3. Business Review

In 2021, in the face of the complicated and severe external environment, the Bank conscientiously implemented the decisions and arrangements of the CPC Central Committee and the State Council, acted upon the “48-character” guideline, stepped foot in the new development stage, applied the new development philosophy in full, in the right way and in all fields, and actively served and integrated into the new development paradigm. We coordinated COVID-19 containment efforts and financial work, went to all lengths to accomplish the “Three Tasks” of financial work, and achieved stable and even more remarkable business performance. We made great headway in our new development plan and took solid steps toward high-quality development.

In 2021, the Group recorded RMB860.9 billion in operating income, representing an increase of 7.6% from the previous year. Profit before provision was RMB627.5 billion, representing an increase of 5.5% from the previous year. Net profit reached RMB350.2 billion, representing an increase of 10.2% from the previous year. Return on total average assets and return on weighted average equity were both higher than the previous year. Capital adequacy ratio stood at 18.02%. NPL ratio was 1.42%, down 0.16 percentage points from the end of the previous year. Allowance to NPLs reached 205.84%. These indicators fully reflect the balance and coordination between value creation, market standing, risk management and capital constraints and demonstrate the Bank’s strong momentum for high-quality development and extraordinary development resilience.

Such resilience is firmly rooted in our commitments to fulfilling our original aspirations and serving the real economy. According to the cross-cyclical and counter-cyclical policy adjustments, the Bank earnestly implemented the requirements for “ensuring stability on six key fronts” and “maintaining security in six key areas”. We arranged the aggregate volume, pace and structure of investment and financing in a well-coordinated way, and continuously improved the adaptability, competitiveness and inclusiveness of financial services, so as to better meet the diversified financial needs of the real economy and the general public. The Bank registered new domestic RMB loans of RMB2.12 trillion, RMB243.3 billion more than the increment last year, hitting the new high for the same period. Bond investments grew by RMB763.2 billion, with the balance remaining at the first position among peers. We took precise and targeted actions to support the key fields and weak areas of the real economy. Loans to manufacturing increased by RMB319.7 billion, with the medium to long-term loans to manufacturing growing by RMB242.7 billion. We improved financial service modes for sci-tech enterprises, and the balance of loans to key state-supported high-tech fields surpassed RMB1 trillion. We actively pushed forward green and low-carbon transformation and witnessed the total amount of green loans exceeding RMB2.4 trillion, indicating a growth rate of 34.4%. We made vigorous efforts in the development of digital inclusive finance and supply chain finance, and scaled up small and micro loans. We launched the “ICBC Xingnongtong” brand, to expand the breadth and depth of our financial support for the endeavor of rural revitalization. Our inclusive loans grew by over 50% in the year.

Such resilience is built upon our solid measures for safeguarding the bottom line of risk management and continuously enhancing our ability to defuse risks. The Bank placed equal emphasis on development and security, adopted a holistic risk management approach to people, money and policy system, and upgraded the enterprise risk management system through “active prevention, smart control and comprehensive management”. We strengthened the implementation of policies and fully implemented new credit review regulations across domestic institutions. We carried out special actions to improve asset quality, systematically inspected and managed risks in key areas and related to key customers, and redoubled efforts in the collection and disposal of NPLs. The overdue rate, overdue amount and price scissors between overdue loans and NPLs continued to decline. We overdid the task of reducing existing wealth management products. We stayed vigilant against market risk and took effective measures to forestall emerging risks such as climate risk and model risk. We comprehensively improved the effectiveness of internal control and case prevention, and achieved notable results in customer complaint management.

Such resilience stems from our thorough efforts to advance transformation and innovation and continuously inspire business vitality and growth momentum. In alignment with the 14th Five-Year Plan, the Bank launched its new development plan, followed through on the pattern of “bringing out our strengths to make up for our weaknesses and laying a solid foundation and base” and pushed forward the implementation of the No.1 Personal Bank Strategy, the Preferred Bank Strategy for Foreign Exchange Business, the Strategy for Sharpening Competitive Edge in Key Regions and the Urban-Rural Collaborative Development Strategy. We worked hard to cultivate and shape new advantages for high-quality development, advanced the transformation of asset management, private banking, bank card and other businesses in an orderly manner, and comprehensively improved our service quality. We accelerated digital transformation and deepened the fusion of technology and business. We vigorously developed service scenarios in smart government, smart social security, smart education and other fields with a focus to help improve people’s livelihoods, further strengthened the interactions among government, business and consumption (“GBC”), and achieved substantial results in fundamental work such as fund taking and “net making and patching” program. With more than 700 million personal customers and 9.69 million corporate customers, the Bank has a well-coordinated customer ecosystem encompassing large, medium, small and micro customers, laying a solid foundation for high-quality development.

4. Discussion and Analysis

4.1 Income Statement Analysis

In 2021, facing the complicated and tough business environment, the Bank maintained sound business quality, constantly elevated the quality and efficiency of financial services, and further improved its capability in balancing and coordinating sustainable development. In the year, the Bank realized a net profit of RMB350,216 million, representing an increase of RMB32,531 million or 10.2% as compared to the previous year. Return on average total assets stood at 1.02%, and return on weighted average equity was 12.15%. Operating income amounted to RMB860,880 million, representing an increase of 7.6%, of which, net interest income grew by 6.8% to RMB690,680 million; non-interest income was RMB170,200 million, up by 11.0%. Operating expenses amounted to RMB236,227 million, representing an increase of 14.3%, and the cost-to-income ratio was 26.36%. Impairment losses on assets were RMB202,623 million. Income tax expense rose by 0.3% to RMB74,683 million.

Net Interest Income

In 2021, net interest income was RMB690,680 million, RMB43,915 million or 6.8% higher than that of last year, accounting for 80.2% of the Bank's operating income. Interest income grew by RMB69,697 million or 6.4% to RMB1,162,218 million and interest expenses increased by RMB25,782 million or 5.8% to RMB471,538 million. Net interest spread and net interest margin (NIM) came at 1.92% and 2.11% respectively, down 5 basis points and 4 basis points respectively from the previous year, mainly because the Bank continued to provide favorable fee policy for the real economy and further reduced the financing cost of enterprises.

