BUSINESS REVIEWEducation Operation Business

Education serves as the foundation of national development in long run. Education is the fundamental means for mankind to inherit their cultural heritage and knowledge, cultivate the younger generation and work for a better living. Upon the march of time, while the importance of knowledge and talents are increasing, the role and function of education are protruding. With the increasing disposable income of citizens in China, the growing population of the middle class group and the implementation of the "Universal Two-child Policy" across the country, the huge population base and increasing competition among talents and employment have resulted in continuous rigid demand for quality education. As one of the largest education markets in the world, China has always emphasised on education development with the state financial spending on education consecutively accounting for more than 4% of the GDP since 2012. In order to develop fairer and higher quality education, the government has introduced multiple policies, accelerating the education modernisation, strengthening the education reform, improving education quality vigorously, encouraging social forces to invest in education and promoting the development of the private education sector in a steady and healthy manner, which bring long-term development opportunities to enterprises truly committed to education.

In view of this, the Group actively seized development opportunities in the education industry. Being in line with the trend of regulating development of the industry, the Group has adopted a model of endogenous growth which mainly focused on management improvement. The Group emphasised on quality literacy education, featured K-12 education and international education. It also optimised its allocation of educational resources, promoted project synergy and integration in respect of curriculums, teachers, brands and operation, and explored the potentiality of education assets and enhanced their intrinsic value to establish the Group's core competitiveness.

INTRODUCTION

We have reviewed the condensed consolidated financial statements of China First Capital Group Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 49 to 136, which comprise the condensed consolidated statement of financial position as of 30. June 2020 and the related condensed consolidated statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the six-month period then ended, and certain explanatory notes. Our responsibility is to express a conclusion on these condensed consolidated financial statements based on our review, and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Hong Kong Institute of Certified Public Accountants. A review of these condensed consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the condensed consolidated financial statements are not prepared, in all material respects, in accordance with HKAS 34.

審閲範圍

吾等依據香港會計師公會頒佈的香港 審閱委聘準則第2410號「由實體的獨 立核數師審閱中期財務資料」進行報 包括主要向負責財務和會計事務的 員作出查詢,以及進行分析性和報 審閱程序。由於審閱的範圍遠較小他 審閱程序。由於審閱的範圍遠為小他 審問程序。由於審閱的範圍內 香港審計準則進行審核的範圍為小可會 故吾等不保證可知悉所有在審核不可 能發現的重大事項。因此,吾等不 發表審核意見。

結論

根據吾等的審閱,吾等並無發現任何 事項而令吾等相信簡明綜合財務報表 在所有重大方面未有根據香港會計準 則第34號編製。

REPORT ON REVIEW OF CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

MATERIAL UNCERTAINTY RELATED TO GOING CONCERN

We draw attention to Note 1 to the condensed consolidated financial statements which indicates that the Group incurred a net loss of RMB367,679,000 for the six months ended 30 June 2020 and, the Group's current liabilities exceeded its current assets by approximately RMB1,019,382,000 as at 30 June 2020. In order to improve the liquidity and financial position of the Group, the directors of the Company (i) are negotiating with the counterparty to restructure the existing convertible bonds; and (ii) are actively identifying alternative sources of funding. However, the ultimate success of the restructure of the existing convertible bonds or the likelihood of raising any new funds could not be determined as of the date of approval of these condensed consolidated financial statements. These conditions indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern.

持續經營相關的重大不確定性

吾等謹請 閣下垂注簡明綜合財務 報表附註1,當中指出 貴集團於截 至二零二零年六月三十日止六個月 產生虧損淨額為人民幣367,679,000 元, 貴集團於二零二零年六月三十 日的流動負債超出其流動資產約人民 幣1.019.382.000元。為改善貴集團 的流動資金及財務狀況, 貴公司董 事[i]正與對手方就重組現有可換股債 券進行商議;及[ji]正積極物色其他資 金來源。然而, 截至該等簡明綜合財 務報表獲批准之日,尚未能確定重組 現有可換股債券最終會否成功或能否 籌措任何新資金。該等情況表明存在 重大不確定因素,可能對 貴集團的 持續經營能力構成重大疑問。

Except as described below, the application of the Amendments to References to the Conceptual Framework in HKFRS Standards and the amendments to HKASs and HKFRSs in the current period has had no material impact on the Group's financial positions and performance for the current and prior periods and/or on the disclosures set out in these condensed consolidated financial statements.

2.1 Impacts of application on Amendments to HKAS 1 and HKAS 8 Definition of Material

The amendments provide a new definition of material that states "information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity". The amendments also clarify that materiality depends on the nature or magnitude of information, either individually or in combination with other information, in the context of the financial statements taken as a whole.

The application of the amendments in the current period had no impact on the condensed consolidated financial statements. Changes in presentation and disclosures on the application of the amendments, if any, will be reflected on the consolidated financial statements for the year ending 31 December 2020.

2.2 Impacts and accounting policies on application of Amendments to HKFRS 3 Definition of a Business

2.2.1 Accounting policies

Business combinations
Optional concentration test

Effective from 1 January 2020, the Group can elect to apply an optional concentration test, on a transaction-by-transaction basis, that permits a simplified assessment of whether an acquired set of activities and assets is not a business. The concentration test is met if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets. The gross assets underassessment exclude cash and cash equivalents, deferred tax assets. and goodwill resulting from the effects of deferred tax liabilities. If the concentration test is met the set of activities and assets is determined not to be a business and no further assessment is needed.

2.2.2 Transition and summary of effects

The amendments had no impact on the condensed consolidated financial statements of the Group.

