APPENDIX IV

GENERAL INFORMATION

4. Subsidiaries

The Company does not have any subsidiaries.

5. Repurchases by the Company of its Own Securities

This section sets out information required by the Stock Exchange to be included in this offering circular concerning the repurchase by the Company of its own securities.

(a) *Provisions of the Listing Rules*

The Listing Rules permit companies with a primary listing on the Stock Exchange to repurchase their own securities on the Stock Exchange subject to certain restrictions, the more important of which are summarised below:

(i) *Shareholders' Approval*

All proposed repurchase of shares (which must be fully paid up) by a company with a primary listing on the Stock Exchange must be approved in advance by an ordinary resolution of the shareholders, either by way of general mandate or by specific approval of a particular transaction.

(ii) *Source of Funds*

Repurchases of shares by a listed company must be funded out of funds legally available for the purpose in accordance with the constitutive documents of the listed company, the Listing Rules and the applicable laws and regulations of the listed company's jurisdiction of incorporation. A listed company may not repurchase its own shares on the Stock Exchange for a consideration other than cash or for settlement otherwise than in accordance with the trading rules of the Stock Exchange.

(iii) *Trading Restrictions*

The total number of shares which a listed company may repurchase on the Stock Exchange is the number of shares representing up to a maximum of 10% of the aggregate number of shares in issue. A company may not issue or announce a proposed issue of new shares for a period of 30 days immediately following a repurchase (other than an issue of securities pursuant to an exercise of warrants, share options or similar instruments requiring the company to issue securities which were outstanding prior to such repurchase) without the prior approval of the Stock Exchange. In addition, a listed company is prohibited from repurchasing its shares on the Stock Exchange if the purchase price is 5% or more than the average closing market price for the five preceding trading days on which its shares were traded on the Stock Exchange. The Listing Rules also prohibit a listed company from

APPENDIX IV

GENERAL INFORMATION

repurchasing its shares if that repurchase would result in the number of listed shares which are in the hands of the public falling below the relevant prescribed minimum percentage as required by the Stock Exchange. A company is required to procure that the broker appointed by it to effect a repurchase of shares discloses to the Stock Exchange such information with respect to the repurchase as the Stock Exchange may require.

(iv) Status of Repurchased Shares

All repurchased shares (whether effected on the Stock Exchange or otherwise) will be automatically delisted and the certificates for those shares must be cancelled and destroyed.

(v) Suspension of Repurchase

A listed company may not make any repurchase of shares after inside information has come to its knowledge until the information has been made publicly available. In particular, during the period of one month immediately preceding the earlier of (1) the date of the board meeting (as such date is first notified to the Stock Exchange in accordance with the Listing Rules) for the approval of a listed company’s results for any year, half-year, quarterly or any other interim period (whether or not required under the Listing Rules) and (2) the deadline for publication of an announcement of a listed company’s results for any year or half-year under the Listing Rules, or quarterly or any other interim period (whether or not required under the Listing Rules), the listed company may not repurchase its shares on the Stock Exchange other than in exceptional circumstances. In addition, the Stock Exchange may prohibit a repurchase of shares on the Stock Exchange if a listed company has breached the Listing Rules.

(vi) Reporting Requirements

Certain information relating to repurchase of shares on the Stock Exchange or otherwise must be reported to the Stock Exchange not later than 30 minutes before the earlier of the commencement of the morning trading session or any pre-opening session on the following business day. In addition, a listed company’s annual report is required to disclose details regarding repurchases of shares made during the year, including a monthly analysis of the number of shares repurchased, the purchase price per share or the highest and lowest price paid for all such repurchases, where relevant, and the aggregate price paid for such repurchases.

(vii) Core Connected Persons

A listed company is prohibited from knowingly repurchasing securities on the Stock Exchange from a “core connected person”, that is, a director, chief executive or substantial shareholder of the company or any of its subsidiaries or their close associates and a core connected person is prohibited from knowingly selling his securities to the company.

APPENDIX IV

GENERAL INFORMATION

(b) Reasons for Repurchases

The Directors believe that the ability to repurchase Class A Shares is in the interests of the Company and the Shareholders. Repurchases may, depending on the circumstances, result in an increase in the net assets and/or earnings per Share. The Directors have sought the grant of a general mandate to repurchase Shares to give the Company the flexibility to do so if and when appropriate. The number of Class A Shares to be repurchased on any occasion and the price and other terms upon which the same are repurchased will be decided by the Directors at the relevant time having regard to the circumstances then pertaining. Repurchases of the Shares will only be made when the Directors believe that such repurchases will benefit the Company and the Shareholders.

(c) Funding of Repurchases

In repurchasing Class A Shares, the Company may only apply funds legally available for such purpose in accordance with the Memorandum and Articles of Association, the Listing Rules and the applicable laws and regulations of the Cayman Islands.

There could be a material adverse impact on the working capital or gearing position of the Company (as compared with the position disclosed in this offering circular) if the repurchase mandate were to be carried out in full at any time during the share repurchase period. However, the Directors do not propose to exercise the repurchase mandate to such extent as would, in the circumstances, have a material adverse effect on the working capital requirements of the Company or the gearing position of the Company which in the opinion of the Directors are from time to time appropriate for the Company.

