Notes to the condensed consolidated interim financial statements

1. Basis of preparation and accounting policies

These condensed consolidated interim financial statements are prepared in accordance with Hong Kong Accounting Standard ("HKAS") 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Stock Exchange").

The basis of preparation and accounting policies adopted in the preparation of the interim financial statements are consistent with those used in the annual financial statements for the year ended 30 June 2020, except in relation to the following revised Hong Kong Financial Reporting Standards ("HKFRSs") (which also include HKASs and Interpretations) that affect the Group and are adopted for the first time for the current period's financial statements:

HKAS 1 and HKAS 8
Amendments

HKAS 39, HKFRS 7 and
HKFRS 9 Amendments

HKFRS 3 Amendments

Amendments to HKAS 39, HKFRS 7 and HKFRS 9 – Interest
Rate Benchmark Reform

Amendments to HKFRS 3 – Definition of a Business

Conceptual Framework for
Financial Reporting 2018

The adoption of the above revised standards has had no significant financial effect on the interim financial information.

The Group has not early applied any new and revised HKFRSs that have been issued but are not yet effective in the unaudited condensed consolidated interim financial statements. However, the Group is in the process of making an assessment of the impact of the new and revised HKFRSs upon initial application, but is not yet in a position to state whether these new and revised HKFRSs would have a significant impact on the Group's results of operations and financial position.

2. Operating segment information

For management purposes, the Group is organised into business units that offer products to customers located in different geographical areas and has three (2019: four) reportable operating segments as follows:

- (a) Hong Kong and Macau
- (b) Mainland China
- (c) Singapore

The Group has discontinued the business in Taiwan segment. Accordingly, certain comparative segment information related to the Taiwan segment is classified as "loss for the period from a discontinued operation" in the condensed consolidated statement of profit or loss and other comprehensive income. The impact of the abovementioned changes in the Group's reportable operating segment for the six months ended 31 December 2019 is considered retrospectively and the Group's operating segment information is restated as if the Group had reallocated the resources in that period.

2. Operating segment information (continued)

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resources allocation and performance assessment. Segment performance is evaluated based on reportable segment profit/loss, which is a measure of adjusted loss before tax from continuing operations. The adjusted loss before tax from continuing operations is measured consistently with the Group's loss before tax from continuing operations except that interest income and non-lease-related finance costs are excluded from such measurement.

Segment assets exclude deferred tax assets and tax recoverable as these assets are managed on a group basis.

Segment liabilities exclude deferred tax liabilities, tax payable, interest-bearing bank borrowings, loan from immediate holding company and amount due to immediate holding company as these liabilities are managed on a group basis.

Intersegment sales and transfers are transacted with reference to the selling prices used for sales made to third parties at the then prevailing market prices.

Geographical segments

An analysis of the Group's revenue and profit/loss by geographical segments for the six months ended 31 December 2020, together with the comparative figures for the corresponding period in 2019, is as follows:

7. Discontinued operation

On 2 March 2020, the Group announced a plan to wind down the Group's retail operation in Taiwan (the "Taiwan segment") considering that it was not optimistic about the near term prospect of the Taiwan segment and the cessation of Taiwan segment operation could enable the Group to better utilise its resources in its other segments. As at 31 December 2020, all retail shops in Taiwan had ceased operation. The Taiwan segment was thus classified as discontinued operation and no longer included in the note for operating segment information. Further details of the above were set out in the Company's announcement dated 2 March 2020.

The results of the discontinued operation for the period are presented as below:

8. Dividend

No interim dividend was declared for the six months ended 31 December 2020 and 2019.

9. Loss per share attributable to ordinary equity holders of the Company

The calculation of basic loss per share is based on the loss attributable to ordinary equity holders of the Company for the six months ended 31 December 2020 from continuing operations of HK\$86,738,000 (2019 (restated): HK\$90,974,000) and the loss from a discontinued operation of HK\$391,000 (2019: HK\$2,713,000), and the weighted average number of ordinary shares of 1,643,262,742 (2019: 1,641,333,394) in issue during the period.

No adjustment has been made to the basic loss per share amounts presented for the periods ended 31 December 2020 and 2019 in respect of a dilution as the impact of the share options had an anti-dilutive effect on the basic loss per share amounts presented.

10. Debtors

Other than cash and credit card sales, the Group normally grants credit periods of up to 60 days to its trade customers. Each trade customer has a maximum credit limit, except for new trade customers, where payment in advance is normally required. The Group seeks to maintain strict control over its outstanding receivables. Overdue balances are reviewed regularly by senior management. In view of the aforementioned and the fact that the Group's trade customers relate to a large number of diversified customers, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade debtor balances. Debtors are non-interest-bearing and stated at net of loss allowance.

