The consolidated financial statements have been prepared in accordance with all applicable HKFRSs, which is a collective term that includes all applicable individual HKFRSs, Hong Kong Accounting Standards ("**HKASs**") and Interpretations issued by the HKICPA and accounting principles generally accepted in Hong Kong. For the purpose of preparation of the consolidated financial statements, information is considered material if such information is reasonably expected to influence decisions made by primary users. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities (the "**Listing Rules**") on the Stock Exchange and by the disclosure requirements of the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Going concern basis

The Group incurred a net loss of approximately RMB863,645,000 (2019: RMB2,661,072,000) for the year ended 31 December 2020 and, as of that date, the Group had net current liabilities of approximately RMB306,232,000 (2019: net current assets of RMB200,248,000) and net liabilities of approximately RMB142,921,000 (2019: net assets of approximately RMB579,667,000). As at 31 December 2020, the Group recorded current and non-current borrowings of approximately RMB1,290,965,000 and RMB20,623,000 (2019: RMB1,350,081,000 and RMB28,100,000) respectively and cash and cash equivalents of approximately RMB33,741,000 (2019: RMB18,462,000). The total borrowings exceeded the cash and cash equivalents by an amount of approximately RMB1,277,847,000 (2019: RMB1,359,719,000).

In preparing the consolidated financial statements, the directors have given careful consideration to the future liquidity of the Group in light of the conditions described above. Further, as at 31 December 2020, the Group had borrowings of approximately RMB1,311,588,000 (2019: RMB1,378,181,000), of which approximately RMB1,128,732,000 (2019: RMB1,149,481,000) were overdue for repayment. Certain other payables were also overdue, including interest payables of approximately RMB854,714,000 (2019: RMB430,660,000) and corporate bonds of approximately RMB19,151,000 (2019: RMB28,217,000). The major overdue balances are further explained below:

(a) The promissory note issued by the Company to Prosper Talent Limited ("**Prosper Talent**") on 23 August 2016 with the remaining outstanding principal amount of US$56,000,000 which was overdue at 31 December 2019 and 2020 and remains unsettled up to the date of the approval and authorization of the consolidated financial statements for issue. On 27 June 2019, the Company, Mr. Chan, an executive director of the Company, and China All Access Science and Engineering Technology Development Limited ("**SETD**"), an indirect wholly owned subsidiary of the Company (collectively referred to as the "**Defendants**"), received a writ of summons issued in the Court of First Instance of High Court of Hong Kong Special Administrative Region (the "**High Court of Hong Kong**") by Prosper Talent as the plaintiff against the Defendants. According to the indorsement of claim enclosed in the writ of summons, US$95,383,187.40 was due and outstanding under a note purchase agreement entered into between Prosper Talent, the Company and Mr. Chan which was secured by a personal guarantee entered into by Mr. Chan and security assignment entered into by SETD in favour of Prosper Talent. Prosper Talent's claims are for (i) the sum of US$95,383,187.40 or its Hong Kong dollars equivalent at the time of payment; (ii) further interest; (iii) costs; and (iv) further and/or other reliefs (the "**Prosper Talent Writ**"). As set out in the Company's announcement dated 20 June 2020, the Defendants made an consent order with Prosper Talent in the High Court of Hong Kong for the Prosper Talent Writ and according to this consent order, it is ordered that the proceedings be wholly discontinued and there be no order as to costs of these proceedings, including but not limited to the costs of and incidental to this consent order;

(b) A promissory note issued by the Company to Dundee Greentech Limited ("**Dundee**") on 18 November 2018 with the remaining outstanding principal amount of HK$847,080,000 in connection to redeem the convertible bond issued by the Company to Dundee in August 2015, was overdue and remains unsettled up to the date of the approval and authorization of the consolidated financial statements for issue. As set out in the Company's announcement dated 22 February 2021, a winding-up petition (the "**Dundee Petition**") was filed by Dundee with the High Court of the Hong Kong for the winding up of the Company under the provisions of the Companies (Winding Up and Miscellaneous Provision) Ordinance (Chapter 32 of the Laws of Hong Kong) in relation to an alleged unpaid amount in the sum of HK$1,451,584,773.03 (comprising of the principal amount of HK$847,080,000.00, establishment fee of HK$101,649,600.00, contractual interest payable of HK$34,254,522.74 and default interest payable of HK$468,600,650.29). Further, as set out in the Company's announcement dated 10 February 2022, (a) on 21 June 2021, the Company was ordered to be wound up by the High Court of Hong Kong and the Official Receiver was appointed as the Provisional Liquidator of the Company; and (b) on 5 January 2022, the High Court of Hong Kong ordered that Messrs. So Man Chun and Jong Yat Kit of PricewaterhouseCoopers Limited be appointed as the joint and several liquidators of the Company (the "**Liquidators**").

(c) other payables with amount of HK$31,500,000 (equivalent to approximately RMB28,218,000) were in relation to the placement of 5% coupon unlisted bonds issued on 23 January 2015 which were due to three independent individuals (the "**Subscribers**") and matured on the fifth anniversary of the issue date (the "**Corporate Bonds**"), details of which were set out in the Company's announcement dated 4 May 2015. On 17 June 2020, one of the Subscribers (the "**First Subscriber**") filed a winding-up petition at the Court of First Instance of High Court of Hong Kong (the "**First Petition**") against the Company for (i) the outstanding principal of HK$10,000,000; (ii) interest payable of HK$500,000; and (iii) default interest at 9% on the sum of HK$10,500,000 from 27 January 2020 until full and final payment of this petition (the "**First Petition Amount**"). As set out in the Company's announcement dated 25 September 2020, the Company and the First Petitioner entered into an agreement on 2 September 2020 pursuant to which the Company agreed to settle the First Petition Amount and the First Petitioner agreed to withdraw the First Petition. The First Petition Amount was settled on 4 September 2020 and on 9 September 2020, the High Court of Hong Kong issued the consent summons confirming that, amongst other things, the First Petition returnable for hearing at the open court on 16 September 2020 be dismissed. On 16 September 2020, the First Petition was formally withdrawn after hearing submissions.

