* For identification purposes only

This announcement is made by Global Bio-chem Technology Group Company Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) pursuant to Rule 13.09 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “**Listing Rules**”) and Inside Information Provisions under Part XIVA of the Securities and Futures Ordinance (Cap. 571 of the Laws of Hong Kong).

(I) PROFIT WARNING

The board (the “**Board**”) of directors (the “**Directors**”) of the Company wishes to inform the shareholders of the Company and potential investors that based on the preliminary review of the Group’s unaudited consolidated management accounts for the three months ended 31 March 2020, the Group recorded significant decreases in revenue by approximately 79.9% and gross profit by approximately 53.7% for the three months ended 31 March 2020 as compared to the corresponding period in 2019. Such decreases were mainly attributable to: (i) the decrease in production volume of the Group due to the suspension of operations of most of the subsidiaries in the People’s Republic of China (the “**PRC**”) pursuant to the guidelines of the PRC government during the three months ended 31 March 2020 following the outbreak of the coronavirus disease (“**COVID-19**”) in the PRC; (ii) decrease in the demand and the prices of the products of the Group following the outbreak of COVID-19 in the PRC; and (iii) the significant increase in corn price due to the tightening supply of corn kernels, the major raw materials used in the production of the Group, as a result of the outbreak of COVID-19, which disrupted domestic and international transportation.

It is expected that the Group will record significant decreases in revenue and gross profit for the six months ending 30 June 2020 as compared to the corresponding period in 2019.

The information contained in this announcement is only based on the preliminary assessment of the currently available information by the management of the Group, including the unaudited consolidated management accounts of the Group for the three months ended 31 March 2020 which have not been reviewed or audited by the Company’s auditor.

Shareholders of the Company and the potential investors are advised to read carefully the unaudited interim results announcement of the Company for the six months ending 30 June 2020 which is expected to be published by the end of August 2020 in accordance with the Listing Rules for further details.

(II) UPDATES ON SUSPENSION OF OPERATIONS OF CERTAIN SUBSIDIARIES

Reference is made to the announcements of the Company dated 24 September 2019, 16 December 2019 and 10 February 2020 (the “**Announcements**”) in relation to the suspension of production and sales operations of certain subsidiaries of the Company. Unless the context otherwise requires, capitalised terms used in this section of the announcement shall have the same meanings as those defined in the Announcements.

The Board wishes to provide an update on the status of the suspension of operations of Changchun Dahe, Harbin Dacheng, Dacheng Bio-Tech, Dihao Foodstuff and Jinzhou Dacheng and announce the suspension of operation of 錦州元成生化科技有限公司 (Jinzhou Yuancheng Bio-chem Technology Co., Ltd.*) (“**Jinzhou Yuancheng**”), an indirect wholly-owned subsidiary of Global Sweeteners Holdings Limited (“**GSH**”).

In respect of the Group’s upstream operations, the slow-down in procurement activities of corn kernels as a result of the outbreak of COVID-19 and the PRC government’s intention to increase its grain reserves have led to the tightening supply of corn kernels. Consequently, domestic corn prices have been driven up significantly. On the other hand, the outbreak of COVID-19 and economic slowdown in the PRC had an impact on the overall demand for corn-refined products as downstream consumption shrunk, which caused the prices of the upstream products of the Group to drop significantly. The Board, having considered the pros and cons of resuming the upstream operations of the Group based on the currently available financial information of the Group and assessed the current market conditions, concluded that it is more favourable for the Group to continue the suspension of its upstream operations. As such, as at the date of this announcement, the operations of Harbin Dacheng and Dacheng Bio-Tech remain suspended. In addition, due to factors similar as to the above, Jinzhou Yuancheng, which has been operating in low facility utilisation during the first quarter of 2020, also has its operation suspended as at the date of this announcement. Please refer to the announcement of GSH dated 29 May 2020 for further information for the suspension of operation of Jinzhou Yuancheng.

With regard to the downstream operations of the Group, the suspension of the Group’s upstream operations has cut off the supply of corn starch, the major raw material for the downstream production. In addition, it is not cost-efficient to purchase corn starch from the market considering current market price of corn starch. It has caused major obstacles for the Group to source its raw materials for its downstream operations. On the other hand, the poor sentiments in the respective product markets of amino acids and sweeteners as a result of the economic slowdown, the suspension of most of the commercial activities in the PRC during the first quarter of 2020 and where applicable, the continuous impact of the African Swine Fever, have continued to drag down the prices of the Group’s downstream products. Based on the Board’s analysis of the currently available financial information of the Group and its assessment of the current market conditions, the Board is of the view that it is more favourable for the Group to continue the suspension of its downstream operations. As such, the operations of Changchun Dahe, Dihao Foodstuff and Jinzhou Dacheng remain suspended as at the date of this announcement. Please refer to the announcement of GSH dated 29 May 2020 for further information for the suspension of operations of Dihao Foodstuff and Jinzhou Dacheng.

The revenue and gross profit of the above subsidiaries as a whole represented material proportion of the total revenue and gross profit of the Group. Since it is expected that the above subsidiaries will continue to be either suspended or under intermittent operation in the next couple of months, it is expected that the Group will record significant decreases in revenue and gross profit for the six months ending 30 June 2020 as compared to the corresponding period in 2019.

The Board has made the decision for the suspension of operations of the above subsidiaries in order to reduce operating cash outflow and secure sufficient financial resources until the market conditions improve. On the other hand, the Group will closely monitor the progress of the corn auctions by the PRC government which has been delayed due to the outbreak of COVID-19 and see if it is feasible and commercially viable for the Group to resume its operations. The Board will also continue to monitor closely the development of COVID-19, market conditions, the availability of raw materials as well as the financial conditions of the Group and endeavour to resume the operations of the above subsidiaries as soon as possible to the extent practicable.

(III) UPDATES ON THE TIMELINE OF USE OF PROCEEDS FROM THE SECOND SUBSCRIPTION

Reference is made to the Company's announcements dated 27 September 2019 and 29 April 2020 and circular dated 22 November 2019 regarding the subscription of new shares under specific mandate (the "Second Subscription"). Due to the suspension of operations as outlined in section (II) of this announcement, the timeline of use of the net proceeds from the Second Subscription have been updated as follows:

Intended use of proceeds	Previously disclosed expected timeline of use	Amount for the intended use of net proceeds (HK\$) (approx.)	Actual use of net proceeds (HK\$) (approx.)	Remaining net proceeds (HK\$) (approx.)	Updated timeline of use
Repayment of trade and other payables of the Group's PRC subsidiaries	April 2020 – May 2020	56,000,000	47,200,000	8,800,000	April 2020 – September 2020
Procurement of corn and other operational expenses	April 2020 – May 2020	76,000,000	39,589,000	36,411,000	April 2020 – September 2020
		<u>132,000,000</u>	<u>86,789,000</u>	<u>45,211,000</u>	

Shareholders of the Company and potential investors are advised to exercise caution when dealing in the shares of the Company.
