ABOUT THE GROUP

Oi Wah Pawnshop Credit Holdings Limited (“**Oi Wah**”, the “**Company**”, “**we**” or “**us**”) and its subsidiaries (together with the Company collectively referred to as the “**Group**” or “**our Group**”) have been providing secured financing, including pawn loan and mortgage loan services, to the public and various corporations in the business sector. Being one of the pawn loan service and property mortgage service providers in Hong Kong, our practice and spirit of “professional, honorable and customer oriented” have contributed to our goodwill and success. As a listed company, it is our corporate duty to promote transparency in relation to our business operations. As such, we would like to present our Environmental, Social and Governance (“**ESG**”) Report for the year ended 28 February 2022 (this “**ESG Report**” or this “**Report**”) which highlights the operational strategies that have been carried out by us during this financial year to achieve sustainability in all aspects.

We consider corporate sustainability as the key to long-term and healthy development of our Group. As a responsible and caring corporation, we value work ethics as much as we cherish the opportunities to engage in sustainable development. For instance, we recognise our obligations to contribute to environmental sustainability, support our employees and strengthen community relations. When considering sustainability, we take into account a number of short-term and long-term factors, including but not limited to, business-related challenges, accountability to stakeholders, global trend of best practices of environmental protection, relevant laws and regulations, and risk management. We believe that the key to success in the overall approach of ESG is to ensure our management makes informed decisions through thorough and ongoing review and monitoring of the ESG issues with the participation of all stakeholders. Hence, we have included key performance indicators in this ESG Report in order to give our stakeholders and the public a more comprehensive and profound understanding of the effectiveness of the Group’s implemented operational strategies in pursuing environmental sustainability.

Nowadays, sustainability is not merely a concept, but an ultimate goal for all mankind. Oi Wah is embracing opportunities and managing risks derived from the economy, environment and society in order to meet overarching targets. We believe that upholding the value of sustainability in our business dealings will better position Oi Wah in allocating resources and benefiting our stakeholders and the community.

ABOUT THIS ESG REPORT

Oi Wah is delighted to present this ESG Report. This Report focuses on providing an overview of the environmental and social aspects of our Group, and outlines how we seek to continually improve our operational strategy in regard to our environment and society in order to cope with the global standards of sustainability.

During the process of the preparation of this Report, our Group has conducted thorough review and evaluation of its existing policies and practices. Unless otherwise stated, this Report covers the Group’s head office and all operating pawnshops.

Reporting Scope and Boundary

This Report is prepared in accordance with selected global, local and industrial standards and best practices, which include, but not limited to, the ESG Reporting Guide (the “**Guide**”) as set out in Appendix 27 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“**HKEX**”) (the “**Listing Rules**”) and any applicable accounting and financial reporting standards in Hong Kong.

In order to comply with the disclosure obligations of “comply or explain” provisions under the Guide, this Report has outlined the Group’s overall performance in environmental protection, human resources, operating practices and community involvement for the financial year from 1 March 2021 to 28 February 2022 (the “**Reporting Period**”). The Guide is set out on pages 23 to 29 for cross-referencing purpose.

This ESG Report complies with the requirements under the Guide, including but not limited to the provisions of “mandatory disclosure” and “comply or explain”, as well as the principles of materiality, quantitative, balance and consistency. In preparing this Report, we adopted the international standards and emission factors specified in the guidance materials on ESG issued by the HKEX for computing the relevant Key Performance Indicators (“**KPIs**”), and there has been no change to the methods or KPIs used or any other relevant factors affecting a meaningful comparison of this ESG report with our Group’s 2021 ESG Report. The application of materiality is detailed in the subsection below headed “Materiality Analysis”.

Oi Wah acknowledges the importance of proper disclosure of business activities, believing it as the key to building trust with investors and shareholders. For instance, this Report will highlight the following aspects:

- Emissions, Use of Resources and Generation of Waste;
- Employment and Labour Practices;
- Operating Practices; and
- Community Investment.

Information and Feedback

For details in relation to our financial performance during the Reporting Period, please visit our website: <http://www.pawnshop.com.hk> or refer to the annual report of our Group for the Reporting Period.

Your feedback and comments are our greatest motivation to improve. If you have any queries on this Report or our Group’s sustainability policies, please contact us by email at info@oiwah.com.hk.

