NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2020

1. BASIS OF PREPARATION

The condensed consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard ("HKAS") 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") as well as with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules").

2. PRINCIPAL ACCOUNTING POLICIES

The condensed consolidated financial statements have been prepared on the historical cost basis except for certain investment properties and financial instruments, which are measured at fair values, as appropriate.

Other than changes in accounting policies resulting from application of amendments to Hong Kong Financial Reporting Standards ("HKFRSs") and application of certain accounting policies which became relevant to the Group, the accounting policies and methods of computation used in the condensed consolidated financial statements for the six months ended 30 September 2020 are the same as those presented in the Group's annual financial statements for the year ended 31 March 2020.

Application of amendments to HKFRSs

In the current interim period, the Group has applied the Amendments to References to the Conceptual Framework in HKFRS Standards and the following amendments to HKFRSs issued by the HKICPA, for the first time, which are mandatorily effective for the annual period beginning on or after 1 April 2020 for the preparation of the Group's condensed consolidated financial statements:

Amendments to HKAS 1 Definition of Material

and HKAS 8

Amendments to HKFRS 3 Definition of a Business

Amendments to HKFRS 9, Interest Rate Benchmark Reform

HKAS 39 and HKFRS 7

Except as described below, the application of the Amendments to References to the Conceptual Framework in HKFRS Standards and the amendments to HKFRSs in the current period has had no material impact on the Group's financial positions and performance for the current and prior periods and/or on the disclosures set out in these condensed consolidated financial statements.

2.1 Impacts of application on Amendments to HKAS 1 and HKAS 8 "Definition of Material"

The amendments provide a new definition of material that states "information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity." The amendments also clarify that materiality depends on the nature or magnitude of information, either individually or in combination with other information, in the context of the financial statements taken as a whole.

The application of the amendments in the current period had no impact on the condensed consolidated financial statements. Changes in presentation and disclosures on the application of the amendments, if any, will be reflected on the consolidated financial statements for the year ending 31 March 2021.

2.2 Accounting polices newly applied by the Group

BUSINESS REVIEW

The Group is engaged in design, manufacturing and trading of a wide range of household electrical appliances.

2020 has been an extremely difficult and challenging year. The COVID-19 pandemic is unprecedented and has affected and caused disruptions in all areas of life globally. Our factory operations have been seriously affected in the months of April and May 2020. Lockdowns and travel restrictions in some cities in mainland China has caused disruptions to our material supply. Furthermore, some of our employees in mainland China could not return to work from their home town which affected our production activities. Business operations have gradually returned to normal from June 2020 onwards. However, with the pandemic still wide spread all over the world, customers have been very cautious with their order placement with frequent changes.

During the six months under review, sales turnover decreased by 23% to HK\$438,760,000. Sales turnover decreased across all markets. Sales turnover to Europe decreased by 10% to HK\$222,306,000 representing 51% of the Group's sales turnover. Gross profit for the six months ended 30 September 2020 decreased by 6% to HK\$71,284,000 (2019: HK\$76,012,000). Gross profit margin increased from 13% to 16%. The improvement in gross profit margin was mainly due to change in customer mix and product mix, relatively stable raw material costs, tight cost control measures and depreciation in RMB currency.

The Group continued to apply stringent control on all costs and expenses. Selling and distribution expenses decreased by 25% to HK\$8,204,000 (2019: HK\$10,983,000). As a percentage to sales turnover, selling and distribution expenses maintained at 1.9% as compared to corresponding period last year. Administration expenses decreased by 8% to HK\$47,550,000 (2019: HK\$51,656,000). As a percentage to sales turnover, administration expenses increased from 9.1% to 10.8% as compared to corresponding period last year.

Subsequent to the relocation of the operation of factories located at Hui Nan Hi-Tech Industrial Park, the site including the three factory blocks was revaluated and reclassified as investment properties at 1 April 2019. At 30 September 2020, this investment properties was revaluated at RMB200,500,000 (HK\$228,570,000) (31 March 2020: RMB200,500,000 (HK\$218,545,000)) resulting in a translation gain of HK\$10,025,000 for the six months ended 30 September 2020. Net profit for the six months was HK\$19,270,000 (2019: HK\$1,147,000). Net profit margin increased from 0.2% to 4.4% as compared to corresponding period last year.

BUSINESS OUTLOOK

Going forward, it is impossible to predict how the business outlook would be. We will need to adapt to the "new normal" as we continue to fight and combat the COVID-19 pandemic. We must stay vigilant, versatile and responsive to challenges and changes in business environment. We would strive to stay slim with stringent cost and expense control, and productivity efficiency improvements. Meanwhile, persistence in quality products and engineering and R&D capabilities would continue to be our focus. We will seek growth opportunities through new customers and new product categories as well as the mainland China market and online sales channels. We will also look for business opportunities to create higher value to our shareholders.

With our prudent and pragmatic business approach, financial strength and commitment to excel, we will strive on and tread cautiously to ride through the current and coming difficulties and challenges.

COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE

The CG Code Provision A.4.1

Under this code provision, the non-executive directors should be appointed for a specific term, subject to re-election.

Currently, none of the non-executive directors is appointed for a specific term. However, all non-executive directors are subject to retirement by rotation and re-election at the annual general meeting of the Company in accordance with the provisions of the Bye-laws of the Company, and the terms of their appointment will be reviewed when they are due for re-election. As such, the Board considers that sufficient measures have been taken to ensure that the Company's corporate governance practices are no less exacting than those set out in the CG Code.

The CG Code Provision A.4.2

Under this code provision, every director, including those appointed for a specific term, should be subject to retirement by rotation at least once every three years.

According to the Bye-laws of the Company, one third of the directors are subject to rotation at each annual general meeting and the Chairman and/or the Managing Director of the Company is not subject to retirement by rotation, which constitutes a deviation from the CG Code Provision A.4.2. The reason for the deviation is that the Directors of the

Company do not consider that arbitrary term limits on Director's service are appropriate and the retirement by rotation has given the Company's shareholders the right to approve continuation of the service of the directors.

The CG Code Provision A.5.1

Under this code provision, the Company should establish a nomination committee.

Currently, the Company does not have a nomination committee. The Board will identify individuals suitably qualified to become board members when necessary. The Board will give due consideration to the suitability of a candidate for directorship after taking into account of his/her experience, qualification and other relevant factors. All candidates must also meet the standards as set forth in Rules 3.08 and 3.09 of the Listing Rules. A candidate who is to be appointed as an independent non-executive director should also meet the independence criteria set out in Rule 3.13 of the Listing Rules.

The CG Code Provision A.6.7

Under this code provision, independent non-executive directors shall attend general meetings and develop a balanced understanding of the views of shareholders.

An independent non-executive director did not attend the annual general meeting of the Company held on 26 August 2020 due to other business engagements.

COMPLIANCE WITH MODEL CODE

The Company has adopted the Model Code as set out in Appendix 10 of the Listing Rules as its Code of Conduct regarding directors' securities transactions. Having made specific enquiry of all directors, the directors have confirmed that they have complied with the required standards set out in the Model Code as provided in Appendix 10 of the Listing Rules.