(d) General

The exercise in full of the repurchase mandate, on the basis of [REDACTED] Shares in issue immediately following the completion of the Offering, could accordingly result in up to approximately [REDACTED] Class A Shares being repurchased by the Company during the period prior to:

- (i) the conclusion of the next annual general meeting of the Company;
- (ii) the end of the period within which the Company is required by the Memorandum and Articles of Association or any applicable law to hold its next annual general meeting; or
- (iii) the date on which the repurchase mandate is varied or revoked by an ordinary resolution of the Shareholders in general meeting,

whichever is the earliest.

APPENDIX IV

GENERAL INFORMATION

None of the Directors nor, to the best of their knowledge having made all reasonable enquiries, any of their close associates currently intends to sell any Class A Shares to the Company.

The Directors have undertaken to the Stock Exchange that they will exercise the power of the Company to make any repurchases of Shares pursuant to the repurchase mandate in accordance with the Listing Rules and the applicable laws and regulations in the Cayman Islands.

If, as a result of any repurchase of Class A Shares, a Shareholder's proportionate interest in the voting rights of the Company is increased, such increase will be treated as an acquisition for the purposes of the Takeovers Code. Accordingly, a Shareholder or a group of Shareholders acting in concert could obtain or consolidate control of the Company and become obliged to make a mandatory offer in accordance with Rule 26 of the Takeovers Code. Save for the foregoing, the Directors are not aware of any consequences which would arise under the Takeovers Code as a consequence of any repurchases of Shares pursuant to the repurchase mandate.

Any repurchase of Class A Shares that results in the number of Shares held by the public being reduced to less than 25% of the Shares then in issue could only be implemented if the Stock Exchange agreed to waive the Listing Rules requirements regarding the public shareholding referred to above. It is believed that a waiver of this provision would not normally be given other than in exceptional circumstances.

APPENDIX IV

GENERAL INFORMATION

E. TAXATION

The following summary of certain Hong Kong and Cayman Islands tax consequences of the purchase, ownership and disposition of the Shares is based upon the laws, regulations, rulings and decisions now in effect, all of which are subject to change (possibly with retroactive effect). The summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to purchase, own or dispose of the Shares and does not purport to apply to all categories of prospective investors, some of whom may be subject to special rules, and is not intended to be and should not be taken to constitute legal or tax advice. Prospective investors should consult their own tax advisors concerning the application of tax laws of Hong Kong to their particular situation as well as any consequences of the purchase, ownership and disposition of the Shares arising under the laws of any other taxing jurisdiction. Neither the Company nor any of the Relevant Persons assumes any responsibility for any tax consequences or liabilities that may arise from the subscription for, holding or disposal of the Shares.

The taxation of the Company and that of the Shareholders is described below. Where tax laws are discussed, these are merely an outline of the implications of such laws. Such laws and regulations may be interpreted differently. It should not be assumed that the relevant tax authorities or the Hong Kong courts will accept or agree with the explanations or conclusions that are set out below.

Investors should note that the following statements are based on advice received by the Company regarding taxation laws, regulations and practice in force as at the date of this offering circular, which may be subject to change.

1. Overview of Tax Implications of Hong Kong

No tax will be payable in Hong Kong in respect of dividends paid by the Company to its Shareholders.

Pursuant to the Tax Concessions Act of the Cayman Islands, the Company has obtained an undertaking: (a) that no law which is enacted in the Cayman Islands imposing any tax to be levied on profits or income or gains or appreciations shall apply to us or our operations; and (b) that the aforesaid tax or any tax in the nature of estate duty or inheritance tax shall not be payable (i) on or in respect of its shares, debentures or other obligations; or (ii) by way of the withholding in whole or in part of any relevant payment as defined in the Tax Concessions Act.

The undertaking is for a period of twenty years from 29 November 2021.

3. U.S. Federal Income Taxation

General

The following discussion summarises certain U.S. federal income tax considerations generally applicable to the ownership and disposition of the Class A Shares and Listed Warrants that are purchased in this Offering by U.S. Holders (as defined below). This discussion is limited to certain U.S. federal income tax considerations to beneficial owners of our Securities who are initial purchasers of Class A Shares and Listed Warrants pursuant to this Offering and hold the Class A Shares and Listed Warrants as a capital assets within the meaning of Section 1221 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**"). This discussion is a summary only and does not consider all aspects of U.S. federal income taxation that may be relevant to the acquisition, ownership and disposition of Class A Shares and Listed Warrants by a prospective investor in light of its particular circumstances, including but not limited to, the alternative minimum tax, the Medicare tax on net investment income and the different consequences that may apply to investors that are subject to special rules under U.S. federal income tax laws, including but not limited to:

- financial institutions or financial services entities;
- broker-dealers;
- taxpayers that are subject to the mark-to-market accounting rules;
- tax-exempt entities;
- governments or agencies or instrumentalities thereof;
- insurance companies;
- regulated investment companies;

APPENDIX IV

GENERAL INFORMATION

- real estate investment trusts;
- controlled foreign corporations;
- passive foreign investment companies;
- expatriates or former long-term residents of the United States;
- persons that actually or constructively own five percent or more of our voting shares;
- persons that acquired our securities pursuant to an exercise of employee share options, in connection with employee share incentive plans or otherwise as compensation;
- partnerships (or entities or arrangements classified as partnerships or other pass-through entities for U.S. federal income tax purposes) and any beneficial owners of such partnerships;
- persons that hold our securities as part of a straddle, constructive sale, hedging, conversion or other integrated or similar transaction; or
- U.S. Holders (as defined below) whose functional currency is not the U.S. dollar.

