COMPANY PROFILE

Huazhong In-Vehicle Holdings Company Limited (the “**Company**” or “**Huazhong Holdings**”) and its subsidiaries (together the “**Group**”) are one of the principal suppliers of automobile body parts in China.

Vertical integration of business operation enables the Group to offer one-stop total solutions to customers, from the design and manufacture of moulds and tooling for mass production of specific products to the development and manufacture of new products which meet customers’ functional requirements and specifications.

With an extensive product range, strong product development and production capabilities and refined manufacturing and tooling techniques, the Group has maintained long-term business relationships with both multinational automakers and well-established automakers and suppliers for automakers in China.

The Group’s network of production bases at strategic locations also contributes to such stable customer relationships. Headquartered in Ningbo, the Group has factories operating in different regions in China to cover major automakers in China.

On behalf of the board (the “**Board**”) of directors (the “**Directors**”) of the Company and all of our staff, I hereby present to the shareholders of the Company (the “**Shareholders**”) the annual results of the Group for the year ended 31 December 2021 (the “**Year**”).

Given the complex global economic conditions, 2021 has been a challenging year for the Group. The Group's total revenue decreased to approximately RMB1.9 billion from approximately RMB2 billion. Gross profit decreased by approximately 17% year-on-year to approximately RMB426.90 million (2020: approximately RMB485.06 million). Profit attributable to the owners of the parent decreased by approximately 52.91% year-on-year to approximately RMB50.67 million (2020: approximately RMB107.57 million).

The Group adhered to the strategy of striving for progress while maintaining stability, expedited the transformation and upgrading of industrial structure, and overcame obstacles through effective measures. With the unremitting efforts of all the staff and the new production plants which were completed and put into operation by the Group, productivity was effectively enhanced. In addition to various measures to increase market share and uplift profitability, the Group vigorously implemented stringent costs control, fortified the overall business competitiveness, strengthened research and development capabilities and kept track of the latest trend on the information technology market. At the same time, active actions were also taken to identify favorable acquisition opportunities, so as to

increase market share, enhance business expansion capabilities and diversify revenue streams.

In addition, on 30 November 2021, the Group has been included in the MSCI China Small Cap Index, representing the capital market's recognition of the Group's value and performance. As always, the Group will maintain robust financial position to provide flexibility for future development opportunities, business sustainability and profitability and seize the industrial development opportunities ahead, so as to deliver better and sustainable returns for the Shareholders.

Finally, on behalf of the Board, I would like to express my sincere gratitude to our management and staff for their outstanding performance over the year, as their contribution was the key to the Group's success. I would also like to take this opportunity to cordially thank all Shareholders, customers and business partners for their support and assistance.

Zhou Minfeng

Chairman and Chief Executive

MANAGEMENT DISCUSSION AND ANALYSIS

MANAGEMENT DISCUSSION AND ANALYSIS

MARKET REVIEW

During 2021, the automobile industry production and sales level had increased slightly. According to the statistics from China Association of Automobile Manufacturers, over 26.08 million vehicles were manufactured and over 26.27 million vehicles were sold in 2021, representing an increase of approximately 3.4% and approximately 3.8%, respectively, from the previous year. In terms of sales and manufacturing volumes, China has again ranked number one in the world for another year.

As a tier-one supplier with scalable production capacity and strong research and development (the “R&D”) capability, the Group has established long-term business relationships with the leading players in the market. The solid partnership with industry leaders has provided a strong foothold for the Group to capture the growth of the automobile industry.

BUSINESS REVIEW

The Group offers one-stop solutions to its customers, from the design and manufacture of moulds and tooling for mass production of specific products to the development and manufacture of new products which meet its customers’ functional requirements and specifications.

The Group offers a wide range of automobile body parts, including internal and external structural and decorative parts (such as front/rear bumper, front-end carrier, dashboard, ABCD-pillars, air inlet grille and rocker panel), air conditioning unit casings and liquid tanks through our subsidiaries and jointly controlled entities. We also manufacture fabric used for ABCD-pillar and headliner for automobile through one of our jointly controlled entities.

The Group also produces moulds and tooling for our manufacturing arm, with the ability to produce moulds and tooling for complex or large-size automobile body parts such as bumper and front-end carrier. Apart from automobile-related products, the Group also manufactures other products such as top cowl cover for engine of motorboat and office chair parts.

During the Year, the Group faced with continuously increasing production costs. As such, the Group rigorously enforced the implementation of cost controls, improved staff quality and strengthened administrative efficiency internally. Externally, the Group strived to fortify the long-term cooperation with customers, develop new market opportunities, maintain sound business operation capability, consolidate the Group’s resources and improve market competitiveness. These actions successfully helped the Group in achieving the annual targets, and laid the foundation for its sustainable operation in the future.

For the Year, the Group’s revenue was approximately RMB1.9 billion, representing a decrease of approximately 5.5% as compared to approximately RMB2.0 billion in 2020. Profit attributable to the owners of the parent for the Year was approximately RMB50.7 million, representing a decrease of approximately 52.9% as compared to approximately RMB107.6 million in 2020.

OPERATIONS ANALYSIS

The Board believes that the Group's achievements are attributable to the following aspects:

- The Group provides one-stop product development and manufacturing solutions to customers. This vertically integrated service has enabled the Group to improve production efficiency, shorten the roll-out time for new products, stringently control production cost and quality throughout the whole production process and strengthen its business relationships with customers.
- The Group has strong R&D capacity to develop new products with customers simultaneously. This enables the Group to establish close relationships with its major customers and deepen its understanding of the customers' needs.
- The Group established production bases that are located close to the production bases of most of the key automakers in China. The geographic proximity advantage enables the Group to provide services to its customers in a timely manner, strengthen its relationships with these customers and reduce transportation costs, and thereby further enhancing its competitiveness.
- The Group maintains long-term business relationships with both domestic and multinational automakers, while rigorously engaging new customers.
- The Group is equipped with strong production capabilities and refined manufacturing technology. The Group has adopted the most advanced technologies and production equipment in this industry.
- The Group has an experienced management team with deep knowledge and understanding of the automobile body parts industry.

- The Group monitors its product quality in a stringent manner. It implements sophisticated quality monitoring procedures to select and examine raw materials, semi-finished and finished products to ensure a high standard of quality.

FINANCIAL REVIEW

Revenue

The revenue of the Group was primarily derived from five categories of products:

- (i) automotive interior and exterior structural and decorative parts;
- (ii) moulds and tooling;
- (iii) casings and liquid tanks of air conditioners and heaters;
- (iv) non-automobile products; and
- (v) sale of raw materials.

MANAGEMENT DISCUSSION AND ANALYSIS

	2021		2020

For the Year, revenue from non-automobile products was approximately RMB50,699,000 (2020: approximately RMB37,129,000), accounting for approximately 2.7% of the Group's total revenue for the Year (2020: approximately 1.9%). Gross profit margin increased slightly from approximately 37.5% in 2020 to approximately 47.3% in the Year.

For the Year, revenue from sale of raw materials was approximately RMB39,402,000 (2020: approximately RMB15,919,000), accounting for approximately 2.1% of the Group's total revenue for the Year (2020: approximately 0.8%). Gross profit margin decreased to approximately 5.7% (2020: approximately 7.3%) during the Year.

Other Income and Gains

Other income and gains of the Group for the Year amounted to approximately RMB90,468,000 (2020: approximately RMB40,933,000), representing an increase of approximately 121.0% from last year. The increase was mainly attributable to the compensation of demolition amounting to RMB57,695,000 of a factory during the year,

Selling and Distribution Expenses

The Group's selling and distribution expenses for the Year amounted to approximately RMB125,417,000 (2020: approximately RMB137,251,000). The proportion of selling and distribution expenses in sales revenue for the Year was approximately 6.6% (2020: approximately 6.8%).

Administrative Expenses

The Group's administrative expenses for the Year amounted to approximately RMB267,213,000, representing an increase of approximately 8.4% as compared to approximately RMB246,459,000 in 2020.

Share of Profits of Joint Ventures

During the Year, the Group recorded approximately RMB30,228,000 of the share of profits of joint ventures as compared to the share of profits of approximately RMB29,590,000 for 2020.

Finance Income

The Group's finance income increased by approximately 83.3% from approximately RMB5,091,000 in 2020 to approximately RMB9,332,000 in the Year.

Finance Costs

The Group's finance costs decrease from approximately RMB37,728,000 in 2020 to approximately RMB36,090,000 in the Year, representing a decrease of approximately 4.3%, which was attributable to a decrease of borrowing cost during the Year.

Taxes

The Group's tax expenses increased by approximately 17.0% from approximately RMB24,034,000 in 2020 to approximately RMB28,117,000 in the Year.

Liquidity and Financial Resources

For the Year, the net cash generated from operating activities was approximately RMB148,635,000 (2020: approximately RMB217,462,000). The cash generated from operating activities was mainly from the profits during the Year.

The net cash used in investing activities was approximately RMB113,589,000 (2020: approximately RMB146,150,000). The net cash used in financing activities was approximately RMB67,799,000 (2020: net cash used approximately RMB165,133,000). The net cash used in investing activities was mainly for the purchase of property, plant and equipment. The net cash used in financing activities was mainly used for interest and dividends payment.

As a result of the above-mentioned comprehensive factors, the net cash outflow of the Group was approximately RMB32,753,000 (2020: net cash outflow of approximately RMB93,821,000).

As at 31 December 2021, the cash and cash equivalents of the Group (including cash and bank deposits) was approximately RMB61,676,000 (31 December 2020: approximately RMB94,429,000).

As at 31 December 2021, the interest-bearing bank borrowings of the Group were approximately RMB713,373,000 (31 December 2020: approximately RMB716,855,000). All the interest-bearing bank borrowings were borrowed in RMB, and approximately RMB549,273,000 were due within one year. All the bank borrowings were borrowed at fixed interest rate.

The Board expects that the bank loans would either be settled by fund from internal resources or rolled over as it was due. All principal banks will continue to provide fund to the Group for its business operation.

Capital Commitments

As at 31 December 2021, the Group had capital commitments amounting to approximately RMB122,960,000 (31 December 2020: approximately RMB137,364,000) mainly including commitment for purchasing property, plant, and equipment.

Foreign Exchange Exposure

The sales and purchases of the Group were mainly denominated in RMB. The cash and cash equivalents of the Group were mainly denominated in RMB and Hong Kong dollars. The borrowings are denominated in RMB. Since the Group's exposure to fluctuations in foreign exchange rates was minimal, the Group has not implemented any foreign currency hedging policy at the moment. However, the management will closely monitor the foreign exchange exposure of the Group and will consider hedging the foreign exchange exposure if it becomes significant to the Group.

Capital Structure

The total number of issued and fully paid ordinary shares of the Company as at 31 December 2021 was 1,769,193,800.

Contingent Liabilities

As at 31 December 2021, the Group had no significant contingent liabilities (31 December 2020: Nil).

Pledge of Assets

As at 31 December 2021, the Group's assets of approximately RMB168,080,000 (2020: RMB164,560,000) were pledged to secure some of the Group's interest-bearing bank borrowings. The book value of the pledged assets is set out below:

	2021 RMB'000	2020 RMB'000
Property, plant and equipment	25,556	18,694
Investment properties	785	929
Right-of-use assets — prepaid land lease payments	32,739	35,937
Pledged deposits	109,000	109,000
Total	168,080	164,560

As at 31 December 2021, deposits with book value of approximately RMB46,306,000 (2020: approximately RMB64,220,000) were used as security to provide guarantee for the issue of notes payable.

Gearing Ratio

As at 31 December 2021, the Group's gearing ratio was approximately 62.0%, which was decreased slightly as compared with the gearing ratio of approximately 62.3% as at 31 December 2020. The gearing ratio is derived by dividing net liabilities (including interest-bearing bank borrowings, trade and notes payables, other payables and accruals, and payables to related parties and the ultimate controlling shareholder less cash and cash equivalents) by total capital (including equity attributable to owners of the parent company) plus net liabilities at the end of the respective years.

Significant Investments Held, Material Acquisitions and Disposals of Subsidiaries, Associates and Joint Ventures and Future Plans for Material Investments or Capital Assets

During the Year, the Group did not have any significant investments or acquisition or disposal of subsidiaries, associates and joint ventures. There was no plan authorised by the Board for any material investments or additions of capital assets as at the date of this announcement.

