Matsumoto's in full. At the request of the Bank, the 2020 Guarantee Agreement and the 2020 Share Charge Agreement were entered into as security for the Bank Loan (i.e. the Financial Assistance 2020).

The 2021 Shareholder's Loan by Nodic-Matsumoto was utilised to make a quarter repayment of the Bank Loan.

Huizhou Jiayifu expects to commence the pre-sale of the properties in the Development Project at the end of 2021. Update on the Development Project" in this Board Letter, the Development Project is approximately 36.5% complete as at the Latest Practicable Date. In view of the potential growth and outlook of the property market in the region where the Land is situated after taking into account the economic potential of the Greater Bay Area and the approximately 20% increase in the average price per square metres of surrounding residential properties since January 2019, the Board is confident of the positive prospects of the Development Project.

The terms of the 2020 Loan Agreement, the 2020 Loan Supplemental Agreement, 2020 Guarantee Agreement, 2020 Share Charge Agreement, the 2021 Shareholder's Loan by Nodic-Matsumoto and the 2021 Supplemental Cooperation Agreement were determined after arm's length negotiations between the parties. The Directors (including all the independent non-executive Directors) are of the view that the terms of the 2020 Loan Agreement, the 2020 Loan Supplemental Agreement, 2020 Guarantee Agreement, 2020 Share Charge Agreement, the 2021 Shareholder's Loan by Nodic-Matsumoto and the 2021 Supplemental Cooperation Agreement are on normal commercial terms and are fair and reasonable. In light of the above and the positive prospects of the Development Project, the Directors (including all the independent non-executive Directors) further consider that the entering into of the 2020 Loan Agreement, the 2020 Loan Supplemental Agreement, 2020 Guarantee Agreement, 2020 Share Charge Agreement, the 2021 Shareholder's Loan by Nodic-Matsumoto and the 2021 Supplemental Cooperation Agreement are in the interests of the Company and the Shareholders as a whole.

3. FINANCIAL AND TRADING PROSPECTS OF THE GROUP FOR THE FINANCIAL YEAR ENDING 31 MARCH 2022

The Company has a diversified product portfolio. Among all its products, professional audio equipment has become an expertise area of SUGA, securing for it a number of business partners. Demand for those products is expected to sustain. The Group will continue to grow its R&D team and strive to develop for customers more products with strong demand potential, including professional audio equipment and hair styling products co-developed with a smart personal care product customers in recent years, all to the end of creating more room for the Group to grow profit. As for other products of the Group, orders and cooperation plans gradually improved in the second half year and hopefully will be back on the right track in the coming year.

In terms of market, China, the fastest among countries to have the pandemic under control, has become the engine of global economic growth. To capture the opportunities presented by China's inner circulation policy, the Group started to focus on expanding the China market last year and reaped initial results. In the future, it will make good use of the production capacity of its Dongguan plant and continue to develop its business in China, aiming to expand its customer base, achieve a more balance and healthy market layout, and enhance its risk resistance.

Similarly, the Group's customers are also recognising the importance of market diversification and dispersing supply chain risks, thus tend to prefer to work with partners with production capacity in different regions. The Group started adopting the "China Plus One" strategy in 2018 and established a highly automated factory in Vietnam to meet customers' need for more cost-effective production that Vietnam affords. With that demand increasing, the Group has since kept expanding its production capacity in Vietnam. It is building a more than 30,000 square metres new plant in Que Vo III Industrial Zone, Bac Ninh

Province, Vietnam, which is expected to commence production in second half of 2021. With operation of its existing plant maturing and when the new plant is finished, the Group expects to enjoy strong economies of scale and achieve higher yet cost effectiveness in production.

As for pet business, the Group believes the business will continue to benefit from “stay-at-home” new normal. Thus, it will not only pursue online marketing to boost recognition of its domestic pet food brand “TeenyTiny”, but also look for producers for “Brabanconne” in other regions to disperse supply risks. In addition, the Group will source more brands for its online stores to avail to customers diverse high-quality products, and also continue to launch new features aiming to enhance user experience.

As to the Development Project, details have been set out in the section headed “Letter from the Board — 8. Update on the Development Project” of this circular.

The management will pay close attention to macroeconomic and market trends and timely adjust strategies as the new normal commands, in its bid to bring the Group’s businesses to the next level and create long-term value for customers and shareholders.
