#### 1.1 Accounting Policies

The condensed consolidated interim financial statements are prepared in accordance with Hong Kong Accounting Standard No. 34 "Interim Financial Reporting". The accounting policies and basis of preparation adopted are consistent with those adopted in the Company's financial statements for the year ended 31st December, 2021 except for the adoption of the following revised Hong Kong Financial Reporting Standards ("HKFRSs") and Hong Kong Accounting Standards ("HKASs") for the first time for the current period's financial information and as disclosed below.

Amendments to HKFRS 3

Amendments to HKAS 16

Amendments to HKAS 16

Amendments to HKAS 37

Annual Improvements to HKFRSs 2018-2020

Reference to the Conceptual Framework

Property, Plant and Equipment: Proceeds before Intended Use
Onerous Contracts – Cost of Fulfilling a Contract

Amendments to HKFRS 1, HKFRS 9, Illustrative Examples accompanying HKFRS 16, and HKAS 41

Amendments to HKFRS 3 are intended to replace a reference to the previous Framework for the Preparation and Presentation of Financial Statements with a reference to the Conceptual Framework for Financial Reporting issued in June 2018 without significantly changing its requirements. The amendments also add to HKFRS 3 an exception to its recognition principle for an entity to refer to the Conceptual Framework to determine what constitutes an asset or a liability. The exception specifies that, for liabilities and contingent liabilities that would be within the scope of HKAS 37 or HK(IFRIC)-Int 21 if they were incurred separately rather than assumed in a business combination, an entity applying HKFRS 3 should refer to HKAS 37 or HK(IFRIC)-Int 21 respectively instead of the Conceptual Framework. Furthermore, the amendments clarify that contingent assets do not qualify for recognition at the acquisition date. The Group has applied the amendments prospectively to business combinations that occurred on or after 1st January, 2022. As there were no contingent assets, liabilities and contingent liabilities within the scope of the amendments arising in the business combination that occurred during the period, the amendments did not have any impact on the financial position and performance of the Group.

#### 1.1 Accounting Policies (continued)

Amendments to HKAS 16 prohibit an entity from deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling any such items, and the cost of those items, in profit or loss. The Group has applied the amendments retrospectively to items of property, plant and equipment made available for use on or after 1st January, 2021. Since there was no sale of items produced while making property, plant and equipment available for use on or after 1st January, 2021, the amendments did not have any impact on the financial position or performance of the Group.

Amendments to HKAS 37 clarify that for the purpose of assessing whether a contract is onerous under HKAS 37, the cost of fulfilling the contract comprises the costs that relate directly to the contract. Costs that relate directly to a contract include both the incremental costs of fulfilling that contract (e.g., direct labour and materials) and an allocation of other costs that relate directly to fulfilling that contract (e.g., an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract as well as contract management and supervision costs). General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract. The Group has applied the amendments prospectively to contracts for which it has not yet fulfilled all its obligations at 1st January, 2022 and no onerous contracts were identified. Therefore, the amendments did not have any impact on the financial position or performance of the Group.

Annual Improvements to HKFRSs 2018-2020 sets out amendments to HKFRS 1, HKFRS 9, Illustrative Examples accompanying HKFRS 16, and HKAS 41. Details of the amendments that are expected to be applicable to the Group are as follows:

- HKFRS 9 Financial Instruments: clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. The Group has applied the amendment prospectively to financial liabilities that are modified or exchanged on or after 1st January, 2022. As there was no modification of the Group's financial liabilities during the period, the amendment did not have any impact on the financial position or performance of the Group.
- HKFRS 16 Leases: removes the illustration of payments from the lessor relating to leasehold improvements in Illustrative Example 13 accompanying HKFRS 16. This removes potential confusion regarding the treatment of lease incentives when applying HKFRS 16.

#### 1.2 Restatement

# (i) <u>Correction of classification from equity investments designated at fair value through other comprehensive income ("FVOCI") to interests in associates</u>

In prior periods, the Group classified its investments in PT Asian International Investindo, Robina Manila Hotel Ltd. and Yangon Hotel Holdings Ltd. as equity investments designated at fair value through other comprehensive income. In substance, the Group has taken, and continues to take, the role of a passive investor since inception. Management had no intention, and had not exercised, its rights to participate in the financing or operating policies of these investees. However, in accordance with HKAS 28, the Group is deemed to have, in form, significant influence and therefore these investees should be classified as interests in associates. This has been corrected as a prior period adjustment and the effect of which is summarised below:

Proposed interim dividend:

The Board has resolved to pay an interim dividend of HK1.5 cents per share (2021: HK4.0 cents), which will be paid in cash, for the six months ended 30th June, 2022 payable on or about 7th October, 2022 to shareholders whose names appear on the Register of Members of the Company on 22nd September, 2022.

