Note: According to the Group's accounting policies, hotel properties were carried at cost less accumulated depreciation. To give further information on the economic substance of its hotel properties investments, the Group hereby presents supplementary unaudited financial information taking into account the fair market value of these hotel properties in operation and excluding the corresponding deferred income tax on Hong Kong properties as Hong Kong tax jurisdiction does not include capital gain tax.
The hotel properties were revalued by Vigers Appraisal & Consulting Limited, independent professional valuers, on an open market value basis as at 30th September 2020 and 31st March 2020.

Management Discussion and Analysis

Development project ("北京·東灣") in Tongzhou, Beijing

RESULTS

The Group recorded revenue of HK\$1,262 million (2019: HK\$1,260 million) for the first half of the financial year with profit attributable to shareholders of the Company at HK\$652 million (2019: HK\$635 million). The increase in investment income compensated the income reduction from our hotel segment, resulting in a slight increase in total revenue. The profit recognition from properties sales, increase in investment income together with reduced finance cost all together exceeded the impact of loss from hotel operation and deficit from investment properties revaluation, leading to a 3% increase in profit attributable to shareholders.

PROPERTIES SALES, DEVELOPMENT AND LEASING

SALES AND DEVELOPMENT

Mainland China

In Tongzhou, Beijing, concrete superstructure for the 6 residential towers of our mixed use development has been topped out, leaving the internal finishes and fittings ongoing. Up to end of October 2020, presale of the residential units, which commenced in mid-July 2019, has exceeded RMB2.3 billion. Profit recognition will begin upon delivery of the flats in 2021. Foundation works for the 2 commercial towers have also commenced. The entire joint venture development comprises 2.3 million sq. ft. GFA.

In Shanghai's Queen's Gate, the sales of this high-end joint venture villas and apartments development is promising. Up to end of October 2020, 97% units of this phase III has been sold, resulting in an accumulated contracted sales of approximately RMB1.1 billion. Approximately 70% of these sales was recognised last year, and approximately 24% recognised in this interim period. Over 98% of the entire development was sold as at end of October 2020.

Residential and commercial development in **Hung Shui Kiu, Yuen Long**

Hong Kong

In Jardine's Lookout, the Group's joint venture development, Dukes Place, which comprises sixteen residential apartments ranging from 2,850 sq. ft to over 6,800 sq. ft. was met with encouraging enquiries and demand. Up to end of October 2020, half of the units comprising one third of the saleable area was sold, with sales amounted to approximately HK\$1.5 billion. Approximately HK\$1.2 billion were accounted for in this interim period.

On Po Shan Road, superstructure works of another luxurious joint venture residential development is ongoing, of which construction is expected to complete in 2022.

In Hung Shui Kiu, Yuen Long, we are pleased to report that the land exchange for the residential and commercial development has been completed in October 2020, at a land premium of HK\$2.1 billion. The development will provide approximately 520,000 sq. ft. of GFA, of which approximately 90% are of residential apartments for sale, with the remaining 10% being retail units all with street frontage.

In Lam Tei, Tuen Mun, we are continuing the land exchange application with the government on another residential development near the light-rail station. The development has approximately 67,000 sq. ft. of residential GFA.

In Kowloon Bay, Harbourside HQ, the commercial building with approximately 800,000 sq. ft. leasable GFA, is undergoing renovation and is near its completion in this 4th quarter of 2020.

Towards the end of last financial year, the Group, through a joint venture, has accumulated some agricultural land in Kwu Tung, the New Territories, which is zoned as "residential use" under the current outline zoning plan. During the interim period, the Group further increased its stake by 10%. It is in the early stage of land exchange application with the government.

Management Discussion and Analysis

Dukes Place in Jardine's Lookout

Canada (development through hotel subsidiary group)

The basement and carpark level of Landmark on Robson is near its completion towards end 2020, with podium structure due to start afterwards. This redevelopment of our Empire Landmark hotel will provide approximately 400,000 sq. ft. GFA mixed-use development with 2 residential towers. Since the launch of presale in 2018, the development had achieved a contracted sales of approximately CAD140 million up to end October 2020.

The Group's joint venture redevelopment of high-end residential complex of approximately 627,000 sq. ft. GFA in Alberni Street, downtown Vancouver obtained the Prior to Letter outlining the conditions for local city council approval to grant a development permit, and is on course to obtain the development and building permits from the local authority.

Another joint venture development that is also located on Alberni Street in downtown Vancouver is in the planning stage for development into premium residential units for sale. The rezoning package has been submitted to the

City in early 2020. We passed the Urban Design Panel in October 2020, which is a prerequisite for the development permit application, in the context of our ongoing application for the rezoning approval.

