MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is principally a Hong Kong-based brand builder, retailer and wholesaler of health and personal care products focusing on the development, marketing, sales and distribution of the branded products. The major brands developed and managed by the Group include "Ausupreme", "Organic Nature", "Superbee" and "Top Life", which are sold under our well-established "澳至尊" sales and distribution network.

Market Overview

In this Year, the ongoing COVID-19 pandemic has been casting severe implications for many business sectors especially in global tourism industry since year 2020. Most people were expecting vaccine could help to seal the spread of virus in order to improve the economy. Despite the fact that vaccines have been developed, the recurrent outbreak and variations of virus strain are still hindering the recovery in the global market.

According to the Hong Kong Tourism Board, the total number of visitor arrivals was only 96,203 during the period from April 2020 to March 2021. The total number of visitor arrivals during the same period of last year was 41,167,439. There was a drastic drop of 99.77% of visitor arrivals to Hong Kong. It is mainly due to the continuous imposition of travel restriction and quarantine measures. The overall retail market in Hong Kong is adversely suffered from the COVID-19 pandemic.

Overall Performance

For the year ended 31 March 2021, the Group's revenue amounted to HK\$102,907,000, representing a decrease of 51.1% from HK\$210,543,000 for Year 2020. Meanwhile, the consolidated profit attributable to owners of the Company for the Year amounted to HK\$3,844,000, which represented a decrease of 68.1% from HK\$12,047,000 for Year 2020. Unfavourable performance of the sales and results of the Group was mainly due to the sharp decline in tourist spending, weak local consumer sentiments and fluctuating retail market conditions in Hong Kong as a result of the impact of the COVID-19. The Group has been closely monitoring the market conditions and the pandemic development and adopting tightened cost control and other cautious approaches to cope with the volatile business environment.

As at 31 March 2021, the Group had 16 specialty stores and 74 consignment counters (31 March 2020: 15 specialty stores and 75 consignment counters) in Hong Kong, Macau and Singapore, among which 13 consignment counters were closed temporarily due to the COVID-19 epidemic and the closure of Hong Kong's borders by the government. The Group will continue to identify carefully suitable locations for the specialty stores and other sales channels to maximize its exposure to the target customers.

FINANCIAL REVIEW

For the year under review, the Group's revenue and consolidated profit attributable to owners of the Company recorded a decline. The decrease in the Group's results for the Year was mainly attributable to the decrease in sales resulting from the adverse retail conditions caused by the COVID-19 pandemic for over a year. The significant reduction in tourist arrivals and tourist spending in Hong Kong as well as weakened local consumer sentiments continuously pose a negative impact on the overall retail market. The Group's revenue decreased by 51.1% to HK\$102,907,000 (2020: HK\$210,543,000) and the consolidated profit attributable to owners of the Company for the Year decreased by 68.1% to HK\$3,844,000 (2020: HK\$12,047,000).

During the Year, the Group's revenue for sales channels of specialty stores and e-commerce increased by 0.8% to HK\$32,100,000 (2020: HK\$31,836,000) and 74.7% to HK\$16,563,000 (2020: HK\$9,481,000) respectively. The impressive increase in revenue of e-commerce was a result of the Company reallocating more human and promotion resources to this channel during the Year. Some experienced nutritionists and sales staff have been trained to be professional Key Opinion Leaders (KOLs) webcast on Tmall and Facebook live-streaming platforms, sharing our high-quality products and nutrients' tips to foster online sales and nurture long-term relationship with customers through real-time interactions through the screen. Such measures received good responses and greatly increased the revenue of e-commerce channel. The sales of consignment counters decreased by 70.8% to HK\$47,382,000 for the Year (2020: HK\$162,279,000). The decline was mainly due to the recurrent outbreak of the COVID-19 in Hong Kong since January 2020, which adversely weakening the overall retail condition. For the year ended 31 March 2021, the revenue of remaining sales which included wholesale and sales at trade fairs and exhibitions dropped by 1.2% to HK\$6,862,000 for the year ended 31 March 2021 (2020: HK\$6,947,000).

The cost of sales decreased by HK\$12,095,000 or 39.8% to HK\$18,292,000 for the year ended 31 March 2021 (2020: HK\$30,387,000). The decrease was mainly attributable to the diminution in revenue for the Year. The gross profit ratio decreased by 3.4% to 82.2% for the Year (2020: 85.6%). The decrease was mainly attributable to the additional provision for obsolete inventories and more sales promotions and discounts offered to boost sales during the Year as a result of the COVID-19 pandemic.

The selling and distribution expenses of the Group decreased by 47.1% to HK\$73,620,000 for the year ended 31 March 2021 (2020: HK\$139,173,000). This decrease was mainly attributable to the decline in consignment commission and the sales staff cost as a result of the diminution in revenue and the strengthening of the cost control, respectively.

The general and administrative expenses of the Group dropped by 15.7% to HK\$24,005,000 for the year ended 31 March 2021 (2020: HK\$28,467,000). Governments of various countries have adopted strict anti-epidemic control measures at the borders due to the outbreak of COVID-19, the staff have changed the way of contacting suppliers and employees outside Hong Kong via email or video conference to replace the previous form of business trip.

No finance costs for bank borrowings were incurred for the years ended 31 March 2021 and 2020 as the Group did not have any bank borrowings for these years. The Group's finance costs of interest expense on lease liabilities amounting to HK\$544,000 for the Year (2020: HK\$787,000) were incurred as a result of the application of Hong Kong Financial Reporting Standard 16 "Leases".

The income tax credit mainly arose from the increase in non-taxable income such as income from government grants. Taxation for overseas subsidiaries is charged at the appropriate current rates of taxation ruling in the relevant tax jurisdictions.

As a result of the above factors, profit attributable to owners of the Company for the year ended 31 March 2021 recorded a decrease of HK\$8,203,000 or 68.1% to HK\$3,844,000 as compared to a profit of HK\$12,047,000 for Year 2020.
