## ANNOUNCEMENT OF UNAUDITED INTERIM RESULTS FOR THE SIX MONTHS ENDED JUNE 30, 2020

## **HIGHLIGHTS**

The Group is an international apparel retailer with a portfolio of owned and licensed brands. We offer high-quality, value-for-money and easy-to-wear apparel through a network of 2,187 stores (or 2,114,000 sq. ft. of retail floor space) as of June 30, 2020.

Due to the COVID-19 pandemic, Group sales declined by 44.4% to HK\$1,413 million (2019: HK\$2,542 million) at a gross margin of 54.6% (2019: 59.3 %). The Group's online sales have grown to HK\$139 million, or 9.8% (2019: 5.2%) of Group sales.

As a result of the drastic drop in Group sales and provision for asset impairment, the Group recorded a net loss of HK\$175 million (2019: HK\$161 million net profit), of which HK\$102 million was attributable to the Hong Kong Special Administrative Region ("HKSAR") alone. Excluding the non-cash provision for impairment of HK\$71 million under the Hong Kong Accounting Standard ("HKAS") 36 that applied to retail store assets, the Group's net loss was HK\$104 million for the six months ended June 30, 2020.

Movement controls imposed abruptly in certain markets created a backlog of merchandise originally prepared for festive sales. The Group's inventory turnover on cost was substantially higher at 138 days (June 30, 2019: 92 days). The merchandise levels will gradually reduce without the need for drastic clearance discounts, as the majority of the merchandise comprises basic and essential items.

Cash and bank balances, net of bank loans, were HK\$989 million on June 30, 2020 (December 31, 2019: HK\$994 million). The Group's overall financial situation and working capital are robust, even with an uncertain medium-term outlook. The Board has declared an interim dividend of 3.1 HK cents per share (2019: 10.2 HK cents per share).

The board of directors (the "Board") of Giordano International Limited (the "Company") presents the following unaudited interim results of the Company and its subsidiaries (the "Group") for the six months ended June 30, 2020 along with comparative figures and explanatory notes.

## Notes to the unaudited condensed consolidated interim financial statements

## 1. Basis of preparation

The unaudited condensed consolidated interim financial statements (the "unaudited interim results") for the six months ended June 30, 2020 have been prepared in accordance with the applicable disclosures required by the Rules Governing the Listing of Securities (the "Listing Rules") of The Stock Exchange of Hong Kong Limited (the "Stock Exchange") and HKAS 34 "Interim Financial Reporting", issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). Readers should read the unaudited interim results in conjunction with the audited annual financial statements for the year ended December 31, 2019, which have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRS").

The unaudited interim results are in million of Hong Kong dollars ("HK\$ million"), unless otherwise stated. The accounting policies and methods of computation used in the preparation of the unaudited interim results are consistent with those used in the audited annual financial statements for the year ended December 31, 2019.

These unaudited interim results accrue income taxes on taxable income using tax rates applicable in the respective jurisdictions.

The Board approved the unaudited interim results for issue on August 11, 2020.

## 2. Principal accounting policies

## (a) Impact of new and amended standards

The Group has applied the following new and amendments to HKFRS issued by the HKICPA which were effective for the Group's financial year beginning on or after January 1, 2020:

_	Amendments to HKAS 1 and HKAS 8	Definition of Material
_	Amendments to HKFRS 3	Definition of a Business
-	Conceptual Framework for Financial Reporting 2018	Revised Conceptual Framework for Financial Reporting
-	Amendments to HKAS 39, HKFRS 7 and HKFRS 9	Hedge accounting

The adoption of the above new effective interpretation and the amendments to existing standards did not result in substantial changes to the Group's accounting policies or financial results.

## (b) New and amended HKFRSs issued but not yet effective

The Group has not early applied the new and amended standards and interpretations that have been issued but not yet effective. The adoption of these are not expected to have a material impact on the financial results of the Group.

## 3. Sales and operating segments

The Group determines its operating segments based on its development strategies and operational control. There are two major operating segments: Retail and Distribution and Wholesales to Overseas Franchisees. Management manages the Retail and Distribution operating segment geographically and by brand.

Geographically, the Retail and Distribution operating segment in Mainland China and the Middle East comprise directly-operated stores ("DOS") and franchised stores. HKSAR and Macau, Taiwan and the rest of Asia Pacific do not have material local franchised stores. Group stores span most of Asia Pacific and the Middle East.