# 8. Earnings Per Share Attributable to Ordinary Equity Holders of the Company

The calculation of the basic earnings per share is based on the profit for the period attributable to ordinary equity holders of the Company of HK\$29,752,000 (2021 restated profit: HK\$322,582,000) and the weighted average number of ordinary shares of 938,926,000 (2021: 942,972,000) in issue during the period.

No adjustment has been made to the basic earnings per share amounts presented for the periods ended 30th June, 2022 and 2021 in respect of a dilution as the Group had no potentially dilutive ordinary shares in issue during those periods.

#### 9. Insurance Receivables

	30th June, 31st December,	
	2022	2021
	HK\$'000	HK\$'000
Amounts due in respect of:

	327,367	223,708
Less: Impairment allowance	_(12,347)	(8,264)
	315,020	215,444

The Group grants credit terms of three months to six months on billed policies. The past settlement history of these receivables indicates that certain debtors settle in arrears subsequent to the credit period, which may also involve settlement subsequent to 12 months from the end of the reporting period.

The Group's insurance receivables relate to a large number of diversified customers, and therefore, there is no significant concentration of credit risk. Insurance receivables are non-interest-bearing.

An aging analysis of the insurance receivables based on the issuance date of policies, as at the end of the reporting period, is as follows:

	30th June,	31st December,
	2022	2021

#### **Management Discussion and Analysis**

(All changes in % refer to the same period last year)

Profit attributable to equity holders of the Company: HK\$29.8 million -90.8%

Earnings per share: HK3.2 cents -90.6%

Interim dividend per share: HK1.5 cents -62.5%

Asia Financial Holdings Limited ("Asia Financial", "The Group" or "The Company") recorded a net profit attributable to shareholders of HK\$29.8 million in the first half of 2022, representing a 90.8% decrease compared with the same period in 2021. The main contributing factors were lower valuations in portfolio investments, and overall decrease in contributions from our joint ventures and associates. This was slightly offset by underwriting profits from our core insurance business.

In spite of the coronavirus pandemic and its associated economic impact, our core businesses showed reassuring resiliency. With a solid and mature core insurance business, our current underwriting revenue and profits remain stable and growing. We are fortunate to enjoy customer confidence in the marketplace, due to our long-term and unwavering commitment to the Hong Kong and Macau insurance markets. This will be an asset to us as we continue to face challenges on the path to global economic recovery.

Asia Financial's prospects for the second half of 2022 will continue to be affected by the pandemic crisis, geopolitical conflict, rising inflation and interest rates, and their unpredictable impact on the performance of global equity markets and on global economies in general. Despite potential economic headwinds, we remain cautiously optimistic about the outlook for our businesses. We will continue with our conservative but flexible core investment approach in the pursuit of long-term growth in shareholder value.

#### **Economic Background**

Normalization of the global economy showed signs of weakness in the first half of 2022. Coming off 5.7% growth in 2021, GDP forecasts have been lowered to 2.9% for 2022. Supply chain disruptions and the Russian-Ukraine war have contributed to rising inflation, compounding damage from the COVID-19 pandemic. The economic slowdown has also been exacerbated by rising interest rates and withdrawal of fiscal and monetary policy accommodation.

Hong Kong's economic recovery was hampered by stringent social distancing measures imposed during the fifth wave of COVID-19 in the first four months of 2022. Unemployment surged to 5.4% for four months ended April, and year-on-year GDP declined 4.0% in the first quarter.

#### **Economic Background** (continued)

China's economy is projected to slow in 2022 with GDP growth of 4.3% according to the World Bank forecast, as it faces dual challenges of balancing COVID-19 mitigation with supporting economic growth.

The US stock market has seen big declines and remains in negative territory for the first half of the year, with the S&P 500 down 20.6% year-to-June which is an expected adjustment following the recent bottom in the last two years when central banks implemented unprecedented economic stimulus to offset the pandemic impact. The US economy now faces multiple challenges such as high inflation, rising interest rates and growing concerns about corporate profits and economic growth.

