**INTERIM RESULTS ANNOUNCEMENT
FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2019**

Major developments in the six months ended 30 September 2019:

- Revenue decreased by 7.0% on a constant currency basis from the six months ended 30 September 2018 resulting directly from the Group's decision last year to streamline and optimize its club product portfolio in order to increase focus on the super-premium and premium performance segments. See "Management Discussion and Analysis – Financial Review – Revenue";
- *By geography.* For the six months ended 30 September 2019, the Group continued implementing its growth strategy by penetrating deeper in its home markets and expanding its presence in North America and Europe. Revenue from Korea grew by 51.4% yet Japan's sales decreased by 21.7% based on constant currency, temporarily laden by the aforementioned adjustment in the Group's club product portfolio. Similarly, revenue from North America declined by 22.7% but Europe grew by 9.4% attributable to continued enhancement in HONMA's brand and product awareness in Europe.
- *By product.* Revenue from golf balls continued to rise robustly and recorded a year on year growth of 53.5% on constant currency basis attributable to continued product line enrichment and deeper channel penetration in Japan, Korea and China. During the same period, apparel sales grew by 53.1% based on constant currency, attributable to the launch of collections designed and developed since the Group reorganized its apparel business. Revenue from golf clubs decreased by 13.0%, mainly due to a year on year revenue decrease of 77.9% from the Be ZEAL family which was designed and developed for the entry level and occasional golfers and no longer a focus product of the Group. Revenue from TOUR WORLD family products increased by 73.1% based on constant currency, reconfirming the Group's decision last year to build TOUR WORLD as its second hero product within the club business in order to gain access to and traction with the fast growing premium performance segments which is dominated by avid golfers.

- *By channel.* Revenue from third-party retailers and wholesalers decreased by 6.4% based on constant currency as a result of the aforementioned change in the Group's club product strategy. Revenue contribution from third-party retailers and wholesalers increased by 0.6% to 75.2% of the Group's total revenue, as the Group continued strengthening its strategic partnership with quality third-party retailers, exiting relationships with regional retailers and wholesalers. Revenue from self-operated stores decreased by 8.6% as BERES 06 moved into its second year and following the closure of 4 stores in Japan as compared to the six months ended 30 September 2018. Overall self-operated store number increased by six, primarily in China;
- Gross profit margin nudged lower by 9.4 percentage points from the six months ended 30 September 2018 due to negative product mix impact plus seasonal and one-off impact resulting from the scheduled phase out of BERES 06, and drop of Be ZEAL, following the Group's decision to focus on BERES and TOUR WORLD products going forward;
- Operating profit margin decreased by 18 percentage points, due to gross profit margin erosion and ahead-of-the-curve investments relating to the Group's US expansion and apparel relaunch. For further information, see "Management Discussion and Analysis – Financial Review – Non-IFRS Financial Measures – Operating Profit";
- Net operating profit decreased by 72.5% from the six months ended 30 September 2018 to JPY392.1 million (equivalent to USD3.6 million), due to decrease in gross margin and increase in selling and administrative expense. For further information, see "Management Discussion and Analysis – Financial Review – Non-IFRS Financial Measures – Net Operating Profit";
- Net cash flows generated from operating activities amounted to JPY402.4 million, (equivalent to USD3.7 million) representing a 87.6% decrease from the six months ended 30 September 2018.

The board of directors (the "**Board**") of Honma Golf Limited (the "**Company**") is pleased to announce the unaudited consolidated interim results (the "**Interim Results**") of the Company and its subsidiaries (the "**Group**") for the six months ended 30 September 2019. The Interim Results have been reviewed by the audit committee of the Company (the "**Audit Committee**").

MANAGEMENT DISCUSSION AND ANALYSIS OVERVIEW OF THE COMPANY, ITS KEY BUSINESS RESULTS AND BUSINESS OUTLOOK

Company Profile and Overview

HONMA is one of the most prestigious and iconic brands in the golf industry. Founded in 1959, the Company utilizes the latest innovative technologies and traditional Japanese craftsmanship to provide golfers across the globe with premium, high-tech and the best performing golf clubs, balls, apparels and accessories. As the only vertically integrated golf company with in-house design, development and manufacturing capabilities, a strong retail footprint in Asia and a diverse range of golf clubs and golf related products, HONMA is perfectly positioned to continually grow its business in Asia and beyond, benefitting from the return of golfers in mature golf markets such as the US and Japan and from increased participation in golf's new and under-penetrated markets such as Korea and China.

In 2019, HONMA celebrated its 60th Anniversary. To further elevate the HONMA brand and to boost the Company's global reach among golfers in super-premium and premium performance segments, HONMA stepped up its tour presence internationally and entered into a multi-year partnership with one of the world's best golfers, Justin Rose, in January 2019. Weeks after Justin Rose became HONMA's Global Brand Ambassador, he secured a convincing victory at the Farmers Insurance Open using a complete set of HONMA's TW747 clubs, which solidified Justin's grip at the top of the game and greatly improved the mind share of HONMA among golfers in North America, Europe and Japan. In late 2018, in the lead up to HONMA's 60th Anniversary, HONMA inked a deal to be the title sponsor of the 2018 HONMA Hong Kong Open, one of Asia's most prestigious tournaments and part of the European PGA Tour since 2001, which further improved HONMA's brand awareness in Asia.

Overview of Key Operating Results

In 2019, the global golf industry continued its recovery with golfers across the globe showed renewed interest and increased participation in golf as a sport. With this, the management of HONMA decided to strengthen its focus on the super-premium and premium-performance consumer segments going forward which has led to a conscious decision not to renew its Be ZEAL family products but to enrich its TOUR WORLD family clubs to include a performance enhancement series. For the six months ended 30 September 2019, this decision has led to a decrease in HONMA's net sales by 7.9% compared to the six months ended 30 September 2018. On a constant currency basis, net sales decreased by 7.0% as compared to the six months ended 30 September 2018.

Market wise, Korea and Europe continued to lead the way in terms of growth, showing an increase of 51.4% and 9.4% respectively, all on constant currency basis. Japan, being the largest market for HONMA, declined by 21.7% on constant currency basis due to a year-on-year decrease of 101.6% in revenue from Be ZEAL while sales of TOUR WORLD and golf balls in Japan did grow robustly by 13.6% and 68.6% respectively. Sales from China grew by 9.4% on a constant currency basis, fully benefiting from relaunched product collections. Japan, Korea and China combined contributed 84.0% of total sales.

Overview Highlights of Major Achievements

In the six months ended 30 September 2019, the Company steadfastly followed its growth strategies and made, among others, the following major achievements which the Company believes will continue to bring satisfactory business advancements and results.

- ***Re-defining the HONMA brand.*** The Company took several steps to improve its global brand positioning and communication.

To re-define the HONMA brand as a dynamic, relevant and global golf brand among internet-savvy younger golfers, the Company relaunched its global website in November 2018, its social media platforms in major markets in January 2019 and have made since then frequent updates to promote brand awareness and appeal to the younger golfers. The rapid increase of HONMA's digital communications has generated month-on-month double digit growth in the organic traffic, conversion and other digital engagement matrixes such as bounce rate, time on site, etc.

To create an end-to-end digital ecosystem around the re-defined brand and golfers in the super-premium and premium performance segments, the Group started creating and/or revamping its customer relationship management ("CRM") systems and added e-commerce capabilities in key markets such as Japan, China and the US, to provide consumers with the ultimate 360-degree brand experience, to strengthen its direct to consumer distribution model and to eventually increase sales both online and offline.

At the start of 2019, the Company announced that it had signed Justin Rose to a multi-year partnership as HONMA's Global Brand Ambassador. This important milestone generated immediate and elevated exposure and interest on HONMA in North America and Europe through Justin Rose's international influence, media coverage and social media following.

Following the announcement, HONMA increased media coverage in most of its markets through organic and paid social media posts, along with focused coverage on golf TV channels and magazines.

A most recent consumer survey in the US over a thousand consumer showed that the aided awareness of the HONMA brand has increased to 63% where close to half of the people being surveyed linked the brand with increased tour presence of the brand in North America.

