Notes:

1. GENERAL

The Group is principally engaged in trading of watches (retail and wholesale) and property leasing.

The Company is a limited company incorporated in Bermuda and its shares are listed on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”). The addresses of the registered office and principal place of business of the Company are Victoria Place, 5th Floor, 31 Victoria Street, Hamilton, HM10, Bermuda and Room 3901, 39th Floor, The Hopewell Centre, 183 Queen’s Road East, Wanchai, Hong Kong respectively.

The unaudited condensed interim financial statements are presented in thousand of units of Hong Kong dollars (HK\$’000), unless otherwise stated, and have been approved for issue by the Board of Directors on 29th November 2019.

2. BASIS OF PREPARATION

The unaudited condensed interim financial statements have been prepared in accordance with applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”), including compliance with Hong Kong Accounting Standard (“HKAS”) 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”).

The preparation of the unaudited condensed interim financial statements in conformity with HKAS 34 requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may be different from these estimates.

The accounting policies adopted in the preparation of the unaudited condensed interim financial statements are consistent with those used in the preparation of the Group’s 2019 annual financial statements, except for the discounting policy changes that are expected to be reflected in the 2020 annual financial statements which are set out in note 3.

3. APPLICATION OF NEW AND REVISED HKFRSs

In the current interim period, the Group has applied, for the first time, the following new and amendments to HKFRSs issued by the HKICPA which are mandatory effective for the annual period beginning on or after 1st April 2019 for the preparation of the Group’s condensed consolidated financial statements.

- HKFRS 16, Leases
- HK(IFRIC) – Int 23, Uncertainty over Income Tax Treatments
- Amendments to HKFRS 9, Prepayment Features with Negative Compensation
- Amendments to HKAS 19, Plan Amendments, Curtailment or Settlement
- Amendments to HKAS 28, Long-term Interests in Associates and Joint Ventures
- Amendments to HKFRSs, Annual Improvements to HKFRSs 2015–2017 Cycle

HKFRS 16 *Leases*

Except for HKFRS 16 “Leases”, none of the developments have had a material effect on how the Group’s results and financial position for the current or prior periods have been prepared or presented. The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

HKFRS 16 replaces HKAS 17 “Leases”, and the related interpretations, HK(IFRIC) 4 “Determining whether an Arrangement contains a Lease”, HK(SIC) 15 “Operating Leases – Incentives”, and HK(SIC) 27 “Evaluating the Substance of Transactions involving the Legal Form of a Lease”. It introduces a single accounting model for lessees, which requires a lessee to recognise a right-of-use asset and a lease liability for all leases, except for leases that have a lease term of 12 months or less (“short-term leases”) and leases of low-value assets. The lessor accounting requirements are brought forward from HKAS 17 substantially unchanged.

The Group has initially applied HKFRS 16 as from 1st April 2019. The Group has elected to use the modified retrospective approach and has therefore recognised the cumulative effect of initial application as an adjustment to the opening balance of equity at 1st April 2019. Comparative information has not been restated and continues to be reported under HKAS 17.

Further details of the nature and effect of the changes to previous accounting policies and the transition options applied are set out below:

(a) Changes in the accounting policies

(i) *New definition of a lease*

The change in the definition of a lease mainly relates to the concept of control. HKFRS 16 defines a lease on the basis of whether a customer controls the use of an identified asset for a period of time, which may be determined by a defined amount of use. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all the economic benefits from that use.

The Group applies the new definition of a lease in HKFRS 16 only to contracts that were entered into or changed on or after 1st April 2019. For contracts entered into before 1st April 2019, the Group has used the transitional practical expedient to grandfather the previous assessment of which existing arrangements are or contain leases.

Accordingly, contracts that were previously assessed as leases under HKAS 17 continue to be accounted for as leases under HKFRS 16 and contracts previously assessed as non-lease service arrangements continue to be accounted for as executory contracts.

