MESSAGE FROM THE CHAIRMAN OF THE ESG STEERING COMMITTEE 環境、社會及管治督導委員會主席寄語

2021 holds special meaning to us as it marks the 50th anniversary of the founding of Sino Group. Over the past five decades, we have been Creating Better Lifescapes. This vision is at the heart of what we do to create a wellness-oriented built environment, long-term value for stakeholders as well as the broader community as we grow with it, and to promote positivity in the community. We bring this vision to life through the three interconnected and strategic pillars of Green Living, Innovative Design and Community Spirit, incorporating wellness and sustainability principles into design, development and management of the Group's portfolio.

Sustainability is integrated into all aspects of our business and operations. We are doing our part through more energy-efficient designs, green development and procurement, harnessing renewable energy, reducing waste and carbon emissions, leveraging technology and advocating green living at our properties.

Climate change is posing imminent impacts on our environment and the communities in which we work. The Group seeks to develop a climate-resilient portfolio through collaborative efforts in addition to improving the overall sustainability of the built environment. We have also included climate reporting in accordance with the Task Force on Climate-related Financial Disclosures recommendations to more effectively report climate-related challenges and opportunities, and help us improve in this critical area.

Following the announcement of our Sustainability Vision 2030 last year, Sino Land joined the Business Ambition for 1.5°C in May 2021, furthering our decarbonisation efforts and becoming one of the first five real estate developers in Asia to support this global pledge. The Group is working with academia on formulating a holistic roadmap and setting science-based targets and KPIs towards net zero carbon by 2050, charting our course towards a greener future. Sino Land's support to the United Nations Global Compact is ongoing, observing the latest trends and regulations in human rights, labour, environment and anti-corruption and making appropriate updates in the report.

The built environment has a profound impact on our health and wellbeing, as we spend 90% of our time indoors. We have undertaken to achieve BEAM Plus and WELL™

certification for all our new projects in Hong Kong as part of our Sustainability Vision 2030 goals. We are making progress with WELL™ accreditation for projects such as 133 Portofino, St. George's Mansions, Landmark South and The Fullerton Ocean Park Hotel Hong Kong. The Fullerton Ocean Park Hotel Hong Kong has become the first hotel in Hong Kong and the Mainland to have achieved the coveted WELL™ accreditation.

Green Finance is key to a sustainable future, facilitating the transition to a less carbon-intensive economy and channelling capital to green technologies. In June 2021, Sino Land converted a five-year HK\$1 billion loan into a sustainability-linked loan, marking our first financing arrangement directly linked to sustainability targets.

Over the past year and a half, we have been combating COVID-19 and coping with the disruptions it has brought about. While the pandemic has brought unprecedented challenges, it also demonstrates the resilience of our communities, and highlights the importance of environmental, social and governance aspects. With concerted efforts and steady progress in vaccination, normality will return. It is an important lesson as it radically changes how we live, work, travel and play. We need to adjust to the new normal, amid increasing awareness of health, wellness and sustainability.

Businesses, community partners and different sectors are coming together to co-create solutions, contributing constructive views and ideas on the way forward. We are particularly heartened that the younger generations are passionate to play their part in creating a more sustainable future.

Our commitment to excellence and community spirit stays at the heart of everything we do, and will continue to guide us as we write new chapters of the Sino story for the next 50 years and more.

Thank you for your wonderful support on our sustainability journey. We look forward to Creating Better Lifescapes with you.

Daryl Ng

Chairman, ESG Steering Committee

“Sustainability is integrated into all aspects of our business and operations. We are doing our part through more energy-efficient designs, green development and procurement, harnessing renewable energy, reducing waste and carbon emissions, leveraging on innovation and technology and advocating green living at our properties.”

「集團把可持續發展融入業務各個層面。透過節能設計、綠色建築發展及採購、利用可再生能源、減少廢物及碳排放，以及善用創新科技，在旗下物業推動綠色生活。」

2021年是信和集團50周年金禧誌慶，對我們別具意義。半個世紀以來，我們一直致力「建構更美好生活」，這是我們的願景——締造健康舒泰的建築環境、致力為持份者創造長遠價值，以及為社區增添正能量。綠色生活、創新構思及心繫社區三大元素相輔相成，助我們實現這願景。我們把健康舒泰及可持續發展理念融入設計建築規劃發展、物業管理等各層面，共建和諧昌盛。

集團把可持續發展融入業務各個層面。透過節能設計、綠色建築發展及採購、利用可再生能源、減少廢物及碳排放，以及善用創新科技，在旗下物業推動綠色生活。

氣候變化對環境及社區帶來的影響刻不容緩，是重要議題。集團透過多方協作，致力提高物業組合的整體可持續性，以及應對氣候變化的能力。報告中我們參照氣候相關財務訊息披露工作組(TCFD)的建議，闡述氣候變化帶來的挑戰與機遇，助我們持續改善氣候抗禦力策略。

繼去年公布《可持續發展願景2030》後，信和置業於2021年5月參與「Business Ambition for 1.5°C」，為亞洲首家參與此項全球聯署運動房地產發展商之一，為實現淨零碳排放出一分力。集團正與學者攜手，以科學基礎減量目標制定全方位計劃，致力於2050年前達至淨零碳排放，建構更綠色的未來。信和置業繼續按《聯合國全球契約》，留意人權、勞工、環境和反腐敗方面的最新趨勢，並作適當彙報。

我們有九成以上的時間都在室內，建築環境對我們的身心健康和生產力有重大影響。《可持續發展願景2030》訂立了清晰目標，在2030前為旗下新建築及項目取得綠建環評(BEAM Plus)及

《WELL建築標準™》認證。有關工作穩步推進，133 Portofino、St. George's Mansions、Landmark South及香港富麗敦海洋公園酒店已取得《WELL建築標準™》認證；其中香港富麗敦海洋公園酒店更是本港和內地首家榮獲《WELL建築標準™》認證的酒店。

綠色金融是可持續未來的關鍵，有助推動經濟實現低碳轉型及投資環保技術。2021年6月，信和置業將一筆十億港元五年期貸款轉為與可持續發展表現掛鉤貸款，為我們首個與可持續發展目標直接相關的融資安排。

過去一年半，我們努力應對新冠疫情及其帶來的衝擊。疫情帶來前所未有的挑戰，但亦展現社區的活力和抗逆力，及凸顯環境、社會及管治方面的重要性。有賴各界齊心協力以及疫苗接種計劃穩步推進，相信回復正常生活可期。疫情改變了我們的生活、工作、旅遊以至消閒娛樂，給了我們寶貴的一課。我們需要適應新常態，提高對健康及可持續發展的關注。

企業、社區夥伴和各界集思廣益，共同創造解決方案。年輕一代亦積極參與，共創更可持續的未來，尤其令人欣喜。

集團堅守追求卓越品質和關懷社區，譜寫新篇章，迎接更多個美好的50年。

感謝您一直以來的支持。我們期待與您共建更美好生活。

Materiality Assessment 重要性評估

In defining our material topics, we reflect on an issue's importance to stakeholders and significance to the Group, relative to the company's economic, environmental and social impacts. To facilitate this evaluation, an independent consultant was engaged to conduct an in-depth stakeholder engagement exercise.

The purpose of this exercise was to understand the insights and concerns of our key stakeholders and the potential ESG risks and opportunities for our business, stakeholders and society at large. The materiality assessment process, detailed here, has since informed the rationalisation of the Group's sustainability strategy — ensuring we continue to focus on the sustainability topics salient to both stakeholders and the Group's business interests.

As a result of this comprehensive undertaking, we were able to refine our materiality methodology and effectively align this Report with the Group's strategies and expectations of our stakeholders.

我們考慮每項可持續發展議題對持份者和集團的重要性，同時衡量其對公司的經濟、環境及社會影響以識別重大議題。是次評估我們委託了獨立顧問開展深入的持份者參與活動。

活動旨在了解主要持份者的意見和關注事項，以及對我們的業務、持份者和廣大社會帶來的潛在環境、社會及管治風險和機遇。右方詳述的重要性評估過程，為集團的可持續發展策略提供資訊，讓我們重點地關注對持份者和集團業務皆重要的可持續發展議題。

經過這全面的評核過程，我們得以完善重要性評選方法，並使本報告的內容與集團的策略和持份者的期望一致。

1 Identification of Key Sustainability Issues 識別關鍵可持續發展議題

Research involved analysing global ESG-related risk reports and insights, alongside a peer review, to benchmark a range of sustainability issues related to the Group's business. These issues were used to prepare in-depth questionnaires for our stakeholders, including executive board members, employees, customers, suppliers, investors, trade associations, peers, academia, media, government and NGOs.

透過分析全球環境、社會及管治風險報告和資訊，以及參照同儕，我們得以衡量與集團業務相關的一系列可持續發展議題。這些議題用於準備深入的持份者問卷調查，持份者包括執行董事、員工、顧客、供應商、投資者、同業公會、行業同儕、學術界、傳媒、政府和非政府機構。

2 Engagement with Key Stakeholders 與主要持份者溝通

Individuals representing 11 key stakeholder groups participated in the exercise, with over 630 respondents either completing the materiality questionnaire online or participating in one-on-one interviews. The interviews were conducted internally with senior management representing key business areas, as well as with external stakeholders such as government representatives, partners and suppliers, tenants, NGOs and academics. All stakeholders ranked the importance of sustainability issues and provided their views on the Group's sustainability performance and communication strategies. This enabled us to identify topics material to the Group, according to the principles of stakeholder inclusivity and materiality.

630 多名受訪者完成網上重要性評估問卷調查或一對一訪談，共代表 11 個主要持份者組別。對內訪談對象包括主要業務單位的高級管理人員，對外訪談對象包括政府代表、合作夥伴和供應商、租戶、非政府機構和學者等。所有持份者均按可持續發展議題的重要性進行排名，並就集團的可持續發展表現和溝通策略發表意見。是次活動讓我們能根據持份者參與和重要性原則，識別集團的重大議題。

3 Establishing the Materiality Matrix 制定重要性矩陣

Management representatives participated in a workshop to evaluate the issues identified by stakeholders. During the workshop, participants worked together to assess stakeholders' priorities and the Group's views on what is essential for long-term value creation. Participants considered ESG-related risks, opportunities and impacts along the value chain, including expectations of customers and the wider community, before plotting the sustainability issues in the matrix shown on the following page.

管理層代表參加工作坊以評估持份者所識別的議題。工作坊期間，參加者共同檢視持份者所識別的可持續發展議題，並就對集團創造長遠價值的關鍵要素分享見解，亦衡量價值鏈中的環境、社會及管治相關風險、機遇和影響，包括客戶和廣大社會的期望，以制定下頁的可持續發展議題矩陣。

Management representatives evaluated the issues identified by stakeholders and organised them into 13 material topics. Management representatives reviewed the sustainability issues identified by stakeholders, integrated them into 13 major topics.

4 Validation and Review 驗證與檢視

MANAGEMENT APPROACH

Corporate Governance Structure

Tsim Sha Tsui Properties' Board of Directors (the "Board") provides effective leadership and optimises the Group's financial performance and shareholder value. The Board oversees the Company's systems and performance through various committees, including the Audit Committee, Compliance Committee, Remuneration Committee and Nomination Committee. Each of these committees reports to the Board regularly.

The Board reviews and advises on business strategies and corporate governance practices, sets the Group's direction, objectives, values and standards, and oversees and monitors the management's performance within the control and delegation framework of the Group. These include the Group's financial statements, dividend policy, accounting policy and principles, adoption of corporate governance practices and processes, as well as risk management and internal control measures. As at 30 June 2021, the Board had six Directors comprising two Executive Directors, including the Chairman and Deputy Chairman of the Board, one Non-executive Director and three Independent Non-executive Directors. Board members possess skills and experience in various areas including economics, accounting, finance, real estate development, architecture and law.

Tsim Sha Tsui Properties believes that a diverse Board is crucial to ensuring the long-term sustainability of the Company. Our Board Diversity Policy ensures the Group considers a range of different criteria including gender, age, ethnicity, cultural and educational background, professional or industry experience, skills, knowledge and other relevant attributes when deciding on new appointments or re-appointments. The Nomination Committee considers candidates on their merits and against our objectives to enhance both the diversity of expertise and independence of the Board.

Our corporate governance practices stipulate that transparency be maintained across our business. Accordingly, information about our new developments is disseminated through various channels including press releases, the corporate website, results briefings, onsite visits and investor conferences, among others. More information about our approach to corporate governance is provided in our Annual Report 2021 [📄](#).

Risk Management

The corporate governance principles of the Group emphasise effective and responsible governance practices, with sound internal control and high standards of transparency and accountability to shareholders. The Board ensures risk management and internal control systems are integrated into strategy development, implementation and review, and is committed to evaluating the extent and nature of risks, as well as the adequacy of measures taken to achieve our strategic objectives.

The Board authorises the Audit Committee to oversee risk management and internal control systems. An Enterprise Risk Management (“ERM”) Policy and Framework based on International Standard ISO 31000:2018 Risk Management – Guidelines is used to assist the Board and individual business units in managing key risks faced by the Group. To ensure our systems are up-to-date, the ERM Policy and Framework is reviewed regularly. Our approach to risk utilises the Three Lines of Defence model, with direction from the Board, the Audit Committee and the Risk and Control Committee. This model comprises a top-down strategic view and a bottom-up operational risk assessment conducted by each department. Members of senior management discuss the top-tier risks identified by the bottom-up process and consider other critical risks. This combined approach ensures proper identification and management of all significant risks.

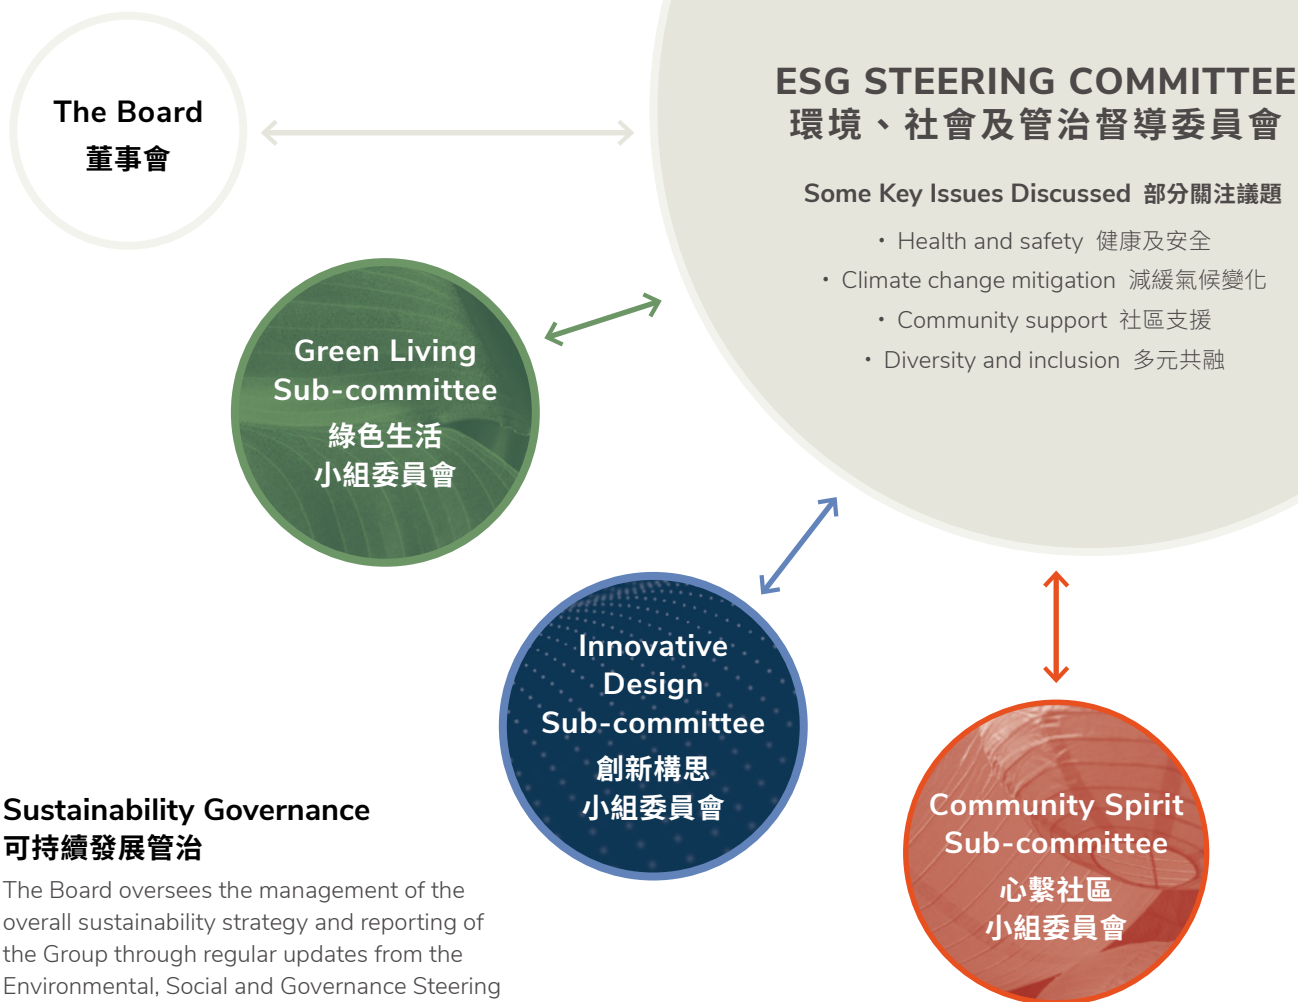

For the year ended 30 June 2021, the Audit Committee, with the assistance of the Risk and Control Committee, reviewed the effectiveness of the Group’s risk management and internal control systems covering financial, operational and compliance controls along with ESG-related risks. The Audit Committee also oversaw the risk management system on an ongoing basis by reviewing the ERM Policy and Framework and ERM reports. More information about our risk management systems can be found in our Annual Report 2021 [📄](#).