The Bank continued to propel the optimization and adjustment of the industry's credit structure and stepped up efforts to shore up the development of the real economy. Loans to transportation, storage and postal services increased by RMB348,830 million as compared with the end of the previous year, representing a growth rate of 14.1%, mainly due to active support for the liquidity needs of highway, railway, airport and berth projects and large transportation group companies. Loans to leasing and commercial services increased by RMB225,688 million, representing a growth rate of 15.7%, mainly for supporting the financing needs of developing projects for "New infrastructure, New urbanization initiatives and Major projects", people's wellbeing, projects for strengthening areas of weaknesses in infrastructure, and of enterprise headquarters, parks and commercial complex management service customers. Loans to water, environment and public utility management grew by RMB216,051 million, representing a growth rate of 18.7%, mainly for steadily satisfying the investment and financing needs arising from significant projects and projects for people's livelihood in the areas of urban infrastructure construction, ecological environment protection and public services. Manufacturing loans rose by RMB99,228 million, an increase of 6.4%, mainly due to continuously increased support for manufacturing, faster credit granting structure adjustment and fast growth of loans to leading and backbone enterprises in manufacturing of electrical equipment, general equipment, food and medicine.

The Bank continued to strengthen risk management of financing in various industries, intensified the disposal of non-performing assets with RMB190.1 billion NPLs recovered or disposed accumulatively, and actively promoted the transformation of risk asset management. Except for the deterioration of loans to customers in some industries due to external factors such as COVID-19 pandemic, the loan quality was generally stable.

4.6 Outlook

In 2022, the global economy is expected to continue its rebound, but tensions in the global supply chain and energy supplies may persist, and the prices of major asset categories show a divergent trend. The accelerated shift in monetary policy of major economies and the upward shift in interest rate centers will pose challenges to the banking sector in terms of liquidity management, asset allocation and optimization of the debt structure. At present, **the Chinese economy** faces pressures from three fronts, namely shrinking demand, supply shock and weakening expectations, but the momentum of sustained recovery and development has not changed, and its economic fundamentals remain strong in the long term. China is stepping up efforts to foster a new development paradigm featuring dual circulation, in which domestic and overseas markets reinforce each other, with the domestic market as the mainstay. This will bring new opportunities to the high-quality development in **the banking sector**.

Adhering to Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era, **ICBC** will continue to earnestly implement the decisions and arrangements of the Central Committee of the Communist Party of China and the State Council, advance full and accurate implementation of the new development philosophy in the new development stage, and actively serve and integrate into the new development paradigm. The Bank will stay committed to the general principle of pursuing progress while ensuring stability, keep hold

of the requirement of “stability”, fight for achievements in “progress”, redouble efforts in “reform”, stick to the path of financial development with Chinese characteristics, follow the “48-character” guideline, and pursue its own high-quality development while contributing to the country’s high-quality economic and social development. **First, it will reinforce the Party’s establishment in a high-quality manner.** The Bank will uphold and strengthen the Party’s leadership, further integrate it with corporate governance, better align the procedural rules of the Party Committee and the decision-making mechanism in corporate governance, and improve the modern financial enterprise system. The Bank will give full play to its role in full and strict Party self-governance in providing political guidance and guarantees and strengthen strict management and atmosphere. **Second, it will serve the new development paradigm in a high-quality manner.** The Bank will continue to focus on its main responsibilities and businesses, scale up support for manufacturing enterprises and small and micro enterprises, and improve the service quality and efficiency for scientific and technological innovation and green development. The Bank will bring into full play to its dual functions as monetary policy tools in the total amount and structure of investment and financing, implement the cross-cyclical and counter-cyclical policy arrangements, and provide targeted support for the implementation of major projects during the 14th Five-Year Plan period to keep the macro-economy on an even keel. The Bank will integrate financial services into the processes of production, distribution, circulation and consumption to help build a complete demand system and smoothen the circulation of the national economy and the global economy. **Third, it will implement the new development plan at a high-quality standard.** The Bank will give greater prominence to quality, efficiency and innovation, make itself stronger and better based on actual conditions, and improve qualitative development. It will push forward the implementation of key strategies such as the No.1 Personal Bank, the Preferred Bank for Foreign Exchange Business, Sharpening Competitive Edge in Key Regions, and Urban-Rural Collaborative Development. The Bank will strive to achieve new results while “bringing out our strengths to make up for our weaknesses and laying a solid foundation and base” and make mid-term breakthroughs in the implementation of new development plan. **Fourth, it will carry out the high-quality enterprise risk management.** Adhering to the systematic thinking pattern, the Bank will strengthen risk awareness and bottom-line thinking, comprehensively sort out and identify potential risks, and develop targeted response plans and countermeasures. The Bank will improve credit risk management, and further stabilize the asset quality. It will refine the risk management mechanism for online and emerging businesses, and strictly forestall market risks. The Bank will comprehensively enhance the effectiveness of internal control and case prevention measures to ensure that no major risk events and cases occur. **Fifth, it will press ahead with high-quality financial reform.** The Bank will further promote the organic integration of the Party’s leadership and corporate governance, put in place the sound system of modern financial enterprise, and modernize the governance system and capacity. It will fully exploit its advantages in technology and data to boost the development of the digital economy and ramp up its efforts in building “D-ICBC”. The Bank will roll out new cutting-edge and controllable financial technology and take solid measures to ensure the security in the process of digital transformation. **Sixth, it will reinforce the building of talent teams in a high-quality manner.** The Bank will strengthen the top-level design for talent-related work, devise and implement a new round of bank-wide talent development plans. It will improve the evaluation, appraisal and monitoring systems, refine the incentive and restraint mechanisms, strengthen employee management and supervision, and improve employee care. By doing so, the Bank aims to build a strong bank with top-notch talent teams and forge synergy for ICBC’s high-quality development.