(ii) *Lessee accounting*

HKFRS 16 eliminates the requirement for a lessee to classify leases as either operating leases or finance leases, as was previously required by HKAS 17. Instead, the Group is required to capitalise all leases when it is the lessee, including leases previously classified as operating leases under HKAS 17, other than those short-term leases and leases of low-value assets which are exempt. As far as the Group is concerned, these newly capitalised leases are primarily in relation to prepaid lease payments.

Where the contract contains lease component(s) and non-lease component(s), the Group has elected not to separate non-lease components and accounts for each lease component and any associated non-lease components as a single lease component for all leases.

When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. The lease payments associated with those leases which are not capitalised are recognised as an expense on a systematic basis over the lease term.

Where the lease is capitalised, the lease liability is initially recognised at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. After initial recognition, the lease liability is measured at amortised cost and interest expense is calculated using the effective interest method. Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability and hence are charged to profit or loss in the accounting period in which they are incurred.

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, less any lease incentives received.

The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses.

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, or there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or there is a change arising from the reassessment of whether the group will be reasonably certain to exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

(iii) *Leasehold investment property*

Under HKFRS 16, the Group is required to account for all leasehold properties as investment properties when these properties are held to earn rental income and/or for capital appreciation ("leasehold investment properties"). The adoption of HKFRS 16 does not have a significant impact on the Group's financial statements as the Group previously elected to apply HKAS 40 "Investment Properties", to account for all of its leasehold properties that were held for investment purposes as at 30th September 2019. Consequentially, these leasehold investment properties continue to be carried at fair value.

(iv) Lessor accounting

In addition to leasing out the investment property referred to in paragraph (iii) above, the Group does not lease out any other assets as the lessor of operating leases.

Under HKFRS 16, when the Group acts as an intermediate lessor in a sublease arrangement, the Group is required to classify the sublease as a finance lease or an operating lease by reference to the right-of-use asset arising from the head lease, instead of by reference to the underlying asset. The adoption of HKFRS 16 does not have a significant impact on the Group's financial statements in this regard.

(b) Critical accounting judgements and sources of estimation uncertainty in applying the above accounting policies

Determining the lease term

As explained in the above accounting policies, the lease liability is initially recognised at the present value of the lease payments payable over the lease term. In determining the lease term at the commencement date for leases that include renewal options exercisable by the Group, the Group evaluates the likelihood of exercising the renewal options taking into account all relevant facts and circumstances that create an economic incentive for the Group to exercise the option, including favourable terms, leasehold improvements undertaken and the importance of that underlying asset to the Group's operation. The lease term is reassessed when there is a significant event or significant change in circumstance that is within the Group's control. Any increase or decrease in the lease term would affect the amount of lease liabilities and right-of-use assets recognised in future years.

(c) Transitional impact

At the date of transition to HKFRS 16 (i.e. 1st April 2019), the Group determined the length of the remaining lease terms and measured the lease liabilities for the leases previously classified as operating leases at the present value of the remaining lease payments, discounted using the relevant incremental borrowing rates at 1st April 2019. The incremental borrowing rates used for determination of the present value of the remaining lease payments were 4.26% and 5.46%.

To ease the transition to HKFRS 16, the Group applied the following recognition exemption and practical expedients at the date of initial application of HKFRS 16:

- (i) the Group elected not to apply the requirements of HKFRS 16 in respect of the recognition of lease liabilities and right-of-use assets to leases for which the remaining lease term ends within 12 months from the date of initial application of HKFRS 16, i.e. where the lease term ends on or before 31st March 2020;
- (ii) when measuring the lease liabilities at the date of initial application of HKFRS 16, the Group applied a single discount rate to a portfolio of leases with reasonably similar characteristics; and
- (iii) when measuring the right-of-use assets at the date of initial application of HKFRS 16, the Group relied on the previous assessment for onerous contract provisions as at 31st March 2019 as an alternative to performing an impairment review.