Sino Sustainability Academy

To ensure that an ethos of championing sustainability practices permeates from the leadership to frontline staff, the Group has established a Sustainability Academy to nurture a sustainability mindset among employees. To equip colleagues with a better understanding of our ESG initiatives, the Academy organised a webinar covering topics such as why ESG matters, with an introduction of the ESG Steering Committee, ESG Policies and our Sustainability Vision 2030. In addition, sessions encouraging colleagues to adopt an environmentally responsible lifestyle were also held. Guest speakers from NGOs and various other professional backgrounds were invited to share ideas on low carbon living, effective ways to reduce food waste, and the importance of conserving trees and biodiversity. To add to this, colleagues also received pop-up messages on their screens when switching on their computers. This served to remind them about the importance of green living. The activities organised through the Sustainability Academy enabled colleagues to accumulate 1,740 learning hours in this reporting period.

Ethics and Integrity

道德與誠信

Good governance must start with the highest standards of “Integrity”, which is a core value of the Group. We do not compromise on ethical standards and do not allow any form of corruption or bribery in our business transactions. Our Code of Conduct (“CoC”) outlines the expectations that all staff must meet and clearly sets out our approach to addressing any violations. Training on the CoC is provided to all new employees, with existing employees required to review the CoC annually. Our high ethical standards extend to suppliers as outlined in our Contractor/Supplier Code of Conduct (“SCoC”) [🔗](#).

Anti-Corruption

The Group complies with all applicable laws and regulations, including the Prevention of Bribery Ordinance of Hong Kong and equivalent laws and regulations in Mainland China, Singapore and Sydney. Our Anti-Corruption Policy [🔗](#) provides guidelines to ensure proper conduct across all aspects of our business. This policy provides procedures relating to the prevention of bribery, solicitation and acceptance of advantages, conflicts of interest, forging of documents or presenting false accounting records, as well as the acceptance of gifts and entertainment from third parties.

Internal monitoring and risk assessment are conducted every six months to ensure continual compliance with our stringent ethical standards. In addition, anti-corruption training is provided for employees, including Executive Directors, in collaboration with the Independent Commission Against Corruption (ICAC) on an annual basis. This training covers issues such as integrity in property management, construction and work supervision. Employees are also regularly reminded to avoid situations that may lead to a potential conflict of interest.

Senior management takes full responsibility for upholding regulations for the prevention of bribery and corruption. A Tender Committee monitors contractor/supplier selection to ensure fairness in the tendering process.

「誠信可靠」是集團的核心價值，秉持最高的誠信標準是良好管治的基礎。我們從不在道德標準上妥協，亦絕不允許商業交易中出現任何形式的貪污或賄賂。《紀律守則》闡釋了我們對道德行為的期望和處理違反道德操守行為的方針，所有員工必須遵守。所有新入職員工需接受《紀律守則》培訓，而在職員工必需每年重溫。同樣的道德標準亦應用於承辦商，並已訂明在《承辦商/供應商行為守則》[🔗](#)。

反貪污

集團遵守所有適用法律和規例，包括香港的《防止賄賂條例》，以及中國內地、新加坡和悉尼的同等法律和規例。我們的《反貪污政策》[🔗](#) 涵蓋防止賄賂、索取及收受利益、利益衝突、偽造文件或提供虛假會計紀錄，以及接受第三方饋贈和款待等相關政策、程序及指引，確保集團營運的各方面恰當有序。

集團每六個月展開一次內部監控和風險評估，以確保道德操守貫徹執行。此外，我們每年都與廉政公署合作，為執行董事及其他員工，提供反貪污培訓。培訓內容包括物業管理、建築和工程監督方面的誠信操守。我們亦定期提醒員工避免涉及或會導致潛在利益衝突的情況。

高級管理層全權負責實施防止賄賂和貪污的規例。為確保招標過程公正，我們成立了招標委員會，以監督承辦商/供應商的甄選過程。

Open Communication Channels

ADDRESSING GRIEVANCES

The Group values the views and suggestions of our stakeholders. We have a formal channel to ensure that they are handled promptly and impartially. For employees, a dedicated phone line, email and site for file storage have been set up with procedures to ensure complaints and related records are received, logged, securely saved and not subject to unauthorised processing or disclosure. Grievances could involve issues related to discrimination, health and safety, employment terms or misconduct.

We also have a dedicated channel to collect the views of other stakeholders, including those from the local community. All grievances are managed according to established procedures, which ensure they are handled consistently, promptly and transparently. These procedures are designed to provide a safe, accessible and effective platform for all parties and they are reviewed regularly to ensure the continual improvement of our grievance handling mechanisms.

WHISTLEBLOWING

To ensure we uphold corporate governance standards with transparency, our Whistleblowing Policy  enables employees to raise issues about any suspected case of misconduct without fear of retaliation. Employees can consult our Business Ethics Committee, which reports to the Risk and Control Committee and the Board of Directors on any ethical issues. In situations where an employee identifies a potential breach of the CoC or an act of misconduct, he can make a report to the Business Ethics Committee using whistleblowing procedures specified under our established Unethical Conduct Notification ("UCN") Policy and Procedures. This UCN Policy and Procedures provide employees with detailed procedures on reporting, investigation and monitoring of complaints. Once a report is made, investigations are then conducted to ensure that all complaints are treated promptly and fairly. Ongoing monitoring, regular reviews and periodic staff training are carried out to ensure the effectiveness of the UCN Policy and Procedures.

Every reported case is handled confidentially by the Business Ethics Committee, except where the Group is required by law or regulation to disclose information, and followed through in accordance with the Group's UCN Policy and Procedures. The Group is committed to protecting the reporting person's identity; reports may be submitted anonymously if the reporting person is uncomfortable disclosing their identity.

Cybersecurity and Data Protection

To maintain business integrity, we work to ensure that cybersecurity is well managed and our information systems are protected. As cybersecurity threats become increasingly common, we have adopted several measures to protect our employees, customers and suppliers as outlined in our Cybersecurity Policy [📄](#). Risk assessments are regularly conducted by our Internal Audit Department to ensure our cybersecurity programme is robust. These involve in-depth reviews of the Group's systems and relevant supporting IT operations, including secure network architecture, performance and capacity monitoring, data protection, licensed software management and anti-virus detection and management. In 2020, an external consultant continued to perform a thorough review of our IT systems and recommend areas for improvement. During the reporting period, 87 employees attended cybersecurity awareness training and eight IT staff participated in a session on implementation of ISO 27001 (Information Security Management). Information security tips on safeguarding IoT devices and protection from ransomware were also disseminated to all staff via email.

A key goal for the Group has been to attain ISO 27001 certification in information security management. We are forging ahead with our preparation phase for certification that entails reviewing responsibilities, forming an Information Security Framework and governance model and defining information security key performance indicators ("KPIs"). We are simultaneously reviewing existing policies, preparing procedural templates and establishing policies and standards, in order to achieve certification before 2025.

Our information security efforts are designed to protect intellectual property and ensure the safe collection and usage of personal data. To protect the intellectual property of the Group, our trademarks and domain names are registered in various jurisdictions. Our CoC stipulates that all employees treat customer data in strict confidence. Training is further provided for relevant employees regularly on the protection of personal data in accordance with Hong Kong's Personal Data (Privacy) Ordinance, in collaboration with the Office of the Privacy Commissioner for Personal Data ("PCPD"). Employees in other jurisdictions where we operate are similarly trained in accordance with the privacy laws of their respective markets. Regular reviews of our personal data and privacy protection practices ensure compliance with legal requirements and highlight any areas for improvement. Anyone who breaches intellectual property or customer privacy obligations is subject to disciplinary action, including termination of employment. Action is taken immediately if scamming or infringing articles or materials are found and, if a criminal offence is suspected, a report is made to the relevant authorities for further action.

網絡安全與數據保護

為維持業務的誠信，我們致力妥善管理網絡安全，確保資訊系統受到保護。隨著網絡安全威脅日益增加，我們於《網絡安全政策》[📄](#)列明保護員工、顧客和供應商所採取的多項措施。我們的內部審核部定期評估風險，確保網絡安全計劃穩健。範圍涵蓋深入調查集團網絡安全系統和支援資訊科技的相關運作，包括網絡架構、效能與容量監察、數據保護、軟件授權管理，以及防毒檢查與管理等方面。2020年，集團繼續委託外部安全顧問，全面審查我們的資訊科技系統和提出改善建議。報告期內，87名員工參加了網絡安全意識培訓，八名資訊科技員工參加了有關實施ISO 27001（資訊安全管理體系）的會議。我們亦通過電郵向所有員工發放有關保護物聯網設備和防範勒索軟件等資訊安全貼士。

集團在資訊安全管理的主要目標是獲得ISO 27001認證。目前我們處於認證的準備階段，當中包括審查職責、制定資訊安全框架和管治模式，以及訂立資訊安全的關鍵績效指標。與此同時，我們正檢討現有政策、制定程序模板、訂立政策和標準，致力於2025年之前獲得認證。

我們的資訊安全工作力求保護知識產權，並確保安全地收集和使用個人資料。我們已在各個司法管轄區註冊商標和域名，以保護集團的知識產權。我們的《紀律守則》，規定所有員工對顧客數據嚴格保密。我們定期為相關員工提供由個人資料私隱專員公署舉辦的《個人資料（私隱）條例》培訓。其他經營所在司法管轄區的員工，則參加當地同等市場的私隱法例培訓。我們定期檢討保護個人資料和私隱的措施，以確保遵守相關法定要求並識別有待改進的地方。違反知識產權或顧客私隱守則的員工將受到紀律處分，嚴重者或會遭解僱。若發現與集團有關的欺詐或侵權物品或材料，以及涉嫌干犯刑事罪行，集團定必立即採取行動，向有關當局報告。

Sustainable and Ethical Supply Chain

可持續和道德供應鏈

Our commitment to sound governance standards extends to our suppliers without whom we cannot deliver high-quality, sustainable products and services. Our Sustainable Procurement Policy [☞](#) integrates environmental considerations into contractor/supplier selection, procurement processes and activities. This policy also strongly encourages all purchasing units to follow relevant local government policies on sustainable product specifications. As we strive to minimise our social and environmental impact across our value chain, engagement with our contractors and suppliers is crucial. Our Contractor/Supplier Code of Conduct (“SCoC”) [☞](#) and Sustainable Procurement Policy [☞](#) are included in all standard tender documents and cover areas including business ethics, regulatory compliance, anti-corruption, environmental measures, environmentally responsible procurement, labour practices and occupational safety and health in the supply chain. The Group’s prohibition of forced and child labour is clearly stipulated in our policies and applies to all contractors and suppliers. Our risk assessment mechanisms ensure new and existing suppliers remain committed to protecting human rights and natural resources while following sustainable practices in their business.

In accordance with our Group Approved Contractors/Suppliers List Policies & Procedures (“GACSL”), the GACSL Working Team sends out Contractor Performance Assessment Forms to all corresponding user departments every 12 months to review the performance of all our contractors and suppliers. The departments utilise these forms to evaluate contractors according to pre-determined criteria, including quality of service, safety measures, timeliness and overall performance. Completed forms are consolidated to generate a Contractor Performance Assessment Report, that is annually submitted to a panel for review. Any violations to our guidelines can be reported through communication channels described in the Ethics and Integrity section of this Report on p.33 [☞](#).

我們對良好管治標準的承諾同樣適用於供應商。我們有賴供應商才能提供優質和可持續的產品和服務。我們的《可持續採購政策》[☞](#)已將環境因素納入承辦商/供應商甄選、採購流程和活動的考慮之中。政策亦鼓勵所有採購部門，遵循當地政府有關可持續產品規格的政策。我們積極將整個價值鏈的社會和環境影響減至最低，因此承辦商和供應商的參與非常重要。我們所有招標文件均包含《承辦商/供應商行為守則》[☞](#)和《可持續採購政策》[☞](#)，涵蓋供應鏈的營商操守、法律規管、反貪污、環保措施、環保採購、勞工實務常規，以及職業健康及安全。我們的政策明確規定集團嚴禁強迫勞動和童工，並適用於所有承辦商和供應商。我們的風險評估機制，確保現有及新供應商不僅在業務中實踐可持續發展，而且持續致力於保護人權和自然資源。

我們根據《集團認可承辦商/供應商的相關政策及程序指引》，每12個月由工作小組向所有相應的用戶部門發出表現評核表審核所有承辦商和供應商的表現。部門利用這些評估表列明的預定標準，包括服務質量、安全措施、準時和整體表現等評核供應商；已完成的表格會綜合成為承辦商績效評估報告，每年提交給小組審查。任何違反準則的行為，都可透過本報告第33頁的「道德與誠信」章節[☞](#)中所描述的舉報渠道反映。

Customer Satisfaction

顧客滿意度

Being “Customer First” is a core value that is essential to the long-term sustainability of our business, driving our efforts to consistently surpass customer expectations. Accordingly, we put significant emphasis on understanding the specific needs and changing sensitivities of our customers to achieve product and service excellence. This is accomplished by collecting customer feedback through communication channels such as our annual customer satisfaction survey. Customers are invited to rate our services and facilities, including those related to our management, clubhouse, cleanliness and security. During the reporting period, our Hong Kong businesses achieved a customer satisfaction rating of 3.72 out of 4 (2019/20: rating of 3.67).

Our Stakeholder Engagement Guidelines enable us to collect suggestions in a fair, transparent and timely manner. We received ISO 10002 Certification, the international standard for customer satisfaction, which provides guidelines for us to manage customer complaints more efficiently and effectively. iPromise, the tailored web-based Complaint Handling System monitors maintenance issues, customer enquiries and complaints while providing real-time tracking of all operational aspects to enable prompt responses to customer concerns.

In recognition of our customer service efforts, a number of our properties received the Excellence in Facility Management Award from the Hong Kong Institute of Facility Management in 2020. In addition, our S+ REWARDS programme, providing interactive activities for shoppers at five Sino Malls, received the Silver Award for the Best Use of Mobile & Apps at the MARKies Awards 2021.

我們的《聯繫持份者指引》讓我們以公平、透明和迅速的方式收集建議。集團已獲ISO 10002顧客滿意度認證，為我們更有效地處理顧客意見提供指引。我們利用「iPromise」電子平台度身訂造的物業管理互聯網系統處理保養維修、顧客查詢和投訴，同時實時跟踪營運方面的資訊，使我們能夠迅速回應顧客的問題並採取相應行動。

我們多項管理物業獲香港設施管理學會頒發「卓越設施管理獎2020」，肯定我們在顧客服務的努力。此外，我們的S+ REWARDS，在五個信和商場為顧客提供互動獎賞計劃，榮獲「MARKies Awards 2021」頒發「最佳使用手機應用程式」銀獎。

Quality Assurance

An essential part of maintaining customer satisfaction is to ensure that our products and services follow all regulatory requirements and industry guidelines across all markets. We have stringent internal procedures to provide superior quality and promote responsible marketing practices. Our marketing and information materials adhere to all applicable laws and regulations, such as the Residential Properties (First-hand Sales) Ordinance and the self-regulatory regime of the Real Estate Developers Association of Hong Kong. Accordingly, detailed information about fittings and fixtures is made available to customers and tenants during the sale and leasing process to ensure transparency and authenticity of information. To identify opportunities for the continual improvement of our practices, customer satisfaction surveys are conducted with our property buyers.

On the hotel side, food quality and safety is one of our top priorities when seeking to provide the best experience for our customers. We have strict protocols to ensure our food supplies are of high quality, including requiring all hotel suppliers to adhere to our Contractor/Supplier Code of Conduct [☞](#). More details on this Code can be found in the section on Sustainable and Ethical Supply Chain on p.35 [☞](#).

質量保證

確保產品和服務符合所有市場的各项監管要求和行業準則，是維持顧客滿意度的重要一環。我們嚴格的內部程序確保卓越質量，並促進負責任市場推廣的實務常規。我們根據所有適用的法律和規例，如《一手住宅物業銷售條例》，以及香港地產建設商會的自我監管制度，準備市場推廣和資訊的素材。為此，我們為顧客和租戶提供裝置及設備的詳情，以確保銷售和租賃過程中的資訊透明且真確。為了識別不斷改進實務常規的機會，我們會向物業買家展開客戶滿意度調查。

食品質素和安全為酒店的首要任務之一，務求為酒店客人提供最佳體驗。我們採取嚴格措施以確保食品供應的質素，包括要求所有酒店供應商遵守《承辦商/供應商行為守則》[☞](#)。有關守則的詳情，可參閱第35頁的「可持續和道德供應鏈」章節[☞](#)。

CASE STUDY

案例

Sino Land secured a HK\$1 billion sustainability-linked loan from Bank of China (Hong Kong) Limited, marking our first financing arrangement directly linked to our sustainability targets. 信和置業與中國銀行(香港)有限公司簽訂一筆與可持續發展表現掛鈎的十億港元貸款，為集團首項與可持續發展目標直接相關的融資安排。

FIRST SUSTAINABILITY-LINKED LOAN SECURED

獲得首筆與可持續發展表現掛鈎貸款

Sino Land converted a five-year, HK\$1 billion loan signed with Bank of China (Hong Kong) Limited (“BOCHK”) to a sustainability-linked loan, marking our first financing arrangement directly linked to sustainability targets. Aligning with our vision of Creating Better Lifescapes, the proceeds will be used for funding ESG initiatives. According to the loan terms, upon achieving sustainability performance targets mutually agreed with BOCHK, Sino Land will be incentivised with a reduction in the interest rate applied to the loan. The sustainability targets are set in accordance with our key goals, including reducing GHG emissions, generating renewable energy, reducing consumption of single-use plastic, achieving green building certifications for all of our new buildings in Hong Kong and improving the wellbeing of less-resourced families. This sustainability-linked loan is Sino Land's most recent sustainable financing initiative, following the HK\$2 billion green loan raised in 2018 under our Green Finance Framework.