4.7 Hot Topics in the Capital Market

Hot Topic 1: An Impressive “Answer Sheet” from ICBC

In 2021, ICBC adhered to the “48-character” guideline and coordinated COVID-19 prevention and control efforts with business development. Through high-quality investment and financing, the Bank provided comprehensive services against a new development paradigm, implemented the new development plan by steadily pushing forward the mantra of “bringing out our strengths to make up for our weaknesses and laying a solid foundation and base”, strengthened risk control on every front by improving the risk management system and comprehensively deepened reform and innovation through well-focused efforts to enhance governance capacity. While contributing to high-quality economic growth, the Bank further improved its sustainability, further cemented the foundation for its own high-quality development and delivered remarkable performance in main business indicators. In summary, ICBC continued to highlight the qualities of “strong, excellent and large” and delivered to investors an impressive “answer sheet”.

I. The input and output efficiency of assets and capital constantly enhanced

First, operational efficiency was further boosted. ROE reached 12.15% and ROA was 1.02%, up 20 basis points and 2 basis points from last year, respectively, an outstanding level among world’s largest banks. **Second, the capital base was increasingly strengthened.** Capital adequacy ratio stood at 18.02%, an increase of 1.14 percentage points from the end of last year, maintaining a leading position in the global banking sector. Core tier 1 capital adequacy ratio was 13.31%, up 0.13 percentage points, and tier 1 capital adequacy ratio was 14.94%, up 0.66 percentage points. Net capital base was RMB3,909.7 billion, an increase of 15.1% from the end of last year, remaining at a leading position worldwide.

II. Capital profitability and risk control capability continuously improved

First, net interest margin (“NIM”) remained good. NIM stood at 2.11%, still an outstanding level in the banking sector. Against the backdrop of persistently low interest rates worldwide and narrowing banking spreads, the contraction (-4 basis points) in NIM outperformed comparable domestic banks. The Bank demonstrated a strong ability to manage assets and liabilities, and implemented the policy of fee reduction and profit concessions and serving the real economy. **Second, the profit structure was optimized with an increasing proportion of non-interest income.** Non-interest income accounted for 19.77% of operating income, up 0.61 percentage points compared with the previous year.

NIM remained good

Higher proportion of non-interest income

Third, asset quality further improved. NPL ratio was 1.42%, down 16 basis points from the end of last year, and basically returned to the pre-pandemic level. The overdue loan rate was 1.23%, down 21 basis points. The price scissors between overdue loans and NPLs was RMB-38.5 billion, maintaining negative for seven consecutive quarters, representing a record low. **Fourth, risk resilience was further boosted and the base of risk allowances further fortified.** Allowance to NPLs was 205.84%, representing an increase of 25.16 percentage points over the end of last year. Allowance to total loans ratio was 2.92%, representing an increase of 7 basis points. Credit cost ratio was 0.86%, down 0.11 percentage points. **Fifth, capital discipline worked effectively.** RWA grew by 7.8%, 3.2 percentage points slower than growth of credit assets. **Sixth, the input/output efficiency was high.** Cost-to-income ratio was 26.36%, still relatively low among global peers despite a rise of 1.60 percentage points over last year.

III. Scale merits and brand value leading the world

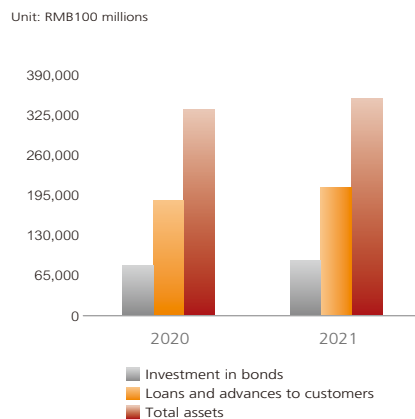

First, the Bank ranked No. 1 by total income among global banks. The Bank recorded RMB860.9 billion in operating income, up 7.6% from the previous year, with net fee and commission income maintaining its leading position among domestic banks. **Second, the Bank ranked No. 1 by total profits among global banks.** Net profit reached RMB350.2 billion, representing an increase of 10.2% over the previous year. Profit before provision was RMB627.5 billion, up 5.5% from last year.

Income and profit ranked first worldwide

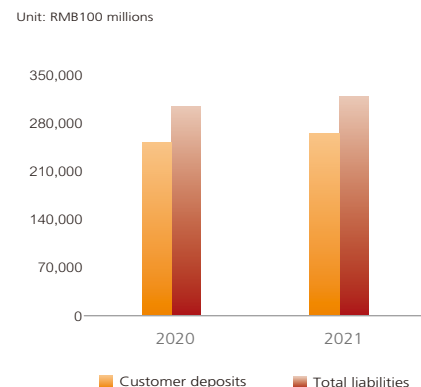

Third, the Bank ranked No. 1 by total assets among global banks. Total assets reached RMB35,171.4 billion, representing an increase of 5.5% over the end of the previous year. Loans and advances to customers totaled RMB20,667.2 billion, up 11.0% from the end of the previous year. Investment in bonds was RMB8,817.3 billion, up 9.5% from the end of the previous year. **Fourth, the Bank ranked No. 1 by total deposits among global banks.** Due to customers amounted to RMB26,441.8 billion, an increase of 5.2% from the end of the previous year.

Fifth, the Bank remained in the first place in international rankings. The Bank was ranked the 1st place among the Top 1000 World Banks by *The Banker*, the 1st place in the Global 2000 by *Forbes*, and the 1st place in the list of commercial banks of the Global 500 in *Fortune* for the ninth consecutive year, demonstrating strong overall capacity and market influence. **Sixth, brand value kept increasing.** According to the “2022 Top 500 Banking Brand” by *Brand Finance*, a research institute of global brand value, the Bank took the 1st place among the world’s top banking brands with a brand value of USD75.1 billion for the sixth consecutive year.

IV. Major breakthroughs made in “bringing out our strengths to make up for our weaknesses and laying a solid foundation and base”

- i. Bringing out our strengths: focusing on cementing strengths in institutional banking, corporate banking, settlement and transaction banking.** In terms of **settlement service**, RMB corporate settlement generated RMB11.3 billion of fee income, ranking first among peers. **In terms of institutional banking**, the customer base hit a five-year high in growth, and deposits from banks and other financial institutions remained in the first place among comparable peers, manifesting a notable competitive edge. **In terms of corporate banking**, the Bank still took the first spot in both the number of corporate customers and the amount of corporate loans and deposits among comparable peers. The Bank was the first commercial bank to break the RMB10 trillion mark of RMB corporate loans. The asset quality improved steadily. **In terms of transaction banking**, the financial market business generated more than RMB100 billion of net profit, investment banking continued to rank first among domestic peers by income from advisory and consulting services, and mega asset management totaled RMB27 trillion, representing a growth of 11.24%.

