The communication of such documents and/or materials as a financial promotion is only being made to those persons in the United Kingdom who have professional experience in matters relating to investments and who fall within the definition of investment professionals (as defined in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the "Financial Promotion Order")), or who fall within Article 49(2)(a) to (d) of the Financial Promotion Order, or who are any other persons to whom it may otherwise lawfully be made under the Financial Promotion Order (all such persons together being referred to as "relevant persons"). In the United Kingdom, the New Notes offered hereby are only available to, and any investment or investment activity to which this offering memorandum relates will be engaged in only with, relevant persons. Any person in the United Kingdom that is not a relevant person should not act or rely on this offering memorandum or any of its contents.

Prohibition of sales to UK Retail Investors – The New Notes are not intended to be offered, sold or otherwise made available to any retail investor in the United Kingdom. For these purposes: (a) a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (EUWA); or (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA; and (b) an offer includes the communication in any form and by any means of sufficient information on the terms of the offer and the New Notes to be offered so as to enable an investor to decide to purchase or subscribe for the New Notes.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The New Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (the "EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU, as amended ("MiFID II"); or (ii) a customer within the meaning of Directive (EU) 2016/97 (the "Insurance Distribution Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014, as amended (the "PRIIPs Regulation") for offering or selling the New Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the New Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

DAFA PROPERTIES GROUP LIMITED

(incorporated in the Cayman Islands with limited liability)

US\$100,000,000

9.95% Senior Notes due 2022

(To be consolidated and form a single series with the US\$180,000,000

9.95% Senior Notes due 2022 issued on January 19, 2021)

Issue Price: 98.391%

plus accrued interest from (and including) January 19, 2021 to (but excluding) June 10, 2021

DaFa Properties Group Limited (the "Company") is offering US\$100,000,000 9.95% senior notes due 2022 (the "New Notes"). The New Notes will be issued under the indenture dated January 19, 2021 (the "Indenture") governing the Company's outstanding US\$180,000,000 9.95% Senior Notes due 2022 issued on January 19, 2021 (the "Original Notes" and, together with the New Notes, the "Notes"). The New Notes constitute Additional Notes under the Indenture and are identical in all respects to the Original Notes, other than with respect to the issue date and issue price. The New Notes will form a single series with the Original Notes. Upon completion of this offering, the aggregate principal amount of the outstanding Notes will be US\$280,000,000. The Notes will bear interest from January 19, 2021 at 9.95% per annum payable in arrears on July 19, 2021 and January 18, 2022. The Notes will mature on January 18, 2022.

The Notes are senior obligations of the Company, guaranteed by certain of our existing subsidiaries (the "Subsidiary Guarantors"), other than those organized under the laws of the PRC and certain other subsidiaries specified in the section entitled "Description of the Notes." We refer to the guarantees by the Subsidiary Guarantors as Subsidiary Guarantees. Under certain circumstances and subject to certain conditions, a Subsidiary Guarantee required to be provided by a subsidiary of the Company may be replaced by a limited-recourse guarantee (the "JV Subsidiary Guarantee"). We refer to the subsidiaries providing a JV Subsidiary Guarantee as JV Subsidiary Guarantors.

At any time prior to January 18, 2022, we may at our option redeem the Notes, in whole but not in part, at a redemption price equal to 100% of the principal amount of the Notes plus a premium (as set out in the section entitled "Description of the Notes" of this offering memorandum) as of, and accrued and unpaid interest, if any, to (but not including) the redemption date. At any time and from time to time prior to January 18, 2022, we may redeem up to 35% of the Notes, at a redemption price of 109.95% of the principal amount of the Notes, plus accrued and unpaid interest, if any, to (but not including) the redemption date, with the net cash proceeds from sales of certain kinds of capital stock of the Company. Upon the occurrence of a Change of Control Triggering Event (as defined in the Indenture), we must make an offer to repurchase all Notes outstanding at a purchase price equal to 101% of their principal amount, plus accrued and unpaid interest, if any, to the date of repurchase.

The Notes will be (1) senior in right of payment to any existing and future obligations of the Company expressly subordinated in right of payment to the Notes, (2) at least *pari passu* in right of payment against the Company with all other unsecured, unsubordinated indebtedness of the Company (subject to any priority rights of such unsecured, unsubordinated indebtedness pursuant to applicable law), (3) effectively subordinated to the secured obligations (if any) of the Company, the Subsidiary Guarantors and the JV Subsidiary Guarantors, to the extent of the value of the assets serving as security therefor, and (4) effectively subordinated to all existing and future obligations of the Non-Guarantor Subsidiaries (as defined below). In addition, applicable law may limit the enforceability of the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any). See "Risk Factors — Risks Relating to the Subsidiary Guarantees and the JV Subsidiary Guarantees."

For a more detailed description of the Notes, see the section entitled "Description of the Notes".

Investing in the Notes involves risks. Furthermore, investors should be aware that the Notes are guaranteed by Subsidiary Guarantors which do not currently have significant operations and certain Subsidiary Guarantees may in some cases be replaced by limited-recourse guarantees and that there are various other risks relating to the Notes, the Company and its subsidiaries, their business and their jurisdictions of operations which investors should familiarise themselves with before making an investment in the Notes. See the section entitled "Risk Factors" beginning on page 10 and particularly pages 37-47 for risks relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral.

The Original Notes are listed on The Stock Exchange of Hong Kong Limited (the "Hong Kong Stock Exchange"). Application will be made to the Hong Kong Stock Exchange for the listing of the New Notes by way of debt issues to professional investors (as defined in Chapter 37 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited) ("Professional Investors") only. This document is for distribution to Professional Investors only. **Notice to Hong Kong investors:** The Company, the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) confirm that the Notes are intended for purchase by Professional Investors only and will be listed on The Hong Kong Stock Exchange Limited on that basis. Accordingly, the Company, the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) confirm that the Notes are not appropriate as an investment for retail investors in Hong Kong. Investors should carefully consider the risks involved.

The Hong Kong Stock Exchange has not reviewed the contents of this offering memorandum, other than to ensure that the prescribed form disclaimer and responsibility statements, and a statement limiting distribution of this offering memorandum to Professional Investors only have been reproduced in this document. Listing of the Notes on the Hong Kong Stock Exchange is not to be taken as an indication of the commercial merits or credit quality of the Notes or the Issuer, the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) or quality of disclosure in this document. Hong Kong Exchanges and Clearing Limited and the Hong Kong Stock Exchange take no responsibility for the content of this offering memorandum, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this offering memorandum.

This offering memorandum includes particulars given in compliance with the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") for the purpose of giving information with regard to the Company, the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any). The Company, the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) accept full responsibility for the accuracy of the information contained in this offering memorandum and confirms, having made all reasonable enquiries, that to the best of their knowledge there are no other material facts the omission of which would make any statement herein misleading. The expected date of listing of the New Notes on the Hong Kong Stock Exchange is on or around June 11, 2021.

The New Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any) have not been and will not be registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act"), and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act. The New Notes are being offered and sold only outside the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act ("Regulation S"). For a description of certain restrictions on resale or transfer, see the section entitled "Transfer Restrictions."

It is expected that the delivery of the New Notes will be made on or about June 10, 2021 through the book-entry facilities of the Euroclear Bank SA/NV ("Euroclear") and Clearstream Banking S.A. ("Clearstream"), against payment therefor in immediately available funds.

This offering memorandum does not constitute an offer to sell to, or a solicitation of an offer to buy from, any person in any jurisdiction to whom it is unlawful to make the offer or solicitation in such jurisdiction. Neither the delivery of this offering memorandum nor any sale made hereunder shall, under any circumstances, create any implication that there has been no change in our affairs since the date of this offering memorandum or that the information contained in this offering memorandum is correct as of any time after that date.

The communication of this offering memorandum and any other document or materials relating to the issue of the New Notes offered hereby is not being made, and such documents and/or materials have not been approved, by an authorized person for the purposes of section 21 of the United Kingdom’s Financial Services and Markets Act 2000, as amended (the “FSMA”). Accordingly, such documents and/or materials are not being distributed to, and must not be passed on to, the general public in the United Kingdom. The communication of such documents and/or materials as a financial promotion is only being made to those persons in the United Kingdom who have professional experience in matters relating to investments and who fall within the definition of investment professionals (as defined in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the “Financial Promotion Order”), or who fall within Article 49(2)(a) to (d) of the Financial Promotion Order, or who are any other persons to whom it may otherwise lawfully be made under the Financial Promotion Order (all such persons together being referred to as “relevant persons”). In the United Kingdom, the New Notes offered hereby are only available to, and any investment or investment activity to which this offering memorandum relates will be engaged in only with, relevant persons. Any person in the United Kingdom that is not a relevant person should not act or rely on this offering memorandum or any of its contents.

Prohibition of sales to UK Retail Investors – The New Notes are not intended to be offered, sold or otherwise made available to any retail investor in the United Kingdom. For these purposes: (a) a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (EUWA); or (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA; and (b) an offer includes the communication in any form and by any means of sufficient information on the terms of the offer and the New Notes to be offered so as to enable an investor to decide to purchase or subscribe for the New Notes.

IN CONNECTION WITH THIS OFFERING, ANY OF THE INITIAL PURCHASERS, AS STABILIZING MANAGER, OR ANY PERSON ACTING FOR IT, MAY PURCHASE AND SELL THE NEW NOTES IN THE OPEN MARKET. THESE TRANSACTIONS MAY, TO THE EXTENT PERMITTED BY APPLICABLE LAWS AND REGULATIONS, INCLUDE SHORT SALES, STABILIZING TRANSACTIONS AND PURCHASES TO COVER POSITIONS CREATED BY SHORT SALES. THESE ACTIVITIES MAY STABILIZE, MAINTAIN OR OTHERWISE AFFECT THE MARKET PRICE OF THE NEW NOTES. AS A RESULT, THE PRICE OF THE NEW NOTES MAY BE HIGHER THAN THE PRICE THAT OTHERWISE MIGHT EXIST IN THE OPEN MARKET. IF THESE ACTIVITIES ARE COMMENCED, THEY MAY BE DISCONTINUED AT ANY TIME AND MUST IN ANY EVENT BE BROUGHT TO AN END AFTER A LIMITED TIME. THESE ACTIVITIES WILL BE UNDERTAKEN SOLELY FOR THE ACCOUNT OF THE STABILIZING MANAGER, AND NOT FOR US OR ON OUR BEHALF.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The New Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (the “EEA”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU, as amended (“MiFID II”); or (ii) a customer within the meaning of Directive (EU) 2016/97 (the “Insurance Distribution Directive”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014, as amended (the “PRIIPs Regulation”) for offering or selling the New Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the New Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

OVERVIEW

We are an expanding real estate developer in the Yangtze River Delta Region focusing on the development and sales of residential properties. Headquartered in Shanghai, we have an active presence in the Yangtze River Delta Region. As of December 31, 2020, we had a diverse portfolio of 83 projects (including projects we develop with our joint ventures and associates) consisting of 75 residential properties, five residential and commercial complexes, two commercial complexes and one office floor. Of all the aforementioned projects, four projects are located in Shanghai, 79 projects are located in Jiangsu, Anhui, Zhejiang, Sichuan, Chongqing, Shandong, Henan, Jiangxi, Guangdong and Qinghai provinces.

As of December 31, 2020, we had land reserves (including land reserves held by our joint ventures and associates) with a total GFA of approximately 6.7 million sq.m., including (i) completed properties with a total saleable unsold/leasable GFA of approximately 0.6 million sq.m., (ii) properties under development with a total planned GFA of approximately 5.4 million sq.m., and (iii) properties held for future development with a total estimated GFA of approximately 0.7 million sq.m.

Our business operations consist of (i) property development and sales, (ii) commercial property investment and operations and (iii) property management services and management consulting service. We derive our revenue principally from the sales of properties we develop. For the three years ended December 31, 2020, revenue generated from property development and sales was RMB5,879.4 million, RMB7,294.1 million and RMB9,085.3 million (US\$1,392.4 million), respectively.

We position our brand as “Design for Life” with a vision of providing quality properties and creating specific living scenes for our customers. We use the brand names “大發” or “大發地產” to carry out our business in China. To implement our market positioning strategy, we have developed four product series of residential property projects under the Bliss series (悦系), each targeting different segments of our customers. Our property development process, starting from site selection to project planning and design, is also centered on the needs and preferences of our targeted customers from first-time home purchasers and customers with home upgrade demand to high-end customers.

We advocate the concept of “situational real estate.” Based on the daily activities and emotional needs of our customers, we have installed equipment and facilities and arranged spaces to set up specific scenarios. Our research methods include integrating customer insight and big data analysis, with site adaptability, spatial planning, public space design, environmental friendliness and intelligent design taken into consideration. We classified the living experience of our customers into four scenarios under “24 Blissful Living Community (24 悦愛社區)” to improve the living experience of our customers. See “Business — Property Development and Sales Process — Project Planning and Design.”

Notes:

- (1) EBITDA consists of profit before taxation plus amortization of intangible assets, capitalized interests included in the cost of goods, finance costs, depreciation of right-of-use assets and depreciation of property, plant and equipment. EBITDA is not a standard measure under IFRS. EBITDA is a widely used financial indicator of a company’s ability to service and incur debt. EBITDA should not be considered in isolation or construed as an alternative to cash flows, net income or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities. EBITDA does not account for taxes, interest expense or other non-operating cash expenses. In evaluating EBITDA, we believe that investors should consider, among other things, the components of EBITDA such as sales and operating expenses and the amount by which EBITDA exceeds capital expenditures and other charges. We have included EBITDA because we believe it is a useful supplement to cash flow data as a measure of our performance and our ability to generate cash flow from operations to cover debt service and taxes. EBITDA presented herein may not be comparable to similarly titled measures presented by other companies. Investors should not compare our EBITDA to EBITDA presented by other companies because not all companies use the same definition. See the section entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Non-GAAP Financial Measures” for a reconciliation of our profit for the year under IFRS to our definition of EBITDA. Investors should also note that EBITDA as presented herein may be calculated differently from Consolidated EBITDA as defined and used in the Indenture. See the section entitled “Description of the Notes — Definitions” for a description of the manner in which Consolidated EBITDA is defined for purposes of the Indenture.
- (2) EBITDA margin is calculated by dividing EBITDA by revenue.

RISK FACTORS

You should carefully consider the risks and uncertainties described below and other information contained in this offering memorandum before making an investment decision. The risks and uncertainties described below may not be the only ones that we foresee. Additional risks and uncertainties that we are not aware of or that we currently believe are immaterial may also adversely affect our business, financial condition or results of operations. If any of the possible events described below occurs, our business, financial condition or results of operations could be materially and adversely affected. In such case, we may not be able to satisfy our obligations under the Notes, and you could lose all or part of your investment.

RISKS RELATING TO OUR BUSINESS

We may not be able to acquire land reserves in desirable locations that are suitable for development at commercially acceptable prices in the future, which may affect our business, financial condition, results of operations and prospects.

The growth and success of our business depend on our ability to continue acquiring land reserves located in desirable locations at commercially reasonable prices. Our ability to acquire land depends on a variety of factors that we cannot control, such as general economic conditions, our effectiveness in identifying and acquiring land parcels suitable for development and competition for such land parcels. A majority of our completed projects were developed on land obtained through public tender, auction or listing-for-sale process organized by government authorities, and we may continue to acquire land for our property development projects through such methods. The availability and price of land acquired through public tender, auction or listing-for-sale process organized by government authorities depend on factors beyond our control, including government land policies and competition. The PRC government and relevant local authorities control the supply and price of new land parcels and approve the planning and use of such land parcels. Local governments control the availability of land acquisition by public tender, auction or listing-for-sale process organized by government authorities. Specific regulations are in place to control the methods and procedures by which land parcels are acquired and developed in the PRC. Furthermore, the rapid development of the cities in Shanghai and other parts of the Yangtze River Delta Region in recent years has resulted in a shortage in the supply of undeveloped land in desirable locations and increased land acquisition costs, which becomes one of the largest components of our cost of sales. Any increase in our land costs resulting from shortages of supply or our inability to procure land could have a material adverse effect on our business, financial condition, results of operations and prospects.

Our business and prospects are heavily dependent on the performance of the PRC property markets, particularly in the various cities we operate and intend to operate, and therefore any potential decline in property sales or prices or demand for properties in the PRC generally, or in the major cities where our projects are located, could have a material adverse effect on our business, financial condition and results of operations.

We principally develop and sell properties in Shanghai and other parts of the Yangtze River Delta Region. As of December 31, 2020, we had 83 property projects in the PRC in various stages of development, 69 of which were located in Shanghai and other major cities in the Yangtze River Delta Region. Our business continues to be heavily dependent on the property markets in the Yangtze River Delta Region. These property markets may be affected by local, regional, national and global factors, including economic and financial developments, speculative activities in local markets, demand for and supply of properties, availability of alternative investment choices of property buyers, inflation, government policies, interest rates and the availability of capital. Any adverse developments in the PRC property market generally or in the cities in which we have or expect to have operations could materially and adversely affect our business, financial condition, results of operations and prospects.

Furthermore, private ownership of property in China is still at a relatively early stage. Demand for private residential property has been increasing rapidly in recent years, which has often been coupled with volatile market conditions and fluctuations in prices. Numerous factors may affect the development of the market and, accordingly, it is very difficult to predict when and how significantly demand will develop. Limited availability of accurate financial and market information and the general low level of transparency in China's property industry contribute to the overall market uncertainty. Investors may be discouraged from acquiring new properties due to the lack of a liquid secondary market for residential properties. In addition, the limited amounts

and types of mortgage financing available to individuals, together with the lack of long-term security of legal title and enforceability of property rights, may also inhibit the demand for residential property. The risk of oversupply is also increasing in parts of China where property investment, trading and speculation have become more active. If as a result of any one or more of these or similar factors, demand for residential property or market prices decline significantly, our business, results of operations, financial condition and prospects could be materially and adversely affected.

The national and regional economies in China and our prospects may be adversely affected by natural disasters, acts of God, and occurrence of epidemics and pandemics.

Our business is subject to general economic and social conditions in China. Natural disasters, epidemics, pandemics and other acts of God which are beyond our control may adversely affect the economy, infrastructure and livelihood of the people in China. Some regions in China, including the cities where we operate, are under the threat of flood, earthquake, sandstorm, snowstorm, fire, drought, or epidemics and pandemics such as the Severe Acute Respiratory Syndrome, or SARS, the H5N1 avian flu, the human swine flu, also known as Influenza A (H1N1), or, most recently, the novel coronavirus named COVID-19 by the World Health Organization.

The COVID-19 outbreak, which may have first appeared at the end of 2019, has subsequently spread across China and around the world. On March 11, 2020, World Health Organization declared COVID-19 outbreak a pandemic. Governments across the world have imposed travel restrictions and/or lockdown in an effort to curb the spread of highly infectious COVID-19. As the pandemic continues to spread worldwide, more countries may impose similar or more severe containment measures. There is no assurance that the current containment measures will be effective in halting the pandemic. The current containment measures and any future containment measures may materially and adversely affect the manufacturing, exports and imports and consumption of goods globally, which may in turn lead to global economy slowdown. As a result, supply of our raw materials and productivity of our employees may be adversely affected. As a result, the completion of our projects may be delayed and sales might be lower than expected, which might in turn result in substantial increase in our development costs, late delivery of properties and/or otherwise adversely affect our profitability and cash flows. Further, customers who have previously entered into contracts to purchase properties may default on their purchase contracts if the economic situation further deteriorates as a result of the pandemic. In addition, the COVID-19 outbreak poses risks to the wellbeing of our employees and the safety of our workplace, which may materially and adversely affect our business operation.

Past occurrences of epidemics and pandemics, depending on their scale, have caused different degrees of damage to the national and local economies in China. Another public health crisis in China triggered by a recurrence of SARS or an outbreak of any other epidemics or pandemics, including, for example, the ongoing COVID-19, especially in the cities where we have operations, may result in material disruptions to our property development and sales and the operation of commercial properties. In addition, the outbreak of communicable diseases, such as the COVID-19 outbreak on a global scale, may affect investment sentiment and result in sporadic volatility in global capital markets or adversely affect China and other economies. Such outbreak has resulted in restrictions on travel and public transportation and prolonged closures of workplaces, which may have a material adverse effect on the global economy. Any material change in the financial markets, the PRC economy or regional economies as a result of these events or developments may materially and adversely affect our business, financial condition and results of operations.

We had negative net operating cash flow for the year ended December 31, 2020 and we may not be able to obtain sufficient funding for our land acquisitions and future property developments whether through bank loans, trust financing or other arrangements, on commercially reasonable terms, or at all.

Property development usually requires substantial capital investment during the construction period. As of December 31, 2020, our liquidity requirements arose principally from the acquisition of land for, and development of, our property development projects. Our property development projects have been generally funded through cash generated from operations including proceeds from the pre-sale of our properties, bank loans, trust financings and other financing arrangement. We expect to continue to fund our projects through these sources and will look for additional financing opportunities.

However, we cannot assure you that such funds will be sufficient or that any additional financing can be obtained on satisfactory or commercially reasonable terms, or at all. For the year ended December 31, 2020, we recorded negative net cash flow used in operating activities of approximately RMB3,899.7 million (US\$597.7 million). Our negative net operating cash flow was principally attributable to the long-term and capital-intensive nature of property development, our land acquisitions and business expansion during the relevant periods. We cannot assure you that in the future we will not experience negative net cash flow from our operating activities again. A negative net cash flow position for operating activities could impair our ability to make necessary capital expenditures, constrain our operational flexibility and adversely affect our ability to expand our business and enhance our liquidity. For example, if we do not have sufficient net cash flow to fund our future liquidity, pay our trade payables and repay the outstanding debt obligations when they become due, we may need to significantly increase external borrowings or secure other external financing. If adequate funds are not available from external borrowings, whether on satisfactory terms or at all, we may be forced to delay or abandon our development and expansion plans, and our business, prospects, financial condition and results of operations may be materially and adversely affected.

We finance our property projects primarily through a combination of internally generated funds, including proceeds from pre-sales and sales of our properties and borrowings from financial institutions, such as CBRC-licensed commercial banks and trust financing companies. Our ability to obtain external financing in the future and the cost of such financing are subject to uncertainties beyond our control, including:

- requirements to obtain PRC government approvals necessary for obtaining financing in the domestic or international markets;
- our future results of operations, financial condition and cash flows;
- the condition of the international and domestic financial markets and the availability of financing;
- changes in the monetary policies of the PRC government with respect to bank interest rates and lending practices; and
- changes in policies regarding regulation and control of the property market.

The PRC government has implemented a number of measures to manage the growth of the money supply and the availability of credit, especially with respect to the property sector. For example:

- the PBOC has adjusted the Renminbi deposit reserve ratio for major banks several times since 2010, first upward to a peak of 21.5% and then downward to 16.5%. Effective from July 5, 2018, the PBOC further made downward adjustment of the Renminbi deposit reserve ratio to a minimum of 15.5% or 13.5% as the case may be, for banks meeting certain conditions;
- the PBOC has adjusted the benchmark one-year bank lending rate many times since 2008. The PBOC lowered the benchmark one-year bank lending rate to 5.35% on March 1, 2015, to 5.10% on May 11, 2015, to 4.85% on June 27, 2015, to 4.6% on August 26, 2015, and further lowered it to 4.35% on October 24, 2015. The benchmark one-year bank lending rate was maintained at 4.35% on January 1, 2016 and January 1, 2017;
- requiring that at least (i) 20% of total investment in property projects is for affordable housing or commodity housing; and (ii) 25% of the total investment for all other types of property projects is funded by the developer's own capital, and the highest percentage had been at 30%;
- restricting commercial banks from granting property developers loans which will be used to pay land premium;
- restricting trust companies from providing financing to property developers that have not obtained the relevant land use rights certificates, construction land planning permits, construction work planning permits or construction work commencement permits, or to projects that fail to meet project capital ratio requirements;

- restricting trust companies from funding projects developed by property developers which, or whose controlling shareholders, do not have second-level or above qualification;
- prohibiting PRC commercial banks from extending any existing loans or granting any new or revolving credit facilities in any form to property developers with noncompliance records in relation to, among other things, holding and speculating idle lands, using the land outside the scope of the designated purpose, postponing construction commencement or completion, hoarding properties and rigging price for properties;
- prohibiting PRC commercial banks from taking commodity properties that have been vacant for more than three years as security for loans to property developers; and
- prohibiting property developers from using borrowings obtained from local banks to fund property developments outside the regions in which the lending banks reside.

According to the Notice of the CBRC on the Relevant Issues concerning Supporting the Innovation and Development of Trust Companies (《中國銀監會關於支持信託公司創新發展有關問題的通知》) promulgated by the CBRC on 25 March 2009, Notice of General Office of the CBRC on Strengthening Supervision over the Real Estate Trust Business of Trust Companies (《中國銀監會辦公廳關於加強信託公司房地產信託業務監管有關問題的通知》) promulgated by the CBRC on February 11, 2010 and Notice of General Office of CBRC on Risk Warning for Real Estate Trust Businesses of Trust Companies (《中國銀監會辦公廳關於信託公司房地產信託業務風險提示的通知》) promulgated by the general office of the CBRC on November 12, 2010, trust companies shall not provide loans to property developers which (i) have not obtained land use rights certificates, construction land planning permits, construction work planning permits or construction work commencement permits, (ii) have not met the minimum capital ratio requirement for real estate development projects, or (iii) whose controlling shareholders do not have second-level or above qualification. Shanghai Dafa, which is the shareholder of our project companies, holds second-level qualification for real estate development. Under the above rules and notices, we are unable to obtain any trust loan from trust companies before our project companies obtaining the land use rights certificates, construction land planning permits, construction work planning permits or construction work commencement permits, and meeting the minimum capital ratio requirement. Accordingly, we are unable to use trust loans from trust companies to finance the land premium, and under normal circumstance, any trust loan that we could obtain can only be used for the relevant project development.

In addition, on March 13, 2018, the PRC State Council submitted the Reform Plan on State Council Agencies (the “Reform Plan”) for review of the First Session of the thirteenth NPC, proposing to merge the CIRC and the CBRC to strengthen the regulation over financial institutions, and thereafter report to the newly established Financial Stability and Development Committee. The Reform Plan includes the merger of the CIRC and the CBRC into the CBIRC, which may lead to stricter and more unified supervision over financial institutions and may indirectly affect the real property industry. This reform will lead to uncertainties in the regulatory environment of the finance market, which may in turn affect the real property industry.

The above measures and other similar government actions and policy initiatives have limited our ability and flexibility in using bank loans and trust financing arrangements to finance our property projects. Should the PRC government introduce similar additional initiatives, we may not be able to secure adequate financing or renew our existing credit facilities prior to their expiration on commercially reasonable terms or at all.

Going forward, we might look for debt financing opportunities to support our business, including but not limited to raising funds through asset-backed securities programs, corporate bonds and other debt offerings. We might also consider other debt offering plans in the near future.

We are subject to risks associated with certain covenants and restrictions under our bank borrowings and trust financing arrangements which may adversely affect our business, financial condition and results of operations.

We are subject to certain restrictive covenants in the loan contracts between us and certain banks and the trust arrangements entered into by us. For instance, our loan agreements with certain commercial banks may restrict our operating subsidiaries from paying dividends to their shareholders without prior consent from the lenders. Our loan agreements with certain banks may contain cross-default clauses. If any cross-default occurs,

such banks are entitled under those agreements to accelerate the repayment of all or part of the relevant loans and to recover against the security for such indebtedness. We may be required to seek the consent of the banks in order to carry out any mergers, restructurings, spin-offs, reductions in registered share capital, material asset transfers, liquidations, changes in shareholding or management structures or the establishment of any joint ventures. Furthermore, as long as such loans are outstanding, some of our relevant operating subsidiaries may not be able to provide guarantees to any third parties. In addition, our trust financing arrangements may have covenants that, among other things, the project company is required to notify and obtain written consent from the trust financing companies in advance if, during the term of the trust financing, it is involved in any operational decisions which would lead to any material change to the interests of the trust financing companies under the trust financing arrangements, or if we need to provide guarantees for other external loans if there are circumstances which may affect our ability to repay loans. Should we fail to abide by those provisions, our lenders may be entitled to accelerate repayment of the relevant loans or borrowings, in which case our business, financial condition and results of operations could be materially and adversely affected.

The CBRC and/or other government agencies of the PRC may tighten the regulations relating to trust loans being provided to the property industry in the PRC, which may affect our ability to obtain trust loans.

We had certain trust financing arrangements. There are uncertainties regarding trust financing. The operation of trust financing companies in the PRC is primarily regulated by the CBRC pursuant to the Rules Governing Trust Financing Companies (《信託公司管理辦法》), which came into effect on March 1, 2007, and relevant regulations are published and updated from time to time. Trust financing companies are therefore under the supervision and monitoring of the CBRC and are required to comply with the relevant notices and regulations promulgated by the CBRC. We cannot assure you that the PRC government will not implement additional or more stringent requirements with regard to trust financing companies. If additional or more stringent requirements with regard to trust financing companies have been implemented, it could result in a reduction in our financing options and/or an increase in the cost of financing our properties, which in turn could have a material adverse effect on our business, financial condition, results of operations and prospects.

The fair value of our investment properties is likely to fluctuate from time to time and may decrease significantly in the future, which may materially and adversely affect our profitability.

We are required to reassess the fair value of our investment properties at the end of each reporting period. Under IFRS, gains or losses arising from changes in the fair value of our investment properties are included in our consolidated statements of profit or loss for the period in which they arise. We recognized the aggregate fair value of our investment properties and relevant deferred tax on our consolidated statements of financial position and increases in fair value of investment properties and movements of the relevant deferred tax on our consolidated statements of profit or loss. In 2018 and 2019, our fair value gains on investment properties were RMB61.3 million and RMB57.5 million, respectively. In 2020, our fair value losses on investment properties were RMB8.2 million (US\$1.3 million).

Despite their impact on the reported profit, fair value gains or losses do not change our cash position as long as the relevant investment properties are held by us. The amount of revaluation adjustments has been, and will continue to be, subject to market fluctuations. As a result, we cannot assure you that changes in the market conditions will continue to create fair value gains on our investment properties or that the fair value of our investment properties will not decrease in the future. In addition, the fair value of our investment properties may materially differ from the amounts we would receive in actual sales of the investment properties. Any significant decreases in the fair value of our investment properties or any significant decreases in the amount we could receive in actual sales of the investment properties as compared with the recorded fair value of such properties would materially and adversely impact our results of operations.

Gain on disposal of subsidiaries is non-recurring in nature. Accordingly, we may not record such gain in the future.

For three years ended December 31, 2020, our gain on disposal of subsidiaries were RMB22.5 million, RMB2.4 million and RMB103.7 million (US\$15.9 million), respectively. While such gain had a significant impact on our reported profit for the relevant period, it was non-recurring in nature. Therefore, we may not record such gain in the future, which in turn may materially affect our profitability.

Our deferred tax assets may not be recovered, which could adversely affect our results of operations.

As of December 31, 2020, our deferred tax assets amounted to RMB228.5 million (US\$35.0 million), representing approximately 1.0% of our total assets. We periodically assess the probability of the realization of deferred tax assets, using significant judgments and estimates with respect to, among other things, historical operating results, expectations of future earnings and tax planning strategies. In particular, deferred tax assets can only be recognized to the extent that it is probable that future taxable profits will be available against which the unused tax credits can be utilized. However, there is no assurance that our expectation of future earnings could be accurate due to factors beyond our control, such as general economic conditions and negative development of the regulatory environment, in which case, we may not be able to recover our deferred tax assets which thereby could have an adverse effect on our results of operations.

We may be unable to successfully manage the growth of our business and our results of operations from the previous years may not be representative of our future performance.

We experienced significant revenue growth in the three years ended December 31, 2020. We cannot assure you that we will continue to grow at this rate, or at all. We have faced and will continue to face challenges including rising development and administrative costs and increasing competition for employees and future growth opportunities. We have established a set of policies, controls and procedures to manage our subsidiaries, including personnel management policies, internal control policies and internal audit procedures. However, as our business continues to expand, we cannot assure you that these policies, controls and procedures will prove as effective as we hope. As a result, our past results of operations may not be indicative of our future performance.

Our results of operations largely depend on a number of factors including the schedule of our property development and the timing of property sales and may therefore vary significantly from year to year.

Our business model is to sell certain properties for immediate return of capital to fund our business, operations and expansion plans, while strategically retaining other properties for stable recurring rental income and long-term capital appreciation. For the three years ended December 31, 2020, our revenue generated from property development and sales amounted to 98.9%, 98.6% and 98.9%, respectively, of our total revenue. Our results of operations may fluctuate due to factors such as the schedule of our property development projects and the timing of property sales.

We generally recognize revenue from the sale of our properties upon delivery to purchasers. There is a time difference between pre-sales of projects under development and the delivery of completed properties. Because the timing of completion of our properties varies according to our construction timetable, our results of operations may vary significantly from period to period depending on the GFA sold or pre-sold, and the timing between our pre-sales and completion and the delivery of the properties to purchasers. Periods in which we pre-sell a large amount of aggregate GFA, may not be periods in which we generate a correspondingly high level of revenue, if the properties pre-sold are not completed and delivered within the same period. The effect of timing of delivery on our operational results is accentuated by the fact that during any particular period of time we can only undertake a limited number of projects due to the substantial capital requirements for land acquisition and construction costs.

Fluctuations in our operating results may also be caused by other factors, including fluctuations in expenses, such as land grant premium, development costs, administrative expenses, and selling and marketing expenses, and changes in market demand for our properties. As a result, our period-to-period comparisons of results of operations and cash flow positions may not be indicative of our future results of operations and may not be taken as meaningful measures of our financial performance for any specific period. In addition, the cyclical property market of the PRC affects the optimal timing for the acquisition of land, the planning of development and the sales of properties. This cyclicity, combined with the lead time required for the completion of projects and the sales of properties, indicates that our results of operations relating to property development activities may be susceptible to significant fluctuations from period to period. Furthermore, our property development projects may be delayed or adversely affected by a combination of factors beyond our control, which may in turn adversely affect our revenue recognition and consequently our cash flow and results of operations.

The locations of our property projects have a direct impact on their selling prices or recognized ASP per sq.m., our sales revenue and our gross profit margins.

The selling prices or recognized ASP per sq.m. of our property projects are affected by the locations of these projects. While the selling prices or recognized ASP per sq.m. of our property projects vary depending on their locations, our sales revenue and therefore our gross profit margin may vary depending on the mix in geographical locations of our property projects being delivered for a particular period. Therefore, our Group's gross profit margins may decrease in the foreseeable future if expected sales contributed by our property projects in locations with relatively higher recognized ASP per sq.m., such as Shanghai, decreased.

In addition, we cannot assure you that our selling prices or recognized ASP per sq.m., as a whole, will always be consistent with the industry trends in the cities we operate. Although historically the fluctuations of the selling prices or recognized ASP per sq.m. for our property projects were generally in line with the industry trends in the cities we operate, our selling prices or recognized ASP per sq.m., as a whole, might deviate from the industry trends as a result of the changes in mix of property series and products types we launch sale and pre-sale in a particular period and the timing of the completion of properties and therefore, making it difficult to predict the future trends.

Fluctuations in the price of construction materials and labor costs could affect the construction fees charged by our construction contractors which could materially and adversely affect our business and financial performance.

The cost of construction materials, such as steel and cement, and labor costs, are subject to a high degree of volatility. As most of our major construction contracts are fixed unit price contracts, the risk of fluctuations in construction material and labor costs during the terms of the contracts are absorbed by our construction contractors to a large extent as we outsource our construction work to them as they are responsible for purchasing most of the construction materials and bear relevant labor costs during the terms of the relevant contracts. However, for certain raw materials such as concrete and steel, our contractors only bear the risk of fluctuation within 3% of the contract price and we bear the risk of fluctuation exceeding 3% of the contract price. In addition, if there is any significant increase in the cost of construction materials and labor costs, our construction contractors may require us to renegotiate construction fees or we may be subject to higher construction fees when our existing construction contracts expire. Furthermore, we typically pre-sell our properties prior to their completion and we will not be able to pass the increased costs on to our customers if the costs of construction materials and labor increase subsequent to the pre-sales. If any of these occur, our business, financial condition and results of operations may be materially and adversely affected.

Our business may be adversely affected if we fail to obtain, or experience material delays in obtaining necessary government approvals to carry out our property development and management operations.

The property industry in the PRC is heavily regulated. Property developers must abide by various laws and regulations, including rules stipulated by national and local governments to enforce these laws and regulations. To engage in property development and management operations, we must also apply to relevant government authorities to obtain and renew various licenses, permits, certificates and approvals, including but not limited to, qualification certificates for property developers, land use rights certificates, construction work commencement permits, construction work planning permits, construction land planning permits and pre-sales permits. Before the government authorities issue or renew any certificate or permit, we must meet the relevant requirements. Those who engage in real estate development without obtaining qualification certificates will be ordered to cease development activities. The illegal profits will be confiscated and a civil fine of five times of the illegal profits or less may be imposed.

We cannot assure you that we will be able to adapt to new rules and regulations that may come into effect from time to time with respect to the property industry or that we will not encounter material delays or difficulties in fulfilling the necessary conditions to obtain and/or renew all necessary certificates or permits for our operations in a timely manner, or at all, in the future. In the event that we fail to obtain or renew, or encounter significant delays in obtaining or renewing, the necessary certificates and/or government approvals for any of our major property projects, we will not be able to continue with our development plans, and our business, financial condition and results of operations may be adversely affected.

The LAT calculated by the relevant PRC tax authorities may be different from our calculation of LAT liabilities for provision purposes, which may have a material adverse effect on our financial condition.

Pursuant to PRC regulations on LAT, both domestic and foreign investors in real estate development in the PRC are subject to LAT on income from the sale or transfer of land use rights, properties and their attached facilities, at progressive rates ranging from 30% to 60% on the appreciation of land value. In accordance with a circular issued by the State Administration of Taxation, which became effective on February 1, 2007, LAT obligations are required to be settled with the relevant tax bureaus within a specified time after the completion of a property development project.

We make provisions for LAT by reference to our sales recognized and in accordance with our estimates of the LAT which will be payable under relevant PRC laws and regulations. As we often develop our projects in several phases, deductible items for calculation of LAT, such as land costs, are apportioned among such different phases of development. Provisions for LAT are made on our own estimates based on, among others, our own apportionment of deductible expenses which are subject to final confirmation by the relevant tax authorities upon settlement of the LAT. For the years ended December 31, 2018, 2019 and 2020, we made LAT provisions of RMB195.6 million, RMB29.4 million and RMB74.1 million (US\$11.4 million), respectively. For the years ended December 31, 2018, 2019 and 2020, we made LAT payments of RMB132.4 million, RMB177.6 million and RMB168.4 million (US\$25.8 million), respectively. LAT liabilities are subject to determination by the tax authorities upon the completion of the property development projects and may be different from the amounts that were initially provided for. Any such differences may impact our profit after tax and deferred tax provision in the periods in which such taxes are finalized with the relevant tax authorities. Our financial condition may be materially and adversely impacted if our LAT liabilities as calculated by the relevant tax authorities are higher than our provisions.

The appraised value of our properties may be different from their actual realizable value and are subject to change, and if the actual realizable value of our properties is substantially lower than their appraised value, there may be a material adverse effect on our business, results of operation and financial condition.

The appraised value of our properties is based on multiple assumptions that include elements of subjectivity and uncertainty. The assumptions, on which the appraised value of our properties and land reserves is based, include that we sell the property interests in the market without the benefit of a deferred term contract, leaseback, joint venture, management agreement or any similar arrangement, which could serve to affect the values of the property interests; no allowance has been made for any charges, mortgages or amounts owing neither on any of the property interests valued nor for any expenses or taxation which may be incurred in effecting a sale; we have paid all land premium payments and other costs such as resettlement and ancillary utilities services in full and there is no requirement for payment of any further land premium or other onerous payments to the government; our properties are free from encumbrances, restrictions and outgoings of an onerous nature, which could affect their values. Therefore, the appraised value of our properties should not be taken as their actual realizable value or a forecast of their realizable value. Unforeseeable changes to the development of our property projects as well as national and local economic conditions may affect the value of our property holdings, and in turn materially and adversely affect our business, results of operation and financial condition.

We may not be able to complete our development projects on time, which may affect our cash flow.

Property development projects require substantial capital expenditure prior to and during the construction period for, among other things, land acquisition and construction. The construction of property projects may take over a year or longer before a positive net cash flow may be generated through pre-sales, sales, leasing or rentals. As a result, our cash flows and results of operations may be affected by our project development schedules and any changes to those schedules. The schedules of our project developments depend on a number of factors, including the performance and efficiency of our third-party contractors and our ability to finance construction. Other specific factors that could adversely affect our project development schedules include:

- natural catastrophes and adverse weather conditions;
- changes in market conditions, economic downturns and decreases in business and consumer sentiments in general;

- failure to obtain necessary licenses, permits and approvals from relevant government authorities in a timely manner;
- changes in relevant regulations, government policies and government planning;
- relocation of existing residents and/or demolition of existing structures;
- shortages of raw materials, equipment, contractors and skilled labor;
- labor disputes;
- construction accidents; and
- errors in judgment on the selection and acquisition of potential sites.

Construction delays or failure to complete the construction of a project according to our planned specifications, schedule and budget may harm our reputation as a property developer, leading to loss of or delay in recognizing revenues and lower returns. If a property project is not completed on time, the purchasers of pre-sold units of the project may be entitled to compensation for late delivery. If the delay extends beyond a certain period, the purchasers may be entitled to terminate their pre-sales agreements and claim damages. There can be no assurance that we will not experience any significant delays in completion or delivery of any of our projects in the future or that we will not be subject to any liabilities for any such delays.

We may be adversely affected by material issues that affect our relationships or business ventures with our joint venture and associated company partners.

We established joint ventures and associated companies with third parties to jointly develop property projects, and intend to continue doing so in the future. The performance of such joint ventures and associated companies may affect our results of operations and financial position. Generally, we do not expect to record gains from such joint ventures and associated companies until they start to generate revenue by delivering properties they develop.

The success of a joint venture or an associated company depends on a number of factors, some of which are beyond our control. We may not be able to force our partners to fully perform their obligations to us pursuant to our cooperation agreements. As a result, we may not be able to realize the anticipated economic and other benefits from our joint ventures and associated companies or even suffer losses. In addition, in accordance with PRC laws, our joint venture agreements and the articles of association of our joint ventures and associated companies, certain matters relating to joint ventures or associated companies may require the consent of all parties to the joint ventures and associated companies. Therefore, such joint venture agreements involve a number of risks, including that (i) we may not be able to pass certain important board resolutions requiring unanimous consent of all of the directors of our joint ventures and associated companies if there is a disagreement between us and our joint venture or associated company partners; or (ii) our joint venture or associated company partners may have economic or business interests or goals or philosophies that are inconsistent with ours.

In addition, since we may not have full control over the business and operations of our joint ventures and associated companies, we cannot assure you that they will be in strict compliance with all applicable PRC laws and regulations. We cannot assure you that we will not encounter problems with respect to our joint ventures and associated companies or our joint ventures and associated companies will not violate PRC laws and regulations, which may have an adverse effect on our business, results of operation and financial condition.

We have indebtedness and may incur additional indebtedness in the future, and we may not be able to generate sufficient cash to satisfy our existing and future debt obligations.

We currently have, and will continue to require, a substantial amount of indebtedness. Our indebtedness (including current and non-current interest-bearing bank and other borrowings, and senior notes), as of December 31, 2018, 2019 and 2020, were RMB5,645.2 million, RMB9,092.9 million and RMB12,649.2 million (US\$1,938.5 million), respectively, and our net gearing ratio was 107.2%, 77.8% and 61.2%, respectively, as of the same dates. Our indebtedness and gearing could have significant implications, including, among others:

- increasing our vulnerability to adverse general economic and industry conditions;
- requiring us to dedicate a substantial portion of our cash flow from operations to servicing and repaying our indebtedness, thereby reducing the availability of our cash flow for our business expansion, working capital and other general corporate purposes;
- limiting our flexibility in planning for or reacting to changes in our businesses and the industry in which we operate;
- placing us at a competitive disadvantage compared to our competitors with lower levels of indebtedness;
- limiting our ability to borrow additional funds; and
- increasing our cost of additional financing.

Moreover, our trust and other financings are generally secured by our equity interests in the PRC subsidiaries or lien of land use rights or development projects. If we default and cannot repay all of the secured indebtedness, we may lose part or all of our equity interests in these PRC subsidiaries, our proportionate share of the asset value of the relevant land use rights or our development projects.

In the future, we may from time to time incur substantial additional indebtedness and contingent liabilities. We might look for debt financing opportunities to support our business, including raising funds through asset-backed securities programs, corporate bonds and other debt offerings. Our ability to generate sufficient cash to satisfy our existing and future debt obligations will depend upon our future operating performance, which will be affected by, among other things, prevailing economic conditions, PRC governmental regulation, demand for properties in the regions we operate and other factors, many of which are beyond our control. We may not generate sufficient cash flow to pay our anticipated operating expenses and service our debt, in which case we will be forced to adopt an alternative strategy that may include actions such as reducing or delaying property project development, disposing of assets, restructuring or refinancing indebtedness or seeking equity capital. These strategies may not be implemented on satisfactory terms, or at all, and, even when implemented, may result in a material adverse effect on our business, results of operations and financial condition.

Our financing costs are subject to changes in interest rates.

We have incurred and are expected to continue to incur a significant amount of interest expense relating to our borrowings from banks, as well as from our trust and other financing arrangements. Accordingly, changes in interest rates have affected and will continue to affect our financing costs. Because a majority of our borrowings are in Renminbi, the interest rates on our borrowings are primarily affected by the benchmark interest rates set by the PBOC, which have fluctuated significantly in recent years. We recorded finance costs of RMB132.7 million, RMB249.8 million and RMB235.5 million (US\$36.1 million) for the three years ended December 31, 2020, respectively. Future increases in the PBOC benchmark interest rate may lead to higher lending rates, which may increase our finance costs and thereby materially and adversely affect our business, financial condition, results of operations and prospects.

The PRC government may adopt further measures to regulate financings for the real estate industry.

In August 2020, the MOHURD and the PBOC announced that they are considering new rules on capital monitoring and financing for key real estate enterprises, which would impose certain requirements on the asset-liability ratio (excluding proceeds from advance sales), net debt ratio and cash short-term debt ratio of real estate enterprises. It is unclear when and how such rules will be implemented.

On December 31, 2020, PBOC and CBRC jointly promulgated the Notice on Establishing a Centralization Management System for Real Estate Loans of Banking Financial Institutions (《關於建立銀行業金融機構房地產貸款集中度管理制度的通知》), which requires a PRC financial institution (excluding its overseas branches) to limit the amount of real estate loans and personal housing mortgage loans it lends to a

proportion calculated based on the total amount of RMB loans extended by such financial institution. A relevant financial institution will have a transition period of two years or four years to comply with the requirements depending on whether such financial institution exceeded 2.0% of the legal proportion based on the statistical data relating to such financial institution as of December 31, 2020. Under the notice, PBOC and CBRC will have the authority to take measures such as, among other things, imposing additional capital requirements on and reallocating the weight adjustments relating to the risk of real estate assets for financial institutions that fail to rectify the proportion requirements within a certain period.

There is no assurance that the PRC government will relax existing restrictive measures, impose and enhance restrictive measures, or to impose other restrictive policies, regulations or measures in the future. The existing and other future restrictive measures may limit our access to capital, reduce market demand for our products and increase our finance costs, and any easing measures introduced may also not be sufficient. If we fail to adapt our operations to new policies, regulations and measures that may come into effect from time to time with respect to the real property industry, or such policy changes negatively impact our business, our financial condition, results of operations and prospects may be materially and adversely affected.

We rely on services provided by third-party contractors. Any failure by these contractors to provide satisfactory services, or any disputes with our third-party contractors could materially and adversely affect our reputation, business, results of operations and financial condition.

We engage third parties to carry out various services relating to our property development projects, including project design, pile setting, foundation building, construction, equipment installation, elevator installation and landscaping. We generally select third-party contractors through a tender process and endeavor to engage companies with a strong reputation and track record, high performance reliability and adequate financial resources. Our third-party contractors may fail to provide satisfactory services at the level of quality or within the time required by us. In addition, completion of our property developments may be delayed, and we may incur additional costs, due to the financial or other difficulties of our contractors. If the performance of any third-party contractor is unsatisfactory, we may need to replace such contractor or take other remedial actions, which could increase the costs and adversely affect the development schedules of our projects and materially and adversely affect our reputation, credibility, financial condition and business operations. Moreover, we cannot assure you that our employees will be able to consistently apply our quality standards in carrying out quality control, and to detect all defects in the services rendered by third-party service providers or contractors. In addition, as we enter into new geographical areas in the PRC, there may be a shortage of third-party contractors that meet our quality standards and other requirements in such locations and, as a result, we may not be able to engage a sufficient number of high-quality third-party contractors, which may adversely affect the construction schedules and development costs of our property development projects. Furthermore, if our relationship with any of the third-party service providers or contractors deteriorates, a serious dispute with such third-party service provider or contractor may arise, which may in turn result in costly legal proceedings. The occurrence of any of the above events may have a material adverse effect on our business, financial condition, results of operations and prospects.

Our expansion into new geographical markets presents certain risks and uncertainties.

In order to achieve sustainable growth, we need to continue to seek development opportunities in select regions in the PRC with the potential for growth and where we have no existing operations. We may not be able to identify geographic locations with sufficient growth potential to expand our market reach or operate our new projects. For the geographic locations we select, we may face intense competition from developers with established experience or presence and from other developers with similar expansion plans. As we may face challenges not previously encountered, we may fail to recognize or properly assess risks or take full advantage of opportunities.

Furthermore, our experience in existing markets and our business model, may not be readily transferable to, and replicated in, new markets in our target cities. The property markets in our target cities may be different from each other in terms of the level of local economic and industrial development, local governmental policies and support, development phases of local businesses, market demand for our properties, types of properties to be developed and development cycles. We may have limited ability to leverage our established brands and reputation in new markets in the way we have done in our existing markets. Furthermore, the administrative, regulatory and tax environments in our target cities may be different from each other and we may face additional

expenses or difficulties in complying with new procedures and adapting to new environments in the new markets. In addition, we may not have the same level of familiarity with local governments, business practices, regulations and customer preferences as other local and more experienced property developers in such cities, which may put us in a disadvantageous position.

As we continue to expand, we will have to continue to improve our managerial, development and operational expertise and allocation of resources. To effectively manage our expanded operations, we will need to continue to recruit and train managerial, accounting, internal audit, engineering, technical, sales and other staff to satisfy our property development requirements, including staff with local market knowledge. In order to fund our ongoing operations and our future growth, we need to have sufficient internal capital sources or access to additional financing from external sources. Further, we will be required to manage relationships with a greater number of customers, tenants, suppliers, contractors, service providers, lenders and other third parties. Accordingly, we will need to further strengthen our internal controls and compliance functions to ensure that we are able to comply with our legal and contractual obligations and to reduce our operational and compliance risks. We cannot assure you that we will not experience issues such as capital constraints, construction delays and operational difficulties at new business locations. We may also experience difficulties in expanding our existing business and operations and training an increasing number of personnel to manage and operate the expanded business.

We are partially dependent on commercial property investment and operation income from our investment property portfolio.

Commercial property investment and operation income from our investment properties constitutes an important part of our business and revenue. For the three years ended December 31, 2020, the revenue of commercial property investment and operations accounted for approximately 1.0%, 0.7% and 0.5% of our total revenue, respectively. We are subject to risks incidental to the ownership and operation of commercial properties, including volatility in market rental rates and occupancy levels, competition for tenants, costs resulting from ongoing maintenance and repair and inability to collect rent from tenants or renew leases with tenants due to bankruptcy, insolvency, financial difficulties or other reasons. We may not be able to renew leases with our tenants on terms acceptable to us, or increase rental rates to the level of the then prevailing market rate, or at all, upon the expiry of the existing terms. In addition, we may not be able to enter into new leases at the rental rates expected. All these factors could negatively affect the demand for our investment properties and our rental income, which could have a material adverse effect on our business, financial condition and results of operations.

We may not be able to attract and retain quality tenants for our investment properties.

Our investment properties compete for tenants with other property developers on factors including location, quality, maintenance, property management, rental rates, services provided and other lease terms. There can be no assurance that our existing or prospective tenants will not choose other properties. Any future increase in the supply of properties which compete with us would increase the competition for tenants and, as a result, we may have to reduce rental rates or incur additional costs to make our properties more attractive. Also, we may not be able to lease our properties to a desirable mix of tenants to achieve our business objectives or for rental rates that are consistent with our projections. If we are unable to retain our existing tenants, attract new tenants to replace those that leave or lease our vacant properties, our occupancy rates may decline and our investment properties may become less attractive and competitive. This in turn may have a material adverse effect on our business, financial condition and results of operations.

We incur maintenance and operating costs in operating our investment properties, which may increase.

Our urban complexes and lifestyle and shopping centers utilize a large amount of utilities such as gas, water and electricity. We are generally not able to influence the prices which utility providers charge, nor can we easily switch to different utilities providers. Any price increase or change in the pricing structure from these utility providers could have an adverse effect on our operating costs. As a result, increases in the prices of products and services which we procure to maintain our services to our tenants and guests could increase our operating costs if we are not able to pass these higher costs on to our customers.

In addition, operating investment properties and other associated facilities, involves a significant amount of fixed costs, including maintenance and upkeep costs as well as employee and staff salaries and expenses. These fixed costs limit our ability to respond to adverse market conditions by minimizing costs. Such limitations may have an adverse impact on our profitability when the property leasing industry experiences a downturn and may exacerbate the impact of a decline in occupancy rates and rental rates. Any significant increase in maintenance costs and operating costs may have a material adverse effect on our business, financial condition, results of operations and prospects.

We face certain risks of defects or deficiencies in connection with our investment properties and any accidents, injuries or prohibited activities in our investment properties may adversely affect our reputation and subject us to liability.

Our investment properties may have defects or deficiencies requiring significant capital expenditures, repair or maintenance expenses or payment of other obligations to third parties. If any of our investment properties has design, construction or other latent property or equipment defects, repairs, maintenance or, if necessary, replacements may need to be carried out to rectify these defects. In addition, wear and tear of our investment properties or adverse weather conditions could result in defects requiring repairs or replacement. Such defects and/or the repair, maintenance or replacement works carried out to rectify them could increase our costs and could have an adverse effect on the operations of our investment properties and/or the attractiveness to tenants and guests of such investment properties.

There are inherent risks of accidents, injuries or prohibited activities (such as illegal drug use, gambling, violence or prostitution by guests and infringement of third parties' intellectual property or other rights by our tenants) taking place in public places, such as shopping malls. The occurrence of one or more accidents, injuries or prohibited activities at any of our investment properties could adversely affect our reputation among customers and guests, harm our brand, decrease our overall rents and increase our costs by implementing additional requisite safeguard measures. In addition, if accidents, injuries or prohibited activities occur at any of our investment properties, we may be held liable for costs, damages and fines. Our current property and liability insurance policies may not provide adequate or any coverage for such losses and we may be unable to renew our insurance policies or obtain new insurance policies without increases in premiums and deductibles or decreases in coverage levels, or at all.

Our investment properties may encounter temporary closures, reduced turnover or lower occupancy rates as a result of repairs, refurbishments and/or the redevelopment or renovation of the properties or neighboring properties.

Our investment properties may require repairs and refurbishments which may require significant capital expenditures. Our investment properties may need to undergo redevelopment or renovation works from time to time to retain their attractiveness and may also require maintenance or repairs. Such repairs, refurbishments, redevelopments or renovations of our investment properties may impact on our ability to attract tenants at our investment properties. In some circumstances, such repairs, refurbishments, redevelopments or renovations may require the temporary closure of an investment property or certain facilities within our investment properties. As a result, during the period of any such repairs, refurbishments, redevelopments or renovations, we may experience a reduction in the occupancy rates and/or rental income of the investment properties.

Furthermore, buildings neighboring any of our investment properties may be demolished or redeveloped for alternative uses, which may cause disruption to our investment properties. This may in turn negatively impact the revenue, attractiveness and valuation of our investment properties. Furthermore, any development or redevelopment of neighboring properties could add properties that compete with our investment properties. The occurrence of any of the above circumstances could have a material adverse effect on our business, financial condition, results of operations and prospects.

The illiquidity of investment properties and the lack of alternative uses of investment properties may significantly limit our ability to respond to adverse changes in the performance of our investment properties.

Because property investments in general are relatively illiquid, our ability to promptly sell one or more of our investment properties in response to changing economic, financial and investment conditions is limited. The property market is affected by various factors, such as general economic conditions, availability of financing, interest rates and supply and demand, many of which are beyond our control. We cannot predict whether we will be able to sell any of our investment properties for the price or on the terms set by us, or whether

any price or other terms offered by a prospective purchaser would be acceptable to us. We also cannot predict the length of time needed to find a purchaser and to complete the sale of a property. Moreover, we may also need to incur capital expenditure to manage and maintain our properties or to correct defects or make improvements to these properties before selling them. We cannot assure you that financing for such expenditures would be available when needed, or at all. In addition, if we sell an investment property during the term of that property's tenancy agreement, we may have to pay termination fees to our retail tenants.

Furthermore, the aging of investment properties, changes in economic and financial conditions or changes in the competitive landscape in the PRC property market may adversely affect the amount of rentals and revenue we generate from, as well as the fair value of, our investment properties. However, investment properties may not be readily converted to alternative uses, as such conversion requires extensive governmental approvals in the PRC and involves substantial capital expenditures for the purpose of renovation, reconfiguration and refurbishment. We cannot assure you that we will possess the necessary approvals and sufficient funds to carry out the required conversion. These factors and any others that would impede our ability to respond to adverse changes in the performance of our investment properties could affect our ability to compete against our competitors and our results of operations.

We guarantee mortgage loans of certain of our customers and may become liable to mortgage banks if customers default on their mortgage loans.

We derive a substantial portion of our revenue from sales of our properties. Most purchasers of our properties apply for bank borrowings and mortgages to fund their purchases. In accordance with industry practice, banks require us to guarantee mortgage loans taken out by purchasers of the properties that we develop. Typically, we guarantee the full value of mortgage loans taken out by purchasers, as well as accrued interest and penalties for defaults in mortgage payments, up until the issuance of the relevant property ownership certificates and the registration of the mortgage in favor of the mortgagee bank. These are contingent liabilities not reflected on our balance sheets. If a purchaser defaults on a mortgage loan, we may be required to repurchase the underlying property by paying off the mortgage. If we fail to do so, the mortgagee bank may auction the underlying property and recover any additional amount outstanding from us as the guarantor of the mortgage loans. In line with industry practice, we do not conduct any independent credit checks on our customers and rely on the credit evaluations conducted by the mortgage banks for such customers.

As of December 31, 2020, our outstanding guarantees in respect of the residential mortgages of our customers amounted to RMB4,497.5 million (US\$689.3 million). However, should any material default occur and if we were called upon to honor our guarantees, our financial condition and results of operations could be adversely affected.

The total GFA of some of our property developments may be different from the original authorized area.

Government grants of land use rights for a parcel of land specify in the land grant contract the permitted total GFA that the developer may develop on the land. In addition, the total GFA is also set out in the relevant urban planning approvals and construction permits. However, the actual GFA constructed may be different from the total GFA authorized in the land grant contract or relevant construction permits due to factors such as subsequent planning and design adjustments. The actual GFA may be subject to approval when the relevant authorities inspect the properties after completion. The developer may be required to pay additional land premium and/or administrative fines or take corrective actions in respect of the adjusted land use and excess GFA before a completion certificate (工程竣工验收备案表) can be issued to the property developer. Until the completion certificate is issued, we would not be able to deliver individual units to purchasers or to recognize the related pre-sale proceeds as revenue. The methodology for calculating the additional land premium is generally the same as the original land grant contract. If issues related to excess GFA cause delays in the delivery of our products, we may also incur liability to purchasers under our sales and purchase agreements. There can be no assurance that the constructed total GFA for each of our existing projects under development or any future property developments will not exceed permitted total GFA. Any of these factors may adversely affect our business.

We are exposed to contractual and legal risks related to pre-sales, which could have a material adverse effect on our business, financial condition and result of operations.

We make certain undertakings in our pre-sale contracts, and our pre-sale contracts and PRC laws and regulations provide for remedies for breach of these undertakings. For example, if we fail to complete a pre-sold property on time, we may be liable to the relevant customers for such late delivery under the relevant pre-sale

contracts or pursuant to relevant PRC laws and regulations. If our delay extends beyond a specified period, the purchasers may terminate their pre-sale contracts and claim for damages. A customer may also terminate his or her contract with us and/or bring claims for compensation for certain other contractual disputes, including, for example, if the GFA of the relevant unit, as set out in the individual building ownership certificate, deviates by more than 3% from the GFA of that unit as set out in the contract; if the floor plan of the relevant unit is different from what is set out in the contract and adversely affects the quality and functionality of the unit; if the interior decoration of the relevant unit is inferior to what is set out in the contract; or if the customer fails to receive the individual property ownership certificate within a statutory period due to our fault. Any of such factors could have a material adverse effect on our business, financial condition and results of operations. Though we are typically entitled to claim damages from the third-party contractors if such breaches are due to their fault, we cannot assure you that the damages we recoup will fully compensate our losses.

Changes of PRC laws and regulations with respect to pre-sales may adversely affect our business.

We depend on cash flows from pre-sales of properties as an important source of funding for our property developments. Under current PRC laws and regulations, property developers must fulfill certain conditions before they can commence pre-sales of the relevant properties and pre-sales proceeds may only be used to finance the related development. Any ban or additional restrictions on pre-sales may require us to seek alternative sources of funding to finance our developments, and if sufficient alternative funding is not available to use on attractive terms, or at all, our cash flow and prospects, and business, results of operations and financial condition could be materially and adversely affected.

We may be liable to our customers for damages if individual property ownership certificates are not delivered to our customers in a timely manner due to our fault.

Property developers in the PRC typically assist purchasers of property to obtain the relevant individual property ownership certificates within a time frame set out in the relevant property sale and purchase agreement, or in the absence of such time frame, within 90 days of delivery of the property if the construction of the property purchased has not been completed, or within 90 days of execution of the agreement if the construction of the property purchased has been completed. Property developers, including us, generally elect to specify the deadline for the delivery in the property sale and purchase agreements to allow sufficient time for the application and approval processes.

Under current regulations, we are required to submit requisite governmental approvals in connection with our property developments, including land use rights documents and planning permits, to the local bureau of land resources and housing administration after receipt of the completion and acceptance certificate for the relevant properties and to apply for the property ownership initial registration in respect of these properties.

We are then required to submit after delivery of the properties, the relevant property sale and purchase agreements, identification documents of the purchasers, proof of payment of deed tax, for the relevant local authority's review and the issuance of the individual property ownership certificates in respect of the properties purchased by the respective purchasers. Delays by the various administrative authorities in reviewing the application and granting approval as well as other factors may affect timely delivery of the general as well as individual property ownership certificates. We cannot assure you that we will not incur material liability to purchasers in the future for the late delivery of individual property ownership certificates due to our fault or for any reason beyond our control.

The property development business is subject to claims under statutory quality warranties, and if a number of claims are brought against us under our warranties, our reputation, business, results of operation and financial condition may be materially and adversely affected.

Under the Regulations on Administration of Development and Operation of Urban Real Estate (《城市房地產開發經營管理條例》) enacted by the State Council on July 20, 1998 and amended on January 8, 2011, March 24, 2019 and March 27, 2020, and the Regulation for the Administration of Sales of Commodity Buildings (《商品房銷售管理辦法》), which went into effect on June 1, 2001, all property developers in the PRC must provide certain quality warranties for the properties they construct or sell. We are required to provide these warranties to our customers. Generally, we receive quality warranties from third-party contractors with respect to our property projects. If a large number of claims were brought against us under our warranties and if we were unable to obtain reimbursement for such claims from third-party contractors in a timely manner or at all, or if the money retained by us to cover our payment obligations under the quality warranties was not sufficient, we could incur expenses to resolve such claims or face delays in remedying the related defects, which could in turn harm our reputation, and adversely affect our business, financial condition and results of operations.

We may be subject to fines or forfeit land to the PRC government if we fail to pay land grant premium or fail to develop properties within the time and in accordance with the terms set out in the relevant land grant contracts.

Under PRC laws, if we fail to develop a property project according to the terms of the land grant contract, including those relating to the payment of land premium, resettlement and demolition costs and other fees, the designated use of the land and the time for commencement and completion of the property development, government authorities may issue a warning, impose a penalty and/or order us to forfeit the land. Specifically, under current PRC laws, if we fail to pay any outstanding land grant premium by the stipulated deadlines, we may be subject to late payment penalties or the repossession of the land by the government. If we fail to commence development within one year of the commencement date stipulated in the land grant contract, the relevant PRC land bureau may issue a warning to us and impose an idle land fee on the land equal to 20% of the land premium. If we fail to commence development within two years from the commencement date stipulated in the land grant contract, the relevant PRC land bureau may confiscate our land use rights without compensation, unless the delay in the development is caused by government action or is due to a force majeure. Moreover, if a property developer commences development of the property in accordance with the timeframe stipulated in the land grant contract but, suspends for more than one year and falls under either of the following two situations (i) the developed land area is less than one-third of the total land area, or (ii) the total invested capital is less than one fourth of the total planned investment in the project, the land may be treated as idle land and will be subject to the risk of forfeiture.

In September 2007, the Ministry of Land and Resources issued a new notice to further enhance control of the land supply by requiring developers to develop land according to the terms of the land grant contracts and restricting or prohibiting any non-compliant developers from participating in future land auctions. In January 2008, the State Council issued a Notice of the State Council on Promoting Land Saving and Efficient Use (《國務院關於促進節約集約用地的通知》) to escalate the enforcement of existing rules on idle land management. Furthermore, the Ministry of Land and Resources issued a Notice on Restricting the Administration of Construction Land and Promoting the Use of Approved Land (《關於嚴格建設用地管理促進批而未用土地利用的通知》) in August 2009, which reiterated the applicable rules with regard to idle land management. On June 1, 2012, the Ministry of Land and Resources promulgated the revised Measures on the Disposal of Idle Land (《閒置土地處置辦法》), which went into effect July 1, 2012. These further measures may prevent competent land authorities from accepting any application for new land use rights or processing any title transfer transaction, lease transaction, mortgage transaction or land registration application with respect to idle land prior to the completion of the required rectification procedures.

We cannot assure you that circumstances leading to the repossession of land or delays in the completion of a property development will not arise in the future. If our land is repossessed, we will not be able to continue our property development on the forfeited land, recover the costs incurred for the initial acquisition of the repossessed land or recover development costs and other costs incurred up to the date of the repossession. In addition, we cannot assure you that regulations relating to idle land or other aspects of land use rights grant contracts will not become more restrictive or punitive in the future. If we fail to comply with the terms of any land use right grant contract as a result of delays in project development, or as a result of other factors, we may lose the opportunity to develop the project, as well as our past investments in the land, which could materially and adversely affect our business, financial condition and results of operations.

If we are unable to successfully retain the services of our current personnel and hire, train and retain senior executives or key personnel, our ability to develop and successfully market our products may be impaired.

The success and growth of our business has depended significantly on our ability to identify, hire, train and retain suitable employees with capable skills and qualifications, including management personnel with relevant professional skills. We rely on them to continue to develop our business. We provide incentives to attract and retain management and experienced personnel to meet the future development needs. In addition, if any Director or any member of our senior management team or any of our other key personnel joins a competitor or carries on a competing business, we may lose customers and additional key staff members. However, as the competition is fierce in China for senior management and key personnel with extensive experience in property development, if a large number of directors and senior management resign, and we fail to find a suitable candidate, our business may be adversely affected.

Potential liability for health and environmental problems could result in delay in the development of our properties.

We are subject to a variety of laws and regulations concerning the protection of health and the environment. As required by PRC laws, independent environmental consultants have conducted environmental impact assessments at all of our construction projects and environmental impact assessment documents were submitted to the relevant government authorities for approval before commencement of construction. The local authorities may request a developer to submit the environmental impact documents, issue orders to suspend the construction and impose a penalty for a project where environmental impact assessment documents have not been approved before commencement of construction.

As required by PRC laws and regulations, property projects with GFA in excess of 50,000 sq.m. or in environmentally sensitive regions or areas are required to undergo environmental assessments and the related assessment document must be submitted to the relevant government authorities for approval before commencement of construction. For other property projects, we are required to file the environmental impact registration form for record-filing. If we failed to meet such requirements, local authorities may issue orders to stop construction and based on the circumstances of the violation and the consequences thereof, impose on us a fine of between one to five percent of the total investment amount of the project, and may also issue orders to restore the original conditions before the construction; and the persons directly in charge and other directly responsible persons of us shall be subject to administrative sanctions under the law. After the completion of construction, we are required to make an acceptance check of the environmental protection facilities and prepare an acceptance report according to the standards and procedures stipulated by the competent administrative department of environmental protection under the State Council. When making an acceptance check of environmental protection facilities, we are required not to commit fraud. We are also required to make the acceptance report publicly available in accordance with the law unless we are required to keep confidential according to national provisions. If we cannot make an acceptance check of environmental protection facilities in due course, the development of our projects may be delayed.

We may be subject to fines due to the lack of registration of our leases.

Pursuant to the Administrative Measures for Commodity House Leasing (商品房屋租賃管理辦法), which became effective on February 1, 2011, parties to a lease agreement are required to file the lease agreements for registration and obtain property leasing filing certificates for their leases. We lease certain properties from third parties mainly for our office use. The failure to register the lease agreements does not affect the validity of the lease agreements under the relevant PRC laws and regulations. However, there can be no assurance that legal disputes or conflicts concerning such leases and tenancies will not arise in the future. In addition, as advised by our PRC Legal Adviser we may be required by relevant government authorities to file the lease agreements for registration and may be subject to a fine for non-registration within the prescribed time limit, which may range from RMB1,000 to RMB10,000 per lease agreement. The occurrence of any of the above conflicts or disputes or the imposition of the above fines could require us to make additional efforts and/or incur additional expenses, any of which could materially and adversely impact our business, financial condition and results of operations. The registration of these lease agreements to which we are a party requires additional steps to be taken by the respective other parties to the lease agreement which are beyond our control. There can be no assurance that the other parties to our lease agreements will be cooperative and that we can complete the registration of these lease agreements and any other lease agreements that we may enter into in the future.

Our current insurance coverage may not be adequate to cover all risks related to our operations.

Consistent with what we believe to be the industry norm for the property development industry in the PRC, we do not maintain insurance coverage against destruction of or damage to our properties, no matter whether they are under development or held for sale other than those over which our lending banks have securities interests or for which we are required to maintain insurance coverage under the relevant loan agreements. In addition, we do not maintain insurance against any liability arising from allegedly tortious acts committed on our work sites. If we suffer any losses, damages or liabilities in the course of our business operations, we may not have adequate insurance coverage to provide sufficient funds to cover any such losses, damages or liabilities or to replace any property that has been destroyed. Therefore, there may be instances when we will sustain losses, damages and liabilities because of our lack of insurance coverage, which may in turn adversely affect our financial condition and results of operations.

Our operations are dependent on a limited number of major suppliers.

Our suppliers are mainly construction contractors and construction material suppliers. During the three years ended December 31, 2020, we were dependent on a limited number of major suppliers to operate our businesses. If a large number of our current major suppliers decide to terminate business relationships with us or, if the services or raw materials supplied by our current suppliers fail to meet our standards, or if our current service or raw material supplies are interrupted for any reason, we may not be able to easily switch to other qualified suppliers in a timely manner, which may materially and adversely affect our business and financial results.

We may be involved in legal and other disputes arising out of our operations and may face significant liabilities as a result.

We may be involved from time to time in disputes with various parties involved in the development and the sale of our properties, including (without limitation) contractors, suppliers, construction workers, original residents, partners, banks and purchasers. These disputes may lead to protests and may result in damage to our reputation, substantial costs and diversion of resources and management's attention. As most of our projects are comprised of multiple phases, purchasers of our properties in earlier phases may commence legal actions against us if our subsequent planning and development of the projects are perceived to be inconsistent with our representations and warranties made to such earlier purchasers. In addition, we may have compliance issues with regulatory bodies in the course of our operations, which may subject us to administrative proceedings and unfavorable decrees that result in liabilities and cause delays to our property developments. See "Business — Legal Proceedings and Compliance — Legal Proceedings." We may be involved in other proceedings or disputes in the future that may have an adverse effect on our business, financial condition, results of operations or cash flows.

We may be exposed to intellectual property infringement, misappropriation or other claims by third parties and deterioration in our brand image which could adversely affect our business.

We believe that we have built an excellent reputation in our markets for the quality of our various product series. We have also placed great importance on the continuous enhancement of our brand name and the increase in our brand recognition. Brand value, which is based largely on consumer perceptions with a variety of subjective qualities, can be damaged even by isolated business incidents that degrade consumers' trust. Consumer demand for our properties and our brand value could diminish significantly if we fail to preserve the quality of our properties, fail to deliver a consistently positive consumer experience, are exposed to intellectual property infringement claims or are perceived to act in an unethical or socially irresponsible manner. Any decrease in brand value, or any failure to establish our brand in provinces and cities in which we currently operate, may have a material adverse effect on our business, financial condition and results of operations.

Our brand strategy also depends on our ability to use, develop and protect our intellectual properties, such as our trademarks. We have not successfully registered all of our trademarks in China or elsewhere. For instance, we use the brand names “大發” or “大發地產” to carry out our business in China. We have registered them as trademarks in the PRC on May 28, 2018. We cannot assure you that we will not be subject to trademark litigation or disputes in the future. The defense and prosecution of intellectual property lawsuits and related legal and administrative proceedings can be both costly and time-consuming and may significantly divert our resources and the time and attention of our management personnel. An adverse ruling in any such litigation or proceedings could subject us to significant liabilities to third parties, require us to seek licenses from third parties and to pay ongoing royalties, or subject us to injunctions prohibiting the use of such name and/or logo.

The applications for the registration of certain trademarks are still being processed and they may not be able to be registered on a timely basis or at all.

We have engaged professional parties to prepare the registration of certain trademarks. Based on our experience with the registration process of trademarks, the process in the PRC is lengthy and may take up to twenty four months while the process in Hong Kong may take up to nine months. Furthermore, these trademarks may not be approved for registration. If the applications for registration of these trademarks are not completed on a timely basis or at all, we may not be able to commence legal actions to protect these trademarks from unauthorized use. In such an event, our image and our strategy to develop our brand may be adversely affected.

