<sup>1</sup> This announcement contains translations of certain Renminbi (RMB) amounts into U.S. dollars (US\$) at a specified rate solely for the convenience of the reader. Unless otherwise noted, the translation of RMB into US\$ has been made at RMB6.3393 to US\$1.00, the noon buying rate in effect on March 31, 2022 as set forth in the H.10 Statistical Release of the Federal Reserve Board.

<sup>2</sup> Non-GAAP income (loss) from operations is a non-GAAP financial measure, which is defined as income (loss) from operations excluding share-based compensation expenses and amortization of intangible assets resulting from business acquisition.

<sup>3</sup> Non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. is a non-GAAP financial measure, which is defined as net income (loss) attributable to ordinary shareholders of Baozun Inc. excluding share-based compensation expenses, amortization of intangible assets resulting from business acquisition and unrealized investment loss.

<sup>4</sup> Each ADS represents three Class A ordinary shares.

<sup>5</sup> Basic and diluted non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. per ADS are non-GAAP financial measures, which are defined as non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. divided by weighted average number of shares used in calculating basic and diluted net income (loss) per ordinary share multiplied by three, respectively.

## First Quarter 2022 Operational Highlights

- Total Gross Merchandise Volume (“GMV”)<sup>6</sup> was RMB16,997.5 million, an increase of 28.4% year-over-year.
- Distribution GMV<sup>7</sup> was RMB764.6 million, a decrease of 28.8% year-over-year.
- Non-distribution GMV<sup>8</sup> was RMB16,232.9 million, an increase of 33.4% year-over-year, of which, consignment model GMV was RMB4,760.6 million, a decrease of 20.7%, and service fee model GMV was RMB11,472.3 million, an increase of 86.1% year-over-year.
- GMV generated from non-TMALL marketplaces and channels accounted for approximately 40.0% of total GMV during the quarter, compared with 31.9% for the same period of 2021.
- Number of brand partners for store operations increased to 345 as of March 31, 2022, from 333 as of December 31, 2021.

Mr. Vincent Qiu, Chairman and Chief Executive Officer of Baozun, commented, “To date, 2022 has been quite unique, as we are witnessing increasing macro weakness and uncertainties impacting consumer spending sentiment. In spite of the external challenges, our strategic business development efforts continued to bear fruits with faster brand acquisition, and we further expanded service scope with higher revenue contributions from value-added services and accelerated progress in emerging channels. Our ongoing efforts in category diversification, portfolio optimization and technology innovations have greatly helped us to enhance resilience, and we continue to proactively explore additional growth drivers to enhance value creation.”

“Since March, there have been strict lockdowns and challenging disruptions in relation to the latest Omicron outbreak in several cities in China, including Shanghai where Baozun is headquartered. Thanks to our established digital operating systems, solid technology infrastructures, strategically located warehouses, and expanding regional service centers, we were able to minimize disruptions. Our adaptability, reliability and accountability have rewarded us with great credit from our brand partners. Notwithstanding the short-term turbulence, we are confident in our value proposition, and we will conduct our business with courage, responsibility, intelligence and agility, to protect the interests of the company, and all shareholders.”

Mr. Arthur Yu, Chief Financial Officer of Baozun, commented, “Despite some macro turbulence, I’m pleased that Baozun’s business delivered a durable top line, of which, service revenues grew by 24.3% year-over-year and achieved a non-GAAP income from operations of RMB4.7 million. It is encouraging that, although revenue from online store operation decreased, our value-added services including digital marketing and IT solutions delivered high double-digit growth year-over-year. In light of the macro-uncertainties, our financial management’s priority and focus will be on business efficiency, cash flow management and cost control. With a solid balance sheet and a strong brand pipeline, we remain confident about our long-term business prospects and strategy.”

---

<sup>6</sup> GMV includes value added tax and excludes (i) shipping charges, (ii) surcharges and other taxes, (iii) value of the goods that are returned and (iv) deposits for purchases that have not been settled.

<sup>7</sup> Distribution GMV refers to the GMV under the distribution business model.

<sup>8</sup> Non-distribution GMV refers to the GMV under the service fee business model and the consignment business model.

## First Quarter 2022 Financial Results

**Total net revenues** were RMB1,984.2 million (US\$313.0 million), a decrease of 1.8% from RMB2,020.5 million in the same quarter of last year. The decrease in total net revenue was mainly due to a reduction in revenue from online store operations, as a result of weaker macro-economics and consumption sentiment, and a reduction in product sales revenue, largely offset by the increase in value-added services, such as digital marketing and IT solution services.

