#### NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 30 June 2020

#### **1. BASIS OF PREPARATION**

The condensed consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard ("**HKAS**") 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants (the "**HKICPA**") as well as with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "**Stock Exchange**") (the "**Listing Rules**").

#### 2. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS

The consolidated financial statements have been prepared on a going concern basis. In preparing the consolidated financial statements, the directors of the Company (the "**Directors**") have given careful consideration to the future liquidity of the Group in light of the fact that the Group incurred a loss of approximately US\$16,165,000 for the six months ended 30 June 2020 and the Group's net current liabilities of approximately US\$5,228,000 as at 30 June 2020. In the opinion of the Directors, the Group is able to continue as a going concern in the coming year taking into consideration the measures which include, but not limited to, the following:

- a) On 2 July 2020, the Company entered into subscription agreements with subscribers for the subscription of an aggregate 45,412,879 new shares for an aggregate consideration of approximately HK\$22,706,440 at the subscription price of HK\$0.50 per subscription share. The subscription was completed on 13 July 2020. The intent of the proceeds was repayment of advance from shareholders and to strengthen the general working capital of the Company.
- b) Chi Capital Holdings Ltd ("**Chi Capital**") has agreed to provide continuous financial support to enable the Group to meet its financial obligations as they fall due in the foreseeable future.

Based on the aforesaid factors, the Directors are satisfied that the Group will have sufficient financial resources to meet its financial obligations as they fall due for the foreseeable future. Accordingly, the consolidated financial statements have been prepared on a going concern basis.

#### **3. SIGNIFICANT ACCOUNTING POLICIES**

The condensed consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments, which are measured at fair values at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange of goods.

Except as described below, the accounting policies and methods of computation used in the condensed consolidated financial statements for the six months ended 30 June 2020 are the same as those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2019 ("Annual Report 2019").

In the current interim period, the Group has applied, for the first time, the following amendments to Hong Kong Financial Reporting Standard ("**HKFRSs**") issued by the HKICPA for the preparation of the Group's condensed consolidated financial statements:

Amendments to HKFRS 3	Definition of a Business
Amendments to HKFRS 9	Interest Rate Benchmark Reform
HKAS 39 and HKFRS 7	
Amendments to HKAS 1	Definition of Material
and HKAS 8	
Amendments to HKFRS 16	COVID-19 Related Rent Concessions*

\* Early adopted by the Group in current period's financial statements.

Except as described below, the application of the amendments to HKFRSs in the current interim period has had no material effect on the amounts reported and/or disclosures set out in these condensed consolidated financial statements.

The Group has early adopted the amendments to HKFRS 16 which provides relief to lessees from having to consider individual lease contracts to determine whether rent concessions occurring as a direct consequence of the COVID-19 pandemic are lease modifications and allows lessees to account for such rent concessions occurring as a direct consequence of the COVID-19 pandemic are been modifications. The practical expedient applies only to rent concessions occurring as a direct consequence of the COVID-19 pandemic and only if all of the following conditions are met: (i) the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change; (ii) any reduction in lease payments affects only payments originally due on or before 30 June 2021; (iii) there is no substantive change to other terms and conditions of the lease. The Group elects to adopt the practical expedient to account for the COVID-19 pandemic related rent concession as negative variable lease payments. Accordingly, the Group credited US\$135,000 to profit or loss for the rent concessions received by the Group during the period.

The Group has not adopted any other standard, interpretation or amendment that has been issued but has not yet been effective.

#### 4. REVENUE AND SEGMENT INFORMATION

The Group's reportable and operating segments under HKFRS 8 are as follows:

- 1. CMMB business Provision of transmission and broadcasting of television ("TV") programs.
- 2. Trading business Trading of printed circuit board ("PCB") materials.

The following is an analysis of the Group's revenue and results by reportable and operating segments:

#### Six months ended 30 June 2020

The accounting policies of the operating segments are the same as the Group's accounting policies. Segment profit (loss) represents the profit (loss) from each segment after tax without allocation of interest income and central administration expenses. This is the measure reported to the executive directors for the purpose of resources allocation and performance assessment.