We may be subject to fines or penalties if we fail to comply with any applicable laws, rules or regulations.

Historically, we experienced certain non-compliance incidents. For example, we commenced or proceeded with construction work with respect to certain of our property projects before completing requisite administrative procedures and/or obtaining requisite permits. We commenced construction work with respect to certain of our property projects before being reviewed by the administrative department of planning. We also experienced non-compliance in connection with violation of advertising law and pricing issues. We were subject to penalties or ordered to rectify such non-compliances, as the case may be. There is no assurance that our internal control measures will be effective and there will not be any non-compliance incidents in the future. In addition, PRC laws, rules or regulations governing our industry have been evolving rapidly, and we cannot assure you that we will not be subject to fines or penalties arising from non-compliance incidents if we fail to adapt to the new regulatory regime in a timely manner, or at all, which may have a material adverse effect on our business, financial condition and results of operations.

We may not be able to prevent or detect actions by our employees or agents which violate applicable anti-corruption laws and regulations.

Bribery and other misconduct by our employees or agents may be difficult to prevent or to detect on a timely basis, or at all. Although we have put in place relevant internal control measures aimed at preventing our employees and agents from engaging in conduct which would violate applicable anti-corruption laws and regulations, there can be no assurance that we will be able to prevent or detect such misconduct. Such misconduct by our employees or agents could subject us to financial losses and harm its business and operations. In addition to potential financial losses, such misconduct could subject us to third party claims and regulatory investigations. Any of the foregoing could have a material adverse effect on our business, financial condition, results of operations and prospects.

If we fail to implement effectively our risk management and internal control policies and procedures, our business and prospects may be materially and adversely affected.

We continually enhance our risk management and internal control policies and systems as part of a continuous effort to improve our risk management capabilities and enhance our internal controls. However, we cannot assure you that our risk management and internal control policies and procedures will adequately control or protect us against all risks. Some of these risks are unforeseeable or unidentifiable and may be more severe than what we may anticipate.

Our risk management capabilities and ability to effectively monitor legal compliance and other risks are restricted by the information, tools, models and technologies available to us. Moreover, our employees will require time to adjust to these policies and procedures and we cannot assure you that our employees will be able to consistently comply with or accurately apply them. If our risk management and internal control policies, procedures and systems fail to be implemented effectively, or if the intended results of such policies, procedures and systems are not achieved in a timely manner (including our ability to maintain an effective internal control system), our business, financial condition, results of operations and reputation may be materially and adversely affected.

False advertising of our properties may lead to penalties, undermine our sales and marketing efforts, deteriorate our brand name, and have a material adverse effect on our business.

As a property developer in the PRC, we are subject to a variety of laws and regulations concerning the marketing and promotion of our property development projects, our business and our brand image. If any of our advertisements are considered to be untruthful, we will be subject to penalties and will be required to cease publishing the advertisements and eliminate adverse effects by publishing notice in the same media or in media with equivalent significance to correct the previous false advertisements and clarify the truth. In addition, any false advertising may cast doubt on our other disclosure, advertisements, filings and publications, and may deteriorate our brand name and reputation and consequently materially and adversely affect our business, financial condition and results of operations.

Negative publicity may adversely affect our business, financial condition, results of operations and prospects.

We may be subject to and associated with negative publicity, including those on the Internet, with respect to our corporate affairs and conduct related to our personnel, the real estate market we operate or intend to operate. We may also be subject to negative reports or criticisms by various media. We make no representation

as to the appropriateness, accuracy, completeness or reliability of any such information or publication. Nonetheless, any negative coverage, whether or not related to us or our related parties and regardless of truth or merit, may have an impact on our reputation and consequently, may undermine the confidence of our customers and investors in us, which may in turn materially and adversely affect our business, financial condition, results of operations and prospects.

RISKS RELATING TO OUR INDUSTRY

Our operations are subject to extensive government policies and regulations and we are particularly susceptible to adverse changes in policies relating to the PRC property industry in regions in which we operate.

Our business is subject to extensive governmental regulation and, in particular, we are sensitive to policy changes in the PRC property sector. The PRC government exerts considerable direct and indirect influence on the growth and development of the PRC property market through industry policies and other economic measures, such as setting interest rates, controlling the supply of credit by changing bank reserve ratios and implementing lending restrictions, increasing tax and duties on property transfers and imposing restrictions on foreign investment and currency exchange. Since 2004, the PRC and local governments introduced a series of regulations and policies designed to generally control the growth of the property market, including, among others:

- strictly enforcing the idle land-related laws and regulations;
- restricting the grant or extension of revolving credit facilities to property developers that hold a large amount of idle land and vacant commodity properties;
- prohibiting commercial banks from lending funds to real estate developers with an internal capital ratio lower than certain prescribed percentage;
- restricting PRC commercial banks from granting loans to property developers for the purpose of paying land grant premiums;
- limiting the maximum amount of monthly mortgage and the maximum amount of total monthly debt service payments of an individual borrower;
- tightening the grant of trust financing to property developers to control the scale and growth of real estate financing;
- imposing a business tax levy on the sales proceeds for second-hand transfers subject to the length of holding period and type of properties;
- raising the minimum percentage of down payment of the purchase price of the residential property of a family;
- restricting purchasers from acquiring second and more residential properties and imposing property purchase restrictions on non-local residents who cannot provide any proof of local tax or social security payments for more than a specified time period in certain cities; and
- restricting the availability of individual housing loans in the property market to individuals and their family members with more than one residential property, and raising interest rates of such loans.

These and other measures, including additional requirements for pre-sales and restricting the use of funds raised by pre-sales, made the properties we developed more costly, unattractive or even unavailable to certain of our customers. In addition, since January 2010, policies implemented by the PRC government with regard to bank loans and trust financing arrangements for property development projects have had, and may continue to have, a dampening effect on the property markets in which we operate. These measures resulted in downward pressure on the PRC property market starting in the second half of 2011 and reduced transaction volumes in the first quarter of 2012.

Following the market fluctuations in the face of temporary easing of some restrictions by local governments in the second and third quarters of 2012, the property price and transaction volume increased in the last quarter of 2012 and the first quarter of 2013. On February 26, 2013, the General Office of the State Council announced the Notice on Further Regulation of the Real Estate Market (《國務院辦公廳關於繼續做好房地產市場調控工作的通知》). According to such notice, local governments shall increase the supply of housing properties and lands, and set price control targets in cities with rapidly increasing property prices. In addition, the notice also requires the local government to strictly implement existing purchase restrictions and differentiated credit policies with regard to the down payment ratios and interest rates for mortgages for second and more residential property. If the property price increases too quickly, the local government may further increase interest rates and down payment ratio for mortgages for second and more properties. For cities with existing purchase restrictions, the city municipals shall impose further restrictions. For cities with no purchase restrictions, the provincial governments must require these cities to promptly adopt purchase restrictions. The tax, building and construction authorities are required to coordinate to ensure that the 20% individual income tax on the difference between the sales proceeds and the original purchase price for the sale of second-hand properties is strictly implemented. These policies aim to serve to restrain the trend of excessive increase in housing prices. At the end of 2013, a new round of policies aiming at promoting affordable housing and discouraging speculative investments in residential properties was announced in a number of large cities in China, including Beijing, Shanghai, Guangzhou, Shenzhen, Zhengzhou, Nanchang, Fuzhou, Xiamen, Nanjing and Hangzhou.

The PRC government has eased certain restrictive measures starting in the third quarter of 2014 to foster the growth of the residential property market in China, encourage transactions and reduce idle housing inventories. However, such measures have resulted in signs of overheating in the property markets in first-and certain second-tier cities. As a response, in certain first-and second-tier cities including Shanghai, Shenzhen, and Suzhou, local governments have again enhanced restrictive measures such as raising the minimum percentage of down payment of the purchase price of the second and more residential property of a family, requiring longer social insurance records in such cities for citizens whose household registration were not in such cities, and restriction on the percentage of price increases by real estate developers during a year. In 2015, the PRC government raised percentage of down payment and changed the calculation base of business tax concerning transfer of individual housing, pursuant to which, where an individual sells a property purchased within two years, business tax shall be levied on the full amount of the sales income; where an individual sells a non-ordinary property that was purchased more than two years ago, business tax shall be levied on the difference between the sales income and the original purchase price of the house; the sale of an ordinary residential property purchased by an individual more than two years ago is not subject to such business tax. In 2016, such tax policies have been further refined. The Wuhu Housing Provident Fund Management Center (蕪湖市住房公積金管理中心) issued the Notice on Adjustment of Policies for Housing Provident Fund (《關於調整住房公積金貸款政策的通知》) in December 2017, imposing restrictions on mortgage loans. It lists that applications for provident fund loans are prohibited for residents who have paid provident funds in other cities, except for the residents involved in talent-introduction program in Wuhu. In addition, it reduces the maximum amount of second-time provident fund loans.

On February 13, 2017, the Asset Management Association of China issued Circular 4 of Regulation for Registration Management of Private Asset Management Plan by Securities and Future Institutions (the “Circular 4”). The Circular 4 provides that any private equity and asset management plan that is adopted to make either direct or indirect investment into any ordinary residential property project located in certain PRC cities where the property price rises too fast shall not be filed for a record temporarily. Such cities currently include 16 major cities in the PRC, such as Shanghai, Hefei, Nanjing, Suzhou, Tianjin, Fuzhou, Wuhan and Zhengzhou, and the list of such cities may be updated from time to time in the future according to the relevant regulations of the Ministry of Housing and Urban-Rural Development of the PRC. According to the Circular 4, a private equity and asset management plan shall neither be used to finance any real estate developer, by means of bank entrusted loans, trust plans, or usufruct of transferee assets, for the purpose of paying the price of land grant or supplementing the working capital, nor be used to directly or indirectly facilitate any violation or illegality of various institutions’ granting of loans for down payments.

Local governments in Shanghai and Ningbo have introduced further policies to restrain property purchases for specialization purposes and prevent property prices from rising too quickly. Such policies include raising the minimum percentage of down payment of the purchase price, setting the minimum interest rate for personal mortgage loans, setting a credit cap for housing provident fund loans and strictly restricting purchasers

from acquiring second and more residential property and selling properties owned for less than five years. The Shanghai Municipal People's Government (上海市人民政府) rolled out further tightening measures to control the residential property market on November 28, 2016, announcing: (i) increased down payment requirements for first-time home buyers from 30% to 35% while the term "first-time home buyers" has been restricted to include only those who do not own any homes in Shanghai, and who have never applied for mortgage loans from either commercial banks or public housing funds; and (ii) residents who do not own a home in Shanghai but who have applied for mortgage loans will be treated as second-home buyers, with an increase in down payment requirements from 30% to 50% (if purchasing ordinary housing) or 70% (if purchasing non-ordinary housing). The General Office of Ningbo Municipal People's Government (寧波市人民政府辦公廳) issued the Notice on Maintaining and Promoting Smooth Operation of the Real Estate Market in Ningbo (《關於保持和促進我市房地產市場平穩運行的通知》) on April 23, 2017 imposing restrictions on property purchasing and mortgage loans in certain areas including: (i) local residents with two or more residential properties, non-local residents with one or more residential properties or those fail to prove they have paid taxes or social insurance in Ningbo for one year within two years from the purchasing date in Haishu, Jiangbei and Yinzhou districts are not allowed to purchase residential properties in the purchasing restricted areas; (ii) increased down payment requirements for first-time home buyers from 20% to 30%; and (iii) increased down payment requirements for second-time home buyers applying for mortgage loans from 30% to 40% in the purchasing restricted areas. The restrictions policies on property purchasing in Ningbo were further strengthened by the local government since October 1, 2017 announcing that non-local residents with one or more residential properties or those who fail to prove they have paid taxes or social insurance in Ningbo for 24 consecutive months within three years from the purchasing date in Haishu, Jiangbei and Yinzhou districts are not allowed to buy residential properties in the purchasing restricted areas.

On April 1, 2017, the Ministry of Land and Resources and Ministry of Housing and Urban-Rural Development issued the Circular of the Ministry of Housing and Urban-Rural Development and the Ministry of Land and Resources on Tightening the Management and Control over Intermediate Residential Properties and Land Supply (《住房城鄉建設部、國土資源部關於加強近期住房及用地供應管理和調控有關工作的通知》). To maintain a housing supply-demand balance, cities facing serious demand over supply and overheating market shall increase the supply of housing land, especially for ordinary commercial houses; and cities with excessive housing supply shall reduce or suspend the land supply for housing. All the local governments shall build inspection systems to monitor the source of funds for land acquisition to ensure that the real estate developers use their own legal funds to purchase lands. These measures reduced the transaction volumes in certain major cities in the PRC in the second quarter of 2017.

In 2017, the Notice on Further Adjustment of Housing Purchases Limitation by General Office of Nanjing Municipal People's Government (《市政府辦公廳關於進一步調整我市住房限購政策的通知》) was issued. The sales of residential properties to non-first home buyers who are not local residents in Liuhe district, Lishui district and Gaochun district are not allowed. The sales of residential properties to home buyers who own more than one home are not allowed in main districts except Liuhe district, Lishui district and Gaochun district.

The General Office of Anqing Municipal People's Government (安慶市人民政府辦公廳) issued the Notice on Adjusting Policies Related to Provident Fund Loan (《關於調整住房公積金貸款政策的意見》) in November 2017 setting limitations on home purchases. For residents who have paid off their first provident fund loan and apply for a second provident fund loan to buy commercial houses, the minimum down payment ratio increases from 30% to 40%. Applications for provident fund loan are prohibited for residents who already have applied for provident fund in other cities.

There is no assurance that the PRC government will relax existing restrictive measures, impose and enhance restrictive measures, or impose other restrictive policies, regulations or measures in the future. The existing and other future restrictive measures may limit our access to capital, reduce market demand for our products and increase our finance costs, and any easing measures introduced may also not be sufficient. If we fail to adapt our operations to new policies, regulations and measures that may come into effect from time to time with respect to the real property industry, or such policy changes negatively impact our business, our financial condition, results of operations and prospects may be materially and adversely affected.

We face intense competition, which may materially and adversely affect our business, results of operation and financial condition.

The property market in Shanghai and other parts of the Yangtze River Delta Region has been highly competitive in recent years. Property developers from the PRC and overseas have entered the property development markets in the region where we have operations and those into which we may enter in the future. Our competitors include overseas listed foreign developers and top-tier domestic developers and they may have better access to resources, in particular financial resources than us. Competition among property developers may cause an increase in land costs and raw material costs, shortages in quality construction contractors, temporary local market surpluses in property supply leading to property price declines, and higher costs to attract or retain talented employees, thereby affecting our profitability. If we fail to compete effectively, our business, financial condition, results of operations and prospects may be materially and adversely affected.

RISKS RELATING TO CONDUCTING BUSINESS IN THE PRC

PRC economic, political and social conditions as well as government policies could affect our business.

The economy of the PRC differs from the economies of most developed countries in many respects, including but not limited to structure, level of government involvement, level of development, growth rate, control of foreign exchange, and allocation of resources.

While the PRC economy has grown significantly in the past 30 years, growth has been uneven, both geographically and among the various sectors of the economy. The PRC government has implemented various measures to encourage economic growth and guide the allocation of resources. Some of these measures benefit the overall PRC economy, but may also negatively affect our operations. For example, our financial position and results of operations may be adversely affected by the PRC government's control over capital investment or any changes in tax regulations or foreign exchange controls that are applicable to us.

The PRC economy has been transitioning from a planned economy to a market-oriented economy. For the past three decades, the PRC government has implemented economic reform measures emphasizing the utilization of market forces in the development of the PRC economy. Many of the economic reforms carried out by the PRC government are unprecedented or experimental and are expected to be refined and improved over time. The PRC economy has grown significantly in recent decades, but we cannot assure you that this growth will continue or continue at the same pace. In addition, demand for our services and our business, financial position and results of operations may be adversely affected by (i) political instability or changes in social conditions in the PRC, (ii) changes in laws, regulations or policies or the interpretation of laws, regulations or policies, (iii) measures which may be introduced to control inflation or deflation, (iv) changes in the rate or method of taxation, and (v) imposition of additional restrictions on currency conversion and remittances abroad.

In May 2017, Moody's downgraded China's sovereign credit rating for the first time since 1989 and changed its outlook from stable to negative, citing concerns on the country's rising levels of debt and expectations of slower economic growth. The full impact of the Moody's downgrade remains to be seen, but the perceived weaknesses in China's economic development model, if proven and left unchecked, would have profound implications. In September 2017, S&P Global Ratings downgraded China's sovereign credit rating for the first time since 1999, citing similar concerns. The full impact of such actions by international rating agencies remains to be seen, but the perceived weaknesses in China's economic development model, if proven and left unchecked, would have profound implications. If China's economic conditions worsen, or if the banking and financial systems experience difficulties from over-indebtedness, businesses in China may face a more challenging operating environment. Our business, financial condition and results of operations may be adversely affected by:

- changes in the PRC political, economic and social conditions;
- changes in policies of the PRC government, including changes in policies in relation to the Group's business segments;
- changes in laws and regulation or the interpretation of laws and regulations;
- measures that may be introduced to control inflation or deflation;

- changes in the rate or method of taxation;
- the imposition of additional restrictions on currency conversion and remittances abroad; and
- a reduction in tariff protection and other important restrictions.

Furthermore, the growth of demand in China for the real estate industry depends heavily on economic growth. We cannot assure you that such growth will be sustained in the future. From time to time, the PRC government has implemented certain measures in order to prevent the PRC economy from experiencing excessive inflation. Such governmental measures may cause a decrease in the level of economic activity and have an adverse impact on economic growth in China. If China's economic growth slows down or if the Chinese economy experiences a recession, the growth of demand for real estate property may also decrease. Such events could have a material adverse effect on the Group's business, results of operations and financial condition.

The PRC legal system has inherent uncertainties that could limit the legal protection available to you.

Our business is conducted in mainland China and is governed by PRC laws and regulations. All of our operating subsidiaries are located in China and are subject to PRC laws and regulations. The PRC legal system is based on written statutes. Prior court decisions are not legally binding and can only be cited as reference. Additionally, PRC written statutes are often principle-oriented and require detailed interpretations by the enforcement bodies in applying and enforcing such laws. Since 1979, the PRC government has promulgated laws and regulations in relation to economic matters such as foreign investment, corporate organization and governance, commerce, taxation and trade, with a view to developing a comprehensive system of commercial law. However, as these laws and regulations are continually evolving in response to changing economic and other conditions, and because of the limited volume of published cases and their non-binding nature, any particular interpretation of PRC laws and regulations may not be definitive. In addition, the PRC legal system is based in part on government policies and internal rules, some of which are not published on a timely basis, if at all, and some of which may have a retroactive effect. The PRC may not accord equivalent rights, or protection for such rights, to those that you might expect in countries with more sophisticated real estate laws and regulations.

Furthermore, the PRC is geographically large and divided into various provinces and municipalities. As such, when PRC laws, rules, regulations and policies apply in different parts in the PRC, there may be varying applications and interpretations. Legislation or regulations, particularly for local applications, may be enacted without sufficient prior notice or announcement to the public. Accordingly, we may not be aware of the existence of new legislation or regulations. There is at present no integrated system in the PRC from which information can be obtained in respect of legal actions, arbitrations or administrative actions. Even if an individual court-by-court search were performed, certain courts might refuse to make their documentation available for inspection. As a result, the legal protections available to you under the PRC legal system may be limited.

The global financial markets, and therefore PRC markets, have experienced significant slowdown and volatility during the past few years and any continued deterioration may adversely affect our business and results of operations.

The global economic slowdown and turmoil in the global financial markets that started in the second half of 2008 have had a negative impact on the world economy, which in turn affected the PRC real estate industry and many other industries. Subsequently, global markets and economic conditions were adversely affected by the credit crisis in Europe, the credit rating downgrade of the United States and heightened market volatility in major stock markets. In June 2016, the United Kingdom held a remain-or-leave referendum on its membership within the European Union, the result of which favored the exit of the United Kingdom from the European Union ("Brexit"). On January 31, 2020, the United Kingdom officially exited the European Union following a UK-EU Withdrawal Agreement signed in October 2019. The United Kingdom and the European Union will have a transition period until December 31, 2020 to negotiate, among others, trade agreements in details. Given the lack of precedent and uncertainty of the negotiation, it is unclear how Brexit would affect the fiscal, monetary and regulatory landscape within the United Kingdom, the European Union and globally. This event has resulted in a downgrade of the credit ratings of the United Kingdom and the uncertainty before, during and after the period of negotiation may also create a negative economic impact and increase volatility in global markets.

The outlook for the world economy and financial markets remains uncertain. In Europe, several countries are facing difficulties in refinancing sovereign debt. In the United States, the unemployment rate remains relatively high. In Asia and other emerging markets, some countries are expecting to increase inflationary pressure as a consequence of liberal monetary policy or excessive foreign fund inflow and outflow, or both. In the Middle East, Eastern Europe and Africa, political unrest in various countries has resulted in economic instability and uncertainty.

China's economic growth may slowdown due to weakened exports and nationwide structural reforms. Moreover, as the PRC is transitioning to a consumption-based economy, the forecast growth rate of the PRC is expected to be significantly lower than its average growth rate over the past thirty years. The recent developments surrounding the trade war with the United States may also weaken exports and impact China's economic growth negatively. In 2018 and 2019, the U.S. government, under the administration of President Donald J. Trump, imposed several rounds of tariffs on cumulatively US\$550 billion worth of Chinese products. In retaliation, the Chinese government responded with tariffs on cumulatively US\$185 billion worth of U.S. products. In addition, in 2019, the U.S. government restricted certain Chinese technology firms from exporting certain sensitive U.S. goods. The Chinese government lodged a complaint in the World Trade Organization against the U.S. over the import tariffs in the same year. The trade war created substantial uncertainties and volatilities to global markets. On January 15, 2020, the U.S. and Chinese governments signed the U.S.-China Economic and Trade Agreement (the "Phase I Agreement"). Under the Phase I Agreement, the U.S. agreed to cancel a portion of tariffs imposed on Chinese products, China promised additional purchases of U.S. goods and services, and both parties expressed a commitment to further improving various trade issues. Despite this reprieve, however, it remains to be seen whether the Phase I Agreement will be abided by both governments and successfully reduce trade tensions. If either government violates the Phase I Agreement, it is likely that enforcement actions will be taken and trade tensions will escalate. Furthermore, additional concessions are needed to reach a comprehensive resolution of the trade war. The roadmap to the comprehensive resolution remains unclear, and the lasting impact the trade war may have on China's economy and the PRC industry remains uncertain. Should the trade war between the United States and the PRC begin to materially impact the PRC economy, the purchasing power of our customers in the PRC would be negatively affected. In addition, the COVID-19 pandemic may materially and adversely affect the global economy. See "— The national and regional economies in China and our prospectus may be adversely affected by natural disasters, acts of God, and occurrence of epidemics and pandemics."

The above and other issues resulting from the global economic slowdown or uncertainty and financial market turmoil have adversely affected, and may continue to adversely affect homeowners and potential property purchasers, which may lead to a decline in the general demand for our products and erosion of their sale prices. In addition, any further tightening of liquidity in the global financial markets may negatively affect our access to capital and liquidity. Therefore, if the global economic slowdown and turmoil in the financial markets continue, our business, financial condition and results of operations may likely be adversely affected.

Fluctuations in the value of the Renminbi and governmental control of currency conversion may limit our ability to use capital effectively.

Substantially all of our revenue and expenditures are denominated in Renminbi, while the net proceeds from the Global Offering and any dividends we pay on our Shares will be in Hong Kong Dollars. Fluctuations in the exchange rates between the Renminbi and the Hong Kong Dollar or U.S. Dollar will affect the relative purchasing power in Renminbi terms. Fluctuations in the exchange rates may also cause us to incur foreign exchange losses and affect the relative value of any dividend distributed by us. Currently, we have not entered into any hedging transactions to mitigate our exposure to foreign exchange risk.

Movements in Renminbi exchange rates are affected by, among other things, changes in political and economic conditions and China's foreign exchange regime and policy. PBOC regularly intervenes in the foreign exchange market to limit fluctuations in Renminbi exchange rates and achieve certain exchange rate targets and policy goals. In August 2015, PBOC changed the way it calculates the mid-point price of Renminbi against the U.S. dollar, requiring the market-makers who submit for reference rates to consider the previous day's closing spot rate, foreign exchange demand and supply as well as changes in major currency rates. The value of the Renminbi depreciated against the U.S. Dollar approximately 4.4% in 2015 and 7.2% in 2016, but appreciated against the U.S. Dollar 6.7% in 2017. The value of Renminbi then depreciated approximately 5% against the U.S. Dollar in 2018. We cannot assure you that Renminbi will not appreciate or depreciate significantly in value against Hong Kong Dollar or U.S. Dollar in the future.

In addition, conversion and remittance of foreign currencies are subject to PRC foreign exchange regulations. It cannot be guaranteed that we will have sufficient foreign exchange to meet our foreign exchange needs. Under China's current foreign exchange control system, foreign exchange transactions under the current account conducted by us, including the payment of dividends, do not require advance approval from the SAFE. But we are required to present relevant documentary evidence of such transactions and conduct such transactions at designated foreign exchange banks within China that have the licenses to carry out foreign exchange businesses. Foreign exchange transactions under the capital account, however, must be directly reviewed and handled by banks in accordance with the Circular of the State Administration of Foreign Exchange on Further Simplifying and Improving the Direct Investment-related Foreign Exchange Administration Policies (關於進一步簡化和改進直接投資外匯管理政策的通知) (the "Circular 13"), and the SAFE and its branches must perform indirect regulation over the foreign exchange registration via banks. The PRC government may also at its discretion restrict access in the future to foreign currencies for current account transactions. Any insufficiency of foreign exchange may restrict our ability to obtain adequate foreign exchange for dividend payments to shareholders or satisfy any other foreign exchange obligation. If we fail to convert Renminbi into any foreign exchange for any of the above purposes, our potential offshore capital expenditure plans and even our business may be materially and adversely affected.

The PRC government has implemented restrictions on the ability of PRC property developers to obtain offshore financing which could affect our ability to deploy the funds raised outside of China in our business in the PRC.

On April 28, 2013, SAFE issued the Measures for the Administration of Foreign Debt Registration (外債登記管理辦法) ("Notice No. 19"). Notice No. 19 stipulate, among other things, (i) that SAFE will no longer process foreign debt registrations and applications for the purchase of foreign exchange submitted by foreign-invested real estate enterprises which obtained approval certificates from and registered with MOFCOM on or after June 1, 2007; (ii) the foreign-invested real estate enterprises found before June 1, 2007 may borrow foreign debt within the scope of original difference between investment amount and registered capital pursuant to relevant laws and regulations; if the difference between investment amount and registered capital after capital increase is lower than the difference before capital increase, the latter shall be the standard; and (iii) if a foreign-invested real estate enterprise fails to obtain the State-owned Land Use Certificate or the capital of the development project fails to reach 35% of the total investment of the project, it shall not borrow foreign debts from abroad; SAFE shall not register foreign debts or approve the settlement of foreign debts. These regulations effectively prohibit our ability to fund our PRC subsidiaries by way of shareholder loans.

In addition, equity contributions by us and our non-PRC subsidiaries to our PRC subsidiaries will require registration from the commerce department of the local government, which may take considerable time and delay the actual contribution to the PRC subsidiaries. This may adversely affect the financial condition of the PRC subsidiaries and may cause delays to the development undertaken by such PRC subsidiaries. We cannot assure you that we have obtained or will obtain in a timely manner all relevant necessary approval certificates or registration for all our operating subsidiaries in the PRC to comply with this regulation. Furthermore, we cannot assure you that the PRC government will not introduce new policies that further restrict our ability to deploy, or that prevent us from deploying, in China the funds raised outside of China.

Our investments in the PRC are subject to the PRC government's control over foreign investment in the property sector.

The PRC government has imposed restrictions on foreign investment in the property sector to curtail the perceived over-heating of the property sector by, among other things, increasing the capital and other requirements for establishing foreign-invested real estate enterprises, tightening foreign exchange control on cross-border investment and financing activities and imposing restrictions on purchases of properties in China by foreign persons. Restrictions imposed by the PRC government on foreign investment in the property sector may affect our ability to make further investments in our PRC subsidiaries and as a result may limit our business growth and have a material adverse effect on our business, results of operations and financial condition.

The implementation of the EIT Law may significantly increase our income tax expenses.

On March 16, 2007, the PRC National People's Congress, Chinese national legislature, adopted a new tax law, the EIT Law, which became effective on January 1, 2008 and was amended on February 24, 2017 and December 29, 2018. On December 6, 2007, the State Council issued the Implementation Regulations of the PRC Enterprise Income Tax Law (the "Implementation Regulations"), which also became effective on January 1, 2008 and as amended on April 23, 2019.

Under the EIT Law and Implementation Regulations, if we are deemed to be a non-PRC tax resident enterprise without an office or premises in the PRC, a withholding tax at the rate of 10% will be applicable to any dividends paid to us by our PRC subsidiaries, unless we are entitled to reduction or elimination of such tax, including by tax treaty. According to a tax treaty between the PRC and Hong Kong, dividends paid by a foreign-invested enterprise in China to a shareholder incorporated in Hong Kong will be subject to withholding tax at a rate of 5% if the Hong Kong shareholder directly holds a 25% or more interest in the PRC enterprise. We cannot assure you, however, that the current tax treaties in place between the PRC and Hong Kong will remain in place or that we will continue to be able to enjoy a reduced withholding tax on dividends we receive from our PRC subsidiaries.

We may be deemed as a PRC resident enterprise under the EIT Law and be subject to PRC taxation on our worldwide income.

Under the EIT Law, which became effective on January 1, 2008 and was amended on February 24, 2017 and December 29, 2018, enterprises established outside China whose "de facto management bodies" are located in China are considered "resident enterprises" and will generally be subject to the uniform 25% EIT rate as to their global income. Under the Implementation Regulations for the EIT Law, "de facto management bodies" is defined as the bodies that have material and overall management control over the business, personnel, accounts and properties of an enterprise.

Substantially all of our management is currently based in China and may remain in China. In April 2009, the PRC State Administration of Taxation promulgated a circular to clarify the definition of "de facto management bodies" for enterprises incorporated overseas with controlling shareholders being onshore enterprises or enterprise groups in China. However, it remains unclear how the tax authorities will explain the regulation. Therefore, we may be treated as a PRC resident enterprise for EIT purposes. The tax consequences of such treatment are currently unclear, as they will depend on how PRC finance and tax authorities apply or enforce the EIT Law and the Implementation Regulations.

Our investment properties are located on land that is under long-term land use rights granted by the PRC government. There is uncertainty about the amount of the land grant premium that we will have to pay and additional conditions that may be imposed if we decide to seek an extension of the land use rights for our investment properties.

Our investment properties are held by us under land use rights granted by the PRC government. Under PRC laws, the maximum term of the land use rights ranges from 40 years to 70 years depending on the land use purpose. The term of the land use right for land used for residential purposes shall be automatically renewed upon expiration; the land use rights for non-residential or other purposes will revert to the PRC government unless the holder of the land use rights applies for and is granted an extension of the term of the land use rights.

These land use rights do not have automatic rights of renewal and holders of land use rights are required to apply for extensions of the land use rights one year prior to the expiration of their terms. If an application for extension is granted (and such grant would usually be given by the PRC government unless the land in issue is to be taken back for the purpose of public interests), the holder of the land use rights will be required to, among other things, pay a land grant premium. If no application is made, or if such application is not granted, the properties under the land use rights will be reverted to the PRC government without any compensation. As none of the land use rights granted by the PRC government which are similar to those granted for our investment properties has, as of the date of this offering memorandum, run its full term, there is no precedent to provide an indication of the amount of the land grant premium which we will have to pay and any additional conditions which may be imposed if we decide to seek an extension of the land use rights for our investment properties upon the expiry thereof.

In certain circumstances, the PRC government may, where it considers it to be in the public interest, terminate land use rights before the expiration of the term. In addition, the PRC government has the right to terminate long-term land use rights and expropriate the land in the event the grantee fails to observe or perform certain terms and conditions pursuant to the land use rights grant contracts. If the PRC government charges a high land grant premium, imposes additional conditions, or does not grant an extension of the term of the land use rights of any of our investment properties, our operations could be disrupted, and our business, financial condition and results of operations could be materially and adversely affected.

We are a holding company and will rely on dividends paid by the PRC subsidiaries to fund our cash and financing requirements, and any limitation on the ability of the PRC subsidiaries to pay dividends to us could have a material adverse effect on our ability to conduct business.

We are a holding company incorporated in the Cayman Islands and we conduct our business operations primarily through our subsidiaries in China. We will be financially dependent on dividends received from these entities. Therefore, we may face financial difficulties should such entities incur debt or losses affecting their ability to pay us dividends or make other distributions to us.

PRC laws and regulations require that dividends be paid only out of distributable profits, which are net profit of our PRC subsidiaries as determined in accordance with PRC GAAP or IFRS, whichever is lower, less any recovery of accumulated losses and appropriations to statutory and other reserves that our PRC subsidiaries are required to make. Moreover, because the calculation of distributable profits under PRC GAAP is different from the calculation under IFRS in certain respects, our operating subsidiaries may not have distributable profits as determined under PRC GAAP, even if they have profits for that year as determined under IFRS, or vice versa. Accordingly, we may not receive sufficient distributions from our PRC subsidiaries. Failure by our operating subsidiaries in the PRC to pay us dividends could have a negative impact on our cash flow and our ability to make dividend distributions to our Shareholders in the future, including those periods in which our financial statements indicate that our operations have been profitable.

Furthermore, the PRC subsidiaries may be restricted from making distributions to us due to restrictive covenants contained in agreements, such as bank credit facilities, to which they may be subject. Any of the above factors may affect our ability to pay dividends to our Shareholders and to service our indebtedness, which could materially and adversely affect our ability to conduct business.

RISKS RELATING TO THE NOTES, THE SUBSIDIARY GUARANTEES AND THE JV SUBSIDIARY GUARANTEES

We are a holding company and payments with respect to the Notes are structurally subordinated to liabilities, contingent liabilities and obligations of our subsidiaries.

We are a holding company with no material operations. We conduct substantially all of our operations through our PRC subsidiaries. The Notes will not be guaranteed by any current or future PRC subsidiaries. Therefore, almost all of our revenue and income (as shown in our consolidated financial information included elsewhere in this offering memorandum) are attributed to our PRC operating subsidiaries and any contribution from direct operations of the Subsidiary Guarantors (or JV Subsidiary Guarantors) are immaterial. Our primary assets are ownership interests in our PRC subsidiaries, which are held through the Subsidiary Guarantors and certain Non-Guarantor Subsidiaries. The Subsidiary Guarantors do not, and the JV Subsidiary Guarantors (if any) may not, have material operations. Accordingly, our ability to pay principal and interest on the Notes and the ability of the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) to satisfy their obligations under the Subsidiary Guarantees or JV Subsidiary Guarantees (as the case may be) will depend upon our receipt of principal and interest payments on the intercompany loans and distributions of dividends from our subsidiaries.

Creditors, including trade creditors of Non-Guarantor Subsidiaries and any holders of preferred shares in such entities, would have a claim on the Non-Guarantor Subsidiaries' assets that would be prior to the claims of holders of the Notes. As a result, our payment obligations under the Notes will be effectively subordinated to all existing and future obligations of our Non-Guarantor Subsidiaries, including their obligations under guarantees they have issued or will issue in connection with our business operations, and all claims of creditors of our Non-Guarantor Subsidiaries will have priority as to the assets of such entities over our claims and those of our creditors, including holders of the Notes. As of December 31, 2020, the Non-Guarantor Subsidiaries had total indebtedness of approximately RMB6,879.6 million (US\$1,054.3 million) and the Non-Guarantor Subsidiaries had capital commitments of approximately RMB4,346.9 million (US\$666.2 million) and contingent liabilities of approximately RMB6,356.0 million (US\$974.1 million). The Notes and the Indenture permit us, the Subsidiary Guarantors, the JV Subsidiary Guarantors (if any) and our Non-Guarantor Subsidiaries to incur

additional indebtedness and issue additional guarantees, subject to certain limitations. In addition, our secured creditors or those of any Subsidiary Guarantor or JV Subsidiary Guarantor (if any) would have priority as to our assets or the assets of such Subsidiary Guarantor or JV Subsidiary Guarantor (if any) securing the related obligations over claims of holders of the Notes.

Under the terms of the Notes, a Subsidiary Guarantee required to be provided by a subsidiary of the Company may be replaced by a limited-recourse guarantee, or JV Subsidiary Guarantee, following the sale or issuance to a third party of equity interest of no less than 20% in such subsidiary by its direct or indirect majority shareholders (subject to the satisfaction of certain conditions). Recovery under a JV Subsidiary Guarantee is limited to an amount equal to our proportional interest in the issued share capital of such Subsidiary Guarantor, or JV Subsidiary Guarantor, multiplied by the fair market value of the total assets in such JV Subsidiary Guarantor and its subsidiaries, on a consolidated basis, as of the date of the last fiscal year end of the Company. As a result, the amount that may be recovered by the Trustee pursuant to a JV Subsidiary Guarantee (compared to a Subsidiary Guarantee) is reduced, which in turn may affect your ability to recover any amounts due under the Notes.

We have substantial indebtedness, including indebtedness that will be mature within one year, and we may incur substantial additional indebtedness in the future, which could adversely affect our financial health and our ability to generate sufficient cash to satisfy our outstanding and future debt obligations on a timely manner.

We now have, and will continue to have after the offering of the Notes, a substantial amount of indebtedness. As of December 31, 2020, our indebtedness (including current and non-current interest-bearing bank and other borrowings, and senior notes) amounted to RMB12,649.2 million (US\$1,938.6 million). Subsequent to December 31, 2020, we also incurred other indebtedness for our general business operation, including, among others, the January 2021 Notes. As of December 31, 2020, we had total indebtedness amounting to RMB5,104.8 million (US\$782.3 million) due within one year. As a result, we are subject to refinancing risks against such maturing indebtedness. We cannot assure you that we would be able to refinance our indebtedness, in a timely manner on acceptable terms or at all. The risk is exacerbated by the current volatility in the global capital and credit markets.

Our substantial indebtedness could have important consequences to you. For example, it could:

- limit our ability to satisfy our obligations under the Notes and other debt;
- increase our vulnerability to adverse general economic and industry conditions;
- require us to dedicate a substantial portion of our cash flow from operations to servicing and repaying our indebtedness, thereby reducing the availability of our cash flow to fund working capital, capital expenditures and for other general corporate purposes;
- limit our flexibility in planning for or reacting to changes in our businesses and the industry in which we operate;
- place us at a competitive disadvantage compared to our competitors that have less debt;
- limit, along with the financial and other restrictive covenants of our indebtedness, among other things, our ability to borrow additional funds; and
- increase the cost of additional financing.

In the future, we may from time to time incur substantial additional indebtedness and contingent liabilities. Under the Indenture and the indentures governing the Existing Pari Passu Secured Indebtedness (as defined in the “Description of the Notes”), our ability to incur additional debt is subject to limitations on indebtedness and preferred stock covenants. Under such covenants, we may incur (i) certain Permitted Indebtedness or (ii) additional indebtedness if we can, among other things, satisfy the Fixed Charge Coverage Ratio. The Fixed Charge Coverage Ratio is derived by dividing Consolidated EBITDA by Consolidated Fixed Charges. Because our definition of Consolidated Net Income (which is a significant component of Consolidated

EBITDA) for the Notes includes our unrealized gains on valuation adjustments on our investment properties, our Consolidated EBITDA and therefore our ability to incur additional debt under such covenants could be substantially larger when compared to other similarly situated PRC senior notes issuers whose covenants may not include such unrealized gains in the definition of consolidated net income. In addition, because our definition of Consolidated Interest Expense for the Notes excludes (i) the interest expense on indebtedness of third parties that we guarantee (except to the extent that such interest expense is actually paid by us), (ii) interest expenses arising from lease liability which would have been classified as “operating lease” before the adoption of GAAP 16 and (iii) interest expense arising from pre-sale receipts in advance from customers, our Consolidated Interest Expense and our ability to incur additional debt could be even larger when compared to other similarly situated PRC senior notes issuers whose covenants would typically include such interest expense in the definition of consolidated interest expense. If we or our subsidiaries incur additional debt, the risks that we face as a result of our already substantial indebtedness and leverage could intensify.

Our ability to generate sufficient cash to satisfy our outstanding and future debt obligations will depend upon our future operating performance, which will be affected by prevailing economic conditions and financial, business and other factors, many of which are beyond our control. We anticipate that our operating cash flow will be sufficient to meet our anticipated operating expenses and to service our debt obligations as they become due. However, there is no assurance that we will be able to generate sufficient cash flow for these purposes. In addition, certain of our PRC loans are guaranteed by our controlling shareholders. If we are unable to service our indebtedness, or if our guarantors are unable to perform their guarantee obligations and we are unable to secure alternative guarantees, we will be forced to adopt an alternative strategy that may include actions such as reducing or delaying capital expenditures, selling assets, restructuring or refinancing our indebtedness or seeking equity capital. These strategies may not be instituted on satisfactory terms, if at all.

In addition, the terms of the Indenture prohibit us from incurring additional indebtedness unless (i) we are able to satisfy certain financial ratios or (ii) we are able to incur such additional indebtedness pursuant to any of the exceptions to the financial ratio requirements, and meet any other applicable restrictions. Our ability to meet our financial ratios may be affected by events beyond our control. We cannot assure you that we will be able to meet these ratios. Certain of our financing arrangements also impose operating and financial restrictions on our business. See the section entitled “Description of Material Indebtedness and Other Obligations” and “— Our subsidiaries are subject to restrictions on the payment of dividends and the repayment of intercompany loans or advances to us and our subsidiaries.” Such restrictions in the Indenture and our other financing arrangements may negatively affect our ability to react to changes in market conditions, take advantage of business opportunities we believe to be desirable, obtain future financing, fund required capital expenditures, or withstand a continuing or future downturn in our business or the general economy. Any of these factors could materially and adversely affect our ability to satisfy our obligations under the Notes and other debt.

Our subsidiaries are subject to restrictions on the payment of dividends and the repayment of intercompany loans or advances to us and our subsidiaries.

As a holding company, we depend on the receipt of dividends and the interest and principal payments on intercompany loans or advances from our subsidiaries, including our PRC subsidiaries, to satisfy our obligations, including our obligations under the Notes. The ability of our subsidiaries to pay dividends and make payments on intercompany loans or advances to their shareholders is subject to, among other things, distributable earnings, cash flow conditions, restrictions contained in the articles of association of our subsidiaries, applicable laws and restrictions contained in the debt instruments or agreements of such subsidiaries. Pursuant to the loan agreements with certain PRC banks, several of our PRC subsidiaries are subject to certain dividend distribution limitations. In addition, if any of our subsidiaries raises capital by issuing equity securities to third parties, dividends declared and paid with respect to such equity securities would not be available to us to make payments on the Notes. These restrictions could reduce the amounts that we receive from our subsidiaries, which would restrict our ability to meet our payment obligations under the Notes and the obligations of the Subsidiary Guarantors or JV Subsidiary Guarantors (if any) under the Subsidiary Guarantees or JV Subsidiary Guarantees as the case may be.

PRC laws and regulations permit payment of dividends only out of accumulated profits as determined in accordance with PRC accounting standards and regulations and such profits differ from profits determined in accordance with IFRS in certain significant respects, including the use of different bases of recognition of revenue and expenses. Our PRC subsidiaries are also required to set aside a portion of their after-tax profits according to PRC accounting standards and regulations to fund certain reserves that are not distributable as cash dividends. In addition, dividends paid by our PRC subsidiaries to their non-PRC parent companies are subject to a 10% withholding tax, unless there is a tax treaty between the PRC and the jurisdiction in which the overseas parent company is incorporated, which specifically exempts or reduces such withholding tax. Pursuant to an avoidance of double taxation arrangement between Hong Kong and the PRC, if the non-PRC parent company is a Hong Kong resident and directly holds a 25% or more interest in the PRC enterprise, such withholding tax rate may be lowered to 5%. As a result of such restrictions, there could be limitations on payments from our PRC subsidiaries to meet payments required by the Notes or satisfy the obligations of the Subsidiary Guarantors or JV Subsidiary Guarantors (if any) under the Subsidiary Guarantees or JV Subsidiary Guarantees as the case may be, and there could be restrictions on payments required to redeem the Notes at maturity or as required for any early redemption.

Furthermore, although we currently do not have any offshore shareholder loan to our PRC subsidiaries, we may resort to such offshore lending in the future, rather than equity contribution, to our PRC subsidiaries to finance their operations. In such events, the market interest rates that our PRC subsidiaries can pay with respect to offshore loans generally may not exceed comparable interest rates in the international finance markets. The interest rates on shareholder loans paid by our subsidiaries, therefore, are likely to be lower than the interest rate for the Notes. Our PRC subsidiaries are also required to pay a 10% (or 7% if the interest is paid to a Hong Kong resident) withholding tax on our behalf on the interest paid under any shareholder loan. Prior to payment of interest and principal on any such shareholder loan, the PRC subsidiaries (as foreign-invested enterprises in China) must present evidence of payment of the withholding tax on the interest payable on any such shareholder loan and evidence of registration with SAFE, as well as any other documents that SAFE or its local branch may require.

The eligibility for the reduced tax rates described above on payments from our PRC subsidiaries to our Hong Kong subsidiary is subject to limitations, including that the Hong Kong recipient company must be treated as the beneficial owner of the income and the PRC tax authorities approve the reduced withholding rate. There is no assurance that such approval will be granted by the PRC tax authorities.

As a result of the foregoing, we cannot assure you that we will have sufficient cash flow from dividends or payments on intercompany loans or advances from our subsidiaries to satisfy our obligations under the Notes or the obligations of the Subsidiary Guarantors or JV Subsidiary Guarantors (if any) under the Subsidiary Guarantees or JV Subsidiary Guarantees as the case may be.

We have flexibility to incur debt secured by assets the security interest of which may not be shared with the Holders of the Notes.

Although the “Limitation on Liens” covenant as described under the “Description of the Notes” section provides that we may not create or permit to exist any liens on our assets and properties unless such liens are shared on a *pari passu* basis with the holders of the Notes, such restriction is subject to important exceptions and qualifications. The terms of the Notes give us enhanced flexibility to make Restricted Payments, including investments, in Unrestricted Subsidiaries, minority owned joint ventures and other persons, and we have the flexibility under the terms of the Notes to designate certain subsidiaries as Unrestricted Subsidiaries, which may have substantial assets. Unrestricted Subsidiaries themselves are not subject to the restrictive covenants under the indenture governing the Notes and will therefore be permitted to incur debt secured by their assets, the security interest of which will not be shared with holders of the Notes. In addition, the definition of “Permitted Liens” also gives us and our Restricted Subsidiaries flexibility to incur debt secured by certain assets, the security interest of which may not be shared with holders of the Notes. The Notes will therefore rank behind such secured debt to the extent of the value of such security, the amount of which may be material.

The Notes are subject to optional redemption by us.

As set forth in “Description of the Notes — Optional Redemption,” the Notes may be redeemed at our option in the circumstances set out therein. An optional redemption feature is likely to limit the market value of the Notes. During any period when we may elect to redeem the Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

We may be expected to redeem the Notes when its cost of borrowing is lower than the interest rate on the Notes. In such case, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. It may therefore cause a negative financial impact on the Noteholders. Potential investors should consider reinvestment risk in light of other investments available at that time.

The terms of the Notes give us enhanced flexibility to pay substantial amount of dividends.

We pay dividends to our shareholders from time to time. Under the Indenture, any such dividend payment will be a “Restricted Payment,” which could not be made unless we can, among other things, satisfy the Fixed Charge Coverage Ratio. However, such restriction is subject to important exceptions and qualifications. Under the terms of the Notes, we may pay dividends on our common stock in 2019 in any amount with respect to any profit for the year ended December 31, 2018 or, for any fiscal year ending 2019 or after, in an aggregate amount up to 20.0% of our net profit for the year without satisfying the Fixed Charge Coverage Ratio. With such an exception, we may be able pay substantial amount of dividends even when we are highly leveraged, which may materially and adversely affect our ability to service our indebtedness, including the Notes.

Interest payable by us to our foreign investors and gain on the sale of our Notes may be subject to withholding taxes under PRC tax laws.

We may be treated as a PRC resident enterprise for PRC tax purposes. See “— Risks Relating to Our Business — We may be deemed a PRC resident enterprise under the EIT Law and be subject to the PRC taxation on our worldwide income.” If we are deemed a PRC resident enterprise, the interest payable on the Notes may be considered to be sourced within China. In that case, PRC income tax at the rate of 10% will be withheld from interest paid by us to investors that are “non-resident enterprises” so long as such “non-resident enterprise” investors do not have an establishment or place of business in China or, if despite the existence of such establishment or place of business in China, the relevant income is not effectively connected with such establishment or place of business in China. Any gain realized on the transfer of the Notes by such investors will be subject to a 10% PRC income tax if such gain is regarded as income derived from sources within China. Furthermore, if we are considered a PRC resident enterprise and the relevant PRC tax authorities consider interest we pay with respect to the Notes, or any gains realized from the transfer of Notes, to be income derived from sources within the PRC, such interest or gains earned by nonresident individuals may be subject to PRC income tax (which in the case of interest, may be withheld by us) at a rate of 20%. It is uncertain whether we will be considered a PRC “resident enterprise.” In addition, pursuant to Circular 36 promulgated by the MOF and SAT on March 23, 2016, if the Issuer is treated as a PRC tax resident and if PRC tax authorities take the view that the holders of the Notes are providing loans within the PRC, the holders of the Notes shall be subject to VAT at the rate of 6% when receiving the interest payments under the Notes. In addition, the holders of the Notes shall be subject to the local levies at approximately 12% of the VAT payment and consequently, the combined rate of VAT and local levies would be around 6.72%.

Where a holder of the Notes who is an entity or individual located outside of the PRC resells the Notes to an entity or individual located outside of the PRC and derives any gain, since neither the seller nor the buyer is located in the PRC, theoretically the Circular 36 does not apply and the Issuer does not have the obligation to withhold the VAT or the local levies. However, there is uncertainty as to the applicability of VAT if either the seller or buyer of Notes is located within the PRC.

If we are required to withhold PRC tax on interest payable to our foreign noteholders that are “non-resident enterprises,” we will be required, subject to certain exceptions, to pay such additional amounts as will result in receipt by a holder of a Note of such amounts as would have been received by the holder had no such withholding been required. The requirement to pay additional amounts will increase the cost of servicing

interest payments on the Notes, and could have a material adverse effect on our ability to pay interest on, and repay the principal amount of, the Notes, as well as our profitability and cash flow. In addition, if you are required to pay PRC income tax on the transfer of our Notes, the value of your investment in our Notes may be materially and adversely affected. It is unclear whether, if we are considered a PRC “resident enterprise,” holders of our Notes might be able to claim the benefit of income tax treaties or agreements entered into between China and other countries or areas.

We may be able to redeem the Notes in whole at a redemption price equal to 100% of the principal amount plus accrued and unpaid interest in the event we are required to pay additional amounts because we are treated as a PRC “resident enterprise.”

In the event we are treated as a PRC “resident enterprise”, we may be required to withhold PRC tax on interest payable to certain of our non-resident investors. In such case, we will, subject to certain exceptions, be required to pay such additional amounts as will result in receipt by a holder of a Note of such amounts as would have been received by the holder had no such withholding been required. As described under “Description of the Notes — Redemption for Taxation Reasons,” in the event we are required to pay additional amounts as a result of certain changes in specified tax law or certain other circumstances, including any change in interpretation or statement of the official position that results in our being required to withhold tax on interest payments as a result of our being treated as a PRC “resident enterprise,” we may redeem the Notes in whole at a redemption price equal to 100% of the principal amount plus accrued and unpaid interest.

We may not be able to repurchase the Notes upon a Change of Control Triggering Event.

We must offer to purchase the Notes upon the occurrence of a Change of Control Triggering Event, at a purchase price equal to 101% of the principal amount plus any accrued and unpaid interest. See “Description of the Notes — Repurchase of Notes Upon a Change of Control Triggering Event.” The source of funds for any such purchase would be our available cash or third-party financing. However, we may not have sufficient available funds at the time of the occurrence of any Change of Control Triggering Event to make purchases of outstanding Notes. Our failure to make the offer to purchase or to purchase the outstanding Notes would constitute an Event of Default under the Notes. The Event of Default may, in turn, constitute an event of default under other indebtedness, any of which could cause the related debt to be accelerated after any applicable notice or grace periods. If our other debt were to be accelerated, we may not have sufficient funds to purchase the Notes and repay the debt.

In addition, the definition of a Change of Control Triggering Event for purposes of the Indenture does not necessarily afford protection for the holders of the Notes in the event of some highly leveraged transactions, including certain acquisitions, mergers, refinancings, restructurings or other recapitalizations. These types of transactions could, however, increase our indebtedness or otherwise affect our capital structure or credit ratings. The definition of Change of Control Triggering Event for purposes of the Indenture also includes a phrase relating to the sale of “all or substantially all” of our assets. Although there is a limited body of case law interpreting the phrase “substantially all,” there is no precise established definition under applicable law. Accordingly, our obligation to make an offer to purchase the Notes and the ability of a holder of the Notes to require us to purchase its Notes pursuant to the offer as a result of a highly leveraged transaction or a sale of less than all of our assets may be uncertain.

The insolvency laws of the Cayman Islands, the British Virgin Islands and Hong Kong and other local insolvency laws may differ from U.S. bankruptcy law or those of another jurisdiction with which holders of the Notes are familiar.

Because we are incorporated, and the JV Subsidiary Guarantors (if any) may be incorporated, under the laws of the Cayman Islands, an insolvency proceeding relating to us or any such JV Subsidiary Guarantor, even if brought in the United States, would likely involve Cayman Islands insolvency laws, the procedural and substantive provisions of which may differ from comparable provisions of United States federal bankruptcy law. In addition, our other Subsidiary Guarantors and JV Subsidiary Guarantors (if any) are incorporated or may be incorporated in the BVI or Hong Kong and the insolvency laws of the BVI and Hong Kong may also differ from the laws of the United States or other jurisdictions with which the holders of the Notes are familiar.

We conduct substantially all of our business operations through PRC-incorporated subsidiaries in China. The Subsidiary Guarantors, as equity holders in our PRC subsidiaries, are necessarily subject to the bankruptcy and insolvency laws of China in a bankruptcy or insolvency proceeding involving any of such PRC subsidiaries. Any JV Subsidiary Guarantors which become equity holders of our PRC subsidiaries would also be subject to such laws. The PRC laws and regulations relating to bankruptcy and insolvency and the legal proceedings in that regard may significantly differ from those of the United States and other jurisdictions with which the holders of the Notes are familiar. You should analyze the risks and uncertainties carefully before you invest in our Notes.

We may be unable to obtain and remit foreign exchange.

Our ability to satisfy our obligations under the Notes depends solely upon the ability of our PRC subsidiaries to obtain and remit sufficient foreign currency to pay dividends to us and, if applicable, to repay shareholder loans. Our PRC subsidiaries must present certain documents to SAFE, its authorized branch, or the designated foreign exchange bank, for approval before they can obtain and remit foreign currencies out of China, including, in the case of dividends, evidence that the relevant PRC taxes have been paid and, in the case of shareholder loans, evidence of the registration of the loan with SAFE. Prior to payment of interest and principal on any shareholder loan we make to our PRC subsidiaries, the relevant PRC subsidiary must also present evidence of payment of the 10% (or 7% if the interest is paid to a Hong Kong resident) withholding tax on the interest payable in respect of such shareholder loan. If any PRC subsidiary for any reason fails to satisfy any of the PRC legal requirements for remitting foreign currency payments, the PRC subsidiary will be unable to pay us dividends or interest and principal on shareholder loans, which may affect our ability to satisfy our obligations under the Notes.

If we are unable to comply with the restrictions and covenants in our debt agreements or the Indenture, there could be a default under the terms of these agreements or the Indenture, which could cause repayment of our debt to be accelerated.

If we are unable to comply with the restrictions and covenants in the Indenture or our current or future debt obligations and other agreements, there could be a default under the terms of these agreements. In the event of a default under these agreements, the holders of the debt could terminate their commitments to lend to us, accelerate repayment of the debt and declare all outstanding amounts due and payable or terminate the agreements, as the case may be. Furthermore, some of our debt agreements, including the Indenture, contain cross-acceleration or cross-default provisions. As a result, our default under one debt agreement may cause the acceleration of repayment of not only such debt but also other debt, including the Notes, or result in a default under our other debt agreements, including the Indenture. If any of these events occur, we cannot assure you that our assets and cash flow would be sufficient to repay in full all of our indebtedness, or that we would be able to find alternative financing. Even if we could obtain alternative financing, we cannot assure you that it would be on terms that are favorable or acceptable to us.

Our operations are restricted by the terms of the Notes, which could limit our ability to plan for or to react to market conditions or meet our capital needs, which could increase your credit risk.

The Indenture includes a number of significant restrictive covenants. These covenants restrict, among other things, our ability, and the ability of our Restricted Subsidiaries, to:

- incur or guarantee additional indebtedness and issue disqualified or preferred stock;
- make investments or other specified restricted payments;
- issue or sell capital stock of Restricted Subsidiaries;
- guarantee indebtedness of Restricted Subsidiaries;
- sell assets;
- create liens;
- enter into sale and leaseback transactions;

- engage in any business other than permitted business;
- enter into agreements that restrict the Restricted Subsidiaries' ability to pay dividends, transfer assets or make intercompany loans;
- enter into transactions with shareholders or affiliates; and
- effect a consolidation or merger.

These covenants could limit our ability to plan for or react to market conditions or to meet our capital needs. Our ability to comply with these covenants may be affected by events beyond our control, and we may have to curtail some of our operations and growth plans to maintain compliance.

The terms of the Notes permit us to make investments in Unrestricted Subsidiaries and minority owned joint ventures.

In light of land prices, sizes of projects and other factors, we may from time to time consider developing property developments jointly with other PRC property developers. As a result, we may need to make investments in joint ventures (including joint ventures in which we may own less than a 50% equity interest) and such joint ventures may or may not be Restricted Subsidiaries. Although the Indenture restricts us and our Restricted Subsidiaries from making investments in Unrestricted Subsidiaries or minority joint ventures, these restrictions are subject to important exceptions and qualifications, including, among others, that we may, subject to certain conditions, make investments in any Unrestricted Subsidiaries and minority owned joint ventures primarily engaged in permitted business up to an aggregate amount equal to 25.0% of our total assets, without satisfying the Fixed Charge Coverage Ratio requirement. See "Description of the Notes."

A trading market for the New Notes may not develop, and there are restrictions on resale of the New Notes.

Although application will be made to the Hong Kong Stock Exchange for listing of the New Notes by way of debt issues to Professional Investors only as described in this offering memorandum, we cannot assure you that we will obtain or be able to maintain a listing on the Hong Kong Stock Exchange, or that, if listed, a liquid trading market will develop. We have been advised that the Initial Purchasers intend to make a market in the New Notes, but the Initial Purchasers are not obligated to do so and may discontinue such market making activity at any time without notice. In addition, the New Notes are being offered pursuant to exemptions from registration under the U.S. Securities Act and, as a result, you will only be able to resell your New Notes in transactions that have been registered under the U.S. Securities Act or in transactions not subject to or exempt from registration under the U.S. Securities Act. See the section entitled "Transfer Restrictions." No assurance can be given as to the liquidity of, or the development and continuation of an active trading market for the New Notes. If an active trading market does not develop or is not continued, the market price and liquidity of the New Notes could be adversely affected.

Our corporate ratings may be lowered or withdrawn in the future.

We have been assigned a long-term corporate credit rating of B2 with a stable outlook by Moody's Investors Service. As of the date of this offering memorandum, there has not been any downgrading on our long-term issuer rating by other rating agencies. A rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time. We cannot assure you that a rating will remain for any given period of time or that a rating will not be lowered or withdrawn entirely by the relevant rating agency in the future if in its judgment circumstances so warrant. We have no obligation to inform holders of the New Notes of any such revision, downgrade or withdrawal. A suspension, reduction or withdrawal at any time of the rating assigned to us may adversely affect the market price of the New Notes.

Certain transactions that constitute "connected transactions" under the Listing Rules will not be subject to the "Limitation on Transactions with Shareholders and Affiliates" covenant.

Our shares are listed on the Hong Kong Stock Exchange and we are required to comply with its Listing Rules, which provide, among other things, that any transaction between a listed company or any of its subsidiaries, on the one hand, and a "connected person" of such listed company, on the other hand, is a "connected transaction" that, if the value of such transaction exceeds the applicable de minimis thresholds, will

require the prior approval of the independent shareholders of such listed company. The definition of “connected person” to a listed company includes, among others, any 10% or more shareholder of (i) such listed company or (ii) any subsidiary of such listed company. The concept of “connected person” also captures “associates,” which include, among others, (a) any subsidiary of such “connected person,” (b) any holding company of such “connected person” and any subsidiary of such holding company, and (c) any company in which such entity or entities mentioned in (a) and (b) above taken together has/have the power to exercise control, directly or indirectly, of 30% or more of the voting power of such company.

The “Limitation on Transactions with Shareholders and Affiliates” covenant in the Notes only applies to transactions between the Company or any Restricted Subsidiary, on the one hand, and (x) any holder (or any Affiliate of such holder) of 10% or more of the shares of the Company or (y) any Affiliate of the Company, on the other hand. As such, transactions between the Company or any Restricted Subsidiary, on the one hand, and an Affiliate of any Restricted Subsidiary, on the other hand, will not be captured by such covenant, even though they are subject to the independent shareholders’ requirement under the Listing Rules. As a result, we are not required by the terms of the Notes to ensure that any such transactions are on terms that are fair and reasonable, and we will not need to deliver officers’ certificates or procure the delivery of fairness opinions of accounting, appraisal or investment banking firms to the trustee of the Notes for any such transactions.

The liquidity and price of the Notes following the offering may be volatile.

The price and trading volume of the Notes may be highly volatile. Factors such as variations in our revenues, earnings and cash flows, proposals for new investments, strategic alliances and/or acquisitions, changes in interest rates, fluctuations in price for comparable companies, government regulations and changes thereof applicable to our industry and general economic conditions nationally or internationally could cause the price of the Notes to change. Any such developments may result in large and sudden changes in the trading volume and price of the Notes. We cannot assure you that these developments will not occur in the future.

There may be less publicly available information about us than is available in certain other jurisdictions.

There may be less publicly available information about companies listed in Hong Kong than is regularly made available by public companies in certain other countries. In addition, the financial information in this offering memorandum has been prepared in accordance with IFRS, which differ in certain respects from generally accepted accounting principles in other jurisdictions, or other GAAPs, which might be material to the financial information contained in this offering memorandum. We have not prepared a reconciliation of our consolidated financial statements and related footnotes between IFRS and other GAAPs. In making an investment decision, you must rely upon your own examination of us, the terms of the offering and our financial information. You should consult your own professional advisers for an understanding of the differences between IFRS and other GAAPs and how those differences might affect the financial information contained in this offering memorandum.

The New Notes will initially be held in book-entry form, and therefore you must rely on the procedures of the relevant clearing systems to exercise any rights and remedies.

The New Notes will initially only be issued in global certificate form and held through Euroclear and Clearstream. Interests in the New Notes represented by the global certificate will trade in book entry form only, and notes in definitive registered form, or definitive registered notes, will be issued in exchange for book-entry interests only in very limited circumstances. Owners of book entry interests will not be considered owners or holders of the New Notes. The nominee of the common depository for Euroclear and Clearstream will be the sole registered holder of the global certificate representing the New Notes. Payments of principal, interest and other amounts owing on or in respect of the global certificate representing the New Notes will be made to the paying and transfer agent, which will make payments to Euroclear and Clearstream. Thereafter, these payments will be credited to accounts of participants that hold book-entry interests in the global certificate representing the New Notes and credited by such participants to indirect participants. After payment to the nominee of the common depository for Euroclear and Clearstream, we will have no responsibility or liability for the payment of interest, principal or other amounts to the owners of book entry interests. Accordingly, if you own a book-entry interest, you must rely on the procedures of Euroclear and Clearstream or, if you are not a participant in Euroclear and Clearstream, on the procedures of the participant through which you own your interest, to exercise any rights and obligations of holders of the New Notes under the Indenture.

Unlike the holders of the New Notes themselves, owners of book-entry interests will not have the direct right to act upon our solicitations for consents, requests for waivers or other actions from Noteholders. Instead, if you own a book-entry interest, you will be permitted to act only to the extent you have received appropriate proxies to do so from Euroclear and Clearstream. The procedures implemented for the granting of such proxies may not be sufficient to enable you to vote on a timely basis.

Similarly, upon the occurrence of an Event of Default under the Indenture, unless and until definitive registered notes are issued in respect of all book-entry interests, if you own a book-entry interest, you will be restricted to acting through Euroclear and Clearstream. The procedures to be implemented through Euroclear and Clearstream may not be adequate to ensure the timely exercise of rights under the New Notes.

Our initial Subsidiary Guarantors do not currently have significant operations and certain Subsidiary Guarantees may in some cases be replaced by limited-recourse guarantees.

We conduct substantially all of our business operations through our PRC subsidiaries, but none of our current PRC subsidiaries and their direct PRC or non-PRC subsidiaries will provide a Subsidiary Guarantee or a JV Subsidiary Guarantee either upon issuance of the Notes or at any time thereafter. No future subsidiaries that are organized under the laws of PRC or their future PRC or non-PRC subsidiaries, the Exempted Subsidiaries, the Listed Subsidiaries, and certain offshore subsidiaries, the consolidated assets of which (other than our joint venture company with Greentown China, the Exempted Subsidiaries and the Listed Subsidiaries) do not account for more than 20% of our total assets (without counting the assets of the Exempted Subsidiaries and the Listed Subsidiaries), will provide a Subsidiary Guarantee or a JV Subsidiary Guarantee at any time in the future. As a result, the Notes will be effectively subordinated to all the debt and other obligations, including contingent obligations and trade payables, of the PRC subsidiaries and such offshore subsidiaries.

The initial Subsidiary Guarantors that will guarantee the Notes do not have significant operations. We cannot assure you that the initial Subsidiary Guarantors or any subsidiaries that may become Subsidiary Guarantors or JV Subsidiary Guarantors in the future will have the funds necessary to satisfy our financial obligations under the Notes if we are unable to do so. See the section entitled “— Risks Relating to the Notes — We are a holding company and payments with respect to the Notes are structurally subordinated to liabilities, contingent liabilities and obligations of our subsidiaries.”

Under the terms of the Notes, a Subsidiary Guarantor may be able to release its Subsidiary Guarantee if it sells or issues no less than 20% of the capital stock of such Subsidiary Guarantor to a third party, as long as the consolidated assets of all Restricted Subsidiaries organized outside the PRC that are not Subsidiary Guarantors or JV Subsidiary Guarantors do not account for more than 20% of our total assets.

In addition, a Subsidiary Guarantee required to be provided by a subsidiary of the Company under the terms of the Notes may be replaced by a limited-recourse JV Subsidiary Guarantee following the sale or issuance to a third party of a minority interest in such subsidiary or its direct or indirect majority shareholders (subject to the satisfaction of certain conditions including a cap on the non-guaranteed portion of the assets of JV Subsidiary Guarantors). Recovery under a JV Subsidiary Guarantee is limited to an amount equal to our proportional interest in the issued share capital of such JV Subsidiary Guarantor multiplied by the fair market value of the total assets in such JV Subsidiary Guarantor and its subsidiaries, on a consolidated basis, as of the date of the last fiscal year end of the Company.

The Subsidiary Guarantees or JV Subsidiary Guarantees may be challenged under applicable insolvency or fraudulent transfer laws, which could impair the enforceability of the Subsidiary Guarantees or JV Subsidiary Guarantees.

Under bankruptcy laws, fraudulent transfer laws, insolvency or unfair preference or similar laws in the Cayman Islands, the BVI, Hong Kong and other jurisdictions where future Subsidiary Guarantors or JV Subsidiary Guarantors (if any) may be established, a guarantee could be voided, or claims in respect of a guarantee could be subordinated to all other debts of that guarantor if, among other things, the guarantor, at the time it incurred the indebtedness evidenced by, or when it gives, its guarantee:

- incurred the debt with the intent to hinder, delay or defraud creditors or was influenced by a desire to put the beneficiary of the guarantee in a position which, in the event of the guarantor’s insolvency, would be better than the position the beneficiary would have been in had the guarantee not been given;

- received less than reasonably equivalent value or fair consideration for the incurrence of such guarantee;
- was insolvent or rendered insolvent by reason of the incurrence of such guarantee;
- was engaged in a business or transaction for which the guarantor's remaining assets constituted unreasonably small capital; or
- intended to incur, or believed that it would incur, debts beyond its ability to pay such debts as they mature.

The measure of insolvency for purposes of the foregoing will vary depending on the laws of the applicable jurisdiction. Generally, however, a guarantor would be considered insolvent at a particular time if it were unable to pay its debts as they fell due or if the sum of its debts was then greater than all of its properties at a fair valuation or if the present fair saleable value of its assets was then less than the amount that would be required to pay its probable liabilities in respect of its existing debts as they became absolute and matured.

In addition, a guarantee may be subject to review under applicable insolvency or fraudulent transfer laws in certain jurisdictions or subject to a lawsuit by or on behalf of creditors of the guarantor. In such case, the analysis set forth above would generally apply, except that the guarantee could also be subject to the claim that, since the guarantee was not incurred for the benefit of the guarantor, the obligations of the guarantor thereunder were incurred for less than reasonably equivalent value or fair consideration.

In an attempt to limit the applicability of insolvency and fraudulent transfer laws in certain jurisdictions, the obligations of the Subsidiary Guarantors or JV Subsidiary Guarantors (if any) under the Subsidiary Guarantees or JV Subsidiary Guarantees (as the case may be) will be limited to the maximum amount that can be guaranteed by the applicable Subsidiary Guarantor or JV Subsidiary Guarantor without rendering the guarantee, as it relates to such Subsidiary Guarantor or JV Subsidiary Guarantor, voidable under such applicable insolvency or fraudulent transfer laws.

If a court voids a Subsidiary Guarantee or JV Subsidiary Guarantee (as the case may be), subordinates such guarantee to other indebtedness of the Subsidiary Guarantor or JV Subsidiary Guarantor, or holds the Subsidiary Guarantee or JV Subsidiary Guarantee (as the case may be) unenforceable for any other reason, holders of the Notes would cease to have a claim against that Subsidiary Guarantor or JV Subsidiary Guarantor based upon such guarantee, would be subject to the prior payment of all liabilities (including trade payables) of such Subsidiary Guarantor or JV Subsidiary Guarantor (as the case may be), and would solely be creditors of us and any Subsidiary Guarantors or JV Subsidiary Guarantors whose guarantees have not been voided or held unenforceable. We cannot assure you that, in such an event, after providing for all prior claims, there would be sufficient assets to satisfy the claims of the holders of the Notes.

USE OF PROCEEDS

We estimate that the gross proceeds from this offering, before deducting the underwriting discounts and commissions and other estimated expenses payable in connection with this offering, will be approximately US\$102.3 million, which we plan to use for refinancing certain of our existing indebtedness.

Pending application of the net proceeds of this offering, we intend to invest such net proceeds in “Temporary Cash Investments” as defined in “Description of the Notes.”

EXCHANGE RATE INFORMATION

CHINA

The PBOC sets and publishes daily a base exchange rate with reference primarily to the supply and demand of Renminbi against a basket of currencies in the market during the prior day. PBOC also takes into account other factors, such as the general conditions existing in the international foreign exchange markets. From 1994 to July 20, 2005, the conversion of Renminbi into foreign currencies, including Hong Kong dollars and U.S. dollars, was based on rates set daily by PBOC on the basis of the previous day's inter-bank foreign exchange market rates and then current exchange rates in the world financial markets. During this period, the official exchange rate for the conversion of Renminbi to U.S. dollars remained generally stable. Although the PRC government introduced policies in 1996 to reduce restrictions on the convertibility of Renminbi into foreign currencies for current account items, conversion of Renminbi into foreign currencies for capital items, such as foreign direct investment, loan principals and securities trading, still requires the approval of SAFE and other relevant authorities. On July 21, 2005, the PRC government introduced a managed floating exchange rate system to allow the value of the Renminbi to fluctuate within a regulated band based on market supply and demand and by reference to a basket of currencies. On the same day, the value of the Renminbi appreciated by approximately 2% against the U.S. dollar. The PRC government has since made and in the future may make further adjustments to the exchange rate system.

On May 18, 2007, PBOC enlarged the floating band for the trading prices in the inter-bank foreign exchange market of the Renminbi against the U.S. dollar from 0.3% to 0.5% around the central parity rate, effective on May 21, 2007. This allows the Renminbi to fluctuate against the U.S. dollar by up to 0.5% above or below the central parity rate published by PBOC. The floating band was further widened to 1.0% on April 16, 2012 and 2.0% on March 17, 2014. The PBOC announces the closing price of a foreign currency traded against the Renminbi in the inter-bank foreign exchange market after the closing of the market on each working day, and makes it the central parity for trading against the Renminbi on the following working day. Effective since August 11, 2015, market makers are required to quote their central parity rates for Renminbi against U.S. dollar to the China Foreign Exchange Trade System daily before the market opens by reference to the closing rate of the PRC inter-bank foreign exchange market on the previous trading day in conjunction with the demand and supply conditions in the foreign exchange markets and exchange rate movements of major currencies. PBOC has further authorized the China Foreign Exchange Trade System to announce its central parity rate for Renminbi against the U.S. dollar through a weighted averaging of the quotes from the market makers after removing the highest quote and the lowest quote. PBOC announces the closing price of a foreign currency traded against the Renminbi in the inter-bank foreign exchange market after the closing of the market on each working day, and makes it the central parity for trading against the Renminbi on the following working day. The PRC government may adopt further reforms of its exchange rate system, including but not limited to making the Renminbi freely convertible in the future.

The following table sets forth the noon buying rate for U.S. dollars in New York City for cable transfer in Renminbi as certified for customs purposes by the Federal Reserve Bank of New York for the periods indicated:

HONG KONG

The Hong Kong dollar is freely convertible into other currencies, including the U.S. dollar. Since October 17, 1983, the Hong Kong dollar has been linked to the U.S. dollar at the rate of HK\$7.80 to US\$1.00. The Basic Law of the Hong Kong Special Administrative Region of the People's Republic of China (the "Basic Law"), which came into effect on July 1, 1997, provides that no foreign exchange control policies shall be applied in Hong Kong.

