### **POSITIVE PROFIT ALERT**

This announcement is made by Wah Sun Handbags International Holdings Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) pursuant to Rule 13.09(2) of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “**Listing Rules**”) and the Inside Information Provisions (as defined in the Listing Rules) under Part XIVA of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong).

The board of directors of the Company (the “**Board**”) wishes to inform the shareholders of the Company (the “**Shareholders**”) and potential investors of the Company that, to the best knowledge and belief of the Board and based on the information currently available to the Company and the preliminary assessment of the unaudited consolidated management accounts of the Group for the six months ended 30 September 2021 (the “**Reporting Period**”), it is anticipated that the Group will record the net profit attributable to owners of the Company within the range from approximately HK\$16 million to HK\$18 million for the Reporting Period as compared to the net profit attributable to owners of the Company of approximately HK\$1 million recorded for the six months ended 30 September 2020 (the “**Previous Period**”).

The increase in the net profit attributable to owners of the Company was mainly attributable to the following factors:

- (i) the increase in revenue by approximately HK\$136 million to approximately HK\$316 million for the Reporting Period from approximately HK\$180 million for the Previous Period, representing an increase of approximately 76%. This was mainly attributable to (a) the continuing market recovery in North America, the largest market of our products, as the outbreak of the novel coronavirus disease (the “**COVID-19**”) continued to improve which saw the spending patterns of consumers to strengthen and the market regaining its potential as the economies of the developing nations continued to improve; and (b) the temporary closer of the production facilities of the Group in Cambodia from end of March 2020 to early May 2020 due to COVID-19 in the Previous Period while during the Reporting Period, temporary closure only covered a shorter period from 15 May to 28 May 2021; and
- (ii) the increase in gross profit and gross profit margin led by the increase in revenue as a result of the increase in the quantity of goods sold by the Group and the continuing implementation of certain stringent cost control measures which successfully reduced the base production operating costs of the Group.

As a result of the foregoing, the gross profit for the Reporting Period increased as compared to the Previous Period. However, such increase had been partially alleviated by the following factors:

- (i) the increase in sales and distribution expenses primarily due to the increase in transportation and customs charges, which was mainly due to the increase in the level of sales activity;
- (ii) the increase in administrative expenses reflected various temporary cost control measures implemented during the Previous Period which were not repeated in the Reporting Period as business of the Group continued to improve;
- (iii) the increase in provision for impairment on trade receivables in the Reporting Period in line with the expected credit loss model while the Previous Period had a reversal of provision for impairment as a result of recovery from certain receivables which had previously been provided for; and
- (iv) the increase in income tax expenses as a result of the increase in assessable profit in the Reporting Period.

As the Company is still in the process of finalising the unaudited interim results of the Group for the Reporting Period, the information contained in this announcement is only based on the preliminary assessment by the management of the Company with reference to the unaudited consolidated management accounts of the Group for the Reporting Period, which have not been confirmed, reviewed or audited by the Company's auditors or audit committee of the Company and therefore may be different from the actual unaudited interim results of the Group for the Reporting Period. Detailed financial information of the Group will be disclosed in the interim results announcement of the Group for the Reporting Period which is expected to be issued in November 2021 pursuant to the requirements of the Listing Rules.

**The Shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company.**