Employees and Remuneration Policies

The Group had a total of 3,127 (2020: 2,922) employees as at 31 December 2021. Total staff costs of the Group (excluding the Directors' and chief executive's remuneration) for the Year was approximately RMB261,286,000 (2020: approximately RMB230,188,000). The increase in staff cost was mainly attributable to the increase in average number of employees. The Group's remuneration policies were in line with relevant legislation, market conditions and the performance of our employees. Share options would be granted to certain eligible persons with outstanding performance and contributions to the Group.

Events after the Year

On March 3, 2022, the Group entered into the Equity Purchase Agreement to purchase the 15% equity interest of Ningbo Hualete, one of the joint ventures of the Company (“**Transaction**”). The consideration for the Transaction is EUR4,500,000 (equivalent to approximately RMB31,900,000). Upon the completion of the Transaction, Ningbo Hualete will become an indirect non-wholly-owned subsidiary of the Company and the financial results of Ningbo Hualete will be consolidated into the consolidated financial statements of the Group.

PROSPECTS

In 2021, although adverse factors including the shortage of chips and the sustained high price of raw materials have affected the automobile market in China, the manufacturing and sales volumes of automobile made a turnaround from the downward trend over the last three consecutive years to a year-on-year increase. According to the statistics from China Association of Automobile Manufacturers (“**CAAM**”), the manufacturing and sales volumes of the domestic automobile market in 2021 amounted to 26.082 million and 26.275 million respectively, representing a year-on-year increase of 3.4% and 3.8%, marking an end to the downward trend that had continued for three consecutive years since 2018. CAAM estimated that in 2022, the automobile market will continue to experience steady and positive development and the manufacturing and sales volumes for the year are expected to outperform that of 2021. Being a leading tier-one supplier of mid-to-high-end automotive parts in China, the Group will continue to benefit from the increasing manufacturing and sales volumes of the domestic automobile market with the implementation of favourable policies.

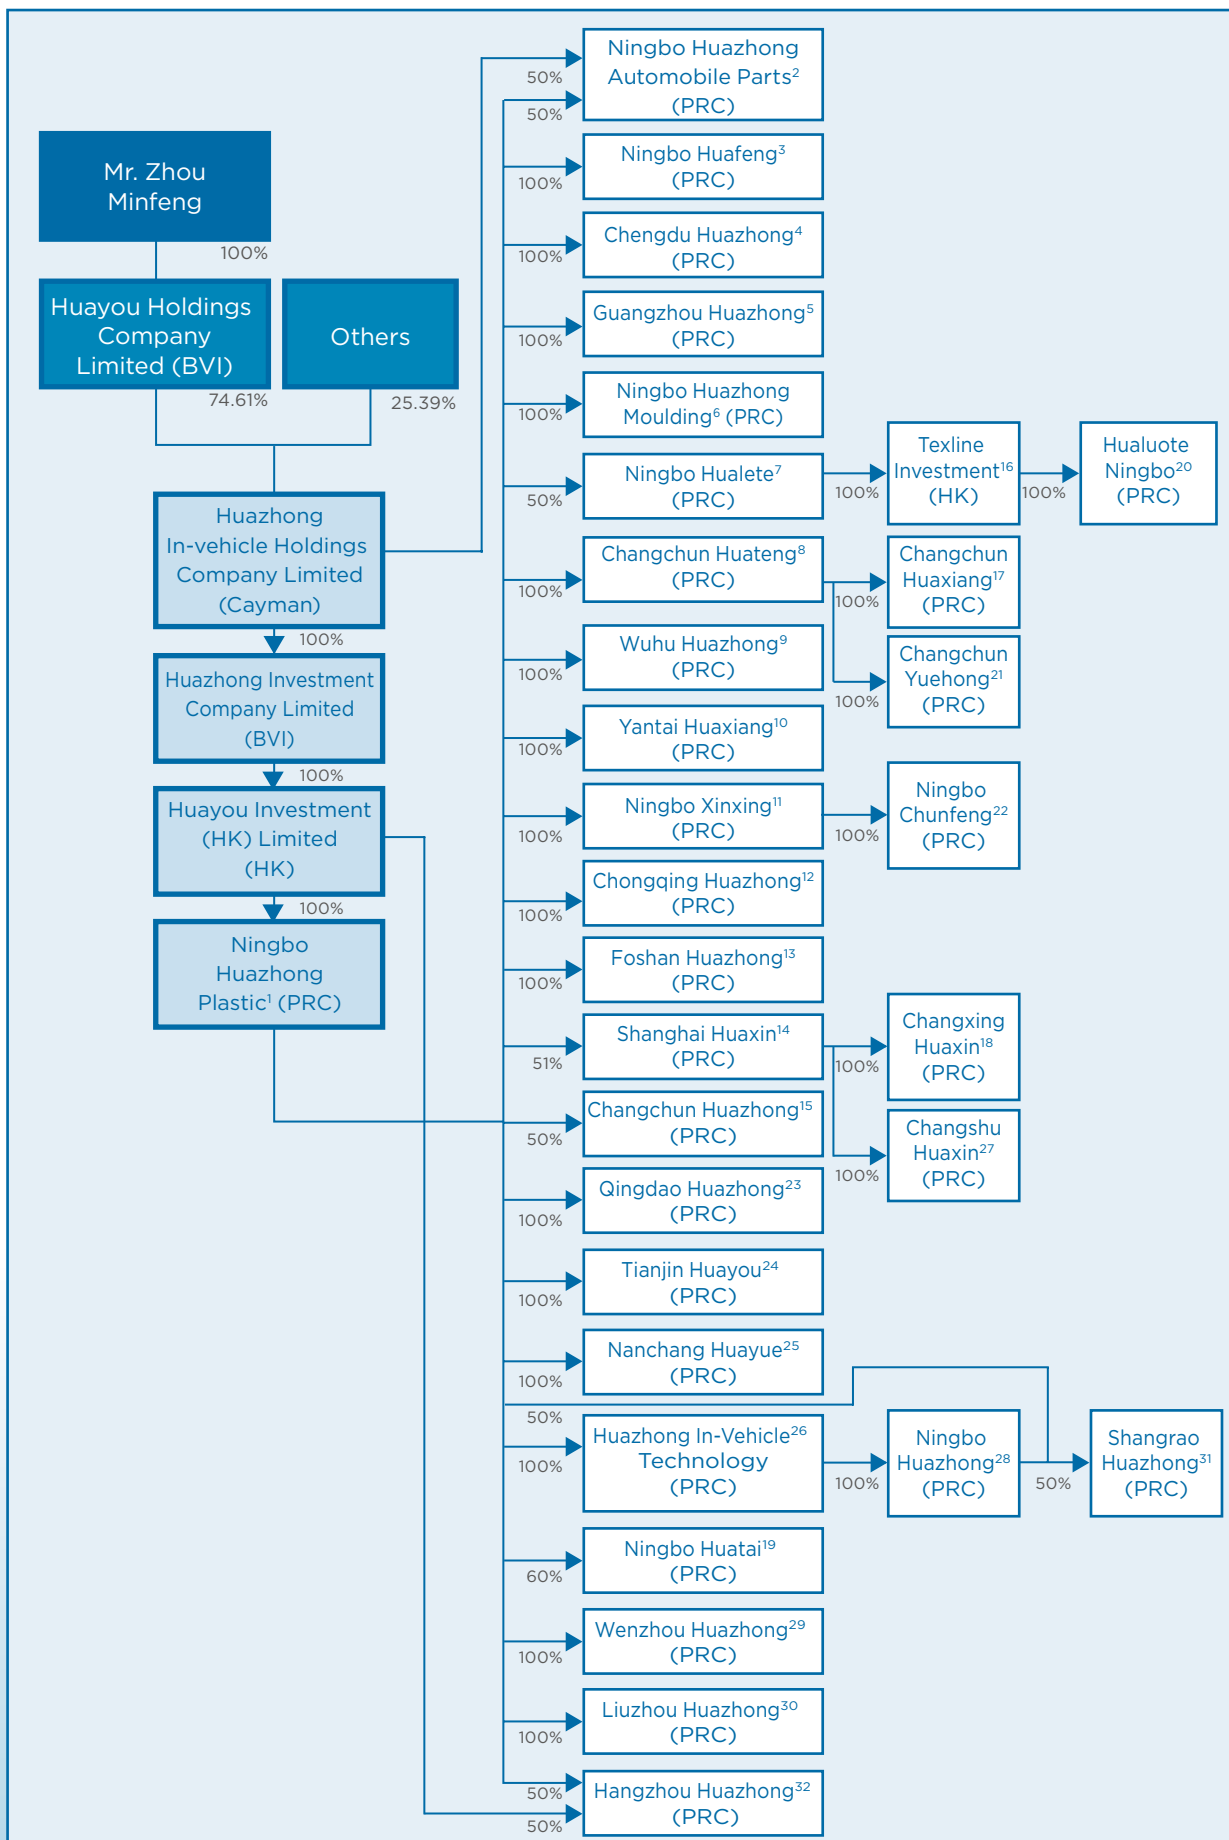

The new energy automotive market has shifted from policy-driven to market-driven. In 2021, the sales volume for the year exceeded 3.50 million and the market share increased to 13.4%. In 2022, China will extend financial subsidies for the purchase of new energy automotive and other policies to bolster consumption in the new energy automotive market. With the growing market demand, the new energy automotive industry in China has entered a new development stage of scale and rapid development, at which upstream and downstream enterprises along the automotive industry chain constantly expand their business reach to strive for a share in the premium track of new energy automotive industry. The Group has successfully entered the supply chains of several electric auto brands and will continue to give full play to its technology strength of “replacing steel with plastics” to meet the greater demand of new energy automotive for lightweight materials, and devote greater efforts to devise the development direction of new energy automotive, to cater for the megatrend of developing more new energy automotive models for traditional automotive customers. Meanwhile, the Group will adhere to the strategy of targeting mid to high-end passenger vehicle brand customers to maintain the gross profit margin of the Group at a higher level.

The functions and duties conferred on the Board include convening Shareholders' meetings, reporting on the work of the Board to the Shareholders at Shareholders' meetings as may be required by applicable laws, implementing resolutions passed at Shareholders' meetings, determining the Company's business plans and investment plans, formulating the Company's annual budget and final accounts, formulating the Company's proposals for dividend and bonus distributions as well as exercising other powers, functions and duties as conferred on it by the articles of association of the Company (the "**Articles**") and applicable laws. The senior management is delegated the authority and responsibilities by the Board for the day-to-day management and operations of the Group. The Board meets regularly to review the financial and operating performance of the Company, and considers and approves the overall strategies and policies of the Company. The composition of the Board is well balanced with the Directors having sound industry knowledge, extensive corporate and strategic planning experience and/or expertise relevant to the business of the Group. The non-executive Directors and independent non-executive Directors bring a variety of experience and expertise to the Company.

All Directors have separate and independent access to the Company's senior management to fulfill their duties and, upon reasonable request, to seek independent professional advice in appropriate circumstances at the Company's expense. All Directors also have access to the company secretary of the Company (the "**Company Secretary**") who is responsible for ensuring that the Board procedures and all applicable rules and regulations are followed. An agenda and accompanying Board committee papers are distributed to the Directors/Board committee members with reasonable notice in advance of the meetings. Minutes of Board meetings and meetings of Board committees, which record in sufficient detail the matters considered by the Board and decisions reached, including any concerns raised by the Directors or dissenting views expressed, are kept by the Company Secretary and are open for inspection by the Directors.

Among the members of the Board, Mr. Zhou Minfeng, an executive Director, is the son of Ms. Lai Cairong, a non-executive Director. Save as disclosed herein, there is no other relationship among the Board members.

Directors' Training

According to the code provision C.1.4 of the CG Code, all Directors should participate in a programme of continuous professional development to develop and refresh their knowledge and skills to ensure that their contribution to the board remains informed and relevant. The Company should be responsible for arranging and funding training, placing an appropriate emphasis on the roles, functions and duties of the Directors. During the Year, the Company has received from each of the Directors confirmation of taking continuous professional training.

A summary concerning the participation of the Directors in continuous professional development during the Year according to the records provided by the Directors is as follows:

* Mr. Chang Jingzhou retired as an executive Director due to other business commitments with effect from the conclusion of the annual general meeting of the Company held on 2 June 2021.

** Mr. Tian Yushi has resigned as an independent non-executive Director due to other business commitments with effect from 1 April 2022.