The market exchange rate of the Hong Kong dollar against the U.S. dollar continues to be determined by the forces of supply and demand in the foreign exchange market. However, against the background of the fixed rate system which applies to the issuance and withdrawal of Hong Kong currency in circulation, the market exchange rate has not deviated significantly from the level of HK\$7.80 to US\$1.00. In May 2005, the Hong Kong Monetary Authority broadened the 22-year-old trading band from the original rate of HK\$7.80 per U.S. dollar to a rate range of HK\$7.75 to HK\$7.85 per U.S. dollar. The Hong Kong government has indicated its intention to maintain the link within that rate range. Under the Basic Law, the Hong Kong dollar will continue to circulate and remain freely convertible. The Hong Kong government has also stated that it has no intention of imposing exchange controls in Hong Kong and that the Hong Kong dollar will remain freely convertible into other currencies, including the U.S. dollar. However, we cannot assure you that the Hong Kong government will maintain the link within the current rate range or at all.

Notes:

- (1) EBITDA consists of profit before taxation plus amortization of intangible assets, capitalized interests included in the cost of goods, finance costs, depreciation of right-of-use assets and depreciation of property, plant and equipment. EBITDA is not a standard measure under IFRS. EBITDA is a widely used financial indicator of a company’s ability to service and incur debt. EBITDA should not be considered in isolation or construed as an alternative to cash flows, net income or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities. EBITDA does not account for taxes, interest expense or other non-operating cash expenses. In evaluating EBITDA, we believe that investors should consider, among other things, the components of EBITDA such as sales and operating expenses and the amount by which EBITDA exceeds capital expenditures and other charges. We have included EBITDA because we believe it is a useful supplement to cash flow data as a measure of our performance and our ability to generate cash flow from operations to cover debt service and taxes. EBITDA presented herein may not be comparable to similarly titled measures presented by other companies. Investors should not compare our EBITDA to EBITDA presented by other companies because not all companies use the same definition. See the section entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Non-GAAP Financial Measures” for a reconciliation of our profit for the year under IFRS to our definition of EBITDA. Investors should also note that EBITDA as presented herein may be calculated differently from Consolidated EBITDA as defined and used in the Indenture. See the section entitled “Description of the Notes — Definitions” for a description of the manner in which Consolidated EBITDA is defined for purposes of the Indenture.
- (2) EBITDA margin is calculated by dividing EBITDA by revenue.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the section entitled "Selected Consolidated Financial and Other Data" and our consolidated financial statements, including the notes thereto, included elsewhere in this offering memorandum. All significant intra-group transactions, balances and unrealized gains on intra-group transactions have been eliminated. Our consolidated financial statements were prepared in accordance with IFRS, which differ in certain material respects from generally accepted accounting principles in other jurisdictions. In this section of the offering memorandum, references to "2018", "2019" and "2020" refer to our financial years ended December 31, 2018, 2019 and 2020, respectively.

OVERVIEW

We are an expanding real estate developer in the Yangtze River Delta Region focusing on the development and sales of residential properties. Headquartered in Shanghai, we have an active presence in the Yangtze River Delta Region. As of December 31, 2020, we had a diverse portfolio of 83 projects (including projects we develop with our joint ventures and associates) consisting of 75 residential properties, five residential and commercial complexes, two commercial complexes and one office floor. Of all the aforementioned projects, four projects are located in Shanghai, 79 projects are located in Jiangsu, Anhui, Zhejiang, Sichuan, Chongqing, Shandong, Henan, Jiangxi, Guangdong and Qinghai provinces.

As of December 31, 2020, we had land reserves (including land reserves held by our joint ventures and associates) with a total GFA of approximately 6.7 million sq.m., including (i) completed properties with a total saleable unsold/leasable GFA of approximately 0.6 million sq.m., (ii) properties under development with a total planned GFA of approximately 5.4 million sq.m., and (iii) properties held for future development with a total estimated GFA of approximately 0.7 million sq.m.

Our business operations consist of (i) property development and sales, (ii) commercial property investment and operations and (iii) property management services and management consulting service. We derive our revenue principally from the sales of properties we develop. For the three years ended December 31, 2020, revenue generated from property development and sales was RMB5,879.4 million, RMB7,294.1 million and RMB9,085.3 million (US\$1,392.4 million), respectively.

In line with our business strategy, we own and operate certain commercial properties we developed or purchased. These commercial properties include shopping malls and other retail spaces. We hold these commercial properties for long-term investment and capital appreciation purposes and lease them to generate rental income. For the three years ended December 31, 2020, revenue generated from our commercial property investment and operations amounted to RMB65.2 million, RMB54.4 million and RMB49.6 million (US\$7.6 million), respectively. We also generated a portion of our revenue from property management services and management consulting service. For the three years ended December 31, 2020, revenue generated from property management services and management consulting service amounted to RMB1.4 million, RMB49.7 million and RMB53.7 million (US\$8.2 million), respectively.

SIGNIFICANT FACTORS AFFECTING OUR RESULTS OF OPERATIONS AND FINANCIAL CONDITION

Our business, results of operations, financial condition and prospects are affected by a number of factors, many of which are beyond our control, including those set forth below. The following should be read in conjunction with the section headed "Risk Factors" in this offering memorandum.

Economic growth, urbanization and demand for real estate properties in China, particularly in Shanghai and other major cities in Yangtze River Delta Region

Economic growth, urbanization and increasing purchasing power have been the main driving forces behind the increasing market demand for real estate properties in China. These factors are in turn affected by a number of macroeconomic factors, including changes in the global economy and world markets, as well as the fiscal and monetary policies of the PRC government. The paces of economic growth, urbanization and increasing purchasing power in China are expected to continue to significantly affect the number of potential property buyers and the pricing and profitability of residential properties, and, in turn, our performance and results of operations. Because we focus primarily on developing properties in Shanghai and other major cities in the

Yangtze River Delta Region, developments in markets in Shanghai and other major cities in the Yangtze River Delta Region and other future target cities are especially important to our operations. If there is a downturn in the global economy, the PRC economy or in any of the property markets in which we have operations or a decrease in the pace of urbanization, our financial condition and results of operations may be materially and adversely affected. See “Risk Factors — Risks Relating to Our Business — Our business and prospects are heavily dependent on the performance of the PRC property markets, particularly in the various cities we operate and intend to operate, and therefore any potential decline in property sales or prices or demand for properties in the PRC generally, or in the major cities where our projects are located, could have a material adverse effect on our business, financial condition and results of operations.”

The regulatory environment and measures affecting the property industry in China

PRC governmental policies and measures regarding property development and related industries have a direct impact on our business and results of operations. From time to time, the PRC government adjusts its macroeconomic control policies to encourage or restrict development in the private property sector through regulating, among other things, the supply of land, pre-sales of properties, land usage, plot ratios, bank financing and taxation. In recent years, in response to rising property prices across the country, the PRC government has implemented a series of measures aimed at controlling prices in the real estate market. Various administrative bodies have introduced policies and measures to discourage speculation and impose more stringent requirements on property developers. These measures require, among other things, higher minimum down payments from purchasers, new restrictions on the purchase of properties, that a minimum portion of investment in property projects be devoted to affordable and commodity housing and increases in bank lending rates for mortgage financing. A substantial portion of our customers make down payments and rely on mortgage financing to purchase our properties. Accordingly, regulations or measures adopted by the PRC government that are intended to increase down payment requirements, restrict the ability of purchasers to obtain mortgages, limit their ability to resell their properties or increase the cost of mortgage financing may decrease market demand for our properties and adversely affect our results of operations. Measures taken by the PRC government to control the money supply, credit availability and fixed asset investment also have a direct impact on our business and results of operations. Furthermore, the PRC government may introduce initiatives which may affect our access to capital and the means by which we can finance our property development. See “Risk Factors — Risks Relating to Industry — Our operations are subject to extensive government policies and regulations and we are particularly susceptible to adverse changes in policies relating to the PRC property industry in regions in which we operate.”

Furthermore, our continuing growth depends, to a significant extent, on our ability to expand into other regions and cities. We intend to further expand into other regions in the future. We may not have the same level of familiarity with local regulatory environment. If we cannot successfully leverage our experience or understand the property market in our target cities for expansion, our business, results of operations, financial condition and prospects will be adversely affected.

Land acquisition and construction costs

Our success and continuing growth will largely depend on our ability to acquire quality land at prices that can generate reasonable returns. As the Chinese economy continues to grow rapidly and demand for residential properties remains strong, competition among property developers for land likely continues to intensify. In recent years, land premiums have increased notably in major cities in China and in the cities in which we operate, in particular. Construction costs have also increased in recent years mainly due to increases in labor costs and costs of raw materials. Historically, we mainly acquired state-owned land use rights through public tender, auction and listing-for-sale. However, we cannot assure you that we will be able to continue to source land with favorable prices given the increasing competition for land for development. If our land acquisition costs significantly increased, we may incur substantial additional financing costs. If we cannot sell our properties at increased prices sufficient to offset increases in costs, our profitability will be adversely affected.

Access to capital and cost of financing

Bank loans, borrowings from financial institutions and trust financing are important funding sources for our property development. As of December 31, 2018, 2019 and 2020, the amount of our outstanding current and non-current bank loans was RMB3,258.6 million, RMB4,157.4 million and RMB5,037.6 million (US\$772.0 million), respectively. Our access to capital and cost of financing will be affected by the prevailing interest rates on bank loans, which are linked to the PBOC benchmark lending rates, the restrictions imposed by the PRC government on bank lending for property development, and the general conditions of the domestic and global capital markets.

From time to time, we also enter into trust and other financing arrangements provided by trust financing companies and asset management companies. Compared with bank loans, these financing arrangements offer greater flexibility in terms of availability, despite higher financing costs than bank loans. If we are unable to enter into such trust and other financing arrangements on favorable terms in the future, or at all, our results of operations and financial condition may be materially and adversely affected.

Our finance costs amounted to RMB132.7 million, RMB249.8 million and RMB235.5 million (US\$36.1 million) for the three years ended December 31, 2020, respectively. Any potential increase in interest rates may result in additional interest costs for us, especially in newly raised loans.

Going forward, we might look for debt financing opportunities to support our business, including but not limited to raising funds through asset-backed securities programs, corporate bonds and other debt offerings. We might also consider other debt offering plans in the near future.

Timing of property development

The development of property projects requires significant time. It may take several months, years, or even longer, from the start of development to pre-sales of properties. We do not recognize revenue until properties have been sold, completed and delivered to our customers. Due to fluctuations in the market demand, the revenue that we recognize in a particular period may also be affected by market conditions at the time a particular property project is pre-sold or sold. Moreover, delays in construction, regulatory approval or other processes may adversely affect the completion timetable of our projects and, therefore, our recognition of revenue from our projects.

Pre-sales of properties

Pre-sales of properties constitute one of the most important sources of our operating cash flows during our project development process. PRC laws allow us to pre-sell properties prior to their completion upon satisfaction of certain pre-conditions but require that we use the pre-sales proceeds to finance the particular project that has been pre-sold. Please refer to the paragraphs headed “Business — Property Development and Sales Process — Sales and Marketing” for additional details. The amount and timing of cash inflows from pre-sales are affected by a number of factors, including the development schedules of our projects, restrictions on pre-sales imposed by the PRC government, the availability and affordability of mortgage financing for our purchasers, market demand for our properties and the number of our properties available for pre-sale. In addition, any reduction in cash flows from the pre-sales of our properties will likely increase our reliance on external financing, which may increase our costs and impact our ability to finance our continuing property development.

Fair value of our investment properties

Changes in the fair value of our investment properties have had, and are expected to continue to have, a substantial effect on our results of operations. Investment properties are initially measured at their fair values based on valuations performed by our independent property valuer, and subsequent gains or losses arising from changes in these fair values are recorded as fair value gains or losses on investment properties. The property valuer has used methods of valuation which involve, inter alia, certain estimates including current market transaction prices for comparable properties, appropriate yield rates and expected current market rents. Favorable or unfavorable changes to the assumptions would result in changes in the estimated fair value of our investment properties and corresponding adjustments to the amount of gains or losses reported in the consolidated statements of comprehensive income. For the three years ended December 31, 2020, we had fair value gains on investment properties of RMB61.3 million, RMB57.5 million and fair value losses investment properties of RMB8.2 million (US\$1.3 million), respectively. The amounts of valuation adjustments likely continue to be significant as a result of market fluctuations and have a significant impact on our results of operations. Please refer to the section headed “Risk Factors — Risks Relating to Our Business — The fair value of our investment properties is likely to fluctuate from time to time and may decrease significantly in the future, which may materially and adversely affect our profitability.”

LAT

Our property development is subject to LAT in respect of the appreciated value of the related land and improvements on such land. LAT applies to both domestic and foreign investors engaged in real estate development in China and is levied on properties sold at progressive rates ranging from 30% to 60% on the appreciation of land value. The fluctuations in the amount of LAT paid during these periods were mainly due to the delivery timetables of our projects and differences in the sales prices of the properties in its various development stages. We make provisions for LAT based on our recognized sales and in accordance with our estimates of the LAT rate which will be applicable under relevant PRC laws and regulations. For the three years ended December 31, 2020, we made LAT provisions of RMB195.6 million, RMB29.4 million and RMB74.1 million (US\$11.4 million), respectively. LAT liabilities are subject to determination by the tax authorities upon the completion of the property development projects and may be different from the amounts that were initially recorded. Any such differences may impact our profits after tax and deferred tax provision in the periods in which such taxes are finalized with the relevant tax authorities.

DESCRIPTION OF SELECTED LINE ITEMS OF STATEMENTS OF PROFIT OR LOSS

Revenue

We derived our revenue primarily from property development and sales, commercial property investment and operations and property management services. The following table sets forth our revenue by business line for the years indicated.

Property development and sales

Revenue from property development and sales is recognized only after properties have been sold to purchasers and after satisfying the requirements for delivery as stipulated in the sale and purchase agreements. Revenue from property development and sales has constituted, and is expected to constitute, a substantial majority of our total revenue.

Consistent with industry practice, we typically enter into sales contracts with purchasers while the properties are still under development but after satisfying the conditions for pre-sales in accordance with PRC laws and regulations. See “Business — Property Development and Sales Process — Sales and Marketing.” Before the criteria for the recognition of sales of properties are met, payments received from purchasers are recorded as “contract liabilities” under “current liabilities” in our consolidated financial statements.

There is a time difference between the pre-sales of properties in projects under development and the completion of construction. Because the timing of completion of our properties varies according to the construction timetable, our results of operations may vary significantly from period to period depending on the GFA sold or pre-sold, and the timing between pre-sales and completion and delivery of the properties to purchasers. Periods in which we pre-sell a large amount of aggregate GFA may not be periods in which we generate a correspondingly high level of revenue if the properties pre-sold are not completed and delivered within the same period. As a result, our revenue from property development and sales may fluctuate due to factors such as the schedule of our property development and the timing of property sales.

For the years ended December 31, 2018, 2019 and 2020, our revenue from property development and sales was RMB5,879.4 million, RMB7,294.1 million and RMB9,085.3 million (US\$1,392.4 million), respectively. The GFA delivered for the corresponding year was 463,326 sq.m., 454,494 sq.m. and 673,189 sq.m., respectively.

Commercial property investment and operations

We also generate rental income from our lease of commercial properties and office space. Our commercial properties include shopping centers and other retail spaces. We hold these commercial properties for capital appreciation and lease them to generate rental income. For the years ended December 31, 2018, 2019 and 2020, revenue from property investment and operations was RMB65.2 million, RMB54.4 million and RMB49.6 million (US\$7.6 million), respectively.

Property management services and management consulting services

Our property management services income represents revenue generated from commercial property management services that we provide to certain commercial properties we developed through our commercial property management subsidiary. Management consulting services income represents revenue generated from the provision of support services in connection with development of property projects. Revenue from our property management services and management consulting services are recognized over the period when (i) our commercial property management services and management consulting services are rendered and (ii) the customers simultaneously receive and consume the benefits of such services. For the three years ended December 31, 2020, revenue from property management services and management consulting services was RMB1.4 million, RMB49.7 million and RMB53.7 million (US\$8.2 million), respectively.

Cost of Sales

The principal components of cost of sales for our property development include cost of properties sold, which represents direct construction costs, land use right costs and capitalized interest costs on related borrowings for the purpose of property development during the period of construction.

The following table sets forth a breakdown of our cost of sales for the years indicated:

For the year ended December 31, 2019, our fair value gains on financial assets at fair value through profit or loss was RMB58.4 million. We didn't record fair value gain on financial assets at fair value through profit or loss in 2018.

Fair Value Gains on Investment Properties

We develop and hold certain commercial areas in our properties on a long-term basis for rental income or capital appreciation. Our investment properties are recorded as non-current assets in our consolidated statements of financial position at fair value as of each balance sheet date as determined by independent valuer. Gains or losses arising from changes in the fair value of our investment properties are accounted for as gains or losses in our consolidated statements of comprehensive income, which may have a substantial effect on our profits. The valuation of property involves the exercise of professional judgment and requires the use of certain bases and assumptions. The fair value of our investment properties may have been higher or lower if a different set of bases or assumptions is used. In addition, upward revaluation adjustments reflect unrealized capital gains on our investment properties as of the relevant balance sheet dates and do not generate any cash inflow for our operations. The amounts of fair value adjustments have been, and may continue to change based on property market conditions in China. Our investment properties are appraised annually by our independent property valuer. We recorded the fair value gains on investment properties for the years ended December 31, 2018 and 2019 of RMB61.3 million and RMB57.5 million and fair value losses on investment properties for the year ended December 31, 2020 of RMB8.2 million (US\$1.3 million), which are primarily related to the fluctuation in value of our properties due to economic situation.

Finance Costs

Our finance costs mainly consist of interest on bank and other borrowings and senior notes, and interest from significant financing component of contract liabilities less interest expense capitalized into properties under development.

Share of Profit and Losses of Joint Ventures and Associates

We recorded share of losses of joint ventures and associates of RMB4.0 million and RMB24.6 million (US\$3.8 million) in 2018 and 2020. We recorded share of profits of joint ventures and associates of RMB47.1 million in 2019.

Income Tax

Our income tax expenses for a given period include payments and provisions made for corporate income tax and LAT.

Corporate income tax

Our PRC subsidiaries are subject to a corporate income tax at the rate of 25% according to the EIT Law. For the three years ended December 31, 2020, our effective corporate income tax rate was 38.4%, 34.8% and 39.2%, respectively. The high effective corporate income tax rates were primarily due to the unrecognized deferred tax assets in connection with the tax losses of certain subsidiaries of our Group by considering the uncertainty of their future profitability.

LAT

Under PRC laws and regulations, our property development and sales are subject to LAT in respect of the appreciated value of the related land and improvements on such land. LAT applies to both domestic and foreign investors in real estate development in the PRC and is levied on properties for sale, at progressive rates ranging from 30% to 60% on the appreciation of land value. Certain exemptions are available for the sale of ordinary residential properties if the appreciation values do not exceed 20% of the total deductible items (as defined in the relevant tax laws). Whether a property qualifies for the ordinary residential property exemption is determined by the local government. Historically, sales of higher-end properties and commercial properties have had higher appreciation values, and have been therefore generally subject to higher LAT rates. On December 28, 2006, the SAT issued the Notice on the Settlement Management of Land Appreciation Tax on Real Estate Enterprises (《關於房地產開發企業土地增值稅清算管理有關問題的通知》), which took effect on February 1, 2007 and was amended on June 15, 2018. Such notice provides further clarification regarding the settlement of LAT. Local provincial tax authorities can formulate their own implementation rules according to the notice and

local conditions. On May 12, 2009, the SAT issued the Regulations of Land Appreciation Tax Settlement Administration (《土地增值税清算管理规程》), effective on June 1, 2009, which further clarifies the specific conditions and procedures for the settlement of LAT. We make provisions for LAT by reference to our recognized sales and in accordance with our estimates of the LAT which will be payable under relevant PRC laws and regulations, but only prepay 2% to 4% of the pre-sales proceeds each year as required by the local tax authorities under prevailing market practice.

Contingent Liabilities

As of December 31, 2020, we provided guarantees to banks in connection with facilities granted to purchasers of our properties with an aggregate principal amount of RMB4,497.5 million (US\$689.3 million) and guarantees to banks and other institutions in connection with facilities granted to related companies with an aggregate principal amount of RMB1,858.5 million (US\$284.8 million). Our guarantees are issued from the dates of grant of the relevant mortgages and released upon the earlier of (i) the transfer of the relevant real estate ownership certificates to the customers, or (ii) the settlement of mortgage loans by the customers. If a purchaser defaults on the mortgage loan, we are typically required to repurchase the underlying property. If we fail to do so, the mortgagee banks will auction the underlying property and recover the balance from us if the outstanding loan amount exceeds the net foreclosure sale proceeds.

Off-balance Sheet Commitments and Arrangements

Except for the contingent liabilities set forth above, as of December 31, 2020, we have not entered into any off-balance sheet guarantees or other commitments to guarantee the payment obligations of any third parties. We do not have any variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engages in leasing or hedging or research and development services with us.

MARKET RISKS

We are exposed to various types of market risks in our normal course of business.

Commodities Risk

We are exposed to fluctuations in the prices of raw materials for our property developments, primarily steel and cement. We purchase most of our supplies of steel and cement at market prices. Such purchase costs are generally accounted for as part of contractors' fees pursuant to our arrangements with the relevant contractors. Rising prices for construction materials will therefore affect our construction costs in the form of increased fees payable to our contractors. As a result, fluctuations in the prices of our construction materials could have a significant impact on our results of operations.

Interest Rate Risk

Our business is sensitive to fluctuations in interest rates. Our indebtedness are typically fixed rate borrowings that are subject to negotiation in interest rate on an annual basis and any increase in interest rates will increase our finance costs. We currently do not hedge our interest rate risk, but may do so in the future.

An increase in interest rates may also adversely affect our prospective purchasers' ability to obtain financing and depress overall housing demand. Higher interest rates may adversely affect our revenue, gross profits and profits. The PBOC benchmark one-year lending rates in China (which directly affect the property mortgage rates offered by commercial banks in the PRC) as of December 31, 2018, 2019 and 2020 were 4.35%, 4.35% and 3.85%, respectively.

Foreign Exchange Rate Risk

We conduct our business exclusively in Renminbi. The value of Renminbi against the U.S. dollar and other currencies may fluctuate and is affected by, among other things, changes in China's political and economic conditions. The conversion of Renminbi into foreign currencies, including the U.S. dollar and the Hong Kong dollar, has been based on rates set by the PBOC. On July 21, 2005, the PRC government changed its decade-old policy of pegging the value of Renminbi to the U.S. dollar. Under the new policy, Renminbi is permitted to fluctuate within a narrow and managed band against a basket of certain foreign currencies. While the international reaction to the Renminbi revaluation has generally been positive, there remains significant international pressure on the PRC government to adopt an even more flexible currency policy, which could result in a further and more significant appreciation of Renminbi against the U.S. dollar. Fluctuations in the value of Renminbi to the U.S. dollar may adversely affect our cash flows, revenue, earnings and financial position. For example, if the value of Renminbi appreciates, we would record foreign exchange losses on bank balances and other assets we maintain in non-Renminbi currencies. See "Risk Factors — Risks Relating to the PRC — Fluctuation in the exchange rates of the Renminbi may have a material adverse effect on your investment." We currently do not hedge our foreign exchange risk but may do so in the future.

NON-GAAP FINANCIAL MEASURES

We use EBITDA to provide additional information about our operating performance. EBITDA refers to our earnings before the following items:

- fair value change of investment properties;
- recognition of change in fair value of completed properties for sales upon transfer to investment properties;
- impairment loss recognized in respect of goodwill;
- interest income/expense (including those interest expense previously capitalized as assets and currently released to cost of sales and services in the consolidated statement of profit or loss and other comprehensive income);
- amortization of intangible assets;
- non-operating income/expense;
- income tax expense; and
- depreciation.

EBITDA is not a standard measure under IFRS. As the property development business is capital intensive, capital expenditure requirements and levels of debt and interest expenses may have a significant impact on the profit for the year of companies with similar operating results. Therefore, we believe the investor community commonly uses this type of financial measure to assess the operating performance of companies in our market sector.

As a measure of our operating performance, we believe that the most directly comparable IFRS measure to EBITDA is profit for the year. We operate in a capital intensive industry. We use EBITDA in addition to profit for the year because profit for the year includes many accounting items associated with capital expenditures, such as depreciation, as well as non-operating items, such as amortization of intangible assets and interest income and

interest expense. These accounting items may vary between companies depending on the method of accounting adopted by a company. By minimizing differences in capital expenditures and the associated depreciation expenses as well as reported tax positions, intangible assets amortization and interest income and expense, EBITDA provides further information about our operating performance and an additional measure for comparing our operating performance with other companies' results. Funds depicted by this measure may not be available for debt service due to covenant restrictions, capital expenditure requirements and other commitments.

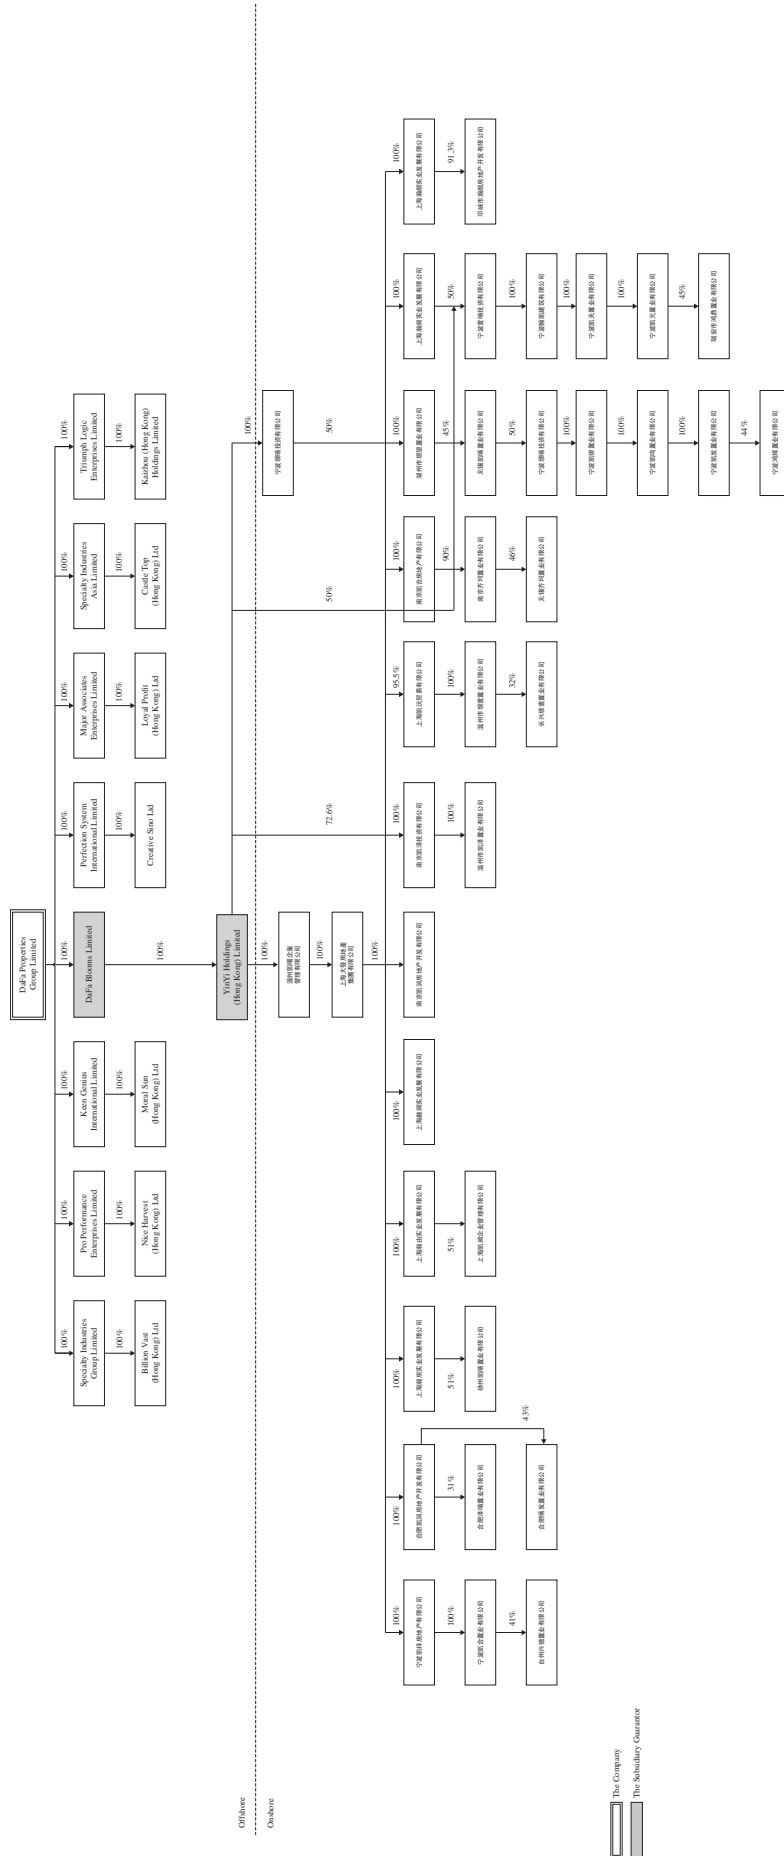

The following table reconciles our profit for the year under IFRS to our definition of EBITDA for the years indicated:

| | For the year ended December 31, | | | |
|--|---------------------------------|-----------|-----------|---------|
| | 2018 | 2019 | 2020 | |
| | (RMB) | (RMB) | (RMB) | (US\$) |
| | (in thousands) | | | |
| | (unaudited) | | | |
| Profit before tax | 989,442 | 951,206 | 1,250,222 | 191,605 |
| Adjustments: | | | | |
| Finance costs | 132,711 | 249,760 | 235,457 | 36,085 |
| Depreciation of property, plant and equipment | 17,091 | 18,020 | 16,968 | 2,600 |
| Depreciation of right-of-use assets | – | 5,530 | 6,327 | 970 |
| Amortization of intangible assets | 458 | 1,198 | 1,849 | 283 |
| Capitalized interests included in the cost of properties sold | 320,342 | 344,170 | 434,181 | 66,541 |
| EBITDA | 1,460,044 | 1,569,884 | 1,945,004 | 298,085 |
| EBITDA margin | 24.6% | 21.2% | 21.2% | 21.2% |

You should not consider our definition of EBITDA in isolation or construe it as an alternative to profit for the year or period or as an indicator of operating performance or any other standard measure under IFRS. Our definition of EBITDA does not account for income taxes and other non-operating cash expenses. Our EBITDA measures may not be comparable to similarly titled measures used by other companies.

We position our brand as “Design for Life” with a vision of providing high-quality properties and creating specific living scenes for our customers. We use the brand names “大發” or “大發地產” to carry out our business in China. To implement our market positioning strategy, we have developed four product series of residential property projects under the Bliss series (悅系), each targeting different segments of our customers. Our property development process, starting from site selection to project planning and design, is also centered on the needs and preferences of our targeted customers from first-time home purchasers and customers with home upgrade demand to high-end customers.

We advocate the concept of “situational real estate.” Based on the daily activities and emotional needs of our customers, we have installed equipment and facilities and arranged spaces to set up specific scenarios. Our research methods include integrating customer insight and big data analysis, with site adaptability, spatial planning, public space design, environmental friendliness and intelligent design taken into consideration. We classified the living experience of our customers into four scenarios under “24 Blissful Living Community (24 悅愛社區)” to improve the living experience of our customers. See “— Property Development and Sales Process — Project Planning and Design.”

We believe we are well recognized in the industry. In the past few years, we have won numerous awards, including “2020 Excellent Investment Value Award for Listed Real Estate Companies of Golden Brick for Real Estate of China” granted by 21st Century Business Herald and Boao 21st Century Real Estate Forum, “2020 Greatest Potential Award for Chinese Real Estate among Top 100 Chinese Real Estate” granted by Times Media, Anjuke, Leju China and CRIC, “China Top 100 Real Estate Developers (中國房地產企業100強)” from 2016 to 2019, “The Star Developers among China Top 100 Real Estate Developers (中國房地產百強之星)” in 2016 and 2019, “Top 10 Brands of East China Real Estate Companies (中國華東房地產公司品牌價值TOP10)” in 2016 and 2017, “China Special Real Estate Developers (中國特色地產運營優秀企業-情景地產)” in 2018 and 2019, and “Top 10 Brand of Yangtze River Delta Region Real Estate Companies (中國長三角區域 房地產公司品牌價值Top10)” in 2019, all granted by the China Real Estate Top 10 Research Team of China Index Academy (中國指數研究院中國房地產TOP10研究組), “2019 Best 10 of East China Real Estate Developers Brand Value (2019中國房地產開發企業品牌價值華東10強)”, “Top 100 Listed Companies of Comprehensive Strength” and “2019 China’s Best Real Estate Employer” in 2019 granted by China Real Estate Association, “2019 Investment Value Award of Listed Real Estate Enterprises” by Gelonghui and the “Key Enterprise Contribution Award (重點企業貢獻獎)” from 2015 to 2019, all granted by Shanghai Hongkou District People’s Government (上海市虹口區人民政府).

COMPETITIVE STRENGTHS

We believe that the following competitive strengths contribute to our continued success and distinguish us from our competitors:

An Expanding Residential Real Estate Developer Headquartered in Shanghai and Penetrating into the Yangtze River Delta Region

We are an expanding residential real estate developer. Since expanding our business to Shanghai in 2001 and setting up our headquarters in Shanghai, we have been operating in Shanghai for 18 years and developed properties such as Shanghai Kai Run Jin Cheng (上海凱潤金城) and Dafa Bliss Huating (大發融悅華庭). We have focused on intensively penetrating into the real estate market in the Yangtze River Delta Region. Having expanded into Jiangsu Province since 2003 and into Anhui Province since 2008, our footprint has gradually covered major cities in the Yangtze River Delta Region such as Wenzhou, Shanghai, Nanjing, Anqing, Ningbo, Zhoushan and Wuhu. As of December 31, 2020, we had a total of 69 property projects at different development stages in the Yangtze River Delta Region.

We are a real estate developer aiming to pursue sustainable growth. Our property development segment achieved substantial growth in terms of key indicators such as sales and sales area. Our revenue from property development and sales increased from RMB5,879.4 million in 2018 to RMB9,085.3 million (US\$1,392.4 million) in 2020. The GFA delivered for the corresponding period increased from 463,326 sq.m. to 673,189 sq.m.

Adhering to our business philosophy of “pursuing excellence with integrity and innovation,” we believe that we have forged ahead and engaged in constant innovation, and established a good reputation and quality brand image among our customers through the development of high-end projects and the construction of premium properties. We believe we are well recognized in the industry. In the past few years, we have won numerous awards, including “2020 Excellent Investment Value Award for Listed Real Estate Companies of Golden Brick for Real Estate of China” granted by 21st Century Business Herald and Boao 21st Century Real Estate Forum, “2020 Greatest Potential Award for Chinese Real Estate among Top 100 Chinese Real Estate” granted by Times Media, Anjuke, Leju China and CRIC, “China Top 100 Real Estate Developers (中國房地產企業100強)” from 2016 to 2019, “The Star Developers among China Top 100 Real Estate Developers (中國房地產百強之星)” in 2016 and 2019, “Top 10 Brands of East China Real Estate Companies (中國華東房地產公司品牌價值TOP10)” in 2016 and 2017, the “China Special Real Estate Outstanding Operation Enterprise — Situational Real Estate (中國特色地產運營優秀企業-情景地產)” in 2018 and 2019, and “Top 10 Brand of Yangtze River Delta Region Real Estate Companies (中國長三角區域房地產公司品牌價值Top10)” in 2019, all granted by the China Real Estate Top 10 Research Team of China Index Academy (中國指數研究院中國房地產TOP10研究組), “2019 Best 10 of East China Real Estate Developers Brand Value (2019中國房地產開發企業品牌價值華東10強)”, “Top 100 Listed Companies of Comprehensive Strength” and “2019 China’s Best Real Estate Employer” in 2019 granted by China Real Estate Association, “2019 Investment Value Award of Listed Real Estate Enterprises” by Gelonghui and the “Key Enterprise Contribution Award (重點企業貢獻獎)” from 2015 to 2019, all granted by Shanghai Hongkou District People’s Government (上海市虹口區人民政府). Our projects Dafa Duhui Road No. 1 and Zhoushan Dafa Rongyue New Territories Mansion received the 5th “Real Estate Design Award” in 2019. We were also awarded several awards such as the “2019 Listed Companies Annual Award” by the Hong Kong Institute of Financial Analysts and Professional Commentators Association and “2019 Valuable Real Estate Companies in the Capital Market” by China Index Academy.

Land Reserves in Core Cities of the Yangtze River Delta Region and Prudent and Efficient Land Acquisition Capabilities

Leveraging our knowledge of the real estate market in the Yangtze River Delta Region, we have acquired land parcels that we believe are situated in premium cities such as Shanghai and Nanjing, and derived substantial revenue through the projects developed in these cities. For new cities that we expand our business into, we have adopted prudent assessment criteria and conducted in-depth preliminary studies. We believe our strategic site selection strengthens our land acquisition capabilities.

When selecting land acquisition target in each city, we have established prudent and efficient land acquisition criteria, taking into account various projected financial indicators such as gross margin, EBITDA margin, net profit margin and cash flow. We have also developed strategic cooperation with various business partners in land acquisition and development, which puts us in a better position to control costs and capital expenditure and therefore limit our risk exposure in land acquisition.

We mainly acquired lands through tender, auction or listing-for-sale. For the year ended December 31, 2020, we, including our joint ventures and associates, acquired 22 land parcels with a total estimated GFA of approximately 2.8 million sq.m. with an average land cost of approximately RMB5,753 per sq.m. These land parcels are predominately located in top-tier cities.

As of December 31, 2020, we had land reserves (including land reserves held by our joint ventures and associates) with a total planned GFA of approximately 6.7 million sq.m., including (i) completed properties with a total saleable unsold/leasable GFA of approximately 0.6 million sq.m., (ii) properties under development with a total planned GFA of approximately 5.4 million sq.m., and (iii) properties held for future development with a total estimated GFA of approximately 0.7 million sq.m. We believe our quality land reserves will provide us with a strong foundation in real estate development and support our long-term steady and sustainable growth.

We believe that we have developed accurate market judgment and vision which enable us to achieve a high rate of return on our land acquisition.

An Advocate of Situational Real Estate and A Practitioner of Quality Real Estate

We stepped into the real estate industry with the initial aspiration of “building good houses” 25 years ago. As of today, our initial aspiration remains unchanged. But as the demands of our customers have gradually upgraded from “living comfortably” to “living happily,” our goal has risen from “providing a comfortable living space” to “Design for Life.”

Life is composed of different situations. Therefore, we advocate the concept of “situational real estate.” Based on the daily activities and emotional needs of our customers, we have installed equipment and facilities and arranged spaces to set up specific scenarios and the “situational real estate” concept is implemented in certain of our projects. Our research methods include integrating customer insights and big data analysis, with site adaptability, spatial planning, public space design, environmental friendliness and intelligent design taken into consideration. We classified the lives of our customers into four scenarios under 24 Blissful Living Community (24悅愛社區). See “— Property Development and Sales Process — Project Planning and Design.” In 2018, we won the “2018 China Special Real Estate Outstanding Operation Enterprise — Situational Real Estate (2018中國特色地產運營優秀企業-情景地產)” award issued by the China Real Estate Top 10 Research Team (中國房地產TOP10研究組).

We are also a practitioner of quality real estate. Upholding our “100+ Quality” slogan with the primary goal of surpassing competing properties, we are committed to providing our property owners with the 100-point living experience. To this end, we implement stringent construction standards, operating procedures and quality controls. We choose third-party design and construction companies with strict and standard processes. For instance, when selecting an external design team, we carefully consider the team’s success with similar cases in the area, the consistency of the architectural style adopted in successful cases with that in our projects, and the biographies and excellence of members of the team. Our selection process includes selection of outstanding design companies in the industry, comparison and selection of bidding concept solutions, review of service proposals and grading of team members for evaluation of design bids etc. for final determination of the design company with the winning bid.

We believe the top-tier domestic and international design companies we chose bring us and our customers first-class designs. For example, we hired a series of well-known teams for Ningbo Hai Jun Fu, with Allied Architects International (Canada) Inc. as the construction solution company, and certain well-known design companies in charge of the landscape and interior design, joining hands with strong business partners to create a campus-style series. Our goal has increased from providing housing to leading people to a better life.

We believe our high-quality situational real estate has henceforth enhanced our product competitiveness, and attracted more customers to our constructed living environment designs, and our customers became more satisfied with our services.

Customer-Oriented Residential Products Designed to Meet Customer Demands and Commercial Properties at Prime Locations Bringing in Stable Cash Flows

We focus on developing residential properties. Our residential products are customer-oriented, aiming to serve the needs of a wide range of customers from first-time home purchasers with rigid demands to customer groups seeking to improve their living environment, and high-end customers. We understand the significance of purchasing a residential property to our customers, and will take accountability for our customers' choices by providing quality products.

We develop Bliss series (悦系列) for our residential products. The Bliss series features a neo-Asian style with oriental elements, emphasizing the merging and harmony between architecture and the environment and reflecting the low-profile and open mindset of China's new middle class. Representative projects of the Bliss series include Dafa Bliss Oriental (大发融悦东方), Dafa Bliss Four Seasons (大发融悦四季) and Bliss Xinjie Residence (融悦新界公馆).

The Bliss series targets first-home purchasers, home-upgraders and has developed four sub-series, namely the Pu series (璞系列), the Xi series (熙系列), the Rong series (融系列) and the Ming series (铭系列), each targeting different customers. The Pu series (璞系列) features elegant and modern products targeting high-end customers in central areas of a city. The Xi series (熙系列) features quality, simple and modern products targeting the customers in core area of cities. The Rong series (融系列) features diversified and differentiated products targeting the middle-income households in the suburbs. The Ming series (铭系列) features products with fashion elements targeting first-home purchasers and home upgraders in the suburbs.

Our commercial real estate business is a good supplement to our residential real estate. Our commercial properties, for example, Nanjing IST Mall, Shanghai Kai Hong Plaza, Affiliated Commercial Property of Nanjing Kaihong Junfu and Affiliated Commercial Property of Dafa Bliss Oriental (Wenzhou), are situated in locations with convenient transportation facilities and within proxy to residential areas, which we believe are or will be capable of bringing in stable cash flows for our development. We position our commercial properties as integrated lifestyle centers within the relatively promising areas of a city, so as to satisfy the different demands of customers. Thus, we believe we are able to enhance the value of the region, improve customers' living circumstances, and grow and develop together with the city.

The synergic integration of commercial property projects and residential property projects will create a favorable synergistic effect. Commercial properties bring us stable rental income which we believe can supplement the cash flow of our residential property development business and mitigate risks associated with the residential property development business, such as price volatility and schedule-related uncertainty. Meanwhile, we believe commercial properties can enhance the overall positioning, attractiveness and investment value of real estate projects and drive the growth of residential property sales. For example, Shanghai Kai Hong Plaza is part of Shanghai Kai Run Jin Cheng; it serves to empower the residential portion of Shanghai Kai Run Jin Cheng. In addition, the brand effect of commercial properties also builds customer loyalty for our residential property projects. We believe that with many years of accumulated experience, our operation model for commercial properties has increasingly matured. For the three years ended December 31, 2020, the average occupancy rate of our commercial properties was approximately 93.3%, 95.2% and 90.1%, with operating income amounting to RMB65.2 million, RMB54.4 million and RMB49.6 million (US\$7.6 million), respectively.

Active and Prudent Financial Policies and Operations

We have implemented financial policies that balance progressivity and stability. We have continuously diversified our financing channels to meet capital requirements. Our funding sources are diversified, including land mortgage financing, project development financing, fixed assets financing and working capital loans provided by commercial banks, as well as debt financing offered by trust companies and asset management companies. We have maintained ongoing and stable relationship with tens of large and medium-sized banks and financial institutions. We have cooperated with commercial banks such as Bank of China, China Minsheng Banking Corp., Ltd., China Zheshang Bank Co., Ltd. and Ping An Bank Co., Ltd. We have also cooperated with major asset management companies including Ping An Trust Co., Ltd. and China Huarong Asset Management Co., Ltd. Shanghai Branch. We also adopted standardized project development and management procedures to raise operational efficiencies. Our system covers detailed steps of all major workflows during our project cycle, with detailed delegation to all responsible personnel. For timeline of project development, we aim to commence construction within three months upon land acquisition, launch for pre-sale within three months upon commencement of construction and achieve positive cash flow turnaround within four months upon launching of pre-sale. Concurrently, we have clearly defined all major time periods and business support lines that are important to our operation flows to enable efficiency in filing for approval and commencing construction. We also adopt follow-up methods, using a background supporting mechanism to strengthen regional authorizations for operations, projects and administrations, and to support regional standards and services.

On the other hand, we have pursued prudent financial management policies and managed our current assets levels to ensure the adequacy of our working capital by closely monitoring the cash position and the maturity status of borrowings. On our projects, we also implemented proper oversight measures. By auditing to manage risks, we managed to regulate investment, secure land, recruit personnel and lay down foundations in all workflows, to ensure good standing while expanding our operations.

Due to our diversified sources of capital and high-quality project portfolio, we continued to optimize our debt structure. As of December 31, 2020, bank loans due within one year or on demand, bank loans due from one to two years, bank loans due from three to five years and bank loans due beyond five years accounted for 16.7%, 31.0%, 23.4% and 28.9% of our total outstanding bank loans, respectively. Given our stable relationship with banks, our sound credit history and lower PBOC benchmark lending rates, we believe we will be able to lower our finance costs by replacing certain existing borrowings with lower-interest-rate borrowings. For the three years ended December 31, 2020, the effective interest rate for our financing was 8.5%, 9.8% and 9.0% respectively.

We adhere to the brand concept of “Design for Life” and pursue a corporate culture of “Innovation, Creativity and Entrepreneurship.” Innovation is to think outside of the box, to break away from normal procedure, and to spot the development patterns in an aspect of work with a development-minded vision. This is the life source of our brand. Creativity is a way of thinking that opens our minds, keeps us fresh, lets us observe products, customers and industries absorbedly and discover development patterns more easily. Entrepreneurship is the spirit to grasp challenges and be unswerving, the combined fruition of innovation and creativity, and the common dream of all the employees.

OUR STRATEGIES

We strive to become a leading residential real estate developer in the PRC through steady business development. We intend to achieve our goal by pursuing the following strategies:

Solidify Our Market Position in the Yangtze River Delta Region While Seeking Opportunities in Cities in Other Regions of PRC

We will continue to deepen penetration in the Yangtze River Delta Region, which is one of the biggest economic zones in the PRC with a more established real estate market. Since we have had a presence in the Yangtze River Delta Region for many years and our brand has gradually gained wider recognition among customers, we believe we have the geographical advantage in this market. When enlarging our investment footprints, we will choose regional hub cities in the Yangtze River Delta Region as key points, fanning out from point to area. We will continue to deepen penetration in the Yangtze River Delta Region by establishing regional branches in Nanjing, Hefei and Wenzhou to explore land parcels with development potential and seeking opportunities in selected new regions such as Chengdu and Chongqing region, Western China region, Central China region, the Bohai Economic Rim and the Greater Bay Area, as well as selected new cities with high development potential such as Fuzhou.

We believe that the real estate markets in single core second-tier cities, such as Xi’an, Wuhan, Chengdu, Taiyuan, Changsha, Nanchang and other inland provincial capitals, will grow enormously in the next few years to balance regional economic development in the PRC, achieving structural adjustment. Meanwhile, the State Council has approved the establishment of eight national-level city clusters as of February 5, 2018 and are expected to approve another five, within which varying urban groups will form. Due to the driving effect arising from high-speed railways among core cities, the real estate markets in third-tier cities experiencing powerful growth will also have greater development potential, thereby serving as our target regions for development. In light of such market outlook, we will pay attention to opportunities in the second-tier cities with strong economic performance and, to a lesser extent, second-tier cities with moderate current economic performance and third-tier cities with high ranking or high growth potential.

Giving priority to land parcels with well-developed railway transportation, advanced ancillary facilities, high-volume consumers, future development potential and reasonable land premiums, we will conduct our site selection in the densely-populated areas in cities when acquiring land parcels. We will also acquire land parcels for various uses. Although we prefer to focus on the development of residential property, we are open to commercial complex projects with cash flow balance when acquiring land parcels.

As we continue to execute our development projects and prudently replenish our land reserves, we aim to steadily increase in our contracted sales and strengthen our market position in the industry.

Continue to Enhance Our Financial Structure

We will persistently implement a solid financial policy, closely monitor major financial indicators such as gearing ratio and interest coverage, prudently manage capital structure, cash flow and liquidity position as well as control cost and risk, with a view to achieving a high turnover rate of working capital, positive cash flow turnaround and high cash collection rate.

We also plan to expand diverse financing channels to further enhance our capital structure. We believe that our current debt ratio is relative healthy while there is still room for profit margin to grow, thereby providing greater flexibility for us to obtain financing. We plan to explore diversified financing channels following the

successful listing, such as asset-backed securities programs, corporate bonds and other debt offerings. During the course of financing, we strive for a balance between time spent on acquiring funding and cost of capital. Our headquarters will continue to implement overall control of our cash flow to further improve the capital utilization efficiency.

Continue to Enhance Product Quality and Tailor Product Offerings

We place high emphasis on product quality since it is closely linked with the brand image of our Group. We will persistently endeavor to improve our product quality, which will be beneficial for raising brand awareness and consumer recognition of our Group in the Yangtze River Delta Region as well as nationwide, boosting the implementation of our expansion and deployment plan. We will also seek to standardize more project series, design plans and development procedures in order to accelerate our sell-through rate using the scalable commercial model.

We will continue to provide products from the perspective of our customers. With changes in population structure and social attitudes, consumer demands for housing change constantly. We believe that the post-80s and post-90s generations are the dominant force of house purchases in the future, which are our major target customers. Compared with traditional families, new post-80s and 90s generation core families expect to build sound interpersonal relationships in daily life, engage in eventful activities and display personal tastes. Therefore, they attach great importance to garden landscapes that are based on social demands, the functional design of public areas and customer activities while focusing on basic factors such as building density, household function, living comfort and price-performance ratio. In addition, they have higher quality demands for space allocation, design details and community entertainment. With the increasing popularity of smart living, we aim to provide our customers with properties integrated with various smart living features by leveraging on the latest information technologies. We will take the characteristics of such target consumer groups as a breakthrough point and design well-targeted household and community facilities to satisfy their demands. Moreover, based on the various demands of different groups, we will continue to diversify our product lines to expand the coverage to more age groups and wider customer categories.

Optimize Business Operations and Improve Brand Recognition

In the following five years, we will position our Group as a scalable housing enterprise. To achieve this goal, we intend to carry out product and business procedures standardization in order to improve our operating efficiency. We plan to further optimize the three-tier structure of our operating system consisting of our headquarters, regional companies and project companies, and gradually grant authorization to the regional companies in the future so as to stimulate the regional companies to achieve deeper market penetration. By implementing an effective incentive mechanism, we will place emphasis on the establishment of a team culture to create corporate cohesion while encouraging healthy competition among regional companies. We believe that these measures will optimize corporate operations.

In addition to improving our internal corporate operation, we also plan to cooperate with high-quality real estate developers to optimize our resource utilization, achieve cooperation advantage in obtaining land and improve the efficiency for project execution. We believe an efficient corporate operation system and strategic cooperation with renowned real estate developers will enable us to accelerate our market launch and sell-through rate and to achieving rapid turnover. By improving product quality and strongly promoting the situational real estate concept, we plan to further enhance the recognition of “Dafa” in the minds of our consumers. Additionally, we intend to upgrade our brand communication model from a single-channel approach to a multi-channel approach and deepen the promotion of the “Dafa” brand through cooperative activities with established brands. We believe that our accumulative reputation will transform “Dafa” from a regionally famous brand to a nationally famous brand.

Retain and Attract Talents

With our business development nationwide, our demands for quality talent will also increase. In order to meet rapid development in the future, we intend to accelerate the establishment of the talent system, continue to improve the remuneration and benefits system and recruit capable talented personnel to increase our talent reserves. By leveraging our remuneration standard over the industry standard and maintaining an open culture, our Company believes that we will be able to attract high-quality talents from home and abroad.

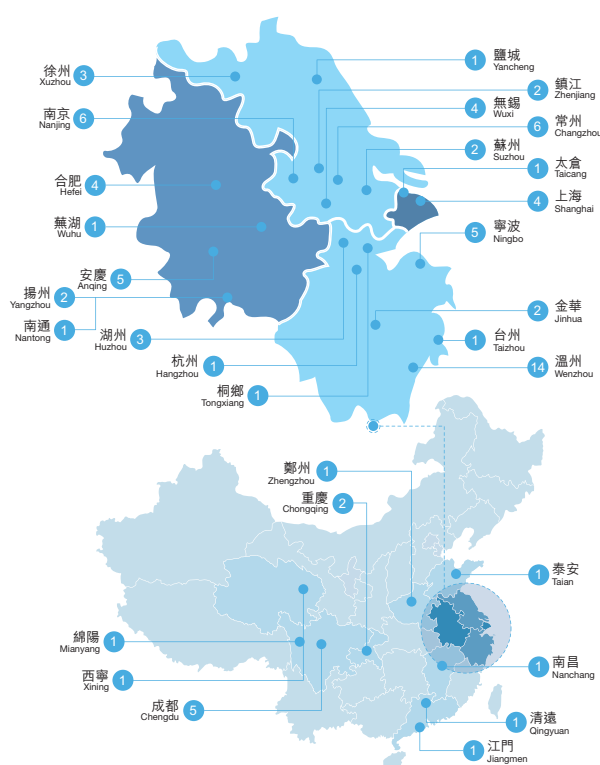

To induce our employees’ sense of achievement, we have designed incentive plans named Collective Endeavor (共創) and Collective Triumph (共贏). The Collective Endeavor plan allows its participants to invest in our project companies and share the profits when certain conditions are met. The Collective Triumph plan is a reward mechanism distributing bonuses to employees according to their positions and performances. We believe that our Collective Endeavor and Collective Triumph incentive plans may mobilize the morale and entrepreneurial spirit of our employees, and tie our employees’ personal growth to the development of our Group. See “— Employees.”

OUR PROJECT PORTFOLIO

PROPERTY DEVELOPMENT AND SALES PROCESS

We have a well-established project development process, which typically includes the major steps illustrated in the diagram below:

Depending on the project scale and complexity, it generally takes 24 to 36 months for us to complete a project after acquiring the relevant land use rights.

We focus on improving our operation and management efficiency through standardized project management model and maintaining a high turnover rate. We have various control measures in place to ensure the smooth implementation of business performance targets. The aspects covered include efficiency, quality, effectiveness and profitability, which are related to decision making process, work stream integration and cash flow in various ways.

In particular, we pay attention to the cash flow breakeven points and constantly optimize the timing between land acquisition and sales launch. We closely monitor various key process timing, from land acquisition to obtaining work permit, opening of sales office, obtaining construction permit and obtaining pre-sale certificate. The holistic system enhances our financial flexibility and helps us monitor risks throughout the process.

Under this approach, we have been successfully able to launch the sales of our projects efficiently. Certain high turnover benchmark projects in 2019 include Changzhou Lijia Longyue Mansion, Wenzhou Yongjia Clearwater Bay and Wenzhou Ruian Ruixiang No. 1, the sales of which were launched within 6 months after land acquisitions.

Opportunity Identification and Site Selection

We place great emphasis on the site selection process because it is key to the success of our project development operation. In conjunction with our ongoing in-depth demographic and market research with respect to the Yangtze River Delta Region and other major cities nationwide, we continuously identify and assess potential development opportunities for new projects.

Based on our overall strategies and development plans, our investment committee coordinates the site selection process with various business departments, such as the design center, cost center, sales and marketing center and finance center. We conduct feasibility study of the site through on-site investigation and market research. The feasibility analysis report contains detailed analysis about the site's existing and potential commercial values, potential land acquisition costs, construction budget, expected return and risk control feasibility. Our investment committee, which is headed by our CEO and comprises representatives from various business departments, reviews and makes decision on the site selection.

We take into consideration factors including the following when conducting opportunity identification and site selection analyses:

- general economic conditions, demographics, population density, composition of industry sectors and economic vitality of the region;
- the turnover rate, inventories and pricing of the real properties in the regional market;
- potential profit, profit margin and cash flows in relation to the site;
- urbanization growth rate, disposable income and purchasing power of consumers;

- policy trends of the local government and urban planning and development plans of the local government;
- core values of the city and the surrounding areas;
- competitive landscape of the local property development market;
- suitability for property development and development prospects;
- convenience of the site's location, transportation network, infrastructure and ancillary facilities;
- existing plot ratio and potential development scale; and
- complexity of land ownership structure in the region and complexity of property rights relating to the land parcel.

Land Acquisition

We acquire land for our projects mainly through public tender, auction or listing-for-sale. In addition, we acquire equity interests or invest in companies that possess or have the rights to possess land use rights for certain lands.

Public Tender, Auction or Listing-for-sale

We acquire land for our projects through public tender, auction or listing-for-sale process organized by government authorities.

- In a public tender, an evaluation committee consisting of no fewer than five members (typically including one representative of the grantor and other experts) evaluates the tenders submitted by bidders. In selecting the tender, the evaluation committee considers various factors including each bidder's bidding price, real estate development experience and track record, credit history, qualification and development proposal.
- In an auction, local land bureaus hold the auction process and grant the land use rights to the bidder with the highest bidding price.
- In a listing-for-sale process, local land bureaus specify conditions for granting the land use rights before bids are submitted. The land use rights are granted to the bidders with the highest bidding price at the end of the listing-for-sale period.

Acquisition of Equity Interests or Investments in Companies

In addition to land acquisition through public tender, auction or listing-for-sale process, we acquire equity interests or invest in companies that possess or have the rights to possess land use rights for certain lands. This method allows us to obtain targeted land at competitive prices as it allows us to negotiate the terms and conditions directly with the targeted companies or the counter parties.

Our Directors have confirmed that, to the best of their knowledge, information and belief having made all reasonable enquiry, the counterparties and the ultimate beneficial owners of the counterparty are Independent Third Parties. Our Directors also believe that the terms of the transactions are fair and reasonable and in the interests of the shareholders as a whole.

The general nature of all these acquisitions is land acquisition, and the principal business carried out by all of the counterparties (excluding individuals) of these acquisitions is property development and sales or management consultancy. We conducted such acquisitions for the purpose of achieving continued growth of land reserve at competitive costs. The financing source of such acquisitions are all internal funds and the basis for determining the consideration of these acquisitions are through arm's length negotiations between the parties and on normal commercial terms with reference to the cost of the land.

Land Reserves

We hold land parcels acquired and held for future development as land reserves. We have not received any notice from any PRC government authority identifying any idle land or requiring us to pay idle land fees as of December 31, 2020.

Project Planning and Design

We aim at developing the concept of situational real estate (情景地產) in our project planning and design. The concept of situational real estate consists of two core elements of emotion, i.e. the interpersonal bonding that increases one's sense of happiness, and occasion, i.e. the tangible and accessible physical space that provides a platform for human emotions to develop. Instead of thinking from the perspective of a developer, we put ourselves into the shoes of customers to empathize on what our customers expect from life. Having realized the importance of "emotion" and how "occasion" intensifies "emotion," we make use of details in physical space leading it to a specific living scene that brings warmth, comfort and inspiration to our customers. For example, we build the kids' activities center, label the "health tracks" for sports lovers to jog and run, separate the roads for pedestrians from those for vehicles and incorporate other design elements that promote healthiness and happiness. We also aim at utilizing the interior space to its maximum and making sure our customers enjoy enough space for goods-storing, socializing and privacy in a unit. Real properties are houses, but situational properties are homes. We believe that satisfying the emotional needs of our customers and provide them with vivid living experiences will continue to be our greatest advantage. We classified the living experience of our customers into the following four scenarios under 24 Blissful Living Community (24悅愛社區), which features quality community that provides our customers with family-like experiences, community-focused amenities that facilitate social activities, fitness amenities that facilitate healthy and well-balanced lifestyle and smart systems that provide a healthy, safe, convenient and comfortable living environment for our customers;

We outsource our project planning and design work to Independent Third Parties. We engage specialized design firms for different types of design work of a project, such as architectural design, landscape design, interior design and ancillary facility design. Through a tender-by-invitation process, our design bidding evaluation team carefully selects design firms based on their strengths, pricing and suitability for our specific requirements. We have an internal protocol for selecting and managing the design firms. To enhance the value and marketability of our projects, we engage reputable domestic and international design firms to perform detailed design work for our projects. We worked with top-tier domestic and international design companies, such as Allied Architects International (Canada) Inc., United Architecture Design Group Inc. (Shanghai), Shanghai Johnson Architectural & Engineering Designing Consultants Ltd., Shanghai PT Architecture Design & Engineering Consultant Co., Ltd. and Shanghai Tontsen Architectural Design Co., Ltd.

Our design center is responsible for coordinating the overall planning and design of our projects throughout the land selection, pre-construction and construction phases. Our design center communicates closely with personnel from our operation center, cost management center, sales and marketing center, city companies and project companies throughout the planning and design process to obtain a comprehensive view on aspects such as budget and cost, procurement and sales and marketing. The final design is submitted to relevant PRC government authorities for approval and becomes the blueprint for the construction of a project.

Construction and Quality Control

Appointment of Construction Companies

We outsource the construction work of our projects to external Independent Third Party construction companies. Outsourcing construction work allows us to better focus on our business as a property developer, and to leverage the expertise of the construction companies and minimize certain risks, such as risks from fluctuations in the cost of raw materials.

We select construction companies for our projects through a tender process in accordance with the Law on Tender and Bidding of the PRC (《中華人民共和國招標投標法》) and the Rules on the Tender Scope and Criteria for Construction Projects (《工程建設項目招標範圍和規模標準規定》). The tender process may be conducted via open tender or tender by invitation. We prefer construction companies with which we have long-term working relationships to ensure the quality of our products, and have an internal list of construction companies that meet our criteria and which we may invite to tender for new projects. Our cost management center also publishes bidding information on our website and through an online platform for exchange of information between real estate developers and third party suppliers.

To ensure the quality and workmanship of its properties, we apply stringent criteria in the selection of our construction companies. When assessing construction companies, we take into consideration factors such as professional qualifications, reputation, credentials, financial condition, experience, price quote, track record and quality of construction work, proposed construction schedule and plan and technical capabilities.

The construction contracts we enter into with the selected construction companies contain warranties provided by the construction companies with respect to construction schedules, quality and safety standards. The construction companies are required to pay fines in the event of delays and are responsible for the costs incurred in rectifying construction defects, pre-and post-completion and delivery. In addition, we may terminate a construction contract if the construction company causes any material delay to the development schedule or irreparable damage to the project development. For the years ended December 31, 2018, 2019 and 2020, we did not experience or been subject to any material construction delay, penalty, claim or loss as a result of unsatisfactory work performed by the construction companies we engaged.

We make payments to construction companies through our cost management center in installments in accordance with the terms and conditions stipulated in the construction contracts and the percentage required at each stage varies from case to case. In general, we pay the construction companies 80% of the full contract price when the construction work is completed, and pay 95% to 97% of the total contract price within a month upon project settlement. We retain the remaining 3% to 5% as quality deposit for one to five years. The quality deposit is used to cover any contingent expenses incurred as a result of construction defects.

Procurement

A significant portion of our raw materials, fixtures and equipment were procured in China. The construction companies are generally responsible for the procurement of raw materials, such as concrete and steel, used in the construction process. Such raw material costs are included in the pre-agreed contract prices with the construction companies. We conduct inspection on and label the raw materials upon their entry into the construction site. Our operation center also conducts monthly and quarterly examination of the materials and communicates timely with the on-site project supervisors. For materials which materially affect the designs of our products, such as steel, cement, plastic pipes and water-proof materials, we may require the construction companies to procure materials of specific brands at prices we pre-negotiate with suppliers.

We timely monitor the price trend of materials based on industry information. For concrete and steel, our contractors bear the risk or enjoy the benefit of fluctuation within 3% of the contract price and we bear the risk or enjoy the benefit of fluctuation exceeding 3% of the contract price. Our contractors also bear the risk of price fluctuation for all other materials that they are responsible for. We can, to a certain extent, pass any increases in raw material costs to our customers by increasing the prices of our products. However, we still bear the risk of price fluctuations in raw materials to the extent that we are unable to increase our prices to fully cover any increases in costs.

To maximize our economies of scale and bargaining power, we centrally procure certain equipment and fixtures, such as floors and bricks, cupboards, bathroom ware, kitchen ware, water heaters, air conditioners and doors, through tender process. The procurement contracts normally do not allow for price adjustments and we are not subject to any minimum purchase commitments.

To obtain favorable commercial terms and ensure stable supply of certain materials, we entered into strategic cooperation agreements with suppliers from time to time.

We enter into contracts with an average term of two years with the strategic suppliers. In general, we pay 85-90% of the contract price to our strategic suppliers upon the delivery of goods and settle the remaining amount after the products have passed our quality control inspection processes and those of the construction supervision companies. We do not maintain any inventory of construction materials. As we maintain a central supplier database for the equipment which we are responsible for purchasing, we have sufficient options and alternatives when a supplier fails to meet our demand, which largely prevents the risk of supply shortages. We did not experience any shortages or delays in the supply of raw materials which had a material impact on our operations for the years ended December 31, 2018, 2019 and 2020.

Construction Supervision and Quality Control

We place significant emphasis on quality control with regard to the construction and management of our projects. We believe that quality control is essential in establishing and strengthening the reputation of our brand, and providing high-quality comfortable living space has been our long-term goal. To ensure quality of properties and compliance with relevant laws and regulations, we have established a system of quality control policies and procedures to govern each aspect of the development process.

Our operation center is responsible for overseeing the overall construction process for each of our projects. The operation center regularly reviews our projects under construction and conducts quarterly on-site inspections of all projects and monthly on-site inspections of selected projects. If there are any instances of non-compliance, the city companies report them to our CEO office and we require the non-compliant entity to rectify the issue within a specified timeframe.

In compliance with relevant PRC laws and regulations, we engage independent certified site-based construction supervision companies to monitor the entire construction process of our projects. The construction supervision companies conduct quality inspections on construction materials, underground engineering safety special assessment, property delivery special assessment, and on-site workmanship checks to ensure that they meet our prescribed specifications and applicable regulatory requirements. In addition, all properties under development are inspected regularly by Independent Third Party professionals and prior to and upon delivery.

At each project level, the project department of the city company and the construction supervision company are responsible for supervising the quality control process of our projects. The supervising engineers and engineers from the project department are based on site to closely monitor the quality and progress of construction work and selection of construction materials to ensure all construction work is completed according to relevant timetables and in compliance with our quality standards and applicable national requirements. The construction company will be responsible for administrative management, material management and sample management in the quality control process of our projects. The construction company will also be notified to rectify any wrongdoing, inappropriate conduct or defect in procedures.

Our inspection process includes the following: (i) all materials and equipment are inspected when entering the site and samples are sent to qualified inspection units for approval. Materials and equipment with unsatisfactory inspection results cannot be used; (ii) all sub-divided work steps are inspected on-site by construction supervision companies and engineers from the project department. Only when the inspection results of a work step is satisfactory and signed off by the engineers when the next work step may be carried out; and (iii) the construction work of a project must be inspected and confirmed by the design unit, surveying unit, construction company, construction supervision company and us. The quality control standard set by the local government is the minimum threshold and we are establishing a higher standard for our internal quality control purpose.

Our operation center coordinates with other departments through meetings, “Office Automation” online approval system and all-department inspections.

The construction companies engaged by us are not allowed to subcontract or transfer their contractual agreements with us to third parties without our prior consent. When subcontracting construction works to third parties under our consent, the construction companies are obliged to supervise and ensure the subcontractors’ construction works are in strict compliance with our specifications and requirements, and to provide progress reports to us on a regular basis for us to closely monitor the construction progresses. We usually designate subcontractors for units that require stringent quality control, e.g. fire and waterproofing work, doors and windows and exterior design.

For the years ended December 31, 2018, 2019 and 2020, we had no disputes with respect to quality with the construction companies that we engaged which had a material adverse impact on our business or financial condition. In addition, during the same periods, there was no material delay or failure to complete the construction work of any of our projects according to our planned specifications.

Sales and Marketing

Pricing

Our ability to price our products at desired levels has been, and will continue to be, important to our results of operations. We have a clear pricing protocol for each project. We conduct market analysis of the proposed land and research on comparable properties and inventory within the area where our projects locate, and produce and submit a positioning report to the design center after the land acquisition. We also calculate costs, expected profits and cash flow of the project. Before the sales process, we produce a pricing report taking into account market conditions of the time being and submit it to our CEO for final approval. Generally, we determine the prices of our for-sale properties based on a variety of factors, including market conditions, the overall supply and demand dynamics, competitive landscape and prices of comparable properties in the market, target profits, cost of construction and governmental restriction policy on real property price. We expect a mixed trend in the pricing of our projects, depending on their location and development level, with a magnitude subject to governmental policies.

Pre-sales

We commence pre-sale activities for all of our properties prior to their completion, usually within eight to ten months after the acquisition of the relevant land parcels. According to the applicable PRC laws and regulations, there are certain criteria which must be met before we may commence any pre-sale activities for a property under development. These conditions include full payment of the land grant premium and acquisition of all relevant land use rights certificates, construction-related permits and pre-sale permits.

Further, in some cities where we operate, such as Shanghai, the use of pre-sale proceeds is restricted. Under the applicable rules and regulations of these local governments, the use of pre-sale proceeds is restricted to be primarily for the construction and development of the relevant projects.

Sales, Marketing and Promotion

Our properties for sale mainly target the mass market and are located in the Yangtze River Delta Region. Most of our customers are local first-time home buyer or middle-class population seeking to improve their housing experience.

Our sales and marketing center is responsible for formulating sales and marketing strategies and managing the overall sales and marketing process. The sales and marketing center is closely involved in each property development process, including project positioning, preliminary marketing, obtaining pre-sale permits, organizing sales activities of signing, down payment, mortgage application and final settlement of payment, as well as delivering the properties.

Our sales and marketing strategies include online and outdoor advertisements. Volumes of advertisements depend on the specific sales phase of a project. At the pre-sale stage, we invest in major media to increase online exposure and organize large-scale activities and introduction meetings to build momentum of our projects before the pre-sale phase. At later stages, we move to small-scale yet well-targeted outdoor activities near our project location to bolster the final sales. Advertisements greatly facilitate our sales activities in making the project better known in a wider range of potential customers.

We also engage reputable third-party real estate sales agents to facilitate the sales and marketing of our projects, depending on our familiarity with the area and our sales goal. The standard service agreements we enter into with sales agents include key terms such as the scope of retention, duration of services, scope of authorization, fees and payment method. The standard service agreements also stipulate that the sales agents must not conduct unauthorized sales or sell our properties at prices lower than those agreed by us, and that the sales agents must carry out truthful advertising and comply with all applicable regulatory requirements. We have an internal guidance that regulates sales and marketing activities conducted by both our employees and agents. Our engagement of the sales agents is generally not exclusive.

For the three years ended December 31, 2020, we incurred commissions costs in relation to external sales agents amounting to RMB20.8 million, RMB37.6 million and RMB53.2 (US\$8.2 million), respectively. The sales agents do not receive any sales payments on behalf of us. Payments are made by the customers directly to company accounts designated by us.

Payment Arrangements

Customers may purchase our properties by one lump-sum payment or payment by installments. For customers who opt to pay by installments, they may fund their purchases by personal funds or mortgage loans provided by commercial banks.

We typically require our customers to pay a deposit upon entering into a sale and purchase agreement. Such deposits are non-refundable and are forfeited if the customers default on the purchases. Customers who purchase properties by making one lump-sum payment are normally required to fully settle the total purchase price within the prescribed period after entering into the relevant sale and purchase agreements. Customers who pay by installments are required to make payments in accordance with the agreed payment schedules. Outstanding balances must be fully settled prior to property delivery. Depending on the locality of the properties, first-time home purchasers who purchase properties with mortgage loans are required to pay a down payment of no less than 30-35% of the total purchase price (the percentage being 40-70% for second-home purchasers) upon entering into a sale and purchase agreement. The outstanding amounts are settled by the mortgagee banks within the prescribed period pursuant to the respective bank financing agreements. The minimum percentage of down payment is subject to changing government policies.

In line with industry practice in the PRC, we provide guarantees to mortgagee banks for the mortgage loans offered to our customers. These guarantees are typically released upon the issuance of the relevant property ownership certificates for the properties and the registration of the mortgage in favor of the mortgagee bank. If a purchaser defaults on a mortgage loan during the guarantee period, we are required to repay the outstanding balances owed to the mortgagee bank. We are assigned the title to the mortgage loan, with rights to the property, upon settling such outstanding balances. In line with industry practice, we rely on the credit checks conducted by the mortgagee banks, rather than conducting independent credit checks on our customers. As of December 31, 2020, outstanding guarantees provided by us in respect of mortgage loans of our customers amounted to RMB4,497.5 million (US\$689.3 million). For the years ended December 31, 2018, 2019 and 2020, we did not encounter any material incidents of default by our customers.

Delivery and After-sale Services

Delivery of Properties

Delivering quality properties and providing satisfying purchasing experiences to customers are fundamental to the success of our business. We commence delivering properties upon issuance of the delivery permit by notifying our customers of the delivery plan, inspecting the properties on-site with our customers and signing the title transfer certificates upon their satisfaction. Our customers are responsible for undergoing the title registration process with materials provided by us.

The timeframes for delivery are set out in the relevant sale and purchase agreements. Under a typical sale and purchase agreement, we are liable to pay a monetary penalty of 0.01% of the purchase price on a daily basis until delivery of the property if we failed to deliver the property on the delivery day stipulated in the agreement. We must also return the full payment, together with the daily penalty, within 90 days after receiving the notice of repudiation from the customer. For the years ended December 31, 2018, 2019 and 2020, we did not experience any delays in the delivery of properties which had any material adverse impact on our business, financial condition and results of operations.