The discussion below is based upon the provisions of the Code, the Treasury regulations promulgated thereunder and administrative and judicial interpretations thereof, all as of the date hereof, and such provisions may be repealed, revoked, modified or subject to differing interpretations, possibly on a retroactive basis, so as to result in U.S. federal income tax consequences different from those discussed below. Furthermore, this discussion does not address any aspect of U.S. federal non-income tax laws, such as gift, estate, or state, local or non-U.S. tax laws.

We have not sought, and will not seek, a ruling from the IRS as to any U.S. federal income tax consequence described herein. The IRS may disagree with the discussion herein, and its determination may be upheld by a court. Moreover, there can be no assurance that future legislation, regulations, administrative rulings or court decisions will not adversely affect the accuracy of the statements in this discussion.

As used herein, the term “**U.S. Holder**” means a beneficial owner of Class A Shares or Listed Warrants who or that is for U.S. federal income tax purposes: (1) an individual citizen or resident of the United States; (2) a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) that is created or organised (or treated as created or organised) in or under the laws of the United States, any state thereof or the District of Columbia; (3) an estate the income of which is subject to U.S. federal income taxation regardless of its source; or (4) a trust if (A) a court within the United States is

APPENDIX IV

GENERAL INFORMATION

able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (B) it has in effect a valid election to be treated as a U.S. person.

If a partnership (or other entity or arrangement classified as a partnership for U.S. federal income tax purposes) is the beneficial owner of our securities, the U.S. federal income tax treatment of a partner (including a member or other beneficial owner treated for such purposes as a partner) in the partnership generally will depend on the status of the partner and the activities of the partnership. Partnerships holding our securities and partners in such partnerships are urged to consult their own tax advisors.

THIS DISCUSSION IS ONLY A SUMMARY OF CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS ASSOCIATED WITH THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR CLASS A SHARES AND LISTED WARRANTS. EACH PROSPECTIVE INVESTOR IN OUR OFFER SECURITIES IS URGED TO CONSULT ITS OWN TAX ADVISOR WITH RESPECT TO THE PARTICULAR TAX CONSEQUENCES TO SUCH INVESTOR OF THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR SECURITIES, INCLUDING THE APPLICABILITY AND EFFECT OF ANY STATE, LOCAL, AND NON-U.S. TAX LAWS, AS WELL AS U.S. FEDERAL TAX LAWS AND ANY APPLICABLE TAX TREATIES.

Allocation of Purchase Price

Although not entirely free from doubt, the acquisition of a Class A Share in the Offering should be treated for U.S. federal income tax purposes as the acquisition of one Class A Share and one-half of one Listed Warrant to acquire one Class A Share. We intend to treat the acquisition of a Class A Share in this manner and, by purchasing a Class A Share, you agree to adopt such treatment for U.S. federal income tax purposes. Each holder that purchases Class A Shares in the Offering must allocate the purchase price paid by such holder for such Class A Shares between the Class A Shares and the Listed Warrants based on their respective relative fair market values at the time of issuance. Under U.S. federal income tax law, each investor must make his or her own determination of such value based on all the relevant facts and circumstances. Therefore, we strongly urge each investor to consult his or her tax adviser regarding the determination of value for these purposes. A holder's initial tax basis in the Class A Shares and the Listed Warrants should equal the portion of the purchase price of the Offer Securities allocated thereto.

The foregoing treatment of the Class A Shares and Listed Warrants and a holder's purchase price allocation are not binding on the IRS or the courts. Because there are no authorities that directly address the issuance of one-half of one Listed Warrant to acquire one Class A Share upon the acquisition of a Class A Share in the Offering, no assurance can be given that the IRS or the courts will agree with the characterisation described above or the discussion below. Accordingly, each holder is advised to consult its own tax

APPENDIX IV

GENERAL INFORMATION

advisor regarding the risks associated with an investment in the Class A Shares and the Listed Warrants and regarding an allocation of the purchase price among the Class A Share and the Listed Warrant. The balance of this discussion generally assumes that the discussion above is respected for U.S. federal income tax purposes.

Taxation of Distributions

Subject to the PFIC rules discussed below, a U.S. Holder generally will be required to include in gross income, in accordance with such U.S. Holder's method of accounting for U.S. federal income tax purposes, as dividends the amount of any distribution paid on our Class A Shares. A distribution on such shares generally will be treated as a dividend for U.S. federal income tax purposes to the extent the distribution is paid out of our current or accumulated earnings and profits (as determined under U.S. federal income tax principles). Such dividends paid by us will be taxable to a corporate U.S. Holder at regular rates and will not be eligible for the dividends-received deduction generally allowed to domestic corporations in respect of dividends received from other domestic corporations.

Distributions in excess of such earnings and profits generally will be applied against and reduce the U.S. Holder's basis in its Class A Shares (but not below zero) and, to the extent in excess of such basis, will be treated as gain from the sale or exchange of such Class A Shares.