The following table reconciles the operating lease commitments as at 31st March 2019 to the opening balance for lease liabilities recognised as at 1st April 2019.

	1st April 2019 HK\$'000
Operating lease commitments at 31st March 2019	256,986

– Short-term lease and other leases with remaining lease term ending on or before 31st March 2020	(5,199)

Total lease liabilities recognised at 1st April 2019 (unaudited)	<u><u>234,194</u></u>

The right-of-use assets in relation to leases previously classified as operating leases have been recognised at an amount equal to the amount recognised for the remaining lease liabilities, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised in the statement of financial position at 31st March 2019. There is no impact on the opening balance of equity.

The Group presents right-of-use assets and lease liabilities separately on the consolidated statement of financial position.

The following table summarises the impacts of the adoption of HKFRS 16 on the Group's consolidated statement of financial position:

(e) Impact on the financial result, segment results and cash flows of the Group

After the initial recognition of right-of-use assets and lease liabilities as at 1st April 2019, the Group as a lessee is required to recognise interest expense accrued on the outstanding balance of the lease liability, and the depreciation of the right-of-use asset, instead of the previous policy of recognising rental expenses incurred under operating leases on a straight-line basis over the lease term. This results in a negative impact on the reported profit from operations in the Group's consolidated statement of profit or loss and other comprehensive income, as compared to the results if HKAS 17 had been applied during the year.

In the consolidated statement of cash flows, the Group as a lessee is required to split rentals paid under capitalised leases into their capital element and interest element. These elements are classified as financing cash outflows, similar to how leases previously classified as finance leases under HKAS 17 were treated, rather than as operating cash outflows, as was the case for operating leases under HKAS 17. Although total cash flows are unaffected, the adoption of HKFRS 16 therefore results in a significant change in presentation of cash flows within the consolidated statement of cash flows.

The following tables give an indication of the estimated impact of the adoption of HKFRS 16 on the Group's financial result, segment results and cash flows for the six months ended 30th September 2019, by adjusting the amounts reported under HKFRS 16 in these consolidated financial statements to compute estimates of the hypothetical amounts that would have been recognised under HKAS 17 if this superseded standard had continued to apply in 2019 instead of HKFRS 16, and by comparing these hypothetical amounts for 2019 with the actual 2018 corresponding amounts which were prepared under HKAS 17.

4. REVENUE AND SEGMENT INFORMATION

The Group manages its business by divisions. In a manner consistent with the way in which information is reported internally to the board of directors of the Company, being the chief operating decision makers (“CODM”) for the purposes of resource allocations and performance assessments. The Group has presented two reportable segments: (i) sale of watches (retail and wholesale) and (ii) properties leasing. No operating segments have been aggregated to form these two reportable segments.

For the purposes of assessing segment performance and allocating resources between segments, the CODM monitors the results, assets and liabilities attributable to each reportable segment on the following bases:

The accounting policies of the reportable segments are the same as the Group’s accounting policies described in the annual financial statements for the year ended 31st March 2019. Segment profit/(loss) represents the profit earned by/(loss) from each segment without allocation of central administration costs and corporate costs which cannot be meaningfully allocated to individual segment. This is the measure reported to the CODM for purposes of resource allocation and performance assessment.

Revenue and expenses are allocated to the reportable segments with reference to revenue generated by those segments and the expenses incurred by those segments or which otherwise arise from the depreciation and amortisation of assets attributable to those segments.

The revenue from external parties reported to the CODM is measured in a manner consistent with that in the condensed consolidated statement of profit or loss.

All assets are allocated to reportable segments other than deferred tax assets and other corporate assets.

All liabilities are allocated to reportable segments other than current income tax payables, deferred tax liabilities and borrowings not attributable to individual segments and other corporate liabilities.