As for brands, the Group presently operates *Giordano* and *Giordano Junior*, *Giordano Ladies*, *BSX* as well as other owned and licensed brands.

Adjusted EBITDA is (loss)/profit before finance expense, income taxes, impairment of right-of-use assets and property, plant and equipment, depreciation and amortization, share of profit of joint ventures and unallocated corporate items. Segment results are before finance expense, share of profit of joint ventures, income taxes and unallocated corporate items. This is the measurement basis reported to management and the senior decision-makers for the purpose of resources allocation and assessment of segment performance.

Analysis of sales and operating (loss)/profit of the Group's operating segment by geographic regions is as follows.

### 7. Income taxes

HKSAR profits tax is calculated at the rate of 16.5% (2019: 16.5%) on the estimated assessable profits for the period. Income taxes on profits assessable outside HKSAR are calculated at the rates applicable in the respective jurisdictions.

This charge excludes the share of joint ventures' income taxes of HK\$6 million (2019: HK\$7 million) for the period. The share of profit of joint ventures in the consolidated income statement is after income taxes accrued in the appropriate income tax jurisdictions.

## 8. (Loss)/earnings per share

The calculations of basic and diluted (loss)/earnings per share are based on the loss after income taxes attributable to shareholders of the Company for the period of HK\$175 million (2019: profit of HK\$161 million).

The basic (loss)/earnings per share is based on the weighted average of 1,578,482,936 shares (2019:1,578,500,518 shares) in issue during the six months ended June 30, 2020.

Diluted loss per share for the six months ended June 30, 2020 is equal to the basic loss per share as the potential dilutive ordinary shares arising from exercise of the outstanding share options would be anti-dilutive.

During the six months ended June 30, 2019, the diluted earnings per share is calculated by adjusting the weighted average of 1,578,500,518 shares in issue during the period by the weighted average of 305,358 shares deemed to be issued if all outstanding share options granted under the share option schemes of the Company had been exercised.

2019 final dividend paid of 4.4 HK cents per share (2018: 16.5 HK cents per share)	69	260		

The distribution for 2019 final dividend was based on the total number of issued shares of the Company on June 4, 2020.

At the Board meeting on August 11, 2020, the Board declared an interim dividend of 3.1 HK cents per share (2019: 10.2 HK cents per share). The interim dividend has not been recognized as a liability at the balance sheet date.

## MANAGEMENT DISCUSSION AND ANALYSIS OF GROUP RESULTS OF OPERATIONS AND FINANCIAL POSITION

The following commentaries refer to the year-on-year ("YOY") comparison of the Group for the six months ended June 30, 2020 and 2019, unless otherwise stated.

## **OVERVIEW**

The Group is an international apparel retailer with a portfolio of owned and licensed brands. We offer high-quality, value-for-money and easy-to-wear apparel through a network of 2,187 stores (or 2,114,000 sq. ft. of retail floor space) as of June 30, 2020.

Due to the COVID-19 pandemic, Group sales declined by 44.4% to HK\$1,413 million (2019: HK\$2,542 million) at a gross margin of 54.6% (2019: 59.3%). The Group's online sales have grown to HK\$139 million, or 9.8% (2019: 5.2%) of Group sales.

As a result of the drastic drop in Group sales and provision for asset impairment, the Group recorded a net loss of HK\$175 million (2019: HK\$161 million net profit), of which HK\$102 million was attributable to the HKSAR alone. Excluding the non-cash provision for impairment of HK\$71 million under the HKAS 36 that applied to retail store assets, the Group's net loss was HK\$104 million for the six months ended June 30, 2020.

Movement controls imposed abruptly in certain markets created a backlog of merchandise originally prepared for festive sales. The Group's inventory turnover on cost was substantially higher at 138 days (June 30, 2019: 92 days). The merchandise levels will gradually reduce without the need for drastic clearance discounts, as the majority of the merchandise comprises basic and essential items.

Cash and bank balances, net of bank loans, were HK\$989 million on June 30, 2020 (December 31, 2019: HK\$994 million). The Group's overall financial situation and working capital are robust, even with an uncertain medium-term outlook. The Board has declared an interim dividend of 3.1 HK cents per share (2019: 10.2 HK cents per share).

## Sales and gross profit

Group sales decreased by 44.4%, or by 43.3% if translated at constant exchange rates. The unsatisfactory performance was attributable to the outbreak of COVID-19 since January 2020. The pandemic is severely affecting the global economy. This global health emergency has led to a rapid drop in foot-traffic, mainly due to various government containment decrees and social distancing measures.