OUR STAKEHOLDERS

As stakeholders play a crucial role in sustaining the success of our business, we make use of various communication channels to understand and engage our stakeholders. The probable points of concern of the stakeholders and the way of our communication and responses are listed below:

Stakeholders	Probable Points of Concern	Communication and Responses
HKEX	Complying with the Listing Rules, and making timely and accurate announcements.	Organising meetings, trainings, workshops and programmes, making website updates, and publishing announcements.
Government	Complying with relevant laws and regulations, preventing tax evasion, and social welfare.	Interaction and visits, government inspections, tax returns and other information.
Investors	Corporate governance, business strategies and performance, and investment returns.	Organising briefing sessions and seminars, interviews, shareholders' meetings, issue of financial reports or operation reports for investors, media and analysts.
Media & Public	Corporate governance, environmental protection, and human rights.	Issue of newsletters on the Company's website.
Customers	Service quality, service delivery schedule, reasonable prices, service value, and personal data protection.	Provision of after-sales services.
Employees	Rights and benefits of employees, compensation, training and development, work hours, and working environment.	Organising employee activities and training, conducting interviews with employees, issuing internal memos, and creating employee suggestion boxes.
Community	Community environment, employment opportunities, community development, and social welfare.	Developing community activities and employee voluntary activities, providing community welfare subsidies and making donations.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE

As a responsible corporate citizen, we value the concept of sustainability and have been actively fulfilling our corporate social responsibilities. This Report summarises the strategy, practice and vision of our Group in respect of the issues related to ESG, and conveys a clear message of our Group's devotion for sustainability. To enhance our resilience and adaptive capacity to potential ESG-related risks and opportunities, all identified potential ESG issues are covered and evaluated in the annual risk assessment.

To facilitate an effective management of the ESG issues, our Group has established a governance structure. The board of directors of the Company (the "**Board**") has an overall responsibility for overseeing the Group's ESG-related risks and opportunities, establishing and adopting the ESG-related strategies and targets of the Group including setting KPI for environmental-related issues and setting higher standards of energy efficient measures and waste treatment, reviewing the Group's performance annually against the ESG-related targets, and revising the ESG-related strategies as appropriate if significant variance from the ESG-related target is identified. Our Group has set up an ESG working group (the "**ESG Working Group**") which includes the senior management to support the Board in implementing ESG-related strategies and targets, and promoting the implementation of measures in relation to the ESG issues identified.

Based on the set goals and targets, the Board will continue to review the Group's progress in relation to ESG issues in order to build a more sustainable business and bring greater benefits for the society as a whole.

Board

The Board is responsible for the overall decision-making process and overseeing the formulation, administration, and assessment of the ESG strategies and targets.

ESG Working Group

The ESG Working Group is responsible for assisting the Board in managing and monitoring the ESG matters on a daily basis.

Functional Departments

Functional departments are responsible for the execution of measures to achieve the preset ESG-related strategies and targets.

The Board is dedicated to improving and developing the ESG strategy which is acting in best interests of our stakeholders. Under the section below headed "OUR STAKEHOLDERS", the mechanism and the idea of stakeholders' involvement in developing our ESG strategies are clearly stated.

This ESG Report was approved by the Board on 28 July 2022. For details of the corporate governance of the Company, please refer to the "Corporate Governance Report" on pages 39 to 59 of the annual report of the Group for the year ended 28 February 2022.

MATERIALITY ANALYSIS

During the annual assessment of ESG strategy and development, our Group has identified ESG issues that have potential or actual impact on its sustainable development from various sources, such as issues identified in previous ESG reports, internal policies industry trends and the Sustainability Accounting Standards Board's Materiality Map. The ESG issues have been analysed with reference to an array of factors, including our Group's overall strategy, development, and goals and targets. Our Group has conducted a materiality assessment to rate the identified ESG issues that are pertinent to its business and stakeholders, and their respective level of impact. The result of the identified material ESG issues are summarised as follows:

Vital issues

- Clients' privacy and data protection
- Anti-corruption practices management

Essential issues

- Uses of natural resources
- Environmental protection
- Employment welfare

Important issues

- Safe working environment
- Labour standard

SUSTAINABILITY APPROACH

We endeavor to incorporate materiality, quantitative, balance and consistency in the presentation of the information, as required by the HKEX. In the long run, we are committed to enriching our ESG information disclosure in order to enhance the transparency in our sustainability performance.

We take sustainability as our development principle to foster the growth of our Group. In order to uphold sustainability in our daily operations, we are committed to maintaining a high environmental standard and incorporating relevant requirements under applicable laws and ordinances into our daily practices.