The Hang Seng Index is also in negative territory, down 6.6% year-to-June and H-share Index down 6.9%. The H-share Index decline has been due in large part to China's regulatory tightening on industries, which dampened market sentiment.

#### **Management Approach and Future Prospects**

The global and regional economic picture in mid-2022 remains uncertain and difficult to predict due to underlying risks. Asia Financial's prospects for the second half of 2022 will continue to be affected by the pandemic, prolonged border closure and the global economic environment. We expect more volatility in markets due to risks of pandemic outbreaks, inflationary pressure, tapering of stimulus, and increased geopolitical tensions. We will be closely monitoring the risks and maintain a prudent portfolio investment strategy accordingly.

Despite potential economic headwinds, we remain cautiously optimistic about the outlook for our businesses. We will continue with our conservative but flexible core investment approach in the pursuit of long-term growth in shareholder value.

The current outlook for our insurance operations is positive, with our strong distribution network and market positioning helping us to perform well despite the challenging economic situation and a crowded market. We will continue to review and optimize our mix of business segments. We are also further developing our distribution capacity and product range to meet the demands of our customers.

At this time of global challenge in our industry and the world, our company's reputation and stability are an advantage in an uncertain and volatile marketplace. The region is undergoing a major transformation involving the rise of large middle classes, gradually ageing societies and greater use of market-based solutions to demographic and other policy challenges. In this changing environment, Asia Financial is well-positioned for steady and successful growth.

#### **Management Approach and Future Prospects** (continued)

This is the long-term environment on which Asia Financial's management focuses. We aim to continue building on our interests in livelihood-related service industries such as insurance, retirement, health and property development, focused on Hong Kong and Greater China. Our investment spheres fit well with our traditional expertise and networks of clients and partners, and as a whole are well-positioned to benefit from long-term economic and social trends. In considering ways to build upon this base, we will adhere to this fundamental approach and exercise patience and caution.

#### **Business Review**

#### Insurance

Wholly owned subsidiary, Asia Insurance Company, Limited ("Asia Insurance") achieved net profit attributable to shareholders of HK\$101.6 million in the first half of 2022, a 41.0% decrease compared with the same period in 2021.

Despite the pandemic's impact on our clients' businesses, our turnover for the first half of 2022 rose by 5.0% over the same period in 2021, an extraordinary testimony to our company's service, reputation and client confidence.

Asia Insurance has been successful in its diversification strategy of developing new business channels, new products and new business partners. We maintained most of our existing profitable businesses, while adding new business from diverse sectors such as reinsurance and online insurance.

Underwriting profit increased by 44.9% over the same period in 2021. Our fundamental underwriting profit trend remains healthy and stable, and we remain among the top performers in the Hong Kong insurance industry, with a S&P rating of A (All the above figures are before elimination of group transactions.).

The rise in Asia Insurance's costs in 2022 was in line with the company's continued business expansion and investment in user and backend systems. There was no exposure to major catastrophe during the period. Asia Insurance further expanded its distribution network through new agents and brokers and online digital channels. We have smoothly launched novel online platforms with banking and life insurance partners.

The outlook for Asia Insurance's core underwriting activities in both Hong Kong and Macau looks positive though challenging for the second half of 2022 and beyond. We see risks and issues brought by prolonged border closure, including a contraction in clients' businesses and elevated client cost-consciousness.

#### <u>Insurance</u> (continued)

We will continue to utilize our risk management expertise to focus on quality business, and to optimize the mix of business segments while spreading risk. We are confident that our strengths in these areas will ensure continued healthy underwriting profitability.

Looking ahead, we also anticipate possible opportunities arising from the central government's "Greater Bay Area" plan to further integrate Pearl River Delta regions. Additionally, in the wake of COVID-19 both individuals and corporates are increasingly aware of the need for insurance coverage, a trend that will add traction to our core business and support our market growth.

In anticipation of future trends in client needs and market conditions, Asia Insurance is actively working on significant innovations to our product range, ongoing upgrades to employee skills, and enhancing systems and distribution capacity.

In general, Asia Insurance expects to continue to build on its status as a leader in Hong Kong's general insurance market with an outstanding reputation for service and professionalism.

We recorded both realised and unrealised losses in our investments. Joint ventures and associates in the insurance segment turned a overall higher profit in the first half of 2022. Hong Kong Life Insurance Limited saw an increase in profit, while BC Reinsurance Limited and Professional Liability Underwriting Services Limited enjoyed a stable profit.