After-sale Services

We are committed to customer satisfaction and offer our customers comprehensive after-sale services, including, among others, client reception service and property management. Our client reception deals with feedbacks and complaints about our products and services. It is our policy to attend to any customer feedbacks or complaints in a timely manner. Third party property management companies provide maintenance, security and cleaning services for our customers after they move in the properties. We believe that our customers have considerable recognition of our after-sale services.

To maintain long-term relationships with our customers, establish customer loyalty and foster brand awareness, we have established the Dafa Club, a membership program in which purchasers of our properties are automatically enrolled. Members of the program receive sales information regarding our latest projects prior to public sales, enjoy special discounts when purchasing other projects of ours and are invited to attend activities organized by us from time to time. Customers referred by Dafa Club members also enjoy discounts in their purchase of properties of our projects.

Warranties and Returns

We provide our customers with warranties for the quality of building structures pursuant to the Measures on the Sales of Commodity Housing (《商品房銷售管理辦法》) and Regulations for the Operations of Urban Property Development (《城市房地產開發經營管理條例》). In addition, in accordance with the published national standards, we provide quality warranties for ground foundations, main structures, waterproofing work, water and electricity work, decorative work and sanitary wares. The warranty durations vary depending on the covered items and are usually for a period of six months to five years. The warranty durations for ground foundations and main structures are the relevantly reasonable lifespans stated in the design documents.

Our construction companies are responsible for rectifying quality defects in the properties, whether such defects are discovered pre-or post-completion and delivery. We may repair quality defects only if the construction companies cannot repair the defect in a timely manner. We generally retain a quality deposit of 3% to 5% of the total contract price for approximately one to five years to cover any contingent expenses that may be incurred as a result of any quality defects.

COMMERCIAL PROPERTY INVESTMENT AND OPERATIONS

In line with our business strategy, we own and operate a substantial portion of our commercial properties we developed for long-term investment purposes. These commercial properties include our Nanjing IST Mall, Nanjing Kai Hong Plaza, Shanghai Kai Hong Plaza and Harbor Ring Plaza and other retail spaces. We hold these commercial properties for capital appreciation and lease them to generate rental income. For the three years ended December 31, 2020, the revenue generated from commercial property investment and operations amounted RMB65.2 million, RMB54.4 million and RMB49.6 million (US\$7.6 million), respectively, representing 1.9%, 1.0% and 0.5% of our total revenue in the respective periods.

Operational Management

We operate and manage our commercial properties through our commercial and branding center, which is responsible for project planning, project management, invitation for tender, tenant management, lease management, finance and marketing of our commercial properties. Currently, our commercial and branding center consists of five employees, all of whom have obtained a bachelor's or more advanced degree and have at least five years of work experience in advertising, real estate, strategy and management or creativity industries. Our operational management team strives to provide our customers with high quality services and ensure that the operation of our commercial properties adapt to regional market demand, so as to enhance the competitiveness of our commercial properties. The quality and efficiency of our operational management are also tied to the operating and financial results of our commercial properties.

Marketing and Promotion

We carry out marketing activities for our commercial properties in line with the sales cycle throughout the year to maintain abundant visitor flows. We also conduct a variety of special promotional events based on the needs of our tenants and shoppers. These marketing events enhance our visitors' shopping experience and help us achieve satisfactory operating results.

We tailor the marketing activities with different features of our commercial properties. For example, in our Nanjing IST Mall, we carry out the i-Box Music Fair, Basketball Carnival, Trendy Sunset Party, Christmas Street Sports Party and Graffiti & Music Festival that target young population and emphasize key elements of popular culture, such as, among others, skateboarding, electronic music, band, etc.

Our commercial and branding center also carries out various marketing and promotions through channels such as WeChat, Weibo and outdoor LED advertisements in addition to mainstream news and advertising media to attract shoppers.

Site Selection

When seeking suitable sites for our commercial properties, we particularly focus on areas with great potential by virtue of their locations and catchment sizes. Specifically, we take into account the population density, governmental planning, business environment and transport infrastructure in the surrounding areas. All of our commercial properties across the Yangtze River Delta Region are planned and developed to supplement our residential properties development, and are located in areas where we believe have abundant business resources.

Design

We design commercial properties based on our understanding of the needs of our shoppers and tenants. Depending on the overall layout and positioning of our commercial properties, we engage third party design firms to work out detailed design plans. See “— Property Development and Sales Process — Project Planning and Design.”

We carefully plan the layout of our commercial properties to heighten the overall shopping experience of the visitors. In particular, to enhance the shoppers' ease of navigation as well as to ensure optimal location of businesses and compatibility of tenants, we clearly divide each of our commercial properties into different zones and group tenants based on their industry sectors.

Tenant Selection

As of December 31, 2020, our commercial centers served a large and diverse tenant base consisting of approximately 110 individual leases in total. They are the home to many domestically and internationally renowned retailers and fast-food chains, which we believe help enhance the positioning and retail offering, attract higher visitor traffic and improve the overall rental potential of our commercial properties.

To maintain the competitiveness and profitability of our commercial properties, we strategically select a balanced mix of tenants based on a project's overall positioning and the needs of the surrounding communities, including our adjacent residential properties. We take into consideration the reputation and general brand recognition of the potential tenants, the industry sectors and nature of goods and services offered by such tenants, as well as their track records and past relationships with us.

Lease

In general, we enter into lease agreements for our commercial properties with terms that range from three to 15 years. Long-term lease agreements are normally entered into with well-known international brands, chain stores and flagship stores. We believe that the long-term leases with such tenants provide stable rental revenue to us and may help enhance the positioning of our commercial properties. We usually enter into short-term lease agreements with new or less renowned brands for a term of three years, such that we may adjust our tenant choices based on prevailing market conditions from time to time.

Rental

Depending on the tenants' relationships with us and the scale, reputation and nature of business of the tenants, we typically use the following methods when determining the rental fees: (i) fixed rental fees during a preliminary period with predetermined periodic rental increases in the remaining lease term ("rent based on fixed amount with adjustments"); (ii) rental fees calculated based on a predetermined percentage of the monthly retail revenue of a tenant ("rent based on performance"); and (iii) rental fees calculated using the rental pricing method set out in (i) above or the rental pricing method set out in (ii) above, whichever is higher ("rent based on combined method").

PROPERTY MANAGEMENT

We collect a management fee based on the tenants' relative location, usage and usable GFA. Our property management service income and management fee was RMB1.5 million, RMB49.7 million and RMB 53.7 million (US\$8.2 million), respectively, accounting for 0.1%, 0.7% and 0.6%, respectively, of our total revenue for the three years ended December 31, 2020.

PROPERTIES USED BY US

Properties used by us mainly include offices. As of December 31, 2020, the buildings owned and used by us accounted for an aggregate GFA of approximately 8,157 sq.m., with a carrying amount of RMB94.0 million (US\$14.4 million).

COMPETITION

We are an established and well known commercial and residential property developer headquartered in Shanghai. During the past years, we have been growing dramatically and receiving awards. Please refer to "Business — Competitive Strengths" for additional details.

We believe that the PRC residential property market and the regional residential property markets in the Yangtze River Delta Region are highly fragmented and competitive. We compete primarily with national, regional and local real estate developers that possess fine brand recognition and reputation in the cities where we and our subsidiaries have operation or intend to enter. We compete with those developers mainly over brand recognition, financial resources, sizes and locations of land reserves, pricing, etc.

Despite the high level of competition, we believe that we have demonstrated resilience to market changes and competition with our substantial experience and reputation in property development, creative design, timely execution of project planning and high quality property products and services. Our main business of residential property development grows rapidly during the past years. In the cities where we had entered for a long period, such as Anqing, Nanjing and Wenzhou, we maintain our advantage even compared with nationally renowned real estate developers through qualified residential products and high customer loyalty. While further concentrating on the existed familiar markets, we expand our operation scale by increasing land reserves in cities we consider promising, such as Shanghai, Ningbo, Zhoushan and Wuhu, where the purchasing power of residential properties is buttressed by the stable economic development. We are making efforts to earn more market shares and build up brand reputation by creative residential products and appropriate pricing.

INTELLECTUAL PROPERTY

We place significant emphasis on developing our brand image and pay great attention to the protection of our intellectual property rights. As of the date of this offering memorandum, we have registered 19 trademarks in the PRC and two trademarks in Hong Kong, and we have 25 trademark applications in the PRC. As of the date of this offering memorandum, we have had two domain names for which our subsidiary was the registered proprietor.

Our business is not materially dependent on any intellectual property rights. As of the date of this offering memorandum, we are not aware of any infringement of our intellectual property rights by third parties or any infringement by us of intellectual property rights owned by third parties.

EMPLOYEES

As of December 31, 2020, we had a total of 1,029 employees.

The following table sets forth a breakdown of our employees by function as of December 31, 2020.

| Job Nature | Number of employees |
|--|----------------------------|
| Senior management | 38 |
| Engineering and cost control..... | 254 |
| Sales and marketing | 450 |
| Administration and human resources | 74 |
| Finance and accounting | 108 |
| Design..... | 52 |
| Project research and development..... | 43 |
| Internal control | 4 |
| IT | 6 |
| Total | 1,029 |

We mainly recruit employees from the labor market, universities and through headhunting. We enter into individual employment contracts with our employees which cover wages, employee benefits and other matters required by applicable PRC laws and regulations. We deeply care about the well-being of our employees and offer them salaries and benefits with prevailing market standards. We also contribute to basic medical insurance, pension insurance, maternity insurance, unemployment insurance, work-related injury insurance and housing provident funds for our employees and pay relevant insurance premiums according to applicable PRC laws and regulations. We are committed to training and retaining skilled employees at all levels. We provide on-going and systematic training programs for our employees based on their positions and expertise to enhance their understanding and knowledge of the property industry and related areas. For instance, training programs for our sales and marketing personnel focus on improving their sales capabilities, whereas trainings designed to improve management and leadership skills are offered to mid-to senior-level management personnel. In addition to providing internal trainings, we also engage external experts to conduct training sessions for our employees from time to time.

To induce our employees' sense of achievement, we have designed incentive plans of Collective Endeavor (共創) and Collective Triumph (共贏).

The Collective Endeavor plan allows our employees to invest in our project companies through their limited liability partnerships. All of our full time employees are eligible to participate and senior management at vice director or above levels are required to participate in the plan. Since March 2018, employees who are connected persons are no longer eligible to further invest in our project companies pursuant to the plan of Collective Endeavor. The Collective Endeavor plan was implemented in October 2015 and the relevant project companies under the plan began to declare dividends in 2017. We did not declare dividend to employees who participated in the plan for the year ended December 31, 2020.

The Collective Triumph plan is a reward mechanism distributing bonus to employees according to their positions and performance. The bonus under the Collective Triumph plan is available upon satisfaction of conditions at both the regional company level and the project level.

The regional company needs to fulfill at least 90% of the annual operational target set by the Group. The relevant project needs to record positive cash flow within 12 months and meet the capital return target set by the Group. The plan was launched in April 2018.

We believe that our incentive plans of Collective Endeavor and Collective Triumph may mobilize the morale and entrepreneur spirit of our employees, and tie our employees' personal growth to the development of our Group.

We are dedicated to maintaining good working relationships with our employees. As of the date of this offering memorandum, we did not experience any significant labor disputes which adversely affected in a material manner on our business operations. Our employees are represented by the employee union, which is responsible for facilitating communication between us and our employees. The employee union handles complaints from employees, liaises between the employees and our management and ensures that the legal rights of the employees are protected. For the years ended December 31, 2018, 2019 and 2020, there were no material disputes arising from our employee union.

INSURANCE

We maintain insurance, including social insurance, for our employees as required by applicable PRC laws and regulations and as we consider appropriate for our business operations. Under applicable PRC laws and regulations, construction companies as employers are required to purchase insurance for their construction workers. In line with industry practice, we do not currently maintain additional insurance in this respect.

As required by banks with respect to properties that have been pledged as collateral to secure bank loans, we have obtained property damage and third-party liability insurance for such properties in accordance with the relevant loan documents.

ENVIRONMENTAL MATTERS

We are subject to a number of environmental laws and regulations including the Environmental Protection Law of the PRC (《中華人民共和國環境保護法》), the Prevention and Control of Environmental Noise Pollution Law of the PRC (《中華人民共和國環境噪聲污染防治法》), the Environmental Impact Assessment Law of the PRC (《中華人民共和國環境影響評價法》) and the Administrative Regulations on Environmental Protection for Development Projects (《建設項目環境保護管理條例》).

Pursuant to applicable laws and regulations, each of our development projects must undergo an environmental assessment before the commencement of construction. We must fulfill environmental impact assessment procedures with the relevant environmental protection authorities. The procedures may contain certain standards, which must be incorporated into the design, construction and operation of the project. We require our construction companies to comply with these standards during the construction process. We also encourage our construction companies to use environmentally friendly equipment and technologies. Upon the completion and before the delivery of the property, the relevant environmental protection authorities inspect the project to ensure compliance with all applicable environmental laws and regulations.

Assuming no material changes in applicable environmental laws and regulations, we expect that we will continue to incur environmental compliance costs at a similar level going forward. As of December 31, 2020, we had not encountered any material issues in passing inspections conducted by the relevant environmental protection authorities upon completion of our properties. None of our properties received any material fines or penalties associated with the breach of any environmental laws and regulations as of December 31, 2020.

HEALTH AND SAFETY MATTERS

We are subject to various PRC laws and regulations with respect to safety and work-related incidents. We have established a set of guidelines on issues relating to occupational health and safety and have developed a comprehensive management system to implement our policies and procedures in this respect. In addition, we provide regular trainings to our employees on topics relating to occupational health and safety to enhance the awareness and knowledge of our employees.

Under applicable PRC laws and regulations, construction companies are responsible for the safety of the construction sites and are required to maintain accident insurance for their workers. We generally require our construction companies to purchase accident insurance in accordance with applicable laws and regulation, adopt effective occupational safety control measures and offer regular physical examinations and training to workers who are exposed to the risk of occupational injuries.

We are committed to providing our employees with a safe and hygienic working environment. To ensure construction quality and safety, we have established a set of standards and specifications which we require our employees to follow and conduct regular inspections upon. We have established a two-tier emergency working group (突發事件應急處理小組), which is led by a senior vice president at the headquarters level and a general manager at the city company level, to deal with on-site health and safety-related incidents. Upon the occurrence of an emergency, the project department of the city company should report immediately to the general manager's office. The general manager should report to the operation center and the CEO's office within two hours after the incident and submit a written report within six hours after the incident. The project department of the city company will procure remedies to be taken by the construction companies, and the operation center will coordinate between the Group and the city company and mobilize relevant centers and departments to provide professional support. All emergencies are required to be resolved within three days. Debriefing sessions and trainings will be held afterwards to prevent future incidents of the alike.

As of December 31, 2020, we did not encounter any incidents which resulted in material injuries or fatalities of construction workers or had a material adverse effect on our operations.

LEGAL PROCEEDINGS

As a property developer in the PRC, we may face arbitration, litigation or administrative proceedings or disputes in our ordinary course of business. As of December 31, 2020, we had not been involved in any actual or threatened arbitration, litigation or administrative proceedings which had or could be expected to have a material adverse effect on our reputation, business, results of operations and financial condition.

REGULATION

THE PRC LEGAL SYSTEM

The PRC legal system is based on the PRC Constitution and is made up of written laws, regulations, directives, local laws, laws of Special Administrative Regions and laws resulting from international treaties entered into by the PRC government. Court verdicts do not constitute binding precedents. However, they are used for the purposes of judicial reference and guidance.

The National People's Congress of the PRC ("NPC") and the Standing Committee of the NPC are empowered by the PRC Constitution to exercise the legislative power of the State. The NPC has the power to amend the PRC Constitution and enact and amend basic laws governing State agencies and civil and criminal matters. The Standing Committee of the NPC is empowered to enact and amend all laws except for the laws that are required to be enacted and amended by the full NPC.

The State Council is the highest organ of the State administration and has the power to enact administrative rules and regulations. The ministries and commissions under the State Council are also vested with the power to issue orders, directives and regulations within the jurisdiction of their respective departments. All administrative rules, regulations, directives and orders promulgated by the State Council and its ministries and commissions must be consistent with the PRC Constitution and the national laws enacted by the NPC. In the event that a conflict arises, the Standing Committee of the NPC has the power to annul the conflicting administrative rules, regulations, directives and orders.

At the regional level, the provincial and municipal congresses and their respective standing committees may enact local rules and regulations, and the people's governments may promulgate administrative rules and directives applicable to their own administrative areas. These local laws and regulations must be consistent with the PRC Constitution, national laws and the administrative rules and regulations promulgated by the State Council.

The State Council, provincial and municipal governments may also enact or issue rules, regulations or directives in new areas of the law for experimental purposes. After gaining sufficient experience with experimental measures, the State Council may submit legislative proposals to be considered by the NPC or the Standing Committee of the NPC for enactment at the national level.

The PRC Constitution vests the power to interpret laws in the Standing Committee of the NPC. According to the "Decision of the Standing Committee of the NPC Regarding the Strengthening of Interpretation of Laws" (全國人民代表大會常務委員會關於加強法律解釋工作的決議) passed on June 10, 1981, the Supreme People's Court, in addition to its power to give general interpretation on the application of laws in judicial proceedings, also has the power to interpret specific cases. The State Council and its ministries and commissions are also vested with the power to interpret rules and regulations that they have promulgated. At the regional level, the power to interpret regional laws is vested in the regional legislative and administrative bodies which promulgate such laws.

THE PRC JUDICIAL SYSTEM

Under the PRC Constitution and the Law of Organization of the People's Courts, the judicial system is made up of the Supreme People's Court, the local courts, military courts and other special courts. The local courts are comprised of the basic courts, the intermediate courts and the higher courts. The basic courts are organized into civil, criminal, economic and administrative divisions. The intermediate courts are organized into divisions similar to those of the basic courts, and are further organized into other special divisions, such as the intellectual property division. The higher level court supervise the basic and intermediate courts. The People's Procuratorates also have the right to exercise legal supervision over the civil proceedings of courts of the same level and lower levels. The Supreme People's Court is the highest judicial body in the PRC. It supervises the administration of justice by all other courts.

The courts employ a two-tier appellate system. A party may appeal against a judgment or order of a local court to the court at the level immediately superior. Second judgments or orders given at the same level and at the level immediately superior are final. First judgments or orders of the Supreme People's Court are also final. If, however, the Supreme People's Court or a court at a higher level finds an error in a judgment which has been given in any court at a lower level, or the presiding judge of a court finds an error in a judgment which has been given in the court over which he presides, the case may then be retried according to the judicial supervision procedures.

The Civil Procedure Law of the PRC (中華人民共和國民事訴訟法), which was adopted on April 9, 1991 and amended on October 28, 2007 and August 31, 2012 and June 27, 2017, sets forth the criteria for instituting a civil action, the jurisdiction of the courts, the procedures to be followed for conducting a civil action and the procedures for enforcement of a civil judgment or order. All parties to a civil action conducted within the PRC must comply with the Civil Procedure Law. Generally, a civil case is initially heard by a local court of the municipality or province in which the defendant resides. The parties to a contract may, by express agreement, select a jurisdiction where civil actions may be brought, provided that the jurisdiction is either the plaintiff's or the defendant's place of residence, the place of execution or implementation of the contract or the object of the action. However, such selection cannot violate the stipulations of grade jurisdiction and exclusive jurisdiction in any case.

A foreign individual or enterprise generally has the same litigation rights and obligations as a citizen or legal person of the PRC. If a foreign country's judicial system limits the litigation rights of PRC citizens and enterprises, the PRC courts may apply the same limitations to the citizens and enterprises of that foreign country within the PRC. If any party to a civil action refuses to comply with a judgment or order made by a court or an award granted by an arbitration panel in the PRC, the aggrieved party may apply to the court to request for enforcement of the judgment, order or award. A time limit of two years is imposed on the right to apply for such enforcement. If a person fails to satisfy a judgment made by the court within the stipulated time, the court will, upon application by either party, mandatorily enforce the judgment.

A party seeking to enforce a judgment or order of a court against a party who is not located within the PRC and does not own any property in the PRC may apply to a foreign court with proper jurisdiction for recognition and enforcement of the judgment or order. A foreign judgment or ruling may also be recognized and enforced by the court according to the PRC enforcement procedures if the PRC has entered into, or acceded to, an international treaty with the relevant foreign country, which provides for such recognition and enforcement, or if the judgment or ruling satisfies the court's examination according to the principal of reciprocity, unless the court finds that the recognition or enforcement of such judgment or ruling will result in a violation of the basic legal principles of the PRC, its sovereignty or security, or for reasons of social and public interests.

ESTABLISHMENT OF A PROPERTY DEVELOPMENT ENTERPRISE

According to the "Law of the People's Republic of China on Administration of Urban Real Estate" (中華人民共和國城市房地產管理法) (the "Urban Real Estate Law") promulgated by the Standing Committee of the NPC on July 5, 1994, effective on January 1, 1995 and as amended latest on August 26, 2019, a property developer is defined as an enterprise which engages in the development and sale of property for the purpose of making profit. Under the "Regulations on Administration of Development of Urban Real Estate" (城市房地產開發經營管理條例) (the "Development Regulations") promulgated and implemented by the State Council in July 1998 and as amended in January 2011, March 24, 2019 and March 27, 2020, an enterprise which is to engage in property development shall satisfy the following requirements: (i) its registered capital shall be RMB1 million or more; and (ii) have four or more full-time professional property/construction technicians and two or more full-time accounting officers, each of whom shall hold the relevant qualification certificate.

In September 2015, the State Council issued a “Notice to Adjust and Promote the System of Capital Fund for Investment Projects in Fixed Assets” (關於調整和完善固定資產投資項目資本金制度的通知), under which the minimum capital ratio remains 20% for affordable housing projects and ordinary commodity residential projects, and is decreased to 25% for other property projects.

To establish a property development enterprise, the developer should apply for registration with the administration for industry and commerce. The property developer must also report its establishment to the property development registration authority in its respective locality, within 30 days of the receipt of its Business License. Where a foreign-invested enterprise is to be established to engage in the development and sale of property, the relevant requirements of the laws and administrative regulations regarding foreign-invested enterprises must also be observed, the relevant examinations conducted and the relevant approvals obtained.

In July 2006, the Ministry of Construction, MOFCOM, the NDRC, the PBOC, the SAIC and SAFE promulgated the “Circular on Standardizing the Admittance and Administration of Foreign Capital in the Real Estate Market” (關於規範房地產市場外資准入和管理的意見) (the “171 Opinion”), which stipulates requirements in terms of admittance and administration of foreign capital in the property market.

On May 23, 2007, MOFCOM and SAFE jointly issued the “Notice on Further Strengthening and Regulating the Approval and Supervision on Foreign Investment in Real Estate Sector in the PRC” (關於進一步加強、規範外商直接投資房地產審批和監管的通知) which was amended in October 2015, stipulates the requirements for the approval and supervision of foreign investment in real estate.

On September 27, 2007, the PBOC and the CBRC jointly issued a “Circular on Strengthening Commercial Real Estate Loan Administration” (關於加強商業性房地產信貸管理的通知) This circular reaffirmed some of the restrictions applicable to the sale of residential and commercial units imposed by prior regulations as well as introduced new rules that prohibit, among other things, the provision of working capital financing by commercial banks to property developers (other than property development loans, which may only be used on local property development projects and not on projects in other regions without prior approvals from governmental authorities).

On December 5, 2007, the PBOC and the CBRC further jointly issued the Supplementary Notice of the People’s Bank of China and China Banking Regulatory Commission on Strengthening the Administration of Commercial Real Estate Loans (關於加強商業性房地產信貸管理的補充通知). The notice provided that the number of loans to a borrower shall be determined on the basis of loans to the borrower’s family (including the borrower, his/her spouse and his/her under-aged children), and for a family which has purchased the first house for its own dwelling purpose with a bank loan or which has purchased a house with a loan from the public accumulation fund for housing construction, if its per capital dwelling space is smaller than the local average level and it applies to a commercial bank for another housing loan, such application shall be handled by referring to the policies governing loans for purchasing the first house, while circumstances other than the aforesaid one shall be handled in accordance with policies and provisions governing loans for purchasing a second house.

On April 6, 2010, the State Council issued the “Opinions on Further Enhancing the Utilization of Foreign Investment” (關於進一步做好利用外資工作的若干意見), which provides that, projects with total investment (including capital increase) of less than US\$300 million within the category of industries in which foreign investment is encouraged or permitted as listed in the Guidance Catalog may be approved by local governments, except for those required to be approved by relevant departments of the State Council under the “Catalog of Investment Projects Approved by the Government” (政府核准的投資項目目錄).

On August 19, 2015, MOHURD, MOFCOM, NDRC, PBOC, SAIC and SAFE jointly issued the Notice on Adjusting the Admittance and Administration of Foreign Capital in the Real Estate Market (關於調整房地產市場外資准入和管理有關政策的通知). On September 3, 2016, the National People's Congress Standing Committee (NPCSC) adopted a decision on amending the law of foreign invested companies which became effective from October 1, 2016. Upon the effectiveness of the decision, the establishment of the foreign invested enterprise and its subsequent changes will be required to be filed with the relevant authorities instead of obtaining approvals from relevant commerce authorities as required by the existing PRC laws, except for the foreign invested enterprises which are subject to the special administrative measures regarding foreign investment entry. On September 30, 2016, the State Administration for Industry & Commerce issued a circular on relevant issues of the registration of foreign invested enterprises to implement the decision of NPCSC. On October 8, 2016, NDRC and MOFCOM jointly issued a notice according to which the industries falling within the categories in which foreign investment is prohibited or restricted and those falling within the encouraged category subject to relevant requirements of equity or senior management under the Guidance Catalog, will be subject to the special administrative measures for foreign investment entry. On the same day, MOFCOM promulgated the "Provisional Measures for Filing Administration of Establishment and Changes of Foreign-invested Enterprises" (外商投資企業設立及變更備案管理暫行辦法) which was amended on July 30, 2017 and June 29, 2018. On December 30, 2019, the Ministry of Commerce and the State Administration of Market Regulation issued the *Measures for the Reporting of Foreign Investment Information* (《外商投資信息告辦法》), which came into effect on January 1, 2020 and replaced the "Provisional Measures for Filing Administration of Establishment and Changes of Foreign-invested Enterprises" (外商投資企業設立及變更備案管理暫行辦法). Since January 1, 2020, for foreign investors carrying out investment activities directly or indirectly in China, the foreign investors or foreign-invested enterprises shall submit investment information to the commerce authorities pursuant to these measures.

On March 15, 2019, the National People's Congress of the PRC adopted the "Foreign Investment Law of the PRC" or the Foreign Investment Law (中華人民共和國外商投資法) with a view toward unifying and streamlining the foreign investment framework into China which came into effect on January 1, 2020. The Foreign Investment Law replaced the PRC Law on Sino-foreign Equity Joint Ventures, the PRC Law on Wholly Foreign-owned Enterprise and the PRC Law on Sino-foreign Cooperative Joint Ventures. Under the Foreign Investment Law, the types of foreign investment into China include:

- establishment of a foreign invested enterprise in China, independently or jointly with any other investor
- acquisition of shares, equities, property or any other similar rights and interests of an enterprise in China
- investment in a new project in China, independently or jointly with any other investor
- investment in any other way as may be stipulated by laws, administrative regulations or provisions of the State Council

The Foreign Investment Law establishes a nationwide "pre-establishment national treatment and negative list" management system. The system is intended to create an environment where all foreign investment will be treated the same as domestic investments, other than foreign investments into industries that are listed in the "Special Administrative Measures (Negative List) for Foreign Investment Access." According to the Foreign Investment Law, all foreign invested enterprises are required to follow the corporate governance rules under the PRC Company Law. However, for foreign invested enterprises formed prior to the adoption of the Foreign Investment Law, the Foreign Investment Law allows for a five-year transition period to bring the corporate governance of such foreign invested enterprises in line with the PRC Company Law.

QUALIFICATIONS OF A PROPERTY DEVELOPER

Under the “Provisions on Administration of Qualifications of Property Developers” (房地產開發企業資質管理規定) (the “Provisions on Administration of Qualifications”) promulgated by the Ministry of Construction in March 2000 and amended in May 2015 and December 2018, a property developer shall apply for registration of its qualifications in accordance with the Provisions on Administration of Qualifications. An enterprise may not engage in development and sale of property without a qualification classification certificate for property development. The construction authority under the State Council oversees the qualifications of property developers throughout the country, and the property development authority under a local government on or above the county level shall oversee the qualifications of local property developers.

In accordance with the Provisions on Administration of Qualifications, property developers are classified into four classes. Different classes of qualification should be examined and approved by corresponding authorities. The class 1 qualifications shall be subject to preliminary examination by the construction authority of the relevant province, autonomous region or municipality directly under the central government and then final approval of the construction authority under the State Council. Procedures for approval of developers of class 2 or lower qualifications shall be formulated by the construction authority under the government of the relevant province, autonomous region or municipality directly under the central government. A developer who fulfills the qualification requirements will be issued a qualification certificate of the relevant class by the qualification examination authority.

Under the Development Regulations, the property development authorities shall examine applications for registration of qualifications of a property developer when it reports its establishment, by considering its assets, professional personnel and business results. A property developer shall only undertake property development projects in compliance with the approved qualification registration.

After a newly established property developer reports its establishment to the property development authority, the latter shall issue a Provisional Qualification Certificate to the eligible developer within 30 days after accepting the report application. The term of validity of Provisional Qualification Certificate is one year, while the property development authority may extend the validity to a period of no longer than two years considering the actual business situation of the enterprise. The property developer shall apply for qualification classification by the property development authority within one month before expiry of the Provisional Qualification Certificate.

A developer of any qualification classification may only engage in the development and sale of property within its approved scope of business and may not engage in business which is restricted to another classification. A class 1 property developer is not restricted as to the scale of property project to be developed and may undertake a property development project anywhere in the country. A class 2 property developer or lower may undertake a project with a gross floor area of less than 250,000 sq.m. and the specific scope of business shall be restricted to those agreed by the construction authority of the relevant province, autonomous region or municipality. Pursuant to the Provisions on Administration of Qualifications, the qualification of a property developer shall be inspected annually. The construction authority under the State Council or its authorized institution is responsible for the annual inspection of a class 1 property developer’s qualification. Procedures for annual qualification inspection with developers of class 2 or lower shall be formulated by the construction authority of the relevant province, autonomous region or municipality.

DEVELOPMENT OF A PROPERTY PROJECT

Under the “Interim Regulations of the People’s Republic of China on Grant and Transfer of the Use Right of State-owned Urban Land” (中華人民共和國城鎮國有土地使用權出讓和轉讓暫行條例) (“Interim Regulations on Grant and Transfer”) promulgated by the State Council in May 1990 and amended on November 29, 2020, a system of grant and transfer of the right to use state-owned land is adopted. A land user shall pay an land premium to the government as consideration for the grant of the right to use a land site within a specified term, and the land user may transfer, lease, mortgage or otherwise commercially use the land use right within the term of use. Under the Interim Regulations on Grant and Transfer and the Urban Real Estate Law, the land administration authority under the local government of the relevant city or county shall enter into a land grant contract with the land user to provide for the grant of land use right. The land user shall pay the land premium as provided by the land grant contract. After payment in full of the land premium, the land user shall register with the land administration authority and obtain a land use right certificate evidencing the acquisition of land use rights. The Urban Real Estate Law and the Development Regulations provide that land use right for a site intended for property development shall be obtained through government grant except for land use right which may be obtained through allocation pursuant to PRC laws or the stipulations of the State Council.

Under the “Rules Regarding the Grant of State-owned Land Use Rights for construction by Way of Tender, Auction and Listing-for-sale” (招標拍賣掛牌出讓國有建設用地使用權規定) promulgated by the Ministry of Land and Resources on September 28, 2007, state-owned land use rights for the purposes of industrial use, commercial use, tourism, entertainment and commodity residential property development in the PRC may be granted by the government only through public tender, auction and listing-for-sale. The procedures are as follows:

- The land authority under the people’s government of the city and county (the “assignor”) shall make an announcement at least 20 days prior to the date of the proposed competitive bidding, public auction or listing-for-sale. The announcement should include basic particulars such as the size of the land parcel, the qualification requirement of the bidder and auction applicants, methods and criteria on confirming the winning tender or winning bidder, and other conditions such as the deposit for the bid.
- The assignor shall conduct a qualification verification of the bidding applicants and auction applicants, inform the applicants who satisfy the requirements set out in the announcement and invite them to attend the competitive bidding, public auction or listing-for-sale.
- After determining the winning tender or the winning bidder by either competitive bidding, public auction or listing-for-sale, the assignor and the winning tender or winning bidder shall then enter into a confirmation. The assignor should return the bidding or tender deposits to the unsuccessful bidding or auction applicants.
- The assignor and the winning tender or winning bidder shall enter into a contract for the grant of state-owned land use right according to the time and venue set out in the confirmation. The deposit of the bid paid by the winning tender or winning bidder will be used to set off part of the land.
- The winning tender or winning bidder should apply for the land registration after paying off the land grant premium in accordance with the state-owned land use right grant contract. The people’s government above the city and county level should issue the “Land Use Permit for State-Owned Land.”

When carrying out a feasibility study for a construction project, a construction company shall make a preliminary application for construction on the relevant site to the land administration authority of the same level as the project approval authority, in accordance with the “Measures for Administration of Examination and Approval for Construction Sites” (建設用地審查報批管理辦法) promulgated by the Ministry of Land and Resources in March 1999 and as amended in November 2010 and November 2016 and the “Measures for Administration of Preliminary Examination of Construction Project Sites” (建設項目用地預審管理辦法) promulgated by the Ministry of Land and Resources in July 2001 and as amended in October 2004 and November 2008 and November 2016, respectively. After receiving the preliminary application, the land administration authority shall carry out a preliminary process for the approval of various matters relating to the construction

project in compliance with the overall zoning plans and land supply policy of the government, and shall issue a preliminary approval report in respect of the project site. The land administration authority of the relevant city or county shall sign a land grant contract with the land user and issue an approval for construction site to the construction company.

According to the Urban Real Estate Law, a land user who obtains land use right under the grant system must develop the land in accordance with the purposes for which the land is acquired and must commence the development within the time frame agreed to under the land grant contract. If the land user fails to commence development and construction within one year of the construction commencement date stipulated in the land grant contract, then the local land administration authority may impose a fine on the land user an “idle land fee” of up to 20% of the land premium agreed. If the land user fails to commence development of the relevant land after two years from the deadline set forth in land grant contract, the land user’s land use right may be forfeited. However, the foresaid penalties do not apply if the failure to commence development and construction is due to force majeure or caused by government actions.

On January 3, 2008, the State Council reiterated the abovementioned policies in the “Notice on Enhancing the Economical and Intensive Use of Land” (關於促進節約集約用地的通知). This notice states, among other things, that (i) policies in relation to the forfeiture of land use rights without compensation for land which has remained idle for more than two years shall be strictly implemented; (ii) if any land remains idle for one year, an idle land fee of 20% of the relevant land premium shall be levied; (iii) the prohibition of land supply for villa projects shall continue; (iv) the Ministry of Land and Resources and other authorities are required to research and commence the drafting of implementation rules concerning the levy on land appreciation value on idle land; (v) in relation to the supply of residential land, planning conditions such as plot ratio limits and the number and type of flats that can be constructed shall be taken into account in land grant contracts and allocation decisions to ensure that at least 70% of the total land grant for residential development will consist of low rental housing, economy housing, limited pricing housing and units of less than 90 sq.m. in size; and (vi) financial institutions are required to exercise caution when approving financing for any property developer who, after one year from the commencement date stipulated in the land grant contract, fails to complete at least one-third of the development of their project or provide at least 25% of the total investment in the project.

On June 1, 2012, the Ministry of Land and Resources revised and promulgated the “Measure for the Disposal of Idle Land” (閒置土地處置辦法), which clarified the scope and definition of idle land, as well as the corresponding punishment measures. Pursuant to the Measures for the Disposal of Idle Land, under the following circumstances, a parcel of land shall be defined as “idle land”:

- any State-owned land for construction use, of which the holder of the land use right fails to start the construction and development thereof within one year after the commencement date of the construction and development work as agreed upon and prescribed in the contract for fee-based use of State-owned land for construction use, or the decision on allocation of State-owned land for construction use; and
- any State-owned land for construction uses of which the construction and development have been started but the area of land that is under construction and development is less than one third of the total area of land that should have been under construction and development or the amount invested is less than 25% of the total investment, and the construction and development of which has been suspended for more than one year.

If a parcel of land is deemed as idle land by competent department of land and resources, unless otherwise prescribed by the new Measures for the Disposal of Idle Land, the land shall be disposed of in the following ways:

- where the land has remained idle for more than one year, the competent department of land and resources at the municipal or county level shall, with the approval of the people’s government at the same level, issue a Decision on Collecting Charges for Idle Land to the holder of the right to use the land and collect the charges for idle land at the rate of 20% of the land assignment or allocation fee; and the said charges for idle land shall not be included in the production cost by the holder of the land use right; and

- where the land has remained idle for more than two years, the competent department of land and resources at the municipal or county level shall, with the approval of the people's government at the same level, issue a Decision on Recovering the Right to Use the State-owned Land for Construction Use to the holder of the land use right and recover the right to use the State-owned construction land without compensation.

On September 12, 2014, the Ministry of Land and Resources issued the “Guidelines on Improving Economical and Intensive Use of Land” (關於推進土地節約集約利用的指導意見), which implements the rules regarding idle land and specifies the controlling requirements of the land use standards in the relevant legal documents including land use approvals and land grant contracts.

Under the “Measures for Control and Administration of Grant and Transfer of Right to Use Urban State-owned Land” (城市國有土地使用權出讓轉讓規劃管理辦法) promulgated by the Ministry of Construction in December 1992 and amended on November 26, 2011, the grantee to an land grant contract (i.e., a property developer) shall apply for a Permit for Construction Site Planning from the municipal planning authority with the land grant contract.

After obtaining a construction site planning permit, a property developer shall organize the necessary planning and design work in respect of the planning and design requirements. For the planning and design proposal in respect of a property development project, the relevant reporting and approval procedures required by the “PRC City and Rural Planning Law” (中華人民共和國城鄉規劃法) promulgated by the Standing Committee of the NPC in October 2007 and as amended in April 2015 and April 2019 as well as local statutes on municipal planning must be followed and a construction works planning permit must be obtained from the municipal planning authority.

On January 21, 2011, the State Council promulgated the “Regulation on Expropriation and Compensation Related to Buildings on State-owned Land” (國有土地上房屋徵收與補償條例) (the “Expropriation and Compensation Regulation”). The Expropriation and Compensation Regulation provides that, among other things:

- (i) buildings can be expropriated under certain circumstances for public interests, and governmental authorities are responsible for resettlement activities; real estate developers are prohibited from engaging in demolition and relocation operations;
- (ii) compensation shall be paid before the resettlement;
- (iii) compensation to owners of properties to be demolished cannot be less than the market value of similar properties at the time of expropriation. The market value of properties shall be determined by qualified real estate appraisal institutions in accordance with appraisal rules related to property expropriation. Any owner who does not agree with the appraised market value of the property may apply to the real estate appraisal institution for re-appraisal, and
- (iv) neither violence nor coercion may be used to force home owners to leave sites, nor may certain measures, such as illegal suspension of water and power supplies, be used in relocation operations.

In addition to paying the demolition and removal compensation, the property developer undertaking the demolition and removal shall pay a removal allowance to the residents of the buildings to be demolished.

After obtaining the Permit for Construction Work Planning and prior to construction, a property developer is required to apply for a Construction Permit from the construction authority above the county level according to the “Measure for the Administration of Construction Permits for Construction Projects” (建築工程施工許可管理辦法) enacted by the Ministry of Housing and Urban Rural Development on June 25, 2014 and effective from October 25, 2014 and as amend on September 19, 2018.

A property project developed by a property developer shall comply with the relevant laws and statutes, requirements on construction quality, safety standards and technical guidelines on survey, design and construction work, as well as provisions of the relevant construction contract. After completion of works for a project, the property developer shall organize an acceptance examination according to the “Regulations on the Administration of Quality of Construction Works” (建設工程質量管理條例) promulgated and implemented by

State Council on January 30, 2000 and as amended on October 7, 2017 and April 23, 2019, and the “Provisions on Acceptance Examination Upon Completion of Buildings and Municipal Infrastructure” (房屋建築和市政基礎設施工程竣工驗收規定) promulgated by the Ministry of Housing and Urban-Rural Development in December 2013, and shall also report details of the acceptance examination according to the “Administrative Measures for Reporting Details Regarding Acceptance Examination Upon Completion of Buildings and Municipal Infrastructure” (房屋建築和市政基礎設施工程竣工驗收備案管理辦法) promulgated by the Ministry of Construction in April 2000 and as amended in October 2009. Possession of a property development project may only be delivered after passing the necessary acceptance examination, and may not be delivered before the necessary acceptance examination is completed or without passing such an acceptance examination. For a housing estate or other building complex project, an acceptance examination shall be conducted upon completion of the whole project and, where such a project is developed in phases, an acceptance examination may be carried out for each completed phase.

LAND FOR PROPERTY DEVELOPMENT

The provisions of the “Regulations on the Development, Operation and Management of Property” provide that, except for land use rights which may be obtained through allocation pursuant to PRC laws or the stipulations of the State Council, land for property development shall initially be obtained by government grant. Under the “Rules regarding the Grant of State-Owned Land Use Rights for construction by way of Tender, Auction and Listing-for-Sale” (招標拍賣掛牌出讓國有建設用地使用權規定) promulgated by the Ministry of Land and Resources on September 28, 2007 and effective on November 1, 2007, land for industrial use, commercial use, tourism, entertainment and commodity housing development shall be assigned by competitive bidding, public auction or listing-for-sale and, in the event that a land parcel for uses other than industry, commerce, tourism, entertainment and commodity housing development has two or more prospective purchasers after the promulgation of the relevant land supply schedule, the grant of the land parcel shall be performed by competitive bidding, public auction or listing-for-sale. Under the aforementioned regulations, the assignor shall prepare the public tender and competitive bidding documents and shall make an announcement 20 days prior to the day of public auction to announce the basic particulars of the land parcel and the time and venue of the public auction. The assignor shall conduct a vetting process of the bidding applicants and auction applicants, accept an open public tender to determine the winning tender; or hold an auction to ascertain a winning bidder. The assignor and the winning tender or winning bidder shall then enter into a confirmation and, then, into a land grant contract. The relevant land use rights certificates will not be issued prior to the full payment of the land premium.

On September 24, 2003, the Ministry of Land and Resources issued the “Notice of the Ministry of Land and Resources on Strengthening the Administration of Land Supply and Promoting the Sustainable Sound Development of Real Estate Market” (關於加強土地供應管理促進房地產市場持續健康發展的通知) designed to strictly control land supply for high-end luxury property development.

In November 2009, the Ministry of Finance, the Ministry of Land and Resources, the PBOC, the PRC Ministry of Supervision and the PRC National Audit Office jointly promulgated the “Notice on Further Enhancing the Revenue and Expenditure Control over Land Grant” (關於進一步加強土地出讓收支管理的通知). The notice raises the minimum down payment level on land premiums to 50% of the total premium and requires the land premium to be paid in full within one year after the signing of a land grant contract, subject to limited exceptions.

On March 8, 2010, the Ministry of Land and Resources promulgated the “Circular on Strengthening Real Estate Land Supply and Supervision” (關於加強房地產用地供應和監管有關問題的通知). Under the circular, the minimum land premium shall not be less than 70% of the benchmark market price in the locality of the parcel of land granted, and the bidding deposit shall not be less than 20% of the minimum land premium. The circular makes further strict provisions on land grant contract administration. The land grant contract shall be entered into within 10 working days after the land grant deal is concluded. The down payment of 50% of the land premium shall be paid within one month of the date of land grant contract. The remaining balance shall be paid in accordance with provisions of the land grant contract within one year.

In September 2010, the Ministry of Land and Resources and MOHURD jointly promulgated the “Notice on Further Strengthening Control and Regulation of Land and Construction of Property Development” (關於進一步加強房地產用地和建設管理調控的通知), which stipulates, among other things, that: (i) at least 70% of land designated for construction of urban housing must be used for affordable housing, housing for resettlement of shanty town and small to medium-sized ordinary commercial housing; in areas with high housing prices, the supply of land designated for small to medium-sized, price-capped housing must be increased; (ii) developers and their controlling shareholders are prohibited from participating in land auctions before the rectification of certain misconduct, including (1) illegal transfer of land use rights; (2) failure to commence required construction within one year from the delivery of land under land grant contracts due to such developers’ own reasons; (3) noncompliance with the land development requirements specified in land grant contracts; and (4) crimes such as swindling land by forging official documents and illegal land speculation; (iii) developers are required to commence construction within one year from the date of delivery of land under the relevant land grant contract and complete construction within three years of commencement; (iv) development and construction of projects of low-density and large-sized housing must be strictly limited and the plot ratio of the planned GFA to the total site area of residential projects must be more than 1 : 1; and (v) the grant of two or more bundled parcels of lands and undeveloped land is prohibited.

In December 2010, the Ministry of Land and Resources promulgated the “Notice on Strict Implementation of Policies Regarding Regulation and Control of Real Property Land and Promotion of the Healthy Development of Land Markets” (關於嚴格落實房地產用地調控政策促進土地市場健康發展有關問題的通知), which provides, among other things, that; (i) cities and counties that have less than 70% of their land supply designated for affordable housing, housing for redevelopment of shanty towns or small/medium residential units must not provide land for large-sized and high-end housing before the end of 2010; (ii) land and resource authorities in local cities and counties shall report to Ministry of Land and Resources and provincial land and resource authorities, respectively regarding land with a premium rate of more than 50%; (iii) land designated for affordable housing which is used for property development against relevant policies or involved illegal dealing will be confiscated and the relevant land use rights will be withdrawn. Moreover, amending the plot ratio without approval is strictly prohibited.

On January 26, 2011, the State Council circulated the “Notice on Further Regulating the Real Estate Market” (關於進一步做好房地產市場調控工作有關問題的通知), which provides for more stringent management of housing land supply, among other things, that participants or individuals bidding on any land unit shall show proof of funding sources.

According to the “Circular on the Distribution of the Catalog for Restricted Land Use Projects (2012 Edition)” and the “Catalog for Prohibited Land Use Projects (2012 Edition)” (關於印發《限制用地項目目錄》(2012年本)和《禁止用地項目目錄》(2012年本)) promulgated by the Ministry of Land and Resources in May 2012, the transferred area of residential housing projects should not exceed (i) seven hectares for small cities and towns, (ii) 14 hectares for medium-sized cities, and (iii) 20 hectares for large cities, and plot ratio must be more than 1.0.

On February 26, 2013, the General Office of the State Council issued the “Notice on Continuing to improve the Regulation and Control of Real Estate Market” (國務院辦公廳關於繼續做好房地產市場調控工作的通知) which requires, among other restrictive measures, expanding ordinary commodity housing units and increasing the supply of land. The overall housing land supply in 2013 shall not be lower than the average actual land supply in the past five years.

From September 30, 2016 to date, Beijing, Tianjin, Suzhou, Chengdu and other cities have issued new property market control policies, including restoring the restriction on purchases of residential properties and tightening credit policy. To promote the stable and healthy development of the real estate market in Beijing, among other measures, a new policy was adopted. This new policy requires the government to set a ceiling price for land granting and when bidders all bid at the ceiling price, the bidder with the lowest proposed property selling price would win the land. On October 12, 2016, the MOHURD required investigation and punishment of persons or entities that spread rumors, deliberately hype or disrupt the market to protect the rights and interests of housing buyers.

On February 13, 2017, the Asset Management Association of China issued the “No. 4 Administrative Rules for the Filing of Private Equity and Asset Management Plans Issued by Securities and Futures Institutions” (證券期貨經營機構私募資產管理計劃備案管理規範第4號) which suspends filings by securities and futures institutions for private equity and asset management plans investing in the ordinary residential real estate projects located in 16 cities in China, including Beijing, Shanghai, Guangzhou, Hefei, Suzhou, Hangzhou, Tianjin, Wuhan and Chengdu. It also prevents private equity and asset management plans from funding real estate development enterprises to make payment for land premiums or providing real estate development enterprises with working capitals by means of, among others, entering into entrusted loans and trust plans and transferring beneficial rights of assets.

The MOHURD and the Ministry of Land and Resources jointly issued the “Circular of Relevant Work on Strengthening the Recent Administration and Control of Housing and Land Supply” (關於加強近期住房及用地供應管理和調控有關工作的通知) dated April 1, 2017 which provides, among others, that cities and counties that have more than one million inhabitants should make three-year (2017-2019) and a five-year (2017-2021) plans for housing land supply, and make the plans public by the end of June 2017. The circular further requires that local governments should adjust the size, structure and timing of land supply for residential housing in due course based on the period of depleting commodity residential housing inventory. For example, if the above period is longer than 36 months, no more land is to be supplied; if the said period is over 18 months but shorter than 36 months, land supply shall be reduced in size; if the said period is longer than six months but shorter than 12 months, more land shall be provided; however, if the current inventory could be sold in less than six months, land supply shall increase significantly within a short amount of time. In addition, the circular stipulates that local authorities should adopt the examination system of land acquisition capital to insure that the property developers use internal funds to acquire lands and that, if the land bid capital originate from a questionable source, the property developers shall be disqualified and prohibited from bidding for land for a designated time.

On May 19, 2018, the MOHURD issued the Notice on Further Regulating and Controlling the Real Estate Market (關於進一步做好房地產市場調控工作有關問題的通知), which provided that local authorities shall targetedly enhance the effective supply of housing and land, increase the proportion of medium-and-low-priced and medium-and-small-sized ordinary commercial housing in the newly-built commercial housing, and improve the methods of supplying the land of commercial housing. Particularly, Hot Cities shall increase the proportion of residential land, and the proportion of residential land to urban construction land is suggested not to be lower than 25%. The supply of rental housing land and joint-property housing land shall be enhanced and the supply of public rental housing land shall be guaranteed. The proportion of public rental housing land, rental housing land and joint-property housing land in the new residential land is targeted to reach or exceed 50% in 3-5 years. In addition, Hot Cities shall promote the diversification of land supply entities. The state-owned land whose use right is obtained by non-real-estate enterprises legally may be used as rental housing land if its ownership remains unchanged and its use is in line with the overall land use planning and the urban and rural planning.

SALE OF COMMODITY PROPERTIES

Under the “Measures for Administration of Sale of Commodity Properties” (商品房銷售管理辦法) promulgated by the Ministry of Construction in April 2001, sale of commodity properties can include both post-completion sales and pre-sales.

Any pre-sale of commodity properties shall be conducted in accordance with the “Measures for Administration of Pre-sale of Commodity Properties” (城市商品房預售管理辦法) (the “Pre-sale Measures”) promulgated by the Ministry of Construction in November 1994 and as amended in August 2001 and July 2004, respectively, and the Development Regulations. The Pre-sale Measures provide that pre-sale of commodity properties is subject to certain procedures. According to the Development Regulations and the Pre-sale Measures, a permit shall be obtained before a commodity property may be put up for pre-sale. - a construction works planning permit and a construction works commencement permit have been obtained;

- the pre-sale has been registered and a pre-sale permit has been obtained.

According to the Pre-sale Measures, the proceeds obtained by a real estate developer from the advance sale of commercial housing must be used for the construction of the relevant projects. The specific measures for the supervision on proceeds from the advance sale of commodity properties shall be formulated by the real estate administrative departments.

According to the “Measures of Property Transactions in Shanghai Municipality” (上海市房地產轉讓辦法) promulgated on April 30, 1997, as amended on September 20, 2000 and June 24, 2004 and December 10, 2010, a property developer must comply with the following requirements in order to obtain a “Commodity Property Pre-Sale Permit”:

- the completion time of the properties and the plan for constructing related infrastructure have been confirmed;

In accordance with the above regulation, a property developer must apply to the Housing, Land and Resources Administration Bureau or country housing and land administration authorities of Shanghai Municipality, together with the abovementioned documentations, the floor plans. The review of the application shall be completed within 10 working days and the result of the application will be notified in writing. If the abovementioned requirements are met, the Commodity Property Pre-Sale Permit will be granted.

Under the “Circular of the General Office of the State Council on Forwarding the Opinion of Such Departments as the Ministry of Construction on Good Handling of Stabilizing House Prices” (國務院辦公廳轉發建設等部門關於做好穩定住房價格工作意見的通知) promulgated by General Office of the State Council in May 2005, the purchaser of a pre-sold commodity property is prohibited from transferring such pre-sold property before the completion of its construction. Property developers are required to register pre-sales and sales of properties electronically with the local authorities on a real name and real time basis.

On April 13, 2010, the MOHURD issued the “Notice on Further Enhancing the Supervision of the Real Estate Market and Perfecting the Pre-sale System of Commodity Houses” (關於進一步加強房地產市場監管完善商品住房預售制度有關問題的通知). Pursuant to the notice, without the pre-sale approval, the commodity houses are not allowed to be pre-sold and the real estate developer is not allowed to charge the buyer any deposit or pre-payment or payment of the similar nature. In addition, the notice urges local governments to enact regulations on the sale of completed commodity properties in light of the local conditions, and encourages property developers to engage in the practice of selling completed commodity properties.

On March 16, 2011, NDRC promulgated the “Regulation on Price of Commodity Property” (商品房銷售明碼標價規定), which took effect on May 1, 2011. According to this regulation, property developers are required to make public the sale price of each apartment of the commodity properties for sale or pre-sale and the number of apartments available for sale or pre-sale within a certain time period. Property developers are also required to specify factors that would affect housing prices and relative charges before the property sale, such as commission fee and property management fee. No additional charge beyond what is specified in the price tag or made public by the property developers is permitted.

REAL ESTATE REGISTRATION

On November 24, 2014, the State Council promulgated the “Interim Regulations on Real Estate Registration” (不動產登記暫行條例), which became effective on March 1, 2015 and was amended on March 24, 2019, and provides for the following, among others:

- the competent department of land and resources under the State Council shall be responsible for guiding and supervising the real estate registration of the State. TRANSFER OF REAL ESTATE

According to the Urban Real Estate Law and the “Regulations on Administration of Transfer of Urban Real Estate” (城市房地產轉讓管理規定) promulgated by the Ministry of Construction in August 1995, as amended in August 2001, a property owner may sell, bequeath or otherwise legally transfer the property to another person or legal entity. When a property is transferred, the ownership of the property and the land use rights attached to property are transferred. The parties to a transfer shall enter into a real estate transfer contract in writing and register the transfer with the real estate administration authority having jurisdiction over the location of the property within 90 days of the execution of the transfer contract.

Where the land use rights were originally obtained by government grant, the property may only be transferred on the condition that: (i) the land premium has been paid in full and a land use right certificate has been obtained; (ii) development has been carried out according to the land grant contract; and in the case of a project in which buildings are being developed, development representing more than 25% of the total investment has been completed, or in case of a whole land lot development project, construction works have been carried out as planned, water supply, sewerage, electricity supply, heat supply, access roads, telecommunications and other infrastructure or utilities have been installed, and the site has been leveled and made ready for industrial or other construction purposes.

If the land use rights were originally obtained by government grant, the term of the land use rights after transfer of the property shall be the remaining life of the original term provided by the land grant contract. In the event that the transferee intends to change the use of the land provided in the original land grant contract, consent shall first be obtained from the original assignor and the planning administration authority under the local government of the relevant city or county and an agreement to amend the land grant contract or a new land grant contract shall be signed in order to adjust the land premium accordingly.

If the land use rights were originally obtained by allocation, transfer of the property shall be subject to the approval of the government vested with the necessary approval authority as required by the State Council. After such approval, the transferee shall complete the formalities for transfer of the land use rights, unless the relevant statutes require no transfer formalities, and pay the transfer price according to the relevant statutes.

LEASES OF PROPERTIES

On December 1, 2010, the MOHURD issued the “Administrative Measures for Commodity Housing Tenancy” (商品房屋租賃管理辦法), according to which parties to a housing tenancy shall go through the housing tenancy registration formalities with the competent governmental construction (real estate) departments of the county, city, or directly-controlled municipality where the housing is located within 30 days of signing the housing tenancy contract. The relevant construction (real estate) departments are authorized to impose a fine of up to RMB1,000 on individuals, and a fine between RMB1,000 and RMB10,000 on other legal entities which are not natural persons and which fail to comply with the regulations within the specified time limit.

On September 14, 2017, the MOHURD issued a notice and officially announce its support for the pilot program on houses with joint property ownership rights in Beijing and Shanghai. On March 16, 2016, Shanghai Municipal People’s Government promulgated the “Measures for the Administration on Houses with Joint Property Rights” (上海市共有產權保障住房管理辦法), which was implemented on May 1, 2016. On September 20, 2017, Beijing Municipal Housing and Urban-Rural Development Commission, Beijing Municipal Planning and Land Resources Management Committee, Beijing Municipal Development and Reform Commission and Beijing Municipal Bureau of Finance released the “Interim Measures for the Administration of Houses with Joint Property Rights” (北京市共有產權住房管理暫行辦法), which was implemented on September 30, 2017. According to the aforementioned measures, the houses with joint property ownership rights refers to the housing that the property ownership rights are jointly owned by the government and the purchasers, and the sales price is lower than the market price and the ownership of the housing is restricted. The land for joint property ownership rights will be included in the annual plan of land supply of the local government, listed separately and supplied with priority.

MORTGAGES OF REAL ESTATE

Under the “Urban Real Estate Law” promulgated in July 1994, as amended in August 2007, the civil Code of the People’s Republic of China (《中華人民共和國民法典》), which was promulgated by NPC on May 28, 2020 and came into effect on January 1, 2021, the “Measures for Administration of Mortgages of Urban Real Estate” (城市房地產抵押管理辦法) promulgated in May 1997, as amended in August 2001, when a mortgage is created on a building, a mortgage shall be simultaneously created on the land use right of the land on which the property is situated. The mortgager and the mortgagee shall sign a mortgage contract. After a real estate mortgage contract has been signed, the parties to the mortgage shall register the mortgage with the real estate administration authority at the location where the property is situated. A real estate mortgage contract shall come into effect on the date of registration of the mortgage. If a mortgage is created on the property in respect of which a property ownership certificate has been obtained legally, the registration authority shall make an entry under the “third party rights” item on the original property ownership certificate and then issue a certificate of third-party rights on the property to the mortgagee. If a mortgage is created on the commodity property put up for pre-sale or on property in development, the registration authority shall record the details on the mortgage contract. If construction of a property is completed during the term of a mortgage, the parties involved shall re-register the mortgage of the property after issuance of the certificates evidencing the rights and ownership to the property.

REAL ESTATE FINANCING

The PBOC issued the “Circular on Further Strengthening the Management of Loans for Property Business” (關於進一步加強房地產信貸業務管理的通知) in June 2003 to specify the requirements for banks to provide loans for the purposes of residential development, individual home mortgage and individual commodity houses as follows:

- Property development loans should be granted to property developers that are qualified for property development, with high credit ratings and have no overdue payment for construction. For property developers with a high vacancy rate of commodity properties and high debt ratio, banks shall apply more stringent approval procedures for new property development loans and closely monitor their activities.
- Commercial banks shall not grant loans to property developers to finance the payment of land premium.
- Commercial banks may not provide loans in any form for a property development project without a land use right certificate, construction land planning permit, construction works planning permit and construction works commencement permit.

The State Council issued the “Circular on Facilitating the Continuously Healthy Development of Property Market” (關於促進房地產市場持續健康發展的通知) issued by the State Council in August 2003, which contains a series of measures to control the property market. They include, but are not limited to, strengthening the construction and management of economical houses, increasing the supply of ordinary commodity properties and controlling the construction of high-end commodity properties. The PRC government also adopted a series of measures in respect of property development loans, which include placing greater effort on provision of loans, improving the guarantee mechanism of individual home loans and strengthening the monitoring procedures over property loans. It is expected that the circular should have a long-term positive effect on the development of the PRC property market by facilitating the healthy growth of the PRC property market.

Pursuant to the “Guidance on Risk Management of Property Loans Granted by Commercial Banks” (商業銀行房地產貸款風險管理指引) issued by the CBRC in August 2004, any property developer applying for property development loans must have at least 35% of the total capital required for the development and a commercial bank should maintain a strict loan system for considering applications for property development loans.

On May 24, 2006, the Ministry of Construction, NDRC, the Ministry of Supervision, the Ministry of Finance, the Ministry of Land and Resources, the PBOC, the State Bureau of Statistics, the State Administration of Taxation and the CBRC jointly issued “Opinions on Adjusting Housing Supply Structure and Stabilization of Housing Prices” (關於調整住房供應結構穩定住房價格的意見). These opinions stipulate that a commercial bank shall not lend funds to property developers with an internal capital ratio of less than 35%, or grant revolving credit facilities to property developers holding a large amount of idle land and vacant commodity properties, or take commodity properties which have been vacant for more than three years as security for mortgage loans.

On September 27, 2007, the PBOC and the CBRC issued the “Circular on Strengthening the Credit Management for Commercial Real Property” (關於加強商業性房地產信貸管理的通知), with a supplement issued in December 2007. The circular aims to tighten the control over property loans from commercial banks to prevent excessive credit granting.

In addition, commercial banks are also prohibited from providing loans to projects that have less than 35% of capital funds (proprietary interests), or where there is failure to obtain land use rights certificates, construction land planning permits, construction works planning permits and construction permits. Commercial banks are also prohibited from accepting commercial premises that have been vacant for more than three years as collateral. In principle, property development loans provided by commercial banks should only be used for projects in areas where the commercial bank is located. Commercial banks may not provide loans to property developers to finance the payment of land use rights grant fees.

INSURANCE

There is no mandatory provision in under PRC laws and regulations requiring a property developer to obtain insurance policies for its property developments. According to the common practice of the real estate industry in Guangdong, construction companies are usually required to submit insurance proposals in the course of tendering and bidding for construction projects. Construction companies are required to pay for the insurance premium at their own costs and obtain insurance to cover their liabilities, such as third-party's liability risk, employer's liability risk, risk of non-performance of contract in the course of construction and risks associated with the construction and installation works during the construction period. The requirement for construction companies to obtain insurance coverage for all the aforementioned risks ceases immediately after the completion and acceptance upon inspection of construction.

MAJOR TAXES APPLICABLE TO PROPERTY DEVELOPERS

Income Tax

According to the EIT Law which was promulgated by the National People's Congress on March 16, 2007 and became effective on January 1, 2008 and as amended on February 24, 2017 and December 29, 2018, respectively, a uniform income tax rate of 25% is applied towards foreign-invested enterprises and foreign enterprises which have set up production and operation facilities in the PRC as well as PRC enterprises.

Furthermore, the EIT Law and its implementation rule provide that a withholding tax rate of 10% will normally be applicable to dividends payable to non-PRC enterprise investors which are derived from sources within the PRC, unless there exists a tax treaty between the PRC and the relevant jurisdictions in which such non-PRC enterprise shareholders reside whereupon the relevant tax may be reduced or exempted.

Business Tax and Value Added Tax

Pursuant to the "Notice on the Full Implementation of Pilot Program for Transition from Business Tax to Value-Added Tax" (關於全面推開營業稅改徵增值稅試點的通知). On May 1, 2016, the "transitioning from business tax to value-added tax" scheme became effective. The sale of self-developed old real estate projects (refers to real estate projects launched time before April 30, 2016 stating on the construction works commencement permit) by common taxpayer among real estate developers shall be subject to a simple tax rate of 5%. Real estate developers selling real estate project by advance payment will be subject to an appreciation tax of 3% when receiving the advance payment.

Pursuant to the "Interim Measures on the Management of Value Added Tax of Self-developed Real Estate Project by the Sale of Real Estate Developers" (房地產開發企業銷售自行開發的房地產項目增值稅徵收管理暫行辦法) issued on March 31, 2016 and implemented on May 1, 2016 and as amended on June 15, 2018 by SAT, "self-development" means infrastructure facilities and buildings erected on the land with land use rights which are developed by a real estate development company ("taxpayer"). These measures are also applicable to a development completed by a taxpayer after such project is taken over.

VAT is payable by taxpayers in the calendar month immediately following receipt of the presale proceeds of real estate self-development in accordance with the following formula:

$$\text{Prepaid VAT} = \text{Presale proceeds} \div (1 + \text{applicable rate or simplified rate}) \times 3\%$$

The applicable rate is 11%. Nevertheless, for taxpayers conducting old real estate projects and have chosen simplified tax method, the simplified rate of 5% will be applied in calculating the Prepaid VAT. Once simplified tax method is chosen, it will be applicable for 36 months.

Old real estate projects refer to (1) real estate projects with commencement dates of construction stated in the Construction Permits prior to April 30, 2016, and (2) construction projects which commencement dates of construction are not stated in the Construction Permits, or construction projects with commencement dates of construction stated in the construction contracts prior to April 30, 2016 but has yet to receive Construction Permits.

On November 19, 2017, the Interim Regulations of the People's Republic of China on Business Tax was abolished and the Interim Regulations of the People's Republic of China on Value added Tax (中華人民共和國增值稅暫行條例) was revised by the State Council. According to the revised Interim Regulations of the People's Republic of China on Value added Tax, selling goods, providing labor services of processing, repairs or maintenance, or selling services, intangible assets or real property in the PRC, or importing goods to the PRC, shall be subject to value added tax. According to a notice jointly issued by MOF and SAT in April 2018, starting from May 1, 2018, the VAT rate has been lowered from 17 percent to 16 percent for manufacturing and some other industries, and from 11 percent to 10 percent for transportation, construction, real estate leasing service, sale of real estate, basic telecommunication services, and farm produce. Starting from April 1, 2019, the VAT rate for real estate industry has been lowered from 10% to 9%.

LAT

According to the requirements of the "Provisional Regulations of the People's Republic of China on Land Appreciation Tax" (中華人民共和國土地增值稅暫行條例) (the "Provisional Regulations") promulgated on December 13, 1993 and effective on January 1, 1994, as amended on January 8, 2011, and the "Detailed Implementation Rules on the Provisional Regulations of the People's Republic of China on Land Appreciation Tax" (中華人民共和國土地增值稅暫行條例實施細則) (the "Detailed Implementation Rules") promulgated and effective on January 27, 1995, any appreciation amount gained from taxpayer's transfer of property shall be subject to LAT. LAT is levied according to four progressive rates: 30% for the appreciation amount not exceeding 50% of the sum of deductible items; 40% for the appreciation amount exceeding 50% but not exceeding 100% of the sum of deductible items; 50% for the appreciation amount exceeding 100% but not exceeding 200% of the sum of deductible items; and 60% for the appreciation amount exceeding 200% of the sum of deductible items. The related deductible items aforesaid include the following:

- amount paid for obtaining the land use rights;
- costs and expenses for land development;
- costs and expenses of new buildings and ancillary facilities, or estimated prices of old buildings and constructions;
- related tax payable for transfer of property;
- other deductible items as specified by the Ministry of Finance.

According to the requirements of the "Provisional Regulations, the Detailed Implementation Rules" LAT shall be exempted under any one of the following circumstances:

- Taxpayers constructing ordinary standard residences for sale (i.e., the residences built in accordance with the local standard for general use residential properties; deluxe apartments, villas, resorts, for example, are not categorized as ordinary standard residences) in which the appreciation amount does not exceed 20% of the sum of deductible items;
- Property taken over and repossessed according to the law due to the construction requirements of the government;
- Due to redeployment of work or improvement of living standard, individuals transfer originally self-used residential property, of which they have been living there for 5 years or more, and after obtaining tax authorities' approval;

After the enactment of the Provisional Regulations and the Detailed Implementation Rules, due to the longer period for the property development and transfer, many local tax authorities in the course of implementing the regulations and rules did not force the property developers to declare and pay the LAT. Therefore, in order to assist the local tax authorities in the collection of LAT, the Ministry of Finance, State Administration of Taxation, Ministry of Construction and State Land Administration Bureau had separately and jointly issued several notices to restate the requirement that after the assignment contracts are signed, the taxpayers should

declare the tax to the local tax authorities with jurisdiction over the underlying property, and pay LAT in accordance with the amount calculated by the tax authority and the time as required. For those who fail to acquire proof as regards the tax paid or the tax exemption from the tax authorities, the real estate administration authority shall not process the relevant title change and shall not issue the property ownership certificate.

The State Administration of Taxation also issued the “Notice issued by State Administration of Taxation in respect of the Serious Handling of Administration Work in relation to the Collection of Land Appreciation Tax” (關於認真做好土地增值稅徵收管理工作的通知) on July 10, 2002 to request local tax authorities to modify the management system of LAT collection and operation details, to build up sound taxpaying declaration system for LAT, to modify the methods of pre-levying for the pre-sale of property. Such notice also pointed out that either for the property assignment contracts which were signed before January 1, 1994 or where the project proposal has been approved and capital was injected for development, the privilege policy for LAT exemption for the properties that are transferred within 5 years after January 1, 1994 for the first time is expired, and such tax shall be levied again.

On August 2, 2004, the State Administration of Taxation issued the “Notice of the State Administration of Taxation in Respect of Enhancing the Administration of Land Appreciation Tax” (關於加強土地增值稅管理工作的通知) in order to further clarify the taxpayers’ duties in relation to filing of periodic tax returns, and the Notice was amended on June 15, 2018. On August 5, 2004, the State Administration of Taxation issued the “Notice of the State Administration of Taxation in Respect of Further Enhancing the Administration on Collection of Urban Land Use Tax and Land Appreciation Tax” (關於進一步加強城鎮土地使用稅和土地增值稅徵收管理工作的通知) to further enhance the administrative efforts relating to the collection of LAT. It is stipulated in this notice that the waiver of LAT on any land grant contracts executed prior to January 1, 1994 has expired, and that appreciation in land value shall be subject to LAT irrespective of the time of assignment.

On March 2, 2006, the State Administration of Taxation and the Ministry of Finance issued the “Circular of the Ministry of Finance and the State Administration of Taxation on Land Appreciation Tax,” which was amended on January 1, 2015 (關於土地增值稅若干問題的通知). The Circular stipulated the following:

- Taxpayers constructing both ordinary residential properties and other commodity houses should calculate the LAT separately, and declare the tax to the local tax authorities where the properties are located.
- Local authorities shall determine, and adjust as appropriate, the provisional LAT rates considering the relevant real property market, the type of building constructed and any other applicable factors.
- A taxpayer who fails to prepay the LAT within the stipulated time frame may be liable to a penalty under the “Administrative Law of the People’s Republic of China on the Levying and Collection of Taxes.”
- In relation to completed property projects, if 85% or more of the saleable GFA has been assigned or transferred, then the local tax authority may require the taxpayer to pay tax on the income from the assigned or transferred property.

On December 28, 2006, the State Administration of Taxation issued the “Notice on the Administration of the Settlement of Land Appreciation Tax of Property Development Enterprises” (關於房地產開發企業土地增值稅清算管理有關問題的通知) which came into effect on February 1, 2007 and was amended on July 7, 2016 and June 15, 2018.

Pursuant to the notice, a property developer shall settle and clear the LAT payment of its development projects that meet certain criteria with the tax authorities in accordance with the applicable LAT tax rates. The LAT shall be settled for projects approved by the competent authorities; and for projects developed in different stages, the LAT shall be settled in stages. LAT must be settled if (1) the property development project has been completed and fully sold; (2) the property developer transfers the whole uncompleted development project; or (3) the land-use rights with respect to the project is transferred. In addition, the relevant tax authorities may require the developer to settle the LAT if any of the following criteria is met: (1) for completed property development projects, the transferred GFA represents more than 85% of total salable GFA, or the proportion represented is less than 85%, but the remaining salable GFA has been leased out or used by the developer; (2)

the project has not been sold out for more than three years after obtaining the sale or pre-sale permit; (3) the developer applies for cancelation of the tax registration without having settled the relevant LAT; or (4) other conditions stipulated by the tax authorities.

The notice also indicated that if a property developer satisfies any of the following circumstances, the tax authorities shall levy and collect LAT as per the levying rate no lower than the pre-payment rate with reference to the bearing rate of LAT of local enterprises with a similar development scale and income level: (i) failure to maintain account book required by law or administrative regulation; (ii) destroying the account book without authorization or refusing to provide taxation information; (iii) the accounts are in a state of mess or cost materials, income vouchers and cost vouchers are damaged and incomplete, making it difficult to determine transferred income or amount of deductible items; (iv) failure to go through LAT settlement within the prescribed period, and such failure is not cured within the period required by the relevant tax authorities; (v) the basis for tax calculation as submitted is obviously low without justifiable cause. Local provincial tax authorities can formulate their own implementation rules according to the notice and local situation.

To further strengthen LAT enforcement, in May 2009, the State Administration of Taxation released the “Rules on the Administration of the Settlement of Land Appreciation Tax” (土地增值稅清算管理規程), which became effective on June 1, 2009 and was amended on July 7, 2016.

On May 19, 2010, the State Administration of Taxation has issued the “Circular on Issues Concerning Settlement of Land Appreciation Tax” (關於土地增值稅清算有關問題的通知) which clarifies revenue recognition in the settlement of LAT and other relevant issues. According to the said circular, in the settlement of LAT, if the sales invoices of commodity properties are issued in full, the revenue shall be recognized based on the amount indicated in the invoices; if the sales invoices of commodity properties are not issued or are issued in part, the revenue shall be recognized based on the purchase price indicated in the sales contract as well as other proceeds. If the area of a commodity property specified in a sales contract is inconsistent with the result obtained by the relevant authorities after on-site survey, and if purchase price for the property is made up or refunded before the settlement of LAT, adjustments shall be made accordingly in the calculation of LAT. The said circular also provides that the deed tax paid by a real estate development enterprise for land use rights shall be treated as the “relevant fees paid in accordance with the uniform regulations of the state” and be deducted from the “amount paid for land use rights.”

On May 25, 2010, the State Administration of Taxation published the “Circular on Strengthening the Collection and Administration of Land Appreciation Tax” (關於加強土地增值稅徵管工作的通知) to require all local governments to scientifically formulate the tax rate and strengthen provisional LAT taxation. According to this circular, all local governments shall make adjustments to the current provisional LAT rate. In addition to safeguarding housing, the provisional LAT rate of provinces in the eastern region shall not be lower than 2%, while the provinces in middle and northeastern region shall not be lower than 1.5% and the provinces in western region shall not be lower than 1%. The local governments shall determine the provisional LAT rate applicable to different types of real estate.

