Note: the expected date for renewal of the Proposed Annual Caps becoming effective is upon fulfillment of the conditions precedent to the 2022 Loan Agreement.

The amounts of above Proposed Annual Caps have been determined with reference to the aggregate principal amount outstanding under the facility granted by the Lender and the annual interest payable under the 2022 Loan Agreement.

^{1.} The existing annual caps for the year ended 31 December 2020 was presented based on the interest rate of 10.5% p.a. Since 12 August 2020, the effective date of the 2020 Supplemental Loan Agreement, the interest rate of the Loan was revised to 5.5% p.a., and the maximum interest amount from 12 August 2020 to 31 December 2020 was US\$214,000 and the annual cap for the period was US\$10,214,000.

^{2.} Rounded down to the nearest thousand.

^{3.} Calculated up to 21 April 2022.

Pursuant to the 2022 Loan Agreement, it is agreed that the interest on the aggregate principal amount outstanding payable by the Borrower under the Loan from time to time at five point five per cent (5.5%) of the Loan per annum and such interest shall be paid to the Lender on the last Banking Day of each interest period.

IV. REASONS FOR AND BENEFITS OF THE EXTENSION OF THE LOAN AGREEMENT

In consideration of the good financial position and the existing cash surplus of the Group, the Company would like to seize the opportunity to obtain greater returns for the Shareholders. The Loan will continue to provide stable interest income to the Group. The interest rate of the Loan is more favourable than that offered by banks in Hong Kong for 6-month fixed deposit. As the Company has currently not identified other better investment opportunities, the provision of the Loan would continue to provide interest income to the Company and is considered to be a good investment opportunity for the Company.

Assessment of credit risks in association with the 2022 Loan Agreement

The major risk associated with the Loan is the potential default of payment of the Borrower. Therefore, before entering into the 2022 Loan Agreement, the Directors had also considered and evaluated the following factors:-

- (1) the net assets value of the Borrower's group covers the maximum amount of the Loan.
- (2) the Borrower and/or its holding company will have adequate source of income for the repayment of the Loan.
- (3) according to the management accounts of the Guarantor for the financial year ended 31 December 2021, the Guarantor had unaudited net asset value, net current asset and cash and cash equivalents of approximately US\$67.2 million, US\$23.7 million and US\$3.2 million as at 31 December 2021 respectively. As such, the Directors are of the view that the financial performance of the Guarantor should be sufficient to cover potential default risk of the Borrower.
- (4) the Guarantor is the sole shareholder of the Borrower (and Chargor). The Borrower (and Chargor) in turn holds 87.12% of the equity interests in AAIL, and AAIL is the sole shareholder of Agria Singapore.
- (5) the Borrower as the chargor will charge 20% of its issued shares in AAIL to the Lender. As informed by the Borrower, AAIL is a company with limited liability incorporated in the British Virgin Islands. According to the latest management accounts of AAIL for the nine months period ended 31 March 2022, AAIL had net assets of approximately US\$172.5 million as at 31 March 2022. Accordingly, the net assets of the charged shares (i.e. 20% of the issued shares of AAIL) represent

approximately US\$34.5 million, which covers the amount of the Loan and the interest.

Upon careful consideration of the above factors, the Directors are satisfied that the Share Charge would provide sufficient security for the Loan. Further, the Directors have considered the interest payment history by the Borrower. Since the entering into of the 2016 Loan Agreement, the Borrower had made punctual interest payments in accordance with the terms and conditions of the Loan.

In light of above, the Directors are of the view that, by entering into the 2022 Loan Agreement, the financial resources of the Group could be used efficiently and to generate reasonable interest return in the absence of better investment opportunities. After taking into account the factors as disclosed above in assessing the risks of the Loan, the Company considers that the risks involved in advancing the Loan to the Borrower are relatively low. The terms of the 2022 Loan Agreement and the Proposed Annual Caps, were agreed by the parties to the transaction after arm's length negotiation having taken into account the prevailing market interest rates and practices. As such, the Directors (excluding the independent non-executive Directors who will express their views after receiving advice from the independent financial advisor) consider that the 2022 Loan Agreement and Proposed Annual Caps are entered into on normal commercial terms, and the terms of the 2022 Loan Agreement and the Proposed Annual Caps are fair and reasonable and are in the interests of the Company and the Shareholders as a whole.

Internal Control Measures for the Loan

To safeguard the interest of the Group, the Company will adopt the following review process and assessment criteria when providing the Loan to the Borrower under the 2022 Loan Agreement:

- (1) The designated staff of the accounting department of the Company will closely monitor the outstanding loan balances and report the latest status to the financial controller of the Company on a monthly basis to ensure that it does not exceed the stipulated Proposed Annual Caps;
- (2) The financial controller of the Company will report to the senior management on a monthly basis and the Directors (including the independent non-executive Directors) on half-yearly basis in relation to the transaction status.