LEASING

Leasing income of YF Life Tower, 33 Lockhart Road in Wanchai and Asia Standard Tower in Queen's Road Central has slightly decreased by 3% comparing both interim periods, while average occupancies of these office towers decrease slightly by 2% to 93%. Leasing income from our 33% owned Goldmark in Causeway Bay decreased substantially with the lease expiry of a retail anchor tenant.

Overall attributable leasing income for the period was HK\$108 million (2019: HK\$120 million). Net revaluation loss (taking into account our share of revaluation loss from the investment property owned by an associated company) of HK\$273 million (2019: gain of HK\$56 million) was recorded.

HOTEL

With the outbreak of COVID-19, the performance of hotel sector has been adversely affected by people's unwillingness to travel and the quarantine requirements towards incoming visitors instituted by local government to battle against the pandemic. During the interim period, incoming visitors to Hong Kong has dropped by over 99%. Our hotel operation revenue declined by 87% to HK\$18 million (2019: HK\$220 million), and with management's immediate remedial action to reduce operating costs, the segment still results in a loss before depreciation of HK\$2 million (2019: profit before depreciation of HK\$44 million).

FINANCIAL INVESTMENTS

At 30th September 2020, the Group held financial investments of approximately HK\$16,357 million (31st March 2020: HK\$14,436 million), with HK\$7,162 million (31st March 2020: HK\$6,052 million) held by the listed hotel subsidiary group. The investment portfolio comprised of 97% listed debt securities (predominantly issued by PRC-based real estate companies), 2% by listed equity securities and 1% unlisted investments. They are denominated in different currencies with 97% in United States dollar, 3% in other currencies (mostly Hong Kong dollar).

The portfolio's increase was due to net addition of HK\$181 million and a mark-to-market valuation net gain of HK\$1,740 million, of which a net fair value loss of HK\$2 million was charged to profit and loss while a net fair value gain of HK\$1,742 million were recognized in the investment revaluation reserve. The significant market sell-off in March 2020 following the COVID-19 pandemic outbreak, was met with a strong rebound in April and May 2020, when the sell-off panic became stabilized and thus recouping substantially the fair value loss in last financial year.

Income from this investment portfolio amounted to HK\$1,112 million (2019: HK\$921 million). The increase was resulted from further investment in debt securities.

At 30th September 2020, an approximate value of HK\$2,840 million (31st March 2020: HK\$2,390 million) of these investments were pledged to banks as collateral for credit facilities granted to the Group.

FINANCIAL REVIEW

Save for that of the listed hotel subsidiary group, which is independently administered, the Group's financing and treasury activities are centrally managed and controlled at the corporate level. At 30th September 2020, the Group has over HK\$6.5 billion (31st March 2020: HK\$6.0 billion) cash and undrawn banking facilities.

At 30th September 2020, the Group's total assets were approximately HK\$40.8 billion (31st March 2020: HK\$38.2 billion), the net assets were HK\$21.4 billion (31st March 2020: HK\$18.9 billion). Adopting market value of hotel properties in operation, the revalued total assets of the Group were HK\$49.5 billion (31st March 2020: HK\$47.1 billion), while the revalued net assets of the Group were HK\$30.0 billion (31st March 2020: HK\$27.7 billion).

Recurring income

Management Discussion and Analysis

Net debt was HK\$16.6 billion (31st March 2020: HK\$17.3 billion), including HK\$6.5 billion (31st March 2020: HK\$6.5 billion) which belonged to the separately listed hotel subsidiary group. Total interest cost decreased as a result of decreased borrowings together with low interest rate environment. Currently, the Group's net gearing ratio (net debt to revalued net asset value) is approximately 55% (31st March 2020: 62%). As at 30th September 2020, the Group had net current assets of HK\$10.9 billion (31st March 2020: HK\$9.9 billion) and the HK\$17.4 billion aggregate amount of marketable securities and cash together represented 2.5 times of the HK\$6.8 billion current debt repayable within 12 months.

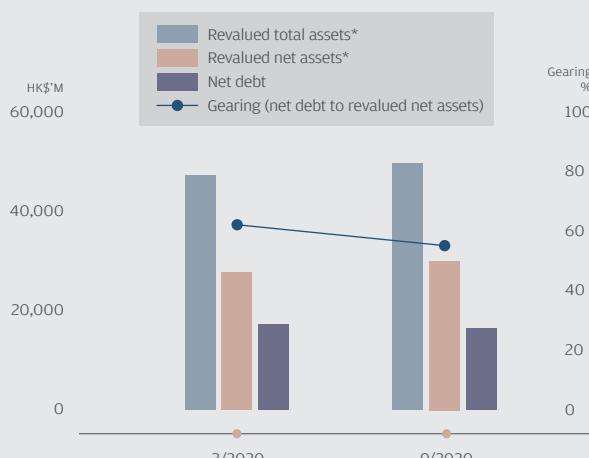

70% of the debts are secured and all of the debts are at floating rates. As at 30th September 2020, about 50% of these floating rates debts have been hedged against HIBOR fluctuations by entering into various interest rate swap contracts of approximately HK\$8,660 million in total, with approximately 83% having maturities of 5 years, and the remaining between 2 and 10 years. The

maturities of our debts spread over a long period of up to 5.5 years, with 3% repayable after 5 years and 58% repayable between 1 to 5 years. The remaining 39% comprise overdraft, revolving and short-term loans and are repayable within 1 year.