Housing projects that have not been commenced within two years must be examined again, and those not in compliance with the planning permits shall have their permits revoked.

These measures, among others, include the following:

- requiring that at least 70% of residential projects approved or constructed on or after June 1, 2006 must consist of units with a GFA less than 90 sq.m. per unit and that projects which have received project development approvals prior to that date but have not obtained construction permits must adjust their planning in order to be in conformity with this new requirement, with the exception that municipalities under direct administration of the PRC central government and provincial capitals may deviate from such ratio under special circumstances upon approval from the Ministry of Construction;
- increasing the minimum amount of down payment from 20% to 30% of the purchase price of the underlying residential property if the underlying property has a GFA of 90 sq.m. or more, as effective from June 1, 2006;
- prohibiting commercial banks from lending funds to property developers with an internal capital ratio, calculated by dividing the internal funds by the total project capital required for the project, of less than 35%; restricting the grant or extension of revolving credit facilities to property developers holding a large amount of idle land and vacant commodity properties; and prohibiting commercial banks from taking commodity properties which have been vacant for more than three years as security for mortgage loans; and
- imposing a business tax levy on the entire sales proceeds from re-sale of properties if the holding period is shorter than five years, effective from June 1, 2006, as opposed to two years as such levy was initially implemented from June 2005; where an individual transfers a residential property other than an ordinary residential property after five years from his/her purchase, the business tax will be levied on the difference between the price for such re-sale and the original purchase price.

- according to the above requirements, the governments should guarantee the conditions of planning and design of newly built commodity buildings and that such buildings conform to the structure proportion requirements. Any digression from the above-mentioned requirements without authorization is forbidden. Construction works planning permits should not be issued by the municipal planning authority if there is any noncompliance with the planning permits; certifications should not be issued by the authority charged with censoring construction documents; construction works permits should not be issued by the construction authority; permits for pre-sale of commodity buildings should not be issued by the property development authority; and

In cities that have lifted housing purchase restrictions on residents or those that have not imposed such restrictions, when a household that owns two or more residential properties and has paid off all of its existing mortgage loans applies for a new mortgage loan to buy another residential property, the bank is required to assess the credit profile of the borrower, taking into consideration the solvency and credit standing of the borrower and other factors, and decide the down payment ratio and loan interest rate. In view of the local urbanization plan, banks may provide mortgage loans to non-local residents that meet the conditions as required by relevant policies.

FOREIGN EXCHANGE

With effect from January 1, 1994, the PRC government abolished its two-tier exchange rate system and replaced it with a unified floating exchange rate system based largely on supply and demand. Financial institutions authorized to deal in foreign currency may enter into foreign exchange transactions at exchange rates within an authorized range above or below the exchange rate published by the PBOC according to market condition. However, despite such developments, RMB is still not a freely-convertible currency.

Pursuant to the Foreign Exchange Control Regulations of the PRC issued by the State Council which came into effect on April 1, 1996 and the Regulations on the Administration of Foreign Exchange Settlement, Sale and Payment of the PRC, which came into effect on July 1, 1996, foreign investment enterprises are permitted to convert their after-tax dividends into foreign exchange and to remit such foreign exchange from their foreign exchange bank accounts in the PRC.

If foreign investment enterprises require foreign exchange services for transactions relating to current account items, they may, without approval of SAFE, effect payment from their foreign exchange account or convert and pay at the designated foreign exchange banks, on the strength of valid receipts and proof. If such enterprises need foreign exchange services for the distribution of dividends to their shareholders, they may, on the strength of a board of directors resolution authorizing the distribution of dividends and any other relevant documents, effect payment from their foreign exchange accounts and make such payments at the designated foreign exchange bank.

However, convertibility of foreign exchange in respect of capital account items, like direct investment and capital contributions, is still subject to restriction, and prior approval from SAFE or its relevant branches must be sought.

On April 28, 2013, SAFE issued the “Notice regarding Promulgation of Administrative Measures on Foreign Debt Registration” (國家外匯管理局關於發佈<外債登記管理辦法>的通知), which became effective on May 13, 2013, as amended on May 4, 2015, including three appendices: (i) Administrative Measures on Foreign Debt Registration, (ii) Operating Guidelines for Foreign Debt Registration Administration, and (iii) List of Repealed Regulations. The measures stipulate the general provisions on foreign debt registration, administrative provisions on foreign debt account management, use and settlement of foreign debt funds, foreign guarantee for domestic loans, foreign exchange managements for outbound transfer of non-performing assets, as well as relevant penalty provisions. The Operating Guidelines for Foreign Debt Registration Administration (外債登記管理操作指引) provide specific operational rules in relation to foreign debts administration, which contain 15 items. Among these 15 items, foreign debt registration of foreign invested real estate enterprises is regulated as follows: (i) foreign invested real estate enterprises established before June 1, 2007, which have increased the registered capital on and after June 1, 2007, may raise foreign debt financing limited to the balance of the difference between its total investment and registered capital. Provided that such difference between its total investment and registered capital after increasing its capital is smaller than that of before increasing its capital, the smaller one shall prevail, (ii) that SAFE will no longer process foreign debt registration or foreign exchange settlement for foreign debt for foreign invested real estate enterprises that obtained approval certificates from and filed with MOFCOM on or after June 1, 2007, and (iii) foreign invested real estate enterprises of which the land use rights certificate has not been obtained, or the project capital is less than 35% of the total investment of the project, are prohibited from raising foreign debt financing, and SAFE will not process foreign debt registration for such enterprises.

On June 9, 2016, SAFE issued the “Notice to Reform and Regulate the Administration Policies of Foreign Exchange Capital Settlement” (關於改革和規範資本項目結匯管理政策的通知) to further reform foreign exchange capital settlement nationwide.

On August 19, 2015, the MOHURD, the MOFCOM, the NDRC, the PBOC, the SAIC and the SAFE jointly issued the Notice on Adjusting the Admittance and Administration of Foreign Capital in the Real Estate Market (關於調整房地產市場外資准入和管理有關政策的通知). According to this Notice, the foreign invested real estate enterprises can directly conduct foreign exchange registration concerning foreign direct investment in bank according to foreign exchange regulations.

According to Circular of the State Administration of Foreign Exchange on Further Advancing Foreign Exchange Administration Reform to Enhance Authenticity and Compliance Reviews (國家外匯管理局關於進一步推進外匯管理改革真實合規性審核的通知) issued by the SAFE on January 26, 2017, funds for overseas loans under domestic guarantees are allowed to be repatriated into the PRC for domestic use. On completion of construction, the developer shall make an acceptance check of the environmental protection facilities and prepare an acceptance report according to the standards and procedures stipulated by the competent administrative department of environmental protection under the State Council. Events of Default

The PRC loan agreements contain certain customary events of default, including failure to pay the amount payable on the due date, unauthorized use of loan proceeds, failure to obtain the lender's approval for an act that requires the latter's approval, and material breach of the terms of the loan agreement. The banks are entitled to terminate their respective agreements and/or demand immediate repayment of the loans and any accrued interest upon the occurrence of an event of default.

Guarantee and Security

Certain of our PRC subsidiaries have entered into guarantee agreements with the PRC banks and financial institutions in connection with some of the PRC loans pursuant to which these subsidiaries have guaranteed all liabilities of the subsidiary borrowers under these loans. Certain of our PRC loans are guaranteed by our controlling shareholders. Dividend Restrictions

Pursuant to the loan agreements with certain PRC banks, several of our PRC subsidiaries also agreed not to distribute any dividend until the borrower fully repays the principal and interest of the loan. See "Risk Factors — Risks Relating to the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees — Our subsidiaries are subject to restrictions on the payment of dividends and the repayment of intercompany loans or advances to us and our subsidiaries."

MARGIN FACILITIES

We, as borrower, have entered into margin facilities agreements and term sheets with offshore financial institutions, including, without limitation, CCB International Securities Limited, Yue Xiu Securities Company Limited, CMB International Capital Corporation Limited, Zhongtai International Securities Limited and China Tonghai Securities Ltd. These facility agreements and term sheets generally have customary covenants and bear interest at fixed interest rate or floating rates by reference to HSBC Prime Rate or Hong Kong Interbank Offered Rate. As of the date of this offering memorandum, the aggregate outstanding principal amount under these offshore facility agreements and term sheets is approximately HK\$225.6 million.

DESCRIPTION OF THE NOTES

For purposes of this “Description of the Notes,” the term “Company” refers only to DaFa Properties Group Limited (大發地產集團有限公司), a company incorporated in the Cayman Islands with limited liability, and any successor obligor on the Notes, and not to any of its Subsidiaries. Each Subsidiary of the Company that guarantees the Notes (other than a JV Subsidiary Guarantor) is referred to as a “Subsidiary Guarantor,” and each such guarantee is referred to as a “Subsidiary Guarantee.” Each Subsidiary of the Company that in the future provides a JV Subsidiary Guarantee is referred to as a “JV Subsidiary Guarantor.”

The notes issued pursuant to this offering memorandum (the “New Notes”) are to be issued under an indenture (the “Indenture”), dated January 19, 2021, among the Company, the Subsidiary Guarantors, as guarantors, and China Construction Bank (Asia) Corporation Limited, as trustee (the “Trustee”). The New Notes constitute Additional Notes under the Indenture and are identical in all respects to the Original Notes except for the issue date and issue price. The New Notes and the Original Notes will be consolidated and form a single class and vote together for all purposes as one class on all matters with respect to the Notes. Unless the context requires otherwise, references in this section to “Notes” means the New Notes and the Original Notes. The total principal amount of the New Notes to be issued is US\$100,000,000. Upon the issue of the New Notes, the aggregate principal amount of outstanding Notes will be US\$280,000,000.

The following is a summary of certain material provisions of the Indenture, the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any). This summary does not purport to be complete and is qualified in its entirety by reference to all of the provisions of the Indenture, the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any). It does not restate those agreements in their entirety. Whenever particular sections or defined terms of the Indenture not otherwise defined herein are referred to, such sections or defined terms are incorporated herein by reference. Copies of the Indenture are available upon prior written request and proof of holding to the satisfaction of the Trustee, during usual business hours (being between 9.00 a.m. (Hong Kong time) and 3.00 p.m. (Hong Kong time) from Monday to Friday (other than a public holiday)) at the corporate trust office of the Trustee at 20/F, CCB Tower, 3 Connaught Road Central, Central, Hong Kong or sent by the Trustee to the Holders by email.

BRIEF DESCRIPTION OF THE NOTES

The Notes are:

- general obligations of the Company;
- senior in right of payment to any existing and future obligations of the Company expressly subordinated in right of payment to the Notes;
- at least *pari passu* in right of payment with all other unsecured, unsubordinated Indebtedness of the Company (subject to any priority rights of such unsecured, unsubordinated Indebtedness pursuant to applicable law);
- guaranteed by the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) on a senior basis, subject to the limitations described under “— The Subsidiary Guarantees and the JV Subsidiary Guarantees” and in “Risk Factors — Risks Relating to the Subsidiary Guarantees and the JV Subsidiary Guarantees”;
- effectively subordinated to the secured obligations (if any) of the Company, the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any), to the extent of the value of the assets serving as security therefor; and
- effectively subordinated to all existing and future obligations of the Non-Guarantor Subsidiaries (as defined below).

The Notes will mature on January 18, 2022, unless earlier redeemed pursuant to the terms thereof and the Indenture. The Indenture allows additional Notes (including the New Notes) to be issued from time to time (the “Additional Notes”), subject to certain limitations described under “— Further Issues.” Unless the context requires otherwise, references to the “Notes” for all purposes of the Indenture and this “Description of the Notes” include any Additional Notes (including the New Notes) that are actually issued. The Notes bear interest at 9.95% per annum from the Original Issue Date or from the most recent interest payment date to which interest has been paid or duly provided for, payable in arrears on July 19, 2021 and January 18, 2022 (each an “Interest Payment Date”).

Interest on the Notes will be paid to Holders of record at the close of business on July 4, 2021 and January 3, 2022 immediately preceding an Interest Payment Date (each, a “Record Date”), notwithstanding any transfer, exchange or cancellation thereof after a Record Date and prior to the immediately following Interest Payment Date. So long as the Notes are held in global form, each payment in respect of the Global Note will be made to the person shown as the holder of the Notes in the Notes register at the close of business (of the relevant clearing system) on the Clearing System Business Day before the due date for such payments, where “Clearing System Business Day” means a weekday (Monday to Friday, inclusive) except December 25 and January 1. Interest on the Notes will be calculated on the basis of a 360-day year comprised of twelve 30-day months.

Except as described under “Optional Redemption,” “Redemption for Tax Reasons” and otherwise provided in the Indenture, the Notes may not be redeemed prior to maturity (unless they have been repurchased by the Company). In any case in which the date of the payment of principal of, premium or interest on the Notes is not a Business Day in the relevant place of payment or in the place of business of the Trustee, then payment of principal, premium or interest need not be made in such place on such date but may be made on the next succeeding Business Day in such place. Any payment made on such Business Day shall have the same force and effect as if made on the date on which such payment is due, and no interest on the Notes shall accrue for the period after such date.

The New Notes will be issued only in fully registered form, without coupons, in denominations of US\$200,000 and integral multiples of US\$1,000 in excess thereof. No service charge will be made for any registration of transfer or exchange of Notes, but the Company, the Paying and Transfer Agent or the Registrar may require payment of a sum sufficient to cover any transfer tax or other similar governmental charge payable in connection therewith.

All payments on the Notes will be made in U.S. dollars by the Company at the office or agency of the Company maintained for that purpose (which currently is an office of the Paying and Transfer Agent, currently located at c/o 20/F, CCB Tower, 3 Connaught Road Central, Central, Hong Kong, and the Notes may be presented for registration of transfer or exchange at such office or agency; *provided* that, at the option of the Company, payment of interest may be made by check mailed at the expense of the Company to the address of the Holders as such address appears in the Note register maintained by the Registrar (as defined herein). Interest payable on the Notes held through Euroclear or Clearstream will be available to Euroclear or Clearstream participants (as defined herein) on the Business Day following payment thereof.

THE SUBSIDIARY GUARANTEES AND THE JV SUBSIDIARY GUARANTEES

The initial Subsidiary Guarantors that executed the Indenture on the Original Issue Date consist of all of the Company’s Restricted Subsidiaries other than those Restricted Subsidiaries organized under the laws of the PRC (the “PRC Non-Guarantor Subsidiaries”) and the Initial Other Non-Guarantor Subsidiaries (as defined below). The Subsidiary Guarantors are holding companies that do not have significant operations.

The initial Subsidiary Guarantors are Dafa Blooms Limited and YinYi Holdings (Hong Kong) Limited (垠壹香港有限公司).

Other than the initial Subsidiary Guarantors, none of the Company’s other Restricted Subsidiaries organized outside the PRC as of the Original Issue Date (collectively, the “Initial Other Non-Guarantor Subsidiaries”) or the existing PRC Non-Guarantor Subsidiaries will provide a Subsidiary Guarantee or JV Subsidiary Guarantee on the Original Issue Date. In addition, none of the future Restricted Subsidiaries organized under the laws of the PRC, the Exempted Subsidiaries (as long as it remains an Exempted Subsidiary) or the Listed Subsidiaries (as long as such Listed Subsidiary remains a Listed Subsidiary) will provide a Subsidiary Guarantee or JV Subsidiary Guarantee at any time in the future.

In the case of a Restricted Subsidiary that is, or is proposed by the Company or any Restricted Subsidiary to be, established after the Original Issue Date, or any entity in respect of which the Company or any Restricted Subsidiary (x) in the case of a Restricted Subsidiary is proposing to sell, whether through the sale of existing shares or the issuance of new shares, no less than 20% of the Capital Stock of such Restricted Subsidiary, or (y) in the case of any other entity is proposing to purchase the Capital Stock of an Independent Third Party such that it becomes a non-Wholly Owned Subsidiary of the Company and designate such Subsidiary as a Restricted Subsidiary, the Company may (in each case, to the extent such Restricted Subsidiary is not an Exempted Subsidiary or incorporated in the PRC), concurrently with or as soon as practicable after the consummation of such establishment, sale, issuance, or purchase, cause (a) such Restricted Subsidiary and (b) the Restricted

Subsidiaries of such Restricted Subsidiary that are organized in any jurisdiction other than the PRC (other than Exempted Subsidiaries) to provide a JV Subsidiary Guarantee (as defined below) instead of a Subsidiary Guarantee, if the following conditions, in the case of both (a) and (b), are satisfied:

- as of the date of execution of a JV Subsidiary Guarantee (as defined below), no document exists that is binding on the Company or any Restricted Subsidiary that would have the effect of (a) prohibiting the Company or any Restricted Subsidiary from providing a JV Subsidiary Guarantee or (b) requiring the Company or any Restricted Subsidiary to deliver or keep in place a guarantee on terms that are more favorable to the recipients of such guarantee than the JV Subsidiary Guarantee;
- such sale or issuance of Capital Stock is made to, or such purchase of Capital Stock is made from, an Independent Third Party at a consideration that is not less than (in the case of a sale or issuance) or no more than (in the case of a purchase) the Fair Market Value of such Capital Stock;
- concurrently with providing the JV Subsidiary Guarantee, the Company shall or shall cause such JV Subsidiary Guarantor to deliver to the Trustee:
 - (i) (A) a duly executed JV Subsidiary Guarantee of such JV Subsidiary Guarantor (the “JV Subsidiary Guarantee”) and each Restricted Subsidiary of such JV Subsidiary Guarantor that is not organized under the laws of the PRC (other than Exempted Subsidiaries), and (B) a duly executed supplemental indenture to the Indenture pursuant to which such JV Subsidiary Guarantor will guarantee the payment of the Notes, each of which provides, among other things, that the aggregate claims of the Trustee under such JV Subsidiary Guarantee and all JV Subsidiary Guarantees provided by the Restricted Subsidiaries and shareholders of such JV Subsidiary Guarantor will be limited to the JV Entitlement Amount;
 - (ii) an Officers’ Certificate certifying a copy of the Board Resolution to the effect that such JV Subsidiary Guarantee has been approved by a majority of the disinterested members of the Board of Directors; and
 - (iii) an Opinion of Counsel by a law firm of recognized international standing confirming that under New York law such JV Subsidiary Guarantees are valid, binding and enforceable against the JV Subsidiary Guarantors providing such JV Subsidiary Guarantees (subject to customary qualifications and assumptions).

As of December 31, 2020, the Company and its consolidated subsidiaries had total indebtedness of RMB12,649.2 million (US\$1,938.5 million), of which approximately RMB7,017.7 million (US\$1,075.5 million) was secured.

As of December 31, 2020, the Non-Guarantor Subsidiaries had total indebtedness of approximately RMB6,879.6 million (US\$1,054.3 million) and the Non-Guarantor Subsidiaries had capital commitments of approximately RMB4,346.9 million (US\$666.2 million) and contingent liabilities of approximately RMB6,356.0 million (US\$974.1 million).

The Subsidiary Guarantee of each Subsidiary Guarantor:

- is a general obligation of such Subsidiary Guarantor;
- is effectively subordinated to secured obligations of such Subsidiary Guarantor, to the extent of the value of the assets serving as security therefor;
- is senior in right of payment to all future obligations of such Subsidiary Guarantor expressly subordinated in right of payment to such Subsidiary Guarantee;
- ranks at least *pari passu* with all other unsecured, unsubordinated Indebtedness of such Subsidiary Guarantor (subject to any priority rights of such unsecured, unsubordinated Indebtedness pursuant to applicable law); and
- effectively subordinated to all existing and future obligations of the Non-Guarantor Subsidiaries.

If any is provided, the JV Subsidiary Guarantee of each JV Subsidiary Guarantor:

- will be a general obligation of such JV Subsidiary Guarantor;
- will be enforceable only up to the JV Entitlement Amount;
- will be effectively subordinated to secured obligations of such JV Subsidiary Guarantor, to the extent of the value of the assets serving as security therefor;
- will be limited to the JV Entitlement Amount and will be senior in right of payment to all future obligations of such JV Subsidiary Guarantor expressly subordinated in right of payment to such JV Subsidiary Guarantee;
- will be limited to the JV Entitlement Amount and will rank at least pari passu with all other unsecured, unsubordinated Indebtedness of such JV Subsidiary Guarantor (subject to any priority rights of such unsecured, unsubordinated Indebtedness pursuant to applicable law); and
- effectively subordinated to all existing and future obligations of the Non-Guarantor Subsidiaries.

The Company will cause each of its future Restricted Subsidiaries (other than Persons organized under the laws of the PRC, Exempted Subsidiaries or Listed Subsidiaries), as soon as practicable after it becomes a Restricted Subsidiary or ceases to be an Exempted Subsidiary or a Listed Subsidiary, to execute and deliver to the Trustee a supplemental indenture to the Indenture pursuant to which such Restricted Subsidiary will Guarantee the payment of the Notes as either a Subsidiary Guarantor or a JV Subsidiary Guarantor. Notwithstanding the foregoing, the Company may elect to have any future Restricted Subsidiary (and its Restricted Subsidiaries) organized outside the PRC not provide a Subsidiary Guarantee or JV Subsidiary Guarantee at the time such entity becomes a Restricted Subsidiary or ceases to be an Exempted Subsidiary or a Listed Subsidiary (the “New Non-Guarantor Subsidiaries,” together with the Initial Other Non-Guarantor Subsidiaries, the “Other Non-Guarantor Subsidiaries”), *provided* that, after giving effect to the Consolidated Assets of such Restricted Subsidiary, the Consolidated Assets of all Restricted Subsidiaries organized outside the PRC (other than Exempted Subsidiaries or Listed Subsidiaries) that are not Subsidiary Guarantors or JV Subsidiary Guarantors do not account for more than 20.0% of Total Assets as of the date such Person becomes a Restricted Subsidiary or ceases to be an Exempted Subsidiary or a Listed Subsidiary.

Each Restricted Subsidiary that guarantees the Notes after the Original Issue Date other than a JV Subsidiary Guarantee is referred to as a “Future Subsidiary Guarantor” and upon execution of the applicable supplemental indenture to the Indenture will be a “Subsidiary Guarantor.” The Other Non-Guarantor Subsidiaries, together with the PRC Non-Guarantor Subsidiaries, are referred to herein as the “Non-Guarantor Subsidiaries.”

Although the Indenture contains limitations on the amount of additional Indebtedness that Non-Guarantor Subsidiaries may incur, the amount of such additional Indebtedness could be substantial. In the event of a bankruptcy, liquidation or reorganization of any Non-Guarantor Subsidiary, the Non-Guarantor Subsidiaries will pay the holders of their debt and their trade creditors before they will be able to distribute any of their assets to the Company.

Under the Indenture, and any supplemental indenture to the Indenture, as applicable, each of the Subsidiary Guarantors and JV Subsidiary Guarantors (if any) jointly and severally guarantees the due and punctual payment of the principal of, premium, if any, and interest on, and all other amounts payable under, the Notes; *provided* that any JV Subsidiary Guarantee will be limited to the JV Entitlement Amount. The Subsidiary Guarantors and the JV Subsidiary Guarantors have (1) agreed that their respective obligations under the Subsidiary Guarantees and the JV Subsidiary Guarantees, as the case may be, will be enforceable irrespective of any invalidity, irregularity or unenforceability of the Notes or the Indenture and (2) waived their right to require the Trustee to pursue or exhaust its legal or equitable remedies against the Company prior to exercising its rights under the Subsidiary Guarantees and the JV Subsidiary Guarantees, as the case may be. Moreover, if at any time any amount paid under a Note or the Indenture is rescinded or must otherwise be restored, the rights of the Holders under the Subsidiary Guarantees and the JV Subsidiary Guarantees, as the case may be, will be reinstated with respect to such payment as though such payment had not been made. All payments under the Subsidiary Guarantees and the JV Subsidiary Guarantees, as the case may be, are required to be made in U.S. dollars.

Under the Indenture, and any supplemental indenture to the Indenture, as applicable,

- each Subsidiary Guarantee is limited to an amount not to exceed the maximum amount that can be guaranteed by the applicable Subsidiary Guarantor without rendering the Subsidiary Guarantee, as it relates to such Subsidiary Guarantor, voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally; and
- each JV Subsidiary Guarantee will be limited to an amount which is the lower of (i) the JV Entitlement Amount and (ii) an amount not to exceed the maximum amount that can be guaranteed by the applicable JV Subsidiary Guarantor without rendering the JV Subsidiary Guarantee, as it relates to such JV Subsidiary Guarantor, voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally.

If a Subsidiary Guarantee or a JV Subsidiary Guarantee were to be rendered voidable, it could be subordinated by a court to all other Indebtedness (including guarantees and other contingent liabilities) of the applicable Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, and, depending on the amount of such Indebtedness, a Subsidiary Guarantor's liability on its Subsidiary Guarantee or a JV Subsidiary Guarantor's liability on its JV Subsidiary Guarantee, as the case may be, could in each case be reduced to zero.

The obligations of each Subsidiary Guarantor under its Subsidiary Guarantee may be limited, or possibly invalid, under applicable laws. Similarly, the obligations of each JV Subsidiary Guarantor under its JV Subsidiary Guarantee may be limited, or possibly invalid, under applicable laws. See "Risk Factors — Risks Relating to the Subsidiary Guarantees and the JV Subsidiary Guarantees — The Subsidiary Guarantees or JV Subsidiary Guarantees may be challenged under applicable insolvency or fraudulent transfer laws, which could impair the enforceability of the Subsidiary Guarantees or JV Subsidiary Guarantees."

Release of the Subsidiary Guarantees and JV Subsidiary Guarantees

A Subsidiary Guarantee given by a Subsidiary Guarantor and a JV Subsidiary Guarantee given by a JV Subsidiary Guarantor may be released in certain circumstances, including:

- upon repayment in full of the Notes;
- upon a defeasance as described under "— Defeasance — Defeasance and Discharge";
- upon the designation by the Company of a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, as an Unrestricted Subsidiary in compliance with the terms of the Indenture; or
- upon the sale, disposition or merger of a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, in compliance with the terms of the Indenture (including the covenants described under "— Certain Covenants — Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries," "— Certain Covenants — Limitation on Asset Sales" and "— Consolidation, Merger and Sale of Assets") resulting in such Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, no longer being a Restricted Subsidiary, so long as (1) such Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, is simultaneously released from its obligations in respect of any of the Company's other Indebtedness or any Indebtedness of any other Restricted Subsidiary and (2) the proceeds from such sale, disposition or merger are used for the purposes permitted or required by the Indenture;
- in the case of a Subsidiary Guarantee, upon the replacement of a Subsidiary Guarantee with a JV Subsidiary Guarantee in compliance with the terms of the Indenture; or
- in the case of a Subsidiary Guarantor or JV Subsidiary Guarantor that becomes an Other Non-Guarantor Subsidiary, in compliance with the terms of the Indenture.

In the case of a Subsidiary Guarantor with respect to which the Company or any Restricted Subsidiary is proposing to sell, whether through the sale of existing shares or the issuance of new shares, no less than 20.0% of the Capital Stock of such Subsidiary Guarantor, the Company may concurrently with the consummation of such sale or issuance of Capital Stock, instruct the Trustee to release the Subsidiary Guarantees provided by such Subsidiary Guarantor and each of its Restricted Subsidiaries organized outside the PRC, and upon such release such Subsidiary Guarantor and its Restricted Subsidiaries organized outside the PRC (other than existing Non-Guarantor Subsidiaries) will become Other Non-Guarantor Subsidiaries (such that they will no longer Guarantee the Notes), without any requirement to seek the consent or approval of the Holders of the Notes, *provided* that after the release of such Subsidiary Guarantees, the Consolidated Assets of all Restricted Subsidiaries organized outside the PRC (other than Exempted Subsidiaries or Listed Subsidiaries) that are not Subsidiary Guarantors or JV Subsidiary Guarantors (including such Other Non-Guarantor Subsidiaries) do not account for more than 20.0% of Total Assets. A Subsidiary Guarantee of a Subsidiary Guarantor may only be released pursuant to this paragraph if as of the date of such proposed release, no document exists that is binding on the Company or such Restricted Subsidiary that would have the effect of (a) prohibiting the Company or such Restricted Subsidiary from releasing such Subsidiary Guarantee or (b) requiring the Company or such Subsidiary Guarantor to deliver or keep in place a guarantee of other Indebtedness of the Company by such Subsidiary Guarantor.

No release of a Subsidiary Guarantor from its Subsidiary Guarantee or a JV Subsidiary Guarantor from its JV Subsidiary Guarantee shall be effective against the Trustee or the Holders until the Company has delivered to the Trustee an Officer's Certificate stating that all requirements relating to such release have been complied with and that such release is authorized and permitted by the Indenture.

Replacement of Subsidiary Guarantees with JV Subsidiary Guarantees

A Subsidiary Guarantee given by a Subsidiary Guarantor may be released and replaced by a JV Subsidiary Guarantee following the sale or issuance by the Company or any Restricted Subsidiary of Capital Stock in (a) such Subsidiary Guarantor or (b) any other Subsidiary Guarantor that, directly or indirectly, owns a majority of the Capital Stock of such Subsidiary Guarantor, in each case where such sale or issuance, whether through the sale of existing shares or the issuance of new shares is for no less than 20% of the issued Capital Stock of the relevant Subsidiary Guarantor, *provided* that the following conditions are satisfied or complied with:

- as of the date of such proposed release, no document exists that is binding on the Company or such Restricted Subsidiary that would have the effect of (a) prohibiting the Company or such Restricted Subsidiary from releasing such Subsidiary Guarantee, (b) prohibiting the Company or such Restricted Subsidiary from providing such JV Subsidiary Guarantee or (c) requiring the Company or such Restricted Subsidiary to deliver or keep in force a replacement guarantee on terms that are more favorable to the recipients of such guarantee than the recipient of the JV Subsidiary Guarantee;
- such sale or issuance of Capital Stock is made to an Independent Third Party at a consideration that is not less than the Fair Market Value of such Capital Stock;
- concurrently with the release of such Subsidiary Guarantee, the Company shall or shall cause such JV Subsidiary Guarantor to deliver to the Trustee:
 - (i) (A) a duly executed JV Subsidiary Guarantee of such JV Subsidiary Guarantor and each Restricted Subsidiary of such JV Subsidiary Guarantor that is not organized under the laws of the PRC, and (B) a duly executed supplemental indenture to the Indenture pursuant to which such JV Subsidiary Guarantor will guarantee the payment of the Notes, each of which provides, among other things, that the aggregate claims of the Trustee under such JV Subsidiary Guarantee and all JV Subsidiary Guarantees provided by the Restricted Subsidiaries and shareholders of such JV Subsidiary Guarantor will be limited to the JV Entitlement Amount;
 - (ii) an Officers' Certificate certifying a copy of a Board Resolution to the effect that such JV Subsidiary Guarantee has been approved by a majority of the disinterested members of the Board of Directors; and
 - (iii) an Opinion of Counsel by a law firm of recognized international standing confirming that under New York law such JV Subsidiary Guarantee is valid, binding and enforceable against the JV Subsidiary Guarantor providing such JV Subsidiary Guarantee (subject to customary qualifications and assumptions).

Notwithstanding the foregoing paragraph, any such sale or issuance of the Capital Stock of the relevant Subsidiary Guarantor (including where such sale results in the relevant Subsidiary Guarantor ceasing to be a Restricted Subsidiary) will need to comply with the other covenants set forth in the Indenture, including the covenants described under “— Certain Covenants — Limitation on Asset Sales” and “— Certain Covenants — Limitation on Restricted Payments.”

Any Net Cash Proceeds from the sale of such Capital Stock shall be applied by the Company (or any Restricted Subsidiary) in accordance with the “Limitation on Asset Sales” covenant.

As of the date of this offering memorandum, all of the Company’s Subsidiaries are “Restricted Subsidiaries.” However, under the circumstances described under “— Certain Covenants — Designation of Restricted and Unrestricted Subsidiaries,” the Company are permitted to designate certain of its Subsidiaries as “Unrestricted Subsidiaries.” The Company’s Unrestricted Subsidiaries are generally not subject to the restrictive covenants in the Indenture. The Company’s Unrestricted Subsidiaries do not Guarantee the Notes.

FURTHER ISSUES

Subject to the covenants described below and in accordance with the terms of the Indenture, the Company may, from time to time, without notice to or the consent of the Holders, create and issue Additional Notes having the same terms and conditions as the Notes (including the benefit of the Subsidiary Guarantees and JV Subsidiary Guarantees) in all respects (or in all respects except for the issue date, issue price and the first payment of interest on them and, to the extent necessary, certain temporary securities law transfer restrictions) (a “Further Issue”) so that such Additional Notes may be consolidated and form a single class with the previously outstanding Notes and vote together as one class on all matters with respect to the Notes; *provided* that the issuance of any such Additional Notes shall then be permitted by the covenant described under “— Certain Covenants — Limitation on Indebtedness and Preferred Stock.”

OPTIONAL REDEMPTION

At any time prior to January 18, 2022, the Company may at its option redeem the Notes, in whole but not in part, at a redemption price equal to 100% of the principal amount of the Notes plus the Applicable Premium as of, and accrued and unpaid interest, if any, to (but not including) the redemption date. Neither the Trustee nor any of the Agents will be responsible for calculating or verifying the Applicable Premium.

At any time and from time to time prior to January 18, 2022, the Company may redeem up to 35% of the aggregate principal amount of the Notes with the Net Cash Proceeds of one or more sales of Common Stock of the Company in an Equity Offering at a redemption price of 109.95% of the principal amount of the Notes, plus accrued and unpaid interest, if any, to (but not including) the redemption date; provided that at least 65% of the aggregate principal amount of the Notes issued on the Original Issue Date remains outstanding after each such redemption and any such redemption takes place within 60 days after the closing of the related Equity Offering.

Selection and Notice

The Company will give not less than 30 days’ nor more than 60 days’ notice of any redemption. If less than all of the Notes are to be redeemed at any time, the Notes for redemption will be selected as follows:

- (1) if the Notes are listed on any national securities exchange and/or being held through the clearing systems, in compliance with the requirements of the principal national securities exchange on which the Notes are listed or the requirements of the clearing systems, as applicable; or
- (2) if the Notes are not listed on any national securities exchange and/or held through the clearing systems, on a pro rata basis by lot or by such other method as the Trustee in its sole and absolute discretion shall deem to be fair and appropriate, unless otherwise required by law or by applicable stock exchange or clearing system requirements.

A Note of US\$200,000 in principal amount or less shall not be redeemed in part. If any Note is to be redeemed in part only, the notice of redemption relating to such Note will state the portion of the principal amount to be redeemed. With respect to any certificated Note, a new Note in principal amount equal to the unredeemed portion will be issued upon cancellation of the original Note. On and after the redemption date, interest will cease to accrue on the Notes or portions of them called for redemption.

REPURCHASE OF NOTES UPON A CHANGE OF CONTROL TRIGGERING EVENT

Not later than 30 days following a Change of Control Triggering Event, the Company will make an Offer to Purchase all outstanding Notes (a “Change of Control Offer”) at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, to (but not including) the Offer to Purchase Payment Date.

The Company has agreed in the Indenture that it will timely repay all Indebtedness or obtain consents as necessary under, or terminate, agreements or instruments that would otherwise prohibit a Change of Control Offer required to be made pursuant to the Indenture. Notwithstanding this agreement of the Company, it is important to note that if the Company is unable to repay (or cause to be repaid) all of the Indebtedness, if any, that would prohibit repurchase of the Notes or is unable to obtain the requisite consents of the holders of such Indebtedness, or terminate any agreements or instruments that would otherwise prohibit a Change of Control Offer, it would continue to be prohibited from purchasing the Notes. In that case, the Company’s failure to purchase tendered Notes would constitute an Event of Default under the Indenture.

Certain of the events constituting a Change of Control Triggering Event under the Notes may also constitute an event of default under certain other debt instruments of the Company and its Subsidiaries. Future debt of the Company may also (1) prohibit the Company from purchasing Notes in the event of a Change of Control Triggering Event; (2) provide that a Change of Control Triggering Event is a default; or (3) require repurchase of such debt upon a Change of Control Triggering Event. Moreover, the exercise by the Holders of their right to require the Company to purchase the Notes could cause a default under other Indebtedness, even if the Change of Control Triggering Event itself does not, due to the financial effect of such purchase on the Company. The Company’s ability to pay cash to the Holders following the occurrence of a Change of Control Triggering Event may be limited by the Company’s and the Subsidiary Guarantors’ then-existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make the required purchase of the Notes. See “Risk Factors — Risks Relating to the Notes — We may not be able to repurchase the Notes upon a Change of Control Triggering Event.”

The phrase “all or substantially all”, as used with respect to the assets of the Company in the definition of “Change of Control,” will likely be interpreted under applicable law of the relevant jurisdictions and will be dependent upon particular facts and circumstances. As a result, there may be a degree of uncertainty in ascertaining whether a sale or transfer of “all or substantially all” the assets of the Company has occurred.

Notwithstanding the above, the Company will not be required to make a Change of Control Offer following a Change of Control Triggering Event if a third party makes the Change of Control Offer in the same manner, at the same time and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Company and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer.

Except as described above with respect to a Change of Control Triggering Event, the Indenture does not contain provisions that permit the Holders to require that the Company purchase or redeem the Notes in the event of a takeover, recapitalization or similar transaction.

Neither the Trustee nor the Agents shall be required to take any steps to ascertain whether a Change of Control Triggering Event or any event which could lead to a Change of Control Triggering Event has occurred or may occur and shall not be liable to any person for any failure to do so. The Trustee and the Agents shall be entitled to assume that no such event has occurred until it has received written notice to the contrary from the Company. Neither the Trustee nor the Agents shall be required to take any steps to ascertain whether the condition for the exercise of the rights herein has occurred. The Trustee shall not be responsible for determining or verifying whether a Note is to be accepted for redemption and will not be responsible to the Holders for any loss arising from any failure by it to do so. The Trustee and the Agents shall not be under any duty to determine, calculate or verify the redemption amount payable hereunder and will not be responsible to the Holders or any other person for any loss arising from any failure by it to do so.

NO MANDATORY REDEMPTION OR SINKING FUND

There will be no mandatory redemption or sinking fund payments for the Notes.

ADDITIONAL AMOUNTS

All payments of principal of, and premium (if any) and interest on the Notes or under the Subsidiary Guarantees and JV Subsidiary Guarantees will be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied by or within any jurisdiction in which the Company, a Surviving Person (as defined under “— Consolidation, Merger and Sale of Assets”) or an applicable Subsidiary Guarantor or JV Subsidiary Guarantor is organized or resident for tax purposes (or any political subdivision or taxing authority thereof or therein), including, without limitation, the PRC (each, as applicable, a “Relevant Jurisdiction”), or any jurisdiction through which payments are made, unless such withholding or deduction is required by law or by regulation or governmental policy having the force of law. In the event that any such withholding or deduction is so required, the Company, a Surviving Person or the applicable Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, will pay such additional amounts (“Additional Amounts”) as will result in receipt by the Holder of each Note of such amounts as would have been received by such Holder had no such withholding or deduction been required, except that no Additional Amounts shall be payable:

(1) for or on account of:

- (a) any tax, duty, assessment or other governmental charge that would not have been imposed but for:
 - (i) the existence of any present or former connection between the Holder or beneficial owner of such Note and the Relevant Jurisdiction or the jurisdiction through which payments are made, other than merely holding such Note or the receipt of payments thereunder or under a Subsidiary Guarantee or JV Subsidiary Guarantee, including, without limitation, such Holder or beneficial owner being or having been a national, domiciliary or resident of such Relevant Jurisdiction or treated as a resident thereof or being or having been physically present or engaged in a trade or business therein or having or having had a permanent establishment therein;
 - (ii) the presentation of such Note (in cases in which presentation is required) more than 30 days after the later of the date on which the payment of the principal of, premium, if any, and interest on, such Note became due and payable pursuant to the terms thereof or was made or duly provided for, except to the extent that the Holder thereof would have been entitled to such Additional Amounts if it had presented such Note for payment on any date within such 30-day period;
 - (iii) the failure of the Holder or beneficial owner to comply with a timely request of the Company, a Surviving Person, any Subsidiary Guarantor or any JV Subsidiary Guarantor addressed to the Holder, to provide information concerning such Holder’s or its beneficial owner’s nationality, residence, identity or connection with any Relevant Jurisdiction or the jurisdiction through which payments are made, if and to the extent that due and timely compliance with such request is required under the tax laws of such jurisdiction in order to reduce or eliminate any withholding or deduction as to which Additional Amounts would have otherwise been payable to such Holder; or
 - (iv) the presentation of such Note (in cases in which presentation is required) for payment in the Relevant Jurisdiction or the jurisdiction through which payments are made, unless such Note could not have been presented for payment elsewhere;
- (b) any estate, inheritance, gift, sale, transfer, personal property or similar tax, assessment or other governmental charge;
- (c) any tax, assessment or other governmental charge that is payable otherwise than by withholding or deduction from payments of principal, premium (if any) and interest on the Notes or from payments under the Subsidiary Guarantees or JV Subsidiary Guarantees (if any);

- (d) any tax, assessment, withholding or deduction required by sections 1471 through 1474 of the Internal Revenue Code of 1986, as amended (“FATCA”), any current or future Treasury Regulations or rulings promulgated thereunder, any law, regulation or other official guidance enacted in any jurisdiction implementing FATCA, any intergovernmental agreement between the United States and any other jurisdiction to implement FATCA, or any agreement with the U.S. Internal Revenue Service under FATCA; or
 - (e) any combination of taxes, duties, assessments or other governmental charges referred to in the preceding clauses (a), (b), (c) and (d); or
- (2) to a Holder that is a fiduciary, partnership or person other than the sole beneficial owner of any payment to the extent that such payment would be required to be included in the income under the laws of a Relevant Jurisdiction or the jurisdiction through which payments are made, for tax purposes, of a beneficiary or settlor with respect to the fiduciary, or a member of that partnership or a beneficial owner who would not have been entitled to such Additional Amounts had that beneficiary, settlor, partner or beneficial owner been the Holder thereof.

Whenever there is mentioned in any context the payment of principal of, and any premium or interest on, any Note or under any Subsidiary Guarantee or JV Subsidiary Guarantee, such mention shall be deemed to include payment of Additional Amounts provided for in the Indenture to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof.

The Paying and Transfer Agent and the Trustee will make payments free of withholdings or deductions on account of taxes unless required by applicable law. If such a deduction or withholding is required, the Paying and Transfer Agent or Trustee will not be obligated to pay any Additional Amount to the recipient unless such an Additional Amount is received by the Paying and Transfer Agent or the Trustee in accordance with the Indenture.

REDEMPTION FOR TAXATION REASONS

The Notes may be redeemed, at the option of the Company or a Surviving Person with respect to the Company, as a whole but not in part, upon giving not less than 30 days’ nor more than 60 days’ notice to the Holders (which notice shall be irrevocable), at a redemption price equal to 100% of the principal amount thereof, together with accrued and unpaid interest (including any Additional Amounts), if any, to the date fixed by the Company or the Surviving Person, as the case may be, for redemption (the “Tax Redemption Date”) if, as a result of:

- (1) any change in, or amendment to, the laws (or any regulations or rulings promulgated thereunder) of a Relevant Jurisdiction affecting taxation; or
- (2) any change in the existing official position or the stating of an official position regarding the application or interpretation of such laws, regulations or rulings (including a holding, judgment or order by a court of competent jurisdiction),

which change or amendment is proposed and becomes effective (or in the case of an official position, is announced) (i) with respect to the Company or any initial Subsidiary Guarantor on or after the Original Issue Date, or (ii) with respect to any Future Subsidiary Guarantor, JV Subsidiary Guarantor or Surviving Person, on or after the date such Future Subsidiary Guarantor, JV Subsidiary Guarantor or Surviving Person becomes a Subsidiary Guarantor, a JV Subsidiary Guarantor or Surviving Person, with respect to any payment due or to become due under the Notes or the Indenture, the Company, a Surviving Person, a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, is, or on the next Interest Payment Date would be, required to pay Additional Amounts, and such requirement cannot be avoided by the taking of reasonable measures by the Company, the Surviving Person, a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be; *provided* that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Company, the Surviving Person, a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, would be obligated to pay such Additional Amounts if a payment in respect of the Notes were then due.

Prior to the giving of any notice of redemption of the Notes pursuant to the foregoing, the Company, a Surviving Person, a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, will deliver to the Trustee at least 30 days but not more than 60 days before a redemption date:

- (1) an Officers' Certificate stating that such change, amendment or statement of an official position referred to in the prior paragraph has occurred, describing the facts related thereto and stating that such requirement cannot be avoided by the Company, such Surviving Person, Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, taking reasonable measures available to it; and
- (2) an Opinion of Counsel or an opinion of a tax consultant, in either case of recognized standing with respect to tax matters of the Relevant Jurisdiction, stating that the requirement to pay such Additional Amounts results from such change, amendment or statement of an official position referred to in the prior paragraph.

The Trustee shall be and is entitled to accept such certificate and opinion as sufficient evidence of the satisfaction of the conditions precedent described above without further verification, in which event it shall be conclusive and binding on the Holders, and will not be responsible for any loss occasioned by acting in reliance on such certificate and opinion, and is not obligated to investigate or verify any information in such certificate and opinion.

Any Notes that are redeemed will be cancelled.

- (3) at least 75% of the consideration received consists of cash, Temporary Cash Investments or Replacement Assets; *provided* that in the case of an Asset Sale in which the Company or such Restricted Subsidiary receives Replacement Assets involving aggregate consideration in excess of US\$10.0 million (or the Dollar Equivalent thereof), the Company shall deliver to the Trustee an opinion as to the fairness to the Company or such Restricted Subsidiary of such Asset Sale from a financial point of view issued by an accounting, appraisal or investment banking firm of recognized international standing. For purposes of this provision, each of the following will be deemed to be cash:
 - (a) any liabilities, as shown on the Company’s most recent consolidated balance sheet, of the Company or any Restricted Subsidiary (other than contingent liabilities and liabilities that are by their terms subordinated to the Notes, any Subsidiary Guarantee or any JV Subsidiary Guarantee) that are assumed by the transferee of any such assets pursuant to a customary assumption, assignment, novation or similar agreement that releases the Company or such Restricted Subsidiary from further liability; and
 - (b) any securities, notes or other obligations received by the Company or any Restricted Subsidiary from such transferee that are promptly, but in any event within 30 days of closing, converted by the Company or such Restricted Subsidiary into cash, to the extent of the cash received in that conversion.

Within 360 days after the receipt of any Net Cash Proceeds from an Asset Sale, the Company (or the applicable Restricted Subsidiary, as the case may be) may apply such Net Cash Proceeds to:

- (1) permanently repay Senior Indebtedness of the Company or a Subsidiary Guarantor or any Indebtedness of a Restricted Subsidiary that is not a Subsidiary Guarantor (and, if such Senior Indebtedness repaid is revolving credit Indebtedness, to correspondingly reduce permanently commitments with respect thereto) in each case owing to a Person other than the Company or a Restricted Subsidiary; or
- (2) acquire Replacement Assets.

Any Net Cash Proceeds from Asset Sales that are not applied or invested as provided in clauses (1) and (2) in the immediately preceding paragraph will constitute “Excess Proceeds.” Excess Proceeds of less than US\$10.0 million (or the Dollar Equivalent thereof) will be carried forward and accumulated. When accumulated Excess Proceeds exceed US\$10.0 million (or the Dollar Equivalent thereof), within 10 days thereof, the Company must make an Offer to Purchase Notes having a principal amount equal to:

- (1) accumulated Excess Proceeds, multiplied by
- (2) a fraction (x) the numerator of which is equal to the outstanding principal amount of the Notes and (y) the denominator of which is equal to the outstanding principal amount of the Notes and all *pari passu* Indebtedness similarly required to be repaid, redeemed or tendered for in connection with the Asset Sale, rounded down to the nearest US\$1,000.

Pending application of such Net Cash Proceeds as set forth in clause (1) or (2) above, the Company or any Restricted Subsidiary may make an Investment in cash or Temporary Cash Investments.

The offer price in any Offer to Purchase will be equal to 100% of the principal amount plus accrued and unpaid interest to (but not including) the date of purchase, and will be payable in cash.

If any Excess Proceeds remain after consummation of an Offer to Purchase, the Company may use such Excess Proceeds for any purpose not otherwise prohibited by the Indenture. If the aggregate principal amount of Notes (and any other *pari passu* Indebtedness) tendered into (or required to be prepaid or redeemed in connection with) such Offer to Purchase exceeds the amount of Excess Proceeds, the Trustee will select the Notes (and such other *pari passu* Indebtedness) to be purchased on a pro rata basis based on the principal amount of Notes and such other *pari passu* Indebtedness tendered (or required to be prepaid or redeemed). Upon completion of each Offer to Purchase, the amount of Excess Proceeds will be reset at zero.

Limitation on the Company’s Business Activities

The Company will not, and will not permit any Restricted Subsidiary to, directly or indirectly, engage in any business other than Permitted Businesses; *provided, however*, that the Company or any Restricted Subsidiary may own Capital Stock of an Unrestricted Subsidiary or joint venture or other entity that is engaged in a business other than a Permitted Business as long as any Investment therein was not prohibited when made by the covenant under the caption “— Limitation on Restricted Payments.”

Use of Proceeds

The Company will not, and will not permit any Restricted Subsidiary to, use the net proceeds from the sale of the Notes issued on the Original Issue Date, in any amount, for any purpose other than (1) in the approximate amounts and for the purposes specified, including any adjustment in response to changes in acquisition or development plans as contemplated, under “Use of Proceeds” in the offering memorandum relating to the Original Notes or this offering memorandum, as applicable (or in the case of Additional Notes (other than the New Notes), the offering document relating to the sale of such Additional Notes), and (2) pending the application of all of such net proceeds in such manner, to invest the portion of such net proceeds not yet so applied in Temporary Cash Investments.

Designation of Restricted and Unrestricted Subsidiaries

The Board of Directors may designate any Restricted Subsidiary to be an Unrestricted Subsidiary; *provided* that (1) no Default shall have occurred and be continuing at the time of or after giving effect to such designation; (2) neither the Company nor any Restricted Subsidiary provides credit support for the Indebtedness of such Restricted Subsidiary; (3) such Restricted Subsidiary does not own any Disqualified Stock of the Company or Disqualified or Preferred Stock of another Restricted Subsidiary or hold any Indebtedness of, or any Lien on any property of, the Company or any Restricted Subsidiary, if such Disqualified or Preferred Stock or Indebtedness could not be Incurred under the covenant described under “— Limitation on Indebtedness and Preferred Stock” or such Lien would violate the covenant described under “— Limitation on Liens”; (4) such Restricted Subsidiary does not own any Voting Stock of another Restricted Subsidiary, and all of its Subsidiaries

are Unrestricted Subsidiaries or are being concurrently designated to be Unrestricted Subsidiaries in accordance with this paragraph; and (5) the Investment deemed to have been made thereby in such newly-designated Unrestricted Subsidiary and each other newly-designated Unrestricted Subsidiary being concurrently redesignated would be permitted to be made by the covenant described under “— Limitation on Restricted Payments.”

The Board of Directors may designate any Unrestricted Subsidiary to be a Restricted Subsidiary; *provided* that (1) no Default shall have occurred and be continuing at the time of or after giving effect to such designation; (2) any Indebtedness of such Unrestricted Subsidiary outstanding at the time of such designation which will be deemed to have been Incurred by such newly-designated Restricted Subsidiary as a result of such designation would be permitted to be Incurred by the covenant described under “— Limitation on Indebtedness and Preferred Stock”; (3) any Lien on the property of such Unrestricted Subsidiary at the time of such designation which will be deemed to have been incurred by such newly-designated Restricted Subsidiary as a result of such designation would be permitted to be incurred by the covenant described under “— Limitation on Liens”; (4) such Unrestricted Subsidiary is not a Subsidiary of another Unrestricted Subsidiary (that is not concurrently being designated as a Restricted Subsidiary); and (5) if such Restricted Subsidiary is not organized under the laws of the PRC and is not an Other Non-Guarantor Subsidiary, such Restricted Subsidiary shall upon such designation execute and deliver to the Trustee a supplemental indenture to the Indenture by which such Restricted Subsidiary shall become a Subsidiary Guarantor or a JV Subsidiary Guarantor in accordance with the terms under the Indenture.

Government Approvals and Licenses; Compliance with Law

The Company will, and will cause each Restricted Subsidiary to, (1) obtain and maintain in full force and effect all governmental approvals, authorizations, consents, permits, concessions and licenses as are necessary to engage in the Permitted Businesses; (2) preserve and maintain good and valid title to its properties and assets (including land-use rights) free and clear of any Liens other than Permitted Liens; and (3) comply with all laws, regulations, orders, judgments and decrees of any governmental body, except to the extent that failure so to obtain, maintain, preserve and comply would not reasonably be expected to have a material adverse effect on (a) the business, results of operations or prospects of the Company and its Restricted Subsidiaries, taken as a whole, or (b) the ability of the Company, any Subsidiary Guarantor or any JV Subsidiary Guarantor to perform its obligations under the Notes, the relevant Subsidiary Guarantee, the relevant JV Subsidiary Guarantee or the Indenture.

Anti-Layering

The Company will not Incur, and will not permit any Subsidiary Guarantor or JV Subsidiary Guarantor to Incur, any Indebtedness if such Indebtedness is contractually subordinated in right of payment to any other Indebtedness of the Company, such Subsidiary Guarantor or such JV Subsidiary Guarantor, as the case may be, unless such Indebtedness is also contractually subordinated in right of payment to the Notes, the applicable Subsidiary Guarantee or the applicable JV Subsidiary Guarantee, on substantially identical terms. This does not apply to distinctions between categories of Indebtedness that exist by reason of any Liens or Guarantees securing or in favor of some but not all of such Indebtedness.

Provision of Financial Statements and Reports

- (1) So long as any of the Notes remain outstanding, the Company will file with the Trustee and furnish to the Holders upon request, as soon as they are available but in any event not more than 10 calendar days after they are filed with The Stock Exchange of Hong Kong Limited or any other recognized exchange on which the Company’s ordinary shares are at any time listed for trading, true and correct copies of any financial or other report in the English language filed with such exchange; *provided* that if at any time the Common Stock of the Company ceases to be listed for trading on a recognized stock exchange, the Company will file with the Trustee and furnish to the Holders:
 - (a) as soon as they are available, but in any event within 90 calendar days after the end of the fiscal year of the Company, copies of its financial statements (on a consolidated basis and in the English language) in respect of such financial year (including a statement of income, balance sheet and cash flow statement) prepared in accordance with GAAP and audited by a member firm of an internationally-recognized firm of independent accountants;

- (b) as soon as they are available, but in any event within 45 calendar days after the end of the second fiscal quarter of the Company, copies of its financial statements (on a consolidated basis and in the English language) in respect of such half-year period (including a statement of income, balance sheet and cash flow statement) prepared in accordance with GAAP and reviewed by a member firm of an internationally-recognized firm of independent accountants; and
 - (c) as soon as they are available, but in any event within 45 calendar days after the end of each of the first and third fiscal quarters of the Company, copies of its unaudited financial statements (on a consolidated basis and in the English language), including a statement of income, balance sheet and cash flow statement prepared in accordance with GAAP, and prepared on a basis consistent with the audited financial statements of the Company together with a certificate signed by the person then authorized to sign financial statements on behalf of the Company to the effect that such financial statements are true in all material respects and present fairly the financial position of the Company as at the end of, and the results of its operations for, the relevant quarterly period.
- (2) In addition, so long as any of the Notes remain outstanding, the Company will provide to the Trustee
- (a) within 120 days after the close of each fiscal year ending after the Original Issue Date, an Officers' Certificate stating the Fixed Charge Coverage Ratio with respect to the four most recent fiscal quarter periods and showing in reasonable detail the calculation of the Fixed Charge Coverage Ratio, including the arithmetic computations of each component of the Fixed Charge Coverage Ratio, with a certificate from the Company's external auditors verifying the accuracy and correctness of the calculation and arithmetic computation; *provided* that the Company shall not be required to provide such auditor certificate if its external auditors refuse to provide such certificate as a result of a policy of such external auditors not to provide such certificate; and
 - (b) as soon as possible and in any event within 30 days after the Company becomes aware or should reasonably become aware of the occurrence of a Default, an Officers' Certificate setting forth the details of the Default, and the action which the Company proposes to take with respect thereto.

EVENTS OF DEFAULT

The following events are defined as "Events of Default" in the Indenture:

- (1) default in the payment of principal of (or premium, if any, on) the Notes when the same becomes due and payable at maturity, upon acceleration, redemption or otherwise;
- (2) default in the payment of interest on any Note when the same becomes due and payable, and such default continues for a period of 30 consecutive days;
- (3) default in the performance or breach of the provisions of the covenants described under "— Consolidation, Merger and Sale of Assets," the failure by the Company to make or consummate an Offer to Purchase in the manner described under "— Repurchase of Notes upon a Change of Control Triggering Event" or "— Certain Covenants — Limitation on Asset Sales";
- (4) the Company or any Restricted Subsidiary defaults in the performance of or breaches any other covenant or agreement in the Indenture or under the Notes (other than a default specified in clause (1), (2) or (3) above) and such default or breach continues for a period of 30 consecutive days after written notice by the Holders of 25% or more in aggregate principal amount of the Notes or by the Trustee at the direction of such Holders;
- (5) there occurs with respect to any Indebtedness of the Company or any Restricted Subsidiary having an outstanding principal amount of US\$10.0 million (or the Dollar Equivalent thereof) or more in the aggregate for all such Indebtedness of all such Persons, whether such Indebtedness now exists or shall hereafter be created, (a) an event of default that has caused the holder thereof to declare such Indebtedness to be due and payable prior to its Stated Maturity and/or (b) the failure to make a principal payment when due;
- (6) one or more final judgments or orders for the payment of money are rendered against the Company or any Restricted Subsidiary and are not paid or discharged, and there is a period of 60 consecutive

days following entry of the final judgment or order that causes the aggregate amount for all such final judgments or orders outstanding and not paid or discharged against all such Persons to exceed US\$10.0 million (or the Dollar Equivalent thereof), in excess of amounts which the Company's insurance carriers have unconditionally agreed to pay under applicable policies, during which a stay of enforcement, by reason of a pending appeal or otherwise, is not in effect;

- (7) an involuntary case or other proceeding is commenced against the Company or any Significant Restricted Subsidiary (or any group of Restricted Subsidiaries that together constitutes a Significant Restricted Subsidiary) with respect to it or its debts under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect seeking the appointment of a receiver, liquidator, assignee, custodian, trustee, sequestrator or similar official of the Company or any Significant Restricted Subsidiary (or any group of Restricted Subsidiaries that together constitutes a Significant Restricted Subsidiary) or for any substantial part of the property and assets of the Company or any Significant Restricted Subsidiary (or any group of Restricted Subsidiaries that together constitutes a Significant Restricted Subsidiary) and such involuntary case or other proceeding remains undismissed and unstayed for a period of 60 consecutive days; or an order for relief is entered against the Company or any Significant Restricted Subsidiary (or any group of Restricted Subsidiaries that together constitutes a Significant Restricted Subsidiary) under any applicable bankruptcy, insolvency or other similar law as now or hereafter in effect;
- (8) the Company or any Significant Restricted Subsidiary (or any group of Restricted Subsidiaries that together constitutes a Significant Restricted Subsidiary) (a) commences a voluntary case under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect, or consents to the entry of an order for relief in an involuntary case under any such law, (b) consents to the appointment of or taking possession by a receiver, liquidator, assignee, custodian, trustee, sequestrator or similar official of the Company or any Significant Restricted Subsidiary (or any group of Restricted Subsidiaries that together constitutes a Significant Restricted Subsidiary) or for all or substantially all of the property and assets of the Company or any Significant Restricted Subsidiary (or any group of Restricted Subsidiaries that together constitutes a Significant Restricted Subsidiary) or (c) effects any general assignment for the benefit of creditors; or
- (9) any Subsidiary Guarantor or JV Subsidiary Guarantor denies or disaffirms its obligations under its Subsidiary Guarantee or JV Subsidiary Guarantee or, except as permitted by the Indenture, any Subsidiary Guarantee or JV Subsidiary Guarantee is determined to be unenforceable or invalid or shall for any reason cease to be in full force and effect.

If an Event of Default (other than an Event of Default specified in clause (7) or (8) above) occurs and is continuing under the Indenture, the Holders of at least 25% in aggregate principal amount of the Notes then outstanding, by written notice to the Company (and to the Trustee if such notice is given by the Holders), may, and the Trustee at the written direction of such Holders (subject to being indemnified and/or secured to its satisfaction) shall, declare the principal of, premium, if any, and accrued and unpaid interest on the Notes to be immediately due and payable. Upon a declaration of acceleration, such principal of, premium, if any, and accrued and unpaid interest shall be immediately due and payable. If an Event of Default specified in clause (7) or (8) above occurs with respect to the Company or any Significant Restricted Subsidiary (or any group of Restricted Subsidiaries that together constitutes a Significant Restricted Subsidiary), the principal of, premium, if any, and accrued and unpaid interest on the Notes then outstanding shall automatically become and be immediately due and payable without any declaration or other act on the part of the Trustee or any Holder.

The Holders of at least a majority in principal amount of the outstanding Notes by written notice to the Company and to the Trustee may, on behalf of the Holders of the Notes waive all past defaults and rescind and annul a declaration of acceleration and its consequences if:

- (1) all existing Events of Default, other than the nonpayment of the principal of, premium, if any, and interest on the Notes that have become due solely by such declaration of acceleration, have been cured or waived, and
- (2) the rescission would not conflict with any judgment or decree of a court of competent jurisdiction.

Upon such waiver, the Default will cease to exist, and any Event of Default arising therefrom will be deemed to have been cured, but no such waiver will extend to any subsequent or other Default or impair any right consequent thereon.

If an Event of Default occurs and is continuing, the Trustee shall, upon request of Holders of at least 25% in aggregate principal amount of outstanding Notes (subject to receiving indemnity and/or security), pursue, in its own name or as trustee of an express trust, any available remedy by proceeding at law or in equity to collect the payment of principal of and interest on the Notes or to enforce the performance of any provision of the Notes or the Indenture. The Trustee may maintain a proceeding even if it does not possess any of the Notes or does not produce any of them in the proceeding.

The Holders of at least a majority in aggregate principal amount of the outstanding Notes may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or exercising any trust or power conferred on the Trustee, subject to the Trustee being indemnified and/or secured to its satisfaction in advance of the proceedings. However, the Trustee may refuse to follow any direction that is unclear or equivocal, or conflicts with law or regulations or the Indenture, or that may involve the Trustee in personal liability and may take any other action it deems proper that is not inconsistent with any such direction received from Holders. In addition, the Trustee will not be required to expend its own funds in following such direction if it does not reasonably believe that reimbursement or satisfactory indemnification and/or security is assured to it.

A Holder may not institute any proceeding, judicial or otherwise, with respect to the Indenture or the Notes, or for the appointment of a receiver or trustee, or for any other remedy under the Indenture or the Notes, unless:

- (1) the Holder has previously given the Trustee written notice of a continuing Event of Default;
- (2) the Holders of at least 25% in aggregate principal amount of outstanding Notes make a written direction to the Trustee to pursue the remedy;
- (3) such Holder or Holders offer the Trustee indemnity and/or security reasonably satisfactory to the Trustee against any costs, liability or expense to be incurred in compliance with written such request;
- (4) the Trustee does not comply with the request within 60 days after receipt of the written request and the offer of indemnity and/or security; and
- (5) during such 60-day period, the Holders of a majority in aggregate principal amount of the outstanding Notes do not give the Trustee a written direction that is inconsistent with the request.

However, such limitations do not apply to the right of any Holder to receive payment of the principal of, premium, if any, or interest on, such Note or any payment under the Subsidiary Guarantee or JV Subsidiary Guarantee, or to bring suit for the enforcement of any such payment, on or after the due date expressed in the Notes, which right shall not be impaired or affected without the consent of the Holder.

Officers of the Company must certify to the Trustee in writing, on or before a date not more than 120 days after the end of each fiscal year ending after the Original Issue Date, that a review has been conducted of the activities of the Company and its Restricted Subsidiaries and the Company's and its Restricted Subsidiaries' performance under the Indenture and that the Company and its Restricted Subsidiaries have fulfilled all obligations thereunder, or, if there has been a default in the fulfillment of any such obligation, specifying each such default and the nature and status thereof. The Company will also be obligated to notify the Trustee in writing of any default or defaults in the performance of any covenants or agreements under the Indenture. See "— Certain Covenants — Provision of Financial Statements and Reports."

The Trustee and the Agents need not do anything to ascertain whether any Event of Default has occurred or is continuing and will not be responsible to the Holders or any other person for any loss arising from any failure by it to do so, and, the Trustee or the Agents may assume that no such event has occurred and that the Company is performing all its obligations under the Indenture, the Subsidiary Guarantees, JV Subsidiary Guarantees (if any) and the Notes unless the Trustee and the Agents have received written notice of the occurrence of such event or facts establishing that the Company and/or the Subsidiary Guarantors and the JV Subsidiary Guarantors are not performing all of its obligations under the Indenture, the Subsidiary Guarantees, JV Subsidiary Guarantees (if any) and the Notes. The Trustee and the Agents are entitled to rely on any Opinion of Counsel or Officers' Certificate regarding whether an Event of Default has occurred.

CONSOLIDATION, MERGER AND SALE OF ASSETS

The Company will not consolidate with, merge with or into another Person, permit any Person to merge with or into it, or sell, convey, transfer, lease or otherwise dispose of all or substantially all of its and its Restricted Subsidiaries' properties and assets (computed on a consolidated basis) (as an entirety or substantially an entirety in one transaction or a series of related transactions) to another Person, unless:

- (1) the Company shall be the continuing Person, or the Person (if other than it) formed by such consolidation or merger or that acquired or leased such property and assets (the "Surviving Person") shall be a corporation organized and validly existing under the laws of the Cayman Islands, the British Virgin Islands or Hong Kong and shall expressly assume, by a supplemental indenture to the Indenture, executed and delivered to the Trustee, all the obligations of the Company under the Indenture and the Notes, including the obligation to pay Additional Amounts with respect to any jurisdiction in which it is organized or resident for tax purposes or through which it makes payments, and the Indenture and the Notes, as the case may be, shall remain in full force and effect;
- (2) immediately after giving effect to such transaction, no Default shall have occurred and be continuing;
- (3) immediately after giving effect to such transaction on a pro forma basis, the Company or the Surviving Person, as the case may be, shall have a Consolidated Net Worth equal to or greater than the Consolidated Net Worth of the Company immediately prior to such transaction;
- (4) immediately after giving effect to such transaction on a pro forma basis the Company or the Surviving Person, as the case may be, could Incur at least US\$1.00 of Indebtedness under paragraph (1) of the covenant described under "— Certain Covenants — Limitation on Indebtedness and Preferred Stock";
- (5) the Company delivers to the Trustee (x) an Officers' Certificate (attaching the arithmetic computations to demonstrate compliance with clauses (3) and (4)) and (y) an Opinion of Counsel, in each case stating that such consolidation, merger or transfer and the relevant supplemental indenture complies with this provision and that all conditions precedent provided for in the Indenture relating to such transaction have been complied with;
- (6) each Subsidiary Guarantor and JV Subsidiary Guarantor, unless such Subsidiary Guarantor or JV Subsidiary Guarantor is the Person with which the Company has entered into a transaction described under "— Consolidation, Merger and Sale of Assets," shall execute and deliver a supplemental indenture to the Indenture confirming that its Subsidiary Guarantee or JV Subsidiary Guarantee, as applicable, shall apply to the obligations of the Company or the Surviving Person in accordance with the Notes and the Indenture; and
- (7) no Rating Decline shall have occurred.

No Subsidiary Guarantor or JV Subsidiary Guarantor will consolidate with or merge with or into another Person, permit any Person to merge with or into it, or sell, convey, transfer, lease or otherwise dispose of all or substantially all of its and its Restricted Subsidiaries' properties and assets (computed on a consolidated basis) (as an entirety or substantially an entirety in one transaction or a series of related transactions) to another Person (other than the Company or another Subsidiary Guarantor or, in the case of a JV Subsidiary Guarantor, other than another JV Subsidiary Guarantor, the Company or another Subsidiary Guarantor), unless:

- (1) such Subsidiary Guarantor or JV Subsidiary Guarantor shall be the continuing Person, or the Person (if other than it) formed by such consolidation or merger or that acquired or leased such property and assets shall be the Company, another Subsidiary Guarantor or shall become a Subsidiary Guarantor concurrently with the transaction (or, in the case of a JV Subsidiary Guarantor, another JV Subsidiary Guarantor, the Company or a Subsidiary Guarantor); and shall expressly assume, by a supplemental indenture to the Indenture, executed and delivered to the Trustee, all the obligations of such Subsidiary Guarantor or JV Subsidiary Guarantor under the Indenture and the Notes, including the obligation to pay Additional Amounts with respect to any jurisdiction in which it is organized or resident for tax purposes or through which it makes payments, and the Indenture and the Notes, shall remain in full force and effect;
- (2) immediately after giving effect to such transaction, no Default shall have occurred and be continuing;
- (3) immediately after giving effect to such transaction on a pro forma basis, the Company shall have a Consolidated Net Worth equal to or greater than the Consolidated Net Worth of the Company immediately prior to such transaction;
- (4) immediately after giving effect to such transaction on a pro forma basis, the Company could Incur at least US\$1.00 of Indebtedness under paragraph (1) of the covenant under “— Certain Covenants — Limitation on Indebtedness and Preferred Stock”;
- (5) the Company delivers to the Trustee (x) an Officers' Certificate (attaching the arithmetic computations to demonstrate compliance with clauses (3) and (4)) and (y) an Opinion of Counsel, in each case stating that such consolidation, merger or transfer and the relevant supplemental indenture complies with this provision and that all conditions precedent provided for in the Indenture relating to such transaction have been complied with; and
- (6) no Rating Decline shall have occurred.

provided that this paragraph shall not apply to any sale or other disposition that complies with the “Limitation on Asset Sales” covenant or any Subsidiary Guarantor or JV Subsidiary Guarantor whose Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, is unconditionally released in accordance with the provisions described under “— The Subsidiary Guarantees and the JV Subsidiary Guarantees — Release of the Subsidiary Guarantees and the JV Subsidiary Guarantees.”

Although there is a limited body of case law interpreting the phrase “substantially all,” there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve “all or substantially all” of the property or assets of a Person.

The foregoing requirements shall not apply to a consolidation or merger of any Subsidiary Guarantor or JV Subsidiary Guarantor with and into the Company or any other Subsidiary Guarantor or JV Subsidiary Guarantor, so long as the Company or such Subsidiary Guarantor or JV Subsidiary Guarantor survives such consolidation or merger.

The foregoing provisions would not necessarily afford Holders protection in the event of highly-leveraged or other transactions involving the Company that may adversely affect Holders.

NO PAYMENTS FOR CONSENTS

The Company will not, and shall not permit any of its Subsidiaries to, directly or indirectly, pay or cause to be paid any consideration, whether by way of interest, fee or otherwise, to any Holder for or as an inducement to any consent, waiver or amendment of any of the terms or provisions of the Indenture or the Notes unless such consideration is offered to be paid or is paid to all Holders that consent, waive or agree to amend such term or provision within the time period set forth in the solicitation documents relating to such consent, waiver or amendment.

Notwithstanding the foregoing, in any offer or payment of consideration for, or as an inducement to, any consent, waiver or amendment of any of the terms or provisions of the Indenture or the Notes in connection with an exchange or tender offer, the Company and any Restricted Subsidiary may exclude (i) Holders or beneficial owners of the Notes that are not institutional “accredited investors” as defined in Rule 501 under the Securities Act, and (ii) Holders or beneficial owners of the Notes in any jurisdiction where the inclusion of such Holders or beneficial owners would require the Company or any Restricted Subsidiary to comply with the registration requirements or other similar requirements under any securities laws of such jurisdiction, or the solicitation of such consent, waiver or amendment from, or the granting of such consent or waiver, or the approval of such amendment by, Holders or beneficial owners in such jurisdiction would be unlawful, in each case as determined by the Company in its sole discretion.

DEFEASANCE

Defeasance and Discharge

The Indenture provides that the Company will be deemed to have paid and will be discharged from any and all obligations in respect of the Notes on the 183rd day after the deposit referred to below, and the provisions of the Indenture will no longer be in effect with respect to the Notes (except for, among other matters, certain obligations to register the transfer or exchange of the Notes, to replace stolen, lost or mutilated Notes, to maintain paying agencies, to pay Additional Amounts and to hold monies for payment in trust) if, among other things:

- (1) the Company (a) has deposited with the Trustee (or its agent), in trust, money and/or U.S. Government Obligations that through the payment of interest and principal in respect thereof in accordance with their terms will provide money in an amount sufficient to pay the principal of, premium, if any, and accrued interest on the Notes on the Stated Maturity for such payments in accordance with the terms of the Indenture and the Notes and (b) has delivered to the Trustee an Opinion of Counsel or a certificate of an internationally-recognized firm of independent accountants to the effect that the amount deposited by the Company is sufficient to provide payment for the principal of, premium, if any, and accrued interest on, the Notes on the Stated Maturity for such payment in accordance with the terms of the Indenture;
- (2) the Company has delivered to the Trustee (a) either (x) an Opinion of Counsel of recognized international standing with respect to U.S. federal tax laws which is based on a change in applicable U.S. federal income tax law occurring after the Original Issue Date to the effect that beneficial owners will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the Company’s exercise of its option under this “Defeasance and Discharge” provision and will be subject to U.S. federal income tax on the same amounts and in the same manner and at the same times as would have been the case if such deposit, defeasance and discharge had not occurred or (y) a ruling directed to the Trustee received from the U.S. Internal Revenue Service to the same effect as the aforementioned Opinion of Counsel, and (b) an Opinion of Counsel of recognized international standing to the effect that the creation of the defeasance trust does not violate the U.S. Investment Company Act of 1940, as amended, and after the passage of 123 days following the deposit, the trust fund will not be subject to the effect of Section 547 of the United States Bankruptcy Code or Section 15 of the New York Debtor and Creditor Law; and
- (3) immediately after giving effect to such deposit on a pro forma basis, no Event of Default, or event that after the giving of notice or lapse of time or both would become an Event of Default, shall have occurred and be continuing on the date of such deposit or during the period ending on the 183rd day after the date of such deposit, and such defeasance shall not result in a breach or violation of, or constitute a default under, any other agreement or instrument to which the Company or any Restricted Subsidiary is a party or by which the Company or any Restricted Subsidiary is bound.