PICC Life Insurance Company Limited ("PICC Life"), in which Asia Financial has a 5% stake, continues to take advantage of its opportunities as a company with a nationwide licence. At the time of writing, interim results are still awaited. The company maintains a healthy position in the China market, with a substantial network of offices.

However, the pandemic and related economic fallout along with geopolitical risk and trade tensions make the outlook for the rest of the year uncertain. We will maintain a sensible and watchful approach towards portfolio management.

#### **Business Review** (continued)

#### Other Portfolio Investment

Trading investments posted declines in the first half of 2022 due to downturns in major stock markets. We have calibrated our portfolio in line with market changes, and will continue to monitor and adjust to continuing market fluctuations. Dividend income from long-term strategic investments was stable.

Our portfolio will remain focused on high-quality equities and fixed-income investments, and our approach will be long term rather than reactive to year-on-year fluctuations in market valuations. We will continue to place the highest priority on preservation of core shareholders' wealth. At the same time, we will remain alert to potential new long-term opportunities arising from major developments in the global environment and changes in consumer trends post-COVID-19.

#### **Health Care and Wellness**

Our 4.7% holding in Bumrungrad Hospital Public Company Limited ("Bumrungrad") in Bangkok is our largest listed equity investment. For the first half of 2022, the stock price was up 27.0%, but when converted to Hong Kong dollars, this appreciation dropped to around 20.3% due to the weak Thai baht.

Since Thailand reopened to tourists late last year, medical tourism continues to recover and benefit from accommodative travel policies (around 56% of Bumrungrad's patients are from overseas). The outlook for medical tourism remains optimistic for the second half of the year.

Bumrungrad's success in attracting patients internationally through the delivery of high-quality medical services is likely to continue to rebound in this environment.

#### Pension and Asset Management

The Group's holding in Bank Consortium Holding Limited ("BCH"), one of our joint ventures, generated lower but stable profits in the first half of 2022, in spite of the economic situation. Bank Consortium Trust Company Limited ("BCT"), a wholly owned subsidiary of BCH, remains one of the major providers of Mandatory Provident Fund services in Hong Kong.

#### **Business Review** (continued)

#### **Property Development**

The Group's interests in real estate are focused on Shanghai and represent 4.5% of our total assets. The main project is a residential and commercial complex in Jiading District in Shanghai, in which we have a 27.5% stake.

China's property market faces stresses with COVID-19 lockdowns, worsening unemployment, and weak economic recovery. However, prices remain stable in first-tier cities and there is still demand among lifestyle-conscious young urbanites for design-forward housing complexes like Jiading. Its Phase 3 is being developed in four stages.

We realised steady profits from this project for Stages One to Three and expected Stage Four to follow the same successful trajectory. Instead, due to the extended COVID-19 lockdown of Shanghai, we were unable to realise sales of Stage Four in the first half of 2022.

#### Securities Investments Representing More than 5% of Total Assets

As at 30th June, 2022, two securities investments each represented above 5% of the Group's total assets:

#### Liquidity, Financial Resources and Gearing Ratio (continued)

The Group had no bank borrowing as at 30th June, 2022 and 31st December, 2021.

No gearing ratio was calculated as the Group had no net current debt as at 30th June, 2022. The gearing ratio was based on net current debt divided by total capital plus net current debt. Net current debt includes net current portion of insurance contracts liabilities, insurance payables, amounts due to associates and other liabilities, less cash and cash equivalents and financial assets at fair value through profit or loss. Capital represents equity attributable to equity holders of the Company.

The Group's liquidity position remains strong and the Group has sufficient financial resources to satisfy its commitment and working capital requirements.

#### **Corporate Governance Code**

The division of responsibilities between the Chairman and President of the Company had been clearly established and set out in writing. The Board considers that such deviation will not impair the balance of power and authority as it is ensured by the operations and governance of the Board which comprises experienced and high calibre individuals.

#### **Corporate Governance Code** (continued)

In allowing the two positions to be occupied by the same person, the Board has considered that both positions require in-depth knowledge and considerable experience of the Group's business. Based on the experience and qualification of Mr. Bernard Chan, the Board believes that the vesting of two roles to Mr. Bernard Chan will continue to provide the Group with stable and consistent leadership and continue to allow for effective and efficient planning and implementation of long term business strategies and is beneficial to the Company and in the interests of its shareholders.