信和置業成功將一筆與中國銀行(香港)有限公司(「中銀香港」)簽訂十億港元五年期貸款，轉為與可持續發展表現掛鈎貸款，為信和置業首個與可持續發展目標直接相關的融資安排。為配合集團「建構更美好生活」的願景，是次貸款所得款項將用於可持續發展及環境、社會及管治相關項目。根據與中銀香港的共同協議，當信和置業的可持續發展表現成功達到所訂定的部分目標，即可獲得貸款利率下調。有關可持續發展目標是按照集團的重點範疇而制訂，包括減少溫室氣體排放量、產生可再生能源，減少即棄塑膠製品消耗、為集團旗下所有香港新建物業取得綠色建築認證，以及改善有需要家庭的福祉。此項與可持續發展表現掛鈎的貸款是信和置業繼2018年在「綠色融資框架」下獲批的20億港元貸款後，最新一項可持續發展融資計劃。

“This sustainability-linked loan underpins our commitment to pursuing ESG initiatives in our daily operations, effectively moving us towards a better future for all our stakeholders.”

「這筆與可持續發展掛鈎的貸款，讓我們得以履行環境、社會及管治承諾，在日常營運中推行相關計劃，與所有持份者攜手邁向更美好未來。」

MANAGEMENT APPROACH

Enhancing our environmental performance remains a key focus of our sustainability efforts. Our priority areas include climate action and energy saving, along with managing our resources and waste efficiently and effectively. Recognising the urgent need for decisive action to address climate change, we have pledged to achieve net zero carbon emissions by 2050. We have also set new targets to reduce electricity usage, minimise water consumption and divert waste from landfill. To meet our goals, we actively strive to implement environmental innovations in the provision of our products and services. The Group's environmental approach is set by the ESG Steering Committee and the Board with the help of the Green Living Sub-committee. This Sub-committee also sets objectives and targets, reviews and evaluates our initiatives pertaining to environmental protection and identifies areas for improvement. HOW WE ARE MANAGING IT

Sino Land has pledged to support Business Ambition for 1.5°C, the campaign led by the Science Based Targets initiative in partnership with the United Nations Global Compact and We Mean Business Coalition, calling on businesses to set science-based targets (“SBTs”) and develop an approach towards achieving net zero emissions by 2050. The pledge involves a partnership with academics from the Hong Kong University of Science and Technology (“HKUST”) to develop a roadmap to decarbonise the built environment.

As we move towards carbon neutrality, Sino Land continues to uphold transparency by disclosing our GHG emissions annually in the Environmental Protection Department’s Carbon Footprint Repository for Listed Companies in Hong Kong. Sino Land was among the first group of companies to sign the Business Environment Council’s Low Carbon Charter in March 2019, and remain committed to mobilising the property sector in contributing to decarbonisation. Our Climate Change Policy [☑](#) provides guidelines for addressing climate risk across our operations. We currently have stringent measures to reduce GHG emissions according to local government policies and international frameworks such as Hong Kong’s Climate Action Plan 2030+ and the Paris Agreement. In disclosing our approach to addressing potential climate risks, we have made reference to the recommendations of the Task Force on Climate-related Financial Disclosures (“TCFD”) framework. Our TCFD section on p.151 [☑](#) describes how we manage these risks in accordance with the recommended pillars. The Group remains focused on reducing its GHG emissions by 30% by 2030, based on its 2012 baseline. As at 30 June 2021, a reduction of 26.94% had been achieved, equivalent to 962,840 trees planted[‡].

怎樣管理

信和置業參與由科學基礎目標倡議組織與《聯合國全球契約》及全球商業氣候聯盟聯合發起的「Business Ambition for 1.5°C」聯署運動，響應號召訂定科學基礎目標，銳意於2050年前實踐淨零碳排放目標。集團將與香港科技大學（「科大」）學者共同制定減少建築物碳排放的路線圖。

在邁向碳中和的過程中，信和置業每年在環境保護署的香港上市公司碳足跡資料庫中，披露溫室氣體排放量，保持資訊透明度。信和置業亦是最早簽署由商界環保協會於2019年3月推出的《低碳約章》企業之一，並繼續致力推動地產業界，為減碳出一分力。我們的《氣候變化政策》[☑](#)為應對營運相關的氣候風險提供指引。目前，我們根據「香港氣候行動藍圖2030+」和《巴黎協定》等本地政府政策和國際框架，採取嚴格措施以減少溫室氣體排放。我們參照氣候相關財務信息披露工作組的建議，披露應對潛在氣候風險的方針。第151頁的「氣候相關財務信息披露工作組」章節[☑](#)闡述我們如何參照建議管理相關風險。集團亦繼續專注於減少溫室氣體排放量，並以2012年水平為基數，目標於2030年前將溫室氣體排放量減少30%。截至2021年6月30日已減少26.94%，相當於種植了962,840棵樹[‡]。

Roadmap to Net Zero Carbon Emissions

淨零碳路線圖

As we strive for net zero carbon emissions by 2050, an initial task for Sino Land will be to evaluate how we can further increase responsible energy use in our portfolio. Our Carbon Reduction Taskforce Team is working alongside HKUST academics to formulate a roadmap as part of a holistic plan to achieve decarbonisation. The Team is reviewing our existing target of reducing emissions, including current actions planned to achieve this target, to further establish SBTs for the Group. A comprehensive study of market trends and the benchmarking of our efforts will also be conducted. This analysis will enable the Group to identify gaps and opportunities and pursue a concrete plan to reduce our emissions.

為致力達到於2050年前實現淨零碳排放的目標，信和置業的首要任務是評估物業組合以尋求更負責任的能源運用方法。作為減碳整體計劃的一部分，我們的減碳專責小組與科大學者攜手合作制定路線圖。團隊正檢視現有的減排目標及相關的行動計劃，以進一步為集團制定科學基礎減量目標。我們亦全面研究市場趨勢，並比對集團現行的減排工作，以作出評估及識別機遇，並制定具體的減排計劃。

We are collaborating with HKUST to set SBTs and develop a holistic approach towards net zero carbon emissions by 2050. 我們正與科大合作，以科學基礎為減量目標制定全方位計劃，於2050年前實現淨零碳排放目標。

Energy Consumption and Efficiency

能源消耗和效益

The Group recognises the importance of improving energy efficiency in daily operations. It is our responsibility as a property developer to continue to seek ways to manage our energy consumption ever more responsibly.

集團深明提高能源效益的重要性。作為地產發展商，我們有責任妥善地管理能源消耗。

HOW WE ARE MANAGING IT

Our Environmental Policy  sets out our commitments to managing energy use and increasing efficiency across our operations. As we commit our energies to reducing electricity consumption by 30% from the 2012 level by 2030, we focus on establishing smart monitoring platforms to optimise building services and installing renewable energy features in both new and existing buildings.

Harnessing Technology to Increase Energy Efficiency

The Group is harnessing technology to improve the energy efficiency of our portfolio, while supporting local start-ups to co-create better innovative property technology (“PropTech”) solutions. One such solution, the Enertainer, developed by local start-up, Ampd Energy, utilises diesel-free power and the Internet of Things (“IoT”) to conduct holistic reviews of equipment and operational efficiency, enabling better planning and reducing potential disruptions onsite. Compared with traditional generators, the Enertainer is 32 times quieter, produces up to 85% less carbon and can eliminate “tailpipe emissions” including NO_x, PM and SO₂, improving air quality in surrounding areas.

In addition to addressing emissions, this technology empowers construction teams to make energy-saving decisions based on performance data. In this way we strive to make construction more environmentally responsible and encourage our supply chain partners to adopt sustainability best practices and digitalisation for a cleaner future.

The Group has adopted the advanced energy storage system Enertainer, in place of noisy, smoke-emitting traditional diesel generators.

集團引入能源儲存系統「淨能櫃」，替代傳統柴油發電機，減少噪音及碳排放。

怎樣管理

我們的《環保政策》展現我們積極管理能源使用並提高營運效益的承諾。我們的新目標是以2012年水平為基數，於2030年前將用電量減少30%。為此，我們致力建立智能監察平台來優化建築服務，並在新建築和現有建築加入可再生能源設施。

善用科技提升能源效益

集團利用科技提升物業能源效益，同時支持本地初創企業，共同創造更完善的房地產技術方案。當中，由本地初創公司 Ampd Energy 研發的「淨能櫃」，替代傳統柴油發電機，配合物聯網 (IoT) 技術平台，有助規劃、管理及全面檢視工地器械運作和效率，較傳統柴油發電機減少產生噪音32倍及碳排放量達85%，同時消除氮氧化物 (NO_x)、懸浮粒子 (PM) 及二氧化硫 (SO₂) 等污染物排放，改善周邊空氣質素。

除了應對溫室氣體排放，「淨能櫃」技術能幫助建築團隊透過分析表現數據，作出節能決策。我們致力使建築過程更環保，並鼓勵供應鏈合作夥伴採用可持續的實務常規及數碼化，為未來締造更清潔的建築業。

In addition to Ampd, the Group is working with Negawatt, a Hong Kong property technology company specialising in smart building solutions, to leverage big data, IoT and AI to enhance energy efficiency and drive the digital transformation of our technical services. This smart building platform aligns with Electrical and Mechanical Services Department's retro-commissioning of existing buildings. Twelve buildings managed by the Group commenced applying the Negawatt smart building solution, we estimate that approximately 2,800,000 kWh of electricity can be saved annually through this. This amounts to a reduction of 1,960 tonnes of CO₂ per year and is equivalent to 85,217 trees planted[‡]. The electricity saved is estimated to equal the annual consumption of 448 households in Hong Kong. PlantPro, an optimisation solution from CLPe Solution is also being piloted at our Olympian City 3 and Island Resort Mall properties. Moving away from traditional manual control methods, PlantPro is designed to optimise the operation and maintenance of chiller plants and can reduce energy consumption by 10%. The platform provides a complete, reliable and easy-to-access measurement of key components and can make real-time adjustments, resulting in reductions in consumption and immediate cost savings. Utilisation of the PlantPro system has delivered estimated savings in electricity consumption of 400,000 kWh per annum in the two buildings where it is being piloted.

除了 Ampd，集團亦與研究智能建築解決方案的香港地產科技公司庫瓦合作，利用大數據、物聯網及人工智能技術提升能源績效並推動物業技術電子化。庫瓦智能樓宇解決方案與機電工程署倡議為現有建築物進行重新校驗相配合。我們旗下管理的 12 項物業已安裝庫瓦智能樓宇解決方案，預計每年可節省 280 萬千瓦時用電量，相當於減少 1,960 公噸二氧化碳，或種植了 85,217 棵樹[‡]。另外，奧海城三期和藍灣廣場為中電源動智慧平台 PlantPro 試點。該平台擺脫傳統手動控制，能使供冷機組的運作和保養得以優化，可降低 10% 的能源消耗。這個平台的關鍵組件完整、可靠和易於測量，並可實時調整，從而減少消耗和即時節省成本。兩個正使用 PlantPro 系統的試點物業，預計每年可節省 40 萬千瓦時用電量。

The property management team strives to enhance energy efficiency and support renewable energy generation by installing photovoltaic panels at our properties.

物業管理團隊致力提升能源效益及支持可再生能源，於旗下管理的物業安裝太陽能光伏系統。

Renewable Energy Management

To achieve the wider Sino Group target of generating 8,000,000 kWh of renewable energy by 2030 from the 2012 level, we are committed to promoting the use of renewables in our operations. This includes installing renewable energy features in our managed properties and establishing smart platforms to monitor and optimise our building services and renewable energy systems. We also strive to enhance awareness about the use of renewable energy among our stakeholders.

A key focus is the expansion of our photovoltaic system that generates solar power. Our integrated renewable energy platform, the Solar PowerSmart System, monitors the real-time performance of the photovoltaic panels, providing data on their status, capacity and photovoltaic energy output. This has enabled us to obtain the performance ratio of each site and compare it with the actual and rated energy outputs daily, monthly and yearly, to improve system performance.

As at 30 June 2021, over 2,300 photovoltaic panels have been installed at properties under the Group's management in Hong Kong. The resulting avoided GHG emissions are equivalent to 38,560 trees planted[‡]. In 2020, we began conducting a feasibility study on the installation of a Smart Hybrid Conversion System for solar energy at Olympian City 1, with a rated power of 89 kW. This project aims to generate an estimated 88,553 kWh of electricity annually, which is equivalent to avoiding the emission of 61.98 tonnes of CO₂ annually, or 2,695 trees planted[‡]. The Group is exploring the deployment of other renewable energy sources, such as our award-winning proprietary In-building Hydropower System and wind turbines.

可再生能源管理

信和集團訂立由2012年至2030年前實現再生能源的發電量達800萬千瓦時的目標。為達成這目標，我們致力在營運中推動使用可再生能源。當中包括在旗下的管理物業安裝提供可再生能源的裝置，並建立智能平台以監控和優化樓宇服務和可再生能源系統。我們亦致力提高持份者對使用可再生能源的認識。

擴大產生太陽能的光伏系統為集團的重點項目。我們的綜合可再生能源平台Solar PowerSmart系統，提供光伏電板的狀態、容量和光伏輸出數據，讓我們能實時監測太陽能光伏電板的表現，並透過取得每個地點的表現數據，比較每日、每月和每年的實際和額定輸出電量，從而改善系統表現。

截至2021年6月30日，本集團在香港的管理物業已安裝超過2,300塊光伏電板。避免的溫室氣體排放量相當於種植了38,560棵樹[‡]。2020年，我們開始在奧海城一期安裝太陽能智能混合轉換系統的可行性研究，額定功率為89千瓦。項目旨在每年產生約88,553千瓦時的電力，相當於每年從大氣層中減少61.98公噸二氧化碳或種植了2,695棵樹[‡]。我們同時也在探索其他可再生能源的項目，包括獲獎專項研發項目大廈水力發電系統及風力發電系統。

GREEN TRANSPORTATION 綠色運輸

The Group also continues to encourage the use of EVs in the community by installing more than 800 EV charging stations at our developed/managed properties. We are simultaneously working on upgrading our existing ordinary charging points to medium EV chargers, and exploring possibilities to introduce a “Load Management System” to allow more coverage of EV charging bays.

集團繼續鼓勵使用電動車，並已於旗下發展/管理項目安裝超過800個電動車充電站。與此同時，我們致力將現有的一般充電點升級至中速電動車充電器，並探索「負載分配管理系統」的可能性，以擴大電動車充電站的覆蓋範圍。

In support of green transport, we have installed more than 800 EV charging stations in properties developed/managed by the Group. 為支持綠色運輸，我們已於旗下發展/管理項目安裝超過800個電動車充電站。

Promoting Collective Action

We continue to work with local government bodies and trade organisations to enhance energy management. In Hong Kong, Sino Land supports the Energy Saving Charter initiated by the Environment Bureau and the Electrical and Mechanical Services Department to adopt various energy-saving measures. During the reporting period, 78 of our residential buildings, 33 of our shopping malls, and 42 of our commercial and industrial buildings signed the Energy Saving Charter. Sino Land is also a 4T Charter (Target, Timeline, Transparency and Together) partner of the Environment Bureau, under which we have set an internal energy intensity reduction target with an implementation timeline. During the reporting period, 13 shopping malls, 11 residential buildings and 13 commercial and industrial buildings signed the 4T Charter.

We also continue to engage our employees, tenants and customers in supporting energy-saving initiatives. Non-essential lighting at several of our properties in Hong Kong and The Fullerton Hotels in Singapore and Sydney were switched off on 27 March 2021 to mark the Worldwide Fund for Nature's Earth Hour. The Group also continued support of the environmental NGO, Green Sense, in its No Aircon Night event aimed at promoting responsible energy consumption among our community.

Awards and Certifications

In recognition of our performance in energy saving, energy management and the application of smart energy resources, Sino Estates Management Limited received the Excellence Award — Smart Technology (Corporate/Government Bodies) and the Joint Energy Saving Award at the CLP Smart Energy Award 2020, organised by CLP Power Hong Kong Limited.

To further our commitment to responsible energy management, many of our managed properties including Tsim Sha Tsui Centre, Empire Centre and Hong Kong Pacific Centre, attained ISO 50001:2018 Energy Management System certification in this reporting period.