Dividends will not be eligible for the reduced rate of tax applicable to qualified dividend income because there is no income tax treaty between the United States and the Cayman Islands, nor will the Class A Shares be traded on an established securities market in the United States.

Dividends paid in a currency other than U.S. dollars will be included in income in a U.S. dollar amount based on the exchange rate in effect on the date of receipt, whether or not the currency is converted into U.S. dollars at that time. A U.S. Holder's tax basis in the non-U.S. currency will equal the U.S. dollar amount included in income. Any gain or loss on a subsequent conversion or other disposition of the non-U.S. currency for a different U.S. dollar amount generally will be U.S. source ordinary income or loss. If dividends paid in a currency other than U.S. dollars are converted into U.S. dollars on the day they are received, the U.S. Holder generally will not be required to recognise foreign currency gain or loss in respect of the dividend income.

Taxation on the Disposition of Class A Shares and Listed Warrants

Subject to the PFIC rules discussed below, upon a sale or other taxable disposition of our Class A Shares or Listed Warrants which, in general, would include a redemption of Class A Shares as described below, and including as a result of a dissolution and liquidation in the event we do not consummate an initial De-SPAC Transaction within the required time period, a U.S. Holder generally will recognise capital gain or loss. The

APPENDIX IV

GENERAL INFORMATION

amount of gain or loss recognised generally will be equal to the difference between (1) the sum of the amount of cash and the fair market value of any property received in such disposition and (2) the U.S. Holder’s adjusted tax basis in its Class A Shares or Listed Warrants so disposed of. See “– *Exercise, Lapse or Redemption of a Listed Warrant*” below for a discussion regarding a U.S. Holder’s basis in a Class A Share acquired pursuant to a Listed Warrant.

Long-term capital gains recognised by non-corporate U.S. Holders are generally subject to U.S. federal income tax at a reduced rate of tax. Capital gain or loss will constitute long-term capital gain or loss if the U.S. Holder’s holding period for the Class A Shares or Listed Warrants exceeds one year. It is unclear, however, whether certain redemption rights described in this prospectus may suspend the running of the applicable holding period of the Class A Shares for this purpose. If the running of the holding period for the Class A Shares is suspended, then non-corporate U.S. Holders may not be able to satisfy the one-year holding period requirement for long-term capital gain treatment, in which case any gain on a sale or other taxable disposition of the Class A Shares would be subject to short-term capital gain treatment and would be taxed at regular ordinary income tax rates. The deductibility of capital losses is subject to various limitations that are not described herein because a discussion of such limitations depends on each U.S. Holder’s particular facts and circumstances.

The initial tax basis of a U.S. Holder’s Class A Shares and Listed Warrants generally will be the U.S. dollar value of the foreign currency denominated portion of the purchase price paid for the Class A Shares purchased in the Offering allocated to Class A Shares and Listed Warrants, as described above under “– *Allocation of Purchase Price*”, determined on the date of purchase. If the Class A Shares or Listed Warrants are treated as traded on an “established securities market” at the time of the Offering, a cash basis U.S. Holder (or, if it elects, an accrual basis U.S. Holder) will determine the U.S. dollar value of the cost of such Class A Shares or Listed Warrants by translating the amount paid at the spot rate of exchange on the settlement date of the purchase. An accrual basis U.S. Holder that receives foreign currency on the sale or other disposition of Class A Shares or Listed Warrants will realise an amount equal to the U.S. dollar value of the foreign currency received at the spot rate on the date of sale or other disposition (or, in the case of cash basis and electing accrual basis U.S. Holders, the settlement date). A U.S. Holder that does not determine the amount realised using the spot rate on the settlement date will recognise currency gain or loss if the U.S. dollar value of the foreign currency received at the spot rate on the settlement date differs from the amount realised. A U.S. Holder will have a tax basis in the foreign currency received equal to its U.S. dollar value at the spot rate on the settlement date. Any currency gain or loss realised on the settlement date or on a subsequent conversion of the euros for a different U.S. dollar amount generally will be U.S. source ordinary income or loss.

Redemption of Class A Shares

Subject to the PFIC rules discussed below, if a U.S. Holder’s Class A Shares are redeemed pursuant to the exercise of a shareholder redemption right or if we purchase a U.S. Holder’s Class A Shares in an open market transaction (in either case referred to herein as a “redemption”), the treatment of the transaction for U.S. federal income tax purposes will depend on whether such redemption qualifies as a sale of the Class A Shares under Section 302 of the Code. If the redemption qualifies as a sale of the Class A Shares under Section 302 of the Code, the tax treatment of such redemption will be as described under “– Taxation on the Disposition of Class A Shares and Listed Warrants” above. Whether a redemption of our shares qualifies for sale treatment will depend largely on the total number of our Class A Shares treated as held by such U.S. Holder (including any shares constructively owned as a result of, among other things, owning warrants) relative to all of our shares outstanding both before and after such redemption. The redemption of Class A Shares generally will be treated as a sale or exchange of the Class A Shares (rather than as a distribution) if the receipt of cash upon the redemption (1) is “substantially disproportionate” with respect to a U.S. Holder, (2) results in a “complete termination” of such holder’s interest in us or (3) is “not essentially equivalent to a dividend” with respect to such holder. These tests are explained more fully below.