An ageing analysis of debtors as at the end of the reporting period, based on the invoice date and net of loss allowance, is as follows:

Revenue and gross profit

The pandemic of COVID-19 outbreak continued to adversely affect the local retail sectors and suppress many economic activities globally. During the period under review, the Group recorded revenue of HK\$468 million (2019: HK\$625 million), which fell by 25%. Gross profit decreased by 24% to HK\$242 million (2019: HK\$316 million), with gross margin increased by 1% point to 52% (2019: 51%).

Total operating expenses and loss from operating activities

The total operating expense to sales ratio increased to 73% (2019: 65%). The pandemic had a significant negative impact on the assessment of the Group's non-financial assets and impact on the results for the period under review. Consequently, the Group recognised non-cash impairment on non-financial assets of HK\$30 million (2019: Nil) during the period under review.

Finance costs

Finance costs were HK\$7 million (2019: HK\$9 million), which comprised of interest on loan from immediate holding company and interest on lease liabilities. The interest on lease liabilities of HK\$5 million (2019: HK\$8 million) was due to the adoption of HKFRS 16, under which the Group (as lessee in numerous tenancy agreements) recognises the imputed interest expense accrued on the outstanding balance of the lease liabilities.

Loss attributable to owners of the Company

Loss attributable to owners of the Company decreased by 7%, as shown in Table 1. Net margin was negative 19% (2019: negative 15%), an increase of 4% points. The preceding commentaries cite the reasons.

DISTRIBUTION NETWORK

As of 31 December 2020, the Group had a presence in 25 countries and regions around the world, and had 927 (30 June 2020: 982) stores comprised of 190 (30 June 2020: 209) directly managed stores and 737 (30 June 2020: 773) franchised stores.

ANALYSIS BY MARKET

Hong Kong and Macau

The retail sector in Hong Kong continued to record a material decline since mid-2019. According to the statistics from the Census and Statistics Department of The Government of the Hong Kong Special Administrative Region, the wearing apparel retail sales value decreased by 26% on a period-on-period basis for the period from July 2020 to December 2020, and tourist arrivals plunged by 99.7% according to the statistics from the Hong Kong Tourism Board.

The pandemic of COVID-19 has severely affected the retail consumption in Hong Kong and Macau. Travel restrictions and border control were in force, while a series of social-distancing measures were imposed, which consequentially impaired the consumer sentiment and stifled customer traffic. During the period under review, the third and fourth waves of local COVID-19 infections at alarming levels induced stricter social distancing measures, including but not limited to the banning of evening dine-in services, which sharply reduced shopping activities and foot traffic as a result.

During the period under review, revenue in Hong Kong and Macau including the retail and export franchising business was HK\$255 million (2019: HK\$410 million), representing a 38% decline. Same-store sales for directly managed stores fell 28% (2019: 14% decline) while same-store gross profit declined 33% (2019: 20% decline). Total net retail floor area decreased to 105,700 sq. ft. (2019: 111,000 sq. ft.), and sales per sq. ft. declined 26% to HK\$4,500 (2019: HK\$6,100). The number of directly managed stores was 37 (30 June 2020: 38). Segment result was HK\$74 million loss (2019: HK\$49 million loss).

Mainland China

In and out of lockdown ahead of many other countries, the economy in mainland China powered ahead while much of the world was still struggling. Although GDP expanded year-on-year in the fourth quarter of 2020, growth in retail sales towards end of year was less than expected. Our business in mainland China is currently under structural transformation, covering areas from product development, distribution channels to logistics. We are also focusing on off-season stock clearance and paving the way for the execution of our new product strategy in the near future.

Revenue in mainland China increased by 2% to HK\$165 million (2019: HK\$162 million). Same-store sales dropped 8% (2019: 5% decline) and same-store gross profit registered a 10% decline (2019: 11% decline). Sales per sq. ft. increased by 19% to HK\$1,900 (2019: HK\$1,600) while total net retail floor area decreased by 24% to 129,200 sq. ft. (2019: 170,000 sq. ft.). There was a total of 136 (30 June 2020: 154) directly managed stores in mainland China. Segment result was HK\$16 million loss (2019: HK\$33 million loss).

Singapore

The revenue of Singapore operation dropped by 9% to HK\$48 million (2019: HK\$53 million) during the period under review. Same-store sales registered a 6% decline (2019: 5% decline) compared to last period. Same-store gross profit recorded a 9% decline (2019: 5% decline). Total net retail floor area decreased by 6% to 22,200 sq. ft. (2019: 23,600 sq. ft.). Sales per sq. ft. decreased by 2% to HK\$4,400 (2019: HK\$4,500). The number of directly managed stores stood steady at 17 (30 June 2020: 17). The segment result was HK\$7 million profit (2019: HK\$7 million loss).