Hong Kong Profits Tax is calculated at 16.5% (six months ended 30 June 2019: 16.5%) on the estimated assessable profits for the period, except for the first HK\$2,000,000 of a qualified entity's assessable profit which is calculated at 8.25%, in accordance with the new two-tiered profits tax rates regime with effect from the year of assessment 2018/2019. No provision for Hong Kong Profits Tax has been made as the Group has no assessable profit arising in Hong Kong for both periods. In addition, the directors considered that the two-tiered profits tax rates regime is not applicable to any entity within the Group for the six months ended 30 June 2020.

For the six months ended 30 June 2020, US Income Tax is charged at 24% (six months ended 30 June 2019: 24%) on the estimated assessable profits.

Taiwan Income Tax is charged at 17% on the estimated assessable profits for both periods. No provision for Taiwan Income Tax has been made as the Group does not have assessable profit arising in Taiwan for both periods.

Under the law of the People's Republic of China (the "**PRC**") on Enterprise Income Tax (the "**EIT Law**") and the Implementation Regulation of the EIT Law, the tax rate of the PRC subsidiaries is 25% from 1 January 2008 onward. No provision for PRC income tax has been made in the condensed consolidated financial statements as all of the PRC subsidiaries do not have taxable income for both periods.

#### 8. LOSS FOR THE PERIOD

Loss for the period has been arrived at after charging:

#### 9. LOSS PER SHARE

The calculation of the basic and diluted loss per share attributed to the owners of the Company is based on the following data:

Six months ended 30 June	
2020	2019
US\$'000	US\$'000
(unaudited)	(unaudited)
(14 864)	(7,022)
(14,004)	(7,033)
-	114
	(1,525)
(14,864)	(8,444)
	(Restated)
212,455,003	157,201,557
<b></b> ,,	107,201,007
	1,062,624
212,455,003	158,264,181
	2020 US\$'000 (unaudited) (14,864) 

Adjustment has been made to the basic loss per share amount for the six months ended 30 June 2020 and 2019 in respect of a dilution because the diluted loss per share amount is decreased when taking convertible notes into account, so the convertible notes had a dilutive effect.

The weighted average number of ordinary shares for the purpose of calculating basic and diluted loss per share for the six months ended 30 June 2019 has been adjusted for the effect of share consolidation completed on 12 November 2019.

As the rights issue on the basis of one rights share for every two existing shares held on the record date at the subscription price of HK\$0.65 per rights share ("**Rights Issue**"), completed on 11 March 2020 includes no bonus elements, the weighted average number of ordinary shares for the purpose of calculating basic and diluted loss per share for the six months ended 30 June 2020 and 2019 are not required to be adjusted for the effect of the Rights Issue.

#### **10. INTANGIBLE ASSETS**

	Spectrum Usage rights US\$'000	Licensing rights US\$'000	Total US\$'000
Cost At 31 December 2019 and 30 June 2020	108,937	1,533	110,470
Accumulated Amortisation/impairment At 31 December 2019 Impairment recognised for the period	28,373 7,000 35,373	1,533 	29,906 7,000 36,906
Carrying Value At 30 June 2020 At 31 December 2019	73,564 80,564		73,564 80,564

As disclosed in note 18 of the Annual Report 2019, the spectrum usage rights represented user and operating rights over free-to-air UHF Spectrum TV Stations inclusive of the spectrum usage right, broadcasting rights and operating facilities in eight top US metropolitan cities, which are New York, Los Angeles, San Francisco, Dallas, Houston, Atlanta, Miami and Tampa.

The management conducted an impairment assessment on the spectrum usage rights on the reporting date. The directors determined that as at 30 June 2020, there is an impairment loss of US\$7,000,000 (six months ended 30 June 2019: nil) recognised for the spectrum usage rights by reference to the value in use calculation. Furthermore, the fair value less cost of disposal is not available as the Federal Communications Commission ("**FCC**") closed the auction for the sale of TV spectrum since 2017 and has yet to announce future sale plans open up to date of this report.

The basis of the recoverable amounts of the above spectrum usage rights and their underlying assumptions are summarised below:

The recoverable amount of the spectrum usage rights has been determined based on a VIU calculation. The VIU calculation is based on the financial budgets approved by the management which assumes the current contracted capacity will continue for the next three-years, while the unutilised capacity will be filled at 10% (2019: 10%) increments per quarter until it reaches a 69% (2019: 78%) filled rate in the third-year; a terminal-year fill rate of 80% (2019: 95%) was assumed for both contracted and unutilised capacities.

