EMISSIONS

The Group is engaged in exploration, mining and processing of gold ore and sale of concentrates in the People's Republic of China, which may inevitably produce exhaust gas, greenhouse gas, dust, sewage, noises and other emissions.

The Group has implemented internal control policies and made clear guidelines on management of gold mine environment, control on emissions, and even management of office environment, in an effort to minimise the impacts of its daily operation on the environment. The Group has taken necessary measures to minimise the impact on the environment from its operation, these measures include: (i) sprinkling water to suppress dust frequently to abate dust; (ii) discharging tailings and waste water into mine dump; and (iii) using equipment with less noise and adopting noise reduction measures for noise-generating equipment to reduce the impact of noise on the environment.

The Group strictly regulates the operation of its business to ensure the compliance with national and local laws and regulations relating to environmental protection and pollutant emissions. During the Year 2016, the Group is not aware of any material non-compliance with the Environmental Protection Law of the People's Republic of China, Law of the People's Republic of China on the Water Pollution Prevention and Control, Air Pollution Control Ordinance, the Waste Disposal Ordinance and other relevant laws and regulations relating to air and greenhouse gas emissions, discharges into water and land, and generation of hazardous and non-hazardous waste that would have significant impact on the environment. In addition, there was no report of significant fines or sanctions as a result of non-compliance with the relevant laws and regulations in the Year 2016.

USE OF RESOURCES

The Group continues with initiatives to introduce resource efficiency measures to the Group's operations, and it is committed to optimising the use of resources in all of its business operations. During the Year 2016, the Group has performed the following measures to enhance resource efficiency:

- Turning off all the air conditioners and lighting systems before leaving the working environment in order to reduce the usage of electricity;
- Using energy efficient LED lighting to replace energy-inefficient light bulbs by phases in order to reduce the usage of electricity;
- Using recycled paper and double-sided printing for internal documents or non-important documents in order the reduce paper waste disposed at landfills;
- Using electronic documents such as email as possible and reduce paper usage;
- Reducing the use of disposable goods and reuse office stationery; and
- Encouraging staff to utilise teleconferences and video conferences to avoid unnecessary business travelling.

The Group considers water resources to be quite valuable and the Group is committed to promoting the concept of saving water. There is a wide range of water use at gold mines, the Group has policies in place at the gold mines to remind workers not to waste water. Nevertheless, the Group would do its best to save the precious water resources in the coming years. The Group is not aware of any issue in sourcing water during the Year 2016.

THE ENVIRONMENT AND NATURAL RESOURCE

The Group realises that its business operations had been deploying natural resources and thereby placing a negative impact on the environment. With a view to minimising the environmental impact, the Group had implemented internal control policies related to environment protection into the process of business operations. The Group continuously monitors its mode of operation and adopt necessary measures to alleviate the impact to the environment and natural resources.

Noise reduction devices are installed to reduce the noise generated during operation and the impact of noise on the environment.

EMPLOYMENT

The Group has established its internal employment policies and rules pursuant to the Employment Ordinance of Hong Kong, the Labour Law of the People's Republic of China and the Labour Contract Law of the People's Republic of China and other relevant laws and regulations.

The Group determines employees' salary, benefits and promotion based upon their job nature, experience, work performance, financial results and market condition. The Group guarantees fair treatment of employees and prevent discrimination based on gender, race, religion, age, marital and family status, disability or any other grounds.

The Group strictly regulates the operation of its business to ensure the compliance with national and local laws and regulations relating to employment during the course of operation. In the Year 2016, the Group was not aware of any material non-compliance with the Labour Law of the People's Republic of China, the Labour Contract Law of the People's Republic of China, the Employment Ordinance of Hong Kong and other relevant laws and regulations relating to compensation and dismissal, recruitment and promotion, working hours, rest periods, equal opportunity, diversity, anti-discrimination and other benefits and welfare. In addition, there was no report of significant fines or sanctions as a result of non-compliance with the relevant laws and regulations in the Year 2016.

HEALTH AND WORK SAFETY

The Group realises that safety production is the top priority for its business operation. In order to prevent and reduce the risk of accident in the workplace, the Group has established internal control policies to standardise health and work safety requirements at gold mines.

The Group provides training to its staff at gold mine to improve employees' safety awareness and self-protection ability. All workers must be equipped with personal protective equipment such as anti-poisoning and suffocation. Safety warning signs are placed at the danger zones of each area.

Besides, the Group has established emergency response plan in its gold mines. Emergency rescue team is made up of employees who prepare for and respond to any emergency incident.

The Group strictly regulates the operation of its business to ensure the compliance with national and local laws and regulations relating to health and safety during the course of operation. In the Year 2016, the Group was not aware of any material non-compliance with the Safety Production Law of the People's Republic of China, the Law of the People's Republic of China on the Prevention and Control of Occupational Diseases, the Occupational Safety and Health Ordinance (Chapter 509 of the Laws of Hong Kong) and the relevant laws and regulations relating to providing a safe working environment and protecting employees from occupational hazards that have a significant impact. In addition, there was no report of significant fines or sanctions as a result of non-compliance with the relevant laws and regulations in the Year 2016.

DEVELOPMENT AND TRAINING

The Group requires all safety training must "placing safety first, preventing injuries as core, and managing comprehensively". Administration department and safety department are responsible for developing safety training schedules to employees. Employees engaged in production must undergo safety technical training and pass the examination to obtain the qualification certificate. Those who fail to pass the safety technical training assessment must be retained until the assessment is qualified.

LABOUR STANDARDS

The Group believes that all forms of child labour and forced labour are universally condemned, and therefore against these illegal arrangements and strive to comply all the laws and regulations strictly. The Group strictly complies with the labour contract system, and all employees are required to sign a labour contract within one month from the date of employment. Human resources department of the Group requires job seekers to provide valid identification before confirming employment to ensure that applicants can be employed in accordance with the law.