- ***Continued executing growth strategy in North America and Europe.*** During the six months ended 30 September 2019, the upgraded US management team started executing its direct-to-consumer distribution strategy, which is unique to the North America golf market, with a clear objective to reach internet-savvy golfers and to provide the same with a 360-degree brand and product experience. In October 2019, HONMA US officially opened its flagship store in Carlsbad, California and until this date, opened 13 shop-in-shops at locations that are frequented by target consumers. The Group remained committed to open circa 30 premier shop-in-shops and between 30-50 retail hubs, on course and mobile in North America in the next 18-24 months. The said distribution footprint will overlay with HONMA's existing wholesales points of sale (“POS”) and digital platform to allow HONMA to quickly increase its brand and product awareness while owning the entire consumer experience and relevant data.

In Europe, HONMA continued expanding its distribution network and opened 101 new POS while closing only 6 in the six months ended 30 September 2019, hence increasing its total POS to 613 by 30 September 2019. Sales grew by 9.4% on a constant currency basis and sales of TOUR WORLD grew by 6.89 times compared to the six months ended 30 September 2018.

- ***Optimizing HONMA's club product portfolio to focus on products that best represent Japanese traditional craftsmanship and innovative technology and players in super-premium and premium performance segments.*** HONMA remains committed to applying cutting-edge technologies and artisan-style Japanese craftsmanship to the design, development and manufacturing of a comprehensive range of exquisitely crafted and performance-driven golf clubs. In the six months ended 30 September 2019, HONMA applied several of its revolutionary proprietary technologies to the design and development of its new XP series, the performance enhancement series under the TOUR WORLD club family, which is designed for avid golfers with a handicap of eight to twenty. XP-1 was launched in September 2019 and helped improve sales of the TOUR WORLD family by 73.1% compared to the six months ended 30 September 2019.
- ***Accelerating growth in balls and relaunching apparel business to create a comprehensive range of golf products for golfers in the super-premium and premium performance segments.*** HONMA engages in research, design, manufacturing and sales of golf clubs and golf-related products. Unlike its peers, HONMA's golf clubs continued to generate 76.3% of sales. On the back of continued and mid-double-digit growth in revenue from golf balls over the past three years, the Company increased its product development resources and launched balls with its own patent in order to meet the HONMA brand positioning and the play preferences and unique performance demands of its club users. Revenue from golf balls grew by 53.5% on a constant currency basis, attributable to continued growth in Japan and Korea where revenue of golf balls grew by 68.6% and 47.4% respectively as compared to the six months ended 30 September 2018.

In January 2019, HONMA launched its apparel collection in Japan and China. The apparel collection comprises of three lines catering to the distinctive requirements of golfers in Japan, China and Korea, both on-course and off-course. The six months period ended 30 September 2019 included mostly sales from the 2019 Spring/Summer Collection. Apparel sales grew by 53.1% based on constant currency.

- **360-degree brand experience built into new retail space and environments.** The Group retained a few leading design agencies to renovate its retail space in order to provide ultimate brand experience and customizable consumer journey in major markets. In the six months ended 30 September 2019, the Group opened two new stores in Japan, nine in China and one in Korea, by consistently applying the new retail visual identity, design concept and consumer experience elements using advanced technology. The Group also converted multiple shop-in-shops in US, Japan and China using the same design concept so as to create and own its consumer space and experience in all of its major markets.
- **Customer events.** Customer events have always been key to the continued improvement in HONMA's brand and product awareness and consumer mind share. During the six months ended 30 September 2019, HONMA hosted close to two thousand five hundred customer days across its main markets, most of which were held on golf courses with dedicated fitters.
- **Sponsoring TEAM HONMA players.** As of 30 September 2019, TEAM HONMA consisted of 12 professional golf players. In July 2019, TEAM HONMA player Feng Shan-Shan claimed the title of Thornberry Creek LPGA Classic. We believe her image, endorsement and continued success on professional golf tournaments will continue to help drive our sales growth, especially in China.

Product Design and Development

HONMA utilizes the latest innovative technologies and traditional Japanese craftsmanship to provide golfers across the globe with aesthetically beautiful, technology based and performance-driven golf clubs. We use our cutting-edge proprietary technology to design and manufacture golf clubs primarily for consumers in the super-premium and premium performance segments who want to hit effortless shots and drive the golf balls further.

HONMA currently offers golf clubs under three major product families: BERES, TOUR WORLD and Be ZEAL, each targeting specific consumer segments. We leverage our innovative research methods and development capabilities to manage the product life cycle to continually generate customer interest, ensure product offerings remain up to date with the latest market trends and meet the preferences of target customers.

Based on extensive market research, HONMA categorises the market into nine key segments according to the importance golfers place on price, design and performance, which are correlated with their respective levels of affluence and enthusiasm towards golf, as illustrated in the chart below:

1 High Price Low Enthusiasm	Design & Price	2 High Price Middle Enthusiasm	Primarily Design	3 High Price High Enthusiasm	Design & Performance
4 Middle Price Low Enthusiasm	Performance & Price	5 Middle Price Middle Enthusiasm	Performance & Design	6 Middle Price High Enthusiasm	Primarily Performance
7 Low Price Low Enthusiasm	Primarily Price	8 Low Price Middle Enthusiasm	Price & Design	9 Low Price High Enthusiasm	Price & Performance

BERES golf clubs target consumers in Segment 2, which is the Group's traditional customer base and comprises affluent golfers willing to pay a premium price for golf clubs that offer excellent performance yet distinctively different from other golf clubs. TOUR WORLD golf clubs was first launched in 2011, target consumers in Segment 6, which comprises golf enthusiasts who place a higher emphasis on performance. First launched in 2015, Be ZEAL golf clubs target consumers in Segment 5, which comprises beginner golfers who are looking to improve their performance.

As part of the global brand re-definition and entry into the US and European markets, the Group made a decision to strengthen its focus on the super-premium and premium performance consumer segments going forward by enriching the TOUR WORLD offering to include a performance-enhancement series called XP, in order to fully capture its growth potentials in the premium performance segment or Segment 6 which is by far the fastest growing segments in most major golf markets.

Sales and Distribution Network

The Group's sales and distribution network consists of HONMA-branded self-operated stores as well as third party distributors which included retailers and wholesalers. The following diagram illustrates the structure of the Group's sales and distribution network:

Note:

- (1) The Group's distributors consist of (a) third-party retailers and (b) wholesale distributors that on-sell the Group's products to other third parties.

HONMA operates the largest number of self-operated stores among major golf companies. Self-operated stores provide consumers with a 360-degree experience with the HONMA brand and its products. As at 30 September 2019, the Group had 74 HONMA-branded self-operated stores, all of which were located in Asia. As part of the apparel relaunch, the Group opened 9 new self-operated stores and closed 2 stores in China, mostly relating to the relaunch of its apparel business. The Group aims to continuously upgrade the design, visual display and consumer experience of its self-operated stores to project one consistent brand image and consumer experience. The table below sets forth the numbers of self-operated stores opened and closed during the six months ended 30 September 2019:

Six months ended 30 September 2019				
	Period start	Opened	Closed	Period end
Japan.	32	2	4	30
China (including Hong Kong and Macau).	32	9	2	39
Rest of Asia	4	1	—	5
Total.	68	12	6	74

To better serve avid golf enthusiasts, certain Honma-branded self-operated stores offer fitting centers equipped with high-speed cameras and precision software to capture relevant swing data. As at 30 September 2019, the Group had 6 fitting centers, including two in Japan, two in China, one in Korea and one in the US.

As at 30 September 2019, the Group had approximately 3,898 points of sales (“POS”), representing an increase of 283 POSs compared to the six months ended 30 September 2019. The Group’s POSs consist of (a) POS of third-party retailers (“**Retailers**”) and (b) POS of wholesale distributors (“Wholesale Distributors”) that on-sell the Group’s products to other third parties and consumers. Retailers include, among others, sports megastores, which are large retailers of sports goods. As at 30 September 2019, the Group’s products were sold at 1,575 POSs of sports megastores.

In Japan, the Group mainly sells products to Retailers, namely sports megastores such as Golf 5 and Xebio. Outside Japan, the Group sells products to both Retailers and Wholesale Distributors.

The Group manages its sales and distribution network on a country-by-country basis to cater for each country’s specific retail landscape and consumer demographics. The makeup of its sales and distribution network varies across regions depending on local retail landscape and its go-to-market strategy in that particular region, reflecting on the purchase behaviour of target consumers. To optimise its sales and distribution network, the Group is constantly evaluating its existing channels and exploring new channels.