促進協作行動

我們繼續與本地政府機構和同業公會合作，加強能源管理。在香港，信和置業支持由環境局和機電工程署推動的《節能約章》，響應呼籲採取多項節能措施。報告期內，集團旗下78幢住宅樓宇、33個購物商場和42座工商大廈均簽署了《節能約章》。信和置業亦是環境局《4T約章》（訂立目標、制定時間表、開放透明及共同參與）的合作夥伴，並制定降低內部能源強度目標及實施時間表。報告期內，我們共有13個購物商場、11幢住宅樓宇和13座工商大廈簽署了《4T約章》。

我們亦繼續支持環保活動，以提升員工、租戶和顧客對環境議題的關注。2021年3月27日，為了響應世界自然基金會的「地球一小時」活動，我們香港部分物業及位於新加坡和悉尼的富麗敦酒店關掉非必要燈光。集團亦繼續支持非政府環保組織環保觸覺舉辦的「無冷氣夜」活動，推動社會大眾負責任地使用能源。

獎項和認證

為表揚我們在節能、能源管理和智慧能源應用方面的表現，信和物業管理有限公司於中華電力有限公司舉辦的「創新節能企業大獎2020」榮獲「智能技術傑出大獎（企業/政府部門）」及「齊心節能大獎」。

為進一步履行負責任管理能源的承諾，我們旗下管理的多個物業，包括尖沙咀中心、帝國中心和亞太中心，於報告期內獲得ISO 50001:2018能源管理體系認證。

Material Use, Waste Reduction and Management

物料使用、廢物削減和管理

Our focus on improving resource efficiency and waste management enables us to realise our vision of Creating Better Lifescapes while enhancing productivity across our operations.

提高資源效益和完善廢物管理，有助我們提升環境表現來實現「建構更美好生活」的願景，並可提高生產力。

HOW WE ARE MANAGING IT

Responsible and sustainable consumption efforts are at the heart of our resource and waste management programmes. We have committed to two new targets during this reporting period as part of our Vision 2030 initiative. These include diverting 50% of commercial waste from landfill and reducing water consumption intensity by 20% from our 2018 baseline by 2030. Our Green Office Policy [☑](#) outlines the sustainable use of resources in our offices, by adopting best practices and raising staff awareness of sustainability issues. We have also implemented several programmes to engage employees, customers, tenants and the community in resource and material reduction, as well as recycling and upcycling. Our ESG Steering Committee is responsible for reviewing, evaluating and continuously monitoring all material use and waste management initiatives.

Waste Management

Our Waste Management Policy prioritises the avoidance of excess consumption and the selection of sustainable alternatives. It also promotes proper reuse, recycling and disposal of waste across our operations, encouraging all stakeholders to join us on our journey. Our efforts cover waste generated by customers, tenants and residents, as well as construction waste produced on our development projects. Licensed collectors collect all waste for proper disposal in compliance with local market regulations. Our operations dispose of a limited amount of hazardous waste, in the form of a small quantity of mercury-containing fluorescent tubes, that are collected by licensed waste collectors and sent to Chemical Waste Treatment Centre, where the mercury is recovered and recycled.

怎樣管理

致力於負責任和可持續消費是我們資源和廢物管理計劃的核心。我們於本報告期內訂立兩個新目標，承諾於2030年前，將運往堆填區的商業廢物減至50%，以及以2018年為基數，將用水強度減少20%。我們的《綠色辦公室政策》[☑](#)，透過採納最佳實務常規和提高員工對可持續發展議題的意識，闡釋辦公室運用可持續資源的方針。我們亦就減少使用、回收和升級再造資源和物料，推行不同計劃連繫員工、顧客、租戶和社區。我們的環境、社會及管治督導委員會負責審視、檢討，以及持續監察所有物料運用和廢物管理的計劃。

廢物管理

我們的《廢物管理政策》訂明避免過度消費和選擇可持續替代品的優次原則，同時促進各業務部門以妥善的方法重用、回收和處置廢物，並鼓勵所有持份者一同參與。顧客、租戶和住戶所產生的廢物，乃至項目發展時產生的建築廢物，均由持牌廢物處理商收集，並依照當地相關規定適當處置。我們日常營運棄置的少量含汞光管，屬有害廢物並由持牌廢物處置商收集送往化學廢物處理中心，將汞收集和循環再造。

PLASTIC WASTE

塑膠廢料

A key component of our waste management initiatives entail reducing and recycling single-use plastic. We committed to the Plastic Awareness Campaign in 2018 as part of our efforts to reduce single-use plastic consumption across all business lines by 50% by 2022 (from our 2017 baseline) in accordance with wider Sino Group goals. Since November 2018, we have introduced Reverse Vending Machines for recycling plastic beverage bottles at some of our managed properties in Hong Kong to facilitate customer and public participation in our campaign. As at 30 June 2021, more than 711,000 plastic bottles were recycled through this initiative, reducing carbon emissions by 170,000 kg. This is equivalent to 7,400 trees planted[†].

To further promote recycling, we plan to introduce an updated version of the Reverse Vending Machines in July 2021 to collect plastic bottles and aluminium cans in return for cash rebates. The machines will service ten of our properties.

To communicate our waste management priorities to colleagues and tenants, interns from the PolyU School of Design produced lovable animal figures made from upcycled plastic waste for display around the common areas and offices as daily reminders to conserve resources. More details on this initiative can be found in the Investment in Innovation section on p.100 [📄](#).

減少使用和回收即棄塑膠，是我們廢物管理計劃的重要部分。我們於2018年推行「塑減行動」，以配合信和集團以2017年水平為基數，於2022年前將旗下各業務範圍的即棄塑膠製品消耗量減少50%的目標。我們於2018年11月引入「逆向自動售貨機」於旗下部分管理的物業進行塑膠飲料樽回收，讓顧客及公眾參與我們的活動。截至2021年6月30日，回收了超過711,000個膠樽，減低了170,000公斤的碳排放量，相當於種植了7,400棵樹[†]。

為進一步促進回收，我們計劃於2021年7月於旗下十個物業引入升級版的「逆向自動售貨機」，顧客及公眾可透過回收膠樽和鋁罐換取現金回贈。

為了向同事及租戶宣傳廢物管理的重要性，來自香港理工大學設計學院的實習生製作了由回收塑膠升級再造成的可愛動物模型環保小提示，並在公用地方及辦公室展示，作為日常減少消耗和回收資源的小提示。有關該計劃的詳情，請參見本報告「創新投資」章節的第100頁 [📄](#)。

Animal figures made from upcycled plastic waste are displayed around the common areas and offices as daily green reminders.

In addition to recycling, we reduce single-use plastic usage at source through various initiatives including: eliminating plastic straws; switching from plastic water bottles to smart water filtering stations, with water dispensers installed in 62 of our managed clubhouses so far; removing single-use plastic amenity containers in hotels, with standard rooms in all our hotels now having refillable dispensers; and providing umbrella dryers instead of plastic sleeves, with 142 installed at 76 locations to date. We signed a Plastic ACTion ("PACT") agreement with the World Wide Fund for Nature ("WWF") in 2019 pledging the items on the right for our two hotels in Singapore.

Since 2020, The Fullerton Hotel Singapore and The Fullerton Bay Hotel Singapore have reduced plastic usage by eliminating more than 21,000 plastic bags, 370,000 plastic straws and 277,000 plastic water bottles. The hotels also partner with a local waste vendor to track monthly recyclable waste data. The recyclables are further segregated into categories such as paper, metal, plastic and glass and are subsequently recycled at the waste vendor's recycling plant.

Our Guidelines on Green Gift Hampers and Basket Packaging Design encourage suppliers to reduce excessive packaging and explore the use of environmentally responsible materials in place of conventional packaging. Our suppliers are encouraged to opt for simple packaging designs using recyclable and reusable materials, while those with high environmental impact or low recycling value (such as PVC plastic or plastic foam) are discouraged.

除了回收，我們亦透過各項措施從源頭減少使用即棄塑膠，其中包括：停止提供塑膠飲管；於62個管理會所安裝飲用水機；於酒店標準房間配備補充裝沐浴用品，以取代即棄塑膠小瓶裝沐浴用品；並已在76個地點安裝了142部雨傘除水機取代即棄塑膠遮袋。我們於2019年簽署了世界自然基金會「絕膠行動」聲明，右方列出我們新加坡兩家酒店的承諾。

自2020年起，新加坡富麗敦酒店和新加坡富麗敦海灣酒店已避免使用逾21,000個膠袋、370,000支塑膠飲管和277,000個膠樽。酒店亦與當地廢物收集商合作，追蹤每月廢物回收的數據。可回收物包括紙張、金屬、塑膠和玻璃等類別，將在廢物收集商的回收廠循環再造。

我們的《禮籃綠色包裝設計指引》，鼓勵供應商減少過度包裝，並使用對環境負責的材料替代傳統包裝。我們鼓勵供應商採用可回收和重用的簡單包裝，減少使用對環境影響較大或回收價值低的包裝物料（例如聚氯乙烯塑膠或發泡膠）。

FOOD WASTE

Food waste management is another important area to Sino Land, given that Hong Kong's daily food waste disposal at landfill comprises 30% of municipal solid waste. Our structured food waste recycling programme is designed to lessen the burden on our overflowing landfills. We also encourage our tenants to reduce food waste through our Green Tenant Engagement Programme.

We have installed food waste decomposers at several sites to transform food waste into compost for organic fertilisers. These machines reduce air pollutants and GHG emissions arising from transport to landfill and help reduce methane emissions from landfill. In addition, Sino Property Services ("SPS") has also implemented a food waste management programme in our managed residential properties, shopping malls, office and industrial buildings. The programme has been extended to the facilities of clients in the government sector and among NGOs, providing one-stop waste recycling solutions from Best Result Environmental Services Limited ("BRESL") and Perfect Green Supplies Company Limited ("Perfect Green") under SPS. In addition to collecting general recyclables and food waste, BRESL and Perfect Green are registered collectors in the Environmental Protection Department's Waste Cooking Oil Recycling Administrative Registration Scheme. During the reporting period, 66.2 tonnes of food waste were collected.

Water Consumption and Efficiency

The Group's Environmental Policy  outlines our commitment to utilising precious shared resources like water efficiently. In Hong Kong, all the water we consume comes from Water Supplies Department, including potable water and seawater for flushing. Water is used mainly for washrooms and washing purposes in our commercial and residential buildings. All effluents are discharged into the public sewer system, following applicable discharge licences. We encourage the reuse and recycling of greywater as we strive to minimise adverse impacts on the environment.

廚餘

香港堆填區每天處理的廚餘佔都市固體廢物的30%。有見及此，信和置業視廚餘管理為另一個重要範疇。我們有系統的廚餘回收計劃，旨在減少依賴即將飽和的堆填區。我們亦鼓勵租戶透過參與「環保租戶計劃」，減少浪費食物。

我們於多個地點安裝廚餘機，將廚餘轉化為有機肥料，供堆肥之用。這些設備不僅能減少因運往堆填區而產生的空氣污染物和溫室氣體排放，亦有助減少堆填區的甲烷排放。此外，信和管業優勢的廚餘管理計劃，除了於轄下管理的住宅物業、購物商場、工商大廈實施外，亦擴展至政府部門和非政府機構客戶的設施，由信和管業優勢旗下的恒毅環衛服務有限公司（「恒毅環衛」）和綠玲瓏供應有限公司（「綠玲瓏」），提供一站式廢物回收解決方案。除了收集一般可循環再造的資源和廚餘外，恒毅環衛和綠玲瓏亦是環境保護署「廢置食用油回收行政登記計劃」的註冊收集商。報告期內，一共收集了66.2公噸廚餘。

用水和用水效益

集團的《環保政策》列出了對有效用水的承諾，以珍惜寶貴的水資源。在香港，我們的用水均來自水務署，包括食水和沖廁海水。在商業與住宅樓宇中，食水主要用於洗手間和洗滌用途。我們根據適用的排放許可證，將所有廢水排入公共污水收集系統。我們亦鼓勵廢水回收和重用，盡力減低對環境的負面影響。

Our operations monitor the consumption of water monthly. We have installed several water-saving devices and adopted a variety of practices to reduce consumption. We also promote responsible water management among our hotel guests and office tenants.

Engaging Our Stakeholders 與持份者共同參與

Other than waste and water management, we engage with our stakeholders through various activities and programmes to raise awareness, reduce consumption and recycle materials.

除了廢物和用水管理之外，我們亦透過多項活動和計劃致力提高環保意識，與持份者合作減少消耗和回收物料。

SOAP AND COFFEE CAPSULE RECYCLING 回收肥皂和咖啡膠囊

Initiatives at The Fullerton Hotel Singapore and The Fullerton Bay Hotel Singapore included collaboration with NGO, Clean the World, to recycle soap bars for redistribution to regions in need. This need has been heightened given the importance of hygiene during the COVID-19 pandemic. The total amount of soap collected during the reporting period amounted to 186.6 kg. The hotel also worked with Nespresso to recycle used coffee capsules. During the reporting period, a total of 168.2 kg of used coffee capsules were collected for recycling.

新加坡富麗敦酒店及新加坡富麗敦海灣酒店與非政府機構 Clean the World 合作，回收肥皂並重新分配給有需要的地區，肥皂於新型冠狀病毒疫情期間對保持衛生更顯重要。報告期內，合共收集了 186.6 公斤肥皂。酒店亦與 Nespresso 合作，回收使用過的咖啡膠囊，報告期內，合共收集了 168.2 公斤咖啡膠囊以作回收。

PROTECTING OUR MARINE RESOURCES 保護海洋資源

To raise awareness and protect marine resources in Hong Kong, we joined community partners EcoDrive and Eco Marine, Tai O residents, and students and staff from the Christian and Missionary Alliance Tai O Kindergarten, to clean up the shores of Tai Long Wan and Tai O on Lantau Island on World Oceans Day 2021. Over 130 kg of waste in total, including packaging, plastic containers, water barriers, plastic pipes and construction waste, was collected and sorted from both sites. In addition to protecting the natural beauty and the area's indigenous species such as the Chinese white dolphins, this clean-up effort also encouraged environmental action among the younger generation. We further support awareness building through sponsorship of initiatives such as Eco Drive's Enough Plastic campaign.

我們於「世界海洋日 2021」聯同社區夥伴 EcoDrive 及 Eco Marine、大澳居民及基督教宣道會大澳幼稚園師生，合力清潔位於大嶼山的大浪灣海灘及大澳海岸，以提高保護海洋生態的意識。活動共收集及分類處理逾 130 公斤垃圾，當中包括塑膠包裝、塑膠容器、水馬、塑膠水管，以至建築廢料等。除了保護這些生態系統中的自然景致和本土海洋生物包括中華白海豚，是次清潔沙灘活動亦鼓勵年輕一代採取環保行動。另外，我們透過贊助 EcoDrive 的「不要膠下去」運動，進一步提高大眾的減塑意識。

MOONCAKE BOX AND LAI SEE PACKETS RECYCLING CAMPAIGNS 月餅盒和利是封回收計劃

The Group organised the Mooncake Box Recycling Campaign 2020 from 21 September to 9 October 2020. With the support of our property management team, colleagues and long-time partner Christian Action, nearly 15,000 mooncake boxes were collected across 150 properties and turned into raw materials for new products. We also continued to support Greeners Action's Lai See Packet Reuse and Recycling Programme for the tenth year. From 18 February to 3 March 2021, over 1,400 kg of Lai See packets were collected at 124 managed properties for reuse in the following year.

集團在 2020 年 9 月 21 日至 10 月 9 日舉行「月餅盒回收計劃 2020」。在物業管理團隊、同事和長期合作夥伴基督教勸行會的支持下，我們在 150 個物業收集了接近 15,000 個月餅盒，月餅盒將循環再造成原材料，製造新產品。我們連續第十年參加支持綠領行動的「利是封回收重用大行動」，集團在 2021 年 2 月 18 日至 3 月 3 日期間，於旗下 124 個管理物業中，收集超過 1,400 公斤利是封供來年重用。

CHRISTMAS TREE COMPETITION AND TREE RECYCLING 升級再造聖誕樹比賽

We celebrated the festive season with an Upcycled Christmas Tree Competition, encouraging colleagues to create “green” Christmas trees using recycled and waste material. The competition received an overwhelming response with over 220 submissions from more than 450 staff members and their families and friends. As a result, over 100 upcycled Christmas trees adorned Sino properties across Hong Kong, Singapore and Sydney. Colleagues also created upcycled Christmas trees to decorate their homes or offices.

Apart from the upcycling competition, we continued our recycling efforts with 77 Christmas trees and 79 Chinese New Year peach blossom trees recycled through Eco Greentech, EcoPark or authorised recycler. We are also committed to caring for trees at all our properties. When trees have to be felled due to safety concerns, disease or other reasons, the healthy components of fallen trees are recycled into compost or mulch, with larger trunks and branches upcycled into furniture and art pieces.

我們以「升級再造聖誕樹比賽」歡度綠色聖誕，鼓勵同事善用回收物料及廢物，創造環保聖誕樹。比賽反應熱烈，共收到超過 220 份參賽作品，逾 450 位同事及其親友參加。超過 100 棵升級再造而成的聖誕樹於集團旗下位於香港、新加坡及悉尼的物業展出。此外，同事亦製作環保聖誕樹裝飾家居或辦公室。

除了升級再造比賽外，我們透過綠科環保、環保園或認可回收商回收了 77 棵聖誕節和 79 棵新年桃花。我們亦致力照料旗下物業的樹木，樹木若因安全、生病或其他原因而必須砍伐，其健康部分會用作堆肥或覆蓋物，而較大的樹幹和樹枝則被升級再造成傢俱和藝術品。

PROMOTING SUSTAINABLE FOOD CHOICES 提供更多可持續食品的選擇

The Group encourages sustainable food choices across its hotel properties. Special plant-based menus at The Fullerton Hotel Singapore include vegan options featuring organic herbs and fresh produce grown at the Fullerton Farm. In addition to plant-based options, sustainable seafood options are provided. To promote marine conservation, we have adopted the Seafood Guide issued by WWF for procuring sustainable seafood that complies with sustainability schemes, including Aquaculture Stewardship Council and the Marine Stewardship Council (“MSC”) certified sustainable seafood at all our restaurants. In addition, we do our utmost to source seafood from certified fisheries and farms, working towards the Group’s target that 60% of the seafood served at our hotels will be purchased from sustainable sources by 2025. At The Fullerton Hotel Sydney, all Pacific cod, hake and hoki fish are sourced from MSC-certified suppliers.