As further disclosed in the Company's announcement dated 18 January 2021, a winding-up petition (the "**Second Petition**") was filed by another Subscriber (the "**Second Subscriber**") on 15 December 2020 with the High Court of the Hong Kong for the winding up of the Company under the provisions of the Companies (Winding Up and Miscellaneous Provision) Ordinance (Chapter 32 of the Laws of Hong Kong) in relation to an alleged sum of HK$11,336,260.27 comprising of the principal sum of HK$10,000,000, interest payable of HK$500,000 and default interest at 9% on the sum of HK$10,500,000 from 27 January 2020 until full and final payment of the Second Petition (the "**Second Petition Amount**"). On 21 June 2021, the Second Petition was heard and the High Court of Hong Kong ordered that the Company be wound up. As further disclosed in the Company's announcement 12 January 2022, (a) the Company and the Second Subscriber have signed an agreement on 27 July 2021 pursuant to which both parties agreed to a repayment schedule and the Second Subscriber does not object the Company to apply for the withdrawal of the winding-up order in relation to the Second Petition; and (b) the Company and the Second Petitioner signed an agreement on 12 January 2022 pursuant to which both parties agreed to a new repayment schedule and the Second Petitioner does not object the Company to apply for the withdrawal of the winding-up order in relation to the Second Petition. The remaining individual of the Subscribers (the "**Third Subscriber**") also entered into a repayment schedule with the Company with the same terms to the repayment schedule dated 12 January 2022 signed by the Second Subscriber (collectively referred as to the "**Repayment Schedules**") and pursuant to the Repayent Schedules, the Company is required to settle the remaining outstanding amounts of HK$7,474,917 due to each of the Second Subscriber and the Third Subscriber (in aggregate HK$14,949,834) (the "**Corporate Bonds Payables**") before 30 April 2022 as a condition for the Second Subscriber to withdraw the Second Petition and for the Third Subscriber not to object the Company to apply for the withdrawal of the winding-up order in relation to the Second Petition. Up to the date of the approval and authorisation of the consolidated financial statements for issue, the Corporate Bonds Payables was not yet settled and the Second Petition was not yet withdrawn.

Further, the Company had declared a final dividend of HK5.0 cents per ordinary share subsequent for the financial year ended 31 December 2018, amounting to approximately HK$99,986,000 in total, which is still outstanding as at the date of and up to the date of the approval and authorization of the consodliated financial statements for issue.

The trading of the shares of the Company was suspended on 1 April 2021 as the Company failed to publish its annual results announcement for the year ended 31 December 2020 in accordance to the Listing Rule and on 27 May 2021, the Stock Exchange provided a set of resumption guidance for the Company to: (a) publish all outstanding financial results required under the Listing Rules and address any audit modifications; (b) demonstrate the Company's compliance with Rule 13.24 of the Listing Rule; and (c) inform the market of all material information for the Company's shareholders and investors to appraise the Company's position.

The above conditions indicate the existence of material uncertainties, which may cast significant doubt upon the Group's ability to continue as a going concern.

In view of these circumstances, the directors have given careful consideration to the future liquidity and its available sources of financing to assess whether the Group will have sufficient funds to fulfill its financial obligations to continue as a going concern. The Group has taken the following measures to improve the Group's financial position and alleviate its liquidity pressure, including, but not limited to, the following:

(a) The Company has engaged an independent financial adviser (the "**FA**") to assist the directors in formulating a debt restructuring plan for its creditors (including Prosper Talent and Dundee) involving a proposed scheme of arrangement;

(b) The Group has been taking active measures to collect trade and other receivables through various channels to improve operating cash flows and its financial position.

(c) The directors are considering various alternatives to strengthen the capital base of the Company through various financing projects:

(i) as set out in the Company's announcement dated 28 April 2020, the Company entered into the subscription agreement with ADIB Holdings Limited ("**ADIB Holdings**"), pursuant to which ADIB Holdings has conditionally agreed to subscribe (or procure the subscription by its nominee(s)), and the Company has conditionally agreed to allot and issue, 420,000,000 shares of HK$0.16 each for a cash consideration of approximately HK$67,200,000 (the "**Share Subscription**"). Up to the date of the approval and authorization of the consolidated financial statements for issue, the Share Subscription has not been completed and its details were set out in the Company's announcements dated 28 April 2020 and 4 May 2020;

(ii) as set out in the Company's announcement dated 19 October 2020, the Company has engaged Asia Development & Investment Bank Limited, the holding company of ADIB Holdings ("**ADIB**") in searching for customers for the assets pledged (the "**Pledged Assets**") from China RS Group Limited (中國榮勝集團有限公司) (the "**Purchaser**") in respect of the consideration for acquition of 100% equiy interest in Hebei Noter Communication Technology Co., Limited* (河北諾特通信技術有限公司) ("**Hebei Noter**") by the Purchaser from the Group (the "**Disposal**"). After carrying out a preliminary due diligence process by ADIB and some potential customers on the Pledged Assets, ADIB provided the Company on 16 October 2020 a purchase request from a state owned import and export trading company in the PRC (the "**Potential Buyer**") who is mainly engaged in the business of black metal, non-ferrous metals, mineral products, hardware products, petrochemical and its products. Up to the date of the approval and authorization of the consolidated financial statements for issue, no legally binding agreement was entered into between the Potential Buyer and the Group; and

(iii) as set out in the Company's announcement dated 24 May 2021, the Company entered into a credit facility agreement (the "**Credit Facility Agreement**") with ADIB Holdings. Pursuant to the Credit Facility Agreement, ADIB Holdings agreed to provide credit facility up to US$300 million for the investment, construction and operation of 5G telecommunications infrastructure projects (the "**Credit Facility**"). The Credit Facility is revolving credit facility effective from 25 May 2021 until 24 May 2026 at the interest rate of 4.5% per annum. The Company is allowed to draw down the Credit Facility by one tranche or by different tranches through written application. Both parties will execute guarantee agreements, including maximum guarantee agreement, mortgage agreement and pledge agreement for each transaction done under the Credit Facility Agreement in order to guarantee the repayment of all credit. Up to the date of the approval and authorization of the consolidated financial statements for issue, no money had been drawn down in respect of the Credit Facility.

(d) The Group continues to take active measures to control administrative costs through various channels to improve operating cash flows and its financial position.