In determining whether any of the foregoing tests are satisfied, a U.S. Holder must take into account not only our Class A Shares actually owned by such holder, but also our Class A Shares that are constructively owned by such holder. A U.S. Holder may constructively own, in addition to our Class A Shares owned directly, Class A Shares owned by related individuals and entities in which such holder has an interest or that have an interest in such holder, as well as any Class A Shares such holder has a right to acquire by exercise of an option, which would generally include Class A Shares which could be acquired pursuant to the exercise of the Listed Warrants. In order to meet the substantially disproportionate test, the percentage of our outstanding voting shares actually and constructively owned by a U.S. Holder immediately following the redemption of our Class A Shares must, among other requirements, be less than 80% of the percentage of our outstanding voting and Class A Shares actually and constructively owned by such holder immediately before the redemption. Prior to our De-SPAC Transaction, the Class A Shares may not be treated as voting shares for this purpose and, consequently, this substantially disproportionate test may not be applicable. There will be a complete termination of a U.S. Holder’s interest if either (1) all of our Class A Shares actually and constructively owned by such U.S. Holder are redeemed or (2) all of our Class A Shares actually owned by such U.S. Holder are redeemed and such holder is eligible to waive, and effectively waives, in accordance with specific rules, the attribution of shares owned by family members and such holder does not constructively own any other shares. The redemption of the Class A Shares will not be essentially equivalent to a dividend if such redemption results in a “meaningful reduction” of a U.S. Holder’s proportionate interest in us. Whether the redemption will result in a meaningful reduction in a U.S. Holder’s proportionate interest in us will depend on the particular facts and circumstances. However, the IRS has indicated in a published ruling that even a small reduction in the

APPENDIX IV

GENERAL INFORMATION

proportionate interest of a small minority shareholder in a publicly held corporation who exercises no control over corporate affairs may constitute such a “meaningful reduction.” U.S. Holders should consult with their own tax advisors as to the tax consequences of an exercise of the redemption right.

If none of the foregoing tests are satisfied, then the redemption may be treated as a distribution and the tax effects will be as described under “– Taxation of Distributions,” above. After the application of those rules, any remaining tax basis a U.S. Holder has in the redeemed Class A Shares will be added to the adjusted tax basis in such holder’s remaining Class A Shares. If there are no remaining Class A Shares, a U.S. Holder should consult its own tax advisors as to the allocation of any remaining basis.

Exercise, Lapse or Redemption of a Listed Warrant

Listed Warrants are only exercisable on a cashless basis. The tax consequences of a cashless exercise of a Listed Warrant are not clear under current U.S. federal income tax law. Subject to the PFIC rules discussed below, a cashless exercise may be tax-free, either because the exercise is not a realisation event or because the exercise is treated as a recapitalisation for U.S. federal income tax purposes. In either tax-free situation, a U.S. Holder’s tax basis in the Class A Shares received generally would equal the U.S. Holder’s tax basis in the Listed Warrants. If the cashless exercise was not a realisation event, it is unclear whether a U.S. Holder’s holding period for the Class A Shares would be treated as commencing on the date of exercise of the Listed Warrant or the day following the date of exercise of the Listed Warrant. If the cashless exercise were treated as a recapitalisation, the holding period of the Class A Shares would include the holding period of the Listed Warrants.

It is also possible that a cashless exercise could be treated in part as a taxable exchange in which gain or loss would be recognised. In such event, a portion of the Listed Warrants to be exercised on a cashless basis could, for U.S. federal income tax purposes, be deemed to have been surrendered in consideration for the exercise price of the remaining Listed Warrants, which would be deemed to be exercised. For this purpose, a U.S. Holder could be deemed to have surrendered Listed Warrants with an aggregate value equal to the exercise price for the total number of Listed Warrants to be deemed exercised. Subject to the PFIC rules discussed below, the U.S. Holder would recognise capital gain or loss in an amount equal to the difference between the exercise price for the total number of the Listed Warrants deemed exercised and the U.S. Holder’s tax basis in the Listed Warrants deemed surrendered. In this case, a U.S. Holder’s tax basis in the Class A Shares received would equal the sum of the U.S. Holder’s initial investment in the Listed Warrants deemed exercised (i.e., the portion of the U.S. Holder’s purchase price paid for the Class A Shares purchased in the Offering allocated to the Listed Warrants, as described above under “– Allocation of Purchase Price”) and the exercise price of such Listed Warrants. It is unclear whether a U.S. Holder’s holding period for the Class A Shares would commence on the date of exercise of the Listed Warrant or the day following the date of exercise of the Listed Warrant.

APPENDIX IV

GENERAL INFORMATION

Because of the absence of authority on the U.S. federal income tax treatment of a cashless exercise, including when a U.S. Holder's holding period would commence with respect to the Class A Share received, there can be no assurance which, if any, of the alternative tax consequences and holding periods described above would be adopted by the IRS or a court of law. Accordingly, U.S. Holders should consult their tax advisors regarding the tax consequences of a cashless exercise.

Subject to the PFIC rules described below, if we redeem Listed Warrants for cash pursuant to the redemption provisions described in this offering circular or if we purchase Listed Warrants in an open market transaction, such redemption or purchase generally will be treated as a taxable disposition to the U.S. Holder, taxed as described above under "– Taxation on the Disposition of Class A Shares and Listed Warrants."

