The financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("**HKFRSs**") (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("**HKASs**") and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants, accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention. The financial statements are presented in Hong Kong dollars ("**HK\$**") and all values are rounded to the nearest thousand except when otherwise indicated.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the *Conceptual Framework for Financial Reporting 2018* and the following revised HKFRSs for the first time for the current year's financial statements.

Amendments to HKFRS 3	Definition of a Business
Amendments to HKFRS 9, HKAS 39	Interest Rate Benchmark Reform
and HKFRS 7	
Amendments to HKAS 1 and HKAS 8	Definition of Material

Except for the amendments to HKFRS 3, which are not relevant to the preparation of the Group's financial statements, the nature and the impact of the *Conceptual Framework for Financial Reporting 2018* and the revised HKFRSs are described below:

(a) Conceptual Framework for Financial Reporting 2018 (the "Conceptual Framework") sets out a comprehensive set of concepts for financial reporting and standard setting, and provides guidance for preparers of financial statements in developing consistent accounting policies and assistance to all parties to understand and interpret the standards. The Conceptual Framework includes new chapters on measurement and reporting financial performance, new guidance on the derecognition of assets and liabilities, and updated definitions and recognition criteria for assets and liabilities. It also clarifies the roles of stewardship, prudence and measurement uncertainty in financial reporting. The Conceptual Framework is not a standard, and none of the concepts contained therein override the concepts or requirements in any standard. The Conceptual Framework did not have any significant impact on the financial position and performance of the Group.

- (b) Amendments to HKFRS 9, HKAS 39 and HKFRS 7 address issues affecting financial reporting in the period before the replacement of an existing interest rate benchmark with an alternative risk-free rate ("**RFR**"). The amendments provide temporary reliefs which enable hedge accounting to continue during the period of uncertainty before the introduction of the alternative RFR. In addition, the amendments require companies to provide additional information to investors about their hedging relationships which are directly affected by these uncertainties. The amendments did not have any impact on the financial position and performance of the Group as the Group does not have any interest rate hedging relationships.
- (c) Amendments to HKAS 1 and HKAS 8 provide a new definition of material. The new definition states that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. The amendments clarify that materiality will depend on the nature or magnitude of information, or both. The amendments did not have any significant impact on the financial position and performance of the Group.

BUSINESS REVIEW

2020 was a remarkable year for the Group, with Town Ray achieving a set of strong results, despite the challenges brought by the global outbreak of the coronavirus pandemic ("**Pandemic**"). During the first quarter of 2020, the Pandemic mainly affected the PRC, the production of the Group's factory was shortly suspended, and supply chains were also affected due to lockdown and quarantine measures. The impact of this suspension to the business was limited, thanks to the exemplary efforts of the Group's staff. The management was particularly thankful to the contributions from a team of 11 Hong Kong staff members who stationed in the PRC during the year to supervise the operations of the factory, which enabled the Group to deliver products to the customers in a timely manner.

As the Pandemic began spreading globally from the second quarter of 2020 onward, there was uncertainty regarding the business as many western countries imposed lockdown and travel restrictions measures. Such measures delayed order placements and product delivery, as well as dampened consumer demand, causing the Group's customers to be very prudent in placing new orders in the second quarter. Entering the second half of 2020, the market began to adapt and developed a new normal of the stay-at-home economy. With more time spent at home, and the lack of outdoor activities, the consumer demand for household appliances increased, particularly for cooking appliances, which became a strong growth driver for the Group's business.

On the research and development level, the Group continued its commitment to innovation during the year and new patents were developed. New product features were introduced, which enhanced outlook, ease of control and improved functions. The Group's strong research and development capabilities were essential in maintaining its competitive advantage in a volatile market.

PROSPECTS

Looking towards 2021, many uncertainties remain in the business environment and the Group expects further challenges in the year ahead. The situation with the Pandemic remains serious in part of the globe. Full recovery of the global economy and consumer sentiments will depend on effective and timely vaccinations of the population. The Group expects the stay-at-home economy to continue for some time. The Group will continue to upgrade production facilities and enhance production capacity in 2021 in accordance with the future plans and use of proceeds.