In the case of either discharge or defeasance of the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees will terminate.

Defeasance of Certain Covenants

The Indenture further provides that the provisions of the Indenture applicable to the Notes will no longer be in effect with respect to clauses (3), (4), (5)(x) and (7) under the first paragraph, and clauses (3), (4), (5)(x) and (6) under the second paragraph under “— Consolidation, Merger and Sale of Assets” and all the covenants described herein under “— Certain Covenants,” other than as described under “— Certain Covenants — Government Approvals and Licenses; Compliance with Law” and “— Certain Covenants — Anti-Layering,” clause (3) under “Events of Default” with respect to clauses (3), (4), (5)(x) and (7) under the first paragraph, and clauses (3), (4), (5)(x) and (6) under the second paragraph under “Consolidation, Merger and Sale of Assets” and with respect to the other events set forth in such clause, clause (4) under “Events of Default” with respect to such other covenants and clauses (5) and (6) under “Events of Default” shall be deemed not to be Events of Default upon, among other things, the deposit with the Trustee (or its agent), in trust, of money, U.S. Government Obligations or a combination thereof that through the payment of interest and principal in respect thereof in accordance with their terms will provide money in an amount sufficient to pay the principal of, premium, if any, and accrued interest on the Notes on the Stated Maturity of such payments in accordance with the terms of the Indenture and the Notes, the satisfaction of the provisions described in clause (2)(b) of the preceding paragraph and the delivery by the Company to the Trustee of an Opinion of Counsel of recognized international standing with respect to U.S. federal income tax matters to the effect that beneficial owners will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such deposit and defeasance of certain covenants and Events of Default and will be subject to U.S. federal income tax on the same amounts and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred.

Defeasance and Certain Other Events of Default

In the event that the Company exercises its option to omit compliance with certain covenants and provisions of the Indenture as described in the immediately preceding paragraph and the Notes are declared due and payable because of the occurrence of an Event of Default that remains applicable, the amount of money and/or U.S. Government Obligations on deposit with the Trustee will be sufficient to pay amounts due on the Notes at the time of their Stated Maturity but may not be sufficient to pay amounts due on the Notes at the time of the acceleration resulting from such Event of Default. However, the Company, the Subsidiary Guarantors and the JV Subsidiary Guarantors will remain liable for such payments.

AMENDMENTS AND WAIVER

Amendments Without Consent of Holders

The Indenture or the Notes may be amended, without the consent of any Holder, to:

Amendments With Consent of Holders

Amendments of the Indenture may be made by the Company, the Subsidiary Guarantors, the JV Subsidiary Guarantors (if any) and the Trustee with the consent of the Holders of not less than a majority in aggregate principal amount of the outstanding Notes, and the Holders of a majority in principal amount of the outstanding Notes may waive future compliance by the Company, the Subsidiary Guarantors and the JV Subsidiary Guarantors with any provision of the Indenture or the Notes; *provided, however*, that no such modification, amendment or waiver may, without the consent of each Holder affected thereby:

UNCLAIMED MONEY

Claims against the Company for the payment of principal of, premium, if any, or interest, on the Notes will become void unless presentation for payment is made as required in the Indenture within a period of six years.

NO PERSONAL LIABILITY OF INCORPORATORS, STOCKHOLDERS, OFFICERS, DIRECTORS OR EMPLOYEES

No recourse for the payment of the principal of, premium, if any, or interest on any of the Notes or for any claim based thereon or otherwise in respect thereof, and no recourse under or upon any obligation, covenant or agreement of the Company, any Subsidiary Guarantor or any JV Subsidiary Guarantor in the Indenture, or in any of the Notes, the Subsidiary Guarantees or the JV Subsidiary Guarantees or because of the creation of any Indebtedness represented thereby, shall be had against any incorporator, stockholder, officer, director, employee or controlling person of the Company, any Subsidiary Guarantor, any JV Subsidiary Guarantor, or of any successor Person thereof. Each Holder, by accepting the Notes, waives and releases all such liability. The waiver and release are part of the consideration for the issuance of the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees. Such waiver may not be effective to waive liabilities under the federal securities laws.

CONCERNING THE TRUSTEE AND THE AGENTS

China Construction Bank (Asia) Corporation Limited has been appointed as Trustee under the Indenture, as registrar (the “Registrar”) and as paying and transfer agent (the “Paying and Transfer Agent” and, together with the Registrar, the “Agents”) with regard to the Notes. Except during the continuance of a Default, the Trustee will not be liable, except for the performance of such duties as are specifically set forth in the Indenture and the Notes, and no implied covenant or obligation shall be read into the Indenture or the Notes against the Trustee. If an Event of Default has occurred and is continuing, the Trustee will use the same degree of care and skill in its exercise of the rights and powers vested in it under the Indenture or the Notes as a prudent person would exercise under the circumstances in the conduct of such person’s own affairs. The Trustee will be under no obligation to exercise any of its rights or powers under the Indenture at the request of any Holder, unless such Holder shall have offered to the Trustee security and/or indemnity satisfactory to it against loss, liability or expense. It may not be possible for the Trustee to take certain actions whether in relation to the Notes and accordingly in such circumstances the Trustee will be unable to take such actions, notwithstanding the provision of an indemnity to it, and it will be for Holders to take such actions directly.

The Trustee and the Agents will not be responsible for any loss, liability, cost, claim, actions, demand, expense or inconvenience which may result from the exercise or non-exercise of their discretion. Whenever in the Indenture, the Notes or by law, the Trustee shall have discretion or permissive power, it may decline to exercise the same in the absence of approval by the Holders. In exercising their respective duties, the Trustee and the Agents shall not be responsible for the verification of the accuracy or completeness of any certification or legal opinion submitted to them by the Company and are entitled to rely exclusively on the certification and the opinion, and take action based on the information contained in, the certification or the legal opinion. Notwithstanding anything described herein, the Trustee has no duty to monitor the performance or compliance of the Company and the Subsidiary Guarantors in the fulfilment of its obligations under the Indenture, the Notes and the Subsidiary Guarantees. The Trustee and the Agents shall not be deemed or implied to have any duties or obligations under any documents to which it is a party. Furthermore, the Trustee and the Agents shall not be deemed to have knowledge of any event unless it has been actually notified in writing of such default or event of default.

The Trustee and the Agents shall not be responsible for the performance by any other person appointed by the Company in relation to the Notes and, unless notified in writing to the contrary, shall assume that the same are being duly performed. The Trustee shall not be liable to any Holders or any other person for any action taken by the Trustee in accordance with the instructions of the Holders pursuant to the terms of the Indenture.

The Trustee and the Agents are entitled to rely on all instructions, notices, declarations and certifications received pursuant to the Indenture without investigating or being responsible for the accuracy, authenticity and validity of these instructions, notices, declarations and certifications.

Neither the Trustee nor the Agents will be responsible for making calculations or for verifying calculations performed by the Company or any other persons unless otherwise specified in the Indenture.

The Indenture contains limitations on the rights of the Trustee, should it become a creditor of the Company, any of the Subsidiary Guarantors, or JV Subsidiary Guarantors (if any), to obtain payment of claims in certain cases or to realize on certain property received by it in respect of any such claims, as security or otherwise. The Trustee and the Agents are permitted to engage in other transactions, including normal banking and trustee and agency relationships, with the Company, the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) and their respective Affiliates; *provided, however*, that if it acquires any conflicting interest, it must eliminate such conflict or resign.

Each Holder, by accepting the Notes will agree, for the benefit of the Trustee and the Agents, that it shall be solely responsible for making its own independent appraisal of and investigation into the financial condition, creditworthiness, condition, affairs, status and nature of the Company, any Subsidiary Guarantor and any JV Subsidiary Guarantor, and neither the Trustee nor the Agents shall at any time have any responsibility for the same and each Holder shall not rely on the Trustee in respect thereof.

The Trustee will not be under any obligation to exercise any rights or powers conferred under the Indenture for the benefit of the Holders, unless such Holders have offered to the Trustee indemnity and/or security satisfactory to the Trustee against any loss, liability or expense.

BOOK-ENTRY; DELIVERY AND FORM

The New Notes will be represented by one or more global notes in registered form without interest coupons attached (the “Global Note”). On the issue date of the New Notes, the Global Note representing the New Notes will be deposited with a common depository and registered in the name of the common depository or its nominee for the accounts of Euroclear and Clearstream. Under the Indenture, the Trustee and the Agents are entitled to be indemnified and/or secured and relieved from liability or responsibility in certain circumstances and will be paid its fees, costs, expenses and indemnity payments in priority to the claims of the Holders.

GLOBAL NOTE

Ownership of beneficial interests in the Global Note (the “book-entry interests”) will be limited to persons that have accounts with Euroclear and/or Clearstream or persons that may hold interests through such participants. Book-entry interests will be shown on, and transfers thereof will be effected only through, records maintained in book-entry form by Euroclear and Clearstream and their participants.

Except as set forth below under “— Individual Definitive Notes,” the book-entry interests will not be held in definitive form. Instead, Euroclear and/or Clearstream will credit on their respective book-entry registration and transfer systems a participant’s account with the interest beneficially owned by such participant. The laws of some jurisdictions may require that certain purchasers of securities take physical delivery of such securities in definitive form. The foregoing limitations may impair the ability to own, transfer or pledge book-entry interests.

So long as the Notes are held in global form, the common depository for Euroclear and/or Clearstream (or its nominee) will be considered the sole holder of the Global Note for all purposes under the Indenture and “holders” of book-entry interests will not be considered the owners or “Holders” of Notes for any purpose. As such, participants must rely on the procedures of Euroclear and Clearstream and indirect participants must rely on the procedures of the participants through which they own book-entry interests in order to transfer their interests in the Notes or to exercise any rights of Holders under the Indenture.

None of the Company, the Subsidiary Guarantors, the JV Subsidiary Guarantors (if any), the Trustee or any of their respective agents will have any responsibility or be liable for any aspect of the records relating to the book-entry interests. The Notes are not issuable in bearer form.

Payments on the Global Note

Payments of any amounts owing in respect of the Global Note (including principal, premium, interest and Additional Amounts) will be made to the principal paying and transfer agent in U.S. dollars. The Paying and Transfer Agent will, in turn, make such payments to the common depositary for Euroclear and Clearstream, which will distribute such payments to participants in accordance with their procedures. The Company will make payments of all such amounts without deduction or withholding for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature, except as may be required by law and as described under “— Additional Amounts.”

Under the terms of the Indenture, the Company and the Trustee will treat the registered holder of the Global Note (i.e., the common depositary or its nominee) as the owner thereof for the purpose of receiving payments and for all other purposes. Consequently, none of the Company, the Subsidiary Guarantors, the JV Subsidiary Guarantors, the Trustee or any of their respective agents has or will have any responsibility or liability for:

- any aspect of the records of Euroclear, Clearstream or any participant or indirect participant relating to or payments made on account of a book-entry interest, for any such payments made by Euroclear, Clearstream or any participant or indirect participants, or for maintaining, supervising or reviewing any of the records of Euroclear, Clearstream or any participant or indirect participant relating to or payments made on account of a book-entry interest; or
- any action or failure to take action by Euroclear, Clearstream or any participant or indirect participant.

Payments by participants to owners of book-entry interests held through participants are the responsibility of such participants.

Redemption of Global Note

In the event any Global Note, or any portion thereof, is redeemed, the common depositary will distribute the amount received by it in respect of the Global Note so redeemed to Euroclear and/or Clearstream, as applicable, who will distribute such amount to the holders of the book-entry interests in such Global Note. The redemption price payable in connection with the redemption of such book-entry interests will be equal to the amount received by the common depositary, Euroclear or Clearstream, as applicable, in connection with the redemption of such Global Note (or any portion thereof). The Company understands that under existing practices of Euroclear and Clearstream, if fewer than all of the Notes are to be redeemed at any time, Euroclear and Clearstream will credit their respective participants' accounts on a proportionate basis (with adjustments to prevent fractions) or by lot or on such other basis as they deem fair and appropriate; provided, however, that no book-entry interest of US\$200,000 principal amount, or less, as the case may be, will be redeemed in part.

Action by Owners of Book-Entry Interests

Euroclear and Clearstream have advised that they will take any action permitted to be taken by a Holder of Notes only at the direction of one or more participants to whose account the book-entry interests in the Global Note are credited and only in respect of such portion of the aggregate principal amount of Notes as to which such participant or participants has or have given such direction. Euroclear and Clearstream will not exercise any discretion in the granting of consents, waivers or the taking of any other action in respect of the Global Note. If there is an Event of Default under the Notes, however, each of Euroclear and Clearstream reserves the right to exchange the Global Note for individual definitive notes in certificated form, and to distribute such individual definitive notes to their participants.

Transfers

Transfers between participants in Euroclear and Clearstream will be effected in accordance with Euroclear and Clearstream's rules and will be settled in immediately available funds. If a Holder requires physical delivery of individual definitive notes for any reason, including to sell the Notes to persons in jurisdictions which require physical delivery of such securities or to pledge such securities, such Holder must transfer its interest in the Global Note in accordance with the normal procedures of Euroclear and Clearstream and in accordance with the provisions of the Indenture.

Book-entry interests in the Global Note will be subject to the restrictions on transfer discussed under "Transfer Restrictions."

Any book-entry interest in a Global Note that is transferred to a person who takes delivery in the form of a book-entry interest in another Global Note will, upon transfer, cease to be a book-entry interest in the first-mentioned Global Note and become a book-entry interest in the other Global Note and, accordingly, will thereafter be subject to all transfer restrictions, if any, and other procedures applicable to book-entry interests in such other Global Note for as long as it retains such a book-entry interest.

Global Clearance and Settlement Under the Book-Entry System

Book-entry interests owned through Euroclear or Clearstream accounts will follow the settlement procedures applicable. Book-entry interests will be credited to the securities custody accounts of Euroclear and Clearstream holders on the business day following the settlement date against payment for value on the settlement date.

The book-entry interests will trade through participants of Euroclear or Clearstream, and will settle in same-day funds. Since the purchaser determines the place of delivery, it is important to establish at the time of trading of any book-entry interests where both the purchaser's and seller's accounts are located to ensure that settlement can be made on the desired value date.

Information Concerning Euroclear and Clearstream

The Company understands as follows with respect to Euroclear and Clearstream:

Euroclear and Clearstream hold securities for participating organizations and facilitate the clearance and settlement of securities transactions between their respective participants through electronic book-entry changes in accounts of such participants. Euroclear and Clearstream provide to their participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Euroclear and Clearstream interface with domestic securities markets. Euroclear and Clearstream participants are financial institutions, such as underwriters, securities brokers and dealers, banks and trust companies, and certain other organizations. Indirect access to Euroclear or Clearstream is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodian relationship with a Euroclear or Clearstream participant, either directly or indirectly.

Although the foregoing sets out the procedures of Euroclear and Clearstream in order to facilitate the original issue and subsequent transfers of interests in the Notes among participants of Euroclear and Clearstream, neither Euroclear nor Clearstream is under any obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time.

None of the Company, the Subsidiary Guarantors, the JV Subsidiary Guarantors, the Trustee or any of their respective agents will have responsibility for the performance of Euroclear or Clearstream or their respective participants of their respective obligations under the rules and procedures governing their operations, including, without limitation, rules and procedures relating to book-entry interests.

Individual Definitive Notes

If (1) the common depository or any successor to the common depository is at any time unwilling or unable to continue as a depository for the reasons described in the Indenture and a successor depository is not appointed by the Company within 90 days, (2) either Euroclear or Clearstream, or a successor clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention to permanently cease business or does in fact do so, or (3) any of the Notes has become immediately due and payable in accordance with “— Events of Default” and the Company has received a written request from a Holder, the Company will issue individual definitive notes in registered form in exchange for the Global Note. Upon receipt of such notice from the common depository or a Holder, as the case may be, the Company will use its best efforts to make arrangements with the common depository for the exchange of interests in the Global Note for individual definitive notes and cause the requested individual definitive notes to be executed and delivered to the Registrar in sufficient quantities and authenticated by or on behalf of the Registrar for delivery to Holders. Persons exchanging interests in a Global Note for individual definitive notes will be required to provide the Registrar, through the relevant clearing system, with written instruction and other information required by the Company and the Registrar to complete, execute and deliver such individual definitive notes. In all cases, individual definitive notes delivered in exchange for any Global Note or beneficial interests therein will be registered in the names, and issued in any approved denominations, requested by the relevant clearing system.

Individual definitive notes will not be eligible for clearing and settlement through Euroclear or Clearstream.

NOTICES

All notices or demands required or permitted by the terms of the Notes or the Indenture to be given to or by the Holders are required to be in writing and may be given or served by being sent by prepaid courier or first-class mail (if intended for the Company or any Subsidiary Guarantor) addressed to the Company at the principal office of the Company or such other address as the Company may advise the Trustee in writing from time to time, of (if intended for the Trustee) at the corporate trust office of the Trustee; and (if intended for any Holder) addressed to such Holder at such Holder’s last address as it appears in the Note register.

Any such notice or demand will be deemed to have been sufficiently given or served when so sent or deposited and, if to the Holders, when delivered in accordance with the applicable rules and procedures of Euroclear or Clearstream, as the case may be. Any such notice shall be deemed to have been delivered on the day such notice is delivered to Euroclear or Clearstream, as the case may be, or if by mail, when so sent or deposited.

TAXATION

The following summary of certain Cayman Islands, Hong Kong and PRC tax consequences of the purchase, ownership and disposition of Notes is based upon applicable laws, regulations, rulings and decisions in effect as of the date of this offering memorandum, all of which are subject to change (possibly with retroactive effect). This discussion does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to purchase, own or dispose of the Notes and does not purport to deal with consequences applicable to all categories of investors, some of which may be subject to special rules. Persons considering the purchase of Notes should consult their own tax advisors concerning the tax consequences of the purchase, ownership and disposition of Notes, including such possible consequences under the laws of their country of citizenship, residence or domicile.

CAYMAN ISLANDS

The following is a discussion on certain Cayman Islands income tax consequences of an investment in the Notes. The discussion is a general summary of present law, which is subject to prospective and retroactive change. It is not intended as tax advice, does not consider any investor's particular circumstances, and does not consider tax consequences other than those arising under Cayman Islands law.

Under the laws of the Cayman Islands, payments of interest and principal or premium on the Notes will not be subject to taxation and no withholding will be required on the payment of interest and principal or premium to any holder of the Notes, as the case may be, nor will gains derived from the disposal of the Notes be subject to Cayman Islands income or corporation tax. The Cayman Islands currently have no income, corporation or capital gains tax and no estate duty, inheritance tax or gift tax. The Cayman Islands is a party to a double tax treaty entered into with the United Kingdom in 2010 but is otherwise not party to any double taxation treaties.

No stamp duty is payable in respect of the issue of the Notes. An instrument of transfer in respect of a Note is stampable if executed in or brought into the Cayman Islands.

The Company has been incorporated under the laws of the Cayman Islands as an exempted company with limited liability and, as such, has obtained an undertaking from the Governor in Cabinet of the Cayman Islands as to tax concessions under the Tax Concessions Act. In accordance with the provision of section 6 of The Tax Concessions Act, the Governor in Cabinet undertakes with the Company:

- That no law which is hereafter enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciations shall apply to the Company or its operations; and
- In addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax shall be payable, on or in respect of the shares, debentures or other obligations of the Company, or by way of the withholding, in whole or part, of any relevant payment as defined in Section 6(3) of the Tax Concessions Act.

These concessions shall be for a period of 20 years from February 19, 2018.

HONG KONG

Withholding Tax. No withholding tax in Hong Kong is payable on payments of principal (including any premium payable on redemption of the Notes) or interest in respect of the Notes.

Profits Tax. Hong Kong profits tax is charged on every person carrying on a trade, profession or business in Hong Kong in respect of assessable profits arising in or derived from Hong Kong from such trade, profession or business. Under the Inland Revenue Ordinance (Chapter 112 of the Laws of Hong Kong) (the "Inland Revenue Ordinance"), as it is currently applied, Hong Kong profits tax may be charged on revenue profits arising on the sale, disposal or redemption of the Notes where such sale, disposal or redemption is or forms part of a trade, profession or business carried on in Hong Kong.

Interest on the Notes will be subject to Hong Kong profits tax where such interest has a Hong Kong source, and is received by or accrues to:

- a financial institution (as defined in the Inland Revenue Ordinance) and arises through or from the carrying on by the financial institution of its business in Hong Kong; or
- a corporation carrying on a trade, profession or business in Hong Kong; or
- a person, other than a corporation, carrying on a trade, profession or business in Hong Kong and such interest is in respect of the funds of the trade, profession or business.

Although no tax is imposed in Hong Kong in respect of capital gains, Hong Kong profits tax may be chargeable on trading gains arising on the sale or disposal of the Notes where such transactions are or form part of a trade, profession or business carried on in Hong Kong.

Stamp Duty. No Hong Kong stamp duty will be chargeable upon the issue or transfer (for so long as the register of holders of the Notes is maintained outside Hong Kong) of a Note.

PRC TAXATION

The following summary of certain PRC tax consequences of the purchase, ownership and disposition of Notes is based upon applicable laws, rules and regulations in effect as of the date of this offering memorandum, all of which are subject to change (possibly with retroactive effect). This discussion does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to purchase, own or dispose of the Notes and does not purport to deal with consequences applicable to all categories of investors, some of which may be subject to special rules. Persons considering the purchase of Notes should consult their own tax advisors concerning the tax consequences of the purchase, ownership and disposition of Notes, including such possible consequences under the laws of their country of citizenship, residence or domicile.

Taxation on Interest and Capital Gains. PRC income tax at the rate of 10% (or lower treaty rate, if any) is withheld from interest payable to investors that are “non-resident enterprises” and that do not have an establishment or place of business in the PRC, or that have such establishment or place of business but the relevant interest income is not effectively connected with the establishment or place of business, to the extent such interest is derived from sources within the PRC. Any gain realized on the transfer of the Notes by such investors is subject to a 10% (or lower treaty rate, if any) PRC income tax if such gain is regarded as income of a “non-resident enterprise” derived from sources within the PRC. As advised by Jingtian & Gongcheng, our PRC legal counsel, there is uncertainty as to whether we will be treated as a PRC “resident enterprise” for the purpose of the EIT Law. If we are considered a PRC resident enterprise, interest and capital gains realized by non-resident holders of the Notes may be treated as income derived from sources within the PRC and may be subject to PRC tax (which in the case of interest may be withheld at source) at the rate of 10% where the holder is an enterprise pursuant to the EIT Law, or at the rate of 20% where the holder is an individual pursuant to PRC individual income tax laws. See “Risk Factors — Risks Relating to Conducting Business in the PRC — We may be deemed as a PRC resident under the EIT Law and be subject to PRC taxation on our worldwide income” and “— Risks Relating to the Notes — Interest payable by us to our foreign investors and gain on sale of our Notes may be subject to withholding taxes under PRC tax laws.”

Stamp duty. No PRC stamp tax will be chargeable upon the issue or transfer (for so long as the register of holders of the Notes is maintained outside the PRC) of a Note.

The Initial Purchasers or their respective affiliates may, from time to time, engage in transactions with and perform services for us in the ordinary course of business for which they may receive customary fees and reimbursement of expenses. We may enter into hedging or other derivative transactions as part of our risk management strategy with the Initial Purchasers, which may include transactions relating to our obligations under the New Notes. Our obligations under these transactions may be secured by cash or other collateral.

In connection with this offering of the New Notes, the Initial Purchasers and/or their respective affiliate(s) may act as an investor for its own account and may take up New Notes in the offering and in that capacity may retain, purchase or sell for its own account such securities and any of our other securities or related investments and may offer or sell such securities or other investments otherwise than in connection with the offering of the New Notes. Accordingly, references herein to the New Notes being offered should be read as including any offering of the New Notes to the Initial Purchasers and/or their respective affiliates acting in such capacity. Such persons do not intend to disclose the extent of any such investment or transactions otherwise than in accordance with any legal or regulatory obligation to do so.

Valuation of investment properties 投資物業之估值

The Group owns investment properties in Mainland China which are measured at fair value and the aggregate carrying amount was approximately RMB2,723,700,000 as at 31 December 2020, representing 7.8% and 31.0% of the Group's total assets and net assets, respectively. The Group has engaged an external valuer to perform the valuation of these properties as at 31 December 2020.

貴集團在中國內地擁有多項按公允價值計量的投資物業，該等物業於2020年12月31日的總賬面值約為人民幣2,723,700,000元，分別佔 貴集團總資產及淨資產的7.8%及31.0%。貴集團已聘請外部估值師於2020年12月31日對該等物業進行估值。

Significant judgement is required to determine the fair values of the investment properties, which reflect market conditions as at the end of the year. The use of different valuation techniques and assumptions could produce significantly different estimates of fair values. Accordingly, the valuation of investment properties was identified as a key audit matter.

The accounting policies and disclosures of the investment properties are included in notes 2.4, 3 and 14 to the consolidated financial statements.

- with the assistance of our internal valuation experts, assessing the reasonableness of the assumptions such as the capitalisation rate, vacancy rate and sale prices used in the valuations by comparing them to available industry data, taking into consideration comparability and market factors;
- 經考慮兼容性及市場因素後，透過將其與可用行業數據進行對比，在內部估值專家的協助下，評估估值所用假設（如資本化率、空置率及售價等）的合理性；

Provision for land appreciation tax 土地增值稅撥備

The Group is a property developer in Mainland China focusing on the development of residential properties and the development, operation and management of commercial and mixed-use properties. Land appreciation tax ("LAT") in Mainland China is one of the main components of the Group's taxation charge. LAT is levied on the sale of properties at progressive rates ranging from 30% to 60% based on the appreciation of land value. At the end of each reporting period, the management of the Group estimates the provision for LAT based on its understanding and interpretation of the relevant tax rules and regulations, and the estimated total sales of properties less total deductible expenditure, which includes lease charges for land use rights, property development costs, borrowing costs and development expenditure. When the LAT is subsequently determined, the actual payments may be different from the estimates.

貴集團為一家中國內地的物業開發商，專注於開發住宅物業，以及開發、運營及管理商業及綜合用途物業。中國內地的土地增值稅(「土地增值稅」)為貴集團稅項支出的主要組成部分之一。物業銷售的土地增值稅乃按照30%至60%的累進稅率對土地增值額徵收。於各報告期末，貴集團管理層會根據其對相關稅務規則及法規的理解及詮釋對土地增值稅撥備及估計物業銷售總額減可扣減開支總額(包括土地使用權租賃開支、物業開發成本、借貸成本及開發支出)作出估計。在隨後確定土地增值稅時，實際付款金額可能與估計值有所不同。

The disclosures of the provision for land appreciation tax are included in notes 3 and 10 to the consolidated financial statements.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRSs issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

The directors of the Company are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

審計師就審計綜合財務報表須承擔的責任 (續)

合理確定屬高層次的核證，惟根據香港審計準則進行的審計工作不能保證總能察覺所存在的重大錯誤陳述。錯誤陳述可因欺詐或錯誤產生，倘個別或整體在合理預期情況下可影響使用者根據該等綜合財務報表作出的經濟決定時，則被視為重大錯誤陳述。

在根據香港審計準則進行審計的過程中，吾等運用專業判斷，並於整個審計過程中保持專業懷疑態度。吾等亦：

- 識別及評估由於欺詐或錯誤而導致綜合財務報表存在重大錯誤陳述的風險、設計及執行審計程序以應對該等風險，以及獲取充足和適當的審計憑證，作為吾等意見的基礎。由於欺詐可能涉及串謀、偽造、蓄意遺漏、虛假陳述或凌駕內部監控的情況，因此未能發現因欺詐而導致的重大錯誤陳述的風險高於未能發現因錯誤而導致的重大錯誤陳述的風險。
- 了解與審計相關的內部監控，以設計適當的審計程序，惟並非旨在對貴集團內部監控的有效性發表意見。

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.
- 評估董事所採用會計政策的恰當性及作出會計估計和相關披露的合理性。

- 評估綜合財務報表的整體呈報方式、結構及內容，包括披露資料，以及綜合財務報表是否中肯反映相關交易和事項。
- 就 貴集團內實體或業務活動的財務資料獲取充足及適當的審計憑證，以便對綜合財務報表發表意見。吾等負責集團審計的方向、監督及執行。吾等就審計意見承擔全部責任。

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The English names of all group companies registered in the PRC represent the best efforts made by the management of the Company to translate the Chinese names of these companies as they do not have official English names. The legal form of these principal PRC subsidiaries disclosed above is limited liability company.

The above table lists the subsidiaries of the Company which, in the opinion of the directors, principally affected the results for the year or formed a substantial portion of the net assets of the Group. To give details of other subsidiaries would, in the opinion of the directors, result in particulars of excessive length.

NOTES TO FINANCIAL STATEMENTS *(Continued)*

財務報表附註 (續)

31 DECEMBER 2020 2020年12月31日

2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRSs”) (which include all International Financial Reporting Standards, International Accounting Standards (“IASs”) and Standing Interpretations Committee interpretations) approved by the International Accounting Standards Board (the “IASB”) and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for investment properties, financial assets at fair value through profit or loss and equity investments designed at fair value through other comprehensive income which have been measured at fair value. These financial statements are presented in Renminbi (“RMB”) and all values are rounded to the nearest thousand except when otherwise indicated.

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the “Group”) for the year ended 31 December 2020. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

2.1 編製基準

該等財務報表乃根據國際會計準則理事會（「國際會計準則理事會」）批准的國際財務報告準則（「國際財務報告準則」）（包括所有國際財務報告準則、國際會計準則（「國際會計準則」）及常務詮釋委員會詮釋）及香港公司條例的披露規定編製。其乃根據歷史成本法編製，惟已按公允價值計量的投資物業、按公允價值計入損益的金融資產及指定為按公允價值計入其他全面收入的股權投資除外。該等財務報表以人民幣（「人民幣」）呈列，除文義另有所指外，所有金額均經四捨五入調整至最接近的千位數。

綜合基準

綜合財務報表包括本公司及其子公司（統稱「本集團」）截至2020年12月31日止年度的財務報表。子公司指由本公司直接或間接控制的實體（包括結構性實體）。當本集團對參與投資對象業務的可變回報承擔風險或享有權利以及能通過對投資對象的權力（即本集團獲賦予現有能以主導投資對象有關活動的既存權利）影響該等回報時，即取得控制權。

NOTES TO FINANCIAL STATEMENTS (Continued)

財務報表附註(續)

31 DECEMBER 2020 2020年12月31日

2.1 BASIS OF PREPARATION (CONTINUED)

Basis of consolidation (continued)

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

2.1 編製基準(續)

綜合基準(續)

倘本公司直接或間接擁有少於投資對象大多數投票或類似權利，則本集團於評估其是否擁有對投資對象的權力時會考慮一切相關事實及情況，包括：

- (a) 與投資對象的其他投票權持有人的合同安排；
- (b) 其他合同安排所產生的權利；及
- (c) 本集團的投票權及潛在投票權。

子公司與本公司之財務報表之報告期相同，並採用一致之會計政策編製。子公司之業績由本集團獲得控制權當日起綜合入賬，並繼續綜合入賬直至有關控制權終止當日為止。

損益及其他全面收入之各個組成部分歸屬於本集團母公司之擁有人及非控股權益，即使此舉會導致非控股權益有虧絀結餘。所有有關本集團各成員公司間交易之集團內部資產及負債、權益、收入、開支及現金流量均會於綜合入賬時全數抵銷。

倘事實及情況顯示上述三項控制因素之一項或多項出現變化，本集團會重新評估其是否控制投資對象。於子公司的所有權權益變動，惟並無失去控制權，則以權益交易入賬。

NOTES TO FINANCIAL STATEMENTS (Continued)

財務報表附註 (續)

31 DECEMBER 2020 2020年12月31日

2.1 BASIS OF PREPARATION (CONTINUED)

Basis of consolidation (continued)

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the *Conceptual Framework for Financial Reporting 2018* and the following revised IFRSs for the first time for the current year's financial statements.

| | |
|--|--|
| Amendment to IFRS 3 | <i>Definition of a Business</i> |
| Amendment to IFRS 9, IAS 39 and IFRS 7 | <i>Interest Rate Benchmark Reform</i> |
| Amendment to IFRS 16 | <i>Covid-19-Related Rent Concessions</i> (early adopted) |
| Amendment to IAS 1 and IAS 8 | <i>Definition of Material</i> |

2.1 編製基準 (續)

綜合基準 (續)

倘本集團失去對子公司之控制權，則終止確認(i)該子公司之資產(包括商譽)及負債、(ii)任何非控股權益之賬面值及(iii)於權益內記錄之累計交易差額；及確認(i)已收對價之公允價值、(ii)所保留任何投資之公允價值及(iii)損益中任何因此產生之盈餘或虧損。先前已於其他全面收入內確認之本集團應佔部分重新分類至損益或保留利潤(如適當)，基準與本集團直接出售相關資產或負債所需使用之基準相同。

2.2 會計政策的變動及披露

本集團已就本年度之財務報表首次採納2018年財務報告的概念框架及下列經修訂國際財務報告準則。

| | |

2.2 會計政策的變動及披露 (續)

The nature and the impact of the *Conceptual Framework for Financial Reporting 2018* and the revised IFRSs are described below:

2018年財務報告的概念框架及經修訂國際財務報告準則的性質及影響載列如下：

(a) *Conceptual Framework for Financial Reporting 2018* (the “Conceptual Framework”) sets out a comprehensive set of concepts for financial reporting and standard setting, and provides guidance for preparers of financial statements in developing consistent accounting policies and assistance to all parties to understand and interpret the standards. The Conceptual Framework includes new chapters on measurement and reporting financial performance, new guidance on the derecognition of assets and liabilities, and updated definitions and recognition criteria for assets and liabilities. It also clarifies the roles of stewardship, prudence and measurement uncertainty in financial reporting. The Conceptual Framework is not a standard, and none of the concepts contained therein override the concepts or requirements in any standard. The Conceptual Framework did not have any significant impact on the financial position and performance of the Group.

(a) 2018年財務報告的概念框架(「概念框架」)就財務報告及準則制定提供一整套概念，並為財務報告編製者制定一致的會計政策提供指引，協助所有人理解和詮釋準則。概念框架包括有關計量及報告財務績效的新章節、有關資產及負債終止確認的新指引，以及更新有關資產及負債定義及確認的標準。該等框架亦闡明了管理、審慎和衡量不確定性在財務報告中的作用。概念框架並非準則，其中包含的任何概念都不會凌駕於任何準則中的概念或要求之上。概念框架並無對本集團的財務狀況及表現造成任何重大影響。

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (CONTINUED)

(b) Amendments to IFRS 3 clarify and provide additional guidance on the definition of a business. The amendments clarify that for an integrated set of activities and assets to be considered a business, it must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. A business can exist without including all of the inputs and processes needed to create outputs. The amendments remove the assessment of whether market participants are capable of acquiring the business and continue to produce outputs. Instead, the focus is on whether acquired inputs and acquired substantive processes together significantly contribute to the ability to create outputs. The amendments have also narrowed the definition of outputs to focus on goods or services provided to customers, investment income or other income from ordinary activities. Furthermore, the amendments provide guidance to assess whether an acquired process is substantive and introduce an optional fair value concentration test to permit a simplified assessment of whether an acquired set of activities and assets is not a business. The Group has applied the amendments prospectively to transactions or other events that occurred on or after 1 January 2020. The amendments did not have any impact on the financial position and performance of the Group.

2.2 會計政策的變動及披露 (續)

(b) 國際財務報告準則第3號的修訂澄清並就業務的定義提供額外指引。該等修訂澄清，一系列綜合活動及資產需至少包括對創造輸出能力有重大貢獻的投入及實質性進程方可被視為一項業務。業務可不包括創造輸出所需的所有投入及進程而存在。該等修訂取消了對市場參與者是否有能力獲得業務並繼續產生輸出的評估。相反，重點是所獲得投入及所取得實質性進程是否共同對創造輸出的能力有重大貢獻。該等修訂亦縮小了輸出的定義，重點關注向客戶提供的商品或服務、投資收入或自日常業務產生的其他收入。此外，該等修訂對評估所取得的進程是否屬實質性提供了指引，並引入可選的公允價值集中測試，以簡化對所獲得的一系列活動及資產是否屬業務的評估。本集團已對2020年1月1日或之後發生的交易或其他事件前瞻性地應用該等修訂。該等修訂並無對本集團的財務狀況及表現造成任何影響。

(c) Amendments to IFRS 9, IAS 39 and IFRS 7 address issues affecting financial reporting in the period before the replacement of an existing interest rate benchmark with an alternative risk-free rate (“RFR”). The amendment provide temporary reliefs which enable hedge accounting to continue during the period of uncertainty before the introduction of alternative RFR. In addition, the amendments require companies to provide additional information to investors about their hedging relationships which are directly affected by these uncertainties. The amendments did not have any impact on the financial position and performance of the Group as the Group does not have any interest rate hedging relationships.

2.2 會計政策的變動及披露 (續)

(c) 國際財務報告準則第9號、國際會計準則第39號及國際財務報告準則第7號的修訂旨在解決以替代無風險利率（「無風險利率」）取代現有利率基準之前的期間的財務報告問題。該等修訂提供可在引入替代無風險利率前之不確定期限內繼續進行對沖會計處理之暫時性補救措施。此外，該等修訂規定公司須向投資者提供有關直接受該等不確定因素影響的對沖關係的額外資料。由於本集團並無任何利率對沖關係，故該等修訂並無對本集團的財務狀況及表現造成任何影響。

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (CONTINUED)

(d) Amendment to IFRS 16 provides a practical expedient for lessees to elect not to apply lease modification accounting for rent concessions arising as a direct consequence of the covid-19 pandemic. The practical expedient applies only to rent concessions occurring as a direct consequence of the covid-19 pandemic and only if (i) the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change; (ii) any reduction in lease payments affects only payments originally due on or before 30 June 2021; and (iii) there is no substantive change to other terms and conditions of the lease. The amendment is effective for annual periods beginning on or after 1 June 2020 with earlier application permitted and shall be applied retrospectively. The amendment is effective retrospectively for annual periods beginning on or after 1 June 2020 with earlier application permitted. The Group has early adopted the amendment on 1 January 2020 and elected not to apply lease modification accounting for all rent concessions granted by the lessors as a result of the covid-19 pandemic during the year ended 31 December 2020 as the reduction in the lease payments was insignificant. The amendments did not have any significant impact on the financial position and performance of the Group.

(e) Amendment to IAS 1 and IAS 8 provide a new definition of material. The new definition states that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. The amendments clarify that materiality will depend on the nature or magnitude of information, or both. The amendments did not have any significant impact on the financial position and performance of the Group.

2.2 會計政策的變動及披露 (續)

(d) 國際財務報告準則第16號的修訂為承租人提供實際權宜之計，可選擇不就新型冠狀病毒疫情直接導致的租金減免應用租賃修訂會計處理。該實際權宜之計僅適用於新型冠狀病毒疫情直接導致的租金減免，並僅在以下情況下適用：(i)租賃付款變動所導致的經修訂租賃對價與緊接該變動前的租賃對價大致相同或低於有關代價；(ii)租賃付款的任何減免僅影響原到期日為2021年6月30日或之前的付款；及(iii)租賃的其他條款及條件並無實質變動。該修訂於2020年6月1日或之後開始的年度期間生效，允許提早應用，並須追溯應用。該修訂於2020年6月1日或之後開始的年度期間追溯生效，並允許提早應用。本集團已於2020年1月1日提早採納有關修訂，並選擇就截至2020年12月31日止年度出租人因新型冠狀病毒疫情給予的所有租金減免不應用租賃修訂會計處理，因為租賃付款的減免微乎其微。該等修訂並無對本集團的財務狀況及表現造成任何重大影響。

(e) 國際會計準則第1號及國際會計準則第8號的修訂為重大提供了新的定義。該新定義指出，倘遺漏、失實陳述或隱藏某項資料可合理預期將對通用財務報表的主要用戶依據該等財務報表做出的決策產生影響，則該項資料屬重大。該等修訂澄清，重大性將取決於資料的性質或程度，或兩者兼有。該等修訂並無對本集團的財務狀況及表現造成任何重大影響。

2.3 ISSUED BUT NOT YET EFFECTIVE IFRSS (CONTINUED)

- 1 Effective for annual periods beginning on or after 1 January 2021
- 2 Effective for annual periods beginning on or after 1 January 2022
- 3 Effective for annual periods beginning on or after 1 January 2023
- 4 No mandatory effective date yet determined but available for adoption
- 5 As a consequence of the amendments to IAS 1, International Financial Reporting Interpretation 5 Presentation of Financial Statements – Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause was revised in October 2020 to align the corresponding wording with no change in conclusion
- 6 As a consequence of the amendments to IFRS 17 issued in June 2020, IFRS 4 was amended to extend the temporary exemption that permits insurers to apply IAS 39 rather than IFRS 9 for annual periods beginning before 1 January 2023

Further information about those IFRSs that are expected to be applicable to the Group is described below.

Amendments to IFRS 3 are intended to replace a reference to the previous *Framework for the Preparation and Presentation of Financial Statements* with a reference to the *Conceptual Framework for Financial Reporting* issued in March 2018 without significantly changing its requirements. The amendments also add to IFRS 3 an exception to its recognition principle for an entity to refer to the Conceptual Framework to determine what constitutes an asset or a liability. The exception specifies that, for liabilities and contingent liabilities that would be within the scope of IAS 37 or IFRIC 21 if they were incurred separately rather than assumed in a business combination, an entity applying IFRS 3 should refer to IAS 37 or IFRIC 21 respectively instead of the Conceptual Framework. Furthermore, the amendments clarify that contingent assets do not qualify for recognition at the acquisition date. The Group expects to adopt the amendments prospectively from 1 January 2022. Since the amendments apply prospectively to business combinations for which the acquisition date is on or after the date of first application, the Group will not be affected by these amendments on the date of transition.

2.3 已頒佈但未生效的國際財務報告準則 (續)

- 1 於2021年1月1日或之後開始的年度期間生效
- 2 於2022年1月1日或之後開始的年度期間生效
- 3 於2023年1月1日或之後開始的年度期間生效
- 4 尚未釐定強制生效日期，惟可供採納
- 5 由於國際會計準則第1號的修訂，國際財務報告詮釋第5號呈列財務報表 – 借款人對包含按要求償還條款之有期貨款之分類於2020年10月修訂，使相應措詞保持一致而結論不變。
- 6 由於2020年6月刊登國際財務報告準則第17號的修訂，國際財務報告準則第4號已修訂以延長臨時豁免，允許保險人於2023年1月1日前開始的年度期間採用國際會計準則第39號而非國際財務報告準則第9號。

預期將適用於本集團的該等國際財務報告準則的進一步資料如下。

國際財務報告準則第3號的修訂旨在以2018年3月發佈的*財務報告概念框架*的提述取代先前對*編製及呈列財務報表框架*的提述，而無需重大改變其要求。該等修訂亦為國際財務報告準則第3號增加確認原則的例外，實體可參考概念框架釐定資產或負債的構成要素。該例外情況規定，對於單獨而非於業務合併中承擔且屬於國際會計準則第37號或國際財務報告詮釋委員會詮釋第21號的負債及或然負債，採用國際財務報告準則第3號的實體應分別提述國際會計準則第37號或國際財務報告詮釋委員會詮釋第21號，而非概念框架。此外，該等修訂澄清或然資產於收購日期不符合確認資格。本集團預期自2022年1月1日起前瞻性地採納該等修訂。由於該等修訂預期適用於收購日期為首次應用日期或之後的業務合併，故本集團於過渡日期將不受該等修訂影響。

2.3 ISSUED BUT NOT YET EFFECTIVE IFRS (CONTINUED)

Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 address issues not dealt with in the previous amendments which affect financial reporting when an existing interest rate benchmark is replaced with an alternative risk-free rate ("RFR"). The Phase 2 amendments provide a practical expedient to allow the effective interest rate to be updated without adjusting the carrying amount when accounting for changes in the basis for determining the contractual cash flows of financial assets and liabilities, if the change is a direct consequence of the interest rate benchmark reform and the new basis for determining the contractual cash flows is economically equivalent to the previous basis immediately preceding the change. In addition, the amendments permit changes required by the interest rate benchmark reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued. Any gains or losses that could arise on transition are dealt with through the normal requirements of IFRS 9 to measure and recognise hedge ineffectiveness. The amendments also provide a temporary relief to entities from having to meet the separately identifiable requirement when an RFR is designated as a risk component. The relief allows an entity, upon designation of the hedge, to assume that the separately identifiable requirement is met, provided the entity reasonably expects the RFR risk component to become separately identifiable within the next 24 months. Furthermore, the amendments require an entity to disclose additional information to enable users of financial statements to understand the effect of interest rate benchmark reform on an entity's financial instruments and risk management strategy. The amendments are effective for annual periods beginning on or after 1 January 2021 and shall be applied retrospectively, but entities are not required to restate the comparative information.

2.3 已頒佈但未生效的國際財務報告準則(續)

當現有利率基準以替代無風險利率(「無風險利率」)取代會影響財務報告時，國際財務報告準則第9號、國際會計準則第39號、國際財務報告準則第7號、國際財務報告準則第4號及國際財務報告準則第16號的修訂解決先前修訂中未涉及的問題。第2期修訂提供可行權宜方法，於入賬釐定金融資產及負債的合同現金流量的基準變動時，倘變動因利率基準改革直接引致，且釐定合同現金流量的新基準經濟上相當於緊接變動前的先前基準，在不調整賬面值的情況下更新實際利率。此外，該等修訂允許利率基準改革要求就對沖名稱及對沖文件作出的變動，而不中斷對沖關係。過渡期間可能產生的任何損益均透過國際財務報告準則第9號的正常要求進行處理，以衡量及確認對沖無效性。當無風險利率被指定為風險組成部分時，該等修訂亦暫時寬免實體須符合可單獨識別的規定。寬免允許實體於指定對沖時假設符合可單獨識別的規定，前提是實體合理預期無風險利率風險部分於未來24個月內將可單獨識別。此外，該等修訂亦要求實體披露其他資料，以使財務報表的使用者能夠了解利率基準改革對實體金融工具及風險管理策略的影響。該等修訂於2021年1月1日或之後開始的年度期間生效，並須追溯應用，惟實體毋須重列比較資料。

2.3 ISSUED BUT NOT YET EFFECTIVE IFRSS (CONTINUED)

The Group had certain interest-bearing bank and other borrowings and senior notes denominated in RMB and foreign currencies based on the exchange rates quoted by the People's Bank of China as at 31 December 2020. If the interest rates of these borrowings are replaced by RFRs in a future period, the Group will apply this practical expedient upon the modification of these borrowings when the "economically equivalent" criterion is met and expects that no significant modification gain or loss will arise as a result of applying the amendments to these changes.

Amendments to IFRS 10 and IAS 28 address an inconsistency between the requirements in IFRS 10 and in IAS 28 in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require a full recognition of a gain or loss when the sale or contribution of assets between an investor and its associate or joint venture constitutes a business. For a transaction involving assets that do not constitute a business, a gain or loss resulting from the transaction is recognised in the investor's profit or loss only to the extent of the unrelated investor's interest in that associate or joint venture. The amendments are to be applied prospectively. The previous mandatory effective date of amendments to IFRS 10 and IAS 28 was removed by the IASB in December 2015 and a new mandatory effective date will be determined after the completion of a broader review of accounting for associates and joint ventures. However, the amendments are available for adoption now.

2.3 已頒佈但未生效的國際財務報告準則 (續)

本集團於2020年12月31日持有根據中國人民銀行所報匯率以人民幣及外幣計值的若干計息銀行及其他借貸以及優先票據。倘該等借貸的利率於未來期間由無風險利率代替，本集團將於滿足「經濟上相當」標準修改有關借貸時採用此可行權宜方法，並預計不會因採用該等變動修訂而產生重大修改損益。

國際財務報告準則第10號及國際會計準則第28號的修訂處理國際財務報告準則第10號及國際會計準則第28號於處理投資者與其聯營公司或合營企業間之資產出售或投入方面之規定之不一致情況。該等修訂規定，當投資者與其聯營公司或合營企業間之資產出售或投入構成一項業務時，須全面確認收益或虧損。對於涉及並無構成一項業務之資產之交易而言，該項交易產生之收益或虧損於投資者之損益中確認，惟僅以不相關投資者於該聯營公司或合營企業之權益為限。該等修訂將按前瞻基準應用。國際會計準則理事會已於2015年12月剔除國際財務報告準則第10號及國際會計準則第28號的修訂的以往強制生效日期，而新的強制生效日期將於對聯營公司及合營企業的會計處理完成更廣泛的檢討後釐定。在此情況下，本集團亦確認相關負債。

2.3 ISSUED BUT NOT YET EFFECTIVE IFRSS (CONTINUED)

Amendments to IAS 1 clarify the requirements for classifying liabilities as current or non-current. The amendments specify that if an entity's right to defer settlement of a liability is subject to the entity complying with specified conditions, the entity has a right to defer settlement of the liability at the end of the reporting period if it complies with those conditions at that date. Classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement of the liability. The amendments also clarify the situations that are considered a settlement of a liability. The amendments are effective for annual periods beginning on or after 1 January 2023 and shall be applied retrospectively. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to IAS 16 prohibit an entity from deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling any such items, and the cost of those items, in profit or loss. The amendments are effective for annual periods beginning on or after 1 January 2022 and shall be applied retrospectively only to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented in the financial statements in which the entity first applies the amendments. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

2.3 已頒佈但未生效的國際財務報告準則 (續)

國際會計準則第1號的修訂澄清劃分負債為流動或非流動的規定。該等修訂載明，倘實體推遲清償負債的權利受限於該實體須符合特定條件，則倘該實體符合當日之條件，其有權於報告期末推遲清償負債。負債的分類不受實體行使其權利延遲清償負債的可能性的影響。該等修訂亦澄清被認為清償負債的情況。該等修訂於2023年1月1日或之後開始的年度期間生效，須追溯應用，並允許提早應用。預期該等修訂將不會對本集團財務報表造成任何重大影響。

國際會計準則第16號的修訂禁止實體從物業、廠房及設備項目成本中扣除資產達到管理層預定的可運營狀態(包括位置與條件)過程中出售項目產生的任何所得款項。相反，實體須將出售任何有關項目的所得款項及其成本計入損益。該等修訂自2022年1月1日或之後開始的年度期間生效，僅對實體首次應用有關修訂的財務報表呈列的最早期間開始時或之後可供使用的物業、廠房及設備項目追溯應用，並允許提早應用。預期該等修訂將不會對本集團財務報表造成任何重大影響。

2.3 ISSUED BUT NOT YET EFFECTIVE IFRSS (CONTINUED)

Amendments to IAS 37 clarify that for the purpose of assessing whether a contract is onerous under IAS 37, the cost of fulfilling the contract comprises the costs that relate directly to the contract. Costs that relate directly to a contract include both the incremental costs of fulfilling that contract (e.g., direct labour and materials) and an allocation of other costs that relate directly to fulfilling that contract (e.g., an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract as well as contract management and supervision costs). General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract. The amendments are effective for annual periods beginning on or after 1 January 2022 and shall be applied to contracts for which an entity has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments. Earlier application is permitted. Any cumulative effect of initially applying the amendments shall be recognised as an adjustment to the opening equity at the date of initial application without restating the comparative information. The amendments are not expected to have any significant impact on the Group's financial statements.

2.3 已頒佈但未生效的國際財務報告準則 (續)

國際會計準則第37號的修訂澄清，就根據國際會計準則第37號評估合同是否屬虧損性而言，履行合同的成本包括與合同直接相關的成本。與合同直接相關的成本包括履行該合同的增量成本（例如直接勞工及材料）及與履行合同直接相關的其他成本分配（例如分配履行合同所用物業、廠房及設備項目的折舊開支以及合同管理與監督成本）。一般及行政成本與合同並無直接關係，除非合同明確向對手方收費，否則將其排除在外。該等修訂於2022年1月1日或之後開始的年度期間生效，適用於實體首次應用有關修訂的年度報告期開始時實體尚未履行其全部責任的合同，並允許提早應用。初步應用修訂的任何累積影響應於初始應用日期確認為期初權益的調整，且毋須重列比較資料。預期該等修訂將不會對本集團財務報表造成任何重大影響。

2.3 ISSUED BUT NOT YET EFFECTIVE IFRS (CONTINUED)

Annual Improvements to IFRS Standards 2018-2020 sets out amendments to IFRS 1, IFRS 9, Illustrative Examples accompanying IFRS 16, and IAS 41. Details of the amendments that are expected to be applicable to the Group are as follows:

- IFRS 9 *Financial Instruments*: clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment. The amendment is effective for annual periods beginning on or after 1 January 2022. Earlier application is permitted. The amendment is not expected to have a significant impact on the Group's financial statements.
- IFRS 16 *Leases*: removes the illustration of payments from the lessor relating to leasehold improvements in Illustrative Example 13 accompanying IFRS 16. This removes potential confusion regarding the treatment of lease incentives when applying IFRS 16.

- 國際財務報告準則第9號金融工具：澄清於實體評估是否新訂或經修改金融負債的條款與原金融負債的條款存在實質差異時所包含的費用。該等費用僅包括借款人與貸款人之間已支付或收取的費用，包括借款人或貸款人代表其他方支付或收取的費用。實體將有關修訂應用於實體首次應用有關修訂的年度報告期開始或之後修改或交換的金融負債。該修訂於2022年1月1日或之後開始的年度期間生效，並允許提早應用。預期該修訂將不會對本集團財務報表造成重大影響。
- 國際財務報告準則第16號租賃：刪除國際財務報告準則第16號隨附之範例13中有關租賃物業裝修的出租人付款說明。此舉消除於採用國際財務報告準則第16號有關租賃激勵措施處理方面的潛在混淆。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investments in associates and joint ventures

An associate is an entity in which the Group has a long term interest of generally not less than 20% of the equity voting rights and over which it is in a position to exercise significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The Group's investments in associates and joint ventures are stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses. Adjustments are made to bring into line any dissimilar accounting policies that may exist. The Group's share of the post-acquisition results and other comprehensive income of associates and joint ventures are included in the consolidated statement of profit or loss. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and its associates or joint ventures are eliminated to the extent of the Group's investments in the associates or joint ventures, except where unrealised losses provide evidence of an impairment of the assets transferred. Goodwill arising from the acquisition of associates or joint ventures is included as part of the Group's investments in associates or joint ventures.

2.4 重大會計政策概要

於聯營公司及合營企業的投資

聯營公司為本集團於其一般不少於20%股本投票權中擁有長期權益的實體，且可對其發揮重大影響力。重大影響力指參與投資對象的財務和經營決策的權力，但不是控制或共同控制該等政策的權力。

合營企業指一種合營安排，對安排擁有共同控制權之訂約方據此對合營企業之淨資產擁有權利。共同控制指按照合同協定對一項安排所共有之控制，共同控制僅在有關活動要求享有控制權之訂約方作出一致同意之決定時存在。

本集團於聯營公司及合營企業的投資乃按本集團根據權益會計法應佔淨資產減任何減值虧損於綜合財務狀況表列賬。倘出現任何不相符的會計政策，即會作出調整加以修正。本集團應佔聯營公司及合營企業收購後業績及其他全面收入計入綜合損益表。此外，倘直接於聯營公司或合營企業的權益確認一項變動，則本集團會於綜合權益變動表確認其應佔任何變動（倘適用）。本集團與其聯營公司或合營企業間交易所產生的未變現收益及虧損以本集團於聯營公司或合營企業的投資為限對銷，惟倘未變現虧損證明所轉讓資產減值則除外。收購聯營公司或合營企業所產生的商譽計入作本集團於聯營公司或合營企業的投資的一部分。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investments in associates and joint ventures (continued)

If an investment in an associate becomes an investment in a joint venture or vice versa, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method. In all other cases, upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

When an investment in associate or a joint venture is classified as held for sale, it is accounted for in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations*.

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

2.4 重大會計政策概要(續)

於聯營公司及合營企業的投資(續)

倘於聯營公司的投資變成於合營企業的投資或出現相反情況，則不會重新計量保留權益。反之，該投資繼續根據權益法入賬。在所有其他情況下，失去對聯營公司的重大影響力或對合營企業的共同控制權後，本集團按其公允價值計量及確認任何保留投資。聯營公司或合營企業於失去重大影響力或共同控制權時的賬面值與保留投資及出售所得款項的公允價值之間的任何差額乃於損益確認。

當於聯營公司或合營企業的投資分類為持作銷售時，則按國際財務報告準則第5號持作銷售的非流動資產及已終止經營業務入賬。

業務合併及商譽

業務合併乃以收購法入賬。轉讓的對價乃以收購日期的公允價值計量，該公允價值為本集團轉讓的資產於收購日期的公允價值、本集團對被收購方的前擁有人承擔的負債，及本集團發行以換取被收購方控制權的股權的總和。於每項業務合併中，本集團選擇是否以公允價值或被收購方可識別淨資產的應佔比例，計量於被收購方屬現時所有權權益並賦予持有人權利於清盤時按比例分佔淨資產的非控股權益。非控股權益的所有其他部分乃按公允價值計量。收購相關成本於產生時列為開支。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Business combinations and goodwill (continued)

The Group determines that it has acquired a business when the acquired set of activities and assets includes an input and a substantive process that together significantly contribute to the ability to create outputs.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

業務合併及商譽 (續)

當所收購的一組活動及資產包括對創造輸出能力有重大貢獻的投入及實質性進程，則本集團將認為其已收購一項業務。

當本集團收購一項業務時，其會根據合同條款以及於收購日期的經濟環境及相關條件，評估所承擔的金融資產及負債，以作出適合的分類及指定。此包括將被收購方主合同中的嵌入式衍生工具進行分離。

倘業務合併分階段進行，先前持有的股權按收購日期的公允價值重新計量，所產生的任何收益或虧損於損益確認。

收購方將予轉讓的任何或然對價於收購日期按公允價值確認。分類為一項資產或負債的或然對價按公允價值計量，公允價值的變動於損益確認。分類為權益的或然對價不會重新計量，其後結算於權益中入賬。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Business combinations and goodwill (continued)

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

2.4 重大會計政策概要(續)

業務合併及商譽(續)

商譽初步按成本計量，即已轉讓對價、就非控股權益確認的金額及本集團先前持有的被收購方股權的任何公允價值總額，超過所收購可識別淨資產及所承擔負債的差額。倘此對價及其他項目的總額低於所收購淨資產的公允價值，於重新評估後，其差額於損益確認為議價購買收益。

於初步確認後，商譽按成本減任何累計減值虧損計量。商譽每年作減值測試，倘有事件發生或情況改變顯示賬面值有可能減值，則會更頻密地進行測試。本集團於12月31日對商譽進行年度減值測試。為進行減值測試，於業務合併購入的商譽自購入之日被分配至預期可從合併產生的協同效益中獲益的本集團各個現金產生單位或現金產生單位組別，而無論本集團其他資產或負債是否已分配予該等單位或單位組別。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Business combinations and goodwill (continued)

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation disposed of and the portion of the cash-generating unit retained.

業務合併及商譽 (續)

減值乃通過評估有關商譽的現金產生單位 (或一組現金產生單位) 的可收回金額而釐定。當現金產生單位 (或一組現金產生單位) 的可收回金額低於賬面值，則會確認減值虧損。就商譽確認的減值虧損不會於其後期間撥回。

倘商譽已被分配至現金產生單位 (或一組現金產生單位)，且該單位中的部分業務被出售，則於釐定出售的收益或虧損時，與該項被出售業務相關的商譽會納入該業務的賬面值。在有關情況下被出售的商譽按該項被出售業務及被保留現金產生單位的有關部分的相關價值計量。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair value measurement

The Group measures its investment properties, derivative financial instruments and equity investments at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

2.4 重大會計政策概要(續)

公允價值的計量

本集團於各報告期結束時按公允價值計量其投資物業、衍生金融工具及股權投資。公允價值乃在市場參與者於計量日期進行的有序交易中出售資產所收取或轉移負債所支付的價格。公允價值計量乃基於假設出售資產或轉移負債的交易於資產或負債的主要市場或(於未有主要市場的情況下)於資產或負債的最有利市場進行。主要或最有利市場須為本集團可進入的市場。資產或負債的公允價值乃採用市場參與者為資產或負債定價時所用的假設計量(假設市場參與者依照其最佳經濟利益行事)。

非金融資產公允價值的計量計及市場參與者最大限度使用該資產達致最佳用途或將該資產出售予最大限度使用該資產達致最佳用途的另一市場參與者而產生經濟利益的能力。

本集團使用適用於不同情況的估值方法，而其有足夠數據計量公允價值，以盡量利用相關可觀察輸入數據及盡量減少使用不可觀察輸入數據。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair value measurement (continued)

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 – based on quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly

Level 3 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, contract assets, deferred tax assets, financial assets, investment properties and non-current assets/a disposal group classified as held for sale), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

公允價值的計量 (續)

於財務報表中計量或披露公允價值的所有資產及負債，均基於對公允價值計量整體而言屬重大的最低級別輸入數據在下述公允價值層級內進行分類：

第一級 – 基於相同資產或負債於活躍市場的報價 (未經調整)

第二級 – 基於對公允價值計量而言屬重大的可觀察 (直接或間接) 最低級別輸入數據的估值方法

第三級 – 基於對公允價值計量而言屬重大的不可觀察最低級別輸入數據的估值方法

就按經常性基準於財務報表確認的資產及負債而言，本集團通過於各報告期結束時重新評估分類 (基於對公允價值計量整體而言屬重大的最低級別輸入數據)，釐定層級內級別之間是否出現轉移。

非金融資產減值

倘存在減值跡象，或當須每年就資產 (存貨、合同資產、遞延稅項資產、金融資產、投資物業及非流動資產 / 分類為持作銷售的處置組別除外) 進行減值測試，則會估計資產的可收回金額。資產的可收回金額為資產或現金產生單位的使用價值與其公允價值減出售成本兩者的較高者，並就個別資產而釐定，除非資產並不產生在很大程度上獨立於其他資產或資產組別的現金流入，於此情況下，可收回金額就資產所屬現金產生單位而釐定。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Impairment of non-financial assets (continued)

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the statement of profit or loss in the period in which it arises, unless the asset is carried at a revalued amount, in which case the reversal of the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

2.4 重大會計政策概要(續)

非金融資產減值(續)

僅在資產賬面值高於其可收回金額的情況下，方會確認減值虧損。於評估使用價值時，估計未來現金流量按反映幣值時間值及資產特定風險的現時市場評估的稅前貼現率貼現至其現值。減值虧損按與該減值資產功能相符的開支類別於產生期間自損益表扣除。

會在各報告期結束時評估是否有跡象顯示先前所確認的減值虧損已不在或可能減少。倘出現有關跡象，則會估計可收回金額。僅當用以釐定資產可收回金額的估計有變時，方會撥回該資產先前確認的減值虧損，但撥回後的金額不得超逾假設於過往年度並無就該項資產確認減值虧損而應釐定的賬面值(扣除任何折舊／攤銷)。減值虧損撥回會計入產生期間的損益表，除非資產以重估金額入賬，在此情況下，減值虧損撥回根據重估資產的有關會計政策入賬。

Property, plant and equipment and depreciation

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property, plant and equipment and depreciation (continued)

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal estimated useful lives and the annual depreciation rates are as follows:

| | Annual depreciation rates 年折舊率 |
|---|-----------------------------------|
| Buildings 樓宇 | 3% |
| Motor vehicles 汽車 | 16%-24% |
| Office equipment and electronic devices 辦公設備及電子裝置 | 19%-32% |
| Leasehold improvements 租賃物業裝修 | 13%-33% |

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the statement of profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Construction in progress represents a building under decoration, which is stated at cost less any impairment losses, and is not depreciated. Cost comprises the direct costs of construction and capitalised borrowing costs on related borrowed funds during the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

物業、廠房及設備與折舊 (續)

折舊乃以直線法按其估計可使用年期撇銷各項物業、廠房及設備的成本至其剩餘價值。主要估計可使用年期及年折舊率如下：

當一項物業、廠房及設備的各部分有不同可使用年期時，該項目的成本乃按合理基準在各部分之間分配，而各部分乃個別地折舊。剩餘價值、可使用年期及折舊方法至少於各財政年末檢討，並作出調整（如適用）。

物業、廠房及設備項目（包括初步確認的任何重大部分）於出售或預期其使用或出售不會帶來任何未來經濟利益時終止確認。因出售或報廢而於該資產終止確認年度的損益確認的任何收益或虧損乃有關資產淨銷售所得款項與賬面值的差額。

在建工程乃指按成本減任何減值虧損列賬且未予折舊的正在裝修的樓宇。成本包括建設期間所產生的直接建造成本及與借貸資金有關的資本化借貸成本。在建工程於完工及可予使用時重新分類至物業、廠房及設備的適當類別。

Investment properties

Investment properties are interests in land and buildings (including the leasehold property held as a right-of-use asset which would otherwise meet the definition of an investment property) held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the end of the reporting period.

Gains or losses arising from changes in the fair values of investment properties are included in profit or loss in the year in which they arise.

Any gains or losses on the retirement or disposal of an investment property are recognised in profit or loss in the year of the retirement or disposal.

For a transfer from investment properties to owner-occupied properties or inventories, the deemed cost of a property for subsequent accounting is its fair value at the date of change in use. If a property occupied by the Group as an owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under "Property, plant and equipment and depreciation" for owned property and/or accounts for such property in accordance with the policy stated under "Right-of-use assets" for property held as a right-of-use asset up to the date of change in use, and any difference at that date between the carrying amount and the fair value of the property is accounted for as a revaluation in accordance with the policy stated under "Property, plant and equipment and depreciation" above. For a transfer from inventories to investment properties, any difference between the fair value of the property at that date and its previous carrying amount is recognised in profit or loss.

Properties under development

Properties under development are intended to be held for sale after completion.

Properties under development are stated at the lower of cost comprising land costs, construction costs, borrowing costs, professional fees and other costs directly attributable to such properties incurred during the development period and net realisable value.

Properties under development are classified as current assets unless those will not be realised in the normal operating cycle. On completion, the properties are transferred to completed properties held for sale.

Completed properties held for sale

Completed properties held for sale are stated in the statement of financial position at the lower of cost and net realisable value. Cost comprises development costs attributable to the unsold properties. Net realisable value is determined by reference to the sale proceeds of properties sold in the ordinary course of business, less applicable variable selling expenses, or by management estimates based on prevailing marketing conditions.

Allocation of property development cost

Land costs are allocated to each unit according to their respective saleable gross floor area ("GFA") to the total saleable GFA. Construction costs relating to units were identified and allocated specifically. Common construction costs have been allocated according to the saleable GFA similar to land costs.

在建物業分類為流動資產，惟不能於正常營運週期內落成者除外。物業於竣工時轉撥至已竣工持作銷售物業。

已竣工持作銷售物業

已竣工持作銷售物業按成本與可變現淨值兩者的較低者於財務狀況表列賬。成本包括未出售物業應佔開發成本。可變現淨值乃經參考於日常業務過程中銷售物業的銷售所得款項減適用可變銷售開支釐定，或由管理層按當時的市況估計得出。

物業開發成本分配

土地成本根據各單位的可銷售建築面積(「建築面積」)佔可銷售總建築面積的比例分配至各單位。單位相關建設成本按個別情況識別及分配。一般建設成本按與土地成本相若的方式根據可銷售建築面積分配。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Intangible assets (other than goodwill)

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

Intangible assets with indefinite useful lives are tested for impairment annually either individually or at the cash-generating unit level. Such intangible assets are not amortised. The useful life of an intangible asset with an indefinite life is reviewed annually to determine whether the indefinite life assessment continues to be supportable. If not, the change in the useful life assessment from indefinite to finite is accounted for on a prospective basis.

Software is stated at cost less any impairment loss and is amortised on the straight-line basis over its estimated useful lives of 5 years.

Gains or losses arising from derecognition of an intangible asset are measured at the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss in the period when the asset is derecognised.

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

無形資產 (商譽除外)

單獨購入的無形資產於初步確認時按成本計量。通過業務合併購入的無形資產的成本為收購日期的公允價值。無形資產的可使用年期被評估為有限期或無限期。有限期的無形資產隨後於可使用經濟年期內攤銷，並於有跡象顯示無形資產可能出現減值時評估減值。具有有限可使用年期的無形資產的攤銷期及攤銷方法至少於各財政年末檢討一次。

具無限可使用年期的無形資產於每年按個別或按現金產生單位層面作減值檢測。該等無形資產不予以攤銷。具無限年期的無形資產之可使用年期每年覆核，以釐定無限可使用年期之評估是否持續可靠，否則，將按預期基準將可使用年期之評估從無限年期更改為有限年期後入賬。

軟件按成本減任何減值虧損列賬，並於五年的估計可使用年期內按直線法攤銷。

終止確認無形資產產生之收益或虧損按出售所得款項淨額與資產賬面值之間的差額計量，並於資產終止確認時於當期損益表中確認。

租賃

本集團於合同開始時評估合同是否為租賃或包含租賃。倘合同為換取對價而給予在一段時間內控制使用已識別資產的權利，則該合同為租賃或包含租賃。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Leases (continued)

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(a) Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. When the right-of-use assets relate to interests in leasehold land held as inventories, they are subsequently measured at the lower of cost and net realisable value in accordance with the Group's policies for "properties under development" and "completed properties held for sale". The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

| | |
|----------------|--------------|
| Offices | 2 to 3 years |
| Motor vehicles | 2 to 3 years |

If ownership of the leased asset transfers to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

租賃(續)

本集團作為承租人

本集團對所有租賃採用單一確認及計量方法，短期租賃及低價值資產租賃除外。本集團確認租賃負債以作出租賃付款，而使用權資產指使用相關資產的權利。

(a) 使用權資產

於租賃開始日期(即相關資產可供使用的日期)確認使用權資產。使用權資產按成本減任何累計折舊及任何減值虧損計量，並就任何重新計量租賃負債作出調整。根據本集團有關「在建物業」及「已竣工持作銷售物業」的政策，倘使用權資產與持作存貨的租賃土地的權益有關，則其按成本與可變現淨值兩者的較低者進行後續計量。使用權資產成本包括已確認租賃負債款額、初步已產生直接成本及於開始日期或之前作出的租賃付款減任何已收取租賃優惠。使用權資產於資產的租期及估計可使用年內(以較短者為準)按直線法折舊。

| | |
|-----|------|
| 辦公室 | 2至3年 |
| 汽車 | 2至3年 |

倘租賃資產的所有權在租期結束時轉讓至本集團或成本反映購買選擇權的行使，則使用資產的估計可使用年期計算折舊。

Leases (continued)

Group as a lessee (continued)

(a) Right-of-use assets (continued)

When the right-of-use assets relate to interests in leasehold land held as inventories, they are subsequently measured at the lower of cost and net realisable value in accordance with the Group's policy for "properties under development" or "completed properties held for sale". When a right-of-use asset meets the definition of investment property, it is included in investment properties. The corresponding right-of-use asset is initially measured at cost, and subsequently measured at fair value, in accordance with the Group's policy for "investment properties".

(b) Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate the lease. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

根據本集團有關「在建物業」或「已竣工持作銷售物業」的政策，倘使用權資產與持作存貨的租賃土地的權益有關，則其按成本與可變現淨值兩者的較低者進行後續計量。當使用權資產符合投資物業的定義時，則計入投資物業中。根據本集團的「投資物業」政策，相應的使用權資產初步按成本計量，其後按公允價值計量。

(b) 租賃負債

於租賃開始日期按租期內將作出的租賃付款現值確認租賃負債。租賃付款包括定額付款(含實質定額款項)減任何應收租賃優惠、取決於指數或利率的可變租賃付款以及預期根據剩餘價值擔保支付的金額。租賃付款亦包括本集團合理確定行使的購買選擇權的行使價及有關終止租賃的違約金付款(倘租期反映本集團行使選擇權終止租賃)。不取決於指數或利率的可變租賃付款在出現觸發付款的事件或條件的期間內確認為開支。

Leases (continued)

Group as a lessee (continued)

(b) Lease liabilities (continued)

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

(c) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of office equipment (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the recognition exemption for leases of low-value assets to leases of office equipment and laptop computers that are considered to be of low value.

(b) 租賃負債(續)

(c) 短期租賃及低價值資產租賃

本集團對短期辦公設備租賃(即自開始日期起租期為12個月或以下且不含購買選擇權的租賃)應用短期租賃確認豁免，並對其認為屬低價值的辦公設備及手提電腦租賃應用低價值資產租賃確認豁免。

Group as a lessee (continued)

(c) Short-term leases and leases of low-value assets (continued)

When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. Lease payments on short-term leases and leases of low-value assets are recognised as an expense on a straight-line basis over the lease term.

Group as a lessor

When the Group acts as a lessor, it classifies at lease inception (or when there is a lease modification) each of its leases as either an operating lease or a finance lease.

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. Rental income is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases (continued)

Group as a lessor (continued)

Leases that transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee are accounted for as finance leases.

At the commencement date, the cost of the leased asset is capitalised at the present value of the lease payments and related payments (including the initial direct costs) and presented as a receivable at an amount equal to the net investment in the lease. The finance income on the net investment in the lease is recognised in profit or loss so as to provide a constant periodic rate of return over the lease terms.