The Group's online platforms generated HK\$139 million in revenue (see Table 2), raising its contribution to 9.8% of the Group's sales (2019: 5.2%), of which non-Mainland China platforms contributed HK\$31 million, representing YOY growth of 93.8%. Management will continue to focus on third-party online platforms for future growth.

Wholesales to franchisees receded by 35.4%, due to lower brand sales and as a result of the Group's prudent credit control.

**Table 2: Sales by channels**

Group sales	1,413	100.0%	2,542	100.0%	(44.4%)

By focusing on wholesales and online channels for growth, the gross margins of which are lower, the Group's gross margin ebbed. Therefore, the YOY decline in gross profit was greater than that in sales. Table 3 provides an analysis of change in Group gross profit.

## Other income and other gains, net

Other income and other gains, which comprise royalty and licensing revenue, interest income, government subsidies and rental and sub-lease rental income, increased by HK\$16 million to HK\$54 million, of which HK\$23 million represents financial relief from governments for the COVID-19 pandemic. Management continues to expand our licensing business, both in terms of product categories and geographical reach.

## Operating expense and operating (loss)/profit

Operating expense to sales ratio increased significantly on a substantial Group sales decrease and despite a 27.2% decline in operating expense. As a result, the Group recorded an operating loss of HK\$182 million for the period, of which HK\$105 million was attributable to the HKSAR alone. The Group will further reduce its fixed overheads to improve leverage, mainly focusing on rental reduction and improvements in technology-based operations to achieve efficiency savings.

## Impairment of right-of-use assets and property, plant and equipment

Given the COVID-19 pandemic's potential adverse impact on the performance of the Group's retail stores and based on HKAS 36 requirements, the Group has made a HK\$71 million provision (2019: nil) on the impairment of right-of-use assets and property, plant and equipment. HKSAR's share of the provision was HK\$50 million. The impairment provision will reduce the net carrying amount of the right-of-use assets and property, plant and equipment, reducing the depreciation charge over the remaining lease terms.

## Finance expense

Finance expense was HK\$22 million (2019: HK\$29 million), which comprised of bank interest expense and interest on lease liabilities.

## Loss after income taxes attributable to shareholders of the Company

Net loss for the six months ended June 30, 2020 was HK\$175 million, compared to a profit of HK\$161 million recorded in the same period last year. Income taxes are calculated at rates applicable in the respective jurisdictions, on the estimated assessable profits derived for the period. An income tax credit amounting to HK\$2 million was recorded (2019: tax expenses of HK\$58 million), derived mainly from the net deferred tax credits arising from the temporary differences between tax base and accounting-based values of certain assets and liabilities. Table 5 below provides details for the changes by region.

The COVID-19 outbreak, coupled with the prolonged Sino-US dispute, have severely dampened consumer sentiment in the region.

## HKSAR and Macau

The business deterioration in the HKSAR was the worst in the Greater China region. It suffered from the COVID-19 outbreak and the protracted decline in tourist arrivals.

With a pessimistic outlook for HKSAR and Macau, we have diligently and aggressively pleaded for rental concessions and re-negotiated more flexible lease terms. We have concentrated on our online sales, despite the lower gross margin.

## Mainland China & Taiwan

For Mainland China, the online sales and franchise business remained our focus of development. Online sales were steady during the period, trending positively in the second quarter. Although there was a YOY decline in franchised stores in Mainland China, the Group is optimistic about its long-term growth prospect.

The drop in Taiwan's sales and profit were the lowest of all regions, partly due to lessened competition, and the absence of large-scale movement controls. Our management team there has been capitalizing on the opportunity to upgrade the Giordano brand.

In the rest of Asia Pacific, traffic from both tourists and local customers plunged with the imposition of travel restrictions and country-wide shutdowns. Heightened hygiene concerns eroded consumer and spending sentiment. As such, the focus was to develop various local third-party online platforms. Sales in Indonesia and Malaysia experienced a substantial decline, mainly due to the missed sales opportunities during the Ramadan period.

The Middle East business nosedived when authorities suddenly ordered the closure of all retail outlets as the number of confirmed COVID-19 cases spiked during the traditional festive sales season. The shutdown reversed the first quarter growth trend.