Updating e-commerce capabilities and creating one digital eco system

The Group completely rebuilt its website in November 2018 and relaunched its social media platforms in various countries in January 2019. These actions aimed to create one consistent and vibrant communication platform and brand image across all markets. The rapid expansion of digital communications generated a month-on-month double digit growth in the organic traffic, conversion and other digital brand engagement matrixes such as bounce rate, time on site, etc., since January 2019.

The Company also started revamping its customer relationship management (“**CRM**”) systems in key markets such as Japan, China and the US, and is in the process of adding e-commerce capabilities to provide consumers with the ultimate 360-degree brand experience and to eventually increase online sales.

Manufacturing Processes

HONMA utilizes the latest innovative technologies and traditional Japanese craftsmanship to provide golfers across the globe with aesthetically beautiful and high-tech performance-driven golf clubs. We are the only major golf products company that utilizes professional handcrafted techniques together with significant in-house manufacturing capabilities. We conduct all key manufacturing processes for golf clubs at our campus located in Sakata, Yamagata prefecture of Japan (the “**Sakata Campus**”) while outsourcing non-core processes to our well-respected suppliers. This combination of in-house and outsourced manufacturing processes enables us to control core technical know-how and intellectual property and ensure the quality of products while controlling production costs.

Located on an approximately 163,000 square metre parcel of land, the Sakata Campus is staffed with approximately 253 craftsmen, 24 of whom are master craftsmen with more than 33 years of experience on average. The craftsmen’s dedication to product quality enables the Group to maintain the iconic and premium status of the HONMA brand. The Group continually invests in Sakata Campus to improve its manufacturing processes in order to raise its annual manufacturing capability. It is expected that the annual manufacturing capacity of the Group’s Sakata Campus will grow by more than 50% by the end of 2019.

Employees

As at 30 September 2019, the Group had 896 employees worldwide, a majority of whom were based in Japan.

To ensure the long-term future of HONMA, the Group hires people who identify with its core values and the Group helps its employees grow by offering on job training and career progressions within HONMA. For sales personnel in self-operated stores, the Group offers a number of training programs, including an internal golf club fitter certification program. Moreover, the Group has implemented a rigorous apprenticeship program at the Sakata Campus which was instrumental to the retention and continued nurturing of craftsmen in Sakata.

The Group offers competitive remuneration packages, including, among others, salaries, performance-based cash bonus and share-based compensation. The Group reviews its remuneration scheme regularly to ensure its consistency with market practice. Employee benefits expenses amounted to JPY2,610.6 million for the six months ended 30 September 2019.

The Group adopted its restricted share unit (“**RSU**”) scheme in October 2015 to incentivize its directors, management and eligible employees.

Brand Marketing

Since 1959, HONMA has remained true to the traditional methods used by Japanese craftsmen to make the finest golf clubs in the world. To fully capture HONMA’s unique opportunities in super-premium and premium performance consumer segments, we have started a series of actions that will help re-define and transform the HONMA brand in an age of technological innovation while maintaining our traditions.

A stronger TEAM HONMA with Justin Rose

In early 2019, Justin Rose signed a multi-year endorsement deal to be our Global Brand Ambassador. Justin Rose is an English professional golf player and has 24 tournament wins across the PGA and European Tours to his name. During the 2018 season, he was ranked world number one for a total of 13 weeks and his reputation as a gentleman and tenacious player is the perfect fit for the HONMA brand. This endorsement agreement has already greatly increased HONMA's brand awareness in the US and Europe through Justin Rose's influence within the global golf industry, his media coverage and social media following. To coincide with the partnership, we are creating a streamlined tour team with professional players relevant to each market plus a network of local players and social media influencers to build a coherent communication strategy among target consumers.

Outlook

Business Outlook

For the twelve months ending 31 March 2020, the Group will continue its journey to build a world-leading golf lifestyle company leveraging the legacy and strong equity of the HONMA brand, its expanding distribution network and innovative technologies and traditional Japanese craftsmanship. The Group intends to continue pursuing the following:

- ***Improve and transform HONMA brand value into customer loyalty.*** Multiple branding and marketing strategies have been executed to highlight HONMA's brand heritage and its core brand values of premium craftsmanship and performance to fully capture HONMA's unique opportunities to lead in both super-premium and premium performance segments. Signing Justin Rose as the Global Brand Ambassador has helped HONMA to communicate and to reinforce this new brand image and values to avid and passionate golfers in matured markets such as North America, Europe and Japan. Since a key part of the Group's future growth strategy will be to continuously enhance consumers' brand awareness and loyalty and to convert both into tangible purchase interest and sales revenues, HONMA plans to upgrade its offline and online retail experiences based on the updated HONMA brand image, retail and visual guidelines. In Asia, HONMA has opened its first brand experience store in downtown Tokyo, Japan in July 2019 to present HONMA's new brand experience and customizable consumer journey to consumers in HONMA's home markets. Other markets, including the US and Europe, will follow suit. All these stores will form the centrepiece of HONMA's new distribution model and will act as the hub to generate traffic to HONMA's extensive shop-in-shop at third-party retailers, golf courses and its online e-commerce platforms.
- ***Further increase the Group's market share in home markets by maintaining its leading position in the super-premium segment while making solid inroads into the fast growing premium performance segment.*** Increasing market share in HONMA's home markets, namely Japan, Korea and China will continue to be a key part of the Group's future growth strategy. While the Group already has a strong presence in its home markets of Japan, Korea and China (including Hong Kong and Macau), we believe that there is still significant room to increase our market shares in these markets, especially in the premium performance segments. The Group intends to achieve this by enriching its TOUR WORLD family to include a performance enhancement product while leveraging HONMA's improved international tour presence with Justin Rose as our Global Brand Ambassador. The Group will continuously foster stronger partnership with its retail partners while intensifying investments in sales point product promotions that are relevant to these consumer segments.

- ***Pivoting growth in North America based on the updated product and distribution strategy.*** North America accounts for more than half of the global golf market. During the six months ended 30 September 2019, HONMA continued implementing the agreed distribution strategy and added 13 shop-in-shops to its footprint in North America. In October 2019, Honma opened its first flagship store in Carlsbad, California which further increased HONMA's brand awareness following the signing of Justin Rose and the successful launch of TW747. The Company remains committed to open circa 30 premier shop-in-shops and between 30-50 retail hubs in North America in the next 18-24 months. The said distribution network will overlay with HONMA's existing wholesales points of sale and digital platform to allow HONMA to quickly increase its brand and product awareness while owning the entire consumer experience and relevant data.

Furthermore, the decision to expand the TOUR WORLD family to include a performance-enhancement series called XP for golfers who handicapped between 8 and 20 will greatly support HONMA's growth strategy in North America, which market has continued to rebound with the number of golfers increasingly skewed towards premium performance products. XP-1 was officially launched in October 2019 and will be a key growth enabler for North America's future sales growth.

- ***Nurturing complementary non-club product lines to provide customers with a complete golf lifestyle experience.*** On 28 January 2018, HONMA announced the formation of a strategic partnership with Itochu Corporation, one of the leading textile and trading companies in Japan to expand our apparel & accessories business, utilizing Itochu's networks and know-how in the apparel industry while maintaining a "golf total brand approach". Since then, HONMA has already launched two apparel collections, being 2019 Spring/Summer collection and 2019 Fall/Winter collection, targeting consumers in Japan, China and Korea. The Group has in parallel upgraded its apparel sales teams in all three markets and created a network of quality and long term suppliers leveraging its partnership with ITOCHU.
- ***Continue product innovation and development to cater for latest market trends.*** The Group devotes significant resources to new product development to ensure that its product offerings remain up to date with the latest market trends. The Group's research and development expenses amounted to JPY174.5 million and JPY161.5 million for the six months ended 30 September 2018 and 2019, respectively. In the six months ended 30 September 2019, the Group created a product development hub in North America, to complement its product development capabilities which used to concentrate at the Sakata Campus. The extended research and development team of HONMA thrives to incorporate innovations in ergonomics and material sciences in its designs and collaborates closely with professional golf players to optimize product performance.