The discount rate of 9.95% (2019: 10.21%) is determined based on the weighted average cost of capital appropriate for the spectrum usage rights. The cost of equity of 9.24% (2019: 8.62%) for the year is calculated by: (i) the risk free rate of 0.66% (2019: 1.92%), which is the 10 year average yield of US Government Bond Benchmark Yield Curve; (ii) the equity beta of 1.20 (2019: 0.97), which is the adjusted beta by making reference to publicly listed companies with comparable business nature and operation; and (iii) the market risk premium of 7.15% (2019: 6.91%), which is the difference between market rate of return and risk free rate. This long-term equity risk premium refers to the 10-year average market rate of return for the United States, sourced from Thomson Reuters. The cost of debt of 3.25% (2019: 4.75%) for the year is estimated by referring to the US Prime Lending Rate.

Through the analysis of the industry comparables, the weight of debt and equity is estimated as 46% (2019: 46%) and 54% (2019: 54%) respectively. The corporate tax rate and specific risk premium applied remain unchanged at 24% and 2% respectively. The spectrum usage rights' cash flow beyond the three-year period (2019: three year period) are extrapolated using a steady growth rate of 2.31% (2019: 2.32%) per annum. This growth rate is based on projected inflation published by the International Monetary Fund.

Other key assumptions for the VIU calculations relate to the estimation of cash inflows/outflows which included budgeted sales and gross margin. Such estimation is based on the past performance and management's expectations. Further to the above inputs, we have also considered these factors – (a) the FCC licences for the spectrum usage rights can be renewed upon expiry at nominal cost; (b) the contracting parties for the existing lease contracts are acting in accordance with the agreements' terms and conditions and other understanding discussed between the parties; (c) the level of key management, competent personnel and technical staff retained to support the ongoing operations have remained consistent over time; etc.

The Company completed the acquisition of 20% equity interest in Silkwave Holdings Limited ("**Silkwave**") with a call option to acquire additional 31% equity interest in Silkwave on 29 May 2018. Through its wholly-owned subsidiary, Silkwave indirectly holds a geosynchronous L-band satellite operating platform, including the AsiaStar satellite capacity, its 40MHz spectrum frequency use covering China and Asia, geostationary orbital slot, network solutions, terminal applications, and a Silkwave-1 satellite design under procurement. Such a platform can offer unprecedented efficiency and economies of scale in delivering digital multimedia and internet-based content services to vehicles and mobile devices ubiquitously throughout China and Asia Pacific Region.

With the already acquired global L-band mobile broadcasting satellite assets, Silkwave has been developing core technologies for satellite + LTE (4G and 5G) convergence. Working with multiple Chinese government agencies and industry groups Silkwave has developed a nationwide satellite – LTE Converged<sup>TM</sup> network for multimedia delivery, end-to-end ecosystem solutions, and operating partnerships with broadcasting authorities for service deployment. Its development highlights include the terminal device solution TM-Box coupled with Xingyun user interface which is being promoted to be China's industry standard for vehicular multimedia, with multiple OEM automakers having expressed interest to design-in such standard into new vehicle series. Silkwave has also integrated Beidou satellite system to create centimetre-level high-precision positioning solutions for vehicle navigation. In addition, Silkwave has completed multiple stages of technical trial services over 14 provinces and 1 million kilometres in road test in China, as well as over vast regions over the South China Sea.

The share of loss of Silkwave for the Period increased by 40.3% to US\$6,578,000 (six months ended 30 June 2019: US\$4,689,000). The increase mainly represents the written off deposit paid to The Boeing Company ("**Boeing**") for the construction of Boeing 702 satellite, which amounted to US\$2,160,000 (20% share of the deposit of US\$10,800,000). Given the recent U.S. technology transfer restrictions such as the adoption of H.R. 6388, the Space Technology Advancement Report (STAR) Act of 2020, into the National Defense Authorization Act ("NDAA"), has limited the non-American company to hold the American space-based assets, it is an indicator that Silkwave is likely unable to launch the satellite constructed by Boeing as previously planned.

Further, the outbreak of COVID-19 coronavirus (led to extraordinary disruptions to overall business activities in the PRC and Silkwave is no exception. Silkwave's offices, research facilities and most of the testing venues were instructed to close temporarily during February and March of 2020. Silkwave's offices resumed operations in early March 2020 and the research facilities operated by the first week of April 2020. These government mandated closures of business operations and disruptions affected the Silkwave's research and fundraising schedule which inevitably impacted on the Silkwave's financial results and liquidity position in the first half of 2020.