- ii. **Making up for our weaknesses: focusing on personal banking, foreign exchange business, key areas and urban-rural collaborative development.** In terms of **No.1 Personal Bank Strategy**, personal assets under management (“AUM”, close to RMB17 trillion) still led the market. The number of individual customers exceeded 700 million and the number of mobile banking customers reached 469 million. The Bank was the first bank to have more than 100 million monthly active users (“MAU”) of mobile banking. The balance of personal loans reached nearly RMB8 trillion, and payroll service reached over RMB5 trillion of distributions to more than 100 million customers. **In terms of the Strategy of the Preferred Bank for Foreign Exchange Business**, the Bank launched the “YES ICBC” financial service brand. The average daily balance of domestic foreign exchange deposits increased by 35% over the previous year. The Group’s cross-border RMB business volume exceeded RMB8.5 trillion. The Bank became one of the first eligible pilot banks for the “Southbound Bond Connect” scheme and the “Cross-boundary Wealth Management Connect” scheme in the Guangdong-Hong Kong-Macao Greater Bay Area. It played a leading role as a big bank to serve two-way opening-up of the financial market. **In terms of Strategy for Sharpening Competitive Edge in Key Regions**, the Bank enjoyed a dominance in total balance of deposits and loans in five key areas, namely the Beijing-Tianjin-Hebei region, Yangtze River Delta, Guangdong-Hong Kong-Macao Greater Bay Area, Central China and Chengdu-Chongqing region. **In terms of the Urban-Rural Collaborative Development Strategy**, the Bank innovated the rural vitalization service system, introduced the “Xingnongtong” brand and provided stronger credit resource support. The balance of agriculture-related loans reached RMB2.66 trillion.
- iii. **Laying a solid foundation: focusing on FinTech and financial innovation.** In terms of **FinTech**, the Bank practiced technology self-reliance, strengthened the “dual wheel drive” of technological innovation and system reform, and empowered the development of “D-ICBC” with technology. The intelligent banking ecosystem ECOS was awarded PBC’s only special award of the “FinTech Development Awards” in 2021. The Bank had the most newly added and accumulated patents among Chinese banks. **In terms of financial innovation**, the Bank ranked first in both the balance and growth of credits to manufacturing, strategic emerging industries, green and other key fields among peers. Specifically, the Bank topped the RMB2 trillion mark in balance of manufacturing loans, a net increase of RMB319.7 billion. The balance of loans to strategic emerging industries exceeded RMB1 trillion. Outstanding green loans amounted to RMB2.48 trillion, up RMB634.9 billion from the beginning of the year, with the new green loans issued in the year hitting an all-time high.

iv. Laying a solid base: focusing on enhancing the capacity of enterprise risk management, efficiency of GBC interactions and competitiveness of outlets and teams. In terms of enterprise risk management system, the Bank adhered to the four-pronged risk management approach to people, money, defense line and bottom line, followed the guiding principle of “active prevention, smart control and comprehensive management”, incorporated investment and financing cooperation, secondary risks of intermediate business, climate risk and model risk in the enterprise risk management system. The “9+X” risks were generally under control. **In terms of GBC interactions and coordination of channels,** the Bank made solid progress in GBC work, fund taking, “net making and patching” program, payroll service, management of investment and financing cooperation institutions and competitiveness enhancement of outlets. Remarkable achievements were made in the development of key GBC scenarios. G-end added 12 thousand customers and RMB120.0 billion of deposits. B-end added 290 thousand customers and RMB290.0 billion of deposits. C-end acquired or activated 52.00 million customers with a payroll service volume of RMB1.7 trillion.

In 2022, ICBC will adhere to the general principle of pursuing progress while ensuring stability, apply the new development philosophy in every respect and remain stable with sound momentum. The Bank will push for medium-term breakthroughs under new plans, deepen digital transformation and work hard to break new ground in ICBC’s high-quality development.

Hot Topic 2: D-ICBC

The Bank remained steadfast on the road of digital development. In shifting from “bank informatization” to “informatized bank”, ICBC led the Digital 1.0 stage of digital technology-driven business development. The Bank keenly grasped the trends in the fresh technological revolution and industry transformation and made a push for IT architecture transition and the “smart banking ecosystem ECOS” project, kick-starting the Digital 2.0 stage of digitalization-led transformation in every respect. During the reporting period, the Bank took the lead in developing a five-dimensional plan for “digital ecosystem, digital assets, digital technology, digital infrastructure and digital genes” and planned to launch a farsighted digital brand “D-ICBC”. In addition, leveraging on the Group’s FinTech and data strengths, the Bank deepened the D-ICBC development driven by “data and technology” on a customer-oriented basis. Keeping in mind the bigger picture of building a digital China, ICBC contributed to the healthy development of digital economy by promoting profound changes in business and service models, and improvement of quality and efficiency of product innovation. Significant improvements have been made in customer experience, service efficiency and business value.

I. Digital transformation boosted circulation. According to the business model and transaction characteristics of small and micro customers, the Bank continuously upgraded its digital inclusive products and their operation system. Inclusive loans issued online accounted for 94% of the new balance. More scenarios were introduced for “e-Enterprise Quick Loan” to improve the service quality and efficiency for small and micro customers who hold non-residential real properties. A combination of tax, electricity, settlement and other data were used to provide credit loan support for the activity of small and micro businesses. The digital supply chain and industrial chain scenarios-based financial services were developed and perfected for national strategic sectors such as modern agriculture, “specialized, sophisticated, distinctive and innovative” enterprises and advanced manufacturing. In cooperation with the National Financing Guarantee Fund, the Bank introduced the “bulk guarantee” credit enhancement mechanism to make financing more accessible to small and micro businesses. The Bank strengthened the capacity of fully digital operations by building a customer marketing system covering “targeting, attraction, engagement and retention”. During the reporting period, the Bank kept deepening trade finance and cross-border finance in support of cooperation projects under the Belt and Road Initiative. The Bank developed the “ICBC Global Pay” product series to provide one-stop global cash management services, serving nearly 10,000 multinational corporations and helping Chinese enterprises going global. The “ICBC Business Matchmaker” cross-border matchmaking platform was developed. ICBC became the first bank to provide closed-loop cross-border matchmaking services. Nearly 80% of matched pairs intended to cooperate with each other.

