REASONS FOR LOAN CAPITALISATION

The principal activity of Company is investment holding and the principal activities of its subsidiaries include but not limited to manufacturing and sales of outdoor wooden products, manufacturing and sales of renewable energy products.

The Directors believe that it is in the interests of the Company to convert and capitalise the remaining outstanding amount under the Bonds owed by the Company to the Subscribers which will mature on 29 August 2022 into share capital as the Loan Capitalisation can reduce cash outflow from the Company. The Board also considers that the Loan Capitalisation will enlarge the capital base of the Company and will reduce the gearing level of the Group thereby strengthening the financial position of the Group. It is not expected that the Loan Capitalisation will have any material impact to the operation and financial position of the Group.

The Directors consider that the Subscription Agreements are entered into upon normal commercial terms following arm's length negotiations between the parties to the Subscription Agreements and that the conditions and terms of the Subscription Agreements are fair and reasonable and are in the interests of the Shareholders as a whole.
