The relevant purchase price shall be tallied on the end of each calendar month, and shall be payable on or before the end of the following months.

In order to ensure that the selling price for relevant product of comparable quality is no less favourable than the prevailing market price, the Group would compare quotations given by Sanjiang Chemical to other independent purchasers for nitrogen gas of comparable quality and volume after taking into account the additional transportation costs that may be incurred and analyse such market information, and the unit selling price for nitrogen gas will be agreed after arm's length negotiation with Jiahua New Material. Accordingly, the Board considers that such methods and procedures can ensure that the supply of nitrogen gas will be conducted on normal commercial terms and not prejudicial to the interests of the Company and its Shareholders as a whole.