ENVIRONMENTAL

Overview

As a pawn loan and mortgage loan service provider, Oi Wah mainly conducts its business activities at its head office and pawnshops. Owing to our business nature, our operations do not result in any material adverse impact to the environment. In other words, the total emissions of greenhouse gas, resources used and waste generated by us are very limited.

Nevertheless, Oi Wah values environmental sustainability and has been striving to integrate the concept into every part of its daily business operations. Even though the environmental harm caused by us might not be as significant as other industries, our Group still prioritises environmental protection and aims to mitigate any undesirable impact on the surroundings by adopting world-class environmental protection practices in our business dealings.

Oi Wah constantly reviews its own operational practices to ensure that they are in line with the concept of sustainable corporate development. To achieve the environmental goals, our Group has implemented the following measures:

- Comply with all applicable environmental laws and regulations;
- Identify, assess and mitigate all potential environmental impacts associated with the Group's activities;
- Commit leadership and develop a strong culture of environmental stewardship within the entire workforce; and
- Make resources and systems available, with provision of necessary training to empower our employees to fulfill our environmental responsibilities.

Compliance and Grievance

During the Reporting Period, we complied with all relevant environmental laws and regulations that have a significant impact on us, including but not limited to, the Waste Disposal Ordinance (Chapter 354 of the laws of Hong Kong) and the Air Pollution Control Ordinance (Chapter 311 of the laws of Hong Kong). No confirmed non-compliance incidents or grievances were noted by the Group in relation to environmental issues during the Reporting Period.

Emissions

Oi Wah's greenhouse gas ("GHG") emissions mainly generated from two types of activities, including but not limited to, indirect emissions from use of electricity for air-conditioning and lighting at its head office and pawnshops, and indirect emissions from paper consumption.

The major source of GHG emissions of our Group is from the use of electricity for business operations. Employees are encouraged to set the air-conditioning at the head office and pawnshops at the temperature of 25 degree Celsius and switch off the air-conditioners and lights when they are not in use. Our Group has also placed notices at prominent locations to raise employees’ awareness of energy conservation. Moreover, air-conditioners installed at the head office are centrally controlled by the office building, and are automatically switched off from 8 pm until 8 am of the following day.

Another main source of GHG emission of our Group is paper consumption. As a pawn loan and mortgage loan service provider, numerous classified documents are needed to be recorded by hardcopy. To minimise paper consumption and disposal, our employees are encouraged to adopt double-sided printing and reuse single-side-printed paper for non-classified documents. With these measures, our Group endeavors to cultivate energy-saving habit among its employees and contribute to energy conservation.

On top of the abovementioned sources, our Group also owns motor vehicles for transporting our management team members, guests and clients. The use of motor vehicles did not give rise to material GHGs emission, therefore was not included in the calculation of total GHGs emissions. All of our motor vehicles are running on unleaded automotive fuel, which is, in comparison to other fuels, cleaner and emitting less pollutants into the air. Furthermore, all motor vehicles owned by our Group are under regular maintenance to enhance fuel consumption efficiency, ensure road safety and keep carbon dioxide emissions at a minimum.

Scope of Greenhouse Gas Emission	Emission Sources	Year ended 28 February 2022 (tonnes)		Year ended 28 February 2021 (tonnes)	
		Emission (in tonnes of CO2)	Emission per employee (tonnes of CO2/employee)	Emission (in tonnes of CO2)	Emission per employee (tonnes of CO2/employee)
Scope 1					
Direct Emission	N/A				
Scope 2	Purchased				
Indirect Emission	Electricity	72.880	1.46	76.226	1.49
Scope 3	Paper				
Other Indirect Emission	Consumption	2.597	0.05	2.613	0.05
Total emission of GHG		75.477	1.51	78.839	1.54

The decrease in emission of GHG was mainly caused by the drop in electricity used during the year. For more details, please refer to the section below headed “Electricity and Energy Usage”. To uphold the principles of sustainable development, the Group is committed to reducing or maintaining the total GHG emission intensity between 90% to 120% of the level of baseline year ended 28 February 2022 in the next reporting period.

Use of Resources

We always endeavor to promote sustainability and aim to cease resources wastage that provokes detrimental harm to the environment. Various measures have been implemented to attain the goal of using resources efficiently. These measures have been effectively communicated to all levels of staff, ensuring that all employees understand clearly the importance of conserving energy and making full use of the available resources during work.