When the Group is an intermediate lessor, a sublease is classified as a finance lease or operating lease with reference to the right-of-use asset arising from the head lease. If the head lease is a short-term lease to which the Group applies the statement of financial position recognition exemption, the Group classifies the sublease as an operating lease.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investments and other financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under IFRS 15 in accordance with the policies set out for "Revenue recognition" below.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

投資及其他金融資產

初步確認及計量

金融資產於初步確認時分類為其後按攤銷成本、按公允價值計入其他全面收入及按公允價值計入損益計量。

於初步確認時，金融資產分類取決於金融資產的合同現金流量特點及本集團管理該等金融資產的業務模式。除並無重大融資成分或本集團已就其應用實際權宜之計（即不對重大融資成分的影響作出調整）的貿易應收款項外，本集團初步按公允價值加上（倘金融資產並非按公允價值計入損益）交易成本計量金融資產。並無重大融資成分或本集團已就其應用實際權宜之計的貿易應收款項根據下文「收益確認」所載政策按國際財務報告準則第15號釐定的交易價格計量。

為使金融資產按攤銷成本或按公允價值計入其他全面收入進行分類及計量，需產生僅支付本金及未償還本金的利息（「SPPI」）的現金流量。現金流量並非SPPI的金融資產按公允價值計入損益分類及計量，不論業務模式。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investments and other financial assets (continued)

Initial recognition and measurement (continued)

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

Financial assets designated at fair value through other comprehensive income (equity investments)

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity investments designated at fair value through other comprehensive income when they meet the definition of equity under IAS 32 *Financial Instruments: Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to the statement of profit or loss. Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case such gains are recorded in other comprehensive income. Equity investments designated at fair value through other comprehensive income are not subject to impairment assessment.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

This category includes derivative instruments and equity investments which the Group had not irrevocably elected to classify at fair value through other comprehensive income. Dividends on equity investments classified as financial assets at fair value through profit or loss are also recognised as other income in the statement of profit or loss when the right of payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

該等金融資產的收益及虧損概不會被重新計入損益表。當確立支付權，而與股息有關的經濟利益可能流入本集團且股息金額能可靠計量時，股息會於損益表中確認為其他收入，惟當本集團於作為收回金融資產一部分成本的所得款項中獲益時則除外，在此等情況下，該等收益於其他全面收入入賬。指定為按公允價值計入其他全面收入的股權投資不受減值評估影響。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

金融資產的終止確認

金融資產(或(倘適用)金融資產的一部分或一組類似金融資產的一部分)主要於出現以下情況時終止確認(即從本集團綜合財務狀況表中剔除):

- 從資產收取現金流量的權利已到期; 或
- 本集團已根據「轉手」安排轉讓從資產收取現金流量的權利, 或已承擔向第三方無重大延誤全額支付所收現金流量的義務; 及(a)本集團已轉讓該項資產的絕大部分風險及回報; 或(b)本集團並無轉讓或保留該項資產絕大部分風險及回報, 但已轉讓該項資產的控制權。

倘本集團已轉讓從資產收取現金流量的權利或已訂立轉手安排, 其會評估有否保留資產所有權的風險及回報及保留的程度。倘本集團並無轉讓或保留資產的絕大部分風險及回報, 亦無轉讓資產控制權, 則本集團繼續以本集團持續參與程度為限確認已轉讓資產。在此情況下, 本集團亦確認相關負債。已轉讓資產及相關負債基於反映本集團所保留權利及義務的基準計量。

以擔保形式對已轉讓資產的持續參與乃按資產原賬面值與本集團可能須償還的最高對價兩者的較低者計量。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Impairment of financial assets

The Group recognises an allowance for expected credit losses (“ECLs”) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

2.4 重大會計政策概要 (續)

金融資產減值

本集團就並非按公允價值計入損益持有的所有債務工具確認預期信貸虧損(「預期信貸虧損」)撥備。預期信貸虧損乃基於根據合同到期的合同現金流量與本集團預期收取並按原始實際利率的相若利率貼現的所有現金流量之間的差額釐定。預期現金流量將包括出售所持抵押品或合同條款所包含的其他信用增強手段所得的現金流量。

一般辦法

預期信貸虧損分兩個階段確認。就初步確認以來信貸風險並無顯著增加的信貸敞口而言，本集團會就未來12個月可能發生的違約事件所產生的信貸虧損(12個月預期信貸虧損)計提預期信貸虧損撥備。就初步確認以來信貸風險顯著增加的信貸敞口而言，本集團須就預期於敞口的餘下年期產生的信貸虧損計提虧損撥備，不論違約的時間(整個存續期的預期信貸虧損)。

於各報告日期，本集團評估金融工具信貸風險自初步確認以來是否顯著上升。於評估時，本集團會將於報告日期金融工具發生違約的風險與於初步確認日期金融工具發生違約的風險進行比較，並會考慮毋須花費過度成本或努力即可獲得的合理且可支撐的資料(包括歷史及前瞻性資料)。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Impairment of financial assets (continued)

General approach (continued)

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables which apply the simplified approach as detailed below.

Stage 1 – Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs

Stage 2 – Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs

Stage 3 – Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

2.4 重大會計政策概要 (續)

金融資產減值 (續)

一般辦法 (續)

本集團會在合同付款逾期90日時認為金融資產違約。然而，在若干情況下，倘內部或外部資料反映，在沒有計及本集團持有的任何信用增強手段前，本集團不大可能全額收取未償還合同款項，則本集團亦可認為金融資產將會違約。倘無法合理預期可收回合同現金流量，則會撇銷金融資產。

按攤銷成本列賬的金融資產須按照一般辦法進行減值，且就計量預期信貸虧損而言，該等金融資產會被分類為如下階段，除下文所詳述應用簡化辦法的貿易應收款項除外。

第一階段 – 信貸風險自初步確認以來並無顯著增加及按相當於12個月預期信貸虧損金額計量虧損撥備的金融工具

第二階段 – 信貸風險自初步確認以來顯著增加（但並非信貸減值金融資產）及按相當於整個存續期預期信貸虧損金額計量虧損撥備的金融工具

第三階段 – 於報告日期已信貸減值（但並非購入或源生信貸減值）及按相當於整個存續期的預期信貸虧損金額計量虧損撥備的金融資產

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Impairment of financial assets (continued)

Simplified approach

For trade receivables that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has evaluated the expected loss rate that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For trade receivables that contain a significant financing component and lease receivables, the Group chooses as its accounting policy to adopt the simplified approach in calculating ECLs with policies as described above.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

簡化辦法

就不包含重大融資部分或本集團應用實際權宜之計(即不對重大融資部分的影響作出調整)的貿易應收款項而言,本集團應用簡化辦法計算預期信貸虧損。根據簡化辦法,本集團並無追蹤信貸風險的變化,反而於各報告日期根據整個存續期的預期信貸虧損確認虧損撥備。本集團已根據其以往信貸虧損經驗評估預期虧損率,並就債務人及經濟環境的特定前瞻性因素作出調整。

就包含重大融資部分及租賃應收款項的貿易應收款項而言,本集團將採用簡化辦法及按照上文所述政策計算預期信貸虧損作為其會計政策。

金融負債

初步確認及計量

金融負債於初步確認時分類為按公允價值計入損益的金融負債、貸款及借貸、應付款項,或指定為於有效對沖中作對沖工具的衍生工具(倘適用)。

所有金融負債初步按公允價值確認,而貸款及借貸以及應付款項則須扣除直接應佔交易成本。

Financial liabilities (continued)

Initial recognition and measurement (continued)

The Group's financial liabilities include interest-bearing bank and other borrowings, corporate bonds and senior notes (collectively called "loans and borrowings"), lease liabilities, trade and bills payables, other payables, and amounts due to related parties.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Financial liabilities at amortised cost (loans and borrowings)

After initial recognition, loans and borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss.

初步確認及計量(續)

本集團的金融負債包括計息銀行及其他借貸、公司債券及優先票據(統稱為「貸款及借貸」)、租賃負債、貿易應付款項及應付票據、其他應付款項以及應付關聯方款項。

後續計量

不同類別金融負債的後續計量如下：

按攤銷成本列賬的金融負債(貸款及借貸)

於初步確認後，貸款及借貸隨後以實際利率法按攤銷成本計量，除非貼現影響為微不足道，在該情況下則按成本列賬。當負債終止確認及按實際利率法進行攤銷程序時，其收益及虧損於損益內確認。

攤銷成本於計及收購事項任何折讓或溢價及屬實際利率不可或缺一部分的費用或成本後計算。實際利率攤銷計入損益表的融資成本內。

Financial guarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. A financial guarantee contract is recognised initially as a liability at its fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequent to initial recognition, the Group measures the financial guarantee contracts at the higher of: (i) the ECL allowance determined in accordance with the policy as set out in "Impairment of financial assets"; and (ii) the amount initially recognised less, when appropriate, the cumulative amount of income recognised.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

財務擔保合同

本集團發出的財務擔保合同為因特定債務人未能根據債務工具的條款於債務到期時還款，而本集團須向有關持有人作出彌償虧損的合同。財務擔保合同初步按公允價值確認為負債，並就作出擔保所直接應佔交易成本作出調整。初步確認後，本集團會以下列兩者之較高者計量財務擔保合同：(i)根據「金融資產減值」所載政策釐定之預期信貸虧損撥備；及(ii)初步確認的金額減(如適用)已確認的累計收入金額。

金融負債的終止確認

當金融負債的責任已履行、取消或屆滿時，該負債會被終止確認。

當現有金融負債被另一項來自同一貸款人且條款大不相同的金融負債所取代，或當現有負債的條款被重大修訂，該取代或修訂被視為對原有負債的終止確認及對新負債的確認，而各自賬面值的差額於損益確認。

抵銷金融工具

倘有現行可予執行的法律權利以抵銷確認金額及有意按淨額基準償付，或變現資產與清還負債同時進行，則抵銷金融資產及金融負債並於財務狀況表內呈報淨金額。

Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, and assets similar in nature to cash, which are not restricted as to use.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss.

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, joint ventures and associates, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

所得稅

所得稅包括即期及遞延稅項。與於損益以外確認項目相關的所得稅於損益以外的其他全面收入確認或直接於權益確認。

即期稅項資產及負債乃按預期自稅務機關收回或支付予其的金額，根據於報告期結束前已頒佈或實質上已頒佈的稅率（及稅法），經考慮本集團經營所在國家通行的詮釋及慣例計量。

遞延稅項採用負債法就於報告期結束時資產及負債的稅基與兩者用作財務報告的賬面值之間的所有暫時差額計提撥備。

遞延稅項負債乃就所有應課稅暫時差額而確認，惟下列情況除外：

- 遞延稅項負債乃因在一項並非業務合併的交易中初步確認商譽或資產或負債而產生，且於交易時並不影響會計利潤或應課稅利潤或虧損；及
- 就與於子公司、合營企業及聯營公司的投資相關的應課稅暫時差額而言，暫時差額的撥回時間為可控制，且該等暫時差額於可預見將來可能不會撥回。

Income tax (continued)

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

遞延稅項資產及負債乃按預期適用於變現資產或清還負債期間的稅率，根據於報告期結束前已頒佈或實質上已頒佈的稅率（及稅法）計算。

當且僅當本集團有可合法執行權利可將即期稅項資產與即期稅項負債抵銷，且遞延稅項資產與遞延稅項負債與同一稅務機關對同一應課稅實體或於各未來期間預期有大額遞延稅項負債或資產需要結算或收回時，擬按淨額基準結算即期稅項負債及資產或同時變現資產及結算負債的不同應課稅實體徵收的所得稅相關，則遞延稅項資產與遞延稅項負債可予抵銷。

Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, for which it is intended to compensate, are expensed.

Where the grant relates to an asset, the fair value is credited to a deferred income account and is released to profit or loss over the expected useful life of the relevant asset by equal annual instalments or deducted from the carrying amount of the asset and released to profit or loss by way of a reduced depreciation charge.

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable for the sale of properties and services provided in the ordinary course of the Group's activities. Revenue is shown, net of taxes.

Sale of properties

Revenues are recognised when or as the control of the asset is transferred to the purchaser. Depending on the terms of the contract and the laws that apply to the contract, control of the asset may transfer over time or at a point in time. Control of the asset is transferred over time if the Group's performance

- provides benefits which are received and consumed simultaneously by the purchaser; or
- creates and enhances an asset that the purchaser controls as the Group performs; or
- does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If control of the asset transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the purchaser obtains control of the asset.

The progress towards complete satisfaction of the performance obligation is measured based on the Group's efforts or inputs to the satisfaction of the performance obligation that best depict the Group's performance in satisfying the performance obligation.

In determining the transaction price, the Group adjusts the promised amount of consideration for the effect of a financing component if it is significant.

Contract cost assets

Other than the costs which are capitalised as inventories, property, plant and equipment and intangible assets, costs incurred to fulfil a contract with a customer are capitalised as an asset if all of the following criteria are met:

- (a) The costs relate directly to a contract or to an anticipated contract that the entity can specifically identify.
- (b) The costs generate or enhance resources of the entity that will be used in satisfying (or in continuing to satisfy) performance obligations in the future.
- (c) The costs are expected to be recovered.

The capitalised contract cost assets are amortised and charged to profit or loss on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the asset relates. Other contract costs are expensed as incurred.

Employee benefits

The employees of the Group's subsidiaries which operate in Mainland China are required to participate in a central pension scheme operated by the local municipal government. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised. All other borrowing costs are expensed in the period in which they are incurred.

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Dividends

Final dividends are recognised as a liability when they are approved by the shareholders in a general meeting. Proposed final dividends are disclosed in the notes to the financial statements.

Interim dividends are simultaneously proposed and declared, because the Company's memorandum and articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as a liability when they are proposed and declared.

Foreign currencies

Since the majority of the assets and operations of the Group are located in Mainland China, the financial statements are presented in RMB, which is the functional currency of the Company. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in profit or loss.

Foreign currencies (continued)

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

Operating lease commitments – Group as lessor

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a major part of the economic life of the commercial property and the present value of the minimum lease payments not amounting to substantially all the fair value of the commercial property, that it retains substantially all the significant risks and rewards incidental to ownership of these properties which are leased out and accounts for the contracts as operating leases.

3. 重大會計判斷及估計

編製本集團的財務資料時，管理層須作出會影響收益、開支、資產及負債的呈報金額及其隨附披露以及或然負債披露的判斷、估計及假設。有關該等假設及估計的不確定因素可能導致日後須就受影響的資產或負債賬面值作出重大調整的結果。

判斷

在應用本集團的會計政策時，除涉及估計的判斷外，管理層已作出下列判斷，其對財務報表的已確認金額影響至為重大：

經營租賃承擔 – 本集團作為出租人

本集團就其投資物業組合訂有商業物業租約。本集團基於對有關安排的條款及條件作出的評估(例如租期不構成商業物業之經濟年期的主要部分且最低租賃付款現值不等於商業物業之絕大部分公允價值)，決定保留其租出的該等物業所有權附帶的絕大部分重大風險及回報，並將有關合同以經營租賃入賬。

Judgements (continued)

Classification between investment properties and owner-occupied properties

The Group determines whether a property qualifies as an investment property, and has developed criteria in making that judgement. Investment property is a property held to earn rentals or for capital appreciation or both. Therefore, the Group considers whether a property generates cash flows largely independently of the other assets held by the Group. Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could be sold separately or leased out separately under a finance lease, the Group accounts for the portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgement is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as an investment property.

投資物業及業主自用物業的分類

本集團會釐定物業是否合資格作為投資物業，並已制訂作出該判斷的標準。投資物業為持有以賺取租金或資本增值或兩者兼有的物業。因此，本集團會考慮物業是否可主要地獨立於本集團所持有的其他資產而產生現金流量。某些物業部分為賺取租金或資本增值而持有，而另一部分為用於生產或供應貨品或服務或作行政用途而持有。倘若此等部分可以分開出售（或根據融資租賃分開出租），本集團會將有關部分分開入賬。倘若該等部分無法分開出售，則只會在用於生產或供應貨品或服務或作行政用途而持有的部分並不重要時，有關物業才會列作投資物業。本集團對各項物業個別作出判斷，以決定配套服務是否重要到使物業不符合投資物業的資格。

Classification between investment properties and completed properties held for sale

The Group develops properties held for sale and properties held to earn rentals and/or for capital appreciation. Judgement is made by management on determining whether a property is designated as an investment property or a property held for sale. The Group considers its intention for holding the properties at the early development stage of the related properties. During the course of construction, the related properties under construction are accounted for as properties under development included in current assets if the properties are intended for sale after its completion, whereas, the properties are accounted for as investment properties under construction included in investment properties if the properties are intended to be held to earn rentals and/or for capital appreciation. Upon completion of the properties, the properties held for sale are transferred to completed properties held for sale and are stated at cost, while the properties held to earn rentals and/or for capital appreciation are transferred to completed investment properties. Investment properties, both under construction and completed, are subject to revaluation at the end of each reporting period.

投資物業及已竣工持作銷售物業的分類

本集團開發持作銷售物業及為賺取租金及／或為資本增值而持有的物業。由管理層判斷一項物業是否指定為投資物業或持作銷售物業。本集團於某項物業開發初期考慮其持有相關物業的意向。倘物業擬於竣工後出售，於建設過程中，相關的在建物業入賬列作在建物業，計入流動資產。然而，倘物業擬為賺取租金及／或為資本增值而持有，有關物業則入賬列作在建投資物業，計入投資物業。待物業落成後，持作銷售物業轉撥至已竣工持作銷售物業項下，並按成本列賬，而為賺取租金及／或為資本增值而持有的物業則轉撥至已竣工投資物業項下。投資物業（不論在建或已竣工）均須於各報告期結束時重新估值。

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (CONTINUED)

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Provision for expected credit losses on trade receivables and prepayments, other receivables and other assets

The Group uses a provision matrix to calculate ECLs for trade receivables and prepayments, other receivables and other assets. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance).

The expected loss rate is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults in the property sector, the historical default rates are adjusted. At each reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation among historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of a customer's actual default in the future. The information about the ECLs on the Group's trade receivables and prepayments, other receivables and other assets is disclosed in note 24 and note 25 to the financial statements, respectively.

3. 重大會計判斷及估計(續)

估計不確定因素

對導致就下個財政年度內資產及負債賬面值作出大幅調整構成重大風險的有關未來的主要假設以及於報告期結束時存在的估計不確定因素的其他主要來源載於下文。

貿易應收款項及預付款項、其他應收款項及其他資產的預期信貸虧損撥備

本集團使用撥備矩陣計算貿易應收款項及預付款項、其他應收款項及其他資產的預期信貸虧損。撥備率乃基於具有類似虧損模式的多個客戶分類組別(即按地理位置、產品類型、客戶類型及評級,以及信用證及其他形式的信貸保險的覆蓋範圍劃分)的逾期天數。

預期虧損率最初基於本集團歷史可觀察違約率。本集團將根據前瞻性資料調整矩陣以調整歷史信貸虧損經驗。例如,如預測經濟狀況(即國內生產總值)將在未來一年惡化,這可能導致房地產行業違約數量增加,則調整歷史違約率。於各報告日期,更新歷史可觀察違約率並分析前瞻性估計的變化。

對歷史可觀察違約率、預測經濟狀況與預期信貸虧損之間的相關性評估是一項重要估計。預期信貸虧損的數量對環境變化及預測經濟狀況敏感。本集團的歷史信貸虧損經驗及經濟狀況預測亦或無法代表客戶的未來實際違約情況。有關本集團貿易應收款項及預付款項、其他應收款項及其他資產的預期信貸虧損的資料分別於財務報表附註24及附註25中披露。

Provision for properties under development and completed properties held for sale

The Group's properties under development and completed properties held for sale are stated at the lower of cost and net realisable value. Based on the Group's historical experience and the nature of the subject properties, the Group makes estimates of the selling prices, the costs of completion of properties under development, and the costs to be incurred in selling the properties based on prevailing market conditions.

If there is an increase in costs to completion or a decrease in net sales value, the net realisable value will decrease and this may result in a provision for properties under development and completed properties held for sale. Such provision requires the use of judgement and estimates. Where the expectation is different from the original estimate, the carrying value and provision for properties in the periods in which such estimate is changed will be adjusted accordingly.

估計不確定因素 (續)

在建物業及已竣工持作銷售物業的撥備

本集團的在建物業及已竣工持作銷售物業以成本與可變現淨值的較低者入賬。本集團根據以往的經驗及所涉物業的性質估計在建物業的售價與竣工成本，以及根據當前市況估計銷售物業將產生的費用。

倘竣工成本增加而銷售淨值降低，則可變現淨值會減少，可能導致須就在建物業及已竣工持作銷售物業作出撥備。作出相關撥備時須運用判斷及估計。倘預期有別於原先估計，則會於變更估計期間相應調整物業賬面值及撥備。

Estimation uncertainty (continued)

PRC corporate income tax ("CIT")

The Group is subject to corporate income taxes in the PRC. As a result of the fact that certain matters relating to the income taxes have not been confirmed by the local tax bureau, objective estimation and judgement based on currently enacted tax laws, regulations and other related policies are required in determining the provision for income taxes to be made. Where the final tax outcome of these matters is different from the amounts originally recorded, the differences will impact on the income tax and tax provisions in the period in which the differences realise.

PRC land appreciation tax ("LAT")

The Group is subject to LAT in the PRC. The provision for LAT is based on management's best estimates according to the understanding of the requirements set forth in the relevant PRC tax laws and regulations. The actual LAT liabilities are subject to the determination by the tax authorities upon the completion of the property development projects. The Group has not finalised its LAT calculation and payments with the tax authorities for all its property development projects. The final outcome could be different from the amounts that were initially recorded, and any differences will impact on the LAT expenses and the related provision in the period in which the differences realise.

估計不確定因素(續)

中國企業所得稅(「企業所得稅」)

本集團須繳納中國企業所得稅。由於地方稅務局尚未確認有關所得稅的若干事宜，故釐定所得稅撥備時須根據目前已頒佈的稅法、法規及其他相關政策作出客觀估計及判斷。倘該等事項的最終稅款數額有別於原已記錄的數額，則差額會影響差額變現期間的所得稅及稅項撥備。

中國土地增值稅(「土地增值稅」)

本集團須繳納中國土地增值稅。土地增值稅撥備根據管理層對中國相關稅務法律及法規所載規定的理解所作最佳估計計提。實際的土地增值稅負債須待物業開發項目竣工後由稅務機關釐定。本集團尚未就其所有物業開發項目與稅務機關最終確定土地增值稅的計算及付款。最終結果可能與初步入賬的金額不同，且任何差額將會影響差額變現期間的土地增值稅開支及相關撥備。

Estimation uncertainty (continued)

Estimation of fair value of investment properties

In the absence of current prices in an active market for similar properties, the Group considers information from a variety of sources, including:

- (a) current prices in an active market for properties of a different nature, condition or location, adjusted to reflect those differences;
- (b) recent prices of similar properties on less active markets, with adjustments to reflect any changes in economic conditions since the date of the transactions that occurred at those prices; and discounted cash flow projections based on reliable estimates of future cash flows, supported by the terms of any existing lease and other contracts and (when possible) by external evidence such as current market rents for similar properties in the same location and condition, and using discount rates that reflect current market assessments of the uncertainty in the amount and timing of the cash flows.

The carrying amount of investment properties at 31 December 2020 was RMB2,723,700,000 (2019: RMB2,798,600,000). Further details, including the key assumptions used for fair value measurement and a sensitivity analysis, are given in note 14 to the financial statements.

投資物業公允價值估計

倘活躍市場上並無類似物業的當前價格，則本集團會考慮各方面資料，包括：

- (a) 不同性質、狀況或地點的物業於活躍市場的當前價格，並進行調整以反映有關差異；
- (b) 相似物業於較不活躍市場的近期價格，並進行調整以反映自按該等價格進行交易當日以來經濟狀況出現的任何變動；及根據未來現金流量進行的可靠估計而預測的貼現現金流量，而該等預測乃基於任何現有租約與其他合同的條款及(如可能)外在憑證(如地點及狀況相同的類似物業當前市值租金)，並採用足以反映當前市場對無法肯定的有關現金流量金額及時間進行評估的貼現率計算。

於2020年12月31日，投資物業的賬面值為人民幣2,723,700,000元(2019年：人民幣2,798,600,000元)。包括用於公允價值計量的主要假設及敏感度分析在內的進一步詳情載於財務報表附註14。

Estimation uncertainty (continued)

Impairment of non-financial assets (other than goodwill)

The Group assesses whether there are any indicators of impairment for all non-financial assets (including the right-of-use assets) at the end of each reporting period. Other non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset or a cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use.

The calculation of the fair value less costs of disposal is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. When value-in-use calculations are undertaken, management must estimate the expected future cash flows from the asset or cash-generating unit and choose a suitable discount rate in order to calculate the present value of those cash flows.

Deferred tax assets

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

估計不確定因素 (續)

非金融資產 (商譽除外) 減值

本集團於各報告期結束時評估所有非金融資產 (包括使用權資產) 有否任何減值跡象。其他非金融資產在有跡象顯示賬面值可能無法收回時進行減值測試。倘資產的賬面值或現金產生單位超逾其可收回金額 (即公允價值減出售成本與使用價值的較高者)，則視為已減值。

公允價值減出售成本按自同類資產公平交易中具約束力的銷售交易的可得數據或可觀察市價減出售資產的增量成本計算。倘採用使用價值計算，則管理層須估計資產或現金產生單位的預期未來現金流量，選取合適的貼現率以計算該等現金流量的現值。

遞延稅項資產

倘可能具有應課稅利潤抵銷虧損，則會就未動用稅項虧損確認遞延稅項資產。管理層在釐定可予以確認的遞延稅項資產金額時，須根據未來應課稅利潤可能出現的時間及水平連同未來稅務計劃策略作出重大判斷。

Fair value of unlisted equity investments

The unlisted equity investments have been valued based on a market-based valuation technique as detailed in note 40 to the financial statements. The valuation requires the Group to determine the comparable public companies (peers) and select the price multiple. In addition, the Group makes estimates about the discount for illiquidity and size differences. The Group classifies the fair value of these investments as Level 3. The fair value of the unlisted equity investments at 31 December 2020 was RMB95,100,000 (2019: RMB115,742,000). Further details are included in note 21 to the financial statements.

4. OPERATING SEGMENT INFORMATION

Management monitors the operating results of the Group's business which includes property development and leasing and commercial property management by project locations for the purpose of making decisions about resource allocation and performance assessment, while no single location's revenue, net profit or total assets exceed 10% of the Group's consolidated revenue, net profit or total assets, respectively. As the economic characteristics are similar in all the locations, where the nature of property development and leasing and management are similar, and the nature of the aforementioned business processes, the type or class of customer for the aforementioned business and the methods used to distribute the properties or provide the services are similar as well, all locations were aggregated as one reportable operating segment.

(ii) Performance obligations

The Group's performance obligations are related to property sales contracts, property management service contracts and management consulting service contracts. For property sales contracts, the Group recognises revenue equal to the contract amount when the purchaser obtains the physical possession or the legal title of the completed property. For property management service and management consulting service contracts, the Group recognises revenue equal to the right-to-invoice amount when it corresponds directly with the value to the customer of the Group's performance to date, on a monthly basis. The majority of the property management service contracts do not have a fixed term. The Group has elected the practical expedient for not to disclose the remaining performance obligations for both types of contracts.

The amounts of transaction prices allocated to the remaining performance obligations (unsatisfied or partially unsatisfied) as at 31 December are as follows:

14. INVESTMENT PROPERTIES (CONTINUED)

Fair value hierarchy (continued)

The fair value of completed commercial properties is determined by the income approach by taking into account the rental income of the properties derived from the existing leases and/or achievable in the existing market with due allowance for the reversionary income potential of the leases, which have been then capitalised to determine the fair value at an appropriate capitalisation rate. Where appropriate, reference to the comparable sales transactions as available in the relevant market has also been considered.

A significant increase (decrease) in the estimated rental value would result in a significant increase (decrease) in the fair value of the investment properties. A significant increase (decrease) in the long term vacancy rate and the capitalisation rate in isolation would result in a significant decrease (increase) in the fair value of the investment properties.

The fair value of commercial properties under construction is determined by using the comparison method, with reference to comparable sales evidence as available in the relevant market to derive the fair value of the property assuming that it was completed and, where appropriate, after deducting the following items:

- Estimated construction cost and professional fees to be expensed to complete the properties that would be incurred by a market participant; and
- Estimated profit margin that a market participant would require to hold and develop the property to completion.

A higher estimated construction cost would result in a lower fair value of the investment properties under construction.

A higher expected profit margin would result in a lower fair value of the investment properties under construction.

14. 投資物業(續)

公允價值層級(續)

已竣工商業物業的公允價值乃通過收益法釐定，方法是通過計入以現有租賃所得及／或在現有市場上可收取的物業租金收入，且已就租賃的復歸收入潛力作適當估量，並已按適當的資本化率進行資本化以釐定公允價值。在適當情況下，吾等亦曾考慮參考相關市場可資比較的銷售交易。

估計租金價值大幅增加(減少)將導致投資物業的公允價值大幅增加(減少)。長期空置率及資本化率單獨大幅增加(減少)將導致投資物業的公允價值大幅減少(增加)。

在建商業物業的公允價值使用比較法釐定，經參考有關市場上可資比較的銷售個案並(如適用)經扣除以下項目後得出物業的公允價值(假設其已竣工)：

- 市場參與者令物業竣工將產生的估計建設成本及專業費用；及
- 市場參與者持有及開發物業至竣工所需的估計利潤率。

估計建設成本越高，將會導致在建投資物業公允價值越低。

預期利潤率越高，將導致在建投資物業的公允價值越低。

Deferred tax liabilities (continued)

For presentation purposes, certain deferred tax assets and liabilities have been offset in the consolidated statement of financial position. The following is an analysis of the deferred tax balances for financial reporting purposes:

| | 2020 2020年 RMB' 000 人民幣千元 | 2019 2019年 RMB' 000 人民幣千元 |
|---|------------------------------------|------------------------------------|

| | (242,641) | (145,322) |

Pursuant to the PRC Corporate Income Tax Law, a 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprises established in Mainland China. The requirement is effective from 1 January 2008 and applies to earnings after 31 December 2007. A lower withholding tax rate may be applied if there is a tax treaty between Mainland China and the jurisdiction of the foreign investors. For the Group, the applicable rate is 10%. The Group is therefore liable for withholding taxes on dividends distributed by those subsidiaries established in Mainland China in respect of earnings generated from 1 January 2008.

19. 遞延稅項(續)

遞延稅項負債(續)

就呈列而言，若干遞延稅項資產及負債已於綜合財務狀況表內抵銷。以下為就財務申報目的之遞延稅項結餘分析：

根據中國企業所得稅法，於中國內地成立的外商投資企業向外國投資者宣派股息須繳納10%預扣稅。該規定自2008年1月1日起生效並適用於2007年12月31日後的盈利。倘中國內地與外國投資者的司法管轄區訂有稅收協定，則可應用較低的預扣稅率。就本集團而言，適用稅率為10%。因此，本集團有責任就該等於中國內地成立的子公司自2008年1月1日起產生的盈利所分派的股息繳納預扣稅。

19. DEFERRED TAX (CONTINUED)

Deferred tax liabilities (continued)

At 31 December 2020 and 2019, no deferred tax has been recognised for withholding taxes that would be payable on the unremitted earnings that are subject to withholding taxes of the Company and the Group's subsidiaries established in Mainland China. In the opinion of the directors of the Company, the Group's fund will be retained in Mainland China for the expansion of the Group's operation, so it is not probable that these subsidiaries will distribute such earnings in the foreseeable future. The aggregate amounts of temporary differences associated with investments in subsidiaries in Mainland China for which deferred tax liabilities have not been recognised totalled approximately RMB1,737,565,000 as at 31 December 2020 (2019: RMB1,714,311,000).

Deferred tax assets have not been recognised in respect of the following items:

| | 2020 2020年 RMB' 000 人民幣千元 | 2019 2019年 RMB' 000 人民幣千元 |
|-----------------|------------------------------------|------------------------------------|
| Tax losses 稅項虧損 | 854,925 | 744,450 |

Deferred tax assets are recognised for tax losses carried forward to the extent that the realisation of the related tax benefits through future taxable profits is probable. At 31 December 2020, the Group did not recognise deferred tax assets of approximately RMB213,731,000 (2019: RMB186,112,000), in respect of tax losses amounting to approximately RMB854,925,000 (2019: RMB744,450,000), that can be carried forward to offset against future taxable income. These tax losses will expire up to and including years ending 31 December 2021, 2022, 2023, 2024 and 2025, respectively.

遞延稅項負債 (續)

於2020年及2019年12月31日，本公司及本集團並無就於中國內地成立的子公司應繳納預扣稅的未匯出盈利而應付的預扣稅確認遞延稅項。本公司董事認為，本集團的資金將就拓展本集團的經營而於中國內地保留，故該等子公司於可預見將來不大可能分派有關盈利。於2020年12月31日，與於中國內地子公司的投資相關而未確認遞延稅項負債的總暫時差額合共約為人民幣1,737,565,000元(2019年：人民幣1,714,311,000元)。

並無就以下項目確認遞延稅項資產：

倘若相關稅項利益可能透過未來應課稅利潤變現，則會就所結轉的稅項虧損確認遞延稅項資產。於2020年12月31日，本集團並無就約為人民幣854,925,000元(2019年：人民幣744,450,000元)的稅項虧損確認遞延稅項資產約人民幣213,731,000元(2019年：人民幣186,112,000元)，該等遞延稅項資產可予結轉以抵銷未來應課稅收入。該等稅項虧損將分別於截至2021年、2022年、2023年、2024年及2025年12月31日止年度(並包括該等年度)屆滿。

| | 13,860 | 13,528 |

Trade receivables mainly represent rentals receivable from tenants. The Group seeks to maintain strict control over its outstanding receivables and has a credit control department to minimise credit risk. Overdue balances are reviewed regularly by management. In view of the aforementioned, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are unsecured and non-interest-bearing.

The carrying amounts of trade receivables in the consolidated statement of financial position approximate to their fair values.

An ageing analysis of the trade receivables as at the end of the reporting period, based on the invoice date, is as follows:

貿易應收款項主要指應收租戶租金。本集團尋求對其未收回應收款項維持嚴格控制並設有信用控制部門以將信貸風險最小化。管理層會定期審閱逾期結餘。鑒於以上所述，並無重大信貸風險集中情況。本集團並無就其貿易應收款項結餘持有任何抵押物或其他信用增強手段。貿易應收款項為無抵押且不計息。

綜合財務狀況表中貿易應收款項的賬面值與其公允價值相若。

於報告期結束時，基於發票日期的貿易應收款項賬齡分析如下：

24. TRADE RECEIVABLES (CONTINUED)

The Group applies the simplified approach to providing for expected credit losses prescribed by IFRS 9, which permits the use of the lifetime expected loss provision for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due. The expected loss rate of trade receivables is assessed to be 0.1%. Based on evaluation on the expected loss rate and gross carrying amount, meanwhile, given all receivables are in the credit term, the directors of the Company are of the opinion that the ECL in respect of these balances is considered to be immaterial, and therefore, there has not been a loss allowance provision.

24. 貿易應收款項(續)

本集團採用簡化辦法，計提國際財務報告準則第9號規定的預期信貸虧損，有關條文允許為所有貿易應收款項計提整個存續期的預期虧損撥備。為計量預期信貸虧損，貿易應收款項根據共同信貸風險特徵和逾期天數進行分組。貿易應收款項的預期虧損率估計為0.1%。根據對預期虧損率及總賬面值的評估，同時由於全部應收款項均處於信貸期內，本公司董事認為，該等結餘的預期信貸虧損並不重大，故並無計提虧損撥備。

38. CONTINGENT LIABILITIES (CONTINUED)

Notes:

- (1) The Group provided guarantees in respect of mortgage facilities granted by certain banks to the purchasers of the Group's completed properties held for sale. Pursuant to the terms of the guarantee arrangements, in case of default on mortgage payments by the purchasers, the Group is responsible for repaying the outstanding mortgage principals together with any accrued interest and penalties owed by the defaulted purchasers to those banks.

Under the above arrangement, the related properties were pledged to the banks as collateral for the mortgage loans. Upon default on mortgage repayments by these purchasers, the banks are entitled to take over the legal titles and will realise the pledged properties through open auction.

The Group's guarantee period starts from the dates of grant of the relevant mortgage loans and ends upon the issuance and registration of property ownership certificates to the purchasers, which will generally be available within half a year to two years after the purchasers take possession of the relevant properties.

The Group did not incur any material losses during the reporting period in respect of the guarantees provided for mortgage facilities granted to purchasers of the Group's completed properties held for sale. The directors of the Company considered that in case of default on payments, the net realisable value of the related properties would be sufficient to repay the outstanding mortgage loans together with any accrued interest and penalty, and therefore, no provision has been made in connection with the guarantees.

- (2) The Group provided guarantees to banks and other institutions in connection with borrowings made to the joint ventures and associates. The directors of the Company consider that no provision is needed in respect of the guarantees provided to the joint ventures and associates as of 31 December 2020 (2019: Nil) since the fair value is not significant. Further details of the related party transactions are included in note 40.

38. 或然負債(續)

附註：

- (1) 本集團就若干銀行向本集團已竣工持作銷售物業買方授出的抵押融資提供擔保。根據擔保安排的條款，如買方拖欠按揭付款，本集團負責向該等銀行償還未償還抵押本金連同違約買方所欠的任何應計利息及罰款。

根據上述安排，相關物業已質押予該等銀行作為抵押貸款的抵押品。倘該等買方拖欠抵押還款，則該等銀行有權接管有關法定業權，並透過公開拍賣將抵押物業變現。

本集團的擔保期由授出相關抵押貸款日期起至買方獲發房屋所有權證及辦理登記止，有關證明一般會於買方接管相關物業後的半年至兩年內取得。

於報告期，本集團並未就向本集團已竣工持作銷售物業買方授出的抵押融資提供擔保產生任何重大損失。本公司董事認為如出現違約付款，相關物業的可變現淨值可足以償還未償還抵押貸款連同任何應計利息及罰款，故並無對擔保計提撥備。

- (2) 本集團就向合營企業及聯營公司作出的借貸向銀行及其他機構提供擔保。由於公允價值並不重大，本公司董事認為無需就於2020年12月31日向合營企業及聯營公司提供的擔保(2019年：零)計提撥備。有關關聯方交易的進一步詳情載於附註40。

42. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (CONTINUED)

Management has assessed that the fair values of cash and cash equivalents, pledged deposits, restricted cash, amounts due from related companies, trade receivables, financial assets included in prepayments, other receivables and other assets, trade and bills payables, financial liabilities included in other payables and accruals and amounts due to related companies approximate to their carrying amounts largely due to the short-term maturities of these instruments.

The Group's finance department headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The finance manager reports directly to the chief financial officer. At each reporting date, the finance department analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the chief financial officer. The valuation results are discussed with the audit committee twice a year for interim and annual financial reporting.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

For the fair values of listed equity investments, management has estimated the fair value by quoting active market prices, and therefore, the fair value measurement of the financial assets at fair value through profit or loss is categorised within Level 1 of the fair value hierarchy.

For the fair values of the unlisted fund investments under IAS 39 during the year ended 31 December 2020, management has estimated the fair value by the expected future cash flows, and the fair value measurement of the financial assets at fair value through profit or loss is categorised within Level 2 of the fair value hierarchy.

42. 金融工具的公允價值及公允價值層級(續)

管理層已評估現金及現金等價物、已質押存款、受限制現金、應收關聯公司款項、貿易應收款項、計入預付款項的金融資產、其他應收款項及其他資產、貿易應付款項及應付票據、計入其他應付款項及應計費用的金融負債以及應付關聯公司款項的公允價值與其賬面值相若，主要是由於該等工具於短期內到期。

本集團的財務部門由財務經理帶領，負責釐定金融工具公允價值計量的政策及程序。財務經理直接向首席財務官匯報。於各報告日期，財務部門分析金融工具價值的變動並決定應用於估值的主要輸入數據。估值由首席財務官審閱及批准。每年就中期及年度財務報告與審計委員會對估值結果進行兩次討論。

金融資產及負債的公允價值以自願交易方(強迫或清盤銷售除外)當前交易中該工具的可交易金額入賬。

就上市股權投資之公允價值而言，管理層通過活躍市場報價估計公允價值，因此按公允價值計入損益的金融資產的公允價值計量於公允價值層級內分類為第一級。

於截至2020年12月31日止年度，就國際會計準則第39號下的非上市基金投資的公允價值而言，管理層通過預期未來現金流量估計公允價值。按公允價值計入損益的金融資產的公允價值計量於公允價值層級內分類為第二級。

42. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (CONTINUED)

Management has applied the comparable companies' market value approach in determining fair value of unlisted equity investments, which is classified as equity investments designated at FVOCI under IFRS 9, using price to earnings ratio ("P/E") and price to book ratio ("P/B") multiples, which are calculated by using comparable companies' financial statements, to determine the fair value of the unlisted equity investments, and taking into account the marketability discount as the appropriate adjustment. Comparable companies are based on similarity of business nature and profitability. The fair value measurement of the equity investments designated at FVOCI is categorised within Level 3 of the fair value hierarchy.

The fair values of interest-bearing bank and other borrowings have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The Group's own non-performance risk for interest-bearing bank and other borrowings as at 31 December 2020 was assessed to be insignificant.

The fair values of senior notes are based on market prices. The fair values of senior notes have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities.

42. 金融工具的公允價值及公允價值層級 (續)

管理層已於釐定非上市股權投資(按國際財務報告準則第9號分類為指定為按公允價值計入其他全面收入的股權投資)的公允價值時應用可資比較公司的市值法，透過市盈率(「市盈率」)及市淨率(「市淨率」)倍數(透過使用可資比較公司之財務報表計算)釐定非上市股權投資的公允價值並經計及作為適當調整的可銷性折讓。可資比較公司乃基於相似的業務性質及盈利能力。指定為按公允價值計入其他全面收入的股權投資的公允價值計量於公允價值層級內分類為第三級。

計息銀行及其他借貸的公允價值乃通過貼現預期未來現金流量計算，並採用現時可用於具類似條款、信貸風險及剩餘期限的工具的貼現率。本集團本身的計息銀行及其他借貸於2020年12月31日的不履約風險被評定為並不重大。

優先票據的公允價值乃基於市場價格。優先票據的公允價值乃透過使用有類似條款、信貸風險及餘下到期日的工具當前可獲得之市率，以折讓預期未來現金流量而計算。

43. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments mainly include cash and cash equivalents, restricted cash, pledged deposits, trade and other receivables, and trade payables and other payables, which arise directly from its operations. The Group has other financial assets and liabilities such as interest-bearing bank and other borrowings, senior notes, amounts due to related companies and amounts due from related companies. The main purpose of these financial instruments is to raise finance for the Group's operations.

The main risks arising from the Group's financial instruments are interest rate risk, credit risk and liquidity risk. Generally, the Group introduces conservative strategies on its risk management. To keep the Group's exposure to these risks to a minimum, the Group has not used any derivatives and other instruments for hedging purposes. The Group does not hold or issue derivative financial instruments for trading purposes. The board of directors reviews and agrees policies for managing each of these risks and they are summarised below:

(a) Interest rate risk

The Group's exposure to risk for changes in market interest rates relates primarily to the Group's interest-bearing bank and other borrowings set out in note 30. The Group does not use derivative financial instruments to hedge interest rate risk. The Group manages its interest cost using variable rate bank borrowings and other borrowings.

If the interest rate of bank and other borrowings had increased/decreased by 1% and all other variables held constant, the profit before tax of the Group, through the impact on floating rate borrowings, would have decreased/increased by approximately RMB5,536,000 for the year ended 31 December 2020 (2019: RMB5,665,000).

43. 財務風險管理目標及政策

本集團的主要金融工具主要包括現金及現金等價物、受限制現金、已質押存款、貿易及其他應收款項以及貿易應付款項及其他應付款項，該等金融工具因其經營而直接產生。本集團擁有其他金融資產及負債，如計息銀行及其他借貸、優先票據、應付關聯公司款項及應收關聯公司款項。該等金融工具的主要目的在於為本集團的運營融資。

本集團金融工具產生的主要風險為利率風險、信貸風險及流動性風險。一般而言，本集團對其風險管理採取保守策略。為將本集團所面臨的該等風險保持最低，本集團並無使用任何衍生及其他工具作對沖目的。本集團未持有或發行作交易用途的衍生金融工具。董事會檢討並同意各項風險管理政策，其概述如下：

(a) 利率風險

本集團面臨的市場利率變動風險主要與附註30所載的本集團計息銀行及其他借貸有關。本集團並無使用衍生金融工具對沖利率風險。本集團使用浮息銀行借貸及其他借貸管理其利息成本。

倘在所有其他變量維持不變情況下銀行及其他借貸的利率上升／下降1%，則本集團截至2020年12月31日止年度的除稅前利潤（透過對浮息借貸的影響）將減少／增加約人民幣5,536,000元（2019年：人民幣5,665,000元）。

(b) Credit risk

The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant. For transactions that are not denominated in the functional currency of the relevant operating unit, the Group does not offer credit terms without the specific approval of the Head of Credit Control.

Maximum exposure and year-end staging

The table below shows the credit quality and the maximum exposure to credit risk based on the Group's credit policy, which is mainly based on past due information unless other information is available without undue cost or effort, and year-end staging classification as at 31 December. The amounts presented are gross carrying amounts for financial assets.

43. 財務風險管理目標及政策 (續)

(b) 信貸風險

本集團僅與認可及信譽超著的第三方進行買賣。本集團的政策為所有有意以信貸期進行買賣之客戶，須接受信貸審核程序。此外，應收款項結餘受持續監管，而本集團承受壞賬的風險並不重大。對於並非以有關營運單位功能貨幣計值的交易，本集團在未經信用控制部門主管特別批准的情況下不會給予信貸期。

最高風險及年末階段

下表載列12月31日基於本集團信貸政策的信貸質素及最高信貸風險(主要基於逾期資料，除非其他資料可無需花費不必要成本或精力而獲取，則另作別論)以及年末階段分類。所呈列的金額指金融資產的總賬面值。

(b) Credit risk (continued)

Maximum exposure and year-end staging (continued)

- * For trade receivables to which the Group applies the simplified approach for impairment based on the disclosure in note 24 to the financial statements, there is no significant concentration of credit risk.
- ** The credit quality of the financial assets included in prepayments, other receivables and other assets is considered to be "normal" when they are not past due and there is no information indicating that the financial assets had a significant increase in credit risk since initial recognition.

Credit risk is the risk of loss due to the inability or unwillingness of a counterparty to meet its contractual obligations. Exposure to credit risk arises primarily from its financing activities to customers.

The Group has no concentrations of credit risk in view of its large number of customers. The Group did not record any significant bad debt losses during the year ended 31 December 2020.

The credit risk of the Group's other financial assets, which mainly comprise cash and cash equivalents, restricted cash, pledged deposits, other receivables, and amounts due from related companies, arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

43. 財務風險管理目標及政策 (續)

(b) 信貸風險(續)

最高風險及年末階段(續)

- * 就本集團基於財務報表附註24所披露的資料應用簡易方法進行減值的貿易應收款項而言，並無重大信貸風險集中情況。
- ** 倘計入預付款項、其他應收款項及其他資產的金融資產並無逾期亦無資料顯示自初步確認起金融資產的信貸風險大幅增加，則其信貸質素被視為「正常」。

信貸風險指因交易對手無法或不願履行其合同責任而帶來的虧損風險。信貸風險主要來自向客戶提供融資活動。

鑒於本集團擁有大量客戶，故本集團並無信貸風險集中情況。截至2020年12月31日止年度，本集團並無錄得任何重大壞賬虧損。

本集團其他金融資產(主要包括現金及現金等價物、受限制現金、已質押存款、其他應收款項及應收關聯公司款項)的信貸風險產生自交易對手的違約，最高風險等於該等工具的賬面值。

(d) Equity price risk

The Group is exposed to equity price risk arising from its investments in listed equity investments included in financial assets at fair value through profit or loss and unlisted equity investments at fair value through other comprehensive income as at 31 December 2020. Management manages this exposure by maintaining a portfolio of investments with different risks. The Group's equity price risk is mainly concentrated on listed equity investments quoted on the Stock Exchange. In addition, the Group has appointed a special team to monitor the price risk and will consider hedging the risk exposure should the need arise.

If the prices of the respective listed equity investments had been 5% higher/lower, profit and total comprehensive income for the year, net of tax, would increase/decrease by RMB27,491,000 for the Group as a result of the changes in fair value of listed financial assets (2019: RMB17,765,000).

(e) Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares.

(d) 股權價格風險

於2020年12月31日，本集團就投資於按公允價值計入損益的金融資產之上市股權投資及按公允價值計入其他全面收入之非上市股權投資而面臨股權價格風險。管理層維持具有不同風險之投資組合以管理該等風險。本集團之股權價格風險主要集中於在聯交所報價之上市股權投資。此外，本集團已委派專責團隊監控價格風險，並將於有需要時考慮對沖所面臨之風險。

倘有關上市股權投資之價格上升／下降5%，本集團之年內利潤及總全面收入（扣除稅項）將因上市金融資產公允價值之變動增加／減少人民幣27,491,000元（2019年：人民幣17,765,000元）。

(e) 資本管理

本集團資本管理的主要目標為保障本集團持續經營並維持穩健的資本比率的能力，以支持其業務並使股東價值最大化。

The Group owns investment properties in Mainland China which are measured at fair value and the aggregate carrying amount was approximately RMB2,798,600,000 as at 31 December 2019, representing 10.10% and 49.47% of the Group's total assets and net assets, respectively. The Group has engaged an external valuer to perform the valuation of these properties as at 31 December 2019.

貴集團在中國內地擁有多項按公允價值計量的投資物業，該等物業於2019年12月31日的總賬面值約為人民幣2,798,600,000元，分別佔 貴集團總資產及淨資產的10.10%及49.47%。貴集團已聘請外部估值師於2019年12月31日對該等物業進行估值。

Significant judgement is required to determine the fair values of the investment properties, which reflect market conditions as at the end of the year. The use of different valuation techniques and assumptions could produce significantly different estimates of fair values. Accordingly, the valuation of investment properties is identified as a key audit matter.

在釐定投資物業的公允價值時需要作出重大判斷，該等公允價值反映年末的市況。採用不同的估值技術及假設可能導致公允價值估計出現重大差異。因此，投資物業的估值被確定為關鍵審計事項。

The accounting policies and disclosures of the investment properties are included in notes 2.4, 3 and 14 to the consolidated financial statements.

有關投資物業的會計政策及披露載於綜合財務報表附註2.4、3及14。

Provision for land appreciation tax 土地增值稅撥備

The Group is a property developer in Mainland China focusing on the development of residential properties and the development, operation and management of commercial and mixed-use properties. Land appreciation tax (“LAT”) in Mainland China is one of the main components of the Group’s taxation charge. LAT is levied on the sale of properties at progressive rates ranging from 30% to 60% based on the appreciation of land value. At the end of each reporting period, the management of the Group estimates the provision for LAT based on its understanding and interpretation of the relevant tax rules and regulations, and the estimated total sales of properties less total deductible expenditure, which includes lease charges for land use rights, property development costs, borrowing costs and development expenditure. When the LAT is subsequently determined, the actual payments may be different from the estimates.

貴集團為一家中國內地的物業開發商，專注於開發住宅物業，以及開發、運營及管理商業及綜合用途物業。中國內地的土地增值稅(「土地增值稅」)為貴集團稅項支出的主要組成部分之一。物業銷售的土地增值稅乃按照30%至60%的累進稅率對土地增值額徵收。於各報告期末，貴集團管理層會根據其對相關稅務規則及法規的理解及詮釋對土地增值稅撥備及估計物業銷售總額減可扣減開支總額(包括土地使用權租賃開支、物業開發成本、借貸成本及開發支出)作出估計。在隨後確定土地增值稅時，實際付款金額可能與估計值有所不同。

The disclosures of the provision for land appreciation tax are included in notes 3 and 10 to the consolidated financial statements.

有關土地增值稅撥備的披露載於綜合財務報表附註3及10。

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

The directors of the Company are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

合理確定屬高層次的核證，惟根據香港審計準則進行的審計工作不能保證總能察覺所存在的重大錯誤陳述。錯誤陳述可因欺詐或錯誤產生，倘個別或整體在合理預期情況下可影響使用者根據該等綜合財務報表作出的經濟決定時，則被視為重大錯誤陳述。

在根據香港審計準則進行審計的過程中，吾等運用專業判斷，並於整個審計過程中保持專業懷疑態度。吾等亦：

- 識別及評估由於欺詐或錯誤而導致綜合財務報表存在重大錯誤陳述的風險、設計及執行審計程序以應對該等風險，以及獲取充足和適當的審計憑證，作為吾等意見的基礎。由於欺詐可能涉及串謀、偽造、蓄意遺漏、虛假陳述或凌駕內部監控的情況，因此未能發現因欺詐而導致的重大錯誤陳述的風險高於未能發現因錯誤而導致的重大錯誤陳述的風險。
- 了解與審計相關的內部監控，以設計適當的審計程序，惟並非旨在對貴集團內部監控的有效性發表意見。

INDEPENDENT AUDITOR'S REPORT *(Continued)***獨立審計師報告(續)****AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

- 評估綜合財務報表的整體呈報方式、結構及內容，包括披露資料，以及綜合財務報表是否中肯反映相關交易和事項。
- 就貴集團內實體或業務活動的財務資料獲取充足及適當的審計憑證，以便對綜合財務報表發表意見。吾等負責集團審計的方向、監督及執行。吾等就審計意見承擔全部責任。

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Ho Wai Ling.

NOTES TO FINANCIAL STATEMENTS (Continued)

財務報表附註(續)

31 DECEMBER 2019 2019年12月31日

2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRSs”) (which include all standards and interpretations, International Accounting Standards (“IASs”) and Standing Interpretations Committee interpretations) approved by the International Accounting Standards Board (the “IASB”) and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for investment properties and financial assets at fair value through profit or loss which have been measured at fair value. These financial statements are presented in Renminbi (“RMB”) and all values are rounded to the nearest thousand except when otherwise indicated.

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the “Group”) for the year ended 31 December 2019. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

2.1 編製基準

該等財務報表乃根據國際會計準則理事會（「國際會計準則理事會」）批准的國際財務報告準則（「國際財務報告準則」）（包括所有準則及詮釋、國際會計準則（「國際會計準則」）及常務詮釋委員會詮釋）及香港公司條例的披露規定編製。其乃根據歷史成本法編製，惟已按公允價值計量的投資物業及按公允價值計入損益的金融資產除外。該等財務報表以人民幣（「人民幣」）呈列，除文義另有所指外，所有金額均經四捨五入調整至最接近的千位數。

綜合基準

綜合財務報表包括本公司及其子公司（統稱「本集團」）截至2019年12月31日止年度的財務報表。子公司指由本公司直接或間接控制的實體（包括結構性實體）。當本集團對參與投資對象業務的可變回報承擔風險或享有權利以及能通過對投資對象的權力（即本集團獲賦予現有能以主導投資對象有關活動的既存權利）影響該等回報時，即取得控制權。

NOTES TO FINANCIAL STATEMENTS (Continued)**財務報表附註(續)**

31 DECEMBER 2019 2019年12月31日

**2.1 BASIS OF PREPARATION
(CONTINUED)****Basis of consolidation (continued)**

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

2.1 編製基準(續)**綜合基準(續)**

倘本公司直接或間接擁有少於投資對象大多數投票或類似權利，則本集團於評估其是否擁有對投資對象的權力時會考慮一切相關事實及情況，包括：

- (a) 與投資對象的其他投票權持有人的合同安排；
- (b) 其他合同安排所產生的權利；及
- (c) 本集團的投票權及潛在投票權。

子公司與本公司之財務報表之報告期相同，並採用一致之會計政策編製。子公司之業績由本集團獲得控制權當日起綜合入賬，並繼續綜合入賬直至有關控制權終止當日為止。

損益及其他全面收入之各個組成部分歸屬於本集團母公司之擁有人及非控股權益，即使此舉會導致非控股權益有虧絀結餘。所有有關本集團各成員公司間交易之集團內部資產及負債、權益、收入、開支及現金流量均會於綜合入賬時全數抵銷。

倘事實及情況顯示上述三項控制因素之一項或多項出現變化，本集團會重新評估其是否控制投資對象。於子公司的所有權權益變動，惟並無失去控制權，則以權益交易入賬。

31 DECEMBER 2019 2019年12月31日

2.1 BASIS OF PREPARATION
(CONTINUED)

Basis of consolidation (continued)

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2.2 CHANGES IN ACCOUNTING POLICIES
AND DISCLOSURES

The Group has adopted the following new and revised IFRSs for the first time for the current year's financial statements.

| <i>Annual Improvements to IFRSs 2015-2017 Cycle</i> | Amendments to IFRS 3, IFRS 11, IAS 12 and IAS 23 |

2.1 編製基準(續)

綜合基準(續)

倘本集團失去對子公司之控制權，則終止確認(i)該子公司之資產(包括商譽)及負債、(ii)任何非控股權益之賬面值及(iii)於權益內記錄之累計交易差額；及確認(i)已收對價之公允價值、(ii)所保留任何投資之公允價值及(iii)損益中任何因此產生之盈餘或虧損。先前已於其他全面收入內確認之本集團應佔部分重新分類至損益或保留利潤(如適當)，基準與本集團直接出售相關資產或負債所需使用之基準相同。

2.2 會計政策的變動及披露

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (CONTINUED)

Except for the amendments to IFRS 9 and IAS 19, and Annual Improvements to IFRSs 2015-2017 Cycle, which are not relevant to the preparation of the Group's financial statements, the nature and the impact of the new and revised IFRSs are described below:

- (a) IFRS 16 replaces IAS 17 *Leases*, IFRIC-Int 4 *Determining whether an Arrangement contains a Lease*, SIC-15 *Operating Leases – Incentives* and SIC-27 *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model to recognise and measure right-of-use assets and lease liabilities, except for certain recognition exemptions. Lessor accounting under IFRS 16 is substantially unchanged from IAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in IAS 17. Therefore, IFRS 16 did not have any financial impact on leases where the Group is the lessor.

2.2 會計政策的變動及披露(續)

除國際財務報告準則第9號及國際會計準則第19號的修訂以及國際財務報告準則年度改進(2015年至2017年週期)與編製本集團的財務報表並無關係外，新訂及經修訂的國際財務報告準則的性質及影響載列如下：

- (a) 國際財務報告準則第16號取代國際會計準則第17號租賃、國際財務報告詮釋委員會詮釋第4號釐定安排是否包括租賃、常設詮釋委員會第15號經營租賃－優惠及常設詮釋委員會第27號評估牽涉租賃的法律形式的交易的內容。該準則載列確認、計量、呈列及披露租賃的原則，並要求承租人將所有租賃按單一的資產負債表內模式入賬，以確認及計量使用權資產及租賃負債，惟若干確認豁免除外。國際財務報告準則第16號大致沿用國際會計準則第17號內出租人的會計處理。出租人將繼續使用與國際會計準則第17號類似的原則將租賃分類為經營或融資租賃。因此，國際財務報告準則第16號對本集團作為出租人的租賃並無產生任何財務影響。

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (CONTINUED)

2.2 會計政策的變動及披露(續)

(a) (continued)

The Group has adopted IFRS 16 using the modified retrospective method of adoption with the date of initial application of 1 January 2019. Under this method, the standard has been applied retrospectively with the cumulative effect of initial adoption as an adjustment to the opening balance of retained profits at 1 January 2019, and the comparative information for 2018 was not restated and continued to be reported under IAS 17 and related interpretations.

New definition of a lease

Under IFRS 16, a contract is, or contains a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to obtain substantially all of the economic benefits from use of the identified asset and the right to direct the use of the identified asset. The Group elected to use the transition practical expedient allowing the standard to be applied only to contracts that were previously identified as leases applying IAS 17 and IFRIC-Int 4 at the date of initial application. Contracts that were not identified as leases under IAS 17 and IFRIC-Int 4 were not reassessed. Therefore, the definition of a lease under IFRS 16 has been applied only to contracts entered into or changed on or after 1 January 2019.

(a) (續)

本集團透過採用經修訂追溯採納法採納國際財務報告準則第16號，並於2019年1月1日首次應用。在此方法下，該準則已獲追溯應用，並將首次採納的累計影響確認為對於2019年1月1日保留利潤的期初結餘的調整，且2018年比較資料並無重列，並繼續根據國際會計準則第17號及相關詮釋呈報。

租賃的新定義

根據國際財務報告準則第16號，倘合同為換取對價而給予在一段時間內控制使用已識別資產的權利，則該合同為租賃或包含租賃。當客戶有權從使用已識別資產獲得絕大部分經濟利益以及指示使用已識別資產時，即擁有控制權。本集團選擇使用過渡性可行權宜方式，以允許該準則於首次應用日期僅適用於先前已根據國際會計準則第17號及國際財務報告詮釋委員會詮釋第4號識別為租賃的合同。根據國際會計準則第17號及國際財務報告詮釋委員會詮釋第4號尚未識別為租賃的合同並無重新評估。因此，國際財務報告準則第16號項下的租賃定義已僅應用於在2019年1月1日或之後訂立或更改的合同。

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (CONTINUED)

(a) (continued)

As a lessee – Leases previously classified as operating leases

Nature of the effect of adoption of IFRS 16

The Group has lease contracts for various items of offices and motor vehicles. As a lessee, the Group previously classified leases as either finance leases or operating leases based on the assessment of whether the lease transferred substantially all the rewards and risks of ownership of assets to the Group. Under IFRS 16, the Group applies a single approach to recognise and measure right-of-use assets and lease liabilities for all leases, except for two elective exemptions for leases of low value assets (elected on a lease-by-lease basis) and leases with a lease term of 12 months or less (“**short-term leases**”) (elected by class of underlying asset). Instead of recognising rental expenses under operating leases on a straight-line basis over the lease term commencing from 1 January 2019, the Group recognises depreciation (and impairment, if any) of the right-of-use assets and interest accrued on the outstanding lease liabilities (as finance costs).

Impacts on transition

Lease liabilities at 1 January 2019 were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at 1 January 2019. The right-of-use assets for most leases were measured at the amount of the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to the lease recognised in the statement of financial position immediately before 1 January 2019.

2.2 會計政策的變動及披露(續)

(a) (續)

作為承租人 – 先前分類為經營租賃的租賃

採納國際財務報告準則第16號的影響性質

本集團擁有多個辦公室及汽車項目的租賃合同。作為承租人，本集團先前根據有關租賃是否將資產所有權的絕大部分回報及風險轉移至本集團的評估，將租賃分類為融資租賃或經營租賃。根據國際財務報告準則第16號，本集團採用單一方法確認及計量所有租賃的使用權資產及租賃負債，惟低價值資產租賃（按個別租賃基準選擇）及租期為12個月或以下的租賃（「**短期租賃**」）（按相關資產類別選擇）的兩項選擇性豁免除外。本集團確認使用權資產折舊（及減值，如有）及尚未償還租賃負債之應計利息（為融資成本），而非於自2019年1月1日開始之租期內按直線法於經營租賃項下確認租金開支。

過渡影響

於2019年1月1日的租賃負債按餘下租賃付款現值確認，使用2019年1月1日的增量借款利率貼現。大部分租賃的使用權資產按租賃負債金額計量，並就與緊接2019年1月1日前於財務狀況表確認的租賃有關的任何預付或應計租賃付款金額作出調整。

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (CONTINUED)

(a) (continued)

As a lessee – Leases previously classified as operating leases (continued)

Impacts on transition (continued)

All these assets were assessed for any impairment based on IAS 36 on that date. The Group elected to present the right-of-use assets separately in the statement of financial position.

For the leasehold land and buildings (that were held to earn rental income and/or for capital appreciation) previously included in investment properties and measured at fair value, the Group has continued to include them as investment properties at 1 January 2019. They continue to be measured at fair value applying IAS 40.

The Group has used the following elective practical expedients when applying IFRS 16 at 1 January 2019:

- Applying the short-term lease exemptions to leases with a lease term that ends within 12 months from the date of initial application
- Using hindsight in determining the lease term where the contract contains options to extend/terminate the lease

作為承租人 – 先前分類為經營租賃的租賃(續)

過渡影響(續)

所有該等資產於當日均已根據國際會計準則第36號就任何減值作出評估。本集團選擇於財務狀況表中單獨呈報使用權資產。

對於先前包括在投資物業及按公允價值計量的租賃土地及樓宇(為賺取租金收入及/或為資本增值而持有者)，於2019年1月1日，本集團繼續將其包括在投資物業。其繼續應用國際會計準則第40號按公允價值計量。

於2019年1月1日應用國際財務報告準則第16號時，本集團已使用以下選擇性可行權宜方式：

- 就租期自首次應用日期起12個月內終止的租賃應用短期租賃豁免
- 倘合同包含延期/終止租賃的選擇權，則使用事後方式釐定租期

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (CONTINUED)

(b) Amendments to IAS 28 clarify that the scope exclusion of IFRS 9 only includes interests in an associate or joint venture to which the equity method is applied and does not include long-term interests that in substance form part of the net investment in the associate or joint venture, to which the equity method has not been applied. Therefore, an entity applies IFRS 9, rather than IAS 28, including the impairment requirements under IFRS 9, in accounting for such long-term interests. IAS 28 is then applied to the net investment, which includes the long-term interests, only in the context of recognising losses of an associate or joint venture and impairment of the net investment in the associate or joint venture. The Group assessed its business model for its long-term interests in associates and joint ventures upon adoption of the amendments on 1 January 2019 and concluded that the long-term interests in associates and joint ventures continued to be measured at amortised cost in accordance with IFRS 9. Accordingly, the amendments did not have any impact on the financial position or performance of the Group.

2.2 會計政策的變動及披露(續)

(b) 國際會計準則第28號的修訂澄清國際財務報告準則第9號的範圍豁免僅包括應用權益法的聯營公司或合營企業之權益，且不包括實質上構成聯營公司或合營企業淨投資額一部分的長期權益（尚未對其應用權益法）。因此，計算此類長期利益時，實體應用國際財務報告準則第9號（包括國際財務報告準則第9號項下的減值規定）而非國際會計準則第28號。只有在確認聯營公司或合營企業的虧損及聯營公司或合營企業淨投資減值的情況下，國際會計準則第28號才會被應用於淨投資（包括長期權益）。於2019年1月1日採納該等修訂後，本集團評估了其聯營公司及合營企業長期權益的業務模式，並得出結論，聯營公司及合營企業的長期權益將繼續根據國際財務報告準則第9號按攤銷成本計量。因此，該等修訂對本集團的財務狀況或表現並無任何影響。

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (CONTINUED)

2.2 會計政策的變動及披露(續)

(c) IFRIC-Int 23 addresses the accounting for income taxes (current and deferred) when tax treatments involve uncertainty that affects the application of IAS 12 (often referred to as “**uncertain tax positions**”). The interpretation does not apply to taxes or levies outside the scope of IAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments. The interpretation specifically addresses (i) whether an entity considers uncertain tax treatments separately; (ii) the assumptions an entity makes about the examination of tax treatments by taxation authorities; (iii) how an entity determines taxable profits or tax losses, tax bases, unused tax losses, unused tax credits and tax rates; and (iv) how an entity considers changes in facts and circumstances. Upon adoption of the interpretation, the Group considered whether it has any uncertain tax positions arising from the transfer pricing on its intergroup sales. Based on the Group’s tax compliance and transfer pricing study, the Group determined that it is probable that its transfer pricing policy will be accepted by the tax authorities. Accordingly, the interpretation did not have any impact on the financial position or performance of the Group.

(c) 國際財務報告詮釋委員會詮釋第23號提出於稅務處理涉及會影響國際會計準則第12號應用的不確定性因素(常稱為「**不確定課稅情況**」)時將所得稅(即期及遞延)入賬的會計處理方法。該詮釋並不適用於國際會計準則第12號範疇以外的稅項或徵費，亦無特別載列與不確定稅務處理的相關利息及罰款有關的規定。詮釋具體處理(i)實體有否單獨考慮不確定稅務處理；(ii)實體就稅務當局調查稅務處理作出的假設；(iii)實體如何釐定應課稅利潤或稅務虧損、稅基、未動用稅務虧損、未動用稅務抵免及稅率；以及(iv)實體如何考慮事實及情況變動。採納該詮釋後，本集團考慮對其集團內銷售的轉移定價是否引起任何不確定課稅情況。基於本集團的稅務合規與轉移定價調查，本集團確定其轉移定價政策有可能獲稅務當局認可。因此，該詮釋對本集團的財務狀況或表現並無任何影響。

2.3 ISSUED BUT NOT YET EFFECTIVE IFRSs (CONTINUED)

Further information about those IFRSs that are expected to be applicable to the Group is described below.

Amendments to IFRS 3 clarify and provide additional guidance on the definition of a business. The amendments clarify that for an integrated set of activities and assets to be considered a business, it must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. A business can exist without including all of the inputs and processes needed to create outputs. The amendments remove the assessment of whether market participants are capable of acquiring the business and continue to produce outputs. Instead, the focus is on whether acquired inputs and acquired substantive processes together significantly contribute to the ability to create outputs. The amendments have also narrowed the definition of outputs to focus on goods or services provided to customers, investment income or other income from ordinary activities. Furthermore, the amendments provide guidance to assess whether an acquired process is substantive and introduce an optional fair value concentration test to permit a simplified assessment of whether an acquired set of activities and assets is not a business. The Group expects to adopt the amendments prospectively from 1 January 2020. Since the amendments apply prospectively to transactions or other events that occur on or after the date of first application, the Group will not be affected by these amendments on the date of transition.

Amendments to IFRS 9, IAS 39 and IFRS 7 address the effects of interbank offered rate reform on financial reporting. The amendments provide temporary reliefs which enable hedge accounting to continue during the period of uncertainty before the replacement of an existing interest rate benchmark. In addition, the amendments require companies to provide additional information to investors about their hedging relationships which are directly affected by these uncertainties. The amendments are effective for annual periods beginning on or after 1 January 2020. Early application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

2.3 已頒佈但尚未生效之國際財務報告準則(續)

預期將適用於本集團的該等國際財務報告準則的進一步資料如下。

國際財務報告準則第3號的修訂澄清並就業務的定義提供額外指引。該等修訂澄清，一系列綜合活動及資產需至少包括對實質性產出能力有重大貢獻的投入及實質性進程方可被視為一項業務。業務可不包括創造輸出所需的所有投入及進程而存在。該等修訂取消了對市場參與者是否有能力獲得業務並繼續產生輸出的評估。相反，重點是所獲得投入及所取得實質性進程是否共同對創造輸出的能力有重大貢獻。該等修訂亦縮小了輸出的定義，重點關注向客戶提供的商品或服務、投資收入或自日常業務產生的其他收入。此外，該等修訂對評估所取得的進程是否屬實質性提供了指引，並引入可選的公允價值集中測試，以簡化對所獲得的一系列活動及資產是否屬業務的評估。本集團預期將自2020年1月1日起前瞻性地採納該等修訂。由於該等修訂預期適用於首次應用日期或之後發生的交易或其他事件，故本集團於過渡日期將不受該等修訂影響。

國際財務報告準則第9號、國際會計準則第39號及國際財務報告準則第7號的修訂解決銀行同業拆息改革對財務申報之影響。該等修訂提供可在替換現行利率基準前的不確定期限內繼續進行對沖會計處理之暫時性補救措施。此外，該等修訂規定公司須向投資者提供有關直接受該等不確定因素影響的對沖關係的額外資料。該等修訂於2020年1月1日或之後開始的年度期間生效，並允許提早應用。預期該等修訂將不會對本集團財務報表造成任何重大影響。

2.3 ISSUED BUT NOT YET EFFECTIVE IFRSs (CONTINUED)

Amendments to IFRS 10 and IAS 28 address an inconsistency between the requirements in IFRS 10 and in IAS 28 in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require a full recognition of a gain or loss when the sale or contribution of assets between an investor and its associate or joint venture constitutes a business. For a transaction involving assets that do not constitute a business, a gain or loss resulting from the transaction is recognised in the investor's profit or loss only to the extent of the unrelated investor's interest in that associate or joint venture. The amendments are to be applied prospectively. The previous mandatory effective date of amendments to IFRS 10 and IAS 28 was removed by the IASB in December 2015 and a new mandatory effective date will be determined after the completion of a broader review of accounting for associates and joint ventures. However, the amendments are available for adoption now.

Amendments to IAS 1 and IAS 8 provide a new definition of material. The new definition states that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. The amendments clarify that materiality will depend on the nature or magnitude of information. A misstatement of information is material if it could reasonably be expected to influence decisions made by the primary users. The Group expects to adopt the amendments prospectively from 1 January 2020. The amendments are not expected to have any significant impact on the Group's financial statements.

2.3 已頒佈但尚未生效之國際財務報告準則(續)

國際財務報告準則第10號及國際會計準則第28號的修訂處理國際財務報告準則第10號及國際會計準則第28號於處理投資者與其聯營公司或合營企業間之資產出售或投入方面之規定之不一致情況。該等修訂規定，當投資者與其聯營公司或合營企業間之資產出售或投入構成一項業務時，須全面確認收益或虧損。對於涉及並無構成一項業務之資產之交易而言，該項交易產生之收益或虧損於投資者之損益中確認，惟僅以不相關投資者於該聯營公司或合營企業之權益為限。該等修訂將按前瞻基準應用。國際會計準則理事會已於2015年12月剔除國際財務報告準則第10號及國際會計準則第28號的修訂的以往強制生效日期，而新的強制生效日期將於對聯營公司及合營企業的會計處理完成更廣泛的檢討後釐定。然而，該等修訂可於現時採納。

國際會計準則第1號及國際會計準則第8號的修訂為重大提供了新的定義。該新定義指出，倘遺漏、失實陳述或隱藏某項資料可合理預期將對通用財務報表的主要用戶依據該等財務報表做出的決策產生影響，則該項資料屬重大。該等修訂澄清，重要性將取決於資料的性質或程度。倘可合理預期資料的失實陳述將對主要用戶做出的決策產生影響，則該項失實陳述屬重大。本集團預期自2020年1月1日起前瞻性地採納該等修訂。預期該等修訂不會對本集團的財務報表產生任何重大影響。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**Investments in associates and joint ventures**

An associate is an entity in which the Group has a long term interest of generally not less than 20% of the equity voting rights and over which it is in a position to exercise significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The Group's investments in associates and joint ventures are stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses. Adjustments are made to bring into line any dissimilar accounting policies that may exist. The Group's share of the post-acquisition results and other comprehensive income of associates and joint ventures are included in the consolidated statement of profit or loss. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and its associates or joint ventures are eliminated to the extent of the Group's investments in the associates or joint ventures, except where unrealised losses provide evidence of an impairment of the assets transferred.