On 11 March 2020, the Company raised approximately HK\$24,700,000 (equivalent to approximately US\$3,145,000) before expenses by way of issuance of 37,984,428 new shares pursuant to the Rights Issue. The Company intends to apply the net proceeds from the Rights Issue for general working capital and the development of the Maritime Project.

Details of the Rights Issue are set out in the prospectus and the announcement of the Company dated 18 February 2020 and 10 March 2020, respectively.

The new shares rank *pari passu* with the existing shares in all respects.

#### 16. SHARE OPTION SCHEME

The purpose of the share option scheme is to enable the Group to grant options to selected participants as incentives or rewards for their contributions to the Group. All directors, employees, suppliers of goods or services, customers, persons or entities that provide research, development or other technological support to the Group, shareholders of any member of the Group, advisers or consultants of the Group and any other group or classes of participants who have contributed or may contribute by way of joint venture, business alliance or other business arrangement and growth of the Group are eligible to participate in the share option scheme.

The Company granted 54,956,892 share options on 17 May 2019 under the existing scheme mandate limit at the exercise price of HK\$0.075 per share to certain consultants for the purpose of fundraising activities; development of CMMB Business and seeking for new investment opportunities in CMMB Business. The closing price as stated on the daily quotations sheet of the Stock Exchange on the date of grant was HK\$0.070 per share. The scheme mandate limit was utilised in full on the date of grant.

As a result of the share consolidation which was effective on 12 November 2019, the exercise price per share and number of outstanding share options granted on 17 May 2019 were adjusted from HK\$0.075 to HK\$1.50 and from 54,956,892 options to 2,747,844 options respectively.

As a result of the Rights Issue which was completed on 11 March 2020, the exercise price per share and number of outstanding share options granted on 17 May 2019 were further adjusted from HK\$1.50 to HK\$1.516 and from 2,747,844 options to 2,718,843 options respectively ("**Outstanding Share Options**").

Details of the share options granted and outstanding under the share option scheme for the Period were as follows:

	Date of grant	Adjusted exercise price HK\$	Exercise period	Outstanding at 1.1.2020	Adjustment	Outstanding at 30.6.2020
Consultants	17 May 2019	1.516	17 May 2019 to 16 May 2022	2,747,844	(29,001)	2,718,843

Exercisable at the end of the period						2,718,843
Weighted avera	ge exercise pric	e (HK\$)				1.516

On 5 August 2020, the Board has resolved to cancel the Outstanding Share Options subject to the respective consent of the Existing Holders (the "**Existing Holders**"), on the ground that the exercise price of the outstanding share options has been consistently high when compared with the prevailing market price of the Shares, which deters the option holders of the Outstanding Share Options from exercising the Outstanding Share Options. As a result, the Outstanding Share Options could no longer serve the purpose to motivate the Existing Holders.

#### **17. CAPITAL COMMITMENTS**

As at 30 June 2020, neither the Group nor the Company has any significant capital expenditure contracted for but not provided in the condensed consolidated financial statements.

#### **18. EVENT AFTER THE REPORTING PERIOD**

On 2 July 2020, the Company entered into subscription agreements with subscribers for the subscription of an aggregate 45,412,879 new shares for an aggregate consideration of approximately HK\$22,706,440 at the subscription price of HK\$0.50 per subscription share. The subscription was completed on 13 July 2020. The intent of the proceeds was repayment of advance from shareholders and to strengthen the general working capital of the Company.

On 5 August 2020, the Company has resolved to grant 10,896,000 new share options (the "**New Share Options**") to (i) the Existing Holders to subscribe for 8,172,000 Shares, which are served as replacement of the cancelled Outstanding Share Options, and (ii) one new consultant to subscribe for 2,724,000 Shares, subject to their respective acceptance, under the share option scheme. Reference is made the announcement of Company dated 11 August 2020. The purported grant of the New Share Options has not been accepted by the respective grantees and has not been materialised. The purported grant of the New Share Options has been cancelled accordingly by the Company pursuant to Rule 17.05 of the Listing Rules.

