* For identification purpose only

The board of directors (the “**Board**”) of the Company wishes to inform the shareholders of the Company and potential investors that based on the preliminary assessment by the Board of the unaudited consolidated management accounts of the Group and the information currently available to the Board, the Group is expected to record an increase of not less than 20% in net profit for the financial year ending 31 December 2019 (the “**Reporting Period**”) as compared to HK\$515 million for the financial year ended 31 December 2018, notwithstanding the share option expense of approximately HK\$39 million arising from the share options granted by the Company in October 2019 and expected to be recorded in the Reporting Period.

The Board considers that the expected increase in net profit is mainly attributable to the increase in revenue generated from overseas markets primarily driven by the increase in market share in the Asia Pacific region (except for Mainland China) and the Europe, Middle East and Africa region and the successful launch of Android-based payment terminals solutions in certain countries, coupled with improvement in the gross profit margins.