2.3 Accounting policies newly applied by the Group

In addition, the Group has applied the following accounting policies which became relevant to the Group in the current interim period.

Share-based payments

Equity-settled share-based payment transactions

Share options granted to employees

Equity-settled share-based payments to employees are measured at the fair value of the equity instruments at the grant date.

The fair value of the equity-settled sharebased payments determined at the grant date without taking into consideration all non-market vesting conditions is expensed on a straightline basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity (share-based payments reserve). At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest based on assessment of all relevant non-market vesting conditions. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the sharebased payments reserve. For share options that vest immediately at the date of grant, the fair value of the share options granted is expensed immediately to profit or loss.

When share options are exercised, the amount previously recognised in share-based payments reserve will be transferred to other reserve. When the share options forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share-based payments reserve will be transferred to accumulated losses.

14. IMPAIRMENT ON GOODWILL, TANGIBLE AND INTANGIBLE ASSETS

During the current interim period, the Group recognised impairment loss on goodwill of RMB23,602,000 in relation to the cash-generating-unit of Xinjiang Edukeys, being Xinjiang Edukeys International Education Services Co., Ltd. ("CGU Xinjiang Edukeys") (six months ended 30 June 2019: Nil). After the impairment, the carrying amount of goodwill attributable to CGU Xinjiang Edukeys amounted to RMB35,585,000 (31 December 2019: RMB59,187,000) as at 30 June 2020.

At 30 June 2020, the recoverable amount of CGU Xinjiang Edukeys was determined based on value in use calculation. Value in use calculation used cash flow projections based on financial budgets approved by the management of the Group covering a 5-year period (31 December 2019: 5-year period), and discount rate of 13.77% (31 December 2019: 14.07%). 14. IMPAIRMENT ON GOODWILL, TANGIBLE AND INTANGIBLE ASSETS (Continued)

During the current interim period, having considered the continuing economic uncertainty in the field of "project of global access", an international training program operating by CGU Xinjiang Edukeys, impairment loss of RMB23,602,000 has been resulted. The recoverable amount of CGU Xinjiang Edukeys amounted to RMB195,615,000 as at 30 June 2020 (31 December 2019: RMB223,441,000).

If the discount rate was changed to 15.15%, while other parameters remain constant, the recoverable amount of CGU Xinjiang Edukeys would reduce to RMB171,379,000 and a further impairment loss on goodwill of RMB24,236,000 would be recognised.

14. 商譽、有形及無形資產 的減值(續)

於本中期期間,經考慮由現金產生單位新疆中際營運的「project of global access」國際培訓課程領域之持續經濟不確定性,鎮致之持續經濟不確定性,強致產生減值虧損人民幣23,602,000元。於二零二零年六月三十日,現金產生單位新疆中際之可收回金額為人民幣195,615,000元(二零一九年十二月三十一日:人民幣223,441,000元)。

21. SHARE OPTION SCHEME/ SHARE-BASED PAYMENTS

(Continued)

The following assumptions were used to calculate the fair values of share options:

21. 購股權計劃/以股份為 基礎付款/續/

下列假設用於計算購股權之公平 值:

		16.6.2020 二零二零年 六月十六日
Grant date share price Exercise price Expected life	授出日期之股價 行使價 預期年期	0.20 0.30 10 years 10年
Expected volatility Dividend yield Risk-free interest rate	預期波幅 股息收益率 無風險利率	53.87% 0.00% 0.417%

The Binomial model has been used to estimate the fair value of the options. The variables and assumptions used in computing the fair value of the share options are based on the valuer's best estimate. Changes in variables and assumptions may result in changes in the fair value of the options.

The share option was vested immediately at the date of grant and is exercisable at any time up to the expiring date, i.e. 15 June 2030. The equity-settled share-based payments, amounted to RMB4,363,000, was wholly charged to administrative expenses in profit or loss during the current interim period.

已採用二項式模型估計購股權之公平值。用於計算購股權公平值之變數及假設乃根據估值師作出之最佳估計釐定。變數及假設之變動或會導致購股權公平值變動。

購股權已於授出日期即時歸屬,並可於直至到期日(即二零三零年六月十五日)之任何時間內行使。於本中期期間,以權益結算之以股份為基礎付款人民幣4,363,000元已全數自損益中的行政開支列支。

24. FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS

In estimating the fair value, the Group uses marketobservable data to the extent it is available. Where Level 1 inputs are not available, the Group engages third party qualified valuers to perform the valuation.

Some of the Group's financial instruments are measured at fair value at the end of the reporting period. The following table gives information about how the fair values of these financial assets are determined (in particular, the valuation technique(s) and inputs used), as well as the level of the fair value hierarchy into which the fair value measurements are categorised (Levels 1 to 3) based on the degree to which the inputs to the fair value measurements is observable.

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active market for identical assets or liabilities:
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market date (unobservable inputs).

(Continued)

There is no transfer in/out between the different levels of the fair value hierarchy for the period.

The management considers that are carrying amounts of other financial assets and financial liabilities recorded at amortised cost in the condensed consolidated financial statements approximate their fair values.

The Group has an established control framework with respect to the measurement of fair values. This includes a team that has overall responsibility for overseeing all significant fair value measurements with assistance from external qualified valuer, including Level 3 fair values, and reports directly to the chief financial officer.

The team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as market quotes or pricing services, is used to measure fair values, then the team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of HKFRSs, including the level in the fair value hierarchy in which the valuations should be classified. Significant valuation issues are reported to the Group's audit committee.