Due to the business nature of Oi Wah, the consumption of water, electricity and other natural resources is minimal. The measures taken to minimise the usage of resources are stated below:

Water Usage

Since Oi Wah's business does not involve production, the total water consumption of our Group is low, thus there is no issue in sourcing water. The usage is mainly from the daily use of water by staff members at the head office and pawnshops during office hours. Manual taps are installed at offices to lessen the use of water. Owing to our business nature, the water consumption at our office and pawnshops were minimal and immaterial, hence we did not record the total water consumption and intensity during the Reporting Period. During the Reporting Period, no sewage was recorded and only harmless waste water was discharged to pipes.

Electricity and Energy Usage

In consideration of the potential environmental threats to the communities, our Group has made steady progress in reducing its carbon footprints across various business units. The following are the measures adopted by our Group to preserve energy and electricity:

- Turn off unused lighting and appliances to reduce energy consumption;
- Turn off air conditioners and lights during non-office hours and/or in idle rooms;
- Employees are required to switch the computers and other devices into sleeping mode or turn them off when they are not in use (such as during customer visit and lunch time) during business hours;
- Regular maintenance of office equipment such as air conditioners, computers, lights, refrigerators, etc. to ensure they are operating efficiently;
- Printing machine in the head office is set at energy-saving mode by default, and the sleeping mode is automatically turned on, if not in use for a certain time interval so as to reduce unnecessary energy consumption; and
- Used printer cartridges at the head office are sent back to the manufacturers for recycling.

Our electricity consumption for the Reporting Period was approximately 142,008 kWh (2021: 151,597 kWh), and electricity consumption per average employee was approximately 2,840.16 kWh (2021: 2,972.49 kWh). The electricity consumption has decreased by approximately 6% compared with last year, which mainly attributable to the shortened opening hours of pawnshops due to serious outbreak of the coronavirus diseases 2019 (“COVID-19”) during the Reporting Period. To uphold the principles of sustainable development, the Group is committed to reducing or maintaining the intensity of electricity consumption between 90% to 120% of the level of baseline year ended 28 February 2022 in the next reporting period. As a responsible corporate citizen, we will continue to encourage our employees to reduce energy consumption and avoid unnecessary electricity usage.

Generation of Waste

The solid waste generated by Oi Wah is mainly from day-to-day operations, including but not limited to, office-use paper, office waste and plastic bags used in pawnshops for sealing collateral. In order to alleviate the pressure on landfills and promote environmental friendliness within our Group, Oi Wah has implemented various measures to encourage recycling office supplies and other materials, eliminating over-consumption of unnecessary products, and prioritising waste avoidance, reuse and recycling over disposal.

During the Reporting Period, we complied with all relevant laws and regulations in relation to the generation of hazardous and non-hazardous waste that have a significant impact on us, including but not limited to, the Waste Disposal Ordinance (Chapter 354 of the laws of Hong Kong). No confirmed material non-compliance incidents or grievances in relation to generation of hazardous and non-hazardous waste were noted by us during the Reporting Period.

As the Group is a financing services provider, the Group did not produce any tangible products that require packaging during the Reporting Period, hence no packaging materials were used in this regard.

The Group did not produce any hazardous waste during the course of its daily operations. The total amount of non-hazardous waste produced by the Group during the current and previous reporting period are stated below:

Total non-hazardous waste generated

Emission Source	Year Ended 28 February 2022 (tonnes)	Year Ended 28 February 2021 (tonnes)
Paper	0.541	0.544
Plastic Bag	0.061	0.042
Total weight	0.602	0.586
Non-hazardous waste generated per employee (tonnes/employee)	0.012	0.011

The total amount of non-hazardous waste generated by the Group during the Reporting Period increased by approximately 3% compared with last year, due to the bulk purchase of plastic bags during the year. Normally, bulk purchase of plastic bags would take place every 18 to 24 months. To uphold the principles of sustainable development, the Group is committed to reducing or maintaining the intensity of total non-

hazardous waste generated between 90% to 120% of the level of baseline year ended 28 February 2022 in the next reporting period.

The following measures were adopted by our Group during the Reporting Period to minimise waste generation:

Reduction of printing and paper usage

We require our staff members to make full use of office paper before disposal. Various measures have been incorporated into our business operations, such as adopting the use of environmental friendly paper and promoting the use of double-sided printing. For any single-sided printing, the relevant paper should be reused under the circumstances that no confidential information was printed on the paper. We will continue to leverage the use of technology for communication with our employees and customers and to move towards paperless operations.