Approximately 91% of the Group's borrowings are in Hong Kong dollars and the remaining 9% in United States dollars and Canadian dollars.

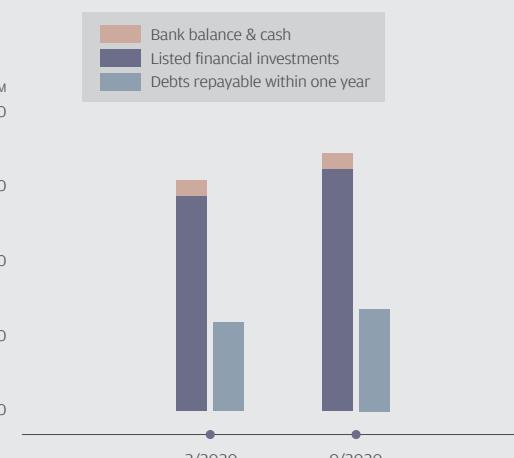

As at 30th September 2020, property assets with an aggregate net book value of HK\$17.4 billion (31st March 2020: HK\$17.9 billion) were pledged to secure banking facilities of the Group. HK\$2,936 million (31st March 2020: HK\$2,999 million) guarantees were provided to financial institutions and third parties against outstanding banking and loan facilities of joint ventures.

EMPLOYEES AND REMUNERATION POLICIES

At 30th September 2020, the Group employed approximately 230 (31st March 2020: 240) employees. The remuneration packages including basic salary, annual bonus, share options, retirement and other benefits are commensurate with their job nature and level of experience.

FUTURE PROSPECT

After nearly a year's quarantine arrangements, social distancing measures and with the gradual stabilization of the pandemic in Hong Kong, the government is considering various measures to promote in-bound travel, to revitalize the tourism-related sectors and at the same time contain the virus from community spreading. Our hotel operation is dependent on the successful roll out of the policy and the effect is yet to be seen. The leasing segment, especially the retail portion, which is experiencing a down-swing but with a much reduced magnitude, is also looking upon such measures. On the contrary, Hong Kong's residential property market remains very strong, as seen in the encouraging sales of our Jardine Lookout project, and new launches of first hand residential projects from other local developers lately.

China is among the first countries to re-open their economies after the pandemic lockdown. Sales of our Beijing and Shanghai joint venture projects is performing well upon the release of purchasing power piled up during the lockdown. The Shanghai project is almost fully sold and the Beijing project is maintaining its favourable sales momentum.

Financial markets continue to be volatile, the low interest rates and stimulus packages rolled out by US and certain European countries to counteract the pandemic's negative economic impact helped to maintain the dynamic of securities market. The fixed income stream from debt securities investment continues to drive our growth and finance the investment and development opportunities as they arise.

Management will continue to exert tremendous caution and prudence to alleviate and mitigate any negative impact in this restless environment.

Report on Review of Interim Financial Information

To the Board of Directors of
Asia Standard International Group Limited
(incorporated in Bermuda with limited liability)

INTRODUCTION

We have reviewed the interim financial information set out on pages 11 to 42, which comprises the condensed consolidated balance sheet of Asia Standard International Group Limited (the “Company”) and its subsidiaries (together, the “Group”) as at 30th September 2020 and the condensed consolidated profit and loss account, the condensed consolidated statement of comprehensive income, the condensed consolidated statement of changes in equity and the condensed consolidated statement of cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants. The directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting”. Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information of the Group is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting”.

Notes to the Interim Financial Information

1 GENERAL INFORMATION

Asia Standard International Group Limited (the “Company”) is a limited liability company incorporated in Bermuda and is listed on The Stock Exchange of Hong Kong Limited (“HKEX”). The address of its principal office is 30th Floor, YF Life Tower, 33 Lockhart Road, Wanchai, Hong Kong.

2 BASIS OF PREPARATION

The unaudited condensed consolidated interim financial information for the six months ended 30th September 2020 (“Interim Financial Information”) has been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants, and should be read in conjunction with the annual financial statements for the year ended 31st March 2020, which have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRS”).