## South Korea (a 48.5% joint venture under an independent management team)

Table 11: South Korea

Six months ended June 30

(In Korean Won million)	2020	% to sales	2019	% to sales	Change

South Korea reported a minor reduction in sales and gross profit, mainly driven by a sharp increase in online business. After the initial COVID-19 outbreak, business activities have gradually been returning to normal.

## Wholesales to overseas franchisees

Table 12: Store numbers of overseas franchisees

Wholesales to overseas franchisees declined by 22.9% to HK\$108 million (2019: HK\$140 million). The COVID-19 pandemic also adversely affected sales in our franchise markets. The Group maintained prudent credit control, which indirectly impeded wholesale sales. That said, Management has resolved to maintain the financial health of our franchisees in preparation for a business rebound and a long-term growth prospect. In the first half of the year, we commenced both offline and online channels in Kenya and Russia and will accelerate the pace of overseas franchising in the second half of the year.

#### FINANCIAL POSITION

## Liquidity and financial resources

On June 30, 2020, the cash and bank balances, net of bank loans were HK\$989 million (December 31, 2019: HK\$994 million), almost flat as compared to year-end.

The bank borrowings amounted to HK\$167 million (June 30, 2019: HK\$298 million). The Group's gearing ratio, defined as the ratio of total borrowings less cash and bank balances to equity attributable to shareholders of the Company, was -0.4 (2019: -0.4). On June 30, 2020, the Group's current ratio was 1.7 based on current assets of HK\$1,977 million and current liabilities of HK\$1,151 million (2019: 1.5).

## Property, plant and equipment

During the first half of 2020, capital expenditure was only HK\$12 million (2019: HK\$37 million), mainly due to the postponement of store upgrades in light of COVID-19 pandemic-related movement controls.

## Goodwill and put option liabilities

The goodwill and put option liabilities arose from the acquisition of the Middle East operations in the years of 2012 and 2015. We have carried out impairment tests, and Management is of the view that there is no impairment on goodwill.

The Group has entered into agreements with the non-controlling shareholders of Giordano Fashions L.L.C. ("Giordano UAE"), Giordano Fashions Co. W.L.L. ("Giordano KW") and GIO Fashions W.L.L. ("Giordano QA") to acquire the remaining interest in these companies. The associated put option liabilities of HK\$62 million which were previously recognized have, accordingly, lapsed for the year ended December 31, 2019.

## **Interests in joint ventures**

The balance primarily represents a 48.5% interest in the South Korea joint venture. The decrease of HK\$58 million during the period reflected our share of profit, offset by dividends received, and currency translation differences.

## **Inventories**

Due to the sudden movement controls imposed in various territories, Group inventory at June 30, 2020 reduced by only 7.6% to HK\$486 million (June 30, 2019: HK\$526 million). ITOC was substantially higher at 138 days (June 30, 2019: 92 days). The Group believes the merchandise levels will gradually reduce without the need for drastic clearance discounts, as the majority of the merchandise comprise basic and essential items.

Inventories at suppliers and franchisees are not our legal liabilities. Nonetheless, the Group responsibly tracks their levels to ensure that they are not excessive and reports them regularly. Our finished goods at suppliers were significantly lower than last year as we did not want to increase the financial burdens of our suppliers otherwise caused by our postponing deliveries.

**Table 13: System inventories** 

		At		
	June 30	Dec 31	June 30	
(In HK\$ million)	2020	2019	2019	
Inventories held by the Group	486	548	526

Inventories held by franchisees in Mainland China	47	73	82	
Finished goods at suppliers (not yet shipped)	20	12	42	
Total system inventories	767	829	868	

## Trade receivables and payables

The Group prudently manages its trade receivables, especially during this uncertain time. Trade receivables turnover days for the period were 48 days, which were up by 6 days only as compared to the same period last year. Trade payables turnover days increased by 21 days to 41 days during the period under arrangements with our suppliers, and are in line with industry practice.

## **OUTLOOK**

In view of the COVID-19 pandemic and the uncertainty arising from the Sino-US relationship, we anticipate a challenging operating environment in the second half of the year. Cash management is of the essence for long term sustainability through stringent cost control and sound working capital discipline. Although senior executives had taken voluntary pay cuts to show solidarity with our stakeholders, we have no intention of imposing lay-offs or on or reducing the salaries of the general staff in the near future.

Recognizing the continued challenges, the Group will boldly close under-performing stores while deploying more resources to our online and franchise businesses. The Group is rapidly digitizing its way of doing business and preparing itself for a rebound.