Minimising the use of plastic bags

It is our business practice to seal collateral with plastic bags to avoid stealing or using collateral without permission. From the perspective of environmental protection, it is undoubtedly true that the use of plastic bags will cause devastating harm to the environment. However, from a security perspective, in order to make our customers feel confident that their properties are properly kept by us, the use of plastic bags for every pawn loan trade is inevitable. Even though the practice has a justifiable aim, it could not obliterate the harm that it does to the environment. Therefore, employees are always reminded to only use plastic bags when necessary.

Climate Change

Our Group reviews and identifies climate-related risks annually while conducting annual risk assessments. We have considered potential climate-related risks in respect of the recommendations of the Task Force on Climate-related Financial Disclosure, which consist physical risks such as acute extreme weather conditions, chronic sustained high temperature, and transition risks such as regulatory change on environmental matters. the identified potential climate-related risks are summarised as below:

Risk Type	Risks	Potential Financial Impact	Short (current reporting period)	Medium (one to three years)	Long (four to ten years)	Mitigation Strategy
Physical Risks	<ul style="list-style-type: none"> • Extreme weather conditions such as flooding and typhoon 	<ul style="list-style-type: none"> • Reduced revenue from business disruptions 	√	√		<ul style="list-style-type: none"> • Established adverse weather condition policy
	<ul style="list-style-type: none"> • Sustained elevated temperature 	<ul style="list-style-type: none"> • Increase in operating costs for cooling 	√	√		<ul style="list-style-type: none"> • Adopted energy conservation measures
Transition Risks	<ul style="list-style-type: none"> • Changes in environmental-related regulations 	<ul style="list-style-type: none"> • Higher operating costs to comply with new regulations 		√	√	<ul style="list-style-type: none"> • Adopted energy conservation measures to reduce emissions • Continues to monitor the regulatory environment to ensure that the Group meets the expectations of regulatory authority and complied with the environmental-related law and regulation

SOCIAL

Employment and Labour Practices

As getting the right person for the right job by understanding employees' personality traits and unique talents is the cornerstone to a company's success, we regard our employees as one of the most valuable assets of our Group and we focus on building a safe and pleasant working environment for all employees. As such, we offer attractive remuneration packages as well as provide many internal and external training opportunities to our employees so as to attract, motivate and retain the right people.

We have a set of comprehensive human resources policies which details all the procedures regarding compensation and dismissal, recruitment and promotion, working hours, rest periods, equal opportunity, diversity, anti-discrimination, and other benefits and welfare. The relevant policies for employment and labour practices are listed as follows:

Compliance and Grievance

During the Reporting Period, we complied with all relevant laws and regulations in relation to employment that have a significant impact on us. No confirmed non-compliance incidents or grievances were noted by the Group during the Reporting Period.

Employment

We strictly complied with all relevant laws and regulations in relation to employment that have a significant impact on us, including but not limited to, the Employment Ordinance (Chapter 57 of the laws of Hong Kong), the Minimum Wage Ordinance (Chapter 608 of the laws of Hong Kong) and the Employees' Compensation Ordinance (Chapter 282 of the laws of Hong Kong). Our Group has a set of human resources policies and procedures that sets out the Group's standard internal procedures relating to recruitment and promotion, working hours, holidays, equal opportunities, compensation and dismissal, diversity of the origins of our employees, anti-discrimination and other human resources treatments and benefits, etc., to provide a standardised and comprehensive guideline on work practice for employees.

As at 28 February 2022, Oi Wah employed 50 (2021: 51) full-time employees who are all Hong Kong citizens. Our Group has a diverse workforce in terms of gender, age and skill sets.

The breakdowns of the Group's workforce by type of employment, gender, age group and region as at 28 February 2022 are as follows:

Employee Workforce	
Total workforce	50
Type of employment	
Full time	50
Breakdowns by gender	
Male	40
Female	10
Breakdowns by age group	
< 25	–
25 – 29	2
30 – 39	6
39 – 49	10
> 50	32
By Geographical Region	
Hong Kong	50

Attracting and retaining talents

Oi Wah's remuneration policies are in line with the prevailing market practices. Remunerations are determined on the basis of the competency, qualifications and experience of individual employees. Our management has been constantly reviewing the staff remuneration packages and employees' promotion opportunities. Adjustments will be made, usually annually, to conform to the market standards in order to retain talents and ensure the remuneration packages are competitive as compared to other competitors in the industry. A standard package includes basic salary, the Mandatory Provident Fund and variable incentive-based remunerations which are offered based on each individual employee's performance.