#### **19. LITIGATION**

As at the end of the reporting period, the Group had potential litigation in US against the Company. On 18 October 2019, Mr. Hamza Farooqui ("**Mr. Farooqui**") filed a claim against Silkwave, the Company, Chi Capital, Mr. Wong Chau Chi (a director of the Company), Mr. Liu Hui (a director of the Company) and three other related parties of Silkwave for breach of implied contract, quantum meruit, promissory estoppel, unjust enrichment, breach of contract, fraud and fraud in the inducement, constructive trust, and defamation (the "**Claim**"). In the Claim, it is alleged that, among other matters, the defendants in the Claim are liable to Mr. Farooqui for certain work he performed for the benefit of the defendants in connection with business transactions involving satellite assets in Asia and Africa and certain compensations.

As at the end of the reporting period, the Superior Court of the District of Columbia, US granted motion for the extension of time to file proof of service. The settlement conference was previous scheduled on 12 June 2020 in Washington D.C., US. was postponed to 28 August 2020 due to court order for Corona Virus delay.

As at the end of the reporting period, the Company was seeking legal advice in relation to the Claim. The Directors believe that the Claim is without merit and the likelihood of a significant loss arising from the Claim is small and therefore no provision of the Claim was considered necessary.

#### **20. INTERIM DIVIDEND**

The board of directors of the Company did not declare any interim dividend to the shareholders of the Company for the six months ended 30 June 2020.

#### MANAGEMENT DISCUSSION AND ANALYSIS

#### **REVIEW OF BUSINESS OPERATIONS**

The principal activity of CMMB Vision Holdings Limited (the "**Company**") is investment holding whilst its subsidiaries are mainly engaged in the provision of Convergent Mobile Multimedia Broadcasting ("**CMMB**"), the next generation of convergent satellite-mobile multimedia infotainment broadcasting service, and the trading of printed circuit board ("**PCB**").

#### The Impact of COVID-19 on the Group's Operation

In the first half of 2020, an unexpected outbreak of the novel coronavirus (the "**COVID-19**") has caused drastic fluctuations in economic and financial environment around the world. Later, in March, the World Health Organization (WHO) declared COVID-19 a global pandemic. It led to extraordinary disruptions to our operations, research activities and business development in the PRC and US markets. The PRC offices and research centre were even instructed to close temporarily during February and March of 2020.

We expect that COVID-19 will structurally slow down global business-as-usual economic activities but force massive demand for business transformations; it is the latter that we are focused on for growth. In short, we are optimistic of the mid-term future.

#### **Rights Issue**

During the period, the Group proposed rights issue on the basis of one rights share for every two existing shares held on the record date at the subscription price of HK\$0.65 per rights share ("**Rights Issue**") which was completed with detail disclosed in the announcement of the Company dated 10 March 2020. As disclosed in the announcement, the Company received a total of 18 valid acceptances and applications under the Provisional allotment letters in respect of a total of 37,984,428 rights shares, representing approximately 40.18% of the total number of rights shares available for subscription under the Rights Issue. Accordingly, the gross proceeds raised from the Rights Issue are approximately HK\$24,700,000 (equivalent to US\$3,145,000) before expenses. The net proceeds, after deduction of all relevant expenses incidental to the Rights Issue of approximately HK\$1,200,000, are estimated to be approximately HK\$23,500,000. The Company intends to apply the net proceeds from the Rights Issue for general working capital and the development of the Maritime Project as disclosed in the prospectus of the Company dated 18 February 2020 with the amount allocated to each of them reduced on a pro rata basis, as compared to the amount which would have been allocated to them had the Rights Issue been fully subscribed.

Considering the market uncertainty, the Group has been managing operating expenses and reducing marketing and promotion budgets cautiously.

Save as disclosed above, there has been no material change in the development of the Group's business and financial position, and no important event affecting the Group has occurred since the publication of the annual report of the Company for the year ended 31 December 2019.

#### FINANCIAL REVIEW

The Group recorded loss for the six months ended 30 June 2020 (the "**Period**") of US\$16,165,000 (six months ended 30 June 2019: US\$6,975,000), and loss per share was US7.00 cents (six months ended 30 June 2019: US4.47 cents, restated). The Group has also adopted a share option scheme for the purposes of providing incentives and rewards to eligible participants to recognise their contribution to the Group and enhancing their sense of ownership.