3 THE ADOPTION OF NEW HKFRS

The accounting policies and methods of computation used in the preparation of this Interim Financial Information are consistent with those used in the annual financial statements for the year ended 31st March 2020, except for the adoption of the following new standard and amendments that are effective for the financial year ending 31st March 2021 which is relevant to the Group’s operations and is mandatory for accounting periods beginning on or after 1st January 2020:

Amendments to HKAS 1 and HKAS 8	Definition of material
Amendments to HKFRS 3	Definition of a business
Amendments to HKAS 39, HKFRS 7 and HKFRS 9	Interest rate benchmark reform
Conceptual framework for financial reporting 2018	Revised conceptual framework for financial reporting

The adoption of the new standard and amendments to the standards stated above did not have significant impact to the Group in the current and prior periods.

4 FINANCIAL RISK MANAGEMENT

(I) FINANCIAL RISK FACTORS

The Group’s activities expose it to a variety of financial risks: market risk (including foreign exchange risk, price risk and cash flow interest rate risk), credit risk and liquidity risk. There have been no changes in the overall risk management since the year ended 31st March 2020.

The Interim Financial Information does not include financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Group’s annual financial statements as at 31st March 2020.

(II) FAIR VALUE ESTIMATION

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

4 FINANCIAL RISK MANAGEMENT (Continued)

(II) FAIR VALUE ESTIMATION (Continued)

During the six months ended 30th September 2020, there was no transfer between level 1, level 2 and level 3 fair value measurements and there was no change in valuation technique.

- Financial instruments in level 1

The fair value of financial instruments traded in active markets (such as listed equity securities) is based on quoted market prices at the balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Group is the current bid price; the appropriate quoted market price for financial liabilities is the current ask price. These instruments are included in level 1.

- Financial instruments in level 2

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter investments and derivatives) is determined by using latest available transaction price or valuation techniques. Judgements as to whether there is an active market may include, but not restricted to, consideration of factors such as the magnitude and frequency of trading activities, the availability of prices and the size of bid/ask spreads. The Group uses a variety of methods and makes assumptions that are based on market conditions existing at each balance sheet date. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

- Financial instruments in level 3

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Level 3 instruments comprised unlisted equity securities and unlisted fund which are not traded in an active market. Fair values of these instruments have been determined using appropriate valuation techniques with references including quoted prices and asset-based values from financial institutions and other prices observed in recent transactions.

Notes to the Interim Financial Information

5 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

In preparing this condensed consolidated interim financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31st March 2020.

6 SEGMENT INFORMATION

The Group is principally engaged in property development and investment, hotel, travel operation and securities investments. Revenue includes revenue from property sales and leasing, hotel and travel operation, management services, interest income and dividend income.

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker is responsible for allocating resources and assessing performance of the operating segments. The operating segments were determined based on the reports reviewed by the chief operating decision-maker. The Group is organised into four main operating segments, comprising property sales, property leasing, hotel and travel and financial investments. Segment assets consist primarily of property, plant and equipment, investment properties, financial investments, other non-current assets, hotel inventories, properties under development/held for sale, trade and other receivables. Segment liabilities comprise mainly borrowings, trade and other payables and contract liabilities.

Note:

Supplementary information with hotel properties at valuation:

The hotel properties portfolio in Hong Kong comprised five (31st March 2020: five) hotels. According to the Group's accounting policies, the carrying amount of these hotel properties in Hong Kong were HK\$2,745,116,000 (31st March 2020: HK\$2,786,889,000).

The aggregate open market value, on a highest and best use basis, of these hotel properties in Hong Kong based on valuations conducted by Vigers Appraisal & Consulting Limited ("Vigers"), independent professional valuers, amounted to HK\$11,422,900,000 (31st March 2020: HK\$11,669,800,000), is regarded as level 3 hierarchy for disclosure purpose under HKFRS 13.

Vigers used the discounted cash flow method, which is considered the most appropriate valuation approach for assessing the market value of the properties as it would better reflect specific characteristics of the income-producing properties such as occupancies, average room rates, potential income growth and all out-goings, subject to future economic conditions in the markets.

The supplementary information with hotel properties at valuation is for readers' information only. It does not constitute a disclosure requirement under HKAS 16 and HKFRS 16.

Notes to the Interim Financial Information

15 TRADE AND OTHER RECEIVABLES

Trade and other receivables of the Group include trade receivables, accrued interest receivable and accrued dividend receivable, loan receivables, prepayments, utility and other deposits.

Trade receivables of the Group amounted to HK\$262,302,000 (31st March 2020: HK\$35,205,000). The credit terms given to the customers vary and are generally based on the financial strengths of individual customers. In order to effectively manage the credit risks associated with trade receivables, credit evaluations of customers are performed periodically.

Aging analysis of trade receivables net of loss allowance is as follows:

	30th September 2020 HK\$'000	31st March 2020 HK\$'000