Welfare and benefits

To increase our employees' sense of belonging, we have offered various welfare and benefits to our employees. For instance, employees are entitled to all public holidays as well as paid leave in accordance with the Employment Ordinance and their job level. In addition, we offer medical insurance, over-time allowance and lunch allowance to our employees. At Oi Wah, we encourage our staff to attend external training to enhance their work skills and job satisfaction and any costs incurred are reimbursed by the Group.

Our Group also conducts a series of activities every year to promote the Group’s corporate culture among our employees. During the Reporting Period, we organised an annual dinner and several gatherings for our employees to mingle and have fun. We also understand and respect our employees’ roles and responsibilities to their families, and are committed to supporting them and strive to maintain a family-friendly working environment by implementing various policies. For example, we offer school textbook subsidies to married employees with children to ease their financial burden.

Details of the employee turnover rates for the year ended 28 February 2022 are as follows:

Employee Turnover Rates	
Total	6%
By Gender	
Male	8%
Female	–
By Age Group	
<25	–
25-29	–
30-39	17%
40-49	–
> 50	3%
By Geographical Region	
Hong Kong	6%

Anti-discrimination and integrity

Our Group strives to create a fair and impartial working environment where all employees are treated equally and respectfully. all kinds of discrimination or harassment based on the employees’ gender, age, marital status, race, sexual orientation and religion at our workplace is strongly prohibited.

We always listen and respond to the requests from our employees. It is the goal of our Group to create a friendly and peaceful working environment. We encourage our employees to provide feedback in relation to any employment-related matters, especially when they encounter any unpleasant or undesired treatment from colleagues or the senior management. Employees may report such issues to their department head and lodge a formal complaint. If any unfair treatment or harassment is found and confirmed, the Group will issue a warning letter in writing to the employee who is responsible for such misconduct and may dismiss him or her depending on the seriousness of the incident.

Health and Safety

We aim to provide a safe and healthy working environment to our employees, and encourage them to achieve a balance between work and a healthy lifestyle. Oi Wah complies with the relevant laws and regulations in relation to safety, as well as hygiene and health. During the Reporting Period, we complied with all relevant laws and regulations in relation to providing a safe working environment and protecting employees from occupational hazards that have a significant impact on us. Apart from employees' compensation insurance, we provide other fringe benefits to our employees, such as medical cover. Our Group's business operations do not involve any high-risk work activities that could lead to serious industrial safety events or occupational health problems. Employees mainly work in the office and are less likely to encounter work-related accidents. During the Reporting Period, the Group (i) recorded zero case of work-related injury (2021: Nil; 2020: 1 work related injury which caused 47 lost working days) and (ii) recorded no work-related fatalities (2021: Nil; 2020: Nil).

In addition, our Group has implemented the following measures to create and maintain a comfortable, safe and healthy work environment for our employees:

- Keep all emergency exits in the workplace unobstructed;
- Provide sufficient lighting at the workplace;
- Prohibit smoking in the workplace; and
- Conduct regular safety inspections and fire drills.

In the midst of the COVID-19, our Group has implemented all practicable preventive and protective measures to minimise occupational risk, including but not limited to encouraging the employees to wear surgical mask and remain social distancing, when necessary, and provision of sanitisers and fast-test kits to employees upon their request. Our Group will pay close attention to the latest development and regularly reviews the measures implemented to ensure such measures are effective.

Development and Training

We believe that investing in employee training and development will help promote job satisfaction, work motivation and staff loyalty. Every year, our Group selects a number of staff members from different pawnshops and sponsors them to attend a gemology course. Moreover, different types of on-job training were provided to employees to make sure that all staff members are equipped with updated information, sufficient knowledge and appropriate skills to provide quality services to our customers.

Orientation training sessions were provided to newly recruited staff members. The training covered the introduction of our Group, their own department structure, responsibilities, required skills and working instructions. Moreover, on-the-job-training was provided to make sure that all staff members possess sufficient knowledge and skills to provide quality services to the customers such as skills to identify the value of pawn. As the said trainings were provided to all staff members on a regular basis, no record was collected. Trainings were also provided to the directors of the Company (the “**Directors**”), the average hours of training completed per Director during the Reporting Period was approximately 1.6 hours.

The chief executive of the Company (the “**Chief Executive**”) conducts training in respect of mortgage loan procedures and other risk management measures for staff members engaged in the money lending business segment. For pawnshops, the Chief Executive holds meetings with the pawnshop managers to discuss the latest valuation methods in pawn so that the staff members are well-trained with the valuation techniques for different types of collateral.