#### EVENTS AFTER THE END OF THE REPORTING PERIOD

On 2 July 2020, the Company entered into subscription agreements with subscribers for the subscription of an aggregate 45,412,879 new shares for an aggregate consideration of approximately HK\$22,706,440 at the subscription price of HK\$0.50 per subscription share. The subscription was completed on 13 July 2020. The intent of the proceeds was repayment of advance from shareholders and to strengthen the general working capital of the Company.

On 5 August 2020, the board of directors of the Company (the "**Board**") has resolved to cancel the outstanding share options, subject to the respective consent of the existing holders (the "**Existing Holders**"), on the ground that the exercise price of the outstanding share options has been consistently high when compared with the prevailing market price of the shares, which deters the option holders of the outstanding share options from exercising the outstanding share options. As a result, the outstanding share options could no longer serve the purpose to motivate the Existing Holders.

On 5 August 2020, the Company has resolved to grant 10,896,000 new share options (the "**New Share Options**") to (i) the Existing Holders to subscribe for 8,172,000 Shares, which are served as replacement of the cancelled Outstanding Share Options, and (ii) one new consultant to subscribe for 2,724,000 Shares, subject to their respective acceptance, under the share option scheme. #### SIGNIFICANT INVESTMENTS HELD BY THE GROUP

As at 30 June 2020, the Group did not make any significant investments.

#### PROSPECTS

#### **CMMB Business**

As a result of the reassignment of frequencies, the Company has started retrofitting our broadcasting equipment to conform with the new frequencies assigned and will continue to do so into 2020, although these capital expenditures are expected to be relatively insignificant.

Despite the potential downsides to the FCC spectrum reallocation, this event also brings new opportunities and synergies to TV operators through collaboration, such as co-sharing of revenue on joint marketing initiatives and reducing operational costs. Furthermore, the FCC has approved the introduction of the Advanced Television Systems Committee ("**ATSC**") standard 3.0 ("**ATSC 3.0**"), however, it is deferring its decision on targeted ads in accordance with its guidelines on privacy. The approval carries with it a general requirement on full-power stations who choose to deploy ATSC 3.0 to maintain an ATSC-compatible signal for at least 5 years, while low-power stations are exempt from this simulcasting requirement. Although we are exempt from the simulcasting requirement, we predict the transition to ATSC 3.0 at the hardware manufacturer level and especially at the consumer level to take at least 5 years or longer. During this time, advances in scalable video codec and audio compression technology are anticipated to allow for a possible increase in the number of channels given a fixed assignment of spectrum frequency, such that there is a potential to reverse channels lost in the current displacement reapplications.

In China and other Asian countries, the Company through its affiliate Silkwave Holdings Limited has already owned one of the world's most powerful L-band satellite network with coverage over China and the Belt and Road countries, in additional to the necessary space and terrestrial technology, licenses, content and other partnerships brought by Silkwave to form a complete ecosystem to serve infotainment services to consumers and commercial businesses. It also acquired "Satellite+4G/5G" converged technology patents as well as AI-based cutting-edge autonomous-driving sensor technology. With the prevalence of 4G and coming 5G, Silkwave has developed groundbreaking technology that integrates our satellite broadcast with 4G/5G cellular deliveries on the same device, hence rendering our platform as part of 5G ecosystem. Taken together, it is well-poised to take the lead in supporting China's New Infrastructure development initiative in multiple dimensions.

Silkwave has also enlisted a top-tier investment bank to lead its fundraising campaign whose proceeds will be used to finance the construction of the next generation of satellites and related infrastructures, as well as fund operating cash flows. The new space infrastructure will replace the existing AsiaStarbased system and allow Silkwave to reach its full-service capability by expanding its service offerings once Silkwave enters full commercial service launch. Recently, Silkwave has entered framework contract with China Great Wall Industries Corporation to procure 2 new generation satellites covering from China to Asia, the Middle East, Africa, and Europe for BeltRoad new infrastructure and signed Memorandum of Understanding ("MOU") with Saudi partner to jointly invest in new satellite and develop connected-car service for the Middle East and Africa.

#### **Trading Business**

There are several factors which affect the business, including the stage of product life cycle for our clients' electronic products and consumer demands for these products, status of political relationship between countries, and changes in each country's regulations. With mobile devices reaching saturation in most western countries and the current state of trade tensions between the US and China, we anticipate our trading business will continue to face challenging times in the year ahead.

