comprises three independent non-executive Directors. The Audit Committee held a meeting on 16 August 2019 to consider and review the interim report and interim financial statements of the Group and to give their opinion and recommendation to the Board. The Audit Committee considers that the 2019 interim report and interim financial statements of the Company have complied with the applicable accounting standards and the Company has made appropriate disclosure thereof.

# Report of the Directors

## **THE MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS OF LISTED ISSUERS**

The Company has adopted a code of conduct regarding directors' securities transactions on terms no less exacting than the required standard set out in the "Model Code for Securities Transactions by Directors of Listed Issuers" (the "Model Code") as set out in Appendix 10 of the Listing Rules. Having made specific enquiry of all directors of the Company, all directors of the Company have complied with the required standard set out in the Model Code and the Company's code of conduct regarding directors' securities transactions.

## **FACILITIES AGREEMENT IMPOSING A SPECIFIC PERFORMANCE OBLIGATION ON THE CONTROLLING SHAREHOLDER OF THE COMPANY**

On 14 May 2019, the Company (as borrower) and a bank entered into a facilities agreement (the "Facilities Agreement") of up to an aggregate amount of US\$30,500,000 (the "Facilities"). The Facilities are unsecured and interest bearing with any outstanding amounts to be repaid in full on the date falling three years from the date of the Facilities Agreement. Pursuant to the Facilities Agreement, Mr. Zhu Xiaokun and Ms. Yu Yumei, the controlling shareholders of the Company, undertake to maintain beneficiary interests (direct and indirect) of no less than 30% shareholdings of the Company as long as the Company has facility at the bank (the "Specific Performance Obligation"). As at the date of this report, Mr. Zhu Xiaokun and Ms. Yu Yumei beneficially own approximately 32.35% of the issued share capital of the Company. Breach of the Specific Performance Obligation may lead to the bank declaring the commitments to be cancelled and/or declaring all outstanding amounts together with interest accrued and all other sums payable by the Company to be immediately due and payable.

# Independent Review Report

## **Review report to the board of directors of Tiangong International Company Limited**

*for the six months ended 30 June 2019*

*(Incorporated in the Cayman Islands with limited liability)*

### **INTRODUCTION**

We have reviewed the interim financial report set out on pages 25 to 52 which comprises the consolidated statement of financial position of Tiangong International Company Limited as at 30 June 2019 and the consolidated statement of profit or loss, consolidated statement of profit or loss and other comprehensive income and consolidated statement of changes in equity and condensed consolidated cash flow statement for the six month period then ended and explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of an interim financial report to be in compliance with the relevant provisions thereof and International Accounting Standard 34, *Interim financial reporting*, issued by the International Accounting Standards Board. The directors are responsible for the preparation and presentation of the interim financial report in accordance with International Accounting Standard 34.

Our responsibility is to form a conclusion, based on our review, on the interim financial report and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

### **SCOPE OF REVIEW**

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity*, issued by the Hong Kong Institute of Certified Public Accountants. A review of the interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

### **CONCLUSION**

Based on our review, nothing has come to our attention that causes us to believe that the interim financial report as at 30 June 2019 is not prepared, in all material respects, in accordance with International Accounting Standard 34, *Interim financial reporting*.

# Notes to the Unaudited Interim Financial Report

For the six months ended 30 June 2019 (unaudited)

## 1 BASIS OF PREPARATION

This interim financial report of Tiangong International Company Limited (the “Company”) and its subsidiaries (collectively referred to as the “Group”) has been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited, including compliance with International Accounting Standard (“IAS”) 34, *Interim financial reporting*, issued by the International Accounting Standards Board (“IASB”). It was authorised for issue on 20 August 2019.

The interim financial report has been prepared in accordance with the same accounting policies adopted in the 2018 audited financial statements, except for the accounting policy changes that are expected to be reflected in the 2019 audited financial statements. Details of any changes in accounting policies are set out in Note 2.

The preparation of an interim financial report in conformity with IAS 34 requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a period to date basis. Actual results may differ from these estimates.

This interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2018 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for a full set of financial statements prepared in accordance with International Financial Reporting Standards (“IFRSs”).