Industry Outlook

Golf is one of the world's most popular sports and continues to have an impressive global reach. Market data and research forecasts indicate that the golf industry will record continual growth over the next several years:

- ***Focus on 2020 Olympic Games and re-emergence of Tiger Woods.*** The reinstatement of golf at the 2016 Olympic Games significantly raised the profile of the sport worldwide. As we edge closer to the 2020 Tokyo Olympic Games, global attention is slowly starting to focus on Olympic qualification. With Japan hosting the 2020 Olympics, the golf markets in Japan and other parts of Asia are expected to receive a significant boost in the build-up to the Olympics. Combine this with Tiger Woods winning the Masters at Augusta in April, viewership for his final round surged 41% year-on-year¹, and the future looks bright for the golf industry.
- ***Expanding global golf market and demographics.*** The global golf market continues to grow. Recent research shows that the global golf equipment manufacturing market is expected to reach US\$9,460 million by the end of 2025, growing at a CAGR of 2.6% during 2019-2025². Golf has traditionally been under-penetrated in emerging markets. In recent years, however, more people in emerging markets, especially in Asia, have started to play the sport, which is primarily down to increasing disposable income, higher standards of living and greater emphasis on leisure activities.

According to Yano's White Paper on Golf Industry, Japan was expected to see more than JPY106 billion in golf club wholesales value in 2018, referring to a 7% year-on-year increase. Golf Datatech's research report also shows that the US' overall golf market size is expanding and saw a 10% year-on-year increase in the retail sales value of irons in 2018. These promising sets of data further highlight that the global golf market is rebounding.

- ***Technological Innovation and customization***³. While new technology and innovation are driving advances in golf products, customization is gaining traction among more golfers who want to optimize and personalize the customer experience. New developments in clubs, balls and related products are expected to make the game more accessible, customized and exciting.
- ***Digitalization of retail channels.*** Digital retail channels such as e-commerce, mobile commerce and social commerce now address consumers' purchase preferences, which were predominantly restricted to brick and mortar stores in the past. These emerging channels play vital roles in penetrating different consumer segments.

Notes:

- (1) Adjusted SG&A is derived from the sum of (a) selling and distribution expenses and (b) administrative expenses by subtracting RSU expenses in relation to sales and marketing staff and administrative staff. For a reconciliation of adjusted SG&A to the sum of (a) selling and distribution expenses and (b) administrative expenses, see “Management Discussion and Analysis – Financial Review – Non-IFRS Financial Measures – Adjusted SG&A.”
- (2) Operating loss/profit is derived from loss/profit before tax by (i) subtracting other income and gains, (ii) adding other expenses, and (iii) adding RSU expenses. For a reconciliation of operating loss/profit to loss/profit before tax, see “Management Discussion and Analysis – Financial Review – Non-IFRS Financial Measures – Operating Loss/Profit.”
- (3) Net operating profit is derived from net profit by (i) subtracting other income and gains, (ii) adding other expenses, (iii) adding RSU expenses and (iv) adding impact on tax. The Group referred to such measure as adjusted net profit in the Group’s Interim Results Announcement for the Six Months Ended 30 September 2016 dated 16 November 2016. For a reconciliation of net operating profit to net profit, see “Management Discussion and Analysis – Financial Review – Non-IFRS Financial Measures – Net Operating Profit.”

Revenue

The Group’s total revenue decreased by 7.9% from JPY11,503.2 million for the six months ended 30 September 2018 to JPY10,591.0 million for the six months ended 30 September 2019.

Constant Currency Revenue

On a constant currency basis, the Group’s total revenue decreased by 7.0% from the six months ended 30 September 2018 to the six months ended 30 September 2019. For the purpose of calculating constant currency revenue, the Group has used the average exchange rate of the six months ended 30 September 2018 to translate sales recorded during the six months ended 30 September 2019, to the extent that the original currency for such sales is not in Japanese yen.

Constant currency revenue is used to supplement measures that were prepared in accordance with IFRS. It is however not a measure of financial performance under IFRS and should not be considered as an alternative to measures presented in accordance with IFRS.

Revenue by Product Groups

The Group offers customers a complete golf lifestyle experience through an extensive portfolio of HONMA-branded golf clubs, golf balls, bags, apparels and other accessories. The following table shows the revenue by product groups in absolute amounts and as percentages of the Group’s total revenue for the periods indicated:

	For the six months ended 30 September				Period-to-Period Change	
	2019		2018		on as reported basis	on constant currency basis ⁽¹⁾

(2) Include golf bags, golf club head covers, footwear, gloves, headwear and other golf-related accessories.

Golf clubs comprise the majority of the Group’s business. Revenue for golf clubs decreased by 13.8% from JPY9,369.5 million for the six months ended 30 September 2018 to JPY8,077.2 million for the six months ended 30 September 2019. On a constant currency basis, revenue for golf clubs decreased by 13.0% from the six months ended 30 September 2018 to the six months ended 30 September 2019. The decrease was mainly due to the Group’s decision to focus on its BERES and TOUR WORLD club series which resulted in a year-on-year decrease of 77.9% in revenue on a constant currency basis from Be ZEAL family which was designed and developed for the entry level and occasional golfers. Despite the decrease, sales of TOUR WORLD family grew by 73.1% on a constant currency basis from the six months ended 30 September 2018, reconfirming the Group’s decision last year to focus on the super-premium and premium performance segments.

Revenue for golf balls increased significantly by 52.4% from JPY649.7 million for the six months ended 30 September 2018 to JPY989.9 million for the six months ended 30 September 2019. On a constant currency basis, revenue for golf balls grew by 53.7% from the six months ended 30 September 2018 to the six months ended 30 September 2019. The continued strong growth in golf balls was driven by the Group’s continued product innovation, ball portfolio optimization and channel expansion in Japan and Korea.

During the same period, HONMA launched its first two apparel collections and revenue for apparels increased significantly by 47.5% from JPY363.4 million for the six months ended 30 September 2018 to JPY536.1 million for the six months ended 30 September 2019.

Revenue for accessories and other related products decreased by 11.9% from JPY1,120.6 million for the six months ended 30 September 2018 to JPY987.7 million for the six months ended 30 September 2019. The decrease was mainly attributed to product line redesign.

Revenue by Geography

The Group's products are sold in approximately 50 countries worldwide, primarily in Asia and also across North America, Europe and other regions. The following table sets forth revenue from regions by absolute amounts and as percentages of total revenue for the periods indicated:

	For the six months ended 30 September				Period-to-Period Change

Note:

(1) For further information, see “- Constant Currency Revenue Growth.”

For the six months ended 30 September 2019, the Group continued implementing its growth strategy in its home and new markets. Revenue from Japan, Korea and China (including Hong Kong and Macau) accounted for 83.6% of the Group's total revenue for the six months ended 30 September 2019, which collectively formed the Group's home markets.

Revenue from Japan decreased by 21.7% from JPY5,869.3 million for the six months ended 30 September 2018 to JPY4,594.5 million for the six months ended 30 September 2019, as a result of a year-on-year decrease of 101.6% in revenue from Be ZEAL club series which falls outside the Group's focus segments being super-premium and premium performance segments.

Revenue from Korea increased significantly by 51.4% from JPY1,760.6 million for the six months ended 30 September 2018 to JPY2,665.4 million for the six months ended 30 September 2019. On a constant currency basis, revenue for Korea also increased by 51.4% from the six months ended 30 September 2018 to the six months ended 30 September 2019. In the six months ended 30 September 2019, the Group continuously increased its market share in Korea through intensive TV and social media campaigns to drive the mind share of HONMA brand as well as the product awareness and sales of its TOUR WORLD products. The Group has also established a strong local team to lead and drive the creation of a direct-to-consumer distribution model for its ball and apparel businesses.

Revenue from mainland China grew by 9.4% on a constant currency basis from JPY1,355.0 million for the six months ended 30 September 2018 to JPY1,482.6 million for the six months ended 30 September 2019. Based on constant currency, revenue from China (including Hong Kong and Macau) decreased 4.0% from JPY1,735.3 million for the six months ended 30 September 2018 to JPY1,665.8 million for the six months ended 30 September 2019. The decrease was primarily caused by the continued deterioration of the situation in Hong Kong. In the six months ended 30 September 2019, the Group closed two stores in China (including Hong Kong and Macau) and opened nine.

Revenue from North America decreased by 23.5% from JPY641.0 million for the six months ended 30 September 2018 to JPY490.4 million for the six months ended 30 September 2019. On a constant currency basis, revenue for North America decreased by 22.7% from the six months ended 30 September 2018 to the six months ended 30 September 2019. The decrease was primarily due to the expected launch of the new performance-enhancement club series following the Group's decision to further streamline and optimize its club portfolio by focusing on the super-premium and premium performance segments.