集團鼓勵旗下酒店提供可持續的食品選擇。新加坡富麗敦酒店的特色素菜餐單，提供多款來自富麗敦農莊有機香草和新鮮農產等純素選擇。除了素食，我們亦提供多款可持續海鮮。為推廣保育海洋生態，我們採納了世界自然基金會發布的《海鮮選擇指引》，致力採購符合海洋管理委員會及水產養殖管理委員會認證的海鮮。集團亦竭力從認可漁農和養魚場採購海鮮，致力於 2025 年前實現集團的目標，使旗下酒店供應的 60% 海鮮將採購自可持續來源。悉尼富麗敦酒店的所有太平洋鱈魚、無鬚鱈和長尾鱈均來自經過海洋管理委員會認證的供應商。

MANAGEMENT APPROACH

Enhancing the wellness of our people is a vital factor in achieving our corporate vision of making Sino the preferred choice for customers, investors and employees. The Green Living Sub-committee of the ESG Steering Committee oversees our approach to Wellness. This Sub-committee supports fair employment practices and ensures we comply with local labour regulations, including minimum wage laws across our global operations. The Sub-committee meets quarterly and identifies, monitors and reviews current and emerging issues and trends related to human capital development, including the increasingly important issues of health, safety and wellbeing brought to the fore by the COVID-19 pandemic.

A number of essential policies define our approach to engaging our people. These include our group-wide Human Rights Policy , Diversity and Inclusion Policy  and Health and Safety Policy , which guide us in maintaining a fair workplace as well as a safe environment for our employees, customers and communities. These policies are regularly reviewed to ensure they align with our overall strategies and stakeholder expectations. Our Green Living Sub-committee also evaluates our safety performance quarterly and develops action plans to ensure all measures remain effective.

Employee Communication Channels

We maintain easily accessible communication channels with colleagues to instil a sense of belonging and ensure their opinions and concerns are addressed. Employees can engage in two-way communication with our management through various channels, including email, intranet, newsletters, and town hall and mini-town hall meetings. In our town hall meetings, senior management addresses staff questions and follows up with a review of the relevant policies, where appropriate and necessary. The feedback is then uploaded onto SinoNet, the Group's intranet.

In addition to paid annual leave and medical coverage, we provide birthday leave, as well as maternity and paternity leave. Free holiday flat access and privileges are also offered to all staff. All our packages and benefits are reviewed annually to reflect employee performance, contributions, and market trends. In addition to standard terms, we provided the key benefits highlighted below during the reporting period.

EMPLOYEES' CHILDREN EDUCATION SCHOLARSHIP AND BURSARY AWARD PROGRAMME

The Group continues to support the "Children's Education Award and Assistance Scheme" to recognise outstanding academic performance by employees' children and to provide financial support for their learning needs. A total of 82 and 22 employees' children from Hong Kong and Mainland China, respectively, received the Scholarship and Bursary Award amounting to HK\$935,400 in 2020. In addition, 286 children of employees were granted primary and secondary student subsidies to buy learning materials for the new academic year.

PARENTAL BENEFITS

We further enhanced our family-friendly employment policy by extending our paid maternity leave entitlement to 18 calendar weeks, which is four weeks longer than the current statutory requirement. This is in addition to the ten-day paid parental leave provided to female employees. Male employees receive five days paternity leave with full pay.

Connecting with Our Staff

Beyond providing attractive benefits, we believe open communication is key to keeping our employees engaged. Town hall meetings have always been a vital communication channel for the Group. In this reporting period, these meetings were considered more important than ever to understand the needs of our employees during the pandemic. The Corporate Town Hall Meeting was conducted online with over 800 colleagues joining from Hong Kong and overseas. Senior management shared their aspirations for how colleagues could work together to create a better community for all. A mini-town hall meeting, themed "Empathy 3.0", was also held online. At this session, over 60 colleagues from Sino Property Services ("SPS") shared their experiences in meeting and exceeding customer expectations by showing empathy and embracing feedback on enhancing our services.

We organised a career visit to the Hong Kong Gold Coast Hotel for non-Chinese speaking students from six secondary schools. The students were given the opportunity to shadow hotel staff for a full day to gain practical experience. This initiative allowed the students to better understand career options and to plan their future professional paths.

Learning opportunities provided on an ongoing basis include courses, seminars and workshops in areas such as customer service, financial knowledge, information technology, language proficiency, technical skills such as first aid and the safe use of electricity, and legal requirements. In addition to professional skills, training on topics such as mental health and stress management are offered. In September 2020, the Group launched another staff mobile app and web portal dedicated to e-learning called "SINO iLearn". The app allows colleagues to learn anytime and anywhere, providing the incentive of earning inSino badges towards prize redemption for completing courses. Through SINO iLearn, colleagues can learn at their own pace and access learning materials by browsing the course list on their phones or computers. The courses are bite-sized and provided in an interactive mode, to enhance learning efficiency. Offerings include the "Star Service+" series covering customer service management, as well as courses on various topics pertaining to personal development, with new courses added regularly.

STAFF TRAINING AND WORKSHOPS

The Group launched a two-year High Potential Staff Development Programme in November 2020 to strengthen our leadership pipeline. Three levels of customised training sessions have been tailored to cater to the varying needs of our frontline, young and senior leaders. Senior management of SPS nominated 56 colleagues to join the programme in this reporting period. Each participant received an individual development plan with core programmes to support their growth. On-the-job coaching and mentoring, job rotation or shadowing and a leadership camp are also features of the programme, which aims to broaden participants' business and leadership perspectives.

We also continued to deliver learning opportunities and courses amid COVID-19, adopting a webinar format for new hire orientation and training in customer service and others soft skills. Online learning provided engagement through interactive exercises, discussions and sharing sessions, while also offering the benefits of overcoming geographical restrictions and eliminating commuting time.

To support our frontline colleagues in providing excellent customer experiences, we offer bite-sized customer service tips through various channels, including our staff app inSino, monthly posters and daily briefings.

HOW WE ARE MANAGING IT

Our efforts involve protecting the physical health and safety of all stakeholders and enhancing general employee wellness. Our Health and Safety Policy [☑](#) sets out our commitment to prioritising health and safety across all aspects of our business, from building planning and design to daily operations. As such, we endeavour to provide a healthy and safe environment for our stakeholders, including employees, contractors, tenants and visitors. Our health and safety management system complies with all relevant laws, regulations and meets industry standards and best practices. In addition to regular inspections and audits, our ERM framework adopts a risk-based approach to identify, evaluate, mitigate and report any issues related to health and safety. The Green Living Sub-committee under the ESG Steering Committee ensures that health and safety principles are embedded across all our business lines.

Occupational Health and Safety

We have adopted stringent occupational health and safety (“OHS”) practices that help us maintain a safe and healthy environment for our employees, tenants and contractors. This includes control over work practices in high-risk situations, such as confined spaces and working at height. We adhere to Hong Kong’s Occupational Safety and Health Ordinance and relevant laws and regulations in the overseas jurisdictions where we operate. Sixteen properties managed under SPS, are certified under the ISO 45001 Occupational Health and Safety Management System standard. The Green Living Sub-committee, comprising senior executives from key business units, monitors the OHS performance of day-to-day operations in property management, car park management, security and environmental services. The Sub-committee is also responsible for administering the health and safety management system of the Group and ensures that safety principles are adopted in day-to-day operations. In addition, the Sub-committee also reviews injury cases to identify corrective and preventative actions.

MANAGEMENT APPROACH 管理方針

Incorporating sustainability into our product design, construction process and management is an essential part of our effort to protect our precious environment, improve climate resilience and enhance the wellness of residents, tenants and the community. Carefully designed projects can help conserve resources in the construction process and during a building's lifecycle. With this in mind, our property designs take into account sustainability features while also striving to achieve optimal comfort to deliver ideal products and services for people and the environment. Our commitment to sustainable design is evident in our continuing efforts to adopt sustainable building standards in our projects. The Innovative Design Sub-committee of the ESG Steering Committee meets quarterly and oversees our approach. This Sub-committee is responsible for monitoring our performance in sustainable building design and certification, evaluating our progress and recommending areas for improvement.

我們致力將可持續發展元素融入到發展項目的設計、建造和管理中，以保護珍貴的環境、提高氣候抗禦力，同時提升住戶、租戶和社區健康。精心設計的項目有助節約施工過程和建築物生命週期內所使用的資源。因此，我們設計物業時不僅考慮可持續發展的措施，更力求提高舒適度，為人們和環境提供理想的產品和服務。我們積極於發展項目採納可持續建築標準，以體現對可持續設計的承諾。環境、社會及管治督導委員會轄下的創新構思小組委員會，每季舉行一次會議，負責評估在可持續發展建築設計和認證方面的表現，並檢討進度 and 提出需改進的範疇。

Sustainable Buildings

可持續發展建築物

The Group attaches great importance to making buildings sustainable. Recognising that the right design elements have the potential to help tenants and customers implement sustainable practices, contribute to the health and wellness of inhabitants, and facilitate positive ecological outcomes in the surrounding natural environment, we actively seek to embed sustainability into our designs.

集團致力使旗下建築物變得更環保。我們明白合適的建築設計可有助租戶和顧客實踐可持續發展措施，以及促進租戶、顧客和員工的身心健康，同時對周邊地區的自然生態有正面的影響。因此，我們積極在建築設計融入可持續發展元素。

133 Portofino 涵蓋多項有關身心健康的元素，並通過了《WELL 建築標準™》的評估而獲得金級認證。

HOW WE ARE MANAGING IT

Our Sustainable Building Guidelines [📄](#) provide a comprehensive framework for integrating sustainability principles at the design stage and throughout the building life cycle. This framework, with our Sustainable Procurement Policy [📄](#) and Contractor/Supplier Code of Conduct [📄](#), set out principles for incorporating sustainability considerations into our procurement decisions. More details on our procurement policies can be found in the Sustainable and Ethical Supply Chain section of this Report on p.35 [📄](#). In addition, our approach to site development is guided by our Biodiversity Policy [📄](#), which provides parameters for protecting the natural habitats surrounding our sites. Our policy enables us to evaluate potential risks, allowing us to mitigate our impacts on natural resources as well as marine and terrestrial ecosystems. It also helps us increase the ecological value of the landscapes we manage by preserving trees and native plants.

Investment in Sustainable Buildings

To ensure our properties meet local and global standards, we focus on attaining certifications such as BEAM Plus and WELL™ certification. BEAM Plus, recognised by the Hong Kong Green Building Council, sets out independent performance criteria for a wide range of sustainability issues relating to the planning, design, construction, commissioning, fitting out, management, operation and maintenance of buildings. By providing an objective assessment of our overall performance, this benchmark enables us to measure our progress. WELL Building Standard™, developed by the International WELL Building Institute™, focuses on measuring the human health and wellness attributes of the built environment by monitoring ten key features: air, water, nourishment, light, movement, thermal comfort, sound, materials, mind and community.

As at 30 June 2021, 76% of our property projects under development obtained BEAM Plus provisional ratings. Six of our property projects under development obtained WELL™ pre-certification and one project, 133 Portofino, received Gold certification.

怎樣管理

我們在《可持續建築指引》[📄](#)訂下完善的框架，在建築設計階段及整個樓宇生命週期中加入可持續發展元素。這個框架，連同《可持續採購政策》[📄](#)和《承辦商/供應商行為守則》[📄](#)，訂下了將可持續發展因素納入採購決策的原則。有關採購政策的詳情，請參閱第35頁的「可持續和道德供應鏈」章節[📄](#)。此外，《生物多樣性政策》[📄](#)指引我們開發項目的方針，為保護建築工地周邊的自然棲息地提供參考標準。政策能使我們評估潛在風險，從而減低對自然資源，以及海洋和陸地生態系統的影響，同時亦協助我們透過保護樹木和本土植物，提高所管理園林的生態價值。

投資可持續發展建築物

為確保旗下物業符合本地及國際標準，我們致力於取得綠建環評認證和《WELL 建築標準™》認證。香港綠色建築議會認可的綠建環評認證，為建築物在規劃、設計、建造、調試、裝修、管理、營運和保養等多方面，制定可持續發展相關的獨立表現標準。該標準客觀評估我們的整體表現，並推動我們監察表現進展。由國際WELL建築研究院™制定的《WELL 建築標準™》，測量影響人類健康和福祉的十個關鍵要素，包括空氣、水質、營養、光線、運動、熱舒適度、聲環境、物料、精神和社區。

截至2021年6月30日，76%發展中地產項目已取得綠建環評預認證，六個集團發展中地產項目亦已獲得《WELL 建築標準™》預認證，另外，133 Portofino項目已獲得金級認證。

Facility Management

Our responsible practices extend beyond design and construction to our day-to-day operations. Our property management team, Sino Estates Management Limited (“SEML”), has adopted environmentally responsible practices to minimise energy consumption and improve efficiency, and manage water consumption while also encouraging recycling and waste reduction. Other efforts include the Farm Together project and increasing the number of EV charging points in our managed car parks.

In 2021, SEML became one of the first property management companies in the Greater Bay Area to receive ISO 41001:2018 Facility Management System certification. The headquarters office of SEML and its managed property Skyline Tower obtained certification, illustrating the team’s efforts in providing quality facility management, operational and maintenance services. The key energy efficiency measures implemented as part of SEML’s daily operations at our properties included the pilot installation of an AI-controlled optimisation solution for chiller plants at Olympian City 3, replacement of high-efficiency primary air handling units with electronically-commutated motors and the modernisation of lifts.

設施管理

我們在建築設計和施工以至日常營運中均實施負責任的實務常規。我們的物業管理團隊信和物業管理有限公司（「信和物管」）已採取對環境負責的實務常規，將能源消耗減至最低的同時提高效益、管理用水量，以及鼓勵回收和減少廢物。其他措施包括「一喜種田」項目，以及增加管理停車場電動車充電站的數量等。

2021年，信和物管成為大灣區首批取得ISO 41001:2018設施管理體系認證的物業管理公司之一。信和物管總部辦公室及旗下管理物業宏天廣場均取得認證，肯定團隊在設施管理、營運和維護服務方面的努力。作為日常營運的一部分，我們旗下物業實施能源效益措施，包括於奧海城三期試行安裝人工智能技術方案以優化的供冷機組、配備電子整流電動機替代高效鮮風處理機組，以及優化升降機等。

CAPS 2.0 safeguards public health in densely populated cities using novel filtration and sanitisation technologies.
CAPS 2.0 利用嶄新過濾和消毒技術在人口稠密的都市守護大眾健康。

AWARD-WINNING CITY AIR PURIFICATION SYSTEM 2.0

The Group and the Hong Kong Innovation Foundation recently unveiled the City Air Purification System 2.0 (“CAPS 2.0”). CAPS 2.0 is a state-of-the-art invention jointly developed by Sino Inno Lab and Arup that improves outdoor air quality while serving as a functional bus shelter. Given that the World Health Organisation ranks air pollution as the single largest environmental health concern globally, CAPS 2.0 is set to make a valuable contribution, serving as a citywide solution to urban pollution.

CAPS 2.0 draws in surrounding polluted air, creating an invisible shield-like air curtain from the underside of the canopy, while concurrently generating air currents within that space to clean the air. Polluted air is then internally purified with its dual protection technology, removing harmful suspended particles and eliminating coronaviruses. The patented technology efficiently recycles and cleans air within a semi-open space and has been proven to reduce pollution exposure by half, remove 99.95% of PM_{0.1} airborne allergens and kill viruses, bacteria and fungi within seconds. It is the first of its kind to concretise the “invisible shield” concept — a unique element that distinguishes it from other enclosed-shelter air purification systems. The full-scale CAPS 2.0 bus shelter was on display at Central and Western District Promenade (Central Section)

屢獲殊榮的「城市空氣淨化 系統 2.0」

集團與香港創新基金攜手呈獻「城市空氣淨化系統 2.0」(「CAPS 2.0」)。CAPS 2.0 是由「信和創意研發室」和奧雅納 (Arup) 共同研發的劃時代新發明，利用嶄新科技組裝成為具功能的巴士站候車亭。世界衛生組織將空氣污染列為最影響人類健康的最大單一環境問題，CAPS 2.0 正是解決城市空氣污染的嶄新方案。

CAPS 2.0 能有效阻隔污染物進入簷篷下的範圍，形成看不見的空氣保護盾，抽入附近受污染空氣，透過裝置內產生氣流以淨化空氣。污染空氣進入系統後，會進行雙重過濾淨化，去除空氣中有害的懸浮粒子，同時消滅冠狀病毒。這項專利技術可應用於半開放空間，有效回收及淨化空氣，並已證實能將空氣中的污染物減半；除去空氣中 99.95% 的 PM_{0.1} 致敏原，以及於數秒內消滅病毒、細菌和真菌。CAPS 2.0 率先引入看不見的空氣保護盾概念，有別於其他封閉式空氣淨化系統。CAPS 2.0 巴士站候車亭於 2021 年

from April to June 2021 for the public to experience this innovative air purification system. The bus shelter then travelled on to Olympian City, with students from a local university enlisted to monitor and analyse the data collected from the roving exhibition for further educational purposes.

