1. CORPORATE INFORMATION

The Company was incorporated as an exempted company with limited liability in the Cayman Islands on 8 May 2008. The registered address of the Company is located at Cricket Square, Hutchins Drive, PO Box 2681, Grand Cayman, KY1-1111, Cayman Islands. The head office and principal place of business of the Company is located at Units 612-3 and 617, Houston Centre, 63 Mody Road, Tsim Sha Tsui East, Kowloon, Hong Kong.

The shares of the Company have been listed on The Stock Exchange of Hong Kong Limited (the "Stock Exchange") since 23 March 2009.

The principal activities of the Group are the procurement of dried cassava chips in Southeast Asian countries and the sale of dried cassava chips in Mainland China and Thailand, hotel operations in Mainland China and property investment.

In the opinion of the directors, the immediate and ultimate holding company of the Company is Art Rich Management Limited which was incorporated in the British Virgin Islands.

2. BASIS OF PREPARATION

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for investment properties, certain buildings classified as property, plant and equipment, certain financial assets at fair value through other comprehensive income and financial assets at fair value through profit or loss which have been measured at fair value. These financial statements are presented in Hong Kong dollars and all values are rounded to the nearest thousand except when otherwise indicated.

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the "Group") for the year ended 31 March 2021. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

2. BASIS OF PREPARATION (continued)

Basis of consolidation (continued)

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other total comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

3. CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the *Conceptual Framework for Financial Reporting 2018* and the following revised HKFRSs for the first time for the current year's financial statements.

| Amendments to HKFRS 3 | Definition of a Business |
|------------------------|--------------------------------|
| Amendments to HKFRS 9, | Interest Rate Benchmark Reform |
| HKAS 39 and HKFRS 7 | |
| Amendments to HKAS 1 | Definition of Material |
| and HKAS 8 | |

The nature and the impact of the *Conceptual Framework for Financial Reporting 2018* and the revised HKFRSs are described below:

(a) Conceptual Framework for Financial Reporting 2018 (the "Conceptual Framework") sets out a comprehensive set of concepts for financial reporting and standard setting, and provides guidance for preparers of financial statements in developing consistent accounting policies and assistance to all parties to understand and interpret the standards. The Conceptual Framework includes new chapters on measurement and reporting financial performance, new guidance on the derecognition of assets and liabilities, and updated definitions and recognition criteria for assets and liabilities. It also clarifies the roles of stewardship, prudence and measurement uncertainty in financial reporting. The Conceptual Framework is not a standard, and none of the concepts contained therein override the concepts or requirements in any standard. The

Conceptual Framework did not have any significant impact on the financial position and performance of the Group.

- (b) Amendments to HKFRS 3 clarify and provide additional guidance on the definition of a business. The amendments clarify that for an integrated set of activities and assets to be considered a business, it must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. A business can exist without including all of the inputs and processes needed to create outputs. The amendments remove the assessment of whether market participants are capable of acquiring the business and continue to produce outputs. Instead, the focus is on whether acquired inputs and acquired substantive processes together significantly contribute to the ability to create outputs. The amendments have also narrowed the definition of outputs to focus on goods or services provided to customers, investment income or other income from ordinary activities. Furthermore, the amendments provide guidance to assess whether an acquired process is substantive and introduce an optional fair value concentration test to permit a simplified assessment of whether an acquired set of activities and assets is not a business. The Group has applied the amendments prospectively to transactions or other events that occurred on or after 1 April 2020. The amendments did not have any impact on the financial position and performance of the Group.
- (c) Amendments to HKFRS 9, HKAS 39 and HKFRS 7 address issues affecting financial reporting in the period before the replacement of an existing interest rate benchmark with an alternative risk-free rate ("RFR"). The amendments provide temporary reliefs which enable hedge accounting to continue during the period of uncertainty before the introduction of the alternative RFR. In addition, the amendments require companies to provide additional information to investors about their hedging relationships which are directly affected by these uncertainties. The amendments did not have any impact on the financial position and performance of the Group as the Group does not have any interest rate hedging relationships.
- (d) Amendments to HKAS 1 and HKAS 8 provide a new definition of material. The new definition states that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. The amendments clarify that materiality will depend on the nature or magnitude of information, or both. The amendments did not have any significant impact on the financial position and performance of the Group.

4. SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their products and services and has three reportable operating segments as follows:

- (a) the procurement and sale of dried cassava chips segment engages in the procurement and sale of dried cassava chips;
- (b) the property investment segment invests in office space and industrial properties for its rental income potential; and
- (c) the hotel operations segment engages in hotel operations in the Mainland China.