Revenue from Europe increased by 6.8% from JPY458.6 million for the six months ended 30 September 2018 to JPY489.7 million for the six months ended 30 September 2019. On a constant currency basis, revenue from Europe increased by 9.4% from the six months ended 30 September 2018 to the six months ended 30 September 2019. The increase was primarily due to the continued enhancement in HONMA's brand and product awareness in Europe.

Revenue by Sales and Distribution Channels

The Group has an extensive sales and distribution network that allows the Group to reach a broad customer base in its target markets. The Group's sales and distribution network consists of HONMA- branded self-operated stores as well as third-party retailers and wholesalers. The Group's third- party retailers and wholesalers include (a) Retailers, including sports megastores, and (b) Wholesale Distributors that on-sell the Group's products to other third parties and consumers. The following table sets forth revenue for self-operated stores and POSs in absolute amounts and as percentages of total revenue for the periods indicated:

	For the six months ended 30 September				Period-to-Period Change	
	2019		2018		on as reported basis	on constant currency basis ⁽¹⁾
	JPY	%	JPY	%	%	%
	<i>(In thousands, except for percentages)</i>					
Self-operated stores.	2,629,839	24.8	2,919,574	25.4	(9.9)	(8.6)
3rd party retailers and wholesalers	7,961,134	75.2	8,583,629	74.6	(7.3)	(6.4)
Total.	10,590,973	100.0	11,503,203	100.0	(7.9)	(7.0)

Note:

(1) For further information, see “- Constant Currency Revenue Growth.”

Revenue from self-operated stores decreased by 9.9% from JPY2,919.6 million for the six months ended 30 September 2018 to JPY2,629.8 million for the six months ended 30 September 2019. The decrease was primarily due to the closure of four stores in Japan as compared to the six months ended 30 September 2018 and a year-on-year decrease of 29.1% in revenue from Be ZEAL products, following the Group's decision to focus on the BERES and TOUR WORLD products going forward. Revenue from sales to third-party retailers and wholesalers decreased by 7.3 % from JPY8,583.6 million for the six months ended 30 September 2018 to JPY7,961.1 million for the six months ended 30 September 2019 due to similar reasons but revenue contribution increased by 0.6% to 75.2% of the Group's total revenue, as the Group continued strengthening its strategic partnership with quality retailers, existing relationships with regional retailers and wholesalers. Moreover, overall self-operated store number increased by six, primarily in China relating to the relaunch of HONMA's new apparel business. Going forward, the Group expects that sales from third-party retailers and wholesalers will increase as the Group will continue to strengthen its strategic partnership with quality third party retailers, existing relationships with regional retailers and wholesalers.

Cost of Sales

Cost of sales increased by 13.2% from JPY4,707.1 million for the six months ended 30 September 2018 to JPY5,330.1 million for the six months ended 30 September 2019, which was primarily due to increase in raw materials and finished goods purchased from suppliers. The table below sets forth a breakdown of the key components of cost of sales, each expressed in absolute amounts and as percentages of the total cost of sales during the periods indicated:

	Six months ended 30 September			
	2019		2018	
	JPY	%	JPY	%
	<i>(In thousands, except for percentages)</i>

Total.	5,330,135	100.0	4,707,098	100.0

Note:

- (1) Includes depreciation and amortisation of property, plant and equipment, other manufacturing overhead and cost of services rendered.

Gross Profit and Gross Profit Margin

Gross profit decreased by 22.6% from JPY6,796.1 million for the six months ended 30 September 2018 to JPY5,260.8 million for the six months ended 30 September 2019. Gross profit margin decreased from 59.1% for the six months ended 30 September 2018 to 49.7% for the six months ended 30 September 2019.

Gross Profit and Gross Profit Margin by Product Groups

Gross profit for golf clubs decreased by 26.5% from JPY5,782.1 million for the six months ended 30 September 2018 to JPY4,249.7 million for the six months ended 30 September 2019. Gross profit margin for golf clubs decreased from 61.7% for the six months ended 30 September 2018 to 52.6% for the six months ended September 2019, due to negative product mix impact plus seasonal and one off impact resulting from the scheduled phase out of BERES 06, before the scheduled launch of its next generation and Be ZEAL, following the Group's decision to focus on BERES and TOUR WORLD products going forward.

Gross profit for golf balls increased by 42.9% from JPY325.3 million for the six months ended 30 September 2018 to JPY464.8 million for the six months ended 30 September 2019. Gross profit margin for golf balls decreased from 50.1% for the six months ended 30 September 2018 to 47.0 % for the six months ended 30 September 2019, as a result of continued negative channel mix impact and phase out of certain products, ahead of planned new product launches in the second half of the year.

Gross profit for apparels decreased by 14.1% from JPY194.6 million for the six months ended 30 September 2018 to JPY167.3 million for the six months ended 30 September 2019. Gross profit margin for apparels decreased from 53.6% for the six months ended 30 September 2018 to 31.2% for the six months ended 30 September 2019. The decreases were due to clearance of inventories from Spring/Summer 2019 which typically happen in the first half of the year.

Gross profit for accessories and other related products decreased by 23.3% from JPY494.0 million for the six months ended 30 September 2018 to JPY379.0 million for the six months ended 30 September 2019. Gross profit margin for accessories and other related products decreased from 44.1% for the six months ended 30 September 2018 to 38.4% for the six months ended 30 September 2019. The decreases were primarily due to clearance of inventories from past collections as the Group started to reorganize its accessory product lines.

Other Income and Gains

Other income and gains decreased from JPY762.6 million for the six months ended 30 September 2018 to JPY36.7 million for the six months ended 30 September 2019. The decrease was primarily due to the decrease in net foreign exchange gains which was JPY715.5 million for the six months period ended 30 September 2018.

Selling and Distribution Expenses

Selling and distribution expenses increased by 15.0% from JPY4,024.8 million for the six months ended 30 September 2018 to JPY4,628.0 million for the six months ended 30 September 2019. Selling and distribution expenses as a percentage of revenue increased from 35.0% for the six months ended 30 September 2018 to 43.7% for the six months ended 30 September 2019. These increases were primarily due to increase in personnel costs, following the creation and upgrade of local management teams in North America and Korea and advertising and promotion expenses following a step up in HONMA's tour presence and other brand related marketing campaigns. The following table sets forth a breakdown of selling and distribution expenses by absolute amounts and percentages of total selling and distribution expenses for the periods indicated:

	Six months ended 30 September			
	2019		2018	
	JPY	%	JPY	%
<i>(In thousands, except for percentages)</i>				
Employee benefits.	1,676,928	36.2	1,513,372	37.6

Others ⁽¹⁾	1,240,864	26.8	722,476	18.0
Total.	4,627,977	100.0	4,024,775	100.0

Note:

(1) Include depreciation, travel expenses, consumables, distribution costs and other expenses.

Administrative Expenses

Administrative expenses decreased by 12.6% from JPY791.4 million for the six months ended 30 September 2018 to JPY691.9 million for the six months ended 30 September 2019, primarily due to decrease in discretionary costs and bad debt provisions.

Other Expenses, Net

Other expenses increased from JPY8.7 million for the six months ended 30 September 2018 to JPY519.5 million for the six months ended 30 September 2019. The increase was primarily due to foreign exchange losses which amounted to JPY497.0 million for the six months period ended 30 September 2019.

Finance Costs

Finance costs increased by 425.2% from JPY5.4 million for the six months ended 30 September 2018 to JPY28.5 million for the six months ended 30 September 2019. The increase was primarily due to increases in interest on bank borrowings and interest on lease liabilities, relating to the Group's operations in Japan.

Finance Income

Finance income increased by 63.1% from JPY36.6 million for the six months ended 30 September 2018 to JPY59.7 million for the six months ended 30 September 2019, primarily due to the increase in average bank deposit.

Loss/Profit Before Tax

As a result of the foregoing, profit before tax decreased by 118.5% from JPY2,764.9 million for the six months ended 30 September 2018 to JPY510.7 million loss before tax for the six months ended 30 September 2019.