II. Building a GBC digital community. First, on the G-end, new models of digital government services were introduced. The Bank carried out government data partnership with 29 provincial or equivalent governments and launched more than 300 government partnership scenarios, proactively supporting government affairs to be “processed in one network”. “My Ningxia” APP built and shaped a new brand and image for Ningxia’s digital government. **Second, B-end saw in-depth participation in industry digitalization.** Keeping pace with digital transformation of leading players in modern agriculture, advanced manufacturing and modern service industries, the Bank provided services along the value chain ranging from upstream to downstream customers, and improved its financial service capabilities covering the entire industrial chain. The Bank launched over 20 “financial + industrial” cloud service ecosystem to provide over 2,600 types of financial services and products to the public around the hot areas of people’s livelihood, including healthcare, education and mobility, ranking first among peers by service types and number of scenarios covered. **Third, C-end endeavored to build a new service model of “ICBC on cloud”.** The Bank continued to upgrade mobile banking and offered abundant online services for 469 million users. It developed new models of smart marketing, under which Smart Brain was connected to channels such as ICBC e-Service, Gino (Gong Xiao Zhi) and cloud studios, providing more than 10 million smart service solutions for individual customers. The Bank actively promoted scenario- and ecosystem-based use of digital RMB, getting fully involved in digital public services. The Bank developed special sections for key customer groups, becoming the first bank to establish interconnection with the system of the Ministry of Human Resources and Social Security (MOHRSS) and enabling the issuance of “physical + electronic” social security cards. The Bank supported cross-provincial processing of social security cards and built a “smart risk control” platform to

safeguard customers' funds. Efforts were intensified to monitor unusual transactions in high-risk areas, such as sensitive transactions, anti-theft and the elderly's fund transfer.

III. Pushing for technology self-reliance. First, the IT core architecture was transformed and upgraded. The Bank has advanced the smart banking ecosystem project (ECOS) since 2015. Two core IT infrastructure platforms (cloud computing and distributed computing) were developed in-house to deal with all the core operations of ICBC. The two platforms provided safe and stable financial services to over 700 million individual customers and nearly 9.70 million corporate customers, with the system availability always above 99.99%. **Second, digital new infrastructures were developed in a faster pace.** In 2021, the Bank became the first bank to receive a five-star rating for its maturity of data management capabilities. The Bank thoroughly implemented the development philosophy that “lucid waters and lush mountains are invaluable assets” in a bid to build a world-class green data center. The Bank’s “National Green Data Center” recorded a daily peak of 868 million transactions, equivalent to a carbon dioxide emissions reduction of nearly 6,000 tons a year. **Third, the Bank made a push for new technologies on all fronts.** With a focus on cutting-edge technologies such as artificial intelligence, blockchain, cloud computing and big data, the Bank has built a series of new IT platforms, including ICBC Turing, ICBC Premier Chain and ICBC Nebula, to boost its core capabilities in new infrastructures. Among them, ICBC Premier Chain integrates basic technical services of blockchain, intelligent operations, and financial-level security capabilities. With more than 150 breakthroughs achieved in security, performance and capacity, the Bank was included in *Forbes’* Blockchain 50 2021. **Fourth, data asset management and data security control were enhanced.** The Bank developed a data architecture focused on “one data lake, two databases”. It built a big data-based smart cloud platform that is first of its type, self-contained, controllable and with a distributed architecture. All the Group’s data have been moved into the “lake”.

5.5 Preference Shares

Issuance and Listing of Preference Shares in Latest Three Years

Issuance of “工行優2”

With the approval of CBIRC by its Document Yin Bao Jian Fu [2019] No. 444 and the approval of CSRC by its Document Zheng Jian Xu Ke [2019] No. 1048, the Bank made a non-public issuance of 700 million domestic preference shares on 19 September 2019 at a par value of RMB100 per share. The dividend rate is the benchmark interest rate plus a fixed spread, remaining unchanged in the first five years. Subsequently the benchmark interest rate will be reset every five years, with the dividend rate kept unchanged in each reset period and the fixed spread remaining constant through the duration of the domestic preference shares. The initial dividend rate of the afore-mentioned domestic preference shares is set at 4.2% through market inquiry for the first five years. With the consent of Shanghai Stock Exchange by its letter Shang Zheng Han [2019] No. 1752, the afore-mentioned domestic preference shares issued were listed for transfer on the Comprehensive Business Platform of Shanghai Stock Exchange on 16 October 2019 with the stock name “工行優2” and stock code 360036. Proceeds of the afore-mentioned domestic preference shares totaled RMB70.0 billion, all of which was replenished to the additional tier 1 capital of the Bank after deduction of issuance expenses.

For issuance of domestic preference shares of the Bank, please refer to the announcements published by the Bank on the website of Shanghai Stock Exchange, the “HKEXnews” website of Hong Kong Exchanges and Clearing Limited and the website of the Bank.

Issuance of offshore preference shares

With the approval of CBIRC by its Document Yin Bao Jian Fu [2020] No. 138 and the approval of CSRC by its Document Zheng Jian Xu Ke [2020] No. 1391, the Bank made a non-public issuance of 145 million USD-denominated non-cumulative perpetual offshore preference shares (the “Offshore USD Preference Shares”) on 23 September 2020 at an issuance price of USD20 per share (see the table below for details). The Offshore USD Preference Shares were listed on the SEHK on 24 September 2020. All proceeds from the issuance, after deduction of commission and issuance expenses, will be used to replenish additional tier 1 capital and increase capital adequacy ratio.