Notwithstanding the above, significant uncertainties exist as to whether management will be able to achieve its plans and measures as described above. Whether the Group will be able to continue as a going concern would depend upon (a) the debt restructuring plan being be supported by creditors and the proposed scheme of arrangement being be sanctioned by the High Court of Hong Kong; (b) the Group's debtors timely settling their debts to the Group according to the agreed settlement schedules; (c) the Group successfully completing the Share Subscription, the sale of the Pledged Assets and the application for the draw down of money under the Credit Facility Agreement; and (d) the Group successfully implementing its cost control measures and to improve its business operations.

Should the Group be unable to continue as a going concern, adjustments would have to be made to write down the carrying values of the Group's assets to their recoverable amounts, to provide for any further liabilities which might arise and to reclassify non-current assets and non-current liabilities as current assets and current liabilities, respectively. The effects of these adjustments have not been reflected in the Group's consolidated financial statements.

5. SEGMENT REPORTING

The Group manages its businesses by divisions which are organised by business lines. In a manner consistent with the way in which information is reported internally to the Group's most senior executive management for the purposes of resource allocation and performance assessment, the Group has presented the following three reportable segments. No operating segments have been aggregated to form the following reportable segments:

– ICT: including but not limited to research and development, manufacture and distribution of wireless terminals and equipment, including display modules, casings and keyboards.

– New Energy: including but not limited to development, investment, operation and management of solar power plants. The Group has engaged in research and development, installation and application of devices for increasing the luminous flux per unit area for photovoltaic plants and sale of photovoltaic module and related products.

– Investment activities: revenue generated from interest earned from provision of facilitating capital to supply steam and investment returns generated from direct investment and high yield treasury products.

(a) Segment results, assets and liabilities

For the purposes of assessing segment performance and allocating resources between segments, the Group's senior executive management monitors the results, assets and liabilities attributable to each reportable segment on the following basis:

All assets and liabilities are allocated to the reportable segments with the exception of other corporate assets and liabilities, certain communication equipment which is jointly used by all reportable segments, income tax payable and deferred tax liabilities.

Revenue and expenses are allocated to the reportable segments with reference to profit earned/(loss) suffered by those segments or which otherwise arise from the depreciation or amortisation of assets attributable to those segments. However, assistance provided by one segment to another, including sharing of assets, is not measured.

The measure used for reporting segment profit is "segment operating (loss)/profit". Segment operating (loss)/profit includes the gross profit generated by the segment, certain distribution costs, administrative expenses and finance costs directly attributable to the segment. Items that are not specifically attributable to individual segments, such as partial other income, partial other net loss, other corporate administrative expenses, finance income, partial finance costs and share of results of associates, are excluded from segment operating (loss)/profit.

In addition to receiving segment information concerning segment operating (loss)/profit, management is provided with segment information concerning revenue, assets and liabilities used by the segments in their operations.

The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%.

The directors considered the amount involved upon implementation of the two-tiered profits tax rates regime as insignificant to the consolidated financial statements. The Group does not have assessable profits chargeable to Hong Kong Profits Tax for both years.

The effective interest rate of the consideration on initial recognition is 13.58%. Pursuant to the Disposal Agreements, the Disposal Consideration Receivables is secured over the share charge of Hebei Noter made by the Purchaser in favour of the Group. Details of the terms of payment of the Disposal Consideration Receivable were set out in the Circular.

On 31 December 2019, the Purchaser, CAA Group, and an entity which to the best of the Company's directors' knowledge, information and belief having made all reasonable enquiry, is a third party independent of the Company and the connected persons of the Company (the "**Third Party**") entered into guarantee agreement pursuant to which (1) the Company has the right to buy up to 5 million grams of ultrafine copper powder controlled by the Third Party (the "**Copper Powder**") at an agreed price of US$80; and (ii) to use the proceeds of the sales of the Precious Metal as compensation to indemnify the CAA Group against any loss as a result of the amount due from Hebei Noter Group and the Disposal Consideration Receivables (the "**Guarantee**"). On 31 December 2020, the Purchaser, CAA Group and the Third Party further entered into a supplemental guarantee pursuant to which (1) the unit price of the Copper Powder to be sold by the Third Party to CAA Group be amended from US$80 per gram to 50% of the net selling price, in any case not less than EURO 800 per gram; and (2) the Third Party agrees to collaborate with CAA Group as joint beneficial owners for collateralizing part of 5,000,000 gram of the Copper Powder in order to secure credit or loan facilities from any fund provider which will benefit the investment projects of CAA Group. The Third Party will, in return, share 50% of the investment return generated from the investment projects financed by such credit or loan facilities (the "**Supplementary Guarantee**"). The directors of the Company consider that the value of the Copper Powder is approximately not less than EUR 1,250 per gram and is of high purity based on an expert report and an analysis performed by a firm of assaying services company based in Europe.

BASIS FOR DISCLAIMER OF OPINION

(a) Multiple uncertainties relating to going concern

The Group incurred a net loss of approximately RMB863,645,000 for the year ended 31 December 2020 and, as of that date, the Group had net current liabilities of approximately RMB306,232,000 and net liabilities of approximately RMB142,921,000. According to the indorsement of claim enclosed in the writ of summons, US$95,383,187.40 was due and outstanding under a note purchase agreement entered into between Prosper Talent, the Company and Mr. Chan which was secured by a personal guarantee entered into by Mr. Chan and security assignment entered into by SETD in favour of Prosper Talent. Prosper Talent's claims are for (i) the sum of US$95,383,187.40 or its Hong Kong dollars equivalent at the time of payment; (ii) further interest; (iii) costs; and (iv) further and/or other reliefs (the "**Prosper Talent Writ**"). As set out in the Company's announcement dated 20 June 2020, the Defendants made a consent order with Prosper Talent in the High Court of Hong Kong for the Prosper Talent Writ and according to this consent order, it is ordered that the proceedings be wholly discontinued and there be no order as to costs of these proceedings, including but not limited to the costs of and incidental to this consent order;

So Man Chun and Jong Yat Kit of PricewaterhouseCoopers Limited be appointed as the joint and several liquidators of the Company (the "**Liquidators**").