Income Tax Credit/Expense

Income tax expense decreased by 172.9% from JPY630.5 million for the six months ended 30 September 2018 to JPY459.5 million income tax credit for the six months ended 30 September 2019, primarily due to the recognition of deferred tax assets. The Group's effective tax rate increased from 22.8% for the six months ended 30 September 2018 to 90.0% for the six months ended 30 September 2019.

Net Loss/Profit

As a result of the foregoing, net profit decreased by 102.4% from JPY2,134.5 million for the six months ended 30 September 2018 to JPY51.2 million net loss for the six months ended 30 September 2019. Net profit margin decreased from 18.6% for the six months ended 30 September 2018 to 0.5% net loss margin for the six months ended 30 September 2019.

Non-IFRS Financial Measures

In addition to the IFRS measures in its consolidated financial statements, the Group also uses the non-IFRS financial measures of adjusted SG&A, operating profit and net operating profit to evaluate its operating performance. The Group believes that such non-IFRS measures provide useful information to investors in understanding and evaluating its consolidated results of operations in the same manner as its management and in comparing financial results across accounting periods on a like-for-like basis.

The use of adjusted SG&A, operating profit and net operating profit has material limitations as analytical tools, as adjusted SG&A does not include all items that have impacted selling and distribution expenses and administrative expenses, the nearest IFRS expense measures, operating profit does not include all items that have impacted profit before tax, the nearest IFRS performance measure, and net operating profit does not include all items that have impacted net profit, the nearest IFRS performance measure.

Adjusted SG&A

The Group derives adjusted SG&A from the sum of (a) selling and distribution expenses and (b) administrative expenses by subtracting RSU expenses in relation to sales and marketing staff and administrative staff. The following table reconciles adjusted SG&A to the sum of (a) selling and distribution expenses and (b) administrative expenses for the periods indicated:

	For the six months ended 30 September	
	2019	2018
	<i>(In JPY thousands)</i>

Adjusted SG&A	<u>5,320,608</u>	<u>4,793,056</u>

Operating Loss/Profit

The Group derives operating profit from profit before tax by (i) subtracting other income and gains, (ii) adding other expenses, and (iii) adding RSU expenses. Operating profit eliminates the effect of other income and gains and other expenses, which are primarily related to non-recurring events. The following table reconciles operating profit to profit before tax for the periods indicated:

	For the six months ended 30 September	
	2019	2018

Net Operating Profit

The Group derives net operating profit from net profit by (i) subtracting other income and gains, (ii) adding other expenses, (iii) adding RSU expenses and (iv) adding impact on tax related to items (i) and (ii) above. Net operating profit eliminates the effect of other income and gains and other expenses, which are primarily related to non-recurring events. The following table reconciles net operating profit to net profit for the periods indicated:

Working Capital Management

	For the twelve months ended	
	30 September 2019	31 March 2019
Inventories turnover days ⁽¹⁾	247	224
Trade and bills receivables turnover days ⁽²⁾	96	122
Trade and bills payables turnover days ⁽³⁾	57	39

Notes:

- (1) Inventories turnover days are calculated using the average of opening balance and closing balance of inventories for a twelve-month period divided by cost of sales for the relevant twelve-month period and multiplied by 365 days.
- (2) Trade and bills receivables turnover days are calculated using the average of opening balance and closing balance of trade and bills receivables for a twelve-month period divided by revenue for the relevant twelve-month period and multiplied by 365 days.
- (3) Trade and bills payables turnover days are calculated using the average of opening balance and closing balance of trade and bills payables for a twelve-month period divided by cost of sales for the relevant twelve-month period and multiplied by 365 days.

Compared to the year ended 31 March 2019, trade and bills receivables turnovers days decreased and trade and bills payables turnover days increased for the twelve months ended 30 September 2019. The changes were primarily due to decrease in trade and bills receivables and increase in trade and bills payables from 31 March 2019 to 30 September 2019, resulting from the Group's continued efforts in working capital improvements. The Group aims to continuously deliver continued improvement in all of its working capital indicators.

Inventories

The following table sets forth the balance of the Group's inventories as at the dates indicated:

	As at 30 September 2019	As at 31 March 2019
	<i>(In JPY thousands)</i>	
Raw materials	2,658,007	2,785,076
Work in progress	989,057	952,581
Finished goods	5,166,996	4,419,599
Less: provision	(694,458)	(579,255)
Total	8,119,602	7,578,001

The following table sets forth aging analysis of the Group's inventories as at the dates indicated:

	As at 30 September 2019	As at 31 March 2019
	<i>(In JPY thousands)</i>	
Within 1 year	3,408,234	4,160,006
1 year to 2 years	2,095,915	2,051,945
2 to 3 years	1,397,698	611,205
3 to 4 years	627,403	420,914
Over 4 years	590,352	333,931
Total	8,119,602	7,578,001

The Group prepares its inventory aging analysis with reference to product launch date, instead of capitalisation date. For example, inventories reported as aged between two to three years in the table above represent inventories relating to products that were launched two to three years before the relevant balance sheet date. Such inventories may have been produced and/or procured and hence capitalised more recently than as shown in the said aging analysis.

The Group adopted this approach of inventory aging analysis because it allows the Group to implement a more effective inventory management process with a view to each product's life cycle. The Group typically launches new products every 18 to 24 months while continuously marketing the older generation for another six to twelve months.

Liquidity and Capital Resources

During the six months ended 30 September 2019, the Group financed its operations primarily through cash from operations, net proceeds received from the global offering and proceeds from bank loans. The Group intends to finance its expansion and business operations by internal resources and through organic and sustainable growth, bank borrowings, as well as the net proceeds received from the global offering.

As at 30 September 2019, the Group had JPY10,222.1 million in cash and cash equivalents, which were primarily held in U.S. dollar, Japanese yen and Renminbi. The Group's cash and cash equivalents primarily consist of cash on hand and demand deposits.

A substantial portion of the Group's operation is based in Japan, and a substantial portion of the Group's revenue and expenditures are denominated and settled in Japanese yen. As a result, the Group's currency risk is limited, and the Group did not use any derivative contracts to hedge against such risk as at 30 September 2019.

Indebtedness

As at 30 September 2019, the Group's interest-bearing borrowings amounted to JPY5,600.0 million, all of which were denominated in Japanese yen and carry interest at variable rates. All of such borrowings were unsecured and payable within one year. The effective interest rate for the balance of the Group's interest-bearing borrowings as at 30 September 2019 ranged from 0.30% to 0.55%.

Gearing Ratio

The Group's gearing ratio is calculated by dividing (i) the sum of interest-bearing bank borrowings and lease liabilities by (ii) total equity. As at 30 September 2019, the Group's gearing ratio was 34.2% (As at 31 March 2019 the Group's gearing ratio was 13.0% or 17.6% after taking into consideration the impact of IFRS 16).

Capital Expenditures

The Group's capital expenditures for the six months ended 30 September 2019 amounted to JPY896.1 million, which was used primarily to purchase plant machinery and equipments, office equipments and leasehold improvement. In the six months ended 30 September 2019, the Group financed its capital expenditures primarily with cash generated from operations and net proceeds received from the global offering.

Contingent Liabilities

As at 30 September 2019, the Group did not have any significant contingent liabilities.

Funding and Treasury Policy

The Group adopts a stable, conservative approach on its funding and treasury policy, aiming to maintain an optimal financial position, the most economical finance costs, and minimal financial risks. The Group regularly reviews its funding requirements to maintain adequate financial resources in order to support its current business operations as well as its future investments and expansion plans.

Charge on Assets

There was no charge on the Group's assets as at 30 September 2019.

Material Acquisitions and Future Plans for Major Investment

During the six months ended 30 September 2019, the Group did not conduct any material investments, acquisitions or disposals. In addition, save for the expansion plans as disclosed in the sections headed "Business" and "Future Plans and Use of Proceeds" in the prospectus (the "**Prospectus**") of the Company dated 23 September 2016, the Group has no specific plan for major investment or acquisition for major capital assets or other businesses. However, the Group will continue to identify new opportunities for business development.

Use of Proceeds from the Global Offering

The Company was listed on The Stock Exchange of Hong Kong Limited on 6 October 2016. The net proceeds from the Company's global offering amounted to JPY16,798.0 million, which are intended to be applied in compliance with the intended use of proceeds as set out in the section headed "Net Proceeds from the Global Offering" in the Company's Announcement of Offer Price and Allotment Results dated 5 October 2016.