Type of offshore preference shares	Stock code	Dividend rate	Total issuance amount	Full amount of proceeds per share	Net amount of proceeds per share	Number of shares issued
USD Preference Shares	4620	3.58%	USD2.9 billion	USD20	RMB135.77	145 million shares

The number of qualified places for the Offshore USD Preference Shares shall not be less than six, and they shall be offered only to professional investors instead of retail investors, and shall be non-publicly transferred in the OTC market only.

For particulars of the Bank’s distribution of dividends on preference shares, please refer to the announcements of the Bank on the website of Shanghai Stock Exchange, the “HKEXnews” website of Hong Kong Exchanges and Clearing Limited and the website of the Bank.

Redemption or Conversion of Preference Shares

In 2014, the Bank issued EUR0.6 billion offshore preference shares. The Board of Directors of the Bank reviewed and approved the Proposal on the Exercise of Redemption of Offshore EUR Preference Shares on 27 August 2021. On the premise of obtaining the approval of CBIRC, the Bank planned to exercise the right to redeem all the abovementioned offshore EUR preference shares on 10 December 2021. In October 2021, the Bank received a reply letter from CBIRC, which had no objection to the Bank's redemption of EUR0.6 billion offshore preference shares. Pursuant to the terms and conditions of the offshore EUR preference shares and the reply letter from CBIRC, the Bank redeemed the aforementioned offshore EUR preference shares in whole on 10 December 2021 at the redemption price of each offshore EUR preference share (being the aggregate of an amount equal to the liquidation preference of each offshore EUR preference share plus any dividends accrued but unpaid in respect of the period from (and including) the immediately preceding dividend payment date to (but excluding) the redemption date). Subsequent to the redemption and cancellation of the aforementioned offshore EUR preference shares on the redemption date, there are no EUR preference shares issued in the offshore market. Please refer to the announcements published by the Bank on the website of Shanghai Stock Exchange, the "HKEXnews" website of Hong Kong Exchanges and Clearing Limited and the website of the Bank.

During the reporting period, the Bank did not convert any preference share.

Restoration of Voting Rights of Preference Shares

During the reporting period, the Bank did not restore any voting right of preference share.

Accounting Policy Adopted for Preference Shares and Rationale

According to the Accounting Standard for Business Enterprises No. 22 — Recognition and Measurement of Financial Instruments, the Accounting Standard for Business Enterprises No. 37 — Presentation of Financial Instruments promulgated by MOF as well as the International Financial Reporting Standard 9 — Financial Instruments and the International Accounting Standard 32 — Financial Instruments: Presentation promulgated by International Accounting Standards Board and other accounting standards and the key terms of issuance of the Bank's preference shares, the issued and existing preference shares do not contain contractual obligations to deliver cash or other financial assets or contractual obligations to deliver variable equity instruments for settlement, and shall be accounted for as other equity instruments.

6. Other Information

6.1 Corporate Governance Code

During the reporting period, save as disclosed below, the Bank fully complied with the principles, code provisions and recommended best practices stipulated in the Corporate Governance Code (Appendix 14 to the Hong Kong Listing Rules).

With regard to the compliance with Article C.2.1 of the Corporate Governance Code (Appendix 14 to the Hong Kong Listing Rules), Mr. Gu Shu resigned from his position as President of the Bank on 31 December 2020. The Board of Directors of the Bank deliberated and decided that Mr. Chen Siqing, Chairman of the Board of Directors, should perform the duties of acting President from the date when Mr. Gu Shu does not perform the management duties in the Bank due to job change to the date when the new President appointed by the Board of Directors of the Bank formally takes office. On 16 March 2021, Mr. Liao Lin took office as President of the Bank, and since that date, Mr. Chen Siqing had ceased to serve as acting President.

6.2 Securities Transactions of Directors and Supervisors

The Bank has adopted a set of codes of conduct concerning the securities transactions by directors and supervisors which are no less stringent than the standards set out in the Model Code for Securities Transactions by Directors of Listed Issuers, Appendix 10 to the Hong Kong Listing Rules. After making enquiries to all Directors and Supervisors of the Bank, each Director and Supervisor confirmed that he/she has complied with the provisions of the aforesaid codes of conduct during the reporting period.

6.3 Profits and Dividends Distribution

As approved at the Annual General Meeting for the Year 2020 held on 21 June 2021, the Bank has distributed cash dividends of about RMB94,804 million, or RMB2.660 per ten shares (pre-tax) for the period from 1 January 2020 to 31 December 2020 to the ordinary shareholders whose names appeared on the share register after the close of market on 5 July 2021.

The Board of Directors of the Bank proposed distributing cash dividends of RMB2.933 (pre-tax) for each ten shares of 356,406,257,089 ordinary shares for 2021, totaling about RMB104,534 million. The distribution plan will be submitted for approval to the Annual General Meeting for the Year 2021. Once approved, the above-mentioned dividends will be paid to the holders of A shares and H shares whose names appeared on the share register of the Bank after the close of market on 11 July 2022. The Bank will suspend the registration procedures of H share ownership transfer on 6 July 2022 (inclusive) through 11 July 2022 (inclusive). The holders of H shares of the Bank that desire to receive the proposed cash dividends but have not registered the ownership transfer documents are requested to hand over their ownership transfer documents together with the H shares to the Bank's H share registrar — Computershare Hong Kong Investor Services Limited that is located at Room 1712–1716, 17 Floor, Hopewell Center, 183 Queen's Road East, Wanchai, Hong Kong no later than 4:30 p.m. of 5 July 2022. Pursuant to relevant regulatory requirements and operational rules, dividends on A shares and H shares will be paid on 12 July 2022 and 27 July 2022, respectively.

For dividend-related tax and tax reduction, please refer to the announcements on dividend distribution of the Bank.

7.3 Significant Accounting Policies

(1) Mandatory amendments to IFRSs effective for the current year

In the current year, the Group has applied, for the first time, the following amendments to IFRSs issued by the IASB which are mandatorily effective for the annual periods beginning on or after 1 January 2021 for the preparation of the Group's consolidated financial statements:

- Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16: Interest Rate Benchmark Reform (Phase 2)

Changes in the basis for determining the contractual cash flows as a result of interest rate benchmark reform

For changes in the basis for determining the contractual cash flows of a financial asset or financial liability as a result of interest rate benchmark reform, the Group applies the practical expedient to account for these changes by updating the effective interest rate. Such change in effective interest rate normally has no significant effect on the carrying amount of the relevant financial asset or financial liability.