Management monitors the results of its operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on reportable segment profit/(loss), which is a measure of adjusted profit/(loss) before tax. The adjusted profit/(loss) before tax is measured consistently with the Group's profit/(loss) before tax except that interest income, certain other operating expenses, non-lease-related finance costs, as well as head office and corporate expenses are excluded from such measurement.

Segment assets exclude cash and cash equivalents, pledged deposits and a restricted bank balance, equity investments at fair value through other comprehensive income, debt investments at fair value through other comprehensive income, financial assets at fair value through profit or loss, club membership, deferred tax assets, other unallocated head office and corporate assets as these assets are managed on a group basis.

Segment liabilities exclude tax payable, deferred tax liabilities and other unallocated head office and corporate liabilities as these liabilities are managed on a group basis.

Notwithstanding the above repayment on demand clause, the directors do not believe that the bank loans will be called in their entirety within 12 months, and they consider that the bank loans will be repaid in accordance with the maturity dates as set out in the respective agreements. This evaluation was made considering: the financial position of the Group at the date of this announcement; the Group's compliance with the loan covenants; the lack of events of default, and the fact that the Group has made all previously scheduled repayments on time. In accordance with the terms of the bank loans, their maturity terms at 31 March 2021 are HK\$807,772,000 in 2022, HK\$8,000,000 in 2023, HK\$8,000,000 in 2024, HK\$8,000,000 in 2025, and HK\$404,000,000 in 2026 (2020: HK\$714,416,000 in 2021, HK\$4,000,000 in 2022, HK\$8,000,000 in 2024, HK\$8,000,000 in 2025, and HK\$404,000,000 in 2026 (2020: HK\$714,416,000 in 2021, HK\$4,000,000 in 2022, HK\$8,000,000 in 2024, HK\$8,000,000 in 2025, and HK\$404,000,000 in 2026 (2020: HK\$714,416,000 in 2021, HK\$4,000,000 in 2022, HK\$8,000,000 in 2024, HK\$8,000,000 in 2025, and HK\$404,000,000 in 2026 (2020: HK\$714,416,000 in 2021, HK\$4,000,000 in 2022, HK\$8,000,000 in 2024, HK\$8,000,000 in 2025, and HK\$404,000,000 in 2026 (2020: HK\$714,416,000 in 2021, HK\$4,000,000 in 2022, HK\$8,000,000 in 2024, HK\$8,000,000 in 2025, and HK\$404,000,000 in 2026 (2020: HK\$714,416,000 in 2025, and HK\$404,000,000 in 2026).

MANAGEMENT DISCUSSION AND ANALYSIS

During the year ended 31 March 2021 (the "Current Year"), the Group was principally engaged in procurement of dried cassava chips in Southeast Asian countries, including Thailand, Cambodia and Vietnam, and sales of dried cassava chips, to customers in the People's Republic of China (the "PRC"). The Group is continued to be the largest procurer and exporter of dried cassava chips in Thailand and the largest supplier of imported dried cassava chips in the PRC with an all-round integrated business model covering procurement, processing, warehousing, logistics and sale of cassava chips.

Business review

During the Current Year in which the impact of coronavirus epidemic still persisted, the demand for alcoholic products (to which the dried cassava chips are one of the raw materials for production in the PRC) is increased significantly which triggered demand of the dried cassava chips. The Group's revenue from procurement and sales of dried cassava chips was increased to approximately HK\$2,689.1 million for the Current Year, representing an increase of approximately 91.9% from approximately HK\$1,401.6 million for the previous year.

As regards the Group's hotel operation, the revenue generated from hotel room rental and catering from restaurant was improving but still subject to uncertainties from the coronavirus epidemic and China's macroeconomic growth. The Group will continue to put efforts on overcoming unfavourable factors and capitalising opportunities, such as putting resources in promoting food & drink delivery services, the birthday party or wedding banquets packages and optimising staff allocation.

As regards "338 Apartment", a shop on the ground floor of this property is currently leased out to a third party for operation of a chain restaurant while certain upper apartment units are currently operated by the Group as serviced apartment operators upon the lapse of the lease to the local serviced apartment operators.

Financial Review

Revenue

The Group's revenue from procurement and sales of dried cassava chips increased by approximately HK\$1,287.5 million or approximately 91.9% from approximately HK\$1,401.6 million for the previous year to approximately HK\$2,689.1 million for the Current Year. Increase in the Group's revenue was mainly attributable to the increase in sales volume of dried cassava chips in the mainland China and average selling price during the Current Year.

The Group's revenue from hotel operation amounted to approximately HK\$18.6 million for the Current Year, representing an increase of approximately 14.8% from approximately HK\$16.2 million for the previous year. During the Current Year, the Group's hotel operation was still subject to pressures from the coronavirus epidemic in China and the slowdown in China's macro-economic growth. Nevertheless, the Group continues to put efforts on overcoming unfavourable factors and capitalising opportunities, such as putting resources in promoting food and drinks delivery services, the birthday party or wedding banquets packages and optimising staff allocation.