The following table sets forth the status of the use of proceeds from the global offering⁽¹⁾:

Intended use of proceeds	Percentage of intended use of proceeds (%)	Intended use of proceeds from the global offering (In JPY millions)	Percentage of used amount as of 30 September 2019 (%)	Percentage of unused balance as of 30 September 2019 (%)	Expected timeframe for utilizing the remaining unused net proceeds ⁽²⁾

Total	100.0	16,798	67.0	33.0	

Note:

- (1) The figures in the table are approximate figures.
- (2) The expected timeline for utilizing the remaining proceeds is based on the best estimation of the future market conditions made by the Group. It will be subject to change based on the current and future development of market conditions.
- (3) As of the date of this announcement, we had not identified, committed to or entered into negotiations with any acquisition targets for our use of net proceeds from the global offering, hence we have no specific expected timeframe for fully utilizing such proceeds. We will continue to prudently evaluate potential acquisition targets within the golf products industry based on, among other factors, their brand recognition, geographic footprint, distribution network, product offerings, and financial condition, with a goal of identifying potential acquisition targets that best fit our growth strategies.

As at 30 September 2019, the unused balance of the proceeds from the global offering of approximately JPY5,543.3 million are currently deposited with creditworthy banks with no recent history of default.

Events after the Reporting Period

The Board has declared the payment of an interim dividend of JPY1.64 per share, amounting to approximately a total of JPY1,000 million for the six months ended 30 September 2019 (the “**2019/2020 Interim Dividend**”), representing approximately 7.0% of the Group’s distributable profit as at 30 September 2019.

Exchange Rate Conversion

Unless otherwise specified, amounts denominated in USD have been translated, for the purpose of illustration only, into JPY at the exchange rate of USD1.00 : JPY108.824. No representation is made that any amount in USD and JPY could have been or could be converted at the above rates or at any other rates or at all.

FINANCIAL INFORMATION

The financial information set out below in this announcement represents an extract from the interim condensed consolidated financial statements, which is unaudited but has been reviewed by the Company’s independent auditor, Ernst & Young, in accordance with Hong Kong Standard on Review Engagements 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”, and by the Audit Committee.

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

For the six months ended 30 September 2019

1. CORPORATE INFORMATION

The Company is an exempted company with limited liability incorporated in the Cayman Islands on 7 October 2013. The registered office address of the Company is at the offices of Maples Corporate Services Limited, PO Box 309, Ugland House, Grand Cayman KY1-1104, Cayman Islands. Shares of the Company were listed (the “listing”) on the Main Board of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) on 6 October 2016 (the “Listing Date”).

The Company is an investment holding company. The Company’s subsidiaries were principally engaged in the manufacture and sales of golf related products.

In the opinion of the directors, the holding company of the Company is Kouunn Holdings Limited. The ultimate shareholder of the Company is Mr. Liu Jianguo (“Mr. Liu”).

2.1 BASIS OF PREPARATION

The interim condensed financial information for the six months ended 30 September 2019 has been prepared in accordance with IAS 34 Interim Financial Reporting. The interim condensed consolidated financial information does not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group’s annual financial statements for the year ended 31 March 2019.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The accounting policies adopted in the preparation of the interim condensed consolidated financial information are consistent with those followed in the preparation of the Group’s annual consolidated financial statements for the year ended 31 March 2019, except for the adoption of the new and revised International Financial Reporting Standards (“IFRSs”) effective as of 1 April 2019.

Amendments to IFRS 9	<i>Prepayment Features with Negative Compensation</i>
IFRS 16	<i>Leases</i>
Amendments to IAS 19	<i>Plan Amendment, Curtailment or Settlement</i>
Amendments to IAS 28	<i>Long-term Interests in Associates and Joint Ventures</i>
IFRIC-Int 23	<i>Uncertainty over Income Tax Treatments</i>
<i>Annual Improvements 2015-2017 Cycle</i>	Amendments to IFRS 3, IFRS 11, IAS 12 and IAS 23

Other than as explained below regarding the impact of IFRS 16 Leases, the new and revised standards are not relevant to the preparation of the Group’s interim condensed consolidated financial information. The nature and impact of IFRS 16 are described below:

IFRS 16 replaces IAS 17 Leases, IFRIC-Int 4 *Determining whether an Arrangement contains a Lease*, SIC-Int 15 *Operating Leases – Incentives* and SIC-Int 27 *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model. Lessor accounting under IFRS 16 is substantially unchanged from IAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in IAS 17. Therefore, IFRS 16 did not have any financial impact on leases where the Group is the lessor.

The Group adopted IFRS 16 using the modified retrospective method of adoption with the date of initial application of 1 April 2019. Under this method, the standard is applied retrospectively with the cumulative effect of initial adoption as an adjustment to the opening balance of retained earnings at 1 April 2019, and the comparative information for 2018 was not restated and continues to be reported under IAS 17.

New definition of a lease

Under IFRS 16, a contract is, or contains a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to obtain substantially all of the economic benefits from use of the identified asset and the right to direct the use of the identified asset. The Group elected to use the transition practical expedient allowing the standard to be applied only to contracts that were previously identified as leases applying IAS 17 and IFRIC-Int 4 at the date of initial application. Contracts that were not identified as leases under IAS 17 and IFRIC-Int 4 were not reassessed. Therefore, the definition of a lease under IFRS 16 has been applied only to contracts entered into or changed on or after 1 April 2019.

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease and non-lease component on the basis of their stand-alone prices. A practical expedient is available to a lessee, which the Group has adopted, not to separate non-lease components and to account for the lease and the associated non-lease components (e.g., property management services for leases of properties) as a single lease component.

As a lessee – Leases previously classified as operating leases

Nature of the effect of adoption of IFRS 16

The Group has lease contracts for various items of property. As a lessee, the Group previously classified leases as either finance leases or operating leases based on the assessment of whether the lease transferred substantially all the rewards and risks of ownership of assets to the Group. Under IFRS 16, the Group applies a single approach to recognise and measure right-of-use assets and lease liabilities for all leases, except for two elective exemptions for leases of low value assets (elected on a lease by lease basis) and short-term leases (elected by class of underlying asset). The Group has elected not to recognise right-of-use assets and lease liabilities for (i) leases of low-value assets; and (ii) leases, that at the commencement date, have a lease term of 12 months or less. Instead, the Group recognises the lease payments associated with those leases as an expense on a straight-line basis over the lease term.

Impacts on transition

Lease liabilities at 1 April 2019 were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at 1 April 2019.

The right-of-use assets were recognised based on the carrying amount as if the standard had always been applied, except for the incremental borrowing rate where the Group applied the incremental borrowing rate at 1 January 2019. All these assets were assessed for any impairment based on IAS 36 on that date. The Group elected to present the right-of-use assets separately in the statement of financial position.

The Group has used the following elective practical expedients when applying IFRS 16 at 1 April 2019:

- Applied the short-term lease exemptions to leases with a lease term that ends within 12 months from the date of initial application; and
- Applied a single discount rate to a portfolio of leases with reasonably similar characteristics.

The impacts arising from the adoption of IFRS 16 as at 1 April 2019 are as follows:

	Increase/(decrease) <i>JPY'000</i> <i>(Unaudited)</i>
Assets	
Increase in right-of-use assets	1,330,348
Decrease in prepayments, other receivables and other assets	(31,558)
Increase in total assets	1,298,790
Liabilities	
Increase in lease liabilities	1,325,896
Decrease in other payables and accruals	(8,911)
Increase in total liabilities	1,316,985
Decrease in retained profits	(18,195)

Summary of new accounting policies

The accounting policy for leases as disclosed in the annual financial statements for the year ended 31 March 2019 is replaced with the following new accounting policies upon adoption of IFRS 16 from 1 April 2019:

Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease. Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. When the right-of-use assets relate to interests in leasehold land held as inventories, they are subsequently measured at the lower of cost and net realisable value in accordance with the Group's policy for "inventories". The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of the estimated useful life and the lease term.

Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in future lease payments arising from change in an index or rate, a change in the lease term, a change in the in-substance fixed lease payments or a change in assessment to purchase the underlying asset.

3. OPERATING SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their products and has only one reportable operating segment: the manufacture and sales of golf related products and rendering of services relating to such products. Management monitors the operating results of its business units as a whole for the purpose of making decisions about resources allocation and performance assessment. Accordingly, no operating segment information is presented.