CAPS 2.0, the second-generation prototype of the system first introduced in 2015, was awarded both the Gold Medal and the Industrial Design Prize at the 47th International Exhibition of Inventions Geneva, as well as the Gold Medal with Jury Commendation at the Silicon Valley International Invention Festival and the World Intellectual Property Organisation Medal for Inventors in 2019, and the Green Good Design Award in 2021. Alongside its current application, CAPS 2.0 has multiple functions that can contribute to everyday wellbeing. The technology can be easily adapted to a variety of built environments, with the potential to be used with established public transport networks in densely populated areas of most metropolises.

4月至6月在中西區海濱長廊（中環段）展出，讓市民親身體驗這種嶄新的空氣淨化系統。隨後移師至奧海城展出，並邀請本地大學生監測和分析巡迴展覽所得數據，以作教育用途。

CAPS 2.0是2015年首創系統之第二代原型，於「第四十七屆日內瓦國際發明展」榮獲金獎和「工業設計大獎」，以及2019年度「矽谷國際發明展」評判特別嘉許金獎及「世界知識產權組織發明獎」，以及於2021年獲「Green Good Design Award」。除了目前的應用外，CAPS 2.0亦具備多種功能，有助促進日常身心健康。技術可廣泛應用於各種建築環境，亦有潛力應用於人口稠密且公共交通網絡完善的大多數城市。

“This commercially-ready solution was made possible thanks to the team’s dedication to continuous improvement over the past five years, resulting in the award of several design and invention patents.”

「今天展出的解決方案隨時可推出市場，全賴研發團隊過去五年一直全力以赴，精益求精，並獲得多項設計及發明專利。」

Sino Inno Lab was named one of the four winners in Hong Kong, alongside 19 winners from eight countries and regions.

The Lab was also recognised for contributing to UNSDG Goal 9, Industry, Innovation and Infrastructure. The Lab was named one of the Best Sustainable Companies at the inaugural SDG Enterprise Awards 2020 for its efforts in driving industry innovation and being an open platform for idea exchange among start-ups, as well as fostering technological development in the property sector. Among the nine winners of the Awards, Sino Inno Lab was the only winner from the real estate industry and the only winner from the field of technology and innovation.

獎項及殊榮

研發室榮獲2020年度「全球最具創新力知識型機構(MIKE)大獎」及「香港最具創新力知識型機構大獎」，以表揚其在創新發展的貢獻和表現。全球19家來自八個國家和地區的得獎機構獲頒這項殊榮，「信和創意研發室」為香港地區四家得獎機構之一。

研發室亦在推動聯合國可持續發展目標(SDG)第九項「產業、創新和基礎設施」方面備受認可。研發室於首屆「SDG企業大獎2020」獲選為「最佳可持續發展企業」得獎者之一，以表揚我們對推動業界創新，為初創企業提供開放平台鼓勵創意交流，以及促進地產業界創新發展的努力。在九家得獎企業中，「信和創意研發室」為房地產界及科創領域的唯一得獎者。

Sinovation

In addition to engaging external stakeholders, Sino Land has been keen to encourage employees to embrace innovation and technology. The Sinovation programme, launched in 2019, aims to inspire colleagues to explore ideas that enhance performance, increase productivity and improve customer service. Technical sharing workshops covering design thinking, IoT, sensors/network, AI and robotics, presentation skills training and “meet-the-innovator” sessions are held for programme participants to interact with other technology companies as part of the initiative.

In this reporting period, the Sinovation programme attracted more than 90 innovative ideas with seven outstanding ideas shortlisted for further development and prototype testing. Shortlisted participants also underwent a series of “Learn & Grow” sessions to allow them to brainstorm with the Innovation Department and meet companies with relevant technologies that can help them further develop their ideas.

AWARDS AND PROGRESS

Following up on last year’s Sinovation programme, two home-grown innovations developed by colleagues, the CoolJet and Mobile Indoor Air Quality (“IAQ”) Robot, received Gold Medals at the 2021 International Exhibition of Inventions Geneva. The CoolJet is a patented technology that was designed as a “wearable air conditioner”, for use in working environments where ventilation and high temperature are concerns. The double-layered jacket allows cool air to flow through the entire jacket through the layers while heat is dissipated into the surroundings. The CoolJet has been converted a practical solution and put into mass production to improve the occupational health and safety of frontline employees.

The other Gold Medal recipient, the self-navigating Mobile IAQ Robot, serves as an IAQ detector and display for continuous inspection of up to nine IAQ parameters including fine suspended particles PM₁, PM_{2.5} and PM₁₀.

CoolJet is a jacket providing cool ventilation for colleagues working in hot environments.

信·共創

除了外界持份者，信和置業致力激發員工對創新和科技的興趣。「信·共創」計劃於2019年推出，旨在鼓勵員工發揮創意，探索解決方案，提高日常運營效率和改善顧客服務質素。計劃包括科技分享會，內容涵蓋設計思維、物聯網、感應器/網絡、人工智能和機械人技術、演講技巧培訓，以及獲安排與初創企業創辦人會面，讓計劃參加者與其他科技公司交流。

報告期內，「信·共創」吸引了超過90項創新構思，當中七項創意發明將會進一步開發並轉化為測試原型。入圍的參加者更參加了一系列「學習與成長」分享會，與集團的創新部分享和交流，並與擁有相關技術的企業會面，協助進一步發展自己的想法。

獎項及殊榮

去年「信·共創」計劃，兩項由集團員工自行研發的項目—CoolJet和Mobile IAQ Robot，於2021年度「日內瓦國際發明展」獲頒金獎。擁有專利技術的CoolJet，設計成「可穿戴式冷風裝置」，適用於有通風需要及溫度較高的工作環境。外套採雙層設計，讓冷空氣於外套夾層之間流動，同時將熱空氣散發到四周，保持通風。CoolJet的概念被進一步轉化為實際應用方案並進行批量生產，提升前線員工的職業健康及安全。

另一項獲頒金獎的發明Mobile IAQ Robot附有自動導航系統，可用作室內空氣質素檢測器及顯示器，持續檢測多達九個室內空氣質素參數，包括空氣中的懸浮顆粒PM₁、PM_{2.5}和PM₁₀。

STUDENT PROGRAMMES WITH POLYU SCHOOL OF DESIGN

與理大設計學院合作的學生計劃

PolyU School of Design students created animal figures made from upcycled plastic waste, using a plastic shredder and compressor developed by previous interns. Due to the collaborative efforts of Sino Inno Lab, Brand & Design and Sino Property Services teams, these upcycled plastic animals can be seen around the common areas and offices as daily reminders for employees and tenants to reduce consumption and recycle resources.

HKUST-SINO ONE MILLION DOLLAR ENTREPRENEURSHIP COMPETITION 2021

科大一信和百萬獎金創業大賽2021

We continued to support the HKUST-Sino One Million Dollar Entrepreneurship Competition in 2021, which attracted 185 participating teams as participants. Two of the winning student groups of this year developed plans to help reduce the city's waste by upcycling bread scraps and making edible cutlery, thereby reducing the amount of disposables going to landfill. Meanwhile, another team created a real-time, non-invasive and easily accessible technology to monitor athletes' stress and muscle fatigue level to avoid potential injuries. All three winning teams have the opportunity to work with industrial partners on commercialising their products with the support from the Group.

在2021年，我們繼續支持「科大一信和百萬獎金創業大賽」，比賽吸引185支隊伍參賽。獲獎的其中兩支學生隊伍，分別提出了升級再造剩餘麵包，和製作可吃掉的餐具的方案，以減少棄置於堆填區的垃圾。除此之外，另一支隊伍則研發了一款即時、非入侵性且方便使用的技術來監測運動員的壓力和肌肉疲勞水平，以保護他們避免因過度訓練而受傷。三支獲獎隊伍均能獲得集團支持，與業界合作將研發成果商品化。

Heritage and Culture

文化傳承

Cultural heritage is part of a community's collective memory and provides a sense of continuity and belonging. Our art and cultural initiatives serve to revitalise the communities in which we operate, and drive economic and social development. These initiatives also help us build invaluable connections with stakeholders across our value chain.

HOW WE ARE MANAGING IT

We promote built heritage conservation in our design, development and long-term management of projects. A key focus is community engagement, in particular with the younger generation, on the importance of conserving heritage buildings. We also strive to enrich our communities through our support of the arts. Activities include collaborations with NGOs and artists on projects for children and youth to nurture their appreciation of the arts and enhance their personal development. The Group also sponsors art and design events that contribute to a vibrant, local creative scene. We curate exhibitions and related activities at the Group's properties and provide a platform for local and international artists to showcase their talent.

Heritage Projects

An important project is The Fullerton Hotel Sydney, which is located in a heritage-listed landmark intertwined with Sydney's development over the past century. Completed in 1874, the majestic sandstone structure is regarded as one of Australia's finest examples of Victorian Italian Renaissance architecture. Another project is The Fullerton Hotel Singapore. Housed in a grand, neoclassical landmark completed in 1928, this building has played a pivotal role in Singapore's history for nearly a century. Once home to Singapore's General Post Office, the Singapore Club and various government departments, the building was gazetted in 2015 as the 71st National Monument of Singapore. Today, it is located in The Fullerton Heritage precinct together with The Fullerton Bay Hotel Singapore, The Fullerton Waterboat House, One Fullerton, The Fullerton Pavilion, Clifford Pier and the Customs House.

怎樣管理

我們在項目設計、開發和長期管理中致力保育歷史遺產。我們重視社區參與，尤其是年輕一代，讓他們了解保育歷史建築的重要性。我們亦積極透過支持藝術活動來豐富社區，當中包括與非政府機構和藝術家合作開展為兒童和青少年而設的項目，以培養他們對藝術的欣賞能力和促進個人發展。集團同時贊助藝術和設計活動，促進本地創意產業發展。我們在集團旗下的物業策劃展覽和相關活動，並為本地和國際藝術家提供展示才華的平台。

歷史建築項目

其中一個重要項目為悉尼富麗敦酒店，所坐落的歷史文化地標在過去一個世紀與悉尼的發展密不可分。大樓於1874年落成，其砂岩結構被譽為澳洲維多利亞時代文藝復興建築的經典之一。另一個項目則為新加坡富麗敦酒店。這座宏偉的新古典主義地標建築於1928年落成，在新加坡過去近一個世紀的歷史中有著舉足輕重的位置。建築曾為新加坡郵政總局、新加坡俱樂部和眾多政府機構的所在地，於2015年被刊憲列為新加坡第七十一座國家歷史文物。酒店位於富麗敦天地，毗鄰新加坡富麗敦海灣酒店、富麗敦船屋、富麗敦一號、富麗敦蓮亭、紅燈碼頭和前海關大樓。

The Group endeavours to preserve valuable landmarks to reconnect today's communities and future generations with these historic gems and to share their unique story with everyone who visits. More details on key projects that conserve community legacies are described below.

AN ICON RESTORED: REMEDIATION OF SYDNEY GPO

The Fullerton Hotel Sydney is housed in the iconic former General Post Office ("GPO") building at No. 1 Martin Place. Following an extensive revitalisation programme spanning two years and a combined 98,000 working hours, this much-loved landmark, known as the "Grand Dame", was restored to her former glory. The historic building's intricate stonework and carvings were painstakingly cleaned using a meticulous, chemical-free process undertaken in a series of stages. Carried out by experienced specialists, the project's objective was to preserve the building's integrity and historical significance by returning the surface of sandstone to its natural patina. Special attention was paid to the external stone and metal work, intricate windows and doors, as well as lead weathering and waterproofing.

集團致力保育寶貴的地標，讓社會和我們的下一代與這些歷史瑰寶重新建立聯繫，並與每位訪客分享它們背後的獨特故事。有關傳承社區文化的重點項目如下。

回復昔日光輝：修復悉尼郵政總局

悉尼富麗敦酒店坐落於馬丁廣場一號具標誌性的前郵政總局大樓。經過為期兩年，共98,000小時的全面修復後，這座經典地標已回復昔日的光輝。外牆上錯綜複雜的石雕和雕刻，經歷多個不使用化學品的清潔步驟，過程一絲不苟。項目由經驗豐富的專家執行，力求將砂岩外牆回復自然光澤，保存建築物的歷史完整性及風貌。是次維修重點是外牆的石雕和金屬製件和裝飾精緻的門窗，以及處理鉛材風化和防水。

BUTTERFLIES OF HOPE

希望之蝶

To celebrate Chinese New Year, our Lee Tung Avenue site in Hong Kong was decorated with “Butterflies of Hope”, the world’s first AI-powered light art installation showcasing butterflies. Created by 2019 Martell Artist of the Year, Victor Wong, the installation dressed up the tree-lined boulevard with more than 350 LED butterflies with a large seven-metre stained glass butterfly as the centrepiece. During the day, the piece reflected daylight onto the ground, bringing about a magical display of dancing butterflies. At night, the AI-controlled symbols of hope were synchronised with music, presenting an enchanting symphony of light and sound under the stars.

為慶祝農曆新年，我們於香港利東街設置全球首個人工智能蝴蝶光影藝術裝置《希望之蝶》，由2019年法國「馬爹利非凡藝術人物大獎」得主黃宏達創作。作品以七米高的彩色玻璃蝴蝶為中心，加上超過350隻LED蝴蝶，點綴了林蔭步行街。在日間，作品折射陽光在步行街上，炫彩的蝶舞表演隨之上演；到了晚上，透過人工智能的指揮，《希望之蝶》隨著音樂在星光下演出動人的光影協奏曲。

FEEL THE MOTION

In order to nurture Arts and Technology (“Arts Tech”) in line with global trends, we launched “Feel the Motion” in collaboration with Hong Kong-based studio eMotionLAB. The six-month programme equipped passionate young talent with a range of learning experiences, industry sharing and hands-on training to pursue a career in the motion design industry. Apart from access to a session featuring over ten renowned international and local motion designers, participants were sponsored for 12 “Accelerator Workshops” focused on motion design theory and techniques.

From more than 100 applicants, 30 were shortlisted for the programme. Each participant was given the opportunity to take part in a commissioned project for Sino Malls’ digital screens to gain real-life work experience. To further raise awareness within the Greater Bay Area, a webinar was held in January 2021 focusing on motion graphic trends and the potential for nurturing motion design in the area. Industry leaders from Macau and Shenzhen shared their experience of major projects, including those from internationally-recognised festivals.

為緊貼「藝術科技」這全球趨勢，我們與本地工作室 eMotionLAB 合作推出「Feel the Motion」計劃。計劃為期六個月，為有志投身動態影像設計行業的年輕人才提供一系列體驗、業界分享和實踐培訓。除了能參與匯聚十多位國際及本地知名動畫設計師的講座外，參加者更獲得資助，參加 12 個「創意教學工作坊」學習動態影像設計理論和技術。

計劃從超過 100 份申請中挑選出 30 名參加者。每位參加者均有機會參與實踐項目，為集團旗下商場的數碼屏幕設計動態影像，汲取實戰經驗。為進一步提高動態影像在大灣區的關注度，我們於 2021 年 1 月舉辦了網上研討會，重點探討動態影像趨勢以及大灣區在發展動態設計方面的潛力。來自澳門及深圳的業界領袖亦分享了他們參與大型項目的經驗，當中包括一些國際盛事。

ART FOR AUTISM

The Fullerton Hotel Singapore partnered with the Autism Resource Centre and Pathlight School to present an exceptional exhibition, “Art for Autism: All Things Singapore 2021”. At the exhibition, 17 young, differently-abled artists invited the public to explore unique perspectives on Singapore through their lens and to enter their world of discovery through their artwork. Full proceeds from the sale of the works of art went towards supporting the artists.

The Group is committed to supporting Arts Tech, with the Tsim Sha Tsui Centre and Empire Centre showcasing motion pyrotechnics along Victoria Harbour since 2017. 集團致力支持藝術科技，尖沙咀中心及帝國中心自 2017 年起便於維港海旁上演精彩動態影像表演。

LIFE IN EDO | RUSSEL WONG IN KYOTO

The exhibition of “Life in Edo | Russel Wong in Kyoto” hosted by The Fullerton Hotel Singapore, featured an array of woodblock printing and photography masterworks, telling the tale of two popular Japanese cities — Edo (today’s Tokyo) and Kyoto. “Life in Edo” depicted everyday life in the Edo period through a collection of 157 fully coloured ukiyo-e prints. “Russel Wong in Kyoto” featured 40 black-and-white photographs from the Singaporean celebrity photographer’s 13-year-long, ongoing personal project to document the Geiko of Kyoto.

《Life in Edo | Russel Wong in Kyoto》展覽假新加坡富麗敦酒店舉行，當中展出一系列木刻版畫和攝影作品，講述兩個熱鬧繁盛的日本城市——江戶（今天的東京）和京都的故事。《Life in Edo》透過 157 幅全彩色浮世繪版畫，展示江戶時代的日常生活。《Russel Wong in Kyoto》則展出 40 張由新加坡著名攝影師黃國基 13 年來記錄京都藝妓風情的黑白照片。

Curated by the Photographic Heritage Foundation, the exhibition showcases parallel timelines of the 1950s in Hong Kong and Singapore.