Possible Constructive Distributions

The terms of each Listed Warrant provide for an adjustment to the number of shares for which the Listed Warrant may be exercised or to the exercise price of the Listed Warrant in certain events. An adjustment which has the effect of preventing dilution generally is not taxable. However, the U.S. Holders of the Listed Warrants would be treated as receiving a constructive distribution from us if, for example, the adjustment increases the warrant holders' proportionate interest in our assets or earnings and profits (e.g., through an increase in the number of Class A Shares that would be obtained upon exercise or through a decrease to the exercise price), including, as a result of a distribution of cash to the holders of our Class A Shares that is taxable to the holders of such Class A Shares as a distribution. Such constructive distribution would be subject to tax as if the U.S. Holders of the Listed Warrants received a cash distribution from us equal to the fair market value of such increased interest. Generally, a U.S. Holder's adjusted tax basis in its Listed Warrant would be increased to the extent any such constructive distribution is treated as a dividend.

Passive Foreign Investment Company Rules

A foreign (i.e., non-U.S.) corporation will be a PFIC for U.S. tax purposes if at least 75% of its gross income in a taxable year, including its pro rata share of the gross income of any corporation in which it is considered to own at least 25% of the shares by value, is passive income. Alternatively, a foreign corporation will be a PFIC if at least 50% of its assets in a taxable year of the foreign corporation, ordinarily determined based on fair market value and averaged quarterly over the year, including its pro rata share of the assets of any corporation in which it is considered to own at least 25% of the shares by value, are held for the production of, or produce, passive income. Passive income generally includes dividends, interest, rents and royalties (other than rents or royalties derived from the active conduct of a trade or business) and gains from the disposition of passive assets.

APPENDIX IV

GENERAL INFORMATION

Because we have no current active business, we believe that it is likely that we will meet the PFIC asset or income test for our current taxable year. However, pursuant to a start-up exception, a corporation will not be a PFIC for the first taxable year the corporation has gross income (the “start-up year”), if (1) no predecessor of the corporation was a PFIC; (2) the corporation satisfies to the IRS that it will not be a PFIC for either of the two taxable years following the start-up year; and (3) the corporation is not in fact a PFIC for either of those years. The applicability of the start-up exception to us will not be known until after the close of our current taxable year and, possibly, after the close of our two subsequent taxable years. After the acquisition of a company or assets in a De-SPAC Transaction, we may still meet one of the PFIC tests depending on the timing of the acquisition and the amount of our passive income and assets as well as the passive income and assets of the acquired business. If the company that we acquire in a De-SPAC Transaction is a PFIC, then we will likely not qualify for the start-up exception and will be a PFIC for our current taxable year. Our actual PFIC status for our current taxable year or any future taxable year, however, will not be determinable until after the end of such taxable year (and, in the case of our current taxable year, perhaps until after the end of our two taxable years following our start-up year). Accordingly, there can be no assurance with respect to our status as a PFIC for our current taxable year or any future taxable year.

If we are determined to be a PFIC for any taxable year (or portion thereof) that is included in the holding period of a U.S. Holder of our Class A Shares or Listed Warrants and, in the case of our Class A Shares, the U.S. Holder did not make either a timely qualified electing fund (“**QEF**”) election or a mark-to-market election for our first taxable year as a PFIC in which the U.S. Holder held (or was deemed to hold) Class A Shares, as described below, such holder generally will be subject to special rules with respect to:

- any gain recognised by the U.S. Holder on the sale or other disposition of its Class A Shares or Listed Warrants; and
- any “excess distribution” made to the U.S. Holder (generally, any distributions to such U.S. Holder during a taxable year of the U.S. Holder that are greater than 125% of the average annual distributions received by such U.S. Holder in respect of the Class A Shares during the three preceding taxable years of such U.S. Holder or, if shorter, such U.S. Holder’s holding period for the Class A Shares).

Under these rules,

- the U.S. Holder’s gain or excess distribution will be allocated ratably over the U.S. Holder’s holding period for the Class A Shares and Listed Warrants;

APPENDIX IV

GENERAL INFORMATION

- the amount allocated to the U.S. Holder's taxable year in which the U.S. Holder recognised the gain or received the excess distribution, or to the period in the U.S. Holder's holding period before the first day of our first taxable year in which we are a PFIC, will be taxed as ordinary income;
- the amount allocated to other taxable years (or portions thereof) of the U.S. Holder and included in its holding period will be taxed at the highest tax rate in effect for that year and applicable to the U.S. Holder; and
- the interest charge generally applicable to underpayments of tax will be imposed in respect of the tax attributable to each such other taxable year of the U.S. Holder.

In general, if we are determined to be a PFIC, a U.S. Holder may avoid the PFIC tax consequences described above in respect to our Class A Shares (but not our Listed Warrants) by making a timely QEF election (if eligible to do so) to include in income its pro rata share of our net capital gains (as long-term capital gain) and other earnings and profits (as ordinary income), on a current basis, in each case whether or not distributed, in the taxable year of the U.S. Holder in which or with which our taxable year ends.