Discontinued operation

Taiwan

The Group had ceased its retail operation in Taiwan by end of June 2020. Taiwan commenced operation in 1992 and had a significant role in promoting the brand name of the Group in the Southeast Asia region, thus spearing ahead the Group's presence in the Greater China region. However, due to the continuing sluggish consumer market in Taiwan over the last two decades, the Taiwan segment has been loss making since the financial year of 2005/06. In the face of the challenging market conditions prevailing in Hong Kong and mainland China, the two main retailing divisions of the Group, the Group believes that it is in the best interests of the Company and its shareholders to cease the Taiwan operation so that the Group can better utilise its resources in its other core markets.

FINANCIAL POSITION

Liquidity and Financial Resources

As of 31 December 2020, the Group had cash and bank balances of HK\$248 million (2019: HK\$262 million) and net cash balance at HK\$248 million (2019: HK\$232 million). The current ratio was at 1.37 times (2019: 1.66 times) with a total liabilities to equity ratio at 244% (2019: 110%). As of 31 December 2019, bank borrowings of HK\$30 million were recorded and the gearing ratio determined by bank borrowings divided by total equity was 5%.

The Group had investments and operations in countries that use currencies other than United States dollar and Hong Kong dollar, and therefore mitigated its foreign currency risk by entering into forward currency contracts to reduce exposure to exchange rate fluctuations in material transactions denominated in those currencies.

As of 31 December 2020, the Group's inventory turnover days* was 143 days, compared to 142 days in 2019. The return on equity ratio for the period under review was negative 87% (2019: negative 32%).

Contingent Liabilities

During the period under review, the Group had no material changes in contingent liabilities since 30 June 2020.

Human Capital

As of 31 December 2020, the Group employed 1,300 (30 June 2020: 1,500) full-time equivalent employees in Hong Kong and Macau, mainland China and Singapore.

The Group adhere to a policy of acquiring, nurturing and retaining talented employees. We treasure and promote the team spirit, and strive to cultivate a proactive and ever-improving culture. Workshops in effective management and certified programmes were offered for office and shop staff at all levels.

We believe a vibrant and competent workforce is indispensable in driving business growth. We treasure knowledge sharing and life-long learning. We encourage employees to progress and excel every day through the "bossini e-academy", our e-platform which is devised to offer practical and experience-based knowledge and skills in customer service, retailing, products, and other latest marketing information.

We also continued to remunerate employees based on performance, including discretionary bonuses, share options and wide-ranging employee benefits such as insurance and retirement schemes.

OUTLOOK

It is widely anticipated that COVID-19 will continue to impact consumer behaviour, economic activities and business environment globally for a certain period. The Group's performance is expected to remain under significant pressure for the remaining financial year with travel restrictions and social-distancing measures still largely in place. Nevertheless, we will continue to work towards a positive turnaround of our businesses with focus on our core markets and to closely monitor the market dynamics in order to timely adjust our plan.

For the Hong Kong and Macau market, the Group does not anticipate a significant rebound of tourist arrivals or the retail environment to resume normal within a short period of time. We therefore intend to maintain a lean operational and administrative structure and to re-focus resources on this market. The overall shop rental expenses remained at a very unreasonable level with several landlords still unwilling to provide rent concessions, despite some landlords had already switched to pure turnover-rent arrangement. This will inevitably involve the closure of certain loss-making retail shops, as the Group aims to operate in an appropriate scale as a viable retail business and retain the Group's financial capacity. We will continue to renegotiate with landlords to seek rent relief and reduction. Where landlords are reluctant to respond reasonably to our requests, we will close those shops accordingly.

Mainland China remains to be a market we have confidence in and has growth potential. The Group will continue to focus on business expansion and enlarge our footprint in this market in 2021, mainly focusing on opening directly managed stores in better shopping malls and reigniting franchised shops in various provinces and cities. The Group is also committed to further developing its e-commerce business and strengthening cooperation with various e-commerce platforms in mainland China, aiming to sustain the growth in e-commerce revenue with higher operational efficiency in this financial year.

Overall, the Group is formulating and implementing strategies ranging from brand re-positioning, product segmentation and pricing, distribution channels, production and supply chain management, marketing and promotion to IT infrastructure. We believe all of these would collaboratively equip us with a solid foundation and pave the way for our expansion and tap into market opportunities in the mid- to long-term.