展覽由歷史遺珍攝影基金會策展，帶領參觀者了解香港和新加坡兩地於 1950 年代的共同歷史回憶。

THE TRANSFORMATION OF TWO GREAT WORLD CITIES — “PHOTOGRAPHS FROM THE 1950s: MARJORIE DOGGETT’S SINGAPORE, LEE FOOK CHEE’S HONG KONG”

The Group, the Ng Teng Fong Charitable Foundation and the Photographic Heritage Foundation jointly presented a unique exhibition entitled, “Photographs from the 1950s: Marjorie Doggett’s Singapore, Lee Fook Chee’s Hong Kong”. Curated by the Photographic Heritage Foundation and supported by the Consulate General of the Republic of Singapore in Hong Kong, the exhibition presented works by Marjorie Doggett, a pioneering female photographer from England, who captured the cityscapes and buildings of Singapore from 1954 to 1957, and Lee Fook Chee, a self-taught Singaporean photographer who focused on Hong Kong streetscapes during the same period. The “time capsule” exhibition showcased parallel timelines in Hong Kong and Singapore, when they were on the cusp of their transformations into shining international metropolises, paying tribute to the rich shared history and warm friendship between these two great Asian cities.

兩個世界級城市的變遷 —— 《1950 年代攝影作品展：瑪喬麗·多格特鏡頭下的新加坡 李福志鏡頭下的香港》

集團、黃廷方慈善基金和歷史遺珍攝影基金會合作舉辦了《1950 年代攝影作品展：瑪喬麗·多格特鏡頭下的新加坡 李福志鏡頭下的香港》。展覽由歷史遺珍攝影基金會策劃，並獲新加坡駐港領事館支持，呈獻來自英國的早期女性攝影師瑪喬麗·多格特 (Marjorie Doggett) 以鏡頭捕捉 1954 至 1957 年的新加坡城市面貌，以及來自新加坡自學成師的攝影師李福志於同期攝下的香港街景。照片帶領參觀者穿越時光隧道，穿梭於當時正轉變成國際大都市的香港和新加坡，向兩地的豐富歷史和深厚友誼致敬。

The exhibition at Sino Plaza was thoughtfully arranged to beautifully contrast Doggett's Singapore and Lee's Hong Kong, as well as their legacy of life, resulting in a cohesive and impactful storyline.

展覽特意分別呈現瑪喬麗·多格特鏡頭下的新加坡及李福志鏡頭下的香港，以及兩位攝影師緊密連繫又極富感染力的生平故事。

The compelling exhibit on Hong Kong featured the urban spaces of Des Voeux Road, Central District and Hennessy Road in addition to the Cheung Chau waterfront, rice fields in the city's alluvial plain and a Hakka village in the New Territories. Singapore's icons included the former Fullerton Building, the Raffles Institution, the characteristic godowns along the Singapore River and the 19th-century buildings on Collyer Quay. The public exhibition at Sino Plaza was open from 1 April to 30 May 2021, with a series of free curatorial and educational tours introducing the history, architecture, iconic buildings and urban transformation of the two cities, available to visitors and schools. A roving exhibition with highlights of the collection also took place between 2 April and 6 June 2021, at some of our properties across Hong Kong.

這場展覽展出了香港的長洲海傍、元朗平原的稻田，以及新界客家村落，更展出德輔道、中環和軒尼詩道的市區街頭面貌。而新加坡則有經典地標包括前浮爾頓大樓、萊佛士書院、新加坡河兩傍的特色倉庫，以及哥烈碼頭的19世紀建築物。公眾展覽由2021年4月1日至5月30日在信和廣場舉行，期間設有一系列免費教育導賞團，介紹兩地歷史、建築、經典建築物和城市變遷，供公眾及學校團體參加。部分精選作品亦於2021年4月2日至6月6日期間在集團香港旗下的部分物業舉行巡迴展覽。

“We are delighted to present an enriching and educational event for the community and the public to enjoy. This collection of beautiful historic photos brings us through the journey of time, where East meets West, and reminds us of the passion for travel between Hong Kong and Singapore.”

「我們很高興為社會和公眾提供充實並具教育意義的活動。這些美麗的紀實照片，將帶領大家踏上時光之旅，讓我們重拾往來香港和新加坡旅遊的熱情。」

MANAGEMENT APPROACH 管理方針

Investing in our communities is a vital step on our journey of Creating Better Lifescapes. As a responsible corporate citizen, we strive to build inclusive societies by engaging with stakeholders and supporting those in need. The Community Spirit Sub-committee of our ESG Steering Committee meets quarterly and sets the overall direction of our community engagement strategy and monitors and reviews our community initiatives. The Sub-committee is also responsible for connecting with our stakeholders to understand their aspirations. Stakeholder feedback is essential as we endeavour to make continuous improvements to our community programmes.

投資於我們的社區是建構更美好生活的重要一環。作為負責任的企業公民，我們致力與持份者聯繫並支持有需要的人士，以建設共融社會。環境、社會及管治督導委員會轄下的心繫社區小組委員會，每季舉行一次會議，明確定立我們社區參與策略的總體方向，並監督和檢討社區計劃的成效。小組委員會亦負責透過與持份者溝通，了解他們的期望。持份者的意見對我們至關重要，有助我們不斷改善社區計劃。

Community Investment and Engagement

社區投資和參與

Prioritising community investment and engagement initiatives creates thriving communities and shared value for all. Strong partnerships with the communities in which we operate engender a spirit of social cohesion on our shared journey towards a brighter future.

以社區投資和參與計劃為首要任務，能為所有持份者創造繁榮的社區和共享價值。我們與經營所在的社區建立緊密的夥伴關係，共同促進社會共融的精神，努力實現更美好的未來。

HOW WE ARE MANAGING IT

Engaging charitable organisations and NGO partners in collaborative events and activities helps us to further our reach within communities to all members of society, from children and youth to the elderly. The Group also promotes social integration by organising initiatives that empower and enhance the social mobility of less-resourced members of the community. As a high priority, we foster a volunteering culture that seeks opportunities to serve the community, sharing the time and varied skills of our people at all levels across our different business units. We also extend our support to community partners through donations and sponsorships. Our support includes venue sponsorships and free displays of print and audio-visual promotional materials at the Group's properties. Our community initiatives aim to fulfil our goals of improving the wellbeing of less-resourced families, promoting health education and collaborating with local NGOs to promote social inclusion.

怎樣管理

與慈善團體和非政府機構夥伴合作籌劃活動，使我們更能接觸到社會上從兒童、青少年以至長者的每一員。集團亦籌辦各項活動，推動社會共融，提升弱勢社群向上流動的機會。我們非常重視義工服務，並以此為企業文化的一部分，鼓勵不同業務部門的各級員工，善用他們的時間和技能服務社區。此外，我們透過捐款和贊助，支援社區合作夥伴，當中包括場地贊助，以及在集團物業免費展示宣傳品和影片。我們的社區計劃力求改善基層家庭的生活、推廣健康教育，以及與本地非政府機構合作，促進共融的社區。

A five-metre-tall Christmas tree decorated with 600 limited edition Fullerton Santa bears took centre stage at The Fullerton Hotel Singapore to ring in the Christmas season in December 2020. These special bears were sold at The Fullerton Shop with proceeds from their sale donated to NGO partner Beyond Social Services, in support of its efforts to help children and youth from less-resourced backgrounds.

To further the spirit of giving, guests enjoyed Christmas-themed specialty dishes whipped up by the General Manager of The Fullerton Hotels and Resorts, alongside the Australian High Commissioner and New Zealand High Commissioner, as they donned chef's whites for Fullerton's Charity Dinner Feast. Proceeds from the dinner were also donated to Beyond Social Services.

Promoting Wellness and Inclusion

BREAST CANCER AWARENESS MONTH

To kick off Breast Cancer Awareness Month 2020, The Fullerton Hotel Singapore was lit up as a pink beacon for the month of October to raise awareness and support the cause. The Fullerton Hotel and The Fullerton Bay Hotel in Singapore, along with The Fullerton Hotel Sydney, curated a pink-themed Afternoon Tea throughout the month. A portion of the proceeds was donated to the Breast Cancer Foundation in Singapore and the National Breast Cancer Foundation in Sydney to support breast cancer patients.

INTERNATIONAL WOMEN'S DAY

In honour of International Women's Day and to support fundraising efforts for women's empowerment, The Fullerton Hotel Singapore presented a specially curated Purple Afternoon Tea throughout March 2021 at all dining outlets. A portion of the proceeds of each purple-hued Afternoon Tea set was donated to United Women Singapore, a not-for-profit organisation, which aims to advance gender equality and women's empowerment by promoting STEM (science, technology, engineering and mathematics) for girls and advocating for issues faced by women.

Volunteer Recognition

Launched in 2011, the Volunteer Incentive Scheme continued to encourage our colleagues to volunteer during office hours for at least one day a year. During the reporting period, 23 colleagues were recognised for their service. These colleagues were offered hotel accommodation packages, buffet coupons or gift vouchers as tokens of appreciation for their contribution.

In recognition of our commitment to promoting a corporate volunteer culture, Sino Land once again received the Highest Service Hour Award 2019 (Private Organisations – Category 1) – Honour as part of the Hong Kong Volunteer Award 2020 from the Social Welfare Department.

SUPPORTING OUR COMMUNITIES DURING THE COVID-19 PANDEMIC

To alleviate the immediate needs of less-resourced people in our communities whose livelihoods have been impacted by COVID-19, the Group and the Ng Teng Fong Charitable Foundation launched a meal box donation programme in Hong Kong. Prepared by Sino Hotels' chefs and a social enterprise, Pei Ho Counterparts, over 60,000 hot and nutritious meal boxes were distributed by our Group's volunteers together with other community partners. We are grateful to our like-minded partners who joined us in this meal donation programme to promote a spirit of caring by providing practical assistance to those in need. The six-month programme, which ran from end-April to end-October, was organised with seven community partners, including Pei Ho (Ming Gor) Charity Foundation, The ABM Hong Kong Swatow Baptist Church Community Service Association, People Service Centre, J Life Foundation, International Church of the Foursquare Gospel Hong Kong District, The Boys' & Girls' Clubs Association of Hong Kong Jockey Club Shek Yam Children & Youth Integrated Services Centre and Hong Kong Network for the Promotion of Inclusive Society. Service areas included San Po Kong, Sham Shui Po, To Kwa Wan, Tuen Mun and Shatin. The programme also added value to the local economy by creating job opportunities in transport and logistics.

疫情期間支援社區

新型冠狀病毒疫情影響基層人士的生計。集團與黃廷方慈善基金在香港推出「愛心飯盒捐贈計劃」，以緩解社區目前所面對的挑戰。餐盒由信和酒店廚師團隊和社會企業「北河同行」準備，透過集團義工和社區夥伴，派發超過60,000個熱食營養餐盒。我們感謝各社區合作夥伴透過「愛心飯盒捐贈計劃」傳揚關愛和奉獻精神，為有需要人士提供支援。是次計劃由4月底起至10月底，為期六個月，合作的七個社區夥伴包括北河（明哥）慈善基金、美差會潮浸服務聯會、民社服務中心、啟愛共融社區中心、國際四方福音會香港教區、香港小童群益會賽馬會石蔭青少年綜合服務中心，以及香港傷健共融網絡。服務範圍包括新蒲崗、深水埗、土瓜灣、屯門及沙田等多個地區。計劃亦提供運輸和物流相關的就業機會，以促進本地經濟。

In addition to initiatives in Hong Kong, we have also supported frontline healthcare workers as well as migrant worker groups in Singapore who need an extra helping hand. Since April 2020, our culinary team has prepared over 23,000 packed meals and donated essential supplies including masks and clothes to the workers. Our pandemic support programmes extend to our communities in Sydney where we donated 8,000 N95 respirator masks to a local hospital to assist with short-term supply of much needed protective equipment. In September 2020, we also organised food delivery drives to The Girls & Boys Brigade, a not-for-profit organisation in Sydney, and assisted charity staff to pack food bags to donate to 150 less-resourced families.

除了在香港的活動外，我們在新加坡支持前線抗疫醫護人員，以及需要支援的外籍勞工團體。自2020年4月，我們的餐飲團隊準備了超過23,000份餐盒，更向外籍勞工捐贈口罩和衣服等必需品。我們的疫情支援計劃亦擴展至悉尼社區，向當地的醫院捐贈8,000個N95口罩以協助解決防護設備供應短缺的問題。2020年9月，我們為悉尼非牟利機構The Girls and Boys Brigade舉辦送餐活動，同時協助慈善機構工作人員包裝食品袋，捐贈給150個有需要的家庭。

The meal boxes were distributed by Sino Caring Friends and community partners to less-resourced individuals and families, as well as elderly citizens across Hong Kong.

餐盒由「信和友心人」及社區合作夥伴派發予本地基層人士和家庭，以及有需要長者。

“COVID-19 has affected the local economy and the livelihoods of many people in an unprecedented way, and the less-resourced communities need help with basic needs more than ever. In this critical period, we need to pull together to care for each other while the situation improves with the vaccination roll-out and upsurge in economic activity.”

「新型冠狀病毒疫情對本港經濟和市民生計帶來前所未有的挑戰，基層人士的基本需求更要支援。隨著疫苗接種計劃推進，經濟活動回復，情況將會改善，而在這個關鍵時期，我們要團結齊心，共渡難關。」

Remarks 備註

¹ Calculation methodologies for GHG emissions:

Methodologies: "Guidelines to Account for and Report on Greenhouse Gas Emissions and Removals for Buildings (Commercial, Residential or Institutional Purposes) in Hong Kong" published by the Environmental Protection Department and the Electrical and Mechanical Services Department of the Hong Kong SAR Government.

Sources of emission factors: Local power and utility companies, Drainage Services Department and Water Supplies Department of the Hong Kong SAR Government, Energy Market Authority of the Government of Singapore, and Department of Industry, Science, Energy and Resources of the Australian Government. Emission factors adopted have been updated based on the above sources.

GHG emissions calculated included carbon dioxide (CO₂), methane (CH₄), nitrous oxide (N₂O) and hydrofluorocarbons (HFCs). Perfluorocarbons (PFCs), sulphur hexafluoride (SF₆) and nitrogen trifluoride (NF₃) are not considered material.

Head Office refers to the offices of Sino Land in Tsim Sha Tsui Centre.

Property management in 2020/21 refers to the 67 buildings managed by the Group. For 2019/20 and 2018/19, the data included 51 buildings managed by the Group. Electricity consumption by property management also included some centralised cooling services for tenants. Further breakdown of such electricity consumed is not available.

Assessments included eight construction sites (IL9064, KCTL524, 133 Portofino, Madison Park, St. George's Mansions, Silversands, Mayfair by the Sea 8 and YLTL532) in 2020/21 and 2019/20, while three construction sites (Mayfair by the Sea 8, STTL611 and YLTL532) were included in 2018/19. The changes in GHG emissions, fuel and water consumption and their intensities, and non-hazardous waste disposal from construction activities, were due to the different stages of construction activities at the sites during the reporting period, when compared with previous years.

The scope for hotels included The Fullerton Hotel Singapore, The Fullerton Bay Hotel Singapore and The Fullerton Hotel Sydney. Hotel operations were affected by COVID-19, hence there was a decrease in some parameters, such as fuel consumption and waste disposal, when compared with previous years.

溫室氣體排放量計算方法：

方法：根據香港特別行政區政府環境保護署和機電工程署所發布的《香港建築物（商業、住宅或公共用途）的溫室氣體排放及減除的核算和報告指引》。

排放因子的來源：本地電力和公用事業公司、香港特別行政區政府渠務署和水務署、新加坡政府能源市場管理局及澳洲政府產業、科學、能源及資源部。所運用的排放因子已根據以上來源作出相應的更新。

計算的溫室氣體排放量包括二氧化碳 (CO₂)、甲烷 (CH₄)、氧化亞氮 (N₂O) 及氫氟碳化物 (HFCs)。全氟化合物 (PFCs)、六氟化硫 (SF₆) 及三氟化氮 (NF₃) 並不顯著。

總部為信和置業於尖沙咀中心的辦事處。

2020/21 年度的物業管理為集團管理的 67 座建築物。2019/20 及 2018/19 年度則包括集團管理的 51 座建築物。物業管理的用電量，亦包括為部分租戶提供的中央冷氣服務，但未能進一步提供該項用電分項數字。

2020/21 及 2019/20 年度的評估包括八個建築工地（內地段第 9064 號、葵涌市地段第 524 號、133 Portofino、一號九龍道、St. George's Mansions、Silversands、逸瓏灣 8 及元朗市地段 532 號）；2018/19 年度則評估了三個建築工地（逸瓏灣 8、沙田市地段 611 號及元朗市地段 532 號）。與過往年度相比，本報告期內有關工地的建築活動處於不同階段，因此，溫室氣體排放、燃料和水的用量和強度，以及建築活動所產生的無害廢物量亦有所改變。

酒店的報告範圍包括新加坡富麗敦酒店、新加坡富麗敦海灣酒店及悉尼富麗敦酒店。與過往年度相比，酒店的營運受新型冠狀病毒影響，部分參數，如燃料消耗以及廢物棄置量，亦因而有所減少。

² Scope 1 emissions included direct GHG emissions from fuel consumption, loss of refrigerant (HCFC refrigerants: 227 kg; HFC refrigerants: 612 kg) and fugitive emissions from the use of fire extinguishers in the properties managed and construction sites. Scope 1 emissions do not apply to Head Office.

範疇一排放量包括物業管理和建築工地的燃料消耗和製冷劑折耗造成的直接溫室氣體排放（氟氯烴 (HCFC) 製冷劑：227 公斤；氫氟碳化物 (HFC) 製冷劑：612 公斤）及使用滅火器時釋出的氣體。總部並沒有範疇一排放。

³ Scope 2 emissions included indirect GHG emissions from purchased electricity and gas. The latest emission factors have been applied.