#### **Development of Maritime Project**

Earlier in the year, the Company has announced that it is developing a maritime satellite multimedia service for the South China Sea, which includes the Greater Bay Area and the Southern China Sea. The business is to target the millions of fishing boats, commercial freighters and cruise liners and the operators and passengers aboard these vessels. The area covers 9 million square miles and will be serviced by our AsiaStar satellite. This project aims to deploy our existing assets, technology and ecosystem of partners to market services over the maritime area as a business. The trial of such business is underway and commercial services could start in 2020 to 2021.

The maritime project will be a validation of the Company's business model which showcases our technology to an international audience. It will be a testament of the business opportunities available beyond our initial investment in the vehicular multimedia infotainment technologies developed by Silkwave.

#### **OTHER INFORMATION**

#### PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

During the Period, neither the Company nor any of its subsidiaries purchased, sold or redeemed any of the Company's listed securities.

#### MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

During the Period, the Company has adopted a code of conduct regarding the Directors' securities transactions on terms no less exacting than the required standard set out in the Model Code for Securities Transactions by Directors of Listed Issuers ("**Model Code**") as set out in Appendix 10 to the Listing Rules. The Company has made specific enquiry of all Directors regarding any non-compliance with the Model Code throughout the Period and all the Directors confirmed that they have fully complied with the required standard set out in the Model Code during the Period.

#### CODE ON CORPORATE GOVERNANCE ("CG CODE")

The Directors recognise the importance of incorporating elements of good corporate governance in the management structure and internal control procedures of the Group so as to achieve effective accountability and to maximise the shareholders' benefits. The Board will continuously review and improve the corporate governance practices and standards of the Company to ensure that business activities and decision-making processes are regulated in a proper and prudent manner.

During the Period, the Company has fully complied with the requirements under the CG Code, except for the deviation from Code Provision A.2.1 of the CG Code. The Company had been deviated from the Code Provision A.2.1 of CG Code, as the roles of chairman and chief executive officer of the Company were not separate. With effect on 19 May 2008, Mr. Wong Chau Chi ("**Mr. Wong**") had been re-designated as the chairman of the Company and Mr. Wong also remains as the chief executive officer of the Company. According to the Code Provision A.2.1 of the CG Code, the roles of a chairman and a chief executive officer should be separate and should not be performed by the same individual. Given Mr. Wong has had extensive experience in the business of the Group and has performed satisfactorily since his joining of the Company in year 2007, particularly in soliciting for possible new business opportunities and deducing the overall strategic plan for the future development of the Company, the Board considers that it would benefit the Group if Mr. Wong is also in charge of overseeing the Company's operations as its chairman. The Board considers that this structure will not impair the balance of power and authority between the Board and the management of the Group. The Board will regularly review the effectiveness of this arrangement.

Dr. Wang Wei-Lin ("**Dr. Wang**") resigned as an independent non-executive Director ("**INED**"), and ceased to be a member of remuneration committee, all with effect from 1 June 2020. Following the resignation of Dr. Wang, the Company has only two INEDs which does not meet the requirement under Rule 3.10(1) of the Rules Governing the Listing of Securities on the Stock Exchange (the "**Listing Rules**").

The Company will identify a suitable candidate for the position of independent non-executive director of the Company within three months from the effective date of Dr. Wang's resignation to comply with the requirements of Rule 3.10(1) of the Listing Rules. Further announcement will be made by the Company as and when appropriate. Further, with effect from 1 June 2020, Dr. Li Jun has been appointed as the chairman of the remuneration committee in place of Dr. Wang.

#### AUDIT COMMITTEE

The Audit Committee comprises of Dr. Li Shan and Dr. Li Jun, being independent non-executive Directors and Mr. Chou Tsan-Hsiung, a non-executive Director. Currently, Dr. Li Shan is the chairman of the Audit Committee. The Audit Committee has reviewed and discussed, with the management, the accounting principles and policies, internal controls and financial reporting adopted by the Group, and the unaudited condensed consolidated financial statements for the Period and recommended its adoption by the Board.

The unaudited condensed consolidated financial statements for the Period was approved by the Board on 24 August 2020.

#### INVESTOR RELATIONS AND COMMUNICATION WITH SHAREHOLDERS

The Company deeply understands that shareholders are entitled to have a better understanding of the business and prospect of the Group. Therefore, the Company always makes active communication with investment community. Shareholder communication policy has been adopted to regulate and promote the efficient and sound communication among the Company, its shareholders and other stakeholders. The policy can be accessed on the Group's website.
