SUSTAINABILITY
REPORT
2020

Keep growing

despite challenges

2020 has been a difficult year for many people in Hong Kong and around the world due to the COVID-19 pandemic and subsequent economic downturn. Resilient as ever, here at HKEI we are moving forward together with our customers and local community despite the hardship. No matter what challenges we face, we strive to find new and innovative ways to keep going and growing, very much like the stone-walled trees that thrive in our city and resilient species of plants from our local environment that adapt in tough conditions.

We will continue to protect the environment, serve our customers and care for our stakeholders; helping Hong Kong flourish into a smarter and greener city.