The Group expects that import tariffs of its products to Europe, the United Kingdom and the United States will remain relatively stable in 2021. However, the strong recovery of the Chinese manufacturing sector has caused a shortage of raw materials, which may exert upward pressure to the Group's production costs. The Group will leverage on its excellent capabilities in communicating with customers and suppliers to help alleviate any impacts brought by tariffs and rising raw material costs. Furthermore, the Group will keenly monitor the exchange rate of the Renminbi ("**RMB**") against the United States Dollars ("**USD**") to ensure swift response to its fluctuations in order to maintain the profit margins.

The stay-at-home economy has not only driven up the demand for cooking appliances, but also it has encouraged the desire for a wider variety of electrothermic household products with more sophisticated functions. To better capture this opportunity, the Group will continue to leverage on its excellent capabilities in research and development to develop products with the latest technologies and innovations, and to diversify its existing product mix.

The Chinese economy showed its strong resilience in 2020. The National Bureau of Statistics of China reported a 2.3% year-on-year growth of gross domestic product for the year of 2020, despite the Pandemic and global economic downturn. While urbanisation continues in the PRC, people's disposable income continues to increase. The Group believes that there is great potential in the Chinese market and is actively considering to tap into the market with its self-owned brand in 2021, starting at the affluent Greater Bay Area.

The Group is cautiously optimistic about the long-term growth of the electrothermic household appliances market. However, the Group also notes that the development of the Pandemic is still uncertain, together with the ongoing geopolitical tension and protectionism, challenges remain in the business environment. To stay competitive in the ever-changing market, the Group will dedicate to market diversification, leveraging on its expertise in electrothermic technologies to increase and upgrade its product offerings, with an aim to create greater values to its customers and shareholders.

MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the "**Model Code**") as set out in Appendix 10 to the Listing Rules as its code of conduct regarding securities transactions by the Directors.

The Board was informed by Mr. Chan Shing Jee, an independent non-executive Director of the Company, that on 5 March 2020, a date during the period of which the Directors were prohibited from dealing in the shares in the Company under Rule A.3(a) of the Model Code (the "**Black-out Period**"), Mr. Chan Shing Jee's father purchased 1,000,000 shares of the Company (the "**Acquisition**") by using a securities account jointly held by Mr. Chan Shing Jee and his father (the "**Incident**"). Upon being aware of the Incident, Mr. Chan Shing Jee notified the Board immediately and Mr. Chan Shing Jee confirmed to the Board that he had no prior knowledge that his father would use the joint-name securities account to acquire the shares in the Company and he had no participation in the Acquisition.

Upon making enquiry by the Board, the Board considered that the Acquisition technically constituted a "dealing in securities" under the Model Code and therefore was a technical breach of Rule A.3(a) of the Model Code. In view of the Incident, the following remedial actions were taken:

- (i) Mr. Chan Shing Jee was reminded of the requirements and prohibitions set out in the Model Code and warning was given to him by the Board;
- (ii) Mr. Chan Shing Jee agreed to take all reasonable steps to close the joint-name account held by him and his father and cease holding the shares in the Company in that account as soon as practicable after the Black-out Period; and
- (iii) Mr. Chan Shing Jee also agreed, and to procure his father, not to dispose of the shares in the Company until the lapse of the Black-out Period in order to prevent further breach of the Model Code.

All of the 1,000,000 Shares of the Company held under the joint securities account of Mr. Chan Shing Jee and his father were disposed of at the market subsequently from 27 March 2020 to 31 March 2020. As at the date of this announcement, Mr. Chan Shing Jee confirmed that the joint-name securities account was closed.

Having made specific enquiry of all Directors, each of the Directors confirmed that he/she (other than Mr. Chan Shing Jee in relation to the Incident) has fully complied with the required standard set out in the Model Code during the year ended 31 December 2020 and up to the date of this announcement.