The following is an analysis of the Group's revenue, results, assets and liabilities by operating segment for the periods:

The Group's business in sale of watches is subject to seasonal fluctuations, with higher sales amount in the first and fourth quarters of the calendar year. This is due to holiday periods. The Group's business in investment holding has no specific seasonality factor.

MANAGEMENT DISCUSSION AND ANALYSIS

Interim Review

For the six months ended 30th September 2019, the Group's consolidated revenue amounted to HK\$482 million, representing an increase of 17% (2018: decrease of 16%) from HK\$411 million in the same period of last year was mainly due to the increase in watches sales in Hong Kong. Sales for the reporting period in Hong Kong and China amounted to HK\$323 million and HK\$158 million, representing an increase of 19% and 14% respectively as compared with the corresponding period in last year. Gross profit margin decreased by 5% to 26% during this period was due to the provision for obsolete inventories in view of the decision to close a shop in China and terminate the business relationship with retailers of a brand owned by the Group in last year.

Distribution costs decreased by 5% to HK\$85 million during this period were mainly attributable to the decrease in sales commission and entertainment expenses. Administrative expenses increased by 38% to HK\$27 million during this period were mainly attributable to the increase in exchange loss and directors' remuneration. Finance costs increased to HK\$7 million during this period because of the increase in borrowings and the interest on lease liabilities which was newly effective in this period.

The Group disposed the unlisted equity investment during the period with a profit of HK\$6 million.

Liquidity and financial resources

As at 30th September 2019, the Group's total cash balance (including short-term deposits and structured deposits) amounted to HK\$83 million (31st March 2019: HK\$102 million). The amount was decreased as compared to that as of the year ended 31st March 2019 was mainly due to the payment of acquisition cost of new investment. Gearing ratio of the Group, expressed as a ratio of total borrowings over total equity, was 29% as at 30th September 2019 (31st March 2019: 25%).

Foreign exchange risks

The Group views its main currencies as Hong Kong dollars, Renminbi and Swiss Francs. The Group monitors its exposure to foreign exchange risks and, when it considers necessary and appropriate, will hedge its foreign exchange risks by using financial instruments.

Prospect

The Group achieved a net profit of HK\$21 million in this period which was slightly decreased as compared with a profit of HK\$27 million in the same period of last year.

The Group currently operates 6 stores in Hong Kong and China. The Group remained focus on its core stores and has streamlined their operating costs during the period and will continue to do so with a view to further enhance the cost efficiency of each store. While the overall sentiment in the luxury retail business in China remains stable, the recent situation in Hong Kong has some impact on the business in Hong Kong as it is mainly driven by tourist. Looking ahead, the Group will continue to monitor the situation and believes that the business in Hong Kong will regain its momentum in the near term.

Apart from the “Sale of watches” segment which continues to be the core business of the Group, the Group is also developing its business in the “Properties leasing” segment and acquired two renowned residential properties in London in last year.

In addition, with a view to further diversity the business of the Group, the Group has acquired a food manufacturing and retail business in August 2019.

The Group is determined to rebuild its financial strength and confidence to improve its business and take a cautious approach in its future expansion.

On behalf of the Group, we sincerely thank for the kind and positive support of our shareholders, customers, suppliers and associates.

CORPORATE GOVERNANCE

The Company is committed to maintain a high standard of corporate governance practices by emphasising a quality board of directors, sound internal control, transparency and accountability to all the shareholders of the Company.

The Company has complied with all the code provisions set out in the Corporate Governance Code (the “Code”) contained in Appendix 14 of the Rules Governing the Listing of Securities (the “Listing Rules”) on The Stock Exchange of Hong Kong Limited throughout the period ended 30th September 2019 except for the deviation from the code provisions A.4.1 and D.1.4 and those discussed below:

The Company was incorporated in Bermuda and enacted by private act, the Asia Commercial Holdings Limited Company Act, 1989 of Bermuda (the “1989 Act”). Pursuant to section 3(e) of the 1989 Act, director holding office as executive chairman or managing director shall not be subject to retirement by rotation at each annual general meeting as provided in the Bye-Laws.