(c) as disclosed in note 25 to the consolidated financial statements, other payables with amount of HK$31,500,000 (equivalent to approximately RMB28,218,000) were in relation to the placement of 5% coupon unlisted bonds issued on 23 January 2015 which are due to three independent individuals (the "**Subscribers**") and matured on the fifth anniversary of the issue date (the "**Corporate Bonds**"), details of which were set out in the Company's announcement dated 4 May 2015. On 17 June 2020, one of the Subscribers (the "**First Subscriber**") filed a winding-up petition at the High Court of Hong Kong (the "**First Petition**") against the Company for (i) the outstanding principal of HK$10,000,000; (ii) interest payable of HK$500,000; and (iii) default interest at 9% on the sum of HK$10,500,000 from 27 January 2020 until full and final payment of this petition (the "**First Petition Amount**"). As set out in the Company's announcement dated 25 September 2020, the Company and the First

Petitioner entered into an agreement on 2 September 2020 pursuant to which the Company agreed to settle the First Petition Amount and the First Petitioner agreed to withdraw the First Petition. The First Petition Amount was settled on 4 September 2020 and on 9 September 2020, the High Court of Hong Kong issued the consent summons confirming that, amongst other things, the First Petition returnable for hearing at the open court on 16 September 2020 be dismissed. On 16 September 2020, the First Petition was formally withdrawn after hearing submissions. As further disclosed in the Company's announcement dated 18 January 2021, a winding-up petition (the "**Second Petition**") was filed by another Subscriber (the "**Second Subscriber**") on 15 December 2020 with the High Court of Hong Kong for the winding up of the Company under the provisions of the Companies (Winding Up and Miscellaneous Provision) Ordinance (Chapter 32 of the Laws of Hong Kong) in relation to an alleged sum of HK$11,336,260.27 comprising of the principal sum of HK$10,000,000, interest payable of HK$500,000 and default interest at 9% on the sum of HK$10,500,000 from 27 January 2020 until full and final payment of the Second Petition (the "**Second Petition Amount**"). On 21 June 2021, the Second Petition was heard and the High Court of Hong Kong ordered that the Company be wound up. As further disclosed in the Company's announcement 12 January 2022, (a) the Company and the Second Subscriber have signed an agreement on 27 July 2021 pursuant to which both parties agreed to a repayment schedule and the Second Subscriber does not object the Company to apply for the withdrawal of the winding-up order in relation to the Second Petition; and (b) the Company and the Second Petitioner signed an agreement on 12 January 2022 pursuant to which both parties agreed to a new repayment schedule and the Second Petitioner does not object the Company to apply for the withdrawal of the winding-up order in relation to the Second Petition. The remaining individual of the Subscribers (the "**Third Subscriber**") also entered into a repayment schedule with the Company with the same terms to the repayment schedule dated 12 January 2022 signed by the Second Subscriber (collectively referred as to the "**Repayment Schedules**") and pursuant to the Repayent Schedules, the Company is required to settle the remaining outstanding amounts of HK$7,474,917 due to each of the Second Subscriber and the Third Subscriber (in aggregate HK$14,949,834) (the "**Corporate Bonds Payables**") before 30 April 2022 as a condition for the Second Subscriber to withdraw the Second Petition and for the Third Subscriber not to object the Company to apply for the withdrawal of the winding-up order in relation to the Second Petition. Up to the date of the approval and authorization of the consolidated financial statements for issue, the Corporate Bonds Payables was not yet settled and the Second Petition was not yet withdrawn.

Further, the Company had declared a final dividend of HK5.0 cents per ordinary share for the financial year ended 31 December 2017, amounting to approximately HK$99,986,000 in total, which is still outstanding as at the date of and up to the date of the approval and authorization of the consolidated financial statements for issue.

The trading of the shares of the Company was suspended on 1 April 2021 as the Company failed to publish its annual results announcement for the year ended 31 December 2020 in accordance to the Listing Rule and on 27 May 2021, the Stock Exchange provided a set of resumption guidance for the Company to: (a) publish all outstanding financial results required under the Listing Rules and address any audit modifications; (b) demonstrate the Company's compliance with Rule 13.24 of the Listing Rule; and (c) inform the market of all material information for the Company's shareholders and investors to appraise the Company's position.

The above conditions indicate the existence of material uncertainties which may cast significant doubt upon the Group's ability to continue as a going concern.

The directors of the Company have been undertaking a number of measures to improve the Group's liquidity and financial position and to meet its liabilities as and when they fall due, which are set out in Note 3(b) to the consolidated financial statements. The consolidated financial statements have been prepared on a going concern basis, the validity of which depends on the eventual successful outcome of these measures, which are subject to multiple uncertainties, including whether: (a) the debt restructuring scheme will eventually be formulated by the Company and supported by creditors and sanctioned by the High Court of Hong Kong; (b) the Group's debtors will timely settle their debts to the Group according to the agreed settlement schedules; (c) the Group can successfully complete the Share Subscription, the sale of the Pledged Assets and the application for the drawing down of money under the Credit Facility Agreement; and (d) the Group can successfully implement its cost control measures and to improve its business operations.

Should the Group fail to achieve successful outcomes from the above-mentioned plans and measures, it might not be able to continue to operate as a going concern, and adjustments would have to be made to write down the carrying values of the Group's assets to their recoverable amounts, to provide for any further liabilities which might arise, and to reclassify non-current assets and non-current liabilities as current assets and current liabilities. The effects of these adjustments have not been reflected in the consolidated financial statements.

We have not been provided with sufficient appropriate audit evidence to conclude on the appropriateness of management's use of the going concern basis of accounting in the preparation of the consolidated financial statements because of the lack of detailed analyses provided by management in relation to its plans and measures for future actions in its going concern assessment which take into account the uncertainty of outcome of these plans and measures and how variability in outcome would affect the future cash flows of the Group. Any adjustments found to be required may have consequential significant effects on the consolidated net liabilities of the Group as at 31 December 2020 and the consolidated loss and other comprehensive income and cash flows of the Group for the year ended 31 December 2020, and the related elements and disclosures thereof in the consolidated financial statements.