The interim financial report is unaudited, but has been reviewed by KPMG in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity*, issued by the Hong Kong Institute of Certified Public Accountants. KPMG’s independent review report to the Board of Directors is included on page 24.

The financial information relating to the financial year ended 31 December 2018 that is included in the interim financial report as comparative information does not constitute the Company’s statutory annual consolidated financial statements for that financial year but is derived from those financial statements for the financial year ended 31 December 2018. The Company’s auditor has reported on those financial statements for the financial year ended 31 December 2018. The auditor’s report was unqualified and did not include a reference to any matters to which the auditor drew attention by way of emphasis without qualifying its report.

## 2 CHANGES IN ACCOUNTING POLICIES

The IASB has issued a new IFRS and a number of amendments to IFRSs that are first effective for the current accounting period of the Group. Of these, the following developments are relevant to the Group's financial statements:

- IFRS 16, *Leases*
- Amendments to IAS 28, *Long-term interests in associates and joint ventures*
- Annual improvement to IFRSs 2015-2017 Cycle
- International Financial Reporting Interpretations Committee Interpretation 23, *Uncertainty over income tax treatments*

None of these developments have had a material effect on how the Group's results and financial position for the current or prior periods have been prepared or presented in this interim financial report. The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

## 3 REVENUE AND SEGMENT REPORTING

### (a) Revenue

Revenue represents mainly the sales value of high alloy steel, (including die steel ("DS") and high speed steel ("HSS")), cutting tools, titanium alloy and trading of goods after eliminating intercompany transactions. Further details regarding the Group's revenue are disclosed in Note 3(b).

Disaggregation of revenue from contracts with customers by products divisions is as follows:

	Six months ended 30 June	
	2019	2018
	RMB'000	RMB'000
DS	1,100,496	988,696
HSS	376,037	374,851
Cutting tools	282,023	270,512
Titanium alloy	144,596	106,700
Trading of goods	903,423	606,898
	<b>2,806,575</b>	2,347,657

The Group's revenue from contracts with customers was recognised at a point in time. Disaggregation of revenue from contracts with customers by geographic markets is disclosed in Note 3(b)(iii).

For the six months ended 30 June 2019, the Group's customer base is diversified and includes one customer (six months ended 30 June 2018: one customer) with whom transactions exceeded 10% of the Group's revenue. For the six months ended 30 June 2019, revenues from trading of goods to this customer amounted to approximately RMB903,423,000 (six months ended 30 June 2018: RMB564,827,000) and arose in the PRC.

## 3 REVENUE AND SEGMENT REPORTING (continued)

### (b) Segment reporting

The Group has five reportable segments, as described below, which are the Group's product divisions. For each of the product divisions, the Chairman (the chief operating decision maker) reviews internal management reports on at least a monthly basis. No operating segments have been aggregated to form the following reportable segments. The following summary describes the operations in each of the Group's reportable segments:

- *DS*                                      The DS segment manufactures and sells materials that are used in the die set manufacturing industry.
- *HSS*                                        The HSS segment manufactures and sells materials that are used in the tools manufacturing industry.
- *Cutting tools*                        The cutting tools segment manufactures and sells HSS and carbide cutting tools to the tooling industry.
- *Titanium alloy*                        The titanium alloy segment manufactures and sells titanium alloys to the titanium industry.
- *Trading of goods*                    The trading of goods segment sells general carbon steel products that are not within the Group's production scope.

### (i) Segment results, assets and liabilities

For the purposes of assessing segment performance and allocating resources between segments, the Chairman (the chief operating decision maker) monitors the results, assets and liabilities attributable to each reportable segment on the following basis:

Segment assets include all tangible, intangible assets and current assets with the exception of interest in associates, interest in joint ventures, other financial assets, pledged deposits, time deposits, cash and cash equivalents, deferred tax assets and other head office and corporate assets. Segment liabilities include bills payable, trade and non-trade payables, deferred income and accrued expenses attributable to the manufacturing and sales activities of the individual segments with the exception of interest-bearing borrowings, current taxation, deferred tax liabilities and other head office and corporate liabilities.

Revenue and expenses are allocated to the reportable segments with reference to sales generated by those segments and the expenses incurred by those segments or which otherwise arise from the depreciation or amortisation of assets attributable to those segments.