As the Company is bound by the provision of the 1989 Act, at this time, the Bye-Laws cannot be amended to fully reflect the requirements of the Code. As such, a special resolution was passed at the special general meeting held on 28th March 2007 to amend the Bye-Laws of the Company so that, inter alia, (i) every director (save for a director holding office as Chairman or Managing Director) of the Company shall be subject to retirement by rotation at least once every three years; (ii) a director may be removed by an ordinary resolution in general meeting instead of a special resolution; (iii) any director appointed by the Board to fill a casual vacancy or as an additional director shall hold office until the next following general meeting, instead of the next annual general meeting.

To enhance good corporate governance practices, Mr. Eav Yin, the Chairman of the Board has confirmed to the Board that he will voluntarily retire from his directorship at annual general meeting of the Company at least once every three years in order for the Company to comply with the Code, provided that being eligible for re-election, he may offer himself for re-election at the annual general meeting. The Chairman is Mr. Eav Yin while the function of the chief executive officer is divided between the remaining executive directors.

Code provision A.4.1 of the Code provides that non-executive director should be appointed for a specific term, subject to re-election.

During the period, the non-executive directors of the Company are not appointed for a specific term but are subject to retirement by rotation at least once every three years and re-election at the annual general meeting in accordance with the Company's Bye-Laws. As such, the Company considers that sufficient measures have been taken to ensure that the Company's corporate governance practices are not less exacting than those in the Code.

Code provision D.1.4 stipulates that directors should clearly understand delegation arrangements in place. The Company should have formal letters of appointment for directors setting out the key terms and conditions of their appointments.

The Company has not entered into any written letters of appointment with its Directors. However, the Board recognises that (i) the Directors have already been subject to the laws and regulations applicable to directors of a company listed on The Stock Exchange of Hong Kong Limited, including the Listing Rules as well as the fiduciary duties to act in the best interests of the Company and its shareholders; (ii) all of them are well established in their professions and (iii) the current arrangement has been adopted by the Company for several years and has proven to be effective. Therefore, the Board considers that the Directors are able to carry out their duties in a responsible and effective manner under the current arrangement.

The Board will continuously review and improve the corporate governance practices and standards of the Company to ensure that business activities and decision making processes are regulated in a proper and prudent manner.

Compliance of the Model Code for Securities Transaction by Directors of Listed Issuers

The Company has adopted a code for securities transactions by Directors of the Company (the “Code of Conduct”) on terms no less exacting than the required standard of the Model Code for Securities Transactions by Directors of Listed Issuers (the “Model Code”) as set out in Appendix 10 of the Listing Rules.

All Directors have confirmed that they complied with the required standards set out in the Code of Conduct throughout the period under review.

Interim Dividend

The directors resolved not to declare an interim dividend in respect of the six months ended 30th September 2019 (2018: Nil).

Purchase, Sale or Redemption of the Company’s Listed Securities

Neither the Company nor any of its subsidiaries purchased, sold or redeemed any of Company’s listed securities during the six months ended 30th September 2019.

Employees and Remuneration Policy

There were 149 employees in the Group as at 30th September 2019. The Group offers competitive remuneration packages to employees in line with market trends. Incentives such as discretionary bonuses and share awards are offered to motivate employees.

By order of the Board
Asia Commercial Holdings Limited
Cheng Ka Chung
Company Secretary

Hong Kong, 29th November 2019

As at the date of this announcement, the Board comprises Mr. Eav Yin (Chairman), Ms. Eav Guech Rosanna and Mr. Eav Feng Ming, Jonathan as executive directors, Mr. Lai Si Ming, Ms. Wong Wing Yue, Rosaline and Mr. Lee Tat Cheung, Vincent as independent non-executive directors.