(b) Recoverability of consideration receivable for disposal of Hebei Noter Communication Technology Co., Limited and its subsidiary ("Hebei Noter Group") and amount due from Hebei Noter Group (collectively referred to as the "Hebei Noter Group Receivables")

Included in other receivables disclosed in Note 18 to the consolidated financial statements is consideration receivable for disposal of Hebei Noter Group and amount due from Hebei Noter Group with carrying amounts, net of allowances for credit losses, of approximately RMB1,101,007,000 and RMB798,785,000 respectively as at 31 December 2020 and RMB1,101,202,000 and RMB795,785,000 respectively as at 31 December 2019, which were overdue for repayment as at 31 December 2020 and 2019 and remained unsettled as at the date of this report. The Group had been in negotiations with Hebei Noter Group and the purchaser of Hebei Noter Group as set out in the Company's circular dated 15 November 2018 (the "**Purchaser**") for settlement of the Hebei Noter Group Receivables. We were unable to obtain sufficient appropriate audit evidence to satisfy ourselves as to the impairment assessments of the Hebei Noter Group Receivables and the related measurement of life time expected credit losses on these receivables as at 31 December 2020 and 2019 because we were unable to satisfy ourselves about (i) the existence and ownership of the assets pledged in favour of the Group in relation to the Hebei Noter Group Receivables; (ii) the validity of the guarantee and supplementary guarantee agreements as disclosed in note 18 to the consolidated financial statements (the "**Guarantees**"), including the validity of the assets underlying the Guarantees included in (i); and (iii) the valuation of the assets (a) pledged to the Group as collateral by the Purchaser; and (b) underlying the Guarantees in relation to the Hebei Noter Group Receivables and whether the credit exposures represented by the Hebei Noter Group Receivables were adequately covered as at 31 December 2020 and 2019. There were no alternative audit procedures that we could perform to satisfy ourselves as to whether the carrying amounts of the Hebei Noter Group Receivables, and the related allowances for credit losses recognised of approximately RMB407,294,000 and RMB294,332,000 as at and for the year ended 31 December 2020 respectively and RMB1,896,987,000 and RMB690,673,000 respectively as at and for the year ended 31 December 2019 respectively, were free from material misstatement. Any adjustments that would be required may have consequential significant effects on the allowances for credit losses recognised in consolidated profit or loss for the years ended 31 December 2020 and 2019 in respect of the Hebei Noter Group Receivables and the impairment allowances in respect of and net carrying amounts of the Hebei Noter Group Receivables as at 31 December 2020 and 2019 and hence on the consolidated net liabilities and net assets of the Group as at 31 December 2020 and 2019 and the consolidated loss and other comprehensive income or loss and cash flows of the Group for the years ended 31 December 2020 and 2019, and the related elements and disclosures thereof in the consolidated financial statements.

(c) Scope limitation on inventories

Included in consolidated statement of financial position of the Group were inventories of approximately RMB289,117,000 as at 31 December 2020, details of which are disclosed in note 17 to the consolidated financial statements.

We were unable to observe the counting of physical inventories of these inventories at the end of the reporting period and we were unable to satisfy ourselves by alternative means concerning the existence of the inventory quantities of these inventories held at 31 December 2020.

There were no alternative audit procedures that we could perform to satisfy ourselves as to whether the carrying amounts of inventories as at 31 December 2020 and write down of inventories amounted to approximately RMB8,931,000 recognized in consolidated profit or loss for the year ended 31 December 2020 were free from material misstatement. Any adjustments that would be required may have consequential significant effects on these balances and hence on the consolidated net liabilities of the Group as at 31 December 2020 and loss and other comprehensive income and cash flows of the Group for the year ended 31 December 2020, and the related elements and disclosures thereof in the consolidated financial statements.

(d) Scope limitation on trade and other payables and borrowings and related finance costs

Included in (1) trade and other payables in the consolidated statement of financial position of the Group were interest payables, corporate bonds and accruals and other payables with carrying amounts of approximately RMB854,714,000, RMB19,151,000 and RMB96,294,000 respectively as at 31 December 2020; (2) the borrowings in the consolidated statements of financial position were guaranteed loans, promissory notes and unsecured loan with carrying amounts of approximately RMB178,800,000, RMB1,078,732,000 and RMB50,000,000 respectively (the "**Borrowings**") as at 31 December 2020 and included in the consolidated statement of profit or loss of the Group was finance costs of approximately RMB249,818,000 for the year ended 31 December 2020. Details of which are disclosed in notes 25, 27 and 8(b) to the consolidated financial statements respectively. Further, included in the statement of financial position of the Company disclosed in note 31 to the consolidated financial statements were borrowings and other payables and accruals with carrying amounts of approximately RMB1,128,732,000 and RMB1,083,765,000 respectively as at 31 December 2020.

We were unable to satisfy ourselves about (i) the completeness and recording accuracy of the promissory notes and unsecured loan included in the borrowings because the Group had defaulted in its payments with aggregate carrying amount of approximately RMB1,128,732,000; and (ii) the amount of finance costs reported for the year ended 31 December 2020 because supporting documentation to ascertain the accuracy and completeness of the interest calculations was not made available to us. Consequentially, we were unable to assess the completeness of interest payable included in trade and other payables of approximately RMB854,714,000 as at 31 December 2020 and the validity and recording accuracy of movements of the finance costs recorded in interest payables, including the finance costs recognised in consolidated profit or loss, during the year ended 31 December 2020; (iii) the validity and recording accuracy of the balance of the corporate bonds of approximately RMB19,151,000 as at 31 December 2020 as the Company failed to make payment in accordance with the relevant repayment schedule entered into; and (iv) we were unable to carry out effective confirmation procedures with the respective counter parties of the Borrowings and corporate bonds holders for the purposes of our audit as we have not received replies to our direct confirmation requests from these creditors with carrying amounts of RMB1,147,532,000 and RMB19,151,000 as at 31 December 2020.

Therefore, we were unable to satisfy ourselves as to whether the carrying amounts of trade and other payables and borrowings as at 31 December 2020 and the recorded amount of finance costs for the year ended 31 December 2020 were free from material misstatements and whether there existed material amounts of trade and other payables, borrowings and lease liabilities of the Group and the Company as at 31 December 2020 which were not accounted for and recognised in the consolidated financial statements of the Group and the financial statements of the Company. Any adjustments found to be required in respect of the above matters and any unrecorded material amounts of trade and other payables, borrowings and lease liabilities found to be in existence may have consequential significant effects on the net liabilities of the Group and the Company as at 31 December 2020 and the loss and other comprehensive income and cash flows of the Group for the year then ended, and the fair presentation thereof, and the elements making up, and related disclosures in, the consolidated financial statements.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group reported its audited consolidated results for the year ended 31 December 2020. The Group continued to focus on the development its businesses in the information and communication technology ("**ICT**"), New Energy and Investment activities segments in 2020. Major business highlights for the year are as follows:

1. Revenue for the year ended 31 December 2020 increased by approximately 48.14% to approximately RMB7,472,715,000 as compared to that in 2019;

2. Gross profit for the year ended 31 December 2020 increased by approximately 42.53% to approximately RMB120,329,000 as compared to that in 2019; and

3. Loss attributable to owners of the Company for the year ended 31 December 2020 decreased by approximately 67.54% to approximately RMB863,248,000 as compared to that in 2019.