Revenues are attributed to geographic areas based on the location of customers as follows:

	<i>(JPY' 000)</i>	<i>(JPY' 000)</i>
Retirement benefit plan	1,246,306	1,297,203

The Group operates a funded defined benefit plan for all its qualifying employees in Japan. Under the plan, the employees are entitled to retirement benefits on attainment of a retirement age of 60.

The Group's defined benefit plan is a post-employment benefit plan, which requires contributions to be made to a separately administered fund. The plan has the legal form of a foundation and it is administrated by independent trustees with the assets held separately from those of the Group. The trustees are responsible for the determination of the investment strategy of the plan.

The trustees review the level of funding in the plan by the end of each reporting period. Such a review includes the asset-liability matching strategy and investment risk management policy. This includes employing the use of annuities and longevity swaps to manage the risks. The trustees decide the contribution based on the results of the annual review.

The plan is exposed to interest rate risk, the risk of changes in the life expectancy for pensioners and equity market risk.

The most recent actuarial valuations of the plan assets and the present value of the defined benefit obligation were carried out by Mizuho Trust & Banking Co., Ltd. and by Professional Actuary Management Consulting Co., which are members of the actuarial society of Japan and Taiwan, using the projected unit credit actuarial valuation method.

The total expenses recognized in the interim condensed consolidated statement of profit or loss in respect of the plan are as follows:

	30 September 2019	30 September 2018

Total	2,102,488	2,140,185

The principal actuaries assumptions used in determining the defined benefit obligation for the retirement benefit plan are shown below:

	30 September 2019	31 March 2019
	<i>(Unaudited)</i>	<i>(Audited)</i>
	<i>(JPY' 000)</i>	<i>(JPY' 000)</i>

Turnover rate (aged based, on average)	4.90%	4.90%
Mortality (Mortality Table published by Ministry of Health, Labour and Welfare dated on)	26 March 2015	26 March 2015

A quantitative sensitivity analysis for significant assumption is as shown below:

Increase/(decrease) in defined benefit obligations			
		30 September 2019	31 March 2019
		<i>(Unaudited)</i>	<i>(Audited)</i>
<i>Assumption</i>	<i>Change in assumption</i>	<i>(JPY' 000)</i>	<i>(JPY' 000)</i>
Discount rate	Increase by 0.5%	(125,229)	(125,561)
	Decrease by 0.5%	125,229	125,561

The sensitivity analysis above has been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period. The sensitivity analysis is based on a change in a significant assumption, keeping all other assumption constant. The sensitivity analysis may not be representative of an actual change in the defined benefit obligations as it is unlikely that changes in assumptions would occur in isolation of one another.

The average durations of the defined benefit plan obligation as at 30 September 2019 is 7.4 years (31 March 2019: 7.4 years).

The actuarial valuation showed that the market value of plan assets was JPY2,102,488,000 as at 30 September 2019 (31 March 2019: JPY2,140,185,000), and represented 63% (31 March 2019: 63%) of the defined benefit obligation that had accrued to qualifying employees. The deficiency of JPY1,246,306,000 as at 30 September 2019 (31 March 2019: JPY1,297,203,000) is expected to be cleared over the remaining service period.

19. SHARE-BASED PAYMENT

The company operates a restricted share unit scheme ("the Scheme") for the purpose of providing incentives and rewards to eligible participants who contributed the success of the Group's operations. The Scheme includes three batches, which were effective on 20 October 2015 and 31 May 2016 ("2015 and 2016 RSU scheme") and 6 October 2017 ("2017 RSU scheme").

2015 and 2016 RSU scheme

By a resolution of the board of directors on 20 October 2015 and 31 May 2016, the Group granted 17,554,550 shares represented by RSUs and 952,250 shares represented by RSUs, respectively for the purpose of providing incentives and rewards to eligible participants who will contribute to the success of the Group's operations in future years. All the RSUs granted were based on the Company's and individual's performance. The vesting schedule of the RSUs is 40% on the date on which the shares of the Company are listed on The Stock Exchange of Hong Kong Limited, 30% after 12 months from the Listing Date and 30% after 24 months from the Listing Date.

During the year ended 31 March 2018, agreed by employees who accepted the grant of the above RSUs, 286,042 shares represented by RSUs were cancelled and the vesting schedule of above RSUs was modified to 40% on the date on which the shares of the Company are listed on The Stock Exchange of Hong Kong Limited, 30% on 30 April 2018 or the date on which the Company publishes its annual result for the fiscal year ending 31 March 2018 (whichever is earlier) and 30% on 30 April 2019 or the date on which the Company publishes its annual result for the fiscal year ending 31 March 2019 (whichever is earlier), which accounted as cancellation and modification of share-based payment.

During the period ended 30 September 2019, vesting schedule of above RSUs was modified to 40% on the date on which the shares of the Company are listed on The Stock Exchange of Hong Kong Limited, 30% on 30 April 2018 or the date on which the Company publishes its annual results for the fiscal year ending 31 March 2018 (whichever is earlier) and 30% on 31 December 2019, which accounted as cancellation and modification of share-based payment.

2017 RSU scheme

During the year ended 31 March 2018, the Group granted 318,396 shares represented by RSUs, which has been approved by the board of directors, for the purpose of providing incentives and rewards to eligible participants who will contribute to the success of the Group's operations in future years. All the RSUs granted were based on the Company's and individual's performance. The vesting schedule of the RSUs is 50% on 30 April 2018 or the date on which the Company publishes its annual results for the fiscal year ending 31 March 2018 (whichever is earlier) and 50% on 30 April 2019 or the date on which the Company publishes its annual results for the fiscal year ending 31 March 2019 (whichever is earlier).

During the period ended 30 September 2019, vesting schedule of above RSUs was modified to 50% on 30 April 2018 or the date on which the Company publishes its annual results for the fiscal year ending 31 March 2018 (whichever is earlier) and 50% on 31 December 2019, which accounted as cancellation and modification of share-based payment.

23. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

Financial assets and liabilities not presented at their fair value on the interim condensed consolidated statements of financial position mainly represent cash and cash equivalents, trade and bills receivables, financial assets included in prepayments, deposits and other receivables, an amount due from a related party, trade and bills payables, interest-bearing bank borrowings, an amount due to a related party and financial liabilities included in other payables and accruals. Their fair values are approximate to their carrying amounts largely due to the short term maturities of these instruments.

The fair values of rental deposits paid as lessee included in other non-current assets and rental deposits received as lessor included in other non-current liabilities have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The fair values have been assessed to be approximate to their carrying amounts.

The fair values of listed equity investments are based on quoted market prices. The fair values of unlisted equity investments require the directors to make estimates about the expected future cash flows from future proceeds when the investments are realized and the fair values have been estimated to be the principal plus estimated interest income. The directors believe that the estimated fair values which are recorded in the interim condensed consolidated statements of financial position, and the related changes in fair values, which are recorded in other comprehensive income, are reasonable, and that they were the most appropriate values at the end of each of the reporting periods.

The Group's corporate finance team headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The corporate finance team reports directly to the chief financial officer and the board of directors. At each reporting date, the corporate finance team analyzes the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the vice president responsible for finance. The valuation process and results are discussed with the board of directors once a year for annual financial reporting.

Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair values:

Level 1: fair values measured based on quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: fair values measured based on valuation techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly

Level 3: fair values measured based on valuation techniques for which any inputs which have a significant effect on the recorded fair value are not based on observable market data (unobservable inputs)

The Group did not have any financial liability measured at fair value as at 30 September 2019 (31 March 2019: Nil).

Assets measured at fair value:

As at 30 September 2019

	Level 1 JPY'000	Level 2 JPY'000	Level 3 JPY'000	Total JPY'000
Equity instruments at fair value through other comprehensive income	16,178	–	100	16,278

As at 31 March 2019

	Level 1 JPY'000	Level 2 JPY'000	Level 3 JPY'000	Total JPY'000
Equity instruments at fair value through other comprehensive income	14,166	–	100	14,266
Bills receivable	–	149,528	–	149,528
	14,166	149,528	100	163,794

During the six months ended 30 September 2019 and the year ended 31 March 2019, there were no transfers of fair value measurements between Level 1 and Level 2 and no transfers into or out of Level 3 (six months ended 30 September: nil).