The following table sets forth a breakdown of our revenues by segment and key categories<sup>9</sup> for the periods indicated:

	For the three months ended March 31,					
	2021			2022

<b>Digital marketing and IT solutions</b>	<b>277.0</b>	<b>14%</b>	<b>386.2</b>	<b>60.9</b>	<b>19%</b>	<b>39%</b>
<b>Total net revenues</b>	<b>2,020.5</b>	<b>100%</b>	<b>1,984.2</b>	<b>313.0</b>	<b>100%</b>	<b>-2%</b>

**Product sales revenue** was RMB680.8 million (US\$107.4 million), a decrease of 29.9% from RMB971.8 million in the same quarter of last year. The decrease was primarily attributable to the Company's optimization of its product portfolio in distribution model, resulting in sales contraction in electronics and appliances categories.

**Services revenue** was RMB1,303.3 million (US\$205.6 million), an increase of 24.3% from RMB1,048.7 million in the same quarter of last year. The increase was primarily attributable to incremental revenue contribution of RMB205.3 million (US\$32.4 million) from the Company's acquisitions made in the past twelve months, and increasing revenue contribution from digital marketing and IT solutions services.

<sup>9</sup> Key categories refer to the categories that accounted for more than 5% of the Company's total net revenues during the first quarter of 2022.

**Total operating expenses** were RMB2,025.3 million (US\$319.5 million), compared with RMB1,967.6 million in the same quarter of last year.

- **Cost of products** was RMB595.7 million (US\$94.0 million), compared with RMB822.3 million in the same quarter of last year. The decrease was primarily due to the decline in product sales revenue.
- **Fulfillment expenses** were RMB629.4 million (US\$99.3 million), compared with RMB508.0 million in the same quarter of last year. The increase was primarily due to the fulfillment cost of RMB177.1 million (US\$27.9 million) incurred by two warehouse and supply chain businesses acquired in the second quarter of 2021, which was partially offset by efficiency improvements, and a reduction in order volume in sportswear from apparel categories.
- **Sales and marketing expenses** were RMB615.9 million (US\$97.2 million), compared with RMB470.6 million in the same quarter of last year. The increase was mainly due to increased strategic business development staff to drive business growth, and an expansion in digital marketing services, which was partially offset by efficiency improvements.
- **Technology and content expenses** were RMB105.3 million (US\$16.6 million) compared with RMB93.0 million in the same quarter of last year. The increase was mainly due to growth in GMV and the Company's ongoing investment in technological innovation and productization, which was partially offset by the Company's cost control initiatives and efficiency improvements.
- **General and administrative expenses** were RMB90.6 million (US\$14.3 million), compared with RMB79.6 million in the same quarter of last year. The increase was primarily due to a rise in expenses related to acquired business in the past year.

**Loss from operations** was RMB41.2 million (US\$6.5 million), compared with income from operations of RMB52.9 million in the same quarter of last year. Operating margin was negative 2.1%, compared with 2.6% in the same quarter of last year.

**Non-GAAP income from operations** was RMB4.7 million (US\$0.7 million), compared with RMB75.8 million in the same quarter of last year. Non-GAAP operating margin was 0.2%, compared with 3.7% in the same quarter of last year.

**Unrealized investment loss** was RMB82.0 million (US\$12.9 million), compared with RMB37.4 million in the same quarter of last year. The increase of unrealized investment loss was mainly due to a decrease in the trading price of iClick Interactive Asia Group Limited, or iClick Interactive, a public company listed on the Nasdaq Global Market that the Company invested in January 2021.

**Net loss attributable to ordinary shareholders of Baozun Inc.** was RMB122.4 million (US\$19.3 million), compared with net income attributable to ordinary shareholders of Baozun Inc. of RMB1.3 million in the same quarter of last year.

**Basic and diluted net loss attributable to ordinary shareholders of Baozun Inc. per ADS** were both RMB1.87 (US\$0.29), compared with basic and diluted net income attributable to ordinary shareholders of Baozun Inc. of both RMB0.02, for the same period of 2021.

**Non-GAAP net income attributable to ordinary shareholders of Baozun Inc.** was RMB1.2 million (US\$0.2 million), compared with RMB61.2 million in the same quarter of last year.