Gross profit and gross profit margin

The Group's cost of sales from procurement and sales of dried cassava chips increased by approximately HK\$1,184.8 million, or approximately 94.1%, from approximately HK\$1,258.8 million for the previous year to approximately HK\$2,443.6 million for the Current Year, mainly due to the increase in sales quantity of dried cassava chips in the Current Year.

The Group's gross profit from procurement and sales of dried cassava chips increased by approximately HK\$102.7 million from approximately HK\$142.8 million for the previous year to approximately HK\$245.5 million for the Current Year, mainly due to the increase in revenue from procurement and sales of dried cassava chips.

The Group's gross profit margin from procurement and sales of dried cassava chips for the Current Year decreased to approximately 9.1% from approximately 10.2% for the previous year. A higher portion of shipments with the shipping term "FOB" was achieved for the Current Year as compared with the previous year, which resulted in lowering the average gross profit margin but simultaneously reducing the Group's ocean freight costs.

The Group's cost of sales from hotel operation increased to approximately HK\$7.3 million for the Current Year from approximately HK\$5.6 million for the previous year. The Group's gross profit margin from hotel operation for the Current Year decreased to approximately 60.7% from approximately 65.4% for the previous year.

Selling and distribution costs

During the Current Year, the Group's selling and distribution expenses of approximately HK\$149.1 million (2020: approximately HK\$111.9 million) comprised mainly (a) ocean freight costs of approximately HK\$44.3 million (2020: approximately HK\$40.7 million), (b) warehouse, handling and inland transportation expenses of approximately HK\$96.2 million (2020: approximately HK\$64.2 million) and (c) those related to hotel operation of approximately HK\$8.6 million (2020: approximately HK\$7.0 million).

The Group's selling and distribution expenses increased mainly due to increase in sales volume during the Current Year.

The Group's selling and distribution expenses represented 5.5% of the total sales revenue for the Current Year, compared to that of 7.9% for the corresponding period of the previous year which was mainly attributable to the higher portion of shipments with the shipping term "FOB" as compared with the previous year.

General and administrative expenses

General and administrative expenses of the Group increased from approximately HK\$40.6 million in the previous year to approximately HK\$61.7 million in the Current Year, mainly due to (i) the inclusion of net exchange loss of approximately HK\$11.2 million (2020: net exchange gain of approximately HK\$15.6 million) arising from the Group's overseas operation due to fluctuation in exchange rates, and (ii) the overall decrease in operating expenses as the Group implemented control over expenditure.

Finance costs

Finance expenses of the Group decreased from approximately HK\$22.0 million for the previous year to approximately HK\$12.9 million for the Current Year. The decrease in finance costs was mainly due to decrease in average interest rates of the trade financing loans and bank borrowing during the Current Year as compared with the previous year.

Prospect

In the PRC, renewable energy is considered a vital resource of energy, playing an important role in the aspects such as satisfying national energy safety and demand, and reducing environmental pollution. The PRC's policy of "non-competition for grain with people and non-competition for harvest land with grain" stipulates that grains such as corn should be used with priority for animal feeds and food so as to guarantee the national food safety. As a result, the use of non-grain feedstock to produce bio-fuel is encouraged by the PRC government. We anticipate that the demand of dried cassava chips in the PRC ethanol fuel industry will be growing which is beneficial to the Group's long-term business development.

For procurement, the Group has procurement facilities and networks in Thailand, Cambodia and Laos of total storage capacity of 600,000 tonnes, which pave the solid foundation for enhancement of the market coverage and maintenance of long-term business development. The Group targets to reduce its unit cost of dried cassava chips and increase its gross profit margin with the effect of economy of scales in relation to the procurement business of dried cassava chips by the Group's procurement networks in Thailand, Vietnam, Laos and Cambodia. In medium and long-run, the Group intends to set up additional procurement facilities and networks (when appropriate) in Thailand, Vietnam Laos or Cambodia so as to cope with the expected increase in demand of dried cassava chips, to increase the Group's market share and to maintain our leading position in the industry.

The Group's unique and integrated business model combines the procurement, processing, warehousing, logistics and sale of cassava chips. Looking ahead, the Group plans to continue establishing more procurement and warehouse centres in order to replicate the proven business model in Thailand. Riding on our broad procurement channels and network together with the warehouse facilities, optimised logistics capabilities and the widespread sales network in the PRC, the Group will continue to strive to enhance our market coverage and maximise returns for our shareholders.
