Lessees adopting this election may account for qualifying rent concessions in the same way as they would if they were not lease modifications. The practical expedient only applies to rent concessions occurring as a direct consequence of the COVID-19 pandemic and only if all of the following conditions are met:

- a. the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- b. any reduction in lease payments affects only payments due on or before 30 June 2021; and
- c. there is no substantive change to other terms and conditions of the lease.

The Group has applied the practical expedient to all qualifying COVID-19-related rent concessions. Rent concessions totalling RMB79,338,000 have been accounted for as negative variable lease payments and recognised in cost of sales in the consolidated income statement for the year ended 31 December 2020 (note 4), with a corresponding adjustment to the lease liability. There is no impact on the opening balance of equity at 1 January 2020.

For the year ended 31 December 2020, the Group's subsidiaries incorporated in Hong Kong did not have assessable profit and therefore have not provided for any Hong Kong profits tax.