We see opportunities in Taiwan, where the economy has been improving and where there is lessened competition within the market. Thailand and South Korea are also showing signs of sustained recovery. The Group is, however, pessimistic about the HKSAR, where store rentals have been higher than all other markets. In the medium term and joining our industry peers, the Group will downsize its HKSAR operations unless there are substantial rental reductions.

Our initiative to develop local online businesses within our existing markets has so far proven successful. This strategy will continue with deepened localization. Furthermore, Management has also expedited digitization of the Company's way of doing business, both externally and internally. It will also facilitate the Group's effort to localize supply chains further, especially in anticipation of logistics disruptions caused by a protracted COVID-19 pandemic.

We pursue operational excellence by a combination of cost and expense control and innovation. At the same time, we will develop new franchise markets, upgrade our stores and expand our online business.

## **HUMAN RESOURCES**

As at June 30, 2020, the Group had approximately 6,600 employees (December 31, 2019: 7,900). The Group offers competitive remuneration packages and generous, goal-oriented bonuses targeted to different levels of staff. We offer senior managers performance-based bonus schemes and share options to reward and retain a high caliber leadership team. We also invest heavily in training in sales and customer service, management, planning and leadership development to retain a skilled and motivated workforce.

### OTHER INFORMATION

## **Interim Dividend**

It is the Company's intention to return surplus cash to its shareholders through the payment of dividends and share repurchase. In line with its dividend policy, the Company has been paying a substantial portion of its earnings as an ordinary dividend, the amount of which may vary depending on cash on hand, future investment requirements and working capital considerations.

After due consideration of the economic outlook, the Group's financial position, its future expansion plans and other factors, the Board has declared an interim dividend of 3.1 HK cents per share (2019: 10.2 HK cents per share) for the six months ended June 30, 2020. The dividend is payable on Friday, September 18, 2020 to shareholders whose names appear on the register of members of the Company on Thursday, September 10, 2020.

## **Closure of Register of Members**

For determining the entitlement to the interim dividend, the register of members of the Company will be closed from Tuesday, September 8, 2020 to Thursday, September 10, 2020 (both days inclusive), during which period no transfer of shares will be registered. In order to qualify for the interim dividend, all completed transfer documents accompanied by the relevant share certificates must be lodged with the Company's Hong Kong branch share registrar, Tricor Abacus Limited, at Level 54, Hopewell Centre, 183 Queen's Road East, Hong Kong for registration no later than 4:30 p.m. on Monday, September 7, 2020.

## **Corporate Governance Code**

A corporate governance report has been published and included in the Company's 2019 annual report, in which the Company reported the adoption of the code provisions as stated in the Corporate Governance Code (the "CG Code") contained in Appendix 14 to the Listing Rules as the corporate governance code of the Company.

During the period under review, the Company has complied with all applicable code provisions under the CG Code, except for the following deviations:

## Code provision A.2.1

Code provision A.2.1 provides that the roles of the chairman and the chief executive should be separate and should not be performed by the same individual.

Currently, Dr. LAU Kwok Kuen, Peter holds the positions of Chairman and Chief Executive. In view of Dr. LAU's extensive experience in the industry and deep understanding of the Group's businesses, the Board believes that vesting the roles of both Chairman and Chief Executive in Dr. LAU provides the Group with strong leadership, allowing for more effective planning and execution of long-term business strategies and enhances efficiency in decision-making. The Board also believes that the Company already has a strong corporate governance structure appropriate for its circumstances in place to ensure effective oversight of Management.

## Code provision A.4.2

Code provision A.4.2 provides that every Director, including those appointed for a specific term, should be subject to retirement by rotation at least once every three years.

According to the bye-laws of the Company, one-third of the Directors, with the exception of Chairman or Managing Director, shall retire from office by rotation at each annual general meeting. In the opinion of the Board, stability and continuation are key factors to the successful implementation of business plans. The Board believes that it is beneficial to the Group that there is continuity in the role of the Chairman and, therefore, the Board is of the view that the Chairman should be exempt from this arrangement at the present time.

Save as disclosed above, the corporate governance practices adopted by the Company during the period under review are in line with those practices set out in the Company's 2019 annual report.

## **Securities Transactions by Directors**

The Company has adopted its own Code of Conduct for Securities Transactions by Directors (the "Code of Conduct for Securities Transactions"). This is on terms no less exacting than the required standard set out in the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") as set out in Appendix 10 to the Listing Rules, and has been updated from time-to-time. Having made specific enquiries to all Directors, all Directors confirmed that they had complied with the required standards set out in the Model Code and the Code of Conduct for Securities Transactions throughout the six months ended June 30, 2020.