ICT

Revenue generated from ICT during the year ended 31 December 2020 increased by approximately 50.17% to approximately RMB7,472,715,000 as compared to the corresponding period in last year, which accounted for approximately 100.00% of the Group's total revenue for the year ended 31 December 2020.

Despite the adverse effect of the Sino-US trade war and the outbreak of the novel coronavirus ("**COVID-19**") on a global basis, our ICT business continued to realise very encouraging increase in product shipment and revenue generation. This was mainly attributable to the Group's effort in securing a number of new customers who are the major market leaders in the mobile phone market. These included both very famous international brands and local brands. It also reinforced the success of implementing the Group's strategy in diversifying our customer base from very high customer concentration to more wide spread number of customers. Moreover, the Group also enlarged our product portfolio from very focused on mobile phone to tablet, motor vehicle electronic application, electronic label, AMOLED panel and wearable. Benefitted from the expansion of customer base and increase in sales orders, we continued to demonstrate positive growth momentum in 2020.

New Energy

After the continuous research and development of our new technology, sales and marketing effort of the business team and the production facility which was built up in Shandong Province in 2019, we accomplished some initiatives in the aspects of entering into partnership agreements with some industry players as well as market development. As a result, we delivered a promising result in 2019. In 2020, due to the impact of COVID-19 and subsequent lockdown and travel bans of cities in the PRC, it has caused significant disruption for the New Energy segment.

Revenue generated from New Energy segment for the year ended 31 December 2020 decreased to approximately nil as compared to approximately RMB68,333,000 for the corresponding period in last year.

Investment activities

Owing to the adverse situation in the market, the Group did not rollout any investment activity during the year ended 31 December 2019 and 31 December 2020.

FINANCIAL REVIEW

Revenue

Revenue increased from approximately RMB5,044,439,000 for the year ended 31 December 2019 to approximately RMB7,472,715,000 for the year ended 31 December 2020, representing an increase of approximately 48.14%. The increase in revenue during the year as compared with that of last year was mainly attributable to the performance of ICT segment and an analysis of the Group's major business segments are set out as below:

- ICT segment recorded an increase in revenue from approximately RMB 4,976,106,000 for the year ended 31 December 2019 to approximately RMB7,472,715,000 for the year ended 31 December 2020, representing an increase of approximately 50.17%. The increase was mainly attributable to the effort in securing a number of new customers who are the major market leaders in the mobile phone market.

- New Energy segment recorded a decrease in revenue from approximately RMB68,333,000 for the year ended 31 December 2019 to nil for the year ended 31 December 2020, representing a decrease of approximately 100%. It was mainly due to the impact of COVID-19 and subsequent lockdown and travel bans of cities in the PRC which have caused significant disruption for the New Energy segment.

Gross profit

Gross profit increased from approximately RMB84,422,000 for the year ended 31 December 2019 to approximately RMB120,329,000 for the year ended 31 December 2020, representing an increase of approximately 42.53% from the corresponding period in 2019. The gross profit margin slightly decreased from approximately 1.67% for the year ended 31 December 2019 to approximately 1.61% for the year ended 31 December 2020. After the business development of the Group in 2019, the Group strove for new customers and new orders in a very tough business environment. The Group was managed to maintain the gross profit margin in such environment in 2020.

Other income

Other income increased from approximately RMB18,455,000 for the year ended 31 December 2019 to approximately RMB31,922,000 for the year ended 31 December 2020, representing an increase of approximately 72.97% from the corresponding period in 2019. It was mainly attributable to the increase in government subsidy for the year ended 31 December 2020.

Other net loss

Other net loss decreased from RMB407,744,000 for the year ended 31 December 2019 to approximately RMB51,325,000 for the year ended 31 December 2020, representing a decrease of approximately 87.41% from the corresponding period in 2019. The decrease was due to the decrease of the impairment loss recognised in respect of goodwill and intangible assets for the year ended 31 December 2020.

Distribution costs, administrative expenses and research and development expenses

Distribution costs, administrative expenses and research and development expenses decreased from approximately RMB520,880,000 for the year ended 31 December 2019 to approximately RMB98,296,000 for the year ended 31 December 2020, representing a decrease of approximately 81.13% from the corresponding period in 2019. The decrease was mainly due to the decrease in administrative expenses and research and development expenses. The decrease in administrative expenses was mainly due to our cost saving effort in order to retain more operating cash flow. The research and development expenses were incurred for the upgrade of the first generation products in the New Energy segment. The upgrade was completed in 2019, thus the cost was reduced for the year ended 31 December 2020.

The percentage of distribution costs, administrative expenses and research and development expenses as a percentage of the Group's total revenue decreased from approximately 10.33% for the year ended 31 December 2019 to approximately 1.32% for the year ended 31 December 2020, representing a decrease of approximately 9.01% from the corresponding period in 2019. The decrease was mainly due to the decrease in administrative expenses and research and development expenses for the year ended 31 December 2020. The Group will continue to take all necessary measures to control the costs to improve profitability of the Group in the future.

Allowance for credit loss

Allowance for credit loss decreased from approximately RMB1,279,592,000 for the year ended 31 December 2019 to approximately RMB609,307,000 for the year ended 31 December 2020, representing a decrease of approximately 52.38% from the corresponding period in 2019. The Group performs impairment assessment under expected credit loss model on trade and other receivables individually or based on provision matrix.

Whilst the Company provided a substantial amount of allowance for credit loss in 2019 with reference to an assessment on the then economic situation and consequential implication on the Group's cash flow of the trade and other receivables, the directors consider that the Group's credit risk is significantly reduced. The situation was improved in 2020.