2.4 重大會計政策概要**於聯營公司及合營企業的投資**

聯營公司為本集團於其一般不少於20%股本投票權中擁有長期權益的實體，且可對其發揮重大影響力。重大影響力指參與投資對象的財務和經營決策的權力，但不是控制或共同控制該等政策的權力。

合營企業指一種合營安排，對安排擁有共同控制權之訂約方據此對合營企業之淨資產擁有權利。共同控制指按照合同協定對一項安排所共有之控制，共同控制僅在有相關活動要求享有控制權之訂約方作出一致同意之決定時存在。

本集團於聯營公司及合營企業的投資乃按本集團根據權益會計法應佔淨資產減任何減值虧損於綜合財務狀況表列賬。倘會計政策存在任何不一致，則會作出相應調整。本集團應佔聯營公司及合營企業收購後業績及其他全面收入計入綜合損益表。此外，倘直接於聯營公司或合營企業的權益確認一項變動，則本集團會於綜合權益變動表確認其應佔任何變動(倘適用)。本集團與其聯營公司或合營企業間交易所產生的未變現收益及虧損以本集團於聯營公司或合營企業的投資為限對銷，惟倘未變現虧損證明所轉讓資產減值則除外。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Investments in associates and joint ventures (continued)**

If an investment in an associate becomes an investment in a joint venture or vice versa, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method. In all other cases, upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

2.4 重大會計政策概要(續)**於聯營公司及合營企業的投資(續)**

倘於聯營公司的投資變成於合營企業的投資或出現相反情況，則不會重新計量保留權益。反之，該投資繼續根據權益法入賬。在所有其他情況下，失去對聯營公司的重大影響力或對合營企業的共同控制權後，本集團按其公允價值計量及確認任何保留投資。聯營公司或合營企業於失去重大影響力或共同控制權時的賬面值與保留投資及出售所得款項的公允價值之間的任何差額乃於損益確認。

業務合併及商譽

業務合併乃以收購法入賬。轉讓的對價乃以收購日期的公允價值計量，該公允價值為本集團轉讓的資產於收購日期的公允價值、本集團對被收購方的前擁有人承擔的負債，及本集團發行以換取被收購方控制權的股權的總和。於每項業務合併中，本集團選擇是否以公允價值或被收購方可識別淨資產的應佔比例，計量於被收購方屬現時所有權權益並賦予持有人權利於清盤時按比例分佔淨資產的非控股權益。非控股權益的所有其他部分乃按公允價值計量。收購相關成本於產生時列為開支。

31 DECEMBER 2019 2019年12月31日

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Business combinations and goodwill (continued)**

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

2.4 重大會計政策概要(續)**業務合併及商譽(續)**

當本集團收購一項業務時，其會根據合同條款以及於收購日期的經濟環境及相關條件，評估所承擔的金融資產及負債，以作出適合的分類及指定。此包括將被收購方主合同中的嵌入式衍生工具進行分離。

倘業務合併分階段進行，先前持有的股權按收購日期的公允價值重新計量，所產生的任何收益或虧損於損益確認。

收購方將予轉讓的任何或然對價於收購日期按公允價值確認。分類為一項資產或負債的或然對價按公允價值計量，公允價值的變動於損益確認。分類為權益的或然對價不會重新計量，其後結算於權益中入賬。

31 DECEMBER 2019 2019年12月31日

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Fair value measurement**

The Group measures its investment properties, derivative financial instruments and equity investments at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

2.4 重大會計政策概要(續)**公允價值的計量**

本集團於各報告期結束時按公允價值計量其投資物業、衍生金融工具及股權投資。公允價值乃在市場參與者於計量日期進行的有序交易中出售資產所收取或轉移負債所支付的價格。公允價值計量乃基於假設出售資產或轉移負債的交易於資產或負債的主要市場或(於未有主要市場的情況下)於資產或負債的最有利市場進行。主要或最有利市場須為本集團可進入的市場。資產或負債的公允價值乃採用市場參與者為資產或負債定價時所用的假設計量(假設市場參與者依照其最佳經濟利益行事)。

非金融資產公允價值的計量計及市場參與者最大限度使用該資產達致最佳用途或將該資產出售予最大限度使用該資產達致最佳用途的另一市場參與者而產生經濟利益的能力。

本集團使用適用於不同情況的估值方法，而其有足夠數據計量公允價值，以盡量利用相關可觀察輸入數據及盡量減少使用不可觀察輸入數據。

財務報表附註(續)

31 DECEMBER 2019 2019年12月31日

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair value measurement (continued)

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, contract assets, deferred tax assets, financial assets, investment properties and non-current assets/a disposal group classified as held for sale), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

2.4 重大會計政策概要(續)

公允價值的計量(續)

於財務報表中計量或披露公允價值的所有資產及負債，均基於對公允價值計量整體而言屬重大的最低級別輸入數據在下述公允價值層級內進行分類：

- 第一級 – 基於相同資產或負債於活躍市場的報價(未經調整)
- 第二級 – 基於對公允價值計量而言屬重大的可觀察(直接或間接)最低級別輸入數據的估值方法
- 第三級 – 基於對公允價值計量而言屬重大的不可觀察最低級別輸入數據的估值方法

就按經常性基準於財務報表確認的資產及負債而言，本集團通過於各報告期結束時重新評估分類(基於對公允價值計量整體而言屬重大的最低級別輸入數據)，釐定層級內級別之間是否出現轉移。

非金融資產減值

倘存在減值跡象，或當須每年就資產(存貨、合同資產、遞延稅項資產、金融資產、投資物業及非流動資產／分類為持作銷售的處置組別除外)進行減值測試，則會估計資產的可收回金額。資產的可收回金額為資產或現金產生單位的使用價值與其公允價值減出售成本兩者的較高者，並就個別資產而釐定，除非資產並不產生在很大程度上獨立於其他資產或資產組別的現金流入，於此情況下，可收回金額就資產所屬現金產生單位而釐定。

NOTES TO FINANCIAL STATEMENTS (Continued)**財務報表附註(續)**

31 DECEMBER 2019 2019年12月31日

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Impairment of non-financial assets (continued)**

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the statement of profit or loss in the period in which it arises, unless the asset is carried at a revalued amount, in which case the reversal of the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

2.4 重大會計政策概要(續)**非金融資產減值(續)**

僅在資產賬面值高於其可收回金額的情況下，方會確認減值虧損。於評估使用價值時，估計未來現金流量按反映幣值時間值及資產特定風險的現時市場評估的稅前貼現率貼現至其現值。減值虧損按與該減值資產功能相符的開支類別於產生期間自損益表扣除。

會在各報告期結束時評估是否有跡象顯示先前所確認的減值虧損已不在或可能減少。倘出現有關跡象，則會估計可收回金額。僅當用以釐定資產(商譽除外)可收回金額的估計有變時，方會撥回該資產先前確認的減值虧損，但撥回後的金額不得超逾假設於過往年度並無就該項資產確認減值虧損而應釐定的賬面值(扣除任何折舊／攤銷)。減值虧損撥回會計入產生期間的損益表，除非資產以重估金額入賬，在此情況下，減值虧損撥回根據重估資產的有關會計政策入賬。

Property, plant and equipment and depreciation

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

物業、廠房及設備與折舊

物業、廠房及設備(在建工程除外)乃按成本減累計折舊及任何減值虧損列賬。物業、廠房及設備項目的成本包括其購買價及任何令資產投入運作及將資產運往擬定用途地點的直接應佔成本。

於物業、廠房及設備項目投入運作後所引致的支出,如維修及保養費等,通常於支出期間計入損益。倘符合確認標準,主要檢查支出會作為重置,於資產賬面值中資本化。倘大部分物業、廠房及設備須不時重置,本集團確認該等部分為個別具有特定可使用年期的資產及相應地對其作出折舊。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property, plant and equipment and depreciation (continued)

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal estimated useful lives and the annual depreciation rates are as follows:

| | Annual depreciation rates 年折舊率 |
|---|-----------------------------------|
| Buildings 樓宇 | 3% |
| Motor vehicles 汽車 | 16%-24% |
| Office equipment and electronic devices 辦公設備及電子裝置 | 19%-32% |
| Leasehold improvements 租賃物業裝修 | 13%-33% |

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Construction in progress represents an office building under decoration, which is stated at cost less any impairment losses, and is not depreciated. Cost comprises the direct costs of construction and capitalised borrowing costs on related borrowed funds during the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

物業、廠房及設備與折舊(續)

折舊乃以直線法按其估計可使用年期撇銷各項物業、廠房及設備的成本至其剩餘價值計算。主要估計可使用年期及年折舊率如下：

當一項物業、廠房及設備的各部分有不同可使用年期時，該項目的成本乃按合理基準在各部分之間分配，而各部分乃個別地折舊。剩餘價值、可使用年期及折舊方法至少於各財政年末檢討，並作出調整(如適用)。

物業、廠房及設備項目(包括初步確認的任何重大部分)於出售或預期其使用或出售不會帶來任何未來經濟利益時終止確認。因出售或報廢而於該資產終止確認年度的損益確認的任何收益或虧損乃有關資產淨銷售所得款項與賬面值的差額。

在建工程乃指按成本減任何減值虧損列賬且未予折舊的正在裝修的辦公樓。成本包括建設期間所產生的直接建造成本及與借貸資金有關的資本化借貸成本。在建工程於完工及可予使用時重新分類至物業、廠房及設備的適當類別。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Investment properties**

Investment properties are interests in land and buildings (including the leasehold property held as a right-of-use asset (2018: leasehold property under an operating lease) which would otherwise meet the definition of an investment property) held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the end of the reporting period.

Gains or losses arising from changes in the fair values of investment properties are included in profit or loss in the year in which they arise.

Any gains or losses on the retirement or disposal of an investment property are recognised in profit or loss in the year of the retirement or disposal.

For a transfer from investment properties to owner-occupied properties or inventories, the deemed cost of a property for subsequent accounting is its fair value at the date of change in use. If a property occupied by the Group as an owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under "Property, plant and equipment and depreciation" for owned property and/or accounts for such property in accordance with the policy stated under "Right-of-use assets" for property held as a right-of-use asset up to the date of change in use, and any difference at that date between the carrying amount and the fair value of the property is accounted for as a revaluation in accordance with the policy stated under "Property, plant and equipment and depreciation" above. For a transfer from inventories to investment properties, any difference between the fair value of the property at that date and its previous carrying amount is recognised in profit or loss.

2.4 重大會計政策概要(續)**投資物業**

投資物業為持有作賺取租金收入及／或資本增值，而非作生產或供應貨品或服務或作行政用途，亦非在日常業務過程中作銷售的土地及樓宇權益（包括持作使用權資產的租賃物業（2018年：經營租賃下的租賃物業），而有關物業在其他方面符合投資物業的定義）。該等物業初步按成本（包括交易成本）計量。於初步確認後，投資物業按反映報告期結束時市況的公允價值入賬。

投資物業公允價值變動所產生的收益或虧損於產生年度計入損益。

報廢或出售投資物業的任何收益或虧損於報廢或出售年度在損益確認。

由投資物業轉為自用物業或存貨時，該物業其後會計的認定成本為改變用途日期的公允價值。如本集團的自用物業轉為投資物業，本集團直至改變用途日期前會就自用物業根據「物業、廠房及設備與折舊」項下所述政策將該物業入賬及／或就持作使用權資產的物業根據「使用權資產」項下所述政策將該物業入賬，而物業於當日的賬面值與公允價值的任何差額則會根據上述「物業、廠房及設備與折舊」項下所述政策列作重估。由存貨轉為投資物業時，該物業於當日的公允價值與先前的賬面值的任何差額於損益確認。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Properties under development**

Properties under development are intended to be held for sale after completion.

Properties under development are stated at the lower of cost comprising land costs, construction costs, borrowing costs, professional fees and other costs directly attributable to such properties incurred during the development period and net realisable value.

Properties under development are classified as current assets except for those that will not be realised in the normal operating cycle. On completion, the properties are transferred to completed properties held for sale.

Completed properties held for sale

Completed properties held for sale are stated in the statement of financial position at the lower of cost and net realisable value. Cost is determined by an apportionment of the total costs of land and buildings attributable to the unsold properties. Net realisable value takes into account the price ultimately expected to be realised, less estimated costs to be incurred in selling the properties.

Allocation of property development cost

Land costs are allocated to each unit according to their respective saleable gross floor area ("GFA") to the total saleable GFA. Construction costs relating to units were identified and allocated specifically. Common construction costs have been allocated according to the saleable GFA similar to land costs.

2.4 重大會計政策概要(續)**在建物業**

在建物業擬於竣工後持作銷售。

在建物業按成本與可變現淨值的較低者列賬，而成本包括土地成本、建設成本、借貸成本、專業費用及於開發期內與有關物業直接相關的其他成本。

在建物業分類為流動資產，惟不能於正常營運週期內落成者除外。物業於竣工時轉撥至已竣工持作銷售物業。

已竣工持作銷售物業

已竣工持作銷售物業按成本與可變現淨值兩者的較低者於財務狀況表列賬。成本按未出售物業應佔土地及樓宇總成本的分攤比例釐定。可變現淨值按預期最終將變現的價格減出售物業產生的估計成本計算。

物業開發成本分配

土地成本根據各單位的可銷售建築面積(「建築面積」)佔可銷售總建築面積的比例分配至各單位。單位相關建設成本按個別情況識別及分配。一般建設成本按與土地成本相若的方式根據可銷售建築面積分配。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Intangible assets (other than goodwill)**

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

Software is stated at cost less any impairment loss and is amortised on the straight-line basis over its estimated useful lives of 5 years.

Leases (applicable from 1 January 2019)

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

2.4 重大會計政策概要(續)**無形資產(商譽除外)**

無形資產(商譽除外)單獨購入的無形資產於初步確認時按成本計量。通過業務合併購入的無形資產的成本為收購日期的公允價值。無形資產的可使用年期被評估為有限期或無限期。有限期的無形資產隨後於可使用經濟年期內攤銷，並於有跡象顯示無形資產可能出現減值時評估減值。具有有限可使用年期的無形資產的攤銷期及攤銷方法至少於各財政年末檢討一次。

軟件按成本減任何減值虧損列賬，並於五年的估計可使用年期內按直線法攤銷。

租賃(自2019年1月1日起適用)

本集團於合同開始時評估合同是否為租賃或包含租賃。倘合同為換取對價而給予在一段時間內控制使用已識別資產的權利，則該合同為租賃或包含租賃。

Leases (applicable from 1 January 2019) (continued)

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(a) Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. When the right-of-use assets relate to interests in leasehold land held as inventories, they are subsequently measured at the lower of cost and net realisable value in accordance with the Group's policies for "properties under development" and "completed properties held for sale". The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

| | |
|----------------|--------------|
| Offices | 2 to 3 years |
| Motor vehicles | 2 to 3 years |

If ownership of the leased asset transfers to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

租賃(自2019年1月1日起適用)(續)

本集團作為承租人

本集團對所有租賃採用單一確認及計量方法，短期租賃及低價值資產租賃除外。本集團確認租賃負債以作出租賃付款，而使用權資產指使用相關資產的權利。

(a) 使用權資產

於租賃開始日期(即相關資產可供使用的日期)確認使用權資產。使用權資產按成本減任何累計折舊及任何減值虧損計量，並就任何重新計量租賃負債作出調整。根據本集團有關「在建物業」及「已竣工持作銷售物業」的政策，倘使用權資產與持作存貨的租賃土地的權益有關，則其按成本與可變現淨值兩者的較低者進行後續計量。使用權資產成本包括已確認租賃負債款額、初步已產生直接成本及於開始日期或之前作出的租賃付款減任何已收取租賃優惠。使用權資產於資產的租期及估計可使用年期內(以較短者為準)按直線法折舊。

| | |
|-----|------|
| 辦公室 | 2至3年 |
| 汽車 | 2至3年 |

倘租賃資產的所有權在租期結束時轉讓至本集團或成本反映購買選擇權的行使，則使用資產的估計可使用年期計算折舊。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Leases (applicable from 1 January 2019) (continued)***Group as a lessee (continued)*

(b) Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

(b) 租賃負債

於租賃開始日期按租期內將作出的租賃付款現值確認租賃負債。租賃付款包括定額付款(含實質定額款項)減任何應收租賃優惠、取決於指數或利率的可變租賃付款以及預期根據剩餘價值擔保支付的金額。租賃付款亦包括本集團合理確定行使的購買選擇權的行使價及有關終止租賃的違約金付款(倘租期反映本集團行使終止選擇權)。不取決於指數或利率的可變租賃付款在出現觸發付款的事件或條件的期間內確認為開支。

於計算租賃付款的現值時，倘租賃內含利率無法輕易確定，則本集團應用租賃開始日期的增量借款利率計算。於開始日期後，租賃負債金額就反映利息增長而增加及因所作出的租賃付款而減少。此外，倘存在修改、租期變動、租賃付款變動(如由指數或利率變動引起的未來租賃付款變動)或購買相關資產選擇權的評估變動，則重新計量租賃負債的賬面值。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Leases (applicable from 1 January 2019) (continued)

Group as a lessee (continued)

(c) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of office equipment (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the recognition exemption for leases of low-value assets to leases of office equipment and laptop computers that are considered to be of low value.

When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. Lease payments on short-term leases and leases of low-value assets are recognised as an expense on a straight-line basis over the lease term.

Group as a lessor

When the Group acts as a lessor, it classifies at lease inception (or when there is a lease modification) each of its leases as either an operating lease or a finance lease.

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. Rental income is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

當本集團就低價值資產訂立租賃時,本集團會因應個別租賃決定是否將租賃資本化。有關短期租賃及低價值資產租賃的租賃付款於租期內按直線基準確認為開支。

倘本集團作為出租人,其在租賃開始時(或發生租賃更改時)將其各項租賃分類為經營租賃或融資租賃。

本集團並未轉讓資產所有權所附帶的絕大部分風險及回報的租賃分類為經營租賃。倘合同包含租賃及非租賃組成部分時,本集團按相對獨立售價基準將合同中的對價分配至各組成部分。租金收入於租期內按直線法列賬並因其經營性質計入損益表的收益內。於磋商及安排經營租賃時產生的初始直接成本乃計入租賃資產的賬面值,並於租期內按相同方法確認為租金收入。或然租金乃於所賺取的期間內確認為收益。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Leases (applicable from 1 January 2019) (continued)***Group as a lessor (continued)*

Leases that transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee are accounted for as finance leases.

Leases that transfer substantially all the rewards and risks of ownership of assets to the Group, other than legal title, are accounted for as finance leases. At the inception of a finance lease, the cost of the leased asset is capitalised at the present value of the minimum lease payments and recorded together with the obligation, excluding the interest element, to reflect the purchase and financing. Assets held under capitalised finance leases, including prepaid land lease payments under finance leases, are included in property, plant and equipment, and depreciated over the shorter of the lease terms and the estimated useful lives of the assets. The finance costs of such leases are charged to the statement of profit or loss so as to provide a constant periodic rate of charge over the lease terms.

Assets acquired through hire purchase contracts of a financing nature are accounted for as finance leases, but are depreciated over their estimated useful lives.

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Where the Group is the lessor, assets leased by the Group under operating leases are included in non-current assets, and rentals receivable under the operating leases are credited to the statement of profit or loss on the straight-line basis over the lease terms. Where the Group is the lessee, rentals payable under operating leases net of any incentives received from the lessor are charged to the statement of profit or loss on the straight-line basis over the lease terms.

將本集團資產所有權(法定業權除外)的絕大部分回報與風險轉移至本集團的租賃乃列作融資租賃。於融資租賃開始時，租賃資產的成本乃按最低租賃付款的現值資本化及與債務(利息除外)一同記錄，以反映是項購置及融資。根據資本化融資租賃持有的資產(包括融資租賃下預付土地租賃付款)乃計入物業、廠房及設備，並按資產的租期及估計可使用年期(以較短者為準)折舊。該等租賃的融資成本乃自損益表扣除，以便在租期內反映平均的費用率。

以融資性質租購合同購入的資產乃列作融資租賃，惟會於其估計可使用年期內折舊。

凡資產所有權的絕大部分回報與風險歸由出租人承擔的租賃均列作經營租賃。如本集團為出租人，本集團按經營租賃出租的資產包括在非流動資產中，而經營租賃項下的應收租金於租期內以直線法計入損益表。如本集團為承租人，經營租賃項下的應付租金經扣除從出租人收取的任何優惠後乃於租期內以直線法自損益表扣除。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investments and other financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under IFRS 15 in accordance with the policies set out for "Revenue recognition" below.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

初步確認及計量

金融資產於初步確認時分類為其後按攤銷成本、按公允價值計入其他全面收入及按公允價值計入損益計量。

於初步確認時，金融資產分類取決於金融資產的合同現金流量特點及本集團管理該等金融資產的業務模式。除並無重大融資成分或本集團已就其應用實際權宜之計（即不對重大融資成分的影響作出調整）的貿易應收款項外，本集團初步按公允價值加上（倘金融資產並非按公允價值計入損益）交易成本計量金融資產。並無重大融資成分或本集團已就其應用實際權宜之計的貿易應收款項根據下文「收益確認」所載政策按國際財務報告準則第15號釐定的交易價格計量。

為使金融資產按攤銷成本或按公允價值計入其他全面收入進行分類及計量，需產生僅支付本金及未償還本金的利息（「SPPI」）的現金流量。現金流量並非SPPI的金融資產按公允價值計入損益分類及計量，不論業務模式。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Investments and other financial assets (continued)***Initial recognition and measurement (continued)*

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

Investments and other financial assets (continued)

Financial assets designated at fair value through other comprehensive income (equity investments)

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity investments designated at fair value through other comprehensive income when they meet the definition of equity under IAS 32 *Financial Instruments: Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to the statement of profit or loss. Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in other comprehensive income. Equity investments designated at fair value through other comprehensive income are not subject to impairment assessment.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

於初步確認時，本集團可選擇於股權投資符合國際會計準則第32號*金融工具：呈報*項下的股本定義且並非持作買賣時，將其股權投資不可撤回地分類為指定為按公允價值計入其他全面收入的股權投資。分類乃按個別工具基準釐定。

該等金融資產的收益及虧損概不會被重新計入損益表。當確立支付權，而與股息有關的經濟利益可能流入本集團且股息金額能可靠計量時，股息會於損益表中確認為其他收入，惟當本集團於作為收回金融資產一部分成本的所得款項中獲益時則除外，在此等情況下，該等收益於其他全面收入入賬。指定為按公允價值計入其他全面收入的股權投資不受減值評估影響。

按公允價值計入損益的金融資產按公允價值於財務狀況表列賬，而公允價值變動淨額於損益表中確認。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Derecognition of financial assets**

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

2.4 重大會計政策概要(續)**金融資產的終止確認**

金融資產(或(倘適用)金融資產的一部分或一組類似金融資產的一部分)主要於出現以下情況時終止確認(即從本集團綜合財務狀況表中剔除):

- 從資產收取現金流量的權利已到期; 或
- 本集團已根據「轉手」安排轉讓從資產收取現金流量的權利, 或已承擔向第三方無重大延誤全額支付所收現金流量的義務; 及(a)本集團已轉讓該項資產的絕大部分風險及回報; 或(b)本集團並無轉讓或保留該項資產絕大部分風險及回報, 但已轉讓該項資產的控制權。

倘本集團已轉讓從資產收取現金流量的權利或已訂立轉手安排, 其會評估有否保留資產所有權的風險及回報及保留的程度。倘本集團並無轉讓或保留資產的絕大部分風險及回報, 亦無轉讓資產控制權, 則本集團繼續以本集團持續參與程度為限確認已轉讓資產。在此情況下, 本集團亦確認相關負債。已轉讓資產及相關負債基於反映本集團所保留權利及義務的基準計量。

以擔保形式對已轉讓資產的持續參與乃按資產原賬面值與本集團可能須償還的最高對價兩者的較低者計量。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Impairment of financial assets

The Group recognises an allowance for expected credit losses (“ECLs”) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

2.4 重大會計政策概要(續)

金融資產減值

本集團就並非按公允價值計入損益持有的所有債務工具確認預期信貸虧損(「預期信貸虧損」)撥備。預期信貸虧損乃基於根據合同到期的合同現金流量與本集團預期收取並按原始實際利率的相若利率貼現的所有現金流量之間的差額釐定。預期現金流量將包括出售所持抵押品或合同條款所包含的其他信用增強手段所得的現金流量。

一般辦法

預期信貸虧損分兩個階段確認。就初步確認以來信貸風險並無顯著增加的信貸敞口而言，本集團會就未來12個月可能發生的違約事件所產生的信貸虧損(12個月預期信貸虧損)計提預期信貸虧損撥備。就初步確認以來信貸風險顯著增加的信貸敞口而言，本集團須就預期於敞口的餘下年期產生的信貸虧損計提虧損撥備，不論違約的時間(整個存續期的預期信貸虧損)。

於各報告日期，本集團評估金融工具信貸風險自初步確認以來是否顯著上升。於評估時，本集團會將於報告日期金融工具發生違約的風險與於初步確認日期金融工具發生違約的風險進行比較，並會考慮毋須花費過度成本或努力即可獲得的合理且可支撐的資料(包括歷史及前瞻性資料)。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Impairment of financial assets (continued)***General approach (continued)*

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables which apply the simplified approach as detailed below.

Stage 1 – Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs

Stage 2 – Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs

Stage 3 – Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

2.4 重大會計政策概要(續)**金融資產減值(續)***一般辦法(續)*

本集團會在合同付款逾期90日時認為金融資產違約。然而，在若干情況下，倘內部或外部資料反映，在沒有計及本集團持有的任何信用增強手段前，本集團不大可能全額收取未償還合同款項，則本集團亦可認為金融資產將會違約。倘無法合理預期可收回合同現金流量，則會撇銷金融資產。

按攤銷成本列賬的金融資產須按照一般辦法進行減值，且就計量預期信貸虧損而言，該等金融資產會被分類為如下階段，除下文所詳述應用簡化辦法的貿易應收款項除外。

第一階段 – 信貸風險自初步確認以來並無顯著增加及按相當於12個月預期信貸虧損金額計量虧損撥備的金融工具

第二階段 – 信貸風險自初步確認以來顯著增加(但並非信貸減值金融資產)及按相當於整個存續期預期信貸虧損金額計量虧損撥備的金融工具

第三階段 – 於報告日期已信貸減值(但並非購入或源生信貸減值)及按相當於整個存續期的預期信貸虧損金額計量虧損撥備的金融資產

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Impairment of financial assets (continued)***Simplified approach*

For trade receivables that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has evaluated the expected loss rate that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For trade receivables that contain a significant financing component and lease receivables, the Group chooses as its accounting policy to adopt the simplified approach in calculating ECLs with policies as described above.

Financial liabilities*Initial recognition and measurement*

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

2.4 重大會計政策概要(續)**金融資產減值(續)***簡化辦法*

就不包含重大融資部分或本集團應用實際權宜之計(即不對重大融資部分的影響作出調整)的貿易應收款項而言,本集團應用簡化辦法計算預期信貸虧損。根據簡化辦法,本集團並無追蹤信貸風險的變化,反而於各報告日期根據整個存續期的預期信貸虧損確認虧損撥備。本集團已根據其以往信貸虧損經驗評估預期虧損率,並就債務人及經濟環境的特定前瞻性因素作出調整。

就包含重大融資部分及租賃應收款項的貿易應收款項而言,本集團將採用簡化辦法及按照上文所述政策計算預期信貸虧損作為其會計政策。

金融負債*初步確認及計量*

金融負債於初步確認時分類為按公允價值計入損益的金融負債、貸款及借貸、應付款項,或指定為於有效對沖中作對沖工具的衍生工具(倘適用)。

所有金融負債初步按公允價值確認,而貸款及借貸以及應付款項則須扣除直接應佔交易成本。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Financial liabilities (continued)***Initial recognition and measurement (continued)*

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, an amount due to the ultimate holding company, derivative financial instruments and interest-bearing bank and other borrowings.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Financial liabilities at amortised cost (loans and borrowings)

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in profit or loss.

2.4 重大會計政策概要(續)**金融負債(續)***初步確認及計量(續)*

金融負債於初步確認時分類為按公允價值計入損益的金融負債、貸款及借貸、應付款項，或指定為於有效對沖中作對沖工具的衍生工具(倘適用)。

所有金融負債初步按公允價值確認，而貸款及借貸以及應付款項則須扣除直接應佔交易成本。

本集團的金融負債包括貿易及其他應付款項、應付最終控股公司款項、衍生金融工具以及計息銀行及其他借貸。

後續計量

不同類別金融負債的後續計量如下：

按攤銷成本列賬的金融負債(貸款及借貸)

於初步確認後，計息貸款及借貸隨後以實際利率法按攤銷成本計量，除非貼現影響為微不足道，在該情況下則按成本列賬。當負債終止確認及按實際利率法進行攤銷程序時，其收益及虧損於損益內確認。

攤銷成本於計及收購事項任何折讓或溢價及屬實際利率不可或缺一部分的費用或成本後計算。實際利率攤銷計入損益的融資成本內。

Financial guarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. A financial guarantee contract is recognised initially as a liability at its fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequent to initial recognition, the Group measures the financial guarantee contracts at the higher of: (i) the ECL allowance determined in accordance with the policy as set out in "Impairment of financial assets"; and (ii) the amount initially recognised less, when appropriate, the cumulative amount of income recognised.

Senior notes

Senior notes issued by the Company that contain both liability and early redemption option (which is not closely related to the host contract) are classified separately into respective items on initial recognition. At the date of issue, both the liability and early redemption option components are recognised at fair value.

In subsequent periods, the liability component of the senior notes is carried at amortised cost using the effective interest method. The early redemption option is measured at fair value with changes in fair value recognised in profit or loss.

Transaction costs that relate to the issue of the senior notes are allocated to the liability and early redemption option components in proportion to their relative fair values. Transaction costs relating to the early redemption option are charged to profit or loss immediately. Transaction costs relating to the liability component are included in the carrying amount of the liability portion and amortised over the period of the senior notes using the effective interest method.

財務擔保合同

本集團發出的財務擔保合同為因特定債務人未能根據債務工具的條款於債務到期時還款，而本集團須向有關持有人作出彌償虧損的合同。財務擔保合同初步按公允價值確認為負債，並就作出擔保所直接應佔交易成本作出調整。初步確認後，本集團會以下列兩者之較高者計量財務擔保合同：(i)根據「金融資產減值」所載政策釐定之預期信貸虧損撥備；及(ii)初步確認的金額減(如適用)已確認的累計收入金額。

優先票據

本公司發行含有負債及提前贖回選擇權(與主合同並無密切關連)的優先票據在初步確認時分作不同類別。於發行日，負債及提前贖回選擇權部分均按公允價值確認。

在其後期間，優先票據的負債部分使用實際利率法按攤銷成本列賬。提前贖回選擇權按公允價值計量，其公允價值變動於損益確認。

與發行優先票據有關的交易成本按有關公允價值的比例分配予負債及提前贖回選擇權部分。與提前贖回選擇權有關的交易成本即時計入損益。與負債部分有關的交易成本計入負債部分的賬面值，並使用實際利率法在優先票據期內攤銷。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**2.4 重大會計政策概要(續)****Derecognition of financial liabilities**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, and assets similar in nature to cash, which are not restricted as to use.

金融負債的終止確認

當金融負債的責任已履行、取消或屆滿時，該負債會被終止確認。

當現有金融負債被另一項來自同一貸款人且條款大不相同的金融負債所取代，或當現有負債的條款被重大修訂，該取代或修訂被視為對原有負債的終止確認及對新負債的確認，而各自賬面值的差額於損益確認。

抵銷金融工具

倘有現行可予執行的法律權利以抵銷確認金額及有意按淨額基準償付，或變現資產與清還負債同時進行，則抵銷金融資產及金融負債並於財務狀況表內呈報淨金額。

現金及現金等價物

就綜合現金流量表而言，現金及現金等價物包括手頭現金及活期存款，以及可即時兌換為已知金額現金、所涉價值變動風險不高而一般自取得起計三個月內到期的短期高流動性投資，減須按要求償還的銀行透支，並構成本集團現金管理不可或缺的部分。

就綜合財務狀況表而言，現金及現金等價物包括手頭現金及用途不受限制的銀行現金（包括定期存款及與現金性質相似的資產）。

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss.

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

撥備

倘因過往事件導致產生現時責任(法定或推定責任)，且日後可能須撥出資源以履行責任，並能可靠估計責任的數額，則會確認撥備。

當貼現影響屬重大時，確認撥備的金額為預期清償責任所需的未來開支於報告期結束時的現值。因時間流逝而增加的貼現值金額會記入損益表的融資成本項下。

所得稅

所得稅包括即期及遞延稅項。與於損益以外確認項目相關的所得稅於損益以外的其他全面收入確認或直接於權益確認。

即期稅項資產及負債乃按預期自稅務機關收回或支付予其的金額，根據於報告期結束前已頒佈或實質上已頒佈的稅率(及稅法)，經考慮本集團經營所在國家通行的詮釋及慣例計量。

遞延稅項採用負債法就於報告期結束時資產及負債的稅基與兩者用作財務報告的賬面值之間的所有暫時差額計提撥備。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Income tax (continued)**

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, joint ventures and associates, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, joint ventures and associates, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

Income tax (continued)

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, which it is intended to compensate, are expensed.

Where the grant relates to an asset, the fair value is credited to a deferred income account and is released to profit or loss over the expected useful life of the relevant asset by equal annual instalments or deducted from the carrying amount of the asset and released to profit or loss by way of a reduced depreciation charge.

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable for the sales of properties and services provided in the ordinary course of the Group's activities. Revenue is shown, net of taxes.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue recognition (continued)

Sales of properties

Revenues are recognised when or as the control of the asset is transferred to the purchaser. Depending on the terms of the contract and the laws that apply to the contract, control of the asset may transfer over time or at a point in time. Control of the asset is transferred over time if the Group's performance

- provides benefits which are received and consumed simultaneously by the purchaser; or
- creates and enhances an asset that the purchaser controls as the Group performs; or
- does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If control of the asset transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the purchaser obtains control of the asset.

The progress towards complete satisfaction of the performance obligation is measured based on the Group's efforts or inputs to the satisfaction of the performance obligation that best depict the Group's performance in satisfying the performance obligation.

In determining the transaction price, the Group adjusts the promised amount of consideration for the effect of a financing component if it is significant.

如果資產的控制權在一段時間內轉移，收益確認會按在整個合同期間已完成該履約義務的進度進行。否則，收益會於買方獲得資產控制權的時點確認。

已完成履約義務的進度按本集團為完成履約義務而發生的支出或投入計量，有關支出或投入最能反映本集團完成履約義務的表現。

於確定交易價格時，如交易屬重大，本集團會就融資部分的影響調整已承諾的對價金額。

Dividend income is recognised when the shareholders' right to receive payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

Contract liabilities

A contract liability is recognised when a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Dividends

Final dividends are recognised as a liability when they are approved by the shareholders in a general meeting. Proposed final dividends are disclosed in the notes to the financial statements.

Interim dividends are simultaneously proposed and declared, because the Company's memorandum and articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as a liability when they are proposed and declared.

Foreign currencies

Since the majority of the assets and operations of the Group are located in the Mainland China, the financial statements are presented in RMB, which is the functional currency of the Company. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in profit or loss.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Foreign currencies (continued)**

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

Property lease classification – Group as lessor

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a major part of the economic life of the commercial property and the present value of the minimum lease payments not amounting to substantially all the fair value of the commercial property, that it retains substantially all the significant risks and rewards incidental to ownership of these properties which are leased out and accounts for the contracts as operating leases.

3. 重大會計判斷及估計

編製本集團的財務資料時，管理層須作出會影響收益、開支、資產及負債的呈報金額及其隨附披露以及或然負債披露的判斷、估計及假設。有關該等假設及估計的不確定因素可能導致日後須就受影響的資產或負債賬面值作出重大調整的結果。

判斷

在應用本集團的會計政策時，除涉及估計的判斷外，管理層已作出下列判斷，其對財務報表的已確認金額影響至為重大：

物業租賃分類 – 本集團作為出租人

本集團就其投資物業組合訂有商業物業租約。本集團基於對有關安排的條款及條件作出的評估（例如租期不構成商業物業之經濟年期的主要部分且最低租賃付款現值不等於商業物業之絕大部分公允價值），決定保留其租出的該等物業所有權附帶的絕大部分重大風險及回報，並將有關合同以經營租賃入賬。

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (CONTINUED)

Judgements (continued)

Significant judgement in determining the lease term of contracts with renewal options

The Group has several lease contracts that include extension and termination options. The Group applies judgement in evaluating whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation to the leased asset).

Classification between investment properties and owner-occupied properties

The Group determines whether a property qualifies as an investment property, and has developed criteria in making that judgement. Investment property is a property held to earn rentals or for capital appreciation or both. Therefore, the Group considers whether a property generates cash flows largely independently of the other assets held by the Group. Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could be sold separately or leased out separately under a finance lease, the Group accounts for the portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgement is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as an investment property.

3. 重大會計判斷及估計(續)

判斷(續)

在釐定有重續選擇權的合同的租期時作出重大判斷

本集團擁有多份包含續租及終止選擇權的租賃合同。本集團於評估是否行使重續或終止租賃的選擇權時運用判斷，即其會考慮產生行使重續或終止選擇權的經濟誘因的所有相關因素。於開始日期後，如出現在本集團控制範圍內及影響其行使或不行使重續或終止選擇權的能力的重大事件或情況變動(例如進行大量租賃物業裝修或大量定制租賃資產)，本集團會重新評估租期。

投資物業及業主自用物業的分類

本集團會釐定物業是否合資格作為投資物業，並已制訂作出該判斷的標準。投資物業為持有以賺取租金或資本增值或兩者兼有的物業。因此，本集團會考慮物業是否可主要地獨立於本集團所持有的其他資產而產生現金流量。某些物業部分為賺取租金或資本增值而持有，而另一部分為用於生產或供應貨品或服務或作行政用途而持有。倘若此等部分可以分開出售(或根據融資租賃分開出租)，本集團會將有關部分分開入賬。倘若該等部分無法分開出售，則只會在用於生產或供應貨品或服務或作行政用途而持有的部分並不重要時，有關物業才會列作投資物業。本集團對各項物業個別作出判斷，以決定配套服務是否重要到使物業不符合投資物業的資格。

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (CONTINUED)**Judgements (continued)***Classification between investment properties and completed properties held for sale*

The Group develops properties held for sale and properties held to earn rentals and/or for capital appreciation. Judgement is made by management on determining whether a property is designated as an investment property or a property held for sale. The Group considers its intention for holding the properties at the early development stage of the related properties. During the course of construction, the related properties under construction are accounted for as properties under development included in current assets if the properties are intended for sale after its completion, whereas, the properties are accounted for as investment properties under construction included in investment properties if the properties are intended to be held to earn rentals and/or for capital appreciation. Upon completion of the properties, the properties held for sale are transferred to completed properties held for sale and are stated at cost, while the properties held to earn rentals and/or for capital appreciation are transferred to completed investment properties. Investment properties, both under construction and completed, are subject to revaluation at the end of each reporting period.

3. 重大會計判斷及估計(續)**判斷(續)***投資物業及已竣工持作銷售物業的分類*

本集團開發持作銷售物業及為賺取租金及／或為資本增值而持有的物業。由管理層判斷一項物業是否指定為投資物業或持作銷售物業。本集團於某項物業開發初期考慮其持有相關物業的意向。倘物業擬於竣工後出售，於建設過程中，相關的在建物業入賬列作在建物業，計入流動資產。然而，倘物業擬為賺取租金及／或為資本增值而持有，有關物業則入賬列作在建投資物業，計入投資物業。待物業落成後，持作銷售物業轉撥至已竣工持作銷售物業項下，並按成本列賬，而為賺取租金及／或為資本增值而持有的物業則轉撥至已竣工投資物業項下。投資物業(不論在建或已竣工)均須於各報告期結束時重新估值。

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (CONTINUED)

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Provision for expected credit losses on trade receivables and prepayments, other receivables and other assets

The Group uses a provision matrix to calculate ECLs for trade receivables and prepayments, other receivables and other assets. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance).

The expected loss rate is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic products) are expected to deteriorate over the next year which can lead to an increased number of defaults in the properties sector, the historical default rates are adjusted. At each reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation among historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of a customer's actual default in the future. The information about the ECLs on the Group's trade receivables and prepayments, other receivables and other assets is disclosed in note 24 and note 25 to the financial statements, respectively.

3. 重大會計判斷及估計(續)

估計不確定因素

對導致就下個財政年度內資產及負債賬面值作出大幅調整構成重大風險的有關未來的主要假設以及於報告期結束時存在的估計不確定因素的其他主要來源載於下文。

貿易應收款項及預付款項、其他應收款項及其他資產的預期信貸虧損撥備

本集團使用撥備矩陣計算貿易應收款項及預付款項、其他應收款項及其他資產的預期信貸虧損。撥備率乃基於具有類似虧損模式的多個客戶分類組別(即按地理位置、產品類型、客戶類型及評級,以及信用證及其他形式的信貸保險的覆蓋範圍劃分)的逾期天數。

預期虧損率最初基於本集團歷史可觀察違約率。本集團將根據前瞻性資料調整矩陣以調整歷史信貸虧損經驗。例如,如預測經濟狀況(即國內生產總值)將在未來一年惡化,這可能導致房地產行業違約數量增加,則調整歷史違約率。於各報告日期,更新歷史可觀察違約率並分析前瞻性估計的變化。

對歷史可觀察違約率、預測經濟狀況與預期信貸虧損之間的相關性評估是一項重要估計。預期信貸虧損的數量對環境變化及預測經濟狀況敏感。本集團的歷史信貸虧損經驗及經濟狀況預測亦或無法代表客戶的未來實際違約情況。有關本集團貿易應收款項及預付款項、其他應收款項及其他資產的預期信貸虧損的資料分別於財務報表附註24及附註25中披露。

31 DECEMBER 2019 2019年12月31日

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (CONTINUED)**Estimation uncertainty (continued)***Provision for properties under development and completed properties held for sale*

The Group's properties under development and completed properties held for sale are stated at the lower of cost and net realisable value. Based on the Group's historical experience and the nature of the subject properties, the Group makes estimates of the selling prices, the costs of completion of properties under development, and the costs to be incurred in selling the properties based on prevailing market conditions.

If there is an increase in costs to completion or a decrease in net sales value, the net realisable value will decrease and this may result in a provision for properties under development and completed properties held for sale. Such provision requires the use of judgement and estimates. Where the expectation is different from the original estimate, the carrying value and provision for properties in the periods in which such estimate is changed will be adjusted accordingly.

Leases – Estimating the incremental borrowing rate

The Group cannot readily determine the interest rate implicit in a lease, and therefore, it uses an incremental borrowing rate ("IBR") to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group "would have to pay", which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when it needs to be adjusted to reflect the terms and conditions of the lease (for example, when leases are not in the subsidiary's functional currency). The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the subsidiary's stand-alone credit rating).

3. 重大會計判斷及估計(續)**估計不確定因素(續)***在建物業及已竣工持作銷售物業的撥備*

本集團的在建物業及已竣工持作銷售物業以成本與可變現淨值的較低者入賬。本集團根據以往的經驗及所涉物業的性質估計在建物業的售價與竣工成本，以及根據當前市況估計銷售物業將產生的費用。

倘竣工成本增加而銷售淨值降低，則可變現淨值會減少，可能導致須就在建物業及已竣工持作銷售物業作出撥備。作出相關撥備時須運用判斷及估計。倘預期有別於原先估計，則會於變更估計期間相應調整物業賬面值及撥備。

租賃 – 估算增量借款利率

本集團無法輕易確定租賃內含利率，因此，其使用增量借款利率（「增量借款利率」）計量租賃負債。增量借款利率為本集團於類似經濟環境中為取得與使用權資產價值相近之資產，而以類似抵押品於類似期間借入所需資金應支付之利率。因此，增量借款利率反映了本集團「應支付」的利率，當無可觀察的利率時（如就並無訂立融資交易之子公司而言）或當需對利率進行調整以反映租賃之條款及條件時（如當租賃並非以子公司之功能貨幣訂立時），則須作出利率估計。當可觀察輸入數據可用時，本集團使用可觀察輸入數據（如市場利率）估算增量借款利率並須作出若干實體特定的估計（如子公司的單獨信用等級）。

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (CONTINUED)

Estimation uncertainty (continued)

PRC corporate income tax ("CIT")

The Group is subject to corporate income taxes in the PRC. As a result of the fact that certain matters relating to the income taxes have not been confirmed by the local tax bureau, objective estimation and judgement based on currently enacted tax laws, regulations and other related policies are required in determining the provision for income taxes to be made. Where the final tax outcome of these matters is different from the amounts originally recorded, the differences will impact on the income tax and tax provisions in the period in which the differences realise.

PRC land appreciation tax ("LAT")

The Group is subject to LAT in the PRC. The provision for LAT is based on management's best estimates according to the understanding of the requirements set forth in the relevant PRC tax laws and regulations. The actual LAT liabilities are subject to the determination by the tax authorities upon the completion of the property development projects. The Group has not finalised its LAT calculation and payments with the tax authorities for all its property development projects. The final outcome could be different from the amounts that were initially recorded, and any differences will impact on the LAT expenses and the related provision in the period in which the differences realise.

3. 重大會計判斷及估計(續)

估計不確定因素(續)

中國企業所得稅(「企業所得稅」)

本集團須繳納中國企業所得稅。由於地方稅務局尚未確認有關所得稅的若干事宜，故釐定所得稅撥備時須根據目前已頒佈的稅法、法規及其他相關政策作出客觀估計及判斷。倘該等事項的最終稅款數額有別於原已記錄的數額，則差額會影響差額變現期間的所得稅及稅項撥備。

中國土地增值稅(「土地增值稅」)

本集團須繳納中國土地增值稅。土地增值稅撥備根據管理層對中國相關稅務法律及法規所載規定的理解所作最佳估計計提。實際的土地增值稅負債須待物業開發項目竣工後由稅務機關釐定。本集團尚未就其所有物業開發項目與稅務機關最終確定土地增值稅的計算及付款。最終結果可能與初步入賬的金額不同，且任何差額將會影響差額變現期間的土地增值稅開支及相關撥備。

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (CONTINUED)

Estimation uncertainty (continued)

Estimation of fair value of investment properties

In the absence of current prices in an active market for similar properties, the Group considers information from a variety of sources, including:

- (a) current prices in an active market for properties of a different nature, condition or location, adjusted to reflect those differences;
- (b) recent prices of similar properties on less active markets, with adjustments to reflect any changes in economic conditions since the date of the transactions that occurred at those prices; and
- (c) discounted cash flow projections based on reliable estimates of future cash flows, supported by the terms of any existing lease and other contracts and (when possible) by external evidence such as current market rents for similar properties in the same location and condition, and using discount rates that reflect current market assessments of the uncertainty in the amount and timing of the cash flows.

At 31 December 2019, the carrying amount of investment properties was RMB2,798,600,000 (2018: RMB2,582,000,000). Further details, including the key assumptions used for fair value measurement, are given in note 14 to the financial statements.

投資物業公允價值估計

倘活躍市場上並無類似物業的當前價格，則本集團會考慮各方面資料，包括：

- (a) 不同性質、狀況或地點的物業於活躍市場的當前價格，並進行調整以反映有關差異；
- (b) 相似物業於較不活躍市場的近期價格，並進行調整以反映自按該等價格進行交易當日以來經濟狀況出現的任何變動；及
- (c) 根據未來現金流量進行的可靠估計而預測的貼現現金流量，而該等預測乃基於任何現有租約與其他合同的條款及(如可能)外在憑證(如地點及狀況相同的類似物業當前市值租金)，並採用足以反映當前市場對無法肯定的有關現金流量金額及時間進行評估的貼現率計算。

於2019年12月31日，投資物業的賬面值為人民幣2,798,600,000元(2018年：人民幣2,582,000,000元)。包括用於公允價值計量的主要假設在內的進一步詳情載於財務報表附註14。

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (CONTINUED)

Estimation uncertainty (continued)

Impairment of non-financial assets (other than goodwill)

The Group assesses whether there are any indicators of impairment for all non-financial assets (including the right-of-use assets) at the end of each reporting period. Indefinite life intangible assets are tested for impairment annually and at other times when such an indicator exists. Other non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. Impairment exists when the carrying value of an asset or a cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The calculation of the fair value less costs of disposal is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. When value-in-use calculations are undertaken, management must estimate the expected future cash flows from the asset or cash-generating unit and choose a suitable discount rate in order to calculate the present value of those cash flows.

Deferred tax assets

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

3. 重大會計判斷及估計(續)

估計不確定因素(續)

非金融資產(商譽除外)減值

本集團於各報告期結束時評估所有非金融資產(包括使用權資產)有否任何減值跡象。無限年期的無形資產每年及於出現減值跡象的其他時間測試減值。其他非金融資產在有跡象顯示賬面值可能無法收回時進行減值測試。倘資產或現金產生單位的賬面值超逾其可收回金額(即公允價值減出售成本與使用價值的較高者),則視為已減值。公允價值減出售成本按自同類資產公平交易中具約束力的銷售交易的可得數據或可觀察市價減出售資產的增量成本計算。倘採用使用價值計算,則管理層須估計資產或現金產生單位的預期未來現金流量,選取合適的貼現率以計算該等現金流量的現值。

遞延稅項資產

倘可能具有應課稅利潤抵銷虧損,則會就未動用稅項虧損確認遞延稅項資產。管理層在釐定可予以確認的遞延稅項資產金額時,須根據未來應課稅利潤可能出現的時間及水平連同未來稅務計劃策略作出重大判斷。

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (CONTINUED)**Estimation uncertainty (continued)***Fair value of unlisted equity investments*

The unlisted equity investments have been valued based on a market-based valuation technique as detailed in note 39 to the financial statements. The valuation requires the Group to determine the comparable public companies (peers) and select the price multiple. In addition, the Group makes estimates about the discount for illiquidity and size differences. The Group classifies the fair value of these investments as Level 3. The fair value of the unlisted equity investments at 31 December 2019 was RMB115,742,000 (2018: RMB106,400,000). Further details are included in note 21 to the financial statements.

4. OPERATING SEGMENT INFORMATION

Management monitors the operating results of the Group's business which includes property development and leasing and commercial property management by project locations for the purpose of making decisions about resource allocation and performance assessment, while no single location's revenue, net profit or total assets exceed 10% of the Group's consolidated revenue, net profit or total assets, respectively. As the economic characteristics are similar in all the locations, where the nature of property development and leasing and management are similar, and the nature of the aforementioned business processes, the type or class of customer for the aforementioned business and the methods used to distribute the properties or provide the services are similar as well, and thus all locations were aggregated as one reportable operating segment.

4. 經營分部資料

管理層按項目位置監控本集團業務(包括物業管理及租賃及商業物業管理)的經營業績,以就資源分配及表現評估作出決策,而並無任何單一位置的收益、純利或總資產分別超過本集團綜合收益、純利或總資產的10%。因所有位置具備類似經濟特徵及物業開發及租賃與管理的性質、上述業務流程的性質、上述業務的客戶類型或級別以及分配財產或提供服務所用方法類似,因而所有位置被歸總為一個可報告經營分部。

(ii) Performance obligations

The Group's performance obligations are related to property sales contracts and property management service contracts and management consulting service contracts. For property sales contracts, the Group recognises revenue equal to the contract amount when the purchaser obtains the physical possession or the legal title of the completed property. For property management service and management consulting service contracts, the Group recognises revenue equal to the right-to-invoice amount when it corresponds directly with the value to the customer of the Group's performance to date, on a monthly basis. The majority of the property management service contracts do not have a fixed term. The Group has elected the practical expedient for not to disclose the remaining performance obligations for both types of contracts.

The amounts of transaction prices allocated to the remaining performance obligations (unsatisfied or partially unsatisfied) as at 31 December are as follows:

12. EARNINGS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE PARENT (CONTINUED)

The weighted average number of ordinary shares used to calculate the basic earnings per share amounts for the years ended 31 December 2019 and 2018 was based on the allotment of 100 ordinary shares of the Company as at 1 January 2018, the allotment of 100 ordinary shares as at 20 April 2018, the issuance of 200,000,000 new ordinary shares as the Company listed on the Stock Exchange on 11 October 2018, the capitalisation issue of 599,999,800 ordinary shares as at 11 October 2018, which were considered existent from the beginning of the year and the allotment and issuance of 27,880,000 additional shares by partially exercising the over-allotment as at 30 October 2018.

No adjustment has been made to the basic earnings per share amounts presented for the years ended 31 December 2019 and 2018 in respect of a dilution as the Group had no potentially dilutive ordinary shares in issue during the years ended 31 December 2019 and 2018.

14. INVESTMENT PROPERTIES
(CONTINUED)

Fair value hierarchy (continued)

The fair value of completed commercial properties is determined by the income approach by taking into account the rental income of the properties derived from the existing leases and/or achievable in the existing market with due allowance for the reversionary income potential of the leases, which have been then capitalised to determine the fair value at an appropriate capitalisation rate. Where appropriate, reference to the comparable sales transactions as available in the relevant market has also been considered.

A significant increase (decrease) in the estimated rental value would result in a significant increase (decrease) in the fair value of the investment properties. A significant increase (decrease) in the long term vacancy rate and the capitalisation rate in isolation would result in a significant decrease (increase) in the fair value of the investment properties.

The fair value of commercial properties under construction is determined by using the comparison method, with reference to comparable sales evidence as available in the relevant market to derive the fair value of the property assuming that it was completed and, where appropriate, after deducting the following items:

- Estimated construction cost and professional fees to be expensed to complete the properties that would be incurred by a market participant; and
- Estimated profit margin that a market participant would require to hold and develop the property to completion.

The higher estimated construction cost would result in the lower fair value of the investment properties under construction.

The higher expected profit margin would result in the lower fair value of the investment properties under construction.

14. 投資物業(續)

公允價值層級(續)

已竣工商業物業的公允價值乃通過收益法釐定，方法是通過計入以現有租賃所得及／或在現有市場上可收取的物業租金收入，且已就租賃的復歸收入潛力作適當估量，並已按適當的資本化率進行資本化以釐定公允價值。在適當情況下，吾等亦曾考慮參考相關市場可資比較的銷售交易。

估計租金價值大幅增加(減少)將導致投資物業的公允價值大幅增加(減少)。長期空置率及資本化率單獨大幅增加(減少)將導致投資物業的公允價值大幅減少(增加)。

在建商業物業的公允價值使用比較法釐定，經參考有關市場上可資比較的銷售個案並(如適用)經扣除以下項目後得出物業的公允價值(假設其已竣工)：

- 市場參與者令物業竣工將產生的估計建設成本及專業費用；及
- 市場參與者持有及開發物業至竣工所需的估計利潤率。

估計建設成本越高，將會導致在建投資物業公允價值越低。

預期利潤率越高，將導致在建投資物業的公允價值越低。

19. DEFERRED TAX (CONTINUED)

For presentation purposes, certain deferred tax assets and liabilities have been offset in the consolidated statement of financial position. The following is an analysis of the deferred tax balances for financial reporting purposes:

| | 2019 2019年 RMB' 000 人民幣千元 | 2018 2018年 RMB' 000 人民幣千元 |
|---|------------------------------------|------------------------------------|
| Net deferred tax assets recognised in the consolidated statement of financial position 於綜合財務狀況表內確認的淨遞延稅項資產 | 271,877 | 231,075 |
| Net deferred tax liabilities recognised in the consolidated statement of financial position 於綜合財務狀況表內確認的淨遞延稅項負債 | (417,199) | (396,417) |
| | (145,322) | (165,342) |

Pursuant to the PRC Corporate Income Tax Law, a 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprises established in Mainland China. The requirement is effective from 1 January 2008 and applies to earnings after 31 December 2007. A lower withholding tax rate may be applied if there is a tax treaty between Mainland China and the jurisdiction of the foreign investors. For the Group, the applicable rate is 10%. The Group is therefore liable for withholding taxes on dividends distributed by those subsidiaries established in Mainland China in respect of earnings generated from 1 January 2008.

19. 遞延稅項(續)

就呈列而言，若干遞延稅項資產及負債已於綜合財務狀況表內抵銷。以下為就財務申報目的之遞延稅項結餘分析：

根據中國企業所得稅法，於中國內地成立的外商投資企業向外國投資者宣派股息須繳納10%預扣稅。該規定自2008年1月1日起生效並適用於2007年12月31日後的盈利。倘中國內地與外國投資者的司法管轄區訂有稅收協定，則可應用較低的預扣稅率。就本集團而言，適用稅率為10%。因此，本集團有責任就該等於中國內地成立的子公司自2008年1月1日起產生的盈利所分派的股息繳納預扣稅。

19. DEFERRED TAX (CONTINUED)

Deferred tax liabilities (continued)

At 31 December 2019 and 2018, no deferred tax has been recognised for withholding taxes that would be payable on the unremitted earnings that are subject to withholding taxes of the Company and the Group's subsidiaries established in Mainland China. In the opinion of the directors of the Company, the Group's fund will be retained in Mainland China for the expansion of the Group's operation, so it is not probable that these subsidiaries will distribute such earnings in the foreseeable future. The aggregate amounts of temporary differences associated with investments in subsidiaries in Mainland China for which deferred tax liabilities have not been recognised totalled approximately RMB1,714,311,000 as at 31 December 2019 (2018: RMB1,917,784,000).

Deferred tax assets have not been recognised in respect of the following items:

| | 2019 2019年 RMB'000 人民幣千元 | 2018 2018年 RMB'000 人民幣千元 |
|-----------------|-----------------------------------|-----------------------------------|
| Tax losses 稅項虧損 | 186,112 | 153,586 |

Deferred tax assets are recognised for tax losses carried forward to the extent that the realisation of the related tax benefits through future taxable profits is probable. At 31 December 2019, the Group did not recognise deferred income tax assets of approximately RMB186,112,000 (2018: RMB153,586,000), in respect of tax losses amounting to approximately RMB744,450,000 (2018: RMB614,344,000), that can be carried forward to offset against future taxable income. These tax losses will expire up to and including years ending 31 December 2020, 2021, 2022, 2023 and 2024, respectively.

19. 遞延稅項(續)

遞延稅項負債(續)

於2019年及2018年12月31日，本公司及本集團並無就於中國內地成立的子公司應繳納預扣稅的未匯出盈利而應付的預扣稅確認遞延稅項。本公司董事認為，本集團的資金將就拓展本集團的經營而於中國內地保留，故該等子公司於可預見將來不大可能分派有關盈利。於2019年12月31日，與於中國內地子公司的投資相關而未確認遞延稅項負債的總暫時差額合共約為人民幣1,714,311,000元(2018年：人民幣1,917,784,000元)。

並無就以下項目確認遞延稅項資產：

倘若相關稅項利益可能透過未來應課稅利潤變現，則會就所結轉的稅項虧損確認遞延稅項資產。於2019年12月31日，本集團並無就約為人民幣186,112,000元(2018年：人民幣153,586,000元)的稅項虧損確認遞延所得稅資產約人民幣744,450,000元(2018年：人民幣614,344,000元)，該等遞延所得稅資產可予結轉以抵銷未來應課稅收入。該等稅項虧損將分別於截至2020年、2021年、2022年、2023年及2024年12月31日止年度(並包括該等年度)屆滿。

| Impairment 減值 | - | - |
| | 13,528 | 33,531 |

Trade receivables mainly represent receivables from sales of properties and rentals receivable from tenants. The Group seeks to maintain strict control over its outstanding receivables and has a credit control department to minimise credit risk. Overdue balances are reviewed regularly by management. In view of the aforementioned, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are unsecured and non-interest-bearing.

The carrying amounts of trade receivables in the consolidated statement of financial position approximate to their fair values.

An ageing analysis of the trade receivables as at the end of the reporting period, based on the invoice date, is as follows:

| | 2019 2019年 RMB' 000 人民幣千元 | 2018 2018年 RMB' 000 人民幣千元 |

Receivables that were neither past due nor impaired relate to a large number of diversified customers for whom there was no recent history of default.

貿易應收款項主要指物業銷售應收款項及應收租戶租金。本集團尋求對其未收回應收款項維持嚴格控制並設有信用控制部門以將信貸風險最小化。管理層會定期審閱逾期結餘。鑒於以上所述，並無重大信貸風險集中情況。本集團並無就其貿易應收款項結餘持有任何抵押物或其他信用增強手段。貿易應收款項為無抵押且不計息。

綜合財務狀況表中貿易應收款項的賬面值與其公允價值相若。

於報告期結束時，基於發票日期的貿易應收款項賬齡分析如下：

未逾期亦未減值應收款項涉及大量無近期違約記錄的不同類型客戶。

24. TRADE RECEIVABLES (CONTINUED)

The Group applies the simplified approach to providing for expected credit losses prescribed by IFRS 9, which permits the use of the lifetime expected loss provision for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due. The expected loss rate of trade receivables is assessed to be 0.1%. Based on evaluation on the expected loss rate and gross carrying amount, meanwhile, given all receivables are in the credit term, the directors of the Company are of the opinion that the ECL in respect of these balances is considered to be immaterial, and therefore, there has not been a loss allowance provision.

24. 貿易應收款項(續)

本集團採用簡化辦法，計提國際財務報告準則第9號規定的預期信貸虧損，有關條文允許為所有貿易應收款項計提整個存續期的預期虧損撥備。為計量預期信貸虧損，貿易應收款項根據共同信貸風險特徵和逾期天數進行分組。貿易應收款項的預期虧損率估計為0.1%。根據對預期虧損率及總賬面值的評估，同時由於全部應收款項均處於信貸期內，本公司董事認為，該等結餘的預期信貸虧損並不重大，故並無計提虧損撥備。

**36. CONTINGENT LIABILITIES
(CONTINUED)**

Notes:

- (1) The Group provided guarantees in respect of mortgage facilities granted by certain banks to the purchasers of the Group's completed properties held for sale. Pursuant to the terms of the guarantee arrangements, in case of default on mortgage payments by the purchasers, the Group is responsible for repaying the outstanding mortgage principals together with any accrued interest and penalties owed by the defaulted purchasers to those banks.

Under the above arrangement, the related properties were pledged to the banks as collateral for the mortgage loans. Upon default on mortgage repayments by these purchasers, the banks are entitled to take over the legal titles and will realise the pledged properties through open auction.

The Group's guarantee period starts from the dates of grant of the relevant mortgage loans and ends upon the issuance and registration of property ownership certificates to the purchasers, which will generally be available within half a year to two years after the purchasers take possession of the relevant properties.

The Group did not incur any material losses during the reporting period in respect of the guarantees provided for mortgage facilities granted to purchasers of the Group's completed properties held for sale. The directors of the Company considered that in case of default on payments, the net realisable value of the related properties would be sufficient to repay the outstanding mortgage loans together with any accrued interest and penalty, and therefore, no provision has been made in connection with the guarantees.

- (2) The Group provided guarantees to banks and other institutions in connection with borrowings made to the joint ventures and associates. The directors of the Company consider that no provision is needed in respect of the guarantees provided to the joint ventures and associates as of 31 December 2019 (2018: Nil) since the fair value is not significant. Further details of the related party transactions are included in note 38.

36. 或然負債(續)

附註：

- (1) 本集團就若干銀行向本集團已竣工持作銷售物業買方授出的抵押融資提供擔保。根據擔保安排的條款，如買方拖欠按揭付款，本集團負責向該等銀行償還未償還抵押本金連同違約買方所欠的任何應計利息及罰款。

根據上述安排，相關物業已質押予該等銀行作為抵押貸款的抵押品。倘該等買方拖欠抵押還款，則該等銀行有權接管有關法定業權，並透過公開拍賣將抵押物業變現。

本集團的擔保期由授出相關抵押貸款日期起至買方獲發房屋所有權證及辦理登記止，有關證明一般會於買方接管相關物業後的半年至兩年內取得。

於報告期，本集團並未就向本集團已竣工持作銷售物業買方授出的抵押融資提供擔保產生任何重大損失。本公司董事認為如出現違約付款，相關物業的可變現淨值可足以償還未償還抵押貸款連同任何應計利息及罰款，故並無對擔保計提撥備。

- (2) 本集團就向合營企業及聯營公司作出的借貸向銀行及其他機構提供擔保。由於公允價值並不重大，本公司董事認為無需就於2019年12月31日向合營企業及聯營公司提供的擔保(2018年：零)計提撥備。有關關聯方交易的進一步詳情載於附註38。

31 DECEMBER 2019 2019年12月31日

40. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (CONTINUED)

Management has assessed that the fair values of cash and cash equivalents, pledged deposits, restricted cash, amounts due from related companies, trade receivables, financial assets included in prepayments, other receivables, trade and bills payables, financial liabilities included in other payables and accruals and amounts due to related companies approximate to their carrying amounts largely due to the short-term maturities of these instruments.

The Group's finance department headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The finance manager reports directly to the chief financial officer. At each reporting date, the finance department analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the chief financial officer. The valuation results are discussed with the audit committee twice a year for interim and annual financial reporting.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

For the fair values of listed equity investments, management has estimated the fair value by quoting active market prices, and therefore, the fair value measurement of the financial assets at fair value through profit or loss is categorised within Level 1 of the fair value hierarchy.

For the fair values of the unlisted fund investments under IAS 39 during the year ended 31 December 2019, management has estimated the fair value by the expected future cash flows, and the fair value measurement of the financial assets at fair value through profit or loss is categorised within Level 2 of the fair value hierarchy.

40. 金融工具的公允價值及公允價值層級(續)

管理層已評估現金及現金等價物、已質押存款、受限制現金、應收關聯公司款項、貿易應收款項、計入預付款項的金融資產、其他應收款項、貿易應付款項及應付票據、計入其他應付款項及應計費用的金融負債以及應付關聯公司款項的公允價值與其賬面值相若，主要是由於該等工具於短期內到期。

本集團的財務部門由財務經理帶領，負責釐定金融工具公允價值計量的政策及程序。財務經理直接向首席財務官匯報。於各報告日期，財務部門分析金融工具價值的變動並決定應用於估值的主要輸入數據。估值由首席財務官審閱及批准。每年就中期及年度財務報告與審計委員會對估值結果進行兩次討論。

金融資產及負債的公允價值以自願交易方(強迫或清盤銷售除外)當前交易中該工具的可交易金額入賬。

就上市股權投資之公允價值而言，管理層通過活躍市場報價估計公允價值，因此按公允價值計入損益的金融資產的公允價值計量於公允價值層級內分類為第一級。

於截至2019年12月31日止年度，就國際會計準則第39號下的非上市基金投資的公允價值而言，管理層通過預期未來現金流量估計公允價值。按公允價值計入損益的金融資產的公允價值計量於公允價值層級內分類為第二級。

40. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (CONTINUED)

Management has applied the comparable companies' market value approach in determining fair value of unlisted equity investments, which is classified as equity investments designated at FVOCI under IFRS 9, using price to earnings ratio ("P/E") and price to book ratio ("P/B") multiples, which are calculated by using comparable companies' financial statements, to determine the fair value of the unlisted equity investments and taking into account marketability discount as the appropriate adjustment. Comparable companies are based on similarity of business nature and profitability. The fair value measurement of the equity investments designated at FVOCI is categorised within Level 3 of the fair value hierarchy.

The fair values of interest-bearing bank and other borrowings have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The Group's own non-performance risk for interest-bearing bank and other borrowings as at 31 December 2018 and 31 December 2019 was assessed to be insignificant.

The fair values of senior notes are based on market prices. The fair values of senior notes have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities.

管理層已於釐定非上市股權投資(按國際財務報告準則第9號分類為指定為按公允價值計入其他全面收入的股權投資)的公允價值時應用可資比較公司的市值法,透過市盈率(「市盈率」)及市淨率(「市淨率」)倍數(透過使用可資比較公司之財務報表計算)釐定非上市股權投資的公允價值並經計及作為適當調整的可銷性折讓。可資比較公司乃基於相似的業務性質及盈利能力。指定為按公允價值計入其他全面收入的股權投資的公允價值計量於公允價值層級內分類為第三級。

計息銀行及其他借貸的公允價值乃通過貼現預期未來現金流量計算,並採用現時可用於具類似條款、信貸風險及剩餘期限的工具的貼現率。本集團本身的計息銀行及其他借貸於2018年12月31日及2019年12月31日的不履約風險被評定為並不重大。

優先票據的公允價值乃基於市場價格。優先票據的公允價值乃透過使用有類似條款、信貸風險及餘下到期日的工具當前可獲得之市率,以折讓預期未來現金流量而計算。

31 DECEMBER 2019 2019年12月31日

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments mainly include cash and cash equivalents, restricted cash, pledged deposits, trade and other receivables, and trade payables and other payables, which arise directly from its operations. The Group has other financial assets and liabilities such as interest-bearing bank and other borrowings, senior notes, amounts due to related companies and amounts due from related companies. The main purpose of these financial instruments is to raise finance for the Group's operations.

The main risks arising from the Group's financial instruments are interest rate risk, credit risk and liquidity risk. Generally, the Group introduces conservative strategies on its risk management. To keep the Group's exposure to these risks to a minimum, the Group has not used any derivatives and other instruments for hedging purposes. The Group does not hold or issue derivative financial instruments for trading purposes. The board of directors reviews and agrees policies for managing each of these risks and they are summarised below:

(a) Interest rate risk

The Group's exposure to risk for changes in market interest rates relates primarily to the Group's interest-bearing bank and other borrowings set out in note 30. The Group does not use derivative financial instruments to hedge interest rate risk. The Group manages its interest cost using variable rate bank borrowings and other borrowings.

If the interest rate of bank and other borrowings had increased/decreased by 1% and all other variables held constant, the profit before tax of the Group, through the impact on floating rate borrowings would have decreased/increased by approximately RMB5,665,000 for the year ended 31 December 2019 (2018: RMB3,621,000).

41. 財務風險管理目標及政策

本集團的主要金融工具主要包括現金及現金等價物、受限制現金、已質押存款、貿易及其他應收款項以及貿易應付款項及其他應付款項，該等金融工具因其經營而直接產生。本集團擁有其他金融資產及負債，如計息銀行及其他借貸、優先票據、應付關聯公司款項及應收關聯公司款項。該等金融工具的主要目的在於為本集團的運營融資。

本集團金融工具產生的主要風險為利率風險、信貸風險及流動性風險。一般而言，本集團對其風險管理採取保守策略。為將本集團所面臨的該等風險保持最低，本集團並無使用任何衍生及其他工具作對沖目的。本集團未持有或發行作交易用途的衍生金融工具。董事會檢討並同意各項風險管理政策，其概述如下：

(a) 利率風險

本集團面臨的市場利率變動風險主要與附註30所載的本集團計息銀行及其他借貸有關。本集團並無使用衍生金融工具對沖利率風險。本集團使用浮息銀行借貸及其他借貸管理其利息成本。

倘在所有其他變量維持不變情況下銀行及其他借貸的利率上升／下降1%，則本集團截至2019年12月31日止年度的除稅前利潤（透過對浮息借貸的影響）將減少／增加約人民幣5,665,000元（2018年：人民幣3,621,000元）。

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)**(b) Credit risk**

The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant. For transactions that are not denominated in the functional currency of the relevant operating unit, the Group does not offer credit terms without the specific approval of the Head of Credit Control.

Maximum exposure and year-end staging

The table below shows the credit quality and the maximum exposure to credit risk based on the Group's credit policy, which is mainly based on past due information unless other information is available without undue cost or effort, and year-end staging classification as at 31 December. The amounts presented are gross carrying amounts for financial assets.

41. 財務風險管理目標及政策 (續)**(b) 信貸風險**

本集團僅與認可及信譽超著的第三方進行買賣。本集團的政策為所有有意以信貸期進行買賣之客戶，須接受信貸審核程序。此外，應收款項結餘受持續監管，而本集團承受壞賬的風險並不重大。對於並非以有關營運單位功能貨幣計值的交易，本集團在未經信用控制部門主管特別批准的情況下不會給予信貸期。

最高風險及年末階段

(b) Credit risk (continued)

Maximum exposure and year-end staging (continued)

- * For trade receivables to which the Group applies the simplified approach for impairment based on the disclosure in note 24 to the financial statements, there is no significant concentration of credit risk.
- ** The credit quality of the financial assets included in prepayments, other receivables and other assets is considered to be "normal" when they are not past due and there is no information indicating that the financial assets had a significant increase in credit risk since initial recognition.

Credit risk is the risk of loss due to the inability or unwillingness of a counterparty to meet its contractual obligations. Exposure to credit risk arises primarily from its financing activities to customers.

The Group has no concentrations of credit risk in view of its large number of customers. The Group did not record any significant bad debt losses during the year of 2019.

The credit risk of the Group's other financial assets, which mainly comprise cash and pledged deposits, other receivables, and amounts due from related companies, arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

(b) 信貸風險(續)

最高風險及年末階段(續)

- * 就本集團基於財務報表附註24所披露的資料應用簡易方法進行減值的貿易應收款項而言，並無重大信貸風險集中情況。
- ** 倘計入預付款項、其他應收款項及其他資產的金融資產並無逾期亦無資料顯示自初步確認起金融資產的信貸風險大幅增加，則其信貸質素被視為「正常」。

信貸風險指因交易對手無法或不願履行其合同責任而帶來的虧損風險。信貸風險主要來自向客戶提供融資服務。

鑒於本集團擁有大量客戶，故並無信貸風險集中情況。於2019年內，本集團並無錄得任何重大壞賬虧損。

本集團其他金融資產(主要包括現金及已質押存款、其他應收款項及應收關聯公司款項)的信貸風險產生自交易對手的違約，最高風險等於該等工具的賬面值。

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)**(d) Equity price risk**

The Group is exposed to equity price risk arising from its investment in listed equity investments included in financial assets at fair value through profit or loss and unlisted equity investments at fair value through other comprehensive income as at 31 December 2019. The management manages this exposure by maintaining a portfolio of investments with different risks. The Group's equity price risk is mainly concentrated on listed equity investments quoted in the Stock Exchange. In addition, the Group has appointed a special team to monitor the price risk and will consider hedging the risk exposure should the need arise.

If the prices of the respective listed equity investments had been 5% higher/lower, profit and total comprehensive income for the year, net of tax, would increase/decrease by RMB17,765,000 for the Group as a result of the changes in fair value of listed financial assets.

(e) Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholder's value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares.

41. 財務風險管理目標及政策(續)**(d) 股權價格風險**

於2019年12月31日，本集團就投資於按公允價值計入損益的金融資產之上市股權投資及按公允價值計入其他全面收入之非上市股權投資而面臨股權價格風險。管理層維持具有不同風險之投資組合以管理該等風險。本集團之股權價格風險主要集中於在聯交所報價之上市股權投資。此外，本集團已委派專責團隊監控價格風險，並將於有需要時考慮對沖所面臨之風險。

倘有關上市股權投資之價格上升／下降5%，本集團之年內利潤及總全面收入（扣除稅項）將因上市金融資產公允價值之變動增加／減少人民幣17,765,000元。

(e) 資本管理

本集團資本管理的主要目標為保障本集團持續經營並維持穩健的資本比率的能力，以支持其業務並使股東價值最大化。

本集團會根據經濟狀況的變化管理及調整其資本結構。為維持或調整資本結構，本集團或會調整派付予股東的股息、返還股東資本或發行新股。