## Purchase, Sale or Redemption of the Company's Listed Securities

During the six months ended June 30, 2020, a total of 870,000 ordinary shares were repurchased by the Company on the Stock Exchange. As at the date of this announcement, all the repurchased shares were cancelled by the Company. The Directors believe that the repurchases were made to reflect the Company's confidence in its long-term business prospects and would ultimately benefit the Company and create value for the shareholders of the Company. Details of the repurchases of shares of the Company were as follows:

Month of repurchase	Number of shares repurchased	Highest price per share <i>HK</i> \$	Lowest price per share <i>HK</i> \$	Aggregate purchase price (before expenses) <i>HK</i> \$
June 2020	870,000	1.15	1.13	995,100

Save as disclosed above, there was no purchase, sale or redemption by the Company or any of its subsidiaries, of any listed securities of the Company during the six months ended June 30, 2020.

### **Review of Interim Results**

The unaudited condensed consolidated interim financial information of the Group for the six months ended June 30, 2020 have been reviewed by PricewaterhouseCoopers, the external auditor of the Group, in accordance with the Hong Kong Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the HKICPA.

The Audit Committee has reviewed the accounting principles and practices adopted by the Group and has fully discussed auditing, risk management and internal control systems and financial reporting matters. The Audit Committee has also reviewed the unaudited interim results of the Group for the six months ended June 30, 2020 with Management.

## SUBSEQUENT EVENTS AFTER THE REPORTING PERIOD

The Group's business performance during the period was affected by the outbreak of COVID-19 in early 2020. The Group has been closely monitoring the development and the impact of COVID-19 since then and taken appropriate responses in a timely manner so as to mitigate the impact on the Group's business.

Subsequent to June 30, 2020 and up to now, the Group's sales have gradually started to recover as the situation in these areas gradually improves.

Up to the date on which this set of consolidated interim financial statements were authorized for issue, the Group is still in the process of assessing the impact of the COVID-19 outbreak on the Group's performance for the second half of 2020 and is currently unable to estimate the quantitative impacts to the Group.

On July 17, 2020, GI.PT Singapore Pte. Ltd ("GI.PT"), an indirect non-wholly owned subsidiary of the Company incorporated in Singapore, entered into a sale and purchase agreement ("Acquisition Agreement") with P.T. Eses Entrindo ("PTEE"), pursuant to which GI.PT has conditionally agreed to acquire, and PTEE has conditionally agreed to sell, 375 shares ("Sale Shares"), representing 15% of the total issued share capital of PT Giordano Indonesia, an indirect non-wholly owned subsidiary of the Company incorporated in Indonesia, at a consideration of SG\$4 million.

Pursuant to the Acquisition Agreement, GI.PT also granted PTEE an one-time exercise buy-back option to repurchase all (but not part) of the Sale Shares from GI.PT for an agreed repurchased price of SG\$4.6 million, representing a 15% buy-back premium, and such option will only be exercisable until June 14, 2021 or such other date as PTEE and GI.PT may agree in writing.

For details of the above acquisition, please refer to the announcement of the Company dated July 17, 2020.

By Order of the Board LAU Kwok Kuen, Peter Chairman and Chief Executive

Hong Kong, August 11, 2020

At the date of this announcement, the Board comprises three executive Directors; namely, Dr LAU Kwok Kuen, Peter (Chairman and Chief Executive), Dr CHAN Ka Wai and Mr Mark Alan LOYND; two non-executive Directors; namely, Dr CHENG Chi Kong and Mr CHAN Sai Cheong; and four independent non-executive Directors; namely, Dr Barry John BUTTIFANT, Mr KWONG Ki Chi, Professor WONG Yuk (alias, HUANG Xu) and Dr Alison Elizabeth LLOYD.

Group sales refer to consolidated sales and include retail sales from DOS and wholesales to all overseas/non-consolidated franchisees.

Global brand sales/gross profit are at 2020 exchange rates, and are greater than Group sales/gross profit to include the total of Giordano retail sales/gross profit, in DOS, franchised stores, and stores operated by a joint venture.

<sup>&</sup>lt;sup>3</sup> ITOC refers to inventories held at period end divided by cost of sales and multiplied by number of days in the period.