Moreover, employees are encouraged to attend external training courses and seminars that help them gain knowledge in the fast-changing business world, such as updates on the Listing Rules and corporate governance practices, as well as changes and development of relevant laws and regulations. All fees incurred from the courses or seminars are sponsored by the Group.

Labour Standards

We are committed to complying with the Employment Ordinance and other relevant laws and regulations in relation to employees’ protection and benefits. Every employee is subject to a stringent internal review process that involves a well-established procedure to verify a candidate’s personal information, in order to avoid misrepresentation and involvement of any form of child labour. For instance, the staff member responsible for recruitment collects the identity proof from the candidates to ensure that the age of the candidates fulfill the requirements as stipulated by the applicable laws and regulations.

The employment of forced and child labour is strictly prohibited within our Group. If our management discovers there is any employment of forced or child labour, we will immediately terminate the employment with the employee concerned. During the Reporting Period, all employees were over the age of 18, and had been properly employed in accordance with the requirements of all applicable laws and regulations. No confirmed non-compliance incidents or grievances were noted by the Group during the Reporting Period.

Operating Practices

Supply Chain Management

Since Oi Wah is a service provider for mortgage loans and pawn loans, our business does not involve any material supplier.

Product Responsibility

At Oi Wah, our primary focus is to provide high quality services to our customers. We value the importance of confidentiality of our customers by protecting their personal information. We carefully undertake assessments on the source, condition and value of the collateral. For advertising, we strictly comply with all relevant laws and regulations so as to avoid conveying any incorrect messages to the public.

During the Reporting Period, we complied with all relevant laws and regulations, and no complaints were received in relation to our services provided. No non-compliance issues or grievances were noted by the Group.

Privacy Matters

In order to build customer trust and loyalty, we have set out rules to reduce the risk of employees leaking confidential information. For instance, employees are required to sign a non-disclosure agreement, which is attached to their own employment contract, on their first day of work. It clearly states the procedures for employees to handle the data of the customers and the Group. This is to ensure our employees fully understand their responsibilities and duties in order to safeguard the interests of our customers and our Group.

The aforementioned non-disclosure agreement specifies the content and scope of confidentiality, obligations of the employees, and potential liability for the breach of agreement. Disclosing or copying any of the Group's trade secret without the consent from our management is strictly prohibited. If there is any employee who has been discovered of misappropriating customer's private data, the Group will dismiss the employee concerned and reserve the right to legal proceedings.

Moreover, our Group has engaged a third-party information technology service provider to build a server for securing customer information. Only authorised employees are able to gain access to and change client information in the server. The server is constantly monitored by the information technology service provider to prevent and detect any unauthorised access.

Since our Group has access to the personal data of its customers, it is important for us to ensure the privacy of customer information. Our Group continues to monitor, review and, when necessary, update its privacy principles and policies to ensure they are in compliance with all relevant laws and regulations. During the Reporting Period, the Group complied with all relevant law and regulations in relation to data protection, including but not limited to the Personal Data (Privacy) Ordinance (Chapter 486 of the laws of Hong Kong). No confirmed non-compliance incidents or grievances were noted by the Group during the Reporting Period.

Customer Care

We hope our clients have an enjoyable experience during their visit to Oi Wah and are satisfied with our services. As such, training is provided to our employees to refresh their memory and knowledge on the appropriate procedures when dealing with customer queries, as well as all the requirements and usual practices applicable to mortgage loan and pawn loan services. During the Reporting Period, the Group did not receive any complaints (2021: Nil). We will continue to improve our products and maintain good customer relations in the future.

For our pawn loan business, we are required to conduct careful inspection and examination in order to accurately assess the value of the collateral received from our clients. The examinations are usually conducted by qualified and experienced professionals to ensure that the collateral is correctly valued according to their categories and conditions. We bear no responsibilities for the goods to be sold, the buyers are allowed to conduct their own examinations freely in order to ensure that they are satisfied with the quality and price of the pawn goods purchased.

All collateral is securely kept in sealed plastic bags which are specifically designed for storing the collateral. Customers are requested to sign their names on a tape which are used to seal the plastic bag. Since the sealed plastic bag cannot be opened without removing the tape, it ensures that the collateral is properly kept by us and will not be misused by any of our staff members. The collateral that is properly sealed in plastic bags will be handed over to our customers when the collateral is redeemed.