A U.S. Holder generally may make a separate election to defer the payment of taxes on undistributed income inclusions under the QEF rules, but if deferred, any such taxes will be subject to an interest charge. A U.S. Holder may not make a QEF election with respect to its Listed Warrants to acquire our Class A Shares. As a result, if a U.S. Holder sells or otherwise disposes of such Listed Warrants (other than upon exercise of such Listed Warrants), any gain recognised generally will be subject to the special tax and interest charge rules treating the gain as an excess distribution, as described above, if we were a PFIC at any time during the period the U.S. Holder held the Listed Warrants. If a U.S. Holder that exercises such Listed Warrants properly makes a QEF election with respect to the newly acquired Class A Shares (or has previously made a QEF election with respect to our Class A Shares), the QEF election will apply to the newly acquired Class A Shares, but the adverse tax consequences relating to PFIC shares, adjusted to take into account the current income inclusions resulting from the QEF election, will continue to apply with respect to such newly acquired Class A Shares (which will generally be deemed to have a holding period for purposes of the PFIC rules that includes the period the U.S. Holder held the Listed Warrants), unless the U.S. Holder makes a purging election. One type of purging election creates a deemed sale of such shares at their fair market value. Any gain recognised in this deemed sale will be subject to the special tax and interest charge rules treating the gain as an excess distribution, as described above. As a result of this election, the U.S. Holder will have additional basis (to the extent of any gain recognised on the deemed sale) and, solely for purposes of the PFIC rules, a new holding period in the Class A Shares acquired upon the exercise of the Listed Warrants.

APPENDIX IV

GENERAL INFORMATION

U.S. Holders are urged to consult their tax advisors as to the application of the rules governing purging elections to their particular circumstances (including a potential separate "deemed dividend" purging election that may be available if we are a controlled foreign corporation). The QEF election is made on a shareholder-by-shareholder basis and, once made, can be revoked only with the consent of the IRS. A U.S. Holder generally makes a QEF election by attaching a completed IRS Form 8621 (Information Return by a Shareholder of a Passive Foreign Investment Company or Qualified Electing Fund), including the information provided in a PFIC Annual Information Statement, to a timely filed U.S. federal income tax return for the tax year to which the election relates. Retroactive QEF elections generally may be made only by filing a protective statement with such return and if certain other conditions are met or with the consent of the IRS. U.S. Holders should consult their own tax advisors regarding the availability and tax consequences of a retroactive QEF election under their particular circumstances.

In order to comply with the requirements of a QEF election, a U.S. Holder must receive a PFIC Annual Information Statement from us. If we determine we are a PFIC for any taxable year, upon request of a U.S. Holder, we will endeavor to provide to a U.S. Holder such information as the IRS may require, including a PFIC Annual Information Statement, in order to enable the U.S. Holder to make and maintain a QEF election. However, there is no assurance that we will have timely knowledge of our status as a PFIC in the future or of the required information to be provided.

If a U.S. Holder has made a QEF election with respect to our Class A Shares, and the special tax and interest charge rules do not apply to such shares (because of a timely QEF election for our first taxable year as a PFIC in which the U.S. Holder holds (or is deemed to hold) such shares or a purge of the PFIC taint pursuant to a purging election, as described above), any gain recognized on the sale of our Class A Shares generally will be taxable as capital gain and no interest charge will be imposed under the PFIC rules. As discussed above, U.S. Holders of a QEF are currently taxed on their pro rata shares of its earnings and profits, whether or not distributed. In such case, a subsequent distribution of such earnings and profits that were previously included in income generally should not be taxable as a dividend to such U.S. Holders. The tax basis of a U.S. Holder's shares in a QEF will be increased by amounts that are included in income, and decreased by amounts distributed but not taxed as dividends, under the above rules.

Although a determination as to our PFIC status will be made annually, an initial determination that our company is a PFIC will generally apply for subsequent years to a U.S. Holder who held Class A Shares or Listed Warrants while we were a PFIC, whether or not we meet the test for PFIC status in those subsequent years. A U.S. Holder who makes the QEF election discussed above for our first taxable year as a PFIC in which the U.S. Holder holds (or is deemed to hold) the Class A Shares, however, will not be subject to the PFIC tax and interest charge rules discussed above in respect to such shares. In addition, such U.S. Holder will not be subject to the QEF inclusion regime with respect to such shares for any taxable year of us that ends within or with a taxable year of the U.S. Holder and in which we are not a PFIC. On the other hand, if the QEF election is not

APPENDIX IV

GENERAL INFORMATION

effective for each of our taxable years in which we are a PFIC and the U.S. Holder holds (or is deemed to hold) the Class A Shares, the PFIC rules discussed above will continue to apply to such shares unless the holder makes a purging election, as described above, and pays the tax and interest charge with respect to the gain inherent in such shares attributable to the pre-QEF election period.