A change in the basis for determining the contractual cash flows is required by interest rate benchmark reform if and only if, both these conditions are met:

- the change is necessary as a direct consequence of interest rate benchmark reform; and
- the new basis for determining the contractual cash flows is economically equivalent to the previous basis.

For other changes made to a financial asset or financial liability in addition to changes to the basis for determining the contractual cash flows required by interest rate benchmark reform, the Group first applies the practical expedient to the changes required by interest rate benchmark reform by updating the effective interest rate. The Group then applies the applicable requirements in IFRS 9 *Financial Instruments* on modification of a financial asset or a financial liability for additional changes to which the practical expedient does not apply.

Transition and summary of effects

The Group's business impacted by interest rate benchmark reform are mainly those linked with London Interbank Offered Rate, consisting of loans, debt investments and derivatives. The Group considered the application of this amendment had no material impact on the Group's financial positions and performance for the current period.

The Group has early adopted amendments to IFRS 16 — COVID 19 Related Rent Concession Beyond 30 June 2021. The amendment has no significant financial and operational impacts to the Group.

(2) Issued but not yet effective IFRSs and amendments to IFRSs

The Group has not applied the following new and revised IFRSs that have been issued but are not yet effective.

IFRS 17: Insurance Contracts and the related Amendments²

Amendments to IFRS 3: Reference to the Conceptual Framework¹

Amendments to IFRS 10 and IAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture³

Amendments to IAS 1: Classification of Liabilities as Current or Non-current²

Amendments to IAS 1 and IFRS Practice Statement 2: Disclosure of Accounting Policies²

Amendments to IAS 8: Definition of Accounting Estimates²

Amendments to IAS 12: Deferred Tax related to Assets and Liabilities arising from a Single Transaction²

Amendments to IAS 16: Property, Plant and Equipment: Proceeds before Intended Use¹

Amendments to IAS 37: Onerous Contracts — Cost of Fulfilling a Contract¹

Amendments to IFRSs: Annual Improvements to IFRSs 2018–2020¹

1 Effective for annual periods beginning on or after 1 January 2022.

2 Effective for annual periods beginning on or after 1 January 2023.

3 Effective for annual periods beginning on or after a date to be determined.

Further information about those changes that are expected to affect the Group:

IFRS 17 Insurance Contracts and the related amendments

IFRS 17 is issued to resolve the comparability issues created by IFRS 4 *Insurance Contracts* by setting out a single principle-based standard for the recognition, measurement, presentation and disclosure of insurance contracts in the financial statements of the issuers of those contracts.

The IASB issued the amendments to IFRS 17 in 2020 to provide response to the stakeholders and are designed to:

- reduce costs by simplifying certain requirements in the IFRS 17;
- make financial performance easier to explain; and
- ease transition by deferring the effective date of IFRS 17 to 2023 and by providing additional relief to reduce the effort required when applying IFRS 17 for the first time.

The Group is currently assessing the impact of the standard and its amendments on the Group's financial position and financial performance.

Other new and revised IFRSs that have been issued but are not yet effective are expected to have no material impact on the financial position and financial performance of the Group.

Basic and diluted earnings per share were calculated using the profit for the year attributable to ordinary shareholders of the parent company divided by the weighted average number of ordinary shares in issue.

7.4.11 Derivative Financial Instruments

A derivative is a financial instrument, the value of which changes in response to the changes in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other similar variables. The Group uses derivative financial instruments including forwards, swaps, options and futures.

The notional amount of a derivative represents the underlying amount of the specific financial instruments mentioned above. It indicates the volume of business transacted by the Group but does not reflect the risk.

The notional amounts and fair values of derivative financial instruments held by the Group are set out below:

	31 December 2021			31 December 2020		
	Notional amounts	Fair values		Notional amounts	Fair values	
		Assets	Liabilities		Assets	Liabilities

(1) Cash flow hedges

The Group's cash flow hedges consist of interest rate swap contracts, currency swap contracts, equity and other derivatives that are used to protect against exposures to variability of future cash flows.

Included in the above derivative financial instruments, those designated as hedging instruments in cash flow hedges are set out below:

	31 December 2021

There was no ineffectiveness recognised in profit or loss that arises from the cash flow hedges in 2021 (2020: Nil).

(2) Fair value hedges

Fair value hedges are used by the Group to protect against changes in fair value of financial assets and financial liabilities due to movements in market interest rates. The Group mainly used interest rate swaps as hedging instruments to hedge the interest risk of financial assets and financial liabilities.

The changes in fair value of the hedging instruments and net gains or losses arising from the hedged risk relating to the hedged items are set out below:

	2021	2020
Gain/(loss) arising from fair value hedges, net:		
Hedging instruments	2,207	(1,486)

- (i) Debt securities are included in financial investments measured at FVTOCI, financial investments measured at amortised cost and debt securities issued.
- (ii) Other hedged items are included in reverse repurchase agreements, due to banks and other financial institutions, repurchase agreements and certificates of deposit.

(3) Net investment hedges

The Group's consolidated statement of financial position is affected by exchange differences between the functional currency of the Bank and functional currencies of its branches and subsidiaries. The Group hedges such exchange exposures under certain circumstances. Hedging is undertaken by using customer deposits taken in the same currencies as the functional currencies of related branches and subsidiaries which are accounted for as hedges of certain net investments in foreign operations.

As at 31 December 2021, an accumulated net gains from the hedging instrument of RMB1,650 million was recognised in other comprehensive income (31 December 2020: accumulated net gains of RMB889 million). As at 31 December 2021, there was no ineffectiveness in profit or loss that arises from the net investment hedges (31 December 2020: Nil).

(4) Offsetting of financial instruments

In accordance with the principle of offsetting financial instruments, the Group offsets certain derivative financial assets and derivative financial liabilities, and presents the net amounts after offsetting in the financial statements.