Finance income and finance costs

Finance income decreased from approximately RMB1,874,000 for the year ended 31 December 2019 to approximately RMB1,768,000 for the year ended 31 December 2020, representing a decrease of approximately 5.66% from the corresponding period in 2019. The decrease was mainly attributable to the decrease in interest income from other receivables during the year ended 31 December 2020.

Finance costs decreased from approximately RMB554,432,000 for the year ended 31 December 2019 to approximately RMB249,818,000 for the year ended 31 December 2020, representing a decrease of approximately 54.94% from the corresponding period in 2019. The decrease was mainly due to the decrease in default interest during the year ended 31 December 2020.

Income tax

Income tax increased from approximately RMB1,466,000 for the year ended 31 December 2019 to approximately RMB8,918,000 for the year ended 31 December 2020, representing an increase of approximately 508.32% from the corresponding period in 2019. The increase in income tax was mainly due to the increase in PRC enterprise income tax for the year ended 31 December 2020.

Loss for the year attributable to owners of the Company

The Group recorded a loss for the year attributable to owners of the Company of approximately RMB863,248,000 for the year ended 31 December 2020 as compared to a loss for the year attributable to owners of the Company of approximately RMB2,659,123,000 for the year ended 31 December 2019. The decrease in loss for the year attributable to owners of the Company were mainly due to the decrease in allowance for credit loss and finance costs.

The reason for the decrease in such area was discussed in the financial review section above.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity, financial resources and capital structure

As at 31 December 2020, the Group had unrestricted cash and cash equivalents of approximately RMB33,741,000 (2019: RMB18,462,000), restricted cash of approximately RMB132,215,000 (2019: RMB166,004,000) and borrowings of approximately RMB1,311,588,000 (2019: RMB1,378,181,000). The gearing ratio (calculated by dividing borrowings by total assets) as at 31 December 2020 was approximately 31.48% (2019: 33.21%). As at 31 December 2020, the Group had current assets of approximately RMB3,982,766,000 (2019: RMB3,734,080,000) and current liabilities of approximately RMB4,288,998,000 (2019: RMB3,533,832,000). The current ratio was approximately 0.93 as at 31 December 2020, as compared with the current ratio of approximately 1.06 as at 31 December 2019. The decrease of the current ratio was mainly attributable to the increase in trade and other payables.

The approach of the Board to manage liquidity is to ensure, as far as possible, that the Group will always have sufficient liquidity to meet its liabilities when due, without incurring unacceptable losses or risking damage to the Group's reputation.

Foreign exchange exposure

The Group's sales and purchases were mainly denominated in Renminbi. Therefore, the Group is not exposed to significant foreign currency exchange risks. The Group does not employ any financial instruments for hedging purposes. While the Board currently does not expect currency fluctuations to materially impact the Group's operations, the Board will review the foreign exchange exposure of the Group from time to time as appropriate.

Capital expenditure

During the year under review, the Group's total capital expenditure amounted to approximately RMB17,108,000 (2019: RMB164,662,000), which was mainly used for procurement for upgrading plant, machinery and equipment.

Capital commitment

As at 31 December 2020, the Group had no capital commitment (2019: nil).

Charge on material assets

As at 31 December 2020, assets of the Group amounting to approximately RMB110,508,000 (2019: RMB151,555,000) were pledged for the Group's borrowings and bills payable.

Contingent liabilities

As at 31 December 2020, the Group had no material contingent liabilities.

Going concern

The Group incurred a net loss of approximately RMB863,645,000 (2019: RMB2,661,072,000) for the year ended 31 December 2020 and, as of that date, the Group had net current liabilities of approximately RMB306,232,000 (2019: net current assets of RMB200,248,000) and net liabilities of approximately RMB142,921,000 (net assets of approximately RMB579,667,000). At 31 December 2020, the Group recorded current and non-current borrowings of approximately RMB1,290,965,000 (2019: RMB1,350,081,000) and RMB20,623,000 (2019: RMB28,100,000) respectively and cash and cash equivalents of approximately RMB33,741,000 (2019: RMB18,462,000). The total borrowings exceeded the cash and cash equivalents of approximately RMB1,277,847,000 (2019: RMB1,359,719,000).

These conditions indicate the existence of multiple material uncertainties which may cast significant doubt on the Group's ability to continue as a going concern and therefore, the Group may not be able to realize its assets and discharge its liabilities in the normal course of business.

In view of the circumstances, the Board has undertaken and/or is in the progress of implementing various measures (the "**Measures**") to improve the Group's liquidity position as set out in the below section headed "Remedial Measures To Address the Going Concern".

Up to the date of this announcement, the Measures have not been completed. Assuming the successful implementation of the Measures, a cash flow forecast of the Group was prepared for a period covered not less than twelve months from the date of approval of the audited consolidated financial statements (the "**Approval Date**") (the "**Cash Flow Forecast**"). With reference to the Cash Flow Forecast, the Board is of the opinion that the Group will have sufficient working capital to meet its financial obligation as and when they fall due in the next twelve months from the Approval Date. Accordingly, the audited consolidated financial statements have been prepared on a going concern basis.

Further discussions in relation to the going concern and the Company's proposed Measures on going concern are set out on pages 60 to 61 of this announcement.

Recoverability of the Hebei Noter Group Receivables

Included in other receivables disclosed in Note 10 to the audited consolidated statement of financial position are consideration receivable for disposal of Hebei Noter Group and amount due from Hebei Noter Group with carrying amounts, net of allowance for credit losses, of approximately RMB1,101,007,000 and RMB798,785,000 respectively as at 31 December 2020 and RMB1,101,202,000 and RMB795,785,000 respectively as at 31 December 2019, which were overdue for repayment as at 31 December 2020 and 2019 and remained unsettled as at the date of this announcement.

The Company reviewed the business portfolio of the Purchaser at the time of the disposal agreement. Based on its business portfolio, the Company assessed the Purchaser's credit status to ascertain that its financial position was sound enough to honour the payments. Upon defaulting the first instalment payment, the Company has been reviewing the business portfolio to assess the Purchaser's credit status. The aging situation of the inventory and receivables of the Purchaser's business portfolio is unavoidable due to the adverse economic situation caused by the Sino-US trade battle since 2018 and the pandemic outbreak of COVID-19 since the end of 2019.