For the mortgage loan services, we provide a one-on-one service to our customers and design a loan repayment schedule which best suits the needs of our customers. Good customer service is essential in maintaining long-term relationships with our customers. The mission of our customer service emphasises the provision of quality services, effective communication and responsive solution. The interests of our customers are placed at top priority.

Advertising

Our Group recognises the importance of compliance with regulatory requirements. During the Reporting Period, we complied with all relevant laws and regulations in relation to advertising that have a significant impact on us, including but not limited to, the Money Lenders Ordinance (Chapter 163 of the laws of Hong Kong).

Our Group has strictly complied with the applicable advertising requirements. Any advertisement published by us contains our telephone hotline for handling complaints and a risk warning statement as “You have to repay your loans, but don’t pay any intermediaries”. All final drafts of the advertisement must be approved by our management before bulk printing.

During the Reporting Period, no confirmed non-compliance incidents or grievances were noted by the Group.

Intellectual Property Rights

Our Group has a registered trademark in Hong Kong which is important to our business. We regularly monitor whether our trademark is being infringed. We are committed to protecting intellectual property rights which we handle with great care during the course of our daily operations.

During the Reporting Period, there were no cases regarding copyright infringement reported within the Group. The Group has strictly complied with the relevant laws and regulations.

Anti-corruption

We understand clearly that financial crime may have significant consequences to our customers and us. As the community and the economies in which we operate can be greatly impacted, we are committed to participating in industry-wide efforts to address the issues of corruption, bribery and money laundering.

We maintain and implement our own anti-money laundering, counter-terrorist financing, anti-bribery, anti-corruption and anti-fraud practices and procedures. We do not support, nor tolerate, any corrupt practices and making or receiving of bribery payments. We have established a clear policy to guide our employees in this regard. In addition, the employment contracts of our employees include the code of conduct for them to follow. In our workplace, in order to maintain a high standard of integrity and impartiality, we encourage our employees to report any suspected corrupt practices. The whistle-blower's identity will always remain anonymous and be protected throughout the investigation. If any of the employees are found breaching the code of conduct, we will immediately terminate the contract of the employee concerned, and reserve our right to take necessary legal actions. During the Reporting Period, the Group has provided orientation to the new employee in relation to business ethics including anti-corruption. Our Group will closely monitor the regulatory development and will arrange relevant anti-corruption trainings for our employees and directors, where necessary.

During daily business operations, we perform relevant due diligence on all customers. We verify the customer's identity by reference to documents or information provided by reliable and independent sources. Personal documents, including ID/passport, driving license etc., will be obtained before entering into any business relationships with our customers. All the information and records are well maintained to meet the record-keeping requirements. The Company's anti-money laundering guideline has clear statements to guide the employees to identify suspicious money-laundering behaviour and to ascertain the background of the customers, as well as providing channels for reporting suspicious transactions. Under the current practice, the Company's compliance officer is responsible for overseeing all money laundering activities. When it comes to the attention of the employees that a customer may be involved in any money laundering activities, the Company's money laundering reporting officer would determine whether it should be reported to the Joint Financial Intelligence Unit.

We continuously review and monitor the relevant guidelines or other applicable circulars to ensure effectiveness and compliance with current statutory and regulatory requirements. We monitor our business relationships with our customers by reviewing documents and transactions with our customers from time to time.

During the Reporting Period, we complied with all relevant laws and regulations that have a significant impact on us, including but not limited to, the Prevention of Bribery Ordinance (Chapter 201 of the laws of Hong Kong) and no corruption or bribery incidents were reported within the Group (2021: Nil). During the Reporting Period, there were no concluded legal cases regarding corrupt practices brought against the Group or its employees (2021: Nil).

Community Investment

We understand the importance of giving back to the society. We aim to create a positive impact in the community we operate through cooperating with different organisations, promoting employee voluntary services and donation. Therefore, we encourage our employees to take part in community services to foster a more sustainable and harmonious society. We wish to be more focused on helping the underprivileged/vulnerable group and elderlies.

During the Reporting Period, the Group had not organised any community and charity activities or made any donation (2021: HK\$100,000) to charity organisation due to the COVID-19 pandemic and public health concerns. Our Group will explore volunteer opportunities and organise relevant activities in the future after the COVID-19 situation are improved and restrictions are lifted.

HKEX ESG REPORTING GUIDE CONTENT INDEX

KPI	Environmental, Social and Governance Report	Disclosed in	Remarks
A.	Environmental		
	Aspect A1: Emissions		
	General Disclosure Information on:	Environmental