	31 December 2021		31 December 2020	
	Gross amounts	Net amounts	Gross amounts	Net amounts

(5) Counterparty credit risk-weighted assets of derivative financial instruments

The credit risk-weighted assets in respect of the above derivatives of the Group as at the end of the reporting period are as follows:

	31 December 2021	31 December 2020
Counterparty credit default risk-weighted assets	126,653	147,747
Including: Non-netting settled credit default risk-weighted assets	120,128	76,703

7.4.14 Commitments and Contingent Liabilities

(a) Capital commitments

At the end of the reporting period, the Group had capital commitments as follows:

	31 December 2021	31 December 2020
Contracted but not provided for	<u>31,307</u>	<u>42,797</u>

(b) Credit commitments

The Group has outstanding commitments to extend credit including approved loans and undrawn credit card limits.

The Group provides letters of credit and financial guarantees to guarantee the performance of customers to third parties.

Bank acceptances comprise undertakings by the Group to pay bills of exchange drawn on customers. The Group expects most acceptances to be settled simultaneously with the reimbursement from the customers.

The contractual amounts of credit commitments by category are set out below. The amounts disclosed in respect of loan commitments and undrawn credit card limits are under the assumption that the amounts will be fully advanced. The amounts for bank acceptances, letters of credit and guarantees represent the maximum potential losses that would be recognised at the end of the reporting period had the counterparties failed to perform as contracted.

	31 December 2021	31 December 2020
Bank acceptances	449,141	343,233
Guarantees issued

(c) Operating leases

At the end of the reporting period, the Group's total future minimum lease receivables in respect of non-cancellable operating leases of assets are as follows:

	31 December 2021	31 December 2020
Within one year	16,451	17,218
Over one year but within two years	15,920	16,043
Over two years but within three years	15,937	18,975
Over three years but within five years	27,840	32,192
Over five years	<u>59,648</u>	<u>73,626</u>
	<u>135,796</u>	<u>158,054</u>

(d) Legal proceedings and arbitrations

The Group is involved in lawsuits and arbitrations during its normal course of operations. As at 31 December 2021, there were a number of legal proceedings and arbitrations outstanding against the Bank and/or its subsidiaries with a total claimed amount of RMB6,165 million (31 December 2020: RMB4,928 million).

In the opinion of management, the Group has made adequate allowance for any probable losses based on the current facts and circumstances, and the ultimate outcome of these lawsuits and arbitrations will not have a significant impact on the financial position or operations of the Group.

(e) Redemption commitments of government bonds and securities underwriting commitments

As an underwriting agent of the MOF, the Bank underwrites certain PRC government bonds and sells the bonds to the general public. The Bank is obliged to redeem these bonds at the discretion of the holders at any time prior to maturity. The redemption price for the bonds is based on the nominal value of the bonds plus any interest accrued up to the redemption date. The MOF will not provide funding for the early redemption of these PRC government bonds on a back-to-back basis but is obliged to repay the principal and the respective interest upon maturity. The redemption obligations, which represent the nominal value of government bonds underwritten and sold by the Group, but not yet matured as at 31 December 2021 were RMB75,553 million (31 December 2020: RMB81,112 million). Management expects that the redemption obligation of these PRC government bonds by the Bank prior to maturity will not be material.

As at 31 December 2021, the Group's outstanding securities underwriting commitments were RMB6,350 million (31 December 2020: Nil).

(f) Designated funds and loans

	31 December 2021	31 December 2020
Designated funds	<u>2,783,961</u>	<u>2,361,366</u>
Designated loans	<u>2,783,778</u>	<u>2,361,289</u>

The designated funds represent the funding that the trustors have instructed the Group to use to make loans to third parties as designated by them. The credit risk remains with the trustors.

The designated loans represent the loans granted to specific borrowers designated by the trustors on their behalf according to the entrust agreements signed by the Group and the trustors. The Group does not bear any risk.

(g) Fiduciary activities

The Group provides custody, trust and asset management services to third parties. Those assets held in a fiduciary capacity are not included in the Group's consolidated statement of financial position.

7.4.15 Segment Information

(a) Operating segments

The Group is organised into different operating segments, namely corporate banking, personal banking and treasury operations, based on internal organisation structure, management requirements and internal reporting system.

Corporate banking

The corporate banking segment covers the provision of financial products and services to corporations, government agencies and financial institutions. The products and services include corporate loans, trade financing, deposit-taking activities, corporate wealth management services, custody activities and various types of corporate intermediary services.

Personal banking

The personal banking segment covers the provision of financial products and services to individual customers. The products and services include personal loans, deposit-taking activities, card business, personal wealth management services and various types of personal intermediary services.

Treasury operations

The treasury operations segment covers the Group's treasury operations which include money market transactions, investment securities, foreign exchange transactions and the holding of derivative positions, for its own accounts or on behalf of customers.

Other

This segment covers the Group's assets, liabilities, income and expenses that are not directly attributable or cannot be allocated to a segment on a reasonable basis.

Management monitors the operating results of the Group's business units separately for the purpose of making decisions about resources allocation and performance assessment. Segment information is prepared in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Group.

Transactions between segments mainly represent the provision of funding to and from individual segments. The internal transfer pricing of these transactions are determined with reference to the market rates and have been reflected in the performance of each segment. Net interest income and expense arising on internal fund transfer are referred to as "internal net interest income or expense". Net interest income and expense relating to third parties are referred to as "external net interest income or expense".

Segment revenues, expenses, results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. The basis for allocation is mainly based on occupation of or contribution to resources. Income taxes are managed on a group basis and are not allocated to operating segments.

Note: According to the implementation scope of the advanced capital management approaches approved by the regulatory authorities, parts covered by the market risk internal model approach of the Bank include currency risk of the Group, general interest rate risk of the parent company and ICBC (Canada) and commodity risk of the parent company. Parts uncovered by the internal model approach are measured by the standardized approach.

The Bank applied the Historical Simulation Method (adopting a confidence interval of 99%, holding period of ten days and historical data of 250 days) to measure the VaR, which is then used for capital measurement under the internal model approach.
