## **ENVIRONMENTAL** (Continued)

(a) Emissions

#### **Exhaust Gas Emissions**

The exhaust gas emissions generated by the Group are mainly from the Group's vehicles. We make effort to optimize the use of energy and resources to reduce air and greenhouse gas emissions. We take energy efficiency and emission performance into consideration when selecting and purchasing vehicles. We have also implemented measures of regular maintenance and cleaning to reduce exhaust gas emissions. The Group is also committed to reducing its carbon footprint and waste through efficient operations with a view to minimizing its environmental impacts.

During the year, the Group emitted approximately 10,350 grams (2019: 11,330 grams) of nitrogen oxides ( $NO_x$ ), approximately 310 grams (2019: 350 grams) of sulphur oxides ( $SO_x$ ) and approximately 760 grams (2019: 830 grams) of particulate matter. We shall monitor these data and take effective measures as appropriate to improve fuel consumption efficiency and reduce emission of exhaust gas.