Alternatively, if a U.S. Holder, at the close of its taxable year, owns shares in a PFIC that are treated as marketable stock, the U.S. Holder may make a mark-to-market election with respect to such shares for such taxable year. If the U.S. Holder makes a valid mark-to-market election for the first taxable year of the U.S. Holder in which the U.S. Holder holds (or is deemed to hold) Class A Shares in us and for which we are determined to be a PFIC, such holder generally will not be subject to the PFIC rules described above in respect to its Class A Shares. Instead, in general, the U.S. Holder will include as ordinary income each year the excess, if any, of the fair market value of its Class A Shares at the end of its taxable year over the adjusted basis in its Class A Shares. Such a U.S. Holder also will be allowed to take an ordinary loss in respect of the excess, if any, of the adjusted basis of its Class A Shares over the fair market value of its Class A Shares at the end of its taxable year (but only to the extent of the net amount of previously included income as a result of the mark-to-market election). Such U.S. Holder's basis in its Class A Shares will be adjusted to reflect any such income or loss amounts, and any further gain recognised on a sale or other taxable disposition of the Class A Shares will be treated as ordinary income. A valid mark-to-market election cannot be revoked without the consent of the IRS unless the common shares cease to be marketable stock. Currently, a mark-to-market election may not be made with respect to the Listed Warrants.

The mark-to-market election is available only for stock that is regularly traded on a national securities exchange that is registered with the SEC or on a foreign exchange or market that the IRS determines has rules sufficient to ensure that the market price represents a legitimate and sound fair market value. U.S. Holders should consult their own tax advisors regarding the availability and tax consequences of a mark-to-market election in respect to the Class A Shares under their particular circumstances.

If we are a PFIC and, at any time, have a foreign subsidiary that is classified as a PFIC, U.S. Holders generally would be deemed to own a portion of the shares of such lower-tier PFIC, and generally could incur liability for the deferred tax and interest charge described above if we receive a distribution from, or dispose of all or part of our interest in, the lower-tier PFIC or the U.S. Holders otherwise were deemed to have disposed of an interest in the lower-tier PFIC. We will endeavor to cause any lower-tier PFIC to provide to a U.S. Holder the information that may be required to make or maintain a QEF election with respect to the lower-tier PFIC. However, there is no assurance that we will have timely knowledge of the status of any such lower-tier PFIC. In addition, we may not hold a controlling interest in any such lower-tier PFIC and thus there can be no assurance

APPENDIX IV

GENERAL INFORMATION

we will be able to cause the lower-tier PFIC to provide the required information. A mark-to-market election generally would not be available with respect to such lower-tier PFIC. U.S. Holders are urged to consult their own tax advisors regarding the tax issues raised by lower-tier PFICs.

If we are determined to be a PFIC for any taxable year (or portion thereof) that is included in the holding period of a U.S. Holder of the Class A Shares and such U.S. Holder disposes of the Class A Shares in a transaction that would otherwise qualify for nonrecognition treatment for U.S. federal income tax purposes, under Proposed Regulations, such nonrecognition treatment would apply only if the Class A shares are exchanged for stock in another PFIC, transferred to a U.S. person or the U.S. Holder has made a QEF or mark-to-market election with respect to the Class A Shares.

A U.S. Holder that owns (or is deemed to own) shares in a PFIC during any taxable year of the U.S. Holder, may have to file an IRS Form 8621 (whether or not a QEF or mark-to-market election is made) and such other information as may be required by the U.S. Treasury Department. Failure to do so, if required, will extend the statute of limitations until such required information is furnished to the IRS.

The rules dealing with PFICs and with the QEF and mark-to-market elections are very complex and are affected by various factors in addition to those described above. Accordingly, U.S. Holders of the Class A Shares or Listed Warrants should consult their own tax advisors concerning the application of the PFIC rules to the Class A Shares or Listed Warrants under their particular circumstances.

Tax Reporting

Certain U.S. Holders may be required to file an IRS Form 926 (Return by a U.S. Transferor of Property to a Foreign Corporation) to report a transfer of property (including cash) to us. Substantial penalties may be imposed on a U.S. Holder that fails to comply with this reporting requirement, and the period of limitations on assessment and collection of United States federal income taxes will be extended in the event of a failure to comply. Furthermore, certain U.S. Holders who are individuals and certain entities will be required to report information with respect to such U.S. Holder's investment in "specified foreign financial assets," which may include an interest in us, on IRS Form 8938 (Statement of Specified Foreign Financial Assets), subject to certain exceptions. Specified foreign financial assets generally include any financial account maintained with a non-U.S. financial institution and should also include the Class A Shares and Listed Warrants if they are not held in an account maintained with a U.S. financial institution. Persons who are required to report specified foreign financial assets and fail to do so may be subject to substantial penalties, and the period of limitations on assessment and collection of United States federal income taxes may be extended in the event of a failure to comply. Potential investors are urged to consult their tax advisers regarding the foreign financial asset and other reporting obligations and their application to an investment in our securities.

Information Reporting and Backup Withholding

Dividend payments with respect to our Class A Shares and proceeds from the sale, exchange or redemption of the Class A Shares and Listed Warrants may be subject to information reporting to the IRS and possible United States backup withholding. Backup withholding will not apply, however, to a U.S. Holder who furnishes a correct taxpayer identification number and makes other required certifications, or who is otherwise exempt from backup withholding and establishes such exempt status. U.S. Holders who are required to establish their exempt status may be required to provide such certification on IRS Form W-9.

Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against a holder's United States federal income tax liability, and a holder generally may obtain a refund of any excess amounts withheld under the backup withholding rules by timely filing the appropriate claim for refund with the IRS and furnishing any required information.