範疇二排放量包括購買電力和燃氣的間接溫室氣體排放量。已套用最新的排放因子。

⁴ Scope 3 emissions included indirect GHG emissions from water consumption, wastewater discharge, paper waste disposal and air travel. CO₂e emissions from air travel are calculated by the ICAO Carbon Emissions Calculator.

範疇三排放量包括耗水、廢水排放、廢紙棄置和航空交通造成的間接溫室氣體排放。航空交通的二氧化碳對等值排放，以國際民用航空組織的碳排放計算器計算得出。

⁵ Water consumption data of our Head Office is unavailable since there is no separate metering.

由於總部並沒有獨立水錶，有關用水量數據因而未能提供。

⁶ Excluded recycled materials.

回收物料除外。

⁷ No non-hazardous waste disposal data for property management are reported as the waste was mainly generated by tenants and residents. No further breakdown of non-hazardous waste disposal by source under property management is available.

物業管理的廢物主要由租戶和住戶產生，未能提供按源頭劃分的廢物棄置量，因此沒有報告無害廢物棄置量的數據。

⁸ The amount of hazardous waste produced by the Group during the reporting period was insignificant. Hazardous waste generated by the Group was collected by qualified contractors for treatment in a safe manner.

報告期內，集團並無產生大量有害廢物。集團產生的有害廢物由合資格承辦商收集，並以安全的方式處理。

OUR APPROACH

方針

Under the ESG Steering Committee, the Green Living Sub-committee reviews and evaluates initiatives to address climate change, manage energy and waste, conserve water resources, and promote environmental protection, while identifying areas for improvement. This Sub-committee meets regularly and makes timely reports to the ESG Steering Committee and the Board to facilitate the overall sustainability approach of the Group.

在環境、社會和管治督導委員會的領導下，綠色生活小組委員會檢討和評估應對氣候變化、管理能源和廢物、節約水資源和促進環境保護的計劃，同時確定需要改進的地方。小組委員會定期開會，並適時向環境、社會和管治督導委員會和董事會報告，以促進集團整體可持續發展方針。

STRATEGY 策略

Describe the climate-related risks and opportunities the organization has identified over the short, medium, and long term.

描述組織所鑑別的短、中、長期氣候相關風險與機會。

Our Climate Change Policy [☑](#) sets out the principles for addressing risk to our operations. We identify potential risks as well as opportunities for improvement in alignment with high ESG standards.

Physical Risks

Changes in the climate and the increased severity of weather events, such as heatwaves and flooding caused by rising sea levels, could cause damage, disrupt operations and affect our business. To mitigate these risks, our buildings are designed to be adaptable and resilient. Our efforts include the provision of sustainability features and the use of materials to increase resilience. Accordingly, we have set targets and seek to achieve BEAM Plus certification and WELL™ certification for all of our new buildings in Hong Kong.

Transition Risks

Updates on relevant policies, regulations, technology and new building standards will impose direct and material impacts on our business, including our operating costs. We consult with relevant regulatory bodies and professional firms so that we keep abreast of evolving expectations and can adjust our strategies accordingly.

我們的《氣候變化政策》[☑](#)，為應對營運風險訂立原則。我們以環境、社會及管治的高標準來識別潛在風險和改進的機會。

實體風險

氣候變化和極端天氣事件（如熱浪及由海平面上升所致的洪水）或會破壞或影響業務。為減輕與氣候變化相關的風險，我們精心設計具有適應力和抗禦力的建築物，當中包括提供可持續發展功能，以及使用能提高抗禦力的物料。為此，我們已訂立目標，致力讓旗下的所有香港新建物業都獲得綠建環評認證和《WELL 建築標準™》認證。

轉型風險

有關政策、規例和技術的修訂及新建築標準，將對集團業務造成直接和實質的風險，如營運成本。我們會徵詢相關監管機構和專業顧問的意見，以了解不斷變化的期望並相應地調整策略。

Describe the impact of climate-related risks and opportunities on the organization's businesses, strategy, and financial planning.
描述組織在業務、策略和財務規劃上與氣候相關風險與機會的衝擊。

Describe the resilience of the organization's strategy, taking into consideration different climate-related scenarios, including a 2°C or lower scenario.
描述組織在策略上的韌性，並考慮不同氣候相關情境（包括2°C或更嚴苛的情境）。

OUR APPROACH

The Group's Sustainability Vision 2030 is the strategic blueprint outlining our management approach for crucial areas such as GHG and energy use reduction, renewable energy generation, single-use plastic consumption, green building certification and innovative sustainability solutions to mitigate climate risks for a more sustainable future.

Climate-related risks and opportunities shape different aspects of our business, for example, material selection, building development, energy saving and waste reduction practices. Our various sustainability-related policies [☑](#) outline our approach to managing climate risk.

Sino Land recently converted a five-year HK\$1 billion loan signed with Bank of China (Hong Kong) Limited to a sustainability-linked loan, marking our first financing arrangement directly linked to sustainability targets. The proceeds will be used for funding sustainability-related initiatives.

We are working to strengthen the climate resilience of our business by setting targets for GHG mitigation and climate-related adaptation. Sino Land is one of the five real estate developers in Asia to join the Business Ambition for 1.5°C, the campaign led by the Science Based Targets initiative in partnership with the United Nations Global Compact and We Mean Business Coalition. As part of this initiative, Sino Land is collaborating with the Hong Kong University of Science and Technology ("HKUST") to set science-based targets ("SBTs") and develop a holistic approach towards net zero carbon emissions by 2050.

Further improving resource management is critical to the resilience of our strategy and as outlined in our Energy Policy [☑](#), particular attention is paid to enhancing the energy efficiency of our assets through consumption management and adopting new technologies. Since 2019, Sino Land has engaged Negawatt, a Hong Kong property technology company specialising in smart building solutions to further the digital transformation of our technical services and drive initiatives for reducing energy consumption in our managed properties.

方針

集團的「可持續發展願景 2030」為集團提供策略藍圖，勾勒出我們在減少溫室氣體和能源消耗、生產可再生能源、減少即棄塑膠製品消耗量、綠色建築認證及創新環保科技等重要範疇的管理方針，以緩解氣候風險及建構更可持續發展未來。

與氣候相關的風險和機遇塑造出多個業務層面，例如選用物料、建築發展、節能和減少廢物的實務常規。我們各種與可持續發展相關的政策 [☑](#)，闡釋了管理氣候風險的方針。

信和置業最近將一筆與中國銀行（香港）有限公司簽訂的十億港元五年期貸款協議，轉為與可持續發展表現掛鉤貸款，為信和置業首個與可持續發展目標直接相關的融資安排。所得款項將用於推動與可持續發展的計劃。

我們致力透過訂立溫室氣體減排和氣候相關適應目標，加強業務的氣候抗禦力。信和置業為亞洲首五家參與由科學基礎目標倡議組織與《聯合國全球契約》及全球商業氣候聯盟聯合發起的「Business Ambition for 1.5°C」聯署運動的房地產發展商之一。信和置業正與香港科技大學（「科大」）攜手合作，以科學基礎減量目標制定全方位計劃，銳意於2050年前達至淨零碳目標。

有效資源管理對我們策略的抗禦力至關重要。正如《能源政策》[☑](#)所述，我們致力透過管理消耗和採用新技術，提高物業資產的能源效益。2019年，信和置業與研究智能建築解決方案的香港物業科技公司庫瓦合作，進一步將物業技術電子化，並推動旗下管理物業減少能源消耗的計劃。

An integrated, comprehensive risk management process that involves communication and consultation with stakeholders is used to address our physical and transition risks.

With the assistance of the Risk and Control Committee, the Audit Committee reviews the effectiveness of the Group's risk management and internal control systems. The review includes all the material controls, including ESG-related risks, together with financial, operational and compliance controls. The Audit Committee monitors the risk management system by reviewing and approving the ERM Policy and Framework (based on International Standard ISO 31000:2018 Risk Management — Guidelines) and ERM reports.

集團致力將氣候相關風險納入企業風險管理框架中，以識別、管理和披露與氣候相關的重大風險。我們的綜合風險管理流程，包括與持份者溝通和諮詢，目的是應對實體和轉型風險。

在風險及監控委員會的協助下，審核委員會檢討集團風險管理及內部監控系統的成效。範圍涵蓋所有重要的監控措施，包括與環境、社會及管治相關的風險，以及財務、營運和合規監控。審核委員會依據國際標準《ISO 31000:2018年風險管理——指引》，審批風險管理政策及框架，以及風險管理報告，持續監察風險管理系統。

METRICS AND TARGETS 指標和目標

Disclose the metrics used by the organization to assess climate-related risks and opportunities in line with its strategy and risk management process.

揭露組織依循策略和風險管理流程進行評估氣候相關風險與機會所使用的指標。

The EMS provides a coherent framework for our environmental protection commitments, principles, scope, responsibilities and processes. It guides us in analysing and evaluating our objectives and targets. By continually reviewing our EMS, we can enhance our environmental performance.

We publish key metrics on GHG emissions, energy and water usage and waste management in our Sustainability Report annually. Monitoring and reporting these metrics help us identify areas with high climate-related risks to further improve our performance.

環境管理體系提供一個清晰貫徹的框架，界定我們對環境保護的承諾、原則、範圍、責任和流程，並指引我們分析和評估環境目標和指標。我們致力透過不斷檢討環境管理體系，提升環境方面的表現。

我們每年都會在《可持續發展報告》中，發布關於溫室氣體排放、能源和水的用量，以及廢物管理的關鍵指標。監控和報告這些指標，有助我們識別具較高氣候相關風險的領域，從而繼續提升表現。

Disclose Scope 1, Scope 2, and, if appropriate, Scope 3 GHG emissions, and the related risks.

COMMUNITY INITIATIVES

Lucky Draw to Support Hong Kong's COVID-19 Vaccination Programme

Encouraging the community to reach a high vaccination rate is an important way to achieve herd immunity and demonstrate the shared responsibility for personal and societal health and wellbeing. The Ng Teng Fong Charitable Foundation and Chinese Estates Holdings sponsored a lucky draw to support the HKSAR government's vaccination programme. Permanent residents aged 18 or above who received two doses of the COVID-19 vaccine in Hong Kong were eligible to register for the Grand Prize — a one-bedroom residential apartment at Grand Central worth more than HK\$10.8 million. All vaccinated Hong Kong Identity Card holders were also eligible to win 20 other prizes. Each prize consisted of a credit card with a value of HK\$100,000, donated by the Foundation as part of this programme.

Supporting the Less-resourced with Essential Food Items

The Ng Teng Fong Charitable Foundation joined forces with community partners to donate essential food items to those in need. Joyous Kitchen, a community kitchen, was also engaged to use donated food to prepare nutritious hot meals. Working in collaboration with several NGOs, the Foundation donated around 40,000 meals through this programme. In addition, the Foundation and Sino Hotels launched a meal donation programme providing 3,000 hot meal boxes for less-resourced individuals and families in need from August to September 2020.

社區服務計劃

舉辦抽獎活動以響應香港2019冠狀病毒疫苗接種計劃

鼓勵社區團結一致提高疫苗接種率，是達致群體免疫的重要方法，以展示對個人和社會健康的共同責任。黃廷方慈善基金及華人置業集團贊助了一項抽獎活動，以支持香港特別行政區政府的疫苗接種計劃。年滿18歲並已於香港完成接種兩劑新冠疫苗的香港永久居民均符合抽獎資格，有機會參與抽獎贏取凱滙一房住宅單位的終極大獎，價值超過港幣1,080萬元。而所有持香港身份證的永久和非永久居民，亦有機會贏得由基金送出的20份獎品，每份為價值港幣十萬元的信用卡免找數簽賬額。

捐贈食物予基層市民

黃廷方慈善基金夥拍社區夥伴向有需要人士捐贈食物。社區廚房樂廚坊亦響應參與，利用基金所捐贈的食品製作營養熱食餐盒。基金透過與多個非政府機構合作，為有需要人士提供約40,000份飯餐。此外，基金聯同信和酒店推出膳食捐贈計劃，在2020年8月和9月期間，捐出3,000個熱食餐盒予基層人士及家庭。

Hong Kong Innovation Foundation

香港創新基金

The Ng family established the Hong Kong Innovation Foundation as a non profit organisation in 2018, to support Hong Kong's development as an international innovation and technology hub. The Foundation is committed to building a smart and sustainable future for our city and the world. With the firm belief that innovation and technology will define the future, the Foundation promotes collaboration among industry leaders, innovators, academics and like-minded partners. The Foundation focused on the following key programmes during this reporting year:

黃氏家族於 2018 年成立非牟利機構香港創新基金，以支持香港發展成為國際創新科技的樞紐。基金致力為我們的城市和世界，創造智慧和可持續的未來。基金本著未來取決於創新科技的堅定信念，促進業界創新者、學者和志同道合的夥伴之間的合作。以下為基金於報告期內推行的重點計劃：

PolyU-HKIF Children Eye Care Project to Treat Myopia

Modern city life makes children prone to myopia, the treatment of which is often costly for those from less-resourced families. A new invention jointly developed by The Hong Kong Polytechnic University ("PolyU") and Japanese company Hoya Vision offers hope. The Defocus Incorporated Multiple Segments ("DIMS") spectacle lens has been proven to control the progression of myopia. It won the Grand Prize, Grand Award and Gold Medal at the 46th International Exhibition of Inventions in Geneva, Switzerland, in April 2018, in addition to a host of other coveted awards. Clinical trials of DIMS show that myopia progression in children has been reduced by an average of 59%, with more than 20% of children not showing any progression at all.

In August 2019, the PolyU-HKIF Children Eye Care Project came to life with the vision of empowering more children from less-resourced families to avail of this innovative treatment. Through this two-year programme, the Hong Kong Innovation Foundation supports 200 children, who will be prescribed DIMS spectacles, with optical check-ups conducted every six months to track their progress.

The Hong Kong Innovation Foundation partnered with the PolyU School of Optometry to launch the PolyU-HKIF Children Eye Care Project.

香港創新基金與香港理工大學眼科視光學院攜手合作籌辦「香港理工大學—香港創新基金兒童護眼計劃」。

香港理工大學—香港創新基金兒童護眼計劃

現代生活容易令小孩患上近視，而治療近視的費用往往為基層家庭帶來吃力的財政負擔。香港理工大學與日本豪雅光學 (Hoya) 共同研發的「多區正向光學離焦 (DIMS)」眼鏡鏡片，經證實能控制近視加深的速度，為近視學童帶來新希望。發明曾榮獲多個重要獎項，更於 2018 年 4 月於瑞士日內瓦舉行的「第四十六屆國際發明展」勇奪全場總冠軍、特別大獎及「評判特別嘉許金獎」三項大獎。臨床研究結果顯示 DIMS 眼鏡鏡片有效減慢學童近視加深速度達 59%，其中更有超過 20% 學童完全停止加深近視。

2019 年 8 月，香港創新基金與香港理工大學攜手，展開為期兩年的「香港理工大學—香港創新基金兒童護眼計劃」，利用這項創新技術幫助基層家庭的兒童控制近視。基金贊助 200 位學童佩戴 DIMS 眼鏡，並會每半年跟進視光檢查。

One Laptop Programme Provides Educational Support for Children

The Hong Kong Innovation Foundation and Sino Group jointly launched the One Laptop Programme in August 2020 to support the growing number of families in need of e-learning support amid the suspension of face-to-face classes due to the COVID-19 pandemic. Out of the 1,019 successful applicants, over 60% did not have a computer at home, impacting their ability to keep up with schoolwork. Applicants who did not have access to a broadband internet connection at home received mobile data SIM cards for online access.

All donated laptops included daily online technical support to address learning needs managed by Learning Support Ambassadors from programme partner, Hong Kong Baptist University. The Ambassadors, who are 50 passionate undergraduate students from the university, are dedicated to helping students with all enquiries, including the use of software and different e-learning platforms. The Ambassador Programme also provided job opportunities for these university students.

In addition to laptops, the Foundation provided a series of training courses for the students and their families, to enhance computer and internet use capabilities, as well as STEAM (science, technology, engineering, arts and mathematics) learning opportunities, encouraging the spirit of innovation in the community. In October 2020, the Group extended the One Laptop Programme to employees' children, providing them with educational support to facilitate online learning.

「一人一電腦」計劃提供教育支援

因應面授課堂因疫情而暫停，香港創新基金與信和集團於2020年8月攜手啓動「一人一電腦」計劃，向有需要家庭提供網上學習支援。在1,019名成功的申請者中，超過六成家庭表示家中沒有電腦，學業進度因此而受影響。而家中沒有配備寬頻網絡的申請人亦可獲得流動數據卡用以網上學習。

由香港浸會大學學生組成的學習支援大使，為所有獲贈手提電腦的申請人提供學習支援，讓學生可以應付日常學習需要。大使團隊由50名充滿熱誠的大學生組成，致力於幫助學生解答與網上學習有關的查詢，包括軟件使用及電子學習平台等問題，這大使計劃亦為大學生提供工作機會。

除了手提電腦外，基金亦提供一系列培訓課程，加強學童及其家人對電腦及互聯網的認識，當中包括STEAM（科學、技術、工程、藝術和數學）的課程，希望藉此培養學生的創新精神。2020年10月，集團將「一人一電腦」計劃推廣至員工子女，向他們提供網上學習支援。

Hong Kong Innovation Foundation and Sino Group donated laptops and provided online support to 1,019 families in need through the One Laptop Programme.

香港創新基金與信和集團推「一人一電腦」計劃支援基層家庭及學童，為1,019個低收入家庭學童提供手提電腦及網上支援。