According to the disposal agreement, the entire ownership of the disposal company is pledged to the Company after completion. There is no change in the ultimate beneficial owner of the Purchaser since disposal agreement on 3 June 2018. The Purchaser has been maintaining dialogue with the Company on its plan to pay the consideration. Both parties are actively working on solutions to resolve the problem. In view of the unexpected adverse economic situation as mentioned above, the businesses of both the Company and the Purchaser have been seriously affected. The Company is taking the view that working actively with the Purchaser to resolve the payment is more constructive than taking any claim on the Purchaser.

Since the Purchaser's failure to pay first instalment of the consideration on timely basis, the Company has been liaising with the Purchaser to recover the consideration as soon as possible. Also, the Company has been urging the Purchaser to provide additional valuable collaterals which can be liquidated in the market to generate cash for paying the consideration. The Purchaser provided certain quantity of commodity as additional collaterals (the "**Collaterals**"). It is being stored in an overseas warehouse. Based on the valuation report provided by the Purchaser, the market value of the assets far exceeds the amount due from the Purchaser to the Company.

Scope of limitation on inventories

Included in consolidated statement of financial position of the Group were inventories of approximately RMB289,117,000 as at 31 December 2020, and write down of inventories amounted to approximately RMB8,931,000 recognized in consolidated profit or loss for the year ended 31 December 2020.

The auditors were unable to observe the counting of physical inventories of these inventories at the end of the reporting period due to the lockdown measures imposed to combat COVID-19 and they were unable to satisfy themselves by alternative means concerning the existence of the inventory quantities of these inventories held at 31 December 2020.

Due to the lockdown measures imposed to combat COVID-19, the auditors did not commute from Hong Kong to China to perform physical stock take for the year ended 31 December 2020.

The Company performed physical stock take of physical inventories at the end of the reporting period to confirm the carrying amounts of inventories as at 31 December 2020 and write down of inventories amounted to RMB8,931,000, for the year ended 31 December 2020.

Scope limitation on trade and other payables and borrowings and related finance costs

Included in (1) trade and other payables in the consolidated statement of financial position of the Group were interest payables, corporate bonds and accruals and other payables with carrying amounts of approximately RMB854,714,000, RMB19,151,000 and RMB96,294,000 respectively as at 31 December 2020; (2) the borrowings in the consolidated statements of financial position were guaranteed loans, promissory notes and unsecured loan with carrying amounts of approximately RMB178,800,000, RMB1,078,732,000 and RMB50,000,000 respectively (the "**Borrowings**") as at 31 December 2020 and included in the consolidated statement of profit or loss of the Group was finance costs of approximately RMB249,818,000 for the year ended 31 December 2020. Further, included in the statement of financial position of the Company were borrowings and other payables and accruals with carrying amounts of approximately RMB1,128,732,000 and RMB1,083,765,000 respectively as at 31 December 2020.

The auditors were unable to satisfy themselves about (i) the completeness and recording accuracy of the promissory notes and unsecured loan included in the borrowings because the Group had defaulted in its payments with aggregate carrying amount of approximately RMB1,128,732,000; and (ii) the amount of finance costs reported for the year ended 31 December 2020 because supporting documentation to ascertain the accuracy and completeness of the interest calculations was not made available to them. Consequentially, they were unable to assess the completeness of interest payable included in trade and other payables of approximately RMB854,714,000 as at 31 December 2020 and the validity and recording accuracy of movements of the finance costs recorded in interest payables, including the finance costs recognised in consolidated profit or loss, during the year ended 31 December 2020; (iii) the validity and recording accuracy of the balance of the corporate bonds of approximately RMB19,151,000 as at 31 December 2020 as the Company failed to make payment in accordance with the relevant repayment schedule entered into; and (iv) they were unable to carry out effective confirmation procedures with the respective counter parties of the Borrowings and corporate bonds holders for the purposes of their audit as they have not received replies to their direct confirmation requests from these creditors with carrying amounts of RMB1,147,532,000 and RMB19,151,000 as at 31 December 2020.

Since the appointment of Liquidators on 5 January 2022 up to now, the Liquidators only received a few number of proof of debts submitted by a small number of creditors. The creditors may file their proof of debt after receiving the debt restructuring proposal being prepared by the attorney. Hence, the validity, completeness and recording accuracy of the carrying amount of the promissory notes, unsecured loan and corporate bonds can only be relied on our internal accounting records. Meanwhile, we took a reasonable approach in accruing the interest amount to minimize the risk of misstating the finance costs and interest payable.

The Company has been maintaining dialogue with the major creditors to ascertain the validity, completeness, recording accuracy and reasonableness of the carrying amount of the trade and other payables and borrowings and related finance costs in the books which the Company believes reflect a fair amount of our liabilities.

HUMAN RESOURCES

As at 31 December 2020, the Group had 3,067 employees (2019: 1,991 employees). The increase in the number of employees was mainly due to the increase in the production scale. The Group offers its employees competitive salary packages, as well as contribution to defined retirement plans.

The Group's employees are remunerated in line with the prevailing market terms and individual performance, with the remuneration package and policies reviewed on a regular basis.

Discretionary bonuses may be rewarded to employees after assessment of the performance of the Group and that of the individual employee.

The Group also operates a defined contribution Mandatory Provident Fund retirement benefits scheme for its employees in Hong Kong, and provides its PRC employees with welfare schemes as required by the applicable laws and regulations of the PRC.

The vanadium-titanium all-ceramic solar panels being developed by the Group has the advantages of environmental protection capability, safe and low production cost, durability and stable performance. Vanadium-titanium all-ceramic material is made from industrial waste. It possesses high strength and high-temperature resistance; non-corrosion corrode, non-colour fading or non-stains; and has high efficiency and high solar absorption ratio. At present, there are 28 patented technologies associated with its vanadium-titanium all-ceramic product line, enabling it to be a prime choice for materials in the new energy field.

Moreover, the vanadium-titanium all-ceramic technology has a wide range of applications, including: (1) providing clean and economically efficient agricultural greenhouse heating systems; (2) providing residential heating and district-scale central heating collection, as well as water heating supply system and (3) industrial use of generate electricity and desalinate brackish water in desert areas, as well as improvement in the ecology. New energy is a key industry supported by the PRC Government and has a promising future, especially the global restrictions on fossil fuels. There is sizable market space for both domestic and the Belt and Road Initiative countries. At present, the testing of the project products has been completed, and the production line is expected to be completed and commence production in the second half of 2020.