**Basic and diluted non-GAAP net income attributable to ordinary shareholders of Baozun Inc. per ADS** were both RMB0.02 (US\$0.00), compared with RMB0.83 and RMB0.82, respectively, for the same period of 2021.

As of March 31, 2022, the Company had RMB3,375.7 million (US\$532.5 million) in **cash, cash equivalents, and restricted cash**, compared with RMB4,699.8 million as of December 31, 2021.

### **Update in Share Repurchase Programs**

On March 25, 2022, the Board of Directors approved a new share repurchase program for up to US\$80 million worth of the Company's shares in the next 12 months. During the first quarter of 2022, the Company repurchased approximately 2.3 million of ADSs for approximately US\$19.9 million under its share repurchase program.

## Use of Non-GAAP Financial Measures

The Company also uses certain non-GAAP financial measures in evaluating its business. For example, the Company uses non-GAAP income (loss) from operations, non-GAAP operating margin, non-GAAP net income (loss), non-GAAP net margin, non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. and non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. per ADS, as supplemental measures to review and assess its financial and operating performance. The presentation of these non-GAAP financial measures is not intended to be considered in isolation, or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. Non-GAAP income (loss) from operations is income (loss) from operations excluding the impact of share-based compensation expenses and amortization of intangible assets resulting from business acquisition. Non-GAAP operating margin is non-GAAP income from operations as a percentage of total net revenues. Non-GAAP net income (loss) is net income (loss) excluding the impact of share-based compensation expenses and amortization of intangible assets resulting from business acquisition and unrealized investment loss. Non-GAAP net margin is non-GAAP net income as a percentage of total net revenues. Non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. is net income (loss) attributable to ordinary shareholders of Baozun Inc. excluding the impact of share-based compensation expenses and amortization of intangible assets resulting from business acquisition and unrealized investment loss. Non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. per ADS is non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. divided by weighted average number of shares used in calculating net income (loss) per ordinary share multiplied by three.

The Company presents the non-GAAP financial measures because they are used by the Company's management to evaluate the Company's financial and operating performance and formulate business plans. Non-GAAP income (loss) from operations enables the Company's management to assess the Company's financial and operating results without considering the impact of share-based compensation expenses and amortization of intangible assets resulting from business acquisition. Non-GAAP net income (loss) enables the Company's management to assess the Company's financial and operating results without considering the impact of share-based compensation expenses and amortization of intangible assets resulting from business acquisition and unrealized investment loss. Such items are non-cash expenses that are not directly related to the Company's business operations. Share-based compensation expenses represent non-cash expenses associated with share options and restricted share units the Company grants under the share incentive plans. Amortization of intangible assets resulting from business acquisition represents non-cash expenses associated with intangible assets acquired through one-off business acquisition. Unrealized investment loss represents non-cash expenses associated with the change in fair value of the equity investment. The Company also believes that the use of the non-GAAP measures facilitates investors' assessment of the Company's financial and operating performance.

The non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. The non-GAAP financial measures have limitations as analytical tools. One of the key limitations of using non-GAAP income (loss) from operations, non-GAAP net income (loss), non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc., and non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. per ADS is that they do not reflect all items of income and expense that affect the Company's operations. Share-based compensation expenses and amortization of intangible assets resulting from business acquisition and unrealized investment loss have been and may continue to be incurred in the Company's business and is not reflected in the presentation of non-GAAP income (loss) from

operations and non-GAAP net income (loss). Further, the non-GAAP measures may differ from the non-GAAP measures used by other companies, including peer companies, potentially limiting the comparability of their financial results to the Company's. In light of the foregoing limitations, the non-GAAP income (loss) from operations, non-GAAP operating margin, non-GAAP net income (loss), non-GAAP net margin, non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. and non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. per ADS for the period should not be considered in isolation from or as an alternative to income (loss) from operations, operating margin, net income (loss), net margin, net income (loss) attributable to ordinary shareholders of Baozun Inc. and net income (loss) attributable to ordinary shareholders of Baozun Inc. per ADS, or other financial measures prepared in accordance with U.S. GAAP.

The Company compensates for these limitations by reconciling the non-GAAP financial measures to the nearest U.S. GAAP performance measures, which should be considered when evaluating the Company's performance. For reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures, please see the section of the accompanying tables titled, "Reconciliations of GAAP and Non-GAAP Results."