The measure used for reporting segment profit is "adjusted EBIT", i.e. "adjusted earnings before interest and taxes", where "interest" is regarded as net finance costs. To arrive at adjusted EBIT, the Group's earnings are further adjusted for items not specifically attributed to individual segments, such as share of profits less losses of associates and joint ventures and other head office or corporate administration costs.

## 3 REVENUE AND SEGMENT REPORTING (continued)

### (b) Segment reporting (continued)

#### (i) Segment results, assets and liabilities (continued)

In addition to receiving segment information concerning adjusted EBIT, management is provided with segment information concerning revenue (including inter-segment revenue) generated by the segments in their operations. Inter-segment revenue is priced with reference to prices charged to external parties for similar orders.

Information regarding the Group's reportable segments as provided to the Chairman (the chief operating decision maker) for the purposes of resource allocation and assessment of segment performance for the period ended 30 June 2019 and 2018 is set out below.

The directors do not recommend payment of an interim dividend for the interim period (no interim dividend for the six months period ended 30 June 2018).

### (b) Equity settled share-based transactions

On 11 January 2018, 60,000,000 share options were granted to employees of the Company in two lots under the Company's employee share option scheme adopted on 26 May 2017. Each option gives the holder the right to subscribe for one ordinary share of the Company. 50% of these share options have vested on 31 March 2019 and the remaining 50% of these share options will vest on 31 March 2020. These share options will be exercisable until 31 December of the same years as the vesting date. The amount payable on acceptance per grant is HKD1.00. The exercise price is HKD1.50.

No options were exercised during the six months ended 30 June 2019 (six months ended 30 June 2018: nil).

When the options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in capital reserve will be transferred to retained earnings.

## 17 CAPITAL, RESERVES AND DIVIDENDS (continued)

### (c) Capital management

The Group's primary objectives when managing capital are to safeguard the Group's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders, by pricing products and services commensurately with the level of risk and by securing access to finance at a reasonable cost.

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholder returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position, and makes adjustments to the capital structure in light of changes in economic conditions.

The Group monitors its capital structure on the basis of an adjusted net debt-to-capital ratio. For this purpose, adjusted net debt is defined as total debt (which includes interest-bearing loans and borrowings), plus unaccrued proposed dividends, less cash and cash equivalents. Adjusted capital comprises all components of equity, less unaccrued proposed dividends.

The Group's adjusted net debt-to-capital ratios at 30 June 2019 and 31 December 2018 were as follows:

	Note	At 30 June 2019 RMB'000	At 31 December 2018 RMB'000

## 18 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

### (a) Financial assets measured at fair value

The following presents the fair value of the Group's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in IFRS 13, Fair value measurement. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 valuations: Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data is not available.
- Level 3 valuations: Fair value measured using significant unobservable inputs.

## 18 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS (continued)

### (a) Financial assets measured at fair value (continued)

Fair value of the equity securities listed on the NEEQ, which do not have quoted price in active markets, and that of unlisted equity securities mentioned in Note 10 is determined using the price/earning or price/book value ratios of comparable listed companies adjusted for lack of marketability discount. The fair value measurement is negatively correlated to the discount for lack of marketability.

The movements during the period in the balance of these Level 3 fair value measurements are as follows:

	2019 RMB'000
<b>Unquoted equity securities:</b>	
At 1 January and 30 June	40,324
<b>Contributions in unlisted equity fund:</b>	
At 1 January	–
Payment for purchases	20,000
At 30 June	20,000

Any gains or losses arising from the remeasurement of the Group's equity securities held for strategic purposes are recognised in the fair value reserve (non-recycling) in other comprehensive income. Upon disposal of the equity securities, the amount accumulated in other comprehensive income is transferred directly to retained earnings.

Any gains or losses arising from the remeasurement of the Group's contributions in unlisted equity fund are recognised in the "Other income" or "Other expenses" line items in the consolidated statement of profit or loss.

### (b) Fair values of financial assets and liabilities carried at other than fair value

Except for equity securities set out in Note 10 and trading securities, all financial instruments measured at other than fair value are carried at cost or amortised cost that were not materially different from their fair values as at 30 June 2019 and 31 December 2018.