*** Ms. Mu Wen has been appointed as an independent non-executive Director with effect from 1 April 2022.

CHAIRMAN AND CHIEF EXECUTIVE

Code provision C.2.1 of the CG Code stipulates that the role of chairman and chief executive should be separate and should not be performed by the same individual. With the support of the Company Secretary, the chairman of the Board (the “**Chairman**”) seeks to ensure that all Directors are properly briefed on issues arising at Board meetings and received adequate and reliable information on a timely basis.

Since Mr. Zhou Minfeng now serves as both the Chairman and the chief executive the Company (the “**Chief Executive**”), such practice deviates from code provision C.2.1 of the CG Code. The Board believes that vesting the roles of both the Chairman and the Chief Executive in the same person can facilitate the effective execution of the Group’s business strategies and operation. Furthermore, there are various experienced individuals in charge of the daily business operation and the Board comprises two executive Directors, four non-executive Directors and four independent non-executive Directors, with a balance of skill and experience appropriate for the Group’s further development. The Board will review such deviation from time to time to enhance the best interest of the Group as a whole.

Appointment and Re-election of Directors

Each non-executive Director, whether independent or not, is appointed for a specific term and is subject to retirement by rotation at least once every three years.

All of them subject to the termination by not less than three months' notice in writing served by the respective non-executive Directors and independent non-executive Directors on the Company, and by immediate notice in writing served by the Company on the respective non-executive Directors and independent non-executive Directors.

According to articles 84(1) and 84(2) of the Articles, at each annual general meeting, one-third of the Directors for the time being (or, if their number is not a multiple of three (3), the number nearest to but not less than one-third) shall retire from office by rotation provided that every Director shall be subject to retirement at least once every three years. Therefore, Mr. Wu Bichao, Mr. Wang Yuming, Mr. Guan Xin and Mr. Yu Zhuoping will retire at the forthcoming annual general meeting of the Company and, being eligible, offer themselves for re-election.

According to article 83(3) of the Articles, any Director appointed by the Board to fill a causal vacancy shall hold office until the first general meeting of Shareholders after his/her appointment and be subject to re-election at such meeting and any Director appointed by the Board as an addition to the existing Board shall hold office only until the next following annual general meeting of the Company and shall then be eligible for re-election. Therefore, Ms. Mu Wen will hold office only until the forthcoming annual general meeting of the Company and, being eligible, offers herself for re-election.

No Director proposed for re-election at the forthcoming annual general meeting has a service contract which is not determinable by the Company or any of its subsidiaries within one year without payment of compensation, other than statutory compensation.

Independent Non-Executive Directors

Independent non-executive Directors have played a significant role in the Board by bringing their independent judgment at the Board meetings and scrutinizing the Group's performance. Their views carry significant weight in the Board's decisions; in particular, they bring an impartial view to bear on issues arising from the Group's strategy, performance and control. All independent non-executive Directors possess extensive academic, professional and industry expertise and management experience and have provided professional advice to the Board. The independent non-executive Directors provide independent advice on the Group's business strategy, results and management so that all interests of all the Shareholders can be taken into account, and the interests of the Company and its Shareholders can be protected.

In compliance with Rules 3.10(1) and 3.10A of the Listing Rules, the Company has appointed four independent non-executive Directors representing one-third of the Board.

Among the four independent non-executive Directors, Mr. Yu Shuli has appropriate professional accounting qualifications and financial management expertise in compliance with the requirements set out in Rule 3.10(2) of the Listing Rules.

The Company has received annual confirmations of independence from each of the existing independent non-executive Directors in accordance with Rule 3.13 of the Listing Rules. Based on the contents of such confirmations, the Company considers that all the independent non-executive Directors are independent and that they have met the specific independence guidelines as set out in Rule 3.13 of the Listing Rules.

COMPANY SECRETARY

The Company has engaged Ms. Ho Wing Yan (“**Ms. Ho**”) as the Company Secretary. Mr. Zhou Minfeng, the chairman of the Board and an executive Director, is the primary corporate contact person of the Company with Ms. Ho.

Ms. Ho is responsible for facilitating the Board process, as well as communications among Board members, with the Shareholders and management. Ms. Ho has complied with the requirements to undertake over 15 hours of professional training under Rule 3.29 of the Listing Rules for the Year.

BOARD COMMITTEES

As an integral part of sound corporate governance practices, the Board has established the following Board committees to oversee the particular aspects of the Group’s affairs:

Audit Committee

The Company has established an audit committee (the “**Audit Committee**”) pursuant to a resolution of the Directors passed on 7 December 2011 in compliance with Rules 3.21 and 3.22 of the Listing Rules. The primary duties of the Audit Committee are to make recommendations to the Board on the appointment and removal of external auditors, review the financial statements and give material advice in respect of financial reporting, and oversee the risk management and internal control systems of the Company. During the Year, the Audit Committee consisted of three members, namely Mr. Yu Shuli, Mr. Tian Yushi and Mr. Xu Jiali, all of whom are independent non-executive Directors. Mr. Yu Shuli, who has appropriate professional qualifications and experience in accounting matters, has been appointed as the chairman of the Audit Committee.

The Audit Committee mainly performed the following duties during the Year:

- reviewed the Group’s audited annual results for the year ended 31 December 2020 and the unaudited interim results for the six months ended 30 June 2021, met with the external auditor to discuss such annual results and interim results (without the Company’s management being present), and was of the opinion that the preparation of the relevant financial statements complied with the applicable accounting standards and requirements and that adequate disclosure had been made; and
- assisted the Board in meeting its responsibilities for maintaining effective systems of risk management and internal control and the Company’s internal audit function.

During the Year, two meetings were held by the Audit Committee. The individual attendance record of each member at the meetings of the Audit Committee is set out below:

Names of members	Attendance/Number of Meetings
Mr. Yu Shuli (<i>Chairman</i>)	2/2
Mr. Tian Yushi*	2/2
Mr. Xu Jiali	2/2
Ms. Mu Wen**	N/A

* Mr. Tian Yushi has resigned as an independent non-executive Director and a member of the Audit Committee due to other business commitments with effect from 1 April 2022.

** Ms. Mu Wen has been appointed as an independent non-executive Director and a member of the Audit Committee with effect from 1 April 2022.

Remuneration Committee

The Company established a remuneration committee (the “**Remuneration Committee**”) on 7 December 2011 with written terms of reference. The primary duties of the Remuneration Committee are to determine the specific remuneration packages of all executive Directors and senior management of the Group, including benefits in kind, pension rights and compensation payments (including any compensation payable for loss or termination of their office or appointment), and make recommendations to the Board on the remuneration of non-executive Directors. During the Year, the Remuneration Committee consisted of three members, namely, Mr. Yu Shuli, an independent non-executive Director who is the chairman of the Remuneration Committee, Mr. Zhou Minfeng, an executive Director and Mr. Tian Yushi, an independent non-executive Director.

The Board expects the Remuneration Committee to exercise independent judgment and ensure that executive Directors do not participate in the determination of their own remunerations.

The Remuneration Committee reviewed and made recommendations to the Board on the Company’s policy and structure for all Directors’ and senior management’s remunerations (i.e. the Model described in the Code provision E.1.2(c)(ii) is adopted) and on the establishment of a formal and transparent procedure for developing remuneration policy.

During the Year, one meeting was held by the Remuneration Committee. The individual attendance record of each member at the meeting of the Remuneration Committee is set out below:

Names of members	Attendance/Number of Meeting
Mr. Yu Shuli (<i>Chairman</i>)	1/1
Mr. Zhou Minfeng	1/1
Mr. Tian Yushi*	1/1
Ms. Mu Wen**	N/A

* Mr. Tian Yushi has resigned as an independent non-executive Director and a member of the Remuneration Committee due to other business commitments with effect from 1 April 2022.

** Ms. Mu Wen has been appointed as an independent non-executive Director and a member of the Remuneration Committee with effect from 1 April 2022.

The remuneration of Directors is determined with reference to their duties and responsibilities in the Company as well as the prevailing market conditions. Details of emoluments of Directors for the year ended 31 December 2021 are set out in note 10 to the financial statements. The number of senior management of the Group whose remuneration for the year ended 31 December 2021 fell within the following band is as follows:

	Number of senior management
Nil to RMB1,000,000	5

Nomination Committee

The Company established a nomination committee (the “**Nomination Committee**”) on 7 December 2011 with written terms of reference. The primary duties of the Nomination Committee are to review the structure, size and composition of the Board on a regular basis and to recommend to the Board suitable candidates for Directors after consideration of the nominees’ independence and quality in order to ensure fairness and transparency of all nominations. During the Year, the Nomination Committee consisted of three members, namely, Mr. Zhou Minfeng, an executive Director as the chairman of the Nomination Committee, and Mr. Yu Shuli and Mr. Tian Yushi, both independent non-executive Directors.

The Nomination Committee mainly performed the following duties:

- reviewed the annual confirmation of independence submitted by the independent non-executive Directors and assessed their independence;
- reviewed the structure, size and composition of the Board during the year of 2021; and
- made suggestion to the Board on the retirement and re-election of Directors.

BOARD DIVERSITY POLICY

The Nomination Committee adopted the board diversity policy on 30 August 2013. The Company recognises and embraces the benefits of having a diverse Board to enhance the quality of its performance. Selection of candidates will be based on a range of diversity perspectives, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. The ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board.

During the Year, one meeting was held by the Nomination Committee. The individual attendance record of each member at the meeting of the Nomination Committee is set out below:

Names of members	Attendance/Number of Meeting
Mr. Zhou Minfeng (<i>Chairman</i>)	1/1
Mr. Yu Shuli	1/1
Mr. Tian Yushi*	1/1
Ms. Mu Wen**	N/A

* Mr. Tian Yushi has resigned as an independent non-executive Director and a member of the Nomination Committee due to other business commitments with effect from 1 April 2022.

** Ms. Mu Wen has been appointed as an independent non-executive Director and a member of the Nomination Committee with effect from 1 April 2022.

NOMINATION POLICY

The Board has adopted the nomination policy (the “**Nomination Policy**”) on 29 August 2018 which sets out the nomination criteria and procedures for the Company to select candidate(s) for possible inclusion in the Board. The Nomination Policy could assist the Company to achieve board diversity in the Company and enhance the effectiveness of the Board and its corporate governance standard.

When assessing the suitability of a candidate, factors such as the qualifications, skills, integrity and experience will be taken into consideration as a whole. In the case of independent non-executive Directors, they must further satisfy the independence criteria set out within Rule 3.13 of the Listing Rules. Since the selection of candidates should ensure that diversity remains a central feature of the Board, a range of diverse perspectives, including but not limited to gender, age, cultural and educational background, or professional experience would be considered.

The process to identify potential candidates for the Board would be as follows:

- (1) identifying potential candidates, including recommendations from the Board members, professional search firms and the shareholders of the Company;
- (2) evaluating the candidates based on the approved selection criteria through methods such as reviewing the resume and conducting the background checks;
- (3) reviewing the profiles of the shortlisted candidates and interview them; and
- (4) making recommendations to the Board on the selected candidates.

The Nomination Policy also includes the Board succession plan to assess whether vacancies on the Board would be created or expected due to the Directors’ resignation, retirement, death and other circumstances and to identify candidates in advance if necessary. The Nomination Policy will be reviewed on a regular basis.

Corporate Governance Functions

The Company's corporate governance functions are carried out by the Board pursuant to a set of written terms of reference adopted by the Board in compliance with provision A.2.1 of the CG Code, which include (a) to develop and review the Company's policies and practices on corporate governance and make recommendations to the Board; (b) to review and monitor the training and continuous professional development of the Directors and senior management of the Group; (c) to review and monitor the Company's policies and practices in compliance with legal and regulatory requirements; (d) to develop, review and monitor the code of conduct and compliance manual (if any) applicable to employees of the Group and the Directors; and (e) to review the Company's compliance with the CG Code and disclosure in the corporate governance report.

Financial Reporting

The Directors acknowledge their responsibility for the preparation of the financial statements of the Group for each financial period in accordance with the requirements of the laws and regulations and applicable accounting standards to give a true and fair view of the state of affairs of the Group and of the results and cash flows for that period. In preparing the financial statements for the Year, the Directors have selected appropriate accounting policies and applied them consistently, made judgments and estimates that are prudent, fair and reasonable and prepared the financial statements on a going concern basis. The Directors are responsible for taking all reasonable and necessary steps to safeguard the assets of the Group and to prevent and detect fraud and other irregularities.

The statement of the auditor of the Company concerning its responsibilities for the consolidated financial statements of the Group is set out in the Independent Auditor's Report on pages 45 to 48 of this annual report.

AUDITOR'S REMUNERATION

The Company has appointed Ernst & Young as the external auditor of the Company. During the year ended 31 December 2021, the Group was required to pay an aggregate of approximately RMB2.5 million (2020: approximately RMB2.5 million) to the external auditor for their audit services relating to financial information and no non-audit services were provided.

SHAREHOLDERS' RIGHTS

To convene an extraordinary general meeting

Pursuant to article 50 of the Articles, any one or more Shareholders holding at the date of deposit of the requisition not less than one-tenth of the paid up capital of the Company carrying the right of voting at general meetings of the Company shall at all times have the right, by written requisition to the Board or the Company Secretary, to require an extraordinary general meeting to be called by the Board for the transaction of any business specified in such requisition and such meeting shall be held within two months after the deposit of such requisition. If within 21 days of such deposit the Board fails to proceed to convene such meeting the requisitionist(s) himself/herself (themselves) may do so in the same manner, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board shall be reimbursed to the requisitionist(s) by the Company.

Procedures by which enquiries may be put to the Board

Shareholders may send their enquiries and concerns to the Board by addressing them to the Company Secretary by mail at Unit 19, 36th Floor, China Merchants Tower, Shun Tak Centre, Nos. 168-200 Connaught Road Central, Hong Kong. The Company Secretary forward communications relating to matters within the Board's direct responsibilities to the Board and communications relating to ordinary business matters, such as suggestions, inquiries and customer complaints, to the Directors.

Procedures for putting forward proposals at general meeting

The number of Shareholders necessary for a requisition for putting forward a proposal at a Shareholders' meeting shall be any number of Shareholders representing not less than one-tenth of the paid up capital of the Company carrying the right of voting at general meetings at the date of the requisition.

A copy or copies of requisition signed by all requisitionists shall be deposited, with a sum reasonably sufficient to meet the Company's expenses in giving notice of the proposed resolution or circulating any necessary statement, at the Company's headquarters in China and principal place of business in Hong Kong in the case of:

- (i) a requisition requiring notice of a resolution, not less than six weeks before the meeting; and
- (ii) any other requisition, not less than one week before the meeting.

The Company will verify the requisition and upon confirming that the requisition is proper and in order, the Board will proceed with necessary procedures.

Constitutional documents

During the Year, there has been no significant change in the Company's constitutional documents.

Risk Management and Internal Control

During the Year, the Board complied with the code provisions on risk management and internal control as set out in the CG Code. The Board has overall responsibility for evaluating and determining the nature and extent of the risks it is willing to take in achieving the Group's strategic objectives, and maintaining appropriate and effective risk management and internal control systems for the Group. The systems are designed to manage the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

The management of the Company has established a set of comprehensive policies, standards and procedures in areas of operational, financial and risk controls for safeguarding assets against unauthorized use or disposition; for maintaining proper accounting records; and for ensuring the reliability of financial information to achieve a satisfactory level of assurance against the likelihood of the occurrence of fraud and errors.

The Board has overseen the Company's risk management and internal control systems on an ongoing basis. A year end review of the effectiveness of the Company's and its subsidiaries risk management and internal control systems has been conducted annually and the systems are considered to be effective and adequate. Self-assessment and comprehensive risk assessment surveys have been conducted during the review. The Company also has an internal audit function to carry out the analysis and independent appraisal of the adequacy and effectiveness of the systems, and has procedures in place to keep information confidential and manage actual or potential conflicts of interest. Stringent internal structures have been designed to prevent the misuse of inside information and avoid conflicts of interest.

All Directors and those employees who could have access to, and monitor, the information of the Group are responsible for making appropriate measures to prevent abuse or misuse of such information. Employees of the Group are prohibited from using inside information for their own benefit.

The Board is also vested with the responsibility to disseminate to the Shareholders and the public any inside information in the form of announcements and circulars, in accordance with the Listing Rules.

Communication with Shareholders

The Board recognizes the importance of maintaining clear, timely and effective communication with the Shareholders and investors of the Company. The Board also recognizes that effective communication with its investors is critical in establishing investor confidence and to attract new investors. Therefore, the Group is committed to maintaining a high degree of transparency to ensure that the investors of the Company and the Shareholders will receive accurate, clear, comprehensive and timely information of the Group through the publication of annual reports, interim reports, announcements and circulars. The Company also publishes all corporate communications on the Company's website at www.cn-huazhong.com. The Directors and members of various board committees will attend the annual general meeting of the Company to answer questions raised by the Shareholders. The resolution of every important proposal will be proposed at general meetings separately.

Voting at general meetings of the Company are conducted by way of poll in accordance with the Listing Rules. The poll results will be announced at general meetings and published on the websites of the Stock Exchange and the Company, respectively. In addition, the Company regularly meets with institutional investors, financial analysts and financial media to keep them informed of the Group's strategies, operations, management and plans, and promptly releases information related to any significant progress of the Company, so as to promote the development of the Company through mutual and efficient communications.

DIVIDEND POLICY

The Board has adopted the dividend policy (the "**Dividend Policy**") on 29 August 2018 which sets out the appropriate procedure on declaring and recommending the dividend payment of the Company. The Company takes priority to distributing dividends of approximately 10%-15% of the profit for each year in cash and shares its profits with the Shareholders. The dividend distribution decision of the Company is subject to the decision of the Board and will depend on, among others, the financial results, the current and future operations, liquidity and capital requirements, financial condition and other factors as the Board may deem relevant. The Board may also declare special dividends from time to time. The Dividend Policy will be reviewed on a regular basis.

REPORT OF THE DIRECTORS

The Directors have pleasure in presenting their report together with the audited financial statements of the Group for the year ended 31 December 2021.

PRINCIPAL ACTIVITIES

The Company is an investment holding company. The Group is one of the principal suppliers of automobile body parts in China. The Group is principally engaged in manufacture and sale of internal and external decorative and structural automobile parts, moulds and tooling, casing and liquid tank of air conditioning or heater units and other non-automobile products.

BUSINESS REVIEW

The business review of the Group is set out in the sections of Chairman's Statement, Management Discussion and Analysis, Environmental, Social and Governance Report, Financial Summary and paragraphs below.

The Group complies with the requirements under the Companies Ordinance, the Listing Rules and the Securities and Futures Ordinance (the "SFO") for the disclosure of information and corporate governance. The Group also complies with the requirements of Employment Ordinance and ordinances relating to occupational safety for the interest of employees of the Group. No important event affecting the Group has occurred since the end of the financial year under review.

KEY RISK FACTORS

The following lists out the key risks and uncertainties facing the Group.

Reliance on Automobile Industry and Automakers and Automobile body parts Manufacturers as Our Customers

As we rely on automakers and automobile body parts manufacturers as customers or potential customers of our products, our financial performance largely depends on the continued growth of the automobile industry and the continued growth of outsourcing in the automobile industry. The automobile industry has been characterised by shorter time in new car models launch, continuous technological advancement, evolving industry standards and changing customer needs, all of which indicate a trend of shorter product life cycles.

Sales of our products to a particular automaker or automobile body parts manufacturer are influenced by the sales performance of particular car models to which our products relate. In particular, the relevant automaker's ability to anticipate changes in consumer tastes, preferences and requirements, its capability to design and manufacture cars to meet such consumer tastes, preferences and requirements, its sales and marketing capabilities, its sales and after-sales services, and its competitiveness as compared with other competitors in the market, may affect the sales performance of particular car models to which our products relate. Undesirable sales performance of any particular automaker and/or particular car model to which our products relate may adversely affect, our sales of the relevant products.

Overall market demand for cars may also be affected by factors such as global and regional economic and market conditions, personal disposal income and interest rate levels, fuel price, seasonality of sales of automobiles, government policies and measures on emission control and automobile consumption and purchases. These factors, which are beyond our control, may affect the annual production of automobiles by automakers, increase the manufacturing and distribution cost of automobiles, and/or result in downward pressure on the selling prices of automobiles, which, in each case, may in turn result in downward pressure on the selling prices of our products or otherwise adversely affect our sales and profitability.

We also have no or limited control on, among other factors, the expected market responses and demands of any particular car model (which can be affected by the automaker's ability to respond to the changing customer tastes or preference in a timely manner), the popularity of the car brand, the development process and rollout plans of the car model. There is also no assurance that our customers will proceed with the commercial production of any particular new car model with automobile body parts developed by us, or will place purchase orders with us for commercial production thereof. If the sales of any particular products supplied or developed by us cannot achieve the intended result for whatever reason, our sales of such products to our customers may be adversely affected, which may in turn materially and adversely affect our overall financial results.

DEPENDENCE ON A FEW KEY CUSTOMERS

Sales to our five largest customers, in aggregate, accounted for approximately 58.05% (2020: approximately 59.8%) of our total sales during the Year. All of our five largest customers had more than 10 years of business relationship with us. If any of these customers ceases to do business with us, or substantially reduces the volume of its business transactions with us, or delays or cancels any purchase orders for our products, or fails to or otherwise delays in payment for our products for whatever reason, or if we are unable to secure new, substitute customers with comparable sale volume and profit margin, our profitability and financial position can be adversely affected.

IMPACT OF LOCAL AND INTERNATIONAL REGULATIONS

The business operation of the Group is also subject to government policy, relevant regulations and guidelines established by the regulatory authorities. Failure to comply with the rules and requirements may lead to penalties, amendments or suspension of the business operation by the authorities. The Group closely monitors changes in government policies, regulations and markets as well as conducting studies to assess the impact of such changes.

THIRD-PARTY RISKS

The Group has been relying on third-party service providers in parts of business to improve performance and efficiency of the Group. While gaining the benefits from external service providers, the management realizes that such operational dependency may pose a threat of vulnerability to unexpected poor or lapses in service including reputation damage, business disruption and monetary losses. To address such uncertainties, the Group engages only reputed third-party providers and closely monitors their performance.

KEY RELATIONSHIPS WITH EMPLOYEES, CUSTOMERS AND SUPPLIERS

The Group recognizes the accomplishment of the employees by providing comprehensive benefit package, career development opportunities and internal training appropriate to individual needs. The Group provides a healthy and safe workplace for all employees. No strikes and cases of fatality due to workplace accidents are found in the year under review.

The Group encompasses working relationships with suppliers to meet our customers' needs in an effective and efficient manner. The departments work closely to make sure the tendering and procurement process is conducted in an open, fair and just manner. The Group's requirements and standards are also well-communicated to suppliers before the commencement of a project.

Our major suppliers are generally manufacturers for the production of polycarbonate/acrylonitrile butadiene styrene and polypropylene, accessories (such as metal clamps and screws) and fabric, and had business relationship with the Group for over 10 years on average. The credit period from the major suppliers is 30 to 90 days. The payables were usually settled within the credit period. Details of the trade and notes payables of the Group as at 31 December 2021 are set out in note 25 to the financial statements.

During the Year, the Group did not have any significant disputes with our major suppliers.

The Group values the views and opinions of all customers through various means and channels, including usage of business intelligence to understand customer trends and needs and regular analyze on customer feedback. The Group also conducts comprehensive tests and checks to ensure that only quality products and services are offered to the customers.

Our major customers include automakers and automobile body parts manufacturers companies, and had business relationship with the Group for over 11 years in general and the credit terms granted to the major customers ranged from 30 to 90 days. Details of the trade and notes receivables of the Group as at 31 December 2021 are set out in note 22 to the financial statements.

The Group will also continue to review competitive edges of the Group in the industry and market trend.

During the Year, the Group has not experienced any major disruption of business due to material delay or default of payment by our customers due to their financial difficulties. We did not have any material dispute with our customers.

MAJOR CUSTOMERS AND SUPPLIERS

Aggregate sales to the Group's largest and five largest customers accounted for approximately 34.72% (2020: approximately 39.4%) and approximately 58.05% (2020: approximately 59.8%), respectively, of the Group's total revenue from operations.

Aggregate purchases from the Group's largest and five largest suppliers accounted for approximately 8.07% (2020: approximately 3.8%) and approximately 22.31% (2020: approximately 15.3%), respectively, of the Group's total purchases from suppliers.

At no time during the Year, did a Director, his/her close associate(s) or a Shareholder, which to the knowledge of the Director owns more than 5% of the Company's share capital, has an interest in any of the Group's five largest customers and suppliers.

EQUITY-LINKED AGREEMENT

Details of the equity-linked agreement entered into during the Year or subsisting at the end of the Year are set out below:

SHARE OPTION SCHEMES

Pre-IPO Share Option Scheme

The Company adopted a pre-IPO share option scheme (the “**Pre-IPO Share Option Scheme**”) on 15 December 2011 for the purpose of giving certain eligible persons an opportunity to have a personal stake in the Company and motivating them to optimize their future performance and efficiency to the Group and/or rewarding them for their past contributions, and attracting and retaining, or otherwise maintaining ongoing relationships with, such eligible persons who are significant to and/or whose contributions are or will be beneficial to the performance, growth or success of the Group.

There were no outstanding options pursuant to the Pre-IPO Share Option Scheme during the Year and as at the date of this report.

2011 Share Option Scheme

The Company adopted a share option scheme (the “**2011 Share Option Scheme**”) on 15 December 2011 for the purpose of giving certain eligible persons an opportunity to have a personal stake in the Company and motivating them to optimize their future performance and efficiency to the Group and/or rewarding them for their past contributions, and attracting and retaining, or otherwise maintaining on-going relationships with, such eligible persons who are significant to and/or whose contributions are or will be beneficial to the performance, growth or success of the Group.

The maximum number of Shares which may be issued upon exercise of all options to be granted under the 2011 Share Option Scheme and any other schemes of the Group shall not in aggregate exceed 10% of the Shares in issue as at the Listing Date, i.e. 80,000,000 Shares. The maximum number of Shares issued and to be issued upon exercise of the options granted under the 2011 Share Option Scheme to any one person (including exercised and outstanding options) in any 12-month period shall not exceed 1% of the Shares in issue from time to time.

An option may be exercised in accordance with the terms of the 2011 Share Option Scheme at any time during a period as determined by the Board and not exceeding 10 years from the date of the grant. There is no minimum period for which an option must be held before it can be exercised. Participants of the 2011 Share Option Scheme are required to pay the Company HK\$1.0 upon acceptance of the grant on or before 28 days after the date that the Board meeting proposes such grant (the “Offer Date”). The exercise price of the options is determined by the Board in its absolute discretion and shall not be less than whichever is the highest of:

- (a) the nominal value of a Share;
- (b) the closing price of a Share as stated in the Stock Exchange’s daily quotations sheet on the Offer Date; and
- (c) the average closing price of a Share as stated in the Stock Exchange’s daily quotation sheet for the five business days immediately preceding the Offer Date.

The 2011 Share Option Scheme shall be valid and effective for a period of 10 years from the Listing Date, after which no further options will be granted or offered but the provisions of the 2011 Share Option Scheme shall remain in full force and effect to the extent necessary to give effect to the exercise of any subsisting option granted prior to the expiry of the 10-year period or otherwise as may be required in accordance with the provisions of the 2011 Share Option Scheme. The 2011 Share Option Scheme was terminated by the Shareholders at the annual general meeting of the Company held on 2 June 2021 and no further options shall be granted under the 2011 Share Option Scheme upon its termination. There were no outstanding options, and there were no options granted, exercised, lapsed or cancelled pursuant to the Share Option Scheme during the Year and as at the date of this report. As at the date of this annual report, no Shares shall be available for issue under the 2011 Share Option Scheme.

2021 Share Option Scheme

The adoption of a new share option scheme (the “2021 Share Option Scheme”) was approved by the Shareholders at the annual general meeting of the Company held on 2 June 2021. The purpose of the 2021 Share Option Scheme is to enable the Group to grant options to selected participants as incentives or rewards for their contribution to the Group and to encourage participants to work towards enhancing value of the Company and its shares for the benefits of the Company and the Shareholders as a whole. The 2021 Share Option Scheme was adopted for a period of 10 years commencing from 2 June 2021.

The Directors (which expression shall, for the purpose of this Appendix, include a duly authorised committee thereof) may, at its absolute discretion, invite any person belonging to any of the following classes of participants, to take up options to subscribe for Shares:

- (a) any employee (whether full time or part time employee, including any director) of the Company, any subsidiary of the Company;
- (b) any non-executive Directors (including independent non-executive Directors);
- (c) any supplier of goods or services to any member of the Group;
- (d) any customer of any member of the Group;
- (e) any person or entity that provides research, development or other technological support to any member of the Group;
- (f) any shareholder of any member of the Group or any holder of any securities issued by any member of the Group; and
- (g) any adviser (professional or otherwise) or consultant to any area of business or business development of the Group.

The initial total number of Shares which may be allotted and issued upon exercise of all options (excluding, for this purpose, options which have lapsed in accordance with the terms of the 2021 Share Option Scheme and any other share option scheme of the Group) to be granted under the 2021 Share Option Scheme and any other share option scheme of the Group must not in aggregate exceed 10% of the Shares in issue at the day on which the 2021 Share Option Scheme is approved, i.e. 176,919,380 Shares. The total number of Shares issued and which may fall to be allotted and issued upon exercise of the options granted under the 2021 Share Option Scheme and any other share option scheme of the Group (including both exercised or outstanding options) to each eligible participant in any 12-month period shall not exceed 1% of the issued Shares for the time being.

An option may be exercised in accordance with the terms of the 2021 Share Option Scheme at any time during a period to be determined and notified by the Directors to each grantee, which period may commence on the date upon which the offer for the grant of options is made but shall end in any event not later than 10 years from the date of grant of the option subject to the provisions for early termination thereof.

Unless otherwise determined by the Directors and stated in the offer of the grant of options to a grantee, there is no minimum period required under the 2021 Share Option Scheme for the holding of an option before any options granted under the 2021 Share Option Scheme can be exercised. Participants of the 2021 Share Option Scheme are required to pay the Company HK\$1.0 upon acceptance of the grant within 21 days from the date of the offer of grant of the option.

The subscription price for Shares under the 2021 Share Option Scheme will be a price determined by the Directors, but shall not be less than the higher of (i) the closing price of Shares as stated in the Stock Exchange's daily quotations sheet on the date of the offer of grant, which must be a day on which the Stock Exchange is open for the business of dealing in securities; (ii) the average closing price of Shares as stated in the Stock Exchange's daily quotations for the five trading days immediately preceding the date of the offer of grant; and (iii) the nominal value of the Shares.

The remaining life of the 2021 Share Option Scheme is 9 years. There were no outstanding options, and there were no options granted, exercised, lapsed or cancelled pursuant to the 2021 Share Option Scheme during the Year and as at the date of this report. As at the date of this annual report, the total number of securities available for issue under the 2021 Share Option Scheme was 176,919,380, representing 10% of the issued shares of the Company.

ARRANGEMENT FOR DIRECTORS TO PURCHASE SHARES OR DEBENTURES OF THE COMPANY

Independent auditor's report

To the shareholders of Huazhong In-Vehicle Holdings Company Limited

(Incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Huazhong In-Vehicle Holdings Company Limited (the “**Company**”) and its subsidiaries (the “**Group**”) set out on pages 49 to 141, which comprise the consolidated statement of financial position as at 31 December 2021, and the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2021, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (“**IFRSs**”) issued by the International Accounting Standards Board (“**IASB**”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“**HKSAs**”) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the “**Code**”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT

KEY AUDIT MATTERS *(continued)*

Key audit matter	How our audit addressed the key audit matter
<i>Net realisable value of inventories</i>	
<p>As at 31 December 2021, the Group had inventories of approximately RMB322,951,000 at the lower of the cost and net realisable value.</p> <p>We identified the determination of the net realisable value of inventories as a key audit matter because the carrying amount of the inventories is significant and the calculation of inventories' net realisable value requires significant management estimation based on future market demands and estimated selling prices.</p> <p>Related disclosures are included in Note 4 "Significant accounting judgements and estimates" and Note 21 "Inventories" to the financial statements.</p>	<p>We performed the following procedures in relation to the provision assessment for inventories:</p> <ol style="list-style-type: none">1) Obtained an understanding of the Group's inventory provision policy and checked the calculation of the inventory provision based on the Group's policy. We evaluated management's assumptions used to calculate the provision by checking the ageing analysis of inventories, subsequent sales and usage of inventories; and2) Tested slow-moving and obsolete inventory items during stocktaking as at the year end.

OTHER INFORMATION INCLUDED IN THE ANNUAL REPORT

The directors of the Company are responsible for the other information. The other information comprises the information included in the Annual Report, other than the consolidated financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRSs issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS *(continued)*

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

The directors of the Company are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(continued)*

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Shun Lung Wai.

The table above lists the subsidiaries of the Company which, in the opinion of the directors, principally affected the results for the year or formed a substantial portion of the net assets of the Group. To give details of other subsidiaries would, in the opinion of the directors, result in particulars of excessive length.

2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with International Financial Reporting Standards (“**IFRSs**”) issued by the International Accounting Standards Board (“**IASB**”) and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for certain equity investments which have been measured at fair value. The financial statements are presented in Renminbi (“**RMB**”) and all values are rounded to the nearest thousand except when otherwise indicated.

The financial statements have been prepared under the going concern basis notwithstanding that the Group had net current liabilities of RMB178,810,000 as at 31 December 2021. The directors of the Company are of the opinion that based on the available unutilised banking facilities as at 31 December 2021, the Group will have the necessary liquid funds to finance its working capital and to meet its capital expenditure requirements. Accordingly, the directors are of the opinion that it is appropriate to prepare the consolidated financial statements on a going concern basis.

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the “**Group**”) for the year ended 31 December 2021. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group’s voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

2.1 BASIS OF PREPARATION *(continued)*

Basis of consolidation *(continued)*

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained earnings, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the following revised IFRSs for the first time for the current year's financial statements.

Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16	<i>Interest Rate Benchmark Reform – Phase 2</i>
Amendment to IFRS 16	<i>Covid-19-Related Rent Concessions</i>
Amendment to IFRS 16	<i>Covid-19-Related Rent Concessions beyond 30 June 2021 (early adopted)</i>

The nature and the impact of the revised IFRSs are described below:

- (a) Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 address issues not dealt with in the previous amendments which affect financial reporting when an existing interest rate benchmark is replaced with an alternative risk-free rate (“RFR”). The amendments provide a practical expedient to allow the effective interest rate to be updated without adjusting the carrying amount of financial assets and liabilities when accounting for changes in the basis for determining the contractual cash flows of financial assets and liabilities, if the change is a direct consequence of the interest rate benchmark reform and the new basis for determining the contractual cash flows is economically equivalent to the previous basis immediately preceding the change. In addition, the amendments permit changes required by the interest rate benchmark reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued. Any gains or losses that could arise on transition are dealt with through the normal requirements of IFRS 9 to measure and recognise hedge ineffectiveness. The amendments also provide a temporary relief to entities from having to meet the separately identifiable requirement when an RFR is designated as a risk component. The relief allows an entity, upon designation of the hedge, to assume that the separately identifiable requirement is met, provided the entity reasonably expects the RFR risk component to become separately identifiable within the next 24 months. Furthermore, the amendments require an entity to disclose additional information to enable users of financial statements to understand the effect of interest rate benchmark reform on an entity's financial instruments and risk management strategy.

NOTES TO FINANCIAL STATEMENTS

Year ended 31 December 2021

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES *(continued)*

- (b) Amendment to IFRS 16 issued in April 2021 extends the availability of the practical expedient for lessees to elect not to apply lease modification accounting for rent concessions arising as a direct consequence of the covid-19 pandemic by 12 months. Accordingly, the practical expedient applies to rent concessions for which any reduction in lease payments affects only payments originally due on or before 30 June 2022, provided the other conditions for applying the practical expedient are met. The amendment is effective retrospectively for annual periods beginning on or after 1 April 2021 with any cumulative effect of initially applying the amendment recognised as an adjustment to the opening balance of retained profits at the beginning of the current accounting period. Earlier application is permitted.

The Group has early adopted the amendment on 1 January 2021. However, the Group has not received covid-19-related rent concessions and plans to apply the practical expedient when it becomes applicable within the allowed period of application.

2.3 ISSUED BUT NOT YET EFFECTIVE INTERNATIONAL FINANCIAL REPORTING STANDARDS

The Group has not applied the following new and revised IFRSs, that have been issued but are not yet effective, in these financial statements.

Amendments to IFRS 3	<i>Reference to the Conceptual Framework¹</i>
Amendments to IFRS 10 and IAS 28 (2011)	<i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture³</i>
Amendments to IFRS 17	<i>Initial Application of IFRS 17 and IFRS 9 – Comparative Information²</i>
Amendments to IAS 1	<i>Classification of Liabilities as Current or Non-current²</i>
Amendments to IAS 1 and IFRS Practice Statement 2	<i>Disclosure of Accounting Policies²</i>
Amendments to IAS 8	<i>Definition of Accounting Estimates²</i>
Amendments to IAS 12	<i>Deferred Tax related to Assets and Liabilities arising from a Single Transaction²</i>
Amendments to IAS 16	<i>Property, Plant and Equipment: Proceeds before Intended Use¹</i>
Amendments to IAS 37	<i>Onerous Contracts – Cost of Fulfilling a Contract¹</i>
<i>Annual Improvements to IFRSs 2018-2020</i>	Amendments to IFRS 1, IFRS 9, Illustrative Examples accompanying IFRS 16, and IAS 41 ¹

¹ Effective for annual periods beginning on or after 1 January 2022

² Effective for annual periods beginning on or after 1 January 2023

³ No mandatory effective date yet determined but available for adoption

Further information about those IFRSs that are expected to be applicable to the Group is described below.

2.3 ISSUED BUT NOT YET EFFECTIVE INTERNATIONAL FINANCIAL REPORTING STANDARDS *(continued)*

Amendments to IFRS 3 are intended to replace a reference to the previous Framework for the Preparation and Presentation of Financial Statements with a reference to the Conceptual Framework for Financial Reporting issued in June 2018 without significantly changing its requirements. The amendments also add to IFRS 3 an exception to its recognition principle for an entity to refer to the Conceptual Framework to determine what constitutes an asset or a liability. The exception specifies that, for liabilities and contingent liabilities that would be within the scope of IAS 37 or IFRIC-Int 21 if they were incurred separately rather than assumed in a business combination, an entity applying IFRS 3 should refer to IAS 37 or IFRIC-Int 21 respectively instead of the Conceptual Framework. Furthermore, the amendments clarify that contingent assets do not qualify for recognition at the acquisition date. The Group expects to adopt the amendments prospectively from 1 January 2022. Since the amendments apply prospectively to business combinations for which the acquisition date is on or after the date of first application, the Group will not be affected by these amendments on the date of transition.

Amendments to IFRS 10 and IAS 28 (2011) address an inconsistency between the requirements in IFRS 10 and in IAS 28 (2011) in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require a full recognition of a gain or loss resulting from a downstream transaction when the sale or contribution of assets between an investor and its associate or joint venture constitutes a business. For a transaction involving assets that do not constitute a business, a gain or loss resulting from the transaction is recognised in the investor's profit or loss only to the extent of the unrelated investor's interest in that associate or joint venture. The amendments are to be applied prospectively. The previous mandatory effective date of amendments to IFRS 10 and IAS 28 (2011) was removed in January 2016 and a new mandatory effective date will be determined after the completion of a broader review of accounting for associates and joint ventures. However, the amendments are available for adoption now.

Amendments to IAS 1 Classification of Liabilities as Current or Non-current clarify the requirements for classifying liabilities as current or non-current. The amendments specify that if an entity's right to defer settlement of a liability is subject to the entity complying with specified conditions, the entity has a right to defer settlement of the liability at the end of the reporting period if it complies with those conditions at that date. Classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement of the liability. The amendments also clarify the situations that are considered a settlement of a liability. The amendments are effective for annual periods beginning on or after 1 January 2023 and shall be applied retrospectively. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

2.3 ISSUED BUT NOT YET EFFECTIVE INTERNATIONAL FINANCIAL REPORTING STANDARDS *(continued)*

Amendments to IAS 1 Disclosure of Accounting Policies require entities to disclose their material accounting policy information rather than their significant accounting policies. Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. Amendments to IFRS Practice Statement 2 provide non-mandatory guidance on how to apply the concept of materiality to accounting policy disclosures. Amendments to IAS 1 are effective for annual periods beginning on or after 1 January 2023 and earlier application is permitted. Since the guidance provided in the amendments to IFRS Practice Statement 2 is non-mandatory, an effective date for these amendments is not necessary. The Group is currently assessing the impact of the amendments on the Group's accounting policy disclosures.

Amendments to IAS 8 clarify the distinction between changes in accounting estimates and changes in accounting policies. Accounting estimates are defined as monetary amounts in financial statements that are subject to measurement uncertainty. The amendments also clarify how entities use measurement techniques and inputs to develop accounting estimates. The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and apply to changes in accounting policies and changes in accounting estimates that occur on or after the start of that period. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to IAS 12 narrow the scope of the initial recognition exception so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences, such as leases and decommissioning obligations. Therefore, entities are required to recognise a deferred tax asset and a deferred tax liability for temporary differences arising from these transactions. The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and shall be applied to transactions related to leases and decommissioning obligations at the beginning of the earliest comparative period presented, with any cumulative effect recognised as an adjustment to the opening balance of retained profits or other component of equity as appropriate at that date. In addition, the amendments shall be applied prospectively to transactions other than leases and decommissioning obligations. Earlier application is permitted.

The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to IAS 16 prohibit an entity from deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling any such items, and the cost of those items, in profit or loss. The amendments are effective for annual periods beginning on or after 1 January 2022 and shall be applied retrospectively only to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented in the financial statements in which the entity first applies the amendments. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

2.3 ISSUED BUT NOT YET EFFECTIVE INTERNATIONAL FINANCIAL REPORTING STANDARDS *(continued)*

Amendments to IAS 37 clarify that for the purpose of assessing whether a contract is onerous under IAS 37, the cost of fulfilling the contract comprises the costs that relate directly to the contract. Costs that relate directly to a contract include both the incremental costs of fulfilling that contract (e.g., direct labour and materials) and an allocation of other costs that relate directly to fulfilling that contract (e.g., an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract as well as contract management and supervision costs). General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract. The amendments are effective for annual periods beginning on or after 1 January 2022 and shall be applied to contracts for which an entity has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments. Earlier application is permitted. Any cumulative effect of initially applying the amendments shall be recognised as an adjustment to the opening equity at the date of initial application without restating the comparative information. The amendments are not expected to have any significant impact on the Group's financial statements.

Annual Improvements to IFRSs 2018-2020 sets out amendments to IFRS 1, IFRS 9, Illustrative Examples accompanying IFRS 16, and IAS 41. Details of the amendments that are expected to be applicable to the Group are as follows:

- IFRS 9 Financial Instruments: clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment. The amendment is effective for annual periods beginning on or after 1 January 2022. Earlier application is permitted. The amendment is not expected to have a significant impact on the Group's financial statements.
- IFRS 16 Leases: removes the illustration of payments from the lessor relating to leasehold improvements in Illustrative Example 13 accompanying IFRS 16. This removes potential confusion regarding the treatment of lease incentives when applying IFRS 16.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investments in associates and joint ventures

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control, is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The Group's investments in joint ventures are stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses. Adjustments are made to bring into line any dissimilar accounting policies that may exist.

The Group's share of the post-acquisition results and other comprehensive income of joint ventures is included in the consolidated statement of profit or loss and consolidated other comprehensive income, respectively. In addition, when there has been a change recognised directly in the equity of the joint venture, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and its joint ventures are eliminated to the extent of the Group's investments in the joint ventures, except where unrealised losses provide evidence of an impairment of the assets transferred. Goodwill arising from the acquisition of joint ventures is included as part of the Group's investments in joint ventures.

When an investment in a joint venture is classified as held for sale, it is accounted for in accordance with IFRS 5 Non-current Assets Held for Sale and Discontinued Operations.

Fair value measurement

The Group measures its certain unlisted equity investments at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Fair value measurement *(continued)*

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 — based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 — based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, financial assets and deferred tax assets), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs. In testing a cash-generating unit for impairment, a portion of the carrying amount of a corporate asset (e.g., a headquarters building) is allocated to an individual cash-generating unit if it can be allocated on a reasonable and consistent basis or, otherwise, to the smallest group of cash-generating units.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the statement of profit or loss in the period in which it arises.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Related parties

A party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person's family and that person
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or of a parent of the Group;

or

- (b) the party is an entity where any of the following conditions applies:
 - (i) the entity and the Group are members of the same group;
 - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
 - (iii) the entity and the Group are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
 - (vi) the entity is controlled or jointly controlled by a person identified in (a);
 - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
 - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Property, plant and equipment and depreciation

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any impairment losses. When an item of property, plant and equipment is classified as held for sale or when it is part of a disposal group classified as held for sale, it is not depreciated and is accounted for in accordance with IFRS 5. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The estimated useful lives used for this purpose are as follows:

Plant and buildings	20 to 30 years
Machinery	5 to 15 years
Motor vehicles	4 to 6 years
Furniture and fixtures	3 to 10 years
Tooling	3 to 10 years

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the statement of profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Construction in progress represents buildings and machinery under construction or installation, which is stated at cost less any impairment losses, and is not depreciated. Cost comprises the direct costs of construction during the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Investment properties

Investment properties are interests in self-owned buildings held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and any impairment losses.

Depreciation is calculated on the straight-line basis to write off the cost of each item of buildings to its residual value over its estimated useful life. The estimated useful lives are as follows:

Buildings	20 to 30 years
-----------	----------------

The carrying amounts of investment properties are reviewed for impairment when events or changes in circumstances indicate that the carrying amounts may not be recoverable.

Any gains or losses on the retirement or disposal of an investment property are recognised in the statement of profit or loss in the year of the retirement or disposal.

If a property occupied by the Group as an owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under "Property, plant and equipment and depreciation" for owned property up to the date of change in use.

Intangible assets (other than goodwill)

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

Purchased software

Purchased software is stated at cost less any impairment losses and is amortised on the straight-line basis over its estimated useful lives of 3 to 10 years.

Research and development costs

All research costs are charged to the statement of profit or loss as incurred.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Intangible assets (other than goodwill) *(continued)*

Research and development costs *(continued)*

Expenditure incurred on projects to develop new products is capitalised and deferred only when the Group can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the project and the ability to measure reliably the expenditure during the development. Product development expenditure which does not meet these criteria is expensed when incurred.

Deferred development costs are stated at cost less any impairment losses and are amortised using the straight-line basis over the commercial lives of the underlying products not exceeding five to seven years, commencing from the date when the products are put into commercial production.

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(a) Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

Prepaid land lease payments	30 to 50 years
Warehouse and office	2 to 4 years
Accommodation	2 to 3 years

If ownership of the leased asset transfers to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Leases *(continued)*

Group as a lessee *(continued)*

(b) Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate the lease. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

The Group's lease liabilities are included in interest-bearing bank and other borrowings.

(c) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery, motor vehicles and buildings (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the recognition exemption for leases of low-value assets to leases of warehouses and equipment that are considered to be of low value.

Lease payments on short-term leases and leases of low-value assets are recognised as an expense on a straight-line basis over the lease term.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Leases *(continued)*

Group as a lessor

When the Group acts as a lessor, it classifies at lease inception (or when there is a lease modification) each of its leases as either an operating lease or a finance lease.

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income is accounted for on a straight-line basis over the lease terms and is included in other income in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as other income in the period in which they are earned.

Investments and other financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost and fair value through other comprehensive income.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under IFRS 15 in accordance with the policies set out for "Revenue recognition" below.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Investments and other financial assets *(continued)*

Initial recognition and measurement *(continued)*

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

Financial assets at fair value through other comprehensive income (debt instruments)

For debt investments at fair value through other comprehensive income, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in the statement of profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in other comprehensive income. Upon derecognition, the cumulative fair value change recognised in other comprehensive income is recycled to the statement of profit or loss.

Financial assets designated at fair value through other comprehensive income (equity investments)

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity investments designated at fair value through other comprehensive income when they meet the definition of equity under IAS 32 *Financial Instruments: Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to the statement of profit or loss. Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in other comprehensive income. Equity investments designated at fair value through other comprehensive income are not subject to impairment assessment.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

The Group recognises an allowance for expected credit losses ("ECLs") for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Impairment of financial assets *(continued)*

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables which apply the simplified approach as detailed below.

- Stage 1 — Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs
- Stage 2 — Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs
- Stage 3 — Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Impairment of financial assets *(continued)*

Simplified approach

For trade receivables that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as loans and borrowings or as payables.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and notes payables, other payables, amounts due to the ultimate holding shareholder and related parties and interest-bearing bank and other borrowings.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Financial liabilities at amortised cost (loans and borrowings)

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss.

NOTES TO FINANCIAL STATEMENTS

Year ended 31 December 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the weighted average basis, and in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of overheads. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, and assets similar in nature to cash, which are not restricted as to use.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss.

The Group provides for warranties in relation to the sale of certain automobile body parts products for general repairs of defects occurring during the warranty period. Provisions for these assurance-type warranties granted by the Group are recognised based on sales volume and past experience of the level of repairs and returns, discounted to their present values as appropriate.

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries and joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Income tax *(continued)*

Deferred tax assets are recognised for all deductible temporary differences, and the carry-forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry-forward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries and joint ventures, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, for which it is intended to compensate, are expensed.

Where the grant relates to an asset, the fair value is credited to government grants and is released to the statement of profit or loss over the expected useful life of the relevant asset by equal annual instalments or deducted from the carrying amount of the asset and released to the statement of profit or loss by way of a reduced depreciation charge.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Revenue recognition

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

Revenue from the sale of automobile body parts products is recognised at the point in time when control of the asset is transferred to the customer, generally upon the use of the industrial products.

Some contracts for the sale of automobile body parts products provide customers with rights of return and volume rebates. The rights of return and volume rebates give rise to variable consideration.

(i) Rights of return

For contracts which provide a customer with a right to return the goods within a specified period, the expected value method is used to estimate the goods that will not be returned because this method best predicts the amount of variable consideration to which the Group will be entitled. The requirements in IFRS 15 on constraining estimates of variable consideration are applied in order to determine the amount of variable consideration that can be included in the transaction price. For goods that are expected to be returned, instead of revenue, a refund liability is recognised. A right-of-return asset (and the corresponding adjustment to cost of sales) is also recognised for the right to recover products from a customer.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Revenue recognition *(continued)*

Revenue from contracts with customers *(continued)*

(ii) Volume rebates

Retrospective volume rebates may be provided to certain customers once the quantity of products purchased during the period exceeds a threshold specified in the contract. Rebates are offset against amounts payable by the customer. To estimate the variable consideration for the expected future rebates, the most likely amount method is used for contracts with a single-volume threshold and the expected value method for contracts with more than one volume threshold. The selected method that best predicts the amount of variable consideration is primarily driven by the number of volume thresholds contained in the contract. The requirements on constraining estimates of variable consideration are applied and a refund liability for the expected future rebates is recognised.

Revenue from other sources

Rental income is recognised on a time proportion basis over the lease terms. Variable lease payments that do not depend on an index or a rate are recognised as income in the accounting period in which they are incurred.

Other income

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

Dividend income is recognised when the shareholders' right to receive payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

Contract liabilities

A contract liability is recognised when a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Employee benefits

Pension scheme – Mainland China

The employees of the Group's subsidiaries which operate in Mainland China are required to participate in a central pension scheme operated by the local municipal government. These subsidiaries are required to contribute a certain percentage of their payroll costs to the central pension scheme. The contributions are charged to the statement of profit or loss as they become payable in accordance with the rules of the central pension scheme.

Pension scheme – Hong Kong

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance for all of its employees. Contributions are made based on a percentage of the employees' basic salaries and are charged to the statement of profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Dividends

Final dividends are recognised as a liability when they are approved by the shareholders in a general meeting. Proposed final dividends are disclosed in the notes to the financial statements.

Interim dividends are simultaneously proposed and declared, because the Company's memorandum and articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as a liability when they are proposed and declared.

NOTES TO FINANCIAL STATEMENTS

Year ended 31 December 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Foreign currencies

These financial statements are presented in Renminbi (“**RMB**”), which is the Company’s functional and presentation currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period.

Differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

4. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group’s financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Judgements

In the process of applying the Group’s accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

Revenue from contracts with customers

The Group applied the following judgements that significantly affect the determination of the amount and timing of revenue from contracts with customers:

4. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES *(continued)*

Judgements *(continued)*

Determining the timing of the sale of industrial products

The Group provides industrial products to customers. The Group transports industrial products to the automobile manufacturing company. After using these products, the automobile manufacturing company will notify the Group to issue invoices in the next month. The time point of revenue recognition is when these products are used.

Property lease classification – Group as lessor

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a major part of the economic life of the commercial property and the present value of the minimum lease payments not amounting to substantially all the fair value of the commercial property, that it retains substantially all the significant risks and rewards incidental to ownership of these properties which are leased out and accounts for the contracts as operating leases.

Classification between investment properties and owner-occupied properties

The Group determines whether a property qualifies as an investment property, and has developed criteria in making that judgement. Investment property is a property held to earn rentals or for capital appreciation or both. Therefore, the Group considers whether a property generates cash flows largely independently of the other assets held by the Group. Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could be sold separately, the Group accounts for the portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgement is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as an investment property.

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Provision for slow-moving inventories and net realisable value of inventories

Management reviews the ageing analysis of inventories of the Group at the end of the reporting period, and makes a provision for slow-moving inventory items. Management estimates the net realisable value for such inventories based primarily on the latest invoice prices and current market conditions. Write-down of inventories to net realisable value is made based on the estimated net realisable value of inventories. The assessment of the write-down amount requires management's estimates and judgement. Where the actual outcome or expectation in the future is different from the original estimate, such differences will impact the carrying value of inventories and write-down/write-back of inventories in the period in which such estimate has been changed.

4. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES *(continued)*

Estimation uncertainty *(continued)*

Provision for expected credit losses on trade receivables

The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance).

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic products) are expected to deteriorate over the next year which can lead to an increased number of defaults in the manufacturing sector, the historical default rates are adjusted. At each reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation among historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of a customer's actual default in the future. The information about the ECLs on the Group's trade receivables is disclosed in note 22 to the financial statements.

Leases — Estimating the incremental borrowing rate

The Group cannot readily determine the interest rate implicit in a lease, and therefore, it uses an incremental borrowing rate (“IBR”) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group “would have to pay”, which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when it needs to be adjusted to reflect the terms and conditions of the lease (for example, when leases are not in the subsidiary's functional currency). The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the subsidiary's stand-alone credit rating).

Fair value of certain of the unlisted equity investments

Certain of the Group's unlisted equity investments have been valued based on a market-based valuation technique as detailed in note 37 to the financial statements. The valuation requires the Group to determine the comparable public companies (peers) and select the price multiple. In addition, the Group makes estimates about the discount for illiquidity and size differences. The Group classifies the fair value of the investments as Level 3. The fair value of the unlisted equity investments at 31 December 2021 was RMB62,345,000 (2020: RMB69,797,000). Further details are included in note 20 to the financial statements.

Comparatives

Certain prior period amounts have been reclassified to conform to the current period presentation.

5. OPERATING SEGMENT INFORMATION

For management purposes, the Group is organised into one single business unit that is primarily the manufacture and sale of internal and external decorative and structural automobile parts, moulds and tooling, casing and liquid tanks of air-conditioning or heater units and other non-automobile products. Management monitors the consolidated results for the purpose of making decisions about resource allocation and the Group's performance assessment. Accordingly, no segment analysis is presented.

Revenue from contracts with customers

(i) Disaggregated revenue information

All the revenue from contracts with customers is derived from the one single segment as defined in note 5. And the category of revenue from contracts with customers based on geographical region is the same with the geographical information in note 5(a).

The recognition timing of all the revenue from contracts with customers is the goods transferred at a point in time when control of the asset is transferred to the customer, generally on the use of the industrial products.

The revenue recognised during the year ended 31 December 2021 that was included in contract liabilities at the beginning of the year was RMB18,318,000 (2020: RMB54,483,000).

(ii) Performance obligations

Information about the Group's performance obligations is summarised below:

Sale of products and materials: The performance obligation is satisfied upon delivery of the products and materials and payment is generally due within 30 to 90 days from delivery, except for new customers, where payment in advance is normally required. Some contracts provide customers with a right of return and volume rebates which give rise to variable consideration subject to constraint.

All the remaining performance obligations (unsatisfied or partially unsatisfied) as at 31 December 2021 were expected to be recognised within one year as the performance obligations are part of contracts that have an original expected duration of one year or less.

The proposed final dividend for the year is subject to the approval of the Company's shareholders at the forthcoming annual general meeting. These financial statements have not reflected this proposed dividend.

14. EARNINGS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE PARENT

The calculation of the basic earnings per share amount is based on the profit attributable to ordinary equity holders of the parent, and the weighted average number of ordinary shares of 1,769,193,800 (2020: 1,769,193,800) in issue during the year.

During the year ended 31 December 2021, the calculation of the diluted earnings per share amount is based on the profit for the year attributable to ordinary equity holders of the parent, adjusted to reflect the interest on the share option scheme, where applicable. The weighted average number of ordinary shares used in the calculation is the number of ordinary shares in issue during the year, as used in the basic earnings per share calculation, and the weighted average number of ordinary shares assumed to have been issued at no consideration on the deemed exercise of all dilutive potential ordinary shares into ordinary shares.

No adjustment has been made to the basic earnings per share amount presented for the year ended 31 December 2021 in respect of a dilution as the Group had no potentially dilutive ordinary shares in issue during the year.

The Group's investment properties are situated in Mainland China and on the land that is held under medium term leases.

The Group's investment properties consist of three industrial properties in China. The directors of the Company have determined that the investment properties consist of one class of assets based on the nature, characteristics and risk of each property. The fair value of the Group's investment properties was RMB93,151,000 as at 31 December 2021 (2020: RMB96,999,000) according to the valuation performed by an independent professionally qualified valuer.

Each year, the Group's property manager and the chief financial officer decide, after approval from the audit committee, to appoint which external valuer to be responsible for the external valuations of the Group's properties. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. The Group's property manager and the chief financial officer have discussion with the valuer on the valuation assumptions and valuation results once a year when the valuation is performed for annual financial reporting.

The Group's investment properties are leased to related parties under operating leases, further summary details of which are included in Note 35.

Included in the investment properties as at 31 December 2021 were certain industrial properties with a net carrying value of RMB17,600,000 (2020: RMB17,942,000), of which the property certificates have not been obtained. The directors of the Company are of the view that the Group is entitled to lawfully and validly occupy and use the above-mentioned industrial properties. The directors of the Company are also of the opinion that the aforesaid matter will not have any significant impact on the Group's financial position as at 31 December 2021.

The Group's investment properties with a net carrying value of RMB785,000 as at 31 December 2021 (2020: RMB929,000) were pledged to secure bank loans of the Group (Note 27).

17. LEASES

The Group as a lessee

The Group has lease contracts for various items of warehouse, office and accommodation used in its operations. Leases of warehouse and office generally have lease terms between 2 and 4 years. 	815,353	819,678

22. TRADE AND NOTES RECEIVABLES *(continued)*

The Group's trading terms with its customers are mainly on credit, except for new customers, where payment in advance is normally required. The credit period is generally one month, extending up to three months for major customers. The Group seeks to maintain strict control over its outstanding receivables and has a credit control department to minimise credit risk. Overdue balances are reviewed regularly by senior management. In view of the aforementioned and the fact that the Group's trade receivables relate to a large number of diversified customers, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are non-interest-bearing.

The Group's notes receivables are all aged within six months, for which there was no recent history of default and past due amounts. As at 31 December 2021 and 2020, the loss allowance was assessed to be minimal.

An ageing analysis of the trade receivables as at the end of the reporting period, based on the invoice date and net of loss allowance, is as follows:

	2021 RMB'000	2020 RMB'000
Within 3 months	630,097	486,240
3 to 6 months	36,322	47,008
6 months to 1 year	21,147	89,171
Over 1 year	18,741	33,767
	706,307	656,186

The movements in the loss allowance for impairment of trade receivables are as follows:

	2021 RMB'000	2020 RMB'000
At beginning of year	10,788	7,102
Impairment losses	12,632	3,686
Amount written off as uncollectible	(12,532)	—
At end of year	10,888	10,788

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on aging for groupings of various customer segments with similar loss patterns (i.e., by geographical region, product type and customer type). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Generally, trade receivables are written off if past due for more than two years and are not subject to enforcement activity.

Cash and cash equivalents in the consolidated statement of cash flows	61,676	94,429

The RMB is not freely convertible into other currencies, however, under Mainland China's Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for other currencies through banks authorised to conduct foreign exchange business.

Cash at banks earns interest at floating rates based on daily bank deposit rates. Short term time deposits are made for varying periods within one year, depending on the immediate cash requirements of the Group, and earn interest at the respective short term time deposit rates. The bank balances and pledged deposits are deposited with creditworthy banks with no recent history of default.

Pledged deposits with a carrying value of RMB46,306,000 as at 31 December 2021 (2020: RMB64,220,000) were pledged to secure notes payables (Note 25).

Pledged deposits with a carrying value of RMB109,000,000 as at 31 December 2021 (2020: RMB109,000,000) were pledged to secure the bank loans granted to the Group (Note 27).

As at 31 December 2021	831	8,493	6,417	15,741

Pursuant to the PRC Corporate Income Tax Law, a 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprises established in Mainland China. The requirement became effective from 1 January 2008 and applies to earnings after 31 December 2007. A lower withholding tax rate may be applied if there is a tax treaty between Mainland China and the jurisdiction of the foreign investors. The Group is therefore liable for withholding taxes on dividends distributed by those subsidiaries established in Mainland China in respect of earnings generated from 1 January 2008. For the Group, the applicable rate is 10%.

At 31 December 2021, other than the amount recognised in the consolidated financial statements, deferred tax has not been recognised for withholding taxes that would be payable on the unremitted earnings that are subject to withholding taxes of the Group's subsidiaries established in Mainland China. In the opinion of the directors of the Company, it is not probable that these subsidiaries will distribute such remaining earnings in the foreseeable future, as they will be permanently used as the Group's future development fund in Mainland China. The aggregate amount of temporary differences associated with investments in subsidiaries in Mainland China for which deferred tax liabilities have not been recognised totalled approximately RMB607,373,000 at 31 December 2021 (2020: RMB647,337,000).

29. DEFERRED TAX *(continued)*

There are no income tax consequences attaching to the payment of dividends by the Company to its shareholders.

For presentation purposes, certain deferred tax assets and liabilities have been offset in the consolidated statement of financial position. The following is an analysis of the deferred tax balances of the Group for financial reporting purposes:

	2021 RMB'000	2020 RMB'000
Net deferred tax assets recognised in the consolidated statement of financial position	16,938	10,838
Net deferred tax liabilities recognised in the consolidated statement of financial position	(13,723)	(17,102)

Deferred tax assets have not been recognised in respect of the following item:

	2021 RMB'000	2020 RMB'000
Unused tax losses	175,466	151,109

The remaining tax losses are subject to an expiry period of five years for offsetting future taxable profits of the companies in which the losses arose. Deferred tax assets have not been recognised in respect of the above items as it is not considered probable that taxable profits will be available against which the above items can be utilised.

30. ISSUED CAPITAL**Ordinary shares**

31. RESERVES

The amounts of the Group's reserves and the movements therein for the current and prior years are presented in the consolidated statement of changes in equity of the financial statements.

Statutory reserve funds

Statutory reserve funds comprise:

Reserve fund

PRC laws and regulations require wholly-owned foreign enterprises (“**WFOE**”) to provide for the reserve fund by appropriating a part of the net profit, as determined under the PRC accounting rules and regulations, before dividend distribution. Each subsidiary being WFOE is required to appropriate at least 10% of its net profit after tax to the reserve fund until the balance of such fund has reached 50% of its registered capital. The reserve fund can only be used, upon approval by the relevant authority, to offset accumulated losses or increase capital.

Enterprise expansion fund

In accordance with relevant regulations and articles of association of the subsidiaries registered in Mainland China as foreign-invested companies, appropriations from the net profit should be made to the enterprise expansion fund, after offsetting accumulated losses from prior years, and before profit distributions to its investors. The percentages to be appropriated to the enterprise expansion fund are determined by the boards of directors of the subsidiaries.

Statutory surplus reserve

Each of the non-foreign-invested subsidiaries in Mainland China is required to transfer 10% of its profit after taxation, as determined under the PRC accounting rules and regulations, to the statutory surplus reserve until the reserve balance reaches 50% of its registered capital. The transfer to this reserve must be made before the distribution of dividends to shareholders.

The statutory surplus reserve can be used to offset accumulated losses or convert into share capital by the issue of new shares to shareholders in proportion to their existing equity holdings.

NOTES TO FINANCIAL STATEMENTS

Year ended 31 December 2021

37. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (continued)

Management has assessed that the fair values of cash and cash equivalents, pledged deposits, trade receivables, trade and notes payables, financial assets included in prepayments and other receivables, financial liabilities included in other payables and accruals, amounts due from/to related parties, amounts due to the ultimate controlling shareholder and the current portion of interest-bearing bank borrowings approximate to their carrying amounts largely due to the short term maturities of these instruments.

The Group's finance department headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. At each reporting date, the finance department analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair value:

The fair value of the non-current portion of interest-bearing bank borrowings has been calculated by discounting the expected cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The change in fair value as a result of the Group's own non-performance risk for interest-bearing bank borrowings as at 31 December 2021 was assessed to be insignificant.

The fair values of certain unlisted equity investments designated at fair value through other comprehensive income have been estimated using a market-based valuation technique based on assumptions that are not supported by observable market prices or rates. The valuation requires the directors to determine comparable public companies (peers) based on industry, size, leverage and strategy, and to calculate an appropriate price multiple, such as enterprise value to earnings before interest, taxes, depreciation and amortisation ("EV/EBITDA") multiple and price to earnings ("P/E") multiple, for each comparable company identified. The multiple is calculated by dividing the enterprise value of the comparable company by an earnings measure. The trading multiple is then discounted for considerations such as illiquidity and size differences between the comparable companies based on company-specific facts and circumstances. The discounted multiple is applied to the corresponding earnings measure of the unlisted equity investments to measure the fair value. The directors believe that the estimated fair values resulting from the valuation technique, which are recorded in the consolidated statement of financial position, and the related changes in fair values, which are recorded in other comprehensive income, are reasonable, and that they were the most appropriate values at the end of the reporting period.

At 31 December 2021, the Group invested in certain unlisted investments, which represent one floating-rate financial product with principal not guaranteed issued by Agricultural Bank of China in Mainland China. The Group has estimated the fair value of these unlisted investments by using a discounted cash flow valuation model based on the market interest rates of instruments with similar terms and risks.

(continued)

Below is a summary of significant unobservable inputs to the valuation of the financial instruments together with a quantitative sensitivity analysis as at 31 December 2021 and 2020:

38. TRANSFERS OF FINANCIAL ASSETS

Transferred financial assets that are not derecognised in their entirety

At 31 December 2021, the Group endorsed certain bills receivable accepted by banks in Mainland China (the “**Endorsed Bills**”) with a carrying amount of RMB3,712,000 (2020: RMB6,134,000) to certain of its suppliers in order to settle the trade payables due to such suppliers (the “**Endorsement**”). In the opinion of the directors, the Group has retained the substantial risks and rewards, which include default risks relating to such Endorsed Bills, and accordingly, it continued to recognise the full carrying amounts of the Endorsed Bills and the associated trade payables settled. Subsequent to the Endorsement, the Group did not retain any rights on the use of the Endorsed Bills, including the sale, transfer or pledge of the Endorsed Bills to any other third parties. The aggregate carrying amount of the trade payables settled by the Endorsed Bills during the year to which the suppliers have recourse was RMB3,712,000 (2020: RMB6,134,000) as at 31 December 2021.

Transferred financial assets that are derecognised in their entirety

At 31 December 2021, the Group endorsed certain bills receivable accepted by banks in Mainland China (the “**Derecognised Bills**”) to certain of its suppliers in order to settle the trade payables due to such suppliers with a carrying amount in aggregate of RMB41,430,335 (2020: RMB91,237,000). The Derecognised Bills had a maturity of one to six months at the end of the reporting period. In accordance with the Law of Negotiable Instruments in the PRC, the holders of the Derecognised Bills have a right of recourse against the Group if the PRC banks default (the “**Continuing Involvement**”). In the opinion of the directors, the Group has transferred substantially all risks and rewards relating to the Derecognised Bills. Accordingly, it has derecognised the full carrying amounts of the Derecognised Bills and the associated trade payables. The maximum exposure to loss from the Group’s Continuing Involvement in the Derecognised Bills and the undiscounted cash flows to repurchase these Derecognised Bills is equal to their carrying amounts. In the opinion of the directors, the fair values of the Group’s Continuing Involvement in the Derecognised Bills are not significant.

During the year ended 31 December 2021, the Group has not recognised any gain or loss on the date of transfer of the Derecognised Bills. No gains or losses were recognised from the Continuing Involvement, both during the year or cumulatively. The endorsement has been made evenly throughout the year.

39. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group’s principal financial liabilities comprise interest-bearing bank and other borrowings, trade and notes payables, other payables, amounts due to the ultimate controlling shareholder and related parties. The main purpose of these financial liabilities is to raise finance for the Group’s operations. The Group has various financial assets such as trade and notes receivables, other receivables, cash and cash equivalents, pledged deposits and amounts due from related parties, which arise directly from its operations.

The main risks arising from the Group’s financial instruments are interest rate risk, credit risk and liquidity risk. The board of directors of the Company reviews and agrees policies for managing each of these risks which are summarised below.

39. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES *(continued)***Interest rate risk**

Interest rate risk is the risk that fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's interest-bearing bank borrowings with floating interest rates. The interest rate and terms of repayment of borrowings are disclosed in Note 27.

The Group has not used any interest swaps to hedge its exposure to interest rate risk.

The following table demonstrates the sensitivity to a reasonably possible change in the RMB interest rate with all other variables held constant, of the Group's profit before tax (through the impact on floating rate borrowings).

	Increase/(decrease) in basis points	Effect on profit before tax RMB'000
Year ended 31 December 2021		
RMB	100	(3,623)

Credit risk

The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant.

Maximum exposure and year-end staging

The tables below show the credit quality and the maximum exposure to credit risk based on the Group's credit policy, which is mainly based on past due information unless other information is available without undue cost or effort, and year-end staging classification as at 31 December.

* For trade receivables to which the Group applies the simplified approach for impairment, information based on the provision matrix is disclosed in note 22 to the financial statements.

** The credit quality of the financial assets included in prepayments and other receivables is considered to be “normal” when they are not past due and there is no information indicating that the financial assets had a significant increase in credit risk since initial recognition. Otherwise, the credit quality of the financial assets is considered to be “doubtful”.

Since the Group trades only with recognised and creditworthy third parties, there is no requirement for collateral. As at the end of the reporting period, except for the trade and notes receivables, there was no significant concentration of credit risk within the Group. The trade and notes receivables arising from the five largest customers accounted for 45% (2020: 40%) of the total trade and notes receivables as at 31 December 2021.

Liquidity risk

The Group monitors its risk to a shortage of funds using a recurring liquidity planning tool. This tool considers the maturity of both its financial instruments and financial assets (e.g., trade receivables) and projected cash flows from operations.

39. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES *(continued)*

Liquidity risk *(continued)*

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of lease liabilities and interest-bearing bank and other borrowings.

The maturity profile of the Group's financial liabilities as at the end of the reporting period, based on the contractual undiscounted payments, is as follows:

	On demand RMB'000	Less than 3 months RMB'000	3 to 12 months RMB'000	1 to 5 years RMB'000	Total RMB'000

Capital management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit profile and healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2021 and 31 December 2020.

39. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES *(continued)*

Capital management *(continued)*

The Group monitors capital using a gearing ratio, which is net debt divided by capital plus net debt. The net debt includes interest-bearing bank and other borrowings, trade and notes payables, other payables and accruals, amounts due to the ultimate controlling shareholder and related parties, less cash and cash equivalents. Capital represents equity attributable to owners of the parent.

The gearing ratios as at the end of the reporting periods were as follows:

	2021 RMB'000	2020 RMB'000
Trade and notes payables	955,726	965,541
Other payables and accruals	249,920	246,909
Interest-bearing bank and other borrowings	719,663	721,646
Amounts due to related parties	58,867	49,588
Less: Cash and cash equivalents	(61,676)	(94,429)
Net debt	1,922,500	1,889,255
Equity attributable to owners of the parent	1,177,797	1,143,470
Capital and net debt	3,100,297	3,032,725
Gearing ratio	62%	62%
