## 2.3 Review of operating results

In the first three quarters of 2020, due to the worldwide spread of COVID-19, global economy was depressed and the global market was shrinking. The growth of China's economy turned positive, with GDP up by 0.7% year-on-year in the first three quarters, among which up by 4.9% in the third quarter, indicating a good continuous recovery momentum. In the first three quarters of 2020, the average spot price of Platts Brent was USD 42.5 per barrel, down by 34.4% year on year. Domestic demand for natural gas and chemical products maintained growth and demand for refined oil products recovered steadily quarter on quarter.

Confronted with the severe and complex market situation, the Company adhered to the principles of “focusing on main challenges, system optimization, bottom-line risks prevention and control and seizing opportunities out of crisis” and vigorously adjusted structure, expanded market, reduced inventory and tapped potential. On the basis of favorable results of “100-day campaign to tide over difficulties and improve performances”, the Company launched a higher standard campaign of continuously tiding over difficulties and improving performances, seized the opportunity of domestic market demand recovery and made all-out efforts to tide over the difficulties of pandemic along with low crude oil price and achieved significant improvement of operation and profitability. The Company completed the transaction of oil and gas pipeline assets on 30 September 2020 and the contribution of asset appreciation to earnings was booked in the third quarter.

In accordance with CASs, net profit attributable to equity shareholders of the Company was RMB 23.507 billion, among which the net profit attributable to equity shareholders of the Company in the third quarter was RMB 46.389 billion. In accordance with IFRS, net profit attributable to equity shareholders of the Company was RMB 24.459 billion, among which the net profit attributable to equity shareholders of the Company in the third quarter was RMB 46.184 billion.

**Exploration and Production:** Under low crude oil price environment, the Company insisted on high-quality exploration, focused on profit-driven development, accelerated capacity building and proactively expanded market and sales of natural gas and further deepened the maintaining oil production, increasing gas output and reducing cost. In exploration, new discoveries were made in Tarim Basin, Jiyang Depression and Sichuan Basin, etc. In oil development, we increased the application of technologies to lower cost and optimized projects implementation plan, which helped to further decrease our cost. In natural gas development, we accelerated capacity building in West Sichuan, Dongsheng and Weirong gas fields, and continuously progressed with the development of Fuling, Puguang and Yuanba gas fields. In the first three quarters, domestic crude production kept stable and sales of natural gas increased by 9.86% year on year, realizing a continued growth in market share of natural gas. The exploration and production segment realised earnings before interest and taxes (EBIT) of RMB 13.16 billion in the third quarter.

Exploration and Production	Unit	Nine-month period ended 30 September		Changes
		2020	2019	(%)
Oil and gas production	million boe	339.39	341.74	(0.7)
Crude oil production	million barrels	210.65	212.78	(1.0)

Exploration and Production	Unit	Nine-month period ended 30 September		Changes
		2020	2019	(%)
China	million barrels	186.69	186.69	0.0
Overseas	million barrels	23.96	26.09	(8.2)
Natural gas production	billion cubic feet	772.14	773.41	(0.2)
Realised crude oil price	USD/barrel	38.24	58.82	(35.0)
Realised natural gas price	USD/thousand cubic feet	5.32	6.19	(14.1)

Conversion: For domestic production of crude oil, 1 tonne = 7.10 barrels. For overseas production of crude oil, 1 tonne = 7.21 barrels. For production of natural gas, 1 cubic meter = 35.31 cubic feet.

**Refining:** With the market oriented approach, the Company took advantage of the recovery of domestic demand in the third quarter, further integrated production and marketing, maintained high utilization rates of facilities and maximized the profitability of value chain. We dynamically adjusted product mix, increased the supply of chemical feedstock and increased production of asphalt, lubricant and other marketable products. We optimized crude oil procurement and decreased cost. In the third quarter, refinery throughput was 63.51 million tonnes, up by 11.0% quarter on quarter and 1.9% year on year and 38.01 million tonnes of refined oil products were produced, representing a quarter-on-quarter increase of 11.2%, and 10.53 million tonnes of light chemical feedstock were produced, representing a quarter-on-quarter increase of 15.0% and a year-on-year increase of 5.3%. The refining segment realized EBIT of RMB 31.55 billion in the third quarter.

Light chemical feedstock production	million tonnes	29.54	30.05	(1.7)
Light product yield	%	74.63	76.44	(1.81) percentage points
Refining yield	%	94.89	94.99	(0.10) percentage points

Note : Including 100% production of domestic joint ventures.

**Marketing and Distribution:** Facing fierce market competition, the Company strengthened market analysis, leveraged the advantages of integration, balanced volume and profit, expanded sales and increased profit, and achieved continuous recovery in sales volume. We innovated marketing model by introducing the “one click refueling”, etc., promoted the integration of online and offline business, created a new service model of reducing physical contact while refueling and shopping in a more efficient and convenient way to constantly improve our services. In the third quarter, domestic sales volume of refined oil products was 45.44 million tonnes, up by 0.4% quarter on quarter. The marketing and distribution segment realized EBIT of RMB 18.24 billion in the third quarter.

Marketing and Distribution	Unit	Nine-month period ended 30 September		Changes (%)
		2020	2019	
Total sales volume of refined oil products	million tonnes	162.25	192.42	(15.7)

#### **4.3 Differences between Consolidated Financial Statements prepared in accordance with the accounting policies complying with CASs and IFRS (unaudited)**

Other than the differences in the classifications of certain financial statements captions and the accounting for the items described below, there are no material differences between the Group's consolidated financial statements prepared in accordance with the accounting policies complying with CASs and IFRS. The reconciliation presented below is included as supplemental information, is not required as part of the basic financial statements and does not include differences related to classification, presentation or disclosures. Such information has not been subject to independent audit or review. The major differences are:

##### **(i) Government Grants**

Under CASs, grants from the government are credited to capital reserve if required by relevant governmental regulations. Under IFRS, government grants relating to the purchase of fixed assets are recognized as deferred income and are transferred to the income statement over the useful life of these assets.

##### **(ii) Safety Production Fund**

Under CASs, safety production fund should be recognized in profit or loss with a corresponding increase in reserve according to PRC regulations. Such reserve is reduced for expenses incurred for safety production purposes or, when safety production related fixed assets are purchased, is reduced by the purchased cost with a corresponding increase in the accumulated depreciation. Such fixed assets are not depreciated thereafter. Under IFRS, payments are expensed as incurred, or capitalised as fixed assets and depreciated according to applicable depreciation methods.

Effects of major differences between the net profit under CASs and the profit for the period under IFRS are analysed as follows:
